January 31st, 1920.

A. Robertson, Esq.,
The Hatchery,
Harrison Hot Springs, B. C.

Dear Mr. Robertson,-

I am in receipt of your favor of the 27th and thank you for the information contained therein re the size of gravel used for Sockeye spawning purposes under natural conditions. The size you mention and the water conditions you refer to are practically identical in every respect with the streams around Namu Lake and Koeye River, the principal fish streams that Mr. Newcombe is attending to.

I am not writing him direct on the matter, as I think it better to have you bring it in incidentally in the course of your future correspondence with him. I do not want to take any steps which might lead to a misunderstanding between him and the Manager, or which might be the occasion of any friction.

Again thanking you in this matter, I remain,

Yours sincerely,

HD/MW
