## LOCAL INVESTORS IN OIL STRIKE IT RICH

### Fifteen Thousand of Local Money Invested in Rapidly Flowing Well in California

Nothing creates greater excitement than the striking of rich oil wells, and this city was all agog on Sunday last by the message received by wire that a big strike had been made on the property of the Canadian Pacific Oil Company of B. C., Ltd., in Central California. The reason for the excitement was that from $12,000 to $14,000 of Revelstoke money is invested down there by plungers in sums averaging from $25 to $1,000. That they had struck it rich was evidenced by the very first wire that appeared on the scene as follows:

Vancouver, B.C., June 11, 1911.
A. E. Kincaid, Revelstoke.

Hudson wires well came in flowing about twenty-five thousand barrels, now settled down to between eight and ten thousand steady. All oil has been saved.—H. E. Springer.

A second wire bearing out the facts as stated in the first, and received from headquarters of the oil district read as follows:

Moron, Cal., June 11th, 1911.
A. E. Kincaid, Revelstoke, B. S.

Well came in last night. A fine one. Estimate flow at eight to ten thousand barrels. Everything in good shape, well under control.— W. H. Welsh.

As was stated in these columns some time ago both by advertisement and write-up the original investors would be given the privilege on the striking of oil to secure an equal number of shares as then held at par value of the original purchase. Naturally those interested looked forward to the chance of again getting in on this good thing and were anxious to receive official notification so that the second block of stock could be purchased as stipulated. The authority to give this official notification was given by the following telegram from the head office at Vancouver:

Vancouver, B.C., June 12th, 1911.
A. E. Kincaid, Revelstoke, B. C.

Notify option stockholders our well started flowing seven thirty p. m. on tenth day of June. Well reported by superintendent to be flowing steady as a clock eight to ten thousand barrels per day. Depth of well thirty-one hundred and fifty-six feet. Foot and half inch casing.

Can. Pac. Oil Co., of B. C., Ltd.

Needless to say the opportunity has been grasped by the original purchasers of stock, and in the mean time the company's stock is rapidly rising until it is doubtful now as to whether a block of $25 stock could be secured from the original purchasers at less than $300.

The lucky strike was made near Bakersfield, California, in the centre of a very rich oil field.

## BOY SCOUTS ORGANIZED

### Movement Looking to Betterment of Youth in the City

At a meeting held in the Y.M.C.A. building on Monday evening the organization of a local Boy Scout Association was completed, with the following officers:

President—T. Kilpatrick.
1st Vice-President—Robt. Howson.
2nd Vice-President—C.F. Lindmark.
3rd Vice-President—Rev. C. A. Procunier.
Chairman—Robt. Gordon.
Vice-Chairman—Rev. R. J. McIntyre.
Secretary—Rev. J. W. Stevenson.
Treasurer—Rev. E. A. Smith.
Scoutmasters—Messrs. E. Cameron H. B. Monroe, J. M. Patterson, Evans, Smith, Stevenson, McIntyre, Reeve, Colpitts.

The following extracts from the "Canadian Boy Scout," the official handbook of the movement in Canada, will give our readers an idea of the duties of the association.

To nominate suitable persons to act as scoutmasters, and recommend them to the provincial commissioner for the chief scout's.

To register all scoutmasters, troops and patrols in the district. No scoutmaster, troop or patrol shall be recognized which is not registered.

To generally supervise and encourage the movement and to co-operate with other boys' organizations in the district.

To be responsible for the granting of all scout badges and awards in its district.

The local association has the power to suspend any scout master or assistant scoutmaster, or to withhold recognition from any troop, patrol or scout within its area for grave dereliction of duty or for disloyalty to the rules of the Scout Movement.

The Boy Scout scheme is for boys of every denomination and creed and any boys between the ages of ten and eighteen can become boy scouts or patrol leaders. The "unit" is a patrol of six to nine boys; three or more patrols form a troop.

One feature of this movement that commends it, is the fact that no costly uniform is required or allowed. The minimum uniform consists of a hat, haversack, staff, and shoulderknot, all of which may be purchased for a little more than a dollar. A boy scout is not allowed to solicit funds for any patrol or troop. When funds are required, the scouts are supposed to earn it in some honorable way.

Any boy in the city wishing to join the Boy Scouts should at once hand in his name to one of the scoutmasters or should look round for seven likely boys about his own age to form a patrol and then report to the scoutmaster.

The R.R.Y.M.C.A. will be headquarters for the movement in Revelstoke and boys desiring information should enquire there, or consult any of the scoutmasters.

## FRUIT GROWERS IN ARMS

### Kamloops Association Go on Record Against Reciprocity

The Board of directors of the B. C. Fruit Growers' Association held a meeting at Kamloops on June 3rd. last, particularly to consider the proposed reciprocity agreement, and the following motion was passed:

Whereas, there has been introduced in the Federal House a bill to promote reciprocal trade with the United States, and

Whereas, the proposed reciprocity agreement will permit free trade in fresh fruits and vegetables,

And, whereas, the proposed reductions in duties will have the effect of reducing the prices of our products in Canadian markets.

Be it resolved, that we the directors of the British Columbia Fruit Growers' Association put ourselves on record as condemning the proposed reciprocity agreement between Canada and the United States, as being detrimental to the fruit industry of British Columbia.

And be it further resolved, that copies of this resolution be forwarded to the Minister of Agriculture of British Columbia; to the Boards of Trade of the Province; to the Agent General of the Province of Great Britain; to all the members of the Dominion House from British Columbia; the press generally, and the Federal Ministers of Agriculture and Finance at London.—Carried unanimously.

### SCORES FOR R. M. R.

## EXPERT EXAMINES MINE

### Says Mr. McEachren's is Best Gold Proposition in B. C.

Mr. Neil McEachren was in the city on Monday from his property just south of Revelstoke and reports the development work as showing up the rich ore shoot to be continuous It is Mr. McEachren's intention to continue the work right through the winter, and he is having his present cabin put in shape for the accommodation of the men now employed. Later on another cabin will be erected and more men will be put to work An expert and geologist visited the property last week and was greatly pleased with the proposition, he considering it the biggest and best looking gold proposition he has seen in British Columbia. Future work on this immense ore body will be looked forward to with much interest here.

Bring your prescriptions, we fill them with the purest of drugs only at Macdonald's drug store.

## GEN. MANAGER BURY GIVES CHEERY INTERVIEW

### Tells Y.M.C.A. to go Ahead With Additions to Building--Shops Will Be Increased

G. J. Bury, general manager of the C.P.R. western lines, was in the city Tuesday for a short space of half an hour, but a delegation from the Y. M.C.A., and Mayor Hamilton grasped the occasion to interview him on certain subjects of vital importance to the city and as far as can be learned the interviews were decidedly satisfactory.

The Y.M.C.A. delegation consisted of R. Howson, C. B. Hume, Robt. Gordon, W. M. Lawrence and Secretary A. Thomson, and their object in calling on the general manager was to inform him of the improvements which the institution contemplated and also to notify him that the amount granted them was not sufficient to pay off the existing debt and go ahead with the work contemplated.

To this General Manager Bury replied in substance:—"You just pay off your debt with the money coming, then put on the improvements required, and if there is any deficiency make application in the usual way for what additional sum is required."

This from the general manager practically means that the money would be forthcoming when required and that the Y.M.C.A. management need have no fear in adding to the present building whatever in reason is required for the accommodation occasioned by the growth of the city in size and importance.

It is the intention of the management of the Y.M.C.A. to build an addition to the present building, to acquire considerable more sleeping and rooming compartments and also to inaugurate a reading room and library.

Mayor Hamilton, who also interviewed the general manager regarding proposed additions to the C.P.R. was given the satisfactory reply that it was the intention that the C.P.R. would continue from time to time to add to the present shops as occasion demanded, and that Revelstoke would certainly not be overlooked when there could possibly be any good things thrown her way.

Mr. Bury was accompanied by Mr. Grant Hall, superintendent of locomotive power and together they made the rounds of the shops escorted by Superintendent T. Kilpatrick. Mr. Kilpatrick left for the west with Mr. Bury and Mr. Hall.

Mr. Bury has also promised, provided circumstances will permit, to be in the city when Mr. Vaughan and Mr. Hall visit here in July.

## DIED IN HOSPITAL

### Wm. McIsaac drops Unconscious on street and Later Succumbs

Suffering from Spinal menegitis W. McIsaac, a young man of twenty or twenty-two years of age, was picked up yesterday about noon in front of the Climax hotel in an unconscious condition and hurried to the hospital where efforts were made by doctors and nurses to restore him to consciousness. But despite all endeavors the unfortunate man never came to but succumbed to the disease at 6:30 last night.

Deceased had been a member of the bridge gang working at Golden, but for some time had been laid off. He has two brothers in the city—Angus and Mike—and has a father living in Nova Scotia.

The remains will be interred in the cemetery here on Friday morning at 10 o'clock.

## Will Have Club House

Tenders will soon be called for the erection of a parish house and club house on the property belonging to the R. C. church on McKenzie avenue at a cost of approximately $5,000.

The new building will be erected to the north of the church, facing McKenzie avenue and will be two stories in height with full basement below. Its dimensions will be 60 feet by 24 feet of frame construction with cement foundation. The parish house will be to the north side of the new edifice facing on McKenzie avenue.

The young people of the R. C. church have long felt the necessity of such a building for public and social gatherings and it is with this end in view that the edifice will be built. The building will be fitted up with gymnasium, club room, reading room and concert hall.

The building already on the property will be moved away.

## THE "CZAR" HAS SPOKEN

### Hon. Frank Oliver Arrogantly Insists that Timber Office Go

The last word of a most arrogant and high-handed act performed by Hon. Frank Oliver has been said and the Crown Timber office has been moved from this city to Kamloops to the inconvenieace and distraction of a large number of lumbermen in this vicinity.

The general opinion expressed by those who know the full meaning of such an act is that the Minister of the Interior is in his dotage. Red-hot messages from the Board of Trade from the Liberal association, and timber men interested were cast aside like so much waste paper, and Czar-like the Hon. Frank continued in his dictatorial career, rode it over us, and declared in so many words that he did not care for God, man or the devil. His only ambition was to show us that he was the boss and that the Crown Timber office had to go. It went—bag and baggage—yesterday, but no doubt the "Czar" will hear from this quarter frequently after this. His own followers here are up in arms against the action as is indicated by a strongly protesting telegram sent him from the Liberal association. Sir Wilfrid Laurier was cabled and replied that there was nothing doing. Hon. Frank replied too that the last word has been said and the office must go, and it went.

## RINK CHANGES HANDS

### Purchased by a Local Syndicate At a Reasonable Figure

The old skating rink which up to Monday had been under the management of H. F. McKinnon, will in future be vested in the name of a local syndicate, the property having been sold on Monday to T. W. Bain, H. M. Parry, F. Terry and Dr. Sutherland for the sum of $4,000. With the purchase of the property goes about 500 pairs of roller skates and it is the intention of the syndicate to lease or run the concern in partnership with a good management. Several applications have already been received for the leasing of the building.

During the cold weather it is surmised that the management may lease the building to the curling club or else run it under their own auspices as a curling rink. But this of course is a matter for future consideration.

The deal is considered by local dealers to be a very good one as the ten lots alone on which the building is erected are considered to be worth the purchase price.

Stylish writing papers—all kinds—at Macdonald's drug store.

If you want any of the advertised medicines such as Mayatone, Eppo-tone, Cauthrox, Salatone Balmwort, Cardiol, etc., you can get them at Macdonald's drug store.

The Mail-Herald
PUBLISHED WEDNESDAY AND SATURDAY AT
REVELSTOKE, B. C.
Interior Publishing Company, Limited

WEDNESDAY, JUNE 14, 1911

A Toronto daily last week contained a despatch from a neighboring city that ———— aged 101 years had gone to the County Industrial Home, there to end his days and he is said to have gone at his own request. But how the report startles us, that a man after fighting the battle of life for over one hundred years has to end his days in a poorhouse! The despatch further stated that the old gentleman had a son of seventy-five and two grandsons of over fifty living in the same County. Naturally the reader would think it strange that so sad a course could have been necessary. But if the inner history were known, it would probably be revealed that the son and grandsons are in almost as bad a plight as the old man, and that he preferred to go to the poorhouse rather than to add to their burdens. The case is a pathetic one but it is not unique—you hear of such every day—and the whole story emphasizes how terrible is an old age of penury, and how important it is that we should regard youth "as the springtime which soon departeth and "wherein we ought to plant and "sow all provision for a long and "happy life." If the old gentleman had been in receipt of a Canadian Government Annuity of only $200 his presence in the home of the son or grandson would have been a boon rather than a burden, and the cozy-corner would, no doubt, have been kept for him. He may have been a sober and industrious youth, but he had no system of investment which was absolutely safe, and which would yield him a bountiful return for the amounts which he might from time to time save; and so his money was spent or lost as fast as it was earned. But there is no such excuse for the boys or girls, men or women, of Canada today, for by the Canadian Government Annuities Act they are provided with a system by which their earnings will be taken care of and invested by the Government, and under which they will receive a return larger than it would be possible to secure from any other safe investment, because when the Annuity begins each payment absorbs a portion of the purchase money as well as of the interest thereon, and if the Annuitant lives the average number of years he may be expected to live he will get back all that he had paid in with accumulated interest at four per cent. If he lives beyond this period, the Annuity will not cease but will be continued to him every three months so long as he may live. The plan is available at any Money Order Office in Canada. The Postmaster will give you a booklet which will explain the system, and if you wish for information as to the cost, all you need do is to write to the Superintendent of Annuities, Ottawa, post age free, giving him your age last birthday, and he will advise you by first mail what this will be. Remember that it is the only absolutely safe plan by which your old age may be made free from anxiety, and happy and comfortable, and that it is the only sure plan by which a wage-earner or person on small salary can provide for the rainy day.

---

Last year, according to the budget speech of Hon. Price Ellison, Provincial Minister of Finance, there were farm products shipped into British Columbia approximating fifteen millions of dollars, or to be exact $14,962,904. At the same time the home production reached $14,399,090. Practically *every* dollar of this $15,000,000 paid for goods imported is lost to the province as the Dominion blue book shows almost all these imported products coming from Great Britain, the United States and other countries. So that we may calculate that once these goods are consumed this fifteen millions of dollars is lost and gone forever as far as this province is concerned. We actually never get a cent of it back. At the same time it is a fact patent to everybody that there is sufficient arable land in this province to produce every cents worth of this farm produce without the least necessity of going to foreign countries for these articles. The articles include live stock, dairy products, meats, fruits and vegetables, eggs, honey, hay and grain and a very small amount of miscellaneous goods. All of these products, as said before, could be raised right here in this province were the land available. But unfortunately the land policy of both the Dominion and the Provincial governments are detrimental to the development of the same. Time was when the Dominion-owned land in the province was open for homesteading, and during that time a considerable portion of this land was taken up, and has since passed into other than the homesteaders' hands. The Dominion government owns a tract of twenty miles on either side of the C. P. R. railway track, and for some reason last year this was suddenly withdrawn from homesteading. Why, no one knows but the fact remains that it was, and in the meantime thousands of acres of land lie idle—worthless to the government and worse than worthless to the province This could produce millions of dollars worth of farm products were it in use, but instead we import fifteen million dollars worth of farm products and send this money away never to return. This means a great loss to the Province and something that must be made up from some other source.

The Vancouver Board of trade, which has made a very fair study of the question of imports estimates that last year farm products came into that city from foreign countries valued at five and three quarter million dollars. From far-off countries these goods came, and the money went thitherward never to return Were these goods raised here the money instead of leaving our own shores could be disseminated in the interior where it should be .

The 160-acre homestead with the settlers duties attached as applicable in more favorable portions of Canada, were found practically unworkable here owing to the vast amount of capital required to clear up the wild and wooded lands in this vicinity. In some cases it has cost as high as $1100 to clear and stump an acre, and this would preclude any but monied men from taking up homesteads. But as a matter of fact an individual with capital sufficient to clear a few acres of such land can find better investments for his money and will not think of investing it in clearing up land, even though that land may be worth considerable more than ordinary land once it is cleared. Hon. Frank Oliver then promulgated another scheme which of course has its merits and also its demerits. This was to allow the settler to homestead twenty acres and pre-empt an adjoining twenty acres. Against this it is argued that the homesteader in the long run does not secure enough for the outlay entailed in clearing the land. This plan might be all well and good lor land within a few miles of some settlement, but for a man say nineteen miles from the railroad with the great difficulties in transporting heavy machinery for stumping purposes to unsettled portions of the province the scheme is not considered worth while, hence the plan is not considered workable, Some scheme must be worked out which is fair and equitable over the entire area, and until this is done British Columbia need look for no extensive settlement of her lands.

Some who have studied the land problem of British Columbia from all sides proclaim a scheme somewhat on the lines of the C.P.R.'s plans of settling Alberni lands, a good thing, could the land be thrown open to purchase at a nominal figure with the stipulations that a certain amount be cleared each year and so many persons settled on that land each year, it is thought that English capital in millions could be induced to loosen up and invest here. The English investor it is said is satisfied with three or four per cent on his investment, but could he be shown that by creating ready made farms in B. C. that the settler would pay back on long term investments six per cent on his money, then he would be willing and anxious to let his money go. This scheme may be all right and may be found to work out to the best interests of the province, but Hon. Frank Oliver's policy of doing nothing and saying nothing is one open to severe criticism, and does little else than tend to make his name a bye word in the province.

It is said that on a conservative estimate there are 18,000 acres of good arable land tied up between this city and Arrowhead. Were this all under cultivation this city should be entirely independent of any other consideration. Its surrounding country alone would make of it a splendid city.

---

Sections of what is expected to eventually be part of the trunk wagon road from the coast to Alberta are being put in good shape in both Boundary creek and Grand Forks, Cascade districts.

## CORRESPONDENCE

Editor Mail-Herald:

Dear Sir,—Some comments made by the Rev. W. C. Calder upon my letter on the "Ne Temere" published in your issue of the 27th ult., call for some words in reply.

"It is well," says this writer that "Mr. McNeil has put up a defence for this law." "Well," for the law I presume is meant. Anyway, I waive the compliment. It is too costly. It comes in the same breath with a denial that the decree has any merit upon which it stands. But this denial cannot be stronger than that upon which it is founded— which is nothing more than a fond delusion. Whence did the Rev. gentleman obtain the revelation that the promulgation of the Ne Temere was forbidden in Germany? "Forbidden," indeed, by whom, pray? By Catholics, certainly not. By Prostestants perhaps? Preposterous. The simple fact is, that a papal decree, the "Provida sapientique," fixed a special marriage law for Germany in January 1906—two years and a half before the Ne Temere appeared. That decree was instigated by an appeal of the Catholic Bishops of Germany to have a uniform marriage law for the German Empire on account of the difficulties of applying the provisions of the old "Tametsi" law under the changed conditions of the empire. There was excellent reason therefore for not promulgating another law some two years afterwards among a people well satisfied with the legislation so recently received. As to Australia and Italy, the Ne Temere is in full swing there as it is in the rest of the Catholic world. And suppose even that in Italy the desire of anticlerical fanatics to make of marriage a purely civil contract were realized. What would that prove against the merits of the Ne Temere? Have not this same clique, in union with Continental Freemasonry, long since said their valedictory to Christianity? The church did not look for applause from such quarters.

My Rev. friend continues: "It is because of Protestant indifference and her political supremacy in Canada that she"—he speaks of the Catholic church—"ventures to promulgate it in this country." And he could not see how utterly pointless such a question was! Since when has the church made it a practice to act the sycophant? Since when has She made it a rule to consult the feelings of Protestants here or elsewhere, when the welfare of her children demanded her legislation? The reason, Sir, if you are curious to find it, for the enforcing of the Ne Temere in Canada is the reason for its enforcing in China or New Zealand, in the United States or Japan, in England or South Africa— it is the right of the Catholic church to govern her own subject in spiritual matters.

I read from the comments: "Mr. McNeil insinuates, though he does not openly say so, that the civil law is invading the church. Is it not a case of the church invading the civil law?" "Mr. McNeil" neither insinuates nor says anything of the sort, nor wishes to do either. But the Rev. gentleman and others of the same peculiar mentality as he, miserably fail to distinguish between what the civil law actually does and what they imagine it does, or should do. Who, I ask, has appointed the Rev. gentleman, or the coteries of Protestant clergymen, who have described so furiously against the present legislation, the mouthpiece of the state. Let the state speak for itself Nor will it be slow in doing so, if it finds that it is "invaded" by the church. I should counsel my friend to make a morning's meditation upon the words of a distinguished Protestant, the Hon. Augustine Birrel, who, speaking in the British House of Commons recently, said: "The law knows nothing of papal marriage legislation. We believe that under it Catholics are not so free as we are to marry and divorce and to marry again. Our courts will continue to administer our own laws, and all who apply for its benefits shall have them. It has lost nothing of its efficiency since August 1907."

This is English common sense— a thing of which there seems to be a distressing want among some of our Canadian fellow countrymen.

Against my contention that the Ne Temere is not unjust to Protestants, I receiae this crushing reply(?) "A concrete example stands in contradiction"—it is, of course, the Hebert case. Now if the Rev. gentleman had even a remote idea of the fitness of things, he would have been silent upon this. Let him not for a moment entertain the idea that the world or any fraction of it will be betrayed into thinking that he is at heart afflicted by the imaginary wrongs of a Mrs. Hebert or her husband. No paroxysms of his will convince us of such a thing. There is one for whom his commiseration is reserved. It is for that indiscreet Minister, who must necessarily take upon himself the lion's share of the blame involved in the incident, which my Rev. friend is at such pains to portray. That papal power should reach far out into the cunning world, and sterilize the ministrations of a Protestant clergyman, when he presumes to officiate at the nuptials of a child of the Catholic church—ah, this were too much. This is what goes to the quick, makes him abandon reason, and fly to invective and hollow sentimentalism in the vain hope of gaining what he knows to be otherwise a lost cause.

The only Protestant that appears in the Hebert case is the minister in question, and a sorry figure he makes Although it were, perhaps too much to expect him to respect the ordinance of the Roman church in regard to marriage, still we had a right to think that he would not go so far as to set at naught also the civil law. But this is precisely what he did. How can we explain his conduct? Either by his ignorance or his contempt of existing legislation; and in either case he is indefensible.

My Rev. friend will probably say that such legislation should not exist. But that is for the state to determine, not for over-officious individuals.

To say that the Hebert couple were "duly and legally married," is to say what the Rev. gentleman knows not to be so. And the statement "that the union of two souls in love is of God surely and above priestly interference" will then be true, when it is proved that God sanctions such unions, no matter what human or divine ordinances stand in their way. My friend is surely liberal in his views. But it is sensation he is after. Here then is a bit of news it-

## A POST CARD BRINGS HELP FOR THE KIDNEYS

**GIN PILLS SENT FREE**

We want all sufferers from Kidney and Bladder Troubles, Lame Back and Rheumatism, to test GIN PILLS, and see for themselves that GIN PILLS will really cure all these troubles.

If your Kidneys are weak—if it pains you to urinate—if your back aches—if hands and feet are crippled with Rheumatism—give GIN PILLS a chance to prove that they will relieve you and cure you. It won't cost you a cent. You don't have to buy them. Simply write us for a free sample.

"A short time ago, I received a free sample of GIN PILLS which I have taken with such good effects that I herewith enclose 50c for a box of them. I believe GIN PILLS are just the thing for me." RICHARD HAMLYN, FRENCH RIVER.

GIN PILLS are so called because they contain the medicinal principle of Juniper berries, the essential principle of Gin, but do not contain alcohol. 50c. a box — 6 for $2.50 — at dealers, and guaranteed to give satisfaction or money refunded. Sample box free if you write us. National Drug and Chemical Co., Dept. W., Toronto. 53

**The original Gin Pills made by National Drug and Chemical Co. of Canada Limited, Toronto, are sold only in this box.**

# WORLD NEWS IN PARAGRAPH

A Symposium of What is Happening in All Parts of the World

The charge was made at the Assiniboia council, that Deer Lodge hotel was protected by the provincial government against prosecution for Sunday liquor selling

Hon. Frank Oliver, minister of the interior, addressed a large meeting at Selkirk, defending the reciprocity agreement and explaining the St. Peter's Indian reserve case.

The general assembly of the Presbyterian church of Canada meeting in Ottawa, elected Dr. R. P. Mackay, of Toronto, as moderator.

At the nominations for the provincial elections in Nova Scotia, Liberal and Conservative candidates were put in the field in every county.

The finance committee at Washington has expressed the opinion that the senate will kill all amendments to the Canadian reciprocity bill.

Stanley Treilhard's plucky effort at rescuingone of the Victoria Day's drowning victims, at Kildonan Park, may win him a hero medal.

The Dominion railway board has ruled that it has no power in connection with the control of railway maintenance of way men.

The death of John Hetherington after three days incarceration in the Winnipeg police station is causing quite a sensation.

The superintendent of insurance for Manitoba is preparing a report on the fire insurance business of the province.

Mexico City was seriously shaken by a tremendous earthquake, the loss of life being estimated at over sixty.

John Storrie, whose little girl died of burns last Sunday, complains of red tape in the Winnipeg General hospital.

Spike McManus, a noted character of Winnipeg, was sentenced to two years in penitentiary for stealing watches.

Secretary Fowler of the Northwest Grain Dealers association has issued an estimate of the grain acreage in the west.

Work is to be rushed this summer on the mountain section of the National Transcontinental railway.

Building activity is now marked along the proposed new car line across the centre of Winnipeg.

Twenty-three lives were lost as the result of the sinking of a Panama steamer.

Vernon is arranging a big sports program for Coronation Day.

A masquerade Lacrosse match will be played at Recreation Park, McKenzie Avenue, Wednesday afternoon at 3 o'clock. Admission 25 cents.

The reciprocity pact was discussed at Glenboro by F.T. Congdon, M. P., and William Molloy, M.L.A.

The Duke of Sutherland may come to Alberta for the summer.

Enderby and Salmon Arm will be connected by telephone.

The new general hospital in Ladysmith was opened last week.

There are 150 men working on the wagon road near Chilliwack.

Ike Cleaver died last week. He was the oldest fishermen in Alaska.

A recent edition of the B.C. Gazette contained 494 pages, all ads.

In the Cariboo district nearly every rancher has telephone in his house.

There are 18 automobiles carrying passengers in the Fort George district.

In British Columbia there are over 8,000,000 acres open to pre-emption.

There were 47 men applied for the position of city policemen at Cumberland.

The barbers in Vancouver have raised the price of hair-cuts from 25c to 35c.

It is reported that Winnipeg has a population of 151,000 including real estate agents.

At Penticton the chief of police discovered the leading dairy to be in an unsanitary condition.

A drunken man was recently seen upon the street in Summerland. That is a rare sight in that city.

In Fernie electric power costs $2 a month per horse power. In Greenwood it is nearly double that price.

Two hoboes held up Billy Stickler in Kamloops with a gun, and assayed his pockets to the extent of $17.

J. Cameron, a diamond mining expert from South Africa, is prospecting the Tulameen for precious stones.

The Chesaw News says that the C. P. R. talks of building a branch through the British Okanagan to Oroville.

The Mayor of Victoria wants a dramatic censor for that city. None of the aldermen would accept the position.

At the Queen Charlotte islands, 22 whales were recently towed into Naden harbor, by the red, white and blue steamers.

The Belgian horse ranch of 2,400 acres, 18 miles west of Calgary, Alberta, has been sold to English capitalists for $100,000.

In Chilliwack recently an Amateur Dramatic company put on three farces in one night without causing any trouble in the city.

At Merritt Bill Elliott; better known as Tex, was fined $50 and costs for selling firewater to an Indian. The Indian was fined $25 for having liquor in his possession.

## NEW INDUSTRIES FOR CANADA.

A glance at the Trade and Commerce statistics, issued in the form of a very dry and dull looking blue book annually, reveals some mighty interesting facts if one has a little time to spend digesting the meaning of the long rows of figures which adorn most of the pages. There is one column in particular which is absorbingly so. It contains a list of Canada's industries and it is remarkable to notice how they multiply from year to year. The latest addition to the list is kraft paper — an importation from Sweden. It will shortly be made in large quantities in the Province of Quebec by the newly formed Wayagamack Pulp and Paper Company.

Swedish wrapping paper, or kraft tensite as it is called in scientific circles, is fast superseding other makes of paper on account of its great strength, combined with its lightness and pliability, but not until recently was it realized that Canada had at her doors everything necessary for its manufacture. To establish such a manufactory the Wayagamack Company have acquired the half century old lumber business of Alexander Baptist at Three Rivers, where a 200 ton pulp and paper mill is being erected. This gives them an area of something like 1100 square miles of the finest timber and pulp wood limits in the Province from which to draw their supply, together with unexcelled facilities for floating logs on the St. Maurice river and its principal tributaries. Up to the present a large part of this area has been virgin forest, the home of the hunter and his game. The timber is of exceptional size and stands very thickly according to the cruisers who have gone over the ground. The new mills will be erected on Baptist Island, at the confluence of the St. Maurice and St. Lawrence and, unlike most Canadian establishments, will be able to ship by water during every month in the year for there is a channel which is clear of ice at all times from there to the sea. Besides her own market Canada will now be furnishing kraft to England, Australia, South Africa, South America and the United States and it is expected that the new industry will prove a valuable prop to the district about Three Rivers, a district which has needed propping badly since the terrible fire of a few years ago.

## A RED LETTER YEAR.

The Financial Post of June 3rd says of Canadian real estate in general:—

"The banks are gradually getting a grip on the situation and their influence will be to discourage realty trading as a speculative pastime. There is much trading of a legitimate character, however, as building statistics show, and prices continue to rise for desirable business property.

"The movement in farm lands is most marked and indications point to a material advance per acre for good land. No cessation is noted in immigration, and if crop prophets are approximately accurate, the year promises to be a red letter one in new created wealth."

## ROD AND GUN.

The most interesting portion of the fine story of the trip to Hudson's Bay via the Albany river by W. J. Malone appears in the June issue of Rod and Gun in Canada, published by W. J. Taylor Limited, of Woodstock, Ont. The trip was quite an adventurous one and is written in a spirit of thoraugh appreciation of the beauties and allurements of the wild and of the advantages enjoyed by one able to go so far from the beaten track.

# A WORD TO THE W

Opportunity for wealth is knocking at your door. Will you ad

have purchased property and have become independently rich.
if you act right now. Do not let the other fellow get in ahea

# REVELST

## The City of the Interior! The City of Steady

## A Retrospect

Twenty years ago she was but a little village of four or five hundred. You could in half an hour count every house. Then you had no faith in her possibilities for growth and you didn't invest your earnings. You passed the opportunity up and to-day you are not much further ahead.

## A Regret

Have you been a Rip Van Winkle and slept for these past twenty years? If so you must now wake up to the possibilities of the next twenty years and regret your inaction. Sit down and look yourself in the face, ask yourself if you have acted wisely. Be honest about it and answer the question in all seriousness.

**If you invest in Revelstoke Property now, you are investing in a sure**
**tion but an investment, and one that will pay you handsome dividends.**
**make money, write, 'Phone or Call on us without delay.**

ıer ? If you do she will lead you on to fortune and independence.
ıaintance who have stepped into cities before the boom started,
are just as clever as they and their experience will be yours
you and take all the profits. No better investment in the West.

# OKE, B. C.

ıd Persistent Growth ! Invest Right at Home !!

## A Prospect

With the surety that Pulp, Paper and Lumber Mills are to be established here, you know that this City must go ahead in leaps and bounds in the next few years. Can you afford to let the opportunity of becoming independent slip by for ever? Just look ahead. With the increased development, property must advance correspondingly and if you act now you are the winner.

## A Resolve

Decide right now. If you want a Lot or a few lots, get them now before they double or treble in value. Make up your mind right now that there will be no more of that Rip Van Winkle business for you. Thousands of homes will be needed for the large number of workers in these various enterprises and you don't want to be forced to live out in the suburbs owing to the increased price of property. Think it over and decide at once.

naker. The element of chance is entirely obliterated. It is not a specula-
stand to win several hundred per cent. and lose nothing. If you want to

## PUSHING G. T. P.

### Great Progress Will Be Made This Summer

Ottawa, June 12.—It is expected that great progress will be made this summer with the construction of the G.T.P. main line through the mountains.

Last summer operations were delayed owing to a shortage of both supplies and men on the eastern and western slopes. The closing of the Skeena river a month earlier than usual last fall shut supplies out on the Pacific side, and made the usual winter operations on cuttings and tunnel work almost impossible. However, the contractors made a special effort during the winter to get in supplies and succeeded in placing large quantities along the route, which can be drawn upon for summer work.

An abundance of labor is available for work on the eastern side of the mountains and prospects are good for a fair number of laborers being obtained for summer operations on the Pacific side. It is expected that before operations are held up by the arrival of winter the two ends of the line will be driven far into the mountains from both ends and will be brought so closely together that the following summer the gap will be spanned and the two ends joined, thus completing the western through line from Winnipeg to Price Rupert. Collingwood Schreiber will leave Ottawa for Prince Rupert on June 15th to inspect the work done so far. After going over the Pacific he will go to Edmonton and go in over the eastern end as far as operations have been carried on.

Good progress is being made with the National Transcontinental in the east. Some portions of the line east of Winnipeg are ready for freight That portion from Winnipeg to Superior Junction has been operated all winter.

### PREPARING FOR CROP RUSH.

Montreal, June 12.—Although the harvest is many moons away preparations are already being made to look after what it is hoped and expected will be Canada's banner year in the way of crops. The millers are particularly active and extending their spheres in all directions. The International Milling Company of Canada, which was brought into being a short time ago by the merging of the International Milling Company, Limited, of Saskatchewan and Minnesota and of the Canadian Cereal and Milling Company through the efforts of A.J. Nesbitt of the Investment Trust Company, report rapid progress in their plans throughout the west in the way of acquiring new elevators and enlarging mills, and say that they will be ready and waiting for the farmers when the farmers are ready with their crops. Mr. Nesbitt is abroad just now but is expected back shortly with an announcement which will be of interest to all Canadians.

### SKYSCRAPERS SHOOT UP.

Montreal, June 12.—While skyscrapers have shot up here in the past to such an extent that an eight storey building has been erected in forty-eight working days, they will instead of shooting up be shot up in the future, if a recent invention makes good. This does not mean, however, that wild west scenes will be enacted in the tall buildings here but merely that a new rapid fire method of construction has appeared which may smash all building records existing at present. So great is the demand for quick work that it is actually proposed to shoot walls into place with a rapid fire gun. The present cement mixer, it is claimed, is to give way to the cement gun, which will shoot liquid cement into place by means of compressed air twenty-four times as rapidly as is possible under the present system. The gun itself consists of a long tube of great strength. Into this are admitted compressed air through a valve near the breech, and water through another valve near the muzzle. At about the point of the vent in the ordinary breechloading cannon a tube like connection is established with a hopper. Dry cement and sand are thrown into this hopper by two men, and here, aside from valve manipulation and directing the cement stream, the human element ends. The hopper vibrates, mixing its contents before it drops down through the tube connection. Once in the gun barrel the mixture is shot forward by the compressed air fed through the valve. At the muzzle a stream of water is encountered that mixes with the sand and cement, the whole driving out the gun with sufficient force to carry it to the desired point. As a result of this rapid fire method of construction building records never before dreamed of may soon be established here.

### STORK BEATS REAPER.

Montreal, June 12.—An analysis made by the Civic Health Department shows that infantile mortality in the city stands about the same rate as late year, while the birth rate is on the increase.

It is in July and August that the slaughter of the innocents takes place, and it is in order to prepare a campaign of salvation for that time that the Board of Control has ordered the medical health officer to devise some means which will result in keeping down the death rate among young children.

"The best recommendation that I can give to mother," said Dr. Laberge, "is to nurse their babies. That is the biggest and best assurance against heavy infantile mortality, and towards this end I would like to see a band of qualified nurses organized who would go into the home and give instruction to poor mothers as to the care they should take of themselves and their newly born children.

### STARTS WORK ON FLIES.

Calgary, June 12.—Putting cleanliness in its proper relationship to godliness, the members of the Women's Canadian club Saturday decided to start an active campaign for an improvement of existing conditions.

A committee was appointed to see that the members of the club do all in their power to get rid of the flies and to see that all the bread is wrapped before being delivered.

The good work was started by Mrs C.A. Stuart, president of the club, who said it would be a patriotic act to have something done. The bread wrapping was introduced by Mrs. Harold Riley, after Mrs. Stuart's fly rapping attack. Miss Stewart then wanted to have the fruit and meat protected which was offered for sale in the stores and the result of the suggestion was the motion, which was moved by Mrs. Carson, which is mentioned above.

A committee was formed to deal with the matter.

Precedents have been secured by the Lord's Day Alliance in Ontario on cigar selling by hotels and restaurants on the Sabbath.

**DRUNKENNESS CAN BE CURED.**

**Old Fallacy That Drunkenness Cannot Be Cured Exploded.**

Many men drink who desire to stop the habit. Whisky, however, has undermined the constitution and created a craving that is not to be denied, and the man must have whisky or something that will remove the craving and build up the system and restore the nerves.

Samaria Prescription stops the craving, steadies the nerves, builds up the general health and makes drink actually distasteful and nauseous. It is tasteless and odorless, and can be given with or without the patient's knowledge, in tea, coffee or food. It is used regularly by Physicians and Hospitals. It has cured thousands in Canada, and restored happiness to hundreds of homes.

Read what Mrs. G——, of Hull, says of it and what it did for her:

"It is four months to-day since I started to use your Remedy I followed the directions, and had the best of results. One week after I started using your Remedy the patient stopped drinking, and has not drunk a glass of liquor since. I hope you will accept my heartfelt thanks. Hoping God will bless your Remedy whenever tried, I remain,

Mrs. G——, Hull, Que.

(Name withheld by request.)

Now, if there is anyone in your town who needs this Remedy, tell them of it. Practical philanthropy can take no better form. If you have a husband, father, brother or friend who drinks, help them help themselves. Write to-day.

**A FREE TRIAL PACKAGE** of Samaria, with Booklet giving full particulars, directions, testimonials, price, etc., will be sent in a plain sealed package to anyone mentioning this paper. Correspondence sacredly confidential. The trial package alone has confidential. Write to-day. The Samaria Remedy Co., Dept. 46-49, Colborne St., Toronto, Canada. Also for Sale by C. R. Macdonald, Druggist, Revelstoke, B. C.

TO LET—Furnished house on Fourth Street. Apply Mail-Herald office

FOR SALE—Cooking Stove, nearly new and a few other household articles, Apply Upstairs, Taylor Block. 1t.

ROOM AND BOARD—Large bedroom, suitable for two gentlemen. Apply this office.

# REID & YOUNG

## THE CITY IN BRIEF

Miss Jean Orr, of Victoria, is visiting with Mr. and Mrs. B.A. Lawson

It is 21 years this month since John Houston, Charley Ink, and Dr. Allen started the first newspaper in Nelson, and it will be 50 years on Saturday since the first railway train pulled into that city.

Trains are now running through the Yellowhead Pass, within 75 miles of Tete Jaune Cache. Times are getting lively at the Cache, and two stores have already been opened up for business.

Dan McDonald of Rossland, has been engaged to act as assistant fire chief in Prince Rupert for $125 per month. The driver of the auto hose wagon in Rupe gets $1000 per month, and four call men get $10 monthly.

The Chesaw News says that cold storage meat shipped into the Boundary recently from the big packing plants, has caused some sickness in the logging camps, and other places where it has been used. A mutton received in the lot showed by the stamp that it had been killed in New Zealand three years ago.

Coronation Tea, Saturday, June 17th, afternoon and evening in Howson Block in aid of St. John's church. An excellent culinary table. Dainty potted plants for sale. Grab bag for children, ice cream and tea served. Admission free.

The marriage of Mr. Percy F. Crick and Miss Mary R. Proctor took place at the Presbyterian manse, in Vancouver on June 7th. The young couple were attended by Mr. G. H. Arnott and Miss Ellen M. Proctor. The groom is well known in this city having resided here for some time, and is a brother of Messrs. A. G. and Fred Crick, both of whom are residents here now.

The South Kootenay Power Co. is putting in a substation near Grand Forks and will construct four or five miles of transmission line, for the purpose of supplying ranchers and orchardists in that district with cheap power for pumping water for irrigation purposes and other ranch and orchard uses. Already eleven ranchers have arranged to use power their requirements aggregating about 185 horse power.

W. C. Cowell has been appointed Dominion Crown timber agent in addition to his present appointment of Dominion land agent, and the staff formerly employed at Revelstoke has been removed to this city. The district now under the jurisdiction of Mr. Cowell extends from the Alberta boundary to North Bend. The placing of the timber and lands in the railway belt under one head is a decided move in the public interest and will be greatly appreciated.— Kamloops Sentinel.

## WARM WEATHER SUGGESTIONS

Why suffer with the heat during the warm weather doing your own baking when we will deliver to you every day Fresh Bread, Cakes and Pastry of all kinds —and as quality is our motto, we feel sure a trial order will mean a steady customer.

**FRESH FRUITS AND VEGETABLES** arriving daily. Fresh Lettuce, Cucumbers, Tomatoes, Green Onions, Strawberries, Cherries, Cocoanuts, Pineapples, Oranges, Lemons, Grape Fruit, Bananas. As we buy these in small quantities you will always find them fresh and good.

**A. HOBSON, Baker and Grocer.**

## Fruit Lands

Situated in the beautiful Windermere district. This country will be in direct communication with Calgary on completion of the Kootenay Central, making a distance of 235 miles, or one night's run. There without a doubt will be the nearest fruit lands to the prairie market. Plans are now filed in this office and we will be glad to furnish prices and terms to intending purchasers.

*Kootenay Agencies, Ltd.*

The ladies of the Methodist church will hold a tea and sale of home cooking at the residence of Mrs. R. J. Thompson, Fourth street, Friday, the 16th inst.

The Fort George Herald has a new heading, and prints on one side of it that, "Buying property from a map is like sinking a dollar into a worked-out prospect hole—it is bottomless."

Some of the song hits in "The Isle of Spice" which will be at Tapping's opera house, Friday, June 16, are "Peggy Brady," sung by Marguerite Felch and the Irish colleens and spalpeens in act two; "The Goo-Goo Man" sung by the funny old king and the "Goo-Goo" girls and which never fails to create no end of merriment; "You and I" a beautiful duett for the Soprano and leading juvenile; "How Can You Tell Till You Try," a comic quartet that fairly takes the house by storm; "Wishes" another quartet for the comedians; "Uncle Sam's Marines," a march number and "Little Maid of Nicobar" The manager of "The Isle of Spice," after considerable difficulty arranged to play Revelstoke Friday night instead of Saturday night as advertised originally. Seats are on sale at Macdonald's. The reserved seats are all to be sold at $1. Rush seats on sale at the opera house after 7 p.m. Friday night are 75c.

Moving pictures tonight.

Moving pictures tonight with a complete change of program on Friday and Saturday.

Mrs. J. P. Hume will not receive on Thursday, June 15th, nor again until September.

Mr. A. J. Woodland left Tuesday morning for Chase, B. C., where he has accepted a position with the Adams Lumber Co.

Geo. Watters charged with robbing and beating a prostitute, will come up for hearing this afternoon at two o'clock.

Mr. A. D. Tournar has re-opened the old Trueman photo gallery on McKenzie avenue and is now open for business. Adv. will appear later.

Mrs. H. A. Webster and little daughter Neva, returned to their home in Nelson, after a short visit to Mrs. Webster's parents Mr. and Mrs. J. D. Kennedy.

Shareholders in the Canadian Pacific Oil Co. of B. C., Ltd., are hereby notified that an equal number of shares to those original held, can be secured at the original price on or before Saturday, June 17th.

The demise occurred on Monday night of Jas. E. Long an old time resident of this city.

Mr. Robt. Tapping returned to the city yesterday with his bride and was given a right royal welcome last night.

## "The Isle of Spice"

Frank W. Healey, manager of the San Francisco Opera Company, is here in the interest of "The Isle of Spice," a musical comedy that is well thought of in the States, which comes to Tapping's opera house on Friday June 56th. F. A. Wade, a Broadway producer is the exploiter of "The Isle of Spice." A company of thirty people including a chorus that is noted for its good looks and

Teressa in "The Isle of Spice"

the amount of ginger infused in their work and such well known principals as Martin Pache, a tenor that has done good work, Bobbie Woolsey and Jack Leslie, two excellent low comedians, Stanley Felch, a comedian of the older comic opera school, Marguerite Felch, a young soprano possessing a good voice, good looks and a good figure, Wm. Burgess, an exceptionally good character singer and actor and Nina Seamans, are playing the important parts. One must not look for big singing voices in "The Isle of Spice" and the management does not advertise such. The management promise the best entertainment for the prices asked ever offered in Revelstoke, good scenery—a sixty foot car load being carried—nice costumes, pretty electrical effects, at least ten song hits that will be whistled and sung long after the company leaves the city, and an entertainment that will not have one dull moment from the rise to the fall of the final curtain. "The Isle of Spice" has just completed a tour of the States, it is the equal if not the superior of the majority of the musical comedies that have asked $2.00 prices in Canada. Seats are now on sale at Macdonald's. At the prices asked "The Isle of Spice" is the best theatrical bargain ever given in this city.

## HOTTEST JUNE ON RECORD.

Chicago, June 12.—The middle west is still under the pall of unseasonable heat that has literally burned the lives out of scores of persons and sent hundreds to hospitals. Never in the history of the United States weather bureau has the middle west experienced so hot a June. All records available have been smashed.

## CORRESPONDENCE

(Continued from Page 2)

ems for his benefit.

"Reno, Nev., May 9.—Divorced from one man on Thursday, and married to another on Saturday is the record of Mrs. Sarah D. Lewis, former wife of John A. Lewis of New York. Speeding as fast as steam could take her from the divorce court of Reno, to the altar (?) of the Howard Presbyterian church of San Francisco, she became the bride of Rodrick W. Richardson of Los Angeles."

And again the story of that little seventeen-year-old girl in Ontario, who the other day, when her honeymoon with the husband of another woman was rudely interfered with by the police, with tears in her eyes, pleaded that she had been married by a "real Baptist minister." Is it any wonder there is a Ne Temere? Will my Rev. friend now grasp the significance of the recent statement of a Methodist clergyman, that ten times more harm is done by the lax ideas of so many Protestant ministers about the marriage contract than is done by the Ne Temere?

But moreover he seems in common with others, to be sorely haunted with the idea that the civil law of Quebec is, in the matter of marriage, identified with the ecclesiastical law, and as a consequence that non-Catholics in that province cannot enjoy full civil liberty until such injustice is wiped away. Now, upon examination of the case, anyone not a victim of some strange deception, must see that the civil law of that province is in principle quite impartial to every religious denomination. Clause 127 of the civil code reads thus:—"Other impediments recognized according to the different religious persuasions as resulting from relationship or affinity, or from other causes, remain subject to the rules hitherto followed in the different churches and religious communities." Now, if that clause means anything, it means this, that in questions involving the validity or invalidity of marriage, the civil law takes cognizance of regulations established by the churches to which the contracting parties belong. In the Hebert case the parties were Catholics, and according to the ordinance of their church, their marriage was null, and the civil judge had also so declared it So. had the parties, instead of being Catholics, been, say Methodists, and had their church tribunal for some reason annulled the marriage, the civil law can possibly refer in bound to sustain the decision of that church. Now, it happens that among religious denominations in Quebec, the Catholic church is the only one that has placed annulling marriage impediments; and consequently its ordinance is the only one to which the civil law can possibly defer in this respect. Other churches that have prescribed no annulling impediments, that the law can recognize in practice, cannot in reason say that the law discriminates against them. As to mixed marriages, we may for the present take the statement of Judge Leet of Montreal, that the civil courts of Quebec do not sustain the judgment of the Catholic church in this matter. So much for the supremacy and equality of the ecclesiastical law in Quebec.

I am asked by the Rev. gentleman to explain the merits of the decree. I conjecture that he is better fitted to ask questions than to answer them; and it were better for us both, had he done a little more of his own work. The Ne Temere is for Catholics, and its merit can be appreciated generally by them alone. I can scarcely expect him to be able to understand them, or sympathise with us in their enjoyment. Its universality and simplicity are outstanding commendations of this law. Again its effectiveness as a check upon mixed marriages or other indiscreet unions is little short of a boon to the church and to civil society.

Rather let me make here an observation. The Rev. gentleman said that my judgment of the decree is "warped." Now, I thank him for the word. For it seems to describe with almost enough precision the mental state of one, who in a subject matter such as is before us, could barely see anything beyond the Hebert incident and who with his attention rivited upon that, could pronounce upon the Catholic church and her laws as he has done. Such smallness of vision, such capacity for misunderstanding the true worth of things is truly pitiable. The Ne Temere is a law enacted for the millions of Catholics throuhout the world. Now, my Rev. friend fails to see, that for one case in which inconveniences will arise in the working of this law—a thing which cannot be avoided in any law, human or divine—There will be a thousand where the present ordinance will silently and happily be observed, and do its work. In his life time, the average priest sets peace and harmony in scores of disorderly homes, and the world including Mr. Calder will never hear of it.

I have now done with this subject; nor will I return to it, at least in these columns. Some other broad and irrevelant statements occur in the Rev. gentleman's letter, but being made up of about one part truth and nine parts falsehood, I deem them unworthy of even a denial. His remark upon the term "non-Catholic is amusing. Some of his co-religionists eschew even the name Protestant. What shall I call them? Let Rev. Mr. Calder, if he will, affix Catholic to his name, and I warrant that not even his family will know him in the disguise, and as to the world at large, the combination will be about as intelligible as the idea of a square circle.

With cordial thanks for space, I am, Mr. Editor,

J. McNEIL.

Revelstoke, June 10th.
