Martin the Wigard.

Professor .. Martin, ventriloquist, wielder of the magic wand, etc., exhibited in the Alexander Hall, Monday and Tuesday evening. The audiences were small but appreciative, some of the Professor's tricks being very clever On Tuesday evening Mr. C. E. Wells was the lucky winner of the cash prize of \$5, and a young lady of a rather bashful nature won the pig, she could not, however, be persuaded to go forward and lead the animal off the platform, thereby forfeiting all claim to the pig. On Monday evening Mr. Peter Schastian, violinist, took a prominent part in the entertainment

PICNIC AND DANCE.

The Oddfellows picnic last Saturday passed off very pleasantly and was a decided success, although the party was not any larger than it should have been. The weather was all that could have been desired and everyone was in a happy mood. The Duchess left her moorings shortly after 9 o'clock and proceeded up the river to the Little Mill, which was reached about noon. Here we tied up and the lunch baskets were brought forth and the picnickers dispersed in groups to partake of the good things which the baskets contained. Lunch being ever one and all started on a prospecting tour over the hills for birds and beiries, and while the berries were numerous the birds were few and far between. At half past three the signal for stragglers to beerved by any celebration, the school get on board was given and a few minutes later we were homeward bound. Nothing eventful marked the journey home and we were safely landed on the Golden shore at 5 o'clook.

ECHOES OF THE PICNIC.

Thanks Bro. Warren for your houghtfulness in supplying a rig for the conveyance of the bankets to the wharf.

The officials of the Scamboav Co., were courteous and obliging.

A little music ou the boat weed have added to the enjoyment of the party.

Instructions in the art of eating pie will be given free on application at the post office-lemon pie a specialty.

Some of the party amused themselves by shooting at floating ties, and they "never touched them."

The "Doctor" from Field made himself very sociable with the ladies.

THE DANCE.

The dance in the evening was largely The first anniversary services of the attended and commenced at 9 o'clock Methodist Church were held on Sunday sharp and as the time at the disposal afternoon and evening. The school of the dancers was limited, the best possible use was made of it. Waltzes, Bon Tons, Jerseys, Ripples, and Schottisches followed each other in quick succession and it was with a sigh of regret that the floor manager announced the last dance at a quater to twelve, at the conclusion of which God Save The Queen was sung and all went home voting it to have been a most enjoyable dance. The Oddfellows wish to thank all those who assisted in a musical way at the danca.

A MODERN BOMANCE.

London, Sept. 3.-Capt. Hunter, of he British steamship Nonpariel, which arrived at New Port, Monmouthshire, from Cavenne. French Guiana, reports that Capt. Albert Dreyfus, formerly of the French army, and attached to the ministry of war, and who was sentenced to be publicly degraded and confined for life in a fortress after having been convicted by court martial of selling plans of French fortifications. mobilization schemes, etc., to foreign governments, escaped from the Isle du Grand. Salut, where he was taken after leaving Isle de Ra, off the French coast.

In an interview, Capt. Hunter is quoted as saying that Dreyfus escaped on board an American schooner, and with the help of his wife, formerly a Mmlle. Hadnamard, and the daughter of wealthy parents. Mde. Dreyfus, at the urgent request of the prisoner, received permission from the French government to join her husband at his place of imprisonment, and in due course of time arrived at Cayenne, well supplied with funds. Captain Dreyfus was arrested in October, 1894, was tried by court martial and was sentenced to be publicly degraded and confined in a fortress for life. His formal degradation took place on Jan. 5, 1895, on the parade grounds of the military school and in the presence of 5,000 troops. His sword was broken. his buttons and insignia of rank were cut off and he was compelled to go through what is known as the "execution parade," being marched with drums beating along the four sides of the square composed of the soldiers detailed to witness his punishment. He was cursed as a traitor but always maintained his innocene and claimed langs and chest and I can breathe that it would eventually be proven, a belief that was shared by a number of people at the time, it being claimed that he had been made the victim of a Mde. Dreyfus was foul conspiracy. also a firm believer in the innocence of her husband, and when she reached Cayenne, the French authorities offered her the use of a steam launch to take her to the Grand Salut islands, 40,000 Grand Army veterans tramped where her husband's prison was situated; but, she declined, saying that she hours yesterday, renewing the associwished to become accustomed to the ations of their youth and feeling in climate before going to the island, their veins the martial spirit that ani-Thereupon the steam launch left Cay- mated them in the enne. According to Capt. Hunter Mde was an ideal one for marching, the Dreyfus must have lost no time in perfecting plans for her husband's escape, clouds nearly all day, and a slight or else she must have had assistance breeze making the tramp much easier from persons who had reached Cayenne for those in line. It was 11:30 when before her; for the same night, he says the head of the parade reached the an American schooner, with Mde. grand reviewing around at Smith Park,
Dreyfus on board appeared off, Grand and 2.25 in the afternoon when the

General Warren said the price was higher than reported and that the deal would be completed on Monday. George Gooderham, the Toronto millionaire, who has over half a million invested in the mines round Rossland, declared in an interview, that the country had an immense future. Enough ore was now actually in sight to keep up the boom for years, and all that is wanted is improved transportation facilities.

Prospector or Miner.

A mining engineer, who claims to have studied the difference between a prospector and a miner, defines them as follows, says the Scientific Press: A prospector watches every piece of float and studies its source, knowing that it never came up hill, and he sees things that no one else would notice to tell which way the straws are pointed. The minuteness of his detection is marvellous. On the other hand, the miner sees nothing on the surface, or the formation of the country, and could not even select a nice rich cropping if he were to stumble upon it, but when he gets inside of a tunnel he can take out the best ore in the shortest time. His instinct serves Gold Quartz 1911 him well, but he sees nothing until he gets underground. A good prospector is seldom a good miner and vice versa. The two are opposite and distinct in their lines of action."

Mrs. E. E. Davis, of San Miguel, Cal., says: "I am trying in a measure to repay the manufacturers of Chamberlain's Cough Remedy for the great good their remedy has done me. For years I was a constant sufferer from weak lungs and brouchial asthma. My rest at night was disturbed by a hacking cough, so that I felt miserable the greater part of the time. Many remedies recommended by friends were tried, none of which proved suitable to my case. I did not experience any beneficial results until I began taking Chamberlain's Cough Remedy. After two bottles of the large size have been used I am pleased to state, my health is better than it has been for years. The soreness has left my easily. It has done me so much good that I want all who are suffering from lung troubles, as I was, to give it a trial," For sale by Druggists Lang-ley & Co., Wholesale Agents, Victoria and Vancouver.

The Grand Army

St. Paul, Minn., Sept. 3. - Nearly the streets of St. Paul fcr several warm rays of the sun being behind the Salut island, sent a boat ashore and brought off not only the prisoner, but several of the men who had been detailed to guard him apparently proving conclusively that everything was arranged for the escape of Capt. Dreyfus before his wife reached Cavenne. Continuing Capt. Hunter said the schooner then left the coast, heading in a northerly direction, and it is believed that Captain Dreyfus and his faithful wife eventually resched the United States.

A HANDY PROSPECTOR'S FURNACE.

The attention of Prospectors and Miners is called to the merits of a new improved apparatus, for testing and smelting various kinds of ores are mineral, a sea separating and refining base bullion, etc.

Manufactured by a chemist and metallurgist who thoroughly moderates the wants of the assayer, the prospector, the miner, the chemist of taborates test; for all furnace work, such as smelting, scorifying, coupelling, in single in crucibles, testing of sampling charges, reasting, etc.

This furnace is built in two halves for easy transportation, is complete in itself, made of steel where with cost, is on alea, and metal should apply

itself, made of steel plate, with cast-iron slag and metal apouts, wind supply pipe and knock-down bottom.

It is of the cupola type, with extension when smallting ores; capacity 1000 to 5000 pounds per heat; also smaller size, capacity from 100 to 200 pounds per heat, according to the character of cres.

The Advantages in Practice are as Follows:

This furnace is constructed by and for a prospector, who requires a serviceable furnace, easily transported over a mountainous country by a pack burro, that is complete and ready to be set up at any dump of low grade ores, that otherwise will not pay to ship, and make his good pay out of one to two tons of ore a day

On low-grade ores picked at the dump, this little furnace will pay for itself every week, besides wages and expenses. Let someone else do the risk in mining, and stick to a certainity.

What We Furnish and What it Costs.

A Handy Prospector's Furnace, 3 feet in diameter by 5 feet high, cupols type with knock-down bottom, made of No. 10 steele plate, and stiffened with angle-irons made in two half-circles for easy transportation, and then bolted together. Two steele-flanged metal and slag spouts, one blast supply pipe, two ladles, three furnace tapping tools, two darlings (or plugging sticks), one graphite No. 40 crucible, one blacksmith's forge blower, geared complete in iron frame, to supply blast by hand-power for the furnace.

The surire outfit complete ready to be set up, delivered on board cars.

The entire outfit complete, ready to be set up, delivered on board cars

Warning.. **\$100 REWARD**

It has come to our knowledge that certain persons, for the purpose of helping off their unsaleable stock of clothing, have taken our guarantee cards from the pockets of garments of our make and have put them in the pockets of other goods of inferior make, thus leading the purchaser to believe he was getting Shorey's clothing and thereby damaging our reputation.

We therefore wish to give notice to our customers and the public, that we will prosecute, to the full rigour of the law, any one whom we can prove to have done this, and we will pay a reward of \$100.00 to the person who will give us sufficient evidence to convict any dealer of this offence.

H SHOREY & CO., Montreal.

N.B. - We ere spending a great deat of money to make the merits of our ciothing known to the public and we insist upon dealers giving people what they ask for,
