BOWSER EXPLAINS HIS STAND

Hon. W. J. Bowser, attorney-general, who is in Vancouver today, is outspoken in his criticism of the Honorable Mr. Justice Clement's disposition of the case of Hughes, the young chauffeur, whose rearrest the crown caused early this week. Hughes was tried at the last fall assize by Justice Clement and allowed to go on suspended sentence. The young man was instructed by the court to report regularly to the police and agreed, as a condition to being allowed out of jail, to assist in providing for the bereaved family of his victim.

On the ground that Hughes did not carry out the provisions of his lordship's disposition of the case, Mr. Bowser caused the young man's rearrest and had him brought before Justice Clement for sentence on Thursday of last week. The judge decided, however, that after the Assize Court had been closed he had no jurisdiction remaining and therefore discharged Hughes from custody.

"The criminal court I presided over has finished its sittings and passed out of existence and I do not see now where I have any jurisdiction," his lordship told Mr. A. H. MacNeill, K. C., the crown prosecutor.

"Now," said Mr. Bowser, in discussing the matter this morning, "not only do I disagree with his lordship and criticize this decision of Thursday as bad law, but I seriously object to his whole disposition of the case. I happened to be in Ottawa last November when I read a press dispatch of his decision in this case and that of Pollard, both of whom had been found guilty by the juries. When I read that the judge had allowed both these young men out on suspended sentence I was simply astounded. Hughes was a chauffeur who while drunk had run wild with a stolen automobile, and killed an innocent citizen named Charles Faus, who had been standing down on a Cordova street corner. If the laws relating to liquor and automobiles mean anything at all they are intended to put a stop to this sort of thing, and not only that but we must depend on the courts to impose punishment that shall adequately teach other people the needed lesson. Otherwise, what is the use of the country spending money for counsel and juries and securing convictions?

"What happened in this case, was that the judge tried an experiment — and what was the result? Pollard, who received a sentence similar to Hughes for having killed a man named Gould, immediately left for Seattle as soon as he was out of jail and has since remained out of the jurisdiction, never reporting to the police, as he was ordered, and never making the slightest attempt to assist the poor widow and family of the deceased, as the judge had also ordered. Hughes did stay here, but took no pains to keep in touch with the police and it was only when he heard that we were after him that he made his only contribution to the widow of the man he killed — eight dollars in all. Pollard we could not reach, but Hughes was available and we had him brought in, having in mind that at the end of the trial the judge warned him that 'If you do not take steps to provide for them, I warn you you will be arrested again and be given a very severe punishment'—to quote the words of The Province report.

"When I returned to Victoria, I looked up the matter and on January 15 wrote to Mr. MacNeill who had handled the cases for the crown, asking him why he agreed to suspended sentence. As a matter of fact, of course, Mr. MacNeill had never consented to any such thing. This absence of consent by the crown makes the action of the judge without legal right; for by sub-section 2 of section 1081 of the Ciminal Code the consent of the representative of the crown must be obtained before a prisoner can be allowed out on suspended sentence. And then again, I should like to know what his lordship meant by warning Hughes at the conclusion of the trial that he was liable to be brought in and sentenced, and then deciding, when Hughes was actually brought in, that the court had no jurisdiction. It simply made a farce of the sentence. Indeed, if this decision were good law, it makes a farce of the whole system of letting men out on suspended sentence. And that sometimes is a good system. Often men through unfortunate circumstances are trapped in wrongdoing, and a suspended sentence is what makes them honest again. They go out and work and keep straight, knowing that conviction and possible jail terms are standing over them. But what power will we have over them if they cannot be brought back and sentence imposed? Why, they will all laugh at the officers who administer justice, just as Hughes can now laugh at us. If Justice Clement is right, what do the judges mean when during past years they have allowed men out on suspended sentence? I think this kind of decision in some cases is good; but its merit consists largely in what the officers of justice can hold over a man; and you will observe that the government in framing the code, has taken care that before sentence is suspended the crown must be agreeable to that method of disposing of it."

Reserve Thursday, May 1st for the Girls' Hospital Auxiliary Second Annual Shirtwaist Dance at the Opera House. Special music.

C. P. RY. SPENDING $100,000,000

Ottawa, April 28— Sir Thomas Shaughnessy, president of the C.P.R., cables from London:

"Since my arrival in England my attention has been called to a recently published cable message to the effect that the company contemplated an expenditure of $50,000,000 this year in Canada, in laying double tracks, constructing branch lines and putting a tunnel through the Rocky Mountains which would provide an alternative route with a much easier grade than now exists and will enable the railway through the tunnel to be worked by electricity if required.

"The report can only refer to Western Canada for, as a matter of fact, our contemplated expenditure over the whole system, during the near future will be more like $100,000,000, exclusive of new rolling stock. This will not involve another appeal to the London money market for fresh capital, because all our financial arrangements have been made a long way ahead."

Referring to the published statements that the new shipping agreement with the Canadian government provided for the construction of ships capable of being used as mail steamers in peace and armed cruisers in war, Sir Thomas said:

"This is all mere speculation or an attempt at intelligent anticipation of some future scheme. This contract is for one year only, and it must be obvious that nothing so comprehensive as a fleet of mail steamers armored and equipped for use as war vessels, and forming a part of a scheme of Imperial defence for the North Atlantic, can be embraced within that agreement. It is only a mail contract."

The Grand Trunk Pacific is to spend $35,000,000 on:

Locomotives	40
Freight Engines	36
Sleeping Cars	35
First-class Coaches	35
Second-class Coaches	35
Tourist Coaches	100
Dining Cars	40
Observation Cars	45
Mail Coaches	30
Baggage Cars	30
Express Cars	30
Box Cars	30,000

The Canadian Northern is to spend $50,000,000 on:

Passenger Engines	41
Freight Engines	45
Sleeping Cars	44
First-class Coaches	44
Tourist Cars	22
Second-class Coaches	44
Dining Cars	22
Observation Cars	22
Baggage Coaches	22
Mail Cars	22
Express Cars	22
Box Cars (all kinds)	40,000

CITY COUNCIL TUESDAY MEETING

High School Thoroughly Discussed.—Assessment Roll.—Estimates Coming.—Alderman McKinnon on Civic Affairs.

The city council met in adjourned meeting on Tuesday evening. Mayor T. Kilpatrick occupied the chair, present Aldermen Howson, McKinnon, Abrahamson.

DEPUTATIONS.

Regular order of business was suspended and the matter of high school was taken up as the first business.

HIGH SCHOOL

Messrs. A. McRae, H. Manning and Secretary Bradshaw of the school trustees were present, representing the school trustees; Architect W. H. Wallace was there with plans of proposed new high school for discussion before the joint sitting.

Mayor T. Kilpatrick—These plans are preliminary and are open to full discussion in accord with our resolution at Friday's last meeting. (Fully reported in Mail-Herald.)

It has been spggested that the elevation on plans be raised with a view to having a six-room school which would be available for other as well as high school purposes.

Ald. Abrahamson—I believe foundation on the proposed site is sand or light gravel this proposal of having six rooms would not make any addition to the cost.

Mayor T. Kilpatrick—This is about the only proposals advanced.

Trustee Manning explained the plans as he had already gone over various details with the architect.

Ald. Abrahamson objected to certain small details as regards arranging of steps which might handicap quick exit in case of fire.

Architect Wallace explained the situation of certain steps.

Ald. Howson—I think six-roomed school would be appreciated by ratepayers more than a four-room, the public would think they were getting greater value for the expenditure.

Ald. McKinnon—Only objection I have to this is that the ratepayers and the city are not unanimous in regard to high school, by putting this up to the ratepayers and running a risk of having same turned down you jeopardise your grant from the government, whereas there would be a possibility if the government were approached on this thing owing to the financial situation at the present time and the loss on the debentures. We jeopardise the grant by having the people turn the bylaw down.

Ald. Abrahamson—What good will the grant be if we do not erect at all

Ald. McKinnon—You realise that since 1907 the money market has never been in the condition it is now and it was not so bad in 1907. At present we have some debentures lying in the bank which we have not had a proper bid for and which will cost one-fifth more than in the past. We have a petition for cement side walks, we can not do that work on account of conditions money market and not being able to dispose of our debentures and we propose asking ratepayers to pass $20,000 for school building when they are talking through the sidewalks and the council are not making any effort to do the work.

Ald. Abrahamson—We ourselves pushed side walk petitions the people themselves were not particularly in favor of them.

Ald. McKinnon—That is the way the citizens intelligence looks at the matter.

A. McRae—What would be your solution of the present problem in regard to high school and school trustee report that the present building is not fit for high school children and teachers.

Ald. McKinnon—I say that the building is just as good for high school children now as it was three years ago; the city was in better shape to sell debentures then than they are today.

A. McRae—Five or ten years ago we could have built 50 per cent cheaper than we can do now. There is no doubt about that leaving the debentures out altogether. But what is your solution of our present problems, if this building is not proceeded with.

Ald. McKinnon—I say the expense of putting this bylaw which is not unanimously supported by the citizens is not wise. I think the government would allow the grant in another year It will be easier to have the grant renewed than it will be if the people turn the bylaw down that is my opinion.

A. McRae—People seem to be anxious to have the school building, unless there is opposition which is not come to my notice. I do not see where these people are who will vote against it.

H. Manning—We are under obligation to meet that option of $300 on the purchase; we are under obligation for other options on the same block.

We did not undertake this until we had promise that if we secured a site we might expect government grant and they have come forward with an offer of $40,000. I think we are taking a great deal for granted when we assume that the people are going to turn this bylaw down before they have been given an opportunity to have the measure explained to them. We are $1,000 out on options and I do not think the public would thank us to allow those options to lapse.

Here is a six-room school which will cost $9,000 per room there is nothing wasteful about it, we have to have it to house these children or lease some other building for high school purposes. Market for debentures is a matter that will have to be dealt with here as elsewhere. We may have to pay bigger interest. I think it is the peoples voice in this matter and they should be given an opportunity to say what they want and we think they want it arranged; there might be such a thing as being unable to get same amount of government money again

Mayor Kilpatrick—It is a question of figures, what has been said speaking in regard to the money market is true; assuming that the bylaw had been put last year, last year the council in making their estimates did so at 93, now assuming debentures then sold at 93 and now we can only realise 85 that is a difference of $1600 the increase in the value of the site that is if we had not closed options will mean much more than any possible loss in the debentures. Those are the figures; would not the difference in the increase in the site be more than in the decrease or shrinkage in the lands

A. McRae—Some of you gentlemen remember that it was put up to the council to buy Block 52 it was offered to the city for $2,000, along with the gore near the high school that was the price it was turned down. It again became a question, the next time they were asked $6,000, it was considered too high, at a later date again the same block was offered at $9,500, that was turned down. Last week the block sold for $11,500 cash, now that is history. We shall lose the site we now have, if we do not take advantage of the option.

Mayor Kilpatrick—No person has ever found fault with the location for the proposed school site now under option as chosen by the board, it is unanimously approved.

H. Manning—It is the only available block for high school purposes there is no other in a decent location which will answer the purpose.

Mayor Kilpatrick—I would very much like to see the site taken up now very much indeed. I think the figures are all in favor as against the loss of the property. No reason can be brought up to justify putting off that bylaw for another year.

Ald. McKinnon—My idea is that we need other things worse than high school. I admit you have a good site and good price on it.

H. Manning—The site was very carefully cinched for the citizens before the whole town got wise.

Mayor Kilpatrick—I would like to see the council if they consider things favorable support same unanimously, it is reducing our chance of passing the bylaw if a portion of the council get out and fight it.

H. Manning—I think another good reason is that we can make use of the two extra rooms provided in case of overcrowding in other schools.

Mayor Kilpatrick—Of course it will be available for all educational purposes or for other purposes, as I stated before to get the greatest space with the least expense of money was the object of the board and we have done so.

Mr. Bradshaw—At present there are thirty-two pupils in the high school. There will be or might be eighty or ninety children by July 1914 to receive high school education. This cannot be done in the present building.

Mayor Kilpatrick—Facilities for business education etc., will be provided and many will go right into same from the public schools, this will increase the number of pupils. Ib

A. McRae—It is an attraction to have good schools in town; we have quite a country around here tributary to us and people will send their families here to school. That of course will be a paying investment, it ought to if a business course be self sustaining.

Ald. McKinnon—If the city of Revelstoke is getting any benefit from the schools they certainly ought to they have it coming to them for what it is costing.

Three or four years ago the school estimate for the year was about $16,000 this year it is $24,000, that is a raise of one-third in four years.

H. Manning—It has only kept pace with the school population.

A. McRae—I was here when there were no schools at all, however, we are here to discuss plans and we want your co-operation in the matter. We want you all to co-operate it has been well threshed out especially the site part. I do not know what we shall do if we lose that site.

Ald. McKinnon—I believe that the school board has got a good site, and that the site is for a high school; I believe there are things which the city of Revelstoke needs worse; my idea was that the high school was given preference too much. I admire the school board for getting it through if they can in preference to work that this council are responsible for getting through. At the same time, I think it is up to me as a member of the council to get through all I can the responsibility of which is borne by the council. I admire the school board for getting all they can and also admire the city council for getting through all they can for the departments for which they are responsible.

H. Manning—The school trustees are called upon to educate the school children. The government have shown themselves willing to assist us to the extent of $40,000. We are in a position where we get help which the city council cannot obtain from the government for their works referred to.

Mayor Kilpatrick—It is in any case a case before the people. We can only put before the people what we consider necessary for the city's good. It is then up to the people to decide whether they wish these things or otherwise. Now in regard to these plans, the only change suggested is that the building be raised to provide a six-room school instead of four; also it has been arranged that the top floor may be used as an auditorium hall.

A. McRae—Now Mr. McKinnon we would like you to support this, we will support all the city council bylaws to which you have referred as being necessary.

Alderman McKinnon—Nothing doing "Sandy" We know how our bylaws are supported, look at the proposed sewer bylaw to clean up the old sewer business last year and the way it was supported. My idea was to get an eight-room school instead of six-rooms, for the same money.

Architect Wallace—This is just as cheap as it is possible. This school might be thrown together cheaper, if it is built well it cannot be built any cheaper and eight-room school cannot be built for the price. If this building had been put up six months even ago, a considerable saving might have been made in lumber; labor and materials are increasing in price daily.

A. McRae—We have had enough experience of poor cheap buildings.

H. McKinnon—Yes and we have had some experience of buildings which were poorly constructed and were not cheap.

The school trustees then withdrew.

ASSESSOR.

Mayor Kilpatrick—We now have to consider the question of an assessor. We seem to have been unfortunate right from the beginning in the matter of the assessment figures have been made out, but someone has to father them and sign that everything in his opinion is fair and reasonably assessed.

Ald. McKinnon—We first have to have the resignation of the last assessor.

Mayor Kilpatrick—That can be done by motion being put through cancelling the original appointment.

Ald. McKinnon—How far are we advanced with the tax roll.

Mr. Gordon—We have nothing with the collector's roll but all the assessments are made out and the tax notices are ready for issuing with some minor exceptions.

Mayor Kilpatrick—It is now time that our assessment was through.

Ald. Abrahamson—If we appoint an assessor he will have to go over the figures of complete roll and back same thereafter.

Mayor Kilpatrick—We must have some man whom the public have confidence in.

Ald. Abrahamson—Field is a desirable man and very active, he has been on the assessment also before.

Ald. McKinnon—I move the appointment of City Assessor Lawson be cancelled and that Mr. C.M. Field be appointed in his place with instructions to return the roll as soon as possible. Seconded by Ald. Abrahamson and carried unanimously

Mayor Kilpatrick—I would have liked to have gone into these estimates, but there is a very slender council here tonight.

OTHER MATTERS.

Ald. McKinnon—There are a lot of things in the city which require attending to. Mr. Lawson issued a letter to the Molsons Bank authorising the city clerk to pay 6 per cent, and a copy of this has been handed to Mr. Pratt, although no such meeting was ever held, and the thing never went through the minutes, after he left we found we had been paying 6 per cent. where we thought we were paying only 5 per cent., and Mr. Pratt's authority for this charge is the minutes of this meeting referred to. Mr. Howson is supposed to have moved and I seconded; but I never did such a thing. Things are in bad shape and it is going to take three months to line up and to start to do anything which will add fuel to the fire. I would like to keep away from it of course there is this interest, Mr. Lawson knew he was paying this 6 per cent, we had a meeting of the finance committee to discuss the proposal of giving the bank this increase rate of interest and yet all the time Mr. Lawson had been paying 6 per cent. Things are in bad condition.

Ald. Abrahamson—The bank had no right to collect at that rate.

Mayor Kilpatrick—Lawson has been acting as our agent for the bank and if they have documents referred to, signed by City Clerk it is sufficient for the bank.

Ald. McKinnon—There was no way of finding out unless discount on that note had been figured; Lawson knew we were paying that 6 per cent at the meeting called to discuss it and yet he sat there and never said anything about it. We cannot stop necessary work but I would like to find out where we are at.

Mayor Kilpatrick—There is the extending of the light system and the power line amounting to $8,000, there is question of these necessary water extensions to property paying taxes, There is our streets, we ought to do some permanent street work. We need our streets fixed generally even now, not talking about permanent work at all. We have to do some of this work and later on permanent work must be undertaken.

Ald. McKinnon—Reading of the meters could be turned over to electrician

(Continued on Page Eight.)

MANNING'S

The Public is again cordially invited to hear the City Orchestra play at Manning's tonight from 8:30 to 10.30. Hot drinks and Ices served with dainty refreshments. Courteous and prompt service assured.

NEWS FROM FAR AND NEAR

Pointed Paragraphs of Provincial Interest

Under the scheme which will shortly come into operation, signals giving the exact Greenwich time will be sent out at certain hours by a series of wireless stations in different parts of the world. These stations will at first be Eiffel Tower, Paris, Manila, Philippine, Timbuctu (Sahara), North Deich, North German sea coast, and stations in Brazil, Somaliland and the United States. Ships, too, fitted with wireless and wireless stations will be able to accurately regulate their clocks by the signals.

The death of Miss Elizabeth Smith, for more than twenty-five years employed in the redemption department of the United States treasury at Washington, occurred last week. Miss Smith was an expert at redeeming damaged money and in declining counterfeits. In 1910 when a bank burned at Atilia, Cuba, and $50,000 was charred in the vaults so it was impossible to move the mass, Miss Smith was sent to Atilia by the government. She was able to count the charred bills, which were credited to the depositors the Royal Bank of Canada.

George P. Rury of Golden, has been appointed conductor of the snagboat Muskrat, employed in improvement work on the Columbia river between Golden and Windermere. Mr. Rury is now engaged in overhauling the boat preparatory to the season's work and will have her ready for service as soon as the river is in condition for navigation. Through the efforts of R. F. Green, M.P., for Kootenay, a sufficient sum has been voted to enable the snag boat to make many much-needed improvements in the river and it is expected that the end of the season will find the channel in better shape than ever before.

Sena or McLean of Connecticut has introduced into the Senate at Washington a resolution requesting the President to propose to the governments of other countries the negotiation of a convention for the mutual protection and preservation of birds. The resolution follows the passage last session of the Weeks-McLean law for the protection of migratory birds. Mr. McLean hopes that a convention including delegates from Great Britain, Mexico, the South American countries, Japan and China especially, will soon be held to arrange international treaties for the protection of migratory birds.

M. de Broqueville, the premier of Belgium, during a discussion in the Chamber on the subject of military reform, stated that in accordance with the new army bill each division of the army would, in future, consist of three brigades, each of two regiments and that three mounted batteries would be attached to each regiment. An aviation corps would be organized which would supply aircraft to the brigades, and motor transport would be developed. By the year 1918, the field army would consist of 170,000 men and this increase would necessitate an annual supplementary expenditure of 20,000,000 to 21,000,000 francs.

W. E. Hardenburg, the American civil engineer, who first disclosed the Putumayo rubber fields atrocities said to have brought about the death of hundreds of Peruvian Indians, came before the Putumayo investigating committee in London last week, to answer charges made against him by Julius Caesar Arana, former director of the Peruvian Amazon Company. He denied that he was either a blackmailer or forger, as had been asserted by Arana. He said he had made no offer to the Peruvian Amazon Co. to surrender his dispositions regarding Putomayo crimes in return for money. No charge of forgery or blackmail had been made against him, he said, up to the time he left Iquitos in 1909.

With a view of convincing the powers that the payment of indemnity by Turkey is imperative, a Bulgarian Finance Committee has prepared an official statement showing what the cost of the war has been to the nation. Not reckoning the cash outlay, which has left Bulgaria staggering under a big national debt, it is shown that the country has lost 25,000 men killed and 25,000 mained or crippled. All these were in the prime of life and their loss to a nation of but four and one-half millions means a heavy drain. Pensions amounting to $2,000,000 annually must be paid on account of these casualties. The committee also points out that the war equipment of the army has been worn out and must be replaced.

Emperor William is earnestly endeavoring to reduce the number of duels fought by German army officers, according to an announcement made by a committee of the imperial Parliament recently by the Minister of War. His Majesty, said the minister, admonished the commanding generals at his New Year's reception in the matter of improving the training of officers. The Emperor followed this up with a rescript to the army calling attention to the number of duels caused by officers insulting their comrades or civilians. This was in the nature of a warning to the officers to strive against such practices. It concluded: "Self-control and restraint must be cultivated as manly virtues."

A GRATEFUL COUPLE

Nova Scotia Man and Wife Both Benefited By GIN PILLS

JUST how much difference GIN PILLS can make in the home life can be guessed from the letter below. Where formerly both husband and wife were more or less constant misery with backache, they are now debited to be almost free of the old trouble.

Lyons Brook, N.S.

"You are perfectly free to use my name in any way to benefit GIN PILLS, for they never treated me since I took GIN PILLS, and my wife feels much better after using GIN PILLS for her back. I think GIN PILLS will make a complete cure."

JAMES SCALLON.

Why don't you or any of your friends who may be suffering with Backache, Rheumatism, Lumbago, Sciatica, Weak or Strained Kidneys, Burning or Scalding Urine, Painful Urination or frequent colds in the Kidneys and Bladder, get the same relief that so quickly came to the Nauss home when they started to use GIN PILLS?

Remember you buy GIN PILLS on our standing guarantee that they will cure or your money will be promptly refunded. 50c. a box, 6 for $2.50. Sample free if you write National Drug and Chemical Co. of Canada, Limited, Toronto. 151

Toronto, April 24—C.P.R. detectives are endeavoring to locate a nervy thief who stole a light engine from the siding at Brock Junction, and while going on a long distance "joy ride" unwittingly ran the locomotive into the Guelph yard, where a freight engine, standing on the road was rammed head-on, and thrown into the ditch.

Must You Be Bald?

What have you done to stop your hair from falling? Have you tried Rexall "93" Hair Tonic? If not, we want you to try it at our risk.

If you have dandruff; if your hair is falling out and your scalp is not glazed and shiny, if you use Rexall "93" Hair Tonic according to directions for thirty days, and at the end of that time you are not thoroughly satisfied with the results and will tell us so, we will immediately hand back your money. We won't ask you to promise anything. We won't even question you. We will take your word and return your money.

Doesn't it stand to reason that Rexall "93" Hair Tonic must be a mighty good remedy and have given great satisfaction to our customers if we endorse it like this? We know of no similar remedy that is as good. It is because of what Rexall "93" Hair Tonic has done for others that we back it with our own money.

Why suffer scalp and hair trouble or be bald, when Rexall "93" Hair Tonic will remove dandruff, make your scalp comfortable and healthy, promote hair growth and tend to prevent baldness—when we will pay for the treatment should it fail to please you?

We don't obligate you to anything. You simply buy the treatment; use it, and if not pleased, come back to us empty-handed—and we will hand back what you paid us. Two sizes, 50c and $1.00 a bottle.

You can buy Rexall "93" Hair Tonic in this community only at our store:

WALTER BEWS.

Revelstoke British Columbia

The Rexall Store

There is a Rexall Store in nearly every town and city in the United States, Canada and Great Britain. There is a different Rexall Remedy for nearly every ordinary human ill—each especially designed for the particular ill for which it is recommended.

The Rexall Stores are America's Greatest Drug Stores

Why is it that nearly all the things that we take pleasure in doing are sinful, and all the things that look like hard work are proper?

SHILOH

quickly stops coughs, cures colds, and heals the throat and lungs. 25 cents.

A Pail, With Water—a Brush—and a Pkg. of Alabastine

WILL transform the ugliest walls into walls of beauty—of art—of refinement. Alabastine walls are pleasing to the most cultivated tastes. Anyone can apply Alabastine by following the directions. All you need is a pail, with water, and a flat brush. The rest is easy. Alabastine, unlike wall paper and kalsomine, hardens, and becomes part of the wall itself. Alabastine sticks to the wall permanently. It is the only absolutely sanitary wall covering.

None Genuine Without Little Church on Label

CHURCH'S COLD WATER Alabastine

A new coat can be applied without removing old one. Alabastine is made in white, and twenty-one charming tints. Come in and get the Alabastine tint book. We'll show you how really beautiful Alabastine is.

PROTECTING PROVINCIAL RESOURCES

An additional sale of timber recorded by the Forests Department yesterday illustrates the active intention of the Minister of Lands that deception in the matter of pre-emption shall not be tolerated, and if attempted, will bring swift punishment.

As those conversant with the land laws of British Columbia are aware, lands containing timber to an extent of more than eight thousand feet to the acre are classed as timber lands, and as such are not open to pre-emption in the ordinary economical course for farming purposes. On the north side of Cardero Channel there is one piece of land comprising 145 acres, which a short time ago was taken up as a pre-emption and represented as entitled to be so claimed. The pre-emptor very shortly afterwards, however, disposed of the timber upon his as yet unCrown-granted holding, at a price of one dollar per thousand, and straightway returned to town to enjoy himself on the results of his little speculation, displaying no further interest in his property as a future farm.

The facts coming to the notice of the department, investigation was at once ordered; a cruise showed the timber to run from fifteen to thirty-five thousand feet to the acre, and the pre emption was cancelled, and the timber already cut seized. Seven hundred thousand feet had already been cut and removed. The remainder on the holding was estimated at 1,050,000 ft. but actually scaled 920,000 feet, and this has now been sold to Messrs. Summer & Lahl at $1.50 per thosand in addition to the royalty, the purchasing firm assuming also all charges and express incidental to the seizure.

In addition there was also sold to the same firm all standing timber on the extinguished pre-emption, this comprising approximately 780,000 feet almost wholly fir, at $1.00 per thousand, and royalty the sale being made conditional upon the whole being logged off within two years. Forty acres of this tract when cleared by the loggers will constitute a suitable site for a small forty acre farm, the soil being dark clay bottom land, well adapted for farming purposes. The other portions of the tract are stony and precipitous.

AUTOMATIC SIGNALS ON C. P. R'Y.

The Canadian Pacific Railway has installed an automatic block signal on the Crow's Nest Pass and Carbon Creek, above Michel. Although there has never been an accident on this part of the line line, the new block system will make assurance doubly sure.

There are three "blocks" of three miles each, and each siding and switch is a unit by itself.

When a train enters a division it automatically closes an electrical circuit which throws down semaphores both behind and ahead of it and holds other trains out of the section. When a train passes out of a division, the signals automatically raise, and permit another train to "get by."

The system is operated by electricity provided by enormous wet batteries located along the line. The services of one man are required to supervise the apparatus and to keep it in working order.

The mechanism is almost human in its ingenious operation. The system does not operate a derail, but it enables engineers to feel absolutely certain of their right of way both by day and by night.

Slow-working snake venom was the cause of the death of Karl Hagenbeck the animal collector on April 14, according to the physician who attended him. He was bitten several years ago, and the venom eventually affected his liver. Karl Hagenbeck was born in 1811. His father who had commenced the animal business in 1848 with a few seals and a polar bear brought to Hamburg by a whaler transferred the business to him when he was twenty one years of age. In 1875 he began to exhibit a collection of the representative animals of many countries, accompanied by troupes of natives, throughout Europe. The French government in 1891 awarded him the diploma of the Academy. Several sovereigns bestowed decorations on him.

I am one darn fool who does not yearn for the good old romantic days when knights were bold. Me for the modern plumbing.

NOTICE

All businessmen, householders, citizens and others, are hereby notified that, in accordance with the City of Revelstoke Sanitary Bylaws, they are called upon to forthwith proceed to clean all alleyways and public approaches to property within the city limits, from any accumulations of ashes, rubbish or garbage, and to have such removed to a dump ground approved by the council. All property owners, tenants and others, are required to clean up their premises and remove from same any refuse of an objectionable nature. The Police will be instructed to take the necessary proceedings summarily, against any parties failing to comply with this notice by May 1st next.

CITY CLERK.

COUNCIL MEETING (Continued)

(For beginning of this report see our last Saturday's issue.)

Inventory of power plant for insurance purposes as submitted by Electrician North was handed to city office for checking.

High School—Letter from School Trustees re high school requesting action.

Ald. McKinnon—I think the council should take action but I do not wish to make a motion as I shall vote against the bylaw.

Mayor Kilpatrick—Some action will have to be taken.

Ald. Howson.—I move this bylaw, $20,000, for high school be put, and the city council and the trustees go over the proposed plans together prior to same.

Ald. Abrahamson—I second.

Carried. Alderman McKinnon dissenting.

Ald. McKinnon—I would like to point out that the school board have got along with the present school for some years; now in a financially stringent year they force this expenditure, and we cannot sell our debentures now on hand. We appear to be undertaking to sell further debentures under even greater disabilities than those, which have prevented our selling debentures in the present. I will not support this bylaw.

Ald. Barber — I believe the school will lose out, but could we pass a bylaw to secure the site.

Ald. McKinnon—It is too bad to force the citizens to turn this bylaw down, because it is such an inopportune time; but the school board ask, and the people will decide.

PETITIONS.

Residents of Clearview petitioned for water to be put in by the city, and McKenzie avenue opened up. Referred to W. and L. committee, with regards water request that same be attended to as soon as possible. McKenzie Av. Crossing—As regards the crossing, matter instructed to remain over pending definite replies from C.P.Ry.

Engineer McKenzie put in his account $18 for repairs to pipes burst in 1912 by frost, and after the city office had been advised to turn off the water and neglected to do so.

Ald. Howson—I have gone into this and think as the city appear at fault we should pay. I move accordingly.

Ald. Abrahamson—I am not in favor of the city paying this account.

Motion dropped for lack of seconder Clerk instructed to advise Mr. McKenzie accordingly.

Bylaws—Matter of transient real estate safesmen was referred to bylaw committee.

ASSESSMENT.

The date of bringing in the roll was extended on motion to May 2nd.

POUND KEEPER.

F. Lundell was appointed poundkeeper for 1913.

DOG TAX.

The tags were reported as arrived, and the final date was fixed for 15th May, usual notice to be given.

CLEAN-UP.

The health officer was instructed to be written in regards to enforcing the sanitary bylaw.

Ald. Howson—A clean-up day might be nominated. The health officer should order a clean-up after May 1st or proceed in accordance with the notice against all offenders.

CENSUS.

Ald. McKinnon moved, that a police census be taken of the city of Revelstoke.

EMPLOYEES.

Mayor T. Kilpatrick—A list of all city employees will be prepared, positions and salaries, and laid before the council.

Ald. McKinnon—A salary scale should be drafted thereafter.

ACCOUNTS.

Ald. McKinnon—The Finance Committee are arranging a uniform system of payments to employees and businessmen, in future all pay cheques will be issued on the 3rd of the following month and accounts payable on the 15th of the following month.

The meeting adjourned to the call of the chair, 11:30 p.m.

ARROW LAKES STEAMER TRAGEDY

Nelson, B.C., April 28—Robert Abbot, steward of the C.P.R. steamer Lytle, was drowned today in Kootenay lake near Ainsworth. He fell from a stairway into the water.

As soon as the accident was noticed a lifeboat was launched. Abbott was then swimming strongly, but before the boat reached him he sank in the ice cold waters of the lake.

No sign of the body was found, although the boat rowed over the spot for half an hour, and a tug is now making a search.

"A Chicago Home"

Chicago dispatch says that Wilbur Ernest Walker, a Chicago architect, to build the most unique residence in the world Walker will build a complete ten-roomed bungalow on the roof of an eight-storey house he is erecting on the corner of Lake Shore Drive and Walton Place. The most attractive feature of this novel residence is that it will be far above the fly belt and mosquito line. Imagine a summer house in Chicago where screens are not needed.

It used to be that the younger a girl was the higher she wore her skirts. But nowadays the older she is the higher she wears them.

OBITUARY

The death occurred at Spencerville, on Saturday last, of Dr. S.C. McLean for many years engaged in the practice of medicine in that village, and one of the best known medical men in the counties.

Dr. McLean was born in the township of Augusta and was in his 67th year. In 1871 he entered Queen's University, Kingston, and graduated from the medical faculty of that institution in 1874. At first Dr. McLean started practice with Dr. Dunn, of North Augusta and also resided at Bishop's Mills for a year. Finally he settled at Spencerville, and has since been at the head of a most successful practice there. Dr. McLean had many warm friends throughout the counties, and his death has caused profound sorrow not only in Spencerville but also in all the surrounding district. One of the most respected men in Grenville county, he was beloved by many for his kind words and actions. Dr. McLean was a prominent worker in the Methodist church. All his life he was a staunch Liberal and a steadfast supporter of the party. He is survived by a widow and a family of five. No medical gentleman ever in practice in this district was ever held in higher estimation by all ranks. As a friend to the poor and as a true gentleman of the old school he will be greatly missed and his place will be a hard one to fill.—Prescott Journal.

The deceased was an uncle of Dr. McLean of this city.

After an illness of four days, Mr. Thomas Welch, died on Saturday morning in Revelstoke, B.C. Deceased was born in this town 33 years ago and moved to Brockville when a youth where he entered the employ of the late John Stagg. Later he formed a partnership with the late Joseph McBratney in a butcher business. Ten years ago deceased went west and first obtained employment in Calgary with the P. Burns Company. He was promoted to the management of the company's business at Banff and other places in the west. A few years ago he had succeed in amassing enough from his efforts to purchase a ranch near Revelstoke and he was in this business when he was called away.

The late Mr. Welch is survived by his mother, and Mrs. A.P. Barnes, of this place, and Mrs. Graham in Revelstoke. He was a member of Court St. Charles Borromee, Catholic Order of Foresters, and the Ancient Order of Eagles in Revelstoke.

Deceased possessed a jovial and ambitious disposition, and this coupled with keen foresight made him a man of unusual business ability. In his death his mother and sisters have lost a kind and dutiful son and brother.

The remains are expected to arrive here tomorrow and the funeral will take place from the residence of his brother-in-law, A. P. Barnes, Sophia street on Sunday afternoon. Interment at Brockville.—Prescott Journal

The Police have been instructed by the City Council to prosecute all persons keeping or harboring a dog without a License.

A Dog that is not worth paying a License for is worth nothing.

Dag Taxes can be paid at the Police Station or City Offices, up to May 15 After that date action will be taken.

CITY CLERK.

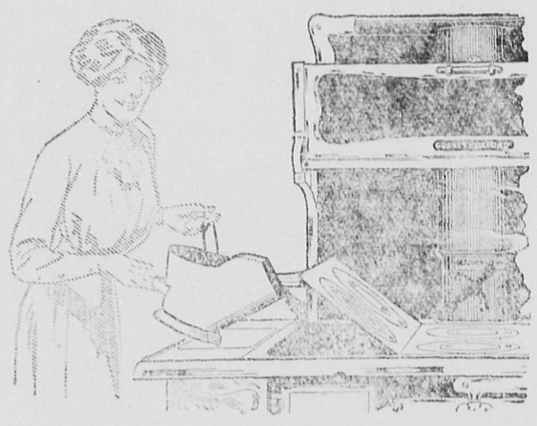
GURNEY-OXFORD



The Full Value of Coal

You will never derive the full value of the money you pay for coal unless your stove is controlled by the Gurney Economizer. It actually saves 1 ton of coal in every 6 you would ordinarily burn in other ranges.

It also assures a thorough, steady, even heat throughout the entire stove. There is no waste heat going up the chimney.

The Economizer makes sure that the purpose for which fuel is being burnt is carried out.

The Gurney Economizer is a simple device that requires just a light pressure on the lever to result in a consistently heated oven—the secret of successful baking.

No sane person can afford to ignore this saving in coal bills, so make sure that your new range has an Economizer.

The Gurney-Oxford is equipped with other exclusive devices, the Divided Flue, the New Special grate, and the Broiler attachment.

It also is made with a perfectly smooth polished top which forever requires no black lead.

There are no crevices where dirt may lodge —above all it is sanitary.

No intelligent housekeeper to-day can afford to ignore the benefits which science has brought to her through the Gurney-Oxford.

MAN OF MANY TROUBLES

San Francisco, April 28—Mat Schapher says he is a man of many sorrows, including a small chicken ranch and an expired life insurance policy.

He decided to end them today, and drank a mixture of red paint and poison. That only made him ill, so he shot himself through the right ear. That made him angry, so he waded out into the ocean to cool his wrath. The life-savers brought him in and took him to an emergency hospital.

"Everybody's doing it—millionaires, doctors and preachers—and I thought I would have a try," he explained to the nurses.

"You don't know my troubles. My chickens have the pip, my dog was shot the other day by a policeman. I haven't enough money to renew my life insurance and I don't like the minister out where I live! Then I have had ills of the body and of the soul, and even ofthe heart." He will probably recover.

News in Brief

The British government intends, after the conclusion of the Balkan war, to approach Germany with a definite proposal to stop the naval ship building programmes of the two countries, during the fiscal year 1914-15, according to the Taegliche Rundschau. Mr. Winston Spencer Churchill, first lord of the British admiralty, may pay a personal visit to Berlin with this object in view it is said.

Anyone who has an unused thirteen cent United States postage stamp, printed on blue paper would do well to hold on to it rather than use it on a letter or package. A stamp dealer who has heretofore sold these stamps to collectors for $62.50 each announces that the price will be $75. Four thousand of these stamps were originally printed, but fewer than a hundred are known to exist at present.

People of the North American continent may soon be able to reduce the cost of living by partaking of a diet which includes antelope, jujube, baked bread, fruit, petsai, udo, mangoes, liches, nuts and dasheens, as a result of the investigations and experiments of David Fairchild, "agricultural explorer," who has ransacked the world for foodstuffs that may be grown very cheaply in Canada and the United States.

Judge Kehoe, of Sudbury, has quashed the convictions against William Hollowaska and Peter Carey, the Porcupine trades' unionists, who were convicted under the Lemieaux Act. As the Hollinges mine instituted these prosecutions for the purpose of testing the Lemieaux Act, the decision is most important to labor throughout the Dominion. The two men had been fined $700 and costs or three months in jail.

Twenty passengers were killed, and forty injured in a wreck last Thursday on the Mexican Central Railroad, near Tula, State of Hidalgo, because the engineer yielded to the importunities of the passengers. The engineer, fearing to run into rebels, was moving cautiously. The passengers also were apprehensive, but believing that greater safety lay in greater speed, induced the conductor and engineer to run faster. The train was ditched on a curve.

Important changes in the Manitoba government are pending. The immediate retirement of Hon. Colin Campbell, minister of public works, is looked for. Mr. Campbell's state of health is such that it is said that it will be impossible for him to continue to discharge his duties as a cabinet minister. His retirement will be the occasion for a shuffle in the cabinet and the vacancy thus created is to be filled by taking E.L. Taylor, K.C., the well known lawyer.

A Sunday school class was studying a missionary lesson and the teacher was telling of customs among the Eskimos. She said:

"I have read an article by a traveller among these people, and it is the duty of the Eskimo's wife to chew her husband's clothes to keep them soft and liable, as the skins get still, and therefore a woman is chosen according to her chewing ability, every man endeavoring to get a wife with strong teeth."

One little boy with a look of intense nausea on his face blurted out:

"Why don't they get 'em a billy-goat?"—National Food Magazine.

The maximum difference in elevation of land in the United States is 14,777 feet, according to the United States Geological Survey. Mount Whitney the highest point is 14,501 feet above sea level, and a point in Death Valley is 276 feet below sea level. These two points, which are both in California, are less than 90 miles apart. This difference is small, however, as compared with the figures for Asia. Mount Everest rises 29,002 feet above sea level, whereas the shore of the Dead Sea are 1,290 feet below sea level, a total difference in land heights of 30,292 feet. Mount Everest has never been climbed. The greatest ocean depth yet found is 32,088 feet, at a point about 40 miles north of the island of Mindanao in the Phillippine Islands. The ocean bottom at this point is therefore more than 11½ miles below the summit of Mount Everest. The difference in the land heights in Europe is about 15,868 feet.

Kiss her when she is five and she will fight you. Kiss her when she is tenand she will acratch you. Kiss her when she is twenty and she will grab you.

Any old husband will wash the dishes for his wife, when she feels bad, but it takes a regular Molly to remember to empty the pan under the icebox.

TO HOLD THE EARTH

IS NOT A VERY EASY THING,

but every saving person can hold at least a small part of it if he wishes to. We have some earth on our hands that we would like to dispose of, fine residential plots that are sure to advance in value in the near future.

DEPARTMENT OF WORKS.

NOTICE TO CONTRACTORS.

Steel Bridge, Thompson River, Lytton, B. C., (To Be Built Alongside Present Structure) Substructure and Erection of Superstructure.

Sealed Tenders, superscribed "Tender for Substructure and Erection of Superstructure, Thompson River Bridge, Lytton, B.C.," will be received by the Hon. the Minister of Public Works up to 12 o'clock noon Wednesday, the 7th day of May, 1913, for the complete substructure and erection of superstructure of a bridge across the Thompson River at Lytton, B. C.

Drawings, specifications, contract, and forms of tender can be seen at the offices of the Government Agents, Ashcroft, New Westminster, Vancouver, and at the office of the Public Works Engineer, Parliament Buildings Victoria.

Intending tenderers can, by applying to the undersigned, obtain one copy of the drawings and one copy of the specifications for the sum of twenty-five dollars ($25).

Each tender must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Hon. the Minister of Public Works, for the sum of $1,000, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

The successful tenderer shall furthermore furnish an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Hon. the Minister of Public Works for the sum of one thousand dollars for the due fulfilment of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each applicant must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to the Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

HOGS GROW FAT ON COAL DIET

"If you want good fat healthy hogs feed them slack coal."

That is the slogan of the hog raiser nowadays. It's no joke; it's the ideal feed for hogs in spring, and it should make a market for the waste quantities of slack coal that has to be dumped into the coolies hereabouts in view of the large number of mixed farmers who are going into hog raising.

The feeding of slack coal is advocated by the most successful hog-raisers of the United States, and it had been tried out here in Coaldale, and found to warrant every claim for it.

"I fed two tons of slack coal to my hogs the last winter," said T. W. Dike of Coaldale, whose recent shipment of 83 fancy hogs took the fancy of the Vancouver packers, who paid above 8 cents a pound for the hogs on the hoof at the stock yards in Lethbridge at a time when fancy stock was being bought around 7¼ to 7¾ cents a pound on the hoof, and when it was only bringing 8½ cents laid down in Calgary.

"Those logs fairly fattened on the coal, too. It was the best thing I ever did, and many of my neighbors who watched the operation are converted to my way of thinking and reasoning, that slack coal is a preventative of disease and an excellent appetizer for the hogs. I have fed it right along, and while I have kept a record up to two tons of the amount I fed, the lot of hogs just sold. I presume, used perhaps 500 pounds more than that between the time I stopped keeping the record and the time I sold them. Yes, just about 4500 pounds of good slack coal for a six months' diet for 83 hogs! That shows whether they like coal, too. And I am satisfied that it was one reason I had no sick hogs on my hands."

Mr. Dike's hogs weighed in at shipping point an average of 206 pounds, and they were even in size and color, clean and showed excellent care and attention.

The record for coal feeding to hogs is claimed by C.L. Engle, an ElReno, Oklahoma, banker and hog raiser, who fed 3200 pounds to 60 hogs in six weeks, and who claims that he has within one year raised 5000 hogs and only lost one. Down in Oklahoma, the packers want heavier hogs than in Southern Alberta and Mr. Engle makes money buying hogs around 100 pounds and fattening them for marketing around 200 pounds. He argues that 40 cent corn fed to hogs between the 100 and 200 pound classes is worth more than $1 a bushel, and he considers that the same relative increase in value should be counted in feeding wheat."

"They eat coal just like corn," Mr. Engle is reported in a hog journal, "and I attribute the fact that I do not have to encounter any disease to this diet. Coal is surely a preventative of hog cholera. It is rich in sulphur and iron, and the hogs are as eager for it as their corn rations every time. It is true I have raised 5,000 hogs on a coal diet, and further more I have never lost during the past year while raising this number of hogs but one, and he was kicked to death by a mule."—Lethbridge News.

POST OFFICE BUSINESS GROWING

The Post Office Inspector has just issued the monthly report of new offices opened in the province during the month of April. An office has been established at Adams Lake, which will be served from Chase on Fridays; another at Blackloam, served from Kamloops on Tuesdays and Fridays; another at Brigade Lake, served from Kamloops on Tuesdays and Fridays; another at Eagle Bay, served from Notch Hill on Fridays; another at Knutsford, served from Kamloops on Tuesdays and Fridays; another at Sorrento, served from Notch Hill on Tuesdays and Fridays; another at Vicosa, served from Vancouver daily except Sunday. The offices at Balcomo and East Arrow Park have been closed. The name of the Fraser Lake office has been changed to Fort Fraser. On the first of May the following offices will be made money order offices: Bridesville, Burquitlam, East Burnaby, Mount Lehman and Needles.

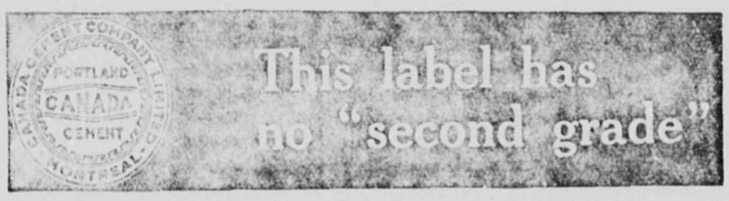
Some of the JUVENILE BOSTONIANS and their Governess—EMPRESS THEATRE, May 5 & 6

In their work of keeping the Province of British Columbia free from the deadly San Jose scale, Fruit Inspector Thos. Cunningham and his staff, have condemned no less than sixty-one shipments of nursery stock thus far in the present season. The province of British Columbia is the only place on the Pacific coast that is free from the terrible pest, that poisons the sap of the trees and kills them, and the inspector is determined to keep it so by vigorous application of the law.

Shiloh 25¢
The family remedy for Coughs and Colds
"Shiloh costs so little and does so much!"



THERE'S only one quality of Canada Cement. It is the highest quality that can possibly be made with modern equipment, scientific methods and rigid inspection by expert chemists.

The Canada Cement you buy for a garden walk is the same cement that is sold by the trainload for great dams, elevators and bridges. The engineers in charge of these great works have ample facilities for testing the quality of cement.

Canada Cement

comes up to their most rigid requirements.

The farmer has not these facilities for testing the quality of cement. He must buy a product upon which he can depend for a grade that is *always of highest quality*, and that therefore does not *need* to be tested.

You can place absolute reliance upon the quality of Canada Cement.

It's always the same and always the best. The large output—which enables us to *keep the price down*, enables us also to maintain the factory equipment and organization that *keeps the quality up*.

A Canada Cement label appears on every bag and barrel of genuine Canada Cement. See that it's on the bags and barrels of cement that you buy.

WRITE for our free book "What the Farmer Can Do With Concrete." It has told a hundred thousand Canadian farmers of the money-saving and profit-making possibilities of concrete.

LOCAL AND GENERAL

C.F. Curst and Mrs. Curst of Toronto, are in the city.

A full report of tne J.B.C. Concert will appear in Saturday's issue.

Geo. Masher of Vancouver, is in the city a guest at the King Edward.

J. W. Caulia of Medicine Hat, was an arrival from the east an Monday.

Geo. Threlkeld of Banff, came in a couple of days ago to transact business here.

Miss Christie, teacher of the public school, is down with an attack of tonsolitis.

D. W. Wright of Toronto, is doing business here today. He came in the first of the week.

Mr. Ernie Dixon C.P.R. engineer, is moving into one of Mr. McRae's houses on Sixth street.

Mrs. Dr. McLean entertained a number of friends yesterday afternoon at an enjoyable thimble tea.

Chas. M. Field, arrived lgst Sunday from a business trip to eastern points on the main line.

The great three-reel feature "The Mill of the Gods" and Pathes Weekly at the Star theatre tonight and Thursday night.

Mr. R. Tapping has awarded a contract for the raising and construction of a stone foundation under his building on Connaught avenue.

The W.C.T.U. regular meeting will be held at the home of Mrs. Lindmark on Friday, May 2nd at 3 p.m. Election of officers All members please attend.

The closing meeting of the Political Equality League will be held next Monday evening in the City Hall, at 8 p.m. Election of officers for next year and other important business.

We are handling a Vacuum Cleaner that is light, easy to handle, will go into any angle or corner, is guaranteed, and comes at a reasonable price. Let us demonstrate this to you. — Bourne Bros.

The Moose Lodge No. 1035, are holding a Smoker after their regular meeting on May 6th, in the Oddfellows Hall. All members and their friends are cordially invited. Lodge business at 8p.m. and smoker at 9 p.m. 3t.

The "Ralph Connor" literary at the Methodist church Monday evening was well attended and very enjoyable. Mr. Harry Maxwell read a paper on Mr. Gordon's life. Mr. Patterson followed with a reading from the "Sky pilot" Mr. McIntyre gave the "football match" from "Corporal Cameron," the author's latest work.

Mr. and Mrs. Flockhart, of Bolton, England, arrived in town Monday morning and intend locating here. They are at present staying with their daughter, Mrs. Frank Paulding. Mr. Flockhart states they had a very rough crossing, and were held-up two days by fog. East of Winnipeg the train was delayed twenty-four hours by a wash-out. Their journey of 7,000 miles occupied 16½ days.

CITY COUNCIL

(Continued from Page One.)

North, it is a little matter by the way which should be attended to; while auditors are working on the books they continually need assistance of the office staff, property having changed hands, etc.; there is no line on anything, for this month North might read the meters.

Ald. Abrahamson—How long will the auditors be here.

Ald. McKinnon—They will be here this week anyway. Someone should read the meters for a while if possible.

Mayor Kilpatrick—Mistakes are liable to happen with a new man.

Bennett read the meters once some years ago.

Ald. Abrahamson—The expense of putting in water connections through Clearview and other places required, will reach about $3,000.

Mayor Kilpatrick—That included in the light system and power lines will make about $10,000. Our temporary street work will cost $5,000, total about $15,000, or a little better, which can be secured by means of a bylaw.

Well this meeting will now stand adjourned until tomorrow night, Wednesday at 8 p. m. Motion put and meeting adjourned.

WEDDING BELLS AT TAFT B. C.

Taft has been having a great time lately. On Monday last, April 21st, Mr. F.J. Bayliss, the popular manager of the store, belonging to the Forest Mills of British Columbia, Taft, married at the Revelstoke, Church of England, Miss Gould, who had recently arrived from Birmingham, Eng., the Taftites expected the bride and groom to return to Taft the same night. They waited till midnight but were doomed to disappointment. All day on Tuesday they waited most anxiously expectant, but were again most disappointed. However, on Wednesday night the newly married couple arrived. The long-looked for time in their lives had come, Mr. and Mrs. Joe Bayliss were spotted getting off the train on the opposite side of the platform, by a lady who gave the sign that the long-looked-for couple had bolted into a neighbor's house. This was to start the greatest chivaree on record in Taft or neighborhood, which will not be forgotten for a long time. Several band saws and rivets were brought into action. The noise and tumult could be heard miles away.

The lumberjacks in the woods several miles off thought war had broken out between the U.S.A. and Japan, and was really in full swing. There is great credit due to those who engineered the whole warfare, viz.:—Mr. Emery, mill superintendent; Mr. M.A. Crford and John Lee, who had gone down to Taft purposely to assist and have a good time. Ample provision had been made for the thirsty ones, and it might be stated here that there were very few who did not do more than wet both eyes with good old Scotch.

On Saturday night the event was again celebrated. The Taftites, Three Valleyites, and Craigellachieites joined in making the newly wedded pair a handsome presentation of a real leather covered couch and a big dance.

Everyone had the time of their lives and kept it going in full swing to the early hours of the morning of the Sabbath. Nearly $100 was collected in the shortest space of time. The hall was beautifully decorated.

The mill is now in full swing and everyone settled down to work again.

L. Lerose of Sicamous was noticed on the streets on Monday.

Geo. F. Choysman of Arrowhead, came in on Tuesday's south train.

S. Henderson of Halcyon and H. Fraser of Arrowhead, are in town.

Chas. J. Hodgon of Arrowhead, is in town. He arrived on Monday's south train.

C. H. Rieson of Vancouver, is a business visitor to Revelstoke this week. He is at the King Edward.

W. Marshall of Scotland, accompanied by Mrs. Marshall and children arrived in the city last Monday.

Mr. and Mrs. D. Ritchie of Montreal came in on Monday's early west bound They are guests at the King Edward.

We regret to announce that Passenger Engineer E. A. Mackinrot is suffering with an infection of the eyes at the hospital.

Now that we have a properly organized baseball club, it is up to the citizens to patronize it by substantial financial backing. There is every reason to believe that the local team will give a good account of themselves during the approaching season at the various matches. Surely a city the size of Revelstoke should be able to possess an up-to-date bgseball team one that will be a credit to the community. A good baseball team indirectly helps every business man in the city for what helps Revelstoke helps us all Let every individual in the city take a personal interest in the ball team, with a view of the local team being ranked among the first in the Pacific Coast Province.

Solomon had several hundred wives but I's bet a dollar he didn't get any more buttons sewed on his clothes than any other married man.

NOTICE.

All changes of ads must positively be handed into this office by Monday evening in order that the change shall appear in Wednesday's issue, and any changes intended for Saturday's issue must be handed in not later than Thursday evening of each week. Business men please take note of the above.

BUSINESS LOCALS

A May Day Shirt Waist Dance is a novelty in Revelstoke. It will be given by the Girls' Hospital Auxiliary at the opera house on Thursday, May 1. All of Revelstoke will be there.

Special Sale Ladies Tailored Suits, to order $40, balance Spring and Summer Goods.—Cressman & Co. Ap.30t

Now that the snow is off the roof.—He is doing it again—Who, the Chimney Sweep, at the Oriental hotel.

It only costs you a Five Dollar Bill for Initiation Fee to become a good Loyal Moose. This is for a short time only, so make hay while the sun shines

POWDER—A supply of Stumping Powder, Caps and Fuses has arrived, and can be obtained from Setretary Calder, of the Agricultural Society, on application.

Remember the date of the Opera House Ball, May 26th next, given by the Management. r.t.d.

The reserve seats are on sale at C. R. Macdonald's drug store Phone No 3 and secure the best seats while they last for the Juvenile Bostonians. All new plays.

JUVENILE BOSTONIANS RETURNING

Owing to the great success of the recent engagement of the Juvenile Bostonians here, and the fact that this sparkling attraction will not appear here next season. Manager Smythe has prevailed upon the management of the company to cancel two nights of their Okanagan time and return here for Monday and Tuesday, May 5th and 6th. This will no doubt be good news to most of the local theatre-goers as this organization is one of, if not the most popular of the attractions that visit here each season, and as they will not visit here next season the coming engagement will be something of a farewell appearance, if not forever, at least of the Pattie-Bernhart variety, there is little doubt that it will resemble the "farewell engagements" of those two famous "come backs" in one respect and that is that the house will be crowded each night, as the demand for seats is already very heavy.—Empress theatre, May 5th and 6th.

CHAPMAN AMUSEMENT COMPANY

Revelstoke will in a few days be again visited by another spring attraction one that has now begun to fill the wants especially of the children of this city at this time of the year for a few days real genuine sport. The Chapman Amusement Company will visit this city for a few days next week from Monday to 5th May till and including Thursday the 8th May.

This big show will have all the usual side shows and other attractions, that they carry and last by not least the "Merry-Go-Round" for the younger set. No child within one hundred miles of Revelstoke should miss a ride on the merry-go-round horses.

We are assured that this show will contain only good clean attractions, and their visit next week to our city can be looked forward to by young and old.

The Revelstoke Amateur Dramatic Club will stage a play on May 24th. The name of the play and full particularswill be given in a near issue of this paper. It will be a benefit entertainment for the local Tennis club.

WANTED—Daily house work by white woman. Apply by letter to A. M. Post Office, Revelstoke, B. C.

CRICKET MATCH RESULTS

A return cricket match between the local team and the Forest Mills, was played last Saturday, resulting in a victory for the local team by 87 runs Following is the score:

LOCAL TEAM.

Batsman	Runs
C. North	26
W. Brier	17
J. Maley	5

E. Young	12
W. H. Wallace	8
H. Morgan	13
Page	0
J. Maley, Jr.	17
Byes	4
Leg-byes	2
Total	108

FOREST MILLS

Batsman	Runs
F. Foggo	0
W. Alexander	4
H. Monk	3
A. Boyle	6
J. Hyham	4
P. Wilson	0
J. Lee	0
J. Young	0
J. Little	2
J. Anderson	0
A. Tapping	0
Byes	2
Total	21

In this contest the Forest Mills fell somewhat behind, but it is felt locally that with more practice this team will be able to give a good account of themselves during the season now entered upon, cricket is like other sports in order to excell you must practice.

EXPLORERS' TELEPHONE

An interesting account of the telephone system used by the Scott Polar Expedition is given by an English newspaper. The service comprised five stations; that is, the living quarters with the four instrument and observing stations. To save weight the line wire employed was bare hard-drawn aluminum. An excellent insulator for the 75 miles of wire used was provided by the snow. the lines connecting the stations being metallic circuits of this wire laid six feet apart. Low temperasure allowed the use of but one 24-volt "common battery."

CONSTRUCTION LABORER DROWNED

Kamloops, April 28—A graphic story is told by three Finlanders Harmon Matson, Matt Johnson and K. Mackie, respecting the death by drowning of their companion William Ayho on Saturday last.

The four men had been engagedat Mile 94 upon C. P. R. construction work from November 8, 1912, until the 15th inst., when their labors being completed they reported at headquarters at Mile 86 and were paid off. They walked down the river as far as Mile 71, where they passed Friday night and on Saturday morning they constructed a raft on which to flaot down to Chu Chua or Kamloops.

At about 10 o'clock on Saturday morning they commenced to drift with the stream, and all proceeded well until they reached Mile 63, about a quartec of a mile from Mr. Fred Hayward's place. Here as the party turned around a bend in the river their raft struck against an overhanging tree, and all four men were swept into the icy torrent. One and all then clutched conclusively at the tree that had been the case of disaster, and Mackie succeeded in scrambling on it. Matson and Johnson struck out for the shore, and swept by the current and benumbed by tne cold swam the short distance and reached the bank stiff and exhausted. Ayho, however, overcome by the chilling waters, and swift rush of the river relaxed his hold on the tree and sank.

SOCIAL AND PERSONAL

Mrs. J.H. Lyons will not receive on Thursday, May 1st.

Mrs. G. S. McCarter will not receive on May 1st and 2nd.

Mrs. H.H. McVity will not receive on Friday the 2nd of May.

Mrs. W. J. Tomlinson will not receive on Thursday, May 1st.

Mrs. Howson returned from Halcyon on Monday, much benefitted in health

Mrs. Sibbald will not receive on Saturday, May 3rd, nor again till autumn.

Mr. R. Squarebriggs is appointed fire warden for the Albert Canyon district this summer.

Mrs. J. Hopgood returned Monday from the coast with her daughter Miss Maude Hopgood, who has been under an oculist's care for the last two weeks.

Fifty-one Oddfellows attended church service at St. John's on Sunday, and listened to a most eloquent address on "Friendship, Love and Truth" by the Rev. J.W. Stevenson.

Mr. E. D. Arrol, missionary in charge of camps from Rogers Pass to Three Valley for the summer, spent Monday and Tuesday in town the guest of Rev. J.W. Stevenson.

Engineer White and his bride are the guests this week of Mr. and Mrs. Southworth, on Second street, west, previous to taking up house at the Tunnel when the residences there are completed.

The Ladies' Bridge club met at the residence of Mrs. Robert Urquhart's on Saturday evening, and enjoyed a couple of hours play. Mrs. Smith Urquhart won the prize, a Wedgewood bon-bon dish.

Mr. and Mrs. McRury, and Mr and Mrs. Grey, have returned from their sad mission to Vancouver. Mr. Gardiner accompanied them also bringing his little year-old baby and will remain for the summer.

Miss Ratte who is one of the most brilliant woman speaker in Canada, will give an address in St. John's church this evening on Social Service. No one should miss the opportunity of hearing this talented lady who speaks from wide experience.

A large audience enjoyed the lantern show and lecture on India in St. John's church last night. Views of the Zaj Mahal which took 20,000 men seventeen years to build were some of the wonderful pictures. The natives were shown in all their occupations, reaping, sowing, plowing, dancing, cooking, trading, etc. Then the benefits of Christianity appeared in views of the hospital and rescue work carried on.

Mr. Albert Arman, for many years a well known and popular resident of this city, has been transferred to a better position in the C.P.R. shops at Coquitlam. He left this afternoon on No. 1. Only a few friends had been aware of his intended departure and these assembled at the station and gave him a hearty send-off. Mr. Arman will be greatly missed in the Y. M.C.A. and in all musical circles where his fine tenor voice has so frequently added much to the pleasure of an evening.

Now here is a fine chance for a holiday this summer, especially for those who had not planned to leave town at all. On the shore of Shuswap lake, in Tappen Grove near Tappen Siding, there is to be held a big camp meeting from July 22nd to Aug. 1st. The Methodist church is in charge of it, but any denomination is welcome. It is planned to divide each day into three entertaining periods; the morning, in Bible study lectures on social service and missionary topics; the afternoon, in boating swimming, fishing and berrypicking; the evening in social functions and public addresses. Shuswap Lake affords particular attractions to bathers as the beach is sandy and the water shallow and warm. The culinary department is expected to be under the charge of a Chinaman hired by the committee to supply meals at cost. There will be three big lectur tents, one for adults, and one each for boys and girls in their teens. The boy scouts from the Okanagan are expected to attend for a week. Such speakers will be heard as Rev. A. E. Hetherington, Principal of Columbia College, New Westminster; Rev. Robt. Milliken, Principal of Regina College, and Rev. J.P. Westman on missions. A completed program will be published later.
