Lardeau Mining Review

The representative of the rich Lardeau country. Sent to any address for $2 per an. in advance.

VOL. 1 | TROUT LAKE CITY, B.C., OCT. 19, 1905. | No. 51.

Lead Price Is Rising.

AMOUNT OF BOUNTY REDUCED BY MORE THAN TWO-THIRDS. LEAD COMMISSIONER SAYS ADVANCE IS PERMANENT.

The steady advance in the price of lead may well be regarded with satisfaction in Kootenay, says the *Nelson News*. It is an unearned increment to every lead mine owner in the district. It means better returns for products without any increase in the cost of production.

At the same time the advance is effecting an economy to the dominion government, every increase in the London market price automatically reduces the amount payable as bounty, and that without any loss to the class in whose interest the bounty was decreed.

Kootenay will miss a great opportunity if its lead mines remain idle, or are worked only on a small scale, while the market is so favorable. By a ruling in connection with the dominion lead bounty by the deputy minister of the interior, the bounty does not lapse when lead on the London market reaches the maximum price £15 10s., the highest point at which the full bounty is paid.

The margin of £3, or 48 points. A point would seem, at first to be near y one-fiftieth of the amount of the bounty, or 30 cents. But as the London price is quoted on the English, not the Canadian ton, 2,240 not 2,000 pounds, the bounty is equivalent to a little less than 27 cents a point, instead of 30 cents. Consequently it will require 55 points margin instead of 48 to wipe out the bounty. At £15 18s. 9d, there will still be a fraction of a cent a hundred weight payable as bounty; at £16 an English ton, the bounty will be exhausted.

G. O. Buchanan, commissioner of the bounty, interviewed by the *News*, said:

"Yes, the bounty is slowly dropping. At to-day's London price, £14 18s. 9d., it is only a little more than 21 cents a hundredweight, or about $4.25 a ton. The rapid and steady advance in the price of lead seems to me to be due to natural causes. The demand is growing steadily, and the supply is not. The condition will probably be permanent, or at least will last for a long time. I shall not be at all surprised if the bounty is wiped out within a few months. It will disappear entirely when the price of lead on the London market reaches £16.

"Lead was once as high as £22, and may reach that figure again. It will not make a great difference to eastern consumers, but it would be a great boon to Kootenay mine-owners, and to the whole community if the advance continues for some time longer."

Walter Edwards and Chas. Copp came down from the Triune during the week.

J. Q. McKinnon and family returned Wednesday from Spokane. Jack took in the fair while there, and says that our ore exhibit came in for most favorable comment.

Fred. Elliott came in from Nelson Monday night and left for Revelstoke on Tuesday morning

---

O. Lermo and Andy Ward left this week on a trapping expedition up the Six-Mile creek. They will be gone all winter.

Local Mining Conditions.

OF INTEREST TO THOSE WATCHING THE PROGRESS AND DEVELOPMENT OF THE RICHEST MINERAL SECTION OF THE PROVINCE

The Mother Lode people will do about 300 feet of work this winter on their property at Poplar.

Sam Shannon is pushing work on the Black Warrior. Three men are engaged in driving the 200 ft. tunnel.

The Triune has closed down for the winter. Jno. Morton left for Nelson with a car of ore on Monday morning.

The deve'opment of the potato farms of Messrs. Abrahamson and Fraser is turning out magnificent. Assay returns give so far an average of 400 bushels to the acre. Foreman Mills says the property is sure to be a good dividend payer.

Jim Lade is making good progress with his contract on the Beatrice.

Joe Verschoyle and Nate Lay have a contract for sinking 50 feet and cross-cutting at that depth on the Calumet at Hecla at Rapid Creek.

Walter Phelan and J. Jenkins are developing their property at the foot of the Lake.

Mayor Mobbs of Gerard intends to do a lot of work this winter on his Canyon creek properties. Supplies have been put in and work will be started at once.

The Silver Cup development is continuing to show up good ore. 25 men are employed at the mine. A supply of water is being flumed to the compressor plant from Brown creek, which will materially reduce the cost of operation.

The Big Tunnel operations are going ahead at the rate of 6 feet per day. Another machine will be put in in a few days.

A Review scribe paid a visit to the ground of the Spokane Falls Placer Co. one day this week. 15 men are now engaged building the extension to the flume, which when completed will be 1,300 feet in length. A pier is also being constructed of great solidity, and the construction of flume and pier are now well under way. When completed, some 1,000 feet of creek bed will be drained, and sluice boxes put into position, when actual mining operations will be at once commenced.

The Trail smelter is now refining 50 tons of lead daily. On Monday a shipment of nearly two tons of silver was made to the Orient, consigned to the Hongkong and Shanghai bank, as agent for the Chinese imperial government, which will use it in coining subsidiary silver coins. This is gradually supplanting the British coin in Shanghai and Hongkong, nine-tenths of whose population is Chinese.

Ed. Masterson is now in charge of the M. & G. emporium.

Another old-timer in the person of W. R. Hollenbeck, leaves next week for Portland, where he has accepted a position as accountant. We are all sorry to lose W. R., but as he goes to better his condition we cannot find fault. Mrs. Hollenbeck and family will stay here until spring.

Once Again Victorious!

Our Ore Exhibit Wins the Massive Silver Cup at the Spokane Interstate Fair.

Trout Lake Mining Division is "All Right."

So Think the Many Thousands of Visitors who Inspected Samples from Our Mines and Prospects.

The Review, Trout Lake, B.C.

SPOKANE, Oct. 13.—Proud to wire you that our exhibit carried off the silver cup—the only trophy to be won at the fair—for the finest collection of ores. Judges highly praise our exhibit. Award was unanimous. Poplar sample secured special award. Thousands visiting our stand and extending praise. Congratulations!

J. W. WESTFALL.

When the question came up of sending an ore exhibit, many expressed their opinion that while it might (?) do some good, yet the chances of winning a prize was entirely out of the question. Spokane being undoubtedly the central point of all the north-western mineral states as well as the great Kootenay country of B. C., it was thought presumption on our part to aspire to the district trophy.

Faith in the movers of the project, however, was undaunted, and money was raised to send the exhibit and with it Mr. J. W Westfall, Lardeau's well-known mining man.

Well, the result is known. We got it—the silver cup—the only trophy given by the Interstate Fair management of Spokane, and it was awarded to Trout Lake mining division for the best exhibit of ores from any one district.

The value of the exhibit was greatly enhanced by the presence of Mr. Westfall, who stayed with it day and night giving information to all enquirers relative to the district. We are informed that all through the fair a crowd could always be found gathered around, looking for information of the country that could produce such an excellent showing. Many who never heard of the Lardeau before were amazed at the richness of its showings. As indicative of the value of the exhibit, it is stated on good authority that one company operating here sold in the neighborhood of $7,000 of stock. We are pleased to learn this, as we know the money will be handled to the best advantage in opening up this particular company's property.

The properties contributing to the exhibit were Silver Cup, Triune, Noble Five, I.X.L. (Swede), Winslow, Cromwell, Lucky Jim, Aralu, Fidelity, Old Gold, Nettie L., Baltimore, Copper Chief, Lucky Boy, Great Northern, Willow Grouse, Rambler, Bonanza, Pedro, Grand Solo, Linson View, Calumet and Hecla, Silver Bell, I.X.L. (Milloy) Lucky Jack.

A special prize was given to the Great Northern Mines Limited for the best gold specimens. These were from the Lucky Jack and Swede groups at Poplar.

Tuesday was pay day at the mill, and the mill company distributed over $2,000.

George Proulx leaves Monday morning for Nelson.

A. G. Fraser has an assortment of all kinds of bulbs.

Steve Woods is putting the finishing touches on Johnny Parisian's new residence.

J. R. Masterson, of Spokane, is paying a visit to his son Ed this week. Mr. Masterson says our mineral exhibit was highly spoken of at his home town fair.

Tom Levall says there are some pretty skookum mining men in Spokane who intend visiting the Lardeau next year to find out what all the racket is about.

The Hon. R. F. Green, Chief Commissioner of Lands and Works, will pay us a visit during the next two weeks. It is understood that he will be accompanied by Premier McBride. The local Conservatives are to have a meeting Friday night to arrange for their visit. A number of the faithful from the lower end of the riding will be on deck, and the prospects for a good old Conservative pow-wow are excellent.

If you want a good new or second hand piano, see Murray. He can give you any kind of terms. Best grades only handled. Agent for Gourlay, Winter and Leaming Company.

Mrs. (Dr.) Robinson, of Ferguson, was a visitor Wednesday.

Charlie Foote and Will Skinner have been out after big game this week. They bagged a fine caribou a week or two ago.

Holy smoke! what holy terrors some men are for fighting when the flowing bowl has been imbibed too freely. One misguided bruiser was a principal in seven scraps last week. He was well licked the first six, but still asking for more he ran up against "Jem Mace's sparring partner," who was knocked clean out. Seven was always a lucky number, but the hero of this paragraph is resting for alterations and repairs.

We appreciate the attention given to the gentle hint in our local columns of two weeks ago relative to the handling of the mail from Arrowhead to Beaton. It now arrives on time, so that letters requiring an answer by return can be attended to. Thanks, Mr. Dudgeon, of the Bowman Lumber Co.

Mrs. D. Kennedy and family left this morning for Fernie to join Mr. Kennedy.

Judge Miller, who has been laid up with an attack of typhoid, at Seattle, is now able to be about. Judge says his "bay window" has been reduced by over 25 pounds.

The Spokane Falls Placer Co., who are operating on Lardeau creek, are paying their workmen every Saturday night, an example which might be copied by others.

M. J. O'Brien, of the Revelstoke Wine and Spirit Co., and E. Ferguson of Nelson, were visitors during the week.

Al. Houston has taken charge of the dressmaking department at at Fraser's. His old friends will find him busy at the sewing machine in this popular store.

Alex. Oliver left Wednesday for Seattle, where he will spend the winter.

Leslie Hill of the Canadian Timber and Sawmills, Ltd., came up from Nelson Monday night. Arrangements are being made to build a new planing mill, the present one not being adequate to handle the product of the sawing plant. The timber will be taken out at once for the new building. A large amount of lumber is now on hand and will be shipped at an early date.

Alexander Robinson, Superintendent of Education, came in on Monday night. He visited Ferguson school on Tuesday and returned to the Lake well pleased with the work of Miss Isabel Henderson who has charge. At Trout Lake he spent some time with the scholars, and he expressed himself as highly pleased. In speaking with the Review he said that it was more to get an idea of the country and its possibilities than to examine the schools that he was making his trip From what he learned of this district he thought its possibilities were great.

BEATON.

Mr. and Mrs. Wilder, of Beaton, left this week for Winlaw, B.C.

Ed. Hillman and Malcolm Beaton have a crew of 35 men in the woods getting out timber for the Bowman Lumber Co. That inimitable handler of the ribbons, Jim Graham, is kept busy

---

The Mammoth made a shipment of 400 sacks of ore during the week to Trail smelter.

D. Z. McLennan is going to open up a general store at Beaton. A full line of new goods will be put in and sold at the right prices.

Druggist Campbell, of Camborne, leaves this week for Arrowhead, where he expects to go into business.

Fred Fraser, inspector under the Cattle Act, paid Beaton a visit on Monday. He still carries his appetite.

Mrs. McKinnon, of Camborne, is a Trout Lake visitor.

Between getting his wood pile ready for snow and his pantry filled with duck, host Billy Boyd is kept busy.

Some More Reasons Why.

POPLAR CONTRIBUTOR SAYS DEPRESSION IS DUE TO CROOKED WORK OF SOME COMPANIES' OFFICERS AND AND SUGGESTS A REMEDY.

[To the Editor.]

Being one of your readers, I missed very much a continuation of the "Reasons Why" in your last week's issue. I realize that there have been errors made by us all, and it is a good time to discuss and discover where we have made our mistakes.

The prospector and claim owners have in the past kept capital out by holding out for a big price and practically cash terms. They are now, however, seeing their mistake, and are willing to dispose of their holdings on more reasonable terms.

What I think, Mr. Editor, has done the most harm is the way in which a large number of the stock companies have manipulated their affairs. Stock companies are a necessity, and a good thing when worked legitimately. It is nearly impossible to get one, two, or three persons to put up the money necessary to make a mine out of a prospect, but the combination of many small capitalists working under an organized company allows small investments to be made which otherwise could not enter the mining field. Such organizations when formed should be so managed that the interests of the small investor be considerad to the same extent as the larger. As a general rule the promoters of such companies hold sufficient stock to control the company and the officers, and run the affairs to suit themselves. Quick money is looked for, and instead of mining the ground for the benefit of the stockholders, the small shareholders are mined for the benefit of the larger ones. Money which has been paid for stock, instead of going into the development of properties, finds its way into the pockets of the promoters. Of course, Mr. Editor, many of the stock companies operating, not only in the Lardeau, but throughout B. C., are doing good work, and their officers honestly carry out the work to the best advantage of all concerned. But it is an undeniable fact that there are many formed for no other purpose than to fleece the unwary. Small investors should always be careful to know thoroughly the men who are in control before putting their hard-earned money into shares of a company.

These matters are, however, adjusting themselves, and I feel satisfied that the depression we are now passing through has reached zero point, and that from now on the thermometer of prosperity will steadily rise.

POPLARITE.

Poplar creek, Oct. 17, 1905.

Jim O'Donnell had a brush with the grim reaper last Tuesday. During a trip to the Willow Grouse claim he fell over a bluff, and it appeared that he had gone to death, but he fortunately clutched some brush in his descent, and managed to crawl to a place of safety. As it was he was greatly scratched and bruised from his fall, but his many friends are congratulating him upon his narrow escape. Had he not caught the friendly brush it meant a sheer descent of 1,000 feet.

Geo. Lux, of the Model Ranch, at Beaton is dead stuck on Trout Lake. He was in yesterday to engage Andy Daney's powerful six horse team to haul the ranch here.

THE LARDEAU MINING REVIEW.

Is Printed at Trout Lake City, and Published at Ferguson and Trout Lake every Thursday

The Editor does not hold himself responsible for the opinions of correspondents expressed in its columns

All locals will be charged at the rate of 15 cents per line, first insertion, and 10 cents per line each subsequent insertion.

Terms for Transient and other advertising will be made known on application at office Subscription $2.00 a year, in advance.

IT WILL ADVERTISE TROUT LAKE MINING DIVISION.

The success of the Trout Lake mining division in securing the only trophy at the Spokane Fair will have a far-reaching effect.

Spokane is, practically speaking, the mining centre of the great North-West both of United States and Canada. The trophy was awarded to the best exhibit of ores from any district, and it goes without saying that the portion of the Lardeau represented by the Trout Lake division had to show the goods.

Exhibits were there from all of the mineral states in the North-West, and we are justly proud at having secured the prize.

As an advertising medium it will be an important factor in letting the world know what we have here, and the results are bound to be of lasting benefit.

As a field for investment the Lardeau cannot be beaten. It has a diversity of mineral, both lode and placer, second to none on the continent. Large bodies of low-grade, smaller ones of high-grade. Gold, silver, copper, lead, zinc and asbestos are to be found within its boundaries, and water and timber are in abundance. Wherever development has been done along business lines success has been the result.

TRAFALGAR DAY.

One hundred years ago on Oct. 21st, Lord Nelson met and decisively defeated the French fleet in Trafalgar Bay, and on Saturday next wherever the British flag floats, loyal subjects will do honor to the memory of Horatio Nelson, our national hero, whose dying words, "Thank God I have done my duty," will ever be remembered. The battle of Trafalgar was the closing epoch of the Napoleonic wars, and it marked the culmination of naval warfare lasting over two centuries. Drake's mantle fell on Nelson, and right worthily he succeeded and scoured the seas on board the Victory—and victory was his and ours. But in the triumphant effort of his life a stray shot laid him low, and the sweets of victory were marred by the grief of the people, as his death was felt in England as a public calamity. Historians tell us that the people of Britain grieved that funeral ceremonies, public ceremonies and posthumous rewards were all they could bestow upon him, him whom the king, the legislature, and the nation would have alike desired to honor; whom every tongue would have blessed; whose presence in every village through which he might have passed, would have wakened the church bells, have given schoolboys a holiday, have drawn children from their sports to gaze upon him, and 'old men from the chimney corner,' to look upon Nelson ere they died.

On the morning of 21st October, 1805, the signal floated from Lord Nelson's flagship, the Victory:

> "England expects that every man this day will do his duty,"

and on Saturday next, all the world over, Britannia's loyal subjects will mourn our national hero "now at rest."

It is up to the new postmaster general to make a much needed change in the payment of salaries to postmasters in small towns and villages. If we are to get an efficient service the remuneration must be adequate to the services rendered. Post-masters in places like Trout Lake are supposed to be on duty 10 to 12 hours per day for a pittance which even a Chinaman would turn up his nose at.

Trout Lake Water Supply Co. Ltd.

By using Water supplied by this Company you are assured of absolute purity. Government Analysis to back up statements.

Hugh McPherson - - Supt.

It cost in the neighborhood of $100.00 to send our mineral exhibit to Nelson and Spokane in charge of a man who thoroughly knew his business. Figure out as a business proposition how much it would have cost a manufacturing concern to get the same amount of advertising in the Nelson and Spokane papers that we got free by virtue of winning the medals and cup. If advertising pays, and we must admit it does, we certainly did a good stroke of business in getting up the exhibit.

It cost the Mutual Life Co. $250.00 per diem for lunches for their force of clerks at their head office at New York, while many of the contributors to this amount were scrimping their families of the necessities of life to meet their premiums.

Tom Lawson's motives in his crusade against The Standard Oil and "Big Three" insurance companies might not be pure, but the public are going to benefit just the same. The adage, "When rogues fall out honest men get their due," is old, but very, very true.

Listen more than you talk, especially about investments. When you are listening you are not telling on yourself, and you are flattering the other fellow who is. See?

CANCELLATION OF RESERVE

COAST DISTRICT.

NOTICE is hereby given that the reservation, notice of which was published in the B.C. Gazette, and dated 9th August, 1901, covering a belt of land extending back a distance of ten miles on each side of the Skeena River between Kitsilas Canyon and Hazelton, is cancelled.

Notice is also given that that portion of the reservation, notice of which was published in the B.C. Gazette and dated 27th December, 1899, covering a belt of land extending between the mouth of Kitimat river and Kitsilas Canyon, is rescinded in so far as it covers land lying between the Kitsilas Canyon and a point in the Kitimat Valley, distant ten miles in a northerly direction from the mouth of Kitimat River, and that Crown lands thereon will be open to sale, pre-emption and other disposition under the provisions of the Land Act, on and after the eighth (8th) day of December next: Provided that the right of way of any railroad shall not be included in any lands so acquired.

Where located: On Silver Cup mountain, about 1½ miles from Silver Cup mine.

Take notice that I, Frederick Charles Elliott, F.M.C. No. B88042, acting as agent for Charles L. Copp, F.M.C. No. B83186, Charles McNicholl, F.M.C. No. B78011, and John W. Westfall, F.M.C. No. B87964, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of Certificate of Improvements.

Dafed this 11th day of Aug. A.D. 1905.

18-8-1905.

When looking for a place to spend your holidays, bear in mind that Trout Lake is an ideal summer resort. The scenery and climate are magnificent

TROUT LAKE CITY

THERE have been fortunes made by judicious investment in Real Estate, and more fortunes will be made than ever the next two or three years. The one who reaps the harvest is the original investor, for he has his money on a certainty.

Now let us point out to you that there is no better spot on the Continent to buy Real Estate than TROUT LAKE.

Trout Lake is the prettiest spot in the Kootenays; as a pleasure resort it has no equal. Boating and fishing may be indulged in the year round; while big game in abundance is to the found on the hills. Its climate is superb, there being no great extremes, it being mild in winter and cool in summer. It can boast of some of the finest hotels and residences in British Columbia. Its streets are well laid out and graded. There are two excellent general stores, and a glance at the advertisements in this journal will show that all trades are fairly well represented. Write with confidence to Agents.

Then call on or write to

IT has never had a 'boom"—its growth has been steady. It is the head of navigation, and the terminal of the Lardo branch of the C.P.R. All roads (in the Lardeau) lead to Trout Lake. It is the commercial centre of the richest mineral district on the continent, and has banking facilities provided by the Imperial Bank of Canada; first-class school accommodation under the direction of S. Shannon, B.A.; a good water system; government offices; County Court sittings; Methodist Episcopal and Anglican churches and cottage hospital.

There are valuable ranch lands on the outskirts awaiting settlers. Its lumber resources are magnificent, and a band saw mill with a capacity of 60,000 ft. per day is at the head of the lake. The mines tributary are proving out bigger producers every year, with new prospects opening up rich bodies of ore.

There will be a big rush this summer, so if you would know more, write at once to either of the agents at the addresses below.

NOTICE TO CO-OWNERS.

To James Grant, or to whomsoever he may have transferred his interest in the Cromwell mineral claims.

Take notice that we, the undersigned co owner with you in the Cromwell mineral claim, situate on head of Brown creek, in Trout Lake mining division of W. Kootenay, have performed the necessary work and made the necessary expenditure on above-mentioned claim for the years 1904-1905, in order to hold the same under section 24 of the Mineral Act, and the year for which said work was performed having expired, I hereby give you notice that if within 90 days from the first publication hereof you fail or refuse to contribute your proportionate share of such expenditure and pay the cost of this advertisement your interest in the said mineral claims you become the property of the undersigned under and by virtue of section 4 of the Mineral Act Amendment Act, 1900.

Dated this 18th day of October, A.D. 1905.
