## FLYING SQUADRON'S TOUR OF TRIUMPH

### VISITED ALL ARROW LAKE POINTS.---WONDERFUL DEVELOPMENT SINCE THEIR VISIT OF LAST YEAR.---LAKESIDERS ALL COME TO REVELSTOKE FAIR, OCTOBER 8th, 9th AND 10th.

The Flying Squadron of Revelstoke businessmen returned from their visit round lakeside points, at 4:30 p. m. on Friday. The party consisted of A. McRae, R. Howson, C. R. Macdonald, H. McKinnon, W. M. Lawrence, J. Abrahamson, A. Stone, C. Holten, Mr. Dickson, H. Bews, R. Gordon, Mr. Cronyn of the Molsons Bank.

From the time of sailing at 7 a.m. on the morning of the 28th, to the time of returning to Revelstoke, the trip was a triumphant success.

Edgewood was reached on the first day out at 9 a.m. and the hospital residents of the Orchard City turned out en masse, and the visitors were driven around the country, enabling them to note the vast improvements made since the trip of a year ago. At 7 p.m. they were tendered a banquet by the citizens of Edgewood and district. Mr. Forde acted as chairman, and the guests were surprised to find at Edgewood catering and service fully equalling anything ever put up in the city here. The banqueting and speeches were continued until a late, or rather an early hour; the boat tied up for the whole night there, and left in the early dawn for Needles, arriving there at 8 a.m. More than an hour was spent here, enjoying the beauties of Mr. Faquier's ranch, and the party did not reach Burton City, the next calling point until 11:30 a.m. A similar round of visits were made and the pleasant groves of Burton City were left behind at 1p.m., proceeding to Arrow Park and Sunnyside, where short stops were made. Thence proceeding to Nakusp, reached 4 p.m., where an all night halt was called.

The development which had taken place at these points, particularly at Burton City and Nakusp, was an eye opener to the travellers, even in one short year, the wilderness of twelve months ago had been made to bloom with fruit and roses, and the cleared ranches of past years, were now adorned with solid permanent buildings and other improvements denoting a marked degree of activity and prosperity.

Thursday evening was spent in driving round the Nakusp orchards, and the boat left at dawn, reaching Galena Bay at 7 a.m. on Friday morning, where a pleasant hour was spent discussing prospects with the various ranchers who met the boat at the landing. Arrowhead was reached the same morning, when, after remaining a short time, the party proceeded on to Halls Landing; here a stay of two hours was ordered, an inadequate time in which to obtain any appreciation of the wonderful fruit growing possibilities of the soil, and the amount of work being done in this extensive district, within only twenty miles of Revelstoke. Leaving Halls Landing, the final portion of the trip was safely negotiated, and the city wharf reached at 4:30 p.m.

Although the weather was showery, the Flying Squadron made a fairly thorough trip of inspection of the various farming and fruit growing communities lying within reach of the different landing points, and which was the main objective of their journey. The whole party were greatly impressed with all they had seen, the friendly spirit in which Revelstoke is regarded by the Lakesiders, and the wonderful developments which are taking place along the lake shore. The trip was greatly enjoyed by all, and was a great success in every respect.

### Big Tennis Tournament

On the 5th and 6th of September, there will be played at Revelstoke, a big tennis tournament. Golden has sent word that half a dozen players from that mountain town will be here to play, also Rossland will contribute two players to the tournament, Nelson and Kamloops have also signified their intention of sending some players. So that from present appearances the tournament will be attended by a good number of tennis fans.

All players wishing to enter this tournament should have their names handed in to the local secretary, Mr. J. D. Sibbald, Jr. on or before Tuesday evening next, the 3rd of Sept.

### Mining in the Lardeau

Mr. A. M. Craig of Trout Lake City, was in Revelstoke on Thursday bringing with him 100 pounds of samples of high grade ore from the Noble Five group. The samples are on exhibition in McKinnon & Sutherland's store on First street, and are attracting a good deal of attention from mining men and the general public. The ore is undoubtedly a fine sample of the ore bodies on this famous group, showing a large percentage of Gray copper. The "Noble Five" is situated a few miles from Trout Lake and Ferguson, in the basin of Brown Creek, and joins the famous Crowmwall group of claims, and just across the basin from the Triune and Chance claims, from which some af the highest grade ores of the Kootenay have been taken and sent to the Trail smelter. On the "Noble Five" there is 22 inches of solid high grade ore, which has been opened up for some distance by open cuts and drifts, besides these a tunnel is being driven to tap the ore bodies at further depths. This tunnel is now in sixty feet and it is expected that the ore bodies will be reached in this tunnel at 120 feet from the portal.

The owners of the Noble Five are Messrs. A.M. Craig, A. Dainey, and A. McLean. About three years ago a carload of ore was shipped to the Trail smelter from this property and the smelter returns showed a value of $130 per ton. The present ore bodies will show values of $150 per ton.

Transportation to this property is being lessened by the government trails and roads now being built in the Lardeau district by the Provincial government. The pack trail up Brown Creek will be completed this fall or early next spring, when the "Noble Five" can ship its ore by a first-class pack trail three miles to the wagon road at Ten Mile, just above Ferguson. Development of all the properties owned by the miners of the Lardeau has been done the past few years in good shape, and it is only a matter of another year until mining in the Lardeau will be on a ssale second to none in the Kootenies. Already mining men on the coast and south of the International boundary line, are making a move to get in touch with the camp before the big mining boom starts. Some properties have been purchased, and others put under option within the past month.

## CITY COUNCIL REGULAR MEETING

### PROPOSAL TO NAME STREETS AND NUMBER HOUSES SUBMITTED.---GENERAL BUSINESS TRANSACTED.

Mayor Sutherland took the chair at a regular meeting of the city council on Friday evening. Aldermen McKinnon, Bourne and McSorley were also present.

City Clerk Lawson read the minutes of last general and special meetings, which adopted.

A gentleman waited upon the council with a proposition to take up the naming of the streets and numbering of the houses in the city of Revelstoke on a percentage basis. The city would have to plan the numbering, allotting a number to each lot.

Mayor Sutherland—We will inform you of our decision later.

Ald. Bourne—We must see that all householders number their houses under any scheme introduced.

Mayor Sutherland—The PublicWorks committee must go into this matter and with power to act.

Ald. Bourne—I don't think we should let this man loose upon the peaceful public without some consideration.

Ald. McKinnon.—We are proposing to let him loose upon the peaceful Public Works committee, and that seems the correct thing to do.

Matter referred to Public Works committee accordingly.

COMMUNICATIONS

A account for damage done owing to city water not being shut off in residence of N. E. McKenzie, was referred to the Public Works department. A notification was received of the sittings of the Royal Commission on Municipal government, now touring the province, to sit in Revelstoke on September 16th, at 10 a.m.

Mayor Sutherland—A committee of past and present city municipal officials should be called to discuss various matters which might be brought before this commission.

Ald. Bourne—These commissions never aid in anything, they are just nice jobs for a few people and to keep the public believing something is being done.

Mayor Sutherland—We will disruss this matter on Friday next in detail.

An application for extension of side walk on Taylor street was referred to the Public Works committee.

An account for $227 for some slight services rendered by Surveyor R. Smith, was considered.

Ald. McKinnon—Who authorised this work.

Mayor Sutherland—There should be some permanent marks put in which any surveyor could work to, a lot of this work may have to be done over and over again.

City Clerk Lawson—Mr. Smith owes the city on his arrears of taxes, and we should secure these out of this money, his property is on the Tax Sale.

Ald. McKinnon—This work has never been authorised by this council and I do not see that we can pass bills for such amounts simply because they are put in here.

Mayor Sutherland — I understand this work has been authorised.

Ald. McKinnon—Smith must have been hired by the Public Works committee and that committee should O. K. the bill, it has never been before this council before.

THIRD STREET SIDEWALK.

Mayor Sutherland—One of our contractors is in Golden and Messrs. Foote & Pradolini will take this work on the same basis as the existing contract; with option of stopping work in case of bad weather.

A by-law to proceed with the Third street cement sidewalk was read a first, second and third times and passed.

City Clerk Lawson—It is not necessary to publish this by-law.

Ald. Bourne—I think this cement sidewalk should have a connection to the lot line similar to the wooden sidewalk we are taking away.

Mayor Sutherland—That is a small matter and we had better let it go.

The meeting adjourned at 10 p.m.

## POWDER BLOWS UP MALAKWA RANCHER

### His Injuries Are Serious---Was Brought to Revelstoke Hospital for Treatment

Charles Strager, a German rancher, about 40 years of age, residing between Malakwa and Craigellachie, received most severe injuries from a dynamite blast last Sunday. The unfortunate man according to reports, was blasting stumps when he was struck by the blast which tore away one of his hands and part of the other hand also, terribly mangling his face. A neighbor named John Mackano, also received injuries to one of his arms by the same blast.

Strager who was the most severely injured, was brought to the Revelstoke hospital late Sunday night last where he was treated. His case is regarded as a very severe one, but there is hopes of his recovery, although he is so badly mutilated. It seems that Strager has been regarded as a very industrous fellow and has considerable clearing and other improvements done to his ranch. His wife was expected out very shortly from the old country and this sad accident happening just now, to this unfortunate man, makes her home comiag anything but what it should be.

### Pollock-Stanley

A very quiet wedding took place at the Methodist church parsonage, in Ripley on Wednesday afternoon, Aug. 21st, when Rev. G.W. Rivers, B. A., united Mr. John Pollock, public school inspector of British Columbia, and Miss Alice Stanley, eldest daughter of Mr. Henry Stanley, of Ripley, in the holy bonds of wedlock. Mr. and Mrs. Pollock left on the 1:45 train for Toronto, Buffalo and Niagara, where they will spend a honeymoon. On their departure a large number of friends gathered at the station, extending congratulations to the happy couple, and showered upon them "many demonstrations" of their best wishes for a long and pleasant voyage over the matrimonial sea.—Ex.

It will be remembered that Mr. Pollock was principal of the Revelstoke school for some years, and his many friends here will all unite in extending congratulations.—Ed.

The Mail-Herald

PUBLISHED WEDNESDAY AND SATURDAY AT REVELSTOKE, B. C.

Interior Publishing Company, Limited

J. K. JOHNSON, Manager.
RALPH G. SCRUTON, Editor.

SATURDAY, AUGUST 31st, 1912

The confusion and difficulty to strangers who try to locate residences or business houses in Revelstoke, where streets are unnamed and houses unnumbered, continues to be daily brought to our notice.

On Wednesday last, a lady walked into the Mail-Herald office, and asked "if this was the laundry." In response to our surprised denial, she volunteered the information that for two hours she had been wandering around the town in an endeavor to locate the Steam Laundry, and that so far she failed to find anyone who could give her an intelligible direction. Today, a gentleman walked in, and asked to be shown a copy of the city directory. He lifted his eyebrows in surprise when informed that no such directory existed, and was still more mystified when informed that the only method in which he could locate parties living in Revelstoke, was to search around until he found the eldest inhabitant, who except in those cases where his enfeebled memory might be at fault, would be able to remember in what portion of the city the various people resided, of whom the inquirer was in search.

This matter has been before various city councils for years past, the name plates for streets have been ordered, and are now lying among the other unused equipment paid for by the city treasury. If these street names were put up, and a by-law calling upon all citizens to number their houses in accordance with the city plans were passed, the present unsatisfactory state of affairs could be ended.

It is up to the city either to do this work, or to hire a corps of guides, who, doubtless, after a few years strict training, would be able to lead our confounded visitors to any house within the city limits.

---

Among other matters which might well be taken up by the Progress Club and businessmen of Revelstoke generally, is the provision of a few electric light standards along three or four of our principle blocks of buildings. The editor of this paper is given to understand, that certain businessmen have volunteered to themselves provide the standards to be placed alongside their property, provided the city will place same into position and do the necessary wiring.

The long dark nights of winter will soon be upon us, it would certainly be a paying policy to have the center of the town brilliantly lighted, and the provision of ten or twelve ornamental light standards would be a civic improvement, admirable from every point of view. We hope something will be done along these lines, if possible during the present fall.

---

All ratepayers of the city are well aware that certain money by-laws are at present pending, and at least two of which it was intended should be introduced in the present session of the city council. We refer more particularly to the high school and the central fire hall by-laws.

It has appeared for some time past that there might be an improvement effected, in the procedure adopted during past years in Revelstoke, as regards the presenting of money by-laws, and the general laying out of proposed works or city improvements for which by-laws will be necessary.

For instance, it is foolish for a city council, whose term of office is drawing to a close, and when the bad weather is approaching, to pass on the eve of their retirement from office, a series of by-laws for expenditures on specific purposes, and then leave the council which will succeed them, to carry on work concerning which they have not even been asked to make up their minds as to its desirability or otherwise.

The three months prior to the expiry of the council tenure, are the very worst time in the whole year, in which to commence new work of any description, and the council themselves, tired with the exertions of the preceeding nine months, are not in a position to give these last minute proposals, that consideration which their importance would certainly warrant.

The businesslike procedure, would appear to be, that the retiring council, before leaving office, should leave on their minutes, an expression of their opinion, as to the works which they believe are most urgently required, with all the data regarding same which they have been able to secure. The incoming council, should immediately upon taking office, proceed to discuss and examine into these proposals as far as they have been carried by their predecessors, and in the early portion of the new term the necessary by-laws should be submitted. This enables the work to be commenced in the Spring time, when conditions are most suitable, and along these lines a definite program of new works for the whole year could be laid down, and adhered to, the attention of the council could be focussed upon this definite program, and most other matters could be left over until another year, or until city finances will allow of these less urgent works being proceeded with.

The system of introducing by-laws, or commencing new works or expenditures in the final days of a council session, is a poor policy and one which should be avoided. The present council, by a moderate conservative policy, have done very good work, they may not have achieved any brilliant successes, but they have not made any serious mistakes; if the ratepayers would refrain from insisting upon their breaking out into a series of hurried by-laws, but would rather be content to allow the incoming council to tackle these matters in the coming spring, that would in our opinion, be in line with the policy we have outlined, and conducive to the best interests of the city.

## Preserving Pointers

Peaches—Every good housekeeper has her own favorite way of putting down, or doing-up peaches, all more or less difficult and fussy. The easiest way that will give good results is the one to follow, and there is no simpler way than this. Peeling is the first process. Have a deep pan of water, which must be kept just below the boiling point. Drop in the Peaches about four at a time and a few seconds should be sufficient to loosen the skin so that it will remove easily. Cut in half and save the stones. Make a syrup of three quarters of a pound of sugar and one cup of water to each pound of fruit. Crack the stones and boil stones and kernels in a quart of water. Strain this water into the syrup. Have the sealers standing hot on the back of the range. Drop the half peaches a few at a time into the boiling syrup. As soon as one is soft enough to prick with a carving fork, life it into a sealer and continue until all the fruit is cooked and each sealer rather more than half full. Fill up with the hot syrup and slip on the rings. Stand each one upside-down until cool, when each should be dipped over the ring into melted paraffin for peaches just love to work, and unlike the human race, its the worst thing they can do. As the tramp remarked in self-defence to the kind hearted lady who was feeding him at the same time good advice and doubtful peach preserves—Consider, ma'am, how much better these peaches would have been if they had never worked.

Pears and large plums can be cooked nicely by the same method as peaches. Pears should be quartered.

## Redistribution Bill

Ottawa, Aug. 26—It is generally believed that the parliamentary redistribution bill will be brought down comparatively early next session. All of the statistical information on which the enactment will be based has been tabulated, and the draft measure, after introduction, will be sent to a special committee to determine which constituencies will be eliminated and which will have their representation increased. In recent years considerable party feeling has characterized the discussion of redistribution bills, and it is likely to again prove a very contentious measure.

The redistribution bill will give the west 22 new members, which will be taken off Ontario and the maritime provinces.

SUNSHINE FURNACE

# Better Dinners

"Is dinner ready, Mary?"

"Yes, Madam—it is ready, and, I think, a great success."

"Your cooking is improving."

"Well perhaps it is, and I hope so, but really, Mrs. Housewife, I think our new Gurney-Oxford is partly responsible for the success I have had lately. I was never able to cook roasts and fowl so well on our old stove, and as for bread and biscuits, I used to tremble when I went to take them from the oven—they were so often soggy and heavy. Now they are always light and beautifully brown, and, if I do say it myself, something to be proud of."

"That's true, Mary, my husband has said almost the same thing. I'm awfully glad you approve of my choice of a Gurney-Oxford. He approves because of the saving in coal since we got it, also because of the better meals he is getting."

"Indeed he's right, Madam—and it requires so little attention."

"That's fine, Mary. Will you serve dinner in a few minutes please."

Revelstoke Hardware Co.

## SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each applicant must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to the Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

WATER NOTICE.

Notice is hereby given that William Blair Robertson, of Revelstoke, B.C. will apply for a license to take and use (15) fifteen Miners inches of water out of Cariboo Creek, which flows in a southerly direction through T. B. 39373 and T. B. 43026, and empties into Downie Creek, about two miles from its mouth, Columbia River. The water will be diverted at a point 1½ miles north of Downie Creek, and will be used for domestic purposes on the land described as Lot 10499, Revelstoke Land District.

This notice was posted on the ground on the 4th day of June, 1912. The application will be filed in the office of the Water Recorder at Revelstoke, B. C.

Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

WILLIAM B. ROBERTSON.

Per Andrew Kitson, Agent.

## EAST ARROW PARK ITEMS

Wedding bells have rung again, Mr. Chas. Campbell and Miss Margaret Mathews were united in the bonds of matrimony by the Rev. Mr. Phillimore, at the school house, Monday evening, August 26th, at 9 p.m.

The bride was given away by Mr. James Campbell, Miss Marjory Pennick acted as bridesmaid, while the groom was assisted by Mr. Alex. James. Miss Jennie and Miss Edyth Campbell were flower girls. The bride looked bonnie in a beautiful dress of dove grey trimmed with lace and old rose piping. The bridesmaid and the flower girls were dressed in white. The school house was decorated for the occasion. The wedding took place under an arch covered entirely with flowers. One of the finest wedding cakes we have ever tasted, which does credit to the maker, Mrs. Dean, was cut and passed round by the bridesmaid, whilst the best man dispensed the good old Scotch wedding refreshments. The couple received many presents, a beautiful kitchen cabinet, being among them. An evening of entertainment was enjoyed after the wedding until the wee hours.

Mr. Clay of Edgewood, was up on a visit to L. E. Jameson. While here he purchased some fine chickens from the Bonnie Brae ranch.

Mr. James Gregory and Mr. Horkins of West Demars, paid the Bonnie Brae ranch a visit on Sunday, buying seventy-five single combed Leghorns for breeding. Mr. Horkins also bought fifty White Wyandottes from the Fairview Poultry ranch.

Mr. Ayers, of Vancouver, is in town clearing and building on his ten-acre tract. He expects to bring his family in in the spring.

Mr. Ashworth is improving rapidly after his operation.

Mr. James Campbell paid Revelstoke a visit Friday.

Mr. Mole has gone to Sheep Creek for a month or two.

A bee was held Saturday to clear the church site. There was a large turnout and the site is now ready for the builder, Mr. Fesser, who will start as soon as the material arrives.

A fruit and vegetable fair is to be held Labor Day in the school house. Prizes will be awarded, Mr. Abriel of Nakusp, has donated an appropriate prize. There will be a baby show in connection with the fair. Mr. Ball will place the awards in this department.

## Automatic Telegraphy

Toronto, Aug. 26—The Canadian Pacific Railway's Telegraph Department has installed a new system of automatic telegraphy between Montreal and Toronto which is likely to revolutionize telegraphy in Canada. If it proves to be as successful between these two points as experiments so far would indicate it will soon be extended to all parts of the system.

The system, known as the Morkrum has been the subject of thorough investigation by the telegraph officials and during the past week has been operated daily in Toronto and those in charge are delighted with the success already attained.

The Morkrum automatic telegraph is a printing machine based on a selector system. The transmitter operates a keyboard similar to that of a typewriterat one end and at the other is a typewritter into which a roll of perforated message blanks is automatically fed. The operator in Montreal strikes the keys of her typewriter, prints the message in Toronto and there you are.

The development of the automatic telegraph has been very rapid during the past few years and is rapidly changing the telegraph office of today. Instead of highly skilled specially trained men and women signalling the intricate Morse characters to one another, girls working a typewriter now hurl messages through space, and instead of using experienced operators who require at least three years to become proficient for heavy work a school girl will suffice. Instead of paying from $75 to $80 per month for first-class operators a $30 per month typist is hired. It is said that on the C.P.R. Montreal-Toronto circuit alone the labor saving will approximate eight highly skilled telegraphers on bonus wires at a salary of $85 per month, with four girls at about $30 per month.

That the telegraphers will soon be a thing of the past is the prediction often heard among railroad officials.

The telephone is taking its place for both railroad and commercial work. For example the C.P.R., which used the telegraph exclusively for train dispatching a few years ago, has transformed almost its entire line to telephoning, thereby abolishing over 1000 telegraph posicions on a single line.

The Pennsylvania Railroad is one of the latest to supplant the telegraph by the telephone and the need for nearly 3,000 telegraphers is done away with. The same may be said of the Burlington, Illinois Central, Santa Fe and many other large systems of railroads.

It is true that this change did not deprive the telegraph operators of their positions, since they were needed for telephoning, but the secret of the change lies in the future. It takes from one to three years to learn telegraphy, anyone can use the telephone.

REVELSTOKE, B. C., AUGUST 10, 1912.

DEAR CUSTOMERS:

If you were positively sure in your mind that you could get really BETTER HOUSE FURNISHINGS for your money than you could possibly get by sending out of town, and at the same time enjoy the advantages of liberal and considerate treatment at all times, you would not hesitate a moment about buying here. Would you?

We have been in this business over twenty years, and have learned how to BUY RIGHT and SELL RIGHT. Because of our unusual resources for large buying and the saving we make by getting our goods in carloads instead of by local freight, we can AND DO sell goods for less money than you can buy them from mail order houses with freight added.

Remember, this is a big stock to choose from, comprising everything for the home from cellar to garret, and every article we sell is such GOOD VALUE that it will either make for us a new customer or draw an old one closer.

We have only to convince YOU of the truth of these statements to induce you to call. You have only to see and examine the values we offer to CONVINCE YOURSELF that our goods are worthy of your preference. May we expect a visit from you SOON?

YOURS VERY TRULY,

**HOWSON & COMPANY, LIMITED**

## BUSINESS LOCALS

# MALAKWA TOWNSITE

Lots in the new townsite of Malakwa are now on the market at prices ranging from $75 to $175. These lots are all high and dry and the regulation size.

## Reasons Why You Should Buy in Malakwa

This new town is just about half way between Revelstoke and Salmon Arm, being a trifle over 30 miles from either place. It is a natural location for a town, being surrounded by a highly rich farming district. Lots in this townsite can be purchased on long terms so that a purchser before he has really paid for his lots will have made a good profit on his investment.

## Business Opportunities

There is a grand opening for hotels and other branches of business, including a barber shop, shoe maker, drygoods and gents furnishings, and all other legitimate businesses.

A GARDEN OF EDEN STRAWBERRY FARM AT MALAKWA

## Buy Early

The first one hundred lots sold will be at the low prices of $75 to $175. These lots will increase one hundred per cent in a few months time. If you fail to secure one blame yourself when paying higher prices later on.

## Industries Already Started

Already industries are being located here. The first keen business concern to grasp the golden opportunity of locating at this townsite will be a large shingle mill, operated by Spokane parties. This mill will be operated by water power.

Preparations are also being made to install a water power sufficient to operate an electric plant or any other industry that may come in.

For further information, apply to Messrs. Johnston and Haycock, Malakwa, B. C.

## . . . It Might Be Cold . . . BUT

It is always hot in the plunge at Halcyon Hot Springs, whose natural hot medicinal waters are the most wonderful health restorer on the Continent Our record of cures of rheumatism and other chronic complaints is unequalled and verified by our gratified patrons. Located among the greatest scenery of Canada, easy of access,—the Sanitarium is luxuriously fitted and finished for comfort and convenience of guests.

Dated this 25th June, 1912.

ADELARD S. BLONDIN.

## Baseball Gossip

Some interesting questions arising out of the last baseball game have been asked and answered by the fans upon the street, One of which we will venture to discuss for your readers.

In that game the ball did not actually hit the umpire, but what would have happened if it had? Well, that depends on the spot struck and how he would have taken it, but what says the book.

First, when is a ball, a block ball? Answer, a ball batted or thrown that is touched, stopped or handled by a person not engaged in the game.

Second, is a ball that hits the umpire a block ball? Evidently not for the reason, that, in the case of a block ball, the umpire declares it and *base runners may run bases without* liability to be put out until the ball has been returned to, and held by the pitcher in his position, except where some person not in the game retains possession of the ball, or interferes with the fielding, in such case the umpire shall call time, and require each runner to stop at the base last touched by him. But in certain cases where the umpire is hit by a ball, the ball is out of play the same as if it were a dead ball, and is not in play until the umpire calls play. Very different this to the block ball.

We call attention to the various instances where the ball hits the umpire.

First, where the umpire is standing on foul ground. If a thrown or pitched ball strike the person or clothing of an umpire on foul ground, the ball shall be considered in play and base runners are entitled to all the bases they can take, no mention is made of the ball having to be returned to the pitcher before base runner can be put out If a batted ball touch the person of the umpire while on or over foul ground, it is a foul hit, the same as any other foul hit, and base runners must return to their bases, but without liability to be put out.

Second, while the umpire is on fair ground—(1) If while batsman, a fair hit ball strike the person or clothing of an umpire on fair ground, the batsman immediately becomes a base *runner and shall* be entitled to first base and credited with a fair hit.

The other base runners shall return to the base last held by them without liability of being put out, in fact no bases shall be run by them unless forced to do so by the batsman becoming a base runner. No runs shall be scored, except all the bases were occupied when the hit was made.

(2) If the person or clothing of an umpire interfere with the catcher in attempting to throw, or the umpire be struck by a ball thrown by the catcher, or other helder, thrown to intercept a base *runner, in such case* the base runner shall return to his base without liability to be put out.

It might not be out of place also to call players attention to a base running rule. A base runner is permitted to run more than three feet from a direct line, after passing first base, unless he is doing so to avoid being touched by a ball in the hands of a fielder. If a fielder is on the line attempting to field a batted ball, the base runner must run behind him.

Again, the batsman is entitled to his base, if the catcher interfere with him, or prevent him striking at a pitched ball, on the other hand, he is out if by stepping outside the lines of the batsman's position he attempt to *obstruct or interfere with play, may* swing his bat as he likes providing he stays in the batters position.

Base Ball Fan.

## Forestry Convention

Victoria, Aug. 27th—Arrangements are now nearly complete for the Canadian Forestry Convention at Victoria, September 4, 5 and 6. The proceedings will open with a reception tendered the delegates by the government in the parliament buildings on Wednesday evening, Sept. 4 On Thursday and Friday there will be business sessions of the convention, and on Thursday evening there will be a banquet in the Empress hotel. A number of notable men connected with forest conservation or with lumbering are coming from Eastern Canada and from the United States, including Hon. J. Allard, Quebec; H. C.H. Campbell, Manitoba; Dr. B.E. Fernow Toronto; E. T. Allen, Portland; Aubrey White, Deputy Minister of the Crown lands for Ontario; Hon. W.A. Charlton, *Toronto*; R. H. Campbell, Dominion Director of Forestry; C. Leavitt, Forester for the Railway Commission, etc.

The lumbermen and citizens of British Columbia, are taking hold with a will and it is evident the convention will be one of the most important ever held in the province.

## THE CITY IN BRIEF

Mrs. J. D. Sibbald, returned last Wednesday from the coast.

Mr. J. D. Sibbald, Sr., will return from the old country about Sept. 15.

Mr. Scarrow of Winnipeg, was a caller at the Methodist parsonage this week.

R. Shang is paying a visit to Nelson this week, being a guest at the Queens hotel in the inland city.

Mrs. R. Gerald of this city, was registered as a guest at the Hume hotel in Nelson last Thursday.

R. J. Long, divisional fire warden, with headquarters at Nelson, paid Revelstoke a visit on Monday last.

A number of Revelstoke people leave tonight for Calgary to spend "Stampede Week" among the old timers of the Bow Valley.

We regret to announce the death this morning of the infant son of Mr. and Mrs. Pradolini. The funeral will take place tomorrow morning at 9 o'clock.

The Steamer Revelstoke will make a trip to Downie Creek with passengers and freight, on Sunday, Sept. 1st, leaving the city wharf at 6 a.m. and returning the same day.

Miss Margaret Johnson, teacher of the junior department of the Michel public school, who has been spending a portion of her vacation with her brother, Mr. J. K. Johnson, returned.

A baseball tournament is to be held at Kamloops during the Centenary celebration. A cup emblematic of the amateur championship of B. C., and medals valued at $120 will be given the winners.

Mr. A. S. Goodeve, member of the Railway Commission, accompanied by his daughter Miss Myra Goodeve, arrived in Rossland from the east last Thursday. Miss Goodeve has been in the east for the past two years.

Don't overlook the lacrosse match on Monday, Labor Day, between Vernon intermediates and Revelstoke intermediates, at Recreation park. The game will start at 2 o'clock. Our boys are out practicing nightly for their coast trip.

In the Methodist church on Sunday the pastor, Rev. R.J. McIntyre, will be in charge of both services. At 11 a.m. an "Object Talk" will be given to the boys and girls. At 7.30 p.m., a sermon appropriate to Labor Day Sunday will be given. The public are cordially invited.

Master Willie Little will sing a solo tomorrow evening in the Presbyterian church. In the afternoon at Sunday school the General Assembly's diplomas for memorizing scripture will be presented to the following— Lily Abrahamson, Esther Abrahamson, addy Hale, Bella Laughton, Annie Maclean Florence McLean, Lizzie Miller.

## PRESERVING SEASON

For Preserving Fruits we handle only the best. If you wish to procure such fruits as cannot be beaten either in quality or price, we would advise you to place your order with us. We will guarantee delivery of all orders taken.

FRUIT JARS AND RUBBERS

This season we are handling the celebrated Mason Fruit Jars in Pints, Quarts and half gallons. These Jars require no comment. They are par excellence.

A. HOBSON, - MacKenzie Avenue

## *Revelstoke Inside Property*

Real Estate is selling rapidly. Why not get in before all the most desirable residential lots are taken up?
Last week we made several good sales to local buyers and it will only be a short time before these lots are all closed out.
Call at our office and get full particulars. All our property can be sold on easy terms.

*Kootenay Agencies, Limited*

Revelstoke Board of Trade will hold their regular meeting on Thursday evening next, in the City Hall.

A nasty accident occurred on Third street, west, on Thursday evening, but fortunately without any serious consequences. A horse and buggy collided with a saddle horse in the darkness. Both horses were stunned and the buggy badly smashed, while the occupants of the buggy were thrown out and the rider unhorsed.

The Juvenile Bostonians will appear in the Empress theatre on Friday, Sept. 13th, for one night. This attraction is one of the big ones and the Bostonians are sure of a big house This company has been playing to bumper houses in every town they have played and the Revelstoke public will welcome them back on the 13th of September.

Mr. Fred. Robinson, who has been ill for the past year, and who has been visiting at the Banff sanitarium for the benefit of his health for the past two months, returned home the first of the week, much improved in health. While in Banff Mr. Robinson was under the care of Dr. Graham of Toronto, and Dr. Brett of Banff.

E. B. Parkinam, collector of Inland Revenue for B. C., visited the city on Thursday and Friday of this week, on an official inspection trip. He was agreeably pleased at the manner and measure of the work done in the local office and at the general business improvement throughout the city. He anticipates a great future for Revelstoke when the new double-track work goes through and the railway belt is opened to settlers.

In the Baptist church on Sunday, the pastor, Rev. E. J. Chave, will speak on the following subjects: In the morning "The Reversal of Human Judgment." Evening, "The Present Working Power of the Gospel." Communion of the Lord's Supper at the close of the evening service. Sunday school meets from now on in the afternoon at 2:30 and Adult Bible classes. A cordial welcome to all services.

## BUSINESS LOCALS

Howson's Furniture and Carpet Sale still continues to be a success.

Robbins' Lethbridge coal is unsurpassed.

Bigger, brighter, better prices than ever at Howson's sale.

For good, clean lump coal, see S. G. Robbins.

No question about it, Howson's sale is a record breaker.

Read Howson's add in this issue.

Don't forget the illustrated lecture by Mrs. Schafer, the well known Canadian Authoress, under the auspices of the Progress Club, Empress theatre September 9th.

Eastern catalogue prices of furniture beaten at Howson's sale, come and we will prove it to you.

Don't forget the Shirtwaist dance in the opera house on Monday night, Labor Day.

## To Expend Five Millions

Kansas City, Aug. 22—"No convention, however great in point of numbers, is a success unless something is done to quicken the step of civilization and promote the general welfare of the people of the world."

With these words James J. Davis, supreme organizer of the Loyal Order of Moose, yesterday morning concluded a powerful plea to the delegates at the convention to help support a resolution calling for the endowment of several beneficient institutions ultimately to cost $5,000,000. The resolution called specifically for the prompt raising of $1,00,000 by an extra quarterly assessment of 25c. per capita of membership.

The institutions proposed are:— A vocational and trade school for children of Moose, a home for aged and inurm lodge members, a home for orphans, a general sanitarium and a tuberculosis sanitarium .

Not a penny of the sum needed for the above named benecences is to come from philanthropists outside the order, according to present plans. By every one of the 425,871 members paying approximately one-fourth of a cent a day the raising of the immense fund required can be accomplished. Mr. Davis said. Then just to show how the members ought to get their shoulders under the load of a one-fourth cent daily additional lodge due, he then and there made out a check on his personal account for $50,000.

LOAN TO START WORK.

"This loan," he explained, "is to start the work so that it will be well under way by the first extra assessment next January. I don't care whether I get it back or not, honest, I don't, but if I do it is to be without interest."

Tumultuous cheering greeted this announcement and P.B. McKenna, a Cleveland, O., delegate arose and with an unstead voice said:

"Boys, I never got my chance when I was young; but I'm for the kiddies getting what is coming to them in the way of education and I suggest that the resolution be adopted unanimously by rising."

"Everybody up!" shouted delegates from several points in the auditorium and with another cheer that could be heard more than a block, the Moose as an entity indorsed the resolution.

A duty of selecting a site for all the proposed institutions has been left to a committee named yesterday, which is to look after the affairs of the order between conventions. The committee is composed of Mahon Garland, Pittsburgh, Pa.; Charles Vail, Chicago; Henry Davis, Cleveland, and B. Price, Chicago.

A tract of 1,000 acres in Indiana, near Anderson, is being considered as the site of the university. The sanitarium and tuberculosis hospital may be located in Hot Springs, Ark. Both sites are to be purchased before October.

The name of the university will be the Moose University Home. The courses taught will be practical, including trades, professions and farming, but higher branches of study also will be provided.

The trustees of the home were carefully chosen many months ago. They are George W. Scott, attorney of Davenport, Ia.; John Hays Hammond mining engineer, New York city; Charles W. Vail, clerk of the superior court of Cook county, Chicago, Ill.; John Lentz, president American Insurance Union, Columbus, O., E. J. Henning, attorney, Milwaukee, Wis.; Daniel G. Reid, New York, millionaire capitalist.

Yesterday afternoon there was no meeting of the supreme council, the members taking the half day to tour the city in automobiles and to visit Electric park.

## MALAKWA NOTES

Mayor J. H. Johnson left for Revelstoke early yesterday morning.

Lloyd Johnson returned from Calgary and High River yesterday, where he has been for the past month.

The road gang are doing good work now between Malakwa and Craigellachie, and expect to reach Taft this fall. This road will eventually be continued along to Revelstoke. This is one of the most needed roads in the valley.

Ross Howard lately of Spokane, has just completed the erection of a neat dwelling on his newly acquired Malakwa ranch.

Mrs. R. Bullman has just returned from the coast, where she went for medical advice.

The Provincial police of Revelstoke are here investigating into the reports of the blasting of fish with dynamite in the river. This practice is now reaching an aggravate state here and it is commonly reported to be systematically practiced by certain people. It is hoped that the guilty ones will be brought to justice

## List Made Public

New York, Aug. 27—Police Commissioner Waldo made public tonight a list of places raided by the police as gambling resorts during the last year and the names of owners of the property upon which the resorts were conducted. Among the names mentioned are those of many prominent in the financial, religious and social life of the city.

The commissioners turned the list over to the district attorney, who will use it as a basis of the John Doe proceedings before Judge Goff next month, by which it is expected to expose police corruption.

Nearly 400 places are mentioned in the gambling list. Summoning of many owners as witnesses at the John Doe proceedings is understood to be part of the plan of the district attorney to determine the responsibility of the owners in allowing their property to be rented for gambling purposes, which is a misdemeanor.

Among the names of the owners is that of Sailors Snug Harbor, a wealthy charitable institution on Staten Island; the estate of Lorillard, who was millionaire tobacco manufacturer, and J. Edgar Leaycraft and Edgar C. Leaycraft, both prominent in Methodist church and missionary work.

The William Astor estate appears in Commissioner Waldo's list as the owner of two alleged gambling houses on West Forty-third street, raided in August and September of last year.

## Homestead Entries Grow

Ottawa, Aug. 28—During the first six months of 1912 homestead entries for the four western provinces recorded by the officials of the interior department numbered 19,591 as against 18,509 for the same period in 1911, an increase of 1,082. For Manitoba the entries totalled 1710 as against 1459 in 1911 and for British Columbia they increased from 124 to 138 Both Saskatchewan and Alberta show decreases. The entries for Saskatchewan for the six months stood at 9340 as against 10,409 for the first half of 1911, while the Alberta entries fell from 7585 to 7336. The nationality table shows that the Americans headed the list with 1087 entries. English homesteaders numbered 540, Scotch, 101; Irish, 122; Russians, 126; Norwegians, 146, while 142 Canadians from Ontario and 95 from Quebec, took up land in the west.

## Died at Revelstoke

It is with regret that we have to announce the death of Mr. John David Aspeund, who quietly passed away at the Revelstoke hospital on the 28th inst.

The deceased was about 33 years of age and had been a resident of the district for some years. He belonged to the Independent Order of Oddfellows. The funeral will be held on Sunday, Sept. 1st, from Selkirk Hall at 1:30 p.m. and a full attendance of all local members of the I.O.O.F. order is requested.
