Lardeau Mining Review

The representative of the rich Lardeau country. Sent to any address for $2 per an. in advance.

VOL. 1 TROUT LAKE CITY, B.C., SEPT. 21, 1905. No. 46.

Lumbering Industry.

GREAT ACTIVITY PREVAILS IN THE VICINITY. NEW PLANTS FOR COMAPLIX AND GOLDEN. THE LOCAL MILL CUTTING 40 PER CENT CLEAR LUMBER.

The lumbering industry is flourishing in the whole of the district. All of the mills are working at their full capacity, and it is evident the companies operating are expecting a protective duty At the local mill the band saw which began to hum a week or so ago is working admirably, and lumber is coming down the shoot at a rate that should make the stockholders feel glad. We learn that the management is more than satisfied at the quality of the logs going up, as 40 per cent clear is coming through, whereas 15 per cent only was expected.

At Arrowhead the Big Bend Lumber Co. intend to double the capacity of its mills this winter. At Comaplix the Bowman Lumber Co. are about to put up an entirely new mill, and the machinery is arriving every day. It is said the mill will have a capacity of 16,000 feet a day. The mill at Three Valley, owned by the Munday Lumber Co., which was started two months ago, is running day and night. Its capacity is 70,000 feet a day. A new mill is to be erected at Golden by the Columbia River Co. with a greater capacity than their existing plant.

Malcolm Beaton and Ed. Hillman have secured a logging contract with the Bowman Co. for three million feet.

Defendants Win Out.

THE POPLAR SAWMILL INTERPLEADER CASE TRIED AT NELSON.

At the County Court Session at Nelson on Monday the interpleader action against Almgren, Magnusson and F. C. Elliott, execution creditors, was heard in a chamber session.

The original case was Magnusson and Almgren against S F. McKay for an account. R. M Perdue, holder of a chattel mortgage from McKay for $1,500 on a mill plant, entered an interpleader against the execution creditors.

A. M. Johnson appeared for Perdue, R. M. Macdonald and R. W. Hannington for Almgren and Magnusson, and P. McL. Forin for F. C. Elliott.

After spirited argument, which occupied two hours and a half, judgment with costs was entered for the defendants in the interpleader action. The chattel mortgage was held not to confer any special rights against the other creditors.

A man named Craig, a newcomer to town, whilst working at the sawmill on Wednesday was struck by a slab on the head. The injuries were not as serious as at first imagined, but Dr. Robinson had to do some stitching. The injured man is progressing.

The Lardeau Brewing Co. now have their first brew of lager beer ready, and we learn that an excellent beer has been obtained. The work of kegging and bottling is now proceeding. About 600 gallons are ready. The porter will be ready in two weeks.

Prospector Finds It.

FRED MILLS ACCIDENTLY STRIKES IT RICH WHILST ON THE OLD SUMMIT TRAIL OF THE LUCKY BOY HILL. PROPERTY IS OWNED BY JIM O'DONNELL.

It is not always that a man finds what he is not looking for unless it happens to be trouble, but Fred. Mills discovered a rich ledge this week which has been walked over by hundreds of men for years. The wonderful part of it is that he was not looking for it, and it literally forced itself into notice.

Mills is an expert prospector, and he has been lately engaged by the Chestnut Hill Mining Co. to thoroughly prospect the surface of the Lucky Boy ground. While proceeding to the ground he has to cross the A.D. fraction mineral claim, which is owned by James O'Donnell and others, and it was on this claim that the ore was located. Whilst traversing the old summit trail, which crosses the fraction, Mills picked up a piece of float which was heavily mineralized. As the ground about was completely moss-covered, Mills thought little of it, but sitting down a few minutes later near the same spot to eat his lunch, his heels tore away a small bunch of moss, and, on rising pulled off another tuft, which then exposed the rock. Glancing down, his experience eye told him that the rock was mineralized. Eagerly tearing away the verdure he exposed to daylight a ledge a foot wide, with 3 inches of clean ore, chiefly grey copper, and the remainder good concentrates.

Mills thought at first he had struck the Copper Chief lead, as the indications warranted that conclusion, but getling down to business he traced the lead for 400 feet to Lucky Boy ground. He then stripped the surface for 150 feet, after which he struck for town to inform Jim O'Donnell of his bonanza.

It is understood, says the Nelson News, that an important change in the C.P.R. passenger route between Nelson and the coast, which has been under consideration for some time, is now practically decided upon, and will go into effect at an earlw date.

When the change is effected the trains for the coast will leave Nelson in the morning about 7 o'clock. Passengers will leave the main line at Revelstoke by way of Slocan, Roebery and Nakusp, making the trip from Nelson to Vancouver in about 30 hours instead of 42 as at present.

As far as can be learned it is not yet decided what changes will be made to enable passengers from Ross'and and Boundary points to share the benefits of the reduction in the time of the journey. The change will nullify any advantage previously offered by the Great Northern route between Kootenay and the coast cities.

BORN.

HAMILTON—At Comaplix, on Sept. 13th, to Mr. and Mrs. W. Hamilton, a son.

MARRIAGE.

SMYTHE-DARRAGH—At Calgary, on Sept. 6th, at St. Mary's church, Revelstoke, by the Rev. Father Le Marchand, Josie, daughter of J. A. Darragh, Airdrie, Alta., to Royan Mackenzie Smythe, son of Colonel S. W. Smythe, Aldeburgh, Suffolk, England

W. A. Galliher, M.P., attended the tariff commission at Nelson.

Blames Promoters.

CONTRIBUTOR THINKS THAT METHODS OF COMPANY PROMOTERS TEND TO RETARD DEVELOPMENT OF THIS DISTRICT AND THE INDUSTRY GENERALLY.

[To the Editor.]

Dear Sir,—The editorial in your esteemed paper of the 14th inst. entitled "The Reasons Why," appeared to me to be so many inches of good horse sense, and I feel sure that the reading public will give the Review every credit for its outspoken policy. There are other forces, however, besides those you mentioned, which tend to retard the progress of our camp, and for the matter of that, the whole mining industry of B. C. The principal reason is the apathy of capital towards the country. In your article you clearly pointed out that it was absolutely essential for coowners to be more unanimous in pricing their embryonic mine, a much desired factor, but I am positive a great amount of the onus rests with the capitalists and their representatives. Let us be candid. An aggregation of capitalists in purchasing a property do not put their money into a hole in the ground for the fun of the thing. They either have honest or dishonest intentions at the onset. Now, I contend that our country is suffering from the aftermath of dishonesty incapacity, and of a necessity the consequent wariness of the investor. Too often do we hear of companies being floated on properties in our midst with a shameful over-capitalization. If one-fifth of the money drawn from the public were expended in actual mining we should be in a most flourishing condition and the confiding investor would regularly draw dividends. I have heard it said that a million dollars should be sufficient capital to prove any mine or prospect in British Columbia, with perhaps one or two exceptions, yet we know in the "good old days" of companies which were capitalized for from two to five million dollars. Where are they now? Where is the money? Certain it is that it has not been used for mining; and the investor damns mining and the country in which his money is supposed to have circulated. In the majority of instances the small stockholder has a poor show of seeing the desired dividend with so much watered stock painfully in evidence.

Money will not come freely into this country until the investing public are educated. Too many bite at phantom prophecies. It may be asked, how is a buyer of stock to discriminate between the right and wrong article. In considering the prospectus of any company it is always advisable to analyse the names of the officers appearing thereon. Let them make it their first business to ascertain what connection the officers have with other limited companies, and if any of the companies ever paid a dividend. If their search finds the promoters to bear the hall-mark of honesty, they will assume honest business methods, and the investor may reasonably expect a show for his money. It is advisable also to know more of the property than is sometimes contained in the prospectus, and here the local newspaper is of valuable assistance. If after such preliminary enquiries the prospectus is found to be misleading, let them shun that company, its officers and their associating influence as they would the plague. If investors were as keen on knowing more of the mine as she is as some promoters are on hoodwinking them, the latter would soon be driven out of the mining business to the ultimate good of the industry.

We have had more than our share of these "gentry," and their operations have left us in bad odor with the investing public. Good properties have passed into bad hands, and in many instances good properties with honest officials at the helm, but with a management to conduct mining operations who would be more in their element behind a pea-nut stand, have thus been literally damned.

Another reason why sales are not so frequent as they should be is to be found in the fact that the purchaser too often does business with the middlemen. I can cite many instances of deals falling through by reason of the dealer doubling and even trebling the owner's price for the purpose of securing the extra amount as a bonus to himself. I would say to the contemplating purchaser, if you are not satisfied with the dealer's terms, make it your business to become acquainted with the owner or owners, and a different value will be placed upon the property by the latter, and one which he thinks it worth.

Our country is not going ahead as it undoubtedly warrants for these and similar reasons. When co-owners are unanimous in their doings, when investors are taught the permanence and lucrativeness of mining, when promoters operating here are treated as they are and not what they seem, when the whole of the community is prepared to see that no crooked work is being indulged in, then the awaited reaction in mining will begin, and the Lardeau as the highest-grade mineral section of the continent will take the foremost and its rightful place in the future destiny of the mining industry.

Thanking you for encroaching so much on your valuable space, and enclosing my card, I remain,

COUNTRY ROCK.

Work at the "long tunnel" of the Reward Co. has now begun in earnest again. The rand drills for the newly-installed Ingersoll compressor have arrived and the machinery is running like a top.

The Victoria Times of the 16th inst. was printed for the first time on its newly-installed "Mammoth Hoe Press." If some of the pages are specimens of the machine's habits, then we are stalled off from purchasing one, as we much prefer our slap-it-on and squeeze-me-tight system.

Dr. J. H. Hamilton has been appointed coroner for Arrowhead and district.

Jack Atkinson and E. Saunder spent a few days among the birds this week. They had great sport and returned with over 100 of the feathered dainties.

Malcolm and Miss M. A. Beaton and Mrs Robt. Stevens were visitors from Beaton Friday.

T. J. Montgomery, representing the Marshall-Wells Co., of Winnipeg, Duluth and Portland, was canvassing business in the district this week. This is his first trip into the interior, and he says in all his travels on this continent he has encountered no scenery to compare with the grandeur of the Lardeau.

J. Simpson, of the law and order department of Poplar, was in town ex officio on Wednesday.

W. Tatterie, of the Sandon brewery, was doing business here this week.

J. B. Reuter, of the Ontario Grape Growing and Wine Manufacturing Co., was after orders last Wednesday.

A very successful dance was held in the Oddfellows' hall last Friday. A good number were present from outside points. The music was supplied by the Symphonia orchestra under the direction of G. W. Carothers.

The people of Trout Lake know and appreciate good things. That accounts tor the speedy sale of the fruits which A. G. Fraser has had shipped in this fall.

The crew at the Noble Five are still getting out ore, and packer Vipond is getting it down to Eight Mile.

Jim Hunt met with a painful accident whilst working at the sawmill last Tuesday. He was repairing a conveying chain when the plank he was standing upon give way and he fell a distance of 8 ft, breaking his collar bone. Dr. Robinson attended to the injuries. Jim, who is of the hardy variety, is walking around in bandages.

Dan McLennan, mine host of the Windsor Hotel, had the misfortune to sprain his wrist and severely shake himself up by falling from the roof of his hostelry a few days ago.

It's more blessed to give than to receive. We'll give you the credit if we receive that $2. If you receive this intimation, give us a call. Ours is a give and take system.

The petition at the Imperial Bank for raising the needful to send the ore exhibit and delegate to the Dominion Fair, New Westminster, is rapidly gleaning the desired sum. Don't be scared to append your modest offering thereon. This is everybody's business and "every mickle makes a muckle ye ken."

Joe Morette is now mining at Moyie. He reports that several well known Lardeau men are operating there and that the Review is eagerly awaited every week.

Will Johnson and family have taken up residence in O. W. Abrahamson's house at the south end of the addition.

Mrs. W. R. Hollenbeck and Mrs. J. Johnson are rapidly recovering from their recent illness.

Don't knock—come right in. especially if owe the Review a 2-spot.

A merry party of ladies, despite the inclement weather of last Saturday, made a trip up the Cup mountain to study geology, botany and mining. Owing to the unpropitious elements several thought they would have to study medicine on their return. But nothing serious happened, and the ladies report a thrilling time. Among other properties visited were the Noble Five, Cromwell and I.X.L The merry, but tired, party returned early the next morning, having encountered neither a bear nor a mouse.

Bruce White and P. Murphy were in town this week on business connected with the Winslow gold property.

A man named Cant, employed by the Bowman Lumber Co., had one of his arms injured last week.

Mr. and Mrs. J. M. Sullivan, who have been visiting Mr. and Mrs. A. G. Fraser, started for their home at Priest River, Idaho, on Wednesday. They declared before taking their departure that the country had been a revelation to them, and they would recommend Trout Lake to their friends as an ideal summer resort.

Mrs. G. Johnson is taking her holidays at Nelson.

When Jim Grant goes to any outside point he invariably makes it his first duty to corner a newspaper man and pour never-ending praises of the Lardeau into his ears. Jim is all right, and a perfect oasis in a desert to a scribe. His example can be fruitfully copied by others when they are out of town. "What will you, for the Lardeau do?"

There were fifteen hundred entries at the Nelson Fair this year, an increase of 50 per cent over last year.

Robbie, son of J. C. Kirkpatrick of Ferguson, left on Monday morning for New Westminster, where he will resume study at the Columbia College. Robbie came out with honors last term, and we hope to hear of repeated triumphs.

Miss Lily Valentine, who has been visiting relatives at Revelstoke, returned to town Wednesday.

Another example of what we can grow in this country. We are in receipt of some big luscious apples grown on Frank Fullings's ranch near town.

Miss Minnie Jarrett, stenographer to the Commissioner of Lands and Works, Toronto, is visiting her cousin, Assayer Shannon, at Ferguson. Miss Jarrett is spending her two month's vacation taking in the "wild and woolly west."

Louis Levesque, released from his mixologist duties at the Lakeview for a spell, has tripped to Nelson for the fair. He was last seen making connections at Gerard wearing a big smile, whist a gramo-phone in the distance reeled off: "Louis, Louis, meet me at the Fair."

Speaking of gram-o-phones, the Berliner is a Jim dandy. Have you heard the new sound box, a contrivance which minimises that harsh grating sound, and at the same time greatly increases the volume of sound. Lest you forget! J. C. Murray is agent for the Lardeau, and he will exchange your worn-out records.

J.W. Westfall has been in charge this week at the Nelson Fair of the collection of ore samples sent from the Trout Lake mining division. Specimens have been sent which set the tongues of the mining men wagging. It is expected that the samples will be shipped for exhibition at the Dominion Fair at New Westminster.

Consequent upon the sawmill assuming its old-time activity several new families have arriving in town and have taken up residence here.

Kyser M., a local gun dog of repute, has been in great demand by the shootists since the season began. Ky. distinguished himself this week on the American hill by chasing a caribou for three hours. He returned, however, without his quarry.

MR. FORGET'S OFFENCE.

There will be many among Liberals as well as Conservatives who will regard Lieutenant Governor Forget's action in calling on Mr. Scott instead of Mr. Haultain to form a government for the new province of Saskatchewan as a gross subordination of sound constitutional principles to the exigencies of the party. As the Toronto News—an independent Liberal paper—says, Mr. Forget's nominee has only a party convention for his selection as a leader. Mr. Haultain, on the other hand, was chosen by the electors of the Territories, which comprised the two new provinces, as the leader of their administration. There has been no expression of popular opinion to show that Mr. Haultain has forfeited that support or that but for the change in the political organization of those regions he would not continue to hold the confidence of the electors. On the other hand if the people desired to dismiss Mr. Haultain that result could have been attained at the ensuing elections, and Mr. Forget's nominee would have come into power in a legitimate and constitutional manner. But such methods are regarded as old-fashioned by disciples of the new Liberalism. —News-Advertiser.

The powers that be at Victoria are doing their best to advertise the resources of British Columbia. There has just issued from the Bureau of Provincial Information two official bulletins. "Game of British Columbia," and "Timber in British Columbia." Both bulletins appear in book form and are printed in a manner which redounds to the credit of the King's printer. Their pages are liberally interspersed with photographic illustrations, and the reading matter shows signs of careful editing. We commend the bulletins to enquirers after knowledge.

The Nelson papers are making themselves ridiculous by their petty bickerings. They evidently all are making a fat thing out of it, though each appears to think there is one too many newspapers on the earth. Surely they can give their readers better matter for a city of Nelson's aspirations. Cut it out scribblers, and used said space to advantage.

Editor Lowery's "Claim" is timed to appear this week. We expect to hear that the mail-bags carrying them have been lined with asbestos.

The President of the United States has demonstrated beyond peradventure that he is mighty for peace as well as in war. To-day he is receiving the commendation and gratitude of the civilized world as a foremost agent in terminating the most terrible war of modern times. Roosevelt, the strenuous, is widely known and much admired; Roosevelt, the man of peace is known the world over and is beloved. Our good king, Edward, dwells in the hearts of all people as Edward the peacemaker Japan's military prowess has astonished and commanded the admiration of the world. Russia's bravery and dogged determination in a losing fight has received its mede of praise. Russian diplomacy is the envy of politicians, but the heart of the world goes out to the nation who has relinquished great claims to the vanquished that human slaughter may cease Truly Japan is great great in offence, great in defence, but greatest in peace. It is considered that England and the United States, united for the purpose of war, could withstand the rest of the world. What could they not accomplish if united for the peace of the world?

Mr. (Supt.) Kennedy went out to Revelstoke last Monday on a visit to friends.

J. A., Mrs. and Miss Lotus Griffith returned on Monday from a trip to the Boundary country.

Stony Graham came in by way of the south Monday looking none the worse for his recent accident.

Copper Queen mineral claim, situate in the Trout Lake mining division of West Kootenay district.

Where located: On Silver Cup mountain, about 1½ miles from Silver Cup mine.

Take notice that I, Frederick Charles Elliott, F.M.C. No. B88042, acting as agent for Charles L. Copp, F.M.C. No. B83186, Charles McNicholl, F.M.C. No. B78011, and John W. Westfall, F.M.C. No. B87964, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of Certificate of Improvements.

Dated this 11th day of Aug. A.D. 1905. 18-8-1905.

When looking for a place to spend your holidays, bear in mind that Trout Lake is an ideal summer resort. The scenery and climate are magnificent

TROUT LAKE CITY

THERE have been fortunes made by judicious investment in Real Estate, and more fortunes will be made than ever the next two or three years. The one who reaps the harvest is the original investor, for he has his money on a certainty.

Now let us point out to you that there is no better spot on the Continent to buy Real Estate than TROUT LAKE.

Trout Lake is the prettiest spot in the Kootenays; as a pleasure resort it has no equal. Boating and fishing may be indulged in the year round; while big game in abundance is to the found on the hills. Its climate is superb, there being no great extremes, it being mild in winter and cool in summer. It can boast of some of the finest hotels and residences in British Columbia. Its streets are well laid out and graded. There are two excellent general stores, and a glance at the advertisements in this journal will show that all trades are fairly well represented. Write with confidence to Agents.

H. McPherson

Make your selection at once.

Then call on or write to

IT has never had a 'boom"—its growth has been steady. It is the head of navigation, and the terminal of the Lardo branch of the C.P.R. All roads (in the Lardeau) lead to Trout Lake. It is the commercial centre of the richest mineral district on the continent, and has banking facilities provided by the Imperial Bank of Canada; first-class school accommodation under the direction of S. Shannon, B.A.; a good water system; government offices; County Court sittings; Methodist Episcopal and Anglican churches and cottage hospital.

There are valuable ranch lands on the outskirts awaiting settlers. Its lumber resources are magnificent, and a band saw mill with a capacity of 60,000 ft. per day is at the head of the lake. The mines tributary are proving out bigger producers every year, with new prospects opening up rich bodies of ore.

There will be a big rush this summer, so if you would know more, write at once to either of the agents at the addresses below.

IN THE MATTER OF THE "COMPANIES' WINDING UP ACT, 1898," AND AMENDING ACTS," AND IN THE MATTER OF THE SILVER CUP MINES, LIMITED NON-PERSONAL LIABILITY.

The Silver Cup Mines, Limited Non-Personal Liability, has gone into voluntary liquidation under the above Act, and has appointed Erland G. Hadow, of the town of Ferguson, B.C., accountant, its liquidator, for the purposes of such winding up.

The creditors of the above Company, which has its head office in said town of Ferguson, and all others having any claims against said Company, are required on or before the first day of September 1905, to send to Harvey, McCarter & Pinkham, solicitors for said liquidator, at their offices, First Street, Revelstoke, B.C., their names and addresses and descriptions, and the full particulars of their debts or claims verified by oath, and the nature and amount of the securities, if any, held by them, and the specified value of such securities, and if so required by notice in writing from said liquidator or his solicitors, to come in and prove their said debts or claims in the usual way, at such time and place as shall be specified in such notice.

After the said first day of September 1905, the said liquidator will proceed to distribute the assets of the Company among the parties entitled thereto, having regard only to the claims of which he then has had notice, and the liquidator will not then be liable for the assets or any part thereof so distributed to any person of whose claim he had not notice at the time of the distribution thereof.

Dated this 10th day of July, 1905.
