TWO ACCIDENTS THURSDAY

Pusher Dangerously Injured and Driver Severely Crushed at Extension Mines.

An accident occurred in No. 2 Extension mine on Thursday morning, by which a man named Mr. Simpson was seriously injured. Simpson is a pusher, and it seems a loaded car by some means got away on him. Usually the cars are taken out with four sprags and a rope also is used. Simpson was in front of the car with neither sprags in nor rope on and was carried down the shaft for a hundred yards or so and was badly broken up. One of his legs is broken in two places, an arm also is broken and he is bruised and scraped all over.

He was brought down to Ladysmith by special train and at once taken to Chemainus in the ambulance wagon.

There was a second accident at the Extension mines on Friday, when young McKay, who is employed as a driver was painfully injured. He was bringing out a loaded trip of three cars and was jumping on to the box when the mule jerked away.

McKay was pinned between the side of the tunnel and the side of the box and the harder he shouted the harder the mule pulled. When eventually the unfortunate youth was released he was torn and cut across the groin and in the thigh. His ankle was also crushed and very much swollen. However, although painful, his injuries are not dangerous.

FIRST OF JULY MEDALS

Mr. P. G. Noot, the Gatacre street Jeweler, had on exhibition on Thursday the medals and lockets for the five-a-side football contest and the relay race which were held here on Dominion day. The five-a-side games were won by Paddy's invincibles and they will certainly be pleased with their lockets. The lockets are a nice shape and size, and, besides the inscription on the back, the initials of the player are engraved on the front. This is really handsome work and the lockets eclipse anything that has ever been put up locally for the money.

The medals for Girard's relay team are also well worth having, and the lockets won by Cosier's five-a-side team also gave the utmost satisfaction.

WEEK AT THE WHARVES.

The following vessels called at the Wellington Colliery Co.'s wharves during the week: Marion, Canadian, Boyd, Burrard, Selkirk, Belfast, Henriette, Stetson and scows, Clayburn and scows, Queen, Oscar, Eir, a big Mexican freighter, Venture, Northland, Flyer and scows, Czar, Farquhar, and St. Clair.

CANADIANS AT THE BISLEY SHOOT.

BISLEY, July 23.—In the All-Comers Aggregate yesterday, the aggregate of scores in the Graphic and Daily Telegraph, match, Alexander Sergt. Morris was sixth, winning three pounds. Lt. Scater was 24th, winning two pounds. Lt. Mortimer was 81st, winning two pounds. Sergt. Morris totalled 166 and the other two 163. The next highest Canadian was Crowe, with 161.

Sergt. Morris has a nice lead in the grand aggregate matches so far shot and stands more than a good chance of winning the prize offered by Lord Strathcona for the highest score made by a member of the Canadian team.

For the Canada Club Prize, given to the next highest man, several members of the team have good chances.

In the Stock Exchange Reserve Prizes, Capt. Crowe, who was 130th and Sergt. Brown, 169th, each won one pound.

In the second of Barlow, Sergeant Morris was 71st, winning one pound. In the Secretary of State for War shoot today, the Canadian prize-winners were:

Pte. Steele, 20th, three pounds.	37
Lt. Mortimer, 31st, two pounds.	38
Lt. Elmitt, 64th, two pounds.	39
Lieut. Col. Spearing, 69th, two pounds.	40

The following were complete scores of the Canadians in the Duke of Cambridge match, ten shots at 2,000 yards:

Pte. Leask	44
Capt. Crowe	40
Major Jones	39
Pte. Steele	39
Sergt. Hales	39
Sergt. Brown	38
Sergt. Morris	38
Pte. Escott	37
Lieut. Scater	37
Lieut. Mortimer	37
Sergt. Smith	36
Lt.-Col. Spearing	36
Pte. Williams	36
Pte. Haystead	35
Lieut. Elmitt	34
Pte. Rowe	34
Lieut. Spittal	34
Sergt. Utton	33
Sergt. Martin	32
Sergt. Freeborn	31
Corp. McInnes	31
Sergt. Kerr	30
Major Pope	27

ULTIMATUM TO SULTAN.

LONDON, July 25.—A special despatch received here from Monastir, European Turkey, says a committee of the Young Turkey party have sent a memorandum to the representative of the Sultan setting forth their wishes and demanding a reply in eleven days.

If the Porte refuses the demands the committee announces that it will seize the municipal administration of Monastir and establish a parliament.

THE OLYMPIC DISPUTE

American Runner Disqualified in the Final of the 400 Metre Race.

According to yesterday's despatches from London, the Olympic games came pretty near to being wrecked by an incident which occurred in the final of the 400 metre race. Halswell, the British crack, was running against three American competitors. The officials round the track, while the race was in progress, suddenly tore down the tape and declared the race void. Their reason is that Halswell was fouled by Carpenter, of Cornell University. The final statement of the officials was: "The judges declare the race void, and order the same to be run over again on Saturday at noon. Carpenter is disqualified."

Of course, there was pandemonium, and the sports were stopped for half an hour while noisy demonstrations and the bitterest wranglings went on all over the grounds. The Americans are protesting the decision, and will probably withdraw their runners from the race.

The point that will strike the Canadian, and particularly the English, reader of these despatches, is that he cannot tell what really did happen. The despatches are neither more nor less than briefs for the American athletes. The foul must have been something very bad, very glaring to have set all the officials running and shouting at once. It is a great pity that Canada and Canadians should have to take its British news from an American news agency and over an American wire. These despatches are written for American journals, and obviously support the American colors.

One of the American runners declares that Carpenter would never stoop to commit a foul, and then goes on to say "We just raced him (Halswell) off his feet and he could not stand the pace." Halswell did the distance in record time the day before, and it is noticeable that in the despatches the time given out for Carpenter by unofficial timekeepers, that is to say, by friendly timekeepers, is Halswell's record time of the day before.

The real facts will never come through the Associated Press which, considering the universal interest displayed in the Olympic games is greatly to be regretted. Of course, there are poor sports in England as in every other country; but it is utterly incredible that British officials in an international athletic meeting would ever take such action without full and sufficient reasons.

RACE HATE DIVIDES TOWN.

NATALBANY, La., July 23.—Daylight found this town divided into two armed camps with race hatred strained to a dangerous pitch. During last night preparations had been made for a race war of large proportions but the passage of night without actual fighting is believed to have averted further danger.

One of the hostile camps consisted of Italians and other foreigners gathered beside blazing fires on the outskirts of the town, and said to number, including the men, their wives and children, about 500 persons. All day yesterday these foreigners gathered in camp after moving out of their homes here and in the vicinity in the fear of reprisals by Americans for the wounding of Walter Simmons on Tuesday and subsequent shooting between Americans and Italians yesterday. Some of the foreigners claimed to have been warned to leave this section of the country.

The opposing camp was made up of about 75 residents of Natalbany, under command of Sheriff Saal. Early last night an Italian came into town and said that the men at his countrymen's camp intended to attack and wipe out the town before morning. The sheriff sent out some scouts, picked the town and ordered every available man to be ready to fight. At intervals the scouts approached the foreigners' camp fires and reported that they were evidently holding continuous debates.

Natalbany is a large lumber mill town and the race trouble is the outgrowth of trouble with the mill employees, which has resulted in an exodus of foreigners from the lumber communities in other parts of the state during the year. The authorities here believe they have the situation under control, and that any Americans who have threatened to lynch Italians will be forced to keep the peace, allowing the foreigners to return peacefully to their homes. Blind fear on the part of the foreigners is responsible for the situation.

Last night Jos Anselone and Vincenzo Lueto, who claimed to be innocent of wrong doing, were freed upon a sheriff's posse and were wounded when they refused to allow their house to be searched for Italians accused of attempting to murder Walter Simmons, who interfered in a fist fight between Americans and Italians some days ago. He was shot by other Italians and was taken to New Orleans to a hospital, where he died yesterday. The wounded Italians who are not dangerously hurt are under treatment in New Orleans.

THE CITY'S SANITARY CONDITION

Standard Correspondent Alleges Certain Evils Which Demand the Attention of the City Council.

Editor Standard, Sir,—It will be remembered by at least some of our citizens, that on March 27th, 1908, certain blue papers were handed to a number of our citizens, hailing them before our "high tribunal" regardless of guilt or innocence. At that hearing our worthy J. P. said, in no uncertain tone of voice, that the Council were bound to keep dirty water off the streets, and anyone who in the future disobeyed the mandate, would be dealt with more severely than the particular bunch of culprits who were honored with the blue papers at that time. I have been paying more or less attention to dirty water lying on the streets, besides other filthy conditions, since that time, and I have concluded that our officials were seized with a temporary brain storm at that time, and after it passed off they were so afflicted with inertia that they have not been able to do anything since.

It is to be greatly regretted that our officials are so extremely lax in their administration of public health affairs, especially where such things are quite easily regulated. On, before, and since the 27th of March, one of the most filthy places in the city was between Hop Lee's bakery and Isaac Gould's store. That has remained in the same filthy state all summer, a perfect incubator of typhoid germs which swarms of flies are scattering. Again, between the New Western and Protoria Hotels is another up-to-date germ hatchery, the odor from which can be detected at a considerable distance. Surely none of our city officials are ever in these vicinities, or they would have been reported inside of four months.

Then, the condition of very many closets in our city is an abomination and if there is one thing more than another over which a rigid inspection should be kept, it is certainly that. But what do we find? We find many closets with a wooden box for a receptacle that is barely an excuse. We find also, that the great majority of buckets are simply coal oil tins, which at best is only an excuse and some closets have no buckets of any kind. There are nearly five hundred closets in the city, and not fifty proper buckets are sold here in a year. Now, how our city can be clean or an outbreak of disease prevented, it would puzzle the mind of mortal man to conceive.

One would have thought when our scavenger took "oath of office" that the Council would have instructed him to report all unsanitary conditions, and also instructed the city police to see what sanitary conditions were maintained; but they either failed to do this, or their instructions have never been carried out.

Our city, unfortunately, has no sewage system, and the best the Council can do is to keep a close inspection over these things, but will they do it? Our city health officer has seen fit to advise that all wells be closed, and not a few of our citizens are howling about it, and at the same time some of these same people do not care what fifth accumulates around their places. Consequently they have themselves to blame for any such orders being issued; but it seems a pity that those who have incurred the trifling expense of trying to maintain cleanly conditions should be sacrificed on account of the filthy and careless.

This is not nearly all that can be said of existing conditions in our city, but it may possibly be a broad enough hint to our city officials to get a move on, and when they start a campaign against dirt, let it be more than 24 hours duration. Let them see that the old dumping ground on the old Victoria road is attended to and not wait for the sun and rain of ages to rid us of a nuisance that should have been attended to long ago. Let no quarter be our motto until the filthy conditions in Ladysmith be made clean, and if our Council has not by now enough to deal with existing conditions, let them enact more and make them complete while they are at it. Then our health officer will not have as long a list of sicknesses to report as he had last year, and clean, healthy conditions around our places are always very much cheaper than doctor's bills.

I am, yours, etc.,

TAXPAYER.

A SENSATION AT THE OLYMPIC GAMES

LONDON, July 23.—In the final of the 400 meter flat race at the Olympic games today, J. C. Carpenter, Cornell University, came in first. A sensation was created when the officials declared that there was no race. This decision was reached on the ground that Carpenter had "bored" Halswell, the English runner. Boring is the English term for "pocketing." A. C. Robbins, Harvard University, was second, Halswell was third and J. B. Taylor, Irish American A. C., fourth.

Matthew P. Halpin, manager of the American team says the Americans will not run the race over. As soon as the decision of the officials was made known, the grand stands were in an uproar, the Englishmen cheering the announcement and the Americans booing.

THE SEWERAGE SYSTEM

There was a special meeting of the City Council held in Mr. John Stewart's office on Thursday evening, Mr. Mohun, the engineer engaged by the Council to prepare plans and furnish an estimate for the installation of a sewerage system, had some suggestions to make before completing his work and it was to consider these that the Council was called together.

Mr. Mohun suggested that, instead of making a deep rock cut to reach the beach with the sewer pipes a cement tank be built with a pipe discharging into low water.

After some discussion, Mr. Mohun's recommendation was accepted, and he will now complete his plans and estimates for the proposed system.

It may be that the Council will be unable to make a start with the work this year, but they can, at least put a by-law through and so get everything in readiness for whoever has to take it up.

TWO ARRESTS IN SLAVE CASES

CHICAGO, July 21.—Through information obtained by United States Attorney Simms, arrests were made today by secret service officers in two white slave cases.

Mrs. Santina Pezza, owner of a resort on State street, is accused by Catherine Bressi, 21 years of age, a "slave," with having imprisoned her in a resort frequented by negro men and Italian laborers. When the girl paid \$100 for her release, she alleges she was detained by force. She tried to escape and was caught by a male attendant who knocked her down and slashed her four times across the face with a razor. The girl was exhibited to other slaves, she avers, as a warning of the kind of treatment they would get if they tried to escape.

She says Mrs. Pezza sent \$100 to Italy to pay her fare to New York. At that city the girl was taken in bondage by two men to some place unknown to her, where the men assaulted her and beat her. When the girl was found in a raid, she was a prisoner in a locked room.

In the second case Commissioner Foote remanded Joseph Ochner for the alleged importation of Lillian Schoolcraft, a young German girl, for immoral purposes. Ochner is said to have represented himself as a single young man, and induced the young girl to accompany him to America. When they arrived here and Miss Schoolcraft learned he was married, she alleges he kept her a prisoner for over a year.

FORT WILLIAM HAS VERY NARROW ESCAPE

FORT WILLIAM, Ont., July 21.—Fort William had a narrow escape from destruction by fire which broke out shortly after 2 o'clock this afternoon at the rear of the establishment of John King Company, Victoria avenue, and which before it was finally got under control two hours later, caused enormous property loss.

The blaze was one of the worst the city has ever experienced, and for a while it was feared that a large section of the city was doomed. The wind was blowing almost a gale, and the warm weather of the last week or two had rendered everything inflammable as dry as tinder and it was not more than a very few minutes before the frame buildings at the back of the big warehouse were like raging furnaces. The line block occupied by the John King Co. was completely destroyed, as were several other frame buildings at the back. An area extending from Victoria avenue to George street, about an acre in extent, was swept clean by the flames. The buildings immediately adjoining the brick block on Victoria avenue were also badly damaged, and the loss there will be considerable.

THE LOSSES.

John King Company, \$105,000, insurance \$75,000.
Robt. Strachan, loss \$10,000, insured partly.
Kirkup & Wilkie, loss \$15,000, insurance \$10,000.
Snellgrove & Waddington, loss \$20,000, insurance \$12,000.
Rutledge & Jackson, loss \$5,000.

LONDON, July 21.—A special despatch to the Daily Telegraph from Constantinople says there is not the slightest doubt that Turkey is suffering the greatest crisis in her internal affairs than it is possible to imagine.

The Sultan, continues the correspondent, is furious at his ministers, who declare he is responsible for the situation in Macedonia, and who he accuses of misleading him as to the true facts of the situation. They have advised him to pardon the officers now waiting the courtmartial on the charge of assisting "Young Turkey."

agitation, but he obstinately refuses to do this and declares the ministers are traitors.

CHICAGO, Illinois, July 22.—The decision of the circuit court of appeals in the Standard Oil \$29,000,000 fine, handed down today, reversed the decision of the lower court and has ordered a new trial.

LACROSSE MATCH

Despatches differ as to New Westminster's showing in the big game at Montreal yesterday for the Minto cup. An early despatch says:

Montreal, July 21.—New Westminster this afternoon showed their aspirations to the Minto cup, emblematic of the lacrosse championship of the world are likely to be reached. They kept the Shamrocks, the present holders of the trophy, going from the drop of the hat to the last minute of the play, and created a most favorable impression on every one of the big crowd which witnessed the game, which was one of the best seen here for a long time. The Shamrocks have improved wonderfully during the past few weeks and have also strengthened the team by the introduction of new blood, but even with this they were unable to cope with the speedy and plucky westerners, who were more or less handicapped from the fact that they were playing on strange ground and before an audience that was any thing but sympathetic, while the Shamrocks were on their home field and the benches were filled with their admirers.

After yesterday's exhibition it is taken almost for certain that the Minto cup will journey westward, and that whatever team takes it back will have to wrest it from New Westminster under the conditions under which New Westminster played yesterday.

CONSTITUTION RESTORED.

Salonica, European Turkey, July 24.—An imperial firman, restoring to Macedonia the constitution of 1876, was read in this city publicly this morning in the presence of civil and military authorities, and before an immense and orderly crowd.

DECLINE SUGGESTION.

London, July 24.—The board of Trade has declined the suggestion made by the printing trade organization to prepare a new patent not applicable to copyrights with a view of remedying the injury to the trade through authors having their books printed in the United States instead of Great Britain.

SUSPECTS ARRESTED.

Boston, July 24.—Three men were arrested today in connection with the recent raid of the Jamaica Plain bandits. A foreigner, who threatened to shoot a woman unless she gave him food, was arrested, and two men carrying loaded revolvers, were seized in the Needham woods. None of them have been identified.

NEWFOUNDLAND FISHERIES.

WASHINGTON, D. C., July 24.—To guard against friction pending between the tribunal of the respective rights of American fishermen in Newfoundland waters the department of State yesterday, reached an agreement with the British foreign office for an extension of the present, modus vivendi governing the fisheries to cover the approaching fishing season.

TWO CHILDREN BURNED TO DEATH.

CLEVELAND, July 23.—In a fire that destroyed the dwelling of Jas. Jarasky, a short distance south of the city, early today two of his children were burned to death while Jarasky and his two year old daughter were at a hospital injured. The fire broke out when all the members of the family were asleep. Jarasky succeeded in getting out his wife and two children the two others lost their lives.

GARRISON MUTINIES.

Belgrade, July 24.—The entire garrison at Uskub is reported to have mutinied and Albanians are said to be marching upon the city, although there is nothing to show whether they propose joining the mutiny or are attempting to quell it.

LONDON, July 21.—A special despatch to the Daily Telegraph from Constantinople says there is not the slightest doubt that Turkey is suffering the greatest crisis in her internal affairs than it is possible to imagine.

The Sultan, continues the correspondent, is furious at his ministers, who declare he is responsible for the situation in Macedonia, and who he accuses of misleading him as to the true facts of the situation. They have advised him to pardon the officers now waiting the courtmartial on the charge of assisting "Young Turkey."

agitation, but he obstinately refuses to do this and declares the ministers are traitors.

BETTER SANITARY CONDITIONS

The letter which we publish in another column, coming so soon after Mr. Burke's address to the Council, would indicate that the sanitary condition of the town is really exercising the minds of more thoughtful citizens. "Taxpayer's" letter does not add anything to the knowledge of the man who travels the town. It makes no new charges, and contains no fresh revelations. Therein lies its chief significance. The fact that admitted evils—evils which in themselves are not only a serious menace to the health of the city, but are a flagrant violation of the city's by-laws—should be allowed to continue without question for so many years, is living proof of the laxity and carelessness which has marked the government of the town. Of course, it is much easier to do these things from the outside than from the Council chamber. The law was described by the famous Dundreary as "a boss", and there is nothing in this life warranted to furnish more big surprises than the findings of a court. A clear case is very often like a racing certainty—it does not come off. Any citizen who is at all awkwardly disposed can put the Council to considerable expense, and the result, even in the clearest looking cases is in doubt until the decision has been given.

However, our correspondent raises another point which recalls Macaulay's famous introduction to his essay on Byron, in which he so bitterly satirizes the Englishman's periodic fits of virtue. There is nothing to be gained from judicial or administrative spasms. Indeed, if there has been any laxity or carelessness in the government of a city there is all the more reason for full and proper notice being given when a change is contemplated. Once a council has sanctioned a procedure which is not called for by the city's by-laws it constitutes a real hardship and an injustice to withdraw it without notice or warning.

Moreover, as "Taxpayer" very properly points out, the sanitary condition of the town demands constant attention. In the life of the last Council the medical officer of health attended a meeting for no other purpose than to draw the Council's attention to the state of some of the back alleys in the town, and to recommend the adoption of garbage boxes. The suggestion was readily accepted by the Council, and instructions were to be issued to every householder to procure a garbage box. This was very proper, and extremely gratifying, but there is not today, nor ever was, so far as we could discover, a garbage box the more in town for this pious resolution of the late council. It is not surprising that such laxity on the part of the city officers should breed almost criminal carelessness in some of our citizens.

The character of the city administration needs to be changed. If once the people have reason to believe that the council is in serious

**Ladysmith

Best Liquors and Cigars.

Cartwright & Barelay

earnest in its intentions its orders will be treated with respect. The time has come when the question of the sanitary condition of the town must be thoroughly investigated. The council must live up to its laws and shoulder the responsibility of enforcing them. We are all vitally concerned in the question of better sanitary conditions, and any action of the Council will be generally supported.

THE WORLD IN BRIEF

The Alpine wireless stations of the Swiss war department catch many stray messages from Atlantic steamers.

At Alkton, Md., a two-year-old boy found a box of strychnine pills, swallowed several and died in thirty minutes.

Sturgeons weighing from fifty-eight to eighty-five pounds were trapped at the dam in Stevenson, Mich., last week.

The Oxford endowment fund has reached \$500,000, and William Waldorf Astor has contributed a second \$50,000.

Germany is now gaining more by immigration than she loses by emigration; the reverse is true of Great Britain.

Otto Castrop, of Waterbury, Conn., in good health, read his own obituary in a newspaper of that town one day recently.

William Bahmiller beat his way from Buffalo to Wilkesbarre riding in the water tank of a Lehigh Valley locomotive.

The health department reports that more than 60 per cent. of the children in Chicago public schools are physically defective.

A company has been formed for introducing wireless and long distance telephone service between Mexico City and Vera Cruz.

J. D. Archibald, a student of Cornell university, is lost in the high sierras, California, and is believed to have started to die.

George Managana, an Indian boy has finished five years in the Elk Rapids high school without missing a day or being late.

The Venezuelan court of cassation has confirmed the fine of \$5,000,000 imposed on the New York and Bermuda Asphalt company.

More than six thousand women are employed in the Russian secret service. Some draw two thousand pounds a year, or even more.

The ownership of a parrot was determined at Cincinnati by placing it in the witness stand and having it repeat favorite sayings.

At Evansville, Ind., Sylvester Teplinger, 6 years of age, died from tetanus, the result of a heavy cake of ice falling on his foot.

At Sunnyside, Pa., the trustees of the church held a public sale of the grass growing on the church property and realized \$47.

The vicar of Combe, near Woodstock, England, has found in his church a green silk velvet pulpit cloth bearing the date of 1684.

A. Booth and Company, Chicago fish dealers, pleaded guilty to having accepted rebates from railroad companies and are facing a \$20,000 fine.

The deepest hole in the world has been bored in Silesia. It has reached a depth of about 7,000 feet and passes through eighty-three beds of coal.

An ancient reservoir for water, containing several earthen pitchers and a metal dipper, has been discovered by workmen under Exeter cathedral.

New York city has one public park that is 250 years old, and that is Bowling Green, which was the playground of the first Dutch settlers.

The new battleship Indefatigable, on her trial trip on the Clyde, did better than her sister ship, the Indomitable, making just under 27 knots.

England owns 60 per cent. of the mileage of submarine cables, the United States coming next, with 18 per cent. and France next with nine per cent.

Grover Cleveland's will, which has just been filed, leaves the bulk of his property to his widow. The estate was larger than was generally supposed.

All the toys of the little son of Mr. W. K. Vanderbilt, who is visiting Paris, have been insured by his father in case they get lost or damaged on the journey.

An employee of a matrimonial bureau in Chicago testified on the stand that only 10 photographs of men and women out of 10,000 are of sufficient merit to attract.

Miss Sarah Bramley died in Nottingham, Eng., workman at the age of 109. Records show that she was born on May 17, 1799, and entered the workhouse 50 years ago.

John Seavey, who, with two companions, cut the schooner Nellie Johnston from her moorings at Montague, Mich., and changed her name, were arrested aboard her near Frankfort.

Although his skull is fractured and he is otherwise injured, Ora F. Havill, a Mount Carmel (Ill.) editor, may survive the attack of a livermy who assaulted him because of a joke in his paper.

Between 400 and 500 delegates, representing two-thirds of the states of the Young People's Christian Union, United Brethren in Christ, at Indianapolis.

The bill for the prohibition of the manufacture and sale of absinthe in France has been laid on the table of the senate. At present France drinks more absinthe than all the rest of Europe.

The family of Wm. Potts, of Milwaukee, Ind., will at the coming election cast 80 votes for the Republican nominee for president. Nine sons, besides brothers and nephews, make up the total.

State Senator Russell is trying to organize "sacred clubs" in every community in Oklahoma. Each member is to plant an acre of some product and the scheme is a practical school for farmers.

The publishing department of the Christian Endeavorers at Boston did a business of \$66,579 during 1906-07, of which amount a little over \$6,800 was turned over to the society for its general expenses.

The Baltimore & Ohio railroad bridge at Upland had to be torn

down to release a barge loaded with 200 tons of coal, which became fastened under the false work of the new bridge in course of construction. William Richard, 18 years old, the legless boy at Reading, Pa., saved all his pennies and dollars to buy an automobile, and now enjoys life, taking daily trips and carrying his father to and from work.

\$20 A MINUTE TO RIDE WILD BULL

DENVER, July 21.—The sum of \$20 a minute for a little work is worth taking a little risk for. If there is anyone in Denver who wants to earn that sum per minute he can by appearing at the world's broncho busting championship finals next Saturday at Manhattan Beach and riding Old Chayenne, the wild bucking bull that went through the fence last Saturday before a crowd of four thousand people.

Tex Johnson was the celebrity from the range of the Lone Star State, who claimed to be the best rider in the Panhandle region, and who had the mount at the time Old Chayenne ducked through a fence eight feet high.

Charley Irwin and manager Jay J. Bryan of the Manhattan wild west show are the men who have offered this amount. Irwin owns the bull, and was cutting at the Albany ranch yesterday with a crowd of eastern people. They were talking about broncho busting and Irwin said he had a wild bull out at Manhattan Beach that he would give any easterner \$10 a minute to stay on.

Jay J. Bryan said he would double it and let the \$20 go for any one in Denver, providing the attempt was made next Sunday. No entries have yet been received for this contest of man and bull.

There are thousands of easterners in town who have never seen any real ranch life, the woolly west kind. They don't even know that cattle branding is done right out on the plains, that the steers are roped after a fire is built, tied helplessly, and that the hot iron is then applied. This is what will be one of the features of the finale in the world's championships at Manhattan Beach Sunday. It is not permitted by the humane society for cattle to be branded simply for exhibition purposes, so Tom Tucker, the big ranchman who has just received a trainload of 2-year-olds from the Panhandle, will let the cowboys put his brand on a bunch of these.

QUEBEC GREETS PRINCE OF WALES.

QUEBEC, July 21.—Quebec's reception today to the Prince of Wales was a magnificent success, unmarred by a single untoward incident. The harbor is dotted all over with warships, and the battleship New Hampshire of the United States navy fired one of the first guns of salute announcing the arrival of the battleship Indomitable with the royal party aboard.

The Indomitable, followed by the cruiser Minotaur, was made fast to her mooring buoy before the smoke from the saluting guns had entirely disappeared. As each vessel came to anchor she ran up bunting and her men lined her sides as the salutes were fired, and so did the men of the visiting warships. At the same time flags were displayed on the British vessels already in port, and on the citadel and the Governor General's quarters. The Minotaur ran up the royal standard on her mainmast, and it was already flying on the Indomitable.

As the Indomitable passed the other warships flags were dipped, and all the way up the harbor salutations were exchanged with the great fleet of pleasure vessels. The crowd that lined Dufferin Terrace to watch the arrival must have numbered 25,000, while many thousands more were crowded upon other places from which a good view of the harbor could be obtained.

Immediately after the arrival of the ships, his excellency, the governor general, and Premier Laurier boarded the Indomitable and arranged several details of the reception with his Royal Highness as well as the replies to the addresses to be presented. The distinguished Canadian leaders were introduced to the Earl of Dudley, governor general of Australia and to the various members of the staff accompanying the Prince of Wales.

Both the warships and the Citadel boomed forth royal salutes as the Prince and his suite landed at the King's Wharf. The royal visitor was met and welcomed by the Canadian cabinet ministers and driven to the parliament house, escorted by four troops of cavalry, advance and rear guards, and mounted police. Several state carriages containing the royal suite preceded that containing his royal highness, which was drawn by six horses, with scarlet and white liveried outriders. A brilliant royal and military staff rode before the carriages, which were surrounded by a detachment of the Northwest Mounted Police, especially detailed to act as a bodyguard to his royal highness during his stay in Quebec.

Thousands of cheering people lined the streets and here and there were groups of school children who sang "God save the King" as the royal carriage sped past.

The Prince of Wales will remain in

Quebec one week in attendance on the great Tercentenary celebration now in progress. During this time he will be kept exceedingly busy if the schedule of events arranged in his honor is adhered to. He will attend several naval and military reviews, witness the historical pageants and be present at a number of official functions of varied character. The principal event will be the formal dedication of the Plains of Abraham as a national battlefield park.

COAL WILL BE A LUXURY SOON

With the domestic coal supply dwindling at the rate of 400 million tons per year, and the foreign supply disappearing at an equivalent rate, the problem of fuel supply takes on more than an academic interest. The Engineering Record, in an editorial, threshes the matter out pretty thoroughly.

It is all very well, it states, to inquire profanely what posterity has done for us that we should forbear skinning the earth's resources on its account, but from the present outlook this matter has ceased to involve waiting for posterity. It has reached a point where there may be trouble within the lifetime of children now alive.

If the coal consumption of the country increases at anything like the present rate it probably will not be more than a quarter of a century before the calamity of far dearer fuel will be upon us. It is not that the supply will be exhausted by then, but that scarcity, long transportation and deep mining will cooperate so to enhance the price of coal as to completely modify present conditions.

The coal famine of a few years since shows the disastrous results of even a slight shortage in forcing up the price. What would be the industrial situation with steam coal at \$10 and upwards per ton permanently?

It is not a pleasant thing to contemplate and yet such is the situation which confronts us in the not distant future. It will not be long before most of the remaining coal will be low grade bituminous or lignite. A large part of the fields yet remaining untouched are, in fact, the meanest kind of lignite, entirely unsuited for transportation.

There is not enough wood left to cut any figure in the industrial situation. Of peat, good, bad, and indifferent, there is a large amount, but thus far all attempts to get it into a usable shape, on a large scale have proved somewhat futile.

The hydraulic power available at reasonable cost of utilization is being rapidly taken up. Even if 10,000,000 horse power were in good shape for profitable development it would at rough approximation relieve the present coal consumption by only something like 10 per cent., while that consumption has risen 30 per cent. in less than five years.

Hydraulic power, then, valuable as it is, can be regarded only as a small auxiliary.

Is it not time for electrical engineers to make good their perennial bluff about distributing power from the coal mines? This proposition has been up for a long time, yet nothing substantial has been accomplished. Except for a plant in South Africa and one in Pennsylvania, there is as yet nothing like a serious power transmission from cheap coal.

There is a vast amount of clum, lignite and such like stuff which cannot be profitably transported, but might be burned at the mouth of the mine with good economic result if the work were seriously undertaken. Most of it is so situated that it can be advantageously utilized in one way or another, by the generation and transmission of fuel gas, which, again, is a scheme not yet seriously attempted from such sources of fuel. It is high time that progress were being made in these directions.

Of course there are difficulties at present in the way of burning lignite efficiently and on a large scale. Most boilers and furnaces are designed for use with fairly high grade fuel, so that burning lignite involves special appliances. Yet there are indications that the problem of using lignite economically has been at least proximately solved. Certainly there are already in existence plants which do use it with pretty good results. It is sufficiently rich to do well once the art of burning it has been mastered.

With a big turbo-generator plant worked out on such cheap fuel, power could be brought down to such a point that would permit transmission over a long radius and sale at a good competitive figure—a figure, in fact, that would stagger a good many hydro-electric plants. Gas production and transmission under moderate pressure, as in the case of natural gas, would be also practicable in the case of some grades of poor fuel, and would give the ability to furnishing general heating as well as power.

Heating is a terribly serious matter in our Northern climate, and if one relies on electrical heating, the outlook is bad, since the whole power of Niagara could not keep New York city from freezing to death. When it comes to heating, in fact, there is not enough hydraulic power to be worth serious consideration.

Fuel gas, however, can be made to help out effectively and may come to be our chief reliance. The present outlook is grave, it is time to be up and doing. Each year with its increase of fuel consumption brings down the current estimate of the endurance of the supply. Not long ago it was 500 years, then 200, and now practical exhaustion of the available supply seems a bare century off, with a serious increase of cost looming up in the near future. It is about time to start the fight to preserve the existing status of things lest the pressure on industry bring disaster.

WESTERN REGATTA.

Winnipeg, July 23.—The annual regatta of the Minnesota and Western Canada association, which is to have its opening here tomorrow under the auspices of the Winnipeg Rowing club promises to be one of the most notable aquatic events ever pulled off in this city. The races will be rowed over a new course on the Red river, and leading clubs of Minnesota, Manitoba and Ontario will take part.

BISHOP POTTER OF POTTER TAVERN FAME.

Europe, where he was received, of course, with marked attention. That this did not disturb his poise in any way was shown by his utterance in London, and his repetition of the same thing when he returned to New York, that "You may depend upon it there is no love lost between the two countries. I think there is a good deal of gush about the British protestations of love for America."

He was very liberal with his ministers and was especially hearty toward Dr. Rainsford, at whose views and ways many New York Churchmen, at first looked askance. But one day, when a gathering of ministers was at his house, Dr. Rainsford arrived late, having just come in from a fishing trip and wearing his angling togs. This was too much for the bishop, and he said abruptly, "Oh, Rainsford, please go and put on something canonical!" and Rainsford did.

The greatest monument to Bishop Potter's memory will undoubtedly be the famous Cathedral of St. John the Divine, which is being built on University Heights, New York. The bishop threw his whole soul into this great work, raised millions of dollars for it, but he did not live to see more than a small part of the magnificent structure completed.

He himself never expected to see the completion of the work and did not even expect the next generation to see it, but with characteristic greatness of mind he planned far ahead and rejoiced in the idea that some future generation would enjoy the magnificent sight of the completed cathedral.

In 1889-1900 the bishop made a journey around the world, visiting the Philippines and highly approving the work which Gen. Otis and the U. S. army were doing in that region. In the winter of 1904-05 Bishop Potter took another trip around the world, inspecting the various missionary stations and getting from the journey rich material for addresses, lectures and sermons, and bringing before the eyes of the church what he regarded as the real value of missionary work in foreign lands. In 1908, upon his request for a conductor, Rev. Dr. David H. Greer, rector of St. Bartholomew's Church, was appointed.

Bishop Potter was twice married, first in 1858 to Eliza Rogers Jacob, daughter of one of his parishioners in Greensburg, Pa. Mrs. Potter died June 30, 1901, from heart failure, leaving him five children. In the autumn of 1902 the bishop was married to Mrs. Alfred Corning Clark, a widow of fifty-five.

STEEL COMPANY SETS EX-AMPLE.

Will Not Employ Foreigners in Works, but Will Build Copy Homes for Americans.

PITTSBURGH, July 22.—Illiterate foreigners are barred from employment at the ovens of the H. C. Frick Coke Company, the fuel end of the United States Steel Corporation, and English speaking workmen are being hired to fill the vacancies. As the Frick company was one of the first to advocate the employment of cheap foreign labor, the announcement that only Americans, or men who have lived in this country for a certain number of years will be hired, is greeted with joy in labor circles.

Cosy homes are being built for the American workmen by several large corporations which have decided to abolish foreign labor and in some instances plans are being drawn for towns to be settled and conducted by the workmen.

TECUMSEHS COMING TO COAST AGAIN.

If New Westminster Lifts the Minto Cup the Toronto Team Will Come Out Next Fall.

Montreal, July 22.—Charlie Querie is now wondering how another trip out west for the Indians would look, not for gate money this time, but to bring back the Minto cup. He and Jimmy Murphy were here a few days ago, and discussed the chances of New Westminster lifting the mug from the Shamrocks, and they were both afraid it was pretty likely with Howard's wrist going back on him again, and in view of the Cap's easy win.

"And if those western fellows get it it won't come back in a hurry," remarked Jimmy Murphy. With coast officials it would stay there forever. Then again, you're up against a 80-foot drop in the New Westminster grounds."

If the cup goes west and Tecumseh stays on top in the N.L.U. series, a subscription list will be started in Toronto.

"We tried them for a game on Aug. 6 at Rosedale, but haven't been able to get any promises. Shamrock won't let them off for a game between their dates in the cup series, and if they win they'll walk right back with the cup, and not meet anyone else down east. If they lose to Shamrock, well, they won't be worth bringing to Toronto."

So either way it looks like "tails I lose, heads you win," for the westerners using their stop-over privileges in Toronto.

RECORD BROKEN.

Salt Lake City, Utah, July 23.—Percy Lawrence broke the world's record mile lap amateur bicycle track last night. He rode it in 8:58 4-5. Giffie made the previous record of 8:54 1-5.

FIGHT OFF.

Salt Lake City, July 28.—The Ganz-Nelson fight scheduled for last

for Day at Ely, Nev., was called off yesterday by the promoter, who says that he was unable to make satisfactory arrangements with the railroads.

DESPERATE FIGHT IN BOSTON.

BOSTON, Mass., July 23.—After three deadly battles between three desperadoes and the police and citizens, one of the bandits was riddled with bullets and killed today, while a second, believed to be wounded, is being searched for in the cemetery in which the fight occurred. A third was taken last evening in the south station. All three were members of a band that has been terrorizing the Jamaica Plain district.

The band left behind it over its trail of a mile and a half, three dead and eleven wounded, and was composed of the most desperate characters that have appeared in the streets of Boston for several years. All are believed to be foreigners.

The police made a careful search all night long without results. Early yesterday morning two of the men made their appearance at a house on Burns street and at the point of a revolver demanded that they be given food. Later they were seen in Calvary cemetery, but eluded the officers. Throughout the rest of the day there was no report of anyone having seen the desperadoes but at 7 o'clock last night they were discovered in the cemetery. When the desperadoes found that they were closely pursued they drew their revolvers and with a yell began firing on all sides. The first person hit was Mrs. Della Fallon, who was walking down South street. Officer Inglis then received a bullet in the leg. The men passed through Cunningham field, Lee street and on to New Keys St. down which they ran directly into Washington street. On Washington street, where the electric cars are passing almost incessantly and people standing about the stores, the two men yelled at the top of their voices and fired shot after shot from their revolvers. They commanded everybody to hold up their hands and even ordered the motorman of an approaching car to stop. The motorman dropped behind the dashboard and the conductor, Thomas Moore, who stepped off the car to see what was the trouble, received a bullet in the leg. Five others were also shot.

FESTIVITIES CONTINUE AT QUEBEC.

QUEBEC, July 23.—On the calendar of the Tercentenary celebration this was designated as "Champlain Day," the most important day of the entire celebration and specially devoted to the commemoration of the founding of Quebec by Samuel de Champlain, the intrepid French explorer and governor. The chief event of the day was a historical procession, which was witnessed by the Prince of Wales and suite and by Vice President Fairbanks and other notable guests of the celebration. The presentation of the civic address of welcome to the Prince was another feature of the day's program.

The pageant today was a representation of the arrival of Champlain in his ship "Le Don de Dieu," and an historical procession from the landing place to the Champlain statue. The procession illustrated the various periods of Canadian history from the arrival of Champlain in 1608 to the Confederation in 1867. Hundreds of persons in costume representing the English and French races and the North American aborigines, took part. There were also many horses and floats in line.

The first divisions of the procession comprised representations of the foremost figures of Canadian history in the early days of discovery and settlement, and those were followed by scenes illustrating the early wars between France and England, involving the possession of what is now the Dominion of Canada, and the later wars of 1776 and 1812. The military features of the procession were especially noteworthy.

Nearly the entire route of the procession was lined with stands, which were capable of seating more than 50,000 persons. Windows and sidewalks were also filled. Close by the Champlain monument the Prince of Wales and his suite occupied the royal stand. Besides these the official representatives of France, the United States and Australia and of several of the Canadian provinces joined the royal party, and altogether several score of distinguished personages were present.

From Dufferin Terrace his royal highness is to view tonight a brilliant illumination of the city and of the warships at anchor in the harbor. There also will be a grand display of fireworks from the Heights of Levis overlooking the St. Lawrence.

The big event tomorrow will be the dedication of the National Battlefield Park. In connection therewith the Prince of Wales will review some twelve thousand troops on the Plains of Abraham.

MARATHON ROUTE HARD TO FOLLOW.

LONDON, July 21.—Twining spasmodically this way and that, jerking here to the right, there to the left, through hedgerows, queer old-world villages, and a dozen farm-houses, the great Olympic Marathon race will require of those that negotiate it on Friday, as well as speed and endurance, a bump of locality as big as a door knob. Seldom will the runner see half a mile of the course before him.

The lagged may, at the next hedge-hidden turning spy the leaders or he may run on in suspense till the stadium is reached and never catch a glimpse of the flecter foe

though they lead him home but a few hundred yards.

Small maps give but a faint idea of the countless highway eccentricities of an ancient land. Judged alongside their bucolic contemporaries, London's prehistoric roadmakers were well-behaved.

Here and there a sign-post will give guidance to the runner. Upon churches, pumps and tramway poles a red sign arrows the competitor along on his journey. That he who runs may not need to read, a quaint design is displayed to the hastening eyes. This too, is of red—a square stood on end with a baby square attached to each corner.

CHRONIC.

He—Has your husband got used to his motor car?

She—Oh, yes. He swears at it automatically now.

INCONSISTENT MAN.

Kicker—Jones kicks about the size of his wife's summer hotel bill.

Booker—And yet he will pay \$5 a day to sleep three in a bed at a convention.

THINK SO?

We know what Sherman said of war. I know a clerk.

Who claims that saying is by far More true of work.

At Roone, Ia., a restaurant was struck by lightning and \$1000 worth of fireworks discharged.

NOTICE.

Notice is hereby given that at the next regular sitting of the Board of Licensing Commissioners for the City of Ladysmith, B.C., we intend to apply for a transfer of the Retail Liquor License held by us for the sale of spirituous and fermented liquors on the premises known as the New Western Hotel, situate on Lots 4 & 5, Block 28, Ladysmith, B.C., from ourselves to Alfred Mahle.

JOHN PAUSCHE,
JNO. DUNBAR.

LICENSE NOTICE.

Notice is hereby given that I intend to make application to the Board of Licensing Commissioners of the City of Ladysmith at their next regular meeting for a transfer of the Wholesale liquor license now issued to me in respect to the premises situate upon Lot 9, Block 91, in the City of Ladysmith, from myself to Napoleon Manca.

AUGUST PINA,
Ladysmith, B.C., 9th June, 1908.

E. & N. Ry. Co.

TIME TABLE NO. 5.

Effective June 6th.

Trains Leave Ladysmith

Daily at 9:00 and 15:58.

FOR VICTORIA.

Trains Arrive at Ladysmith

Daily at 11:57 and 17:15.

FROM VICTORIA

GEO. I. COURTENAY

District Passenger Agent.
5102 Government St., Victoria.

No Honing—
No Grinding

You know from daily experience, at home or in the barber shop, that the question is—

"Why doesn't a razor hold its edge uniformly from heel to head without honing and grinding?" Whether it is a safety, with the certain tax of new blades, or the ordinary open-bladed razor does not alter the question. You want the comfort and satisfaction of a clean, smooth shave every morning with the confidence that your razor will be ready for instant use the next time needed.

The Carbo Magnetic razor is the only razor unconditionally guaranteed to do this.

Thirty years of study on the razor situation has perfected a new secret process of ELECTRO TEMPERING that positively merges every particle of carbon (the life of steel) into the metal—giving a diamond-like hardness uniformly throughout the blade—something absolutely impossible with fire tempered steel—used in making all other razors.

KERR FAILS TO WIN RACE

LONDON, July 22.—This is the first really fine day since the opening of the Olympic games and the officials at the stadium looked for an attendance exceeding that of any previous day except Saturday.

The fair weather today is particularly fortunate as the final in the 100 meter dash, in which the public takes the greatest interest is on the programme. It should be a great contest. Those who qualified are Kerr, United States, and T. J. Cartmell, United States. The experts are very about attempting to pick the winner of this event, although most of them predict that it will be either Kerr or Rector.

Another final today is the 400 meter hurdle race in which Hillman and Bacon, of the United States team have opposed to them, Purton and Tremor, of the United Kingdom.

The sports this morning began with the running broad jump, which event will also reach its final today and which is going on at the same time as the semi-final of the 200 meter flat race.

The semi-finals of the 400 meter flat race, another event in which there is great interest, Selert, of Canada, is drawn in the fourth heat with Atle and Robins, United States, while the fifth heat is between Dole, United States, and Dole, United States, defeated Cockings, United Kingdom, on points.

In the fourth section of the running jump, Murray, United Kingdom, was first with 22 feet 4 inches, and Luken, Canada, was second with 21 feet, 7 inches. In the fifth section Becker, Canada, was second with 23 feet 8 inches. F. C. Irons, Chicago A.A., Daniel Kelly, Irish American A.C., and Becker, Canada, qualified for the final.

In the first heat of the semi-finals of the 200 meter flat race, Kerr, of Canada, beat Hamilton, of the United States, time 22 3/5 seconds.

Cartmell, United States, won the second heat, with Sherman and Hunt American second and third, time 22 3/5 seconds.

The third heat went to Cloughen, United States, time 22 3/5 seconds.

Hawkins, United Kingdom, defeated his team mate Roche in the fourth heat, by a yard in 22 2/5 seconds.

In the first section of the running broad jump at the stadium this morning, Cook, United States, was first with a jump of 22 feet 10 inches. Bella, United States, second, with 21 feet 9 1/2 inches. Halics, of Hungary, third with 21 feet 5 1/2 inches. Bladen, United Kingdom was fourth, 21 feet 1 1/2 inch.

In the second section, Kelly, United States, covered 23 feet 4 1/2 inch, beating Ahearn and Bellerly, the United Kingdom best men.

The third section, Irons, United States, jumped 24 feet 5 inches, beating the Olympic record.

Mount Pleasant, the Carlisle school Indian athlete, was second to Irons with a jump of 22 feet 4 1/2 inches.

In the second match of the Catch-as-catch-can wrestling, Dole, United States, beat Webster United Kingdom.

The final in the middle-weight to 160 pounds, Catch-as-catch-can wrestling was won on points by S. V. Bacon, United Kingdom, Redwystoke, United Kingdom, was second.

In the semi-final of the Catch-as-catch-can wrestling, feather weight, Dole threw McKie, United Kingdom. The final was won by Dole, Yale University, defeating Slim, of England.

Stenberg, Sweden, won the fourth heat of the high diving with 70.2 points. Bacon and Hallman had it all their own way in the 400 hurdle final. They rounded the turn yards ahead of Burton and Tremor, and fought it out for first place in the stretch, Bacon beating his team mate and establishing a new Olympic record.

F. C. Irons, Chicago A.A., won the final of the running broad jump, with 24 feet 6 1/2 inches, a new Olympic record. Daniel J. Kelly, Irish American A.C., was second with 23 feet, 4 inches, and Becker, Canada, third with 23 feet 8 inches.

Bacon's time in the 400 meter hurdle race was 55 seconds.

The first semi-final of the 200 meter dash, finished as exciting a race as has been witnessed at the stadium since the games opened. Kerr, Canada, who won by a foot from W. F. Hamilton, Chicago A.A., took the post at the start and coming up the stretch, led the American by a yard. Although Hamilton is not as graceful a runner as Kerr, he was making good headway, and the galleries stood up to witness the finish. Hamilton, however, was unable to pass the feet Canadian.

The 100 meter final was won by Walker, South Africa, in 10 4/5 seconds. J. A. Rector, University of Virginia, was second, Kerr, Canada, third, and N. J. Cartmell, University of Pennsylvania, fourth.

The first heat in the semi-final of the 400 meter flat race was won by J. C. Carpenter, Cornell University.

The American athletes scored their first in the Olympic games today, although they met defeat in the greatest race of the day—the 100-meter dash, which was captured by R. E. Walker, South Africa, J. A. Rector, University of Virginia, and R. Kerr, Canada, struggling for second place, which Rector finally won with only a few inches to spare.

F. C. Irons, Chicago A.A., won the broad jump, breaking the Olympic record with a leap of 24 feet 6 1/2 inches. Daniel J. Kelly, Irish American A.C., was second, and Becker, Canada, third.

THE DROWNED LIST.

ST. CATHARINES, Ont., July 22.—Percy Sheppard, 19 years old, son of Frederick Sheppard of Queenstown was drowned at that place last night while bathing. The body has been recovered.

Quebec, July 22.—A private soldier at Bayard's yards was drowned in St. Charles river today while bathing. Name unknown.

Windsor, July 22.—John L. Stevens, collector, of No. 712 Portage avenue, corporal signaller in the 90th battalion, who went to Quebec with the contingent, was drowned in Quebec this morning. He was well known and popular, and a prominent member of the Knights of Pythias.

MUCH GOLD TAKEN IN STAGE HOLD-UP.

Likly, Cal., July 22.—The Likly & Alturas stage was held up last night by two masked men who were heavily armed. They compelled the Wells Fargo messenger to throw down the box containing a large sum of money in gold for payment at Akuras. The passengers were not molested.

No description of the candidates could be obtained as it was after dark. After securing the box the bandits slunk into the woods. The sheriff of Alturas and a posse have started pursuit.

HUSBAND MAKES A GRUESOME FIND.

BOSTON, July 22.—A brutal murder was discovered last night by the finding of the body of Mrs. Emma Payrow, 38 years old, gagged and with her throat cut, crushed into a small closet in one of the apartments on Columbus avenue. The woman's body was found by her husband, when he returned to his room late last evening. Not finding his wife in their apartments, he began a search and was attracted by blood marks which led to a closet. Opening the door, he found the body of his wife crowded into a small space. In her mouth was a gag and her throat had been split from ear to ear.

The police upon being notified placed an officer in charge of the rooms, with orders to give no information regarding the affair. Little is known of Mr. and Mrs. Payrow by those who occupied the neighboring apartments.

CANADIANS WILL ROW AT HENLEY.

HENLEY, July 22.—Scholes rowed hard over the course this morning and the Argonaut four rowed over the full course, but no time was taken. The eight rowed half the distance over the course in 3.28 1/2 with a stiff breeze and the current against them. Coach Wright, considered it a very good exhibition, considering the candidates. They rowed the first minute at 44, the second minute at 42 and finished at the rate of 41. The English critics are forced to admit that the Argonaut row well together and will take some beating.

NANAIMO'S SPLENDID RECORD.

The results of the city entrance high school examinations were made public yesterday. Nanaimo centre made a good showing, passing 16 candidates out of 20, an average of 80 per cent.

In Nanaimo city proper a splendid record was made. Fifteen students tried and everyone passed. This is a remarkable record, and reflects great credit on the principal, Mr. Foy, under whose charge is the entrance class.

Alfred F. Brown, of Nanaimo was one of the fifteen gold medals given by the Governor General for being among the fifteen of the province who took the highest marks. He tried his examination at Christmas. He has a good record in his public school work, practically taking a five years' course in two and a half years.

The results of the local examinations are as follows:

NANAIMO CENTRE.

Total number of candidates 20; passed 16.

Nanaimo.—Number of candidates, 16; passed 15.

Clarence T. D. Case730

Dorothea Fisher735

James Caldwell721

Robert J. Stewart710

Cleely M. Lawrence709

Gertrude B. Piper705

Ethel Grant685

Chas. H. Hardy659

Chas. M. Westwood650

Widmal W. Knott642

Lucy Hodgson608

Reginald H. Goodman589

Elwyn H. Davis576

Isabel P. Rowe568

Elsie Dobson567

East Cedar.—Number of candidates 1; passed 0.

South Cedar.—Number of candidates, 1; passed 1.

Percival Duggan640

Chase River.—Number of candidates 1; passed 0.

Mountain.—Number of candidates 1; passed 0.

South Gairioli.—Number of candidates 1; passed 0.

CUMBERLAND CENTRE.

Total number of candidates 8, passed 7.

Cumberland.—Number of candidates 8, passed 7.

Effie McFayden631

George Stewart578

Comox.—Number of candidates 8, passed 3.

Malet Mathewson650

Norman Pritchard649

Olive Carthew590

Courtenay.—Number of candidates 2, passed 2.

Catherine Fraser592

Frank Shopland592

Geraldine Hirst, of Ladysmith also captured one of the governor general's gold medals.

GREAT STOCK OF L.L.D.'s.

Toronto, Ont., July 22.—Toronto University will confer the honorary degree of L.L.D. upon Lord Roberts during his visit to Toronto next month.

BURNS WOULD FIGHT JOHNSON AT WESTMINSTER.

Will Take on Johnson for \$30,000 Share of \$50,000 Purse, Win or Lose, or for Nothing.

NEW WESTMINSTER, July 22.—A lengthy letter has been received by W. H. Keary, manager of the Exhibition, from Tommy Burns, who offers to fight here in December for \$10,000, win, loss or draw. Burns states he will fight Johnson for a \$30,000 share of a \$50,000 purse, win, loss or draw, or he will fight him for nothing in private.

LIPTON'S CUP IS AWARDED.

NEW YORK, July 21.—The \$10,000 challenge cup presented to the Brooklyn Yacht Club by Sir Thos. Lipton as a trophy for the winning yacht in the ocean race to Cape May and return, has been awarded to Frederick Thompson, owner of the schooner yacht Shamrock.

After re-measurement of the Shamrock, called for by the protest of S. Wainwright, who owns the boat that finished second in the race, the regatta committee announced that the official measurement of the Shamrock was 56.97, and that she was the winner of the race.

TRADES AND LABOR BOYCOTT POLICE GAMES.

HAMILTON, Ont., July 22.—Members of the local Trades and Labor Council have again decided to boycott the police games this year as a result of the attitude of the police during the street car riots two years ago. The games were cancelled last year on account of the feeling against the police, but the blue coats this year thought the ill-feeling had died out and decided to hold the games.

AGED MAN SUICIDES.

Tweed, Ont., July 22.—W. Rogers, one of the oldest residents of Hungerford township, committed suicide yesterday afternoon by hanging himself in the barn. His mind had become unbalanced due to illness. He was 75 years old and lived on the farm where he died forty-seven years.

SENSATIONAL JAIL BREAK AT FERNIE.

FERNIE, July 22.—There is much excitement at Fernie, in fact the town is thoroughly aroused, over the escape of five alleged members of the Black Hand society who have been confined in jail, and who made their escape early this morning.

HEAD ON COLLISION.

Chicago, July 21.—A head-on collision on the Elgin and Aurora electric line is reported to have occurred four miles from Aurora this morning. The superintendent in charge of the road, with offices at Wheaton, in answer to a telephone message declared that no one was killed and that only one injury, a broken leg, was serious.

DAILY AUTO ACCIDENT.

Pittsburg, Pa., July 21.—Dr. E. B. McGraw, a well known physician was instantly killed, and Andrew McGraw, manager of Duquesne gardens and the traction company parks of the city, was injured today in an auto accident. The two men were driving from New Kensington to the city in the doctor's runabout. At a sharp turn in the road at Springdale, a suburb, the steering gear broke and the car dashed over an embankment, turning turtle.

ELECTIONS IN NEW PROVINCE ON AUG. 14th.

REGINA, Sask., July 21.—The first legislature of the province of Saskatchewan was dissolved yesterday and writ issued for a new election. Nomination day has been fixed for Friday, Aug. 7, and polling one week later on Aug. 14.

The reason for dissolution at this time is to give the earliest possible effect to the new re-distribution increasing the membership in the legislature from 25 to 41. The intention is to hold a full session and if the present under-represented portions of the province are to be given their proper representation an election must be held immediately, as not to have it conflict with an impending early harvest.

—CONSTANTINOPLE, July 20.—It is rumored that 7,000 Turkish soldiers in the Monastir district are in open revolt and that 32,000 troops have been ordered out to the scene of the outbreak. It is also reported that a number of officers of the third army corps have threatened that unless the officers now awaiting court martial on the charge of assisting the "Young Turkey" agitation are immediately liberated the general in Macedonia will be killed and the army will then march to Constantinople and demand the re-establishment of the constitution.

GIRL FLOODED INTO WEDDING.

SAN BERNARDINO, Cal., July 21.—Authorities of the state of Oregon are seeking Mrs. Goldie R. Ellis, the child wife, a detective having arrived here today with a warrant for her arrest.

Mrs. Ellis, who is 16 years of age through her guardian, Mrs. Ada E. Kenney, recently brought suit here to annul her marriage. It was alleged she was flooded into wedding Joseph Ellis, when she was only 14 years of age.

It is declared by some that her husband and Oregan relatives have planned to have her kidnapped and that the warrant for her arrest is part of the scheme.

BOY IS SENTENCED TO FIFTY YEARS.

LOS ANGELES, July 20.—Allegations made by Judge Curtis D. Wilbur that California's prisons are overcrowded and that shocking conditions prevail created a sensation here today. The judge has just returned from a tour of inspection of the penitentiaries at Poisons and San Quentin.

One startling case revealed by Judge Wilbur is that of a seventeen year old boy who is beginning a 50-year term for robbery. This youth was confined in the penitentiary but he cried for days and was finally transferred to the lone industrial school. Although the judge refuses to give the name of the court which sentenced the youth, he indicated the punishment was unjust, saying that the boy had been led into the execution of the crime by an ex-convict.

YOUNG GIRL'S TERRIBLE DEED

Friedburg, Saxony, July 22.—Gretelair, the 18-year-old daughter of the Mayor of Friedburg, was beheaded last night some time after dark and before dawn, in punishment for the murder of the man to whom she was engaged to be married. The executioner of the young woman arrived in the city last night. He carried a long thin box containing the axe with which he did his work and brought with him also a hand bag with a suit of evening clothes. The wearing of this garb is an official requirement of the somber occasion. The preparations for the execution at the prison had been completed, and the man did his work quickly, and privately departed from Friedburg as quietly as he came.

The executioner is an anonymous person who was sent down here from Dresden on the announcement that the King of Saxony had refused to pardon Grete Bier for her crime.

The personality of the young girl, who came of a good family, and her thoughtfully arranged murder of her fiancé, Herr Preller, a young civil engineer, attracted international attention. She was seemingly a happy and fun-loving girl. At her trial she admitted that she visited her fiancé's house one evening, gave him cyanide of potassium in a drink she mixed for him, and then to make sure of his death she shot him in the mouth with his own revolver. She then dropped the weapon at the dead man's side. Placed a forged will in her own favor on his desk, together with a note of goodbye, also forged, saying that he feared to lose her love through the revelation of a dishonorable liaison. In addition to these papers the young girl also left behind a package of forged letters purporting to come from a woman in Italy accusing Preller of desertion and threatening to tell Grete everything.

These forgeries were so skillfully done that they successfully deceived the police. Grete fell under suspicion a month after the crime by a love letter to an unworthy man hinting at what she had done. This letter was found when the man was arrested for a misdemeanor.

VESSEL ASHORE.

Santa Barbara, Cal., July 21.—A vessel believed to be the German steamer Anubius is ashore on San Miguel, the upper island of the Channel group, about thirty miles off Point Conception.

KERR WINS THE 200 METRE RACE.

LONDON, July 23.—As the Olympic games draw toward a close, interest in them increases, and fine weather, although late in arriving is smiling upon the great international contest for athletic supremacy, and with the assistance of cheap seats, is bringing out crowds of spectators to the stadium. Yesterday was to the meeting what Derby Day is to Epsom racing week, the final of the 100 meter sprint in the eyes of the general public being considered the most important event of the meeting. Those also who follow athletics, however, are just as keenly interested in the finals of the two races which are to be run off today.

The first of these is the 200 meter flat race, in which Kerr, of Canada, runs against Cartmell and Cloughen, United States, and C. Hawkins, United Kingdom.

The Americans have feared Kerr more than the Englishman, but after two grilling runs yesterday he might be slightly stale.

The other final on which the eyes of the experts are turned is the 400 meter flat race, in which Carpenter, Taylor and Robbins, United States, meet Halsewell, a lieutenant in the British army, and described as the greatest mile runner the United Kingdom has had in years. English sporting writers intimate at the probable establishment of a new record for the distance.

The standing high jump with which the programme opened this morning is expected to last the greater part of the day.

The semi-final of the high diving contest and the semi-final of the 1,500 meter swim are on the program for today and also the 14 heats of the 100 meter hurdles.

The Graeco-Roman wrestling, light weights to 147 pounds, and the catch-as-catch-can matches between heavyweights up to 161 pounds, is on at mats either end of the arena, and kept the adherents to that form of sport entranced all day long. The only American entered in these events was Lee J. Talbot, and he was defeated in the first bout at Catch-as-catch-can by O'Reilly, of United Kingdom.

The tribute the Americans, at the stadium, paid to Walker yesterday, when the young South African won the 100 meter dash, appears to have appealed strongly to English sportsmanhood, and is likely to do much to dispel the soreness caused by the American protests earlier in the games, which was much discussed. Most of the morning papers describe yesterday's demonstration in complimentary terms.

The Standard says, "The Americans took a leading part in the ovation given Walker. They showered congratulations upon him and the young men who were massed in the grand stand, carrying the flag of their country, went out of their way to praise their conqueror."

In the first section of the standing high jump at the stadium this morning, Tselitaras, Greece, won with a jump of 5 feet 1 inch. Adams, United States, was second with 4 feet 10 inches, and Dupont, Belgium was third with 4 feet 8 inches. In this event the best eight in all sections come together in the final.

In the second section of the standing high jump, Ray C. Ewry, New York A.C., cleared 5 feet 1 inch and J. A. Biller, Brooklyn, 4 feet 11 inches. R. Kerr, the Canadian, won the 200 meter final, Cloughen, Irish American, was second, and C. J. Cartmell, University of Pennsylvania, was third. The time for the winner, was 22 2/5 seconds.

The four men in this event got away to a splendid start. Kerr quickly showed in the front and although Cloughen ran a magnificent sprint at the half way and pulled up inch by inch, he was unable to catch the speedy Canadian, who upbraided the tape nine inches ahead of him. Cloughen led Cartmell by a foot. Hawkins, United Kingdom was 4th.

The first heat of the 110 meter hurdle race was won by Healy, United Kingdom, time 15 4/5 seconds. Second heat was won by J. C. Garrels, Chicago A.A., time 16 1/5 seconds.

The third heat was won by Greenings, United Kingdom, time 16 2/5 seconds.

Fourth heat, Fieley, United Kingdom won easily. Fifth heat, W. M. Rand, Harvard, won, time 15 4/5 seconds.

The sixth heat was won by Walters, United Kingdom, time 17 3/5 seconds.

The seventh heat was won by Knydett, easily.

Third section of the high jump was won by Holmes, Chicago, with a jump of 5 feet. F. C. Irons, Chicago, and Gallwitz, German, each made 4 feet 9 inches.

Stanberg, Sweden, won the first heat of the high diving semi-final with 72.3 points. The second heat was won by Johansson, Sweden, with 70 points. Geo. W. Gaidis, of Chicago A. C., was third with 61.3.

Halbert, Belgium, won the eighth heat of the 110 meter hurdles easily. Ahearn, United Kingdom, won the ninth heat in a walk over.

Tenth heat was won by F. C. Smith, Multonomah, Ore., A. C., won, time 15 4/5 seconds.

The eleventh heat was won by Hussey, United Kingdom, time 16 4/5 seconds.

Twelfth heat was won by Kinahan, United Kingdom, time 16 1/5 seconds.

The thirteenth heat was won by L. V. Howe, Yale University, won, time 15 4/5 seconds.

The fourteenth and last heat was won by A. J. Shaw, Dartmouth University.

The first heat of the semi-finals of the 1,500 meter swim was won by Taylor, United Kingdom. Beaupaire was second. Both men qualified for the final. The time of the winner was 22 minutes 54 seconds.

The second heat was won by Batstery, United Kingdom, in 22 minutes, 22 seconds. Scheff, Austria, was second.

In the fourth section of the standing high jump, Motte, France, was first with 4 feet 8 inches. Lawson Robertson, Irish American A. C., did not qualify for the final.

The final of the standing high jump was won by Rey C. Ewry, of New York A. C., with a jump of 5 feet, 2 inches. J. A. Biller, Brooklyn Central Y.M.C.A., and Tselitaras, Greece, tied for second place with a jump of 5 feet 1 inch. H. Leroy Holmes, Chicago was fourth, with a jump of 5 feet flat and will be given a certificate of merit.

The final in the catch-as-catch-can heavyweights, to 168 pounds wrestling, was won by O'Reilly, United Kingdom, who defeated Gunderson, Norway.

LORD ROBERTS O. K.

QUEBEC, July 22.—An alarming rumor was spread over this city this morning that Lord Roberts had slipped while walking on the Grand Battery and fell heavily and badly injured his knees, besides sustaining serious shock to the nervous system, but this rumor was denied by Captain Newton—a D. C. to Earl identified today as that of Barbara Reiga, who resided near the park. The identification was made by the young woman's mother and brother who had seen photographs of the dead girl printed in today's papers. They said they were convinced the girl did not commit suicide, and gave the police the names of a number of men with whom she was acquainted. The investigation will be continued.

NANAIMO TEAM ENTERS NEW LEAGUE.

Despite the hot weather, a fairly representative meeting of the Nanaimo football supporters was held last night to consider the advisability of the local team entering the Pacific Coast League.

On motion, it was unanimously decided that the Nanaimo United team enter the league, and that two delegates be sent to the meeting of delegates to be held at Victoria Saturday evening at 8.30 in the Driford Hotel. The delegates chosen were Messrs. John Waugh and Frank McCall. The latter is the late manager of the Thistles team, Vancouver, and of good executive ability, and should be a worthy representative to look after the club's interests at the Victoria meeting.

A copy of proposed constitution was discussed and insofar as it went was pronounced satisfactory. The rules are modelled after those of the English football leagues. It will be proposed by the Nanaimo delegates that each team in the new league have its own gate receipts, and pay its own expenses. The executive of the league is to be composed of the officers and a representative from each team, which will probably be Nanaimo, Ladysmith, All-Victoria, All-Vancouver, New Westminster and All-Seattle. Certain Victoria representative football men will likely press for two teams from Victoria, but it is believed by the local men that it will be in the best interests of the league to have but one team from each city. The Nanaimo delegates to Saturday's meeting will ask to have the executive meetings, called alternately at each city represented in the league, and not always, as in the Island League last year, in the one city, thereby letting the delegates of that city out of paying any travelling expenses, and throwing the entire burden and inconvenience on the other delegates.

It was decided last night to elect no officers of the local team until the next meeting of the members, which will be held two weeks from last night, to hear reports from the delegates to the Victoria meeting.

This year the fee for membership to the club will be but a nominal one by which it is hoped to secure a large membership. All members will have a say in the administration of the affairs of the club.

Messrs. Gilmour, Scott and McCall were appointed a committee to draft up a constitution for the government of the club locally during the coming season.

It is likely that the Pacific coast games will commence in September so that followers of Nanaimo's favorite game will see a long season, and it is confidently expected that with the material the city now has, the best team Nanaimo has ever had will be soon in action.

USUAL NEW YORK MYSTERY

NEW YORK, N.Y., July 23.—The body of a young woman who was found dead in a summer house in Irving park in the Williamsburg suburb of Brooklyn yesterday, was identified today as that of Barbara Reiga, who resided near the park. The identification was made by the young woman's mother and brother who had seen photographs of the dead girl printed in today's papers. They said they were convinced the girl did not commit suicide, and gave the police the names of a number of men with whom she was acquainted. The investigation will be continued.

LOCAL NEWS

The weekly shoot of the Tyee Gun Club was held on Thursday evening, a fair number of gunmen turning out. Following are the highest scores:

Geo. Hepple	22
T. White	21
H. Wright	19
M. Duitko	17

The Grand Duke Cigar is on sale in Victoria at Westerdale's Railway Cigar Store, opposite the E. & N. Station, and also at the James' Bay Cigar Store, opposite the C. P. R. Hotel. Don't forget this when in Victoria.

Gradually but surely Vancouver is overhauling Spokane, the leaders in the Northwestern Baseball League. Here is the latest table:

	Won.	Lost.	Pct.
Spokane	45	32	.584
Vancouver	46	34	.575
Tacoma	38	39	.494
Aberdeen	37	42	.468
Butte	30	35	.455
Seattle	34	49	.410

The best Smoke in town is the Grand Duke Cigar. Remember, it is made in town and don't forget to call for it.

The Sunday school excursion of the Halliburton Street Methodist church, Nanaimo, went down to Duncan today. The rate from Nanaimo was \$1. The Burns Club here, when they tried to get a reduction for today were offered returns on the ordinary passenger trains for \$1.15 a head. The ordinary fare at any time is under the dollar, and it was not surprising that the club called the picnic off. Surely there must have been some mistake or misunderstanding.

There is nothing like it in the smoking line. The Grand Duke is a smoking hot success. It is on sale all over town. Try it and be convinced.

The Tyee Gun Club goes to Gabriola Island tomorrow for a day's shoot. There is a strong team on the island, and the Nanaimo men are also expected over, so that there should be a full day's sport. The launch with the local shooters and their friends will leave the wharf at seven o'clock, and everybody is requested to be there on time.

The bowling tournament at Peavor's bowling alley is still open. The highest aggregate in ten games secures a box of Grand Duke cigars.

PERSONALS

Mr. and Mrs. Tassin, with their son Joe, have left for a trip to their native Belgium. They expect to be away about three months and will make a call in the upper country on their way out.

Mrs. H. Ward returned home on Wednesday evening after spending a few days in Nanaimo.

Miss Emily Teague is spending a few days with her sister, Mrs. H. Ward.

Mr. G. Beattie, of Nanaimo, passed through town on his way to Victoria yesterday morning.

Mr. Al. Davis was in town yesterday morning.

Mr. Mohun, the Victoria engineer was in town on Thursday returning home yesterday.

Mr. and Mrs. P. Cain and family went over to Vancouver on Thursday.

Mr. Jas. Adam left for Vancouver yesterday on a business trip.

Miss Bryden returned home to Victoria this morning.

Mrs. Mooney went down the line this morning.

Mrs. Syd. Wearing joined the excursionists on the train this morning.

Mr. Wm. Rafter was a passenger on the south bound train this morning.

LOCAL POLICE FORCE SLANDERED.

Nanaimo, July 28. The following slander on Chief of Provincial Police Stevenson of this city appeared in last night's Victoria Times:

"W. Y. McCarter, of Macdonald & McCarter, contractors on the construction of the E. & N. extension, has returned from the scene of the firm's work at Nanaimo Bay. The contract held by them is for four miles of grading at that point. He reports that work is going on satisfactorily."

"Mr. McCarter, however, has a protest to make against the police administration in the district referred to. He says that on Thursday, July 26th, their camp was entered and a quantity of goods taken from the foreman's tent. The discovery was not made until evening, when Provincial Constable was at once notified. Later P. Cowley, a teamster, who lost a suit case, a suit of clothes and all his wearing apparel, accompanied Constable Kallett to Nanaimo and reported the matter to Mr. Stephenson chief of police, at 6 o'clock Friday morning. Since that time apparently no effort on the part of the chief of police has been made to recover the goods, as he has not been near the camp nor made any inquiries relative to the matter."

"Mr. McCarter is indignant at the way the matter has been passed over. He says he understands the matter has been put in the hands of Constable Kallett, but he is incapable."

The facts of the case are this. Cowley appeared in Nanaimo at 5.30 Friday morning and reported his loss to Mr. Stephenson. Within half an hour after he made his report the provincial police were working on the case and during the early morning searched suspects, one of whom Cowley insisted, must have had something to do with the theft. Moreover the police have been working on the case ever since, and everything has been done to detect the thief that was possible, the local police visiting the camp, and having even now a man there still working on the case. The first case of this complained of in the article was not reported to the police until several days after its occurrence.

It will be farthest from those who know Mr. Stephenson to accuse him of neglect of duty. In fact this is the first time in his 27 years of police connection that he has ever been accused of such. Just what the object was in making such a malicious statement as that contained in the above is not known but investigation into the affair which is bound to follow will most assuredly clear Mr. Stephenson.

C.P.R. MECHANICS TO FIGHT CORPORATION. Dissatisfied With Findings of Conciliation Board - 10,000 Men Affected.

WINNIPEG, July 28.—T. McVety the head of the mechanics in the Canadian Pacific Railway shops of Western Canada, has gone to Chicago to consult with the executive of the American Federation of Labor with a view of securing its assistance in engaging in the struggle with the company over the recent findings of the conciliation board in a dispute with the company, the men being dissatisfied. The thousand men are affected.

ANTI-ROYALISTS FIGHTING STRONGLY

LONDON, July 22.—A special despatch dated July 21 to the Times, from Tahrir says that anti-Royalists carried all before them in Monday's fight, but that today the tables were turned. Raschin Khan the commander of the Shah's troops, brought in men late last night to help the royalists in the city, and followed up his success today, desultory fighting continuing for many hours.

The anti-royalists are as depressed today as they were jubilant yesterday. Communications in many places have been cut. The Times correspondent describes Raschin Khan as playing the part of the sulky Achilles in his tent during the three days ending Monday.

CARDINAL MANNING'S CENTENARY.
