Messrs International Pacific Salmon Fisheries Commission,
New Westminster, B. C.

Dear Sirs:-

When the press announced the Victoria government had appointed a board to decide whether or not a dam should be built across Quesnel river regardless of its effect on the sockeye salmon fishery I prepared a brief in protest and sent it to the Minister of Fisheries, Ottawa. I also sent a copy to you.

In acknowledging receipt the Minister took exception to my strictures concerning the Department's officials in their handling of the water rights application hearing re the Neckaco fishery. As a matter of record and to clarify the situation I enclose herewith copy of my letter of even date replying to his letter to me.

Yours faithfully,

HD/P/.
