Lardeau Mining Review

The representative of the rich Lardeau country. Sent to any address for $2 per an. in advance.

VOL. 1 TROUT LAKE CITY, B.C., APRIL 7, 1905. No. 22.

Terrible Double Tragedy.

CRAZED BY JEALOUSY, JACK COLEMAN SLAYS EDNA DALBY AND SLASHES HIS OWN THROAT.

DUAL LIFE OF CRIME

Both Parties were Compelled to Leave Ferguson Last Fall For Immoral Living.

A horrible double tragedy, having for its principals two well-known Lardeau characters, was enacted at Portland on Sunday morning, when Jack Gibson, alias Coleman and Griffin, slashed the throat of Edna Dalby, alias Hoffman and Sullivan, with a razor, almost severing the head from the body.

The pair left this district last year. They had been residing in Ferguson, and before they left, the man was before the magistrates at Trout Lake on the charge of assaulting the other principal in the tragedy. On that occasion the woman screened the prisoner at the hearing by switching around and denying that the prisoner had assaulted her, and both received a severe lecture from the magistrates

Several of the coast newspapers had informed their readers that Coleman was a Methodist minister, as a license had been found upon him. This was, undoubtedly, a Miner's Certificate.

After leaving the Lardeau the woman went to Spokane, and a month ago went to Portland, where she had been working around resorts in the tenderloin. She was followed there by her paramour, and a quarrel ensued the same night in a bedroom over the Palma saloon. The bartender hearing the screams of the woman rushed to the room, where he found her expiring on the floor with her throat cut from ear to ear. The man had made his escape, but was captured at Chehalis, Wash., on the arrival of the train from Portland last Monday. He was placed in jail without being thoroughly searched, and, being left alone a few minutes, slashed his throat horribly.

The woman has an evil reputation, and is well-known as a box rustler and a street walker. Several months ago she was arrested on the charge of robbing a man in a room over the same hotel where the tragedy occured, getting $100 at that time. Later the man preferring the charge left the city, and the woman was released. A month ago she was arrested on a charge of vagrancy, but a wealthy Portlander is said to have furnished the necessary $15 bond and she left for that city.

Gibson (the name he preferred to be known by here), is a well-known "tinhorn." He was thought to be a booster for several gambling games in Spokane, but was never a dealer. He was the owner of a good claim at Poplar creek, which is recorded in the name of John T. Coleman, which is undoubtedly his correct name. He was formerly a proprietor of a gambling house at Rathdrum.

Capt. Gore, superintendent of navigation for the C.P.R, paid a flying visit this week. He arranged to have the s.s. Victoria put into commission as a first-class hotel for the accommodation of the C.P.R. officials. A grand opening will take place shortly. It is inferred by what the scribe has learned that the inside decorations will equal anything yet attempted in their famous system of hotels from the Atlantic to the Pacific.

Vanner Room, Oyster Mill.

A Winter's Work.

Charlie Green came in from the Star on Wednesday. The Star is situate about 2 miles up 8-Mile creek, and he has been operating there all winter. He has been drifting on the lead, and is now in 175 feet. On the surface there are some splendid showings of galena and grey copper. He will have another 100 feet to go before he gets under this showing. The vertical depth of the tunnel is now 100 feet. A shaft has also been sunk on the lead for a depth of 40 feet. The lead is 8 ft. wide at the bottom. The property is owned by C. Green, C. L. Brush, and A. McAllister.

On Sunday evening, April 23rd, the Oddfellows will commemorate the 86th anniversary of the Independent Order by attending Divine service at the Methodist church at 7.30 p.m. The services will be conducted by the Rev. A. K. Sharp.

All Fool's Day found a few innocents abroad. Several youngsters dashed into the Review office to borrow our "round square," and several prospective purchasers enquired for "strap oil" and "elbow grease"

Geo. Johnson, of the P. Burns Co., took the first wagon of the season into Ferguson this week. This is a full month ahead of last year.

Green onions, cauliflower and spinach. It is supposed the express boys ate the radish and lettuce, as they failed to materialize. —A. G. Fraser.—Advt.

Mr. Wilson, inspector of schools came in on Monday night's boat. In conversation with him he expressed himself as well pleased with the proficiency shown by the scholars in general. He complimented the trustees on their having secured the services of so competent a teacher as the present incumbent of that office.

We kept a stove in our warehouse all winter, and our canned fruit is not frozen. Masterson, Griffith & Co.—Advt.

The Chestnut Hill Mining Co. operating the Lucky Boy group sent 30 tons of high grade ore to the Trail smelter first of the week.

Fred Starkey, the Nelson commission man came up on Monday and made arrangements with the Ferguson and Trout Lake merchants to supply them with the many delicacies handled by his firm.

Good Placer Results.

The daily clean ups at the placer grounds of the Spokane Falls Co. are surely going to create a stampede if the good results continue. Recognizing that they have a good thing the company are about to put in another large flume, and operations will be carried on on an extensive scale. One man shoveling one day last week netted 42 dwts., and the remaining days averaged 25.

Ed. Morgan came up from Poplar Monday. In an interview with a Review man he stated that the latest advices from the headquarters of the Great Northern Mines Limited were very encouraging as to the prospects of work being resumed on a large scale on the Lucky Jack and Swede groups.

Arthur Pelkey and Leigh Chism, the latter a brother of the renowned Jack of Poplar fame, came in on Monday.

A. Ackerman, a Vancouver drummer, is registering at the Windsor.

See the Review window.

If anyone doubts that big game is to be captured in our hills in good quantities, let them get to the right side of Gus Fraser, one of Trout Lake's popular merchants, and having done this he will undoubtedly show off his den. Here will be found a collection of mounted heads and hides second to none in the district, and one that a millionaire might be proud of. The collection includes 1 silver tip bear and cubs, 2 brown bears, 2 full goat hides with half-heads mounted, 2 goat heads, and a caribou head which is a beauty.

Trout are fairly plentiful.

White Burbank potatoes, $2.25 per sack at Fraser's.—Advt.

Ven. Archdeacon Beer will be in to hold services at the Anglican Church on Sunday next, at usual hours morning and evening.

Services will be conducted in the M.E. Church on Sunday morning and evening by the pastor, Rev. A. K. Sharp. The following Sunday the pastor will conduct services at Camborne.

Wm. Pearce, Calgary, who is interested in some property here, was an arrival on Monday's boat.

Charlie Bullard was in from Camborne on Thursday.

H. E. Rogers and J. O'Donnell were down from the Lucky Boy on Monday.

Editor Bert, of the Camborne Miner, was a visitor on Thursday night, and the following morning, after extending a fraternal mit to the Review staff, returned to Camborne to jog along with his multitudinous offices, none the smallest of which are the nursing of babies and purveying hot air.

Our stationery stock is chic.

Stamp Mill, Camborne Group.

The town was visited this week by a lady carrying all kinds of ladies' wear. She happened to be up around the school building, and made enquiries from a couple of the little tots where the teacher was. They in their innocence informed the enquirer that she would find the object of her quest in the school, omitting to inform her that their teacher was a "him." She boldly made her entrance expecting to dispose of a bunch of feminine fancies, but her olive complexion crimsoned when she ran uy against our esteemed Bachelor of Arts, Sam Shannon. Ze nice leddy hastily retreated.

James A Griffith returned Monday night from a trip to Nelson and Rossland. While away he did some good missionary work for the Lardeau. This part of the country, Mr. Griffith says, is attracting a lot of attention from investors in the mining and commercial centres of the interior.

Camborne has been granted the sum of $500 towards a government office.

Dick Roberts and Jim Reeves returned from Goldfields on Monday.

Jim Lamon returned from Vancouver, where has been spending some holidays, on Monday night. Whilst away Jim ran across some very old friends who fain would have him stay at the coast, but all their wily charms proved unavailing, and he's up among the precious metals again.

Meets Trades Committee

During the visit of Gold Commissioner Chipman last week he was invited to attend a meeting of the Trades Committee to discuss the expenditure on roads and trails. A proposition came up for cutting out turn-outs on the road between here and 10-Mile, and was thoroughly gone into. The conclusion arrived at was to the effect that while cuts were necessary, the road bed was of paramount importance. It was agreed, however, that in building up the road-bed care should be exercised in taking the material necessary for such work from points suitable for the turn-outs which would result in the establishing many points along the road, where teams could pass, at very little extra cost. It was also pointed out that the road from the Recording Office to the docks was in very bad shape. In the past it was considered that the roads within the limits of the town were not entitled to any expenditure, with the result that nothing has been done for years to keep the road in repair only what the townspeople have done themselves. It was pointed out to the honorable commissioner that it was just as necessary to have this end of the road in good shape as the other end The conclusion arrived at was favorable, and the necessary expenditure allowed.

Is an Excellent Prospect.

The Rambler is showing up good with development. The property is alongside the 10-Mile wagon road at the 6-Mile point. Operations were resumed a few weeks by Jim Livingston, and in the tunnel which Jim is drifting on the lead some very high-grade concentrates and some nice stringers of clean ore are being encountered. After drifting for another 30 feet a crosscut will be made to get under the showing, which is exceptionally large. The spot is an ideal one for a mine, and there is an abundance of water and good timber on the property. Livingston is one of the very oldest timers in the country, and we hope that his perseverance is about to be amply rewarded.

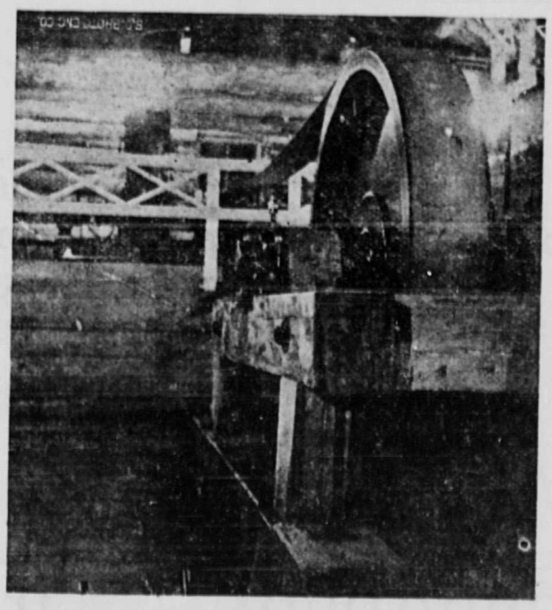
Burt Pearson brought in several car loads of feed from Kaslo on Wednesday. He has several more to dispose of before he strikes the trail to Bulkley Valley.

J. Anderson and J. W. Simpson, Nelson, are registering at the Queen's.

The Amherst shoes, from $2.50 to $4.00, are the best shoe value ever offered in the Lardeau. Call and convince yourself. To be had only at A. G. Fraser's.—Advt.

Geo. B. Batho went to Nelson on Friday.

Dec. Milloy's ad. appears on page 2 of this issue.



Interior Power Plant, Camborne Group.

160 Tons From the Beatrice.

GOOD WORK IS BEING DONE AND A LARGE AMOUNT OF HIGH-GRADE ORE BEING TAKEN OUT.

Joe Murray came down from the Beatrice mine this week, where he has been working the best part of the winter. He says the property is developing in fine shape. No. 1 tunnel is driven in 200 feet and crosscut for 60 feet. The ore started in very narrow, but has widened out at different places from 1 to 5 feet. The face of the tunnel has a vertical depth of about 120 feet No. 2 tunnel is in 300 feet, and has in the neighborhood of 200 feet to go yet to their objective point, when an upraise will be made to connect with a winze being sunk from tunnel No. 1. No 3 tunnel is driven for about 360 feet, the objective point being the ore shoot opened in the upper workings. To demonstrate the improvement in the ore body, there was some 160 tons of high-grade ore taken out during the winter's work, of which amount 80 tons were taken out during the last month. From careful sampling and testing the ore will average a good $100.00 to the ton. Work on the property will be pushed with the utmost vigor, and with the completion of the work already started the Beatrice will undoubtedly be one of the big mines of the district.

Mr. Murray, who is one of the old-timers in the Lardeau, has got smitten with the northern fever, and intends to leave shortly for the northern part of the Province. We wish him all success.

Is the Mono-Rail Coming

P. H. Gray, a mechanical engineer and brother of the chief engineer of the proposed monorail in the Slocan, and Dr. Rogers, a Slocan mine owner, both of Kaslo, are at Spokane, en route to Victoria, where they go in the interests of the proposed railway, capital for which, says Dr. Rogers, has been raised.

"This is to be the first monorail, or single track railroad to be built in the west," said Dr. Rogers. "Similar railroads are in operation in Ireland and Switzerland, and one has been recently built between Washington and Baltimore. The mono-rail is especially adopted to a mountainous country. The trains are supported by one rail beneath them and by an overhead rail. Steam, electricity, or compressed air may be used as the motive power.

"Two branches of the proposed railroad have been surveyed. One survey is from the end of navigation on the Upper Duncan to the west fork of the Duncan river, a distance of 27 miles. The other line is from Kaslo up the South Fork for 17 or 18 miles.

"It is a wonderfully rich mining section through which the road is to pass. Mine after mine of silver-lead ore has been discovered, and there are vast veins of low grade ores in the country that would pay were there a railroad to get the ore out. All that remains to build the road is the endorsement of the government, and that endorsement is hoped for."—Sandon Standard.

Estimates Passed.

Victoria, April 4.—(Special to the Review). Estimates as brought down passed House to-night without amendment and without discussion after one days' debate in Committee of Supply.

MURRAY & ATHERTON Publishers

PROVINCIAL ESTIMATES.

The estimates were brought down on Tuesday, the 28th ult, and the Hon. R. G. Tatlow, Minister of Finance, delivered his Budget Speech the same day. The speech, like the statement itself, was remarkable for being utterly devoid of those flowers of rhetoric with which weaker men and weaker governments often seek to enhance the value of their successes, or to minimize the extent of their failures, in the public eye. It was a very plain, unadorned setting-forth of the present financial position of the province, without any attempt to place an undue value on future possibilities or to misrepresent existing facts. Throughout the speech was every evidence of careful painstaking endeavour, and of a conscientious and by no means unsuccessful attempt to do the very best with the materials in hand. The Minister's utterances, in short, were in a tone and of a nature to still further increase that belief in their ability to administer advantageously the affairs of this province which the present government has already instilled into the people.

He pointed out that there had been, for the first time in the history of the province, a small surplus of some $27,000 for the fiscal year ending June 30th, 1904, and that another surplus was anticipated for the current fiscal year. But a small deficit of some five or six thousand dollars must be anticipated—though not an absolute certainty—for the coming fiscal year covered by the estimates just brought down. This deficit, should it occur, will be directly due to the loss of revenue from the Chinese Restriction Act, which revenue, it is worth noting, amounted to nearly $500,000 for the year 1903 and 1904. The new Education Bill, and several other reductions in public expenditures, together with anticipated large increases in timber royalties and leases, and sales and grants of land, will be a distinct saving on the other hand. It is perhaps worth while reproducing here the Minister's general summing-up of the position:

"Whilst," he said, "there were no signs of "boom" or under inflation, the reports, both commercial and agricultural, from all parts of the province indicated a condition of general prosperity, improving business conditions and progress. In spite of adverse comment by critics of taxation, the most encouraging reports were coming to hand from all our mining centres. We are becoming more and more accustomed to hear of dividends being declared, and advices from London indicated that capital was showing a tendency once more to seek investment in the province."

Four first-class battle ships are being added to the British navy bearing names in honor of four of Britain's greatest colonies, "Dominion," "Commonwealth," "Africa," "New Zealand." For a long time it has been the custom in Great Britain when a battle ship was named in honor of a city to contribute a shilling subscription toward a fund to establish a library and other comforts for the ship's company. Carrying out the same idea in Canada a twenty-five cent fund has been started for the Battleship Dominion. The Imperial Bank in Trout Lake is receiving contributions for that purpose in Trout Lake. It is the rule not accept greater offerings than 25c from any one contributor, that rich and poor may share alike in the good work.

The Post-office department of the Dominion have been congratulating themselves for some time on their big surplus. This, of course, is very nice, provided, however, the surplus is not made at the cost of efficiency of the service. There is no doubt that postmasters in towns the size of Trout Lake and Ferguson are underpaid for their services, and it follows that when sufficient remuneration is not forthcoming for services rendered there is not the same care observed, nor do the public receive the same attention or courtesy as they would if the position was one where the salary requirements were met. We are not writing this because of any complaint at these offices, but it is a defect in the system which prevails all over the Dominion. The laborer is worthy of his hire, and a surplus made by grinding the smallest official is not very commendable.

A number of charges of irregularity have been made in connection with the Lands and Works department. These charges have not yet been proven, although some of the Liberal press have taken them as already investigated and proven true. We, however, do not believe it either just or right to pass judgment until such charges have been thoroughly investigated, and if any blame is to be given let it be on the right head. We know the Chief Commissioner of Lands and Works. He has grown up among us; risen from the rank and file through the different stages of success until at the present time he occupies second highest position possible for him to attain in the province. He has risen to this position through square, honest dealing with his fellow man, and we can say with assurance that whatever the verdict is that the Honorable Robert F. Green will come out of the ordeal with unsmirched character and honor.

The opening of the lake has made things lively around town. There is no doubt that had it been kept open during the winter the traffic would have been kept up in good shape.

CANCELLATION OF RESERVE.

NOTICE is hereby given that the reservation established in pursuance of the provisions of the "Columbia and Western Railway Subsidy Act 1896," notices of which were published in the British Columbia Gazette and dated 7th May, 1896, and 5th June 1896, respectively, are hereby cancelled.

Crown lands situated within the area embraced by the said reservation will be opened to sale, settlement, lease and other disposition under the provisions of the "Land Act," three months after the date of the first publication of this notice in the British Columbia Gazette; provided, however, that in all cases where lands are so sold, pre-empted, leased or otherwise alienated by the Government, and are subsequently found, upon the survey of the Columbia and Western Railway Company's blocks, to lie wholly or in part within such blocks, then the persons so acquiring such lands shall acquire their title thereto from the Railway Company, who have agreed to deal with such purchasers, pre-emptors, lessees, etc., on the same terms and conditions as the Government would under the provisions of the "Land Act," except in respect to timber lands on the Company's blocks, which shall be subject to the regulations issued by the Company relative to the cutting of timber on the Columbia and Western Railway Land Grant.

NOTICE.

L.B., Bluejay, Doubtful, C.D., C.H. and X.Y.Z., mineral claims situate in the Trout Lake Mining Division of West Kootenay district.

Where located:—Near Trout Creek, about 3½ miles from Trout Lake.

Take notice that I, O. B. N. Wilkie, acting as agent for Jas. J. McGlone, free miner's certificate No. B83127, intend sixty days after date hereof, to apply to the Mining Recorder for Certificates of Improvements for the purpose of obtaining crown grants of the above claims.

And further take notice that action under section 37 must be commenced before the issuance of such certificate of improvements. Dated this 30th day of March, A. D., 1905.

Mar.31'05. O. B. N. WILKIE.

NOTICE TO DELINQUENT CO-OWNERS.

To Philip King and J. W. Smith or to whomsoever they they may have transferred their interest in the "Maple Leaf" mineral claim, situated on the south east side of Poplar creek and about two and a half miles from the mouth of the creek, in the Trout Lake Mining Division of West Kootenay.

You are hereby notified that I, Arthur G. Johnston, co-owner with you in the "Maple Leaf" mineral claim above described have performed labor and made expenditure on the said claim to the extent of $100.00, under the provisions af section 24 of the Mineral Act, in order to hold said claim, and the year for which said labor was performed and expenditure made having expired, I do hereby give you notice to contribute your proportion of such expenditure, and you are further notified that if at the expiration of 90 days of publication hereof you fail or refuse to contribute your proportion of the expenditure so made, together with all costs of advertising, your interests in the said claim shall become vested in me under and by virtue of provisions of Section 4 of the Mineral Act, amended Act 1900.

Dated at Poplar Creek, B.C., Dec. 31,'04.

ARTHUR G. JOHNSTON, Co-owner
6-1-1905.

NOTICE TO DELINQUENT CO-OWNER

To John Parisian or to whomsoever he may have transferred his interest in the Homestake, Ibex and Charlottenburg mineral claims.

Take Notice that I the undersigned co-owner with you in the Homestake, Ibex and Charlottenburg mineral claims situate about 3 miles in a south-west direction from Trout Lake in what is known as the Homestake basin in the Trout Lake mining division of West Kootenay, have performed the necessary work and made the necessary expenditure on the above-mentioned mineral claims for the years 1900, 1901, 1903, in order to hold the same under section 24 of the Mineral Act, and the years for which said work was performed and expenditure made having expired, I hereby give you notice that if within 90 days from the first publication hereof you fail or refuse to contribute your proportionate share of such expenditure and pay the costs of this advertisement, your interest in the said mineral claims will become the property of the undersigned under and by virtue of section 4 of the mineral act amendment act 1900.

Dated at Trout Lake this 7th day of March, 1905. Frank Landrian.

Mar.10,05 Co-Owner.

CERTIFICATE OF IMPROVEMENTS.

NOTICE.

Revenge mineral claim, situate in the Trout Lake Mining Division of West Kootenay district.

Where located:—On Triune Mountain a north-westerly extension of the Morning Star mineral claim.

Take Notice that I, George S. McCarter, acting as agent for Andrew Ferguson, free miner's certificate No. B83552 intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 16th day of March, A.D. 1905. GEO. S. McCARTER.

TROUT LAKE CITY

THERE have been fortunes made by judicious investment in Real Estate, and more fortunes will be made than ever the next two or three years. The one who reaps the harvest is the original investor, for he has his money on a certainty.

Now let us point out to you that there is no better spot on the Continent to buy Real Estate than TROUT LAKE.

Trout Lake is the prettiest spot in the Kootenays; as a pleasure resort it has no equal. Boating and fishing may be indulged in the year round; while big game in abundance is to the found on the hills. Its climate is superb, there being no great extremes, it being mild in winter and cool in summer. It can boast of some of the finest hotels and residences in British Columbia. Its streets are well laid out and graded. There are two excellent general stores, and a glance at the advertisements in this journal will show that all trades are fairly well represented. Write with confidence to Agents.

H. McPherson
Agent
Trout Lake, B.C.

Lots can be obtained on EASY TERMS.

Then call on or write to

IT has never had a "boom"—its growth has been steady. It is the head of navigation, and the terminal of the Lardo brauch of the C.P.R. All roads (in the Lardeau) lead to Trout Lake. It is the commercial centre of the richest mineral district on the continent, and has banking facilities provided by the Imperial Bank of Canada; first-class school accommodation under the direction of S. Shannon, B.A.; a good water system; government offices; County Court sittings; Methodist Episcopal and Anglican churches and cottage hospital.

There are valuable ranch lands on the outskirts awaiting settlers. Its lumber resources are magnificent, and a band-saw mill with a capacity of 60,000 ft. per day is at the head of the lake. The mines tributary are proving out bigger producers every year, with new prospects opening up rich bodies of ore.

There will be a big rush this summer, so if you would know more, write at once to either of the agents at the addresses below.

F. B. Wells
General Agent
Revelstoke, B. C.

Job Printing of every description will be faithfully executed at the Review Job Dept.

Ferguson Items.

The first pack-train to go up the South Fork this spring went up last Tuesday. This breaks all previous records. The earliest known before was last year, when the pack reach 10-Mile on May 5th.

The printers are anxious to have three squares a day. Don't let this worry you if your sub. is paid.

For the next two Sunday evenings the Choral Society will render Services of Song.

BORN.—At Ferguson, on the 30th March, to the wife of Allan Chisholm—a daughter.

The election of officers for the Lardeau Branch (No. 119) of the W.F.M.U. resulted as follows:

President - - Chas. Halsey
Vice-President - Chas. Abrahams
Sec.-treasurer - Allan Chisholm
Conductor - - Hugh Macdonald
Warden - - Wm. Keith

Frank Barber removed a link with the past this week in the shape of a somewhat dilapidated tenement which had stood on Main Street and did duty for some early pioneers.

Mrs. A. F. Rankine left on Tuesday for a trip to the Okanagan.

The magistrates had a knotty problem to solve one day this week Two friends had been arguing the point of some trivial matter, and some coarse expressions were alleged to have been used, which the magistrates were unable to grasp. Fred Elliott's diplomatic dashes made confusion worse confounded, and until the Attorney-General has said "let there be light," the friends won't rub shoulders.

There is a movement on foot to hold a sacred concert on Easter Sunday under the auspices of the choral society. The whole will be under the direction of Mrs. R. H. Battey, and that being so, a musical treat may be expected.

Decorator Edge has this week been making Sing Sing look as inviting as possible. The red roof blushing under the astral beauty of a cloudless sky is immense, and the black trimmings to the somewhat sombre body color is a perfect dream. Heigh ho! we're not agin' the Government.

G. B. is the important personage this week. Monday he built an addition to his stable. Tuesday his clucking cow strayed. Wednesday he found it again. Friday he went to Nelson, and we expect when he returns he'll stop his subscription.

Everybody is pleased to see J. C. Kirkpatrick around again. The genial Joe has had a serious encounter with the grim destroyer, and at one time came near passing in his checks. However, he is around again, and was down at the lake twice this week. Although yet a shadow of his former self Joe says he can lick any two editors that ever run a boost. Vive le Kirk!

The great unwashed put in two days work this week. The remaining five were spent in gazing at the cash registers.

Sam Sutherland has been away for two weeks visiting the coast cities in the interests of the firm of McKinnon & Sutherland. He returned on Thursday night.

Ed. Morgan was in from Poplar on Wednesday.

CERTIFICATE OF IMPROVEMENTS

NOTICE.

Sunset, Joseph, Maud and Anna Mineral Claims, situate in the Trout Lake Mining Division, West Kootenay District. Where located:—Situate on the North Fork of Lardeau creek in the Province of British Columbia, about one mile above Circle City.

Take Notice that I, Charles W. McCrossan, of the City of Los Angeles, California, Free Miner's Certificate No. B67783, intend sixty days from the date hereof to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown grant of the above claims.

And further take notice that action under section 37 must be commenced before the issuance of such Certificate of Improvements.

Dated this 3rd day April, A.D. 1965.

8-4-05 CHARLES W. McCROSSAN.

NOTICE TO CO-OWNERS.

To T. R. Davey, or to any person or persons to whom he may have transferred his interests.

Take Notice, I the undersigned co-owner with you in the Coon and Davey mineral claims situate about four miles above Ferguson on South Fork creek in the Trout Lake mining division of West Kootenay district and province of British Columbia have done the required work on the above-mentioned mineral claims for the years 1903 and 1904 in order to hold the same under section 24 of the mineral act, and if within 90 days of this notice you fail or refuse to contribute your portion of such expenditure for work done, together with the cost of this advertisement, your interest in the said mineral claims will become the property of the subscribed under section 4 of the Mineral Act Amendment Act of 1900. Dated at Trout Lake this 24th day of March '05.

S. DANEY,
Co-owner

24.3'05.
