Lardeau Mining Review

The representative of the rich Lardeau country. Sent to any address for $2 per an. in advance.

VOL. 1 TROUT LAKE CITY, B. C., DEC. 16th 1904. No. 6.

The Triune is Booming.

DEVELOPMENT IN TUNNEL NO. 3 EXPOSES AN EIGHT INCH VEIN OF CLEAN ORE OF HIGH GRADE.

A REDUCTION PLANT

For the Treatment of Low-Grade Ores is Needed. The Tram to Be Erected in the Spring.

The result of development done this winter on the Triune is proving up its richness to a remarkable extent. The work now going on in Tunnel 3 has opened up an 8 in. vein of clean ore which gives values of $135 per ton lying on the footwall, and another vein on the hanging wall of about four inches in width which averages the same in value.

This was totally unexpected by management until they had gone another 75 feet when they would be under the ore showing in the No. 2 tunnel. Tunnel No. 3 is now in about 380 feet and will be continued for another 75 feet, when an upraise will be made to tunnel No. 2. The importance of this strike will be appreciated when it is remembered that there is 190 feet of stoping ground between these two levels, from which ore can be mined and shipped which will net the company close to $100 per ton. The finding of the ore here also demonstrates that the ore goes down, notwithstanding all forecasts by the pessimist with the hammer that the ore bodies of the Lardeau are found only on the surface. Another, or No. 4 tunnel, is being driven on the same lead, and is now in 125 feet. This tunnel is vertically about 150 feet below No 3, and it is reasonable to suppose that the same grade of ore will be encountered when in far enough.

In addition to the high grade clean ore, this mine has practically enough concentrating ore in sight now to warrant the introduction of a mill plant. Indeed the management informs us that there is enough ore taken from No. 3 tunnel to warrant a mill being at once erected and operated. Owing to unavoidable circumstances the proposed tramway could not be put in this fall, but all arrangements are made for its installation early in the spring.

With the Silver Cup, Nettie L, the Reduction plant and the Triune all proving so successful in their operations, the big tunnel scheme, the Bad Shot, Mohican and Black Prince, all of which are either working now or making preparations, the south fork of the Lardeau will be a veritable hive of industry in the near future.

Need we Apologize?

This week we are making sight drafts on a number of our subscribers. We believe this is the most convenient way for them, as it saves writing a letter, buying an order and postage.

To those who cannot be reached in this way we would ask their kind attention. We have gone to some expense to give the district a good paper, and would ask our subscribers to reciprocate by potlatching the $2. It looks small, but when there are several hundred of them it is a big thing for us.

Another consignment consisting of several car-loads of salt arrived this week for the plant at 5 Mile.

Dan McLellan will spend 'Xmas in Montreal.

Ferguson Items.

The masquerade ball on the 26th inst. will be a very jolly affair.

Rev. E. K. Sharp conducted services in the chapel on Sunday evening.

Jim Key, who is well-known in the Lardeau, arrived from Vancouver on Tuesday.

W. Munro, representing the Fit Reform Clothing Co., was in town for several days this week on the rustle; also visiting several mines.

J. H. Wilson ("Scottie"), who has been for the past month stay- at the St. Leon Hot Springs, returned to town on Sunday improved physically.

Bob Graham, one of the recent arrivals from Camborne, met with an accident at the Silver Cup one day this week. He fell down a small shaft, and was exceedingly fortunate in getting out with only a shaking up.

The many friends of Charlie Little will be sorry to learn that his health has been none of the best since he left Ferguson. He has been a martyr to the pangs of rheumatism for the past month, and he hopes that the waters of St. Leon, where he is now staying, will effect a cure.

The Choral Society is preparing a fine programme to take the place of the regular preaching service Christmas night. The music is of the very latest and absolutely the most up-to-date Christmas music published. The place the children will in the programme will be very pleasing. Although an admission fee will not be charged, it will be well worth one, so everybody must go prepared to make a good Christmas offering.

Even better than we expected is programme to be given by the children on Christmas eve. Great pains have been taken by Mrs. R. H Battey in rehearsing the kiddies for "The Courtship of Mother Goose," and a great treat is in store for the audience. We expect to see the hall packed on this occasion, as the admission is only four bits. Those parents who have their children performing will become cognisant of the prowess of their chicks, and those who are not parents may have children who are, or will wish they were. The children expect to see a big crowd there. Spring the 50c. and don't disappoint them.

A trip through our stores during the week was an eye-opener for our representative. At McKinnon & Sutherland's store everything that the festive season demands has been tastefully displayed. Choice fruits, sweetmeats, boxes of bonbons, figs, dates, and in fact everything which go to making 'Xmas a feast. Their counters literally groan beneath a burden of seasonable goods, not forgetting a large variety of articles suitable for presents. At Cumming's store a brave show is made in anticipation of the Christmas trade. Here the young folk may feast their eyes on the contents of the well stocked and daintily arranged show-cases. Here in handsome boxes are toothsome candies to be taken without fear and trembling; Christmas trifles for the juveniles which cultivate an evergreen smile; boxes of dried fruits which rejuvenate the paters and maters, and an amazing stock of crisp blushing apples and juicy oranges; fancy biscuits of an antibillious nature in tins and out of tins, and canned fruits, the pick of the market, which would make you fancy you were in California it it wasn't for the houses in between. Do your shopping early.

Theo. Currie was in from Revelstoke last Friday.

Wanted Immediately.—A mill for every hill.

Nurse Haner is in town on a professional visit.

There is about 2 ft. of "the beautiful" in Ferguson.

Our little French barber is now scraping chins at the Coronation hotel, Camborne.

A. Fleischman, the wandering jew—eler, paid a business trip to town on Thursday.

Geo. Henry Fisher, of East Kootenay "Fisher group" fame, is spending his holidays in town.

Jos. Brady, supt. of the Oregon group, was down from the mine on Thursday. He left the same day for a business trip to Revelstoke.

Mrs. Anderson, of the half-way house this week purchased a team of horses, harness, sleigh, and a winter's feed from freighter Daney.

Dave Morgan came in from the Surprise group on Wednesday night. He reports having seen a "strange bear" on the mountains.

Geo. Ross, Poplar, came in on Wednesday. He reports that the gold camp is livelier now than it has been for several months, and that it must and surely will be a great city.

Tom Baldwin snowshoed down from the Triune mine on Sunday. Tom believes that the Triune will be the "richest thing in the country." There is now 4 ft. of snow on Triune mountain.

There were rumors in the air on Tuesday night that Bill the barber had met with a gun accident. On enquiry, however, we found that as a result of the "Leiper farewell" he was only literally shot to pieces.

Barnard Crilly, manager of the Great Northern Mines, Ltd., was in town a couple of days this week. He left on Wednesday for Nelson, and after visiting Rossland and Spokane, he will follow the sun to California, where he will take a few week's rest.

It is expected that the skating rink will be completed about the middle of next week. All the rafters are now up, and the roof will be on by Tuesday. With good hard weather prevailing for the next few days it is hoped that the fun will begin on Christmas Eve.

Ax. Lundgren came down from the Triune mine on Wednesday with a very gratifying message to President Battey. The decision of the management to go ahead with development work this winter is proving a paying one. There will be a tremendous amount of the high-grade ore sacked in readiness for the spring opening up, and we prophecy that the stockholders will be congratulating themselves in a very short time.

A circle of friends of Billy Leiper assembled in the smoking room of the Lardeau Hotel on Monday evening last with the double object of giving him a gigantic send-off prior to his departure to the "bennie banks of Loch Lomond," and to make him the recipient of a gent's travelling companion. The evening was spent with toast, song, dance and speech. Billy mounted the stage the following morning with a "puir heid," a lump in his throat, and a bottle of Jo Seg. in his pocket, and was whizzed away down the gulch to the accompaniment of wild and woolly whoops.

Tanghe vs. Morgan.

[Special Dispatch to the Review.]

Rossland, Dec. 16.—The action of Tanghe vs. Morgan, wherein the plaintiff sued for wrongful arrest and claimed $10,000, was concluded last night. Verdict for plaintiff, with $1,500 damages.

Lake Localets.

A nice lamp, a fancy ladies' collar or belt will make a nice Xmas present. Masterson, Griffith & Co

The ladies of the Methodist church held a very entertaining At Home at the residence of the Rev. A. K. Sharpe during the latter end of last week. Music and games were indulged in and a very pleasant evening spent by the large number present. Refreshments were served during the evening.

Johannes Roundquist, an old resident of Trout Lake, father of Mrs A. G. Cedarstaff, passed away last Monday morning at the Queens hotel. The old gentleman, whose kindly and simple nature had endeared him to his many friends in the community, was followed to his last resting place by a large number of citizens who were anxious to pay to his ashes the respect and honor due to one who was so universally liked and respected. He died at the advanced age of 71 years from an attack of grip. We extend our sympathy to Mr. and Mrs. Cedarstaff in their heavy loss.

An egg omelet is to Joe Kirkpatrick what a juicy whistler is to a hungry silver-tip, but—well, we're not quoting Joe now, modesty forbids—however, robbed of many figures of speech and interjections it resolved itself into a statement that omelet was good, d— ahem, very good in fact, so was butter for that matter, but a combination of the two in one's coat pocket, instead of a chaffing-dish, made one long to murder a prominent citizen or figure in a game-play—as star performer, of course—. Joe said a lot more about that omelet, said it was too blamed extempore to suit him, didn't appear to like the color of his hands after caressing it in cold blood, was annoyed at its clinging tendencies. In short Joe was mad and decidedly emphatic, but a further detail of his emotions is prevented by lack of space.

The question was asked what were the leading characteristics of a Scotchman, the reply was, a man who keeps the sabbath, everything else he can lay his hands on and smokes Royal Seal cigars.

Fred C. Campbell went to Rossland on Monday morning as a witness in the case of Tanghe vs. Fraser. The suit is an action for damages against Mr. Fraser for $10,000 for wrongful arrest. The trouble arose out of the now famous Lucky Jack placer location. We, of course, don't wish to have anything to say while the case is sub judice but we are wondering why Fred don't pay the money and get rid of the worry. If he hasn't got it the Review staff might stake him. We hate to see the grey hairs appear on the cranium of so worthy a man as our gold commissioner.

An application made for a change of venue in the case of Henderson vs. Canadian Timber & Saw Mills, Ltd., before Judge Lemay at Revelstoke recently. An affidavit was submitted stating that the minds of the people of Revelstoke had been prejudiced by an article in the Lardeau Mining Review to such an extent that it would be impossible to get a jury to decide equitably on the case. The affidavit further states that the paper in question was in evidence everywhere in the hotels and clubs. The application was'nt granted but it speaks volumes for the circulation and influence of the Review.

Your Christmas dinner will not be complete unless you aid in the digestion thereof by smoking a Royal Seal.

J. W. Westfall is leaving shortly for the coast, where he will spend the winter and incidentally secure some outside capital for the development of Lardeau mining claims.

A. G. Fraser's windows are filled this week with all of the delicacies of the season. Every part of the universe has been called on to cater to the wants of our citizens. Figs and raisins from the sunny slopes of southern Spain, oranges and lemons from where the alligator samples the festive piccaninny, confections and fancy biscuits from the cent belt, rosy apples from the province where they grow fish, almonds and walnuts that were picked and shelled by natives of scant attire and grapes that make the natives of sunny Italy feel homesick. Samples free.

The following is from a report of an interview granted by F. C. Elliott to the Nelson Tribune:—"Above the Nettie L the Lucky Boy is doing well." Either John Houston, Fred. C, or both, must have been mixing something else to get the topography of the country so mixed, or perhaps it was the effect of his losing his silken hirsute appendage that so affected Fred.

The "At Home" given by the Oddfellows on Friday night was a very pleasant affair. The entertainment was planned as a farewell to Bro. J. Schmitt and family, who are leaving next week for the Palouse country, where Mr. Schmitt is going into the ranching business. Jake is one of the old-timers in the camp, and has had charge of the Old Gold, Guinea Gold, and Pedro properties, and was a prime favorite with the boys, in fact with everybody. The large number present to bid him and Mrs. S. farewell attested to their popularity in our town. The loss to the I.O.O.F. will be felt keenly, as Bro. Schmitt was one of the oldest and most faithful members of that fraternity. Mrs. Schmitt's absence will also be felt, being one of the early arrivals in the camp, and always taking an active interest in church and social work. The "Review" wishes both a happy and prosperous career in their new home.

Geo. Johnson of the P. Burns & Co has decreed that the people of Ferguson and Trout Lake will not want for Xmas and New Year fare. Turkeys, ducks, geese, pigs feet and everything else that goes to tickle the palate of an epicure.

A Christmas Tree and entertainment will be held Christmas eve in the Methodist church when the Christmas Cantata "The Bethlehem way" will be rendered by the children of the Sunday school. The tree will be open for the public and people are invited to bring suitable gifts for their friends. All are welcome. No charge for admission but a collection will be taken to help pay expenses.

On Wednesday last we unloaded and have in our warehouse now 36,000 pounds of fine potatoes Try them. Masterson, Griffith & Co.

Methodist church services mornings, 11 o'clock, and evenings, 7.30 Miss Cook will preach, and take charge of evening service.

Get two lots for $5. Only 50 tickets to be sold. Two of the best lots on Park Street, donated by Wm. Abrahamson to pay off debt on skating rink.

A ball under the auspices of the Skating Rink Co. will be given in the Oddfellows Hall on Monday January 2nd, 1905.

A Trout Lake Shipper.

HIGH-GRADE ORE FOUND IN THE LUCKY BOY AT THE DEPTH OF 160 FT. ON THE THIRD LEVEL.

$30,000.00 TO DATE.

A New Strike of a 12 Inch Vein of Good Shipping Ore made in No. 2 Level.

A representative of the Review took a trip through the Lucky Boy a few days ago. This property is owned and operated by the Chestnut Hill Mining Co., of Philadelphia, who have as their representative here, T. E. Ehrehart, who as well as being a practical mining man, is also a surveyor.

The property is developed to a depth of 215 feet by an incline shaft, from which levels are run at points 50, 100, and 160 feet from the surface. The first level is run 100 feet to the right and 120 feet to the left, from which the greater part of the ore shipped has been taken. The second level has been drifted on for a distance of 100 feet to the right and 190 feet to the left. On this level the ore is exposed for a distance of nearly 200 feet. At the end of the 190 foot drift a winze is being sunk on the ore to connect with the third level.

In the drift to the right a body of ore 12 inches in width, averaging 225 ounces in silver, has been exposed. This [illegible] was entirely a surprise to the management, as it was thought that the ore had pinched out at this point.

On the third level drifting is being done to the left and is now in about 100 feet, and an upraise made to connect with second level. Good ore is being found on this level and the upraise is practically all in ore.

The ore produced by this property during the last two years since the property was opened has netted the owners $30,000, the average value per ton being about $150. A car of 25 tons is now ready for shipment which has been taken out during the last month.

Mr. Ehrehart informed the scribe that at present the taking out of the ore is a secondary consideration, the main work being to thoroughly develop, taking out ore only found while working along that line.

There are sixteen men employed at the mine, while packer Vipond has his string of cayeuses going every day taking supplies up and bringing ore down.

School Promotions.

At the Trout Lake School the following were the promotions this week:

From 3rd Class to 4th—

Ethel Johnson	Rugles Lux

From 2nd Class to 3rd—

Lotus Griffith	Mona Henderson
Alice Murray	Edna Hollinbeck
Naomi Vipond	George Haner
Charles Haner	William Johnson
Carson Murray	

From 1st Class to 2nd—

Edith Abrahamson	Frank Abey
Pearl McPherson	Kath. Vipond

1st Primer to 2nd Primer—

Harold Henderson	Ross. Murray
Gordon Johnston.	

The above results of the recent examination are most gratifying to the parents of the children, and reflects great credit on S. B. Campbell, the school teacher.

We invite one and all to call in and see our new price list. It will save you money. Masterson, Griffith & Co.

Terms for Transient and other advertising will be made known on application at office Subscription $2.00 a year, in advance.

MURRAY & ATHERTON Publishers

GUTTER POLITICS.

According to the liberal press the McBride government is doomed, and the result will be another appeal to the country. They seem to take a great deal of satisfaction out of the thought, notwithstanding the fact that the people of British Columbia are heartily sick of elections being held nearly every year. The conservative government has been in power for a little over a year, and during that time they have met with nothing but abuse, not legitimate criticism, from the liberal press. They have been called down because of their failure to enunciate a railway policy. McBride and his cabinet have been called fools, asses, etc., more especially by such journalistic jackals as the Rossland Miner and the Kaslo Kootenaian. J. A. Macdonald, the leader of the opposition, in an address made in recognition of his assuming that position, said that his sole ambition was, not to build up the province by wise legislation, but to drive the conservatives out of power. A rule or ruin policy is evidently the ambition of the liberal party of British Columbia.

When the present government assumed the reins of power they found the finances of the province in a deplorable condition. They as their first work adopted a fiscal policy which would place them on a firm basis. The result of that policy is (from a statement made by a cabinet minister) the balance sheet of this year will, if it does not show a surplus, not show a deficit. This is also evidenced by the fact that British Columbia government securities have advanced in price in the financial centres, and are looked on with more favor by investors. We believe that it would have been the work of a lot of idiots to undertake any work of importance requiring the expenditure of large amounts of money before putting the finances in as good shape as possible. This has been done and the way is now clear to take up matters such as railway building, etc. The premier has announced that he will at the coming session do so, and we feel assured that at the expiration of their term of office the people will be so satisfied that the present government will be sustained by a far larger majority than it at present has.

B. C. Mining Notes.

Sandon ore shipments for the year are 10,600 tons.

Good ore has been found at the 1,450 foot level of the Le Roi mine.

Rossland's ore, output last week was 7,350 tons, or 322,193 tons for the year.

The Similkameen now has an ore exhibit at Vancouver, sent from Princeton.

The Baltimore and Pontiac on Woodberry creek will soon begin ore shipments.

The Tyee has paid another dividend, having distributed $180,000 to date in dividends.

A profit of $27,000 is reported as having been made by the LeRoi mine in October.

A dividend of one and one half per cent has been declared by the Canadian Gold Fields Syndicate Limited.

In November the three Collieries of the Crow's Nest Pass Coal Co. shipped 74,569 tons of coal, and 21,107 tons of coke.

From the Fisher Maiden 500 tons of ore have been taken out in process of development; 100 tons ran over $300 a ton.

It is reported that the Ferneau smelter, which was to have been built at Fernie, is likely to be erected at Frank in Alberta.

Operations of the Centre Star mine at Rossland for the last year show a profit of $14,394.34, out of total receipts of $285,000.

Manager Rogers of the Daly Reduction company, Hedley City, has made a small cash payment and taken a working bond of $130,000 on the Maggie group of mining claims, in the Aspen Grove camp, Nicola Valley mining division. Mr. Rogers will spend considerable money on machinery to equip the mine, as all development possible without the aid of machinery has been performed.

Impressed by the fact that additional precautions are needed to safeguard theatre audiences against panics, however baseless, Fire Chief Croker of New York has issued imperative instructions to the department to refrain from ringing bells and blowing whistles when passing enclosed churches, hospitals and hotels. In addition he has taken this occasion to renew his former order forbidding the blowing of whistles in responding to fires after sundown.

Ainsworth License Dist.

NOTICE is hereby given that the undermentioned persons have madd application for hotel licenses at the places set opposite to their respective names, under the provisions of the "Liquor License Act, 1900":

C. F. Olson, Hot Springs Hotel, Ainsworth.
A. W. Goodenough, transfer to G. P. Fournier, King hotel, Ainsworth.
Ole Ulvin, Brittania hotel, Lardo.
Leander Hanna, Lardo hotel, Lardo.
J. D. McLachlan, Commercial hotel, Lardo.
Ole Ulvin, Miners hotel, Goldhill.
J. A. Melsaac, Victoria hotel, Whitewater.
Alexander Laughton, Lardeau hotel, Ferguson.
McDonald & Black, Ferguson hotel, Ferguson.
Mrs. S. O'Connor, Windsor hotel, Ferguson.
A. F. Rankin, Balmoral hotel, Ferguson.
Kenneth Morrison, Park hotel, Trout Lake road.
D. R. McLennan, Windsor hotel, Trout Lake.
Abrahamson Bros., Queens hotel, Trout Lake.
Madden and Levesque, Lake View hotel, Trout Lake.
John Simpson, Trout Lake hotel, Trout Lake.
Edward Mobbs, Lennoxville hotel, Gerrard.
E. L. Morand, Royal hotel, Poplar.
William Panton, transfer to Charles Hanson, Miners hotel, Poplar.
Jacobson and Anderson, Grand hotel Poplar.
Schmeck and Hambly, Dominion hotel, Poplar.
John Carey, Grand Central hotel, Poplar.

A meeting of the Board of License Commissionors of the Ainsworth License District will be held to consider such applications, at the Court house at Trout Lake, on Thursday, the fifteenth day of December, 1904, at the hour of ten o'clock in the forenoon.

W. H. BULLOCK-WEBSTER,
Chief License Inspector,
Nelson, B. C., 24th Nov., 1904.

Smith & Co.

45 Bleury Street, MONTREAL.

HIGH-CLASS TAILORS.

WILL be represented in the Lardeau at regular intervals throughout the year. Orders for clothing will receive close attention. Our repsecentative, S. A. Scott, is a practical tailor, and will make clothes fit. Hold your orders for him.

ANGLICAN CHURCH.

Services on Sunday evening at 7.30 o'clock. Visitors are cordially welcomed.

Library Legislature Assets

Job Printing of every description will be faithfully executed at the Review Job Dept.

The Mining Association Gets Busy.

Messrs. John Keen, president, and J. B. Hobson, vice-president of the Provincial Mining association of British Columbia, met with a number of other members of the association at Ashoroft recently to discuss the questions to come before the next convention, which is to be held early in the coming year in Vancouver.

"There is considerable business to tranact," said president Keen, in speaking of what was done, "among which are the recommendations already laid before the government, but have received so far no attention. The completion of the incorporation by a private act; the declaration of the rights of quartz miners to the broken pieces of their own ledges lying on their claims (when recorded) and they are in possession and occupation of them; and to give quartz miners the same rights to their claims and lodes, as we are trying to get for the old placer miners.

"Among other things, the question of blazed location lines and mineral in place have been affected by recent decisions, doubt has been thrown on the meaning of the statute, which could easily be removed by a few distinct words in the old sections. The frequency of suits at law brought under these acts is sufficient to indicate the ambiguous language of the two acts, and this fact has been repeatedly referred to by their lordships on the supreme court bench. This is sufficient justification for our action in insisting on the amendment, codification and consolidation of our mineral and placer acts together with a chapter on water, its obtainability and uses to which it shall apply in mining.

We do not care what party is in power, but we do insist that it is the duty of the legislature, irrespective of the party which leads it, to take this matter up, and give it the attention it so loudly calls for, without delay.

"The skeleton of the work has been prepared by this association in both acts for submission to a committee of the house, and it would only be a small amount of work to complete it ready for the consideration of the house. We are willing and ready to assist and voice the needs of the industry that sorely needs it.

"We cannot tell yet when the next convention will be held but will send our views to the press shortly."

Peculiar and Pertinent.

The French postal department has decided to replace its mail coaches by electric motor cars.

The wells of farms visited in summer by city folk are now regarded as perhaps the chief source of typhoid fever.

All British public men have a popular nickname. The recent arrival of Dr. Jameson at Cape Town was announced as the return of "Sunny Jim."

The Japan Society for the Prevention of Cruelty to Animals is about to build a number of public drinking fountains for horses in memory of those that have suffered and died in the war with Russia.

NOTICE TO CO OWNER.

To John A. Mara, J. J. Foley, Geo. T. Newman and Wm. S. Newman or to any person or persons to whom they may have transferred their interests:

Take Notice I the undersigned co-owner with you in the Gold Bug mineral claim situated on the south fork of Lardo creek near Seven Mile in the Trout Lake mining division of West Kootenay district and Province of British Columbia have done the required work on the above mentioned mineral claims for the year '04 in order to hold the same under section 24 of the mineral act and if within 90 days of this notice you fail or refuse to contribute your portion of such expenditure together with the cost of this advertisement your interest in the said mineral claims will become the property of the undersigned under section 4 of the mineral act amendment act of '00. Dated at Trout Lake this 30th day of November, 1904.
