# THE GRAND FORKS MINER.

SECOND YEAR.--NO. 57. GRAND FORKS, B. C., SATURDAY, JUNE 12, 1897. PRICE FIVE CENTS.

## MINING MEN.

### Three Residents of Washington Visit Grand Forks.

### ARE MUCH PLEASED

They Think This Section Has the Greatest Surface Showing Yet Discovered—Will Return In a Short Time.

Lake D. Wolford, of Colfax, Greenville Holbrook and H. M. Rogers, of Garfield, Wash., have been spending several weeks in the Grand Forks and Boundary mining districts with headquarters in this city. They visited all the principal properties in the Summit, North Fork, Greenwood, Lafleur, Vulcan, Wolf's, Wellington and Eureka camps, and express great surprise at the extent and variety of the mineral resources of this country. Each of these gentlemen have had considerable experience in mining and own property in the principal mining sections of the northwest. Mr. Wolford is a heavy owner in the Rambler, Slocan district, which is a dividend payer. He is also a director in the Cariboo.

In conversation with a MINER representative Mr. Wolford said that if when depth is obtained anything like the promise of the immense surface showings is realized, this is destined to be the greatest mining country discovered in British Columbia. He says he is astonished at the apparent great mineral deposits here, which exceed in extent anything that has yet come to light, and that so far as development work has been done the results have in every instance proved most satisfactory, so that there is no doubt whatever regarding the permanency of the country.

Concerning their making any deals while in this section, Mr. Wolford will nothing to say beyond that he was sure of returning, and from that it is to be inferred that he and his associates picked up some property while here. At any rate when they left last Wednesday each had a well satisfied look upon his face.

### NO APOLOGY.

SIMPLY A STATEMENT FROM THE MINER DEVIL REGARDING THE PICTURES.

The MINER is enabled to present this week two unapproachable illustrations, made by a method known only to the devil, who is running the business, while Editor McCarter is in Spokane having a good time. The devil is all right. When the wheels in his head revolve he evolves great thoughts from his inner consciousness and spasms of unparalleled enterprise burst forth with a spontaneity that makes the grizzled hair of the compositor turn backwards. These pictures were made with a church organ sign, a piece of leather, a nail and a jackknife, and if any one says they are not all right the devil will make a picture of him that his nearest relative wouldn't recognize.

### The Jubilee Hospital

Doctor Stanley Smith is now arranging to provide hospital accommodations in connection with his surgery, intending to have it ready for the public on or about the 22nd of June, and so has aptly named it the "Jubilee Hospital." This will prove a great convenience to Grand Forks and vicinity, and especially to strangers coming into this section who are unfortunate enough to require such accommodations. It will no doubt be appreciated by all, as at present the nearest hospital is at Greenwood City, which is often inconvenient, and sometimes impossible for those requiring hospital accommodations to reach. Any one entering the hospital is at liberty to employ any doctor he wishes. Arrangements will be made to provide for extension and enlargement whenever the future justifies so doing. The card of the Jubilee hospital appears in this issue.

### Located Here.

R. H. Yanen, an old-time prospector in these parts, has been spending the winter in Three Forks, in the Slocan, was an arrival in this city last Saturday. He was accompanied by his brother-in-law, Mr. Robert Thomas, and his two sons, of Bothell, Wash., who intend to make Grand Forks their future home.

Ice delivered to any part of the city. C. M. Keene.

### THEOSOPHICAL SOCIETY.

A BRANCH ORGANIZED IN THIS CITY TO STUDY THEOSOPHY.

A Theosophical society has been organized in this city and bids fair to become a strong branch. It starts out with seven charter members, and a number have expressed their intention of joining who did not attend the first meeting. The charter members are G. B. Stocking, president; Mrs, N. Larsen, vice-president; Mrs H. A. Sheads, secretary; Mrs, McFarland, treasurer; Dr. G. W. Hepworth, Frank Reynolds and Neils Larson. The society has been named the Welbon Branch Theosophical society of Grand Forks, in honor of B. A. Welbon, of Seattle, the organizer. Meetings will be held every Sunday evening at the residence of N. Larson, corner of Third and Spokane avenue.

### A Vote of Thanks.

Extract from the minutes of the organization meeting of the Independent Order of Foresters, held at Grand Forks, B. C., the 8th of June, 1897:

Moved by brother J. A Dinsmore, chief ranger, seconded by brother A. C. Sutton, treasurer, that whereas, brother J. H. Falconer, deputy supreme chief ranger, has, by untiring efforts succeeded, within a comparatively short time in instituting in Grand Forks a strong court of Independent Order of Foresters, being the first secret order organized in Grand Forks, and has during his stay in this city given his undivided attention to the welfare of this court.

Be it therefore resolved, that a hearty vote of thanks be tendered by the officers and members of this court for his unceasing efforts on behalf of the walfare of this court and our beloved order for his many excellent qualities of head and heart, his gentlemanly and courteous bearing to all with whom he has come in contact during his stay in Grand Forks, and that the recording secretary be instructed to forward a copy of this resolution to the Supreme Chief Ranger Oronhyatekha, M. D., and John A. McGillivray, the supreme secretary, Foresters Temple, Toronto. Carried unanimously,

GEO. W. INGRAHAM,
Recording secretary.

### Great Scheme.

Says the St. James Gazette: The latest suggestion for celebrating the Queen's reign is that of altering the calender. Assuredly there would be no better way of writing the Queen's name deep upon the history of all time than by superseding the Georgian for a Victorian calender. Our irregular months with their odd days have their inconveniences. The notion is to invent a new month—called, of course, Victoria—and to substitute 13 equal months of 28 days, with a leap year 29th of February, as before, for our present 12. There is not the faintest chance that this revolutionary scheme will be adopted, but it is a pretty idea to play with.

### Good Anyway.

The shipment of ores and matte from Trail creek and Slocan this year, by way of Revelstoke and the south, so far as reported, amounted to 23,265 tons, valued at $2,916,575. This does not show up as well as was expected at the beginning of the year, when an output of close upon $1,000,000 a month was confidently predicted. That for January and March, which were respectively $675,506 and $677,681 were the largest on record. Since then there has been a heavy falling away.

### New School Trustese.

The meeting for the election of three new school trustees, which has been duly advertised, was held on Monday last at 12 o'clock in the Province block, when W. K. C. Manly, Dr. Hepworth and J. W. Jones were elected for the above offices by acclamation. They will hold office till the end of this month when the annual election of school trustees will be held.

### Another Dog.

It appears that the strychnine epidemic has not yet run its course. Just before noon today C. M. Folger's dog began to walk stiff legged, and although his owner made heroic efforts to save the animal the lard and salt were wasted.

### City Council Meets.

The city council met today at 1:30, but owing to the absence of the mayor, on motion of Councillor L. A. Manly, seconded by J. K. Johnson, the meeting adjourned till Tuesday next at 1:30.

FOR EXCHANGE.

We have some fine residence property on the Sound, improved and unimproved, to trade for property here or in lower California.

FILLEY & OGDEN.

Freighters and travelers will always find the best of accommodations at Edwards' ferry.

## STRUCK ORE

### Messrs. Rogers & Ashfield Are in Big Luck.

### RIGHT ON THE SURFACE

Splendid Ore Struck on the Home Run and Star of the West on Hardy Mountain.

J. H. Ashfield was in the city today with some samples of ore from the recent strike on Hardy mountain.

The properties on which the strike were made are the Home Run and Star of the West, two of a group of four, owned by Mr. Ashfield in company with A. L. Rogers.

Work has been done on the property off and on all winter and good ore was brought in from the claims several times during the past few months.

Some days ago work was started at a new place on the Home Run ledge. Stripping was begun and at a depth of only four feet a fine ledge of solid ore was uncovered, varying in width from six to eight feet. The ore is solid iron and copper sulphides in a quartz formation and to all appearances will run high in both gold and copper.

On the Star of the West a strike of much similar ore was made at a depth of eight feet in a shaft sunk on the lead. The ore is somewhat finer grained than that from the Home Run and of a more pyritic nature. The ledge averages about three feet in width. About two tons of ore have been taken out of the workings on the Star of the West and thirty out of the Home Run.

On the other properties of the group, the Welcome and North Star, good showings are being made and they give every promise of becoming equally as good as the Home Run and Star of the West with more development.

## TOWN AND DISTRICT.

J. Cohen, of Astoria, is in the city.

C. A. Jones' concert hall is nearing completion.

Mrs. E. J. Field arrived from Sandon last Saturday.

Oscar Johanson is a recent arrival from Spokane.

E. E. Williams, of Spokane, was in the city Tuesday.

S. S. Hepking, of Curlew camp, was in the city Tuesday.

A. F. Carpenter, of Spokane, has been visiting Grand Forks.

Jack Buron went to work on the Pathfinder yesterday.

W. T. Smith was a visitor from Greenwood during the week.

Money talks. Groceries at cost at Butler's closing out sale.

Jas. F. Leahy, was in the city during the week from Findlay, Ohio.

Hugh McGuire and Geo. Cummings went to Eureka camp today.

C. A. Babb, a Spokane capitalist, was in the city a few days ago.

The number of Grand Forks bicyclists is constantly on the increase.

A. K. Stuart, townsite agent of Midway, was in the city Monday.

Ten to 15 per cent saved on groceries at Butler's. Selling out at cost.

"Never touched me."—The office cat next morning after the poisoning.

Hugh Harris and Thomas Donald arrived last Saturday from Rossland.

J. W. Ellis, was among the visitors from Midway during the past week.

W. H. Young, of Victoria, was a visitor in our bustling burg on Friday last.

In the Diamond Jubilee races the pacers and trotters will be in the same races.

James Addison is putting up a neat residence at the north end of Riverside avenue.

Why do you pay fancy prices on groceries when Butler is selling at cost to close out.

Thomas Nicholson was among the many Rosslandites who visited the city this week.

W. H. Y. Trevoe, a Portland, Ore., capitalist, has been examining mines in this vicinity.

E. E. Williams came in during the week from Spokane and may invest before leaving.

W. H. Brown, of Portland, was among the arrivals on the stage from below Friday evening.

John C. Henderson and H. C. McDougall, of Rossland, came in Wednesday on business.

Messrs. Scott Greening and J. A. Carter have returned from a prospecting trip up the North Fork.

Workmen are busy blasting the stumps out of Charles Cumings' lot and clearing up the ground.

F. H. McCarter sr., proprietor of THE MINER, and son F. H. McCarter jr., arrived today from Spokane.

Butler is going out of business. All goods at cost. Come where you can save the profits on groceries.

One stage from Bossburg and two from Marcus were necessary to bring in the passengers Thursday night.

The city council met yesterday afternoon and adjourned to await the return of Mayor Manly, who is in Rossland on business.

P. H. Curan, a prominent mining man of Spokane, was an arrival last Saturday. He is looking after mining interests here.

W. H. Wakefield, a prominent mining man of Spokane, has been examining properties in this vicinity during the past week.

R. G. Butler, our genial groceryman, received news yesterday that his brother had died of Bright's disease in Mintonville, Arkansas.

The finest line of men's and boys' straw and soft felt hats in the market at J. Anderson's, the Bonanza store, upper Grand Forks.

"Pearline" Brown, of Victoria, traveling representative of the famous washing compound, has been working this city during the past week.

Frank Fortier has just returned from Brown's camp where he has been doing assessment work on some properties owned by Spokane parties.

Capt. Hargrave has made several fine locations lately in Eureka camp which are in the center of the camp and on what was supposed to be located ground.

Deputy Supreme Chief Ranger J. H. Falconer, has gone over to Greenwood where he expects to institute a court of the Independent Order of Foresters shortly.

For sale at a bargain: Complete prospector's outfit, horses, tents, cooking outfit, rifle, blacksmithing outfit, tools. Apply Wm. Guttridge, Grand Forks, B. C.

A. W. Strong and J. W. Hughes, of Spokane have been visiting their mining property in Eureka district. They are interested in the Black Tail and Kangaroo claims.

When applying for Crown Grants request that the notice of application be published in the GRAND FORKS MINER—the best advertising medium in the Kettle River and Boundary districts.

J. A. Davis, of Colfax, Wash., who is the husband of Mrs. A. V. Davis, of the Victoria hotel, is in town looking around with a view of locating. He is accompanied by W. B. Fenshaw, who is also an old resident of Colfax.

The school trustees and the parents of the various children attending school should not forget that there will be a public examination at the school house on the afternoon of Tuesday next, the 18th inst., this being the end of the school term.

George Nicholson, of Victoria, was in the city Thursday, and took an option on lot 5, block 30, upon which the building formerly occupied by Gordon's shoe store stands. Mr. Nicholson intends becoming one of Grand Forks' merchants.

The regular meeting of the Independent Order of Foresters, which was set for Tuesday evening has been postponed until Wednesday night, at which time there will be a number of candidates for initiation. All members are requested to be present.

J. L. Wiseman returned yesterday from Sheep creek on the Dewdney trail, where he went to put in a bridge. On his arrival there, however, he found that some person, probably a claim holder, had built a substantial bridge across the stream and thus saved the government a few hundred dollars.

Neil Hardy is pushing work on his hotel at the mouth of Lime creek, and is making preparations to accommodate a large number of guests the coming fall. Surrounded as it is by a dozen valuable properties such as the Humming Bird it cannot fail to be in the center of a rich camp in the near future, and in all probability smelters will be erected in the neighborhood to treat the various ores of Lime, Brown and Pass creeks.

Now is the time to insure your buildings. Call and see the low rates that can be obtained by insuring through J. R. Johnson, fire insurance agent for this section.

## BLACK TAIL

### One of the Principle Eureka Claims Jumped.

### BY ED TITSWORTH

W. H. Williamson, One of the Stockholders, Claims the Jumping is a Blackmailing Scheme.

The Black Tail claim in Eureka camp is now in a fair way to be tied up in litigation. The property has been jumped, and if legal technicalities will hold in the courts, the original locators will lose the claim through the refusal of another party to have it recorded. This is considered one of the most valuable properties in Eureka camp and it will undoubtedly be fought for in the courts.

Two winters ago the Black Tail was located by George Welty, who was camped at Eureka. He staked it and had it recorded, but several weeks later went back and changed the stakes, making a relocation. He sent the notice of this location to another party to file for him at Colville, the county seat of Stevens county, but this party failed to put the document on record. The claim has been recognized in the camp, however, as being regular, and all the ground around it is staked out. The Lone Pine claim adjoins the Black Tail on the north, the Surprise on the west, the Republic on the south and the Insurgent on the east.

The latter part of last month Ed Titsworth went to Eureka and jumped the Black Tail naming it the Manna. He had his location notice filed in Colville, and in the recorder's office this is the original location notice for this property.

At the time the claim was jumped the news was sent to the Spokane papers, but the supposed owners denied the jumping. The Spokane Chronicle of June 4 publishes the following:

W. H. Williamson, one of the owners of the Black Tail claim in the Eureka district on the reservation, returned last evening from a visit to the property, bringing in with him 300 pounds of ore, which will be put through the mill test to ascertain to what extent it is free milling. He says the jumping of the Black Tail was simply a blackmailing scheme of an enemy who filed a location notice on the claim one night and then skipped out never showing up since."

"The "blackmailing scheme" from present appearances will give Mr. Williamson et. al. a chance to explain how they expect to hold the property without having had it recorded. The jumper who "skipped out" in the night, made first class time to Colville and put the claim on record. He probably didn't think it a good policy to wait until the claim holders were ready to run a race with him to see who would get to the recorder's office first, nor did he deem it necessary to inform them of the jumping, as in the United States there isn't much regard paid to the law against carrying guns. Titsworth brought a certified description of the claim to this city and his interest was purchased by Chas. Cumings, manager of the Grand Forks Townsite company.

There is said to be a story in the stocking of the Black Tail. The heaviest stockholders are Messrs. Williamson, Hughes, Strong, Babb and Welty, the latter being the locator, and the interests of the others being principally in Spokane. Rumor has it that Welty located some placer ground on Fourth of July creek and succeeded in interesting the Spokane capitalists named. The placer failed to pan out and when the Black Tail was discovered they insisted that the property be stocked and that they be taken in. Welty didn't object so the company was organized with these five as principals.

### GOOD DEAL.

PATRICK CLARK BUYS A BIG INTEREST ON THE RESERVE.

Patrick Clark, the well known Spokane mining man, was in the city during the week and while here made a deal of considerable magnitude.

He visited Eureka camp on the reservation to look up his interests there and before returning to Spokane purchased of Ryan & Creaser their interests in the Republic claim. It is understood that the price paid was $55,000 cash.

The Republic is one of the best known properties in Eureka camp and is owned by the Republic Mining company.

Short order lunches at all hours at the Arcadia.

### GREAT INTEREST.

F. H. McCarter Says That This Section is Attracting Much Attention.

A MINER reporter this afternoon interviewed F. H. McCarter, the proprietor of this paper, who returned today from Spokane, in regard to mining matters in that city. Mr. McCarter says that with no exception this section of the country is attracting more general attention in Spokane than any other part of the mineral belt. The Fort Steele boom has had so much of the boom nature to it that that section has been greatly overdone and the reaction has already set in. Prospectors and business men who have followed the stampede into that country have found nothing there for them to do, and have returned to Spokane with the determination to outfit for the Kettle river and Boundary country. One man who took a large outfit from Spokane to Fort Steele, sold out when he reached there and is now in Spokane nearly ready to come to the Boundary country.

It is generally conceded, however, that the one great question which this country must solve is that of transportation and that until railroads enter here there will be nothing more than a steady substantial growth coupled with general mine development, so that when the railroad comes everything will be in good condition to stand the rush.

More railroad news relative to this country may be learned in Spokane than is heard here. All sorts of rumors are afloat, some of which have an element of authenticity about them while many are mere imaginary tales. A party who appears to be in position to know whereof he speaks, said that D. C. Corbin, of the Spokane Falls & Northern, has everything ready to commence building on a moment's notice, and in no event will he allow August Heinze, of the Columbia & Western to anticipate him in railroad building. There is also an apparently authentic report abroad that contractors have been called upon to submit bids for building 26 miles of the road from Rolson. The road from Penticton is thought to be a thorn in the sides of both Corbin and Heinze, for the reason that if it reaches here first the trade will be pulled away from both of them.

### EXPERIENCED FIREMAN.

CAPT. COSGROVE, OF ROSSLAND, MAKES SOME SUGGESTIONS.

Capt. W. H. Cosgrove, chief of the Rossland fire brigade and formerly of the Portland paid fire department, was a pleasant caller at THE MINER office yesterday. He is on his way to the Boundary country to look after some of his interests in that section and expects to return to Rossland in about ten days time. In speaking of the best means of extinguishing fires in young cities he emphatically recommends a two tank chemical engine as being most effective and durable; lasting a life time with care.

Capt. Cosgrove has been in some big fires in his time both in Portland and elsewhere, and says that this kind of engine is far superior to any other make. He thought, in referring to this city, that a hook and ladder company should be formed at once before the chemical engine was obtained and would recommend the corps to comprise about 30 men who would be under a captain who should be a man of experience in these matters. These men should be equipped with buckets, axes and ladders of a light make, also one large hook and two small ones and 50 feet of inch rope attached to a chain on the large hook. He thought that a hook and ladder company composed of young and active men would be most effective in stopping the progress of fires in the city and urged the immediate formation of the fire company. In speaking of the idea of members of the fire company sleeping in the engine house, he said that at least five men should have their bunks in the same building with the engine so that no time would be lost when a fire alarm was sounded. He also thought that it would be a comparatively easy task to master a fire in this city owing to the fact that it was so favorably situated as regards the water supply, having water on two sides of it. He expressed the wish that when he returned from Greenwood in ten days time, a good hook and ladder company would be in operation in this rising young city.

### Protect the Hens.

The council should pass a by-law prohibiting people who shave themselves from throwing the "leavings" out in the yard. Several unfortunate chickens this spring have become crippled through getting the stubs of prospector's whiskers stuck in their feet. The poor chickens can not in the mad scramble for grubstakes discriminate between whiskers and ordinary straw, and their rights should be respected.

# GRAND FORKS MINER.

THE MINER is published on Saturday and will mailed to Subscriber on payment of Two Dollars a year.

Displayed Advertisements $2 an inch per month. A liberal discount allowed on long contracts.

Trancient Advertisements 20 cents a line first insertion and 10 cents a line for each additional insertion.

Local or reading matter notices 25 cents each insertion.

Job Printing at Fair rates. All accounts for job work and advertising payable on the first of each month. F. H. McCARTER & SON.

SATURDAY, JUNE 12, 1897.

## 'ERE THE SNOW FLIES.

A great future is shaping for Grand Forks. It does not take a particularly close observer to note the continued accumulation of evidence in support of this statement. The latest and greatest proof lies in the fact that an agreement has been reached between the dominion government and August Heinze of the Columbia & Western railroad, for the building of a road from Robson to Penticton. With the provincial and dominion governmental subsidies Mr. Heinze will have cash enough to assist very greatly in building the road. The provincial government allows him $4,000 per mile, and just double this amount has been offered by the dominion, so that for every mile of track that he lays he will receive $12,000 from governmental sources.

Joining the Crow's Nest Pass railroad on the east at Nelson, B. C., and on the west making connection with the Shuswap & Okanogan system at Penticton, thus the Columbia & Western road will complete a railroad system connecting the eastern provinces with the Pacific coast and passing through the heart of the great mineral belt. Speaking of the railroad proposition the Rossland Miner says:

"In our congratulations over the building of the Crow's Nest road we should not forget the very important work of building a line from the Columbia river to Penticton, which has been given to Mr. Heinze. This is the first step in the securing of a new Canadian line to the Pacific coast. Its immediate importance will consist in giving a railroad to the Boundary mining camps. Grand Forks will have a railroad before the snows of another winter come. This will give a tremendous impetus to all the country west of Rossland as far as Okanogan lake. One can hardly realize what all this means to British Columbia."

Grand Forks is indeed to be congratulated. The action of the dominion government marks an epoch in the history of this city, the importance of which cannot be over-estimated. It means that mine development will be stimulated to a point where a largely increased amount of ore will be produced and employment given to a great many miners. It will be an incentive to claim owners to take steps to prove the value of their properties and make mines out of them if they contain the mineral to warrant their being called by that name.

In fact the great question of the development of this district has been hanging upon the one point of railroad transportation, and it has now become a certainty that this important adjunct will not be lacking much longer, but that Grand Forks will have a railroad ere the snow flies.

### Fire! Fire!! Fire!!!

What are we going to do about it when some night we hear this cry ring out in the business part of the city. The very thought of a fire becoming started during this weather when wood will almost burn without artificial assistance is appalling, for the reason that with this thought comes the one that the city has no means of resisting the progress of a conflagration except the unorganized individual efforts of the citizens.

It is time that a volunteer fire organization were effected, and the MINER would suggest that a mass meeting of our citizens be held at once and ways and means devised whereby protection to our residences and business houses may be provided for. A volunteer bucket brigade should be formed by the selection of a captain and such other officers as may be found necessary. Every man and boy in the city should place his name on the list and then a few practice drills be held in order that some system may be adopted which everyone will understand and be ready to put into practice at a moment's notice. Two or three hundred buckets should be secured and distributed along Riverside avenue and kept filled with water, to be used for prompt work in case a fire starts. Then with a line of men passing water from the river to the fire there might be some show of extinguishing the blaze.

The waterworks system will not be in before fall and meantime the city should have some means of fighting fire. There are too many good buildings in the city to warrant further delay in the matter of affording fire protection.

### GREEN EYE.

The Boundary Creek Times in its last issue sets up a horrible wail about the establishment of the Grand Forks mining division, claiming that the boundaries were established against the wishes of a majority of the residents of this section. The Times must not forget that the people of Greenwood form but a small portion of the residents of this district. The boundaries of the Grand Forks mining district are established in the most natural place for them, the watershed of the district being the most natural dividing line obtainable. Greenwood, Wellington, Summit and Pass creek are and always have been naturally tributary to Grand Forks, no matter what the residents of the other parts of the district may say, and the government in establishing the boundaries of the new division have shown their appreciation of this fact. The Times' wail savors somewhat of green-eyed jealousy.

## STAGE ACCIDENT.

BREAKING OF A BRAKE RESULTS IN W. M. PELKY BEING SERIOUSLY INJURED.

The first serious accident of this summer to the stage occurred Tuesday night about four miles this side of Toulou's where the first change of horses from Marcus is made. An exceptionally light load was on the stage, there being only six passengers aboard. Two of these, K. K. Peitser, a drummer of Victoria, and W. M. Pelky, a passenger brakeman of the Spokane Falls & Northern railroad, were riding with the driver, Chas. Mitchell, on the front seat. Four miles from Toulou's there is a steep hill in a canyon. When a heavy load is being brought in the passengers sometimes walk down this and other places on the road, but Tuesday night Mitchell did not deem it necessary on account of the light load that any should leave the stage.

Near the top of the hill the brake gave way and the four horses, impelled by the weight of the stage, dashed for 250 yards down the steep hill. Mitchell kept control of them and guided them, however, until one of the reins of the lead team broke, then they ran out of the road and the stage brought up against a tree. The three occupants of the front seat were thrown forward on to the horses. Pelky, who sat on the outside, had his left shoulder and collar bone broken and was badly bruised. The drummer struck on his head and so escaped without serious injury. Mitchell also was unhurt and managed to hold the horses. The four passengers inside the stage were badly shaken up but none of them were hurt. One of the front wheels of the stage was smashed and the axle bent, but the damages to the vehicle were not so serious as might have been expected considering the nature of the smash-up.

Pelky was taken to Bossburg for medical treatment and Mitchell went back to Toulou's for the extra stage and a change of horses. The accident delayed the arrival of the stage until 1 o'clock Wednesday morning.

The passengers say that no blame can attach to the driver, Mr. Mitchell, but that on the contrary he displayed remarkable ability and nerve in not letting the horses at any time get the best of him.

## FORESTER'S FIRST.

FIRST SECRET SOCIETY OF THE CITY INSTITUTED TUESDAY NIGHT.

Deputy Supreme Chief Ranger J. H. Falconer instituted a court of the Independent Order of Foresters in this city last Tuesday evening with about 30 members on the charter roll.

The installation took place in the Grand Forks Club rooms and was most successfully carried through. At the close of the proceedings a vote of thanks was extended to Brother Falconer and the recording secretary was ordered to forward a copy of the same to the supreme court in Toronto.

The following officers were selected to serve for the first term: C. R., J. A. Dinsmore; P. C. R., W. K. C. Manly; V. C. R., A. B. Hart; Chaplain, E. Spraggett; treasurer, A. C. Sutton; financial secretary, John D. Swanson; recording secretary, Geo. W. Ingraham; physician, Dr. W. G. Hepworth; S. W., G. E. McCarter; J. W., C. C. Emmert; S. B., James Seales; J. B., Geo. Wassai; trustees, Dr. G. W. Averill, A. G. Beals, and Neil McCallom.

### The Council Meets.

The adjourned meeting of the city council was held last Saturday evening at 8 o'clock in the Club room.

The mayor and all the members of the council being present, the matter of voting on the liquor license by-law was then taken up, the subject under consideration being whether saloons should be granted license or not.

Alderman Johnson moved, seconded by L. A. Manly, that voting on this subject be made by ballot. The motion was put and carried, when the votes were taken and were as follows: for saloons, 1; against, 6. The bill was then read the third time and passed, a couple of alterations being made, such as not restricting the number of hotels in the city; also requiring each hotel to have ten bedrooms for guests instead of twenty, as was at one time under consideration. This by-law with these alterations was passed and is now in force in the city.

By-law No. 1, respecting the procedure, which had already been before the council, was read the third time, by Dr. Hepworth, chairman of the special committee, and was then passed.

On motion of Aldermon W. C. K. Manly the meeting then adjourned.

**Messrs. McMynn and McQuaig are about to survey twenty acres of their land at the foot of Christina lake into town lots, which will be placed on the market as soon as the survey is completed.**

*Short order lunches at all hours at the Arcadia.*

### APPLICATION FOR TRANSFER OF LIQUOR LICENSE.

NOTICE IS HEREBY GIVEN that Ezra Inbody, of the city of Grand Forks, intends to apply to the Board of License Commissioners for the City of Grand Forks at the next meeting for a transfer from Mrs. Aggie W. Preslar to him of the license to sell liquors by retail in the building known as the Cosmos Hotel situate on Lot 20, Block 2, in Grand Forks aforesaid, now held by the said Mrs. Aggie W. Preslar; and further take notice that the said Mrs. Aggie W. Preslar consents to the said transfer.

EZRA INBODY,
AGGIE W. PRESLAR,

Dated at Grand Forks B. C., May 8, 1897.

No. 396.

## NOTICE.

The sitting of the County Court of Yale will holden at

MIDWAY ON 31ST JULY, 1897,
AND
AT GRAND FORKS ON 2D AUGUST, 1897,

at the hour of 10 o'clock in the forenoon, respectively.

By command W. G McMYNN,
Government Office, Midway, B. C. D. R. C. C
June 1, 1897.

### YALE DISTRICT.

Notice is hereby given that the following definition of the Kettle River Mining Division is substituted for the description of the said division hitherto in force:

KETTLE RIVER MINING DIVISION.

Commencing at a point on the International Boundary, being the southeastern corner of township 70, Osoyoos District; thence northerly following the westerly boundary of the Grand Forks Mining Division to its intersection with the south boundary of Vernon Mining Division; thence west along the said boundary to the 119th degree of west longitute; thence due south to the International Boundary; thence east to the point of commencement.

Notice is hereby given that the land comprised within the undermentioned boundaries is created a Mining Division, under the style of the Grand Forks Mining Division.

GRAND FORKS MINING DIVISION.

Commencing at a point on the International Boundary, being the southeasterly corner of Township 70, Osoyoos District; thence northerly, following the height of land forming the watershed between the North Fork of Kettle river and Boundary creek and Kettle river to its intersection with the south boundary of the Vernon Mining Division; thence east along the said boundary to the western boundary of the West Kootenay District: thence southerly, following said boundary to the International Boundary; thence west, following the International Boundary to the point of commencement.

By command JAMES BAKER,
Provincial Secretary and Minister of Mines.
Provincial Secretary's office, 22d May, 1897.

No 401.

### CERTIFICATE OF THE REGISTRATION OF A FOREIGN COMPANY,

"COMPANIES' ACT." PART IV., AND AMENDING ACTS.

*"The Yellowstone Gold Mining Company" (Foreign.)*

Registered 9th day of March, 1897.

I HEREBY CERTIFY that I have this day registered "The Yellowstone Gold Mining Company" (Foreign) under the "Companies' Act," Part IV., "Registration of Foreign Companies," and amending Acts.

The head office of the said Company is situated at the City of Spokane, in the State of Washington, U. S. A.

The objects for which the Company is established are:—

To work, operate, buy, sell, lease, locate, acquire, procure, hold and deal in mines, metels and mineral claims of every description within the United States of America and the Province of British Columbia, Canada; to carry on and conduct a genera l mining, smelting, milling and reduction business; to purchase, acquire, hold, erect and operate electric light and power plants for the purpose of mining and treating ores, and for the purpose of furnishing lights and creating power for all purposes; to bond, buy, lease, locate and hold ditches, flumes and water rights; to construct, lease, buy, sell, build or operate railroads, ferries, tramways or other means of transportation, for the transportation of ore, mining and other minerals; to own, bond, buy, sell, lease and locate timber and timber claims; and finally, to do everything consistent, proper and requisite for the carrying out of the objects and purposes aforesaid, in their fullest and broadest sense, within the territory aforesaid.

The capital stock of the said Company is one million dollars, divided into one million shares of the par value of one dollar each.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 9th day of March, 1897.

[L. S.] S. Y. WOOTTON,
Registrar of Joint Stock Companies.

Where located; — Observation mountain, Grand Forks.

TAKE NOTICE that I. F. Wollaston, acting as agent for the Bonita Gold Mining Company Free Miner's Certificate No. 88,890, intend, sixty days from the date hereof to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

F. WOLLASTON.

Dated this 7th day of May, 1897.

No. 459.

### CERTIFICATE OF THE REGISTRATION OF A FOREIGN COMPANY.

"COMPANIES' ACT," PART IV., AND AMENDING ACTS.

*"Golden Eagle Consolidated Mining Company," (Foreign.)*

Registered the 10th day of April, 1897.

I HEREBY CERTIFY that I have this day registered the "Golden Eagle Consolidated Mining Company" (Foreign), under the Companies' Act," Part IV., "Registration of Foreign Companies," and amending Acts.

The head office of the said Company is situated at the City of Spokane, State of Washington, U. S. A.

The objects for which the Company is established are:—For the purposes of mining, selling, milling, concentrating and smelting the ores and minerals contained in the mines known as the "Golden Eagle" and "Pack Saddle" mines or claims, situated about six miles above Grand Forks, B. C., east side of the North Fork Kettle River, and the "Blue Bird" mine or claim, situate two miles west of Grand Forks, B. C., all in Yale District, Kettle River Mining Division, British Columbia, and to also work, operate, buy, sell, lease, locate, acquire, hold and deal in other mines, metals and mineral claims of every kind and description within the United States and Province of British Columbia, Canada, and to issue fully paid up stock in payment therefor, and for the purposes herein to issue and receive negotiable instruments, and to purchase and sell real estate and personal property, and to generally carry on a mining, smelting, milling and reduction business; to purchase, acquire, hold, erect, and operate electric and power plants for the purpose of mining and treating ores, and for the purpose of furnishing lights and creating power for all purposes; to bond, buy, lease, locate and hold ditches, flumes and water rights; to construct, lease, buy, sell, build or operate railroads, ferries, tramways or other means of transportation for the transporting of ore, mining and other minerals; to own, bond, buy, sell, lease and locate timber and timber claims, and finally, to do everything consistent, proper, and requisite for the carrying out of the objects and purposes aforesaid in their fullest and broadest sense within the territory aforesaid.

The capital stock of the said Company is one million dollars, divided into one million shares of the par value of one dollar each.

Given under my hand and seal of office, at Victoria, Province of British Columbia, this 20th day of April, 1897.

[L. S.] S. Y. WOOTON,
Registrar of Joint Stock Companies.

No. 403.

### CERTIFICATE OF THE REGISTRATION OF A FOREIGN COMPANY.

"COMPANIES ACT," PART IV., AND AMENDING ACTS.

*"The Monterey Gold Mining Company" (Foreign.)*

Registered the 9th day of March, 1897.

I HEREBY CERTIFY that I have this day registered "The Monterey Gold Mining Company" (Foreign), under the "Companies' Act," Part IV., "Regiatration of Foreign Companies," and amending Acts.

The head office of the said Company is situated at the City of Spokane, State of Washington, U. S. A.

The objects for which the Company is established are:—

To work, operate, buy, sell, lease, locate, acquire, procure, hold and deal in mines, metals and mineral claims of every description within the United States of America and the Province of British Columbia, Canada; to carry on and conduct a general mining, smelting, milling and reduction business; to purchase, acquire, hold, erect and operate electric light and power plants for the purpose of mining and treating ores, and for the purpose of furnishing lights and creating power for all purposes; to bond, buy, lease, locate and hold ditches, flumes and water rights; to construct, lease, buy, sell, build or operate railroads, ferries, tramways or other means of transportation for the transporting of ore, mining and other minerals; to own, bond, buy, sell, lease and locate timber and timber claims, and finally, to do everything consistent, proper, and requisite for the carrying out of the objects and purposes aforesaid in their fullest and broadest sense within the territory aforesaid.

The capital stock of the said Company is one million dollars, divided into one million shares of the par value of one dollar each.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 9th day of March, 1897.

# A RAILROAD

## One Will Be Built From Robson Sure.

## GOVERNMENT SUBSIDY

### The Dominion Government Will Give Heinze $8,000 Per Mile—Agreement Regarding Crow's Nest Pass Road.

The most encouraging piece of news ever brought to this city is that concerning the building of the railroad from Robson to this place, of which there is no longer any doubt. On June 2 it was given out in Ottawa that the Dominion government had closed its terms with the Canadian Pacific railroad company for the Crow's Nest Pass railroad. The agreement is as folows:

In the first place the Dominion will give $11,000 per mile to the Canadian Pacific for a road from Lethbridge to Nelson. For this amount the company will give valuable concessions. First of all it gives a large cut in rates on special artcles, of which it has handed a list to the government. Take wheat, for instance. The cut in rates on that commodity will be 1½ cents per hundred pounds next year and 1½ more per hundred the year following, making 3 cents in all per hundred. On fruit going west there will be a cut of 33⅓ per cent. On agricultural implements there is a cut of 10 per cent in rates. The object is to make it easier for the farmers. There will be reductions in rates, and the cut rates will amount to nearly $700,000 annually. The government will have control of this list of rates west of Fort William.

Again, the company will give to the government 50,000 acres out of its land grant of 250,000 of coal lands awarded to the British Columbia Southern. This 50,000 acres will be selected in small blocks, the government having the first choice of a block and the company the second choice, on the checker board plan. There will be no monopoly in coal lands. Besides this, the company cannot sell coal for a higher price than $2 per ton free on board the cars, and at no time can it charge more than 75 cents per ton profit.

It is understood that other roads have running powers through the pass. Work will be proceeded with at once.

Minister Blair stated in answer to a question that from Nelson to Penticton the government had decided to give a subsidy to an independent company. Asked if it was to Heinze he said that it was not finally closed. However, it is as good as closed, and the Columbia & Western, of which F. August Heinze is the promoter, will get a subsidy of $8,000 per mile. This would be the first installment of the road to the Pacific coast and would at once give a connection by the way of Okanagan lake and the Shuswap road to the Pacific coast cities.

This means that the contemplated route from Robson down the east side of Christina lake to Cascade and up the Kettle river to Grand Forks will be used, and that this most potent wish of our citizens, that railroad connection with the outside world may be secured, will be realized.

## NELSON NOTES.

### Much Work on the Properties Near There.

Nelson, Wash., June 8.—[Special correspondence.]—Although matters are rather quiet at this point just now, considerable work is being done and much more is projected in the various properties tributary to the town.

A Mr. Goerokie has just secured a contract to sink a 50-foot shaft on the Dixie Queen claim in Curlew camp, and work will be commenced as soon as men and supplies can be got on to the ground.

Mr Drake is working a crew of men on his properties on La Fleur mountain.

White has put twelve or fourteen men at work on the Lone Star and Washington claims, and is enlarging his bunkhouse to accommodate a still larger force. He will continue work all through the summer.

The Monumental Mining and Milling company are working a crew of men on their properties up Lone Ranch creek with very good results.

Some splendid "gravestone" free milling quartz was brought in during the week from the Black Tail claim in Eureka camp.

A new strike, which promises to bring riches to the lucky owner, was made the other day on the Surprise claim, located just across the river, and not over one-half mile from the town. Bert Campbell, the fortunate owner, is much elated over his assay returns, which ran $46 in gold, and enough silver and copper to bring the total up to $59.

A great deal of work is being done in Eureka and Wolf's camp, from thirty to forty men being employed on the various properties in the former camp.

Material is now on the ground and work progressing on the schoolhouse, which is being erected by private subscription. When completed it will be 24x40 feet.

J. Y. Jaskulek, lately in the jewelry business in Portland, Oregon, has erected a fine building and is putting in a large stock of general merchandise, tinware, etc. He will run a jewelry and watch repair shop in connection.

Great preparations are being made by the committee having the matter in charge for a grand celebration to be held here on the Fourth of July. There will be fireworks, horse races, dancing, etc., and it is expected that large numbers will be in attendance from Midway, Anaconda, Greenwood, Grand Forks, Carson, and all the other towns in the vicinity. Come, everybody, Americans and Canadians, alike, and join us in celedrating the birthday of our great and glorious nation.

# SAD AFFAIR.

## Young Man Swells Up and Bursts.

## WAS CAUSED BY DRINK

### Forced to Buy Two Gallons of Beer He Drinks Himself to Death to Save the Beer.

In the gateway city in the land of Beesee there dwelt in the year of our Lord eighteen hundred and ninety-seven, a man, and the man's name was Timothy, and beside him there dwelt another man, and his name was Hewitt.

And it came to pass in those days that Timothy said unto himself: "Behold, I will build me a brewery that my days and my sack may be long in the land."

And there came unto him Hewitt, and together they builded a brewery, and the size thereof was eight cubits wide, twelve cubits long and six cubits high.

And they builded it over against a bank whereon it is said the serpent dwelleth; he with the whangdoodles on his tail.

And behold, the people gathered themselves together and went unto the brewery; and they drank the beer thereof and made a joyful noise so that they knew not when the night came nor remembered them of the women of the tribe awaiting at home with broom sticks and scalding water.

Now in those days across the river there dwelt a tribe called "council," and they were mighty men; small in numbers but great in ideas; mighty men were they and their word was law in the land.

And the council gathered themselves together and said one to another: "Lo, the people are going strong against the brewery, and are becoming filled with the fullness thereof. Now, therefore, let us ordain that no man may refresh himself at the brewery lest he forget to hold out the shekels wherewith to pay tribute to the houses of our tribe. Are not two of us who have inns able to supply sufficient boozerino to satisfy the propensities of this people?"

And the council ordained as follows: "No man shall forthwith buy of the brewery beer less than at one time two gallons; and whosoever purchaseth them two gallons of the brewery shall not regale themselves on the premises thereof but shall go away into some secret place and there enjoy the fruits of their foolishness."

And it was writ in letters of black so that all the people could read, and behold, when the law became known unto the people there was weeping and gnashing of teeth and for seven hours the whole tribe sat in sack cloth and ashes; then they arose and went straight and bought them each a two-gallon "growler;" even some of the council, also, one for every man of the tribe.

And there came up into the land of Beesee out of the land of Us a young man, a stranger; in his own home a virtuous and sober man; and he knew not the ordination of the council for he was new to the land of Beesee and knew not the strange and wonderful doings of that land.

Then came the sun forth from the clouds and shone with great heatness and the day was very hot, and the stranger from the land of Us was of a great thirst even so that his tongue clove to the roof of his mouth.

Casting about him for some way in which to quench his consuming thirst he spied the brewery and said unto himself: "Lo, I will go me unto the brewery and there purchase a small 'growler' of beer for I am much athirst."

But when he had come unto the brewery behold he could not purchase a small "growler" for the law of the council said, "not less than two gallons."

So when he had purchased the two gallons he retired unto the hilltop back of the brewery and there did drink of the beer.

But as he was a young and virtuous his thirst was soon quenched and of the beer there was yet left seven quarts and one pint.

That he should not suffer the loss of all this beer the young man drank on, and at the going down of the sun the young man was gloriously drunk, and there was yet left five quarts.

And the mosquito and the whangdoodle serpent came forth and saw the young man and did bite him; but he heeded them not but still drank the beer.

All through the night did he drink and swelled him up with a mighty swelling.

And even as the sun rose over the mountain tops the young man burst and his fragments were scattered over the land, frightening the mosquito and the whangdoodle-tailed serpent; and of the beer there was yet left three pints.

And in the far off land of Us the young man's relations, even his father and his mother, his sisters and brothers, cousins, uncles and aunts, did mourn much and cry out loud against the tribe of "council."

And so did the people of the gateway city of the land of Beesee.

## 'ERE THE SNOW FLIES.

A great future is shaping for Grand Forks. It does not take a particularly close observer to note the continued accumulation of evidence in support of this statement. The latest and greatest proof lies in the fact that an agreement has been reached between the dominion government and August Heinze of the Columbia & Western railroad, for the building of a road from Robson to Penticton. With the provincial and dominion governmental subsidies Mr. Heinze will have cash enough to assist very greatly in building the road. The provincial government allows him $4,000 per mile, and just double this amount has been offered by the dominion, so that for every mile of track that he lays he will receive $12,000 from governmental sources.

Joining the Crow's Nest Pass railroad on the east at Nelson, B. C., and on the west making connection with the Shuswap & Okanogan system at Penticton, thus the Columbia & Western road will complete a railroad system connecting the eastern provinces with the Pacific coast and passing through the heart of the great mineral belt. Speaking of the railroad proposition the Rossland Miner says:

"In our congratulations over the building of the Crow's Nest road we should not forget the very important work of building a line from the Columbia river to Penticton, which has been given to Mr. Heinze. This is the first step in the securing of a new Canadian line to the Pacific coast. Its immediate importance will consist in giving a railroad to the Boundary mining camps. Grand Forks will have a railroad before the snows of another winter come. This will give a tremendous impetus to all the country west of Rossland as far as Okanogan lake. One can hardly realize what all this means to British Columbia."

Grand Forks is indeed to be congratulated. The action of the dominion government marks an epoch in the history of this city, the importance of which cannot be over-estimated. It means that mine development will be stimulated to a point where a largely increased amount of ore will be produced and employment given to a great many miners. It will be an incentive to claim owners to take steps to prove the value of their properties and make mines out of them if they contain the mineral to warrant their being called by that name.

In fact the great question of the development of this district has been hanging upon the one point of railroad transportation, and it has now become a certainty that this important adjunct will not be lacking much longer, but that Grand Forks will have a railroad 'ere the snow flies.

## Fire! Fire!! Fire!!!

What are we going to do about it when some night we hear this cry ring out in the business part of the city. The very thought of a fire becoming started during this weather when wood will almost burn without artificial assistance is appalling, for the reason that with this thought comes the one that the city has no means of resisting the progress of a conflagration except the unorganized individual efforts of the citizens.

It is time that a volunteer fire organization were effected, and the MINER would suggest that a mass meeting of our citizens be held at once and ways and means devised whereby protection to our residences and business houses may be provided for. A volunteer bucket brigade should be formed by the selection of a captain and such other officers as may be found necessary. Every man and boy in the city should place his name on the list and then a few practice drills be held in order that some system may be adopted which everyone will understand and be ready to put into practice at a moment's notice. Two or three hundred buckets should be secured and distributed along Riverside avenue and kept filled with water, to be used for prompt work in case a fire starts. Then with a line of men passing water from the river to the fire there might be some show of extinguishing the blaze.

The waterworks system will not be in before fall and meantime the city should have some means of fighting fire. There are too many good buildings in the city to warrant further delay in the matter of affording fire protection.

## GREEN EYE.

The Boundary Creek Times in its last issue sets up a horrible wail about the establishment of the Grand Forks mining division, claiming that the boundaries were established against the wishes of a majority of the residents of this section. The Times must not forget that the people of Greenwood form but a small portion of the residents of this district. The boundaries of the Grand Forks mining district are established in the most natural place for them, the watershed of the district being the most natural dividing line obtainable. Greenwood, Wellington, Summit and Pass creek are and always have been naturally tributary to Grand Forks, no matter what the residents of the other parts of the district may say, and the government in establishing the boundaries of the new division have shown their appreciation of this fact. The Times' wail savors somewhat of green-eyed jealousy.

## STAGE ACCIDENT.

BREAKING OF A BRAKE RESULTS IN W. M. PELKY BEING SERIOUSLY INJURED.

The first serious accident of this summer to the stage occurred Tuesday night about four miles this side of Toulou's where the first change of horses from Marcus is made. An exceptionally light load was on the stage, there being only six passengers aboard. Two of these, K. K. Peitser, a drummer of Victoria, and W. M. Pelky, a passenger brakeman of the Spokane Falls & Northern railroad, were riding with the driver, Chas. Mitchell, on the front seat. Four miles from Toulou's there is a steep hill in a canyon. When a heavy load is being brought in the passengers sometimes walk down this and other places on the road, but Tuesday night Mitchell did not deem it necessary on account of the light load that any should leave the stage.

Near the top of the hill the brake gave way and the four horses, impelled by the weight of the stage, dashed for 250 yards down the steep hill. Mitchell kept control of them and guided them, however, until one of the reins of the lead team broke, then they ran out of the road and the stage brought up against a tree. The three occupants of the front seat were thrown forward on to the horses. Pelky, who sat on the outside, had his left shoulder and collar bone broken and was badly bruised. The drummer struck on his head and so escaped without serious injury. Mitchell also was unhurt and managed to hold the horses. The four passengers inside the stage were badly shaken up but none of them were hurt. One of the front wheels of the stage was smashed and the axle bent, but the damages to the vehicle were not so serious as might have been expected considering the nature of the smash-up.

Pelky was taken to Bossburg for medical treatment and Mitchell went back to Toulou's for the extra stage and a change of horses. The accident delayed the arrival of the stage until 1 o'clock Wednesday morning.

The passengers say that no blame can attach to the driver, Mr. Mitchell, but that on the contrary he displayed remarkable ability and nerve in not letting the horses at any time get the best of him.

## FORESTER'S FIRST.

FIRST SECRET SOCIETY OF THE CITY INSTITUTED TUESDAY NIGHT.

Deputy Supreme Chief Ranger J. H. Falconer instituted a court of the Independent Order of Foresters in this city last Tuesday evening with about 30 members on the charter roll,

The installation took place in the Grand Forks Club rooms and was most successfully carried through. At the close of the proceedings a vote of thanks was extended to Brother Falconer and the recording secretary was ordered to forward a copy of the same to the supreme court in Toronto.

The following officers were selected to serve for the first term: C. R., J. A. Dinsmore; P. C. R., W. K. C. Manly; V. C. R., A. B. Hart; Chaplain, E. Spraggett; treasurer, A. C. Sutton; financial secretary, John D. Swanson; recording secretary, Geo. W. Ingraham; physician, Dr. W. G. Hepworth; S. W., G. E. McCarter; J. W., C. C. Emmert; S. B., James Seales; J. B., Geo. Wassai; trustees, Dr. G. W. Averill, A. G. Beals, and Neil McCallom.

## The Council Meets.

The adjourned meeting of the city council was held last Saturday evening at 8 o'clock in the Club room.

The mayor and all the members of the council being present, the matter of voting on the liquor license by-law was then taken up, the subject under consideration being whether saloons should be granted license or not.

Alderman Johnson moved, seconded by L. A. Manly, that voting on this subject be made by ballot. The motion was put and carried, when the votes were taken and were as follows: for saloons, 1; against, 6. The bill was then read the third time and passed, a couple of alterations being made, such as not restricting the number of hotels in the city; also requiring each hotel to have ten bedrooms for guests instead of twenty, as was at one time under consideration. This by-law with these alterations was passed and is now in force in the city.

By-law No. 1, respecting the proceedure, which had already been before the council, was read the third time, by Dr. Hepworth, chairman of the special committee, and was then passed.

On motion of Aldermon W. C. K. Manly the meeting then adjourned.

Messrs. McMynn and McQuaig are about to survey twenty acres of their land at the foot of Christina lake into town lots, which will be placed on the market as soon as the survey is completed.

Short order lunches at all hours at the Arcadia.

**APPLICATION FOR TRANSFER OF LIQUOR LICENSE.**

NOTICE IS HEREBY GIVEN that Ezra Inbody, of the City of Grand Forks, intends to apply to the Board of License Commissioners for the City of Grand Forks at the next meeting for a transfer from Mrs. Aggie W. Preslar to him of the license to sell liquors by retail in the building known as the Cosmos Hotel situate on Lot 20, Block 2, in Grand Forks aforesaid, now held by the said Mrs. Aggie W. Preslar; and further take notice that the said Mrs. Aggie W. Preslar consents to the said transfer.

EZRA INBODY,
AGGIE W. PRESLAR,

Dated at Grand Forks B. C., May 8, 1897.

No. 396.

## NOTICE.

The sitting of the County Court of Yale will holden at

MIDWAY ON 31ST JULY, 1897,
AND
AT GRAND FORKS ON 2D AUGUST, 1897,

at the hour of 10 o'clock in the forenoon, respectively.

By command W. G McMYNN,
Government Office, Midway, B. C. } D. R. C. C
June 1, 1897.

YALE DISTRICT.

Notice is hereby given that the following definition of the Kettle River Mining Division is substituted for the description of the said division hitherto in force:

KETTLE RIVER MINING DIVISION.

Commencing at a point on the International Boundary, being the southeastern corner of township 70, Osoyoos District; thence northerly following the westerly boundary of the Grand Forks Mining Division to its intersection with the south boundary of Vernon Mining Division; thence west along the said boundary to the 119th degree of west longitute; thence due south to the International Boundary; thence east to the point of commencement.

Notice is hereby given that the land comprised within the undermentioned boundaries is created a Mining Division, under the style of the Grand Forks Mining Division.

GRAND FORKS MINING DIVISION.

Commencing at a point on the International Boundary, being the southeasterly corner of Township 70, Osoyoos District; thence northerly, following the height of land forming the watershed between the North Fork of Kettle river and Boundary creek and Kettle river to its intersection with the south boundary of the Vernon Mining Division; thence east along the said boundary to the western boundary of the West Kootenay District; thence southerly, following said boundary to the International Boundary; thence west, following the International Boundary to the point of commencement.

By command JAMES BAKER,
Provincial Secretary and Minister of Mines.
Provincial Secretary's office, 22d May, 1897.

No 404.

**CERTIFICATE OF THE REGISTRATION OF A FOREIGN COMPANY,**

"COMPANIES' ACT." PART IV., AND AMENDING ACTS.

*"The Yellowstone Gold Mining Company" (Foreign.)*

Registered 9th day of March, 1897.

# A RAILROAD

## One Will Be Built From Robson Sure.

## GOVERNMENT SUBSIDY

### The Dominion Government Will Give Heinze $8,000 Per Mile—Agreement Regarding Crow's Nest Pass Road.

The most encouraging piece of news ever brought to this city is that concerning the building of the railroad from Robson to this place, of which there is no longer any doubt. On June 2 it was given out in Ottawa that the Dominion government had closed its terms with the Canadian Pacific railroad company for the Crow's Nest Pass railroad. The agreement is as folows:

In the first place the Dominion will give $11,000 per mile to the Canadian Pacific for a road from Lethbridge to Nelson. For this amount the company will give valuable concessions. First of all it gives a large cut in rates on special artcles, of which it has handed a list to the government. Take wheat, for instance. The cut in rates on that commodity will be 1½ cents per hundred pounds next year and 1½ more per hundred the year following, making 3 cents in all per hundred. On fruit going west there will be a cut of 33½ per cent. On agricultural implements there is a cut of 10 per cent in rates. The object is to make it easier for the farmers. There will be reductions in rates, and the cut rates will amount to nearly $700,000 annually. The government will have control of this list of rates west of Fort William.

Again, the company will give to the government 50,000 acres out of its land grant of 250,000 of coal lands awarded to the British Columbia Southern. This 50,000 acres will be selected in small blocks, the government having the first choice of a block and the company the second choice, on the checker board plan. There will be no monopoly in coal lands. Besides this, the company cannot sell coal for a higher price than $2 per ton free on board the cars, and at no time can it charge more than 75 cents per ton profit.

It is understood that other roads have running powers through the pass. Work will be proceeded with at once.

Minister Blair stated in answer to a question that from Nelson to Penticton the government had decided to give a subsidy to an independent company. Asked if it was to Heinze he said that it was not finally closed. However, it is as good as closed, and the Columbia & Western, of which F. August Heinze is the promoter, will get a subsidy of $8,000 per mile. This would be the first installment of the road to the Pacific coast and would at once give a connection by the way of Okanagan lake and the Shuswap road to the Pacific coast cities.

This means that the contemplated route from Robson down the east side of Christina lake to Cascade and up the Kettle river to Grand Forks will be used, and that this most potent wish of our citizens, that railroad connection with the outside world may be secured, will be realized.

### NELSON NOTES.

MUCH WORK ON THE PROPERTIES NEAR THERE.

NELSON, Wash., June 8.—[Special correspondence.]—Although matters are rather quiet at this point just now, considerable work is being done and much more is projected in the various properties tributary to the town.

A Mr. Goerokie has just secured a contract to sink a 50-foot shaft on the Dixie Queen claim in Curlew camp, and work will be commenced as soon as men and supplies can be got on to the ground.

Mr. Drake is working a crew of men on his properties on La Fleur mountain.

White has put twelve or fourteen men at work on the Lone Star and Washington claims, and is enlarging his bunkhouse to accommodate a still larger force. He will continue work all through the summer.

The Monumental Mining and Milling company are working a crew of men on their properties up Lone Ranch creek with very good results.

Some splendid "gravestone" free milling quartz was brought in during the week from the Black Tail claim in Eureka camp.

A new strike, which promises to bring riches to the lucky owner, was made the other day on the Surprise claim, located just across the river, and not over one-half mile from the town. Bert Campbell, the fortunate owner, is much elated over his assay returns, which ran $46 in gold, and enough silver and copper to bring the total up to $59.

A great deal of work is being done in Eureka and Wolf's camp, from thirty to forty men being employed on the various properties in the former camp.

Material is now on the ground and work progressing on the schoolhouse, which is being erected by private subscription. When completed it will be 24x40 feet.

J. Y. Jaskulek, lately in the jewelry business in Portland, Oregon, has erected a fine building and is putting in a large stock of general merchandise, tinware, etc. He will run a jewelry and watch repair shop in connection.

Great preparations are being made by the committee having the matter in charge for a grand celebration to be held here on the Fourth of July. There will be fireworks, horse races, dancing, etc., and it is expected that large numbers will be in attendance from Midway, Anaconda, Greenwood, Grand Forks, Carson, and all the other towns in the vicinity. Come, everybody, Americans and Canadians, alike, and join us in celedrating the birthday of our great and glorious nation.

# SAD AFFAIR.

## Young Man Swells Up and Bursts.

## WAS CAUSED BY DRINK

### Forced to Buy Two Gallons of Beer He Drinks Himself to Death to Save the Beer.

In the gateway city in the land of Beesee there dwelt in the year of our Lord eighteen hundred and ninety-seven, a man, and the man's name was Timothy, and beside him there dwelt another man, and his name was Hewitt.

And it came to pass in those days that Timothy said unto himself: "Behold, I will build me a brewery that my days and my sack may be long in the land."

And there came unto him Hewitt, and together they builded a brewery, and the size thereof was eight cubits wide, twelve cubits long and six cubits high.

And they builded it over against a bank whereon it is said the serpent dwelleth; he with the whangdoodles on his tail.

And behold, the people gathered themselves together and went unto the brewery; and they drank the beer thereof and made a joyful noise so that they knew not when the night came nor remembered them of the women of the tribe awaiting at home with broom sticks and scalding water.

Now in those days across the river there dwelt a tribe called "council," and they were mighty men; small in numbers but great in ideas; mighty men were they and their word was law in the land.

And the council gathered themselves together and said one to another: "Lo, the people are going strong against the brewery, and are becoming filled with the fullness thereof. Now, therefore, let us ordain that no man may refresh himself at the brewery lest he forget to hold out the shekels wherewith to pay tribute to the houses of our tribe. Are not two of us who have inns able to supply sufficient boozerino to satisfy the propensities of this people?"

And the council ordained as follows: "No man shall forthwith buy of the brewery beer less than at one time two gallons; and whosoever purchaseth them two gallons of the brewery shall not regale themselves on the premises thereof but shall go away into some secret place and there enjoy the fruits of their foolishness."

And it was writ in letters of black so that all the people could read, and behold, when the law became known unto the people there was weeping and gnashing of teeth and for seven hours the whole tribe sat in sack cloth and ashes; then they arose and went straight and bought them each a two-gallon "growler;" even some of the council, also, one for every man of the tribe.

And there came up into the land of Beesee out of the land of Us a young man, a stranger; in his own home a virtuous and sober man; and he knew not the ordination of the council for he was new to the land of Beesee and knew not the strange and wonderful doings of that land.

Then came the sun forth from the clouds and shone with great heatness and the day was very hot, and the stranger from the land of Us was of a great thirst even so that his tongue clove to the roof of his mouth.

Casting about him for some way in which to quench his consuming thirst he spied the brewery and said unto himself: "Lo, I will go me unto the brewery and there purchase a small 'growler' of beer for I am much athirst."

But when he had come unto the brewery behold he could not purchase a small "growler" for the law of the council said, "not less than two gallons."

So when he had purchased the two gallons he retired unto the hilltop back of the brewery and there did drink of the beer.

But as he was a young and virtuous his thirst was soon quenched and of the beer there was yet left seven quarts and one pint.

That he should not suffer the loss of all this beer the young man drank on, and at the going down of the sun the young man was gloriously drunk, and there was yet left five quarts.

And the mosquito and the whangdoodle serpent came forth and saw the young man and did bite him; but he heeded them not but still drank the beer.

All through the night did he drink and swelled him up with a mighty swelling.

And even as the sun rose over the mountain tops the young man burst and his fragments were scattered over the land, frightening the mosquito and the whangdoodle-tailed serpent; and of the beer there was yet left three pints.

And in the far off land of Us the young man's relations, even his father and his mother, his sisters and brothers, cousins, uncles and aunts, did mourn much and cry out loud against the tribe of "council."

And so did the people of the gateway city of the land of Beesee.

# KNOCKED OUT

## Worse Than Fitzsimmon's Terrible Left.

## NINETEEN WENT DOWN

Innocent Looking Pieces of Meat But Charged to the Muzzle With Poison — Reward Offered.

The blow has fallen.

Nineteen have gone and still the victims fall.

Dog life in Grand Forks has lost its joys.

A pall hangs over our usually bright and cheerful city. The streets, which in the not far distant past fairly teemed with dogs of all kinds, sizes and degrees, are now silent and deserted save where some poor, friendless cur unwarned of the terrible fate which lies in wait for him, flits aimlessly around the street corners and wonders where all his old-time companions have "pulled their freights" to.

The dog poisoner is abroad in the land and large-sized chunks of gloom have settled down upon the souls of a large number of our ex-dog owners.

The trouble began about 9:30 last Tuesday evening when "Crazy Jack," the lean, hungry looking black cur which has made the corner of Riverside and Bridge streets its loafing place for the past few months, wandered into L. A. Manly's saloon with a piece of meat he had picked up from the street. He was chewing away very contentedly when he suddenly stopped as though struck

"OH, DEAR, MOTHER, WHAT A PAIN I'VE GOT!"

by a brilliant idea, sat up with a look of pained surprise on his face, clasped himself around the stomach with both front paws and began to sing Harry Shead's favorite song, "Oh, Dear, Mother, What a Pain I've Got!" Then he went off into a rapid succession of fits.

In less time than it takes to tell every man in the saloon was perched up on the counter and there they remained until the poor dog had passed in his checks.

From that time on until Thursday evening they went thick and fast. About the same time "Crazy Jack" was shuffling off his mortal coil Wiley Glover's fine water spaniel, "Frank," was attacked in much the same manner in Van Ness's saloon and died soon afterward. Then followed in rapid succession Joe Galinas' Scotch terrier, Mayor Manly's collie, "Paddy," and a number of other valuable dogs.

Wednesday morning the fun started again by Charles Emmert's dog "Frank" getting a dose and succumbing in a few moments. Then H. A. Huntley's Mexican hairless dog went under, and others followed every few minutes throughout the day until nineteen had gone down before the unseen destroyer.

"REQUISCAT IN PACE."

The poisoner, whoever he was, did his work well, the poison turning up in all parts of the city at once.

A reward has been offered for the discovery of the dastard who spread the poison, and those who have lost their pets are living in hope that he may be brought to justice.

While this city was overrun with worthless and ownerless dogs, still nothing too severe can be said in execration of the person who carried on this wholesale slaughter. As is always the case the worthless dogs escaped and the valuable animals were destroyed.

If the perpetrator of the deed can be discovered he should be given the full extent of the law.

## ALL SORTS OF NEWS

R. M. Grogan, a prominent mining man of Rossland, is in the city.

H. M. Rogers, of Spokane, was among the arrivals on Thursday's stage.

W. R. Bird and W. H. Webb, of Rossland, came in on the stage Thursday night.

J. F. Cameron, a prominent mining man of Spokane, is looking up properties in this section.

A recent assay from the croppings of the Pearl property at Christina lake ran as high as $19.75 in gold.

J. S. Williams, a Chicago capitalist, arrrived on Thursday to look over the mining properties of this section.

D. Johnston, a real estate man of Rossland, has been looking up the business of the city the past few days.

F. Dittmer, of Greenwood, one of the early pioneer prospectors of this district, came down to the metropolis Tuesday to witness some building activity.

D. M. Drumheller, ex-mayor of Spokane and president of the Traders' National bank of that city, has been in Grand Forks during the past week. Mr. Drumheller has mining property on La Fleur mountain.

Paul Bataglia was in the city this week, and reports the Bluebird property on Hardy mountain looking well. He says that there are now four miners at work on the claim, and that good ore has been struck only a few feet from the surface.

John Murphy, and others who own the Cobbler's Joy claim, on the west side of Christina lake, have struck a big lead, the ore being rich in copper and gold. The gentlemen have other claims in the same section that are also showing up well.

# A BIG THING

## Thirty Feet of Solid Ore On the Surface.

## KEOUGH'S BIG BONANZA

The B. C. in Summit Camp Takes Rank With the Biggest Propositions in the Country— Mining Notes.

Some samples of ore were brought into the city on Monday last from a strike in the B. C. claim, in Summit camp which, if the showing continues, places that property in the front rank with the bonanza claims of the whole country.

The ore brought into town is solid copper and iron sulphides, and in appearance more closely resembles the ore from the Le Roi at Rossland than anything yet produced from this district.

Mr. Keough informs us that an open crosscut was started on the property last week, and before a foot of depth had been gained the entire workings were in solid ore, like that brought to town. The crosscut was continued and shows the ore body to be full thirty feet wide, of solid ore.

During the week an assay for copper was made from the rock with returns of 10 per cent copper, which, considering that it is surface rock, is almost remarkable.

Development on the property will be pushed ahead until it is fully determined whether or not the expectations raised by this wonderful surface showing are justified.

### On the Coin.

J. A. Elliott was down during the week with some fine samples of ore from the Coin, on the Summit trail, about four miles from the city. The specimens, which were taken from the 12-foot level, were very fine and seemed to be almost solid fine-grained galena, with some iron and copper.

The Coin has now become quite a well known property, and as it is so close to town may be easily visited by anyone who may be desirous of seeing for themselves the splendid showing being made.

As the formation on the surface is very much broken up the ore is as yet somewhat scattered, but there is small doubt but that with depth the ore body will become more concentrated, and the Coin will make a mine.

### Boneta Pegging Away.

Work is still progressing on the Boneta, the heavy showing of mineral reported last week still continuing and being much improved.

At the rate of progress now being made there seems no doubt that the ore body will soon be tapped.

### Notice.

Owing to a change in the firm our accounts must be settled at once, and the same are placed in the hands of Filley & Ogden for immediate settlement.

### City License Commissioners.

City Clerk Cayley received a dispatch from Victoria last Saturday evening to the effect that the lieutenant-governor in council had appointed Richard McCarren and A. J. Aikman license commissioners, who, with Mayor Manly, will make the board.

The duties of the above board shall be to grant liquor licenses in the city to such parties as to them may seem advisable, subject of course to the provisions in the liquor license by-laws recently passed by the council.

### Showing up Well.

Julius Elrich, part owner of the well known Humming Bird claim up the North Fork, was in town this week and reports that property never looking better. He says there are at least three distinct ledges running through it which have pay ore right from the grass roots, there being no iron capping, as is usually the case with these properties.

### A Fine Showing.

The Evening Star on Goat mountain some three miles from the city is showing up well. A recent assay of $41.70 in all values was made from a sample taken from a 10-foot shaft on the claim. It is owned by Gaffert and Anderson, who are confident that they have a mine in this property.

### NOTICE TO JOINT STOCK COMPANIES.

THE following section, numbered 161, of the "Companies Act, 1897," relative to the issue of a free miner's certificate is published for the information of JOINT STOCK COMPANIES.

JAMES BAKER,
Minister of Mines.

Provincial Secretary's Office, 14th May, 1897

161. Notwithstanding anything to the contrary in section 4 of the Mineral Act, 1896, or section 4 of the placer Mining Act, 1891, or elsewhere in the said Act or under the mining laws of the province, no free miner's certificate shall be issued to a joint stock company for a longer period than one year, and such certificate shall date from the 30th day of June in each year, and every free miner's certificate held by a joint stock company at the passing of this Act shall be valid and existing until and shall expire on the 30th day of June, 1897. Upon applying to renew any such certificate on or before the 30th day of June, the joint stock company shall be entitled to a rebate of a proportionate amount of the fee paid for a certificate heretofore issued according to the further time for which it would but for this section have been valid.
