St. Andrew's Concert.

LAST NIGHT'S FUNCTION A BIG SUCCESS. LOCAL TALENT RENDER A FIRST-CLASS PROGRAMME TO A CROWDED HOUSE.

'Twas a braw black bleak nicht the nicht, but it did not in any manner influence the receipts, for "standing room only" was the cry long before the curtain rang up at the Oddfellow's hall last night. Hats off to the promoters, for it was a great success. The audience opened up and bestowed applause unstintingly, and let it go on record that the applause was well merited in every instance. The programme was of a diversified order and consisted of two farces, a "menagerie" entree, vocal solos, duets, trios and choral trifles. It is not to be wondered that the ren tion of the Scotch dialect was in several instance likely to grate on the ear of a true representative from Auld Scotia, but a cockney twang helps out, anyway, and so the performers were all mics, macs and Tonalds for one night only. Joe Atherton was allowed to warble by virtue of his owning a Scotch collie; A. W. Edge was suffered to participate on the strength of a tartan necktie; Rev. Scott was admitted on the assumprion that his cognomen looked good to the doorkeepers and his avowed apathy to the "wee drappie"; Bob. McCord was passed on no other qualification than of boosting oatmeal and his assurance that St. Patrick would square matters for him with St. Andra. But, to the program:

Mrs. A. Peel opened the proceedings with a pianoforte solo "Marche Militaire," the rendition of which was excellent. "Sco s wha Hae" was then sung by the choir in a pleasing manner, after which Mr. F. E. Groffman sang in excellent voice, "Asleep in the Deep" A duet by Miss Hoe and Mr. Atherton, "Huntingtower," hit the fancy of the audience, who vociferously demanded and obtained an encore. A farce in one act entitled "Better than a Doctor," next afforded unbounded amusement the characters being as follows: Pete Tonso, G A. Cheeseman; Dr. Robinson, A. E. Noble; Adam Abby, P. Shepherd; Aunty Cragg, Mrs J. Craig; Anna, Miss Fowler; Mary, Miss A. Thomas. The characters were well sustained and the artistes received unstinted applause. Mrs. J. Craig sang a humorous trifle next entitled "O, Alexander" in a capable manner. F. E. Groffman then recited the "Gaelic Dutchman" in a masterly way, after which Miss Lulu Hollenbeck executed a piano solo very creditably. Mr. Atherton chortled "John Peel," and was followed by Mrs. Elliott, who sweetly sang "The Wooden Shoon." Malcolm Mathieson made a great hit with his sword dance, and he received a well earned encore, as also did Miss Hoe for her rendition of "Caller Herrin." Mr. Atherton then exhibited some very strange animals ann the audience roared. Mrs. Fowler sang in sweet voice "Bonnie Prince Charlie," and a farce "A Precarious Predicament," was then acted in a splendid manner, the characters being, John Biggs, G. A. Cheeseman; Jane, Miss Marjorie Fraser; Black, A W. Edge; Brown, D. W. Scott; Gray, A. E. Noble; White, J. J. Atherton; Smith, F. E. Groffman; Tom, Willie Atherton. Special mention must be made of the acting of Miss Marjorie Fraser, whose acting throughout for one so young merits highest commendation. A duet by Mr. J. J. and Master Willie Atherton, entitled "Larboard Watch," was then given, and the audience demanded an encore. The singing of "Auld Lang Syne" brought a most successful night to a close.

NICE WORDS FROM "JIM" GRIFFITH.

Midway, B.C., Nov 23rd.
The Lardeau Mining Review,
Trout Lake, B.C.

Gentlemen,—I am pleased to inform you that I am receiving your esteemed paper every week, and more pleased to note the solid advancement of the Trout Lake district—which means prosperity to every resident.

While I was laboring in that great gold, silver, copper and lead district, it was at all times the height of my ambition to bring that large scope of rich country before the eyes of the outside world, as it is my opinion that once this is done the Trout Lake district will receive her share of the enormous amount of capital which is lying idle and awaiting investments such as are available in that camp.

It is only since I left there that I realized the great strength a newspaper maintains and the many ways in which a paper, such as yours is, advertises, assists, and in fact takes the initiative in every scheme to advertise the district in which it is located.

It is my sincere hope that the people of Trout Lake and the Trades Committee keep up their good work, especially regards an item in one of your recent issues as to the C.P.R. extending their line from Gerard to Arrowhead.

Yours truly,
JAS. A. GRIFFITH.

Opportunity with ability makes responsibility.

Money begets money, and no other form of investment begets it in such goodly quantities as mining, but the same as it takes time to establish a paying business, cultivate a crop, fatten stock, etc, it takes time to thoroughly develop a mine and place it in the productive stage, therefore don't become impatient at not receiving a dividend to-morrow.

We can't all be rich, but we may all improve our condition by wisely investing our earnings in an income producer.

The total output of gold in one year recently was more than $295.000,000. Of this amount $248,000,000 was coined into money during that year. The difference between these amounts of about 15 per cent of the world's total production, was used by the trades and arts. There is one watch factory in the States that uses $6,000 worth of pure gold every working day in the year, a yearly consumption of nearly $2,000,000 in gold. Each year sees the world's supply of gold added to; each year witnesses the world's unsatisfied cry for more and more.

Gypsum (sulphite of lime) is sometimes found in limestones of sedimentary origin. Other minerals such as barite (sulphate of borium) witherite (carbonate of barium may be found either finely disseminated through the rock or as segregations.

Jim Comerford is down from the Duncan slope.

Legitimate Mining.

Mr. Thos. Tonge, the American representative of the London Mining Journal, recently delivered an address before the Technical Society of the School of Mines, at Golden, Col., on the above subject. Himself a resident of Colorado for many years and an experienced, practical mining man, who has seen all sides of the business, both the winning and losing, the following extracts from the address will be read with a great deal of interest by investors.

"Legitimate mining may be briefly defined as that class where the ground is worked and the ore in the ground is solely relied on for profits, and where, by reason of honesty of financing and efficieny of management the people furnishing the capital get 'a square deal' even if the enterprise does not prove profitable.

"Illegitimate mining may be regarded as divided into two classes, viz:

"(1) Where well meaning and honestly intentioned, but inexperienced and incompetent people go into and get others to go into ill-conceived inefficiently carried out mining enterprises, inherently doomed to failure with loss of all the money involved.

(2) Where unscrupulous and irresponsible professional promoters organize a mere stock selling scheme, by which the ignorant, speculative and gambling public is worked rather than the ground; where the gold and silver in other people's pockets are relied on by the promoters for profits; where 'rake off' and 'graft' predominate and where, by reason of dishonesty of financing and management, the dupes furnished the capital do not get 'a square deal' even if the property prove good and capable of being profitably operated.

"On the basis of these definitions there is very much more illegitimate mining than legitimate mining.

"Moreover, these various classes of mining merge gradually into each other, so that it is by no means easy sometimes to correctly classify a particular company.

WON OUT BY STICKING TO IT

It took the Homestake Mining company about ten years to bring their present plant to the present perfection. Their first mill of 50 tons barely paid expenses, but when they succeeded in raising the capital necessary to add another fifty ton capacity, it was the turning point in their history, for the added 50 tons was clear profit, as it took very little additional expense to run. The same number of men, with the automatic machinery at their disposal did the work that it formerly required to run fifty tons, therefore the last fifty tons was nearly clear profit. After that it was an easy matter to add more machinery from the proceeds of the mill and the result is the great Homestake mine of today is paying its stockholders $6,000 per annum on an original investment of perhaps $150, or less. Providing they hung on from the start, for in mining as in all else, the man with courage to help build and to stay with his building is the one to win out sooner or later.

Ladies, attention! Leave your orders for the "Delineator" at the Review office.

Local Mining Conditions.

OF INTEREST TO THOSE WATCHING THE PROGRESS AND DEVELOPMENT OF THE RICHEST MINERAL SECTION OF THE PROVINCE

The Review man visited the Big Tunnel during the week. Twelve men are employed and operations proceed rapidly. The tunnel is now in about 450 feet. The Pilot lead, it is expected, will be encountered in a few days.

The Silver Cup operations are proving very satisfactory to the management. The usual number of men are at work on development. No ore is being taken out other than that met with in course of development.

The Broadview syndicate are somewhat hampered with their shipments this week owing to a shortage in sacks. The rawhide trail is now in better shape, and the ore will be moved more quickly than heretofore. One car of ore at the dock and two at the mine is the record for one months work.

The ore in the bottom of the Free Coinage shaft "Gordon lease" is improving as depth is attained.

The Mother Lode people are driving to catch the lead. Preparations are made and supplies are in for a winter's work.

John Keen has a small crew at work on one of his Poplar properties.

Lead is now within three points of the price at which the bonus will be automatically abolished there still remains the insignificant sum of about four cents a hundredweight,

The snow has now come to stay, and the rawhide trails will soon be in good shape.

A fine line of china-ware at the City Drug Store suitable for Xmas presents.

The Rev. Mr. Scott wishes to thank most heartily all who contributed to the success of last night's entertainment.

Jno. Morton left this afternoon for a business trip to Nelson.

Have you tried the Raymond Flour? Fraser sells it.

NOTICE.

The regular annual meeting of the Trout Lake Rink Company, Limited, at the office of the Company, Oddfellow's block, on Saturday, December 2nd, 1905, at 8 o'clock p.m.

TENDERS.

Tenders will be received by the undersigned up to noon, December 2nd, 1905, for the leasing of the Skating Rink for the season 1905–1906. Specifications at the Review office. J. C. MURRAY, Secretary.

NOTICE.

I hereby give notice that at the meeting of the Board of License Commissioners of the Ainsworth License district to be held at the Mining Recorder's office, at Kaslo. on December, 15th, 1905, I shall apply for permission to transfer my license for the Balmoral Hotel, Ferguson, to S. B. Slinger. Dated November 10th, 1905. A. RANKINE.

Local News.

Preparations for the Xmas tree are going along famously. A good sum has been subscribed and Santa Claus has been wired to respecting a supply that will keep Trout Lake in the memory of the little ones, no matter if they live to be a hundred. A good program is being arranged which will amuse the big people.

Robt. Scott came in on Monday night from Three Valley.

The early closing movement has struck the town, and our many merchants have with their usual good sense adopted it. Hereafter if you want a grub stake for breakfast, don't wait until bed-time before you find out there is no coffee or mush for the morning, but get to the store before 7 o'clock p.m. It is a good thing, has the sympathy of all, and we trust will be continued.

Frank T. Abey has bought out the Criterion Hotel at Camborne from Jack Ennest. We are not yet advised whether Frank has bought for speculation or is going to run it himself. We trust, however, that it is the first, as we should be sorry to lose our genial freight agent and at the same time a good citizen. However, "sufficient unto the day is the evil thereof," and we but express the opinion of the citizens when we say, "Frank, don't go away."

Charlie Dulmage left on Monday's boat for a trip east.

The skating and curling rinks are being put in shape for the season. Advantage was taken of the cold snap, and it is expected both will be in commission end of the week.

Craig and Crawford have bought out the transfer business of Frank Abey. The deal also takes in the mail contract. Andy is the pioneer stage man of the district, and the public can be assured of a good service to Beaton, Camborne and Ferguson.

Mr and Miss Edwards are visiting their aunt, Mrs. A. M. Craig.

Geo. Johnson, of P. Burns and Co, informs us that he will have a full line of fine poultry about the 10th of December.

Dr. Cross, veterinary surgeon of Nelson came up on Monday's boat. Mr. Cross is recognized by authorities as a master in his profession. He will make regular visits through this part of the country hereafter.

Clarence Brownlee, who had charge of Kinman's logging camp last summer, came in on a visit during the week.

Mr. and Mrs. E. L. Kinman, old residents, came in this week from Revelstoke to renew old acquaintances in Trout Lake

A meeting of the Trades Committee will be held on Monday night next. A full attendance is requested. Business of importance.

Service in the Methodist church Sunday at 11 a.m. and 7 30 p m. conducted by the pastor. Subject of evening sermon, "Greetings to the Snow."

A grand ball will be given in the Oddfellows' hall on Tuesday, Dec. 12th, the occasion being the anniversary. Good floor, good management, good music.

Good Opinion of Lardeau.

PLACER CO. OFFICIAL VISITS GROUNDS OF OPERATION AND EXPRESSES HIMSELF AS HIGHLY PLEASED WITH THE PROGRESS MADE.

R. E. Shephard president of the Spokane Falls Placer Co. operating here came up on Wednesday's boat. Mr. Shephard is one of the solid business men of Spokane, and in an interview with the Review, expressed himself as being highly satisfied with the prospects of his own company, the Lardeau, and in fact the whole province. The betterment of our financial position, and the stability of the politics of the province were factors in the restoring of confidence in the minds of the investing public. The resources of British Columbia were great, and as they became better known, capital instead of having to be looked for, would have its agents at every available point.

In speaking of his own venture, he stated that from a thorough investigation and sampling, he believed there was sufficient gold in Lardeau creek to put his company on a dividend-paying basis. The work so far had been done with a view to economy without detracting from its efficieney.

The flume was finished, and the machinery installed, and if weather was favorable, a clean up would be made in a few days. He paid a compliment to Messrs. Wagner and Levall for the manner in which they had conducted the business of the company at this end.

We are pleased to see Mrs. A. G. Fraser aboat again after her recent illness.

Joe Kirkpatrick got mixed up in a runaway to-day without any injury to himself.

Mrs. N. Abrahamson and Mrs. Burrell left Monday for a trip to the coast.

HEALTHY OUTLOOK.

An encouraging sign as to the future of B.C. industries is the fact that hardly a week passes but we see in some publication an interview in which men who are at the head of affairs declare themselves as well pleased with the outlook. Men who keep in touch with the financial situation, men who are familiar with every pulse beat of business life, look with confidence to the future of the Province. Those of us who have labored with "Hope springing eternal" are sometimes prone to give up the battle, take encouragement, and are imbued with new life when we read the articles. In the Lardeau we are "stayers." We believe that our district is second to none on the continent, and buoyed up by such belief will never rest until the precious metals now treasured in our hills are passing as current coin of the realm and securing for the poor and rich alike the luxuries of the world.

THE EFFECT OF WILDCATTING.

We are optimistic as to the future of the Lardeau. We are such because of the indications and conditions. We have demonstrated that our mineral showings are richer than any other district in British Columbia, or, in fact, the United States. At expositions at different times and at different places we have secured the highest and best awards against exhibits from all over the United States and British Columbia. Sometimes we are asked why our production is not better, and our answer, made after due thought and examination, is this:

THAT THE DISTRICT HAS BEEN WILDCATTED.

The rich veins and showings make it a favorable field for unscrupulous promoters, whose methods are to mine the unwary and merely make a pretence of mining the ground. For years this kind of work has been going on, with the result that many thousands of dollars have been put up by investors for the purpose of developing properties which never got any further than the pockets of the promoter's.

This practice is not so prevalent now as it was a year or two ago, but still there is some of it going on now, and as soon as we are sure of our position we will not be backward in the exposure.

Good sound operations are being carried on, however, and the results put beyond all peradventure the ultimate result: "SUCCESS."

Every metal in the market advanced in price this week. Silver gained four points. Lead on the London market gained six points and reached a new high point for recent years, £15 2s. 6d. Casting copper gained five and electrolytic copper two points.

He is a wise man who knows when and where to invest.

Lucky is the man whose spirit is not so conservative as to prevent his taking advantage of the golden opportunity.

A nice line of Christmas chinaware opened up at Abey's Drug Store. Make your choice early.

TROUT LAKE CITY

THERE have been fortunes made by judicious investment in Real Estate, and more fortunes will be made than ever the next two or three years. The one who reaps the harvest is the original investor, for he has his money on a certainty.

Now let us point out to you that there is no better spot on the Continent to buy Real Estate than TROUT LAKE.

Trout Lake is the prettiest spot in the Kootenays; as a pleasure resort it has no equal. Boating and fishing may be indulged in the year round; while big game in abundance is to the found on the hills. Its climate is superb, there being no great extremes, it being mild in winter and cool in summer. It can boast of some of the finest hotels and residences in British Columbia. Its streets are well laid out and graded. There are two excellent general stores, and a glance at the advertisements in this journal will show that all trades are fairly well represented. Write with confidence to Agents.

IT has never had a 'boom"—its growth has been steady. It is the head of navigation, and the terminal of the Lardo branch of the C.P.R. All roads (in the Lardeau) lead to Trout Lake. It is the commercial centre of the richest mineral district on the continent, and has banking facilities provided by the Imperial Bank of Canada; first-class school accommodation under the direction of S. Shannon, B.A.; a good water system; government offices; County Court sittings; Methodist Episcopal and Anglican churches and cottage hospital.

There are valuable ranch lands on the outskirts awaiting settlers. Its lumber resources are magnificent, and a band saw mill with a capacity of 60,000 ft. per day is at the head of the lake. The mines tributary are proving out bigger producers every year, with new prospects opening up rich bodies of ore.

There will be a big rush this year, so if you would know more, write at once to either of the agents at the addresses below.
