## Y.M.C.A. ENTERTAINS TWO HUNDRED AT BANQUET

### Clever Speakers Address Guests and Eulogize Association's Work---Library is Needed

The big event of the Y.M.C.A., to which everybody connected with the institution had been looking forward for the past month or two with hopes of success, came off last night, and the facts that there were between 150 and 200 present and that everybody was pleased with the entertainment provided, are proof that the annual banquet was an unqualified success.

A splendid repast furnished by the Ladies' Auxiliary to the Y.M.C.A., was followed by very interesting speeches by as varied an array of oratorical talent as could be hoped for, and the many and various topics of discussion were dealt with in a masterly manner. The good work of the Y.M.C.A. was eulogized from beginning to end, and many compliments were handed out to the local management and the public for their support of the worthy object.

Mayor Hamilton presided and acted as toast master in a very able manner. In rising to propose the toast to "Our Guests", he thanked the management for the honor they had conferred upon him in selecting him as chairman of the banquet. Briefly he described the progress of the Y.M. C. A. since its first inception here in 1905. Public subscriptions to the amount of $12,000, had been augmented a year later by the C. P. R. offering to pay the salary of a secretary. Three years later the railway had come forward with a free gift of light and fuel to the institution, and now, recognizing the benefits derived from the existence of such an institution in a railway town, the C.P.R. had set aside a sum for such buildings in railroad towns.

The fact tnat the institution is self sustaining, and that no grants were asked, was a matter for much congratulation, he thought, and everybody should feel proud of the Y.M.C. A. and its work. Revelstoke Y. M. C. A. was the first instituted in the interior and with a membership of 300 it has set a pace that was hard to overtake.

Mr. T. Kilpatrick in responding to the toast greatly appreciated the local support which had been given the maintenance of the institution. He was proud of the assistance given by the ladies, and rejoiced in seeing so many young and capable men devoting their entire lives to this most worthy work. If a young man is started right, he said, it was very seldom he deviated from that path. Revelstoke was the parent institution in the interior from which there had been many an offspring. Better service was always given where the institution was not run as a boarding house. If the object was not to make money but simply to break even the tendency was to give better service. He would recommend more sleeping accommodation for the local institution and an addition to the building, this more particularly for rooms and roomers.

Mr. J. M. Dudley, speaking of the Association progress, said he was amazed at what had transpired within the past five years. The record in buildings was something the Association could congratulate itself on. Four years ago he had travelled from Montreal to Revelstoke and had not run across one Railroad Y.M.C.A. till he got to Revelstoke. There were many city associations, but no railroad institutions. Now they were at Chapleau, White River, Schriber, Ignace, and Kenora, and last week the seventh railroad Y.M.C.A. was opened at Cranbrook. The C. P. R. had donated $175,000 in property to the Y.M.C.A. and the prospects were fine for more. This road was the pioneer in contributing to this institution, but now there is scarcely a road but is following its example.

The Pennsylvania Railroad, which is generally conceded to be the standard railroad of America, he said, had torn down forty buildings and used four blocks for its most handsome station, and had appropriated property with a rental value of $50,000 a year for Y.M.C.A. purposes. Here it had erected most elaborate quarters.

The C.P.R. has Y.M.C.A. men working all along the line of the G. T. P. who are doing excellent work. Working men come to them in time of trouble and seek their counsel.

In membership Mr. Dudley said the Y.M.C.A. was rapidly making progress. Its rooms were crowded and at Kenora the bowling alleys had to be used for sleeping apartments. The progress of the institution he said was measured by the extent to which the men and women of the community offered themselves to make it a success, and he was proud to know that Revelstoke had the good will of an ever increasing number. In Mr. Kilpatrick he was sure the Y.M.C.A. had a good friend and one willing to do all in his power to make it a success.

Mr. W. W. Foster in proposing the toast to our interests assured Mr. Graham and Mr. Dudley that while they may visit larger institutions, in no other place would they receive as warm a welcome as in Revelstoke. He was pleased to have a chance to address the gathering as it was possibly the last opportunity he would have of doing so as a private citizen of Revelstoke for some time. He considered the Y.M.C.A. a most worthy and needed institution here. Since its arrival on the scene the moral tone of the railroad men had been considerably bettered. Since its coming railroad officials say that only the highest class of railroad employees run out of Revelstoke. This he attributed to the excellent opportunities afforded for the employment of leisure hours in the Y.M.C.A.

J. P. Forde followed in eulogies of Messrs. Howson and Foster for their

After the fiest four innings Joe. Howson, F. Young and C. Urquhart, will be called from the bench to perform in the outfield, and after the baseball match a lacrosse game will be played between two picked teams. The baseball game will be called sharp at 1.30.

## THREE YEARS IN JAIL

### Heavy Sentences Meted Out to Perpetrator of Burglaries

Fred Williams, the man arrested in connection with the burglary of McKinnon & Sutherland's store, and also that of the Revelstoke General Agencies Music store, was brought before Magistrate Foster on Monday, and being convicted on both charges, was sentenced to two years in Kamloops jail on each charge, the sentences to be served concurrently.

On two other charges of theft of goods from the private rooms of guests in local hotels, Williams was also sentenced to serve six months apiece on each charge, making in all a total of three years.

Williams is conceded to be a well known crook who has on several occasions done time. On March 27th, of this year he was released from Kamloops jail after serving a term of six months for theft.

## C.P.R. AND MECHANICS ARE NOT YET AGREED

### Strike Not an Improbable Thing of the Future---Real Questions Are Evaded

Winnipeg, April 8.—All hope of a friendly and amicable adjustment of the differences between the mechanics of the Canadian Pacific and the company appear to have been given up by the men and the only question at issue now appear to be whether the employees will ask for a board of conciliation to consider the matter or take the situation in their own hands and strike without the intervention of the board.

A singular feature of the present impasse consists in the fact that the two parties to the contract have never got down to any consideration of wages or zonditions of work, which are supposed to be the real questions to be dealt with.

When the representatives of the men met the company to go into the matter a few weeks ago, they suggested certain methods of procedure. These were apparently of a new nature, such as had no precedent. The officials of the Canadian Pacific were unwilling to take up the consideration of the issue in the manner and methods suggested by the men, and the discussion of the schedules were hung up at that point.

This is still the trouble today. Representatives of the men, interviewed this morning, were reluctant to give information regarding the difficulty, but it was stated that the difficulties between the men and company which prevented any discussion of rates of pay and conditions of labor was one connected with the method of procedure.

Chairman Frank McKenna, the president of the allied trades of the Canadian Pacific on western lines, who has been in the city for several weeks looking after the interests of his fellow employees and James Somerville of Moose Jaw, who for a number of years has been prominently connected with the men, expected that after today there would be nothing left for them to do in Winnipeg and that all the possibilities of the case had been exhausted. Arrangements were made this morning that they and the other three members of the executive should depart and unless the unexpected happens all the members of the executive will leave for their homes tonight.

## EXPENSIVE EDUCATION

### Nelson's Cost the Greatest, Revelstoke a Close Second

At the suggestion of Mayor Selous, W. E. Wasson, city clerk, has been amassing statistics on the cost of primary education in British Columbia. From the latest government report, he has worked out the cost per child of school maintenance for a year in cities of the second class, the result of his labors being the following table:

| | No. of teachers | Av. daily attendance | Total cost | Cost per head |
|---|---|---|---|---|
| Grand Forks | 8 | 272 | $11,282 | $41.47 |
| Ladysmith | 10 | 370 | 10,160 | 27.46 |
| Nanaimo | 20 | 743 | 21,969 | 29.48 |
| Nelson | 15 | 518 | 23,532 | 45.44 |
| Revelstoke | 13 | 439 | 18,827 | 43.05 |
| Rossland | 13 | 474 | 16,647 | 35.12 |
| N. Vancouver | 7 | 295 | 8,417 | 27.90 |
| Vernon | 9 | 292 | 10,563 | 36.17 |

This is the table on which Mayor Selous based his remark that in the matter of providing costly education Nelson enjoyed a proud preeminence.

According to the table, Nanaimo has the largest school population of the cities of the second class, and the largest teaching staff. Nelson has the largest aggregate expenditure and the largest cost per capita.

Unless there is more than ordinary increase in the number of pupils in the Nelson schools this year the 1911 cost per capita is due to make quite an advance over 1910, as the estimates call for $30,000, whereas last year's expenditure was $23,539.—Nelson News

## COUNCIL MAKES ITS OFFER

### Moves to Pay Newman $2,565.37 as Final Settlement

The city council at a special meeting passed the following motion unanimously tendering Mr. Newman the sum of $2,565.37 in full as settlement of his claim against the city in connection with the construction of the power dam. The sum of $5,025.35 is the city's claim against him for alleged damages during the non-operation of the plant during construction, and the $1,000 surety spoken of is to ensure the completion of alleged discrepancies in the work at the dam.

Moved by Ald. McKinnon, seconded by Ald. Abrahamson, that Wm. Newman & Company be tendered payment of the amount as per engineers final estimate together with the following sums:—

Mrs. D. M. Rae will not receive on Wednesday next, April 12th.

Mrs. F. W. Laing will not receive Wednesday nor again this season.

This week the Bridge Club met at the home of Mrs. Holten, Miss Gillan winning the prize.

Mrs. J. E. Taylor will receive on Wednesday next April 18th for the last time before returning to England.

Mrs. J.E. Taylor was a bridge hostess on Thursday afternoon, entertaining at four tables. The prizes being won by Mrs. Gibson and Mrs. Tomlinson.

Last night Mrs. McCarter gave a very delightful young people's party. After an enjoyable game of "500", dancing was indulged in. The prize winners were Miss Robinson, Mr. Cronyn and Mr. Moore.

McLennan's new store was on Thursday evening the rendevouz of all the devotees of Dame Fashion, it being the occasion of the Easter opening of this emporium of fashion. The bright clean interior, decorated as it was with the latest creations in woman's wear and enlivened by the strains of music from Reed's harp orchestra, was visited between the hours of seven and ten-thirty p. m. by hundreds of fashionably dressed women with a fair sprinkling of the sterner sex. Incidentally the store's enterprise resulted in a material swelling of the firm's receipts for the day.

## GUN CLUB MEETS

### Wednesday of Each Week will be Regular Practice Day

An executive meeting of the Revelstoke Gun Club was held at the Revelstoke Club on April 7th, President Barber in the chair. There were present Messrs. Mulholland, Devine, Sutherland, Sturdy, Munro, and McDonell.

It wae decided that Wednesday of each week be regular practice day and that shooting commence at 4:30, except the first week when the shoot will be held on Good Friday at four o'clock. This will be the first button shoot of the season.

The secretary was instructed to secure a boy for the season to do the trapping.

The price of targets will be one and one-half cents the same as last year.

It was decided that the membership fee be $5, that the club be divided into two classes A and B, and that appropriate buttons will be secured, also that the shooting season start on Good Friday and end the last Wednesday in August.

The button awards will be decided by the highest aggregate of the best ten shoots during the season.

It was moved by Sturdy, seconded by Devine and carried, that the club purchase their targets direct, thereby getting club rates.

About twenty members have expressed their desire to shoot, and this should be the banner year in the club's history.

The big annual shoot will likely be held some time in July, when shooters will be here from all over the country. The president, Mr Barber, has kindly offered to put up a handsome medal to be competed for at the annual shoot.

## Y.M.C.A. ENTERTAINS TWO HUNDRED AT BANQUET

### Clever Speakers Address Guests and Eulogize Association's Work---Library is Needed

The big event of the Y.M.C.A., to which everybody connected with the institution had been looking forward for the past month or two with hopes of success, came off last night, and the facts that there were between 150 and 200 present and that everybody was pleased with the entertainment provided, are proof that the annual banquet was an unqualified success.

A splendid repast furnished by the Ladies' Auxiliary to the Y.M.C.A., was followed by very interesting speeches by as varied an array of oratorical talent as could be hoped for, and the many and various topics of discussion were dealt with in a masterly manner. The good work of the Y.M.C.A. was eulogized from beginning to end, and many compliments were handed out to the local management and the public for their support of the worthy object.

Mayor Hamilton presided and acted as toast master in a very able manner. In rising to propose the toast to "Our Guests", he thanked the management for the honor they had conferred upon him in selecting him as chairman of the banquet. Briefly he described the progress of the Y.M.C. A. since its first inception here in 1905. Public subscriptions to the amount of $12,000, had been augmented a year later by the C. P. R. offering to pay the salary of a secretary. Three years later the railway had come forward with a free gift of light and fuel to the institution, and now, recognizing the benefits derived from the existence of such an institution in a railway town, the C.P.R. had set aside a sum for such buildings in railroad towns.

The fact that the institution is self sustaining, and that no grants were asked, was a matter for much congratulation, he thought, and everybody should feel proud of the Y.M.C. A. and its work. Revelstoke Y. M. C. A. was the first instituted in the interior and with a membership of 300 it has set a pace that was hard to overtake.

Mr. T. Kilpatrick in responding to the toast greatly appreciated the local support which had been given the maintenance of the institution. He was proud of the assistance given by the ladies, and rejoiced in seeing so many young and capable men devoting their entire lives to this most worthy work. If a young man is started right, he said, it was very seldom he deviated from that path. Revelstoke was the parent institution in the interior from which there had been many an offspring. Better service was always given where the institution was not run as a boarding house. If the object was not to make money but simply to break even the tendency was to give better service. He would recommend more sleeping accommodation for the local institution and an addition to the building, this more particularly for rooms and roomers.

Mr. J. M. Dudley, speaking of the Association progress, said he was amazed at what had transpired within the past five years. The record in buildings was something the Association could congratulate itself on. Four years ago he had travelled from Montreal to Revelstoke and had not run across one Railroad Y.M.C.A. till he got to Revelstoke. There were many city associations, but no railroad institutions. Now they were at Chapleau, White River, Schriber, Ignace, and Kenora, and last week the seventh railroad Y.M.C.A. was opened at Cranbrook. The C. P. R. had donated $175,000 in property to the Y.M.C.A. and the prospects were fine for more. This road was the pioneer in contributing to this institution, but now there is scarcely a road but is following its example.

The Pennsylvania Railroad, which is generally conceded to be the standard railroad of America, he said, had torn down forty buildings and used four blocks for its most handsome station, and had appropriated property with a rental value of $50,000 a year for Y.M.C.A. purposes. Here it had erected most elaborate quarters.

The C.P.R. has Y.M.C.A. men working all along the line of the G. T. P. who are doing excellent work. Working men come to them in time of trouble and seek their counsel.

In membership Mr. Dudley said the Y.M.C.A. was rapidly making progress. Its rooms were crowded and at Kenora the bowling alleys had to be used for sleeping apartments. The progress of the institution he said was measured by the extent to which the men and women of the community offered themselves to make it a success, and he was proud to know that Revelstoke had the good will of an ever increasing number. In Mr. Kilpatrick he was sure the Y.M.C.A. had a good friend and one willing to do all in his power to make it a success.

Mr. W. W. Foster in proposing the toast to our interests assured Mr. Graham and Mr. Dudley that while they may visit larger institutions, in no other place would they receive as warm a welcome as in Revelstoke. He was pleased to have a chance to address the gathering as it was possibly the last opportunity he would have of doing so as a private citizen of Revelstoke for some time. He considered the Y.M.C.A. a most worthy and needed institution here. Since its arrival on the scene the moral tone of the railroad men had been considerably bettered. Since its coming railroad officials say that only the highest class of railroad employees run out of Revelstoke. This he attributed to the excellent opportunities afforded for the employment of leisure hours in the Y.M.C.A.

J. P. Forde followed in eulogies of Messrs. Howson and Foster for their

After the fiest four innings Joe. Howson, F. Young and C. Urquhart, will be called from the bench to perform in the outfield, and after the baseball match a lacrosse game will be played between two picked teams. The baseball game will be called sharp at 1.30.

## THREE YEARS IN JAIL

### Heavy Sentences Meted Out to Perpetrator of Burglaries

Fred Williams, the man arrested in connection with the burglary of McKinnon & Sutherland's store, and also that of the Revelstoke General Agencies Music store, was brought before Magistrate Foster on Monday, and being convicted on both charges, was sentenced to two years in Kamloops jail on each charge, the sentences to be served concurrently.

On two other charges of theft of goods from the private rooms of guests in local hotels, Williams was also sentenced to serve six months apiece on each charge, making in all a total of three years.

Williams is conceded to be a well known crook who has on several occasions done time. On March 27th, of this year he was released from Kamloops jail after serving a term of six months for theft.

## C.P.R. AND MECHANICS ARE NOT YET AGREED

### Strike Not an Improbable Thing of the Future---Real Questions Are Evaded

Winnipeg, April 8.—All hope of a friendly and amicable adjustment of the differences between the mechanics of the Canadian Pacific and the company appear to have been given up by the men and the only question at issue now appear to be whether the employees will ask for a board of conciliation to consider the matter or take the situation in their own hands and strike without the intervention of the board.

A singular feature of the present impasse consists in the fact that the two parties to the contract have never got down to any consideration of wages or zonditions of work, which are supposed to be the real questions to be dealt with.

When the representatives of the men met the company to go into the matter a few weeks ago, they suggested certain methods of procedure. These were apparently of a new nature, such as had no precedent. The officials of the Canadian Pacific were unwilling to take up the consideration of the issue in the manner and methods suggested by the men, and the discussion of the schedules were hung up at that point.

This is still the trouble today. Representatives of the men, interviewed this morning, were reluctant to give information regarding the difficulty, but it was stated that the difficulties between the men and company which prevented any discussion of rates of pay and conditions of labor was one connected with the method of procedure.

Chairman Frank McKenna, the president of the allied trades of the Canadian Pacific on western lines, who has been in the city for several weeks looking after the interests of his fellow employees and James Somerville of Moose Jaw, who for a number of years has been prominently connected with the men, expected that after today there would be nothing left for them to do in Winnipeg and that all the possibilities of the case had been exhausted. Arrangements were made this morning that they and the other three members of the executive should depart and unless the unexpected happens all the members of the executive will leave for their homes tonight.

## EXPENSIVE EDUCATION

### Nelson's Cost the Greatest, Revelstoke a Close Second

At the suggestion of Mayor Selous, W. E. Wasson, city clerk, has been amassing statistics on the cost of primary education in British Columbia. From the latest government report, he has worked out the cost per child of school maintenance for a year in cities of the second class, the result of his labors being the following table:

| | No. of teachers | Av. daily attendance | Total cost | Cost per head |
|---|---|---|---|---|
| Grand Forks | 8 | 272 | $11,282 | $41.47 |
| Ladysmith | 10 | 370 | 10,160 | 27.46 |
| Nanaimo | 20 | 743 | 21,969 | 29.48 |
| Nelson | 15 | 518 | 23,532 | 45.44 |
| Revelstoke | 13 | 439 | 18,827 | 43.05 |
| Rossland | 13 | 474 | 16,647 | 35.12 |
| N. Vancouver | 7 | 295 | 8,147 | 27.90 |
| Vernon | 9 | 292 | 10,563 | 36.17 |

This is the table on which Mayor Selous based his remark that in the matter of providing costly education Nelson enjoyed a proud preeminence.

According to the table, Nanaimo has the largest school population of the cities of the second class, and the largest teaching staff. Nelson has the largest aggregate expenditure and the largest cost per capita.

Unless there is more than ordinary increase in the number of pupils in the Nelson schools this year the 1911 cost per capita is due to make quite an advance over 1910, as the estimates call for $30,000, whereas last year's expenditure was $23,539.—Nelson News

## COUNCIL MAKES ITS OFFER

### Moves to Pay Newman $2,565.37 as Final Settlement

The city council at a special meeting passed the following motion unanimously tendering Mr. Newman the sum of $2,565.37 in full as settlement of his claim against the city in connection with the construction of the power dam. The sum of $5,025.35 is the city's claim against him for alleged damages during the non-operation of the plant during construction, and the $1,000 surety spoken of is to ensure the completion of alleged discrepancies in the work at the dam.

Moved by Ald. McKinnon, seconded by Ald. Abrahamson, that Wm. Newman & Company be tendered payment of the amount as per engineers final estimate together with the following sums:—

| | |
|---|---|
| Re Electric Light | $126.05 |
| Re Board | 11.25 |
| Re Rope | 36.00 |
| Re Lumber | 18.42 |

Less the city's claim of $5,025.35 and for freight and lumber as per account $374.35. Balance to Wm. Newman & Co., $2,565.37, and that the said balance of $2,567.37 be paid over to Wm. Newman & Co. upon their giving suitable release under seal of and for all claims and demands growing out of the contract, and upon Wm. Newman & Co. satisfying us that all their accounts in connection with the work are paid or satisfactorily arranged, and upon Wm. Newman & Co. substituting suitable bond with approved sureties in the sum of $1,000 as recommended by our engineers for the completion of the work, their marked cheque held as security for due performance of the contract be released. If the terms of this resolution be not accepted by the contractors the city to stand on its full rights whether for damages or otherwise under the contract.

# The Mail Herald

WEDNESDAY, APRIL 12, 1911.

Chief Parry, who by the way is also Sanitary Inspector, has given notice that within the next thirty days all back yards, lanes and disease-breeding receptacles must be cleaned up to his satisfaction, and Alderman Abrahamson respectfully suggested to the city council that the city should have a regular and authorized clean-up day. The notice given by Chief Parry is in conformation with a by-law of the city which reads in part as follows:—

"No owner, tenant or occupant of land, house or premises within the city limits shall suffer the accummulation upon his or her premises, or deposit or permit to be deposited, upon any premises belonging to or occupied by him or her, of anything which may endanger the public health or deposit upon or into any street, square, lane or byway, creek, pond, or bank, any dead animal, fish, dirt, rubbish, excrement, dung, manure, offal or other refuse or vegetable or animal matter, or other filth or offensive thing."

During the winter months the temperature is such that the deposit of such refuse adjacent to dwellings is not regarded as particularly offensive, and anyway the depth of the snow is such as preclude the possibility of disposing of such refuse any other place. But now that the roads are all opened up and lanes and back yards are beginning to show up their filth and proclaim themselves in offensive smells, some determined effort should be made to clean these places up without any necessity of the sanitary inspector calling the attention of the owners of property to the condition of affairs as they exist. It is in the interests of themselves, their neighbors, and the city at large that every back yard and lane should be cleaned up at once, not waiting for the expiration of the thirty days before this is done. Alderman Abrahamson made a good suggestion when he brought forward the question of a regular clean up day. All his colleagues, including the Mayor coincided with his views, knowing that such a day is almost absolutely essential. This day should come somewhere within the next thirty days. Chief Parry's declaration that the yards must be cleaned up within the next thirty days is tantamount to saying that anybody refusing to do so is liable to a penalty for disregarding orders issued according to the bylaw. Proclaiming a regular clean up day after this would to a certain extent be annulling Chief Parry's instructions, and in brief would be granting an extension of time for such purposes. The city council has just come thru' a sad experience brought on themselves by granting one extension of time, and while the two cases are not by any means analagous yet the council should consider the matter very seriously before in any way annulling Chief Parry's instructions by declaring a clean up day after the thirty days have expired. Anybody not cleaning up during the next preceding thirty days after April 8th, is liable to a penalty for not doing so.

The Mail-Herald strongly favors a clean up day as suggested by Alderman Abrahamson, and as carried out in other cities surrounding us, and that day should come within the next thirty days. If the city council is in any way doubtful as to its powers in ordering the observance of such a day, or ignorant as to how it should be carried out, we would respectfully suggest that the mayor instruct his clerk to get into communication with Mayor Mitchell of Calgary and find out just how the day is observed there. Mayor Mitchell is a dapper little gentleman who would courtesously extend every information on the subject at his disposal.

In any case the terms of the City Health Bylaw should be rigidly enforced for the purposes of the prevention of disease and epidemic.

---

This week the Saturday Sunset was taxed five cents damages in a libel suit. So long as the price of characters remains at five cents newspapers can afford to tell the truth. When characters ran from $1 to $1000 it was dangerous to speak out. Some years ago the Colonist was taxed $1 for an alleged libel of a baronet. If he had been a well-belted earl the verdict would probably have been $1.17. Taking into consideration the established price for the character of a baronet, the plaintiff in the Sunset case did well.—Slocan Record.

---

While it is generally conceded that the increase in the price of Crown lands as instituted by the Government last week is justified by values, and that the change is in the public interests, there would seem to be some phases of it at least that cannot be considered as good business. Applications had been made for lands and had been formally accepted by the Government at the former low prices, a deposit had been paid in, and this in the business world constitutes a bargain. But before the land is turned over a raise is made in the price and the purchaser is asked either to accept the new regulations or forfeit any interest in the land for which he or she had made application. Nobody objects to the raise in price—that is as it should be—but before such a change in the regulations was made some reasonable measure of public notice should have been given and the regulations should have been only applicable to new applications to purchase and not made restrictive as has been done. All applications were made in good faith and in a measure it is shaking the confidence of the people in the government to bring on such changes in the regulations without this due notice being given.

SUCCESSFUL CAMPAIGN.

Guelph, April 10.—The campaign to raise $50,000 for a new Y.M.C.A. building in this city and inaugurated two days ago has been successful beyond all expectations. After a two days' canvass $341,700 has been raised and at a meeting of the Y.M.C.A. held today it was decided to make the objective $65,000, instead of $50,000 the increase to be subject to the approval of the Executive committee.

THE TREND OF TRADE.

Montreal, April 10.—Because of an increased flow of immigration from Continental ports to Western Canada and an increase in the use of the St. Lawrence route by continental passengers travelling to points in the Western States, two steamers of the Red Star line have been transferred, and will ply between Rotterdam and Quebec instead of between Antwerp and New York as hitherto.

They are the Samland and the Gothland, and will be included in the Canada line service.

Increases to the fleets of the White Star—Dominion, the Thompson line, and the Allan line have also been announced. Peculiarly enough in almost every instance the vessels are being taken from the New York trade to the St. Lawrence—a small fact itself, but showing plainly in which way the wind is blowing.

## THE THEATRES

IL TROVATORE COMING.

A magnificent attraction which marks the highest standard of moving picture productions, says the Vancouver Province, was seen here March 6th, was a colored art film from the Pathe Company being an adaptation of the famous opera "Il Trovatore." The scenes of which there are a great number, are carefully selected and have the striking advantage over the usual stage settings, in that they have natural backgrounds thereby adding greatly to the realistic effect desired. The roles in the play are taken by eminent Italian actors and actresses, and it is said that no finer acting than that of Francesca Bertini in the character of Leonora has ever been seen. This masterpiece of photographic art and stage production is as far in advance of the average modern photography as the latter is to first attempts in moving photography. The story is a popular one and at the same time a classic. The settings to the scenes will amaze by their marvellous detail while the coloring sheds a lustre over the whole thereby creating a magnificent picture. A special musical arrangement of the opera score to suit the play has been provided and will be interpreted by an augumented orchestra making ten pieces in all. This departure can surely be classed as the greatest advance step yet taken in the moving picture business. The price of admission is the same.

This spectacular hand painted production will be at the Edison theatre tonight and tomorrow night.

---

CHEVALIER COMING.

Arrangements have now been definitely completed by which Albert Chevalier, the greatest character actor in the world and England's highest salaried artist, will visit Western Canada under the direction of Frederic Shipman. The tour, which will be a very limited one, will open at the Walker theatre, Winnipeg, on May 22nd, and will extend to Vancouver including only the larger points between these cities. Chevalier's coming may be regarded as a distinct event. Foremost among English-speaking actors, incomparable as a delineator of coster and cockney types, he occupies a position peculiarly and positively his own. The interest already shown and the great number of letters received by the management since the first announcement of Chevalier's prospective tour, satisfactorily demonstrates to Mr. Shipman that he is correct in his contention that nowhere in the English-speaking world will the people respond more readily for the great artist than in the Canadian West.

## WHISKY HOLDS ITS VICTIMS

**Until Released by Wonderful Samaria Prescription**

Liquor sets up inflammation and irritation of the stomach and weakens the nerves. The steady or periodical (spree) drinker is often forced to drink even against his will by his unnatural physical condition.

*Samaria Prescription stops the craving, steadies the nerves, builds up the general health and makes drink actually distasteful and nauseous.* It is tasteless and odorless, and can be given with or without the knowledge of the patient.

Thousands of Canadia homes have been saved from misery and disgrace by some devoted wife, mother or daughter through this wonderful Canadian remedy. The money formerly wasted in drink has restored happiness, home comforts, education and respect to the families formerly in want and despair.

Read the following, one of the numerous unsolicited testimonials received:

"I can never repay you for your remedy. It is worth more than life to me. My husband has been offered liquor several times, but would not touch it. He said it had no charm for him now. May God's choice blessings ever rest on you, and yours, are my prayers ever. No one knows it but those who have tried it. As soon as I can I will see others that I know would give anything to stop their husbands from drink. I will give them your address.

"Mrs. K——, Dewinton, Alta."

(Name withheld on request.)

Now, if you know of any family needing this remedy, tell them about it. If you have any friend or relative who has formed or is forming the drink habit, help him to release himself from its awful clutches. Samaria Prescription is used by Physicians and Hospitals.

**A FREE TRIAL PACKAGE** of Samaria Prescription, with booklet, giving full particulars, testimonials, price, etc., will be sent absolutely free and postpaid in plain sealed package to anyone asking for it and mentioning this paper. Correspondence sacredly confidential. Write to-day. The Samaria Remedy Co., Dept. 46-49, Colborne St., Toronto, Canada. Also for Sale by C. R. Macdonald, Druggist, Revelstoke, B. C.

## A WOMAN'S ADVICE TO WOMEN

TAKE GIN PILLS

TYNESIDE P.O., ONT.

"I received your sample of GIN PILLS and after using them, I felt so much better that I got a box at my druggist's, and now I am taking the third box.

The pain across my back and kidneys has almost entirely gone and I am better than I have been for years, I was a great sufferer from Rheumatism but it has all left me. I strongly advise all women, who suffer from Pain In The Back and Weak Kidneys, to try GIN PILLS. MRS. T. HARRIS.

Thousands of women, right here in Canada, owe their robust health, their strength and vigor, their bright eyes and rosy cheeks—to GIN PILLS. And they know that GIN PILLS will cure the Kidney and Bladder Troubles with which so many women suffer.

Do just as Mrs. Harris did—first, write for a free sample box of GIN PILLS and try them. Then, if they do you good, get the regular 50c boxes at your dealer's. Your money promptly refunded if GIN PILLS fail to give relief. National Drug and Chemical Co., Dept. W., Toronto. 64

CRICKET GOOD FRIDAY.

A cricket match has been arranged for Good Friday at 10 a.m., between Captain J. Maley's eleven and Sub-Captain F. Fleetham's eleven on the cricket grounds which are now in excellent shape. The Cricket club has received the new equipment of bats balls and all playing paraphernalia from the Old Country and all members are earnestly urged to attend this game and see a real good match This is the first of the season and a special effort should be made to show the interest taken in the game.

ROSSLAND ORGANIZES.

A great meeting of baseball players and fans was held at the Allan hotel parlors on Wednesday evening. Dan Thomas presided until the election of officers, which resulted as follows:—President, F. S. Peters; vice-president H. C. Bowers; secretary-treasurer, R. Anderson; manager M. J. Quigley; assistant-manager, W. Costello.—Rossland Miner.

MARATHON TALK.

Boston is all agog over the big Marathon gallop there this month, for which Tom Longboat holds the record, and which was last grabbed off by another Canuck in the person of Fred Cameron. And the Canadian entries are cutting a big figure this year, interest centering around Mike Thomas, the Prince Edward Island Indian, of whom Arthur Duffey remarks in The Post: Mike Thomas is being fancied stronger than ever. Many herald him as a second Longboat. If he is, there will be a new record, for I have always believed that Longboat could have bettered his performance. At any rate. Thomas has trained in the right way to win the grind, for already he is pugging the roads, and has as a trainer Jim McNeil, the old Scotch champion. The Indian runner is following in the footsteps of Freddie Cameron, last year's winner, but if he can duplicate the latter's win remains to be seen. If Thomas does not win he will at least have furnished the Beantown writers with a fine line of copy.

BILLIARDS.

The outstanding event in the billiard world this year is Gray's wonderful record break of 2,196 unfinished in England. This he made at the rate of about 7½ minutes for each 100 and the chief characteristic of the break was the Australian youth's calmness. Whilst the company present cheered itself hoarse over the beating of his old record (1,576) and the passing of the second thousand, Gray appeared undisturbed. He is a real marvel, and after he has had a few month's practice with ivory balls, it is almost a certainty that he will outclass the best of the English professionals, even as he now does with composite balls.

There is a lot of talk about a match between Gray and Stevenson, with ivory balls. The former suggests next September, whilst Stevenson wants to play in May. Gray will hardly take on the champion with ivory balls without some months' practice, so it looks as though there will be no match for some time, unless both concede something. A way out would be to play a match of 1,800 up, half with ivory and half with composite balls. Inman is also talking again, and Gray says he can have two matches, one with ivory and one with composite balls.

COBB'S WEAK SPOT.

Fred Falkenberg, the lanky twirler of the Cleveland Americans, says Ty Cobb's one alleged weak spot in hitting is an asset. It is said Ty can't judge a low curve. Falky doubts if Cobb has just that one defect, and he knows from experiences that Ty can hit a low curve just as effectively as a high ball, even though he doesn't hit it as hard.

"I played for Ty's weakness a couple of times," said Falky, "and came to the conclusion that it would be better to give him a kind of ball he hits hard, relying on outguessing him. Other pitchers say the same thing.

"A batter does not hit a ball squarely when he cannot judge it He just nips it. The balls Cobb just nips are the most dangerous ones. The ball rolls or bounds slowly, and his speed gives him dozens of hits on those slow infield taps. Cobb can hit anything, and his speed enables him to do the rest.

"The same is true of Eddie Collins, only he isn't quite as fast to first base as Cobb. I would rather have either of them hit the ball good and hard to rolling it in the infield."

Falky says there is more to outguessing good batters than playing for their weakness.

"The good batters do not have real weak spots," he said, "The only way to fool them is to outguess them. Take Larry Lajoie. He would hit close to .700 if he knew whether every ball would be over the inside or outside corner of the plate. The corners bother more than curves or speed. Larry would hit almost every ball pitched. Those that were not hits would go to the fielders. The other free hitters of the American league—Cobb, Collins, Speaker and Crawford—would bat almost if not as well."

DERBY WINNER LOST.

Many lover of horses, to say nothing of a vast army of racing men, sportsmen and other race track frequenters will probably remember that the great race horse Voloduvski won the English Derby in 1901. The animal is still alive, but under sentence of death. He is to be shot.

The sentence of death was pronounced by a woman, Lady Meux, who died recently. Volodyovski belonged to her and is at the horse breeding establishment at Theobald's Park, the historic residence at Waltham Cross which Lady Meux bequeathed to Sir Hedworth Lambton. By the provisions of her will the horse breeding establishment at Theobald's park is to be maintained until Volodyovski has reached an age when he can no longer be of service. Then the career of the famous race horse is to be quickly ended with a bullet through the brain. This is to be done at Lady Meux's request because she considered that to shoot the animal would be preferable to having it pass into other hands or to suffer it to linger on when overtaken by old age.

Lady Meux also directed in her will that all carriage horses and any dogs unfit for use or of no value are to be kept as pensioners or shot. For the maintenance of her pet dogs, numbering about a dozen, $1.25 each per week is provided.

EVERS FOR BASEBALL.

Johnny Evers, the willy second baseman of the Chicago Cubs, has decided to quit the shoe business and devote his full time to baseball. It appears that the "fans" like to see him cavort about second base, but do not care to buy his shoes.

COBB LOOKS BAD.

Tuthill, the trainer of the Detroit Tigers, is authority for the statement that Ty Cobb, who led the two major leagues in hitting last year, is in poor condition. He is heavy and slow, and lacks the ginger and speed that have made him famous on the diamond. Jennings, Tuthill and Cobb himself are said to be worried. The hard hitting outfielder has been training for three weeks, and suffers at times from a slight fever. Is it possible that another baseball star is setting? Probably not.

Cobb is now at French Lick Springs for medical treatment, but will join the team again at Indianapolis.

WOMAN WILL FIGHT.

Miss Marry Kelley is out with a challenge to wrestle any woman, and men are not barred, providing they do not tip the scales at more than 133 pounds. Miss Kelley is a Denver girl, nineteen years old, and weighs 133 pounds. She defeated May Ward for the so-called woman's wrestling title of the world in Denver about two months ago, throwing her opponent in eleven minutes. A few weeks later she wrestled Cora Livingston at a Bowery theatre in this city and secured a fall in less than three minutes, but the referee refused to allow it Miss Kelley also has victories over Jeanette Goldberg, whom she threw in a match at New Paltz, N. Y., in seven minutes, and Bessie Williams, from whom she won the state championship of Oklahoma in a bout that lasted fifteen minutes. Miss Kelley's manager will wager $1,000 that she can defeat any woman wrestler in the world.

MAY DAY STRIKES.

Montreal, April 10.—Agitations in the labor world usually head up and become ripe on the first of May of each year, and this year will be no exception. May Day is one great hurrah for the laboring man with socialistic tendencies and a real or imaginary grievance. He waves the red flag, listens to red hot oratory, and retires to rest with a pair of red eyes and a burning throat. The next morning he is on the job again with a clear conscience, feeling that he has done his duty by society and relieved his system of a year's pent up bile. The coal miners strike in the west is of course the great topic of conversation in labor circles here, other predicted strikes being merely local.

On April 19th Miss Jessie McLachlan the peer of Scottish singers will appear in the Edison theatre accompanied by a talented group of singers including Mr. Craighill Sherry, the Scottish humorist. Miss McLachlan is now at her best and after return engagements wherever she has appeared in this last entourage, the press notices give flattering accounts of her performances. She will be here one night only, April 19th.

Beginning with a matinee on Good Friday the Edison theatre will exhibit that interesting picture of slavery days "Uncle Tom's Cabin," and the same program will be repeated Friday and Saturday nights. This picture is conceded to be one of the most realistic ever produced, as its pictures are all taken on a large scale from outdoor scenes. The expense in this connection has been enormous, and the public is promised something exceptionally good in this film.

Mr. J. H. Johnson, of Malakwa, who was in the city yesterday, tells of a splendid season in the bush in that section. Split fence posts is his specialty, and the cut this past season he says, aggregated up close to 50,000, fully one half of which have already been shipped out to the prairies. The market for this utility is growing larger and larger every year and sales are reported clear through to Winnipeg. The Chas. Erickson Stock Co., of Calgary, Mr. Johnson says, has purchased 400 acres of fruit and vegetable land in that section which will be subdivided and sold in small plots, and he looks for a big boom there in the near future.

## CORRESPONDENCE

Editor Mail-Herald:—

Dear Sir,—Kindly permit me to correct a false impression which is indicated by a paragraph in the Mail-Herald of April 1st, regarding the recent D.L.S. preliminary examination. This examination does not directly lead to a degree of any kind, it is merely an entrance examination, practically equivalent to science matriculation. In all fairness to the other Revelstoke boys in "this institution" it may be said that none of them tried this examination.

## Y.M.C.A. ENTERTAINS

(Continued from Page One.)

untiring efforts in promoting the work of the Y.M.C.A. Mr. Howson he said had devoted more of his time to the work than any person in Revelstoke and a large portion of its success was due to him. He spoke of Mr. Foster's intended departure, feeling sure that the Y.M.C.A. would regret his decision as much as any institution in the city.

Rev. R. J. McIntyre and P. W. Stone spoke on behalf of the ladies and their untiring efforts in every good work. Mr. McIntyre attributed a lofty place in life to the women and expressed the opinion that much of the refinement in society was due to their influences.

Mr. J. M. Graham in speaking to "What the Y.M.C.A. conveys," said that it was the ally of the church, the school and the business. For 68 years it had been trying to solve the social problems and engaged in the business of making men. One of its objects was to solve the leisure problem as it was during the hours that men were not employed that they got into trouble. The Y.M.C.A. was not a loafing place, but one of physical and religious activity. Literary and debating societies were encouraged, physical development was stimulated, and in all 140 subjects were taught—all of which he considered religious activities. He urged everyone to do what he or she could to make the institution a success as it was co-operation that brought things to pass. Mr. Graham became enthusiastic in praise of Mr. and Mrs. Kilpatrick in their efforts for the good of the Association.

Mr. J. Lyons was strong for the making of all round good men. The Y.M.C.A., he contended, was not for the purposes of making champion athletes, but for encouraging amateur sports. It objects were to teach a young man to win by fair means and be a good loser, not a squealer. The Y.M.C.A. was for the purposes of letting a boy raise Cain, which he was bound to do, but to let him do it in the right direction.

Mr. B. R. Atkins put in a strong plea for the establishment of a library. He contended that the physical and religious side of the young men was being encouraged to the exclusion of the intellectual. In a very able manner he showed the good that could be accomplished by the reading and proper assimilation of good books, and urged the people of Revelstoke to take up the library proposition in a whole-hearted manner. Revelstoke prides itself as being in the vanguard for enterprise and by establishing a library she could maintain that reputation. Revelstoke, he said, had every advantage for the nucleus of a public library, and he urged the public to come to the aid of the Y.M.C.A. in securing one.

Mr. Robert Gordon considered it only necessary to bring the need of a public library to the attention of the public and the thing was as good as done. He would urge in the event of the establishment of this library, that it must be under the guidance of an expert along that line, the same as other branches of the institution. It could be made an instrument for evil as well as good as he considered that reading might be, in some cases considered a form of disease. Great knowledge is no good unless used and a man must either use it himself or impart it to others. He considered it up to the Y.M.C.A. to supply the intellectual needs of its members.

The banquet closed with a hearty vote of thanks to the ladies for their generous support in preparing the banquet.

## TAKES OVER MUSIC STORE

### Mr. J. Bingham now Proprietor of Popular Establishment

Yesterday Mr. John Bingham took over from the Revelstoke General Agencies the music store on McKenzie avenue, which he has been managing for the past twelve months, and in future the store will be known as the John Bingham Music Store.

Mr. Bingham's efforts in the future will be to keep up the reputation that the store has gained for the excellence of its stock of musical goods, and a full line of several makes of pianos and all the usual musical instruments and musical goods will always be on hand.

## CONDUCTORS LET OUT

### Sixty-four from Coast to Coast Have Been Discharged

Calgary, April 11.—It is said that 64 Canadian Pacific conductors have been let out by the C.P.R. on account of the charges of "spotters" throughout the system. It affects trainmen from coast to coast. It was about two weeks ago that the conductors were ordered to report at Montreal for investigation, but as yet they have refused to go. The Calgary conductors are still around the city and signify their determination to remain away from the investigation on the ground that the railway company had no right to call them in on the alleged flimsy charges of the "spotters."
