CITY COUNCIL

Regular Fortnightly Meeting--- General Business

Regular fortnightly meeting last night. Full attendance.

CORRESPONDENCE

Revelstoke Land Co. re claim against city.—Laid over.

C. P. R. re settlement for tank site.

Dr. McLean reporting smallpox outbreak at an end. There were five cases, two of which were serious. With the exception of some scarlet fever the city could now show a clean bill of health.—Received.

TREES FOR BOULEVARDS.

J. Maley, advising 78 trees needed to replace dead trees on boulevards.

Ald. Abrahamson—How is the city going to look after these boulevards?

The Mayor—The City Solicitor is bringing in a by-law to provide cost of maintenance being borne by property owners.

Ald. McKinnon—There is not enough money provided under the by-law to cover the cost..

City Clerk: No, it will have to be re-adjusted.

Ald. Abrahamson: I think it is up to the property owners to plant and look after these trees.

Ald. Cowan: Where the work has been finished and the trees have died they should be replaced.

Ald. Trimble: I move the mountain ash trees required be purchased to replace dead trees on Third Street.

Ald. Cowan: I second that. Carried.

City Clerk: If Douglas street does not want a boulevard the money can be turned over to the general fund.

Ald. McCarty: The money has not been raised for it.

The Mayor: Yes it has.

THE SCHOOLS.

School Board asking water be provided at St. Andrews school room and that sewer work through grounds be levelled off.

Ald. McCarty: It will soon settle down.

Ald. Trimble moved that water supply be referred to fire, water and light committee, and levelling of ground referred to works committee.

Seconded by Ald. McKinnon. Carried.

SIGNS OF THE TIMES.

J. R. Thornton asking low rate on sign lamps.

The City Clerk said the rate was 5c. a lamp per month.

Ald. Abrahamson considered lights for this purpose should be made as low as possible as they improve the streets.

Referred to the fire, water and light committee.

UNIVERSITY SITE.

H. S. Cayley, Vancouver, asking support of city for lower mainland as university site, and that a representative of the city appear before university commisssion in support thereof. Received.

SEEK AND YE SHALL FIND.

D. Rabbitt, asking water supply. To be put in.

C. W. Mitchell, asking for road up hill behind Turnross's. Referred to works committee to bring in estimate of cost. The Mayor asked them to look into the matter as soon as possible so it could be attended to.

W. W. Lefeaux, asking sewer connection with Happy Home.

Ald. McKinnon: If Sinclair don't get around and do something we better let this contract to someone else.

City Clerk, to deal with application.

E. Pearce, re city surveys.—Received

A VIGOROUS KICK

C. J. Aman, city collector, wrote:—Gentlemen,

I was much annoyed to read in the last issue of the Mail-Herald, remarks made by the council regarding myself which I think were quite uncalled for.

When Mr. Stein audited the city books, he reported especially on the neatness and accuracy of the books kept by me, which are always kept up to date, and I would like to mention that frequently during the month I return to the office at night, and when necessary on Saturday afternoons. Besides, I have suggested that the City Hall be kept open the same as the stores on pay nights to facilitate payment of water and light accounts; but the inference is that I object to do any overtime, which is absolutely incorrect so I feel that if this council is not satisfied with my efforts, then it is time for me to send in my resignation.

Your obedient servant,
CHAS. J. AMAN.

The Mayor said Mr. Aman was a faithful officer.

Ald. Cowan did not think any reflection was cast on Mr. Aman.

Ald. Trimble said the matter came up in a discussion on the proposal to have the city office open for longer hours.

The letter was ordered to be received and filed.

ANOTHER KICK

H. Manning wrote as follows:—Gentlemen,

May I enquire of you why I was refused the usual discount on water and light account when, in the month of March, I tendered payment for same as usual. I am aware that it was stipulated among other exactions imposed on citizens by the new council that water and light bills were to be promptly paid, and though this was not a new rule it has heretofore been exercised with some degree of reasonableness consistent with what may be termed good business principles. Your intentions may have been to check up delinquents, but has your action not had the reverse effect? If you care to turn up the city records you will find I have never failed to pay for water and light every month. If it was your intention to establish an unalterable precedent, then why did the city clerk accept from another citizen the lower rate at the same time I tendered mine, and so refuse a discount.

I never have, nor is it my intention now, to ask of the city any favor not accorded another citizen. Neither, however, do I intend to silently accept such glaring discrimination against myself without protest. I would also point out to you that on the last day in the month in question, when the discount was allowable, I was engaged during the whole day absent from my own personal business attending to a branch of the city affairs. Do you consider such treatment sufficient remuneration to one offering gratuitous services to the city?

Some of the city fathers have asserted that "all civic rules must be obeyed." If this be the general opinion of the whole council also, why not make it apply to the members of the city council also and in accordance with their oath of office, see that none of the members has any "interest in any contract or services connected with the city directly or indirectly."

Notwithstanding the above mentioned facts regarding my transactions with the city and the probable discrepancies on your own parts to ahere to the letter of the statutory law, a city employe was instructed to shut off and did shut off from my dwelling and place of business my water and light supply and such action I can only regard as an uncalled for insult to myself and family.

Yours consistently,
HORACE MANNING.

The Mayor: This letter is not called for. Mr. Manning makes certain sarcastic remarks here as to members of the council having an interest in contracts with the city. This has nothing to do with Manning's water and light account, and we have not time to waste considering such statements. Ald. McKinnon and I spent some time yesterday investigating the charges made by Mr. Manning and the city clerk gave evidence which was quite satisfactory. There were two cases of men who were tied up on the road and unable to get in—one with a sick wife. They came in and explained next morning and Mr. Lawson allowed the discount in their case. The other was a case in which a deliberate misstatement was made to Mr. Aman. The whole trouble is that Mr. Manning had it in his head that he was going to run this Council, absolutely defied them, forcing their hands and threatening what he was going to do. He was warned without effect. This charge of discrimination is not borne out. I don't like the tone of this letter at all.

Ald. McKinnon: I am sorry Mr. Manning made these insinuations, but I don't know that anybody is particularly hurt by it—nobody I know of—but at the same time I would like to have ourselves cleared of any shadow that might have been cast on us of discrimination if you can call it such a thing. When I went into this rule of refusing discount after due date and shutting off water and light at end of month where overdue I did so with the intention of applying it to everybody. I want to give everybody a fair and square deal. Nobody has any right to a discount after the 20th and nobody has any right to water and light after the end of the month if he has not paid.

City Clerk: I was very particular in asking the instructions of the council in this matter, and did my best to carry out the instructions laid down. On the 22nd two C. P. R. men who had been held out on the road by the slides at Rogers Pass, came in and explained they had been unable to get in earlier, and in one case I knew the circumstances at his home. Mr. Manning was listening. Another man in exactly the same position came in and Mr: Aman allowed him his discount.

The Mayor: One of these men has refunded the discount allowed him.

City Clerk: Yes. These were the only three cases. There were other cases in which the water and light was overdue but these were paid from other sources, and the matter has been carried out with very little friction.

Ald. Trimble: I agree with the city clerk in what he has done. Mr. Manning takes a pretty small stand when he shelters himself behind the cases of two railway men who were unavoidably absent from the city on duty, and it puts him where I have always considered him—a very small man.

The Mayor: It is easy to see his stand. He has lost $5 and feels sore about it.

SCAVENGING

Chief Parry waited on the Council and asked them to fix fees for scavenging, stating the usual fee was $5.

The Council declined to interfere, but ordered the police to take action to abate all nuisances.

RED LIGHT DISTRICT

E. Rabouchese waited on the Council and complained the police had warned him against building a house he had in hand at the west end of Douglas Street.

The Council stated they could not stop him from building on his own lot if he wished. The purpose for which the house was to be used was another matter.

Rabouchese said his property was in a section of the city where it could be used for only one purpose, and he demanded either that the council clear out the red light district altogether so that he could let his houses to decent people, or give him the same privileges as the other owners of houses there.

The Council declined to interfere.

COMMITTEE REPORTS

The fire, water and light committee recommended extension of water service to Knichnicki's property at a cost of $40; that a plan be made the city water system; that Bowman Lumber Co. be allowed $20 on their claim of $30 for damage to hose, to be paid by sale of old shafting at the power house; Marino claimed $700 for land at dam,

The Works committee reported on works having attention.

The Health committee recommended payment to A. Cowie of $1000 65 in connection with smallpox quarantine, his board accounts to be assigned to city.

The Finance committee submitted paylist and supplementary estimates. They asked direction of Council regarding claims by H. Manning, $20, and R. Howson, $50, for expenses of trip to Victoria in connection with school grant.

The Council said the Mayor and Ald. Cowan, who had gone on the same delegation, should put in their bills for expenses, but both said they would not make any claim and the Council passed them a special vote of thanks for the public spirit they had shown in the matter. The claims were then passed with the remark that this was the way Mr. Manning had taken of getting even with the Council for refusing him his discount on the water and light account when he was at the Coast on his personal business,

The Works committee was instructed to report on the further accommodation at the city gaol and after some discussion regarding the power dam the meeting adjourned.

CITY COUNCIL

Special Meeting---Dog Taxes are Raised---Trade Licences

Special meeting last night. Present? There was a special meeting of the City Council Wednesday night. Present The Mayor, Alds. Abrahamson, Cowan McKinnon, Bews, McCarty, Trimble.

City Clerk stated Mr. Sinclair, sewer contractor, demanded payment for the extra pipes he laid last fall. His claim was in excess of engineer's measurement. The meeting was specially called to meet Mr. Sinclair.

QUEENS HOTEL.

H. McSorley waited on the Council, and asked to be allowed to connect Queens Hotel with sewer; also for permit to take crossing up.

The Mayor said Mr. Sinclair had told him Mr. Manning could connect with sewer in ten days and he did not see why the same should not apply to Mr. McSorley.

Ald. Bews said according to a resolution passed a month ago, there was no objection to the application.

On motion of Ald. McKinnon, seconded by Ald. Bews, the request was acceded to.

Mr. Rickman asked how much four inch pipe should he make. He was first instructed to make 7700 feet and had made 3,000 feet. He now understood a less amount would be required.

GLOBE LUMBER CO'Y.

Ald. McCarty said the Globe Lumber Company wanted two crossings into their yard.

AN ORDER GONE WRONG.

The City Clerk said Mr. Sinclair complained of the pipes for the lantern holes in the sewer manholes, as they were too light and would not carry the traffic.

The Mayor said they were undoubtedly too light, and the contractor had refused to put them on.

Ald. McCarty thought they should order others.

Ald. Cowan: Who is responsible for ordering them?

The Mayor: Mr. Buck.

THE SEWER SYSTEM.

The City Clerk said Mr. Sinclair had said house connections with the sewers could be made as soon as he could get the test of the system in the presence of the aldermen. No provision had been made for making any payment to Mr. Sinclair for the sewer connections he had put in.

Mr. Cowan: Sinclair did a certain amount of work by instructions of the last council and should be paid for it. All Sinclair has to do now is to connect up the houses of the people who wish this done and the city should appoint an inspector to see that the work is properly done.

Ald. Bews: People who have had this work done should have been compelled to pay up for these connections.

City Clerk: We have no means of arriving at the correct figures.

Ald. Bews. Then Sinclair should not be paid till this is ascertained.

The Mayor: What Ald. Cowan means is that they should pay Sinclair.

City Clerk: I suggest having a city officer see every house holder and ascertain what they wish done, and so have a list ready for Sinclair to go on with.

Ald. McKinnon: We should keep our hands as clear as possible of this. These people who wish Sinclair to do their work can arrange with him themselves. If we have anything to do with it, first thing we know we shall have to pay Sinclair ourselves.

The Mayor: It will be more convenient for people to have the excavation open when the house connection is made than afterwards. The point Mr. Lawson brings up is that there is no provision in the city's financial arrangements for paying from the sewer bylaws the cost of connecting the main sewers with lot lines.

City Clerk: Yes. The former council proposed to bring in a separate by-law for that purpose.

Ald. Trimble: I don't see why we cannot use the money already available for that purpose. It is a necessary part of the sewer system.

City Clerk: Mr. Briggs advises you cannot use sewer moneys for sewer pipe connections.

Ald. Cowan: I don't see why we cannot.

The Mayor: That is the simplest way out of the difficulty. It is only a matter of $2000 and it is absurd to go to the expense of $400 to put thru a special bylaw for that amount for practically the same purpose.

Ald. McCarty: We better leave this over till Friday night and have Mr. Sinclair here. I am willing to pay him the ten or eleven feet required from the city to the lot line and if he cannot connect it the city will do it. Some people have already paid for it so theycan be refunded the amount.

The Mayor: I know I paid.

Ald. McCarty: So did Mr. Lawrence.

The Mayor: Is it illegal to charge up the part from the main sewer to the lot line?

Ald. McCarty: Not according to the resolution.

The Mayor: We'll have to see Mr. Briggs between now and Friday night, and get a positive and definite opinion on it and see if we cannot take this out of the debenture.

Ald. McKinnon: It is a technical point as to whether main sewers and connections are not under the bylaw.

The Mayor: If we cannot take it out it is a flaw in the bylaw. It is a small thing: $2000 covers it out of a $55,000 bylaw. If you put up another bylaw you can't carry it.

Ald. McKinnon: I am through with bylaws for this year.

REGISTERING A KICK.

Ald. McKinnon: One thing I don't like. We come here to meet Mr. Sinclair and he does not turn up.

The Mayor: I asked Sinclair here. He was in ahurry for a meeting and he promised to be here tonight.

SUPPLY OF PIPE.

Ald. Abrahamson: Does the 7,700 ft. of 4-in. cement pipe apply only to the lot line connection or is the house connection system included?

The Mayor: Some of them might want to put in iron pipes.

Ald. Abrahamson: I don't think so. Iron pipe costs 50c. a foot and cement 12½ cents.

Ald. McCarty: We should arrange to have a stock of cement pipe on hand as other people will want to put in connections from time to time.

DOG TAX.

The dog tax bylaw was read and the tax for current year considered. The bylaw as read provided for a penalty of $100 or a month's imprisonment for persons having unregistered dogs, and that all registered dogs must wear a collar bearing the city tag and registration number, or could be seized, impounded and destroyed if unclaimed.

Ald. McKinnon: The collars previously supplied would not stay on a dog 15 minutes.

The Mayor said the other cities were raising the dog tax all round this year and an average was $3 for dogs and $5 for bitches. They should do something here to reduce the dog nuisance. It was the talk of strangers, the number of dogs that were on the treets of the city.

On the motion of Ald. McCarty, seconded by Ald. Abrahamson, it was resolved that the tax for the year be $3 for dogs and $5 for bitches.

BUSINESS TAX.

Ald. Trimble asked whether it was right that a man living on the product of his labor should pay tax. He instanced the case of A. Madaloni, cobbler, who swore about being compelled to pay this tax.

City Clerk: It is because he carries a stock of leather &c. S. McMahon also objected to pay the tax because he was a blacksmith but carries a stock of wagons etc.

The Mayor: The city clerk advises me that more trade licenses have been collected this month than for the whole of last year.

City Clerk: What shall be done about insurance agents and teaming firms? Firms conducting two or more lines of such business objected to pay $10 when other firms as stores carrying several lines only paid $5.

Ald. Abrahamson: It seems strange to me that a man like R. M. Smythe should have to pay a traders license of $5 and also $5 for each pool table.

The Mayor: I think the pool table license is too strong and that the matter of traders licenses should be taken up right away.

Ald. Trimble: Why should a man carrying a small stork of cobblery pay as much as a large firm like Hume & Co.?

Ald. Bews: I would like to hear the opinion of the Council, as Ald. McKinnon and myself are intimately connected with these licenses and don't care to make suggestions in matters where we ourselves are concerned.

Ald. McKinnon: You charge the same for a pool table here as they do in Seattle, and you don't charge the theatres over a quarter of the rates charged in Seattle or Vancouver.

The Mayor: We are going to amend the trades and license bylaw and try to get a fair bylaw.

Ald. McCarty: In Vancouver I think they pay a license for each line they carry.

Mr. Lawson: In Victoria they do.

Ald. McCarty: I think that is right.

Ald. McKinnon: It is not fair to collect it all from one or two parties, as has been done.

The Mayor: Some people have been paying too much and others too little.

Ald. McKinnon: Don't forget the Legislature has authorized a tax up to $200 on outside land agents.

INSURANCE.

The Mayor reported the finance committee had gone into the matter of insurance and divided it as equitably as possible among the different agents. They took some from the Revelstoke General Agencies and gave it to the Kootenay Agencies. They also arranged to get a rebate paying $2.90 when the gas producer plant was actually running and $1.90 the rest of the time. This would save the city $400.

The report was adopted on motion of Ald. McKinnon, seconded by Ald. McCarty.

Ald. Abrahamson. I move that we carry our own insurance.

The meeting then adjourned.

Musical Gaiety

The big musical gaiety "A Knight for a Day" with a record of over 300 nights at the Whitney theatre in Chicago and six months at Wallack's in New York will be seen in its entirety in the Opera House on Friday, April 22.

The production is one typical of the B.C. Whitney trade mark which means in addition to some of the most unique electrical surprises, a chorus of rare beauty and talent, including a number of miniature maidens in dainty dances devised by that wizard of chorus numbers, Gus Sohlke. Those who are fortunate enough to have seen "A Knight for a Day" know it to be a gay and girlie geegaw of particular charm in its score and of uproarious mirth in its comic story and incidents. Mainly it concerns the misadventures of Jonathan Joy and Tilly Day, the first a nervy little waiter who decides to pose as a knight whose credentials he has annexed and failed to return because of the owner's neglect to tip him; the other, a servant girl at a young ladies' boarding school. Comic incident runs riot thru the piece.

Everyone who follows the theatre, has doubtless heard of the elopement scene with Tilly Day, the servant lady and Jonathan Joy, the "near knight" escaping from a dormitory window by the light of the moon only to be caught after a second trip up the ladder to get the powder puff of the servant lady which had been overlooked in the hurry. Most people are likewise familiar with the laughable waves generated by the scene at the well where Tilly becomes intoxicated by imbibing of the waters of a champagne-charged cistern. In the girl ensembles, Gus Sohlke exceeded all previous efforts and this part of the presentation is perhaps as renowned as anything in the production.

Late M. J. McKay

The Ingo County Register, of Bishop, Cal, gives the following account of the funeral of Melville J. McKay, who was killed while quarrying at the power dam:

The body of Melville J. McKay, who met so untimely an end in British Columbia last week, arrived Tuesday afternoon, under charge of J. Howson, an undertaker of Revelstoke, B. C.

The sadness of this rude snapping of earthly ties is emphasized by the recollection that five years ago a brother of the deceased, Arthur McKay, lost his life in a runaway accident near here

Melville J. McKay, son of Mr. and Mrs. Chas. A McKay, was born here nearly twenty five years ago. His upright and industrious character, which won friends in this his home, was unchanged by his experiences since leaving here a year ago, for from the place of his death come words of commendation for his reliability

With the hope that the future will add no more to the sorrows of the deeply bereaved family, we would if possible convey to them a sense of the heartfelt sympathy in which the whole community shares.

Funeral services at the family residence yesterday afternoon were conducted by Rev. S S Patterson. Afterward, a long procession went to the cemetery, where the Fraternal Order of Eagles, with W. H Bryson and Edward Schober officiating, conducted the interment of their late member.

THE object of all expert bakers and cooks is to make a pure white loaf

And this object is attained by the use of

PURITY FLOUR

Purity is a hard-wheat flour of decidedly superior whiteness. It bakes into a pure white loaf. So, you see, to get the really beautiful white loaf you must use PURITY hard-wheat flour.

"More Bread and better bread."

Scotch Whisky

Popular the World 'Round.

The world-wide popularity of Watson's Scotch Whisky is one of the strongest proofs of its exceptional merit.

The Canadian will seldom be disappointed, if he asks for Watson's Scotch anywhere from Halifax to Vancouver.

If he travels down the Pacific Coast he will find it at the "Portland" or the "St. Francis." Should he continue his journey through the Orient, he will find Watson's in Honolulu; in Levuka (Fiji); at the "Grand" in Yokahama; the "Imperial" in Tokio; and at every house of any consequence in the Flowery Kingdom. Even in far-off Korea the brand is well known.

It is the favorite of our American friends in Manilla, and can be had at the "Hongkong." From the famous "Raffles Hotel" in Singapore to the "Taj Mahal" in Bombay, it is known and enjoyed, and Australasia has accepted it as Scotland's best.

Insist on Watson's

"THREE STAR"—A mild, thoroughly matured Scotch.
"NO. 10"—A full-bodied, richly flavored Scotch.

JAMES WATSON & CO., Limited - Dundee.

Spring Overcoats

Eight artistic creations—from the stately "Governor Paddock", 50 inches long—to the smart little "Topper", only 36 inches long.

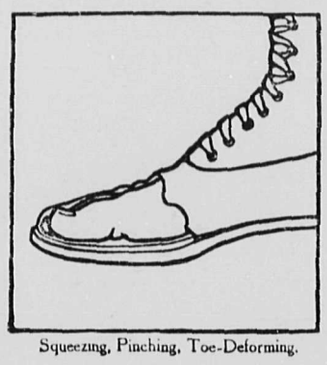
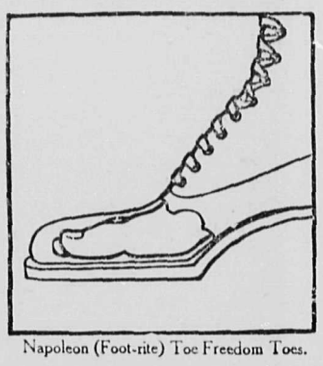
The Napoleon
(Foot-rite)
Shoe

Gives Toe Freedom



Squeezing, Pinching, Toe-Deforming.



Napoleon (Foot-rite) Toe Freedom Toes.

"That's where the shoe pinches." Where? Everywhere in the ordinary shoe, which is merely a foot straitjacket, but principally in the toes.

The toes in nearly all shoes are not made wide enough, nor high enough, nor long enough, neither are they shaped like the toes. They're simply straight and stiff on the bottom, soft, collapsible and round on the top, and tapering V-shaped to the front point of the shoe.

Into this low, stubby, narrow, tapering, squeezing, pinching, toe-deforming shoe, man jams his toes. What happens to those toes? Corns, bunions, ingrown nails, twisted toes, and other pain-producers.

The Foot-rite Shoes are a radical reform in shoe toe construction. Their toes are built long, wide and high and are formed precisely like the shape of the foot's fore-part. The toes which inhabit them never touch the sides, nor the top, nor the end except by voluntary muscular action. They touch only the bottom on which they lie flat, and free to move at will in any direction. And the arched roof over them is not made of paste and cloth as in other shoes. It's a canopy of pliable sole leather which sustains its arched from stubbornly, relieving the toes from roof pressure and abrasion and maintaining the shoe's box toe handsomeness.

Ask to see Napoleon Foot-rite Toe Freedom Toes. You'll find a welcome as warm, whether you wish to buy or just to see.

Anywhere in America, Canada or Great Britain—$5.00 to $8.00. Every pair Goodyear Welted.

"Bostonians" Are Great

Last night was a gala night at the Empire Theatre, when Babe Mason and her winsome young companions were enthusiastically welcomed back to Edmonton by a crowded house. There is not a more popular company visiting Edmonton than the Bostonians, and this year the company is even better than before. They are playing here for the rest of the week, with a Saturday matinee, under the auspices of the Edmonton United Aids.

Babe Mason is undoubtedly the most fascinating child actress in Canada, and one with a bright future. In the two years of study, during which she has been absent from the stage, she has made notable progress. This, in fact, may be said of all the members of this very attractive troupe. Friends, like good wine, improve with years.

The Bostonians have rarely been seen here in a more effective vehicle for their artistic and musical ability than in this sparkling, wholesome operetta with its setting in the Swiss mountains. Every detail of the scenery and picturesque costuming has been carefully thought out and the ensemble of the artistic chorus-groups was pleasing to both the sight and hearing.

Babe Mason as Bertha, the bewitching little German sausage girl, whose American uncle leaves her a billion dollars, is delightfully piquant and comic—a wholesome joy from first to last. Little Ethel Stoddard, the youngest of the troupe, made a decided hit in her song, "I Want a Postal Card," and received numerous recalls.

Edith McClaire and Hattie Hellen, two pretty and graceful seniors of the company, made a pair of handsome youths. The Swiss Yodelling songs of the former was one of the very enjoyable features of the evening, while the latter has a delightfully sweet and fresh voice which brought out rounds of applause. Another pleasing solo was that by the lovelorn maid in search of her musician, "whose front name was Fritz."

Vivian Amber's solo work was pleasing and effective, while Lois Mason, Babe's pretty sister, filled a leading role capably. The part of the aged father was exceedingly well taken by Julia Belo.

All the choruses were notably good, the shifting lights effect being particularly pretty in the chorus to the Moon.—Edmonton Bulletin.

Another Armenian Raid

Revelstoke has had its experience of the Armenians and Persians who come here to raise money under the plea of persecuted Christianity. We have already published the results of the Dominion investigation of conditions in Persia and Armenia, showing that the stumping of Canada by these men is all humbug, and that all they are after is a little easy money. Judging from the Perth Courier, eastern Canada is now the scene of such operations. The Courier says: Rev. Mr. Mosher, a Christian of the Nestorian persuasion, from far off Kurdistan, a Persian province bordering on the Russian possessions in Central Asia, filled the pulpit of St. Andrews church last Sunday evening, telling of his quest in Canada which was to raise the sum of three thousand dollars upon the interest of which he and his family could be supported while at mission work in his country, where Mohammedanism was so rampant and so inimical to any form of Christianity in Persia. He argued from the configuration of the country and the birth of four rivers in the plateau there that in his native land was situated the Garden of Eden, and he also pointed out that Mount Arrarat, where the ark rested after the Deluge was located in that part of Persia. There were about 225,000 Nestorian Christians in that country, and some 3,500,000 Mohammedans; and the latter being the stronger and the ruling element, persecuted the weaker Nestorians and often turned their aggressions of robbery and theft to murder and wholesale massacre. The only protection in his neighborhood was the Russian Consul, in whose residence the fierce fanatics dare not enter. He himself lost his mother, a brother and many other relatives by the hands of these ruthless followers of Mahomet, and it required all the courage and endurance his co-religionists possessed to hold their own amid such horrors, and many indeed gave way to at least nominal conversion to save their lives and property. He had come eleven thousand miles to lay his case and those of his fellow christians before the people of Canada and he trusted his mission would be successful. Mr. Mosher came to the pulpit platform clad in the picturesque Persian costume. Many responded then or next day to his appeal.

The Copper Handbook

The ninth annual edition of the Copper Handbook, edited and published by Horace J. Stevens, Houghton, Michigan, is just received. This work, which has become a standard authority on the subject, for the entire globe, has, in its latest edition, 1,628 octavo pages, containing considerably more than a million words, and, in addition to the miscellaneous chapters, lists and describes no less than 7,751 copper mines and copper mining companies, in all parts of the world, descriptions ranging from two to three lines in the case of companies that have died recently, to sixteen pages in the case of one of the largest mines—a mine, by the way, that employs some seven thousand men, and has paid dividends of considerably more than a hundred million dollars. The mine descriptions are the same as in the preceding volume, except that upwards of eight hundred new titles have been added, covering descriptions not contained in any previous edition. The chapter of statistics, containing upwards of forty tables, treating of copper from almost every conceivable standpoint, has been fully revised and brought as nearly as possible to date.

The miscellaneous chapters of the book, twenty four in number, treat of the subject of copper from a great variety of view points, including the history, chemistry, mineralogy, metallurgy and uses of the metal, and this section of the book also has chapters devoted to substitutes, alloys, brands and grades, and a copious glossary.

The plan on which the book is sold remains the same as for seven years past, the publisher sending the book by mail, fully prepaid, to any address ordered, without advance payment of any sort, and subject to a week's inspection. The price is $5.00. That this unusually liberal plan has proven successful is shown by the statement of the publisher that net losses thru returned copies and defaulted payments are less than four per cent. Anyone interested in the subject of copper, as producer, consumer or investor in shares, should write to Mr. Stevens for a copy of the Copper Handbook on the unusually liberal terms noted.

Canada's Exposition

Canada's Exposition at Winnipeg is assured for 1914. This is the date fixed upon after much conference for the purpose of getting at an agreement on this point that would be acceptable to the several interests that are involved. Such an agreement has been arrived at, and the Exposition Committee has taken up the question of finances with renewed activity, this point having been allowed to lapse while the matter of the date was being threshed out. Now that this important point has been settled, there is no need for further delay, and the plan for raising money for Canada's biggest show is being worked out in general and detail.

The committee is concerned chiefly in the plan for raising money in Winnipeg and chiefly in arranging the plan so that it will be equitable, and will afford all those who wish for it, a chance to get in on the subscription lists. Preliminary working out of these lists, together with declarations of some principal men and corporations, show that there will be no difficulty in raising a million dollars by stock subscription in Winnipeg, if so much as this is needed in addition to that which will be derived from other sources. Indeed, interest in the Exposition is so great among the men who have looked closely into the project as great natural event which will bring splendid results to all parts of the Dominion, that there is no limit, within reason, to the support which the Exposition will receive among the business men and general public of Winnipeg.

Police Court

The police have had considerable trouble lately in rounding up the many "drunk and disorderly" cases that have been a feature at the city police court for the past week or two, and the trouble still continues.

JAPS ARRESTED.

S. Okaski, a Jap, was charged with being drunk and disorderly on the street. The accused pleaded guilty and was fined 85 and 82.50 costs, or in default 14 days.

S. Kayawa was brought up on a similar charge and received a light sentence.

G. Yamada, charged with being drunk, pleaded not guilty and was remanded.

A BAD START.

H. Taylor was charged with being drunk and disorderly, and acting in an obscene manner on McKenzie Ave.,

The accused stated he had been out in Canada eight weeks, being a resident of Aberdeen, Scotland, and had during that time been employed by the C.P.R., as well as on local work. He expected his wife to join him in a month or two. The Chief of Police said that the accused had previous to this charge been misbehaving himself. The Court pointed out that the accused had made a very bad start in Canada, and warned him that he must behave himself if he wanted to get on. A fine of 85 and 82.50 costs, or 5 weeks imprisonment was imposed.

T. Nichols has got the contract for moving the building occupied by Bourne Bros. Hardware department, on McKenzie Avenue, to a site on Connaught Ave. As soon as the ground is clear work on the foundation of the new building for the Canadian Bank of Commerce will be commenced

The Chief of Police at Prince Rupert is busy cleaning up the town. "And as for gamblers, bums, and others of their ilk," remarked the chief, "They have all got to go. If any one wants a free passage south, and steady employment at New Westminster, I shall be pleased to furnish the same. We are going to make a general clean-up."

The Prince Rupert Empire says: For months, very questionable places of business have been springing up, and just as suddenly as they appeared, equally suddenly have they disappeared, in some instances. The fact is, the scum of Seattle finds its way into Prince Rupert as soon as things get too hot for them in the southern city, and they prey, for the most part, upon the working classes, and as soon as they skin them, light out."

The funeral of the late Frank Gennet who died on Monday in his house across the Columbia, took place on Thursday afternoon from Hobson's undertaking parlors. Rev. Father Coccola read the funeral service. The remains were followed to the cemetery by a number of Revelstoke's old-time citizens. The deceased had been suffering from rheumatism for some time, but his heart became affected and the cause of death was heart failure. Mr. Gennet was one of Revelstoke's old timers.

The Mail=Herald

UNION LABEL

SATURDAY, APRIL 16, 1910.

Dominion Attorney General Aylesworth thus comments on the proposals to make people good by act of parliament: "Where is this thing going to end? We have made it a crime for a man to go fishing on Sunday, we have branded as a criminal a boy nearly grown who makes a cigarette. I believe the day is not far distant when the influences behind the Miller Bill will demand a criminal statute against card playing, dancing and any other form of amusement which certain people may regard as sinful."

MUNICIPAL COMMISSION.

This city should consider the advisability of adopting the system of government by commission. There is not a mayor or alderman who would not be glad to see such a change. As it is the mayor and aldermen give a large amount of their time to the public interest. That time has no compensation, and the city representatives get all kinds of undeserved abuse as their reward. With a commission the commissioners would be required to give all their time to the management of the city affairs, would receive full pay for their services and would be responsible directly to the ratepayers. There would be no catering to parties or factions. We believe the change would result in the most effective and economical government the city has yet seen.

METHODS OF TAXATION.

We believe the time has come when the City Council should base its taxation on unimproved land values and exempt all improvements. Such a policy would be an incentive to owners of property to build and improve, and to buy material and employ labor; to build up Revelstoke in a progressive and substantial way. Under the present system the city penalises the progressive and enterprising citizen, and rewards the drone who holds land merely for purposes of speculation without any effort to improve the value of his own or his neighbor's property.

Vancouver has adopted the more progressive system, and a high authority, writing on the matter says:

"I hope that the fruits of this wise act of yours will be immediately evident to some extent and so increasingly beneficial that the movement will sweep the thinking sections of both Canada and the United States. When that occurs, if the Mayor and Council of Vancouver do not find themselves on pedestals, they will at least find themselves part of the world's history as those who made the first practical move toward the great enfranchisement of the world."

We hope the City fathers and tax payers of Revelstoke will think this over and that the outcome will be adoption of the system here.

THE WHITE PLAGUE.

The year 1909 will be marked as a red letter year in the calendar in the history of the crusade against consumption. The movement received a great impulse from the congress of distinguished physicians which was held in Washington, U. S., in the autumn of 1908 to consider the further measures to be taken to stamp out this dreadful enemy to the life and happiness of mankind.

Canada in common with the rest of North America, perhaps we should say the whole civilised world, has participated in the new and increased activity which resulted from the deliberations of the congress.

Never since the organisation of the Canadian Association for the Prevention of Tuberculosis has there been such activity displayed in Canada in this fight for life. Older branch associations have been reinvigorated, new associations have been formed which are showing in many cases a vigorous activity. Several new institutions for the relief and treatment of consumptives have been opened and the demand for literature has been larger than ever. Take it all in all 1909 was a year of great progress in the work of the association.

The tenth annual meeting will be held in Montreal on the 7th of June next, and preparations are being made to make this one of the best, if not the best meeting in the history of the association.

Spray now, soon be too late. We have the lime and sulphur spray at Lawrence Hardware store.

Not so many people would send east for furniture if they would first figure the freight at $2.35 a hundred.

LICENCE COMMISSIONERS

A meeting of the License Commissioners of the city was held on Thursday with Mayor Hamilton and Commissioners W. A. Sturdy and F. McCarty present.

NUMEROUS BLIND PIGS.

Applications for wholesale liquor licence were received from F. Julian, and D. Gallicano, each particularizing the lots and property where the business would be carried on.

G. S. McCarter, appearing on behalf of Mr. Gallicano, said that in regard to Mr. Julian, he had no property in the city to carry on the business in, and could not do business in his own name. Mr. Gallicano was a good business man, and if granted the licence would run the wholesale store separate from his own retail store business. He would not sell liquor to any one whom he thought would retail it out again, without licence, but for private consumption only. There are several "blind pigs" in the city, and it was the duty of the authoritips to regulate this.

The Mayor agreed that Mr. Julian could not run the business and believed in Mr. Gallicano's honest intentions, but questioned how another licence would decrease drinking and how Mr. Gallicano could know if he was selling liquor to others who did not retail it out again. It was very difficult to get convictions against "blind pigs" although the city had tried hard to get them. The licence board must be convinced that another whole sale license will decrease drinking.

G.S. McCarter said, if Mr. Gallicano gets the licence the Enterprise brewery has agreed to cut out all other sales of beer to the Italian quarters, and they will not sell except to a licenced man, which will have the effect of stopping the "blind pigs."

FEELING AGAINST IT

The Mayor pointed out that there was a strong feeling in town against another licence.

Commissioner McCarty was not in favor of granting it as it would not lessen the trouble in the Italian quarter.

Mr. McCarter said that trouble would come soon in the Italian quarter unless something was done. The new act taking effect in August will prevent a brewery selling to an unlicenced man. If the licence is granted the Council will clear their skirts of these blind pigs. Mr. Gallicano will refuse to sell to anyone who is found out to be retailing it out again without licence.

Commissioner Sturdy thought that would be very hard to keep track of.

Mr. McCarter pointed out that Mr. Gallicano would keep a record of every keg sold, and who bought it, and that another licence would not increase the sale of liquor, but would rather have the tendency to decrease the sale in the Italian quarter.

The Mayor said that if this one was granted, several more applications would probably come in.

Commissioner Sturdy reminded the board that for the last three years Mr. Gallicano's application had been refused. Many people were opposed to a lipence in the east end of the city and it would not stop the selling of liquor there.

BOARD LIABLE TO CENSURE

The Mayor pointed out that the board would be liable to very grave criticism if they granted another licence, although he believed that Mr. Gallicano had applied for it with honest intentions. The idea of another licence is not good.

Commissioner McCarty said Mr. Gallicano could not prevent others retailing this liquor out.

CUTTING DOWN LICENCES

The Mayor called attention to ,the fact that there was a tendency to cut down the number of liquor licences all over the province and being an Italian makes no difference.

Mr. McCarter said that if the city was satisfied with the conditions up in the east end of the city, it would soon be sorry for it. The fact of the profit in the business causes the sale of liquor and the question was how to regulate it. Mr. Gallicano will not sell to any doubtful man.

Mr. Gallicano will not be a party to selling liquor to others who will retail it out without a license.

The Mayor pointed out that the cost of proving the retailing of it will come on the city!

APPLICATIONS LAID OVER

Commissioner McCarty moved that both applications be laid over till next meeting.

Commissioner Sturdy seconded and the motion carried.

GET AFTER BLIND PIGS.

It was also moved by Mr. Sturdy and seconded by Mr. McCarty and carried, that the Police Commissioners be requested to do all in their power to get rid of blind pigs in the east end of the city, which, it has been reported to the board are in existence.

The meeting then adjourned.

Police Court

G. Yamada, a Jap, remanded on a charge of being drunk, appeared again at the court on Thursday evening. Constables Cleland and Terry testified that they had seen the accused drunk on McKenzie Avenue in company with two other Japs, all making a noise and behaving in a rowdy manner. The accused denied being drunk, stating he had only had one drink and was trying to stop his friends from making a noise.

The court decided that the accused's actions that night were peculiar for a man who claimed to be sober, and accepted the evidence of the two constables.

A fine of $5 and $4 costs was imposed, or in default 14 days imprisonment.

The School Grant

We have been requested to publish the following letter embodying the terms on which the Provincial Government give a grant of $30,000 towards the purchase of site and erection of a new school building at Revelstoke, and indicating the purpose for which the delegation representing the City and School Trustees applied for the grant:—

Victoria, Feb. 11, '10.

T. W. BRADSHAW, ESQ.,
Secretary School Board,
Revelstoke, B. C.,

Sir:—In reply to an application made this morning by certain delegates from your school board to the Hon. the Minister of Education, I am instructed to say that the sum of $30,000 will be granted your board for the purpose of aiding in the construction of a large brick school house in Revelstoke. Fifteen thousand dollars will be available for that purpose on the first of April, 1910, and the remaining $15,000 on the first of April, 1911. It is understood also that the total cost of purchasing a site and erecting this school shall not be less than $60,000. In other words the department will become responsible for one half the total cost provided such cost shall not exceed $30,000.

I have the honor to be, Sir,

Yours etc.,
ALEXANDER ROBINSON.,
Superintendent of Education.

The Eckhardt Company

The splendid Eckhardt Company supporting the brilliant actress Miss Josephine Deffry in a splendid selection of five different plays comes to the Edison Parlor Theatre for an engagement of five nights commencing Tuesday, April 19.

Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

Entry must be made personally at the local land office for the district in which the land is situate: Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of, $1 per acre. Not more than 2,560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

VANCOUVER BOOSTERS

Answer to the Roll Call

Are you *counting on the fortunes*, my dear real estate men,
That are lying in vacant lots that do not pay?
Are you reckoning on your taxes and your interests, with your pen,
Which are working out your incomes the wrong way?
Are you discounting the future as to what there will accrue
When you *sell these vacant* lots and get the chink?
I can tell you in a moment just about what you will do
When you get a bit of time to sit and think.

You will gladly give those vacant lots to any one at all,
Who will take your debts and discounts off your hands;
Then, and as to those big fortunes, when the boom begins to fall,
They will vanish like the fogs that strike your lands.
You have hit a big delusion but you do not ken it yet,
Just because you haven't time to sit and think,
But you'll come to a conclusion if you'll come out of the wet
And allow a fellow man to give the wink.

Pray how many of you have incomes as great as your out go,
With a balance to the good to pay your rent?
If you find that this you haven't, out of real solid dough,
Then with fortunes of such kind don't be *content*:
When those lots will drop even half of what you think that they now are worth,
What about the balance owing on them then?
For I trow your equities will get a wide and withered berth,
And you'll need to start at fortuning once again.

Then about those covenants you have signed, and are liable to pay,
Whether lots will sell for anything or not,
And you cannot dodge the judgments that will follow in their day,
When the other fellow sues you and you get caught;
You'll find that on your hands you'll have an elephant big and white
That won't move when you do urge him without pence:
You'll then observe the bubble that *seemed once so nice to bite*,
And you'll then begin to see with common sense.

Men are often quite unconscious of the reality of things,
When their minds are hypnotised by other stuff,
And it happens very often that their fortunes take on wings,
When such fortunes are composed of hot air puff.
You are going to have some millionaires—no doubt at all of that—
There are always lucky Charlies in a bunch—
But that you will have more paupers, I will bet my Sunday hat,
Who will find it mighty hard to pay for lunch.

What will happen 'bout those vacant lots when no one wants to buy,
Yes, when every body else is trying to sell?
I am thinking that you'll be wishing that they hadn't soared so high,
Or that they had gone to glory, or to h--l.
This especially will happen when you get your single tax,
Which will reach you sure and sartin by next Fall:
Then with very little effort tho' my ear be closed with wax,
I can hear ex-millionaires begin to bawl,
"When the roll is called up yonder, we'll be where?"

You've got, I'm told, at present o'er three hundred thousand lots,
On the market in your city sold in pools,
In this number you will find full quarter million empty plots,
And as many empty crazy headed fools
Who will soon engage some school boys for to kick them round the track,
Cause they didn't think in time and see their fate,
'Cause their purses they are empty, and their brains are on the rack,
'Cause they didn't sell in time and are too late.

There is nothing like experience for to give a fellow brain,
And I've had it thirty years and a day,
And its when the sky is clear that we should prepare for rain,
Now just paste this in your noddle and obey.
But remember t'other fellow and don't load on him your pack,
But keep up before your eyes the golden rule,
And what even in your booming of *good sense that you may lack*,
Do not make of your real self a moral fool.

You have only lost your dollars in that gamble of a boom,
You've experience and nuff sense to make a man;
If you'll only take this lesson it may save you from a doom
Worse than h--l, or selling lots from off a plan.
Now, as Halley's comet's coming and your boom is soon to burst,
Take *the wink from one who knows* and thus can see;
If you don't you're in the soup pot, and you've yet to see the worst,
And you'll land between the Devil and deep sea.
"When the roll is called up yonder, you'll be there."

Now put on your Sunday meeting hat, sit down, be on the square,
Think of other fellows scattered thru the land,
Whom you're robbing of their money, and I ask you 'is it fair,
That your city and your province you should strand?
How the money that should now be used in land development,
Is just wasted buying lots not worth a sou;
How the *interest on the loans* and bonds to other countries sent,
Are depriving homes of comforts not a few.

How the few are making millions which will damn themselves at last
How the masses are made poor on every hand.
How the thousands and the billions which are scattered now broadcast
Should be used in building roads throughout the land.
How the dollars being wasted *advertising* trashy stuff,
Should be used in clearing land and *draining* swamps;
Sure the poor are getting poorer and the rich have got enough,
Time to quit or we'll be over run with tramps.

It is time to drop the curtain, pull the brakes and stop this boost,
Let this gambling go to h-l from whence it came;
For you'll find by little waiting that chickens come home to roost,
And this gambling is a losing kind of game.
It is said the farther down you fall the higher up you'll bounce
This is true, but vice versa is a fact.
If you use what little brains you've left—andsure you've got an ounce,
You'll find that vacant lots will soon contract.

Now, good bye, but stop your booming, think of country, God and man,
And results which follow always in the wake;
Of such booming and such boosting, and its got to be a scan,
Get to work at something safe to make your stake.
It is always best on steady lines to fortune to aspire,
Climb the first steps in the stair before the last;
Then in all your future efforts you are sure to rise up higher,
Not be worrying o'er the doomed and dooming past, but sing,
"When the roll is called up yonder we'll be square, &c."

PROCLAMATION

A vacancy having occurred on the Board of School Trustees, public notice is hereby given to the electors of the Municipality of Revelstoke, that I require the presence of the said electors at the City Clerk's Office, City Hall, McKenzie Avenue in the said city, on the 20th day of April, 1910, at 12 o'clock noon, for the purpose of electing a School Trustee.

The mode of nomination of candidates shall be as follows:

The candidates shall be nominated in writing; the writing shall be subscribed by two voters of the municipality as proposer and seconder, and shall be delivered to the Returning Officer at any time between the date of this notice and 2 p.m. of the day of the nomination; and in the event of a poll being necessary such poll will be opened on Saturday, the 23rd day of April, 1910, in the City Clerk's office, in the City of Revelstoke, and kept open between the hour of nine o'clock in the forenoon and the hour of seven o'clock in the afternoon, for taking and recording the votes of the electors of the said City, of which every person is hereby required to take notice and govern himself accordingly.

The persons qualified to be nominated for and elected as School Trustees shall be such persons as are householders and being British subjects of the full age of twenty-one years and otherwise qualified to vote at an election of School Trustees.

Every candidate nominated shall signify by a writing accompanying the nomination paper his consent to such nomination, except in case such person be absent from the municipality when such absence shall be stated in the nomination paper.

Given under my hand at Revelstoke this 13th day of April, 1910.

CHAS. J. AMAN,
Returning Officer.

ROBIN HOOD FLOUR IS DIFFERENT

Every housewife who uses flour must be interested in ROBIN HOOD "the flour that is different."

You hear it makes a bigger loaf, that the loaf is sweeter-flavored, more nutritious, more easily assimilated than bread made with other flours.

We can tell you why ROBIN HOOD Flour makes that kind of a loaf, but what ought to interest you more than "why it does" is that "it does."

You can prove what we say as true at no risk of loss to yourself.

It is largely a matter of making up your mind to use "Robin Hood."

The Saskatchewan Flour Mills Co., Ltd.

Moose Jaw - - Sask.

P. S.—Ask your grocer about our guarantee, and when you use Robin Hood add more water than usual.

PROVINCIAL DEVELOPMENT

Review of the March of Progress of To-day

Looking over the great territory between the summit of the Rocky Mountains and the Pacific Coast we see almost everywhere the story of hopeful enterprise and development. Never has British Columbia looked brighter. Never have men throughout the province been so impressed with its boundless natural wealth and opportunities, such as are found in no other parts of the world.

IN EAST KOOTENAY

We see the C.P.R. starting work in earnest on the Kootenay Central railway, which will open up a new country rich in fertile, agricultural and pastoral lands, with a fine climate, abundance of water and mineral resources, especially in the Windermere district, such as would find a stampede if discovered in any other part of the world. Copper, gold, silver, antimony and zinc ores abound in the Selkirk ranges to the east of the valley, while there are also good mineral prospects, especially of gold ores on the southern extension of the eastern slopes of the Rocky Mountains. Native quick silver was recently found at Field, on the main line of the C.P.R.

Lumbering is also active. A new saw mill is also being started at Canal flat, at the head of Columbia Lake, which is the source of the Columbia river. At Golden, one of the largest saw mills in the province is operated. A new steam boat in which the Canadian Northern is said to be interested, is being built at Golden to serve the country between Golden and the south end of the upper Columbia Lake. Canadian Northern interests have, in the vicinity of Golden, and north of the C.P.R. at Donald, a large area of some of the finest timber in the province and it is stated they are opening up these timber berths by a branch line between their main line at Tete Jaune Cache and Golden. This would place their mill on their line of railway and enable them to operate these timber limits, which they can operate in no other way. With the steamboat at Golden the Canadian Northern would also be able to serve the entire country south of Golden as far as the upper Columbia Lake.

IN WEST KOOTENAY.

The settlement of fruit lands, the mining industry and lumbering will all have a busy season. The Arrow Lakes will be the scene of exceptional activity in land settlement, as several colonisation companies have arranged to bring in a large number of settlers. One of the most reliable and enterprising of these colonisation companies is the Natural Resources Security Co., Ltd., with office for Kootenay at Nakusp. This company was organised by Messrs. Hammond, who were among the first to recognize the possibilities of West Kootenay as a field for fruit growing and small settlement. About four years ago they took up considerable land along the Arrow Lakes and founded Fruitvale, on the Nelson and Fort Shepherd railway. In the face of many obstacles they made an unqualified success of this settlement, which is one of the most progressive in the province, the settlers who have located there having great confidence in the resources of the soil, its adaptability to the purpose for which it was taken up and the superior quality of its products.

This year the Natural Resources Security Company will devote active attention to the settlement of their lands at Arrow Park. Already the colonisation work they have done there has resulted in a progressive community. The soil and climate are amongst the best in the province. The placing of settlers there is not being pushed at present by the company as they have been delayed in the completion of their surveys, and are determined not to sell an acre till the surveys are completed and plans out so that intending purchasers can see exactly what they are buying. If all land companies conducted their business in this bona fide way there would rarely be any cause of complaint on the part of immigrants taking up subdivisional fruit lands in British Columbia.

If the Arrowhead and Kootenay railway construction is begun as promised this fall it will result in a great mining development and land settlement in the Lardeau, which is as good a fruit section as any in Kootenay.

On Canoe River the Grand Trunk Pacific railway construction will follow west from the Yellowhead Pass, opening up a vast new territory, rich in agricultural and pastoral lands, and in mining and timber resources. The City of Revelstoke will see the greatest building year in its history.

YALE

Will be a busy section of the province this year, owing to the fact that the Great Northern will build into Penticton and extend their Similkameen line through to the Hope Mountains on their way to meet construction east from Abbotsford. The C. P. R. will extend their Nicola railway into the Southern Okanagan and the boundary districts. The Canadian Northern will start construction north and west from Kamloops, which is now making great progress as a city, while the settlement of its land is taking an active form.

FORT GEORGE.

This seems to be the coming Mecca of immigrants this year. Situated on the Fraser river, where it connects with the Nechaco and the great lakes to the north, and with 1200 miles of navigable waterways tributary thereto it is believed that when the Grand trunk Pacific railway reaches there next year Fort George will develop into one of the most important trade centres of the interior of British Columbia. Already a vast amount of land has been taken up and it is stated there are two and a half million acres available for settlement in that vicinity. The men doing the most to advertise and make known the resources, attractions and advantages of the great new north land are the Natural Resources Security Company, who own the Central Fort George townsite. So successful has been their campaign of publicity that they have already disposed of nearly all their surveyed lots and already have had the satisfaction of seeing buyers do well out of their investment. As an instance lots which they sold some time ago have changed hands at between two and three times what was paid for them. $1200 was offered for a double corner. This company will not forsake its townsite with the sale of its lots but is making active preparations for the establishment of industries there and to develop the country in a bona fide manner. Already the Company is assisting in the erection of a $75,000 hotel; telephone communication is being put in, transportation from Ashcroft by land and on the Fraser river from Soda Creek is being improved; the surrounding country is being explored by competent men, so that the public shall be apprised of the facts as they will find them. A company is organised to build a railway connecting with the C.P.R. at Lytton up the Fraser Valley to Fort George. The one mistake people are making is in running in there so as to be first on the ground. It is too soon. Until navigation facilities open transportation is slow and comfortless. And even then there is no work for people till the construction of the Grand Trunk railway reaches this point this will not be for some time yet. The Natural Resources Security Company have advised their clients of the foolishness of rushing there before the railway, but the warning is neglected.

W. F. Cook, who has just come down from there, says the rush to Fort George is already on in earnest, although the trail is in a frightful condition, the picturesque caravan of the newcomers partaking somewhat of the character of an American prairie land rush, and somewhat of that of a mining camp stampede. The ice was already breaking when Mr. Cook came out, and the opening of the river for navigation was looked for daily.

The Bank of B. N. A. is opening a branch at Central Fort George at the instance of the Natural Resources Security Company, with L. G. McHaffie, late manager of the Hedley branch in charge.

As showing the favorable impression on investors in Central Fort George, a gentleman who bought two lots from the Natural Resources Security Company, and who went in there to see the location for himself, wrote the Company under date March 14, 1910: "I got to Fort George. It is a beauty for a townsite. It is bound ta be a town. If I can get a license will build a hotel and open a real estate office."

VANCOUVER.

This city is still intoxicated with its real estate mania but financial men and even reliable real estate gents will tell you it cannot hang in much longer. The end is bound to come, and many fear the crash it may bring in its train. Inside property is still a good investment, but all sorts of wild-cat city, town, and suburban laads have been subdivided, and put on the market. Even the marsh on the Fraser at Minoru Park is surveyed in town lots and this and other stuff which people who know it won't buy as such is sent to the interior among what Vancouver Coast real estate men term "the suckers." Notwithstanding, it is generally believed Vancouver is destined to be the greatest city on the Pacific Coast.

NEW WESTMINSTER

is in the most flourishing condition in its history. There is a strong impression that Fraser River water front property will make this the great

REID & YOUNG

LOCAL AND GENERAL

"Nero, or the Burning of Rome" tonight at the Edison.

The owners of the Tete Jaune Cache townsite will shortly put it on the market.

At the G.T.P. investigation Mr. H. Lumsden admitted recommending the dismissal of Major Hodgins.

The work of painting the new Government traffic bridge here will be commenced as soon as the weather improves.

Cricket practice takes place every Saturday afternoon now, and the club members anticipate a very successful season.

It is reported that a well known Revelstoke man cleaned up $25,000 this week from a real estate deal at Vancouver.

The household furniture and effects of James Hay, Third Street, are being disposed of by private sale. Everything new and of first class quality.

The Revelstoke Land Company are subdividing the balance of their land south of the city and expect to have 360 lots on the market in another two weeks.

L. M. Hagar has purchased a beautiful ranch at Cowichan and has removed his stock there. He will return next week to take Mrs. Hagar and family to their new home.

The City Electrician is testing the new direct current luminous arc lamps which are being installed throughout the city. One is already in operation opposite the City Hall.

The Laborers Co-operative Mining Co owning claims at Sicamous and Golden, has been reorganised, since the death of C. E. Nylin, and will make a bona fide attempt to open up its properties and prove their worth.

R. Howson's new building on McKenzie Avenue will be extended from the second street corner to the Canadian Bank of Commerce building, thus having a frontage to McKenzie Avenue of 125 feet. This will give a solid fire proof block of brick and concrete from second street to P. Burns & Co's block on first street.

Ald. H. McKinnon has concluded the arrangement to purchase the pool and billiard rooms being operated by D. Brown at Kamloops. The pool room which is centrally located near the Leland hotel has been turned over to its new owners. J. McKinnon will be in charge, and is now superintending the alterations and improvements of the building, which when completed, will make the room equal to any in the interior.

Moving Pictures tonight.

Spring Tonics!

Sarsaparilla and Beef, Iron and Wine. These remedies chase away that tired feeling and cleanse the system thoroughly.

Successors to Kincaid & Anderson

It is expected that an amicable arrangement will be reached between the telegraphic department of the Canadian Pacific railway company, and their operators, whereby a general increased wage scale will go into effect in all offices west of Fort William. The advance is expected to be of from ten to fifteen per cent.

Several people who have interests in the land across the Columbia below the bridge, and who have been working there, have been complaining of promiscuous rifle shooting in the woods by persons unknown, which greatly endangers the lives of those at work. What ever there is to shoot at there, except a stray coyote or two, should not, however, cause carelessness on the part of persons using rifles, and they should be careful not to shoot in the vicinity of men at work.

Dr. Thomas, veterinary surgeon, reports that an epidemic of catarrhal fever is spreading through the horses of the city. In some cases the animals have been seriously affected, but as yet none of them have died. The fever affects the whole system, lowering the horse's condition and leaving them terribly emaciated and weak. Dr. Thomas has been hard at work treating the many horses afflicted and states that several are on the high road to recovery. The disease made its appearance suddenly.

A large number of children are now busy rehearsing for the May Day Cantata which will be produced at the New Edison Theatre on Monday and Tuesday, May 2 and 3, under the auspices of the Ladies Guild of St. Peters Church. The Cantata "A dream of the Flowers" is a dainty little musical play well adapted for children, and is pretty in the stage effects, costumes and tableaux. Besides this the programme on the two nights will consist of spectacular drills, music and moving pictures, the whole making a very suitable May Day entertainment.

Big iron deposits have been located at Pemberton Meadows.

A visit to the London Zoological Garden at the Edison Theatre tonight.

The Revelstoke local train will be taken off end of this month, and the twice daily through trains substituted.

A distinguished hunter, F. C. Selous, the man who blazed the trail for the Roosevelt hunting party in Africa, was in Revelstoke on Thursday. Mr. Selous, who is a first cousin of Harold Selous, mayor of Nelson, landed in New York on Friday from the Mauretania. He was on his way to Vancouver on private business and intended returning today via Nelson on a visit to his cousin. Mr. Selous is not resting his claim for fame on work he he did for the Roosevelt party. He has been known for the past generation as a noted hunter on his own account, and he expects to go back to the African jungle after the present Roosevelt excitement is over.

The following is the programme for the Y.M.C.A. Athletic Exhibition at the Edison Parlor Theatre on Monday night:—Selection by the Orchestra; junr. pyramid building and tumbling; selection by the Orchestra; reproduction of the Revelstoke, Kamloops baseball game; vocal solo; athletic poses; presentation of trophies; horizontal bar work; moving pictures; Orchestra selection. The proceeds will go to the benefit of summer athletics, in connection with which a meeting will be held at the Y.M.C.A. on Wednesday evening next at 8 o'clock, when committees will be appointed for the athletic season, track and baseball, and a programme for the summer Baseball League will be drawn up.

SALE OF FURNITURE—I am disposing of my household furniture at my home by private sale. Everything is in first class condition and can be seen at any time. Come early as everything must go. C. E. ANDERSON, (Milkman), 1st street.

PROVINCIAL DEVELOPMENT

Continued from page 7.

manufacturing centre of the Pacific Coast. New sawmills and new industries are growing on all hands. Real estate here is a better buy than in Vancouver.

VICTORIA

is growing steadily. Some fine business blocks are being erected. Sleepy Hollow can no longer be justly applied to Victoria. Property is still cheap here and this will undoubtedly be the great residential city of British Columbia. The settlement of the C. P. R. lands and railway construction ensure the growth of Victoria and an era of progress and active development on Vancouver Island.

SOCIAL AND PERSONAL

Mrs. W. M. Ansley will not receive on Wednesday.

Miss Valentine is visiting her sister, Mrs. W. Tomlinson.

Mrs. J. L. Stark will not receive on Wednesday the 20th.

W. A. Foote returned yesterday from a trip to Vancouver.

Chas. Turnross has returned from an extended visit to Sweden.

Percy Dunne was a visitor to the city from Wednesday till Friday.

Mr. Heffner, of the engineering firm of Smith, Kerry & Ch , was in the city yesterday.

The Mayor has appointed Ald. Trimble to act in his stead during his absence next week.

Mayor Hamilton leaves tomorrow on a business visit to Wetaskiwin and will be absent about five days.

Mrs. Pease, sister of Mrs. J. D. Sibbald, has arrived on her return from England, and is a guest at Sibbaldine while en route to her home at Kelowna.

J. Newbigging recently in the local office staff of P. Burns & Co., has accepted the position in the Lawrence Hardware Company, vacated by T. F. L. Taylor.

Mr. and Mrs. T. Hughes returned on Sunday from Montreal, where Mr. Hughes has been for the past four months in the Royal Victoria Hospital undergoing an operation for pleurisy and pneumonia. He is now on the road to recovery but it will be a few weeks yet before he can resume his duties as Conductor.

Coming Events

April 18—Y.M.C.A. Athletic entertainment, New Edison Theatre.
April 19, 20, 21, 22, 23—The Eckhardt Theatrical Company of Chicago at the New Edison Theatre.
April 22—"A Knight for a Day" at Tappings Opera House.
April 25-26—The Juvenile Bostonians, at the New Edison Theatre.
April 25—"St. Elmo," at Tapping's Opera House.
April 28-29—"Shaun Aroon" under auspices of the Roman Catholic Church, New Edison Theatre.
May 2-3—St. Peters Church Entertainment and Cantata, New Edison Theatre.
May 24—The Swiss Bell Ringers. The famous Eckhardts. New Edison Theatre.
May 27—The Scottish Prima Donna, Miss Jessie McLachlan and Concert Company, Edison Theatre.
June 6—Canada's famous comedian, "Jimmy Fax" and his star Co., in New Edison Theatre.

To-Night at the Edison

The programme at the New Edison Theatre last night was well up to the mark and drew a good audience. The two principal features are the "Scenes at the Zoological Gardens, London, England, showing the many specimens of animals and the most familiar sights there which are the delight of all children and the famous melodrama "Nero or the Burning of Rome" This latter picture is magnificently staged, the final downfall of the Emperor Nero, the burning of Rome and the birth of Christanity being vividly portrayed with life-like realism. Nero's exulting over the flames and his last hours of remorse are striking scenes.

The balance of the programme is certainly interesting. These pictures will be produced again tonight.

A number of residential and some acerage properties for sale on terms. H. N. Coursier.

Lally's, McBrearty and Kerwin Lacrosse sticks at Lawrence Hardware Company.

Cameras and Camera supplies at Bews Drug Store.

Tile-like—the best floor stain made, 85 cents a quart; all colors in Muresco, Sherwin Williams' Paints and Varnishes, at Bourne's.
