LIBERAL TACTICS DISCUSSED

The Liberals having found that their tactics of obstruction had not the slightest effect upon the determination of the government to come to the aid of the motherland, in the manner indicated by the British government itself, are now seeking to crawl out of the undignified position in which they find themselves. There are unmistakable evidences that the people of Canada are heartily sick of Laurier and his followers. Liberal members are being deluged with remonstrances from their own supporters and the leaders are being plainly told that they have wrecked any chances there might have been of restoration to power. Canada will not soon forget that men like Hon. H.Ri Emmerson and Dr. Neely preached secession, and breaking away from the Empire. Canada will remember the Declaration of Independence read by Mr. Emmerron, a Privy Councillor and former minister of the Crown. Canada will remember Dr. Neely's references to "Revolution" and the "Boston Tea Party."

The government's course is clear. in the fight for continuance of British connection, it has the Canadian people solidly behind it. In its determination that the majority must rule it has the support of the intlligent men of this country. An opposition which uses what power it has to impede the passage of legislation, which has for its object the strengthening of the ties which bind Canada to the Empire will be summarily dealt with by the people. Secessionists and revolutionists may fume and fret, but the great mass of the people of Canada will vote to remain within the Empire.

Surely a more pitiable sight was never witnessed than a once great party of the state substituting anarchy for constitutional proceedings. The future of Liberalism under its present leaders will indeed be a thorny road.

INCREASING WHITE MAN'S BURDENS

Berlin, March 31—The German admiralty's plans for the establishment of abig aerial navy were published officially today. The fleet of airships and aeroplanes is to cost $12,500,000, which is to be spread over the next five years. The fleet is to be entirely apart from that connected with the army, on which nearly $25,000,000 is to be spent.

A bill providing for an appropriation of $750,000 at the first outlay on the aerial fleet was introduced in the imperial parliament today. It calls for 10 naval dirigible balloons of the largest size, of which eight are to compose the active fleet and two are to be held in reserve. Fifty-four double revolving balloon halls into which the dirigibles will be able to enter regardless of the weather are to be erected and another two to be kept as a reserve. A total of 32 aeroplanes, of which 30 are to form the active fleet, and 14 the reserve are to be manned by a special corps of 1,452 officers and men.

The appropriations for this fleet, to be spread over the years 1914 to 1918, comprise $8,750,000 for dirigibles and $2,250,000 for aeroplanes and maintenance of the crews. The life of the new airships is estimated at only four years each.

Cranbrooke, March 31—The year and a half old child of Mr. and Mrs. Hedler McLeod died suddenly this morning after being given a teaspoonful of carbolic acid in mistake for medicine.

Regular monthly meeting of Farmers' Institute will be held at Y.M.C.A. Building on Saturday evening, April 5th, instead of a week later. Important business, see official notice elsewhere in this issue.

Y.M.C.A. GYMNASTIC EXHIBITION

On Friday evening at 8 o'clock, in the Gym, the great closing exhibition takes place. This is one of the events that everybody looks forward to attending. All the children look forward to this as the greatest treat of the season. The program is of such a character that the fun element is evenly mixed with skill and daring. The work of the girls is such that they are worth the price of admission alone.

Next Friday ought to settle whether the girls or the boys are the best. The work of Mr. Yum Yum McKillmurryop, although not on the printed program, will keep you laughing until your sides are sore. Mr. Yum Yum McKillmurryop is breaking all speed records by aeroplane, automobile, rail road to be here by April 4th, when he arrives he will likely take a ride on the French Sea.

Fighting, wrestling, attempts to reach the skies, team games, etc., will be put on. Medals will be awarded to those who have made the highest marks during the entire season, cups will also be given to the leading basketball teams.

It is the intention of the Y officials to put the proceeds of this entertainment towards fitting out the gymnasium with a Suspended Horizontal bar two mats, and a drinking fountain, and running water cuspidor, these are all necessary additions to the Gym equipment.

The prices of admission will be :— Adults, 50c.; Children, 25c. Be sure and keep the date clear, and come and bring your friends.

ENCOURAGE HOME INDUSTRY

"How much do you charge for one thousand letter heads" is a question which the manager of a printing office is asked almost every day of the week

"That depends pretty much on the quality of the paper," he replies.

The customer usually remarks that he likes a fairly good class of paper, and is shown samples of several grades from which he makes a choice. As likely as not he selects a high grade paper, one which calls for a rather high price. However, he is shown a good grade of paper which he can have printed and delivered for $5.50.

He wrinkles his brow, puckers up his lips, and finally says he will call again. He goes back to his office and looks up an offer of some mail order concern which sent him a circular offering to print "ten thousand letterheads for $32.00—$3.20 per thousand." No mention is made of the grade of paper, style of type or class of ink—but with the mail order house that is of no consequence. Of course the business man really doesn't want ten thousand letter heads, but thinks that since he is sending away for them he may as well get a good lot—and away goes the order to the outside house.

Now the point of this is that, had this man asked the local printer for a price on "ten thousand" instead of "one thousand," he would have seen that the price was the same, or perhaps even better, besides which he could have had a choice of several grades of paper at the same price. He could also have seen a proof of the type before printing, as well as have some choice in the color of ink. Moreover, he would thereby have left his good money in the city, with a chance of getting some of it back again, while at the same time he would be supporting the industry of his fellow business man, and all this helps everyone living in the city.

And all this without spending one cent of additional money—simply turning it into a different channel.

J. Pierpont Morgan Dead

Winnipeg, March 31—A despatch from Rome states that after an illness of some weeks, particulars of which are carefully concealed from the public, Mr. J. Pierpont Morgan expired today at 12 o'clock (6:05 a.m. New York time).

BOARD OF TRADE REGULAR MEETING

Delegation to Ottawa Postponed.—Mount Revelstoke National Park Reserve.—The Secretaryship.—Permanent Headquarters.

The Board of Trade met in special meeting on Monday evening, in the City Hall.

President C. B. Hume occupied the chair, some ten members were present. Mr. W. M. Lawrence moved, and Mr. W. H. Wallace seconded:—That this meeting called as a special meeting, be turned into the usual regular meeting of the Board.—Carried unanimously.

Secretary McVity read the minutes of last regular and special meetings, and which were adopted.

President C.B. Hume—In regard to the committee which were appointed to meet a committee from the Conservative Association. We met and talked the matter of a delegation, the land question, and the Mount Revelstoke Park Reserve over. The Conservative Association seemed to think thatia delegation on the land question was unnecessary, as the throwing open of the lands was practically settled, since that date the lands in the Golden Section of the Railway Belt, have been actually proclaimed.

NATIONAL PARK.

As regards the Mount Revelstoke National Park Reserve, it was thought that the government at Ottawa might have Mr. Forde or some other of their own engineers in B.C., make the report in regard to suitability of the proposed park area, instead of waiting for the promised Commissioner to come from Ottawa, thus saving a year. Mr. Forde was mentioned because he is already in possession of most of the topographical data as the result of his investigations on behalf of the C. P. R. and the government in regard to water supply, etc.

AN EXPLANATION.

There seemed to have been some idea among the Conservative Association, that the telegram sent by the Board of Trade to Mr. Green, was some slight upon our member, and the committee of the Board took advantage of their interview with the committee of the Association, to point out that nothing of the kind was intended.

OTTAWA DEPUTATION.

In regard to the committee interviewing the city council in regard to the sending of a delegation from this board to Ottawa at the expense of the city and in connection with the Dominion Belt Lands, several of the members of the city council were interviewed privately upon the idea, and they seemed to think that the payment of such expenses by the City Council was not likely to meet with approval owing to the tightness in civic finances, and the committee decided therefore not to go further into the matter at the present time, in face of these existing circumstances.

Mr. Hume continuing said— There seems ground for believing that the lands will shortly be thrown open, in view of the action at Golden.

T. Kilpatrick—The Golden lands are definitely proclaimed open.

President Hume—In view of these altered circumstances, I think the Board should pass a resolution in regard to the delegation, either to send same or cut the matter out.

A. J. McDonell—I think in view of the matters which have cropped up it might be well to hold our hands in regard to the delegation.

W.H. Horobin—Have the Revelstoke Conservative Association anything definite about the lands in our district.

President Hume—They have nothing for publication, but they seem to think the lands will be thrown open shortly.

W.M. Lawrence—If the Conservative Association have taken up the matter of the park, and we are almost sure concerning the lands, it does not seem to me that a delegation could not do much, unless of course they could bring the things to a climax sooner.

Moved, seconded and carried unanimously—That the Secretary write to Mr. R.F. Green, suggesting that the government have one of their engineers make the report as regards Revelstoke National Park and that the matter of the delegation to Ottawa previously decided upon, remain over until such action is deemed advisable

NEW MEMBERS.

Messrs. J.P. Forde, Ed. Trimble, J. Walker, L. Probyn were ballotted upon and unanimously elected to membership of the Board from date.

A general discussion of "Good and Welfare" followed. Mr. C. B. Hume brought up the matter of appointing a secretary to succeed Mr. McVity, resigned, and the question of a permanent headquarters.

Mr. Scruton was in favor of endeavoring to roll the secretaryship of all the small local public bodies, such as Progress Club, Board of Trade, Retailers Association and others, into one office, amalgamating the salaries, making sufficient to pay a permanent man, and put in a Publicity office on McKenzie avenue, and that now was an opportune time to sound the other bodies concerned, and get down to business.

Mr. T. Kilpatrick—Speaking about publicity, there are two classes of people we are after, one is the settlers and the other the tourists. Settlers must wait until the Dominion Belt lands are thrown open. I think we should concentrate upon the tourists. Cabinets of views, might be placed in the hotels say at Banff and other points, and some one deputed to meet and assist people to find drives and other interesting features on their arrival here. These matters may be discussed here, but should be left to the Progress Club to handle.

The discussion died away nothing definite being done.

PROPOSALS.

Mr. O. W. Abrahamson was proposed for membership, and will be balloted upon at next meeting in accordance with the bylaws.

Meeting terminated at 10 p.m.

Swatting the Fly

Chase, March 31—Manager B. W. Sawyer, of the Adams River Lumber company, at the regular meeting of the board of trade, brought forward a plan for making the common house fly such a rarity in Chase this summer that before the end of the season folks will be displaying flies in glass cases as surviving specimens of an almost extinct species.

The plan is simple and inexpensive. It consists in sprinkling with a weak solution of formaldehyde any places where flies are likely to breed. This needs only be done after each rain, as the treatment is effective for weeks in dry weather. The places requiring the most careful attention are stables and all places where animals are kept, garbage cans, etc.

Mr. Sawyer stated that on the advice of Dr. Scatchard, the local health officer, he had last year used fifteen dollars' worth of formaldehyde in the logging camps on Adams river with excellent results. Whereas in previous years the men had suffered from dysentry and typhoid last year the camps were free from such diseases. He believed that an expenditure of twenty-five dollars in the town would keep it free from flies during the entire summer.

A mild solution of formaldehyde is not poisonous, and what accidentally falls on grass or plants will not make them injurious to animals. The substance is often used to disinfect milk, with no harmful results except to infants.

The board directed the secretary to confer with Dr. Scatchard and ask him to see how far the provincial board of health would co-operate in a war of extermination against flies.

CANADIAN PARTICIPATION IN EXHIBIT

Through President D. C. Collier, of the Panama-California Exposition to be held in San Diego, Cal., in 1915, the Canadian government has been invited to participate in that celebration of the completion of the Panama canal. Letters and memorials were addressed to His Royal Highness the Duke of Connaught, Rt. Hon. R. L. Borden, the Canadian premier, Hon. Martin Burrell, minister of agriculture the members of parliament, and commercial organizations in Canada, embracing the invitation to participate. The suggestion was made to the Canadian officials that a collective exhibit of Canada's resources—agricultural, mining and focestry—be made, demonstrating to the homeseeker and investor the splendid opportunities awaiting them in Canada, particularly in the Canadian Narthwest. The opening of the canal is expected to direct to the Western coasts hundreds of thousands of desirable immigrants from Europe, and doubtless thousands of these will seek new homes in the Canadian Northwest. As the San Diego Exposition is designed to direct these to places of greatest individual opportunity. It is believed that Canada would add greatly to the population development of the Northwestern provinces by a demonstration of the wonderfully rich opportunities to be found there.

C. P. MEN WIN BIG INCREASE

Montreal, March 30.—Following negotiations that have been in progress between a committee of the Brotherhood of Locomotive Engineers, and the Canadian Pacific Railway since January last, an increase in wages amounting to 10 per cent, has been obtained by the engineers employed on the lines east of Cartier. While the agreement by which the new schedule will take effect has not yet been signed, pending the settlement of some minor points regarding working conditions, no further difficulty is anticipated and within the next few days it is thought that the negotiations will be concluded. An increase of five cents an hour for engineers working on the C.P.R. between Cartier and Fort William is also provided for, the men in charge of passenger and work trains being alone affected, however. The wages of the engineers of freight trains running between these points will remain unchanged. 6

The necessity for the increase, which is the second obtained by the engineers in a space of three years, is attributed to the increased cost of living, which cost, it is said, has soared to an even greater amount than the value of the increase. In August of 1910 an increase of 10 per cent. was granted on the then existing wage schedule The last augmentation of wages thus constitutes a total of 20 per cent. in rather less than three years.

NOTES FROM 'HALCYON

Mrs. Boyd got back from San Francisco last week to find the houseful, of guests, the capacity of the hotel being taxed to the utmost to accommodate them. Her sister-in-law, Mrs. Graham, has agreed to stay another week to help with the work.

Mr. James Black, Vancouver, arrived on Wednesday last.

Mr. A. F. Neichener, Grand Forks, is here with a severe attack of sciatica.

Mr. A.G. Nock, Nelson, came up on Saturday, and left Monday with Mrs. Nock, who has been here since before the burning of their beautiful home in the end of February. They are preparing to rebuild.

PORT OF REVELSTOKE REVENUES

Following is a comparative statement with monthly detail, of the Customs revenue at Port of Revelstoke for the year ending March 31st, 1913, with that of the year before. The increase, $51,315.65, is very gratifying and is eloquent testimony to the all-round development of the district. A revenue of over a quarter million dollars should be, in the able hands of our Dominion representative, RlF. Green, Esq., M. P., a forceful argument in urging substantial appropriations for this city and district:

YEAR ENDING 1911-12.

April 11th	$625,189.52
April	$ 25,189.52
May	18,583.65
June	15,701.43
July	14,291.00
August	12,976.82
September	13,470.47
October	13,397.41
November	20,765.28
December	21,221.16
January	15,703.67
February	19,060.48
March	20,671.33
Total 1911-12	$209,015.22

YEAR ENDING 1912-13

April	$ 19,064.83
May	34,181.90
June	17,862.79
July	27,503.52
August	17,862.79
September	19,988.52
October	18,871.02
November	23,244.60
December	@ 14,972.50
January	17,208.41
February	22,274.57
March	24,892.93
Total 1912-13	$260,330.87
Total 1912-13	$260,330.87
Total 1911-12	209,015.22
Increase	$ 51,315.65

How this increase was obtained and where, is shewn in the statement following. It shows Revelstoke well up to the front and more than holding its own in the commercial expansion of the district. It serves to emphasise, too, the centrality and suitability, geographically, of this city as trade entrepot for the large country contributing to this total from the top of the Cariboo Road to the foot of Okanagan Lake, and from Field to Ashcroft on the C.P.R. main line, an Inland Empire in itself:

Office	1911-12	1912-13
Revelstoke	$ 42, 38.86	$ 50,007.56
Ashcroft	46,451.53	31,615.13
Golden	21,398.89	33,155.64
Kamloops	34,590.19	47,625.90
Kelowna	4,493.07	34,676.57
Vernon	60,227.59	57,423.68
Armstrong	522.22	711.02
Barnerville	173.86	175.25
Clinton	225.04	257.89
Enderby	405.40	431.86
Lillooet	94.21	243.11
Merritt	457.10	536.41
150-Mile Houses	3 8.13	463.74
Penticton	717.19	1,289.67
Quesnel	405.43	334.97
Soda Creek	89.04	97.81
S. Fort George		293.01
Summerland	860.44	1,028.65
Total	$209,015.22	$260,330.87

B. R. ATKINS, Collector.

Your uncle, Goodfellow, moves in the best circles, doesn't he?"

"Not always in the best circles; but the zig-zags he moves in are equalled by few."

NEWS FROM FAR AND NEAR

Pointed Paragraphs of Provincial Interest

A most unusual sight has been witnessed recently in the vicinity of Yahk East Kootenay, herds of white-tailed deer to the number of five hundred or more being seen frequently upon the mountainside.

The redistribution bill of 1913 will give Alberta, after the next provincial election, fifty-six members, instead of forty-one, as at present. In the new House there will be fifty-five constituencies, as compared with thirty nine at present.

Quail are becoming plentiful near Log Lake, where Mr. Guernsey let some 14 birds loose two years ago, says the Penticton Herald. They have increased to about 150 and are expected to tal 1000 birds by the end of this year. Ranchers are highly pl ased with the success of the experiment, as the birds feed principally on weeds and insects that do damage to the fruit trees.

The newly formed Italian Trans-Aerial Society has undertaken to build a large number of aeroplanes for the Italian army. With the $600,000 subscribed during the Libyan war for aeroplane construction, this will provide for about 200 aeroplanes. The first flotilla of seven aeroplanes will be delivered to the government March 15. Seven monoplanes and 16 biplanes are to be delivered in April.

Shade trees which will be supplied free to Nelson citizens desiring to improve their property by making boule vards. In making the grant for the purchase of 400 trees which have been ordered the city council made it a condition that all the trees should be planted under the supervision of the city engineer, so that they would be a uniform distance from the lot line and otherwise properly set out. For this reason, with each application, must be given particulars regarding the street, the lot number the size of the lot and the variety of tree required. Two kinds have been ordered —Norway maple and mountain ash. It is thought that two varieties will show to best advantage if planted alternately.

Mrs. Mary Daly, aged 111, St Clair County's oldest resident, died at the home of her son, one mile west of Emmett, near Port Huron, on the anniversary of her birth last week. Death folowed an illness of three weeks. Mrs. Daly was born in Ireland. When but a child, she met Napoleon Bonaparte, when he was in his supremacy. Until the end she recalled the battle of Waterloo, and often narrated with interest thrilling incidents of the engagement. After the battle of Waterloo, and while still a young girl, she moved to Canada. Later she settled at Emmett, where she lived until the time of her death. For 45 years she lived in the same house. She was the mother of 14 children, three of whom survive.

The British Minister of War, Lt.-Col Seely, announces that Great Britain will shortly have one of the greatest, if not the greatest, aerial fleets in the world. Although both France and Germany far out-distanced Britain during recent years in the construction of aeroplanes, Britain has been able to profit by their experience and now proposes to build machines speedier and more stable than any yet in operation for naval and military purposes. Col-Seely hopes that Britain will possess in a short time 148 aeroplanes capable of attaining a speed of ninety miles an hour and of repeling the attacks of other air-craft. These air machines will be used for army purposes, but it is also intended to provide the navy with hydroplanes of another type.

Four hundred women and children hemmed in the automobile of Dr. F.F. Friedmann last week, begging him to treat them for tuberculosis. The crowd surrounded the German physician outside the hospital for deformities and joint diseases, and a force of police reserves had to make a path for him and the machine to the hospital door. Physicians from all parts of the country earlier in the day gathered at Mount Sinai Hospital to watch Dr. Friedmann administer his vaccine, but were refused admission. The only other medical men at the clinic were those of the government who requested that the others be excluded. The hospital explained that the government feared that premature reports of the clinic would be made before they presented their report to the government Dr. Friedmann, it was said had not made any request to have the others excluded.

Under the Pope's directions preparations have been begun for the building of his tomb. It is the desire of his holiness to be buried in the crypt of St. Peter's.

Every sample of butter which has been tested so far by the Dominion government analyst of those that were seized in Saskatoon and sent down to Ottawa by Inspector Davies, have been adulterated.

It has been announced that the resignation of Lord Alverstone, the Lord Chief Justice, will be made public before the next sitting of the law courts on April 1. It is said that his successor will be Sir Rufus Isaacs.

Despatches last Saturday told of the virtual annihilation of a small column of French troops by Arabs in the Aderar region of the western Sahara. A body of 1000 of the intractable Berber tribe of Awellind swooped down and surrounded the French detachment, which was marching through the shifting sands of the desert about three day's journey from Timbuktu, the French military station. After a fight lasting all day, the French troops were overcome. Their commander, Lieut. Martin, and four sergeants were killed, together with forty-three native troopers. A few troopers escaped on pack horses and brought the news to headquarters in Timbukto. They declared that the Arabs suffered tremendous losses before the ammunition of the French troops was exhausted in the fight.

FOR CONSTIPATION

A Medicine that Does Not Cost Anything Unless It Cures

The active medicinal ingredient of Rexall Orderlies which is odorless, tasteless and colorless is a comparatively new discovery. Combined with other extremely valuable ingredients, it forms a perfect bowel regulator, intestinal invigorator and strengthener. Rexall Orderlies are eaten like candy and are notable for their agreeableness to the palate and gentleness of action. They do not cause gtiping or any disagreeable effect or inconvenience.

Unlike other preparations for a like purpose, they do not create a habit, but instead, they act to overcome the cause of habit acquired through the use of ordinary laxatives cathartics, and harsh physic and permanently remove the cause of constipation or irregular bowel action.

We will refund your money without argument if they do not do as we say they will. Two sizes, 25c. and 10c.—Sold only at our Store—The Rexall Store, Dews Drug Store.

The officers of the Bisley team were announced last week. The commanding officer will be Colonel Duff-Stuart Sixth D.C.O.R., Vancouver, and the Adjutant-Captain R.B. Simond, Sixth Regt., Halifax. The members of the team will not be decided upon till the first of May. They probably will sail about June 27.

CANADA CEMENT COMPANY LIMITED PORTLAND CANADA CEMENT MONTREAL

Do You Know What This Label Means ?

It means cement of the highest possible quality.
It means cement tested by experts whose authority is final at all our mills.
It means cement acknowledged by engineers, architects and hundreds of thousands of farmers to fulfil every requirement of scientifically made Portland cement.
It means a cement that is absolutely reliable, whether used for a great bridge or for a concrete watering trough. You can use

Canada Cement

with complete confidence that your concrete work will be thoroughly satisfactory. You ought to have this confidence in the cement you use, because you have not the facilities for testing its qualities, such as are at the disposal of the engineers in charge of big contracting jobs.

These engineers know that when cement has passed the tests made upon it at Canada Cement mills, it will pass all their tests.

And this same cement is sold to you for your silo, your foundations, your feeding-floor, your milk-house or your watering-trough.

Used according to the directions in our free book "What the Farmer can do with Concrete," Canada Cement never fails to give satisfactory results. Write for the book. It not only tells you how to mix and place concrete, but will also suggest scores of uses for it on your farm, every one of them valuable to you. In asking for the book you do not incur the slightest obligation.

CANADIAN VIEW OF DEBATES

The "Secessionists" and "Separatists" have shot their last bolt in deliberate and senseless obstruction by precipitating the most disgraceful scene ever witnessed in the annals of the Canadian Parliament. They have shown the desperate straits in which they are placed by substituting anarchy for argument, disorder for discussion, violence and vituperation for dignity and order, and they stand branded in the public estimation as a set of men incapable of realizing the duty that Canada owes to the Mother land.

It is difficult to conceive how a once great political party could so lose sight of its immediate duty. Laurier cut the throat of the Liberal party with the knife of reciprocity. Now he is gaily proceeding to carve up the corpse with the knife of separation, and independence. By the time Laurier gets through with the remains, there will not be enough left for decent burial at the hands of the Canadian people.

Notwithstanding the violent efforts of the Liberals in the House of Commons to block the naval bill, the government is determined that it shall be put through as speedily as possible. Direct notice has been served on Laurier and his followers, by Premier Borden that the King's government must be carried on, and public business transacted. And the government of Canada is taking steps to see that the wheels of progress are no longer stayed by a band of irresponsibles in Parliament who are aided and abetted by a group of ex-cabinet ministers, rejected by the people in September, 1911.

The Borden government has a duty to perform, and that is to govern. — That it has no intention of giving to the opposition is sure and certain. It will go about its task quietly, and with the confidence that the people of Canada are behind it in its endeavor to give honest sane administration.

The fight of Laurier and his henchmen against British connection, the disgraceful conduct of leading members of the party in defying the authority of the Speaker in Parliament and making its proceedings a farce, have aroused the people of Canada to a high pitch of resentment. The people of this country are British to the core. Laurier found that out in the reciprocity struggle. He will again be told in no halting manner when the time comes.

Laurier is a fallen idol. The people of his own province are turning against him. They have no use for a beaten leader. And Laurier was beaten in one of the most spectacular battles in the history of Parliamentary institutions. Defeated at the polls he has been seeking to impose his views on the majority of Parliament. He refuses to recognize that he is no longer in power. He is seeking to prevent Canada from coming to the aid of the motherland.

Canada at the present day has no room in public life for Do-Nothings of the Laurier school. Action not words The government means action. The policy of Laurier and his crowd is words.

Manufacturing News

Nothing can equal the ingenuity of certain Liberal papers in the manufacture of news. A favorite topic is the alleged clash between the "Borden and Rogers' factions." It is immaterial to them that there are no such factions. They pretend that Mr. Borden really desires to break the deadlock by an appeal to the country but is held by Mr. Rogers and his "gang." There is nothing, of course, in the story. The Premier never had and has not any intention of appealing to the country this year. The story is so improbable on the face of it that one wonders how anybody can be misled by it. If the story was that Mr. Rogers wanted to go to the country, it would be more likely to be believed, as Mr. Rogers rather likes an election campaign, and nothing would meet his wishes more than another chance to defeat the Laurier party, worse than in 1911. The fact is, moreover, that the Prime Minister and the Minister of Public Works are thoroughly in accord on the question. They intend to carry on the mandate of the people. They are agreed that the navy bill shall be put through, and what they desire is what is going to happen.

Dominion Revenue

The revenue of the Dominion for the fiscal year which closed on Monday last will be close to $170,000,000, an increase of approximately $23,000,000 over the revenue of the preceding year. The total expenditure for the year is estimated at between $153,000,000 and 154,000,000, leaving a surplus of some $16,000,000 over all expenditures. The steady growing revenue under the Fielding tariff will probably enable Hon. W. T. White to present next month a budget statement showing another record surplus of revenue over all ordinary expenditure.

Forty years in use, 20 years the standard, prescribed and recommended by physicians. For Women's Ailments, Doctor Martel's Female Pills, at your druggist.

Canada has just gained a world-wide renown for its oats, the growers of this prize winning cereal being J. C. Bill & Sons, Lloydminster, Sask., who have been awarded the Colorado trophy, for the best bushel of oats shown at the National Corn Exposition held in Columbia, S. C. This prize of $1,000 was open for the whole North American continent.

CITY CIRCULATION AGENT

Of Leading Montreal Daily Endorses GIN PILLS

FIVE long years of suffering from Kidney Trouble—two boxes of GIN PILLS—and it's all gone. That has been the experience of Mr. Eugene Quesnel, Chief City Circulation Agent of La Patrie, of Montreal. He describes it feelingly:

Montreal,
May 3rd, 1912

"I have been suffering from Kidney Trouble for over five long years. I had also Rheumatism in all my bones and muscles, could not sleep nights and on some occasions could hardly walk. I had been treated by some of our best Physicians but without relief and I lost over fifteen pounds. One day I met one of our leading hotelkeepers, who had been cured by your famous GIN PILLS, and he advised me to try them. So I bought two boxes at my druggist's and before I had used one box I felt a big change. Before I finished the second box I was completely cured.

I can assure you I can hardly believe it for if I had only known what I know now I would not have spent over One Hundred Dollars for nothing when two boxes of GIN PILLS cured me."

EUGENE QUESNEL.

GIN PILLS are gaining a world-wide reputation, by the way they conquer the most obstinate cases of Rheumatism and all kinds of Kidney Trouble.

WEDNESDAY, APRIL 2nd, 1913

Discussion under the heading "Good and Welfare" which took place just before closing the Revelstoke Board of Trade Meeting last night, drew attention to a proposal which has been suggested on several occasions by the Editor of this paper, as being a step in the public interest. We refer to the establishment of an office where the Progress Club, Board of Trade, and and other bodies approving and joining in the scheme, could keep their literature and records, and the appointment in charge of same of a permanent Public Service Officer, or Publicity Commissioner.

The idea would be, that the small secretary-ships paying various amounts of salaries, now divided between several men, should be consolidated into one, and that these amounts with any additional moneys available should be devoted to paying the salary of the permanent secretary.

In our opinion this is a businesslike proposal which possesses merit and warrents serious consideration from the bodies concerned.

The time is opportune for inaugurating such a policy. The resignation of the secretary of the Board of Trade, has called attention to the impossibility under existing arrangements, of getting a competent man for the position. The work of the Progress Club has expanded to such a degree that a paid secretary is inevitable. The consolidation of these two offices as a starter, and the immediate investigation of the possibilities of lumping other small offices and salaries should be done this spring, and before two appointments by the Board of Trade and Progress Club further complicate the situation by adding to the already lengthy list of petty offices, which the Businessmen and citizens of Revelstoke are expected to support. With the appointment of one secretary, the Board of Trade and Progress Club will have advanced a long way towards the elimination of that overlapping and waste of effort which are becoming chronic in the procedure of both organizations.

If this step had been taken last fall when it was first suggested, the Publicity work for the coming spring would have been underway on a proper basis, but here we are, with all the time and money spent on the Schaffer Report absolutely wasted with the same weary drivel being peddled at successive meetings to the identical weary listeners, and nothing even in sight in the way of actual accomplishment.

For years past, the public bodies of Revelstoke have been issuing pamphlets regarding land settlement in this district, and have failed to adequately follow up the inquiries they have received, on the ground that nothing could be done until the Railway Belt Lands were thrown open to settlement.

Yet we have in this town, five or six real estate dealers, who advertise daily that they are in a position to furnish at the market price first class lands suitable for settlers with moderate means, and the success achieved by workers who have purchased such lands at Malakwa and elsewhere, is sufficient warrent for the truth of these assertions.

It would seem reasonable to suppose that there are in Europe many hundreds of prospective settlers, who would come on to our lands available for purchase from individuals already holding tracts of unimproved acreage and succeed equally with those who in the last three years have come here and purchased in this manner from older owners, many of whom have still surplus acres for sale on reasonable terms.

It should not be difficult for a secretary, to secure and tabulate particulars of fruit and farm lands, improved and unimproved, at present on the market, and to put inquirers into touch with the parties desirous of selling same. In other portions of the Kootenays, this settlement of newcomers onto purchasable lands is recognised rightly, as the most important aspect of any plans for securing settlers; it is years for instance since there were aay available government lands in the vicinity of certain centers easily named, yet there has been a constant indux of agriculturalists, who have purchased from previous settlers, and done yeoman work alike, in assisting with the rapid clearing of the lands, and in increasing existing values and placing same upon a more permanent basis.

There is no doubt in our mind that a considerable number of settlers could be secured for this district, if Publicity efforts were directed along right channels and kept in close touch with the wild land owners and real estate brokers of the district.

Inquirers who absolutely insisted upon cheap government lands, should meantime be registered and kept track of, and as soon as our lands are available these people might be circularised on the follow up system.

During the past five years, as the result of spending thousands of dollars on advertising, issuing pamphlets, etc., the secretaries of our various public bodies have received according to their own figures hundreds of letters inquiring for lands. We take it that all these inquiries have been carefully filed away, properly indexed so that when the lands are thrown open, prospective settlers can be circularised regarding the fact and further inducements be offered to them to come and live amongst us. If this course has not been adopted, then even when our lands are thrown open, our previous advertising has been wasted, and the inquiries concerning which successive secretaries have spoken in such glowing terms, have simply dropped into oblivion, and can never be of any use, representing nothing but wasted effort.

The Board of Trade is a business organization, it is conducting a mail-order bureau, but we venture to say that not one of its members would have allowed his own mail order correspondence for a week, to be treated in the manner which has become an accepted custom with the Board's business communications.

A second organization the "Progress Club," is now in the field, and unless they institute a proper filing system, and get some permanent office accommodation, they will be no more successful along their publicity lines, than the older institution has been.

It is for these reasons, realising the foolishness of continuing the present inadequate policy, that the editor of this paper, is suggesting the steps outlined. Let the Board of Trade and the Progress Club get together without further delay, and put their publicity work, and secretarial departments upon a business basis.

Cutworm in Alberta

Ottawa, April 1—Hon. Martin Burrell, Minister of Agriculture, has made arrangements for the appointment of E. H. Strickland of Dartford, England, to make an investigation into a serious outbreak of cutworms in Southern Alberta which has proved very disastrous during the past few years. Mr. Strickland was trained at the Agricultural College Wye, Kent, under Prof. F.V. Theobald the foremost economic entomologist in England. In 1910 he was one of the two men selected by the Colonial Office to take two years training in the United States in entomological method. He accordingly spent two years in the United States under the direction of Dr. Howard, chief entomologist of the United States department of Agriculture, and Dr. Wheeler, Professor of Entomology, Harvard University, both of whom speak most highly of his ability. He is entering the Canadian government service as entomologist, and his first work will be this investigation.

MUCH INJURY LAST YEAR.

During the summer of 1911 there were numerous reports of widespread and serious injury to grain, root and other crops by cutworms in Southern Alberta. Last summer the serious nature of the outbreak was increased, and the infested area was greater. A preliminary investigation showed that from 30,000 to 40,000 acres of grain exclusive of garden and root crops had been actually destroyed by cutworms. It was found that it was a new and hitherto undiscovered cutworm pest which could not be controlled by ordinary methods. Accordingly, it was decided to make a thorough investigation, and Mr. Strickland has been engaged for the purpose

Elections Illegal

Calgary, Alta., March 31—A report comes from MacLeod to the effect that the action of Premier Sifton in calling the provincial elections for April 17 will be contested as illegal. Colon MacLeod, legal adviser to Robert Patterson, the Conservative candidate for MacLeod, is preparing to make application before the supreme court in Edmonton on Monday next for an injunction restraining the Sifton government from holding the elections on April 17. Mr. MacLeod says that assuming that the election writs were issued on the evening of March 25, as he thinks they were, the time between that and nomination day, April 10 is one day short of the time fixed by statute.

FORESTRY DEPARTMENT WARNING

In the past year according to the statement of the Chief Forester, over twenty per cent of the fires which the forest rangers had to fight were caused by campers.

The list, which appears in the annual report of the Forest Branch, shows that fires originated as follows

Campers	38
Railway locomotives	34
Lightning	23
Donkey Engines	11
Railway Construction	11
Public roaa construction	9
Uncontrolled permit fires	8
Smokers	7
Accidents	6
Logging Railways	6
Prospectors	3
Indians	3

How many of the 188 fires of which the causes are still unknown were the result of an untended camp fire is open to surmise, but as in most of the other risks such as railway and road construction, and logging operations the existence of fire is at once known, the camper may be justly held to account for a very large proportion of the season's conflagrations.

Stringent regulations have been passed by the Boaed of Railway Commissioners of Canada to cover the risk of new railroads under construction in the province, the patrol has been doubled on the rights of way, and every possible precaution urged upon logging operations. The Forest Branch is endeavoring to co operate in every way with those who have work to perform which is attended with danger to the forest. But the greatest danger of all—that of the man who is careless with his camp fire, still remains open, and it can be removed only by increased watchfulness on the part of every individual who uses the woods for pleasure or profit

This year the officers of the Forest Branch expect a harder season than ever before. The very conditions of dampness and consequent heavy growth of grass and weeds made the year 1912 one of the best in thehistory of the province from the standpoint of fire protection, will combine to make a great fire hazard this coming spring.

The rangers now appointed by the Branch are being given particular instructions with regard to warning campers and securing their co-operation in keeping down the danger to the forest.

The six simple rules which the rangers will impress upon the campers, and all those they meet in the woods are:

1.—Be sure your match is out before you throw it away.

2.—Knock out your pipe ashes or throw your cigar or cigarette stump, where there is nothing to catch fire.

3.—Don't build a campfire any larger than is absolutely necessary. Never leave it, even for a short time without putting it out with water or earth.

4.—Don't build a campfire against a tree or log. Build a small one where you can scrape away the needles, leaves or grass from all sides of it.

5.—Don't build bonfires. The wind may come up at any time and start a fire which you cannot control.

6.—If you discover a fire, put it out if possible. If you can't, get word of it to the nearest ranger or fire warden as quickly as you possibly can.

INDIAN LAND COMMISSION APPOINTED

The selections of the local government of appointees on the Royal Commission on Indian Lands in this province have been announced, the nominees being Mr. John Pearson, Shaw, member for the local legislature for Kamloops constituency, and Mr. D.H. McDowall, ex-M. P., who recently served on the commission in insurance. The Dominion appointees upon this commission are Mr. J.A.J. McKenna, whose identification with the active work of the department of Indian affairs extends over many years, and who is well-known throughout British Columbia by whites and Indians alike, and Mr. Thomas White, K. C., of Shelburne, N.S. The fifth member and chairman will be chosen by the four appointees, or failing their agreement, selection will be made by the Secretary of State for the Colonies. Mr. Shaw is one of the pioneer residents of Kamloops district in which he has large agricultural interests.

DEPARTMENT OF WORKS.

NOTICE TO CONTRACTORS.

Steel Bridge, Thompson River, Lytton, B. C., (To Be Built Alongside Present Structure) Substructure and Erection of Superstructure.

Sealed Tenders, superscribed "Tender for Substructure and Erection of Superstructure, Thompson River Bridge, Lytton, B.C.," will be received by the Hon. the Minister of Public Works up to 12 o'clock noon Wednesday, the 7th day of May, 1913, for the complete substructure and erection of superstructure of a bridge across the Thompson River at Lytton, B. C.

Drawings, specifications, contract, and forms of tender can be seen at the offices of the Government Agents, Ashcroft, New Westminster, Vancouver, and at the office of the Public Works Engineer, Parliament Buildings Victoria.

Intending tenderers can, by applying to the undersigned, obtain one copy of the drawings and one copy of the specifications for the sum of twenty-five dollars ($25).

Each tender must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Hon. the Minister of Public Works, for the sum of $1,000, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

The successful tenderer shall furthermore furnish an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Hon. the Minister of Public Works, for the sum of one thousand dollars for the due fulfilment of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each applicant must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to the Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

RAILWAYS ENTERING CALGARY

According to D.D. Oughton, a farmer in the vicinity of this city, both the C.N.R. and G.T.P. will have steel laid into the city in the neighborhood of Ogden during the present week.

At present two gangs are laying steel four miles from the Calgary post office in a direction east by south, and a race is on between the two companies to see which will reach the city limits first.

About 50 men are working in each gang. The grade of the G.T.P. is complete to the Bow river and that of the Canadian Northern to a meeting place with the Canadian Pacific tracks at Ogden.

The recent announcement from Ottawa that arrangements have been made with the G.T.P., whereby that company will acquire the mounted police property for terminal purposes, means that the G. T.P. is in earnest in its endeavor to reach Calgary at once. At present the Canadian Northern has men at work on the proposed terminal buildings site, just south of St. Mary's hall, obviously for the purpose of making the property ready for the early entrance of the trains.

The non-completion of bridges across the Bow and Elbow fivers will prevent both the C.N.R. and G.T.P., from entering the business portion of the city for some little time.

The concrete piers are built in both cases, but the recent cold weather has delayed further work.

EXAMINATIONS FOR LICENCING SCALERS.

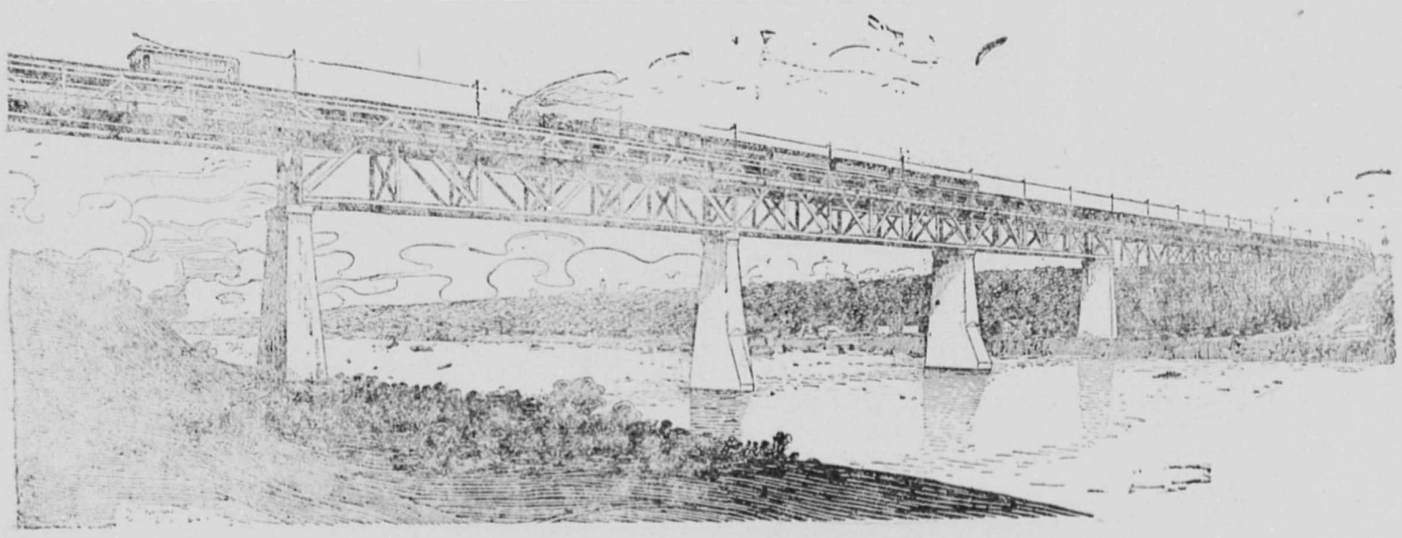
On April 1st examinations for licencing Scalers will be held by the Board of Examiners at the Edgewood Lumber Company's sawmill at Castlegar, as provided in Part VIII of the "Forest Act..' For further particulars apply to T. W. Mouat, Assistant Supervisor of Scalers, Nelson, B.C., or to the Chief Forester, Victoria, B.C.
1st issue Mar. 29 1t.

NOTICE TO CONTRACTORS

Tenders will be received by the undersigned, until noon March 29th, 1913 for Clearing Right of Way on the Arrowlake Subdivision, M.B.-O. to Arrowhead, and on the Shuswap Subdivision, M.B.-O. to M.B. 45.

Specifications may be obtained at the office of the Division Engineer.

H. B. Walkem, Actg. Divn. Engineer, or M.K. McQuarrie Resident Engineer Revelstoke
1st issue Mar. 12, 3w.



Canadian Pacific Railway High Level Bridge at Edmonton

The third of the gigantic structures that have been built in Western Canada by the Canadian Pacific Railway Company in the past few years, the other two being the viaduct at Lethbridge, one mile long, and the recently completed viaduct at Outlook over three thousand feet in length, the latter opened for traffic in 1912.

The length of this bridge at Edmonton, between abutments of north and south approaches, is 2,500 feet, The extreme height above the mean water level is 153 feet, while the piers are 103 feet high.
The bridge consists of an upper and lower deck, the width of the upper being 39 feet and that of the lower 43 feet.

The upper deck will carry a railway track and double street car tracks; the lower will be used for vehicular and pedestrian traffic, the sidewalks having a clearance of eight feet and the roadway 23 feet.

LOCAL AND GENERAL

Mayor W. R. Reid of Arrowhead, was in town Monday.

I think I will take all my family to the Y Gym exhibition on Friday.

Mr. Ralph Simpson of Arrowhead, was in the city the fore part of this week.

J.L. Calbert of Vancouver, has been transacting business here the past few days.

Pete Levesque of the Union hotel, has just finished storing two car loads of pure Banff ice.

Mr. Kirk, accountant at Arrowhead accompanied by his wife, were in the city last Saturday.

Fred. Robinson has returned from an extended Eastern trip and is much improved in health.

Mr. Grimes representing the Kelly, Douglas Co., of Vancouver, was in town the fore part of this week.

W. Gilchrist of Arrowhead, and Mr. and Mrs. J. Bonfield of Comaplix, were business visitors here Monday.

J. H. Tait of Vancouver, and H. Roos of the same place, were visitors in town the fore part of this week.

Mr. Fortman, special agent for the New Zealand Fire Insurance Company was in the city the end of last week.

Mr. Blackhall, the well-known C.P. R. engineer, has just returned from a visit to New Brunswick and Chicago.

S. McKay of Nelson, is in town.

Mrs. and Miss Anderson of Vernon, paid Revelstoke a visit a few days ago.

Mrs. Livingstone, Provincial Organizer of the W.C.T.U., will be in town on April 7th, the guest of Mrs. C.F. Lindmark.

Mrs. Boyle, Mrs. Baskerville and Mrs. North of this city, left last Saturday on an extended visit to the Old Country.

We are sorry to announce that C. Newsome, an employee at the government works, has had a quite serious accident with his hand.

C. M. Field returned a few days ago from a business trip east and left yesterday for Vancouver, he will also visit Victoria and Seattle.

There will be a meeting of the W.C. T.U. at the home of Mrs. J.M. Kelley on Friday, April 4th, at 3:30 p.m. Revelstoke ladies please note.

H.P. Cummings has purchased a lot in the Clearview Syndicate, and Mr. E. J. Buttler has bought the residence owned by Mr. Cummings.

J.D. Sibbald, jr., returned Tuesday morning from a ten days' trip to the Okanagan district. He says Kelowna is a good town and prosperity is evident on all sides.

Mr. F.W. Andrews, special agent for the Mercantile Fire Insurance Co. arrived in the city on No. 3 last Saturday. He makes his headquarters at Calgary and left for Vancouver on Monday.

Mr. Parker, the Cariboo miner who got his feet frozen on December 2nd, last, when he was on his way up the Fig Bend, some eighteen miles from this city, is progressing favorably in the hospital.

Miss May Field and Gladys Urquhart left last Saturday for Normal school at Vancouver, after spending the Easter vacation with their relatives here, while Miss Irene Procunier, and Bertha Hobbs left on Sunday for the same school at the terminal city.

Mr. H. E. Upton, Provincial Poultry Instructor, will address a meeting at the City Hall on Friday evening, April 4th. His subject will be "Incubation." As this will be Mr. Upton's first visit to Revelstoke every one interested in the Poultry industry should be present. The meeting is open to everyone whether members of poultry associations or not. Members of Farmers' Institute are specially invited ta attend.

Mr. C. Granstram and J. Anderson returned last Friday from the Scandinavian Aid and Fellowship Societys convention for B.C. District, held in Grand Forks, March 26th. C. Granstram as District Secretary and J. Anderson as delegate for Revelstoke Lodge No. 62. The next convention will be held in Revelstoke in March 1915. C. Granstram being chosen as representative for B.C. District in the Supreme Lodge Convention to be held in Duluth, Minn., June 11th, 1913.

W. Williams of Rogers Pass, is in the city.

J. McKinnon of Vancouver, was in town Sunday.

T. Ed. Daunty and wife of Winnipeg are in the city.

W. E. Oliver was among Eastern business men here Monday.

E. H. McKinley of Vancouver, was noticed on the streets Monday.

J.W. Maber of Vernon, came in on Sunday's early east bound train.

Geo. Steeves, machinist at Field, has been transferred to Grand Forks.

H.M. Rutlidge of Calgary, was among the prairie visitors here Monday.

S. Mills of New Westminster, came in on yesterday's noon train from the west.

J. A. Davies, of Vancouver, was transacting business here the fore part of this week.

Colin Cameron of Golden, came down the hill the fore part of this week to transact business here.

W. C. Green and wife of Regina, came in on the west bound yesterday, and are at the King Edward.

A party of friends saw Mrs. R. T. Smith off on the Imperial Limited for an extended visit to England.

C. Maglio of Nelson, and R. W. Lindsay of Beaton, were lake visitors in the city the fore part of this week.

Come and bring your lady friend to St. Francis Hall for a whole evening's enjoyment, Thursday at 8:30 p.m. Admission 50 cents.

Miss Tannis Patrick has returned to Field to resume her duties, after spending her Easter holidays with her parents in this city.

James H. Armstrong, chief dispatcher and Mrs. Armstrong, returned last evening on the late train from a six weeks' trip to California. They enjoyed ideal weather during the whole trip and spent a most enjoyable time, visiting the principal cities and pleasure resorts in the Southern State.

The total attendance at Big Eddy school during March, was 205. Despite bad weather school was in session every day. All pupils were perfect in punctuality and the following in attendance :—Savaune Dever, Rolf Carlsen, and Charlie Barrett. April is being started with new seating which is a decided improvement.

The first Canadian contingent that went to the Boer war were insured for $1,000,000 in the Ocean Accident and Guarantee Corporation. The Revelstoke Fire Brigades are also insured in this company. The special agent for this company is Chas. M Field — Best policy in the market issued to all especially to railroaders.

Reserve the night of April 4th for the great exhibition in the Y.M.C.A.

Only four companies settled their losses in full in the San Francisco earthquake and fire, of which the London Assurance Corporation was one. This company paid out $7,000,000 in that disaster, their policies are written here by Chas. M. Field.

St. Francis Club extends a cordial invitation to all to be present at the whist and dance in their hall Thursday night.

Forty years in use, 20 years the standard, prescribed and recommended by physicians. For Woman's Ailments, Dr. Martel's Female Pills, at your druggist.

GALT COAL is handled exclusively in Revelstoke by the Revelstoke General Agencies, Ltd.

Mr. R. McGregor, authorized Piano Tuner and Regulator for Mason and Risch, Limited, intends being in the Revelstoke district next week. Parties requiring his serives for tuning, etc., should leave their address with Mr. R. Howson.

Railroaders, beware. Do not put on life or accident insurance without first looking over the attractive and low priced policies offered you by Chas.M. Field, in his sound and reliable companies.

Graft Revelations

There is method in the madness of the Liberal Opposition in seeking to drive the government to the country this year. There is a man named Millar now in gaol because he refuses to tell to whom he in four years paid $41,000 to get $117,000 of government business Messrs. Pugsley and Carvell did their best to prevent his going to goal, but Sir Wilfrid Laurier agreed with the government that there was no other course open but to commit him for contempt. Since then, apparently, Sir Wilfrid has been informed of the danger resulting from Mr. Millar "peaching," and accordingly he has consented to the blocking of Parliament.

The Public Accounts Committee was busy probing certain dredging contracts of the late government, and revelations were about to be made when the blockade stopped the meeting of the Committee.

More important still, there are indications that steals amounting to millions of dollars are about to be uncovered in connection with the Grand Trunk Pacific contracts. This must be prevented, if possible, even if in so doing parliamentary procedure is paralyzed, public business interrupted, and electoral tumult precipitated.

Save Your Rubbers

Mrs. B. A. Lawson reports that substantial quantities of old rubbers are being sent her every week from the thoughtful citizens. These rubbers, as has before been stated, are being gathered with a view of securing at least a ton of old rubbers which will be sold and the proceeds turned over to the local hospital fund. Local collecting committees are now being formed who will in a short time make a house to house canvass and secure every possible old rubber no matter how long or how ancient it is. Now here is a good work in progress and let everyone lend a hand instead of discarding your dilapidated footwear this spring, by throwing them away, just send them to the home of Mrs. Bruce A. Lawson and help along this good work.

Good Appointment

The appointment of Mr. W.J. Goepel, formerly inspector of offices for the Province, to the position of deputy finance minister, will be endorsed by all who know Mr. Goepel. He has special qualifications for the office

Goats for B.C.

During the past few months the Live Stock Branch of the Dominion Department of Agriculuture has been in receipt of numerous inquiries as to where it might be possible to purchase either Angora or Milch goats. It would appear that in many parts of the Dominion the demand for these useful and profitable animals is rapidly developing and that those who at present have any surplus stock can find a ready sale for them if a channel of communication between supply and demand is established. Accordingly as a means of starting a convenient Directory of Canadian Breeders of Angora Goats and Milch goats the Live Stock Commissioner will be pleased to receive from such breeders information regarding their respective flocks covering the following points:—

1.—Kind and number of goats kept.
2.—Usual number for sale each year.
3.—Approximately the prices asked.
4—If possible a brief statement regarding expenses found necessary and the returns which may be expected by one engaging in raising this class of stock.

Communications supplying the above information should be addressed to the Live Stock Commissioner, Ottawa, Ont. Such letters do not require postage.

Presidential Elections

Following is the revised results of U. S. Presidential elections 1912 as compared with 1908:

The funeral of the late Albert E. Benison, will take place from the family residence Third street, at 2:30 o'clock tomorrow, Thursday afternoon The Masonic Lodge of which deceased was a member, will take charge of the ceremony.

JUVENILE BOSTONIANS

During the nine years of the Juvenile Bostonians Company's existence, the only adverse criticism that has ever been made of their performances has been on the pieces they play, the objection always being to the lack of plot. Of course, only the most captious of critics have ever mentioned this. Most people who go to see this clever company are too busy enjoying themselves to bother about a plot, but as the management wishes to please everybody, they have gone to great expense to secure "Princess Chic" an original opera company by Kirke La Shelle and Julian Edwards. Kirke La Shelle is too well known to need any introduction as a librettest, while the famous Julian Edwards name as the composer means success for any libretto, no matter how weak it may be. It is necessary to go into detail regarding "Princess Chic", as its long New York run and wonderfully successful tours of the larger cities has made it a well known quantity with every well posted theatre goer. This is the first time that "Princess Chic" has ever been seen in the smaller cities, and that the Bostonians will put it on in a manner worthy of its standing when they appear here at the Empress on Monday, April 21, is an assured fact.

A Speedy Shadow

Probably the fastest motion that man can perceive with his eyes is that of the shaow of the moon across the earth in a solar eclipse. The rate is practically that of the moon in its orbit, which is about 2,000 miles an hour. This is roughly half a mile a second. Now if a person were to be stationed on a mountain whence he could see for some miles he could actually watch the approach of the shadow and keep his eye on its edge. Of course the shade would cover the whole landscape for any one person.

From the testimony of many men, who have actually witnessed the phenomenon in such circumstances it is a terrible and awe inspiring spectacle.

Public Schools Attendance

The attendance at the public schools for March was as follows:

		Enrolment	Percentage	Present at every sess
Central School, Div. I		23	87.57	9
" " " II		34	89.70	16
" " " III		39	89.19	20
" " " IV		30	96.66	20
" " " V		39	93.40	21
" " " VI		33	90.69	13
" " " VII		37	91.26	20
" " " VIII		47	91.33	17
Totals		282	91.22	136
Selkirk School Div. I		36	87.00	11
" " " II		34	92.85	17
" " " III		35	92.22	12
" " " IV		38	92.10	17
" " " V		38	98.10	20
" " " VI		29	94.21	15
" " " VII		38	95.33	23
Totals		248	93.26	115

The Nelson Shield was won in the Central School by Div. IV. with a percentage of 97.88 in punctuality and regularity. Div. V. of Selkirk school wins the shield with a percentage of 98.81.

The J.B.C. of the Methodist church are deligently preparing for their annual concert on April 22nd. The program will maintain their previous high standing.

The Political Equality League will meet in the City Hall next Monday at 8 p.m. Everyone interested in equal suffrage is invited. Three instructive papers will be read.

Mrs. Isaac Trotter of Arrowhead, spent several days in town this week buying house furnishings. Mr. Trotter sold out his farm in Ontario and bought the dray business of Arrowhead last month.

Some half-dozen of our snowshoe enthusiasts enjoyed the last run of the season over the Columbia and across the flats on the south side of the river. On Sunday. They lunched picnic style out in the sunshine.

Mr. W.W. Foster, Deputy Minister of Public Works, spent a few hours in town Tuesday en route to Golden. Mrs. Foster accompanied him as far as this city and will remain here a week or more, the guest of Mrs. Dr. Sutherland

The weekly meeting of the West End Bridge Club was held at the home of Mrs. Haggen on Saturday evening. Mrs. Pratt, the fortunate prize winner received a beautiful table fern. The next meeting will be held at the home of Mrs. McCarter.

A party composed of Mrs. James Goble and daughter, and Mrs. Baskerville, salesman for P. Burns Co. started east last Saturday on a visit to the Old Country. They sail from St. John on April 5th for Liverpool, and will spend the summer with relatives in England.

The Ladies' East End Bridge Club met on Satutday evening at the home of Mrs. Kincaid on Fifth street, The members were all present and had the usual jolly time. Mrs. Purvis was the fortunate winner of a lovely vase cut glass embossed in silver. A dainty lunch was served by Mrs. Kincaid.

Mrs. Chas. North, the wife of our popular electrician, left with the children on Saturday last for a long-anticipated visit to her parents in England. She intends remaining over the summer. Mrs. Boyle, whose husband is head baker for Mr. A. Hobson, accompanied Mrs. North to England, and will spend the summer visiting relatives.

One of the pleasantest events of Easter week was the Bridge party given on Friday evening by Mrs. Kennedy of Second street, west, to about a dozen ladies. The rooms were decorated in the most charming anner, with fragrant bunches of narcissi. Three tables enjoyed playing until a little after midnight, when the hostess served a supper of the most delicious dainties. The prizes for the bridge were very handsome and much admired. The first, a large tray of worked brass was won by Mrs. Holten, and the second, a lovely Royal Doulton teapot and stand, was captured by Mrs. Haggen.
