Dear Sister:-

Well how have you been this winter and how is everyone at home. Have not heard from Bill for quite a while nor from anyone from around Shuswap.

The weather here has been fine until last Tuesday when it started to rain and it has been wet ever since.

The winter was not a very cold although everyone here thought it was. Spring came early but it stays very cool.

Have been plugging away at my studies and passed the examinations etc. This is

my last term here and expect to return to Canada at the end of June or early in July.

Have you heard from Moe Tan lately and where is he at.?

This term I am taking drafting, radio, and alternating current, armature winding and also mathematics. I am in Algebra V and am getting along very well with it.

How has Cy. been this winter have you heard from her lately?

I was out to a ball game last Sunday for the first time this season

There was a large crowd there and we saw a couple of good games between Milwaukee and Louisville, Kentucky.

Milwaukee has a large library which is housed in the same building as the museum.

I often go down for a supply of books which they let out for a week or two depending upon the kind of book it is.

There is also a large zoo here, not as large as the one in Chicago though. I have not been to Chicago for a visit yet, but hope to before I go back.

There is going to be a banquet given by the School of Engineering Radio Club on the 16th of this month. I belong to the Club but do not know if I will go to it.

Well Margaret I guess that about all the news I have so will close. Hope to hear from you soon and best regards to all  
From  
W.H.
