How the Luminaries Came and Vanished

A Scene From Real Life at Steele--Progress at Moyie -- At Sifton--General News

[From Our Own Correspondent.]

FORT STEELE, September 25.—The principal event in the history of Fort Steele this week was the visit of Hewitt Bostock, M. P. He arrived on Monday afternoon and that night a banquet was tendered him at the Central Hotel by the Board of Trade of this town. This feast, the first of its kind given here, is memorable alike for its social and culinary success and for the hearty co-operation of both political parties in paying their respect to their worthy representative. The dividing lines of last June twelve months, and all political differences, were swept aside for once, and all joined hands to do honor to their guest.

At the head of the banquet table sat R. L. T. Galbraith Esq; to his right Mr. Bostock, and to his left F. P. Norbury, President of the Liberal Association of Fort Steele, while the vice chair was becomingly filled by J. A. Harvey, Chairman of the Board. The customary toasts and responses, interspersed with songs from D. A. McIntosh, the sweet singer of Fort Steele, and others, succeeded the destruction of the viands, and the singing of "God save the Queen" by everybody brought the happy event to a close.

MR. BOSTOCK'S DOINGS AND SAYINGS

The following day Mr. Bostock, in company with Indian Agent Galbraith, visited the Dominion Government Industrial School for Indian children at Mission, and in the evening addressed a large gathering of the citizens of Fort Steele and adjoining districts in the Coventry Opera House here. Mr. Bostock was listened to with much attention, and repeatedly applauded throughout his address, and loudly cheered at the end.

Having visited the Invicta Hydraulic mine on Wild Horse, he took his departure to Cranbrook and Moyie, thence to Wardner and on to Kalispel, Mont., where he would take the train for West Kootenay en route to his own home.

DESCENT OF THE RAILWAY LUMINARIES

The event which in the minds of some was even to transcend that of Mr. Bostock's visit was the anxiously looked for coming of certain railway luminaries, to wit Collingwood Schrieber, Deputy Minister of Railways and Canals, and M. J. Haney, Great Mogul of the C. N. R. construction. When they would appear was even beyond the astute reckoning of the Prospector, for these terrestrial bodies are considered somewhat erratic in their movements, and it is said there is a Joshua that at any moment may command them to stand still. However couriers were daily arriving from the east who reported having seen or heard of their gradual approach. The rate of their movements was noted, the distance to be travelled compared, and the time of arrival at Fort Steele definitly calculated to be "Dinner, Thursday September 23, 1897." Too indefinite! Too indefinite! "When do these railway comets dine?" "Whenever they are hungry" replies one. "At 1 o'clock p.m." says another. "No sensible man would take dinner at such an hour, but in the cool of the evening shades. The atmosphere is sufficient to inflate the stomach." remarks a third. 'Tis 11.30 a.m. the atmosphere seems to grow hot, large drops of sweat are observed on Venosta's brow. Crowds gather on the shady side of the street and in breathless silence await, as though it were the coming of doom. With anxious look they ask "Whence will they come—by way of Wardner or descend they from the clouds?" A sentinel is posted on Nigger's back, a mile without the town. One dare-devil climbs the slender flag pole that tops the Coventry Opera House. Hark, the shout! "They come, they come!" as the well known tramp of Nigger's feet are heard upon the bridge. Far down the Wardner trail, in a pillar of cloud—of dust, is seen their chariot car. Then there was hurrying to and fro. Galbraith donned his stoutest coat of mail; Venosta wiped away the perspiration, tightened up his belt and took another reef in the bottoms of his pants; Harvey called together the members of the Board of Trade in the quiet seclusion of the Prospector's sanctum; Dr. Watt ordererd the ambulance to be in readiness and the operating table removed to the Prospector's back yard; a host of would-be tie contractors took up their positions in door ways and other points of vantage along the supposed line of march; Ross was in the act of making inspection from a legal standpoint, and seeing that everything was in statutory array, when whirr-r-r, whip snap, bang, the chariot ascended the hill and drew up in front of Carlin & Durick's store; accompanying Mr. Schrieber was Deputy Minister of Justice Newcombe, while M. J. Haney was attended by Assistant Supt. of Construction P. G. Nash, and Assistant Chief Engineer McLeod and two beautiful young satellites in the persons of his own two daughters. Here the party was joined by Chief Engineer Lumsden. Taking the sidewalks in the middle of the street, for which Fort Steele is noted, the constellation moved in the direction of the Central Hotel. Everybody looked. Who would be the "first to beard the lion?" All in a trice the towering form of the vigilant Venosta was seen to stride into the middle of the street frantically waving a flag of truce. He accosted Mr. Haney, who slightly dropped behind, when the following short but significant dialogue and dumb charade took place that so often gives the pusher of the quill a "tip":—

Venosta—"Aw! Mr. Haney I perceive!"

Haney—(A side-long glance in silence.)

Venosta—"I am Mr. Venosta, mining, financial and real estate broker, sole agent for the townsite of Fort Steele, with offices in Toronto, Montreal, St. Paul, New York, London and Kallispel, and have the honor to be the secretary to the Fort Steele Board of Trade."

Haney—"Oh, yes, I remember name. I have received some letters from you re the Crow's Nest Railroad"

Ven.—"The Board of Trade through me, their humble servant, requests an interview this afternoon in the sanctum sanctorum of the Prospector office."

Han.—"Have no time for interviews today! Am going right out to Moyie."

Ven. (in blank surprise) – "Aw! Surely not, Mr. Haney! I really thought you would remain a week with us at least."

Han.—"A week, a week! My dear Mr. Venosta, no sane man would stop a week in Fort Steele!"

Ven. (recovering from the thrust and alone in the street) – "Humph, an ignorant fellow, you know!"

When the bird last saw Venosta he was going in the direction of Dr. Watt's office, presumably for an examination of his cranium. But the doctor says Venosta is all right.

In a somewhat similar manner to the above did Mr. Haney dispose of several interceptions.

But Mr. Schrieber was not so fortunate, he got a pretty tight squeeze. He had been invited into the Prospector's office where he was confronted by the majesty of the Board of Trade and menaced by the Editor's newly sharpened pencil. Here Mr. Galbraith, a skilled and wiry diplomat, wrestled him with the spirit and tenacity of a Sir Nigel Loring. Mr. Schrieber agreed to convey to the Hon. Mr. Blair the additional claims that had now been pressed upon him for a main line into Fort Steele, and to gather whatever data he could during this his official inspection of the road, and comforted them with the assurance that Fort

ROUND ABOUT THE MINES

The Pilot Bay smelter will treat ore at $2.75 per ton.

Last week silver rose to 55 cents and again receded to 53 cents.

We are informed that good ore is being got on Gid's Creek near Donald.

Lead is strong in St. Louis at 4.32½ cent Copper has risen in England to $247.62.

T. Hebsen has gone to start work on his claim at Ottertail and intends to stick to it all winter.

The Bald Mountain Co. have shiped their ore to the Victoria Metallurgical Works for a mill test.

The Chanue Mining Company have now got the extension of the old shaft on Fifteen Mile Creek down a distance of 65 feet.

Mr. Lindsay went to Ottertail on Tuesday to start development work on behalf of the new owners on the Sunday claim.

The property on Copper Creek in which Major Clohecy is interested is looking up well. The contractor has driven 29 feet.

The Robinson Company, Johannesburg, pays dividends of $2,073,050 per annum from ore that yields 19 dwts per ton of gold.

G. Willis, Manager of ahe Channe Mining Co., informs us that he has good accounts from his foreman of the results of his work on Fifteen Mile Creek.

The development work that is being done by A. J Hopkins on the claim which he recently located on Toby Creek has exhibited a pay streak of seven inches on the quartz lead.

Mr. Keyser has purchased Mr. Towns. end's terests in the Picton claim in the International Basin, and will push on development work, being well pleased with the work that has so far been done.

The Mansefield mine, which is the greatest copper mine of Germany, declares its average return to be 3.2 per cent copper and .17 k. silver. The amount of ore treated last year was 642,738 tons.

M. Dainard, who came in from Copper Creek on Sunday, reports that the tunnel on the Alberta and Kootenay Co's. claim is in 46 feet. He had an open cut made on the Doctor claim for a distance of 15 feet, and from 4 to 5 feet deep, and this cut showed up a body of 3 feet of ore, well mineralised throughout.

B. Morijeau is reported to have made another good stirke on Horsethief Creek.

It is reported that the Le Roi mine is being sold to an English syndicate for $3,500,000.

The News Advertiser reports a rich strike on Willow River, Cariboo, where the dirt ran $64 to the pan.

Capt. Armstrong and Mr. Carlin intend resuming work on the Ruth claim at the head of Vermont Creek.

The Mining and Engineering Journal states that lead was quiet during the past week but the present depression must prove temporary.

G Richardson is doing work on the property he has at the head of McMurdo Creek. The lead is six feet wide and mineralized throughout with galena.

Mr. Knowlton, of Montreal, arrived in Golden on Wednseday, and went out yesterday to Logan Creek with Mr. Lindsay to see some property in which he is interested.

Mr. Norbury informs us that there is a good deal of improvement in the mineral prospects of Fort Steele district, the development work that has been having been considerably improved the prospects.

We are glad to learn that the stamp mill recently sent to Perry Creek by Mr. Hammond is doing good work, and the ore that has recently been put through has given very good returns in freemilling gold.

Silver is going to be all right. The latest news from London is that the English Government propose to reopen the Indian mint, and raise the legal tender of silver in England from two to twenty-five pounds.

Vice-President Shaughnessy says the capitalists connected with the C. P. R., will erect a large smelter on the Columbia River and another in the Slocan disrict and connect by aerial trams built from all shipping stations.

The Mining and Scientific press says "Lead's lowest price was thirteen months ago, when the average exchange New York price was $2.73. There are several good reasons for the belief now so confidently expressed by many that it will go to $4.00.

Work has been stopped for the winter on the claims bonded by T. Mercier to the Golden and Fort Steele Development Co. Mr. Mercier informs us that he has enough ore on the dump to fill 2000 sacks. He and Mrs. Mercier intend taking a holeday trip to the east.

The B. C. Mining Journal says: "Men who have spent some time on the different streams of the Omenica, Peace and Findley Rivers and Cassiar districts are all of the same opinion that the crowds of miners will gradually drift from the Yukon down to these districts. Good pay has been found on nearly all these streams, and the climate is such that men can work with ease, compared with the Klondyke.

"It Fell From the Nest."

The above is the little of the premium picture given to subscribers of the Family Herald and Weekly Star this year. The publishers are offering $50 in prizes to anyone who can describe the picture from the title. Here is a chance for our readers. The picture "It Fell from the Nest." the Family Herald and Weekly Star and THE GOLDEN ERA one year each, all for $2.75.

Donald News

[From Our Own Correspondent.]

Mrs. R. A. Kimpton is moving "up country". She will stay at Windermere during the winter.

The building of the addition to the school is progressing favorably, but it will be near the end of the month before it it will be ready.

Last week Mr. Barron attended the teachers' convention held at Vernon, when he read a paper on arithmetic in mixed schools, and rendered great assistance in the entertainment part of the proceedings.

On Wednesday evening a jolly party assembled at the house of Mrs. Dunne, where they tripped the light fantastic until—well next morning.

The work of taking out ore in the tunnel of the Bald Mountain will be continued all winter. The miners state that they have now worked into 30 feet of solid ore without any appearance of being through it.

Rev. Mr. King announces service in the Presbyterian church on Sunday, the 10th inst., at 7.30 p.m. His subject will be "The persecutions of the early Church."

Dr. A. Munro, C. P. R. Surgeon at Kamloops, passed through from Winnipeg on Wednesday.

With reference to the reports that the Great Northern propose to build a railway up the Columbia valley to the Yukon, the President Mr. Hill, informs us that "this company has no present intention of extending to the district referred to in your letter.

FRIDAY, OCTOBER 8, 1897.

REDISTRIBUTION

The country ought to force on the Turner Government the necessity of providing a redistribution of seats before next election. We believe they will do nothing unless their hands are forced, knowing that a policy of masterly inactivity is the one means by which they can retain the reins of power for their own corrupt purposes. The population of the mainland has enormously increased since the last election and if redistribution takes place on a fair basis it means that the balance of power will be removed from the island to the mainland, and it is time it was. West Kootenay particularly is entitled to increased representation and it would seem as if East Kootenay should also have another member. We suggest that the best way of forcing the Government's hands in the matter would be by holding public meetings in the various centres and passing resolutions demanding that redistribution should be one of the first measures to be brought before the next session of Parliament.

EDUCATING THE MINERS

An institution that the Mines Department of British Columbia ought to take into consideration is the establishment of Schools of Mines. British Columbia must depend mainly for the present on the development of her vast mineral resorces, and the proper way to get the most benefit from these is by affording miners and prospectors, and the young men growing up throughout the country, the greatest facilities for acquiring the best knowledge as to mining. In connection with schools of mines the experts employed should visit the different centres during the winter months and open laboratories and give lectures. This would prove a means for the men who have each winter to seek the refuge of the towns to employ their time profitably and help themselves in their prospecting work as well as in developing the resources of the country in the best possible way.

We recently stated that the Government of B. C. had so squandered the public franchises that we should next find somebody wanting a charter over the air. We notice from the Gazette that a company has been organized to be called the "Kootenay Air Co." This company has not yet applied for a charter to bottle up the air and retail it at 10 cents a puff, but we quite believe that if the company wanted such a franchise the Turner Government would willingly help it out on the chance of a commission on the sales.

Complaints have been made to us for some time about the rows which take place in the vicinity of the Russel House. We dont see the slightest necessity for any hotel being conducted in Golden in anything but an orderly manner, but when it comes to the neighborhood being annoyed by orgies and the shouting of foul language into the ears of passers-by we think it is time the police and the Gold Commissioner took some steps to protect the public from such scandals. We never could see the necessity of granting a license to this house. There were enough bars to supply the requirements of the public, and if more accommodation was wanted it was in the direction of board and lodging. We hope the Gold Commissioner will do his duty in regard to a matter that has been a common subject of complaint for weeks past.

The time has come when the town Golden might well be incorporated, and have its own government, and expenditure of its own revenue. The question of lighting the town must soon come up for consideration and we would rather see electric lighting in the hands of the corporation that any private individuals or company. Then there are the questions of beautifying and improving the town, which under the Provincial administration are neglected. This and other work of value could be taken up if the town were incorporated and had its own administrative body. Another thing that incorporation would do is to cause the people of Golden to take a greater interest in public affairs which at the present time are utterly neglected.

AROUND CANAL FLAT

Findlay Creek -- Its Prospects as a Placer Field--The Sun Lake and Jupiter Groups

Mr. Brady, M. E., of the firm of Brady & Moynihan, Mining Engineers of Rossland, recently spent some time at Canal Flat in the course of which he made a close inspection of Findlay Creek as a placer field. For the first seven or eight miles above its junction with the Kootenay River, Findlay Creek passes through a succession of deep rocky canyons, with occasional high gravel banks, benches or bars at a higher level than the present stream. The rock consists of slate or schists cut by dykes of diorite and occasional bands of limestone, more or less seamed with quartz. Many quartz lodes cross the creek, some running with the strike of the country rock, with other lodes that are larger and stronger, cutting across these. These leads are more or less impregnated with iron pryites, copper and other sulphurets, such as usually accompany gold in quartz. Galena is also frequently present. For the next five miles up stream the creek goes through deep deposits of gravel, forming benches and terraces on either side from 20 to 200 feet above the bed of the present stream, and extending back from a few hundred feet to half a mile or more. These immense gravel deposits seem to have been formed by a large ancient river coming in from the north and flowing out through the canyon at the south branch of the Findlay Creek, and they have since been cut through by the more modern stream now forming the Findlay Creek and its tributaries. The present bed of the main branch of Findlay Creek is from 10 to 15 feet below the surface of the gravel deposit, except perhaps at the mouth of the creek. The present channel of the ancient river appears to have been on the south branch, where it would appear to have been deeper than the present channel of Findlay Creek.

White Tail Creek, the modern representative of the great river that once came in from the north, has dwindled down to a stream of 50 miners' inches, having its source in a shallow lake or pond about a mile and a half above the canon.

The bed rock of the great gravel deposit is chiefly soft talcose, chloritic and argillaceous slates, graduating into harder schists on the side hills and into granite rock on the summits. The slates carry innumerable seams, veins, lodes and irregular masses of quartz, with sulphurets of iron, copper, lead, &c. The dykes are composed of a greenish, fine-grained dioritic rock, also seamed with metalliferous quartz occurring in place, forming the falls and rapids of Findlay Creek, and in some cases the rim rock of the old channels.

The wash consists of sand, clay, gravel and boulders, with a false bottom of ferruginous gravel cement in many places and at varying heights above Findlay Creek. Good prospects of fine and coarse gold are found in this cement, and the ground below it has never been properly tested. Fair prospects with the pan can be got along the creek. The river bed, lower benches and bars have been worked at different times with more or less profit—by white men first some 25 years ago, and by Chinamen during the last 10 years. The latter made from 72c to $1.50 a day per man with rockers and short sluices.

Above this the stream flows through alternate stretches of gravel benches, flats or bars and rock canons for the next three or four miles. Many of these benches prospect well and can be easily and cheaply worked by the hydraulic method. The formation is a schistose diorite, harder than below, and showing less quartz. There is plenty of water and the boulders are not too large. A ditch five miles long has been constructed and will carry about 500 miners inches of water. The available head at the lower end is 200 feet. There is another ditch about two and a half miles long which could be utilized and work could be carried on for six months of the year.

THE SUN LAKE GROUP

This group of claims is distant two miles from the present wagon road and is on a hill on the west side of the Columbia Lake. The country rock is slate, with dykes of greenstone striking northeast and southwest, and dipping northwest. The lode is 25 to a hundred feet in width, and is a gold bearing quartz, well mineralized with iron and copper pyrities, and a little galena in places. Several open cuts have been made across the lode in the quartz, and a shaft has been sunk to a depth of 30 feet. The average assay of the surface cross cuts was $2.50 in gold and $4.65 in silver. The following are assays obtained by W. Pellew Harvey:

	SILVER.	GOLD.
Bottom of shaft	$0.55	$7.20
Surface cross cut	0.75	Trace
do do	1.00	1.50
do do	1.35	
Open cut across shaft	1.65	4.72
do do	1.85	4.00
do do	1.05	4.00
do do	1.30	Trace
Galena	28.25	2.25

A test made by Messrs Cowell & Wallinger, of Steele, ran $4.50 to $12.40.

The Sun lode at its most prominent out crop is probably 70 or 80 feet wide. An open cross cut has been run some 40 feet in quartz carying iron and copper sulphurets. Cowell & Wallinger's assay of this lead gave a return of gold $8.18, and silver $6.13. It is estimated that 200 tons a day of this ore could be got out and that it would average $5 to $6 in gold per ton. The method of treating the ore would be by milling and concentrating by vanners and then reducing the concentrates by cyanide or the leaching process.

THE JUPITER GROUP.

This group consists of five adjoining mineral claims: Jupiter, Mars, Juno, Millsite and North Jupiter, covering an area of 150 acres. The group is located west of the Columbia Lake and there is a good wagon road right on to the property from the concentrator landing, the distance being two miles and a half. The country rock consists of various slates with occasional belts of diorite and limestone. The strike of the country rock is northeast and southwest with dip to the northwest. The lodes occur in a prominent ledge, 250 to 500 feet above the surrounding country, running north and south, cutting the seams both in strike and dip at considerable angle. Two and sometimes three parallel outcrops of quartz occur mineralized with iron pyrites and grey copper, and from 20 to 200 feet wide all along this ridge. On the Jupiter lead there are two prominent parallel out crops, with quartzites and altered schists between them. The west lead is very large, and shows upon the surface on the North Jupiter, Jupiter and Juno, and has been prospected by an open inclined cut 150 feet long east and west, showing ore all the way. This cut is 25 feet across the lead in depth and has not reached the footwall. It is all in quartz showing galena, copper pyrites, grey copper, and carrying from $1 to $5 in gold, and from one to 50 ounces in silver per ton. The outcrop on the east lead is also very large and is exposed on the North Jupiter and Mars claims. The work done consists of several open cuts, all showing ore that will assay. It is estimated that this ore can be treated for $2.50 to $3 per ton.

Croup Quickly Cured

MOUNTAIN GLEN, Ark.—Our children were suffering with croup when we received a bottle of Chamberlain's Croup Remedy. It afforded almost instant relief.—F. A. THORNTON. This celebrated remedy is for sale by all druggists. Langley & Co., wholesale agents, Victoria and Vancouver. 187n8

Ogilvie, Dominion Surveyor, says there were 8,000 people at Dawson City when he left with food for only 4,000.

Woman killed and seven persons seriously wounded by explosion of boiler of horseless carriage at Hazelwood, Pa.

Could Not Turn in Bed

Terrible Suffering of an Elora Lady From Rheumatism—Fifteen Years a Sufferer, but Cured by Two Bottles of South American Rheumatic Cure

No pen can describe the intensity of suffering that may come from an attack of rheumatism. "For fifteen years," says Mrs. John Beaumont, of Elora, Ont., "I have been more or less troubled with rheumatism, which took the form of pains in my back, often confining me to my bed, and rendering me part of the time wholly unfit for my duties. At times I suffered so intensely that I could not turn in my bed, and the disease was fast reaching a point where both myself and my husband had become thoroughly discouraged of recovery. A friend recommended South American Rheumatic Cure, and after the first bottle I was able to sit up, and before four bottles were taken I was able to go about as usual, and have been in excellent health."

Sold by C. A. Warren. 185

No Use of His Legs

Doctors Could not Help Him, But Two Bottles of South American Kidney Cure Removed the Disease—The Story of a Wingham Farmer

Kidney disease can be cured. Mr. John Snell, a retired farmer of Wingham, Ont., says: "For two years I suffered untold misery, and at times could not walk, and any standing position gave intense pain, the result of kidney disease. Local physicians could not help me, and I was continually growing worse, which alarmed family and friends. Seeing South American Kidney Cure advertised, I grasped at it as a dying man will grasp at anything. Result—before half a bottle had been taken I was totally relieved of pain, and two bottles entirely cured me." To cure kidney disease a liquid medicine must be taken, and one that is a solvent, and can thus dissolve the sand like particles in the blood.

Sold by C. A. Warren. 185

A Broken Down Lumberman

Not a Financial, but Worse, a Physical Wreck—Past Doctors' Skill, but Cured by South American Nervine

Prostrated by nervous debility Mr. E. Errett, lumber merchant and mill owner of Merrickville, Ont., was forced to withdraw from the activities of business. He says: "I tried everything in the way of doctors' skill and proprietary medicines, but nothing helped me. I was influenced to use South American Nervine, and I can truthfully say that I had not taken half a bottle before I found beneficial effects. As a result of several bottles I find myself today strong and healthy, and ready for any amount of business, where before my nervous system was so undermined that I could scarcely sign my own name with a pen or pencil. I say, feelingly and knowingly, get a bottle of this wonderful medicine."

Sold by C. A. Warren. 185

When Lady Marie Wortley Montague visited the household of the Sultan, she wrote home to England that the ladies of the harem were smothered with laughter to discover that her ladyship wore an inner vest of steel and whalebone, tight, impenetrable and stifling, in other words, a corset. The ladies of the harem would no doubt have been equally astonished, though perhaps not disposed to laughter, had they known that the women of western nations, through false ideas of delicacy, suffer in silence untold agony, and sometimes death, through neglect of their health in a womanly way. Women, who suffer in this way shrink from the embarrassing examinations and local treatment insisted upon by the majority of physicians. If they only knew it, there is no necessity for these ordeals. An eminent and skillful physician long since discovered a remedy that women may use in the privacy of their own homes. It is Dr. Pierce's Favorite Prescription. It acts directly on the feminine organism, giving it strength, vigor and elasticity. It stops all debilitating drains. It is the greatest of all nerve tonics and invigorators for women. Thousands of women who were weak, sickly, petulant and despondent invalids are to-day happy and healthy as the result of the use of this wonderful medicine. Good druggists do not advise substitutes for this incomparable remedy.

"I have used Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' in my family," writes Mrs. G. A. Conner, of Alleghany Springs, Montgomery Co., Va., "and have found them to be the best medicines that I ever used."

Send 31 one-cent stamps, to cover cost of mailing and customs *only*, to the World's Dispensary Medical Association, Buffalo, N. Y., for a paper-covered copy of Dr. Pierce's Common Sense Medical Adviser; —Cloth binding 50 stamps. A whole Medical library in one 1000-page volume.

To Ranche Owners at Windermere

I have been requested to secure for an intending settler a ranche at Windermere, and will be glad if owners of ranches for sale in that district will send me particulars of same.

Dr. Ward's
Celebrated Kidney Remedy

Relieves pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain in passing it, or bad effects following the use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up often during the night to urinate. The mild and the extraordinary effect of Dr. Ward's Remedy is soon realized. If you need a medicine you should have the best. Price, $1.

Do You Intend Making Your Rooms Look Brighter and Cleaner?

Thousands of women all over Canada will this season clean house and make rooms look brighter and more cheerful

It should be remembered that Kalsomine can be beautifully tinted with the Diamond Dyes at a very trifling expense. One package of Diamond Dyes tints 10 to 15 pounds handsome shades for walls. The favorite colors are yellow orange, cardinal, slate, crimson, bismark, violet, green, light blue, and pink.

To make good Kalsomine, dissolve one fourth pound of good glue to each ten pound of whiting. Mix with sufficient water to give the right consistency. To tint it, dissolve a package of dye in a quart of water, and add as much as is necessary to give the color desired.

When you buy dyes for tinting, be sure you ask your dealer for the Diamond Dyes, using any of the shades mentioned above. 189

The National Matte Smelter.

A practical, cheap and simple method of matting sulphide ore, such as lead, copper, gold, and silver ores. In localities where lead ores and fuel are scarce and almost unattainable our pyritic water-jacketed Matte Smelter has been recognised with highly satisfactory results, and has been thoroughly tested on various pyritic, sulphide, and arsenide ores, in capacity of two to 80 tons per day. It is the simplest method of gold and silver ore matting and concentrating that is known today.

It requires no extraordinary skill, no lead ores, no fluxing material, and no fuel for the smelter after it is started. The sulphur in the ore is its natural fuel only, and its cost has no comparison with any other process of concentrating.

We are prepared to furnish any size or capacity plant complete to substantial mining people, set it up and furnish our men to run it for them on easy payments. Prices and specifications, with references and testimonials, on application.

The Careless And Indifferent

Suffer Intense Agonies This Month

MANY MEN AND WOMEN IN GREAT DANGER

To Such Mortals Paine's Celery Compound Guarantees a New Life

The Great Medicine a Sure Cure for Rheumatism and Sciatica

Thousands of people die annually of rheumatism, yet every case could have been cured if Paine's Celery Compound had been used in time.

Too many men and women show a marked indifference when, in some form, the dread disease commences its agonizing work. Some foolishly imagine that bright, warm and dry weather will banish the intruder, and they determine to trust themselves to time and circumstances. Others place their hope in warmer clothing and the frequent use of linaments, while others experiment with electricity and baths.

As the days pass the careless and indifferent find themselves deeper in the mire of suffering, and they experience all the countless twinges and agonies of the disease. They have chills, pain in the back, quickened pulse, constipation, loss of appetite, coated tongue, and the joints swell—usually the knees, elbows and wrists.

Now is the time of extreme danger. Now the sufferers realize that they are paying the penalty of their carelessness. Many will be helpless and useless; we shall see them with stiffened muscles and joints, and limbs twisted and drawn up.

Some will ask the question, "Is there truly a cure for such helpless rheumatics?" We say unhesitatingly there is. The agent that cures effectively and scientifically is Paine's Celery Compound. It has cured thousands in the past—men and women of the highest standing in every comunity—and these have given the strongest testimony of the encouragement of others. Besides removing the cause of rhuematism, Paine's Celery Compound is the only medicine in the world that guarantees a permanent cure.

Will you, sufferer, continue in agony and danger of death when such a mighty remedy as Paine's Celery Compound is offered to you?

Let us assure you, poor rheumatic sufferer, that the use of one bottle of Paine's Celery Compound will quickly dispel any doubts that you may have. The effect will be so encouraging that you will be forced to continue with the life giving medicine till you are sound, well and happy. 188

A Dyspeptic?

SOUTH AMERICAN NERVINE IS THE RAINBOW OF PROMISE.

Emaciated—weary—gloomy. No one can adequately describe the abject misery of the sufferer from Dyspepsia and Indigestion. South American Nervine is the greatest discovery in medical science for the cure of all chronic stomach troubles. It acts directly through the nerves—the seat of all disease. Thousands testify of cures made. Relief from the first dose.

"I was a great sufferer from stomach and nerve troubles. Tried a score of remedies. No relief. Half a bottle of South American Nervine worked wonders. Six bottles made a new man of me."—W. H. Sherman, Morrisburg, Ont.

Don't experiment with new and doubtful medicines—Take the tried and tested. 21

2 Prizes of	....	25.00 each	50.00
5 Prizes of	....	10.00 each	50.00
10 Prizes of	....	5.00 each	50.00
			$500.00

To the Twenty people who solve this Puzzle, if there are so many correct, we will give the above Prizes IN CASH.

SEND NO MONEY With Your Answer.

If more than Twenty should be correct, every correct one will (in addition to the Money Prizes) be awarded our famous "Faithful Timekeeper Silver Watch," of which the net factory price is $10. If preferred, the winner can choose a genuine Gold-cased Watch of the same value.

F - - TH - UL	A word here meaning "True to the Time."	The qualities of our Watches which are acknowledged to be the foremost in the English and American Markets.
F - R - M - ST	Our Proud position in the Watch Trade.	
& END - R - - G	A word which here means they will last a life-time.	

As this wonderful offer is only made to advertise our far famed Silver Watches, every Competitor must read the following conditions and comply with them.

1. Send your answer on an "International Post Card," which can be bought at the post office (price 2 cents) There is no entrance fee or charge whatever.

2. In addition to the Cash Prizes, everyone who sends the correct answer will thereby win one of our "Faithful Timekeeper" Silver Watches which we sell in England for $10 each, and which could be sold retail in America for $15 to $28 each.

3. Every winner of the Watch is required to purchase one of our SPLENDID VALUE inexpensive Solid Silver Albert Chains to wear with the Watch, as per our unprecedented offer which we will send. These Chains are Hall-marked on every link by the English Government. If the same Watch is required with Gold filled case instead of Solid Silver. a chain to match may, if desired, be chosen.

4. With our Watch and Chain you will receive our mammoth Catalogue quoting Wholesale Factory Prices for Jewellery, Plate. etc. The First Prize will be given to the one who solves the Rebus, receives the Watch and Chain, and orders altogether the largest amount of goods from the catalogue; the Second Prize to the winner who orders the second largest amount, and so on. If not more than twenty win and receive the Watch and Chain, and if these do not buy anything from the catalogue, the whole of the prize money will be equally divided among them, giving $25 each. All amounts in this advertisement are taken at the exchange of $5 to £1.

5. A form will be sent free to you which must be filled up and forwarded to reach us by December 25th of all goods ordered on account of these Prizes.

6. The names and addresses of the cash prize winners will be printed in the Times, Daily Telegraph and Standard, of London, on Dec. 31st next, and subsequently in the New York Herald. Drafts for the Prizes will be posted same day

7. Write your name and address in full every time you write to us to avoid mistakes.

8. Orders for these Prizes may be sent in separately from time to time and you will be credited with the total of all when you send in the report form as above.

9. When sending Orders please remember that the letter postage to England is 5 cents per half ounce, and if insufficient postage is used the letter is liable to go astray.

Send your answer at once! You are sure to win a Prize if correct, while even if not correct it costs you nothing.

P. R. White, section foreman, of Golden, went to the East on Friday's train and will remain two or three weeks in New Brunswick. We wish him joy on his well earned holiday.

A prospector who has come out from Quesnelle says he travelled a hundred miles along Canoe River. What has the Revelstoke Herald to say about the "GOLDEN ERA air line?"

The other day Constable Cox arrested a man named J. Klinek on a charge of being drunk and disorderly. He was brought before C. A. Warren, Esq., J. P., and was fined $3 and costs.

The Donald school is being doubled in size, the contract having been let to Mr. Hancock. The size of the new building is 20x36 feet making the total size of the schoolroom 40x36 feet.

Another railway wreck is reported from the west. A train broke in the middle near Notch Hill and rushed down an incline causing the damage that delayed No. 2 eight hours on Monday.

It is reported that the main business of W. McKenzie and T. Holt, of Toronto, in the west, is the securing of the contract from the C. P. R. for the building of the proposed railway into Rossland.

T. H. Dunne, of the Donald machine works, has a contract for painting special scenery for the Harry Lindley Company. Mr. Dunne is an artist in this line and has the work already under way.—Revelstoke Herald.

A writer in the B. C. Mining News says of the Edmonton Route to the Yukon: "A fearful drawback to that route is that for hundreds of miles feed is scarce and the water is so alkaline that it is not fit to use."

The Toronto Telegram says the worst act of the Laurier Government was the indorsation of the British Columbia Southern Railway Company's sale of its charter to the C.P.R. Col. Baker and his friends pulling out $86,000 on the deal, besides 200,000 acres of the people's coal lands.

On Monday last the boiler of engine No. 354 exploded and brakeman Elson was killed. The accident happened about 12 miles north of North Bend. The engine was hauling an east-bound freight train. The deceased was thrown from the engine over the embankment, sustaining injuries to which he afterwards succumbed. The engineer and brakeman were badly scalded.

At the meeting of the officers of the Golden Bible Society last night, the report of a stock of bibles being received was presented. A letter was read from the corresponding secretary of the Upper Canada Bible Society making enquiries re colportage work in East Kootenay. A sub-committee was appointed to drop a reply on the subject. The first annual meeting of this branch will be held on the first Thursday in January.

Those who believe chronic diarrhoea to be incurable should read what Mr. P. E. Grisham, of Gaars Mills, La., has to say on the subject, viz.: "I have been a sufferer from chronic diarrhoea ever since the war and have tried all kinds of medicines for it. At last I found a remedy that effected a cure and that was Chamberlain's Colic, Cholera and Diarrhoea Remedy." This medicine can always be depended upon for colic, cholera morbus, dysentary and diarrhoea. It is pleasant to take and never fails to effect a cure. For sale by all Druggists. Langley & Co., wholesale agents, Victoria and Vancouver. 167n8

F. Cope, ex-mayor of Vancouver, was drowned at Skagway.

M. Carlin has opened a new camp for the Upper Columbia Company at Moberly.

A report of the meeting of the Golden Curling Club is unavoidably held until next issue.

Mr. Griffith started on Tuesday over the Moberly Trail as far as Kinbasket Lake. It was Mr. Griffith's intention to go on to Wood River.

Mr. Norbury, of Fort Steele, arrived in Golden on Monday and proceeded to the Coast to represent the Fort Steele Liberal Association at the convention that is to be held at New Westminister.

Mr. Blake, who has been in Golden for the past three months as agent for the London and Vancouver syndicate in connection with the Burns negotations, returned yesterday to the Coast.

H. G. Parson has just opened out a magnificent stock of English and Scotch tweeds, and ladies dress goods, which he has imported direct He has also another large shipment on the way.

The Golden lumber mill, which has been shut down for a week for want of logs, resumed operations yesterday. Owing to the low water it has been a very difficult matter to get logs down.

The tough element are invading Sandon, one of the prominent citzens being held up by a footpad on the Payne road. Frank Golden, while riding home from the mine, was commanded to stop, but with commendable pluck he rode the man down, and, putting spurs to his horse, eecaped, but not until six shots had been fired at him. Mr. Golden had over $3,000 on his person.

Miss Mary Herchmer, a belle of Regina, and a daughter of Commissioner Herchmer, of the North West Mounted Police, was wedded at the Regina Barracks Church last week to Mr. R. C. Rendall, of Fort Steele, B. C. On leaving the church the members of the force and a crowd of people loudly cheered the happy couple; the four dashing greys were unhitched from the carrage and the redcoats dragged Mr. and Mrs. Randall to the home of Commissioner Herchmer.

The Revelstoke Herald says: "If recent utterances of the Colonist are to be taken seriously the Government does not feel itself in any way bound to bring down a redistribution bill this coming session, which is equivalent to saying that the next Provincial election will be run with the present constituencies. It is quite possible. The present distribution of seats suits the Government very well. The task of rearranging them without adding to the numbers would be both delicate and dangerous.

The newly organized western branch of the Bible Society has received a stock of bibles and testaments which are now on sale at Mr. Warren's store. Some fine teachers' family bibles are in the stock which it is believed will be received with favor by many, especially when the low price and good quality of the books are considered. Prices range from 3c. to $3.60, and can be had in English, French, German, Sweedish and Chinese, and books in any other language can be furnished on short notice when orders are left with Mr. Warren.

Carelessness in girlhood causes the greatest suffering and unhappiness in after life. Little irregularties and weaknesses in girls should be looked after promptly and treatment given at once. Dr. Pierce's Favorite Prescription promotes regularity of all feminine functions, makes strength and builds up a sturdy health with which to meet the trials to come. The Favorite Prescription is not a universal panacea. It is good for but one thing. It is directed solely at one set of organs.

Dr. Pierce's Common Sense Medical Adviser, a 1008 page medical work, profusely illustrated, will be sent free on receipt of 31 one-cent stamps to cover postage only. Address, World's Dispensary Medical Association, Buffalo N. Y. 186

The Golden Liberal Association met at the Queen's Hotel on Monday night to select a delegate to represent the Association at the Liberal Convention to be held at New Westminister. J. C. Greene, the president, was appointed. M. Dainard was also proposed but declined, owing to the fact that his business engagements would not permit of him attending the convention. A vote of welcome was accorded to Mr. Norbury, President of the Fort Steele Association and he was requested to convey to them on his return the desire of the Golden Association to co-operate with them in any action that might be taken in the interests of the party in East Kootenay.

A few weeks ago the editor was taken with a very severe cold that caused him to be in a most miserable condition. It was undoubtedly a bad case of la grippe and recognising it as dangerous he took immediate steps to to bring about a speedy cure. From the advertisement of Chamberlain's Cough Remedy and the many good recommendations included therein, we concluded to make a first trial of the medicine. To say that it was satisfactory in its results, is putting it very mildly, indeed. It acted like magic and the result was a speedy permanent cure. We have no hesitancy in recommending this excellent Cough Remedy to anyone afflicted with a cough or cold in any form. The Banner of Liberty, Libertytown, Maryland. For sale by all druggists. Langley & Co., wholesale agents, Victoria and Vancouver. 167n8

Thrilling Rescue.

A Young Life Saved in a remarkable Manner.

Florence Sturdivant, of Grindstone Island, Saved From an Untimely Death--Her Parents Saw Her Dangerous Predicament, but Were Helpless to aid Her--How she was Rescued

Among the Thousand Islands is one called Grindstone. It is seven miles long and three wide. The inhabitants of this island are a well informed class of people who devote their energies to farming and quarrying for a livlihood. In the home of one these islanders resides Florence J. Sturdivant, the four year-old daughter of Mr. and Mrs. William H. Sturdivant. In February, 1896, she was taken with scarlet fever, and after the usual run of fever she was left with a weak back and gradually began to lose strength, until finally despite the best efforts of physicians her life hung in the balance. It was at this crisis that all seemed darkest, and an angel of health appeared on the scene and released little Florence from pain and suffering and restored her to strength and health. This remarkable occurance is best told in the words of her father.

FLORENCE J. STURDIVANT.

Mr. Sturdivant said: "Florence was taken sick with scarlet fever and we immediately called in a physician. He prescribed for her and we followed his directions closely, giving our little patient the best of care. After two weeks the fever subsided, but Florence was left with a very weak back severe pains were constantly in the back and stomach. We did all that possibly could be done to relieve our little sufferer, but to no avail. The difficulty seemed to baffle the efforts of the physician.

"Finally at the end of four months of treatment, we found our patient completely prostrated. At this time we called another physician, who agreed with the diagnosis of our own doctor, and said that the trouble resulted from the scarlet fever. He prescribed a course of treatment and we followed it faithfully for three months, but instead of improving Florence failed.

"Mrs. Sturdivant and myself were completely discouraged. A brother of my wife, who was visiting us, advised us to use Dr. Williams' Pink Pills for Pale People, and I purchased a box of the pills and began to give them to Florence. This was in October 1896. After using the pills for a short time we could see an improvement. Her strength began to return and she would sit up in bed. Her appetite was restored and she ate heartilly. We also noticed a gradual brightness in her eyes.

"We eagerly purchased a further supply of the pills and watched with delight the change for the better that was wrought daily. From sitting up in bed at times during the day and at times standing on her feet, Florence finally became strong enough to walk a little. She gained in flesh and strength rapidly and the pains gradually left her. In a month's time she had recovered her health and strength.

"We cannot praise too highly the value of Dr. Williams' Pink Pills. I am positive that without their use our child would have been today in the same sad condition of her early sickness—a confirmed invalid—if indeed she had had the strength to withstand so long the ills of her affliction.

(Signed) WILLIAM H. STURDIVANT.

Subscribed and sworn to before me this sixth day of April 1896.

H. W. MORSE, Notary Public.

Terrible fires have been experienced on the prairie near Winnipeg, and a man and a family of two women and five children were burned to death at Beausejour. Besides these lives being lost horses, cattle, sheep and crops were burned in all directions. The town of Bagot was wiped out and the wheat elevator destroyed and fell across the railway track.

Heart Spasms

DR. AGNEW'S CURE FOR THE HEART A WONDERFUL LIFE-SAVER.

No organ in the human anatomy to-day whose diseases can be more readily detected than those of the heart—and medical discovery has made them amenable to proper treatment. If you have palpitation or fluttering, shortness of breath, weak or irregular pulse, swelling of feet or ankles, pain in the left side, fainting spells, dropsical tendency, any of these indicate heart disease. No matter of how long standing Dr. Agnew's Cure for the Heart will cure—it's a heart specific—acts quickly—acts surely—acts safely

"I was given up to die by physicians and friends. One dose of Dr. Agnew's Cure for the Heart gave me ease, and six bottles cured my case of fifteen years' standing." Mrs. J. L. HELLER, Whitewood, N.W.T. 20

Guarantees relief in 30 minutes.

THE SOUTHERN COUNTRY

Continued from page 1.

Steele would at least receive a branch line of railway. A silence that was painful followed. The streets became deserted save by the canine horde that makes the daylight terrible and the night most hideous with their howls. The Board of Trade turned their faces to the north and stood in the attitude of prayer; the Editor thrust his pencil into the paste pot and swore by his calico shirt "If I'm poor I'm a gentleman still." A blue vapor was observed to issue from the transom over the door of the sanctum sanctorum, and the printers devil was cautioned not to light matches in the room. Thus ended Fort Steele's first introduction to those mysterious bodies that are deemed to hold the destiny of cities in the hollow of their hands.

A few minutes afterwards that planetary system was observed again to be in motion and heading in the direction of Cranbrook or some other place where the railway is a surety.

MOYIE

Last week your correspondent was at Moyie and his visit reminded him of what he had read long time ago of the building of Solomon's Temple—not the sound of a hammer was heard. The inhabitants, for the most part dwellers in tents, had a very much Macawber-like look about them—waiting for something to turn up, or as I take it, waiting for somebody else to turn up. They had nothing to do and seemed too tired to do it. Several log houses were in the course of construction but operations were suspended waiting for lumber, so one man said. We thought if they were to constitute themselves into a sort of chain gang and exercise a little every day in cleaning away the brush and rubbish from their doors and breaking up the stones upon the street they might do much to redeem their town from that condition of idleness that impresses a stranger with a lack of getuptiveness.

Mr. Campbell, the original owner of the townsite, is building an addition to his hotel

Mr. Scott has erected the walls of a two storey log building, a store and dwelling house combined.

Jos. Niederstadt has built a fine log residence and is now preparing to erect a brewery 24x30 feet. He goes to Spokane to order supplies and have them brought in by way of Bonner's Ferry.

The McMann Brothers, late of San Francisco, have a large two storey hotel and store 30x62 ft. with an extension 14x18 feet. This hotel contains 12 bed rooms finished and furnished in first class style. They will carry a large general stock of merchandise, and expect to do a good trade when construction commences along the lake.

The St. Eugene mine about a mile and a half back of the town, is working six men running a 600 foot tunnel to cut the lead about 250 feet below the out crop. A few days ago the ore chute was struck, showing a wonderful deposit of silver-lead ore. The Moyie and Lake Shore mines lower down the mountain but on the same lead have a few men at work, and the showings are also good.

Muir Bros. are putting in a saw mill at Moyie, the machinery having arrived at the lake from Brantford, Ont. via Golden yesterday.

AT SIFTON,

a point at the north of the lake, haying was still in progress, Schagel's mill was busy cutting lumber for the people of Moyie and the East Kootenay Land and Mercantile Company, who are erecting a large hotel and store on the proposed townsite. The company consists of H. Abott, J. M. Lefevre, E. P. Davis and J. A. Fulton, of Vancouver, M. G. Bunyan and E. A. Morrissey, of Sifton, and others.

CROW'S NEST ROAD.

Contracts for work on the C. N. R. will be let along Moyie Lake within six weeks, so says M. J. Haney. Contractors are at work at Crow's Nest Lake already. The tote road is completed to Elk River and supplies will be brought in by the pass this winter.

GENERAL NEWS.

The second payment was made on the Dibble group of $7,666 by R. L T. Galbraith, acting for Hon. G. E. Foster, to Wallinger, Dibble and Dale on the 15th inst.

Wm. Blackmore, M. E. for the Crow's Nest Coal Company, returned this week from an examination of the company's property and reports the coal the best he has seen in the west. A force of men is at work opening it up. A railroad five miles long will be built this winter to connect with the C. N. Railway at the mouth of Coal Creek.

An old time dance under the management of H. W. Barnes, was held in the Coventry Opera House last night. It was one of those successes which always characterize Mr. Barnes' undertakings. He seems to follow the scriptural injunction "whatever your hands finds to do do it with all your might."

Cranbrook townsite is soon to be placed upon the market. Leach's mill at that place is starting up with a full force of men and business is expected to hum generally.

Hyde Baker starts on Monday to meet the Colonel at Windermere, and expects to be here with him on Thursday next. The redoubtable Colonel's advent has long been looked forward to as an auspicious event, and doubtless the fondly cherished hopes of many will be realized.

The red coats of several Mounted Police have been conspicious about the streets today. They had formed the tail of the Schrieber-Haney constellation.

Supposed Murder at Omenica

There is a strange similarity in the crimes which cost Butler, the Australian fiend, his life, and that which consigned Wm. A. Gordon to the Provincial jail in Victoria pending investigation, which may put a rope about his neck. Gordon, it is believed, induced Isaac Jones, a well to do Nanaimo collier, to accompany him on a prospecting trip to the Upper Skeena. They went into the Omineca placer grounds in May. In July Gordon returned to Hazelton without Jones, in posession, even to his clothing and pack horse, telling the story of his partner who had gone out by Quesnelle. On suspicion he was arrested and $400 found sewn in the lining of his coat, was identified as Jones' money. Then he said his companion had been drowned in Omineca River. Search is now progressing for Jones' body. It found Gordon's fate will apparently be sealed.

Death From Suffocation

Almost a Fatality but for Dr. Agnew's Cure for the Heart—Strange Story of a Northwest Lady

A death to be dreaded is that from suffocation, and yet this is one of the usual phases of heart disease. Mrs. J. L. Hillier, of Whitewood, N. W. T., came as near this dangerous point as need be. She says: "I was much affected with heart failure, in fact I could not sleep or lie down for fear of suffocation. I tried all the doctors in this section of the country, but they failed to give me relief. A local druggist recommended Dr. Agnew's Cure for the Heart. I tried it, and with the result that I immediately secured ease that I did not know before, and after taking further doses of the medicine the trouble altogether left me. It is not too much to say that it saved my life."

Sold by C. A. Warren. 185

Sad Forebodings of Autumn Weather

Thousands Who Dread an Attack of Catarrh as Winter's Cold Approaches—Yet Catarrh can be Banished Under the Magic Touch of Dr. Agnew's Catarrhal Powder.

This is not a dogmatic statement, strong as it may seem. Leading members of Parliament, the most prominent clergymen of the Episcopal, Presbyterian, Methodist, Baptist and Roman Catholic churches, have borne testimony to the effectiveness of this medicine. Mr. John MacEdwards, the popular purser of the Canadian Pacific steamer "Athabasca," is one who was cured of intense suffering from catarrhal troubles by the use of this medicine. Good Samaritan-like, he has ever since recommended it to any who suffer. Head off an attack of catarrh by having this medicine at your hand.

Sold by C. A. Warren. 185

Nerve Beans.

NERVE BEANS are a new discovery that cure the worst cases of nervous debility, Lost Vigor and Failing Manhood; restores the weakness of body or mind caused by overwork or the errors or excesses of youth. This remedy absolutely cures the most obstinate cases when all other treatments have failed even to relieve. Sold by druggists at $1 per package or six for $5, or sent by mail on receipt of price by addressing THE JAMES MEDICINE CO., Toronto Ont. Write for pamphlet. 178d21

Another Remarkable Recovery From Catarrh

Japanese Catarrh Cure

A Never Failing Remedy -- Cured when Catarrh Specialists Failed.

Joseph Little, mill owner, Port Essington, formerly of Vancouver, writes: — "Japanese Catarrh Cure cured me of catarrh which had troubled me for 25 years, during which time I had spent hundreds of dollars with specialists in Toronto and San Francisco, but obtained no permanent relief until using Japanese Catarrh Cure about eight years ago. Since that time I have been completely cured, and my catarrh has not troubled me in the least. It is truly a wonderful remedy; the first application relieved."

Japanese Catarrh Cure cures Cold in the Head in 30 minutes, and there is not a case of Catarrh which cannot be cured if Japanese Catarrh Cure is persistently used. Sold by all druggists; 50 cents. Mailed on receipt of price. Address W. A. Griffiths & Co., wholesale druggists, Vancouver, B. C. Sample free, enclose three cent stamp. 91tc

Attempted Suicide

A man named Frank Egan, alias W. C. McKenzie, attempted to commit suicide at the Golden Hospital on Wednesday by cutting his throat. He has been in ill health and had been engaged in prospecting for some months at Ottertail. He also worked for Messrs Reilly & Co., who speak very highly of him. He comes from Brighton, Ont, on Tuesday night Dr. Taylor noticed that he was a little unhinged and at 10 o'clock the following morning he attempted to do away with himself. Cutting through the smaller veins and into the muscles of his throat. On the matter being reported the Doctor had the wound sewn up. The instrument used was a jack knife. Egan subsequently attempted to tear the wound open and a watch had to be obtained for him. He also wanted the doctor to give him strychnine as he wanted to die.

Piles Cured in 3 to 6 Nights

Dr. Agnew's Ointment will cure all cases of itching piles in from three to six nights. One application brings comfort. For blind and bleeding piles it is peerless. Also cures Tetter, Salt Rheum, Eczema, Barber's Itch and all eruptions of the skin. 35 cents.

Sold by C. A. Warren. 185

Owing to the rapid increase of business, J. F. Pugh, tailor and clothier, has secured the services of E. Kaveney, an expert coat maker from the well known tailoring firm of Kennedy & Douglas, of Toronto. He has also had to obtain the services of a tailoress.

The administration of justice in East Kootenay badly wants improveing. Regular sittings of the County Court should be established at Steele, Golden and Donald, and it seems to us that the time has come when a County Court judge should be appointed for East Kootenay.
