FOREST INVENTORY SUMMARIES - BRITISH COLUMBIA

NUMBER 2 INDEX MAP 92 C/NW C/NE C/SE

These summaries of area and volumes are based on the initial forest inventory of British Columbia. Area figures were obtained by the classification of areas on aerial photographs in the field, plotting of this information to base maps at a Scale of 1/2 mile to 1 inch, and planimetering the resulting forest cover maps. Volumes were obtained from samples established in Forest Inventory Zone(s) 2
The enclosed forest cover index map is a composite reduction of sixteen 1/2 mile to 1 inch forest cover maps on which forest strata have been collected into very broad classes. The entire series comprising 149 index maps and summaries, covering the Province, are being distributed in 1958. File all summaries, as received, to obtain complete set.

AREA CLASSIFICATION BY OWNERSHIP (In Acres)

	Crown Grant	Crown	Licences & Leases	Canada Control	All Ownerships
Mature Timber	183337	290952	173994	2700	650983
Immature Timber	61439	34651	19817	373	116280
Not satisfactorily restocked areas	32780	10064	35206	565	78615
Non-commercial stands	10847	4632	1810	483	17772
Non-productive forests and non-forested lands					93678
Water					31991
Swamp					2790
Total	288403	340299	230827	4121	992109

VOLUMES BY SPECIES AND DIAMETER LIMIT (In thousands of cubic-feet to a "Close" - 1-foot stump, 4-inch top - standard of utilization, gross volumes reduced for decay loss.)
