Fierce Struggle at Sveaborg.—A Mutinous Army Shows Fight.—Scenes in the British Commons.—Dunsmuir Wins.

ST. PETERSBURG, August 1.—A war cloud broke over Northern Russia yesterday when the Loyalists met the mutinous armies in a terrific struggle at Sveaborg, the Gibralter of the north. Although the rebels had not sufficiently completed their plans, this encounter is without doubt the premature signal for the attenpt to seize the strongholds of Cronstradt and Sevastopol. The mutinous artillerymen and sappers, who are strongly entrenched, were still holding their position this morning. The death roll among the loyal troops was heavy, amounting to over 500, while the mutineers lost over 100.

LONDON,, August 1.—The proposals of the Government in regard to the constitution which is to be granted to the Transvaal as outlined by Under Colonial Secretary Churchill yesterday, in the House of Commons, were not received with satisfaction by the opposition, and Mr. Balfour described it as a reckless and audacious experiment. Under it the Britons and Boers are to have the fullest privileges of British citizenship, and Mr. Balfour argued that it was too near war to expect the Dutch to be loyal to Great Britain. Premier Campbell-Bannerman described Mr. Balfour's speech as most unworthy, mischievous and unpatriotic. Cries of "Shame, Gag, Apologize," greeted the Premier. Lord Milner and others in the House of Lords denounced the constitution, and should the government act too hastily, Lord Milner forsees a tragedy.

VICTORIA, August 1.—In the recent trials of the famous Settlers' Rights case, involving E. & N. Lands, the Full Court has upset Justice Martin's decision. This means that Lieut.-Governor Dunsmuir wins the round. The settlers' case will be taken to the Privy Council by the Provincial Government, as the act in force provides for this.

FALL OF ZION CITY.

CHICAGO, July 31.—The fall of Zion City is imminent, according to residents there. Dissatisfaction over the court't decision, rendered resterday in the Dowie-Voliva controversy, when the financial management was given to J. C. Hately, of Chicago, prevails today. The ruling of the court is disappointing to both factions. Dowie, who is said today to be seriously ill, spurns the idea of going before the people on a re-election scheme, and his friends are considering the advisability of asking the court of appeals for relief.

John Alexander Dowie called his friends about him in Shiloh House at Zion City today and predicted that the decision of Judge Landis, which has lost to the "First Apostle" control of the Zion estate, would be reversed by a higher court.

"Will you appeal to the United States supreme court?" he was asked.

"That may come," he replied, "but the court to which I refer is a court that will not forsake its apostle. I may die, but the theocracy of Zion will be restored."

The Dowieites are stunned by their further reading of Judge Landis decision. They find that the court has declared even the one-fifth portion of the tithes and offerings, which were conceded by the Voliva faction as rightfully Dowie's to be a part of the trust estate.

This statement from Dowie is his last source of revenue unless he is awarded compensation for his former services by Judge Landis. At present he will depend for his support entirely upon the charity of his friends.

Voliva is said to object to the nominal position of overseer of the church if elected without the privilege of running and with the aid of his own lieutenants.

Mr. Hately, who arrived at Zion City early, admitted the task before him was a prodigious one. He did not know the first thing about Zion City affairs and the officials, he thought, were not over anxious to assist him.

Judge Barns today dictated the terms on which the community would accept the new trustees. He will have to follow the old rules as far as possible, he said, otherwise the people will break away and leave the city. Mr. Hately will stand unsupported unless he confirms to Zion the idea of financing and running its business institutions. In the meantime hundreds of residents are making ready to leave the city and church.

The Labor Problem

TORONTO, July 31—Premier Walter Scott, of Saskatchewan, who is in the city, thinks that the admission of all-comers into Canada is the only solution of the scarcity of labor problem. Whilst admitting that the Asiatic invasion has its bad side, he points out that certain lines of labor are readily given over by Canadians to the foreign element, and work is being done with good results without injury to anyone. "We are going to have a lot of work between the Lakes and the Mountains in the next ten years," he said, "and unless we get foreign labor there will be great difficulty in the way."

Germans Refuse To Pay Losses

SAN FRANCISCO, July 31.—The Transatlantic Fire Insurance Company of Hamburg, Germany, has refused to pay San Francisco insurance claims approximating $4 000,000. The following statement was given out last night by the local officials of the company: "The Transatlantic Fire Insurance Company denies liability upon the ground that the losses were from an overwhelming catastrophe due to a visitation of Providence, for indemnity against the consequences of which the policy never was intended to provide and does not provide."

EXPRESS WRECKED

Plunges Into a Rock Slide.—Engineer, Fireman and One Baggageman Trown in River.

The Pacific express, No. 37, of the N. Y. Central and Hudson River railroad, was wrecked last Monday near New Hanbury, N.Y. by dashing into a landslide which had been washed down upon the tracks by the heavy rains. The engine and baggage car were thrown from the rails, and tearing across the southbound tracks, plunged into the Hudson river. The engineer, fireman and one baggageman are reported drowned. The cars, which did not go into the river, were thrown from the tracks and piled up. A score or more passengers were more or less injured and the Highland hospital has been made ready to receive them. All the physicians in the vicinity and the doctors of Poughkeepsie were sent for to the scene of the wreck. The storm which swept down the Hudson prior to the disaster was the severest of the season.

FOREST ABLAZE

Fire Fighters at Work

A large conflagration caused by sparks from the logging engine at the lumber camp at Three Valley, started in the forest on Monday afternoon. The flames, fanned by a strong breeze, soon gained headway, and the whole camp force were called into requisition to check the progress of the fire, which was got under control at a late hour yesterday.

BEWARE OF FALSE GODS.

Hatfield, the rainmaker, has failed to get rain and he will be returned to the land from whence he came, with expenses paid. This is the first time, he says, that he has failed and cannot understand why the clouds should go back on him, more especially as there was $10,000 in sight. Nevertheless he did, in some measure, what he professed to do. No doubt our city council would welcome some one who could effectively lay the dust of our city streets.

BURNED TO DEATH.

HAMILTON, Ont., July 31.—As the result of a fire which occurred in a small room in the rear of 70 South Walnut street, James Coll, a wire puller at the Ontario Tack company, was suffocated, and Mrs. Annie Beach died at the city hospital from the effects of burns and suffocation. How the fire started is not known; but it is supposed that the dead man, who was smoking a clay pipe when he retired, set fire to either the carpet or the cloth on a small table which stood near the bed. In any event, when Chief TenEyck, who was the first one to enter the room, reached the scene, Coll was dead and Mrs. Beach was terribly burned and was gasping for breath. The firemen say it was one of the most ghastly sights they have ever witnessed.

It is thought that the man and woman were under the influence of liquor, as three bottles were found in the room, and they were probably in a stupor and not in condition to escape from the flames, both being in bed.

AWFUL EXPERIENCE

J. McGillvray, who owns a shingle bolt camp on the Capilano, Vancouver, had an awful experience a few days ago. He was moving from one camp to another with a load of goods, when the horses took fright and he fell from the rear end of a waggon. His foot caught in a rope and he was dragged at full speed for nearly a quarter of a mile over fearfully rough ground. For some time he had to shield himself with his hand from the peevies, axes and other things that showered down upon him, but as soon as he could do so he drew his knife and cut the rope and then fainted away. He was found and brought to his home where he is now recovering from the effects of the frightful drag. His flesh was torn and he was fearfully bruised and lacerated and only his presence of mind saved him.

For that tired feeling get a bottle of fruit salts at Bews.

PENNSYLVANIA PRESSMEN

Special Train of Six Pullman Cars.—Canada is Highly Praised.

The big party of Pennsylvania editors and newspaper men, under the auspices of the Pennsylvania State Editorial Association, arrived here yesterday at 4:30 p.m. by special train of six Pullman cars. The present visiting company represents one of the very great and populace states of the union and one which may yet send thousands of splendid settlers to Western Canada. It is believed as a result of this trip made through Canada by the present party, a portion of the surplus population of Pennsylvania may be deflected from the western states of America to Western Canada The party consists of 175 newspaper men, and their families and they are being taken across the continent in the best style. They left Niagara on July 22nd and have visited all the leading cities on the route where they had the most cordial reception. Mr. R.P. Habgood, Secretary-Treasurer of the Association states that the present trip is the thirty-sixth they have made, and has been the most successful and enjoyable of any. The whole party were much impressed with what they saw and consider that Canada is a magnificent country. Much praise is given to the railroad facilities and Mr. Habgood expressed entire satisfaction with the transportation arrangements. After a stay of half an hour in Revelstoke they left for Vancouver. The party will pass through again on Friday, 3rd instant, en route for New York. Mr. Thomas A. Harter, of the Keystone Gazette, Bellefont, Penn., is President of the Association.

SPORTS

The British Columbia Gazette states that a close season for mountain sheep has been proclaimed, in that part of the Province situated to the south of the Canadian Pacific Railway between the coast and the Columbia river on the east, and the International boundary on the south for a period of three years from July 10th, 1906.

The prospects for the grouse shooting season this year are very promising and the sport should be general in most districts.

TENNIS

The final game in the Ladies' Singles between Miss Spurling and Mrs. Elson was played Saturday in a boiling sun. Notwithstanding the heat the game did not drag and the winner, Miss Spurling had to play hard for victory.

This finishes the tournament the winners being:

Ladies' Singles—Miss Spurling.
Men's Singles—D. Nairn.
Mixed Doubles—Mr. Sissons and Miss Calder.

We have heard nothing of the invitation from Golden. Is this matter to be dropped for lack of interest? We hope not.

BOWLING

Friday last the return match was bowled between the C. P. R. and Dent house teams, resulting in another win for the latter team:

THE TURF,

We expected to be in a position to make some definite announcement regarding a meet this fall. The time is getting limited, and we trust this matter will not be allowed to drop.

A BRUTAL OUTRAGE.

VERNON, July 31.—A story has reached here of a brutal outrage on an Indian girl at Kelowna. Seven or eight well-known citizens, under the influence of drink, found an Indian camp near the lake at which were father, mother and daughter. After filling the parents with whiskey, it is alleged that the men grossly assaulted the girl. It is said that the matter was reported to the Kelowna police, but practically nothing was done to apprehend the men, one of whom has since disappeared from the Okanagan.

BRAKEMAN KILLED

ROSSLAND, B. C., July 31.—P. E. Heckman, a brakeman on the Red Mountain railway, was instantly killed Monday morning. He was switching in the yard and had thrown a switch and tried to jump on the pilot of the engine as it came up to him. One foot, however, was caught in the frog of the switch, and he was thrown down and the locomotive ground him to death.

WEDNESDAY, AUGUST 1, 1906

BRITISH CAPITAL COMING.

Canadian investments are coming to the front. Mr. D. M. Stuart, general manager of Sovereign Bank of Canada, who left Europe on Thursday, places at $10,000,000, the amount of money which British capitalists have decided to invest in Canada. He says, these men after experimenting in the United States, South Africa and Australia and other countries, have reached the conclusion that Canada from the Atlantic to the Pacific embraces the most valued and safe field for investment.

INSURANCE IS SAFE.

A number of newspapers are discussing the insurance revelations with a view to inspiring the public with confidence in insurance companies generally. The results of the recent exposures in the United States have caused thousands of people to drop their insurance policies, imagining that all the insurance companies were insolvent and that their policies not worth the paper they were printed on. The "Yellow Journals" of the United States, which, beyond publishing facts, do their best to exaggerate every feature of the case, are in a great measure responsible for all this; consequently, holders of policies became much alarmed, and even those who had been insured for years, refused to continue their policies. The panic extended to Canada as well. Then followed the commission of investigation which is now sitting. Nothing however came to light which would in any way seriously impair the confidence in Canadian companies for insurance as an investment. Although there were gross irregularties and illegal expenditures in the United States, their financial condition was never threatened. The Canadian companies' policy holders were never in danger because the amount of deposit with the government necessary to do business in Canada was sufficient to cover all claims, and these companies have come through the investigation ordeal untarnished. Insurance is the best investment a man could handle and it would be the extreme of folly for the public to lose confidence in Canadian companies and refuse to continue to insure. As a result of the agitation, the government will exercise more strict inspection to prevent any of the irregularities, no matter how small, of the past.

THE CATTLE NUISANCE.

Complaints are continually coming in from all quarters, against the promiscuous wandering of cattle all over the city, especially on the boulevardes. Those who have made complaint have every just cause for doing so, as in most cases, has the plaintiff had considerable damage done to his property. The cattle nuisance has been especially bad in Sixth street where much annoyance has been caused, and it seems that the herder in charge of the cattle is unable to keep control over them. It is passing strange why this has been allowed to continue so long without some steps being taken to prevent it, and to have cattle in the city precincts at all should not be permitted. A city by-law, certainly, allows cattle in special portions of the citw, but there is nothing to prevent them seeking pastures new, and the herder, often a small boy, is invariably inadequate to stop them. The pound are only a nuisance. The City Council have placed the pound keeper on night duty for a time to try and prevent the nuisance, and the Council will adopt strong measures in regard to this, and any damage done in future will have to be made good by the owner of the cattle in question.

ABSOLUTELY CLEAN.

In connection with announcement of Chicago canned meat revelations and their possible effect upon markets for canned goods, the minister of marine and fisheries ordered a committee of the British Columbia fisheries commission, now sitting, to investigate and inspect salmon canning operations and the salmon canneries from hygienic and sanitary standpoints. Hon. Mr. Brodeur has received the report. It says the commission has made a thorough inspection of the canneries operating in the Fraser river district.

"We were accompanied by Dr. Fagan, of the provincial board of health. Without exception we found conditions satisfactory. The salmon being packed were fresh from the cold waters of the Pacific and were placed in the cans in absolutely a fresh condition and in the most cleanly manner. We found no cause for complaints. The provincial government board of health maintained a continuous and systematic inspection of all the canneries last year. From our inspection we have to assure you that the salmon canned in this province is fresh and wholesome." The report is signed by Commissioners Sweeny, Babcock and Brown.

WELCOME THE ENGLISHMAN.

Although they may not realize it, Canadians make a grave mistake in being prejudiced against the Englishman. John Bull may have his faults and weaknesses, but nevertheless he has done much for Canada and for the world in general in years gone by, and the Canadian people seem to have forgotten this fact. On the other hand they might do well to remember that Canada does not contribute one cent towards the up-keep of the British navy which allows us to sleep in safety and peace while we wax fat in prosperity. Because a few Englishmen have not justified themselves in bearing that name and have not treated their Canadian brothers in a manly way, there is no reason why a prejudice should be entertained for Englishmen in general.

MILES OF RED WATER.

Just at the present time a peculiar phenomenon has been noticed by several marines at the north end of Vancouver Island, and also about thirty miles north of the island. The water in several places is as red as blood, but from what cause no one seems to know, says the Vancouver World. The sailors and fishermen on the New England Fish Co's steamer Celestial Empire stated today that they had seen the red water and had passed through about twenty miles of it. The red blotches were scattered for at least twenty miles, but they paid no attention to it. Some fishermen are superstitious and would refuse to sail through the red water, claiming that it would give them bad luck, but the Celestial Empire went through several blotches of the water and had good luck all the time. In fact they caught few halibut until they struck red water.

Halibut steamers at Seattle have also reported the red water and all steered clear of it on the way down from the halibut banks.

The reason for the refusal to sail through the red water is merely a case of superstition, similar to the refusal of some sailors to leave port on a Friday.

This is not the first time that the water in the Pacific has turned red in spots and various theories as to the cause have been advanced from time to time. The most probable theory is that there are minute species of animal or plant life from which the fluid emanates and thus causes the top of the water to turn red. It is well known that salt water abounds with plant and animal life and that there is constant war waged among the animals, who feed on each other. Some of the sailors were of the opinion that a whale had been injured and had been bleeding profusely, but no whale has enough blood in its veins to color the water for a distance of twenty miles.

Capt. Saunders, of the steamer Camosun, stated that he had often noticed the red water, but paid no attention to it. He was of the opinion that whales caused the water to turn red.

THE MINES.

W. R. Ingalls and Philip Argall have completed their investigation of the zinc resources of British Columbia for the Canadian Government, and their report will shortly be published by the Mines Branch of the Department of the Interior.

J. D. Sibbald, manager of the Revelstoke & McCullough Creek Hydraulic company, brought in a magnificent lot of gold from the mine on Friday. One nugget weighed over two ounces and was valued at $13. The mine is looking well and has never shown more promising results than now. Mr. Sibbald expects a big clean up.

Radium has been discovered in the province of Quebec near Murray Bay. Tests by an expert from Paris prove that the find is a valuable one.

An exceedingly rich find of native silver ore has been located near the west fork of Kettle river, Grand Forks. This high grade silver ore runs in seams about 12 inches wide and has been traced for over 1,300 feet by various open cuts.

Pleases every smoker the "Marca Vuelta."

Theodore Ludgate Will Build Big Saw Mill There.

The Judicial Committee of the Privy Council dismissed the appeal of the Attorney General of British Columbia against the Attorney-General of Canada, thus confirming the Dominion Government in the ownership of Deadman's Island, and the lease of it to Theodore Ludgate for saw mill purposes. The case over Deadman's Island originated nearly seven years ago.

The Province says: "Not only will Mr. Theodore Ludgate start within a few weeks to erect a saw mill on Deadman's Island, but his original scheme will be extended to include other manufacturing plants, possibly a dry-dock and furniture factory.

"His friends declare that Ludgate has no intention other than to fulfil his end of the lease made seven years ago; and on the other hand they say that the Government has no intention but to carry out absolutely its part of the agreement in giving possession of the island to Ludgate for 'saw mill, manufacturing and industrial purposes,' according to the terms of the instrument made and executed seven years ago.

"You may take it for a certain fact that the mill proposition will go ahead, said a Vancouver friend of Mr. Ludgate to The Province this morning.

"There is one good result of this delay of seven years. The plans which will now be carried out will be far larger than those at first decided on. I understand that the Chicago people who were behind Ludgate in the original deal have long since withdrawn, but he has plenty of capital promised for the scheme. For the matter of that I think it would be an easy matter to get plenty of money right here in Vancouver. The rental of $500 a year, practically for fifty years, naturally simplifies the scheme, when you take into consideration the shipping facilities and the closeness to local market that Deadman's Island affords.

"Ludgate naturally expects that before he is given possession of the island the seven years which has been used up in litigation will be added to the life of the lease."

C.P.R. IN A NEW ENTERPRISE

Thorough Tests of Western Canadian Oil Fields.

The C. P. R. is starting one of the greatest undertakings in Western Canada, namely, an extensive test to ascertain whether or not there is oil underlying the natural gas fields of Western Canada, commencing at Medicine Hat. Nine car loads of machinery have arrived at that town and the test is to be very thorough. The drills are modern and up to date in every respect. A discovery of a large flow of natural gas was made at a depth of 1010 feet and the company will go, if necessary, to a depth of over 3,500 feet. These tests should certainly ascertain what is down below and if oil is found it will mean a great deal to Medicine Hat, which is much pleased to have the C. P. R. interested in the work, which will be in charge of Eugene Coste, an engineer of repute.

STAMPEDE TO THE YUKON.

Vein of Gold Bearing Quartz Goes $5,000 to the Ton.

One of the biggest stampedes ever witnessed in the Yukon territory has taken place to the Gold Hill mountains, near the head waters of the Watson river, forty miles from Whitehorse and twenty miles from Robinson the nearest point reached by railroad. Jack Stayer and another prospector the lucky discoverers arrived at Carcross with phenomenally rich ore, taken, so they affirm, from a vein five feet wide. The ore shows values amounting to $5,000 in gold per ton. This is, by long odds the greatest and richest strike yet made in the north.

HEROIC ENGINEER.

GREENSBURG, Pa., July 30.—Running sixty miles an hour the Pennsylvania railroad eighteen hour New York-Chicago flyer, westbound, dashed into a freight wreck that blocked all four tracks of the system a mile west of Blairsville at 11.30 o'clock Monday night. Miraculously no one on the flyer was injured. The stop made by Engineer Corson is pronounced by railroad men as the most remarkable ever made. The pilot on the passenger train plunged into the wreckage, scattering it far and wide. The engine alone left the rails. The sides of the cars were scratched from contact with the wreckage when the train ploughed through the debris.

TWELVE HURT IN COLLISION

Toronto, July 30.—At 6:30 Monday morning two electric cars on the Toronto-to-Mimico line met in a head-on-collision, and twelve persons, including the motormen, were injured, but not seriously. The ten men were coming to the city to their work. The collision happened on a dangerous curve, one of the conductors apparently having disobeyed the passing orders.

has been brought to a close and from exhaustive enquiries into the prevailing opinions concerning it, the promoters have achieved another success, and, as the products shown reflect, in some measure the unrivalled grain properties of western soil the growing confidence in the future of Western Canada has been further advanced. B. C. comes in for a large share of praise both for the excellence of her cereal products as well as her fruit. The Winnipeg Free Press states: "The British Columbia fruit exhibit continues to draw large crowds to view the tempting display of fine, rich, ripe fruit, and many were the visitors who had the pleasure of sampling it. Yesterday a fresh consignment arrived consisting of apples, cherries and peaches and these are certainly second to none in the Dominion. They excel in their juiciness and exceedingly fine flavor." This, coupled with the large yield, makes dear old Ontario feel a touch of envy. The tomatoes too, were extra fine, being firm, smooth, and a good size. But not only was British Columbia represented in fruit and cereals, but also in other industries. The progress of the mining industry of B. C. during fifteen years is noticeable the total being in mineral productions $173,072,739. Another fact of much significance is the very great desire, on the part of most visitors to the exhibition to learn more of the climate in B. C. and also the opportunities offered to new settlers. Taking all things into consideration British Columbia gained for herself much credit, and took the most prominent place in the exhibition beside her other fair sister provinces.

CANADA'S CHANCE.

France's New Tariff will Likely Benefit this Country.

A report from the Canadian commercial agent for France which has been received at the department of trade and commerce notes a very possible advantage to Canada in the heavy duties about to be imposed by France against Spain as a measure of retaliation. The higher duties will, it is thought create a market in France for Canadian fish and apples, which will be admitted at half the rates charged upon similar products from Spain. The report also alludes to the good work being done by the British Chamber of Commerce in Paris in endeavoring to obtain for British Colonies, most favored nation treatment by European countries.

WESTERN CROPS.

Very favorable are the reports of the conditions of the northwestern crops this year. Prospects are for a yield of 5,000,000 to 10,000,000 bushels more than in 1905. The average quality of wheat and oats is good and barley very good, harvest will be general by August 15th. It is estimated that over 30,000 men and women will be wanted for the harvesting. Over 1,000,000 acres of breaking has been done this summer already, so that the average crop next year will be double that of 1905, an approximate estimate of the yield is over 150,000,000 bushels, which means on an average 34 bushels to the acre. The production of wheat in the Canadian Northwest is becoming a factor of great importance to the markets of the world and the late weakness in prices at Chicago is attributed in a measure to the outlook for such an abundant yield on the Canadian side.

B. C. LUMBERMEN.

The Calgary Herald is either being imposed on or is malicious in its statements made regarding the cost of manufacturing lumber. Instead of printing the facts it has given the public a mass of figures that are unreliable in the extreme. The readers of that paper are entitled to the truth, and the lumber manufacturers are entitled to fair treatment. This thing of alleging that the lumber manufacturers are not at more expense this year than one or two years ago, is the rankest kind of rot, and one of the heavy increases comes right from the prairie, and that is in the price of horses. There is nothing that enters into the cost of operating a lumber mill that has not greatly increased in price in the past twelve months. And what is more the price that lumber was sold at a year ago was simply ruinous to the lumber manufacturers, as none of them made money and many of them were pressed close to the wall. The lumber manufacturers of British Columbia are perfectly willing that all the facts should be known. They are playing the game on the square and have nothing to conceal, but they have a right to object to mis statements being made and the people of the prairie being led astray as to the truth.—Cranbrook Herald.

NOTCH HILL NOTES.

Fire fighters will soon be called into requisition owing to the number of outbreaks of fire in the forest.

W. R. Peacock has returned from Kualt for a few days holiday.

Several brief yet severe storms have been experienced during the last week which have seriously interfered with the amusements at the Tappen Camp.

Mrs. F. Reedman is spending a few weeks with Mrs. P acock.

Several ladies of the district are making arrangements for a summer camp at the "Landing" on W. Henstridge's ranch.

For Sale or Rent

A FARM ON EASY TERMS

Containing 140 acres, about three-quarters seeded with Timothy. Suitable for fruit growing. House and outbuildings in good condition. Situate at Craigellachie, a few miles west of Revelstoke. Apply to H. TAPPING, Revelstoke.

The following are the High School results of the teacher's examinations just held:

Number of candidates 10, passed 6.

Hilda Hobbs obtained the 11th highest number of marks in the whole province.

THE DALTON MURDER.

Coroner's Jury's Verdict.

The following verdict was rendered by the coroner's jury at South Wellington, in the Dalton murder case: "We, the jury empanelled to inquire into the death of Mary Jane Dalton, agree that she came to her death on July 21, by a bullet from a 38-calibre revolver, and from the evidence we agree that the shots were fired by Robert Stiles Featherstone."

RAIL AND STEAMER.

Some changes, dating from today, will take place this month in the C.P.R. at Nelson. P. Y. Gallagher, road master, Nelson, has resigned and will go into the lumber business in the Slocan. He will be succeeded by Phillip White, now at Eholt, and Mr White's place will be taken by James Yeo of North Bend.

ARROWHEAD

From our own Correspondent.

Subscriptions are being raised for the purpose of providing All Saints Mission Church with a bell so much required. The Lord Bishop of the Diocese has appointed the Missionery of Malakawa (Mr. Baynes, sr.,) to take charge of this mission, including Nakusp, during the Vicar's leave of absence. Mr. Baynes preached last Sunday, both morning and evening to appreciative congregations, and promises to become very popular in this settlement, being an earnest and courageous speaker.

Local and General.

H. Siegfried has been awarded the contract for the painting of Knox Church.

Thirty-eight leaders of the Doukhobors crusade have been arrested and confined in Regina goal.

The building figures for the City of Winnipeg for this season have already passed the $8,000,000 mark.

The Independent Band will give one of their open air concerts in the lower town on Friday night.

The Revelstoke Land Co. have sold some of the old Smelter Co's. land at $160 an acre.

Baron Komura, the famous Japanese statesman, arrived in Vancouver yesterday en route for England.

The Mundy Lumber Co. have sent for more men to assist in putting out the bush fire which has broken out afresh.

Typhoid fever is beginning its annual ravages in Winnipeg. A number of cases have been reported to the Winnipeg health department.

Ald. Tapping, who returned last week from a tour through the Kootenays, declares that no city in that district appears to have such a brilliant future, or is on such a sound financial basis as Revelstoke.

Despatches from the east state that the largest iceberg ever seen has been sighted in the Straits of Belle Isle. It measured over 300 feet high and is right in the track of shipping.

Miss Olivia Dahl, a Norwegian singer, who is touring British Columbia and the prairie provinces, will make her first appearance before a Revelstoke audience the last week in August.

Several members of the Pennsylvania State Editorial Assoociation who are acquainted with Revelstoke expressed much disappointment at not being able to make the scheduled stop over in the city.

Sir Charles Rivers Wilson, president of the Grand Trunk system, who has just arrived from England states that the Canadian railway enterprises in England took precedence even over the Egyptian question.

The Provincial Exhibition at Westminster will be held October 2, 3, 4, 5, and six, and $50,000 will be spent in prizes and attractions. The usual cheap transportation rates for exhibits and fares have been secured from the C. P. R.

An item appeared in our last issue stating that at the recent County Court sittings, G. S. McCarter defended a man named J. Wilson, charged with indecent assault at Comaplix. We find, on enquiry, that the man was not represented by counsel at all, but conducted his own defence.

After living for two weeks with one of his two hearts dead, George Lippert, 62 years old, whose two hearts, three perfectly formed legs and sixteen toes, made him one of the wonders of P. T. Barnum's show, is dead from tuberculosis.

The number of travelling public registering at the hotels during the last week has been considerably above the average. This speaks well for the city's popularity and also as a favorite headquarters from which to make numerous excursions.

Golden will hold its annual race meeting on Aug. 20-21 and big preparations are being made to insure a success. The fleetest horses from near and far will be present. The C. P. R. will give reduced rates from Kamloops to Calgary.

Dr. Tolmie, vetenary surgeon for the Dominion Government, paid a visit to P. Burns & Co's. dairy and slaughter house this week. The visit was strictly unofficial, but nevertheless the doctor made a minute inspection of everything and expressed much satisfaction at the general cleanliness of both establishments. Dr. Tolmie has left for Arrowhead but will return to Revelstoke early next week

The last English mail brings a report that close upon one hundred members of parliament will visit Canada this autumn. Many of them will come out with doctors who propose to attend the British Medical Association meeting in Toronto. Others will reach Canada later. Among them are members of the late government including Rt. Hon. Walter Long, Hon Alfred Lyttleton, and Rt. Hon. Austin Chamberlain.

A circumstance which calls for immediate attention at the hands of the civic authorities, says the Vancouver Province, was presented to the Health Department this morning which revealed the fact that one of the little children of a well known resident was last week at death's door as the result of picking up and eating from a package of sample pills which had been left at the door of the residence by an advertising agent.

There is considerable unfair rivalry among the Chinese gardeners who peddle vegetables about the city. Some of them reported that one of their number had leprosy, and as a result of this the unfortunate Mongol lost nearly every one of his customers. The report reached Chief of Police Long, and he at once hunted up the Chinese who was alleged to be afflicted with leprosy and took him to Dr. R.P. McKenzie, the medical health officer of the city. The doctor made a careful examination of the man's physical condition and found that he was in perfect health and that he was cleanly in every way. The Chinese went on his way rejoicing. It was a scurvy trick on the part of his rivals to accuse him of being a leper.—Rossland Miner.

Dr. Morrison and Mr. Cook of the Y. M. C. A. have just returned from a visit to the Deutschman Caves at Ross Peak, when a most enjoyable time was spent.

F. H. Guffy, of Pittsburg, came down from an inspection of Smith Creek by the s.s. Revelstoke last night. Mr. Guffy is proceeding west to Seattle and will likely visit Nome before his return.

Mrs. D. T. Fulger and children are visiting friends in Nelson.

Our congratulations are extended to Mr. C. A. Drake, who was quietly married in Nelson last week

Mr. A. E. Anthony and Mr. Walter Wright took in the Regatta at Nelson last week.

Mr. T. N. Okerstrom, of Port Wing, Wis., is spending a few days in town.

Mr. Julius Dougal who has been doing some development work on his mining claims down near Fire Valley, arrived in town and reports that the property is showing up well.

SHOCKING ACCIDENT

Killed by Explosion of Nitro-Glycerine.

TACOMA, July 30.—While engaged in tearing down an old shed in the rear of South St., Dan McLaughlin was so frightfully mangled by an explosion of nitro-glycerine that he died at Fannie Paddock hospital three hours later. McLaughlin was removing boards from the floor when his axe struck an old can supposed by the police to have been cached there years ago by safe blowers, or else to have been the relic of an old chemical shop which was once in the locality. The explosion was heard for blocks and shook neighboring buildings not unlike a small earthquake. McLaughlin was hurled fifteen feet into the air and terribly mangled. One leg was torn completely off and the other leg crushed. The unfortunate man's features were beyond recognition and when carried to the doctor's office, it was first thought that he was a negro laborer. Both his eyes were blown out and his hands and arms frightfully lacerated. The explosion completely wrecked the building. McLaughlin dragged himself over a pile of boards, leaving a red trail behind him, to an adjoining shed where he was found later.

THE HINDOO INVASION.

British Columbia Imports Orientals En Masse.

The Hindoos, who have been working in Vancouver for the past year, have taken advantage of the call for manual laborers for sawmill, railway and other work, to send home the joyful tidings to India, with the result that 2,000 will be here shortly. Dr. D. R. Davichand has a contract with a number of sawmills adjacent to Vancouver to furnish that number of Sikh and Hindoo laborers. The Hindoos are found to be better for work in mills than Chinese and Japanese. It is probable that the white workers will protest against this importation of men from India. They want to make this a "White British Columbia." However the mills say it is impossible to get enough white men. Since the abolition of Kanakas from Australia, which was the outcome of the "White Australia Policy," the sugar growing industry, which was the main stay of the north, has considerably deteriorated, and many growers have been ruined on that account, white labor in those districts being unreliable and expensive.

GRIP AND PASSWORD.

K OF P.

Quite a number of members of Gold Range Lodge, K of P., went to Arrowhead on Saturday to assist Arrowhead Lodge, No. 38, in putting through a class, who were ready for initiation. Although the weather was exceptionally hot, we managed to confer the first two ranks in record time, after which we hied ourselve to the bowling alley, not to bowl but to partake of a very pleasant repast, which was prepared by Mr. and Mrs. Lightburne, and which reflects much credit on them considering the disadvantage under which they were placed. The assembly then returned to the hall where the remaining work was finished, when all retired in various directions to partake of much needed rest.

Brothers Scott and Leslie, pulled a velosipede all the way from Revelstoke to Arrowhead in the evening to help with the good work.

Our members also wish to thank the officers of the s.s. Rossland for the many courtesies extended and also to brother Stevens, who did everything possible to make our trip enjoyable.

LIBERAL ORGANIZER.

NELSON, B. C., Aug. 1.—F. E. Simpson, popularly known as "Dad Simpson," editor and proprietor of the Cranbrook Herald, is registered at the Hume. He has come up to take up temporary headquarters here as organizer for the Liberal party in the interior of the province. He will not talk but it is understood he begins work as organizer at once. He is provincial grand master of the Oddfellows. The probable candidate in the Liberal interest in Nelson is Dr. G. A. B. Hall. It is understood he is anxious for the nomination. It is reported that George Fleming of this city will run as Socialist candidate.

Social and Personal

Mrs. McCarter left on Saturday last on a visit to Banff.

Rev. C. A. Procunier left yesterday morning on a visit to Nelson.

F. B. Lewis has left for a short visit to the coast.

Governor MacKintosh went south this morning to Rossland.

Mrs. A. McRae and family are spending a holiday at St. Leon Hot Springs.

Mrs. McColl is on a visit to her parents, Mr. and Mrs. C. Glover, Vancouver.

Miss Carnahan, of Meaford, Ont., is in the city on a visit to her brother, K. E. Carnahan of the Molsons' Bank.

Mr. and Mrs. Pratt and Mrs. Elson left this morning for St. Leon Hot Springs on a two weeks holiday.

Mrs. W. J. Lightburne, of Arrowhead, is spending a couple of weeks with Mrs. Kennedy at Comaplix.

Miss Alice Wise has arrived from New Westminster on a visit here to her sister Mrs. A. Mackenro', who has been seriously ill.

Miss Corley returned home on Thursday last from a two months' visit to friends in Eastern Canada and the States.

Miss Kinch and Miss Clark of Vancouver, who have been visiting Banff, Glacier and Revelstoke, left here on Tuesday morning's train for the coast

W. A. Sturdy, of the Lawrence Hardware Co's store has left for Winnipeg to worship at the throne of the Goddess of Hymen. The bride is Miss Hislop, a late teacher in this city. Mr. and Mrs. Sturdy will spend their honeymoon at Winnipeg.

Business Locals.

A new line of children's shoes and bare foot sandals at McLennan & Co's

Curtain sale this week, choice colors and designs. C. B. Hume & Co.

Bews gives every attention to prescriptions.

Carpets, Linoleums and Carpet Squares at C. B. Hume & Co's.

Dag-Dag Rugs, Wilton Rugs, Wool Carpets, Tapestries, Brussells and Velvet Squares at Howson's Furniture Store.

RECENT DISCOVERIES.

The recent discoveries of gold in the Temiscaming district and the finding of what is believed to be a large diamond in the Nipissing district, to say nothing of the radium earths near Murray Bay, Quebec, have resulted in numerous inquiries being made of the railways as to fares, actual location, and where the finds were made, etc. There seems to be little doubt that there will be a race to the New Ontario lands, should the announcement be true, that the stone discovered and entrusted to Mr. A. O. Aubin, M. L. A., be a real diamond Mr. Aubin has arrived in New York with the stone that is either a vast fortune or comparatively worthless. Should the radium deposit be as large as is reported, another valuable resource will be added to Canada's already wealthy coffers.

AMERICAN MINING CO.

Mr. Burr, manager of the American Mining Co, of French Creek, came down last night from the property. Mr. Burr reports the property in good condition, having just completed the preliminary work in getting the mine in condition for a steady run this fall. From now until it freezes the company will continue washing and will make a clean up this fall.

OUR MIDSUMMER SALE

To-morrow we begin our First Clearance Sale of Summer Goods. We want all the room in our Store for our large stock of Fall and Winter Goods, which will begin to arrive next month, and from now until Saturday, August 11th, we will give you some genuine bargains on all lines of Summer Goods. We can only quote a few prices here, but you will find all Bargain Goods MARKED in plain figures.

LOT 7, GROUP 1, REVELSTOKE

You have often looked across the Columbia River and wished you could have a piece of that fine flat lying south of the C. P. R Bridge.

YOU CAN GET IT NOW!

I have instructions from the owners to offer that land for sale at a price per acre that beats anything else you can get so near the City.

Let me know how much of it you want and I shall endeavor to accommodate you.

FIRST COME, FIRST SERVED.

E. A. HAGGEN, Real Estate and Insurance Agent
REVELSTOKE, B. C.

E. A. HAGGEN

STOCK, SHARE AND FINANCIAL BROKER.

SAVE MONEY IN YOUR INSURANCE

Why pay exorbitant rates when your property can be insured against loss by fire at reasonable cost in the following NON-TARIFF companies for which I am Agent?

LONDON MUTUAL FIRE INSURANCE CO., OF CANADA.
OTTAWA FIRE INSURANCE COMPANY.
MONTREAL-CANADA FIRE INSURANCE CO.
ANGLO-AMERICAN FIRE INSURANCE CO.
EQUITY FIRE INSURANCE COMPANY.
COLONIAL FIRE INSURANCE COMPANY.
DOMINION FIRE INSURANCE COMPANY.

In Life Insurance

I represent the NORTH AMERICAM LIFE INSURANCE COMPANY, which offers the MOST LIBERAL POLICY on the market. Get particulars before closing elsewhere.

In Guarantee and Accident Insurance I am Agent for the LONDON GUARANTEE AND ACCIDENT CO., LTD., of London, Eng., whose financial standing is so high its bonds are accepted by the British, Australian, Canadian, Indian and Colonial Governments.

This Company's PARAGON Accident and Sickness Policy should have your special attention. It combines the GREATEST LIBERALITY WITH THE SECURITY OF THE BANK OF ENGLAND, and is the best Policy ever offered.

Guarantee Bonds issued to Bookkeepers, Cashiers, City Officials, Lodge Officers, Government Officials, etc.

Real Estate, - Timber, - Mines

If those wishing to invest in or sell City, Rural or Business Property, will advise me of their requirements, their interests will have my best attention.

Reports on Land, Timber and Mines. Agencies at Calgary, Vancouver, Kamloops, Nelson, Winnipeg, Toronto, Montreal, Spokane, Chicago and New York.

Office, Mackenzie Avenue - - Revelstoke, B. C.

Next C.P.R. Telegraph Office.
