One hundred millions will be expended by the G. T. P. through inland B. C. Fort George is the key

FORT GEORGE HERALD

An investment in the district is the most profitable one in the world. It is sure, steady and remunerative

VOLUME 1, NO. 49 | SOUTH FORT GEORGE, B.C., JULY 15, 1911 | $3 DOLLARS PER ANNUM

DOMINION DAY IN SOUTH FORT GEORGE—By H. Savage and K. Myers

Two recent Firsts of July in the newly opened up parts of Canada have been heralded by the red tongues of fire, that ever present danger to the sturdy hearts who face the frontier in dwellings of wood and paper. Two years ago occurred the Cobalt fire which destroyed half the town; this year the burning of the Hotel Northern at South Fort George constituted an event almost proportionately as detrimental to the little community settled 100 miles north of Quesnel, and 300 miles away from any railway.

Dawn, which here comes soon after 2 a. m. found the male population of South Fort George, some 300 strong, salving what it could from this, the only licensed house in the district, and holding the flames from further prey in hastily ordered bucket brigades. The financial loss was estimated at $30,000, a large sum for a small population.

It was characteristic of the spirit which is building up the west and the new lands of the north, that before the last wall had been licked up, plans were being formulated for its rebuilding. Characteristic also was the way in which all temporarily forgot their loss, and putting on cheery faces, proceeded with the celebration of Dominion Day.

Here by the still smouldering ruins is a tall husky greybeard, who, in his capacity of starter, strides up and down jangling a discordant cow-bell. It is the first heat of the cowboy race; three Indians from the reservation half a mile upstream, and one white rider have entered. See! they're away —the buckskin gains, more yet, and leads as the four are swallowed up in the crowd, which throngs the winning post some distance up the street.

We go there too. One longs for the pencil of a Phil May to depict the types, which form that good-humored gathering. Moccassined Indians with hatchet faces, their brightly attired women-folk gathered apart, bronzed lumber jacks, square and chunkey or tall and limber, sturdy pre-emptors, prospectors and surveyors, miners and storekeepers, in fact the whole race of frontier folk, the men of the river, the woods and the land. There is the factor of the "company", so many of whose posts are now the thriving cities of Canada, here are the bank managers, and in and out dart the little boys gleefully letting off crackers, between their elders' legs.

But we are missing the standing long-jump. Great sportsmen are the Indians, and with Antoine and Henry Dick compete their white brothers. "What! you here old-timer?" comes from the crowd, as a big Scotchman tows the mark. "Hurrah for Ireland", they yell as Red Hike lands on his heels. Here indeed are gathered many nationalities. The little German, who takes the commencement of the two mile race so ealmly, finally wins over the Siwashes and Canadians born, who left him standing at the start. See on the rope there, as the whites drag over the Indian tug-of-war team; that fellow is a Swede, the next was born in Ohio, Harry there is from London.

Rain threatened in the afternoon, but did no worse till later. On the level space near the store, which the score of children of school age use as a temporary school, begins the baseball game between the rival townships. A natural grand-stand is provided by the slope of the first bench land, and below the fight is waged to accompnying click of ball on bat, while banter is hurled from the crowd alike at player, umpire, and opposing supporter. In the middle distance is the collection of stores, houses, mills, and offices strung along the brown Fraser here some 300 yards wide. This in turn is backed by the high scharp of the farther bank, tree-clothed in green or scarred brown with landslides Across the scene drifts smoke from the hotel's still smouldering ice-house, and the Union Jack above the schoolhouse, and the Canadian ensigns flown over the town droop lazily on their poles. South Fort George ran out winners after a hardly contested game. Nineteen runs to seventeen was the score.

Down comes the rain, as one waits for supper, but it is worth a soaking to rush out and see the canoe race. All the entrants are Indians. Two in each craft hewn from a single cottonwood tree, they pole up the stream keeping close to the bank. First are Paulette and Denis, in a red canoe, next comes a blue one, and last are Maxine and Loui Sand in an Erin tinted bark. One of the latter fell out at the start, but climbed aboard again. They are to go upstream, round a buoy on the far side, and return. Oh! Maxine, that was a wiley move. He is a hundred yards behind, but crossing the stream poles up the other shore, and rounds the flag as the red canoe drops across just short of the mark. She comes back, is round and now it is a race. For half the distance the red canoe is behind, her yellow inside gleaming as she rolls. Erect stands the steersman of the green canoe as they fly together, but the red is the better boat and sweeps in ahead.

There are the old field sports, putting the shot, a 14lb chunk of rock, high jump, sack race, and the like. The long twilight comes with no cessation of rain, and folk go to see the opening cinematograph performance at the newly erected theatre, and to make merry in the long room over a store, where they dance the old dances and the new. Groups gather in the houses and restaurants and we drink to the King and all his Dominions, and, stowing away our programmes printed locally on silk as mementoes, roll off to bed, telling ourselves that this Dominion Day was the "best ever."

Local and Provincial

The Fort George Theatre is now equipped with chairs, providing better, and more comfortable seating accommodation than temporary benches. The attendance grows with every performance, proving that the show is firmly establishing itself as the popular amusement here.

Dan Brewestr, a local contractor, has commenced the construction of a stable and warehous for the government at the corner of Hamilton Avenue and First Street. The present warehouse, on Second Street, has proved too small for the needs of the road gangs' supplies. It will be turned into offices for the road superintendent. Mr. Brewster the contractor, has just completed the construction of the government offices on the Hudson's Bay property.

Opposition is the life of trade. Since the steamer Chilcotin has taken up the river run between here and Soda Creek, in spite of the lack of power, the "B. X.", leviathan of the haute Fraser, has climbed the river fairly regulary.

J. Dunn, R. E. Wishart and John Young, who recently arrived in Aldermere, left for Fort George over the trail a few days ago.

The Northern Lumber Company have received large orders for lumber, to be used by builders here, lately.

T. P. Tracy, of Mud River, left today on the steamer "B. X." to visit his parents in Chicago.

The Fort George Timber and Trading Co. are building a trestle distributing road throughout their yard. Their mill is at present cutting an average of about 15,000 feet a day, which output will be increased to tne capacity ol the mill, 25 to 30,000 feet, as the efficiency of the new machinery is developed.

Russell Peden, of the Northern Lumber Company, leaves on Monday's boat for Edmonton. Mr. Peden will make the overland trip from that place to the Cache, and from there down the Fraser by canoe.

The steamer Fort Fraser, left on Friday last for the mouth of Willow River, taking up Mr. and Mrs. J. M. Wiley and G. Harvey to Mr. Wiley's ranch on the Willow River bench.

The Rev. C. M. Wright, of the Presbyterian Church, will hold service in the Fourth Street Hall tomorrow evening at 7.30. His subject for the sermon will be "When principles are at stake."

On Sunday afternoon at 3 o'clock a baseball game will be played on the Central Fort George Diamond, between the Centralities and the Satellites of South Fort George. Each team now having a game to its credit an interesting struggle is expected. The S. S. Chilcotin will leave her dock here at 1 p. m. sharp, leaving Central on the return trip at 7 p. m. The round fare trip is $1.00.

A wire was received here this morning, immediately before going to press, bearing the sad news that Mrs. John A. Fraser, the wife of our esteemed Member, passed away in Vancouver five minutes before Mr. Fraser was able to reach her side. Mrs. Fraser has been in delicate health for some time, and on arriving in Vancouver, from a visit to eastern relatives, Mr. Fraser was sent for as her condition became critical. Although he left Quesnel immediately on receipt of the notification he was too late to reach his wife's death bed. The late arrival of the news prohibits our dwelling, as we would otherwise wish to, upon the fine attributes that endeared to her the many friends of the deceased lady. Mrs. Fraser has always taken an active interest in Church and charitable work in Quesnel, and in spite of her delicate health was often seen assisting Mr. Fraser in practical worl in his large mercantile business at Quesnel. The keenest regret is felt at the district's loss, and we hasten to extend our sympathy, in the name of the populace of Fort George, to Mr. Fraser and his children in the hour of their bereavement.

PROVINCE WILL POLICE G.T.P. RAILWAY CONSTRUCTION

When Bill miner held up a C. P. R. train at Ducks some seven years ago and made a getaway with a lot of coin and a bunch of C. P. R. bonds, the enormous rewards offered for his capture by the C. P. R. and the government led every detective agency in the country to detail men to the chase. A party of the North West Mounted Police obtained permission from the Federal authorities to join in the manhunt, and they participated in his capture. A wrangle then arose between the R. N. W. Mounted Police and the other authorities connected with the capture, as to the dispensation of the reward, which terminated in the relations between the provincial police and the mounted constables of the territories becoming strained for all time. From Tete Juane Cache a report has recently reached us to the effect that assistance to a man with a broken leg was refused by the mounted police until he was brought to their side of the provincial boundary. We hardly credit this, yet we know that in the Yellowhead pass today the mounted police are keeping strictly on the Albertan side. The provincial authorities are now organizing the district round the Yellowhead pass, where the construction gangs, with their inevitable lawless element are commencing to invade the interior, and are bringing it under the control of the provincial police, by the appointment of Mr. John Kirkup, formerly government agent at Rossland, as administrator for the great unorganized district round Tete Juane Cache. Mr. Kirkup was in the service of the Provincial government at Farwell, now Revelstoke, when the C. P. R. was building through the mountains, years ago. He has been chosen for the present position owing to his wide experience in frontier life, and in the matter of enforcing the law he has a free hand. At the Cache his jurisdiction is absolute. He has also been appointed stipendiary magistrate, and has been instructed to choose his own assistants. Mr. Kirkup is going into the Cache by way of Edmonton. We fail to see why the government should use the round-about route to the Cache, when they have a waggon road costing some millions of their money leading to the foot of a system of waterways terminating at the objective point of their official representative. If the province wishes to establish a route of travel from Vancouver to the Peace River or the Yellowhead pass country by way of Edmonton, thus sowing the seed of a diverted trade, they are starting in right.

Now In Working Order

After a lot of spasmodic alarm-clock effects the local telephone system of the Fort George and Alberta Telephone Company is in running order. The company have installed 15 'phones in South Fort George and ten in the Nechaco river townsite. The lines give a very clear transmission, and the system, though an extravagance to anyone wishing to practice business economy, is a great convenience owing to the distances between the business houses, owing to the non-sale of the government blocks.

Following are the regulations issued by the company in regard to the use of their service:

"No abusive, profane, or obscene language shall be permitted to pass over the lines.

The phones of the company are in your care, allow no one to tamper with them outside of the authorized agent of the company.

"First ring, then remove receiver.

"Do not talk loud — it is unnecessary — but talk clearly and not too fast. Remember that all voices are not alike; some are particulary well adapted to telephone conversation, while others are very unsatisfactory.

"Do not forget to ring off when through talking.

"Do not forget to hang your receiver up when through talking.

"Do not drop the receiver. The shell is made of hard rubber and is brittle.

"Do not place on top of machine articles of metal. If you do, your telephone may short circuit and you cannot call out to line.

"Do not tap on the diaphragm of the transmitter or receiver with a pencil or other article. You may injure the apparatus.

"Do not short-circuit the instrument by jamming a lead pencil between the lightning arrester points.

"Do not stand too far from the transmitter while talking. Talk from two to six inches from the mouth piece, according to the length of line over which you are talking and the privacy of your conversation.

"If the exchange is not treating you properly, report it to the management.

THE B. C. LAND ACT AND ITS ELASTIC INTERPRETATION

Evidently we are to have an election this fall. The Victoria Daily Times has lately been delving into the way the land policy of the government has been worked by a bunch of land operators in Victoria to their own particular ends. The Times must have a very dead intelligence department if has only just got "next" to the fact that there exists a ring in Victoria that can juggle with the B. C. Land Act pretty much as they please. We could name a great number of them. We have long noted the way of things, and have seen so much funny work that we have grown calloused and indifferent to the crude operations of the "inside" gang. We know of applications-to-purchase that have gone through the Lands Department as though they had nothing else to attend to, whilst others would hang around in their filing baskets for months and months. The questionable classification of lands by provincial land surveyors has been an every day occurrence, and evidences of favoritism exist on every side. the relative standing of pre-emptions ans purchases has been a matter which has caused many a disgruntled would-be-settler to leave the country by the back door. We know of instances of pre-emptors who have been told to vacate their lands months after they have received their records. The excuse offered by the Department was that the land applied for was already alienated by purchasers. A pre-emptor takes an affidavit to the effect that he is applying for unoccupied and unalienated Crown Land when he sends in his papers to the district Commissioner. If the district Commissioner has reason to believe that his land is covered by other prior applications he issues a provisional record. This has been done ever since it was found that pre-emptors often jumped the prior claims of purchasers, whether with intent, or inadvertently. The land had to be described roughly, by metes and bounds, owing to their being no systematic survey of the country, although we commend the fact that this work has been carried out as fast and as thoroughly as circumstances would permit. In many cases the pre-emptor has the worst of the deal, and a howl has been raised which echoed along the mosaic-floored corridors of the capitol, causing the men in the Lands Department some uneasiness. Their policy has been to recognise priority in every case, which, considering that they were administrating a district that has only come into existence as a sought-after field for settlement during the past two or three years, was a sensible rule for the settlement of every claim. The bona fide pre-emptor is a man who should receive every atom of protection that the government can possibly afford him. The tin-horn pre-emptor is another class of individual altogether. We coined the phrase to provide a suitable sobriquet for the pre-emptor in name only, who is nothing more or less than a moneyless speculator, endeavoring to lay claim to lands near possible or actual sub-divided areas, irrespective of their agricultural fitness, and by inducing some of their friends to perjure themselves re., their bona fides, to ultimately obtain a Crown grant. On October 29, of last year, we printed an expose of these gentry's methods, prompted by the fact that certain of them were trying to railroad their claims over the heads of prior applicants under the purchase clause, who had staked months before. To put it bluntly, they were claim jumpers. Now let us look further into the result of the mix-up which we saw coming last fall, and expose also its ultimate outcome. Taking the case of one of the tin-horn pre-emptors, whose application took precedence over another man's bona fide prior right, bearing in mind the rulings adverse to the pre-emptors who had previously conflicted with purchases. This is the exact status of the case from the information before us: About March 30, of last year, a draughtsman, who thoroughly understood the staking of land, went into the field to stake certain quarter sections for the purchasers, who were all old residents of the district, and whose knowledge of the situation and of the land's advantages was gained thereby. On Ausust 23rd of the same year, five months afterwards, a pre-emptor, who was manager of a townsite company here, was issued a record from the Barkerville government office, having walked onto the land some short time before the date of the record and staked it as a pre-emption, making an affidavit to the effect that it was unoccupied, unalienated Crown land. His record, a photograph of which we have in our possession, bears the following provision on its face; "This record is issued with the distinct understanding that should it be found at any time subsequent to the date of same that the land hereby granted was not open for pre-emption at the date of the application, then this record shall be absolutely void and of no effect whatsoever, and shall be 'ipso facto' cancelled." On the 19th, of January, of the present year, nine months after the prior staker had located the land, he received a notification from the government to the effect that he would be allowed to purchase the land provided no encroachment was made on lands covered by the tin-horn pre-emptor whose perjured application was made about five months after that of the purchaser. For an example of perverted administrative ruling that is a cinch winner. Now to the explanation of the Department, for we wish to show the matter in all its aspects. The Lands Department, on receipt of the letters from the prior applicant, protesting against the unfairness of the ruling, and pointing out that the record issued to the pre-emptor was provisionary, writes, stating that, according to the fixed rule of the Department records issued to pre-emptors prior to the receipt of applications-to-purchase the same lands, should not be disturbed even in cases where it was shown that the applicant to purchase was prior in staking. That was entirely a new ruling, and in this section of the country had never been heard of before. So it would seem that the government had taken action to eliminate conflictions in this Czar-like manner at a time when future conflictions had been automatically eliminated with the blanket reserve covering the whole district from future alienation by purchase. And this after the pre-emptor had been side-tracked, in many instances, during the years that staking by agent had been in its hey-day. Had we published the ruling at the time we heard it, and thus noised it abroad, any person who had not already utilised his right to pre-empt land could walk into the woods and place his stake on any of the applications-to-purchase that were then being advertised close round here, and, as these advertisements must run for sixty days before the would-be purchaser's application can be considered, his application to pre-empt the other fellow's land must of necessity reach the Government Agent and the department first, and according to the ruling, the application of the staker would be invalid. Then, unless the purchaser paid $500 or so, to the tin-horn to abandon his $2 record, as the purchaser in this instance was obliged to do, he must step down, and the government have his $7 for advertising land he apparently has no right to if some irresponsible party puts a pre-emption stake on it. There are scores of pre-emptions abandoned in this section, that are never recorded as abandoned unless their record holders wish to apply for another piece of land. Now supposing that a purchaser, who has spent good money in taking the preliminary steps towards buying, and one of these may-be-quitters reading his advertisment, sees the land and jumps it, and is according to the ruling given an interim title, which he afterwards keeps, or perhaps throws up, the government are losers, for they would have sold the land, and the intending purchaser, having had his right usurped in this manner is a Liberal, perhaps. In the instance of the five-month-prior-purchaser the hardship was particulary felt. The pre-emptor was instructed by his employees, a gang of get-rich-quick townsite promoters, that he was wanted elsewhere on their come-on game. He held the record however, and although he had never lived on the land or done any work on it himself, all hell would never cancel that record against his will, even though he never intended to set foot on his stolen land again, in time to permit the purchaser to fulfil his obligations to the government, so the purchaser had to ante up $500 for the pre-emptor's provisionary record, covering his own land, obtained under false pretences by the tinhorn pre-emptor — who held the best hand.

---The Cariboo wagon road is 167 miles long

---That statement alone will prove to the readers the impossibility of price competition for imported beer against the product of a local industry

THE

NORTHERN INTERIOR BREWING Co. Ld.

Has been incorporated by men who have had long business experience in Cariboo. The objects of the company are: **To manufacture beer for the trade of the Northern Interior;** both to satisfy present requirements and the increasing demands of the construction next year and thereafter. To maintain a brewery capable of supplying the demand for a first-class beer

Read this prospectus. The facts are here:

A prospectus has been issued which reads in part as follows:

NORTHERN INTERIOR BREWING COMPANY LIMITED.

Incorporated under the B. C. Companies Acts.

SHARE CAPITAL — — — — — $30,000,00.
divided into 600 shares of $50.00 each.

PRESENT ISSUE

300 shares of $50.00 each at par, payable
¼ on application and ¼ on the corresponding day of each of the three following months.

DIRECTORS

JOHN A. FRASER, M. P. P. Merchant, of Quesnel, B. C. President.

JOHN B. DANIELL, President, Northern Interior Printing Co. Ltd. South Fort George, Vice-President.

WILLIAM L. COLLINS, Manager Hudson's Bay Co., Quesnel, Secy-Treasurer.

A. W. CAMERON, Bank Manager, President Quesnel Board of Trade, Quesnel, B. C.

EDWARD L. KEPNER, Proprietor Occidental Hotel, Quesnel B. C.

GEORGE J. WALKER, Late Government Agent, Barkerville B. C.

BANKERS

The Northern Crown Bank, Quesnel B. C.

SOLICITOR

E. J. Avison, Quesnel, B. C.

Registered Office — — — — — Quesnel B. C.

This company is proposing to immediately erect at Quesnel, a high class, modern brewery, and is offering to the public for subscription at par 300 of its 600 shares.

Since the incorporation of the company several months ago, continuous efforts have been made to obtain from the Dominion Inland Revenue Department its consent to the issue of a brewery licence. It has now agreed to a grant being made when the brewery is erected, and it has already appointed an Inland Revenue Inspector at Quesnel to transact the business of the company. An application will be made with all practicable speed for a provincial licence, and the Directors now propose to immediately construct and equip the brewery.

The whole expenses of promoting the company, including Solicitors charges for promotion; Government fees; stock books; the printing of stock certificates and the Articles of Association; Solicitor's charges for securing an understanding from the Dominion Government as to a grant of a licence when brewety is erected; the cost of printing and publishing this prospectus have been assumed by the Directors, or some of them, and for so doing the said J. B. Daniell will be allotted 60 shares, and the said J. A. Fraser; W. L. Collins; A. W. Cameron; E. L. Kepner; and George J. Walker 18 shares each. A contract dated 25 November 1910 to this effect has been entered into between the Company and the individual Directors and the same may be seen at the registered office of the Company during business hours.

The Company is thus, without the payment of a single dollar, in the very fortunate position of being discharged from all initial and organizing expenses.

No shares will be issued at a discount and every dollar subscribed will be used for the actual business needs of the company.

The Directors are fortunate in having secured the services of Mr. George Bruder as Brewer and Manager. Mr. Bruder is splendidly equipped for the position. He has 25 years experience as a Brewer in Germany, Switzerland, the United States and Canada. He is a graduate of the American Brewing Academy and was for years Brewmaster of the Upper Michigan Brewing Company, and later of the Imperial Brewing Company, of Kamloops, both of which were exceedingly successful under his management.

Mr. Bruder is the owner of a considerable amount of Brewing plant and apparatus, and so much confidence has he in the possibilities of this District, and the successful outlook of the Company that he has agreed to turn over his plant at a valuation in exchange for the shares of the Company at full par value.

The Directors only propose to raise the capital necessary to place the Company in a thoroughly sound financial condition, and now offer for sale $15,000,00 of shares based on the following estimate:

Site	$500.00
Building	7000.00
Machinery etc.	4000.00
Plant and Apparatus	1500.00
Tools and accessories.....	500.00
Working Capital	2500.00
	$16,000.00
Less estimated value of Mr. Bruder's plant	1250.00
Net amount of capital required	$14750.00

The profits of Breweries are proverbial. The distances of this country from the railroad; the impossibility of price competition from the nearest brewery; the immense extent of territory this brewery will serve; and the splendid prices obtainable, place this brewery in a class by itself, and make the Directors firm in their belief that this company will in a very short time be in an exceedingly prosperous condition and paying a very high rate of dividend.

This brewery will supply Quesnel, Fort George, Stanley, 150 Mile House, Soda Creek, Quesnel Forks, Hydraulic, and all the surrounding country, and it is estimated that these places, during this year, consume at least 2000 barrels of beer. The plant it is proposed to install is capable of manufactfacturing 2500 barrels of beer per annum, leaving a considerable margin for development without increased cost.

The construction of the G. T. P. and other railways through this part of Northern B. C. will immediately increase the territory this brewery will serve, and ensure a big expansion of business within a comparatively short time. As any larger quantity of beer can be manufactured at a less cost of output than a smaller quantity, a steady increase in the yearly profit in proportion to the increase in business will be made.

An average wholesale price of a barrell of beer holding 6 doz. bottles is $10.00 at the Brewery. Prices vary from $8.10 to $12.85 The average weight of such a barrell is 245lbs, and the freight from the Brewery to Quesnel at 5 cents per pound would be $12.-25. Beer from the Railway cannot therefore be laid down in Quesnel under $22.25 per barrell.

The estimated sost ol manufacturing a 6 dozen barrell of finest quality beer in Quesnel is only $7.80.

At $22.25 per barrell a bottle of beer costs approximately 31 cents, of which the freight is approximately 17 cents.

ESTIMATED PROFITS.

First working year,

Cost of manufacturing 1500 bbls., @ $8.00 ...	$12,000.00
Selling price thereof @ $22.25 per bbl.,(wholesale in Quesnel is today $30.00 per barrel ...	33,375.00
Estd., gross profit ...	$21,375.00

After providing for the writing off of the cost of the entire building and plant in five years, and for the creation in that time of a reserve fund equal in amount to the entire capital now to be subscribed, these profits would pay a dividend of over 60 per cent.

To comply with the Companies Act it is stated that the Minimum Subscription on which the Directors will proceed to allotment is one share. A considerable number of shares have already been spoken for.

Applications for shares should be made upon the form accompanying this prospectus, and sent to the Company's Bankers, the Northern Crown Bank, Quesnel, or to the Trader's Bank, South Fort George, with a remittance for the amount payable on application.

A copy of the Company's Memorandum of Association is printed in the fold hereof, and with the Articles of Association of the Company forms part hereof.

Where no allotment is made the deposit will be returned in full, and also where the number of shares allotted is less than the number applied for the balance of the deposit will be applied towards the remaining payments.

Failure to pay any future instalment on shares allotted when due will render previous payment liable to forfeiture.

Full prospectuses (upon the terms of which applications will alone be entertained) and forms of application can be obtained from the Northern Crown Bank, Quesnel, The Trader's Bank, South Fort George, from any of the Directors, and from E. J. Avison Quesnel.

This prospectus has been filed with the Registrar of Joint Stock Companies.

Dated at Quesnel, this 26th., day of April 1911.

THIS COMPANY offers to the public of Cariboo an opportunity of investing in a venture which will add materially to the industrial development of the district, and the profits of which will be great

Send in your application for shares immediately. Much of the stock has already been subscribed for. Don't delay. Act at once.

$50 EACH — SHARES — $50 EACH

The Northern Interior Brewing Company, Limited

This form of application may be used. It should be filled in and sent in with the amount of the deposit to the Northern Crown Bank, Quesnel, B.C.

.....191

TO THE DIRECTORS OF THE NORTHERN INTERIOR BREWING CO., LTD.

Gentlemen— (Traders Bank, South Fort George, B.C.)

the sum of $, being a deposit of $ per share upon shares in the above named company.

For the Northern Crown Bank, Quesnel, B.C.
For the Traders Bank, S. Fort George, B.C.

.....

Living in a town without a hotel, and especially when that town is situated 300 miles from the nearest railroad, gives a great stimulus to the problem anent the high cost of living, of which so much is heard nowadays. A bed costs $1.00 a night from those who make their living by renting them. Meals cost 75 cents each, or $1.00 if you are hungry, that makes existance cos $4.00 a day. The hotel rates are $2, $2.50, and $3 per. BUT, there ain't no real hotel at present, and wont be until the new licence is granted.

H. C. Seaman, the popular manager of the Trader's Bank of Canada here, leaves on Monday next for two weeks holiday. Mr. Seaman is making for Long Beach, California, where, amid the dulcet music of the Pacific ocean breaking, with a Milwaukee beer effect, upon the sun-kist shore, with the perfume of the orange groves wafted faintly from the smiling land behind, he will find an Arcadia well calculated to prove restful to mind and body after a solid year's strenuous banking in the wilds of British Columbia's big undeveloped hinterland.

Reginald Randall, and wife, arrived in South Fort George on the steamer B. X. last Monday. Mr Randall has been appointed assistant Government Agent, occupying also the position of Registrar of the County Court of Cariboo. Mr Randall has been in Barkerville for many years past, under Government Agent George Walker.

Messrs. Savage and Myers, the two journalists who left here last week, bound for the Peace river country, via the overland route to Giscombe portage, got estranged with the country in general between here and Giscombe, in the midst of the maze of new trails between these points, and arrived back on a raft, after many adventures. They left again on Tuesday, by canoe with an Indian.

The Cariboo Observer, published at Quesnel, is now no longer under the maw of the Natural Resources Security Co. townsite-tinhorns. It is now the property of Mark Dumond, of Vancouver. This company founded The Observer, and we owned until last spring, when we sold to counter the blow delivered at out solar-plexus by the townsite company, when they started a little rag in Quesnel, with the information, printed in boldface at the top of its "editorial column, stating:

"For the present and until further notice Land and Coal Notices will be published the full legal requirement for $1.00 per notice,- cash with order."

The Times died with its first issue. Sam Freethy is now in charge of The Observer. Sam is a linotype man, a mechanical genius and all-round newspaper worker. He will raise The Observer out of the slough in which it has wallowed the last six months.

The Fort George Trading and Timber Company are considering instaling an electric plant for the town, in connection with their splendid mill. The proposition, if acted upon, would surely be a great success, both financially, and from a consideration of the needs of the community. Everything in the form of development which eliminates the necessity of the constant importation of perishable supplies is a great step towards the advancement of the immediate needs of the district. Coal oil, gasoline, and such liquid oils, especially those subject to evaporation, are probably articles which are imported with the greatest difficulty and loss in transit, consequently the cost of these necessities, landed, has to be placed on a basis allowing for the loss, making the price almost prohibitive. To these materials we depend for light.

The Rev. R. H. Issaac Williams, late of Newbry, England, arrived here on the last boat to inaugurate the permanent work of the Church of England in this section. A church will be built in the near future in South Fort George. For the present services will be conducted in the Fourth Street hall. Next Sunday the Communion service will be held at 8 o'clock in the morning, matins and sermon at 11.

The family of Mr. Gross, of the Cariboo Hardware Co., arrived on Monday's boat. Mr. Gross has leased the large cottage on the corner of Sixth and Laselle Avenues.

J. M. Miller, one of the pioneer ranchers of the Mud River valley tells us that the crops in that section are splendid this year. Haying will commence in about two weeks.

There is no work for barteniers in South Fort George at this time, and lemon squeezers are the only booze tools in use.

The residents of Barkerville sent a message of congratulation to King George and Queen Mary on the occasion of the Coronation, and received a long cabled message of thanks from His Majesty's secretary, says the Barkerville correspondent of the Ashcroft Journal.

The steamer Chilcotin arrived here late last Saturday night with a load of freight for this town. The big boat made the trip from Quesnel to this point in two and a half days, in spite of the extremely high water. We understand that new machinery is now on the road in here for the Chilcotin, which will be installed immediately it is all laid down in South Fort George. The Chilcotin is built on speed lines and if equipped with proper machinery, would, we believe be the fastest craft on the river. She left for Soda Creek again on Tuesday.

Al. Johnson, of the burnt Hotel Northern here, is expected to return here on Monday next. We understand, from advices received from the coast, that there will be no difficulty in the re-issuance of the hotel licence, cancelled by the burning of the building.

An issue of the Interior News, published at Aldermere, advertises the prices charged by the Bulkley Valley Lumber Company as follows:

First class rough lumber,	$25.
Second Class	16.
Matched spruce,	35.
Surfaced,	32.
Matched pine,	40.
Surfaced	37.
Shingles, per m,	6.

Aldermere is 60 miles from Hazelton, and 237 miles northwest of here. Construction is beginning to liven things up in that section, and steel will perhaps be in the town this fall. Their lumber company, as compared with the Fort George companies, is a charitable institution, but when the gsading teams and steam-shovels are in evidence round here we shall be able to build houses at reasonable cost also.

Peace River Land Dist. - Dist. of Cariboo.

TAKE notice that William Matthews, of Edmonton, Alta., occupation Insurance Agent, intends to apply for permission to purchase the following described lands:-

There is no set rule determining Real Estate values in the province of British Columbia. Since the issue of the Grand Trunk railway charter to build the transcontinental through this province land hitherto commercially valueless has taken on a value that in many instances staggers the outside man with money. Lots on Hastings street, Vancouver, 25 years ago, sold from between $500 to $1000. Everyone of these lots today are worth one hundred and twenty-five thousand dollars. Property sold at Prince Rupert three years ago, corresponding to Vancouver Hastings street realty, brought $16,600. Who, then, is the mortal who can set a value on western real estate with its towering possibilities?

Important Real Estate Announcement to the Residents of South Fort George

———Some time ago we purchased 262 lots in Collins' Addition, D. L. S. 1426. As this wholesale purchase was made at a favorable time we are in a position to offer these lots at low prices and on very easy terms of payment.

———Judging from the prices asked for surrounding property we can safely assure you that these lots are being offered at less than half the price being asked for properties adjoining in any direction.

----------We have prepared a plan of the lots being offered and a price list of same. These will be mailed to you upon request. Apply
