Year 1910 Shows Much Progress ---Future Outlook Bright

The year 1910 has now run its course and vanished into the dim shadowland of the past. Like all other years that most men have seen it has brought varied fortunes to peoples, places, communities and countries. Yet it is the good fortune of the people of Revelstoke, looking at it from a local sense, that its joys far exceed its sorrows, and it leaves behind it a cup overflowing with the promise of good things for the future. With the exception of the loss of some loved ones and fellow citizens, pioneers of the old days as well as the young and budding children, providence has dealt kindly with our people and the city has been free from any serious epidemic of sickness and disease. We deplore greatly the record of the terrible disaster at Rogers Pass where many of our citizens answered the last call while on duty, causing desolation and sadness in many of our bright homes. "To them be the greater reward."

In almost every line indicative of the growth of the city Revelstoke shows for the past twelve months a most commendable increase. The homes have multiplied; its schools and churches have steadily progresses; new business houses and enterprises have been established and the merchants all report that the business of 1910 was the best both in volume, briskness and cash returns of any previous year, all denoting that money is being more freely circulated and that the people are comparatively on easy street generally. No one can deny that Revelstoke has more than filled the expectations of even the most sanguine of her citizens and there are a few who will contradict the statement that the year 1910 has been one of undoubted prosperity and improvement. It has been said by some of our southern neighbors that Revelstoke is an old town, that she is slow, and that if ever she was to be atown, the event should have taken place long ago. The first impeachment will be admitted; Revelstoke is an old town, with nothing of the mushroon type about it. That she is slow, has now been positively denied by eaeryone.

Throughout the district during the past year times were bright and money freely circulating. Land, mining, timber and property deals being brought to profitable conclusions while marked development has been shown in all the natural resources of the country.

Our citizens need not look back at the past except to gather its lessons and there are some. Revelstoke's star is in the ascendent and its zenith will come in due course. The future is bright with promise. Revelstoke can stand on her own merits and can show advantages of her own; inducements enough for the hardiest prospector, the enterprising business man and the monied investor. The future of our city is indescribably connected with the growth of this district and West Kootenay generally of which Revelstoke is the most important centre, the hub of the Interior commerce and the centre of all the inland railway lines—in fact the great junction of Interior British Columbia.

With the development of the surrounding mineral wealth, vast timber areas, extensive agricultural districts and physical geographical advantages for transport with the upper country, south, east and west, which at once give our city a distinct claim as a distributing centre, Revelstoke's prospects for 1911 are very bright.

In the face of natural resources surrounding us and with the spirit of steady progress aiding us, Revelstoke can never be deprived of her position The people should remember this, and both in dull times and prosperous moments stand by their city and by their individual aid, help in the upkeep of civic pride and privilege for the community's sake. Therefore, whatever can be done this coming year by our people to encourage the advancement of their home city to advertise her resources and in advancing trade, should be entered upon now.

The lesson of 1910 must not be forgotten. The reward is not far off, and to those, who, in past years have borne the burden and heat of the day, to those who for years have worked hard for the advancement of Revelstoke her interests and developmentt to them be the great honor, and it is the duty of those who today have benefitted by the past year's toil, and of those who will soon be called upon to take their share of city responsibility—we refer to our boys and girls—to profit by the experiences of others and add still more to Revelstoke's name and to her progress and prosperity.

Nineteen hundred and ten has passed, a year of sound improvement all round! Let nineteen hundred and eleven be a better one.

Moving pictures Friday and Saturday at the Edison Theatre.

Atthe end of the present year, Mr. E. P. Davisl K.C., who for the past nineteen years has acted as chief counsel for the Canadian Pacific Rail way company in Vancouver will sever his connection with that company to become counsel for the Canadian Northern Railway company in this province.

WEDDING BELLS

McCANNELL-BURGET.

A pretty wedding took place on Wednesday afternoon at the residence of Mr. and Mrs. Wm. Snider, Third street, when their eldest daughter, Elizabeth Margaret Burget, was united in marriage to Mr. Donald A. McCannell. The ceremony took place under a large floral bell in the drawing room, which was prettily decorated for the occasion.

The groom was supported by his brother, Mr. Hume McDannell, while Miss Alma Burget the sister of the bride, acted as bridesmaid. The ceremony was performed by Rev. M. G. Melvin, and was witnessed by a number of friends and relatives of the contracting parties, including the groom's mother, Mrs. J. McCannell, of Kamloops, and his sister, Mrs. Robertson, of Vancouver.

The bride, who looked charming in a beautiful costume of white satin, and carried a bouquet of choice cut flowers, was given away by Mr. A.E. Miller. The bridesmaid was becomingly gowned in a costume of pale blue crepe de chene and carried a bouquet of carnations. The groom's gift to the bride was a pearl necklace and pendant; to the bridesmaid a plain gold bracelet, and to the best man a gold watchchain and locket.

After the ceremony the whole party sat down to a dainty lunch, at the conclusion of which all joined heartily in drinking to the health and happiness of the bride and groom. An unusually large number of handsome presents testified to the popularity of the newly married couple. The bride's travelling costume was a beautifully tailored gown of wistaria colored diagonal cloth, with hat to match.

The bridal party left on No. 97 for the coast, where they will spend their honeymoon, going as far south as San Francisco. After their return they will take up their residence in Revelstoke on Third street.

The Mail-Herald joins with their many friends in wishing Mr. and Mrs McCannell a long, happy and prosperous married life.

SOMES-SOMES.

A quiet but pretty wedding took place on Wednesday, Dec. 21st, at the home of Mr. and Mrs. Fred Somes, when their only daughter, Miss Grace Elizabeth, was united in marriage with Mr. Timothy James Somes. The ceremony was performed at five o'clock in the afternoon by the Rev. C. A. Procunier. The bride, who was attired in a handsome myrtle green travelling gown, was attended by Miss Doris Bennett, prettily dressed in white silk The groom was attended by Mr. Geo F. Somes, as best man. The house was tastefully decorated with holly, while the flowers were large snow white Japanese chrysanthemums. At the conclusion of the marriage ceremony, dainty refreshments were served, after which the young cuople left on 97 for a trip to California.

Upon their return they will reside in Revelstoke. Mr. and Mrs. Somes are two of Revelstoke's well known young people.

BENT-OVERTON.

A quiet wedding was celebrated on Thursday last week between Mr. Percy Bent, loreman of the Lawrence Hardware Co.'s tin shop and Miss Grace Winnifred Overton, both well known in this city. The Rev. R. J. McIntyre performed the ceremony and the happy couple left the same evening on a honeymoon to Calgary and other points east.

Mr. and Mrs. Bent will make their home in Revelstoke.

Kamloops Land Deal

The most important real estate deal which has gone through in Kamloops for a long time was consummated last week when F. E. Simpson obtained the selling control of 750 lots in Herman Beckman's addition.

This land now bids fair to become the choicest residencial section of a city rich in charming locations. Lying as it does well above the level of the city the view from the Beckman addition is unsurpassed.

The property will be placed on the market at an early date at reasonable prices.

THE NELSON SHIELD

Lord Strathcona's Gift to Revelstoke School

The public school has received the handsome shield from the British & Foreign Sailors Society, which Lord Strathcona is presenting to every school in Canada. The shield is made of the pure copper of Lord Nelson's own flagship, stamped with King Edwardjs cipher, E.R. VII., by Royal command and provided by the Lords of the Admiralty. The shield belongs to the Revelstoke school, and must not be taken away. It may be used as the principal directs; for competition in sports, regularity punctuality or any form of achievement by scholars; or as an award for essays on the Empire, sea power exploration, colonization, citizenship or kindred subjects. It is intended to stand for faith in God, the unity of the British Empire and the importance of duty in the home, the school and in all walks of life. The shield itself is of copper, richly chased mounted on an oak background and contains a bas relief of the famous old "Victory" Nelson's flag ship, and a portrait of the great Admiral himself, with the immortal motto "England expects that every man will do his duty" with the date October 21st, 1805.

Underneath is a place to inscribe the name of the trustee for the shield with the words "Palmam qui meruit ferat." The shield will be a valuable acquisition to the public school.

Matinee Monday

At the Edison Tneatre on Monday (New Yeas's Day) there will be given a matinee at 3 o'clock in the afternoon and the regular performgnce in the evening at 8 o'clock. A first-class programme is being arranged.

Manual Training

The Nelson school board has decidedto introduce at the next term, opening January 2, manual training and domestic science at the public schools. The domestic science subjects at first taught will be plain sewing, darning and knitting, but the board expects later to furnish a room for cookery classes. It is proposed that boys and girls from ten years of age upwards shall be taught these new branches of the curriculum. The cost of installing the benches and tools will be $1,200. Of this sum the Provincial government, in accordance with the Act passed last session will pay three-quarters, or $900. The government will also pay over 50 per cent, of the salaries of the additional teachers.

New Canadian Coins

Ottawa, Dec. 30.—The Finance department is awaiting the approval by King George V. of his effigy to be used on Canadian gold coins. As soon as this is done and the dies are forwarded, the coinage of gold will begin at the Ottawa branch of the royal mint. This will likely be next month.

The Season's Greetings

We wish a Merry Christmas and a Happy and Prosperous New Year to All, and take this opportunity to thank our Friends for the great business we have done this year.

The year 1910 has probably been the best in Revelstoke's history, even our electric light bills have grown, and provided the gas engine at the power house does not play out, we hope to see still better times in 1911.

In many parts of the city there are trees hanging their branches too low over the sidewalks, to the inconvience of pedestrians and the frequent destruction of head gear. The police should see that the owners of trees whose branches obstruct the sidewalk especially when weighted down with snow, should be ordered to trim them several feet clear of people's heads.

It is a sign of the times to see many of our western cities adopting the single tax system. One has only to look at Vancouver and Edmonton, and see the number of new buildings and homes that have gone up since the single tax system was inaugurated. It would encourage the people of Revelstoke to erect buildings on their vacant lots if they had no extra taxes to pay.

Professor Henry Drummond once said: "To make cities, that is what we are here for. He who makes the city makes the world. After all, though men make cities, it is cities which make men. Whether our national life is great or mean, whether our social virtues are mature or stunted, whether our sons are moral or vicious, whether religion is possible or impossible, depends upon the city. The problem of getting the right sort of civic government is the problem of getting the right sort of men; and this problem of getting the right sort of men is the problem of getting the right sort of citizenship—alert, active, progressive, optimistic."

MANUAL TRAINING.

Revelstoke could well follow the example of Nelson in the matter of inaugurating a class for manual training and domestic science. The curriculum of our high school, while acting as a finish for the ordinary scholastic education of our children does not teach them anything that will be of practical service to them in after life. Practical training in what is needed most today to fit our boys and girls for their position among the masses. We require something more than a business course for our girls, many of whom are growing up in absolute ignorance of ordinary domestic science, and the duties of a house wife

Skill in manual ability and technicalknowledge in the many industrial arts and crafts on the part of our growing youth and domestic science instilled into our young women are needed to develop the race, and cope with the great economical problems of the day. In the daily struggle for existence the practical man or woman will win out, and to bring this about the duty devolves on our schools to lay the seeds and mature the young shoots of budding man and womanhood with every day technical education and so enable them to take their place in life and aid in the development of the country and the perfecting of the nation.

"HAPPY NEW YEAR."

Tomorrow is New Year's Day, and 1910 has gone over to join the great silent majority and a new one 1911 will take its place. It is indeed an age of progress! Revelstoke has in the last few years grown into perhaps the most important city in the interior of British Columbia. The population has increased and buildings have multiplied. Old established firms have enlarged their premises and increased the business capacity. Great strides have been made in municipal improvement and it is safe to say that 1910 has been prosperous and has seen Revelstoke, slowly but surely forging ahead. The prospects of the coming year are bright and judging from the past and with the most conservative estimate of the future outlook, the people of Revelstoke have every reason to congratulate themselves on the favorable position now occupied by the city and the Mail-Herald feels that it may without any sense of inappropriateness wish all its readers "A Happy and Prosperous New Year." While we thank our patrons for their generous assistance during the past twelve months we invite a continuance of the same during the coming year and trust that our efforts for the good of the community the welfare of the city and the upbuilding of citizenship have not fallen and will not fall on unprofitable soil. We look back with satisfaction on the year that is past and see in it an augury of bright things to come. "In today already walks tomorrow and let us all put our shoulder to the wheel of Revelstoke's progress and prosperity."

New coins will be issued in England on January 1. They will bear the head of King George, in place of that of the late King Edward.

CHRISTMAS DAY

Peace and Good Will Pervades Revelstoke

Christmas of 1910 has passed 6into history quietly with nothing in particular worthy of remark to distinguish it from its predecessors. The weather was mild and with a heavy fall of snow the people were reminded that Christmas could not be spent in a fitting manner without this old fashioned and necessary completement.

BIG CHRISTMAS TRADE.

The stores report a heavy Christmas trade and it is pleasing to see that our citizens have patronized their home merchants and so cause their money to circulate in the city for the benefit of the community at large.

The police report the city very quiet and the drunks on the streets were conspicuous by their absence.

FULL AND PLENTY.

Hotels and restaurants had prepared excellent menus for their patrons and on all sides goodwill and good cheer were demonstrated.

PEACEFUL CITY.

The duty of placing fellow subjects in durance vile at such a season is a most unpleasant task, and the police, with their good judgment and sense of what is right in enforcing the law, especially against those who at this season are celebrating not wisely but too well, were able to ensure a peaceful city without being forced to take particularly drastic measures.

CHURCHES WELL ATTENDED

Christmas as a religious festival is strongly observed in Revelstoke, and especially Christmas falling on a Sunday, our citizens attended in numbers, in the morning the various places of worship where special services were arranged.

The hospital came in for its share of good cheer, each patient being presented with a pretty pot plant by the Ladies' Guild, besides other forms of Christmas joy.

PEACE ON EARTH.

Monday following Christmas was fully observed as a holiday. The chief attractions were the moving pictures at the Edison Theatre, an excellent programme being provided afternoon and evening, and the Merchant of Venice at the Opera House in the afternoon and the Three musketeers in the evening by the Sanford Dodge company, both being fine productions, and attended by large audiences.

Special attention was paid to the inmates of the city gaol whose fate it was to drag through the long day without a touch of good fellowship shared in by their more fortunate brethren on the outside. For them recompense was made in the way of a more substantial bill of fare than that usually served and Xmas was made as merry as possible under the circumstances.

Christmas has thus passed, a season of joy and gladness, when the past is buried and by-gones are by-gones, and when the hand of forgiveness, of friendship and charity is extended by all and to all. Our city and our country enjoy peace and prosperity and in Revelstoke there are few who cannot enjoy some measure of Christmas cheer and look forward to beginning soon another year in hope and confidence.

Beaver Cigar Factory

Revelstoke, B.C., Dec. 14, 1910.

To the public:

Our attention has been called to the fact that some person or persons have set afloat rumors to the effect that the Beaver Cigar Co. are to remove their factory from Revelstoke

We take this means of informing our customers and the smokers of "Beaver" and "Fritz" cigars, that this report is utterly false and groundless.

The Beaver Cigar Co. is here to stay, business was never better with us, nor future prospects so bright. We assure the people of Revelstoke a better than ever "Beaver" cigar, in the city of Revelstoke.

Wishing our customers and patrons a Merry Christmas and a Happy New Year, we are,

Annual Meeting of L.O.L.

The annual meeting of Revelstoke L.O.L. 1658, was held on December 16th, in the I.O.O.F. hall, Second St west, and the following officers were elected for the year 1911:

Rev. H. P. Thorpe, W. M.
W. J. Armstrong, D. M.
Rev. R. McIntyre, Chaplain.
H. McKinney, Rec. Sect.
T. Steed, Fin. Sect. and Treas.
W. G. Watson, D. of C.
J. H. Armstrong, Lect.
W. Woollven, 1st Committee Man.
I. Morgan, 2nd Committee Man.
H. Hay, 3rd Committee Man.
Wm. McMahan, 4th Committee Man.
W. Andrews, 5th Committee Man.

The officers were installed by the Grand Master of B. C., Rev. R. McIntyre.

1658 is very fortunate in having three Grand Lodge Officers as members of the lodge, viz., Rev. R. McIntyre as Grand Master, Rev. H. P. Thorpe Deputy Grand Chaplain, and J. H. Armstrong Grand Director of Ceremonies.

After ceremonies, the lodge presented Thomas Steed with a handsome electric lamp. Mr. Steed, in acknowledging the present, was not able to say much as he had been taken by surprise, but claimed that he was but doing his duty to the members and the lodge; however, the members of the lodge think that he is entitled to more than he got, as Mr. Steed is considered the father of the lodge.

A pleasant half hour over supper, was spent, after which the members dispersed to their homes feeling that a good start had been made in the lodge work for the year 1911.

Buffalo Bill

About the end of January, the Edison Theatre management will put on the Buffalo Bill Wild West and Pawnee Bill Far East shows, in moving pictures. These pictures contain a complete reproduction of this world famed Wild West Show. This is the last of these great Western events as both Buffalo Bill and Pawnee Bill are now on their last world's tour. Watch for particulars.

Nurses Organize

An effort is being made by the Graduate Nurses' Association of Vancouver to organize all the nurses of the province for the purpose of securing an Act of Registration for which application will made to the government of British Columbia. The object, says the Province of Vancouver, is to raise the standard of nursing in the province and to protect the public from being imposed upon by nurses who are not properly qualified. The Act is not designed to prevent anyone from engaging in the work of nursing, but simply to make it possible for those employing nurses to distinguished between members of the profession and those who have not the requisite qualifications.

Strike Averted

Chicago, Dec. 30.—The wage dispute between the Brotherhood of Locomotive Engineers and sixty-one railroads north and south of Chicago, has been settled. There will be no strike. Instead, the engineers get an average increase of 10 per cent. on their 1910 wage scale, giving a Christmas present of approximately $192 for each of the 23,000 men involved. Specifically, the agreement provides for a raise of 40 cents a day for all engineers, with differential in advance of 25 cents for 125,000 pound engines, an added differential 25 cents a day for the small Mallet engines, and a diff?rential of $1 a day for the heaviest Mallets.

The chief reasons given for accepting the terms are the suffering and loss which would attend a general western strike.

C.P.R. Prize Gardens

With the object of improving the appearance of the station gardens along its lines, the Canadian Pacific Railway Company offers prizes every year for the best photograph of a station garden on the various divisions of its system. The awards for this year have just been made out and the prize for the British Columbia division has been carried off by Mr. James Calvert, station agent at Grand Forks, while Mr. George Hunt at Haney, secures the second prize.

The awards were made by a committee at the head offices in Montreal. 6

Cigarette Curse

The immigration agent at Lethbridge, who has been unusually busy deporting undesirable immigrants recently, says that nine out of every ten of those returned to the United States because of their inability to support themselves or for other reasons, are cigarette smokers.

Compulsory Wireless

Victoria, Dec. 23.—An act making it compulsory under penalties of fines or imprisonment for owners of steamers to install all passenger steamers of over 400 tons, and all freighters of over 1200 tons, with wireless telegraphic apparatus has been passed by the Ottawa government. This act will have the effect of causing many vessels in these waters not yet equipped to have wireless apparatus installed.

No Royal Viceroy

Ottawa, Dec. 30.—That the Duke of Connaught will not be next Governor-General of Canada is the growing conviction in official circles in Ottawa. The opinion is based on a substantial hint of a semi-official nature received from the mother country.

It was announced shortly after the death of King Edward that it had been his wish that his brother, the Duke of Connaught, go to Canada as Governor-General.

King George is said to have discovered that the duties devolving upon a king of England are too onerous for one man. King Edward was assisted in official functions by the Duke of Connaught and the Prince of Wales. King George, however, finds he has only one competent assistant to represent him and this is his uncle. Consequently His Majesty wishes to retain him in Great Britain.

New Train Service

Winnipeg, Dec. 31.—The intentions of the Canadian Pacific Railway to establish early in the spring a direct through service between Toronto and Vancouver is indicated by the retention of trains No. 1 and 2 between this city and Vancouver during the winter months. In previous years trains in winter were operated only between this city and Calgary. This winter they will run through to the coast.

B. C. Public Works

Victoria, Dec. 30.—Reports and appropriations for various public woeks are already coming into the provincial works minister, Hon. Thos. Taylor, in connection with the preparation of his annual contribution to the estimates, always the heaviest of the provincial list. It is roughly estimated that the demands upon the department this year will aggregate in nesessary expenditure considerably more than fifty per cent. in excess of last year's—which were far and away the heaviest yet on record.

Moving pictures Friday and Saturday at the Edison Theatre.

Y. M. C. A. Notes

The Christmas service Sunday was well attended, and through the curtesy of the Meebodist Junior choir, who rendered some very fine pieces, Mr, Pagden who sang a solo, and Mr. Wilson, who played a selection on the violin, there was a program worthy of a much larger attendance than we had, although there were over fifty out.

Monday, the 26th, was a record breaking day for attendance, there were over one hundred and fifty men and boys using the various privileges that the association had to offer. The J.B.C.'s played the Maple Leaf team at bowling, the J.B.C. team to take better care of your body this against the Maple Leaf's 1905. There were two good scores made, Fred Lyttle made 220 and Edwin Corley made 594.

In the afternoon there was basketball game between the Corley team and Bruce's team, Bruce won the game with a score of 30points against Corley's 18 points.

January the 2nd, 1911, we are to have our annual exhibition, the boys have been working very good for the event and we hope to put on an exhibition that willbe very entertaining to the public. The program will consist of the following gymnastic and calesthenic events: Fancy marching by the juniors, parallel bar work by the advanced class, Medlay drill by the intermediate horizontal bar work, Prof. A. Mutt and some picked leaders, dumb bell drill by the juniors led by Charles Field, Professor Neverslip a French clown, has been engaged to give us some hair raising stunts on the Roman rings. German horse class, one of the most exciting events in the program will be a basketball game between the Intermediate team and the Tinkers. The Ladies' Auxiliary will furnish refreshments at the close of the entertainment. There will not be any charge for any of the evening's enjoyment, come and bring your friends.

The New Year will soon be here and there will be many of us that will be making new resolutions, one resolution that you should make is to eake better care of your body this next New Year. There are a good many reasons why you should do this. By better care of the body we mean getting enough sleep, not over eating, and getting plenty of fresh air, sunshine and exercise. The eternal hustle of modern business life makes it imperative that we keep well. This we cannot do if we follow the dictates of our daily environment. We must have some artificial means of doing what our fathers did in the natural course of their daily lifel This does not mean that we must take exercise like medicine, as a matter of duty, but we must go about it joyfully and have congenial companions. We aim to give you a pleasant time and try to make you forget your work and anything that may trouble you, thus relaxing the tired brain centers. One of the first ambitions that a boy gets is to have bigger muscles than any of his chums When he reaches matured manhood his boyish ambitions still linger, intensified if anything. You need no more muscle than your occupation demaads, but that should be kept in good condition. Two periods a week in the gymnasium will do this for you.

Express Rates Reduced

Ottawa, Dec. 30.—Judgment has been delivered by the railway commission as a result of their inquiry into express rates in Canada. The board decides that the tariffs of the Canadian companies are too high and that the forms of contract between shippers and the companies are unfair and must be replaced. New tariffs must be filed within the next three months.

The opinion is expressed that the capitalization of the companies is far too high, yet the companies are really only agents for the railways. The companies pay for station facilities much more than they should, the presumption being that this is a convenient way of disposing of excess profits.

The Dominion Express Company, controlled by the Canadian Pacific Railway is capitalized at two million dollars. All the actual cash ever paid into company, so far as the board could ascertain, was $24,500. The assets now stand at something less than $600,000, yet two millions of fully paid-up stock is outstanding.

Out of a total revenue of $21,473,696 earned by the Dominion Express in seven years prior to 1909, $13,409,240 or 63.9 per cent. was paid to the Canadian Pacific Railway. During the same period, the Canadian Express paid $8,467,307 or 55 ker cent. out of $13,362,266 to the Grand Trunk Railway. The board states that there is no reason for the existence of separate companies to handle the express business.

A rate reduction of at least 10 per cent. on through express traffic is ordered, local rates to be correspondingly cut.

State Against Church

Madrid, Dec. 30.—Despite Carlist and Clerical attempts to impede the progress of the measure the cortes today passed the famous "padlock bill." Virtually providing for the separation of church and state in Spain and restricting the establishment of religious orders.

The death is reported of Frank Shipley, who is said to have met with fatal injuries in a head-on collision at Vancouver, Wash., on Thursday. The deceased was well known in Revelstoke, having run out of the city for many years as an engineer on the C.P.R., being popular in a wide circle of friends.

A broken electric wire and a short circuit caused a small outbreak of fire early yesterday morning in No.1 fire hall. The overheated metal scorched into the woodwork of the ceiling which caught fire. Kruger, the janitor, who was sleeping upstairs was awakened by the smoke and hastily running down the stairs turned in an alarm. With the aid of some of the firemen who promptly responded to the call the flames were extinguished before any damage of much consequence was done.

The Burgomaster, a musical comedy in a new dress, thanks to Gus C. Weinburg, who, by the way, will be seen in his original part of Peter Stuyvesant, the Burgomaster of New Amsterdam, will be the strong attraction at the Opera House tonight The book has been slightly altered to better it, the dialogue brightened up and dancing numbers all gone over, and several new ones introduced, many catchy, lilting, whisteable songs interpolated, while all the original hits have been retained. The costuming, re-arranging, and a general complete renovation will be noted. Mr. Weinburg will be supported by a company of fifty people, includingthe original Kangaroo girls.

Miss Ethel Wrigley will resume lessons on January third at her new studio, McKenzie avenue, next to the Mail-Herald office.

Mrs. J. P. McLennan entertained a number of friends at bridge yesterday afternoon, the handsome prizes being won by Mrs. S. G. Robbins and Mrs. A. McRae. A dainty tea was served.

Miss White has resigned her position as matron of the hospital, to take effect at once. Miss McFarlane matron of the Chase hospital and formerly on the local nursing staff, will take charge here pro tem, until the hospital directors can secure another matron.

The Burgomaster

The Burgomaster, which comes to the Opera House tonight, is perhaps the best musical attraction we will get this season. Manager Wm. P. Cullen, who has given us many good things, by the way, is the producer, and he has spared neither time or expense in making this season's production better than ever before. The cast is headed by Gus C. Weinburg, who plays Peter Studyvesant, the original Burgomaster, and has never been seen to better advantage than in this part. He is supported by a company of 50 people, in which the principals are most of the originals. Mr. Cullen always makes a feature of his chorus, and this season's presentation is no exception, as the press wherever they have played speak of it as being the best singing and dancing one seen in years. The production is brand new, also the costumes, which were purchased at Marshall Fields in Chicago this summer.
