Concentrates Galore.

100 SACKS PER DAY ARE NOW TAKEN FROM THE MILL AT 5-MILE.

Brick Output Maintained

The Success of the Mill and Co'y is Now Beyond A Doubt.

Our representatives paid a visit to the camp at Five Mile yesterday, and while there took occasion to look around the rapidly rising town. The pseudonym—5 mile—is so very prosaic that we are sorely tempted to apply the christening ceremony ourselves and henceforth write of this thriving burg with the more pretentious title of "Silvertown." That the camp warrants the appellation is evidenced from the fact of the tremendous quantity of bullion and concentrates now daily leaving the reduction mill of the Silver Cup Mines, Ltd. We must be pardoned for our transparent enthusiasm on this particular theme; our only excuse being that the success of the company through their mill has been keenly hoped for and what anticipated locally, that we feel that the future welfare of this section of the Lardeau is wrapt up in its success. Both the Trout Lake and Ferguson press have had occasion to apply the birch with no sparing hand to the knockers at outside points who have sought to disparage the mechanism of the mill itself and have also stooped to cast aspersions on the management of the same. In spite of the "clique with the hammer," this particular section of the rich Lardeau is to be the Nelson-Rossland of British Columbia. Both these new thriving centres have had their own troubles, and—well, we have had ours, but we believe, nay, are confident, that a prosperous era is dawning for the whole Lardeau. There have been several good property sales of late, chief among which is long tunnel drive put through some three weeks ago. With the arrival of interested capital, it goes without saying that the reputation of the country will be further enhanced. It is proved without the shadow of doubt that at all our larger mines values are increasing at depth and as we have "the goods" to show to none we are in a position to smile at the adverse criticism of a certain section of the press with "axes to grind." Last week we reported that the output of bullion from the silver mill at Five Mile amounted to no less than 2,000 ounces per day. That average has been maintained during the past week. With silver now a shade worse than 60 cents per ounce, this output is extremely gratifying. The company has been treating nothing but the low-grade base ores from the Nettie L. and latterly the same grade of ore from the old stopes of the Silver Cup. The lead concentrates from the mill for the past two weeks is a tremendous amount. Some 100 sacks of concentrates each of an average weight of 140 pounds is being disgorged daily by the mill. There were some 30 tons lying at the main entrance yesterday in readiness for S. A. Baney's heavy freight team to remove to the landing here; 200 sacks also lay in various heaps close at hand and there are also 2 car loads of 20 ton lots in Ferguson to be taken away as soon as the roads are in a condition to allow of the heavy sleds to negotiate. At the Silver Cup mine there are now 33 men at work, a small crew are still operating at the Nettie L. Harking back to the camp at Five Mile a very satisfactory condition of affairs is noted. There has lately been erected some very commodious cottages for the married employees and their families. Several new men have been taken on this week.

S. F. McKay, the Poplar creek saw-mill man was up this week settling with the sheriff who had possession of his plant. He liquidated all claims against him and will proceed to do business again. Wish we could say the same of the outfit here.

ENTERTAIN'D BY THE Ladies' Guild.

The conversazione under the auspices of the Ladies' Guild of the church of St. John the Baptist, given on Wednesday evening was one of the most enjoyable affairs ever held in Trout Lake. The hall was tastefully decorated with flags, bunting and plant giving it a gala appearance.

Whist tables were scattered around the room for the "hip folks" while the little ones, among whom were to be found Mother Burrill and several other of the big 'uns played "Ring around Rosy", Musical chairs and other amusing games. In one corner of the hall a dainty lunch was set on tastefully decorated tables which was heartily appreciated. After lunch the floor was cleared and dancing indulged in until the midnight hour.

The Guild has been organized the membership being Mesdames Burrell, Jowett, Boultbee, Elliott, Taylor, Henderson, Craig, Johnson, Gauthier, Schmitt, Brown Westfall and Shepherd. Its object is to act as an auxilliary in the general work of the church which is needed at this time most particularly owing to their being no resident minister.

The ladies are to be congratulated on this their first effort in the way of an entertainment and the general consensus of opinion is that another of the same kind would go allright in about another week.

Our Friend the Kootenaian of Kaslo.

We've studied the language of monkeys and things,
We've counted the scales of the humming bird's wings,
But though the old donkey still stridently calls,
There's no one can tell what he means as he bawls.
"Waw-he he haw godam Bob Green.

B. C. MINING NOTES.

The Eva mine in the Lardeau resumed ore shipments December 1st.

The St. Eugene has 400,000 tons of ore ready for mining and shipments.

The Prospector says a big deposit of nickel is to be developed n Wild Horse creek.

Rossland ore shipments last week were 5,985 tons or 313,388 tons for the year to date.

January 1st is now said to be the date for completing the new Sullivan lead smelter at Marysville.

It is proposed to introduce gold dredging into Cariboo, the Ward Hydraulic Co. having arranged to install a dredge on their property.

The Dominion government officials have issued in pamphlet form a valuable report by Prof. Brock on Poplar creek and other Lardeau camp.

Arrived today by express a large assortment of ladies collars and belts. Latest styles. Masterson, Griffith & Co.

Lake Localets.

'Dad" Atherton did not get down the first part of the week. A tack in the carpet and a slight attack of grip was the cause

Newman Taylor was laid up for a couple of days during the week with neuralgia.

George Johnson of the P. Burns Co., bought during the week squire, Thompson's cow. George was tendered a hearty vote of thanks by the residents of Beaton for taking away from that busy hamlet one of its discordant elements. For years the old bovine has been in the habit of cleaning off the clothes lines, anticipating the owners of gardens, and making free in general with anything that could or could not be digested. In fact it is well known that the old lacteal fluid producer swam out to the barge, half a mile, pulled off it a bale of hay towed it to shore and leisurely devoured it. After its death a post-mortem examination took place and its stomach was found to contain four dozen assorted buttons, six pounds of Alec Crawford's horse-shoe nails, 18 pieces of whalebone, three stove pokers, a dutch oven, a pair of german sox, a chunk of Geo. Lux's ranch, a morsel of Frank Fullmer's reputation, a Kaslo Kootenaian editorial, and numerous other articles. All of the beef was eagerly bought up by Beatonites as in that way they got their revenge.

The la grippe is most prevalent. The only sure cure yet made known is the smoking of a Royal Seal cigar. For testimony concerning ask the editor.

The Horse-shoe Mine aggregation consisting of Mills, McLean and McLellan came down for the social Wednesday night. The boys say the property is looking well. A nice bunch of ore has been sacked and will be brought down when the trail is in shape for raw-hiding.

If you want a strong smoke try the Royal Seal. Andy Daney always uses them as auxilliaries to his six horse team.

E. L. Kinman returned from Revelstoke Thursday where he has been on business for the past week.

If you want to make hubby feel at peace with the world make him a Xmas present of a box of Royal Seals.

The Lucky Boy is developing well. Packer Vipond has his train busy getting down ore.

Abrahamson Bros. are putting on their storm porches this week getting into shape for the expected snow.

The United States member of the international board selected to investigate the North Star affair has ordered a shipment of Royal Seal cigars to take to Paris with him. In ordering he stated that it would be a great factor in keeping peace in the European family.

The rink bottom is in good shape now for ice. All that is wanted now is a good three day hard wather. The addition for the curlers is completed.

Tom Gray the popular traveller for the W. H. Malkin Co. of Vancouver took advantage of being in town Wednesday night to attend the social of the Ladies' Guild Tom was called on during the evening by special request to make a speech Needless to say the audience was entertained by a flow of oratory such as is seldom heard in Trout Lake. We hope he will be in for another entertainment later on.

The Spokane Placer Mining Co. have been hard at it under the supervision of Mr. Mix getting their flume and dam in shape. Shovelling in will be started this week. Judging from the thorough sampling given the run should turn out well.

J. B. Henderson secured a verdict for the full amount of his claim against the Canadian Timber and Saw Mills Ltd. The case was tried at Revelstoke last week.

Ferguson Items.

Don't forget the masquerade ball on the 26th.

Art. Desjordy has joined the staff at Five Mile.

La grippe gripped "Our Joe" for a spell this week.

Geo. Weir has gone up to the Sharon to join the crew there.

Another batch of men started to work at the Silver Cup on Thursday.

Sam Sutherland has been on a business trip to Revelstoke this week.

A very successful hop was given in the opera house on Saturday evening last.

Charlie Foote and Will Skinner were up on the Silver Cup slope hunting big game early this week.

Mr. and Mrs. A. Rankine have taken up their residence for the winter at No. 1 Victoria avenue.

Several of our tradesmen and their families spend the long evenings tobogganing on the hospital hill.

Dick Roberts owner of some first-class prope ties on Poplar and Rapid creeks was in town this week.

The many friends of Mrs. A. Chisholm will be pleased to learn that she is progressing favorably at the hospital after a recent operation.

A. J. Swinney left on Tuesday morning for a trip to the old country. E. G. Hadow is now superintending the Five Mile mill and encampment.

Dr. Newcombe was called to Comaplix on Tuesday to attend to a man named Hunter who had broken his leg whilst teaming on the Camborne road.

The skating rink is being proceeded with at a record rate. We shall have the skates ringing merrily before Xmas. There are now 11 men on the construction.

Billy Leiper snowshoed down from the Triune on Wednesday. It is Bill's intention to take a long deferred trip to the old home in Aberdeen, Scot, He sails during the next few weeks.

R. H. Bartley made a supreme effort to reach the Triune on Monday last but the deep snows beat him. He however successfully reached the lower terminal with the very welcome mails.

Will Schnell, who has lately been making a business tour of the Lardeau, returned to town on Tuesday night. He will be found at O. K. barber-shop for the remainder of the winter presiding over the tonsorial chair.

Christmas is at hand! How about that present for the old folks back East? Remember, our merchants have an array of useful and seasonable goods. The motto: "Local Loyalty," is applicable for the festive season.

A strange female of no uncertain age who visited town on Tuesday evening last made herself a general nuisance. She entered the abode of four Joe whilst that worthy was shaking off the too pressing caresses of la grippe. The female, who was an utter stranger to our Ferguson representative, was very scantily attired. She behaved in a most indecorous manner—making night hideous by her piercing screams for a drink—which disturbed the whole neighbourhood. Mrs. J.J. appeared to expect the visitor, who weighs about 8 lbs. and has a featherless thatch. When she's big enough (and quits the drink habit), we shall find her a job in the Review office.

Born.—On Tuesday, 6th inst., to the wife of J. J. Atherton—a daughter.

The official returns of the Kootenay vote are: Galliher 2487, Mackintosh 1735, Baker 605. This gives the liberal candidate a majority over the conservative of 752.

"The Courtship of Mother Goose" is the title of the play to be rendered by the little ones on 'Xmas Eve. The services of nearly every child in town has been requisitioned, and rehearsals are held regularly. The true Christmas spirit abounds throughout, as Santa Claus is successful in his wooing over his rival The Man in the Moon. The play is in two acts, and sparkles with witty dialogue throughout. Everybody must give the children encouragement by their presence on this occasion. It is expected that enough money will be raised to wipe off an old standing debt on the school building.

Sporting Notions.

We are pleased to note that the hockey boys of Trout Lake are assuming a business-like air for the season now upon us. They have a first-class team in sight, but new blood is needed badly. Any aspirants to fame desiring to enter the arena should talk it over with the well-known players, and get into harness as speedily as possible.

There seems to be a pedestrian mania in Nelson and Rossland. A crack sprintar in the person of W. Renwick is taking on the smaller fry for any stake, large or small. Bar-tenders appear to be his particular quarry. However, he always manages to win on the post, which taken into consideration with the "official times" recorded for the 100 yards, makes us incline to the belief that the timekeepers badly require reliable clocks. At a recent match the two timekeepers respectively returned the times as 10 1-5 and 10⅘. Those who profess to understand sprinting ought to realize that the times recorded show a difference of 5½ yards. If these people clock so "accurately" it is small wonder that they lose to the backers of the other man, who we conjecture "know the game."

The present winter so far has had no terrors for us. Indeed we may congratulate ourselves upon the mildness of the season. Good dry weather appears to have set in, and wistful eyes dwell on the rink daily. By the way, keep on spieling for the three-day 'Spiel.

Tenders were invited this week for leasing the rink for the season. One tender is to hand from a local syndicate designating themselves the "Husky Four." The communication is extremely amusing, as they on their part offer to run the rink if the management will pay their board, guarantee good freezing weather, allow them $20 a month, and secure an injunction against the miscreants starting the Ferguson rink. We consider the "husky four" have taken an unwarrantable liberty. If they fancy they could make any show, they can consider this a challenge from the "Scrappin' Trio."

Don't lose sight of the fact that Fraser's stock of toys are still complete at prices equal to eastern catalogues. Xmas fruits and table delicacies due to arrive on the 15th. A. G. Fraser.

As we go to press a report is current that a strike of two feet of ore has been made in the No. 3 tunnel of the Triune. Further particulars will be given in next week's issue. Pretty good for a small burg.

Homestake is Bonded.

$10,000 IS THE PRICE TO BE PAID THE OWNERS WITHIN A YEAR.

Well Known Poplar Claim

Work to be Continued Throughout the Winter.

Bruce White and R. G. McLeod, acting on behalf of the Spyglass M. & D. Co., closed a deal yesterday for the purchase of the Morning and Homestake claims, situated on Rapid creek, about a mile and a half from Poplar. The vendors are Jack Nesbitt, Geo. Munroe and A. C. Mackintosh. The amount of the bond is $10,000 payable within a year.

The claims are within 1000 feet of the C.P.R. line, and have most excellent surface showings.

Mr. McLeod said last night that one silver-lead vein has been proved on one of the claims, and several quartz leads, carrying good gold values, have been uncovered. On one of these leads a tunnel has been driven 45 feet and fine specimens of free gold can be picked out of each barrow-load of quartz taken from the workings. The lead is about two feet in width and can be traced on the surface for a considerable distance. The ore averages $43 in gold to the ton. The tunnel in question will be driven still further and when 30 more feet of work is accomplished, it will be under the richest part of the surface showing, and a little further it will crosscut another four-foot vein which gives an average assay value of about $20 to the ton in gold on the surface.

The Spyglass company will commence work at once on the property and continue operations all winter. In the spring, if development then attained, warrants it, a stamp mill will be erected.

Bruce White who examined the claims recently and sampled the ledges thoroughly says that in his opinion, the claims equal any in the Poplar and while there are no large nuggets of gold in sight, the values are more evenly divided.

Mr. Mackintosh, one of the vendors, who is leaving for Winnipeg shortly, says the purchasers are to be congratulated on securing the property at the figure they did as the owners previously always held out for $30,000, and only accepted the smaller amount when forced to do so.

Trout Lake Fast Becoming Like Outside Cities.

She has the finest water-works in British Columbia that can supply you with what may be termed A LONG FELT WANT, and that is good water and plenty of it.

She also has big departmental stores that carry a large supply of almost anything wanted and at prices lower on some lines than one can buy at any outside city after the freight is paid. The glove and shirt window displayed in our store is sufficient proof of the assortment of goods that are carried and when you get 20 per cent off of all of these goods this will prove the prices are the lowest. Talk is easy, when you want to save money on all of your purchases call and get prices from us don't listen to other people.

Masterson, Griffith & Co.

During the past year 17 births have taken place in Trout Lake, Pretty good for a small burg.

The LARDEAU MINING REVIEW.

Is Printed at Trout Lake City, and Published at Ferguson and Trout Lake every Friday.

All locals will be charged at the rate of 15 cents per line, first insertion, and 10 cents per line each subsequent insertion.

Terms for Transient and other advertising will be made known on application at office Subscription $2.00 a year, in advance.

MURRAY & ATHERTON Publishers

From what we can learn it is the intention of the C.P.R. to keep the lake open this winter if possible. This in it-self shows that this great corporation has satisfied itself that the requirements of this section are worth looking after. W. White, one of the leading officials of the West, has written asking for the REVIEW to be sent to him regularly so he can keep posted on the growth aad necessities of the district.

The success of the reduction works at Five-Mile should be an inducement to capital to construct similar plants in this district. There are numerous properties which have large bodies of concentrating and low grade ores which would not pay heavy freighting charges, but would pay handsomely if treated on the ground.

The agitation to have the Placer Act amended should not be lost sight of. The legislature will soon meet, and a petition should be sent in asking ior such changes as are needed te obviate the recurrence of the Lucky Jack trouble.

What We've Maintained Always.

During the past month a more than usually large number of deals in mining claims are reported to have been made. A significant feature of these transactions is the circumstance that in nearly every instance, while the consideration has been large, no actual cash has been paid, the properties having been acquired on "working-bond" terms. It is an ill wind that blows no one good, and the depression under which the mining industry of the province has suffered for the past few years has at least had the salutary effect of knocking reason into the heads of prospectors and claim-owners, who are now much more ready to treat with capital in a business-like spirit. The result will be—as has already been shown—that a far greater proportion of claims will be taken over and developed, and thus the chances of a considerable addition being made to our number of productive mines are so much the greater.

1,000 Ounce Ore in the Beatrice Mine.

A body of galena, rich in grey copper was opened up at the Beatrice this week, says the Camborne Miner of the 26th ult., which it is said will average from 700 to 1,000 ounces of silver to the ton. The new find which is in the old workings, was made quite accidentally. Some of the miners employed at the property were engaged in the old property getting things in shape for ore shipment, when one of the men noticed a small showing of galena in one of the walls of the tunnel, and out of curiosity put a shot into it. After the shot was fired he went back and to his astonishment there lay exposed a vein in which the galena sparkled like a thousand diamonds in the candle light. Samples of the ore were taken to the tunnel's mouth, and it was seen that grey copper was scattered all through the galena. More work was done on the vein, which widened out with every shift, until now it measures over two feet across the face. A sample of the ore was brought to town and placed in the Miner window, where it is the subject of a good deal of attention. The Beatrice company will continue work on the new find and in other parts of the mine, and will be ready for rawhiding as soon as ore sacks arrive."

Borden Will Remain the Leader.

Robert Laird Borden will continue as leader of the conservative party Mr. Borden accompanied by Mrs. Borden, arrived in Montreal Saturday and were met at the Windsor station by an advance guard of representatives of the party in the house of commons, largely from Ontario, and who have come to attend the conference which will be held to-morrow says a Montreal dispatch of the 5th. Heading the delegation of Ontario members is S. Barker, M. P. for Hamilton.

"There is only one name for leader suggested in Ontario," said Mr, Barker, "and that is Borden. People recognize his strength and they want him. Ontario is for Borden to a man."

The members already here include, besides Barker, Kidd of Carleton, Mr. Sproule, Kemp of Toronto, Brodie of Dundas, Clements and P. H. Pope.

Mr. Borden has been offered seven or eight seats, but it is likely that the seat offered by Kidd of Carleton, will be accepted. It is also understood the government has offered to do what it can to expedite Mr. Borden's early re-entry into the house of commons, but the feeling among the members now here is that no favors should be accepted from the government but that Mr. Borden's return should be entirely due to the strength of his party.

Ainsworth License Dist.

NOTICE is hereby given that the undermentioned persons have madd application for hotel licenses at the places set opposite to their respective names, under the provisions of the "Liquor License Act, 1900 :

C. F. Olson, Hot Springs Hotel, Ainsworth.

Urge Lumber Tariff.

Vancouver, December 5th.—A very important conference took place here this morning between British Columbia lumbermen and senator Templeman and Messrs. Ralph Smith, W. Sloan and Duncan Ross, M. P's. elect, regarding the question of the imposition of a duty of $2 per thousand on rough lumber, thereby shutting out American lumber from Manitoba and the Northwest territories' market.

It was pointed out that while in 1903 imports of American lumber were 60,000,000 feet in 1904 they reached 140,000,000 feet.

As a result of this unfair competition many British Columbia mills were closing down and the industry would be ruined, it was claimed. It was further asserted that the imposition of a duty would not cause an advance in the price of lumber in the northwest. Farmers there enjoyed protection on their products and it was only fair that British Columbia lumbermen should be accorded protection.

Several of the lumbermen expressed themselves as agreeable to reciprocity in lumber with the United States which would increase their market.

Duncan Ross announced himself as in favor of the millmen's petition. Senator Templeman in reply, promised to lay the matter before his dominion cabinet colleagues and advised that a deputation be sent to Ottawa by the millmen in support of the petition.

Mining conditions locally must be said to be satisfactory. There is great activity on the South Fork road. With the advent of the road up the North Fork capital will pour into this section, as the many properties awaiting better transport facilities are little short of marvellous.

The agitation started for the holding of three days' sports is being favorably taken up by the citizens. Trout Lake is now of a size sufficient to take hold of such a celebration and make a success of it. There is no doubt that if the bottled-up energy of a lot of our sports was let loose success would be assured.

NOTICE TO CO-OWNER.

To John A. Mara, J. J. Foley, Geo. T. Newman and Wm. S. Newman or to any person or persons to whom they may have transferred their interests:

Take Notice I the undersigned coowner with you in the Gold Bug mineral claim situated on the south fork of Lardo creek near Seven Mile in the Trout Lake mining division of West Kootenay district and Province of British Columbia have done the required work on the above-mentioned mineral claims for the year '04 in order to hold the same under section 24 of the mineral act and if within 90 days of this notice you fail or refuse to contribute your portion of such expenditure together with the cost of this advertisement your interest in the said mineral claims will become the property of the undersigned under section 4 of the mineral act amendment act of '00. Dated at Trout Lake this 30th day of November, 1904. Jas. W. Livingston

Dec 2, '04 Co-Owner.

NOTICE OF SEIZURE AND SALE.

Notice is hereby given that under and by virtue of a warrant of execution issued out of the county court of Kootenay holden at Trout Lake in an action wherein McDonnell & Black are plaintiffs and James Grant is defendant and to me directed against the goods and chattels of the said defendant, I have seized and taken in execution all the interest of the above named James Grant in the following named mineral claims situated in the Trout Lake mining division of West Kootenay namely: Cromwell mineral claim situate on the south fork of Brown creek, a tributary to the south fork of Lardeau creek, and adjoining the Alice mineral claim on the west; Annex mineral claim situate on Brown creek, adjoining the Cromwell and Cromwell Fraction on the west; Lucky Jim mineral claim situated about 1½ miles east of the Silver Cup mineral claim and is a north extension of the Virginia mineral claim; Golden Gate mineral claim situate on the divide between Trout Lake and south fork of Lardeau creek adjoining the Nora Lee on the east; Gold Hill mineral claim situate about half a mile east of Rapid creek and eight miles east of Trout Lake on the Lardo river.

And I give notice that I will offer for sale by public auction at the Court House at Trout Lake, B. C., on Saturday the 10th day of December, '04 at the hour of eleven o'clock in the forenoon, all the interest of the said defendant in the said mineral claims. Dated at Trout Lake, B. C., October 6th, A. D., '04.

AN ESSAY ON MAN.

Man that is born of woman is small potatoes and few in a hill. He ri-es up to-day and flourishes like a weed and tomorrow or the next day the undertaker hath him. He goeth forth in the morning warbling like a lark, and is knocked out in one round and two seconds.

In the middle of life he is in debt, and the tax collector pursues him wherever he goeth. The banister of life is full of splinters, and he slideth down with considerable rapidity. He walketh forth in the bright sunlight to absorb ozone, and meeteth a bank teller with a sight draft for $357.

He cometh home at eventide and meeteth the wheelbarrow in his path. It riseth up and smiteth him to the earth, and falleth upon him and runneth one of its legs into his ear.

In the gentle springtime he putteth on his summer clothes, and a blizzard striketh him afar from home and filleth him with cuss words and rheumatism. In the winter time he putteth on winter trousers and a wasp that abideth therein createth excitement. He starteth down into the cellar with an oleander and goeth backward and the oleander cometh after and sitteth upon him.

He buyeth a watch dog, and when he cometh home from lodge the watch dog treeth him and sitteth near him until rosy morn. He goeth to the horse trot and betteth his money on the brown mare and the bay gelding with a blaze face winneth.

He married a red-headed heiress with a wart on her nose, and the next day the paternal ancestor goeth under with a bump, and after a brief sojourn in the gaol cometh home to live with his beloved son-in-law.—Ex.
