KAMLOOPS BLAZE

Fire Destroys Valuuble Property in Neighboring City

A disastrous fire broke out in Kamloops on Monday night, starting in the old C.P.R. freight shed, now used as a warehouse. The flames spread with great rapidity across to other buildings and dwelling houses. Several freight cars loaded with merchandise were completely destroyed. The fire brigade did most splendid work and had the fire under control only after gallant and persistent efforts. A spark from a passing train is supposed to have caused the fire.

Martin O'Brien, a former resident of this city is said to have lost considerably, having a large quantity of goods destroyed. The total loss is estimated at somewhere near $40,000 and the C.P.R. losses $20,000. Those suffering were Stevens & Allen, R. McCall, J. H. Clements, Okanagan Milling Co., J. Milton, S. Brooke, Ramsay & Philip, Thomas & McClughan, as well as several residences. A large amount of loss is covered by insurance.

Real Estate Booming

Real estate is still on the move in Revelstoke, during the week just past the brokers and agents reported many sales of city residential property, as well as outside acreages, and fruit lands. Prices are holding out well and an advance is looked for in the course of a few weeks. A number of outside investors are coming into Revelstoke shortly and will leave considerable money here.

Revelstoke is on the eve of a very prosperous era and with the advent of the new proposed railways she will without doubt be the leading distributing point of the interior of British Columbia.

Gun Club Shoot

The following are the scores for the handicap shoot for the Hunters Arms Co.'s vase and Dupont Powder Co.'s fob, 50 birds, both barrels.

McGee, 16 yds.	46
Kipp, 16 yds	44
Sturdy, 18 yds	40
Devine, 16 yds	36
Lawrence, 16 yds	32
Harkin, 16 yds	30
Cronyn, 16 yds	26

Kipp wins the vase and Sturdy the fob.

Weekly shoot, July 6th ...

Barber	21
Mulholland	20
Kipp	20
Sturdy	19
Harkin	18
Devine	17
McGee	16
Lawrence	15
Cronyn	12
Munro	11
Blakely	7

Barber wins the button in class A and Kipp in class B.

Mine Re-opened

Nelson, July 12.—The famous old Highland mine at Ainsworth, which at one time was the largest shipper in Canada—in one year shipping one-third of the lead produced in the Dominion on which the Dominion government paid $27,000 in lead bounties—and which was closed last January by the operating company, has been acquired by the Kootenay Silver-Lead Mines, Limited, a new company just incorporated. The purchase price has not been given out, but it is a large figure, and one commensurate with the value of the property.

The mine has been re-opened, and from forty to fifty men are at work on the property, including the mill force. The equipment of the mine includes a 200-ton mill, operated by water power from Cedar creek, a 5,500-foot aerial tram, compressor, boarding house, assay office, and other usual features. The mill will at once be overhauled and additional machinery wil, be installed, which will increase the amount of recovery 20 per cent. and it will probably be in operation on the new basis within ten days.

There is at least twelve months of ore in sight at the present time. Besides taking this out the company will run a big crosscut tunnel to cut the ore body about 300 feet below the present workings

With improvements to plant the company may be expected to bring this famous silver-lead property well within the zone of profitable production.

In a short time the famous Highland name will again appear prominently in the list of shipping mines and this will be co-incident with renewed prosperity to the town of Ainsworth, while one more mine will be added to the lengthy list of large producers in the Kootenay.

ORANGE CELEBRATION

The Orange Lily was in blossom yesterday throughout the whole of B. C. as Tuesday, July 12th was the 220th anniversary of the Battle of the Boyne, and was celebrated by the 10,000 Orangemen of British Solumbia. The principal celebration of the interior took place at Kamloops a large number of visitors flocking into the city. The usual procession and speeches by prominent Orangemen were held, besides a first-class programme of sports and out door gamet. The Revelstoke City Band took part in the parade and a large contingent of local Orangemen and their friends swelled the crowd.

In the baseball game between Revelstoke and Kamloops, the former scored another victory. At first it looked as if the 'Stokers would get the worst of it, but as the game progressed our boys got warmed up and made rings around their opponants, running up the score rapidly. At the finish the score stood at 21-5 in favor of Revelstoke.

Police Court

Cahrles Carter, a negro, blew in from the south this week and commenced a general harangue against all white people generally, claiming predominancy for the black race over the white. If he had stopped at this no harm would have been done, and his vain threats of taking on the and was arrested by the police for everybody, would hade been only a joke, but the negro berame abusive, and was arrested by the polic? lor assault of the worst type. The magistrate imposed a fine of $50 and costs or five months in jail. The negro is now serving his time at Kamloops.

Several cases of drunk and disorderly, using bad language, etc., were disposed of with more or less heavy fines.

Raise Trainmen's Wages

Montreal, July 12.—President Hays of the Grand Trunk Pacific Railway, has announced that the company propose to give an increase in pay to employees in train and yard service, equivalent to that recommended by a majority of the conciliation board which has already been accepted by the C.P.R. The average increase is about 18 per cent.

Bumper Crops

Victoria, July 12.—The provincial department of agriculture reports general fruit crop conditions as follows: Very satisfactory medium to full crop of all kinds of fruit, including raspberries, cherries, peaches, apricots, plums, crabs, early and late apples. To date weather has been excellent, moisture in good supply, with no excessive heat or cold weather. Fruit is developing well, and everywhere is ten days to two weeks in advance of last year. Losses from insects, injuries and diseases are at a minimum, and fruit promises to be clean and of high quality.

Early apples are already showing a great deal of color, and for appearance it it evident that fruit will be even better than usual. Cherries and raspberries are going forward from many points now; full supply in about a week. Apricots will reach the markets commencing about July 20, and in full supply about ten days later. Peaches will be a heavy crop at all Okanagan points. Not only is the yield on each tree good, but there are many places now shipping for the first time.

It is estimated that about one hundred cars will be shipped to the prairies, commencing August 1 to 10, and full towards the end of the month. Fruit will be of good size and high quality. The crop of plums and prunes will also be good, and by express and freight probably one hundred cars will go to prairie points from Okanagan, Boundary, lower mainland and island points, principally. Apples will be plentiful; even old orchards report the largest crop in their history. There will be a great acreage of young three bearing also, and at least three hundred cars will be shipped to Alberta, Saskatchewan and Manitoba points.

Bank Statement

The feature of the latest bank statement is the fact that for the first time in the history of Canadian banking the liabilities of the banks exceeded the one billion-dollar mark. The assets of the banks passed the billion dollar mark over a year ago, and have been steadily going up until they are now $1,215,000 000. The general figures indicate healthy business conditions, the most striking feature being heavy increases in current loans in Canada and call and short loans abroad.

4,000 HOMELESS

New Brunswick Town Utterly Wiped Off the Map

St. John, N. B., July 12.—Fragmentary reports of a serious fire which broke out in Campbelton, on the I. C. R., in the northern part of the province, late to-day indicate that the town is practically destroyed. The fire broke out says a Chatham message, in the Richards' Company's spindle mills and spread rapidly throughout the town. Among the properties destroyed are the I. C. R. station, house and freight sheds. The Great Northwestern telegraph office is burned and all communication with Campbelltown by either telegraph or telephone is cut off.

Full particulars of the disaster at Campbelltown are not yet available, as the wires are down. The loss is estimated at $2,000,000 and nearly 5,000 people are homeless. Only one death is reported, a child named Doyle being suffocated. Five sawmills, woodworking factories, foundries and other industries; six churches, six hotels, schools, residences, railway property, everything in the shape of a building destroyed except seven houses on the outskirts' The militia department has been asked to send tend tents and blankets down from here. Funds are being raised to help the victims of the fire.

LATER

Bathurst, N. B., July 12.—The fire which destroyed the town of Campbellton, the largest cedar shingle center in Eastern America, burned 1000 buildings, made 6000 persons homeless and caused a financial loss of early $3,000,000. Of the entire town only seven houses are standing These were located on the outskirts. There seems to have been no loss of life.

Manitoba Elections

Winnipeg, July 12.—Yesterday's provincial elections have resulted in returning Premier Roblin's government to power with practically the same majority. Twenty-seven conservatives were elected to fourteen liberals and though returns from some of the polls are not yet complete the result will not likely be altered. All the ministers were elected by about the same majority as in the previous election.

The Forest Burners

Again news of the most serious ort comes from the Rainy River Valley regarding the ravages of forest fires. The centre of the outbreak this time is the village of La Vallee, on the Canadian Northern, quite near Fort Frances. The district turns out enormous quantities of telegraph poles and railway ties, and the railways will themselves be among the heaviest losers by the fires, for much of the timber burned is owned by them. The despatch from La Vallee says that "unless rain comes soon this splendid timber region will be wiped out of existence." If the rain comes that will be the last we will hear of it till another fire destroys some other area and leaves a blackened waste behind it.

Nine-tenths of these forest fires are absolutely preventable. The great majority of them are the result of criminal carelessness. The lunacy of piling dead timber and brush cut from the railway right of way all along the tracks may be seen all thru' the forest regions of Canada. An incendiary seeking to destroy the forests could not provide a more certain means of doing so than passing locomotives showering sparks upon decaying wood. Year after year the practice is continued, and year after year the forests burn.

Yesterday The Globe suggested that the Conservation Commission, and the Railway Commission should hammer out some effective and enforcible regulations to end the waste of the Dominion's forest wealth. If the law as it stands does not permit the prosecution of the railways for littering their right of way with decaying brush, and of the lumbermen, who themselves greatly increase the danger of fires by failure to burn the branches left behind in lumbering operations,, then the Conservation Commission should make such a noise at Ottawa and at the various Provincial capitals as will compel the attention of legislators. Another quarter of a century of forest-burning will see Canada on the stool of repentance now occupied by the United States. It does not take long to burn down the forests, but it will take a century or two of patient labor to restore them.—Toronto Globe.

Motherhood in Canada

Some comment has been made recently in British newspapers on the lack of nurses in Western Canada and evidence of many cases of hardship has been stated relating in particular to the position of women about to become mothers who are isolated on outlying farms. The publicity given to this state of affairs is likely to lead to increased recruiting for Colonial service among the largely overcrowded ranks of the nursing profession in Britain. It appears that there is in existence an association formed for the object of sending qualified nurses to Canada, the Victorian Order of Nurses, founded at the Diamond Jubilee of Queen Victoria. Lady Aberdeen, wife of the Lord Lieutenant of Ireland, is actively interesting herself in the movement on this side, and she is in touch with Lady Grey and other leaders in Canada.

No harm has, however, been done by the publicity given to this question for it is clear that the supply of the nurses was not increasing to any thing like the extent of the demand. One thing that hinders quicker recruiting in Britain is that however extensive their experience, the nurses on arrival in Canada have to go through a period of district training before they can take up their stations!

The Mail-Herald

UNION LABEL

WEDNESDAY, JULY 13TH, 1910

The London Daily Mail's Dominion Day editorial says that the mother country rejoices in the strength of her daugnters and looks with pride upon her strength. As Canada has grown in wealth and population her influence also has grown both at home and abroad. No stronger proof of this could be given than the attitude of foreign nations toward Canada.

The following from the Vancouver Daily Province should be interesting to local readers:

"Guelph occupies a unique position among the cities of the Dominion. The municipality owns its own street railway, light and heat plant and the Guelph Junction railway, leased to the C.P.R. for a term of years for $30,000 a year. The rate of taxation for the present year is 14½ mills, the lowest of any city in Canada. It is estimated that the present low tax rate will be reduced one half within ten years, and, in another decade, the office of tax collector will be abolished.

In reviewing the revival of mining in British Columbia and the increased investments in our mineral properties by outside capital "Finance" says: There are comparatively few absolute failures in the operation of real mining companies. Last year there was lost in banking thirty-five million dollars, or more than there has been lost in mining in twenty-five years. The safety and security of mining enterprises legitimately established and conducted, are as good as in any conservative ventures, and they have this additional advantage that profits are almost certain to be larger.

CLEARVIEW

We are now offering for sale lots in this most attractive suburb, its close proximity to the C.P.R. Shops and Offices and its sheltered situation makes it especially desirable to those home-makers who wish to add gardening to the general attractiveness of their holdings. The snow goes fully two weeks before any other part of the Town, and being sheltered from wind and storm, fruit trees flourish exceedingly, while its high position ensures good drainage and freedom from evils peculiar to low-lying lands. It is attractively wooded with spruce, fir and poplar and the lots we now offer are the best value ever offered. The view of mountain and valley is unsurpassed and a more charming residential part it would be impossible to find anywhere in the City. The present is the time to buy.

REVELSTOKE GENERAL AGENCIES, Ltd.

REAL ESTATE, LIFE, FIRE AND ACCIDENT INSURANCE

DUST NUISANCE.

The dust nuisance this year is perhaps worse than it has ever been before, much of it being caused by the recent excavation for sewers, leaving the surface of roads and lanes soft, and loose. This state of things is most trying to pedestrains and others using the streets, while the goods of merchants are spoiled by the continual deposits of filth on their surface, moreover the constant inhaling of dust is prejudicial to health. The water cart which goes out daily and deposits a very moderate quantity of water on the business section of the town is practically useless, and if the dust nuisance is to be stopped, drastic and more practical means will have to be adopted. Not until the roads are properly surfaced up and hardened with macadam will Revelstoke be free from dust. It seems possible, however, that were crude oil employed to spray the streets, the nuisance would be effectually overcome. The oil could be landed here very cheap. Experiments in sandy parts of the United States, with crude oil has proved very successful.

MT. BEGBIE TRAIL

In our last issue we published an article from an interview with Prof. C. B. Sissons, in connection with the proposals to construct a trail to Mt. Begbie, and the advantages it would have as an attraction for tourists. We have not the least doubt but that were opportunity afforded the general public, the excursion to the summit of Mt. Begbie would be indeed a popular one, provided that the trip were not too arduous. It is only natural to expect that a climb of this kind must be fraught with a certain amount of work and exertion which makes the conquering of any peak all the more satisfying. If a trail were made to a point where the actual ascent would be begun the difficulty of reaching that point, which is the principal draw back now would be eliminated. The idea of a trail is a good one and if carried out, there would be another magnificient excursion available for tourists We believe the matter is being actively taken up by the Mountaineering Club, and it is to be hoped that their efforts will be successful.

Electric Fertilizers

New York, July 12.—The newest thing of scientific soil tilling is the "electric farm." Ex-Judge Thomas H. Williams, of Brooklyn, is making the experiment. He has purchased a two-acre plot at East Northport, L. I., on which he is trying to grow crops with the aid of electricity.

While the general scheme is not entirely new. Judge Williams thinks he has improved on the methods employed by experiments near Dresden, Germany. The electric currents were passed through atmosphere surrounding young p lants. It was found that while the growth was accelerated to a slight extent it was not enough to warrant the expense of the electric equipment.

Judge Williams has strung poles about a dozen feet above the ground in which seeds are planted, wires combining high ampereage and low voltage. Windmills are used to generate the electricity. Part of it is running into storage batteries for use on days when there is no wind to work the mills.

Judge Williams tried the plan on a small plot at Central Islip, L. I., and is said to have advanced the growth of his plants three weeks. He is now experimenting on a larger scale.

Seriors Charge

Seattle, July 12.—That James J. Jeffries' pitiable showing in his fight with Jack Johnson was due to dope administered in some mysterious manner several hours before the battle, is the frankly expressed opinion of Dr. A. Lee McClanahan, of Seattle a ringside spectator at the fight.

"When I aad other physicians examined him Sunday afterooon he was in perfect physical condition and his mental condition was normal," said Dr. McClanahan. "I never saw a better physique or finer condition in my life, and I have examined many athletes and fighting men."

NOTICE

Notice is hereby given that at the meeting of the Board of Licensing Commissioners for the City of Revelstoke, to be held next after the publication of this notice for a period of thirty days, the undersigned will apply to the said Board for permission to transfer to A. P. Levesque and Thomas Walsh, of Revelstoke, the retail liquor license now held by me in respect of the premises at Revelstoke known as the Union Hotel.

Dated July 9th, 1910.

MILITARY ORDERS

R. M. R. F COMPANY

The members of F. Company, R M R. must turn in all military stores, rifles and accoutrements at the Drill Hall, on Thursday night (tomorrow) July 14th.

By Order.
CAPT. R. SMITH, O.C.

WATER NOTICE

NOTICE IS HEREBY GIVEN that an application will be made under Part V. of the "Water Act, 1909," to obtain a licence in the Revelstoke Division of West Kootenay District.

(a) The name, address and occupation of the applicant. The Corporation of the City of Revelstoke, a municipal corporation under the laws of British Columbia.

(If for mining purposes) Free Miner's Certificate No.

(b) The name of the lake, stream or source (if unnamed, the description is) A stream flowing off Mount Revelstoke in a valley in a southerly direction and emptying into the Illecillewaet river, a point about half a mile west of Greely Creek Bridge.

(c) The point of diversion——at a point about 2500 feet above sea level on said stream.

(d) The quantity of water applied for (in cubic feet per second) ten cubic feet per second.

(e) The character of the proposed works—10 and 12 inch pipe line to connect with Bridge Creek.

(f) The premises on which the water is to be used (describe same). The Corporation of the City of Revelstoke

(g) The purposes for which the water is to be used. General municipal purposes.

(h) If for irrigation describe the land intended to be irrigated, giving acreage.

(i) If the water is to be used for power or mining purposes, describe the place where the water is to be returned to some natural channel, and the difference in altitude between point of diversion and point of return

(j) Area of Crown land intended to be occupied by the proposed works—about 12 acres.

(k) This notice was posted on the ——— day of ———19 , and application will be made to the Commissioner on the 15th day of August, 1910.

(l) Give the name and address of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet.

I. Haney, F. Marino, J. E. Smith, W. Crawford, balance Government land.

(q) The boundaries and area of the municipality are as follows:

All that piece and parcel of land situate, lying, and being in Kootenay district, in the Province of British Columbia, bounded as follows.—

Commencing at a point where the southerly limit of the Canadian Pacific Railway right-of-way intersects the Columbia river; thence following the left bank of the Columbia river down stream to the point where the easterly limit of Ford street intersects the Columbia river; thence northerly along the east side of Ford street to the centre of Third street; thence easterly along the centre line of Third street to its intersection with the west line of Rokeby avenue; thence southerly along the west line of Rokeby avenue to its intersection with the northerly limit of Fourth street; thence along the northerly limit of Fourth street to the easterly limit of Boyle avenue; thence southerly along the easterly limit of Boyle avenue to its intersection with Sixth street; thence easterly along the northerly limit of Sixth street to its intersection with the westerly limit of Connaught avenue; thence southerly along the western side of Connaught avenue to its intersection with the northerly limit of Eight street; thence easterly along the northerly limit of Eight street to the westerly limit of the right-of way of the Arrowhead branch of the Canadian Pacific Railway; thence the same course for seven hundred (700) feet to the easterly limit of the proposed townsite; thence at right angles with Eighth street to a point eight hundred feet (800) north of the northerly limit of the Canadian Pacific Railway main line right-of-way thence in a westerly direction and parallel to the Canadian Pacific Railway right-of-way to the bank of the Columbia river; thence down stream to the point of beginning, and containing five hundred and ninety-five (595) acres more or less.

(r) Approximately the number of inhabitants is 4,500.

(s) The place of the proposed reservoir for storing—the present city reservoir.

(t) The means by which it is proposed to store the water—Tank.

CORPORATION OF THE CITY OF REVELSTOKE,

NOTICE OF ASSIGNMENT

NOTICE is hereby given that pursuant to the "Creditors' Trust Deeds Act, 1901" and amending acts, Doyle and Allum, Limited, of the city of Revelstoke in the province of British Columbia, Merchants, did on the 27th day of June, A. D., 1910, assign all their estate, credits and effects which may be seized and sold under execution to William B. Robertson of the said City of Revelstoke, Agent, for the benefit of their creditors;

AND NOTICE is hereby given that a meeting of the creditors of the said Doyle and Allum, Limited, will be held in the office of William B. Robertson, corner Second Street and McKenzie Avenue, Revelstoke, B. C., on Saturday, the 16th day of July, A. D., 1910, at the hour of 2 o'clock in the afternoon.

All persons having any claims against the said Doyle and Allum, Limited, are required to forward particulars of the same duly verified, to the assignee at Revelstoke, B. C., on or before the 31st day of July, 1910.

AND NOTICE is hereby given that after that date, the assignee will proceed to distribute the proceeds of the estate having regard only to the claims which he shall have received notice and he will not be responsible for the assets or any part thereof so distributed to any person or persons of whose debt he shall not then have rereived notice.

Dated ae Revelstoke, B. C., this 2nd July, 1910.

Harvey, McCarter & Pinkham,

B. C. Timber

The London Times devoted a page of a recent article to an illustrated article on "The Timber and Lumber Industry of British Columbia." In course of the article the following statistics are given: "It is interesting to compare the acreage under forest of the leading countries of the world. They are as follows:

Canada	1,657,600,000
United States	450,000,000
All Europe	720,000,000
India	140,000,000
Australia	40,000,000
Japan	28,000,000

"Canada, therefore, has more timber than all other timber countries and continents combined and of her enormous forest area there are 182,750,000 acres in British Columbia, or more than in India, Australia and New Zealand combined. British Columbia is, in fact, the last great forest reserve."

The writer of the article remarks: "The British Columbian is pretty wide awake as to the growing value of 'the last stand' which belongs to him, but he cannot provide all the capital required by himself. When the American comes in and offers it he accepts; but he would rather take it from the British investor. Only unfortunately the British investor needs much persuasion before he can see a good thing. The American seems to see it on his own account. And he has seen it pretty quickly and pretty clearly in the case of British Columbia timber." Turning to the future, the writer remarks:—"Enough has been written on the future of the demand and the supply. It now remains to give some warning as to the future as it concerns the British investor. There can be little room for doubt that the timber of British Coldmbia will provide an opportunity for investment that will shortly reach the dimensions of a 'booml' In fact, its exploitation in the British market has begun already. Quite a short time ago capitalist in London would look at it, although the Americans had already begun to come in, and now own 75 per cent. of the available interests. But this year three timber companies have already been floated in London, and more are in process of formation. Options are being snapped up as soon as they are brought over. Careful investment will bring great returns, and fortunes will be made out of timber in London as well as on the Pacific slope. But the danger will be of the swamping of the sound companies by rotten ones, holding properties in which the timber is not of the best, or, what is just as bad, properties in which the timber is good, but the distance from either coast or inland communication will render it unsaleable at a profit, or only saleable at a very small profit. Good timber and accessible timber are the sine qua non, and the companies that do not offer them are only to be avoided. If these pitfalls are escaped, it will be able to be said, as it was once said of leather, 'there is nothing like timber.' Its enhancement in value did not cease even during the recent great trade depression in America, for while everything else was going down, timber was going steadily up. As long as it is to be had the world will have it, and since in a few years but little will be obtaineo elsewhere, the world must come for it to 'the last stand.'"

C.P.R. Emergency Outfit

A new feature that will be appreciated by the travelling public, is about to be introduced on the Eastern lines of the C.P.R. A recent circular provides that all passenger trains shall be equipped with an emergency medical outfit, in charge of the conductor. The conductors and crews will be instructed in "first aid" to the injured, and will be given standing according to qualification In case of accident many lives are lost through lack of prompt medical attendance. It is understood that the service will be extended to all parts of the company's lines.

Earl Grey returns to Canada this month for a further term as Governor-General, and will remain until His Royal Highness the Duke of Connaught arrives.

Ames Holden Shoes

You will buy "The Traveller" shoe this year because you will hear about it—hear it often—hear of it from the makers, and they know everything that is in it, from the last touch of the outsole to the top of the uppers. You will hear of it from the dealer, and he knows "The Traveller" shoe from what his customers tell him, and you'll buy it again because your own judgment will tell you it's a different shoe—a better shoe—a shoe that not only fits, but always stays fitted, because the unseen parts are built on honor—there is no "sham" in "The Traveller" shoe. Remember they'll fit—we have a last for most everybody.

ASK YOUR DEALER FOR AMES-HOLDEN SHOES.

Watch CAMROSE Grow

KEEP YOUR EYE ON CAMROSE

Watch CAMROSE Grow

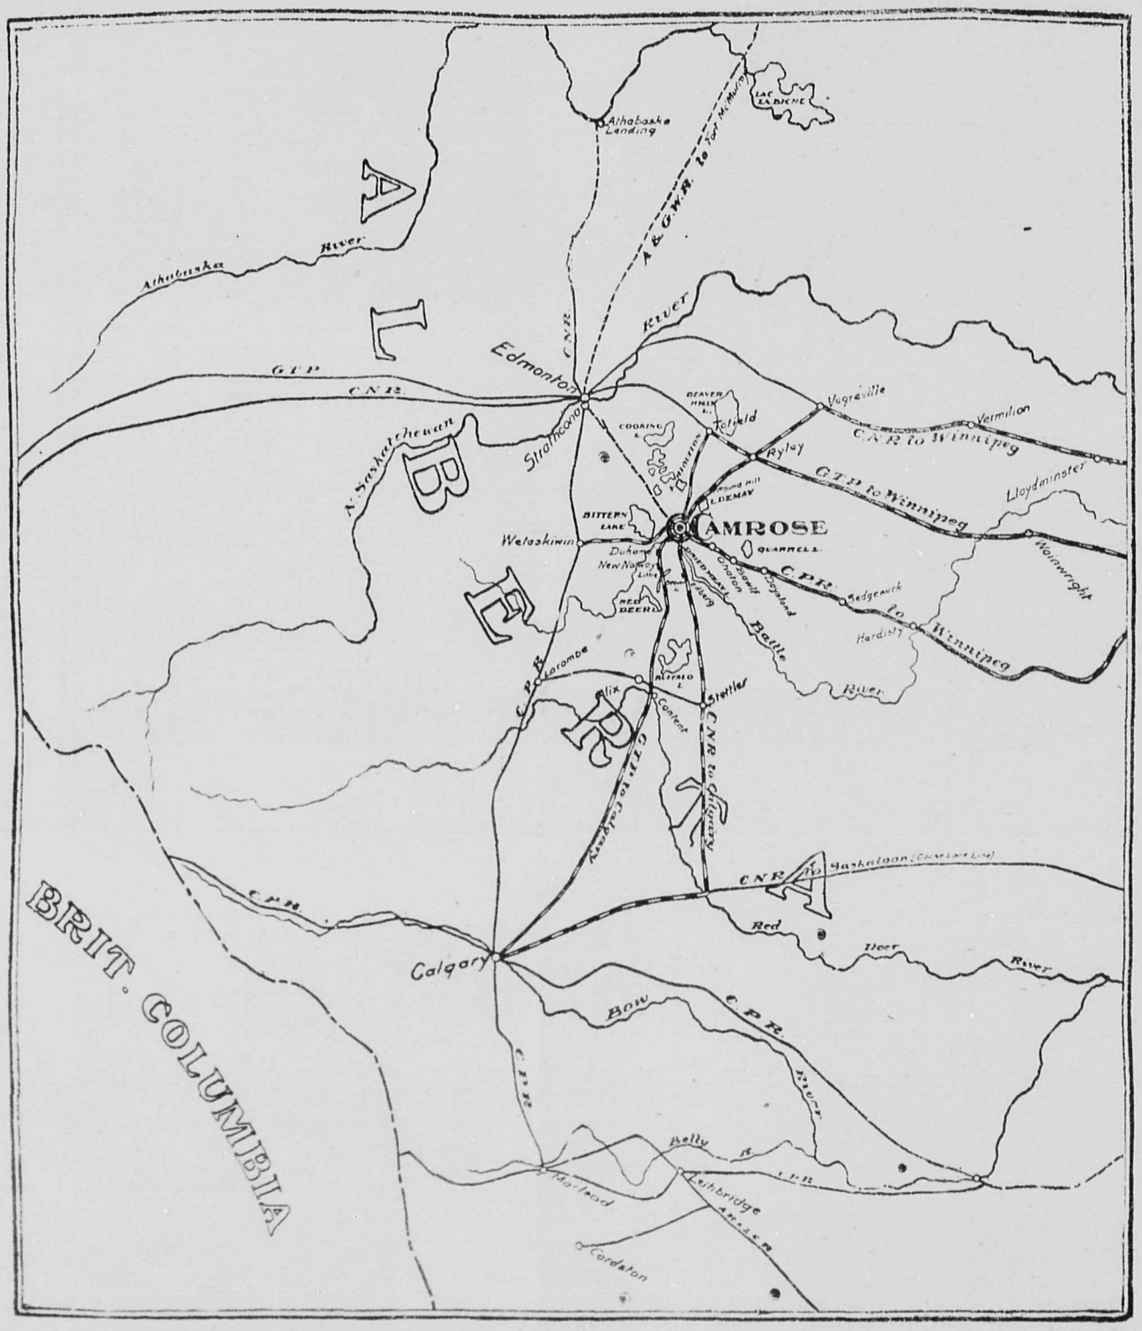
The Spokane of Alberta

Study the Location of Camrose

Camrose has advantages and facilities that are unequalled in any other city in Canada today. Located in the centre of a rich agricultural district, at the junction of the 3 great transcontinental lines—the C.P.R., C.N.R., and G.T.P., it at once becomes a natural distributing point.

In addition to these advantages Camrose has five coal mines in actual operation one mile from the city, where coal can be bought for $2 per ton. With an abundant water supply and cheap fuel Camrose is destined to become an important manufacturing and industrial centre.

No better evidence of the future of Camrose as a city of great commercial importance could be given than the fact that several of the largest wholesale firms in Canada have already located there and are erecting imposing wholesale structures.



Your Opportunity is Right Now

to make a judicious investment. Large fortunes have been made in new cities in small investments, and the man who puts his money into real estate in Camrose is always sure of coming out at the big end of the financial horn.

"Now" is the watchword of the wise. The Grand Trunk Pacific Addition is the best buy on the market. Buying lots at the present prices means big profits in the near future. Two years to such a town as Camrose means development unconceived. Two years to the G.T.P. Addition means prices trebled.

Buy Now and Save Money.

GRAND TRUNK PACIFIC ADDITION

Lies within Three Blocks of the G.T.P. Depot, the closest in sub-division on the market. Its location is ideal, lying high and dry and level, in the west end of the city, the best residential section. Lots are 25 x 120 feet, and are being offered now at $175 for inside lots and $200 for corners. TERMS: One-third Cash, balance in 3 and 6 months. Experience teaches that men who made their wealth from real estate were those who bought early. Buying Now means large profits in the near future. Buy while the Buying is Good.

Inside Lots now Selling at $175, Corner Lots at $200

REID & YOUNG

LOCAL AND GENERAL

The C.P.R. telegraphers in B. C. have been granted a seven per cent. advance in salaries.

The Ladies' Aid of the Methodist church have postponed their lawn social until August.

Recently Vancouver had a cleaning up day and about 400 wagon loads of dirt were scraped together and carted out of the city.

The water throughout the whole of the city water system will be turned off tonight at nine o'clock for several hours. Repair work at the tanks has necessitated this.

Supt. Duck, of the power house, reported at the last council meeting the output as per meter reading. Single phase, 8,610 k.w., three phase 30,925 k.w. The plant is working in O K order.

An appeal for $1,500,000 on behalf of the Church of England in British Columbia is published in England, the influential signatories including the Bishop of London and the Duke of Argyle.

Canada is justly lauded as the land of promise, but in dealing with our financial institutions it is an essential requirement that your promise be supplemented with the autog aph of a substantial endorser.

On account of the high income tax which is imposed by the government upon all those whose name exceeds £3000, a large amount of British capital is being sent abroad and a considerable portion is finding its way into Canada.

A letter published from the Archbishop of Canterbury to the Dean of Quebec on July 4, in reference to a paragraph in a New York paper, reporting that King Edward died a Roman Catholic, says the report is preposterous and baseless.

Capt. Hon. Charles Stewart Rolls was killed when an aeroplane fell to earth at Bournemouth yesterday. Thousands witnessed the accident. The aviator was trying for an alighting prize and suddenly the machine turned somersault. Capt. Rolls was the hero of the recent double channel flight.

The Teddy Bear has been supplanted in London by Caesar, the late King's dog, who has been reproduced in toy form as the newest plaything for children. He has been copied as faithfully as possible, and his rough coat made of plush and all his joints movable. Attached to his collar is a medallion with the inscription "I am Caesar," which King Edward had engraved on the silver medallion the original Caesar always wore fastened to his silver collar.

In our last issue in the paragraph of the narrow escape from drowning, the wrong name was inadvertently printed. The facts of the case were that on Friday afternoon the little son of Mrs. Dunnell was playing on a log on the river close to the bank, when he fell in. L. M. Smythe, D. Robinson, Hf Sawyer and Dan McDonald hearing the little fellow's cries for help ran to the spot a distance of nearly half a mile. Fortunately a Chinaman nearby pulled him out before he became exhausted.

Money to loan on real estate.—H. N. Coursier.

Fred Forest and Chas. Carlson, of Albert Canyon, were in the city on Saturday.

Monday this week was the hottest day of the summet so far, the highest recorded temperature being 93 in the shade.

A petition signed by 25,000 Canadians against any alteration in the form of the Royal oath, has been presented to parliament.

At a meeting of the license commissioners on Saturday night, an extension of time of one month was granted on the transfer of the license to Levesque and Walsh to the Union hotel from the Windsor.

Shortly before nine o'clock on Monday evening an alarm of fire was raised and turned into No. 1 Fire Hall. It was found that a large pile of rubbish, dry leaves and other inflamable material dumped on the river bank behind Miss Della Powers had become ignited and the pile being well alight the flames were creeping along the dry grass towards the back buildings of the house. The brigade with a good stream of water soon extinguished the blaze before much damage was done.

The Vancouver Province of Monday says: Mr. T. Kilpatrick, superintendent of the C.P.R. at Revelstode, is a guest at the Hotel Vancouver. He stated today that extensive improvements are being made in the mountain division in the Selkirks and Rockies. A snow shed will be built this summer at the scene of the fatal snowslide of last March, near Rogers Pass, in addition to repairing other snowsheds in that vicinity. West of Revelstoke a twenty-four mile section of line is being relaid with eighty-five pound rails, replacing eighty pound rails.

LOST—Ladies' Gold Watch, with Gold Seal Fob attached. Name Leona D. Cook in back of case; number of case 3354427, number of movement 1185740. Finher will please retuen same to Bews Drug Store and receive $5.00 reward.

Photographs—Every person holding one of our contracts please call early and receive what same calls for, or have them extended, as this offer is only good for a few days longer. Note address, Ross Studio, Tapping Block, corner Victoria and Connaught.

SOCIAL AND PERSONAL

Some enjoyable vocal numbers brought the evening to a close.

Mrs. A. E. Miller will not receive Thursday nor again until October.

Misses Bessie and Lyla Brundrett of Vancouver, are visiting Mrs. P. Hooley.

Miss Gertrude Dent left on Sunday on a few weeks visit to Mr. J M Doyle at Nelson.

Mrs. W. Snyder and her two daughters left this morning for a visit to Spokane.

Mrs. R. H Urquhart will not receive tomorrow (Thursday) or again till September.

Mrs. R. Stewart of Winnipeg is visiting in the city the guest of Mr and Mrs. J. L. Stark.

Mrs. B. A Lawson and Miss Lawson left last night on a visit to Battleford, Sask., as well as eastern cities.

On Tuesday afternoon Miss Elsie Hooley entertained a number of her girl friends in honor of her cousins, Misses Bessie and Lyla Brundrett.

Mr. and Mrs. J. G. Allen of Vancouver, who have been the guests of Mr. and Mrs. A. McRae for a few days, returned home on Sunday accompanied by Master Chas. McRae, who will spend the vacation on the coast.

On Saturday evening the Sunday School Teachers and several members of St. Peters Church met at the home of Mrs. J. D. Sibbald to say "Farewell" to Miss Hall who for a number of years has been connected with that form of church work. Accompanied by a neat address of appreciation, Mrs Procunier presented Miss Hall with a handsome fountain pen as a token of affection and esteem by her co-workers and friends. Miss Hall in reply said "It was a matter of regret that she was leaving Revelstoke and her work in the Sunday School, which she considered one of the most important branches of church work and she thanked those kind friends for such a handsome token of their esteem.

WANTED—Good Planer man. Apply Kernaghan Lumber Co, Ltd., Salmon Arm, B. C.

FIELD NOTES

Mr. and Mrs. Neil and Little Lou have returned from a holiday trip to Calgary. Mr. S. Neil of Golden relieved Mr. Neil in the butcher shop during his absence.

Mr. and Mr. McBain, who have been visiting their daughter Mrs. Rev. Powlett for their home in Winnipeg last Tuesday.

Dr. and Mrs. Gordon will shortly take up residence in the Turnhill Cottage, recently vacated by Mr and Mrs. Evans, who have moved to Revelstoke.

The closing exercises of the Public School here took place here on Thursday, June 30th. A nice programme was arranged but on account of hour set for holding same, 11 to 12 very few of the parents and friends were allowed to attend. Miss Brown is now enjoying the holidays with her parents in Revelstoke.

Mr. J. H. Crump left here on Sunday, July 3rd, to take command of his position as train master for the C.P.R at Vancouver; his family will join him in a few days. All are sorry to lose Mr. and Mrs. Crump and family but congratulate them on their promotion and the large and better advantages of Vancouver. The best wishes of their many friends here accompany them to their new home.

Mr. A O. Wheeler, president of the Alpine Club, was in town a few days last week making preparations for their camps which are now being held: one at Yoho near Field and another in Paradise Valley near Laggan.

The Post Office which for years has occupied the rear of the general store has been removed to the drug store of J. Buckham & Co. It has all been done over several new boxes installed in the general delivery part and about 300 private boxes; this is decidedly a change for the better. We have now an up-to-date post office and an efficient, up-to-date post master.

R. M. R. INSPECTION

In the absence of Col. Peters, D O C at Victoria, Major Bennett district adjutant at Esquimalt, inspected F. C R. M. R. in the Drill Hall on Monday night The men were put through every conceivable form of drill and exercise that the Major could think of the whole company acquitting itself well. Major Bennett complimented the officers on the work of the men and especially the non-commissioned officers; expressing pleasure at the company's smart appearance. In a brief address Major Bennett said that this was the first thing the inspecting officer looked for in the rifle regiment, namely; smartness and efficiency He wanted them to do more outside drill; to get out into the hills where they would receive good sound training; as the work they were doing inside the drill hall would never make good, efficient soldiers of them. He was very sorry the khaki uniforms had not arrived, and he would do his best to have them hurried along. This concluded his speech and the men were dismissed; refreshments were waiting for them in the armories, at which the men enjoyed themselves until midnight when they all arose and sang "God Save the King" before leaving the hall Capt. Smith and Lieuts. Hart and Sawyer were present.

Moving Pictures

The programme at the Edison Theatre on Friday and Saturday will include a splendid scenic picture "A trip across the Island of Ceylon," also a vitigraph picture "Cupid and the Motor Boat." The comedy "Sarie Sue," and other features, will make up a good programme.

Galician Drowned

Kenora, July 12.—At War Eagle, the C.P.R. dump went down about 15 feet, completely out of sight, the water flowing over it, and a pile driver train loaded with piles and timber was sent to bridge the gap. Train No. 97 and the boat express are being held here. The passengers on the Kenora local were transferred and brought here on a special made up from here. When the dump went down, four Galician laborers were thrown into the water, three scrambled out and one was drowned.

Railway Belt

The Dominion superintendent of forestsy, R. H. Campbell, is paying an official visit to the interior of the province The Dominion government has now in the field in the railway belt a number of parties engaged in the classification of lands. When the reports of these parties are rendered the greater proportion of the railway lands in this belt will be properly classified. A large area of the railway belt is suitable for cultivation, some of it being today fit for the plow.

Card of Thanks

Mrs. Ernest Davis wishes to express her heartfelt gratitude to her many friends for the floral offerings and other expressions of sympathy extended to her during her recent bereavement.

Canadian Winners

Bisley, Eng., July 12.—With an aggreagte score of 1568 the Canadian team won the Mackinnon cup, a trophy donated by the late Col. Mackinnon in 1891, and won last year by the Canadians. The competition is open to teams of twelve, and the distances shot over are 800, 900, and 1000 yards, ten shots at each.

Concrete Snowsheds

Seattle, Wash., July 12.—In many features the work of rebuilding the line of the Great Northern railway for several miles west of the Cascade tunnel is without parallel among Northwestern railroads.

The excavation and grading is planned for double track construction throughout the district.

For a mile west of the srene of the avalanche, reinforced concrete snow sheds will be built over the tracks, making an impregnable and well nigh indestructible protection from ice and snow, falling rocks and trees, which in times of forest fires cause temporary interruption to traffic.

These snow sheds are the finest ever built with roofs of steel and concrete. Approximately 400,000 cubic yards of rock work is to be handled by the contractors.

The work will be completed by early winter. The cost of rebuilding the mountain road will be close to $1,200,000.

Mails Close

The mails close at Revelstoke as follows:

For eastern points—9 a. m. and 8 p. m.

For western points—4:25 p. m, and 7:45 p. m.

For southern points—9 a. m.

City mail boxes are cleared week days at 7:45 a.m. and 3:15 p. m., and Sundays at 3:15 p. m.
