OUR TOWN.

Golden, on the main line of the Canadian Pacific Railway, at its connection with the steamboat navigation of the Columbia river; the mineral and commercial centre of Eastern British Columbia; headquarters of the Golden Smelting works, the Upper Columbia Navigation Co., and lumber industry; the outlet for the widely known and far famed agricultural and grazing land of the Columbia & Kootenay Valleys; unrivalled for scenery of all kinds; the distributing point for the richest mineral country on the continent.

LOCAL JOTTINGS.

H. J. Starforth has a fine stock of fruit on hand. He can also supply you with all kinds of vegetables.

Work on Mr. James Henderson's new house is progressing favorably. The plasterers will be in in a few days.

The first anniversary services of the Methodist Church in Golden will be held to-morrow. Special services in the afternoon and evening.

There is a house not a hundred miles from the post office which requires the inspection of the fire warden.

The Oddfellows picnic takes place to-day. Leaving the Upper Columbia Co.'s wharf at 9 a.m. per S.S. Duchess the party will proceed up the Columbia river. On the return of the boat in the evening a dance will be held in the Oddfellows Hall. Although some may be unable to attend the picnic, on account of its being Saturday, the Oddfellows wish it to be understood that they must not stay away from the dance on this account. The dance is free for all and will commence about 9 o'clock, a cordial invitation is given to all.

The mail service to Fort Steele is a disgrace to the district, it takes 14 days for a letter from Fort Steele to reach Golden and return a distance of 300 miles, and 21 days to Victoria. What we need is a round trip each week, we cannot transact the business of the district without it. The time is past when we can do with a round trip mail in two weeks. The mining interests of this district demand the best service that is possible, for mining deals are made, and closed, and an uncertain or delayed mail may cause the loss of thousands of dollars to either party, a petition should be addressed to our member stating the facts, and we have no doubt that the member would see that our wants in this respect were supplied.— Fort Steele Prospector.

The funeral of the late Harry Hopgood, C.P.R. brakeman, who was run over by a train at the Glacier last week, took place on Sunday at Donald, from the Oddfellows Hall. Rev. T. S. Glassford conducted the services, the large number present testifying to the respect in which the deceased was held The following are particulars of the accident: About 11 o'clock a.m. on Thursday a west bound freight passing the Glacier slowed down to pick up Hopgood who jumped at a box car's side but slipping fell under the train. About four cars passed over him before the train was stopped, and when he was drawn out it was found that both legs near the feet were crushed and almost severed. Amongst the guests at the Glacier was Dr. Schafer who immediately proceeded to bind up the wounds and administer temporary relief so that the sufferer might be removed to the hospital at Donald, which was done at once. There he was treated by Drs. Power, Brett and Schafer who operated on both legs, but the unfortunate man did not survive it and died at 5 o'clock Thursday afternoon, being conscious to the end. He had been eight years on the road and was next in turn for promotion to conductor.

Capt. Armstrong, and J. C. Durick of Fort Steele, returned from a trip to West Kootenay on Monday. The Nelson Tribune says: "Capt. F. P. Armstrong of Golden, East Kootenay's steamboat manager, and J. C Durick, a leading merchant of Fort Steele, arrived in Nelson on Thursday, coming by way of Jennings and Bonner's Ferry. Capt. Armstrong's company owns the steamer Ruth, which plys between Fort Steele and Jennings, and it is not unlikely that next year his company will pull out of the steamboat business south from Golden and devote all their energies to the Fort Steele and Jennings route. Mr. Durick, who has been in business at Fort Steele for over three years, reports that town flourishing and growing."

Golden's Big Four.

How's this for a record breaker? A fair sample of Golden's population:

John McMillan	262 lbs.
Mike Carlin	255 "
Geo. Carlin	245 "
W. Miller	230 "
Total	992

They are all very active men too, considering the weight they have to carry.

Prairie Mountain Find.

F. G. Healey and D. McDougal returned recently from Prairie Mountain and report a rich find there. Assays from surface rock give $8 per ton in gold, and the owners are confident that they have something good. They have already been offered $6000 for their property which they declined. They staked out two claims before coming in and D. McDougal left on Wednesday to stake out six more. Prairie Mountain is situated across the head of Canyon Creek about 25 miles from Golden.

Personal.

Mr. and Mrs. John Pratt are taking in the Carnival at the coast this week.

Miss Brownrigg has returned from a visit to the Upper Country.

H D. Hume left for the coast last Saturday.

Sheriff Redgrave, of Donald, paid Golden a visit this week.

J. C. Durick left on Tuesday's boat for Fort Steele.

Mr. G. Lloyd Graeme came in from Banff Thursday morning and is registered at the Queen's.

A Warning.

Toronto, Sept. 1.—Walter B. Perry, an engraver has gone insane over the silver question. He has had to be confined in an asylum.

MINING NEWS.

ROSSLAND.

Miner: The face of the tunnel and winze in the Mayflower are both in ore.

The big compressor plant of the Trail Mining company started up yesterday afternoon.

The Josie now shows big bodies of solid ore in the east drift, main tunnel and shaft. The mine never looked better.

The shaft being sunk on the View shows about a foot of high grade copper ore. A considerable amount of ore is now on the dump, and the mine is in a most promising condition.

G. A. Pounder, of Everett, who recently purchased the Silver Bell group in the South Belt, commenced development work this week and will continue vigorously from now on.

E. J. Kelly, manager of the Deer Park has let a contract to extend the shaft from the 65-foot level to the 100-foot level at the price of $22 a foot. The Deer Park breaks very hard and while all the work is in ore it is very slow.

Development work is now in progress on the Great Republic and Confederation, two claims in the South Belt belonging to C. M. Carpenter, H. S. Wallace and Patterson & Johnson J. J. Henager is in charge.

Colonel Wharton has begun th sink a shaft on the principle ore chute of the upper tunnel of the Cliff. A stat on has been cut out and the work well commenced. The ore body is five feet wide and looks very fine.

The Evening Star has 100 tons of high grade ore on the dump, and will begin to ship very soon. The Columbia and Western railroad is considerthe matter of putting in a spur for the convenience of the Georgia and Evening Star.

C. C. Woodhouse, Jr. returned Tuesday from a visit to Cariboo creek. He reports prospecting being carried on vigorously and new strikes being made daily. He says the assays now being obtained from Cariboo creek show a very gratifying value.

Mrs. E. E. Davis, of San Miguel, Cal., says: "I am trying in a measure to repay the manufacturers of Chamberlain's Cough Remedy for the great good their remedy has done me. For years I was a constant sufferer from weak lungs and bronchial asthma. My rest at night was disturbed by a hacking cough, so that I felt miserable the greater part of the time. Many remedies recommended by friends were tried, none of which proved suitable to my case. I did not experience any beneficial results until I began taking Chamberlain's Cough Remedy. After two bottles of the large size have been used I am pleased to state, my health is better than it has been for years. The soreness has left my lungs and chest and I can breathe easily. It has done me so much good that I want all who are suffering from lung troubles, as I was, to give it a trial." For sale by Druggists Langley & Co., Wholesale Agents, Victoria and Vancouver.

BOMBARDMENT OF ZANZIBAR.

Zanzibar, Aug. 27.—The palace of the Sultan of Zanzibar was bombarded this morning and at noon was a mass of blazing ruins. The usurping chief-tain, Said Khalid, and commander of his forces, Sales, succeeded in escaping to the German consulate, where they have sought refuge and remain under the protection of the German flag.

Rear Admiral Henry Rawson, C.B., in command of the British Cape of Good Hope and West Coast of Africa station, and the British Consul General, A. R. Harding, C.B., after holding a conference yesterday, communicated by cable with the government of Great Britain an outline of the situation of affairs here, setting forth that Said Khalid, who seized the palace and proclaimed himself Sultan on the death, apparently by poison, of Sultan Homed Ben Thwan Bin Said, had been strongly reinforced, and positively refused to surrender. Said Khalid had with him at that time about 2,500 well armed men, including 900 Askaris, who have been trained under British officers, plenty of ammunition and a number of field guns and other pieces of artillery, which were trained on the British warships.

Later in the day cabled instructions were received from London and an ultimatum was sent to Said Khalid, ordering him to haul down his flag and surrender with his forces not later than 9 o'clock this morning At the same time the British residents were ordered to be on board Admiral Rawson's ships by 8 o'clock. It is understood that Said Khalid received further reinforcements from slave dealers, as the formal hoisting of the British flag over Zanzibar would mean the liberation of 250,000 slaves, and be a deathblow to slavery in this part of East Africa. Shortly before 9 o'clock a naval officer was sent to the Palace square with another message for Said Khalid, asking him if he was prepared to surrender and notifying him that the place in which he had barricaded himself would be shelled at 9 o'clock promptly, if he failed to haul down his flag before that time. Said replied that he would sooner die than surrender. His answer was conveyed to Admiral Rawson and the British consul-general, and the crews of the ships which had been prepared for action on the day before were sent to their quarters. At 9 o'clock the flagship signalled the Racoon, Thrush and Sparrow to commence firing, and a moment later the boats referred to commenced firing and in ten minutes they had sent a storm of shot and shell into the palace, tearing big gaps in it and scattering death and confusion among its defenders, while dismounting some of the guns before it, and putting to flight the gunners handling the pieces. The fire of the warships was admirably directed and smoke was soon seen to be issuing from several parts of the palace The bombardment was kept up till 9:50, when the palace was tumbling in ruins and large rents had been made in the barricades of Said's followers. The latter however answering the fire of the warships with great persistency and gallantry, and did not stop firing until in response to the flagship's signal of cease firing, the guns of the warships stopped showering shot and shell ashore. The losses of the enemy are not known, but must have been heavy. Said Khalid and Said Sales, the latter being commander of the usurper's army, escaped with a number of their leading followers through the back part of the palace, and hurriedly made their way to the German consulate, where they asked for protection which was accorded them. No casualties are reported among the British.

A HANDY PROSPECTOR'S FURNACE.

The attention of Prospectors and Miners is called to the merits of a new improved apparatus, for testing and smelting various kinds of ores and minerals, also separating and refining base bullion, etc.

Manufactured by a chemist and metallurgist who thoroughly understands the wants of the assayer, the prospector, the miner, the chemist for laboratory test; for all furnace work, such as smelting, scorifying, coupelling, fusing in crucibles, testing of sampling charges, roasting, etc.

This furnace is built in two halves for easy transportation, is complete in itself, made of steel plate, with cast-iron slag and metal spouts, wind supply pipe and knock-down bottom.

It is of the cupola type, with extension when smelting ores; capacity 1000 to 5000 pounds per heat; also smaller size, capacity from 100 to 200 pounds per heat, according to the character of ores.

The Advantages in Practice are as Follows:

This furnace is constructed by and for a prospector, who requires a serviceable furnace, easily transported over a mountainous country by a pack burro, that is complete and ready to be set up at any dump of low grade ores, that otherwise will not pay to ship, and make his good pay out of one to two tons of ore a day.

On low-grade ores picked at the dump, this little furnace will pay for itself every week, besides wages and expenses. Let someone else do the risk in mining, and stick to a certainity.

What We Furnish and What it Costs.

OTTAWA NOTES.

Mr McInnes is to inquire if the government are aware that Chief Justice Davie was engaged in canvassing during the last election; if so does the government intend to inquire into the matter.

The first government caucus of the session was held on Tuesday. There was a full attendance of the members of parliament and senators, and the meeting was a most enthusiastic one. Mr Scriver occupied the chair. Premier Laurier got a great ovation on rising to address his colleagues and followers. All the ministers made speeches and got excellent receptions. There was no particular business before the caucus. It was incidentally remarked by those that spoke that the officials who had acted as offensive partisans during the late campaign would have to answer for the same with their official heads. The whips elected are as follows:

Ontario James Sutherland and Mr Gibson.

Maritime province—Mr Flint.

Manitoba and the Territories - Mr R. L. Richardson.

British Columbia—Mr Bostock.

Sir Henri Joly will accompany Li Hung Chang through Canada. Li Hung Chang will be the guest of Canada.

A Nice Haul.

Vancouver. Sept. 1st.—word has just been recived from Cariboo that the last clean up of the sluices and cuts in the Cariboo hydraulic mine amounts to $81,000, after 25 day's run. This is the biggest prize of bullion ever captured from any mine in the world in the same space of time and is a remarkably big haul. The big brick will be placed on exhibition at Montreal and will no doubt prove a good advertisement for Cariboo.

Like a Fairy Tale.

London, August, 29th—The discussion of the rumour of the possible marriage of Mr. William Waldorf Astor to Princess Victoria of Wales has been re-opened by a leading society journal, which regards the match as quite possible, saying it will give greatest satisfaction to all intelligent people in the English speaking world, adding: "There has been more than one royal marriage in Europe during the past few years which was not so promising as would be the marriage of the daughter of the future King to a man of good physical attributes and moral, commercial character, and who, under such circumstances, would speedily be promoted to a dukedom."

Last August while working in the field I became overheated, was suddenly attacked with cramps and was nearly dead. Mr. Cummings, the druggist, gave me a does of Chamberlain's Colic, Cholera and Diarrhoea Remedy which completely relieved me. I now keep a bottle of the remedy handy. A. M. Engine No. 312 has been in the shops quite a while She has had a thorough overhauling and looks as good as new.

The weather still continues warm and dry. There must be large bush fires to the westward on account of so much smoke.

The scarlet fever is still with us. There are at present some six cases. For a time the houses were quarantined, but you know people get accustomed to anything. Should it become fashionable (I mean scarlet fever) we look for quite a boom.

Dr Stephen H. Emmens, a well known New York metallurgist and inventor of the explosive Emmensite, claims to have discovered a process by which he makes gold out of silver. Dr. Emmens claims in the New York Journal that he has made four ounces of gold from six ounces of silver.

CERTIFICATE OF THE REGISTRATION OF A FOREIGN COMPANY.

'COMPANIES' ACT," PART IV., AND AMENDING ACTS.

"KOOTENAY CONSOLIDATED MINING COMPANY" (FOREIGN). REGISTERED THE 21ST DAY OF AUGUST, 1896.

I hereby certify that I have this day registered the "Kootenay Consolidated Mining Company" (Foreign), under the "Companies' Act," Part IV., "Registration of Foreign Companies," and amending acts.

The head office of the said Company is situated at the City of Everett, State of Washington, U.S.A.

The objects for which the said Company is established are:—

To carry on a general mining business in the United States and British Columbia; and to that end to buy, sell, lease and improve real estate; to locate, buy, sell, lease and deal in mines and mining claims; to open, develop, improve, and work mining properties; to buy, sell, ship, reduce and smelt ores; to build, equip, lease, operate and maintain mills, concentrators, smelters, refineries, and all other buildings and plants of every kind and description whatsoever, necessary and proper to carry out the purposes of said corporation; to build, equip, lease, operate and maintain rail and tram ways and wagon roads; to lease, purchase and operate steamboats; and to do any and all other acts necessary, essential or incident to the purposes of said corporation as above enumerated.

The capital stock of the said Company is one million dollars, divided into one million shares of the par value of one dollar each.

Given under my hand and seal of office, at Victoria, Province of British Columbia, this 21st day of August, 1896.

[L.S.] S. Y. WOOTTON,
Registrar of Joint Stock Companies.

Mrs. S. A. Kell, of Pomona, Cal., had the bad luck to sprain her ankle "I tried several liniments," she says, "but was not cured until I used Chamberlain's Pain Balm. That remedy cured me and I take pleasure in recommending it and testifying to its efficacy." This medicine is also of great value for rheumatism, lame back, pains in the chest, pleurisy and all deep-seated and muscular pains. For sale by Druggists Langley & Co., Wholesale Agents, Victoria and Vancouver.

Reasons why Shorey's Clothing is the Best
Because—Shoreys are the only manufacturers of clothing who guarantee their work and their guarantee is as good as gold.
All their materials are Sponged and Shrunk and will not shrink or spot with rain.
Their Bicycle Suits are up-to-date models of comfort and are all Rigby Proofed.
They Rigby Waterproof all their Spring and Fall Overcoats and make no extra charge for it. Everybody is asking for Shorey's clothing but sometimes dealers try to persuade people to take inferior goods.
Look in the pocket for Shorey's Guarantee Ticket.
