AMERICAN FRUIT IS ALL PACKED SHORT

Calculated to Deceive the Local Buyer --- Boxes have False Bottoms

Calgary, July 21.—All American fruit boxes exhibited for sale in Calgary must in the future be stamped "Short," M.P. McNeil, the Dominion fruit inspector, wired Ottawa this morning and received the above instructions.

In the past the British Columbia fruit growers have had no protection from American competition. According to the Dominion act, all Canadian strawberry boxes must have a capacity of four-fifths of an imperial quart and raspberry boxes must hold two-fifths of an imperial quart. The imported American fruit boxes, although to all appearances of stand and size, until placed alongside the British Columbia product, have false bottoms, are in reality appreciably smaller in every dimensian, and the consumer really receives less for his money than with the Canadian products.

Pedlars and dealers handling American fruit make no distinction between the two products but call the American "short" boxes "quarts" as well as the full-size Canadian goods.

"There is no doubt that the Canadian fruit grower will suffer should reciprocity go through. The American fruit is grown, picked and packed largely by Japanese labor, and therefore can be produced cheaply," said a local jobber this morning.

"This season in British Columbia, berrypickers are very scarce, and it costs to cultivate, pick and pack the British Columbia berries, $1.30 per crate. The wholesaler receives $2.60 per crate, out of which 48 cents express and 26 cents selling commission must be taken. The balance of $1.86 is what the grower receives, leaving him after deducting $1.30 for the cost of labor, only 56 cents for his crate of berries and as interest on his investment."

TRAIN OF LUNATICS

Convey Patients from Brandon to Ponoka Asylum

Edmonton, July 22.—Probably the most remarkable special train ever run in Canada started out from Brandon for Ponoka this morning. It was a C.P.R. train of standard equipment day coaches, sleepers, and diner, chartered by the Alberta government for the transfer of the aatients from the Manitoba asylum for insane at Brandon to the new provincial asylum at Ponoka.

One hundred and seventy insane persons and several scores of guards and keepers were passengers on this train, which is due to arrive in Ponoka on Monday morning. There are already 12 patients in Ponoka asylum and these, with the 870 arrivals will all be cared for in the new asylum building, which provides accommodation for nearly 200 patients. Some difficulty, but no serious trouble is expected in the transfer of the patients to and from the train and on the journey. All the more serious cases will have ehe undivided attention of experienced guards. Besides the regular guards and keepers, a corps of volunteer helpers will be employed as attendants.

DEAtH LIST REDUCED.

Porcupine, July 20.—The death list in Porcupine has been reduced to 60 Owing to a clerical error at the West Dome one man reported missing never existed. Another name has been discovered to have been duplicated, and one unidentified body was added to the list by mistake, after identification. This reduces the list to 60. It is believed that the maximum death list has been reached, although three men on the Powell have not been found. Search parties in Delore have found no bodies. No new deaths were reported today.

WRECK AT CALGARY

One Man Killed in C.P.R. Yards in Freight Smash-up

Calgary, July 20.—A C. P. R. westbound train ran into a freight train in the East Calgary yards at 9:30 last night and as a result Fireman Heymeyer of Calgary is dead and a number of passengers received slight injuries, principally bruises from being thrown against seats. The passenger had just slowed up to cross the bridge over the Bow river and ran into an open switch, where the freight was standing. The engines interlocked and where badly wrecked.

The firemen is said to have lost his life through his anxiety to save his assistant who jumped to safety, and before he could save himself the impact came, crushing him to death.

Two or three cars on the freight train were wrecked but no car on the passenger train left the track.

POWER PLANT DAMAGED BY ELECTRIC STORM

Armature Coils are Burned Out City in Darkness Five Hours--- Gas Producing Plant at Work

Once more the gas producing plant is supplying the city with light and power, and this time through no fault of any but the freakish stunts of nature. The use of the plant is necessitated owing to the severe electric storm which swept over the city yesterday afternoon, striking the power line and passing through the lightning arrestor to the armature coils of the new plant, completely destroying no less than nine of them. The binding of these coils is burned away as though they had been in some fierce conflagration, and a number of others are partially destroyed and the work of repairing these is going on without letup.

The accident occurred at about 4 o'clock yesterday afternoon, when a particularly sharp stroke of lightning struck the city, and like a thunderbolt the armature coils burned out, and the city was thrown into darkness for five hours and the power ceased. In addition to this one of the relays was slightly damaged. The attention of the employees of the plant was then immediately turned to getting the old gas-producing plant in running shape, but owing to its non-use for some time, some little difficulty was experienced. The pump was the principal cause of delay, but at about 10:30 everything was in shape as though nothing had happened and the lights turned on.

Since then the employees of the plant, under Superintendent Duck, have been at work incessantly repairing the damage done and it is expected that the damage will be repaired some time tonight unless it is much greater than anticipated. Night and day these men have worked, assisted by Chas. North, and they have intimated their intention of staying right at it until everything is in good shape again.

The damage will not entail a very great expense, according to the statement of Superintendent Duck, it possibly being covered by a few hundred dollars. The worst feature of the whole thing is the inconvenience to the users of light and power.

COMPANY FORMED FOR CLEARING B. C. LANDS

Will Prepare Farms for Settlement on Larger Scale than Hitherto Attempted

Kamloops, July 21.—It is learned that a strong financial company has been formed at Vancouver with the object of clearing B.C. timber lands ready for settlement and cultivation upon a larger scale than heretofore attempted in the province and 6 in view of the poor success of our lands the new enterprise will be watched with public interest and with general good wishes for its success.

In a province like British Columbia —sparsely settled, difficult of access to its fertile valleys and bench lands importing foodstuffs of $14,000,000 and upwards, while its millions of arable wild lands remain unproductive, owing to the slow, tedious and expensive cost of clearing ready for cultivation, these idle lands, it would appear in the public interests that the government should support and encourage such private enterprise having for its object the bringing under cultivation of these lands.

The introduction of costly machinery and the employment of large capital would appear to overcome many of the difficulties and hardships experienced in the individual efforts and should be the means of bringing many thousands of acres under cultivation, causing the circulation within the province the many millions of dollars now disappearing. A meeting with the board of trade is being held this afternoon with the object of awakening interest in this question, and at the same time soliciting general public support through these commercial bodies.

ENTRANCE PUPILS MAKE GOOD SHOWING AT EXAMS

Bronze Medal is Awarded Muriel Fleetham---Seventeen out of Twenty-four Successful

Seventeen of the twenty-four pupils of the public school in Revelstoke, who wrote on the entrance examinations have been successful, one of them, Miss Muriel Fleetham, securing one of the bronze medals offered by His Excellency the Governor-General, for high marks. The highest standing in the province was made by Miss Bessie Smith of Chilliwack, she having secured 869 marks. There were 1437 pupils writing, 848 of whom were successful. Following are the names and marks of the candidates in this district, to all of whom the Mail-Herald extends congratulations:

Muriel Fleetham	722
Charles Field	709
Edith Abrahamson	698
Irene Genelle	682
Rosa Haggen	675
Arnold McCarter	673
Bertha Daniels	670
Lydia Steed	650
Mary Paget	633
Janet McIntyre	622
Eric Robbins	621
Marjorie Lee	591
Edmaire Morgan	589
Ellen McCarthy	571
Margaret Lawler	564
Maurice Hack	558
Wilfred McLean	555

Two of the four candidates at Golden were successful as follows:

William H. Ball	717
Edna L. Ball	550

McGILL EXAMINATIONS

Several Very Successful Pupils from This City

The results of the recent matriculation examinations of the McGill University have reached the city, and the following are of particular interest to Revelstoke citizens, as the students are all from this city:

Tannis P. Patrick headed the list with a total of 533 marks.

Jas. L. Lawrence came next with a total of 494.

Ethel Blackberg succeeded in a supiementary examination in Latin prose.

Lawrence Robert Grant also succeeded in Latin prose examination.

Clare Fraser who wrote on the examination, failed in Algebra, and will be required to write on a supplementary examination on that subject in September or the following June.

The name of Fred. Urquhart, who wrote in Greek prose, does not appear in the results.

ROUNDHOUSE BURNED

C.P.R. Suffers Loss of Building at Golden, B. C.

Golden, B.C., July 19.—The C.P.R. roundhouse here was reduced to a pile of ashes in quick time on Saturday afternoon in a fire which, for a time at least, gave cause for considerable alarm. The fire started about 4 o'clock, the origin being, it is said from a spark from a locomotide. Fanned by a strong breeze the flames developed great fury and only the hard fire fighting of volunteers for over an hour prevented spread of the conflagration, is burning embers were carried as far as the centre of the town during the progress of the fire. The roundhouse contained two stalls. In addition to its destruction, two box cars, one containing coal, were partially destroyed.

NELSON RANCHER KILLED.

Nelsoo, July 20.—Timothy Forest, a rancher, was struck by a freight train and killed at Moyie at 12 o'clock this morning.

Card of Thanks

The manager of the Edison theatre desires through the columns of The Mail-Herald to personally thank Chief Parry for his prompt action in removing the man who created such a disturbance and used such foul language at the Edison theatre on Thursday night. His thanks are also extended to the entire police force who have given their attention and protection to the public who attend at the theatre. Police Magistrate Hamilton fined the disturber $25 and costs. No doubt this will be a warning to others of the same ilk.

UNION LABEL 541

SATURDAY, JULY 22, 1911.

Next Wednesday the annual meeting of the Revelstoke Agricultural Society will be held in the city hall at 8 o'clock in the evening, and it is hoped that there will be a big attendance and much enthusiasm exhibited. An annual fair is one of the greatest advertising mediums a city can have, and the amount of advertising secured from it is in the same ratio as the amount of enthusiasm displayed and the amount of interest taken in the affair by the public. We cannot expect outsiders to come to the fair and become enthused unless we abandon lukewarmness ourselves and go into the business in a wholesouled manner. Between the annual meeting and the time of the exhibition there must be a whole lot of work done and a whole lot of publicity given the exhibition if we are to get the best results. Immediately after last year's fair was over at Calgary the management got busy in advertising the next year's fair and consequently, despite adverse weather conditions, the management can safely announce the best exhibition in the history of Calagry. Enthusiasm and stick-to-it-iveness do the trick every time. There is no doubt that we are starting into the game rather late for this year, but that is principally the fault of the rules of the association, which say that the annual meeting shall be held the last Wednesday in July. The association should rescind that rule, which may have been applicable when the association was first formed, but which in this day when publicity counts for so much, is very much out of date and antiquated. With the annual meeting in the latter part of July the newly-elected officers who will manage this year's exhibition will scarcely have time to get into the harness before the fair is on them and that is not giving them a fair show. However it is too late for this year's fair to do anything along that line, so let us all get into harness immediately the new officers are elected and work for the biggest and best fair Revelstoke has ever had. Every citizen can do his or her share by telling friends at a distance of the coming fair and inviting them to come here and take it in, or by preparing an exhibit or inducing others to do so.

There are of course a hundred and one little things to attend to in connection with the exhibition, and it is the little things that count. One of these little things is the transportation to and from the grounds, and it is a pleasure for us to announce that the management has already signified its intention to take up this matter and see that there is no bleeding of visitors as is alleged to haae been done in former years. And it is not sufficient to see that the visitors get to the fair at a reasonable figure but also that they get back at the same figure. It was intimated at the recent meeting that each rig hired by the association be placarded with the price of transportation so that any who feel so disposed as to charge an exorbitant price will do so in the light of fair competition. It is to be hoped all will be reasonable in this matter and give the public the square deal. Now let's all get together and pull for the best fair ever held in Revelstoke. Nothing succeeds like success, and if we do the right thing this year we can expect much bigger things in the future.

While the province has been exceptionally fortunate in the matter of forest fires and consequent loss thus far this season—in large part owing to ceaseless watchfulness—it is only by observance of the utmost care that outbreaks can now be avoided in certain dangerous districts, points out Commissioner W. C. Gladwin.

"In some districts," says the Commissioner, "the conditions existing at present are such that should a fire originate, it will only be with the greatest difficulty that heavy loss will be prevented. The department of course has a considerable force of rangers out patrolling the various districts night and day, but one careless individual may cause all their efforts to count for naught and start a fire occasioning heavy loss in lives and property."

This fact cannot be too frequently impressed upon the public mind, now that the dry season of midsummer is at hand.

You can never tell just what to believe. Just as we had concluded that civilization is about to be set back about a thousand years by the hanging of Mrs. Napolitana, along comes the Toronto Star and says she did things which no good woman would do, that she was untrue to her marriage vow and that she feared her husband's wrath. This is contrary to what we have been so often told, but surely the Cabinet should know, and the Cabinet made recommendations for clemency.—Calgary News-Telegram.

At Banff there is at present one of the biggest game reserves in the Dominion if not in the world. It has cost thousands of dollars to establish and maintain it and the benefits of its existence is just beginning to be established; as it is recognized as one of Canada's finest assets and one of her biggest attractions for tourists.

The expansion of this game reserve has alway been a matter of consideration with the Dominion government. But just at this juncture the Dominion has passed an Order in Council considerably reducing the limits of the park and leaving outside the great breedings grounds, which have been the recognized home of the mountain game for several years. By this Order in Council anyone who possesses a rifle and the price of a game license can go into thegreat breeding grounds north and northeast of Banff and kill to his heart's content, and then what is to become of the mountain animals of which we are so proud?

If, as stated, the establishment of the new boundaries will have this effect some pressure should be brought to bear on the government immediately. It is possible that in connection with the forestry and perhaps also in connection with coal mining there is necessity for opening up part of the country referred to. In doing so, however, it should be provided that the country should remain closed for game as it has been in the past and especially that the Indians, who have learned to keep out of the park, should continue to keep out of the area referred to.

One of the features of the Canadian Government Annuities system which commends itself to every person is that a man who is middle aged enjoys equal advantages with the man who starts at a younger age, for he may by the payment of a lump sum equivalent to the total amounts which he would have paid had he entered at the earlier age go on from his present age at the same rate as if he had begun at any earlier age. For example, a man of 40 who has decided to purchase an Annuity of $500 pays in $1,593.25, which is the equivalent of what he would have paid during the years from 20 to 40. He will now continue to pay $50.06 each year until he is 60, instead of $167.10, which is the rate which a man entering at 40 would have to pay for an Annuity of $500 to begin at 60.

A school teacher who has just cashed in a twenty year endowment policy has made the application of this amount on a $500 Annuity Contract, a most provident disposition of a portion of his money. If he dies before he is 60, the total amount which he pays up to the time of his death, with 3 per cent. compound interest, will be returned to his legal representatives.

A supply of interesting literature concerning the Annuities Scheme may be had on application to the Superintendent of Government Annuities, Ottawa, to whom letters go free of postage.

Two lines of honest criticism are worth more than two columns of flattery to a sensible person. A wise man welcomes criticism and profits by it, while a foolish man howls about it. A fool courts flattery in order to gratify his vanity.

Governor Chase Osborne of Michigan at a meeting of the National Editor's Association convention at Detroit referred to the "new trade relations" which were about to be established between Canada and the United States, as the beginning of a movement to "have one type of government, one language, one law, and one people from the Isthmus of Panama to the North Pole." This is a cheerful outlook for Canadian individuality and nationalism. Perhaps the apostles of reciprocity will explain what the governor means? Is he suffering from the heat or is it just playful humor of the Champ Clark brand?

Quite a new thing in home treatment is the Yawn Cure, for which the family doctor is responsible. "There is nothing that will rest you so quickly," says that admirable paper, "as to sit on a straight-back chair, and lifting the feet from the floor, push them out in front of you as far as possible, stretch the arms, put the head back, open the mouth wide, and make yourself yawn." It sounds a trifle complicated, and we would hardly recommend young gentlemen in banks and places where they work to indulge in the performance while the manager is in sight. They might inconceivably be let in for a longer rest than they desired. Preachers will understand if the cure becomes popular, that a sudden alarming epidemic of yawning and stretching in their congregations does not necessarily mean that people are bored.

FIELD NOTES.

Mr. Campbell, a former resident of this place has returned from Calgary and opened up a garage. He has three nice machines for hire, which are in constant use. These help greatly in making our town look up-to-date.

Miss Jones, of Detroit, Mich., is the guest of her sister, Mrs. H. C. Webster of this place.

Mrs. Grierson and children, who have been visiting Mr. and Mrs. G.L. Buckham for the past month, left for their home in Arnprior, Ont., last week.

Rev. and Mrs. J. Leech Porter, of Enderby, were guests of Mr. and Mrs. Swerdfager over Sunday.

Mrs. Swerdfager and daughter took in the Orangemen's celebration at Salmon Arm last week.

Rev. Mr. Reeves, of Moose Jaw, arrived in town last Saturday. He will have charge of St. Stephen's church for one month.

A HOT JOKE

Cost Settler in Comox $50 and Costs for Starting a Fire

Victoria, July 21.—Joseph Davis of Comox has learned, as a result of a recent invitation extended to him to appear in court, that there are occasionally two sides to a joke. Mr. Davis thought that he had a joke on the government of British Columbia and the Forests Protection Department thereof. His joke arose out of the fact that he had recently set out a large fire for the purpose of clearing land, a fire which occasioned his neighbor settlers very considerable alarm, and had done so without concerning himself with obtaining a permit as required by statutory law. Indeed he had boasted openly that he had secured no permit, and did not propose to do so. Evidence to this effect was offered before Mr. Bates, J.P., at Courtenay, and upon conviction Mr. Davis was taxed $50 and costs for burning without a permit—the minimum fine prescribed. One curious feature of the case is that although his fire is long since reduced to ashes, Mr. Davis is still hot over it.

THE WEST'S NEW OUTLET

Where Will Lumber for Hudson Bay Railway be Obtained

Where is the timber for the construction of the Hudson Bay Railway to be obtained? and will the country through which the line passes be able to furnish it?

To answer these questions was the main object of a survey party sent out by the Forestry Branch of the Department of the Interior in the summer of 1910. The report by the head of the party (Mr. J.R. Dickson, B.S.A., B.S.F., assistant inspector of Forest Reserves) has just been published, and is of great interest to those concerned in the building of the road.

Starting at The Pas, on the Saskatchewan river, the party traversed the country around Mitishto lake, the Mitishto river, the Grass river system, with its many lake expansions (including Wekusko lake), Pakwa (or Pakwahigan) lake, Setting and Split lakes, and the Nelson river system, including Cross and Sipiwesk lakes, Wintering and Landing lakes. The return journey was made by way of the Minago (or Pine) river. Some two hundred and thirty-five miles of the line of the proposed route of the railway was thus covered.

The party was composed of the chief forester and three field assistants and five others. The work was of the nature of a reconnaissance the method adopted being to run lines at intervals of three to six miles, the compass being used to give the direction. The men worked singly, and an average day's work was four to six miles and return. Field glasses were carried, and were often used to get an idea of country that could not be reached on foot.

The sizable timber is confined almost entirely to the water-courses. Spruce is, generally speaking, the only timber that is found large enough for saw-timber or railway ties The poplar, birch and jack pine are invariably too short, spindly, limby and crooked for any use save fuel or pulpwood. Very, very few live tamarack trees are to be had; the rest have been killed by bark-beetles.

The total number of ties available in the district covered is estimated at about 360,000, which, at 3,000 ties to the mile, would be sufficient for about half the distance covered. Of saw-timber there are about nine and a half million feet. For pile timber the dead tamarack and the largest of the close-grained black spruce could be used. There is a very large supply of fuelwood available and there will also be a large supply of pulpwood but much of the timber is as yet too small even for that.

The destruction of timber (and this be it observed, in a district where lumbermen have never penetrated) is tremendous for this, especially the former. Practically every part of the (approximately) eight thousand square miles covered by the survey party has been visited by two great, general fires, one eighty years ago, the other forty. In quite a number of places the fire had evidently leaped lakes a mile or more in width. Often a fire lives all winter in the dry moss and breaks out again in the spring following.

Bark beetles have also done an incalculable amount of damage. They have killed practically all the tamarack and are now at work on the mature spruce.

After the trees have been killed by the beetles, a wind storm (and severe windstorms are very frequent in the region) overthrows the fallen trees and the mass of debris which forms is ignited by a lightning flash. So a severe fire starts and may burn over many miles of country.

The protection of the timber of the region from fire is a tremendous problem. Extension of the patrol is suggested, but in a country so large and practically uninhabitated it would be a task of great difficulty to check a fire, if once it got started, be the ranger ever so efficient. As to starting fires Mr. Dickson considers the Indians more careful than white men and far more so than the half-breeds.

So far as investigated, the rate of growth of trees in the region is very slow. A period of one hundred years will produce white spruce of a diameter of eight to ten inches and black spruce of four or five inches. It is the cold wet soil of the muskegs which is largely to blame for the slow growth the country being so level that good natural drainage cannot be secured.

Brief notes are given in regard to the character, soil, climate, plant-growth and agricultural possibilities of the region, its minerals, fish, game and fur animals, and these will be found of great interest.

A Word of Warning

Its only a matter of days now until the unsold portion of the 50 cent. issue of the British Pacific Coal Company, Ltd. shares have been taken or withdrawn from the market and the next issue offered at 75 cents or $1.00 per share.

Trustee T. R. Morrow, so well and favorably known, absolutely guarantees that the next issue will not be offered at less than 75 cents per share and that in all probability the price will be $1.00 per share since the development work of the property fully justifies such a price.

The British Pacific Coal Co., Ltd. controls 8,320 acres of coal land on Skidgate Harbor, Graham Island, only 80 miles from Prince Rupert City, the Pacific terminus of that great transcontinental Railway, the Grand Trunk Pacific.

The property has been reported on by six mineral coal engineers, all who have unconditionally declared the coal to be anthracite of the first quality and present in large quantities. One seam alone contains 36,000,000 tons, and there are six seams in the property. In less than six months time the coal will be offered on the local market.

Buy shares at 50c. today. In a few days you make 25c. per share profit. You can buy 100 shares with $10 cash down, balance in 3 monthly payments of equal proportion. Address your application and make cheques payable to the Trustee, T. R. MORROW, at office of British Pacific Coal Co., 124 Hastings St., West, Vancouver.

Mr. S. L. Bryant is in Revelstoke at King Edward Hotel in the interests of Mr. T. R. Morrow, Trustee.

Feb. 26—The Castlesquare Entertainers in high class concert at the Edison theatre.

Moving pictures tonight.

PUBLICITY FAKERS' DRAIN ON BUSINESS

Make Living by Sucking Life Blood ot Legitimate Business ---Publicity Gold Bricks

Following article, written by John T. Hall, publicity commissioner of Lethbridge, and published in the Lethbridge Herald, is applicable to many places and interesting to Revelstoke:

There is an old proverb that imitation is the sincerest form of flattery and there always follows in the wake of successful and legitimate publicity and genuine advertising, a horde of counterfeits, whose whole stock in trade consists of monumental gall and nerve and the goods that they deliver are only a reflection or shadow of the genuine article.

During the last twenty-five years the advertising of large mercantile and manufacturing institutions including the modern department store has been undergoing a process of evolution and has passed through the various stages, from chaotic intermittent and abortive methods, until it has reached a point of prefection, and is placed upon a scientific basis, thoroughly systematized. The advertising and publicity department of large mercantile or manufacturing establishments has become, in this process of evolution, the most important branch of their institutions. Large salaries are paid to experienced men, who have the training, and the experience to enable them to select such mediums and channels of advertising as will give the best possible results for the least possible expenditure—and in order to get a full dollars worth for every dollar expended they must have the faculty of separating the chaff from the wheat — the counterfeits from the genuine and fully recognize the fact that in no branch of their business can more money be frittered away needlessly than through ignorance or inability to detect and separate the counterfeit from the genuine article in advertising mediums.

In the cities of western Canada as every where else where there is a desire on the part of the public to make more generally known the natural resources and advantages of a city or community they must be on the lookout for the publicity shark and the professional fakirs who are ever on the alert with some elaborate and pausible scheme, that may appeal very strongly to those not fully conversant with the wily and sinster methods of the publicity green goods man and presented by them in the most tactful and alluring form. Eliminating and blotting out the fakir in civic advertising, can only be accomplished by exercising horse sense and applying cold blooded business principals.

They are generally hail fellows well met, glib of tongue and vivid of imagination, who blow into your town with a scheme to paint the advantages of your city on the Sun by day and the Moon by night, and with one master stroke of brilliant genius, keep before the entire universe, the name of Lethbridge in capital letters and at the same time contributing to the scientific world a satisfactory solution of the problem of perpetual motion as applied to civic publicity, they paint in glowing colors the materia, benefits that will accrue to your city if you will only accept their proposition ann they often succeed in convincing the uninitiated that they are actuated solely by philanthropic motives. And to their credit be it said that they often depart with a big fat contract tucked away in their breast pocket, and you learn when it is too late that you have been gold bricked buncoed and stung. And in passing, it is worthy of note that some reputable magazine writers of note, are not above lending their names to this literary confidence game.

There are several cities in western Canada that we could name that have been easy marks for the wily and astute advertising fakir and they have been relieved of thousands of dollars and the results derived from this counterfeit publicity would be on a par with what a pork packing establishment would get from advertising in a Jewish journal, or baby clothes in the Hardware Review.

We have no desire to under-estimate the value of printers ink in legitimate advertising, as we have often made the statement "It is the greatest medium on earth to make the wants of a man or community known."

It is the fakir—the parasite— who makes his living by tucking the life blood out of a legitimate business, and giving nothing substantial in return, that we are after.

Western Canada seems to offer an excellent field for the man with the publicity "gold brick." It is the new country of magnificant distances and immense possibilities. Its people are anxious and willing to spend money in making known its resources and future optimistic enthusiasm regarding the development of the entire country- their slogan began, 'Everybody pull together for Western Canada.' On account of this enthusiastic spirit, they are all the more apt to fall into the trap set by the foxy and wily publicity fakir, whose only object and aim is to separate you from your money by some plausible scheme, that in nine cases out of ten will be barren of results.

This is where an experienced man can save a city thousands of dollars annually. He has the advertising fakir marked and wastes neither time nor money upon him. He is the "green goods" man of modern publicity and should be stamped "counterfeit" or placed behind the bars for receiving money under false pretences.

The principles involved in the foregoing apply with equal force, to the advertising of the local merchant and he should exercise great care and judgment if he desires to get best results.

One illustration will be sufficient to make our point clear (hundreds could be given). Last week in one of our print shops, we picked up a letter head that was being gotten up for one of the hotels. It was on cheap paper and on the back contained the business cards of about 12 of our retail merchants whose business is entirely local. They evidently did not consider that 95 per cent. of hotel stationery goes to distant, outside points that are not buying Lethbridge groceries or drygoods.

From the hotel point of view it is not good advertising, it looks cheap as if the house found it necessary to sell advertising space in order to provide their guests with stationery.

We do not know who was responsible for the scheme, but—it has all the ear marks of the fakir.

ACROSS THE CONTINENT.

There is a striking significance, a wealth of the romantic atmosphere of the awakening West, and a vivid, elaborate picturing of the wilderness responding to the genius of Western constructive civilization in the beautiful book written by Isabelle Carpnter Kendall, entitled "Across the Continent," a copy of which has just come to the reviewing desk. It is the first book of the Chicago, Milwaukee & Puget Soond Railway, and as a luxuriously designed and printed volume descriptive of the wonderlands between the Mississippi and the Pacific ocean it compels attention as a superb work of art. The book contains some seventy large quarto pages of heavy calendered paper and the elaborate picture work in colors throughout, as well as the distinctive letter press and art work, 6 disarm criticism. Its chief significance lies in its demonstration of the scenic grandeur and magnificance of the 1,400 miles of new railway through new territory in the prolific West. The text is a concise, impressive descriptive story of a trip over the entire line, and the reproductians of photographs in colors are splendid examples of engraving and printing art. The principal towns and districts along the line are comprehensively described, as well as the chief elements of improved railroad building that have attracted world-wide attention to the Milwaukee road which represents in some respects the most remarkable of modern accomplishments in railroad construction. The book is issued by the publishing department of the Chicago, Milwaukee & Puget Sound Railway which is in charge of General Passenger Agent Geol W. Hibbard and Traffic Manager R. M. Calkins, Seattle, Wash.

A Rigid Shaving Edge

The GILLETTE blade, thin enough to take a perfect temper, yet held absolutely rigid between the two plates of the frame, shaves as no other razor can shave.

You know how the thin, tapering edge of the old-fashioned open-blade razor vibrates till it fairly rings when it strikes a stiff beard. The thin blades of other safeties are free to do the same. That's partly why they pull and gash.

But the GILLETTE edge, the keenest and finest of all, is clamped so firmly that it cannot vibrate or spring away from its work. Note how the curved outer plate presses the blade down tight against the teeth of the guard, making the edge perfectly rigid. That is why it slips through the toughest beard so smoothly, quietly and easily.

The genuine comfort of the GILLETTE shave is a revelation. Why deprive yourself of it any longer?

Standard Sets $5.00 — Pocket Editions $5.00 to $6.00.

This Little Crank In Your Kitchen

Saves 20% on Coal

It is a wonderful patent device, the Oxford Economizer, and is licensed for use only on

GURNEY-OXFORD STOVES and RANGES

This marvellous regulator keeps the oven at a given temperature. No heat is wasted—nothing goes up the flue but bad odors, steam and smoke. The fire is held for hours without attention—ready for immediate use—and all this labor, time and fuel saved by simply turning the crank.

With the Divided Oven Flue Strip you have even baking, because of the perfect distribution of heat, secured by this expert arrangement.

The Reversible Grate is provided with strong, interlocking teeth that reduce coals to ashes by a single turn. In appearance, in details of finish and design the Chancellor is an ornament as well as a necessity in any kitchen.

The Range here represented and other Gurney-Oxfords of every sort for every purpose, displayed on our floor.

Clean Milk!

Get your Milkman to produce a Government Certificate like the following:

No. 1930
Contagious Disease (Animal) Act

Grade B. Certificate

This is to certify that I have inspected the premises and herd of T. Lewis, of Revelstoke. The premises do not strictly conform to the condition set forth in the 'standard,' and the herd has been tested for tuberculosis once a year and has been found free from that disease.

REMARKS: Cows are in good shape and milk handled in a sanitary manner.

(Signed) Dr. B. R. ILSLEY,
July 3rd, 1911. Inspector.

NOTE:—The only fault with the premises is that while the "standard" calls for 800 cubic feet of space for each animal, whereas our stable only contains a little over 700 cubic feet for each animal.

Milk sold in Bottles at 11 quarts for $1; Hotels 25 cents per gallon.

THOS. LEWIS.

Our July Clearing Sale

REID & YOUNG

THE CITY IN BRIEF

Coronation pictures at the Edison theatre tonight.

Mrs. Estey of Nelson, is in the city the guest of Mrs. A. McRae.

Moving pictures at the Edison theatre tonight.

Why should I keep an open evening Monday? St. Peter's garden party.

Mr. A. McRae and his two sons, Chas. and Walter, returned last night from a visit to Nelson.

Recherche refreshments by Guild of St. Peter's church at garden party Monday evening.

Moving pictures at the Edison theatre tonight, including the only authorized pictures of the Coronation.

Mrs. Alex. McRae, Third street, gave a linen shower on Wednesday afternoon in honor of Miss Gertrude Dent.

Mrs. Roy Smythe and children returned on Wednesday night from an extended visit with friends in Vancouver.

Lieutenant Colonel W. R. Bell, M. D., and Mrs. Bell, arrived in the city yesterday on a visit to their son Mr. G. W. Bell.

Miss Bessie McKenzie, of Winnipeg, who is visiting friends in the city, will sing a solo in St. John's church tomorrow evening.

H. N. Coursier has been advised by the shippers that the usual quantity and quality of coal for next winter consumption will be produced.

Culligan & Hockwald's minstrels, who play at the Edison theatre on Tuesday night, will give a band and orchestra street parade at noon of that day.

"Is there going to be coal for next winter," is the burning question of the day. H. N. Coursier has been assured of ample stock from his usual source of supply.

Thelma Ray, a half-breed, was sentenced to four months in Kamloops jail for being drunk and disorderly on the streets. The woman is an old offender.

The only authorized Coronation pictures willbe exhibited at the Edison theatre tonight. These pictures were taken by the Chas. Urban Film Co., with the sanction and special permission of the King.

Mrs. Leslie, commonly known as Mrs. Horne, and Mrs. French, were sentenced to six months apiece in Kamloops jail last night by Magistrate Hamilton on a charge of keeping a disorderly house. The evidence, which was of a very sordid nature, clearly substantiated the guilt of both parties. The resort kept by these women had become a most disreputable brothel.

WARM WEATHER SUGGESTIONS

Why suffer with the heat during the warm weather doing your own baking when we will deliver to you every day Fresh Bread, Cakes and Pastry of all kinds —and as quality is our motto, we feel sure a trial order will mean a steady customer.

FRESH FRUITS AND VEGETABLES arriving daily. Fresh Lettuce, Cucumbers, Tomatoes, Green Onions, Strawberries, Cherries, Cocoanuts, Pineapples, Oranges, Lemons, Grape Fruit, Bananas. As we buy these in small quantities you will always find them fresh and good.

A. HOBSON, Baker and Grocer.

FOR SALE

20 acres first class land close to city, suitable for either fruit or mixed farming. Will sell in lots from 5 acres up, $85 an acre. Easy terms.

KOOTENAY AGENCIES LIMITED

Good music by Revelstoke band at lawn party of St. Peter's church.

The awards in connection with the bowling tournament of the Y.M.C.A. have been handed out.

On Tuesday the Nashville students and Jubilee minstrels, will be at the Edison theatre with band and orchestra.

In the Methodist church tomorrow night a song service will be given, for which the choir have been practising for some weeks past.

W. Brock, C.P.R. engineer of Kenora, Ont., and formerly of this place is here for a few days, the guest of his brother, G. H. Brock, of the C. B. Hume Co.

Mrs. J. Palmer has arrived home from an extended trip to Manitoba. On her homeward journey she was unfortunate enough to be in the wreck which occurred in Calgary yards, but escaped without bruises.

The death occurred at Stewart, B. C., on Sunday, June 18th, of the eighteen-month old daughter of Mr. and Mrs. J. G. Macdonald. Mr. Macdonald was formerly of Revelstoke, having sold out his business to McKinnon & Sutherland.

"F" Co., R.M.R., has received a consignment of the Ross rifles, which were distributed among the members of the company on Thursday night. The shipment numbered forty-two rifles.

A man named McConnal was fined $25 and costs in police court yesterday morning for swearing and creating a disturbance in the Edison theatre on Thursday evening. This should be a lesson to those who disregard the rights of others in public places. The theatre management is determined so, as far as possible, keep the theatre free from such disturbing elements.

St. Peter's church garden party on rectory lawn, Monday, July 24th.

Electric irons just arrived. Get the "National," the only iron on the market.—Lawrence Hardware Co.

Chas. Lidy returned today from Calgary with his big team, which won two first prizes and one second at the fair.

Between three and four hundred adults and children attended the union picnic of the Methodists, Presbyterians and Baptists to Albert Canyon on Wednesday last. The train, consisting of five coaches and the private car of Superintendent T. Kilpatrick, provided ample room for the excursionists, and left the station at about 9:30 a.m., arriving at its destination an hour or so later. A short time was whiled away while luncheon was being prepared, after which the older ones scattered in different directions sight-seeing, and the little ones indulged in sports which were provided. The grounds were decorated for the occasion by the residents of the Canyon, which is an ideal place for a picnic of any description. The homeward journey was made at about six o'clock, everybody declaring that a better time could not have been provided. Refreshments were served at a stand specially erected for the purpose on the grounds by H. Manning.

GUN CLUB SHOOT.

Following are the results of the weekly shot for buttons of the Revelstoke Gun Club:

Sturdy	21	21
Macdonell	13	14
McMartin	15	14
Foote	21	22

Sturdy wins button in class A; W. A. Foote in class C.

LILLIPUTIANS POPULAR

Played to Big Houses in Comic Operas

Presenting "San Toy" as their opening bill, the Royal Lilliputian Opera Co., played to a full house on Wednesday night. Revelstoke found much to commend in the performances of the thirty clever youngsters that constitute the compaay. In the hands of this clever company "San Toy" is an entertainment of a superior nature. Among the thirty or forty boys and girls in the company, there are some half dozen who bid faie to become stars. The title role in both plays presented here was in the hands of Miss Pearl Carlyle, a young miss possessing beauty of face and form, and a voice of birhlike quality. Baby Grace, a little tot of four and a half or five years, is a wonder. She does her best work in "San Toy," while in "The Gondoliers" several selections, not belonging to the opera, were introduced in order to give this youngster a chance to display her ability to the public. She was encored again and again.

Songs of the South

The lovers of the good old time melodies will be certainly well entertained next Tuesday night at the Edison theatre with the delightful tunes of the old Southern Ballads of the times "Befo' de War." Culligan & Hockwald's minstrels has always been a company especially selected by the management for their singing quality. It has long been conceded that no one can get the harmony and music out of those songs like the real darkey. There is also added to the entertainment, plenty of good clean comedy, and some of the latest and most popular ballads of the present time. The show is especially for ladies and children. There is nothing so entertaining as a good singing show, and the management of the Colored Minstrels certainly had that in mind when he selected the present company. From the time the curtain goes up, there is always something doing, either in singing their old Southern Ballads, for which the negro is noted, or some of the latest songs of the day with the entire company singing the chorus. If you can afford only one show this season, don't miss this one, the best of all colored shows. Seats on sale in advance. Popular prices.

IN THE CHURCHES

R. C. CHURCH.

St. Francis of Assisii Catholic church, corner of Fifth street and McKenzie avenue.

Services—On all Sundays, except the fourth of each month. Low mass with Communion of the Faithful at 8 a.m. High Mass at 10:30 a. m., Christian Doctrine for children at 2:30 p.m. Rosary with Bendiction of The Blessed Sacrament 7:30 p.m.

On week days—Holy Mass every morning at 7:30. Confessions are heard every evening after 7:30 and in the mornings before Mass.

J. F. McNEIL, P.P.

BAPTIST CHURCH.

Services at the Baptist church for the coming week will be as follows:—Sunday school will be at 10 a.m. instead of 2:30 as formerly. This change is made because some live at a considerable distance and the change is made to accommodate such during the hot weather.

Preaching at 11 a.m., subject, "The Secret of a Successful Christian Life." The subject for Sunday evening is, "Samson, the Fighter who never came Back." Young Peoples meeting Monday evening at 8 p.m.; prayer meeting Wednesday at 8 p.m. All will receive a cordial welcome.

METHODIST CHURCH.

Rev. R. J. McIntyre pastor, services on Sunday as follows:—11 a.m. "The Relative Importance of Things" or "Straining at a Gnat and Swallowing a Camel"; 2:30 p.m., Sunday school and Bible class; 7:30 p. m., Song service. Thursday at 8 p. m., prayer meeting; Friday at 7 p. m., Junior choir practice; Friday at 8 p.m., Senior choir practice. A cordial invitation is extended to the public. Come and assist in the singing of old familiar hymns Sunday evening.

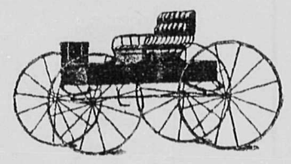
ALL AT A FRACTION OF THEIR REAL VALUE

McLennan & Co.

Save Your Horses!



Provender is dear and so is horse flesh, but light running wagons and buggies are cheap.

The evolution of the Farm and Road Vehicles has kept pace with modern science and now we are offering

All Spring-Steel Wagons

fitted out with perfect roller-bearing running gear just as cheap as the old-fashioned wooden framed wagon. They run lighter and easier and wear longer.

Those who purchased them are our most satisfied customers. You don't have to take off the wheels to grease them; they are dust proof caps and carry a much heavier load than the ordinary wagon.

A full supply of buggies of the newest makes also garden and farm implements, ask us about them.
