BIG BEND RAILWAY

Will Traverse Intensely Rich District. — Some Particulars of Richness of Columbia Valley. —A Short Grain Route to American Markets.

The proposed railway down the Columbia river, recent announcements about which are creating great interest all over the west, is one of great possibilities and if fully gone into will be found of vast importance to every portion of British Columbia and open up a valley of vast resources, not found in other portions in such varieties and while some sections of the west may be able to produce some of the different classes of products, they cannot elsewhere be found of such numerous kinds. It may now be asked by the enquiring public what are the resources of the Columbia river valley and the Big Bend district, and in what way would a railway benefit the district. In order to demonstrate this it is necessary to mention what road would be built to accomplish these benefits.

A road built from Tete Jaune Cache at the entrance of the Yellow Head Pass on the G.T.P. railway through to North Port in the state of Washington would benefit first all the lumber interests on the Columbia river, making it possible to place mills at diferent points with transportation, passing along side giving an opportunity to ship into the middle Canadian provinces over three different lines of railways, without an expense of floating all their products of logs to points far away from the main railway avenues, in order to bring back the manufactured article to ship on the line of railway to the markets to the east of us. It has been estimated that there is at least ten billion feet of timber to be handled by this line of railway to the immense benefit of the government and the three railroads crossing the Columbia river. This new railroad would assist materially in the settlement of thousands of acres of land along Canoe river and the Columbia where there is now an immense area ready for settlement requiring only transportation facilities to make it available for settlers. This railway would beyond doubt, make it quite possible to open up a stretch of country traversed by ledges containing copper, galena, silver, gold, zinc and some iron ore in which the possibilities are quiet equal to those of California, Arizona, Nevada, Oregon, Montana or other states.

In the Big Bend district there are also large areas of placer grounds, which only reouire to be made accessable by easy means of access. Mica beds are also found in the Big Bend section, the character of which is good, clear and of marketable size. Another source that the Columbia river valley railway can be used for is for the carrying of grain. In another three years all the present railways will be congested in hauling grain to the markets and owing to the action taken by the United States government in regard to the Panama Canal a toll will be imposed on all vessels other than American from America coast ports. By this railway down the Columbia river each of the transcontinental roads would no doubt be pleased to deliver at least one-half of the grain coming west in order to save a conjestion on their systems through to the coast, and thus be able to deliver to the railroad having only a water grade to Portland, Ore., where shipments on American vessels can be made to the Eastern markets without encountering the toll of the Panama Canal. The grain would also reach Europe at a lesser cost. The Big Bend railway would also enable the fruit growers along the Columbia river and district as well as those in the Okanagan to ship their fruit into the middle provinces in the north, south and centre of Alberta and Saskatchewan as this railway system will have a connection from Fire valley or near there with the Okanagan lakes. The coast papers appear to think that now that Wilson is elected president, he will get the Panama bill passed by a Democratic majority and signed by a Republican president but it is for us to be ready to take advantage of it by a line of railway even if it has to go through say 500 miles in bond to reach a port where it will avaoid the toll on grain.

Today we have got to go to the state of Main to reach the Atlantic in winter, and a great deal of our grain shipped to the Atlantic goes through Portland main and other Eastern ports and it would appear that it is the duty of our government to give assistance to such a project for the benefit of the west.

The Big Bend railway would also draw thousands of tourists who would seek the many pleasure resorts along the line, points of easy access up the Big Bend, resorts on Canoe river, points on the Columbia river, say Gold Stream, which has magnificent scenery being a fine summer resort, also Downie Creek, La Porte, Carnes Creek and other places, as well as Revelstoke and Arrow lake resorts, such as Galena Bay, Beaton, Halcyon, St. Leon hot springs, Nakusp, Burton and other points would also be directly benefitted by this road. The Big Bend road would not only be a dividend payer for its owners in a few years, but it would work marvels towards the settlement of the districts it will pass through.

At a recent meeting of the Executive Committee of the B.C. Poultry Association held in Victoria, the Arrow Lakes Poultry Association was granted affiliation with the Provincial Association and in future will be entitled to representation on the directorate of the parent organization. It is understood that Nakusp has been chosen as the centre of the Arrow Lakes Association and that the question of co-operation among the members in the matter of buying feeds and marketing products will be one of the chief aims of the Association. At the same meeting of the executive of the B.C. Association, it was decided to have 1000 copies of bulletin on "Co-operative Methods applied to the Poultry Business" printed and distributed. This was a paper read at the annual convention of the Association in January last by Mr. F. C. Drake. There was such a demand for the paper by rural members that it was decided to get a supply of the bulletin printed. The Arrow Lakes Association would do well to take advantage of the information to be thus obtained.

Elect Officers

On Tuesday evening the Young People's Society of St. John's church held a business meeting and election of officers, after which a social hour was spent. The following are the officers-elect:

Hon. President—Rev. J.W. Stevenson.
President—D. M. Cowan.
1st Vice President—A. Thomson.
2nd Vice President—Miss Gowan.
3rd Vice President—Miss C. Little.
Fourth Vice President—Miss M. M. Matheson.
Secretary—Miss J. R. Munro.
Treasurer—Oliver Ainslie.
Pianist— Misses V. Crowe and R. Brown.

The work of the society will be carried on in four departments, each under the supervision of a vice-president. These departments are:—Devotional, Missionary, Educational and Social. The meetings will be held every Tuesday from eight to nine o'clock and are open to all young people. The society has been fortunate in securing John P. Clum to give his famous illustrated talk on California next Monday in the church. In addition to the beautiful colored slides of the Canadian Rockies, coast cities and California, he shows a number of interesting motion pictures. Mr. Clum is accompanied by his own electrician and the moving picture machine is new, thus assuring a first class exhibition and interesting talk. There will be no charge for admission but a collection will be taken during the evening.

Card of Thanks

The members of the Ladies' Auxiliary to the Y.M.C.A., wish to express their thanks to all those who made donations and to those who assisted at the banquet held on October 24.

Secretary Ladies' Auxiliary to Y. M. C. A.

THE PROGRESS CLUB

At Semi-Annual Meeting Elects Officers.—Hears Reports of Committees.—Superintendent of C. P. R. Dining Cars Wants Revelstoke Water for Use on Diners.—Mt. Revelstoke Auto Road Discussed.

There was a large attendance last evening at the City Hall, when at 8:30 President Dr. Hamilton called the meeting to order. After the reading and adoption of the minutes of the previous meeting President Hamilton stated, as this was a semi-annual meeting and it had been understood that the new officers should be elected at this meeting, he would call upon Mr. Brooker, the treasurer, for his report. The treasurer's report was read and received amid applause.

The election of officers was next proceeded with by a motion of F. M. Gibson, that Dr. Hamilton, the retiring president, have his name added to the honary presidents.

G. S. McCarter nominated Mr. Atkins as president.

Mr. Atkins in a brief address declined and in return nominated Mr. F. M. Gibson for the office of president; when A. B. McCleneghan moved that the nominations close. This was seconded by Mr. R. Gordon and unanimously carried.

Mr. Gibson, the newly elected president took his seat as chairman of the meeting amid loud applause, and in an brief speech thanked the meeting on the honor conferred on him.

Mr. McCleneghan next nominated C. R. Macdonald as first vice president, but Mr. Macdonald gracefully declined. R. Gordon was also nominated as first vice president, on motion of G. S. McCarter and A. McRae, but Mr. Gordon, after explaining his reasons, also declined.

Mr. H. Manning next nominated J. D. Sibbald, jr., which was seconded by H. McKinnon, when the nominations closed on motion of A. E. Kincaid. Mr. Sibbald briefly thanked the meeting for honor conferred.

W. H. Horobin was elected secretary by acclamation on motion of A. E. Kincaid, while Mr. Brooker received the same honor for the office of treasurer on motion of A. McRae.

Mr. Gordon moved that there be no executive other than officers of the club. This was seconded by A. E. Kincaid. A. B. McCleneghan moved an amendment that an executive of five be elected from the members present. Mr. Atkins seconded the amendment and thought that more discussion at general meetings would be involved if executive did not exist. He believed that it should. A vote being taken, President Gibson declared the amendment carried.

The following were then elected to the executive:—Mr. Lyons, K. G. McRae, Robbins, Wallace and Robt. Gordon.

Mr. C. R. Macdonald, on behalf of the Publicity committee, read the following reports which was well received.

Gentlemen,—Your Publicity committee beg to report on their work for last six months.

We have met at various times and finished the work we were asked to do, also discussed various other improvements.

Our first duty was the descriptive letter of the top of the mountain dealing with the area, various beauties, and advantages of the park, which letter was used by several in describing the city and locality.

Also we prepared the description and boundries of area of the park to be asked for from the Dominion government. Maps were also secured and copies of all sent to Department of Interior at Ottawa, and a copy to our member Mr. R. Green.

Your committee have at different times talked over various schemes for various schemes for publicity, which would be well for future committees to keep in mind. Some of these are the lighting of the auto road when same is completed. The electric sign at the railway end of McKenzie Ave. "Capital Canada's Alps." The lighting of the city power dam; also the gathering together for permanent keep different exhibits pertaining to the district such as displays of minerals; display of our timber and lumber in different stages of preparation; display of our fruit, suitably preserved and to be augmented by the fruit and vegetables at the proper season's of the year.

We would also suggest that the secretary write again to Mr. R. Green, impressing on his mind the need of getting the park reserved immediately. Yours truly, committee,

R. Squarebriggs.
H. McSerley.
T. Kilpatrick.
H. N. Coursier.
C. R. Macdonald.

After this report was read, R. Gordon moved that it be placed on file for the future use of Publicity committees. Seconded by A. McRae.

President Gibson made a report for the Industrial committee, which was only brief, he hoped to make a fuller report at next meeting.

On behalf of the finance committee Mr. Bradshaw had no report to make.

Mr. Gibson stated that from the Treasurer's report more funds must be obtained.

Secretary W.H. Horobin then made his report, which was as follows.

WEDNESDAY, NOVEMBER 13, 1912.

A town of any size has had difficulties of its own with the small boy and his pea shooter. We all know what it is and how we operated it ourselves away back east or in the Old Country, when we were boys. However, the fact remains that no matter what pleasure it gives the juvenile operator to handle one of these weapons, they are very dangerous.

The Revelstoke boys are carrying the pea shooter practice a trifle too far, only a short time ago one of these boys struck a singer of the local theatres in the face with a well directed shot, while frequently at train time when the constables' back is turned the passengers are too often showered with peas from an army of small boys armed with the old time glass tube and a liberal supply of ammunition.

The only remedy is to make an example of some of these boys unless this nuisance is abated. It is hoped the city police will put a stop to it.

With the present rosy outlook Revelstoke presents a great opportunity for the large and small investor. This city is now going through what has been experienced by Calgary, Edmonton and Saskatoon, as well as other western cities. All of these places have had their dull times, but now they are launched on the upward grade and money there is plentiful. Now this winter is the time to buy realty in Revelstoke for never again can it be obtained as easily.

With the present railway prospects together with the double tracking that will start next spring, land values here will sore next summer. It is the opinion of this paper that Revelstoke investments are good and will be money makers for the shrewd and nervy investor who buys now.

CORRESPONDENCE

Revelstoke, B.C., Nov. 9th, 1912.
Editor Mail-Herald,—

Allow me space for a little comment or short talk to the point re a few things required in Revelstoke, says an interested observer who stands for progress.

1—Two more railways.

2—One easy and safe C.P.R. crossing between Boyle and Orton avenue.

3—The principle thoroughfares between the upper and lower towns made passable in wet weather.

4—An electric street car line from station to west end of city, running eight months of the year.

5—More statesmen and less politicians, more men to build up and less to pull down.

6—Men with ability to cause the citizens to pull together with a long pull and a strong pull for the upbuilding of a greater Revelstoke.

7—Last but not least, we want men in Parliament that will grant the women's franchise, and not give their petitions a cold turn down as our B. C. members gave the petition that the writer drafted and floated about nine years ago, signed by seventy-five married ladies of Revelstoke. The hand that rocks the cradle shall rock the universe yet, says a leading lady of Toronto.

Now Mr. Editor thanking you for space in your valuable paper, I remain, yours very truly,

R. TAPPING.

Eighty-five percent of headaches are the result of eye strain. If you are troubled that way consult Dr. S. L. Taube on his visit to Diamond Hall, Revelstoke, B. C., on Tuesday and Wednesday, November 19th and 20th.

Engineer May Die

Grand Forks, Nov. 11—Hugh O. Lyall who was stabbed in a hotel, here Friday night, is the civil engineer in charge of the construction work being undertaken by the Canadian Pacific Railway in this city. Upon examination at the hospital it was found that he had received five wounds, one of which penetrated his lungs and he is now in a precarious condition. Sam Roberts, who is charged with stabbing Lyall appeared before Magistrate Cochrane Saturday afternoon and was remanded for eight days, pending the outcome of the wounds inflicted upon Lyall.

Eye Sight

In getting your eyes suited demand ability, reliability and above all demand experience. Dr. S. L. Taube, who has had forty-two years experience in the profession will be at Diamond Hall, Revelstoke, B. C. on Tuesday and Wednesday, November 19th and 20th. If there is anything wrong with your eye sight, don't fail to consult him. All work absolutely guaranteed as tested.

Seeks to Prevent War

London, Nov. 11—Tom Mann, the labor leader, who served time in jail for a speech he made some time ago advising soldiers not to obey orders when it came down to shooting strikers, made a sensational speech at a syndicalist meeting in London last night. He moved a resolution denouncing international war as calamitous to working men, and said the only war which should merit their attention was a class war. The resolution affirmed that if Great Britain entered into any war the workmen would resort to a general strike to prevent supplies from being forwarded to the army and navy.

This resolution was carried by acclamation amid tremendous applause. Mann, in advising the resolution, said he was prepared to act as a rebel in the event of war, and was prepared to incite others to rebellion and mutiny.

Her time was wrong, her tune was bad;
The Black Key Study made her sad,
She said good bye to all the fuss,
And bought a Gourlay Angelus,
At the Revelstoke Music Store.

WATER NOTICE.

For a License to take and use Water

Notice is hereby given that the Canadian Pacific Railway Company, of Montreal, will apply for a license to take and use One Cu. Ft. of water out of Canyon Creek, which flows in a northern direction through Lot 366 and empties into Lardo River near Gerrard, B. C. The water will be diverted 1,000 feet from track and will be used for railway purposes on the land described as C.P.R. right of way

This notice was posted on the ground on the 4th day of November, 1912. The application will be filed in the office of the Water Recorder at Revelstoke.

Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

Canadian Pacific Railway, Applicant.

CHARGES DISCRIMINATION AGAINST THE RAILWAY

A. E. Watts, of Wattsburg, makes Strong Complaint to Board of Railway Commisioners — Asks for Official Investigation.

The following telegram was sent by A. E. Watts, of Wattsburg to the board of railway commissioners:

Revelstoke, B.C., Oct. 25, 1912.
Board of Railway Commissioners.
Ottawa.

Regarding charge of discrimination railway company's defense absolutely false. Neighboring firms supplied with 440 cars in 60 days, our firm 40 cars; only 12 cars this month, last six days not one car. A spiteful attempt is being made to ruin us in remembrance of me obtaining orders from your board for protection of public interests. I wish to present this and other cases to the board. Wire Wattsburg when board sits in the west, in the meantime ask board to issue orders for our protection.

A. E. WATTS.

Mr. Watts has also written the following letter to the secretary of the board:

A. D. Cartwright, Esq.,
Secretary Board of Railway Commissioners, Ottawa, Canada.

Dear Sir:—I am in receipt of your favor dated October 31, with a copy of Mr. McCaul's report to you. As to my charge of discrimination in the matter of the distribution of cars to the lumber manufacturers of British Columbia, I wish to say that Mr. McCaul's report as to what I said is correct with the exception of his statement that I was on my way to attend the lumbermen's association convention, which would be a matter of very small importance, and had that been the case I would have returned with Mr. McCaul to Wattsburg. I was engaged in far more important business than that; that is to say, I was the delegate representing a large and very important district at the annual Conservative convention, which was held in Revelstoke, and I have only just returned, hence the delay in replying to your favor, and also to Mr. McCaul's request for further details.

For the information of your board I enclose you a copy of a list of the number of cars weighed at Crows Nest B.C., setting forth the names of the firms and the number of cars weighed for each firm. This weighing station is used by the mills shown on the said list. There are many other mills whose cars are weighed at various other points, the numbers of which I have been unable to obtain. I wish you would make a demand on the Canadian Pacific Railway company for them, to produce a list of the cars for July, August and September, weighed for the various lumber mills at Cranbrook, Crows Nest and Nelson. If permitted I shall also ask your board to issue instructions that an official be appointed by your board, with full power to make investigation and to subpoenea witnesses, and to examine them under oath for the purpose of ascertaining the reasons why some firms are supplied with an abundance of cars and some firms supplied with very few, as we are not the only people suffering through the unfair distribution of cars during times of shortage. If your board will be good enough to appoint an official with full powers as suggested, it will have a very beneficial effect on the lumber trade and will be the means of protecting many of the small manufacturers, who are not in a position to protect themselves, or to fight such a ponderous corporation as the Canadian Pacific Railway company. In making the application for the appointment of an official for this purpose, I am perfectly willing to explain the reasons why this is necessary, in writing, or if you prefer, I will explain the reasons before your board when it sits in the west.

On October 25 I sent a telegram (copy of which is attached) from Revelstoke to your board touching the matter of the discrimination of which I claim the Canadian Pacific Railway company is guilty. Evidently this had a salutary effect upon that company, because our Proctor mills was supplied with more cars from October 28 to November 1 than it could possibly get by imploring, begging or threatening, because for eight days prior to that we could not obtain a single car and during the month only 12cars, whereas after the appeal to your board we were simply deluged with cars, of which three were loaded at once, and immediately after these cars were loaded a fire broke out and destroyed the mill and a great part of the lumber, consequently 15 cars could not be used. I merely mention this fact, as I presume the railway company will now claim that they supplied the cars and had to take them away again. However, as we intend constructing more mills, we shall be in greater need than ever of your board's protection in the near future, besides which a thorough investigation along the lines suggested may be the means of obtaining justice for some manufacturers who are not in a position to engage in combat with a mighty corporation, notorious for its good memory in never forgetting those who ever dare to criticize the gross injustices of which they are guilty in many different ways.

Kindly advise me by wire when your board will sit in the west, and also whether you are prepared to hear further applications, one of them being that all railway companies thruout Canada shall be called upon to supply small box cars of about the same capacity as those supplied in Europ? and Asia, that is to say, from six to ten tons. There is an urgent necessity for a large number of small cars of that kind, and there are many reasons why the railway companies should be compelled to supply them, and there is no reason why Canada should not be supplied with small cars when the same are in use in Europe and Asia. Railway companies are inclined to build bigger cars than ever thereby assisting huge corporations combines, trusts and large wholesalers to the detriment of the small retailers, the farmers and manufacturers. This is the principal reason for the extraordinary difference in the price the producer gets for his goods and that which the consumer has to pay for them.

Further, I wish to give notice that I shall call the board's attention to the fact that the Canadian Pacific Railway company has not fulfilled its promises nor complied with the command of the board in the matter of the restoration of the public roads and trails destroyed by the company during and after the construction of their railway; the officers of the railway company having made a solemn pledge to the late Mr. Justice Mabee, chairman of the board, to the effect that they would comply with every request I made to the board in this respect several years since.

Further, I shall ask the board to duly consider whether there is any possible method whereby they can protect the public interests in the way of compelling the railway company to comply with the terms of their agreements with the Dominion and provincial government, and to restrain the government of the province of British Columbia from paying the Canadian Pacific Railway company the sum of $1,600,000 or any other sum, until such time as the railway company has complied with all the terms set forth in various agreements and acts parliament relating to the grants of land and subsidies or any other kind of grants, more especially the payment of the $1,600,000 to the said railway company, for the reason that the company has failed to comply with the terms of the agreements and did not earn the grant of 4,000,000 acres of land, a great quantity of which they have sold and retained the cash in their coffers, never having earned the right to retain the said moneys and no right to have the cash returned for the lands in question, even should they return the remainder of the said lands to the government of British Columbia.

Further, I shall ask the board to use its influence in preventing the Canadian Pacific Railway company from obtaining a further extension of time for the completion of the British Columbia Southern railway, now known as the Crows Eest Pass railway; the said company having obtained extensions of time from parliament in the past when they were not entitled to the same.

Whilst I criticize the many injustices perpetrated by this mighty corporation, I duly appreciate the great things they have accomplished in the development of the vast resources of the Dominion of Canada, but at the same time they owe the people of Canada a debt they never attempt to repay for the many favors showered upon them in the way of hundreds of millions of dollars' worth of lands having been freely given to them; for the hundreds of millions of cash they have extorted from the people, that is to say, from the toiling producers throughout Canada, who are the means of supplying the sinews of war and from whom all the moneys are extracted to make the multimillionaires and railway magnates the princes of frenzied finance, rolling in their millions, in affluence, luxury and arrogance, whilst the poor producer, the workman, the farmer, the fruit grower, and last, but not least, the poor sawyer of wood, all contribute their quota in support of the manipulator, while the producers are fighting for very existence. Grain rots on the prairies, apples and other fruits by the millions of tons rot on the trees and on the ground, the lumbermen, after arduous and laborious efforts, produce lumber, and the venal railway companies are unable to transport the foregoing products. They can build luxurious palaces called hotels, revel in their palatial yachts, and with supercilious disdain roll by in their luxuriously appointed private cars, whilst the poverty-stricken producers, the toilers, are driven to desperation by the modern taskmasters, minions of financial sharks, the with the mighty corporations the chief officers of which are little above the octopus or any other kind of parasite which sucks the life's blood of the poor toilers whose only hope is in one of the few impartial tribunals and before whom they can lay their complaints with any hope of redress. Your board in the past has earned the reputation of being able to protect the weak, the oppressed and the unprotected. The reputation won by the late great president of the board should be carefully cherished and cultivated by his successors, then Canada may boast of having reason to be proud of at least one impartial tribunal in which the people have the fullest confidence.

Yours very truly,
A. E. WATTS.

Talk About Making Money Out of Revelstoke Property

One man who bought 13 lots in Begbie View Addition a week ago from me has already re-sold four of them for more than he paid me for the whole Block.

THAT IS GOING SOME.

It shows that my statement as to the low price of these lots was correct. THEY ARE ALL SOLD

Next week I will have 30 more good lots near the same place, facing on Eighth Street, at slightly advanced prices.

If you want any of them speak at once, as they too will go quickly. All are inside City Limits with streets laid out and cement walk on Seventh Street, within a few yards of the property.

Enormous Saving

Within a month extensive experiments will be carried on by City Electrician Fletcher to ascertain the practical value for street standard lighting of the magnetic luminous arc lamps. A trial shipment will arrive in the city in about three weeks from Schenectady, N. Y., he said today. The arcs are to be installed on Granville street, between Broadway and Tenth, the current being supplied by the B. C. Electric Railway Company, from its substation on the Eburne line. The use of these special arc lamps will necessitate special station and wiring equipment. The current will be direct.

The city electrician stated this morning that he expected to be able to show a saving of from $32 to $56 per year per standard for lighting and maintenance by the use of this new type. He claims that these luminous arcs use even less current than the existing lamps on the street standards, are less expensive for upkeep, and give considerably more light. They are, however, more expensive in installation.

The street standards on Robson street between Granville and Jervis will be ready for use in about three weeks' time, said the city electrician today. Material has now been ordered by the contractors, who will instal the standards on Granville south, Main south, Hastings east, between Jackson and Campbell and Harris street. These street sections will require 215 standards.—Vancouver World.

B. C. Won in Prizes

Lethbridge, Alta., Nov. 10—British Columbia was very largely represented at the International Dry-Farming Congress and Exposition held here, and besides carrying away a provincial sweepstake for boxed fruit and a sweepstake prize for the best potatoes, which was won by D. Matheson of Armstrong, they carried thirty-nine other prizes, comprising one special ,sixteen firsts, sixteen seconds, five thirds and one commendation in a class in which there were six awards.

The handsome $400 Silver Trophy Cup, donated by the Government of Manitoba, through Hon. George Lawrence, Minister of Agriculture, was awarded to the British Columbia Provincial Exhibit for the excellent display of box fruit, and most favorable comment was made upon the manner in which Mr. W. J. Brandith, Superintendent of the British Columbia Gxhibit, installed a large display of fruit and vegetables. There was no doubt that many more prizes would have been captured had British Columbia entered in competition, the Provincial Exhibit, it being a non-competitive and the Jury of Awards in granting a special trophy did so in recognition of its merit.

In the classes of vegetables and fruit whenever the entry was made by the British Columbia growers one or more prizes were taken. The fruit prizes were given largely to Armstrong and Salmon Arm.

All subscribers not receiving the paper regularly are requested to communicate with the editor, Mail-Herald Box 914, Revelstoke B.C., in order that their complaints may be rectified! Write your full name and address legibly, and your complaint will be attended to promptly.

WHISKY HOLDS ITS VICTIMS

Until Released by Wonderful Samaria Prescription

Liquor sets up inflammation and irritation of the stomach and weakens the nerves. The steady or periodical (spree) drinker is often forced to drink even against his will by his unnatural physical condition.

Samaria Prescription stops the craving, steadies the nerves, builds up the general health and makes drink actually distasteful and nauseous. It is tasteless and odorless and can be given with or without the knowledge of the patient.

Thousands of Canadian homes have been saved from misery and disgrace by some devoted wife, mother or daughter through this wonderful Canadian remedy. The money formerly wasted in drink has restored happiness, home comforts, education and respect to the families formerly in want and despair.

Read the following, one of the numerous unsolicited testimonials received:

"I can never repay you for your remedy. It is worth more than life to me. My husband has been offered liquor several times, but would not touch it. He said it had no charm for him now. May God's choice blessings ever rest on you and yours are my prayers ever. No one knows it but those who have tried it. As soon as I can I will see others that I know would give anything to stop their husbands from drink. I will give them your address.

Mrs. K——, Dewinton, Alta." (Name withheld on request).

Now, if you know of any family needing this remedy, tell them about it. If you have any friend or relative who has formed or is forming the drink habit, help him to release himself from its awful clutches. Samaria Prescription is used by physicians and hospitals.

A FREE TRIAL PACKAGE of Samaria Prescription with booklet, giving full particulars, testimonials, price, etc., will be sent absolutely free and postpaid in plain sealed package to anyone asking for it and mentioning this paper. Correspondence sacredly confidential. Write to-day. The Samaria Remedy Co., Dept. 46 49 Colborne street, Toronto, Canada.

Also for Sale by C. R. Macdonald, Druggist, Revelstoke, B. C.

Fruit Packing Schools

The Department of Agriculture, in accordance with its policy of the past three years, will continue the fruit packing schools during the coming winter. The packing schools proved even more popular in 1912 than previously and we expect, from the number of applications already in, that there will be a great growth in the work this winter. It is hoped that this year schools will be placed in every fruit district of the province, where a sufficient number of pupils can be secured.

The class of instruction furnished by the experts, employed by the Department, in previous years has demonstrated its efficiency in meeting the competition of Oregon and Washington in fruit packing. The experience and standing of the instructors secured and the confidence reposed in them by the department, guarantee to the fruit growers the highest class of instruction.

As in previous years the local administration of the packing schools will be placed in the hands of a responsible local body, such as the Farmers' Institute, the Fruit Growers' Association, or the board of trade.

The Department of Agriculture provides the instructor and pays his expenses. The Department will also bear the cost of the packing paper, the fruit and all other legitimate expenses, except that of the Secretarial work, which it has been found most satisfactory to leave to local arrangement.

The responsible organization in each case will be required to guarantee a minimum of twelve pupils, but not more than fifteen, with the proper qualifications, at a fee of three dollars each, to take the twelve lessons of two and a half hours a lessen the school extending over one week. In a limited number of districts a double packing school can be arranged for, in which the minimum guarantee will be twenty-four pupils, but not more than thirty, for the same number of lessons. The guaranteeing organization will also arrange for and bear the expenses of the hall, its heating and lighting.

The hall for fifteen pupils must be at least 30ft. by 15ft., and well lighted. It must be heated sufficiently to prevent chilling of the fingers of the packers, and to prevent freezing of the fruit at night.

The Department will as far as possible, use local fruit. At the time of making application for the packing school, you are requested to reserve fruit at the rate of 2½ to 3 boxes per pupil. The hardier varieties, such as Ben Davis, are preferred. Fruit must be in good condition, but need not be graded and none should run under 2½ inches in diameter. The Department will pay the legitimate market price for this fruit. If local fruit cannot be secured, the Department should be expressly notified and will undertake to secure same.

The instructor will bring with him the necessary packing tables and fruit paper. The department expects that he will be met on his arrival by some responsible person, who should provide him with all necessary information, so as to get the school under way without loss of time.

It seems hardly necessary to present to you the important advantages to be gained from the packing school, particularly in the way of practical and thorough instruction in actual commercial packing.

Pupils will learn in addition a good deal about the methods and equipment used by the most progressive associations, will also learn a good deal of the interpretation of the Fruit Marks Act, and will learn a great deal of value about exhibition packing by attending the packing school for instruction.

Pupils who gain a score of 75 percent for efficiency in the packing school, and who put up a creditable pack for the Department prizes, the following year, may secure a diploma certifying the same from the Department.

WHY HESITATE

An Offer That Involves No Risk for Those Who Accept It

We are so positive our remedy will relieve constipation, that we offer to furnish it free of all cost if it fails.

Constipation is caused by a weakness of the nerves and muscles of the large intestines or descending colon. To expect relief you must therefore tone up and strengthen those organs and restore them to healthier activity.

We want you to try Rexall Orderlies on our guarantee. They are eaten like candy, and are particularly ideal for children. They act directly on the nerves and muscles of the bowels. They have a neutral action on the other organs or glands. They do not purge or cause any inconvenience whatever. They act to overcome chronic or habitual constipation and the myriads of associate or dependent chronic ailments. Try Rexall Orderlies at our risk. Two sizes, 10c. and 25c. Sold only at our store — The Rexall Store, Bews' Drug Store.

If she said "bring chocolates" she means "Sugar Bowl" chocolates.

The "Sugar Bowl" hot chocolate, coffee and tea, etc., is unsurpassed.

SELECTING TYPES SUITABLE FOR IMMIGRATION TO CANADA

Scenes in the London Offices of the Officials Afford Glimpses Interesting, Pathetic and Amusing.—Methods of Selection Adopted.

London—A visit to the various Canadian emigration offices in London brings one into contact with the many types of Britons who are contemplating settlement in the Dominion and affords an interesting insight into the methods of selection adopted by the officials.

If one were not aware of the reason which brought them there, it might easily be supposed that they were in the waiting room of a physician. All the emotions that the face can express are to be seen. Indeed, the positions are very much alike. The doctor advises as to health, the emigration expert advises on a condition which in many cases is of equal if not great importance.

What kind of men and women are these candidates for a new life in a new country? The best and perhaps the worst types. It is the business of the official to see that only the best go. Here is a prematurely old man. He says he is 40, his face speaks of the privations and troubles of three score years. With earnestness that is pathetic, he pleads that he is able and willing to take up the arduous work of a Canadian farm. Indeed it is his only escape from starvation for he cannot work here. This "case" can be decided instantly. To the discerning official his undeveloped physique and enfeebled frame render him unfit for Canadian farming. He is a townsman.

THE COUNTRY LAD.

The next is of the right type. A country lad 18 years old; a six-footer with the thews and muscles of one who has guided the plow from early boyhood! He is from Somersetshire, where he earned $5 a week and kept himself and he is after that $30 a month and board in Canada. Besides his friend who went out there years ago, has now got a farm of 160 acres. He is going to follow his example. This man is secured right away.

Along comes a type which you don't like very much in Canada, at least until he has learned not to emphasize his opinions. With all the assertiveness of a Londoner, he even at this stage tells the men he has come to for information, what he knows about Canada. In a mental vision one can see him telling the Canadian farmer "the best way to do it." Such independence is refreshing after listening to a number whose fault is that they are not self-reliant; but he needs to be spoken to plainly and the official loses no time in assuring him that his best interests will be served if he is prepared to do things in the way Canadians want them done. "Excellent material," says the official, "he will be all right after a few months in the Dominion."

THE BUSIEESS MAN.

Then comes the man who commences by abusing Lloyd-George. There are many of this type. The business man with capital who has read over the breakfast table the latest Tory editorial on Liberal finance, the workman who is out of work on account of strikes and blames the government and the farm worker who is disgusted at the deduction from his wages of a few pence for insurance.

"I don't know what this country is coming to," he says. "It is certainly on the down-grade, all classes are overtaxed and I have decided to clear out."

You learn he is taking $10,000 with him. Then there is the country gentleman with property, who is disposing of his estate which has been in the family for centuries. Here is an old colonel, sunburnt from a score of years in India. He wants his son to go to Canada. "I don't want him pampered, sir, but if he gets in with the right people he will succeed," says the old soldier, whose crowning disappointment is that his son was "plowed" at Sandhurst.

A deeper note is struck with the women. Here is one from London's fashionable quarter. Cultured and with the poise of a woman of breeding, she is concerned about her son and wants him to go to Canada for his own good. A mother's tragedy is here. If he can get away from his "set" he will be all right, and so the prairies offer the solution and the mother's pain of parting from her boy is lost in the feeling that if he remains the future will hold a greater grief.

FAMILY OF EIGHT.

Then we see the woman with a family of no less than eight children. The official's eyes glisten when he hears this. They are country born robust and healthy. One sturdy youngster of 16 has the sinews of a man and he is prepared to take the place as breadwinner of the father who is dead. They are all right and next spring Canada will welcome them. Here is a girl who supposes that she has only to go to Canada and she will find many rich farmers in search of wives. It is not her fault. "Three thousand wives wanted for Canadian farmers" is a not unfamiliar heading to a newspaper article.

A brave wife whose husband has lost heart in the unsuccessful struggle for a living, is the next candidate. She is prepared to mend the family fortunes by taking a place as a domestic in Canada. Here she is a charwoman, but the wages are so small and the insurance act has made her employment uncertain.

And so on in an endless procession, One is welcomed; another is warned not to go to Canada. In this way the officials prevent many undesirables from reaching the Dominion. It is the most valuable Canadian work done in this country. 2

NOTICE

In the County Court of West Kootenay holden at Revelstoke. In the matter of the Execution Act,

and

In the matter of an action between D. Gallicano, Plaintiff, and N. Tevanzak, Defendant.

Take Notice that a Motion will be made before the Local Judge in Chambers of this Honourable Court on Wednesday the 27th day of November, A.D., 1912 at 10:30 o'clock in the forenoon, or so soon thereafter as Counsel can be heard at the Court House at Revelstoke, in the Province of British Columbia by Mr. George S. McCarter, Counsel for the above named plaintiff (Judgment Creditor) calling upon the above named defendant (Judgment Debtor) to show cause why the land hereinafter described, or the interest therein, of the said Judgment Debtor, or a competent part of the said lands should not be sold to realize the sum of $117.48, One hundred and seventeen Dollars and forty-eight cents, payable under a judgment pronounced by this Honourable Court on the 21st June, 1912.

lands above referred to are more particularly described as follows: — Lot Four in Block 104, according to a plan of part of the said City of Revelstoke, deposited in the Land Registry office at Nelson, B.C., and numbered 636.

AND FURTHER TAKE NOTICE that in support of this Motion will be read the Judgment of this Honourable Court pronounced herein, the 21st day of June, 1912; the District Registrar of Titles' Certificate of Encumbrances respecting lands, and the affidavit of Geo. S. McCarter sworn and duly filed herein.

Dated this 9th day of November, A. D., 1912, at Revelstoke, British Columbia.

GEO. S. McCARTER,
Solicitor for the Plaintiff.

The place of business and address for service of the Solicitor for the plaintiff, is at his office, Imperial Bank Block, Revelstoke, B.C.

To the above named defendant, Judgment Debtor. Nov.9, 2t.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each applicant must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to the Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

NAVAL SERVICE OF CANADA.

108 Canadian farmers will receive cash prizes (twelve in each Province) in our big

1912 FARMERS' PRIZE CONTEST

WE held a contest last year in which 36 prizes were offered. This year there will be three times as many prizes (108) and therefore three times as many chances for you to win one of them. You do not have to use a large quantity of cement to win a prize. Many of last year's prize-winners used comparatively little cement.

THE contest is divided into three classes and in only one of these ("Class "A") does the amount of concrete used count in deciding prize winners. Class "B" is for doing the best concrete work. The size makes no difference. Class "C" is for sending in the best and clearest description of how any piece of concrete work was done.

THERE will be four prizes (First, $50; Second, $25; Third, $15; Fourth, $10) in each class in each Province. Thus you have only to compete with other farmers in your own Province, and not with those in all parts of Canada. This gives you the best possible chance to win a $50 prize.

IT COSTS NOTHING TO ENTER—There are absolutely no "strings" to this offer. There is no entry fee or red tape to bother with. You cannot lose, because the improvements you make of concrete in competing for the prizes will be more than worth their cost. We have a book, "What the Farmer Can Do With Concrete," that will give you all the information about the use of concrete you can need. It will be sent to you free when you ask us for complete particulars of the Prize Contest. Ask for particulars to-day. Just say "Send me, free, your book and full particulars of the 1912 Prize Contest," on a post card and mail it to-day. Address Publicity Manager,

A. HOBSON, - MacKenzie Avenue

Revelstoke Inside Property

Real Estate is selling rapidly. Why not get in before all the most desirable residential lots are taken up?
Last week we made several good sales to local buyers and it will only be a short time before these lots are all closed out.
Call at our office and get full particulars. All our property can be sold on easy terms.

Kootenay Agencies, Limited

R. F. Green, M.P., leaves Victoria today for Ottawa, to commence his parliamentary duties. He goes by way of Spokane and Rossland. The Conservatives of Rossland giving a mammoth smoker this week end in his honor.

Mr. J. H. Lyons, locomotive engineer, is able to be about town again after undergoing an operation for appendivitis. Mr. Lyons' many friends on the road and in town will be glad to learn that he is making rapid recovery from the operation which was entirely successful.

Remember the date of visit of Dr. S. L. Taube, Eye Sight Specialist of the Taube Optical Company of Calgary and Vancouver, who will be at Diamond Hall, Revelstoke, B.C., on Tuesday and Wednesday, November 19th and 20th. If there is anything wrong with your eye sight don't fail to consult him. All work absolutely guaranteed as tested.

A sale is reported of forty acres of Thomas Lewis' farm just east of the city. The portion sold lies north of the new road constructed by the city to the power plant. The purchaser, Dr. J. D. Lafferty of Calgary, has secured this valuable piece as an investment which he will hold until such time as he places it on the market in acre lots for which there has been an increasing demand of late. The deal was arranged by Mr. F.W. Laing who reports a number of inquiries by outsiders for acreage plots of from five to forty acres.

Mr. W. J. W. Brown, of the Lawrence Hardware Co. staff, returned last week from England, where he had made an extended visit. Mr. Brown reports that all the way across the continent he had a great many inquiries from travelling compatriots about the town of Revelstoke of which they said they had heard mention many times of late but of which they really knew so little. With the era of publicity in the town's history just commencing, the outside public should no longer be in the dark.

In connection with the bazaar at St. Francis Hall, there will be a "Tambola" grand prize drawing. Tickets only 50c. Prize may be seen in window of Smythe's cigar store.

The case of Rex vs. Geo. Arthur, being the case referred to in our last issue, when the accused it is alleged, issued worthless checks on an Eastern bank, will be heard this evening at 8 o'clock in the police court.

The union meeting to be held in St John's church at 8:30 promises to be one of great interest. Mrs. Goble will read a paper on "Japan"; Mrs. Sturdy one on "Mormonism"; with particular reference to Alberta, and Mrs. Pagden one on the "Object and use of the Mothers' meeting." Vocal solos will be contributed. A large attendance is expected.

Miss Gordon, who is visiting her brother Mr. Robert Gordon, will address a mass meeting of women in the Presbyterian church next Monday afternoon at half past three. Miss Gordon is engaged in social service work in the city of Calgary and will speak of the rescue work that is being carried on there. It is hoped that every woman in the city will attend this meeting and that as a result of it some definite steps may be taken to combat the evils of social vice and effect the rescue of those who are its victims. The meeting is non-denominational and all women regardless of creed will be welcome.

The vaudeville season opened at the Empress theatre Monday night with Hellstrom and Myra, direct from Stockholm, Sweden, and was very good, the singing and dancing being something new for Revelstoke. Miss Marie Campbell's songs made quite a hit and were well appreciated. Hellstrom and Myra and Miss Campbell will be seen tonight in a complete change of program. New motion pictures every night. Thursday, Friday and Saturday and Saturday afternoon matinee, Brandon and Taylor will be seen in some very good singing, talking and dancing acts, with Russell Parker the great juggler. New motion pictures every night. Saturday afternoon will be for Ladies and children, 10c., and 20c., at 2:30 p.m.

Monday, 18, 19, 20, Neal and Neal, comedy singing, talking, novelty balancing acts. Max Shaull juvenile character impersonator. 21st 22nd, and 23rd. Southwick and Dadd, musical bag punchers; Jim Casey, Irish comedian.

THE PROGRESS CLUB

(Continued from Page One.)

Gentlemen,—I beg to submit my report for the first year ending this day of the Revelstoke Progress Club,

On May the 14th, several citizens of the City of Revelstoke saw the necessity for an organization that would further the interests and bring before the public the importance of Revelstoke; and at the same time be entirely free from any political or private interests, and a public meeting was called and it was decided to form the Revelstoke Progress Club; its membership was to be made up of any person who believed that Revelstoke was one of the best, if not the best city in the Dominion for the settler, investor or capitalist. Strong committees were formed, and immediately got to work to make known the attractions of our city.

On May 17th, the Progress Club took up with the Hon. Minister of Public Works the advisability of reserving Mount Revelstoke as a Park for the city.

Secretary communicated with the Portland Chamber of Commerce, re the Columbia river route to Portland Oregon, and in reply received letter that that body was continually bringing before the U.S.A. government the necessity of this important waterway being made navigable up to the boundary; letters were also sent to the C.P.R. calling their attention to the scenic attractions offered the Tourist at Revelstoke, and particularly on the top of Mount Revelstoke.

In August several members of the Progress Club attended the Panama Canal convention in Calgary and brought home very forcibly to the delegates present the superior advantages that this city offered to any other for the cheap transportation of grain and merchandise from the Prairies of Canada to the U.S.A., via the Columbia river. On August 21st, the Hon. Thos. Taylor accompanied by members of the Dominion House, and other important personages, turned the first sod of the Alpine Motor road up Mount Revelstoke; this important event was duly recorded in all the important papers in the Dominion, and brought Revelstoke prominently before the public. Negotiations were at this time under way with Mrs. Schafer the Writer to come to Revelstoke for the purpose of getting up a booklet that would give the tourist and others, authentic information of the scenic attractions of the district.

Dr. Rowe, publicity commissioner of Vancouver, addressed the Progress Club at a well attended meeting, and his remarks brought home to all present the importance of continuing in bringing Revelstoke before the public

In September Mrs. Schafer accompanied by members of the Progress Club, spent a week in looking over the district, going as far as the 8-Mile Falls to the north; Robson to the south; Greeley to the east, and to the top of Mount Revelstoke, were a series of photographs were taken of the beautiful scenery, part of which were utilised for the purpose of making lantern slides which were used at a lecture given by this lady.

Previous to this the C.P.R. sent out Mr. Seymour the general travelling passenger agent of that company to visit the summit of Mount Revelstoke and report to his company the attractions of the mountain from a tourist point of view. Mr. Seymour was accompanied by members of the Progress Club and a hurried trip was made and the party returned to Revelstoke late the same day and at the hotel Mr. Seymour expressed himself that he would recommend to Mr. Usher the desirability of the C.P.R. stopping before the tourist the attractions of Mount Revelstoke, and the necessity of that company building a chalet on the top of the mountain. Rumor has since been busy that the C.P.R. not only realises the importance of erecting a chalet at the top of the mountain, but also realises that with the many scenic attractions that will be brought before the tourist by the new Alpine motor road that hotel accommodation would be at a premium and nothing near adequate to accommodate the tourists that would stop off at this important point and it was the intention of that company to erect a first class hotel at this city.

The Industrial committee of this Club have been negotiating with several firms with a view to getting them to locate here; and while they have not as yet met with the success that they deserve, they are not neglecting any opportunity of bringing the advantages that this city offers to manufacturers, who are desirous of locating in the west.

We understand that it is the intention of the C.P.R. to double track their main line and in view of the important position that this city holds being practically the best located city from a distributing point of view in British Columbia, and having such immense resources surrounding it and also the fact that recently a Corporation applied to the government for a charter to open the Big Bend country up by railroad and that the Dominion government has seen fit to send out surveyors to report on the advisability of the Columbia river as a means of transportation; and also to the remarks of Sir Richard McBride on a visit to this city some time ago that it would be only a short time before either the C.P.R. or the C.N.R. would have a railway to the north and south of this city and also to the remarks made by Mr. Maber the representative of the Dominion government that the lands in this vicinity would shortly be available for the settler; I think that this club should look into *the advisability of raising* money by asking that the city give an amount large enough to enable an extensive advertising campaign to be carried on so that Revelstoke "The Capital of Canada's Alps" could be brought more prominently before the public of Canada and elsewhere.

Before closing I would like to thank all the officers and members who so kindly gave of their time, both to the club and myself and for the many suggestions that have made the secretary's work easier, and especially to the proprietors of the Mail-Herald for *their able* support in recording, printing and transmitting to the citizens not only of this town, but to the different newspapers of Canada, any important event that would have a tendency to bring prominence to Revelstoke, all of which is respectfully submitted.

W. H. HOROBIN, Secretary

Seats at Macdonald's Drug Store

ARE YOU A WISE MAN?

Have you awakened yet to the fact that there are great opportunities for profitable investment in Revelstoke Real Estate at the present time. Last week we sold over $7,000.00 worth of local realty and are having enquiries for "good buys" almost daily. Many are realizing the fact (several from outside points) that the great advantages coming next year mean large increases in realty values and are investing now to be in on the ground floor while prices are low.

Buy Now and You'll Make Money
