VOL. 4, NO. 27. SOUTH FORT GEORGE, B. C., SATURDAY, MARCH 7, 1914. $3 PER ANNUM

RAILWAY EMPLOYEES AT PRINCE GEORGE WILL NUMBER TWO THOUSAND

CONSTRUCTION ON P.G.E. COMMENCES SHORTLY

Yards of P.G.E. Between George Street and the River---Building of Hotel to Commence in Three Weeks

Prince George will be a city before the close of the present year, such is the opinion Morley Donaldson, vice-president and general manager of the Grand Trunk, expressed to a Herald reporter on Thursday. Mr. Donaldson spent but the one day in this district and his time was occupied in inspecting the activities of his company in Prince George and making arrangements for the carrying out of the spring programme.

"Prince George will be the only divisional point on the Grand Trunk between McBride and Smithers," declared Mr. Donaldson, "and the work on the shops here will begin within the next thirty days. The roundhouse will contain twelve stalls, but is to be so constructed that it can at any time be enlarged to accommodate a maximum of thirty stalls.

"The Grand Trunk is to shortly begin the erection of a large number of houses on the townsite of Prince George for the benefit of its employees, as probably no fewer than 2000 men will be employed in the railway yards at this point. A temporary site and spur have been granted to the Imperial Oil Company, who, within the next ten days, will begin the erection of large buildings.

"The Pacific Great Eastern," continued Mr. Donaldson, "will make Prince George their headquarters for construction in Northern British Columbia and within the next sixty days active operations will begin. The line of right-of-way will meet the Fraser at a point opposite the B.X. office in South Fort George and follow the east bank to the Grand Trunk bridge, at which it will cross, and follow the Grand Trunk line into Prince George. The yards of the P. G. E. will be located between George street and the river."

Building operations on the Grand Trunk Hotel will begin within the next three weeks, and it will be located as intended on George street. A water tank is under construction in the west end of the railway yard, and already ten tracks, with a capacity of seventy-five cars each, have been laid. The company are now in a position to operate a first-class telegraph service at the Grand Trunk regular telegraph rate.

EXTEND SERVICE EAST ON G. T. P.

Trains To Be Operated Between Smithers and Wordsworth, 337 Miles From Prince Rupert

Extending its train service from the Prince Rupert end of its transcontinental line by thirty-six miles, the Grand Trand Trunk Pacific Railway has commenced to run regular trains from Smithers, 227 miles of the northern terminal and an important divisional point, to Wordsworth, 110 miles east.

At present trains are only being operated as far as Ross Lake, thirty-six miles east of Smithers. A mixed freight and passenger train will be operated on Thursdays and Sundays, leaving Smithers at 8:30 a.m.

The inauguration of the new service will lessen materially the gap between the two portions of line already in operation. The G.T.P. recently opened its line for traffic from the eastern end of construction as far as Prince George, 486 miles west of Edmonton and 474 miles from Prince Rupert. This will leave a 138-mile section yet to be linked up. Grading is well advanced on the entire stretch lying between the two completed portions and track-laying and bridge building is also proceeding.

Announcement was made by Morley Donaldson, vice-president and general manager of the G.T.P., that the northern sections of the new transcontinental route would be linked up by the beginning of next May.

VANCOUVER'S BUTTER

Vancouver, March 7.—The Marama arrived from New Zealand yesterday bringing sixteen thousand boxes of butter. Vancouver, next to London, takes most of the produce.

KING FAVORS CLEAN BOXING

London, March 7.--King George declares he will support all properly conducted boxing tournaments.

GIVES FURTHER AID TO RAILWAY

Legislation Provides for Additional Bond Guarantee of $10,000 per Mile for Canadian Northern Pacific

An act providing further aid in the construction of the Canadian Northern Pacific Railway was introduced by the Premier last week in the legislature.

Under the bill the Provincial Government agrees to guarantee the payment of the principal and interest of the necessary bonds and debentures to an amount not exceeding $10,000 per mile of the company's main line.

Under the original agreement, which was ratified by the Legislature in January, 1910, the Province agreed to guarantee the 500 miles from Vancouver to the Yellowhead Pass, at the eastern boundary of the Province, which constitutes the main line, to the extent of $35,000 per mile, and the proposed act increases this guarantee to $45,000 per mile.

The interest on the securities of the additional guarantee is fixed at 4 1-2 per cent. and the principal will mature in April, 1950.

A provision is included in the act which extends the time of completion of the several branch lines from July 1, 1914, to two years later. These lines include the branch from New Westminster to Steveston, the extension from Victoria to Patricia Bay, the line from New Westminster to Vancouver, the extension to Strathcona Park of the Vancouver Island line, and the Okanagan line.

Although the majority of these lines are well under construction it is understood that the extension of time has been asked owing to the delay in the negotiations with regard to the sale of the securities, which was deferred pending the passage of the act assented to last week.

HI GILL REPEATS

Special to the Herald.

Seattle, March 6.—Hi Gill is elected mayor of Seattle by a substantial majority.

STATION SITE DECISION MAY YET BE CHANGED

The following letter received this week from Hon. Martin Burrell, Minister of Agriculture and Dominion member for this district, is self-explanatory. The letter is illuminating to many owing to the fact that the Hammond-subsidized press had heralded broadcast the assertion that there was no possibility of reversal of the decision handed down by the Cabinet-in-Council. Mr. Burrell's letter follows:

Ottawa, 17th February, 1914.

Secretary South Fort George Conservative Association,

Dear Sir,—Your night letter of the 26th ult. and many other communications from your district in regard to the appeal of the Grand Trunk Pacific Railway Company in the matter of the location of the station were given full consideration.

Counsel for all sides concerned were heard at the meeting of the Cabinet and the decision was as expressed in the following extract from the Order-in-Council:

"AND WHEREAS it appears to the Minister of Justice that the questions involved are questions of fact depending for their solution upon the appreciation and weighing of contradictory evidence and the case in consequence is not one in which the Governor-in-Council is called upon or would be justified in exercising the power conferred upon him by Section 56 of the Railway Act.

"Therefore His Royal Highness the Governor-General in Council is unable to grant the prayer of the said petitions."

I may add that it was felt by the Government that if on on the facts there should be serious injustice it still leaves the Board of Railway Commissioners power to act under Section 29 of the Railway Act, to wit, viz: "the Board may refuse, rescind, change, alter or vary any order or decision made by it."

Believe me, yours very truly,
MARTIN BURRELL.

CONSERVATIVES HOLD ANNUAL MEETING

Election of Officers and Other Important Matters Was the Business of the Evening

The annual meeting of the South Fort Conservative Association, held Wednesday evening in Birch's Hall, was well attended considering that only a few hours' notice was given.

The chief business was the election of officers for the ensuing year. The retiring president and secretary would not consider re-election, it being their opinion that new blood should be instilled into the organization.

The election resulted in the following being elected: Honorary president, Hon. Sir Richard McBride; president, Neil Gething; vice-president, A. K. Bourchier; secretary, D. F. M. Perkins; executive, Messrs. W. F. Cooke, A. G. Hamilton, H. C. Merriam, P. Campbell, J. O. Williamson, A. J. S. Willson, N. Montgomery, W. C. Fowler, Captain Foster.

Messrs. Montgomery, Gething and Perkins made stirring speeches, reminding the members that organization and enrollment on the voters' list were the most necessary part of the association's work.

Mr. Gething paid a fitting tribute to the advantages that would accrue to this country through Premier McBride's progressive railway policy.

The association now has a membership of over a hundred, several applications being received and acted upon at Wednesday night's meeting.

The matter of a government wharf at the foot of Laselle avenue was discussed, considerable correspondence from the Dominion government being read with regard to the same. A committee was appointed to take the matter up with new vigor.

Another matter of importance before the association was the securing of government aid in building a road from the Nechaco river in the direction of Stuart Lake. Letters were read from Hon. Thomas Taylor and John A. Fraser, M.P.P., offering their enthusiastic support of the movement, and it is expected that an appropriation will be made at the present session of the legislature to get the road under way this year.

P. G. E. CONSTRUCTION TO BE RUSHED

Special to the Herald.

Vancouver, March 7.—Patrick Welch announced today that construction work is to be extended immediately along the entire route of the Pacific Great Eastern to Fort George. Work for three thousand more men will be provided. Five hundred of Vancouver's unemployed have been given work on the Squamish section.

"ON TO PEACE RIVER" IS GOVERNMENT SLOGAN

Vancouver, March 2.—The proposal to go "On to Peace River" with the Pacific Great Eastern is probably the most interesting and important of all the railway programme outlined, especially from Vancouver's own standpoint. It is understood that a new contract will be signed with Messrs. Foley, Welch & Stewart for approximately 330 miles of railway running northeast from Prince George, traversing the entire Peace River section, thru Pine River Pass to the eastern boundary of British Columbia. Hundreds of men will soon be released from construction work on the Grand Trunk Pacific. These it is proposed will be turned loose on the new line, on which work must start within three months of the date of passage of the act by the Legislature. The line is to be completed in two years.

This is the feature of the coming legislation that will be particularly interesting to Washington, D.C. It is well known that eventual connection with Alaska by a north-and-south railway meeting the Pacific Great Eastern is a favorite theme with Premier McBride, a dream he expects will come true and that comparatively soon. If this railway ever comes it would naturally branch off westward from the extended Pacific Great Eastern from a point about one hundred miles beyond Prince George, somewhere near the crossing of the Parsnip River. From there to Fairbanks is a matter of 1200 miles or so.

But in the meantime the "On-to-Peace-River" proposal is to be submitted simply as a business enterprise for the good farming country it will open and the trade it will bring to Vancouver. It is stated that the proposed route from Prince George will be almost due north for a distance of 140 miles, where the Rockies will be penetrated at Pine River, and from there, swinging northeastward, the line is to traverse the open country for a couple of hundred miles to the Alberta boundary. Early completion of the line is urged to be important that the trade route may be opened to Vancouver rather than be established by the McArthur line, now building from Edmonton. The country is described as mostly well-wooded and rolling, often giving place to bush-besprinkled prairie. Railway construction will naturally not be nearly as heavy as in southern British Columbia.

INDUSTRIAL ACTIVITY AT WILLOW RIVER

Three-Storey Hotel and Mammoth Sawmill Will Be Erected At Once—Workmen Now On The Ground

T. E. Haley, a well-known hotelman of Minnesota and Eastern Canada, arrived on Monday's train and is stopping with F. W. Crawford, B.C. manager of the Transcontinental Townsites Co. Mr. Haley brought with him the plans of a three-storey hotel to be erected at Willow River immediately. This hotel will have every modern convenience and equal to the best in the province.

Willow River promises to take a prominent place among the coming industrial cities on the G. T. P. Mr. Crawford reports the machinery for a 200,000-per-day sawmill is expected in Willow River any day, having been shipped from Vancouver and Chicago some time ago. Men are now on the ground waiting to erect the plant on its arrival, and the owners predict lumber will be coming from the mill by April 1st.

PERMISSION GRANTED FOR NEW CHURCH

Synod Will Also Recommend Establishment of New Presbytery for Cariboo

New Westminster, March 6.—Rev. C. M. Wright, of Fort George, has been granted permission by the Synod to raise a $6,000 loan for the building of a new church.

The Synod will also ask the Assembly to establish a new Presbytery to include the Fort George district, Fort Fraser and the Cariboo.

GOOD FOR B. C.

Special to the Herald.

Vancouver, March 6.—Robert E. Mansfield, United States consul-general here, stated that exports from British Columbia to the United States have doubled since the new tariff revisions were brought in last autumn. The greatest gains have been in lumber, shingles, wood pulp, fish, ore and bullion.

EDMONTON SHOULD SUPPLY MARKET

Edmonton, March 3.—"If Edmonton is going to supply Prince George with her products, the time to establish a market is right now." Such was the opinion expressed by J. B. Griffith, secretary of the Edmonton Portland Cement, who has just returned to Edmonton after visiting the young city on behalf of the company he represents.

Mr. Griffith believes that if Edmonton acquires a foothold now with Prince George business men, the gain of transportation facilities will not help either Vancouver or Prince Rupert merchants to divert trade from this city. "But the foothold has to be established," said Mr. Griffith, "and as soon as the Edmonton commercial men realize this fact the better it will be for them."

WHOLESALERS PLAN ESTABLISHMENTS HERE

Local Business Man Predicts Big Influx of People Within the Next Few Months

Mr. Ruggles, of the firm of Ruggles & Winter, returned last week from a business trip to Winnipeg, Calgary and other prairie cities, and reports great optimism on the outside regarding the future of Prince George. He states that there are thousands of people coming here within the next few months.

Mr. Ruggles interviewed the heads of a number of large wholesale firms who are planning to establish branch houses here. Among these are a brewery, wholesale grocery and flour mill.

MAY DELAY HOME RULE

Special to the Herald.

Dublin, March 6.—Home Rule may be delayed until after the general election, is a report from London, which adds that the King has expressed a wish for an election on the question.

LEGISLATURE ADJOURNS

Special to the Herald.

Victoria, March 6.—The Provincial Legislature prorogued last Wednesday after passing ninety-three bills.

A PLAIN STATEMENT.

The Herald this week reverts to its original day of publication (Saturday), believing it to be in the best interests of both advertisers and readers. This paper owes no allegiance to any coterie of townsite promoters, nor is it part of a bi-weekly publication scheme, which is the impression certain parties have sought to create. The Herald stands for the best interests of the bustling and thriving metropolis of South Fort George, where ninety-five per cent. of the business of the Fort George district is transacted. Neither does it owe allegiance to a lot-peddling boss to whom the name of "Prince George" is anathema, or as a red flag to a bull.

The Herald and the people of South Fort George await with full confidence the near-future date when this town and Prince George will become one. Today our interests are identical, and the best feeling prevails between the interests of the railway townsite and the pioneer town.

RAILWAY TO PEACE RIVER.

Those who have been familiar with the attitude of The Colonist towards railway development in British Columbia will not need to be told that it has for years urged, time and again, that there should be railway connection between the Coast cities and the Peace River country at the earliest possible day. We think we can claim to have been the pioneers in that field of agitation. We realized years ago that unless something was done in that direction the business to be developed in the northeastern part of the Province would be diverted to Edmonton and the East, and would be lost to British Columbia cities. The difficulty has always been that no one seemed willing to undertake such an enterprise, and no government seemed ready to offer any aid to do it. Therefore, when we express very hearty approval of the action of the government in asking the House to assist the extension of the Pacific Great Eastern to the great northern land of promise, we are only welcoming the coming of an event to which we have long looked forward and to the accomplishment of which we have given every assistance in our power.

The legislation introduced, providing for an extension of the Pacific Great Eastern to the Peace River country, is an indication of the rapidity with which that company has already advanced in constructing the line from its Pacific Coast terminal to Fort George. It is very certain now that the Pacific Coast is going to reap the first benefits which will follow the opening up of that vast hinterland which lies in the Northeastern part of the Province and extends into Alberta. The resources of the Peace River country, as yet untouched, are too well known to need recapitulation. During the past few years there has been a steady trend of settlement in that direction, but the actual opening up of the area awaits the provision of transportation facilities. The first of these that will be available is the project which had its origin in this province. The Pacific Great Eastern has gone ahead with its work in a manner which, for celerity and excellent construction, forms an example which older companies might well emulate. Those who projected the road are men highly versed in railway building, men of optimism, whose keenness to share in the future development of British Columbia is shown by their faith in building into a territory which is as yet practically uninhabited. The enterprise they have shown will mean much for the future of the entire province. In the benefits that will accrue we on the Coast expect to share largely.

For years past the attention of the people of Alberta has been directed towards this vast, undeveloped tract of country, the potential riches and virgin possibilities of which have led to its being christened "The last great West." Railways have been projected there from the Alberta side, but before such transportation will be available as will bring the products of the Peace River into the Prairie markets, British Columbia will be in a position to offer an outlet for these through Pacific Coast ports. She will be first in this new field for settlement and trade, thanks to the initiative shown by the Pacific Great Eastern, coupled with the encouragement given to that company by the Provincial legislature, which has made such initiative possible. The policy which has led to the construction of this road, which has meant that it is being built as rapidly as is humanly possible, is one which will be a source of pride to British Columbians in the years to come.—Victoria Colonist.

Hazelton Herald.—The daily press in the province have announced that the government would sell its lots in Fort George in May and that it was expected that $2,000,000 would be taken from the people. If the government would sell its lots in some of the other numerous townsites the ordinary man might get a chance to secure a home site. A sale of government lots in New Hazelton would be welcomed at this time. A sale in several more townsites, not far from here, and also some distance from here, would establish a large number of small farms and some fish or duck ponds. As things are now thousands of useless. The government needs money and the public wants the land. A better time to break away from class legislation and do something for the people could not be wished for, and it would be generally appreciated as well as beneficial to the province.

President Wilson of the United States has come to be regarded as a smasher of precedents. The latest reform he is urging is the repeal of the provision of the Panama Canal act exempting American coastwise vessels from payment of canal tolls. That clause was dictated by a provincial prejudice falsely called "patriotism," but President Wilson represents a higher type of patriot, a more broad-minded variety, and the United States will be a great country indeed when there are more like him.

HENRY ANTHONY THERBERG.
Aug. 30, 1913. Garfield Smith, Agent.

With the approach of the good old summer time has brought to our city a multitude of people congregated from the four corners of the earth, a sample of which can be seen any afternoon on Hamilton Avenue, which presents a swimming sea of mingled faces articulating every language, dialect and gibberage in the human vocabulary, and representing mostly every type of the human race, from the smart city bnsiness man to the degenerated hobo, whose sole means of existence is to prey upon the hospitalities of the hardworking and honest laborer while exhilarated from the effects of his holiday indulgence.

And while we can boast of the greatest variation of the human character, yet to the close observer there is a common trait which is a peculiar characteristic of the pioneer element that unconsciously sends them in advance and which is characterised by an instinctive business acumen, and demonstaated in this case from the fact that ninety per cent. of them end up by purchasing their goods at Kennedy-Blair's store, where we have the greatest sale on ever put forth in Central B.C. And when it comes to prices we have established a precedent almost astonishing.

Space will not allow us to quote prices, but here are some of them.

BENJAMIN GREGORY
Aerated Water Manufacturer
SPECIALTIES:
Dry Ginger Ale & Fruit Wines

Victoria, Feb. 16.—(Special.)—The Timber Royalties Act, just introduced in the legislature by Hon. W. R. Ross, settles the long mooted question of the readjustment of royalties on timber for the next five years and lays out a plan for readjustment at the close of every five year period to cover all future payments to the close of the year 1954.

The chief change in the fixing and collecting of royalties provided for in the act is that the system of long measurement will be uniform all over the province, and after the end of the first five year period, which expires December 331, 1919, all future increases of royalties shall be arrived at on a calculation of the wholesale selling price of lumber during the five years just ended.

A yearly record of all lumber sales is to be kept and the average wholesale price arrived at for the whole province. A stated price of $18 per thousand feet is exempted as being the price allowed for the cost of production and profit, and the additional royalty will be calculated on the increase in the wholesale price of lumber above the $18 mark.

In the five years from 1920 the government will increase the royalties by 25 per cent. of the increase above $18 per thousand feet in the five year period ended. In the five years from 1925 the royalty will be increased 30 per cent. of the increase above $18 per thousand feet in the previous five years.

For a starting point in this system of fixing timber royalties the government will, on January 1, 1915, fix the royalties for the first five years at 85 cents per thousand feet on all lumber cut on crown lands 50 cents per thousand feet on all west of the Cascade mountains, and timber cut east of the Cascades, with certain exemptions.

WILD ANIMALS ARE ON THE INCREASE

Reports from various parts of the province agree that cougar are increasing. Not only cougar, but in lesser degree, coyotes, lynx and owls are also declared to be increasing. The uniformity of the reports makes it appear certain that they are all well founded. The increase in the number of cougar is attributed by the game officers to the increase of deer, as a result of the application of the game laws, and the care of the animals during the close season. Similarly the increase in coyotes, lynx and owls is attributed to the increase in rabbits. It is claimed that the economic interpretation of history extends to the animal kingdom, and that there is a very close connection between the plentifulness of food and the rapid increase of the various animals. Cougar, like all animal of the cat tribe, are prolific animals, but in times and places where deer are scarce, it is said that a litter of cougar cubs will often all die while the mother is away seeking a deer to feed herself and her young. When deer are plentiful the female cougar usually manages to rear all her young. The same law of nature applies to the coyotes, lynx and owls, who depend largely upon rabbits for their food supply.

THE BOXING CONTEST

The boxing contest staged in the theatre last Thursday evening drew a fair-sized audience who paid a long price for the poorest entertainment ever witnessed in these parts. Fighting McKay and One-round Holbrook were billed to go ten rounds in the feature event, but the one-round gentleman evidently did not care to prolong the contest any further than the third period, so laid himself gently down on the linoleum while the referee counted ten, though he outweighed his opponent, McKay, by perhaps 25 pounds. It was a plain case of lay-down as there was not a blow struck with sufficient force to upset a five-year-old boy.

When promoters realize that such palpable fakes as that of Thursday night are sounding the death knell of the boxing game perhaps they will summon enough sporting spirit to denounce the participants from the ringside and return the public their money. One thing is certain, however, they will never again have the chance here to repeat the stuff to Thursday night's audience.

In the preliminary go between Scotty Fraser and Al. Smith there was considerable action, though neither possessed sufficient skill to land a damaging blow. The referee gave Fraser the decision.

Purchasing the Fairview farm, a fine tract of land located on Tyee lake, within a few miles of Smithers, the provincial government is preparing to establish an experimental agricultural station and weather bureau. The land is admirably suited to its purpose and is some of the most fertile in the district. George Driver, who owned the property, has grown as much as 100 bushels to the acre on it.

following described lands:

Commencing at a post planted on the N.E. bank of the Finlay river, about 9 miles upstream from Fort Graham, marked J. K.'s N.W. corner, thence east 80 chains, thence south 80 chains, thence west 40 chains more or less to the river, thence following the course of the river to point of commencement, containing 480 acres, more or less.

Club Cafe

THIRD AVENUE
SOUTH FORT GEORGE

F. C. WILSON . prop.

I want the public to become familiar with a few of the features of my establishment. It is the largest restaurant in Northern B. C., has private dining rooms, is fitted throughout with the most modern arrangements and appliances, assuring sanitary food, quick service and absolute satisfaction. The building is equipped with steam heat and sanitary plumbing.

I have been fortunate in securing the services of chefs and bakers unequalled in Canada for knowledge and experience in the culinary arts.

Last, but not least, I want to express my appreciation for the large patronage in the past.

F. C. WILSON.

In this space will appear weekly announcements of new specialties in the culinary department.

Railway Men ... sion in New North Country of the Pacific Slope

Edmonton, Feb. 28.—W. P. Hinton, general passenger agent of the Grand Trunk Pacific; A. E. Rosevear, general freight agent; S. T. St. John, manager of the Transcontinental Townsite company, and George Hartford, of the Inter-Ocean, Chicago, are at the King Edward hotel, having returned from Prince George and Willow River, B. C.

Mr. St. John and Mr. Hartford were looking over the country traversed by the new line, particularly Willow River, which townsite was sold by Mr. St. John's company last year. Willow River is a railway townsite at the junction of three rivers, the Fraser, Willow and the Salmon, about 20 miles northwest of Prince George, and the centre of a district rich in natural resources On the Willow River it is estimated there is enough potential electric energy to supply several cities, while 12 miles away from the town are vast beds of coal of good quality, also other minerals, the district having been for years the centre of placer gold mining. On the Willow River alone there is 9,000,000,000 feet of timber, according to government estimates, of size and quality equalled only by the giant trees of the coast. The whole district has splendid soil and climate.

Beneficial Effects

Willow River has already begun to feel the effects of such varied resources. All the lots in the centre of the townsite were sold to buyers all over Canada and the United States a few weeks after they were offered, and Mr. St. John had to buy back from one purchased and pay $100 profit recently in order to secure a suitable lot for his own office.

Mr. Hartford, who has been with the Chicago Inter-Ocean for the past 17 years, is going to the Windy City to settle his affairs and will come back early in the spring with two newspaper plants, one for Willow River and the other for Stuart River, another townsite which the company will soon put on the market. He says that Willow River has more resources and a location far better than any city of 100,000 population in the

There have been thousands of people," he said, "in and around Chicago, who have been waiting to come to Canada until the G. T. P. was finished to central British Columbia. The crops you had in Canada last season and the weather this winter have obliterated what doubt existed in their minds and you will see an unprecedented influx into the country this spring. The Transcontinental Townsite company, the G. T. P. and others have done some effective advertising among the well-to-do people in the middle west. I heard so much about it that the paper sent me up here, but I am going to come up on my own hook in a couple of weeks and settle in Willow River.

Bruce O'Dell, of Cadillac, Mich., a well known lumberman, and Mr. Paul Tietgen, of the Chicago board of trade, are also with the party, and about to establish and operate at Willow River for a Michigan concern one of the largest and most modern sawmills in the world. It will cut 1000,000 feet per 10-hour day, or 200,000 feet daily in two shifts. A. C. Frost, the man who built the Chicago and Milwaukee interurban electric railway, is also putting in a large mill for some Vancouver capitalists, while T. E. Healy, of Crosby, Minnesota, is about to build a fine modern hotel, which it is claimed will be finest between Edmonton and the coast.

"There will be a city at Willow River about next June," said Mr. St. John today. "The sawmill will itself employ 300 men. It should be the biggest lumbering centre in British Columbia outside of Vancouver. Mr. Healy is arranging today for the construction of his hotel. Asked as to what towns he thought would grow into large centres in central B. C., Mr. St. John stated that there would be about half a dozen, Willow River, Prince George, Stuart River, Smithers and Prince Rupert, and possibly Fort Fraser, Fraser Lake and Hazelton.

Mr. Hinton believes that the new G. T. P. line through the mountains will become one of the most popular in America for tourists, especially during the San Francisco exposition next year.

F. W. Crawford, B. C. manager of the G. T. P. Townsites, has just received blue prints of the first of two modern, up-to-date hotels to be erected and has word that Mr. Healy the proprietor, will be in within a month to superintend the erection.

Mr. Crawford reports word from the department of public works of appropriations for roads to be opened up in the district east of the Fraser and in the Willow River section, which will add greatly to the settlement and prosperity of that section. Mr. Crawford says that without doubt central British Columbia is due for rapid development all

statement of Sir Richard McBride not long since, that British Columbia can stand on its own feet. Such movements are the forerunner of the time when the people of this district will dig their own prosperity out of the soil—the forests and the mines, when land values already made will be justified and city and suburban property will duplicate the advances made in other provinces and eastern cities. Without doubt as has been said—British Columbia surpasses all the Canadian provinces in natural resources and will outshine all other provinces notwithstanding their early start.

Contractors and Builders
SOUTH FORT GEORGE

Four Thousand Men Now Being Employed, Says Prominent Engineer—Finished Next Year.

Victoria, Feb. 28.—That the Pacific Great Eastern railway have now four thousand men at work on the line is the statement made by J. Callagham a prominent engineer connected with the construction of the line from Vancouver to Fort George. He came into town yesterday to join Mr. Stewart of the well-known partners, but the latter left yesterday for the scene of operations.

"The line is now about 200 miles from Vancouver," said Mr. Callagham "and of course work is proceeding along all that length, at work on grading. We are under contract to finish the line by August, 1915, and by every indication at the present time there appears to be nothing in the way of that being fulfilled. Of course there are many rough spots in the work and difficulties are always cropping up.

"The right-of-way between Clinton and Vancouver has been particularly strenuous work, with tunneling and blasting to be done nearly all the time. The road along some of the lakes and at Howe Sound is also very hard work. No, we are having no labor trouble at all along the line. There has been no strike on the Pacific Great Eastern since we started, nor do I think there will be any.

"I personally think Squamish is an excellent name for terminus, in that it preserves the history and traditions of of the place so excellently. The old name of Newport would likely have died out as many new names do, but 'Squamish' is so intimately connected with the history of the whole district, with its first inhabitants, and even the waters that flow near it, that the name will be perpetuated to the advantage not only of the town, but the people who live here.

GAIN LITTLE HEADWAY

Women's Political Equality League Lobbying at Victoria

Victoria, Feb. 7.—Members of the Women's Political Equality League have been lobbying daily at the house for the past week in favor of a measure granting the vote to women in British Columbia. So far they have gained little headway, nearly all the members deciding to follow the lead of the provincial executive, which declared through Premier McBride that the government would certainly not introduce a suffrage bill this session. J. O. Place, Socialist member for Nanaimo, proposes a vote-for-women bill, and the league members are urging support for it, or failing that, support for a similar bill to be introduced by one of the Conservative members. Corry Wood, member of Alberni, has espoused the cause of the league members and proposes to address them on the subject in the near future. A. H. B. Macgowan (Vancouver) has refused support because the women would not rally to his help when he brought in a dower bill last session.

CARING FOR TEETH OF SCHOOL CHILDREN

Edmonton, Alta., Feb. 19.—Pupils of the public schools of Edmonton will have dental work done at the expense of the municipality in the future. The board of education has accepted an offer of the services of 25 members of the Edmonton Dental association, a half day every month without charge. The board will furnished, also provide rooms in one of the hospitals or schools. S. A. Gordon Barnes, a member of the school board, announced today that the dental department will be in operation before the close of this month. The enrollment in the public schools of Edmonton is more than 10,000. Every child's teeth will be examined. The work will be done by experienced practitioners, each patient receiving the same attention that is required in regular practice. The plan is to install a complete dental ward.

A Girl Desperado

Paris, France. — Extraordinary stories are told of the character and exploits of a girl desperado, the leader of a gang of international thieves who are in prison in France.

At one time she kept a small bar in London where she told fortunes, and at the same time was the ringleader of a band of thieves. Later, when she was obliged to leave London she was heard of at Paris and in the provincial towns where the gang committed jewel robberies.

Finally the girl was arrested and while in prison she set to work to batter her face against the cell walls to change her appearance. She smashed her teeth, distorted her mouth, and damaged herself so severely that she almost made herself unrecognisable. The band will shortly be placed on trial.

out for a day's shooting on a hill near the parish of Nant, cleared away a heap of rubbish and small rocks so as to get at a rabbit which had taken shelter at the back of them, discovered a vast cavern containing some magnificent stalactites and leaning against the wall 35 petrified skeletons of human beings. Archeologists believe these to be the remains of warriors in the olden days who took refuge in the cave and were then walled in by their enemies.

WATER NOTICE.

APPLICATION for a Licence to take and use Water will be made under the "Water Act" of British Columbia, as follows:—1. The name of the applicant is Henry Chapple Brewer. 2. The address of the applicant is Engineering Dept. G.T.P. Rly., via Edmonton, 3. The name of the stream is Ptarmigan Creek. The stream has its source in south side, South Fork Fraser River, flows in a northerly direction, and empties into South Fork Fraser River about two miles above Clearwater River. 4. The water is to be diverted from the stream on the east side, about 2 1-2 miles above mouth in straight line, and about 2000 feet below south boundary of Lot 5954. 5. The purpose for which the water will be used is industrial purposes. 6. The land on which the water is to be used is described as Lot 5964. 7. The quantity of water applied for is 200 cubic feet per second. 8. This notice was posted on the ground on the 6th day ot February, 1914. 9. A copy of this notice and an application pursuant thereto and to the requirements of the "Water Act" will be filed in the office of the Water Recorder at Fort George. Objections may be filed with the said Water Recorder, or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

WILLOW RIVER

British Columbia

The Grand Trunk Pacific Railway Company are now disposing of the remaining portion of their lots in the new town of Willow River at the confluence of the Fraser, Salmon and Willow rivers. By those who are in close touch of the true conditions, this new town is considered to be one of future importance in Central British Columbia.

In investing in Willow River property be sure that your property comes to you direct from the Grand Trunk Pacific Railway Company—make no mistake in this. There is only one official and original Grand Trunk Pacific Railway town of Willow River at the confluence of the Fraser, Salmon and Willow rivers. It is located on Lot 785. Station site was approved by Board of Railway Commissioners under date of March 26th, 1912, Order No. 16179. We have no interest in outside subdivisions. For authentic Grand Trunk Pacific Railway maps of Willow River and detailed information call on

business trip to Winnipeg.

Six carloads of lumber arrived by G. T.P. last week.

Mr. and Mrs. Randall have taken up residence in the Peden cottage on Fourth street south.

John Strongburgh, representing the Marshall-Wells Co., is in town this week and registered at the Empress.

T. O. Hawthorne, of Prince George, arrived this week from Peterborough, Ont., where he spent the winter.

The private car of Messrs. Siems & Carey, contractors, was attached to Wednesday's incoming passenger train.

The Dreamland Theatre has been thoroughly modernized by the installation of 250 up-to-date opera chairs.

Two carloads of safes from the J. & J. Taylor Company, of Toronto arrived, here this week consigned to local merchants.

T. G. Wynn, provincial police inspector, was in town during the early part of the week. He reports everything satisfactory in local police affairs.

A messenger service has been inaugurated by S. Borland. He will take care of telegraph messages and all other messenger work.

There will be no service in the Presbyterian church tomorrow morning, Rev. Mr Justice taking the service in Central in Mr. Wright's absence.

Ernie Ferguson, an old-timer and former postmaster of South Fort George, arrived this week from Prince Rupert, coming to within 36 miles of Fort Fraser by train.

Locating Engineer Gunne, of the Pacific Great Eastern, is spending a few days in town. He is a guest at the Empress. Mr. Gunne is one of the best known railway engineers in Western Canada.

The Forestry Department moved their offices to the Close & Brown block this week, where they will have more accommodation for the ever-increasing business of this department of the Government.

Owing to the death of Mrs. Swenerton the concert and dance announced for last evening in Fort George has been postponed until next Thursday evening. The proceeds are in aid of the hose boat.

Instead of a masquerade ball, as announced for the night of March 17th, the committee in charge state that a regular dance will be held with supper served at midnight. Special music has been secured and a most enjoyable time is promised.

Jermyn & Bowles have built an additional 500 feet to their store and are moving into the east half where they will continue their gents' furnishings business. In the north half of the building a first-class cafe is being opened under the management of Edmonton parties.

Russell Walker, local manager for the North Coast Land Co., states that his firm intends putting up a new building early this spring. The location has has not been decided on yet. Mr. Walker has passed the winter at Milne's Landing and is very enthusiastic about that section of country.

Hale and hearty from his visit to the Land o' Cakes, Mr. John Munro, local manager of the Bank of British North America, is delighted to be back again in the metropolis of new B. C. Mr. Reynolds, who has been relieving in Mr. Munro's absence, left Tuesday for Hamilton, Ont., to take an appointment with the Bank there.

The Fire Department have completed negotiations for the purchase of another chemical engine which is expected to arrive here about the first of May. In addition to this a horse is being purchased to transport the big chemical. A cheque for $90 was handed Fire Chief Campbell this week as an appreciation of the brigade's services in the recent fire in the Bon Ton bowling alley. The donator was Mr. Joe Jorgenson.

Among this week's arrivals after a holiday East was Mr. M. G. Brown, manager of the local electric light and power company. Mr. Brown spent some weeks at his home in New York, also visiting several other eastern cities. Asked as to whether he had any announcement to make regarding contemplated extensions of his company's operations here, Mr. Brown intimated that in the course of a few days he would probably have something to make public that would be of considerable interest to all in the district.

STABBING AFFRAY.

A rather serious stabbing affray occurred Wednesday evening at a foreign rooming house on the corner of Fourth and Hamilton. The victim was an Austrian laborer, who received seven or eight severe cuts on the face and neck. His assailants, four in number, were arrested next morning by Constable Higginbotham as they were boarding the eastbound train. A loaded revolver and a pair of brass knuckles were found on one of the quartette.

They appeared before Magistrate Herne and were remanded for a week or until the victim of the affray is in a condition to tell his story.

Mr. C. A. Gaskill, manager of the Fort George & Alberta Telephone & Electric Co., Ltd., which owns and operates the telephone system in this district as well as the Blackwater telegraph line, has announced that his company will offer to their customers a new issue of their capital stock, comprising 100 shares at the par value of $100 each.

The proceeds from the sale of this issue are to be used for installing a telephone system in Prince George, also the extension of the Eagle Lake line to Giscombe Portage, and the extending of the Chief Lake line.

The company is capitalized at $250,000 divided into 2500 shares of $100 each, 362 shares of which are paid up.

The officers are: H. A. Carney, President; A. Carney (Kaslo), Vice-president; C. A. Gaskill, Secretary-Treasurer and Manager.

The company was formed in 1910 and has each year, since its inception, earned a net amount equal to 30 per cent on its paid-up capital.

The terms at which these 100 shares at par value of $100 each are offered are as follows:

25 per cent with the application.

25 per cent two months after date of application.

25 per cent four months after date of application.

25 per cent six months after date of application.

Messrs. Bain & Wilson, Ltd., South Fort George, have been appointed exclusive agents for the sale of this issue, and full particulars will be furnished to intending investors on application to them, or on application to Mr. C. A. Gaskill, manager.

WORST VOYAGE FOR YEARS

John Bronger, of the local contracting firm of Bronger & Flynn, arrived back last Monday from a three-months' vacation at his old home in Holland. He is agreeably surprised at the progress this town has made since he left. South Fort George, he says, appears to be the only live town on the line.

It will be some time before John forgets his trip across the pond on the Cunarder "Campania." Mountainous seas were encountered all the way across, said by many to be the worst storm in years. They were four days overdue when they reached New York.

NEW LOAN COMPANY

The Northern Interior Building and Loan Co., Ltd., have started operations on their new three-storey building on Morley street, Prince George. The building, when finished, will be one of the most complete on the new townsite. Bronger & Flynn, of South Fort George, are the contractors.

The authorized capital of the new company is $100,000 in $10 shares. $11,500 has already been subscribed by the directors; $20,000 dollars worth of stock is being offered to local people.

The officers of the company are: Geo. E. McLoughlin, president; J. R. Campbell, vice-president; Gordon Bain, secretary; directors, Jno. Flynn, Robt. McCaffery, J. W. Wilson.

MARTIAL LAW DECLARED

Special to the Herald.

Buenos Aires, March 6.—Rio Janeiro is in a state of siege and martial law has been declared.

SEEK RESTRICTION OF NEW TOWNSITE

At the regular monthly meeting of the Quesnel Board of Trade last week the secretary read correspondence from the following:—Hon. Minister of Lands, Hon. the Premier, J. A. Fraser and M. Callanan, acknowledging receipt of the Board's recent resolution regarding the restricting of townsites. The former stated that any legislation in that direction would constitute an abridgement of the existing rights of Crown grantees, which could only be secured through amending the Statutes, and he advised the Board to take up the matter with the Attorney-General.

The Premier, in his reply, said the matter would be duly considered. Mr. Fraser's reply merely acknowledged receipt of the reply, while Mr. Callanan stated he entirely agreed with the purpose of the resolution and would do all he could to have the wishes of the Board complied with.

After a somewhat lengthy discussion a motion was passed instructing the secretary to write to the Attorney-General regarding the same, enclosing a copy of the letter sent by the Hon. Minister of Lands.

ton, of Fort George, after an illness lasting only a few days. Everything possible that medical skill could devise was done for the stricken lady. Dr. Allen, an Edmonton specialist, was summoned and arrived on a special train. With him were Rev. Mr. Stewart and wife, of Edmonton, brother-in-law and sister of deceased, but death ensued within an hour of their arrival. An operation might possibly have saved her life had she possessed sufficient strength to stand the ordeal, but the rapid advance of the malady sapped her frail strength and towards the last all hope was abandoned.

The death of Mrs. Swenerton leaves a void in the district that will long be felt. Of a cheery and optimistic nature, she had won many warm friends in the district during her residence here of more than a year.

Besides her husband, Dr. Swenerton, there is left a baby girl of ten months.

Rev. Mr. Justice conducted the funeral service last evening in the First Presbyterian Church. The pallbearers were members of the medical profession, Doctors Richardson, McSorley, Lazier, Ewart, Allen and Blakeslee.

The remains were sent on this morning's train to the home of deceased's parents at Carberry, Man.

The sympathy of all the people of this district go out to Dr. Swenerton and the stricken relatives in this sad hour of bereavement.

LABOR COMMISSION MAKES REPORT

Special to the Herald.

Ottawa, March 7.—The Labor Commission's report tabled yesterday recommends compulsory insurance against accidents to workmen and favors fortnightly pay. The minimum wage is not approved. Time checks should be negotiable. Legislation on the commission's report will be brought down at the next session.

PROTECT BRITISH INTERESTS

Special to the Herald.

Washington, March 6.—President Wilson has appealed to congress to uphold American national honor by acceding to Great Britain's protests on tolls for the Panama canal.

Washington, March 7.—President Wilson's appeal to Congress to repeal the Panama bill in favor of British ships was favorably reported by the commerce committee today.

EXECUTION POSTPONED

Vancouver, March 7.—Clarke and Davis, the murderers of Constable Archibald, who were to suffer the extreme penalty today, have had their execution postponed to March 20th by the minister of justice.

TIMBER SALE X 50.

SEALED TENDERS will be received by the Minister of Lands not later than noon on the 25th day of April, 1914, for the purchase of License X 50, to cut 32,975,000 feet of Douglas Fir, spruce and Balsam Fir from an area lying immediately west of Lot 3070, Cariboo District, in the vicinity of Otter Lake.

Three years will be allowed for the removal of the timber.

Further particulars of the Chief Forester, Victoria, B.C., or from the District Forester, South Fort George, B.C. ap25

TRY US OUT; WE NEVER CLOSE

Fort George, in the Province of British Columbia, (deceased).

NOTICE is hereby given that all persons having any claims or demands against the late George Pickering, who died on or about the fourteenth (14th) day of April, 1913, at Fort George, in the Province of British Columbia, are required to send by post prepaid or to deliver to the undersigned E. J. Avison, of Quesnel, B.C., Solicitor for Clara Pickering, administratrix of the estate of the said George Pickering, their names and addresses and full particulars in writing of their claims and statements of their accounts and the nature of their security (if any) held by them, verified by statutory declaration.

And take notice that after the first (1st) day of April, 1914, the said Clara Pickering will proceed to distribute the assets of the said deceased among the persons entitled thereto, having regard only to the claims of which she shall then have had notice, and that she will not be liable for the said assets or any part thereof to any persons of whose claims she shall not then have received notice.

Dated at Quesnel, B.C., this 7th day of February, A.D. 1914.

ED. J. AVISON,
Quesnel, B.C.
Solicitor for Clara Pickering,
mar25,5 Executrix.
