FALL ASSIZES

Small Docket---Grand Jury Make Important Presentment

The Fall Ass'zes opened here yesterday with Judge Gregory on the Bench. The following Grand Jury was empanelled:

Fred. Fraser, (foreman).
S Crowe.
H. B. Stonex.
R. A. Upper.
S. Macdonald.
J. E. Taylor.
W. Hamilton.
N. McEachern.
Gus Lund.
A Kitson.
W. B. McKenzie.
D. McBain.

There was only one criminal case on the docket, that of Rex v. Goodwin, shooting with intent. This occurred last summer when Bert Hull received a charge of shot from a gun which the accused had evidently meant for H. Shardlow against whom Goodwin seems to have had a grudge. The case was tried by the local police magistrate and the accused was committed for trial. In presenting the case to the Grand Jury the judge said a true bill would be found if there was reasonable presumption of guilt. Seven persons must agree before a true bill can be found. The jury retired and brought in a true bill. C. E. Gillam acted for the Crown, the accused being undefended by Counsel. The charge was of doing grievous bodily harm, or such an injury which will seriously harm a person either permanently or temporarily. The case occupied practically the whole day, the jury returning a verdict of guilty. His honor the judge reserved sentence till to-day when the Court reassembled. The only other case was the election of Andrew Kebler charged with offence against morality. This case was adjourned till to-day in order for the accused to secure counsel, the judge appointing W. I. Briggs to act. In this case when coming up recently before the local magistrate, W. I. Briggs appeared for the prosecution, but, as no other lawyer was available to defend the prisoner, Mr. Briggs was appointed.

GRAND JURY PRESENTMENT

One of the most embracive and significant presentments ever brought up before a judge in this city was made yesterday. Acting on the direction of the Bench the Grand Jury visited the local public institutions including the postoffice, the jury expressing strong opinion that the present building was totally inadequate and that a post office in keeping with the city was absolutely necessary Ta judge agreed on this and promised to forward the jury's representation to the postmaster general.

HOSPITAL IN GOOD SHAPE

The hospital was next visited and everything was found to be in first class condition and up-to-date.

AMPLE FIRE PROTECTION

Class inspection of the schools was made and the children exercised in fire drill which was carried out in a smart and orderly manner. The jury expressed themselves quite satisfied that everything in the school was conducive to the safety of the children.

GAOL CONDEMNED

The Enterprise Brewery was next carefully inspected and everything found to be in good shape.

Much criticism was passed on the Provincial gaol, the jury vehemently condemning it as useless and inadequate.

CONGRATULATIONS ON BRIDGE

A visit was then made to the new Victoria bridge and a unanimous expression of congratulation was passed on the work the of government in this respect

COURT HOUSE CONDEMNED

The Court House came in for much discussion, the jury pointing out that the building was practically useless for the work and in bad condition.

In the matter of the Blackhand in the recent murder of F. Julian the jury condemned the apathy of the government in bringinging the murderers to justice. They recommended that first-class detectives should be appointed throughout the province to stamp out this element and ensure public safety.

The reward off red was not sufficient His Honor admitted that steps might be taken to employ skilled detectives, but as for raising the reward, that would only be an incentive to crime in order to gain the large reward if offered. The jury expressed much dissatisfaction at the indi criminate use of firearms by minors and others and strongly recommended a better enactment of the criminal code regarding concealed weapons.

It was also felt that the provincial police were unable to cope with the serious criminal cases, several of which have occurred in the province recently A high appreciation of the excellent standard of the time-honored traditions of the B. C judicial department was expressed and the manner in which Judge Gregory had upheld them —His Honor congratulated the Grand Jury in the presentment and promised that all matters referred to would be taken up by him with their respective departments.

Sentence was passed this morning on C. Godwin to serve three years in the penetentiary with a recommendation for mercy.

The accused stated that Shardlow was the cause of all the trouble, and that he only had a charge of salt in the gun. He had often asked for shardlow's arrest for breaking into his shack.

The Judge pointed out a man must not take the law into his own hands.

A. Kebler was sentenced to 23 months with hard labor at Kamloops. The lightness of the sentence was occasioned by the fact that the accused was drunk and not capable of knowing what he did.

In a very brilliant address, W. I. Briggs for the defence, conclusively proved this.

TROUT LAKE NEWS

Trout Lake City is rapidly acquiring fame as a rest cure resort. Invalids are finding its bracing air very beneficial to their wounds. Dr. Read, of Ferguson, putting in a large part of his working time on the trail to this city. The logging camps belonging to the W. C. T. Co. of Gerrard, seem to be singularly unlucky in regard to its employees. Three already this week have made severe gashes into their feet, and there are several sojourning at the hospital too.

The city cemetery is to be beautified this fall, a long felt want, as up to now it was almost impossible to find the last resting place of your friends.

Government work is still going on in the vicinity, and last week Mr. A. Abrahamson and crew finished a splendid bridge at Eight Mile.

No little excitement has been caused by the report of the C. P. R. starting operations on the road through here to Arrowhead. We hope the report will prove true, as the road will open up this valley to better advantages than it has enjoyed in the past.

Ross Re-Elected

Fernie, Oct. 25.—Complete returns from Saturday's election show a majority for Hon. W. R. Ross, minister of lands, over Mr. J.W. Bennett, socialist, of 349 votes in a total of 1471. This is a falling off in the total as compared to last year of 378 votes; Ross received sixty-five votes more than at the general election, and Bennett fell behind Harrington's vote by thirty-eight.

Hon. Mr. Ross will remove to Victoria as soon as he has arranged his private affairs. He and his family will take with them the warmest regards of their Fernie constituents regardless of political affiliations. This, his fourth campaign in the riding, has resulted in a clean cut solid majority of the voters, showing beyond doubt that he has the riding behind him in taking up his new and most responsible position.

Mr. Bennett takes his defeat philosophically and is already preparing to carry on the work of educating the voters along economical lines, his faith in the ultimate triumph of the principles for which his party stands being not in the least shaken by Saturday's defeat.

In Fernie there were 617 votes cast on Saturday against 773 last year. Mr. Ross' majority over Mr. Bennett was 215 in Fernie. The only districts carried by Mr. Bennett were Coal Creek, by a majority of 33, and Michel, where he received a majority of 12. Hosmer, a coal-mining town gave Mr. Ross a majority of 53, and Corbin gave him six more votes that Mr. Bennett.

Masquerade Ball

The committee in charge of the arrangements for the third annual masquerade ball under the auspices of Fire Brigade No. 1, to be held on Wednesday, December 7th, at the opera house, are hard at work preparing for the event which promises to be the leading social function of the season this year. The success attained last year and the year before was so marked that there is a greater encouragement again to try and ao even better.

No effort will be spared in the matter of decorations and the praise which was given the decorating committee and those in charge of all arrangements by those who attended on previous occasions will be even more seserved this year. The number of costumes for the ball this year will probably exceed all other functions, and when the public show their interest in the affair, as they are already doing, it is conclusive evidence that the ball of 1910 will be the best yet.

NEW POWER PLANT

An Additional Sum Required to Complete the Work

The new brick power house containing the 900 horse power turbine and 450 k.w. generator is nearing completion and when in operation will be one of the most effective and powerful units for its size in the province. Erection work on the new generator is progressing rapidly while the new stave flume is practically completed.

The city has now reached the second stage of the development of the new hydro electric plant according to the estimate of Smith, Kerry & Chase, the engineers of the work, or at least the development will be reached when the entire work is completed This work according to the engineers' estimates last year, was to have cost $97,750. The money was raised for this on debentures and as far as we are able to ascertain this has all been spent and the work is not yet completed. We have been anticipating a statement from the city which will show the entire cost of the work, how the money has been expended and why the people will be called upon to vote an additional sum to complete the work. So far we have been unable to get a statement which will make it plain to the public and until we do we do not propose to pass any comment on the way in which the work has been conducted.

This, however, we do say, that if the city council wish to ask the ratepayers to vote more money (we believe that an additional $30,000 is required to complete the work) it will be the duty of the council to show them how the debenture money has been spent and why the work was allowed to over run the estimates of the engineers to such a large amount. The engineers too should show their side of the affair

As regards the city's statement, we regret that we have not been able as yet to publish it, as promised in our last issue, but the council assures us that this will be done as soon as it can be prepared.

Crippen Will Hang

London, Oct. 25.—The Crippen murder case came to a climax on Saturday when Lord Alverstone, the chief justice, summed up and after a short absence the jury returned a verdict of guilty of murder against Crippen, who was sentenced to death After an impassioned address by the crown prosecutor, Muir, followed by a charge from Lord Alverstone, which was quite favorable to Crippen, the jury retired and within 20 minutes brought in a verdict of guilty of murder of his wife, Belle Elmore. His Lordship passed sentence immediately and held out no hope. As Crippen left the dock he was supported by the warden, his face was blanched and he was trembling in every limb. He said, "I still protest my innocence." The verdict of the jury caused a profound sensation in the court room as after the address of the chief justice it was quite expected there would be a disagreement or acquittal.

After he was taken back to jail, Crippen had severe fainting spells and physicians have been summoned.

Miss Ethel Clare Le Neve, Crippen's companion in flight, after the matilated body of Belle Elmore Crippen was found under the cement flooring of the Crippen home at 39 Hilldrop Crescent, Islington, was brought to trial yesterday. She is charged with being an accessory to the murder and the crown will attempt to prove that Miss Le Neve knew that Crippen planned to kill his wife, and that she acquiesced in the deed in order to indulge an illicit passion.

London, Oct. 26.—Dr. Hawley H. Crippen, convicted of the murder of his wife, Belle Elmore, the actress, will be hanged on Tuesday, November 8,. The date originally announced was November 15, but today the sheriff advanced the day one week.

To-night, at Selkirk Hall, under the auspices of Mountain View Camp, whist, drive and dance. Good prizes.

FOR SALE—Water frontage, opposite Port Mann, the new terminal of Canadian Northern Railroad. A good chance to treble your money in a very short space of time. Easy terms.—Apply to Revelstoke General Agencies, Ltd.

The Mail-Herald

WEDNESDAY, OCT. 26TH, 1910.

It is gratifying to note that exceptional interest is being taken by many European countries in the working of the Canadian industrial disputes investigation act and it may be of interest to all Canadians to know that the ministers of not less than three European countries have mentioned their intention of introducing measures similar to those adopted in Canada, in the industrial disputes investigation act, and have requested to be supplied with all available information as to the working of the measure since the time of its enactment.

A CHANCE FOR ALL.

In a recent interview on his return from England, the Hon. W. L. McKenzie King, Dominion Minister of Labor, stated:

"There is no duty more incumbent upon those holding positions of trust in our municipalities and governments, both provincial and federal than that of observing the unhappy and unfavorable condition into which through apathy or neglect, large numbers of people of those older lands have been brought, and to guard, by regulation and legislation, against the possibility of similar conditions arising here. With our unpeopled areas, the variety and extent of our resources and our very improving transportation facilities, it will be little short of national crime if the condition of our workers approaches for generations to come what seems today the inevitable lot of hundreds of thousands in the old countries. Just as one observes in Europe a condition for the mass of the people far superior to that prevailing in the far east, so, in Canada, the most casual observer must be impressed with how infinitely better than in Europe are the chances in life for every man, woman and child who has not been specially favored by birth, fortune or privilege."

Joe Martin

In regard to Mr. Joseph Martin's recent articles in politics, the Vancouver Province says:

It was Iago who remarked, "I am nothing if not critical," and we all know from the play the purpose which Shakespeare's character employed his faculty to serve. Iago's whole aim and end was destruction. One cannot help thinking that in politics Mr. Joseph Martin is very like Iago. He certainly has the critical faculty well developed and whether at Westminster, at Ottawa, or at Vancouver, he employs it in the attempt to pull down, or where he cannot do that, to depreciate and disturb. He is a liberal but he is as strongly antagonist to Premier Asquith as any of the Unionists are; he opposes Sir Wilfrid Laurier with a violence in strong contrast to the moderation displayed by Mr. R. L. Borden, and he pursues the liberals of British Columbia with a hostility and vindictiveness that surprise the warmest friends of the McBride administration.

PROVINCIAL ELECTIONS ACT

REVELSTOKE ELECTORIAL DISTRICT.

TAKE NOTICE that I have received objections in writing to the retention of the following names on the Register of Voters for the Revelstoke Electorial District on the grounds stated below.

And take notice that at a Court of Revision to be held on the 7th day of November, 1910, at the Court House, Revelstoke, at 11 o'clock in the forenoon, I shall hear and determine the said objections and unless such named persons or some other Provincial voter on their behalf satisfies me that such objections are not well founded, I shall strike such names off the said Register.

E. EDWARDS,
Registrar of Voters.

Dated this 7th day of October, 1910.

The following persons are reported absent from the district.

The early closing association of London, England, is trying to make arrangements for the closing of London shops at Christmas from Friday night till Wednesday morning. It is understood that practically all shops will at any rate close from Saturday till Wednesday. Christmas Day falls on Sunday this year.

Enterprising Merchants

Although this is a comparatively dull season as a rule for commercial houses, being the period between the fall and winter, yet our local merchants all report a steady business, with considerable promise for a brisk winter. Revelstoke would never be a city at all were it not for the business houses and for the merchants, for it is to them that we must look to keep up the solidity of our city. The establishment of stores and other business houses causes the circulation of money which is the chief factor in everyday commercial life. Visitors to our stores are at once struck by the universal, neat and businesslike appearance and general lively air about them and on looking over the stock they will see that the commodities are all of the latest grades and styles, clean and fresh. We believe we are right in saying that the "bump of business ability" is very strongly marked in Revelstoke, and this has been demonstrated by the attractive appearance of the stores, and the class of goods displayed.

There may be some who say that the goods are of indifferent quality and high priced. That may be, and is it not so all the world over? On the other hand, when it is considered the excessive freight and express charges on all goods shipped here, it is only to be expected that the customer must pay them besides profit to the merchant. But, it should be remembered that reasonable profit only should be made, unless the customers are to be sent to deal with at mail order houses, which is a contingency to be if possible avoided and prevented. A happy medium should be struck which will bring its own reward. Our city ratepayers are assuredly deserving of every credit for the enterprise they have displayed in the stocking of their premises. In every branch the "latest" can be obtained, while a lare selection can be chosen from, giving the purchaser every opportunity of suiting his oe her own taste.

The progressive spirit thus displayed will aid materially in the upbuilding of Revelstoke and it should be the aim of every merchant to prevent even a dollar from being spent in catalogue houses, where he customer has no choice except what is sent him, and goods of probably inferior quality at that. The following instance will show the generally speaking poor policy of thus doing.

"A man went into a hardware store to buy an axe, being shown the article and informed that the price was $1.25, he said. 'Why I can get that from a mail order house for 90c.' 'Very well then,' said the hardware man, 'I will give it to you for the same price, provided that you will do the same with me as you would with them.' 'Alright,' replied the customer,' as he handed over a dollar bill and received back 10c. in change. 'Now' said the hardwareman 'I want 35 cents more to pay express charges)' which the purchaser gave him. 'How much did your axe cost you?' 'One dollar and twenty-five cents,' announced the customer. 'Very good, now give me five cents for money order fees and postage,' which the purchaser had to hand over.' 'One dollar and thirty cents,' was the reply. Not so cheap after all said the merchant, whereupon he picked up the axe, tossed it back on the shelf and told the customer to call in about three weeks for it, as that would be as soon as he could get it from the mail order house.

All said and done our home stores are the place to buy. Money turned in to them will return to keep up the town. Our local merchants are a class of men who give courtesy to all and study both the fat and slender purse and go out of their way to assist their customers in every respect.

A general feeling of prosperous anticipation for a good winter's business is being expressed and this feeling is a sign of the times that should not go by unheeded.

H.M.S. Niobe Arrives

Halifax, Oct. 25.—With the Union Jack at the fore peak, the red ensign with the Canadian coat of arms thereon at the foremast, the Canadian ensign at the mainmast and St. Georges Cross at her stern, all bravely tossing in the fresh breeze, H.M.S. Niobe, the pioneer ship of the Canadian navy, sailed into her home port on Friday, greeted with cheers of soldiers and citizens on the docks and saluted by the guns from the citadel.

B. C. Potentialities

In an editorial the Calgary Herald remarks:

"Financial returns from British Columbia would show that the province is enjoying a period of growth unparalleled in its history, of which J. S. Willison, the editor of the Toronto News, was not slow to recognize during his recent visit west. The wide uplands and sch?duled valleys of the province are about to be penetrated by new railways which will make both possible and profitable thousands of new homes for farmers and fruit growers. The vast fishery wealth has been considerably increased by the recent headland decision at the Hague, whilst the timber wealth of the province has already passed into a byword.

"With the opening of the Panama canal these activities will probably be immeasureably increased. Today the east absorbs a large number of the most desirable immigrants because they can be landed from the old countries for $30 or $40, whereas those who come out west have to pay almost double that amount besides making a long transcontinental journey over a country filled with imaginary terrors. In fact some believe that desperadoes and Indians still abound. When the coast can induce a fair proportion of the million or more immigrants that reach the United States and Canada each year to come to the Pacific coast and settle on the fertile areas the country will begin to undergo scientific development. With a population to justify the utilization of vast water power and natural r?sources, with water freights and the general impetus of the new time the coast should be transformed into a field of vast commercial activity."

Chase Hotel License

The Kamloops Sentinel has the following to say in regard to the license at the Chase hotel:

"For some reason or other the powers that be have refused to grant a renewal of the hotel license to Mr. McConnell at Chase. It is understood that an objection was raised to the renewal on the ground that Mr. McConnell did not live at the hotel but afterwards that flimsy protest was cast aside and renewal refused on any condition. If that be true, and we have it on good authority that it is, then it is time that the general publ,c take a hand in a matter which concerns them just as much as it does the hotel keeper. The hotel at Chase has in its short existence won an enviable reputation as one of the best country hotels in the province. No reports have reached us Ioncerning its management other than what are in its favor. That it fills a want is shown by the excellent patronage it has received. With everything in its favor, then, why has the license been refused? Is there an Ethiopian in the fence some where?"

Must be Enforced

Victoria, Oct. 25.—Information has reached the attorney-general's department that in the cities of Fernie and Cranbrook the provision of the new liquor act, providing that all barrooms shall close at 11 o'clock each Saturday night, is being disregard?d by the local authorities entrusted with administration of the statute law. As a strict enforcement of this as well as other statutory laws rests with the municipalities, the department is not directly responsible to the same extent as in unorganized districts. The law, however, is for the whole province and it would be manifestly unfair to rigidly enforce it in unorganized districts and permit its evasion or violation in cities, consequently, as Fernie and Cranbrook do not take such action of their own volition the necessary steps will be taken by the attorney-general's department to compel such a course.

In the case of the protests filed by Rev. Dr. Chown, general superintendent of the Methodist churches in Canada, that violations of the liquor law had b?en connived at by the resident magistrate in Phoenix, Attorney-General Bowser has received an explanatory report from that official. He, Stipendiary Magistrate, admits that, upon a plea of guilty being entered in a case of infraction of the liquor act, he permitted defendants to go with a severe caution, it being a first offence. Attorney-General Bowser has replied to this report that the magistrate must hereafter strictly follow the law, it being open to anyone feeling himself unjustly or harshly dealt with to apply to the minister fora remission of the fine imposed.

HOW TO MAKE A SHIRT

Procure 3½ yards **BEST MATERIAL** obtainable. This quantity will make the shirt **ROOMY, COMFORTABLE** and **EASY TO WORK IN.**

Sew all buttons on **BY HAND** so they **CANNOT COME OFF. BAR-TACK** all **BUTTON HOLES**, then they **CANNOT BREAK. DOUBLE STITCH AND ANCHOR** all seams so they cannot rip. The result will be a truly well-made shirt. It is cheaper, easier and better, however, to **BUY** the

H.B.K. BRAND

SHIRT

which is made on the above principles.

THE H.B.K. BRAND BUCKSKIN CLOTH SHIRT is a special line and has attached to it a **CUARANTEE BOND,** guaranteeing the shirt **WILL NOT RIP.** Dealers are instructed to replace without any charge to you any **H.B.K. BRAND BUCKSKIN CLOTH SHIRT WHICH RIPS.**

GUARANTEED ANOTHER SHIRT IF THIS ONE RIPS

Sold by leading dealers throughout Canada.

Made and guaranteed by the HUDSON BAY KNITTING CO., MONTREAL.

Pioneer Printer Suicides

Nelson, Oct. 18.— News received from Prince Rupert states that Mr. Dake, one of the pioneer newspapermen of Nelson, has committed suicide at Prince Rupert. He came to Nelson in the early nineties and was one of the founders of the Nelson Tribune, being associated with the late John Houston and the late Chas Ink, of this city.

Peter Pan to Marry

New York, Oct. 21.—Announcement of the engagement of Miss Pauline Chase, the actress, famous as 'Peter Pan' in Mr. Barrie's play, to Mr. Claude Grahame White, the English aviator, was made tonight by Mr. Charles Frohman, Miss Chase's manager.

Miss Chase first met the aviator nine years ago io London.

Let the Asiatics Come

London, Oct. 25.—The Times says there never has been the slightest doubt but that the western provinces are destined to be populated and developed by Europeans. When its future is so w?ll assured the Canadian west can afforo to contemplate with calmness and without fear the trickle of Asiatic immigration in to their huge territories. It will nev er become a torrent, and may be reasonably expected to diminish.

Shiloh's Cure

quickly stops coughs, cures colds, heals the throat and lungs. . . . 25 cents.

Dominion Forest Reserves

The greatest problem of Canadian forestry today is the protection of the forests from fire, and it is one that the Forestry Branch of the Department of the Interior is trying hard to solve.

This protection has naturally been more fully provided for on the forest reserves than on the immense areas of forest which are still unreserved. On these reserves there is a force of rangers, permanently employed, who keep up a constant and careful patrol of the beat assigned them. Like the other rangers, these post up notices (prinsed on a patented sort of cloth, practically indestructible) cautioning against the setting of fire warn settlers in the neighborhood of reserves against carelessness in setting fires to clear land, or for other purposes, and "keep tab" on campers and sportsmen going into the reserves and impresr on them the need of caution in the management of camp-fires, matches, etc.

But in addition to this special measures have been put in practice on the reserves for the prevention of fires. In a word these measures comprise the burning and ploughing of fire-guards, the making of roads, the supervision of settlers in the making of the slashings and the disposal of the resulting brush and the supervision of the spark-arresters placed in locomotives which pass through the reserves.

In the early spring, when the snow has gone from the open country, but while it is still lying in the forest, the rangers burn the grass along the boundaries of the reserves, so as to prevent fires from coming from outside and getting into the reserves. A total of ninety-one miles of such fire guards was made on various Dominion forest reserves during 1909. The rangers also supervise the burning by the railways of grass and brush along their rights-of-way

Ploughed fireguards are also made where possible, not only along the boundaries of the reserves but also in the reserves themselves. In making these guards a strip eight furrows wide is ploughed, and on the danger side another strip, four furrows wide and distant from the first strip four rods, is ploughed. The strip between the ploughed strips is disc-harrowed in spring and fall. During last year the Cypress Hills reserve, in Alberta, was surrounded by a guard of this discription, several miles of guard being constructed. The railways have also ploughed guards along their lines where these cross the reserves.

As opportunity offers, the rangers construct roads through the reserves These are found of the greatest usefulness in case a fire breaks out. Not only can men and supplies be conveyed to the various parts of the reserve reached by the road with despatch, but the roads themselves will often stop a fire, provided it has not attained a large size. Where the fire has reached large proportions, the road can be used to back fire from. Along the roads, too, the rangers can more efficiently patrol the areas under their charge. During 1090 almost two hundred miles of road were cut along the boundaries of the reserves, at an average cost for a road nine feet wide of $12.73. Eleven miles of sixteen-foot raodway was also made into the interior of the Moose Mountain reserve in Saskatchewan, and 78 miles of road cleared in the Porcupine reserve.

By these and other measures the management of the reserves is striving to do away with the constant menace of fire. Further information on these and other points may be obtained in the annual report of the Superintendent of Forestry (especially in the report of the Inspector of Forest Reserves) which forms part of the annual report of the Department of the Interior, lately issued.

The Bishop's Chariot

A prominent Bishop in the west has arranged, we understand, to make a tour of his diocese in a motor car next sprinb. The tour represents a large area and will occupy only a few Ateks motoring, instead of the usual long period.

Lord, how the gospel does fly these days,
In clouds of dust with a petrol haze!
(But it rather tgkes away your breath when you think of the Man of Nazareth.)
The Bishop travels by fire and gas,
The Prophet rode on an humble ass,
Or trudged along in the wayside dust
Yes, he was slow but he got there,
Just the same as the Prelate grimed and hot,
Who rides in his fiery chariot;
Frightens a cow with his every Bound, and wakes the dead with the horn's dread sound.

Exclude Foreign Lumber

Western Canada will no longer be the dumving ground for the surplus output of American sawmills. By the terms of agreement recently entered into between the retail dealers in Manitoba, Saskatchewan and Alberta and the British Columbia Lumber and Shingle association representing the Coast mills, and the Mountain Lumber Mills association, representing the sawmills of the interior, the prairie retailers will no longer handle any lumber originating in the United States.

The arrangement is likely to prove very effective in excluding the American product as the millmen to the south, quoting low krices for their surplus stocks, would be unable to stand the expense of establishing independent yards of their own in the Canadian prairie regions. This will mean that the Mountain and Coast millmen will be enabled to ship annually at least two hundred million additional feet of lumber to the markets east of the Rockies.

A Great Attraction

At the Lyric last night "Twelfth Night" made a big hit. It is Shakespeare's ideal comedy, and judging by the laughter and applause it succeeded in pleasing immensely. Says the Calgary Albertan.

Wm. Yule, as Sir Toby Belch, kept everybody in roars of laughter. Miss Violet Eddy as Viola, was very pleasing, and also Miss Young as Olivia. Mr. Edwards, as Malvolio, played his part successfully and the other members of the company were good. The scenery and costumes were very beautiful and all together it was a successful performance.

Canada Lacks Sentiment

"I am not in favor of fire cracker patriotism such as we find in some countries, but the time has come when we, as Canadians, must realize that our indifferences to the development of a national sentiment is fostering conditions which are a menace to our national life."

Such was the loudly applauded statement of Judge McInnes at the Trafalgar Day celebration at Vancouver on Friday last.

"It is impossible," went on the speaker, "to visit cafes and theatres in Vancouver without having the flags and the rulers of other countries thrust upon you. (Great applause.) Yet when we as Britishers have an opportunity of asserting our patriotic sentiment, our attitude has been almost invariably one of indifference."

"All this must change," declared Judge McInnes emphatically.

October Rod and Gun

Big game hunting is to the fore in the October issue of Rod and Gun in Canada, published by W. J. Taylor, limited, Woodstock, Ont., and sports men intending to try their fortunes in the woods this season will find the number particularly attractive. both stories and illustrations are bound to find responsive echoes with all hunters. In each issue the experiences related are personal and therefore far more interesting than any imaginary tales. In addition to big game stories there are numerous attractive papers dealing with other phases of outdoor life and both the Moose, deer, grizzlies, mountain lions and wolves are all told about and east and west of Canada receive attention in this way. A finely illustrated account of the Dominion trap shooting meet at Montreal is included. Canadian sportsm'n may take up this issue, confident of finding within its pages something to interest them whatever may be their particular inclination in matters of sport. The variety of ground covered is remarkable and probably accounts for the continued and wide interest aroused by the Magazine in the sporting advantages and possibilities of Canada

Queen's Brother Dies

London, Oct. 25.—Prince Francis of Teck, brother of Queen Mary, died shortly after 11 o'clock on Saturday morning. He had been ill for some time with pleurisy.

The King and Queen were at the bedside.

The condition of the Prince became extremely critical early. He had recently undergone two operations.

H. R. H. Prince Francis Joseph Leopold Frederick of Teck, K.C. V. O., D. S. O., was the second son of the late Duke of Teck, and brother of Queen Mary. Born in 1870 he entered the army through Sandhurst and served with distinction in the Soudan campaign, and in the Boer war, where he won his D.S.O. He was not a soldier who won his laurels only by being a prince. In the South African war he served in the emount department, which is noted or its opportunities for hard work, than for an easy life and spectacular display.

Lately the Prince had become interested in hospital work and he pent the last few years in a great and successful effort to free the Middlesex hospital from debt.

REID & YOUNG

LOCAL AND GENERAL

W. J. Curtis, piano tuner, will be in Revelstoke about October 28th.

W. B. Robertson has withdrawn from partnership in the West Kootenay Steam Laundry.

"The Thief" by Henri Bernstun, the greatest dramatic sensation of the age, will be the offering of The Jeanne Russell Co. on Friday night, Oct. 28.

Mr. A. Tyrrell, representing the Maple Leaf Milling Co. of Toronto in the interior, is in town opening a warehouse for his company here.

Nurse Arnold desires to take engagements in general or maternity work. Certificated Midwife. Terms moderate.— Address, Third street, Corner of Robson avenue, Revelstoke

No play in recent years has caused the sensation in New York and London, as Henri Bernstein's drama "The Thief," which will be offered by the Jeanne Russell Co. at the Edison Theatre on Friday night, Oct. 28th.

Amnesia is a disease says the Province that appears to be spreading. It affects the victim in different ways Some forget their names, others where they live, and not a few how much they owe.

The Jeanne Russell Company, promises to excel anything in a dramatic way ever produced in Revelstoke is here. They offer "The Thief" on Friday night.

The Maple Leaf Milling Co., Limited of which Mr. D. C. Cameron, the well known lumberman, is president, are establishing wholesale distributing warehouses in the interior of B. C for their King's Quality flour. Their Revelstoke warehouse is now open for business. The Company have recently acquired the Wheat City Mill at Brandon, Man., for their B. C. business. The daily output of their mills at St. Catherianes, Thorold, Port Colborne and Kenora in Ontario, and Brandon, Man., is now over 13,000 barrels daily.

High Class Company

The Jeanne Russell company commenced a week's engagement at the Edison Theatre on Monday last with "Cousin Kate" as the opening bill. This play is one of the best known comedies of the day and was presented with unqualified success. Miss Russell as Cousin Kate showed her extraordinary talent and histrionic ability, her style of acting being most pleasing while with a charming stage appearance her interpretation of the part was as deligh fully natural. The entire company possess merit of a high quality and have one of the finest repertoires of plays of any company travelling the west.

Last night the famous comedy "The American Girl" was staged and the large audience showed their appreciation by continued laughter and hearty applause. Miss Russell ranks among the brightest stars of the present theatrical sphere, and has exceptional versatile qualities that enable her to carry out any role either in comedy or strong emotion. Well supported by a brilliant company Miss Russell has had a most prosperous tour, drawing large houses wherever they have played. Special mention should be made of the orchestra under direction of Prof. Crail, their selections being much appreciated and forming one of the chief features of the company.

To-night "David Harum" will be produced and it is one of the best plays ever staged. Thursday—"The Squaw Man." Friday—"The Thief." Saturday—"The Heart of Kentucky," as well as a matinee. Special scenery is carried while Miss Russell will feature in some new and handsome gown.

Remember the Hallowen Dance in Selkirk Hall under the auspices of the L. A. of B. R. T., Monday, Oct. 31st. Ladies' tickets 50c., gent's tickets $1.00 td

Twelfth Night Coming

An announcement of more than ordinary interest to the lovers of the best in dramatic literature, is that of the engagement of the superior company of players headed by William Yule and Violet Eddy, in "Twelfth Night."

Shakespeare was manifestly in a holiday mood when he penned this delightfully irresponsible comedy of improbabilities. No great problem clogged the flow of his fancy—no call to right the wrongs of humanity choked the serene utterance of his joyous muse. Even Viola is less strenuous than most of our poetis heroines, and throws herself with a gay spirit into the masquerading adventures through which she passes to comedy's inevitable goal— the hymeneah altar. No less an authority than Mr. Halliwell Phillips describes "Twelfth Night" as "The perfection of English comedy and the most fascinating drama in the language. To be produced at the Edison theatre Friday ber 4th.

It seems to us that the city are running a fine margin with the street lights these days, as the arc lamps are practically never turned on until it has become quite dark. With the high taxes and continual draw on the ratepayers it is ridiculous that the public cannot have the city lit in good time and not have to submit to dark streets in the endeavor of the authorities to save a little money. The frequency of lights failing is another drawback and the moon has only to show just a narrow rim above the hills before the whole system is shut off. Revelstoke pays for electric light—not moon light.

B. C. Fire Chiefs

The fourth annual convention of the British Columbia association of Fire Chiefs and Firemen convened in Cranbrook last week. These gatherings of the fire chiefs of the province are of considerable importance.

Chief McDougall, of Fernie, in a brief address, remarked that their gathering was unique in many respects. They were a body of men whose sole object was the protection of the lives and property of their fellow citizens, and no other organization exclusively stood for such principles.

He went on to congratulate the city of Branbrook upon having made a move in the direction of abolishing the voluntary fire brigade system in the appointment of a paid fire chief.

Secretary Brock read a paper by ex.Chief Deasy, of Nelson, who, unfortunately, was absent, entitled "Only a Fireman," it pointed out the risks the fireman takes. the onerous nature of his duties, and the little recognition he received.

Hon. Chief Fink, remarked that the paper once again drew attention to the fact that the fire brigade was far too often looked upon as of secondary importance only. While there were no fires, no interest was shown in it. When a fire occurred then everyone talked fire brigade for a few days, but the interest was soon gone.

ChiefMcDougall said firemen should have better recognition. When a call occurred no member knew if he would ever return. The risks were great, the reward, nothing.

The secretary then read Chief McDougall's paper entitled "Prevention of Fires." The president remarked its soundness and added that he hoped the provincial government would insist that the railway companies use screens on their smoke stacks.

Chief Wand spoke of the desirability of building proper dividing walls between the adjoining buildings. These, he said, should be of 4 inch concrete or 9 inch brick. Regarding chimney stacks, these, he said, should actually be of 9 inch brick. Too often plans showed them as being of such dimensions, but the contractors only built to 4 inch, trusting that the inspector would not discover the discrepancy.

Chief Needham turned to the question of sparks from engines. He had no doubt that the engines left the shops with proper spark screens. However, he was of the opinion that sooner or later they were removed, or made useless, in order to give a good draught to the engine. He hoped the government would take steps to enforce the use of proper screens at all times and so prevent that cause of fire.

Chief Bathie of the C.P.R. remarked that in regard to the abuse of the fire screens as suggested by Chief Needham the C.P.R. had very stringent rules and any fireman or engineer found with a defective screen was liable to instant dismisal.

Secretary Brock read an article on 'Fire Protection in Schools, Colleges and Homes." He added that although they had done their best to get fire drills made compulsory in schools, as far as legislation was concerned, the matter was unfortunately not much further ahead. Shief McDougall said that in Fernie, he drilled the children regularly. Recently in an experiment carried out before the school trustees, when a fire was started in the basement, the five hundred children were all outsid? in seventy-five seconds, while the fire was put out in the same time.

TheSecretary then read Hon. Chief Fink's paper "Forest Fires.' in which the writer pointed out that railways, campers and land seekers were mostly to blame for fires. He suggested that the railways should patrol the lines during the summer and in the event of fire put every section man to work at once. Conductors, he thought, should also help, by reporting any outbreaks at the nearest station,

Chief Thomson suggested the use of oil as fuel by the railways as a fire preventive method. Secretary Brock said that he thought that the laws in regard to the prevention of fires, were now all that could be desired, except as regards the part the railroads played. He would like to see it made compulsory for the railways to clear the right-of-way. He pointed out the new law which would not allow of the lighting of any fire during the summer months for the purpose of destroying of under brush.

Another motion that produced a long discussion was in regard to the exemption of firemen from payment of the poli tax. Several members participated in this, the universal opinion being that firemen were just as entitled to exemption as police and militiamen. After various phases of the question had been threshed out, it was unanimously agreed that the executive committee should submit a letter to the minister of finance calling his attention to this matter and urging that all firemen be exempt from the poll tax. It was also resolved that each fire chief should take the matter up with the local member of the legislature and secure his support. It was further resolved to communicate with Provincial Fire Warden Gladwin, and ask him to co-operate with the fire chiefs in this effort.

The local delegates Asst. Chiefs Needham and Brock, report having been well entertained at Cranbrook, and claim that much good will be gained by such conferences.

At the Empire

An exceedingly clever presentation of the farce comedy "A Bachelor's Honeymoon," was given by the Gilson and Bradfield company at the Empire last evening. Playing under a serious handicap (Miss Ainsworth, the leading lady, was prevented from playing through illness), they succeeded in maintaining a continuous round of merriment from start to finish, and thereby attained the aim and end of farce comedy. Broad humor, clever burlesque, these are the essentials of success, and these the company are capable of in an unusual degree.

The action of the play centres round the personalities of a widower and a lady Erstehile, the cynocure of gilded youth in a New York theatre, to whom he has been secretly married, and the quandry in which the pair are placed on receiving unexpected visits from the bridegroom's aunt (a lady of the strictest sect of Pharisees, but withal a lady of fortune, whose good will the couple naturally desire to gain The bridegroom's unexpected twin daughters and two of the bride's former flames, provide material for a series of situations laughable in the extreme.

Miss Macy Will, who played the double part of the maidservant and Juno Arbuckle of the New York billboards, is an extremely clever and versatile farce comedy actress, and she filled Miss Ainsworth's place with uncommon success.

J. B. Wilson, who took the part of Benjamin Bachelr, has a horse laugh, which in itself is irresistible while the whole piece is carried along by its rollicking broad wit and humor.

The vaudeville turns lightning sketches of an original type by Charles A. Williams and the dance and song by Miss Will, were very cleverly done.—Edmonton Journal

The Papal decree urging that children of seven years and thereabouts e confessed and receive communion, as been sent out to the Catholic ierarchy throughout the world and he members of it are required to in truct the pastors in their respective urisdictions in the new rules.
