

April 30th, 1919.

A. Robertson, Esq.,

The Hatchery,

Harrison Hot Springs, B.C.

Dear Mr. Robertson,

I am just in receipt of your favour of the 28th, also the four samples of fry and eggs, for which please accept thanks. The comparisons are certainly startling, as well as interesting, and I think there is no question that you have at last hit upon the right method of salmon propagation.

Next Spring I hope to get up again and spend a long time discussing this interesting question with you, and I regret that I had not the opportunity of being present when you opened the long box in front of the hatchery.

Thanking you for your kindness in remembering me,

I am,

Yours sincerely,

HD/JC.
