SECOND PERIOD OF MAIL-HERALD'S VOTING CONTEST CLOSES WITH AVALANCHE OF VOTES

Last Saturday Marked By Special Activity on Part of Contestants---Miss Blanche McCarty Wins $50 in Gold and is Now in the Lead as Contestants Reach the Three-Quarter Pole

On last Saturday night the contest department was visited by an avalanche of subscriptions, and many new readers being added to the Mail-Herald's family.

Miss Blanche McCarty won the special prize of fifty dollars in gold by turning in a hundred and twenty-six dollars for subscriptions. Each candidate is straining every effort to reach the coveted goal by July 6th, and land the capital prize. Mr. O. Cutler, Mr. J. Guy Barber and Mayor Sutherland will act as judges at the end of the contest, the results of which will be published in the Mail-Herald's issue of July 10th. A sealed ballot box will be used the last three days of the contest. Contestants will place their remittances along with the names of the subscribers in this box which will be opened by the judges when they make their count to determine the winners.

Only nine more days are left until opportunity will have stopped knocking and rewarded those who have heeded its calling. Only nine more days until the winners and the "hasrans" will have chosen their places by the ability and the energy they have displayed.

Contestants work with deligence as the contest is nearing the end. Many of the old subscribers have not yet paid their past due subscriptions. Several thousand dollars are still on the Mail-Herald's books to be collected. Some of the candidates have the impression that the field is nearly worked. This is not true. Many of the old subscribers have not yet been called on and many new subscribers are to be gotten yet. Do not think because a person has not a home in Revelstoke or in business, that they will not take the Mail-Herald. Every man and woman who is interested in Revelstoke, vicinity and Western Canada should be a subscriber to the Mail-Herald, and will be, if properly solicited.

Remember the motto—"Hustle, keep on hustling, and then hustle some more."

Standing of Candidates

Miss Blanche McCarty	516,400
Miss Olga Roman	497,200
Miss Edith Cooke	425,700
Miss Eva Hay	352,600
Miss Elsie Hooley	335,500
Miss Cyndrene Matz	324,400
Mrs. W. G. Kile, Craigellache, B. C.	242,000
Mrs. Alderton, Taft, B. C.	231,000
Miss Mable Henderson	64,000
Miss Jennie Wells, Golden, B.C.	55,000
Mr. E. G. Woodland	52,000
Miss Irene Genelle, Nakusp, B.C.	5,000
Miss Bertha Evans	5,000

Death of Mrs. Young

It is with deep regret that we once again chronicle the death of one of our most respected citizens, in the person of the late Mrs. F.H. Young, who passed quietly away at the family residence early Tuesday morning. The deceased lady had been ill for some months and the end was not altogether unexpected.

The Mail-Herald joins with the whole community in sympathizing with the bereaved family in their affliction.

The funeral is taking place this afternoon.

The annual Lawn Social of the Methodist church will be held tomorrow evening (Thursday) on the church grounds. Come and enjoy the cool of the evening and spend an enjoyable social time. Band in attendance.

W. J. Curtis, piano tuner, will be at Revelstoke about July 5th.

NEW MOTIVE POWER ENGINE

The Tesla Engine Built by H. B. Stonex a Splendid Success

In the Popular Mechanics Magazine for December last, there appeared an article by E. F. Stearns on the new steam turbine engine designed by Nikola Tesla, the great Austrian inventor. From the description given in the article Mr. H.B. Stonex of this city, built an engine last winter along the lines laid down by the inventor. The engine built by Mr. Stonex weighs 22 lbs., and at the steam test on Thursday last, developed a speed of 13,000 revolutions per minute and developed one horse power. And this without balance wheels. This engine when fixed up with proper balance wheels is expected to develop about seven horse power, and the engine will not weigh over 40lbs.

The engine proper consists of eight thin steel discs 4½ inches in diameter, set about an eighth of an inch apart on a shaft. The steam enters on to the discs and the whole surface of the discs are an active source of power, very little of the steam power escaping, as in the ordinary engine. The discs, eight in number in Mr. Stonex's engine do not weigh over nine ounces, so that it will be developed about one horse power to every pound weight.

It is believed that in this engine the perfect rotor has been found Mr. Stonex will follow up the work and fully determine the value of this new machine.

The engine was entirely built by Mr. Stonex himself in his workshop The engine being perfect in every detail. Without being bolted down and sitting only on a piece of plank there was not a sign of vibration at her highest speed.

Flirting Princess

Harry Bulger carries with him three dozen American beauties—not a specie of roses but three dozen real, robust, healthy American beauties. They represent the decorative feature of "The Flirting Princess" in which Mr. Bulger is starring under the management of Mort H. Singer, and in which he will be seen at the Empress theatre next Saturday night, June 29th. Just where Manager Singer corralled this bunch of perfect femininity is still a secret but nevertheless they are with Bulger's company to the great delight and edification of the male portion of American playgoers!

NEW VIRGIN PLACER DIGGINGS DISCOVERED ON FRENCH CREEK

A Rush of Well-known Prospectors and Miners to the New Goldfields on this Famous Creek 75 Miles North of Revelstoke---Will the History of the Sixties be Repeated

Is there to be repeated in the Big Bend district the history of the sixties, when five thousand miners stampeded from all parts of the world to the famous placer fields on the tributaries of Old Gold Stream, namely French Creek and McCullough Creek, seventy-five miles north of Revelstoke It looks so, for prspectors by twos and threes, every night for the past month, have been leaving town at all hours, by stealth, on foot and on horseback, bound for the French Creek diggings, whilst many placer claims have been staked out and are still being staked.

The cause of the stampede, is the news of a rich strike of Placer gold in French Creek, along an old channel, discovered by three prospectors, who for over a year have been quietly prospecting this channel. The pay is stated to be big, and the probability is that French Creek will yield millions in yellow metal.

Between the years 1860 and 1865, the old workings on French Creek yielded in the neighborhood of $2,000,000 to the hundreds of miners and prospectors who worked its rich gravels to bed rock. At that time a typical boom mining town was established, with a population of from three to four thousand people, with its usual accessories in the shape of saloons, dance halls and billiard rooms, and today the curious hunter can still see the remains of this once famous placer camp, with its dismantled billiard tables and shacks.

For years past, miners and prospectors have been looking for an older channel on French Creek, which was known to exist from the very nature of the ground. This has been found only within the past year and is believed to be as rich or richer than the workings along the present creek, from which so many millions were extracted in the sixties.

For a number of years, the well known placer mining man Mr. E. A. Bradley, has been constantly at work on French Creek, developing and prospecting at an enormous expense to himself and his associates. His belief in French Creek is undiminished, his faith is shown this year, in the fact that he has purchased a steam placer drill, which he is putting on the ground on French Creek, for the purpose of more easily and expeditiously prospecting his claims, believed to be richer in yellow metal, than any placer mines in British Columbia When it is remembered that owing to the absence of a railway, Mr. Bradley's boilers, engines, drills, etc., had to be taken apart and packed into the mine, over forty miles of a trail on pack horses, it will be understood that his knowledge of the camp must fully warrent such an undertaking.

Mr. J.C. Montgomery, and W. B. Robertson, who with other local men have placer ground on this new strike is now in Seattle interesting prominent mining men of that city in his new property on French Creek, and will return in a few days, to commence to actively work the new ground. Mr. Warren Andrews and Hart Munro, have located alongside the Montgomery property, being between this property and that owned by Mr. R. A. Millard and associates who are operating now along the old channel with marked results.

The surrounding ground is being staked as fast as men and horses can reach there from Revelstoke which is the nearest city.

French Creek can be reached in one day from Revelstoke by a forced drive. The steamer Revelstoke makes two trips each week up the river to Downie Creek forty miles; from Downiw Creek to French Creek, is thirty or thirty-five miles over a pony trail There is also a pony trail all the way from Revelstoke to French Creek and two days ride will negotiate this trail.

The Government of British Columbia are now spending thousands of dollars in the Big Bend district between Revelstoke and French Creek, with a view to giving early access to the lode, as well as placer grounds of the district. The Premier has promised a railway through this wealthy timber and mineral district, and it is expected within three years there will be such a railway, even if the C.P.R. do not make this natural river grade their route for the proposed double track through the mountains at a still earlier date.

The gigantic mineral, timber and water power resources of the Big Bend district have always been regarded as the greatest asset of the Interior of B.C., and an immense impetus will be given to the city of Revelstoke and the whole Southern Interior of British Columbia, by the development of this Big Bend country.

WEDNESDAY, JUNE 26, 1912.

The well authenticated news regarding the rich strikes of placer gold now being made along the old bed of French creek, in the Big Bend district, some seventy-five miles from Revelstoke, will not come as much of a surprise to the old timers in this district, although it will doubtless be received with the usual scepticism by those who are but little acquainted with the vast mineral wealth of the Big Bend country. The new comer will read in the words "French Creek" and "Gold Stream" but the place names of two unimportant tributaries of the Columbia river, but to the members of that Old Brigade who still servive in the Interior of British Columbia, these same terms will conjure up a world of memorable experience. It was in the sixties that this region, now again discovered by the prospector, was the scene of one of the greatest rushes in the history of gold mining on the Pacific coast, and the trails leading from this city up the Columbia, were thronged with a mothly and cosmopolitan crowd of prospectors, miners and speculators, who had thrown down the implements of their usual occupations, to take up the pick and the pan and the search for gold.

Millions of dollars worth of alluvial coarse gold were taken from the creeks, then when the cream had apparently been skimmed, the diggings were abandoned, the cost of transport preventing a profitable working of any but the very richest claims.

It has been the history of every mountainous and difficult mining country, that unless railway transportation is provided, the difficulties of transport conquor the unorganized efforts of the pioneer, and even the richest fields are allowed to lie dormant, until the building of the railway, or opening up of water ways, brings the country to that stage where big capital can place the quartz mining on a permanent profitable basis. The alluvial or placer gold discoveries which from time to time are made along the French creek and other tributaries of the Columbia river north of Revelstoke, and which have for fifty years past provided a living and occasional riches for the lone gold washer, are but the merest markings which tell the story of the fabulous wealth of those mother lodes which await exploitation throughout that vast mineralised region known as the Big Bend country. The millions of dollars worth of precious metal already taken out of these creeks and streams, is the faintest scratching compared with the values of gold, silver, lead, copper and mica, which the vast mines of this region will in the near future be pouring into the laps of those who are fortunate and enterprising enough to undertake their development.

Every man who comes down the river trails, with his sackful of coarse gold, and his stories of timber, mineral and waterpower wealth, is but another prophet, crying in the wilderness, for that promised railway, which shall turn the wilderness into a garden, cover the Big Bend mineral belt with a network of producing mines, and make Revelstoke a great and prosperous city.

A New Business

The Havana Cigar Factory is the name of a new cigar factory just opened up on First street west. The proprietor is Mr. George Hay, an expert cigar maker. Mr. Hay is specializing in making by hand his two favorite brands of cigars known as the "Nifty" and "Casey Jones." All the cigars made at the Havana cigar factory are hand made.

In his new interprise we wish Mr. Hay the greatest measure of success.

CRICKET MATCH

Revelstoke Defeats Salmon Arm by 52 Runs

This match was played on the Revelstoke cricket club grounds last Saturday. The local team batted first, and by good individual scoring in which no less than eight men got into double figures, and despite the fact that their opponents tried seven bowlers, the local team compiled a score of 169 runs.

The visitors on going to bat fared rather badly off the bowling of Bonallo and Maley, loosing four of their wickets for 27 runs. However Bowden played a steady innings for 23 runs, and by good batting Capt. A. Meek compiled a score of 24 not out this being the highest individual score in the match, and brought to total up to 117, leaving the local team victorious by 52 runs.

Sparring Match

A great sparring match will take place at the Empress theatre Monday evening, July 1st. Dominion Day. Lee Manson of Nanaimo, middleweight champion of B.C. and Hume Duval of Vancouver, light heavy weight champion of South Africa and South America. This match is for points only and everybody is looking forward to the greatest sparring match ever taking place in Revelstoke. The winner of this match will be challenged by a Revelstoke man to spar on Labor Day. Mr. Duval is training hard in Vancouver, while Lee Manson is training in Revelstoke

Mr. Lee Manson has a sub-contract at the Laurier tunnel on the C.P.R. and is bringing in quite a few supporters. This match will be refereed by M. McIssac, who is quite a noted sparrer himself.

Everybody is looking forward to a fine exhibition on July 1st. Reserved seats $2, general admission $1, at the Empress theatre Monday night next.

See our window of Meat snaps and Oil stoves. Hot weather specialties. Bourne Bros.

MISSION IS SUCCESSFUL

Hon. Thomas Taylor Succeeds at Ottawa

Hon. Thomas Taylor, Minister of Works and Railways, arrived home yesterday from a successful mission to Ottawa connected with the negotiation of a settlement with the Federal gvernment of various departmental matters affecting British Columbia. He arranged with Hon. F. D. Monk for the establishment of a harbor line at Prince Rupert, and also made a formal application for the Dominion government to assume the entire work of the improvement and maintenance of the banks of navigable rivers in this province. Mr. Monk said he was prepared to admit that the whole responsibility for this work rested with the Federal government, insofar as navigable rivers were concerned.

A satisfactory arrangement was also reached with Hon Robert Rogers, whereby the building of provincial roads across Indian reserves in this province will be facilitated.

Mr. Taylor added. "I was pleased to see the deep interest taken in Eastern Canada in the development of the country west of Lake Superior. As a Canadian I was proud of the magnificent spectacle presented by the 500 miles of green wheat fields our train traversed. While the season has been a little backward, there is every indication of a record crop."

COME TO REVELSTOKE

Come to the City of Revelstoke. Come to the city of romance and beauty. Come to the land of mirth and music, and the home of song and story. Come to the deathbed of melancholy and the graveyard of care. Come to the land of golden sunshine. Come to the land of the cedar and pine. Come to the land of crystal streams and the frisky tout comedians. Come to the land of fragrant wildflowers, drooping on a thousand hills, and timid violets blushing in a thousand dells. Come to the land of snowcapped mountains. Come to the land of grim old canyons, wooded hillsides and lightening footed deer. Come to the land of winding trails, the romance and the glory that cling to the relics of frontier life. Come to the Alps of America, of which every tongue on earth shall speak. Come to the mightiest exhibit of nature's artist. Come to the city of destiny. Come to the men and women who have watered it with their tears and blessed it with their smiles. Come to the campfires of hospitality that are awaiting you!—Come to Revelstoke with her open, throbbing heart. Come to the spirit that bids you welcome.—Come.

In the Shadow of the Beak

In the police court last Monday morning Magistrate Hamilton had a full docket. The cases disposed of that morning were decidedly varied.

Walter Clark was the name of a young man who appeared to answer to a charge of stealing from the person. It seems that the accused went to the King Edward hotel about 4 a.m. a few days ago and found the night clerk asleep. The accused according to the story, approached the sleeping man and tried to penetrate to the depths of the sleepers pockets but the wearied hotel clerk happened by good fortune to awaken just as the culprit was withdrawing his hand from his pocket. At this juncture the night clerk jumped up and the accused said "what's the chances for a match." When the night clerk replied "let me see what time it is." With this the tired clerk tried to find his watch, but found that it was gone. The night clerk then told the accused to return his watch, without result. The accused then started to run away, when a tustle ensued, the night clerk being ably supported by the night bartender at the King Edward. John McDonald, the night clerk, then summoned the police and the accused was locked up.

In the police court the plea was "not guilty" but the magistrate thought differently and as the evidence showed that $2 in money, a watch and a bunch of keys had been stolen from the person of the night clerk, a sentence of eighteen months at Kamloops goal followed.

The next case was that of R. W. Henshbecker, who hailed as a railway employee, who was up to answer to a charge of stealing a $120 watch and a diamond ring from the person of A. McPherson.

The accused in this case had made an unsuccessful attempt to sell the watch to the bartender at the Windsor hotel, subsequently the watch was found in a wood pile near McCarty's livery barn. In court he pleaded not guilty. The court sentence was twenty-three months at Kamloops jail with hard labor.

Magistrate Hamilton stated that hereafterall petty thieves would be dealt with more severely in his court as he was determined to stamp out petty thieving in Revelstoke if possible.

Fong Chung, a lower town Chinaman was fined $100 for carrying on a disorderly house. J. Gillan acted for the prosecution, while G.S. McCarter represented the defence.

Harry Bulley appeared to answer to a charge of obtaining money by false pretences, and had his case dismissed.

Samuel Bushowai, a Russian, was drunk around the railway station and C.P.R. Policeman Bell tried to make him be good, the Russian was determined to remain in the waiting room. A tustle ensued, when the railway constable put his man under arrest. In court he was charged with resisting an officer in the lawful discharge of his duty. He was sent over to Kamloops goal for five months to cool off. In this case G.S. McCarter acted for the prosecution.

Closing Out

Have you had your share of the bargains that our Closing Out Sale offers? Every day brings something new. Right at the beginning of the hot weather, you can buy your summer goods at greatly reduced prices. This is a bona fide sale. We are leaving town, and want to sell every dollar's worth. POTATO GROWING

The measure of success in potato growing is the yield per acre and quality of the harvested crop. From the failures as well as the successes of potato farmers the following are found to be the seven most important potato needs:

1.—A potato soil is a prime requisite for profitable potato culture. This consists of surface soil with a sufficient admixture of sand and silt or clay to be responsive to tillage operations. Beneath this surface soil should be a well drained subsoil, capable of plant food renewals, to upper soil, from time to time.

2.—Plenty of air is needed, hence porsoity in the soil. Potatoes must have air, especially after the setting of the tubers during the period of their maturity.

3.—There must be plenty of available plant food. Soils rich in potash with plenty of vegetable mold—humus——are usually well supplied with all the other desirable elements in available form for the growing tubers

4.—A fine, well-firmed, but porous soil has an evenness of texture which enables it to receive moisture and feed it to the potato plant through capillarity as its root system has need. An earth-mulch at the surface prevents too rapid evaporation of this desired moisture, conserving this essential for the growing plant needs Thus other essential requisites are provided for that encourage a well-developed root system by means of which the growing tuber plaot draws its sustenance from soil and air.

5.—Deep plowing and thorough stirring of the soil at the proper time insure soil aeration, so essential in successful potato culture.

6.—Careful systematic seed selection is all-important in maintaining quality in potatoes. A seed plot will furnish the desirable quality of seed for next year's general field crop. A definite system of using hill-selected seed pays rich dividends this year from hill-selected seed of last in increased yield per hill and desirable type sought. One should plant for seed the type and character of potato he desires for market A tuber with but few and shallow eyes, with skin free of fungus diseases which prey upon it, and of the form typical of its breed, is the type of potato most to be desired for seed. Unknown grocery potatoes, run outs and culls, must or should be discarded from seed, if we would hope to improve the crop or obtain satisfactory profits in potato culture.

A well ordered rotation of crops is important for potato success. Potatoes should not be grawo more than twice in succession on the same ground without rotation to insure freedom from fungus diseases. We should place potatoes in the rotation after the legume crop which pays best to grow upon the farm.

General Booth's Message

General William Booth, of the Salvation Army, has issued the following message to his soldiers thru'out the world.—

My Dear Comrades:—If the unexpected blow regarding the loss of my eyesight has not actually fallen, as the newspapers have stated, it is hovering dangerously near. Instead of the restoration of sight for which I had hoped, and for which I know you have so earnestly prayed, the doctors tell me I am on the aery eve of entire darkness.

In a few brief hours my comrades may be under the painful compulsion of announcing that The General is hopelessly blind. In that event, what an indescribably painful loss will be mine, never again to see the light of day, or behold the countenances of my friends, or look into the sympathetic eyes of my comrades; never again to witness that which for over sixty years has been to me the sight of sights—men and women kneeling at the Mercy-Seat.

Then, too, I have lost the hope of being able with any facility to write while it will be an absolute impossibility to read well.

Pile up all my losses—they are many and serious I admit; but look at the mercies left me!

First, there is my confidence in God. I am not going to allow the existence of a few things which are in conflict with my judgment to interfere with my confidence in His wisdom—confidence that is inspired by a lifelong knowledge of His loving vare.

Then, I have not lost the assurance of my own happy relations with my Heavenly Father. I have not lost the confidence and love of my own dear people. I have not lost the inestimable blessing of life.

I want the continued loyalty of my own people and the heartier co-operation of all men and women whose hearts are fired with the same purpose as my own.

In a few week's time I hope to be found once more on the battlefield.

Anyway my dear comrades, in the light or in the dark, you may count upon your General to trust in God and go forward!

WILLIAM BOOTH.

Don't forget, peaches and cream at the Savoy.

An Ensomble and Chorus Grouping seen with Harry Bulger in "The Flirting Princess" coming to the Empress Theatre, Saturday Night

May be Reopened

Montreal, June 19—The case of Chimiquy v. Begin took on a new aspect this morning and it is possible that the trial may be reopened. Judgment was to have been rendered today. As soon as the court opened this morning Mr. Lamothe, representing Mr. Begin, made an application for a delay of judgment until to morrow. He had, he said, been informed of a certain act which might have an important bearing on the nature of the judgment and asked for time to investigate the matter. His lordship said that if no action were taken in the meantime he would render judgment at 10:30 tomorrow morning. The plaintiff in this action is a daughter of the late Rev. Charles Chiniquy, an ex-priest of the Catholic church and wife of Prof. Morin of McGill university. She sued Mr. Begin, editor of the Croix for an article in which he refrred to the wife of the late Mr. Chimiquy as a concubine.

BUSINESS LOCALS

Meet me at the Savoy.

Big reductions in baby carriages at Howson's.

EARNEST ADOLF MAYER.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each applicant must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to the Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.
N.B.—Unauthorized publication of this advertisement will not be paid for.

WATER NOTICE.

Notice is hereby given that Willis John Armstrong, of Revelstoke, B. C., will apply for a license to take and use six (6) miners inches of water out of Mill Creek, which flows in a south-easterly direction through Section 29, Township 25, Range 2, West of the 6th Meridan, and empties into Tonca Watha river, near Big Eddy, B.C.. The water will be diverted at 200 feet above C. P. R. track and will be used for irrigation purposes on the land described as 35 acres, part section 29, township 23, range 2, west of 6th Meridan.

This notice was posted on the ground on the 11th day of April, 1912 The application will be filed in the office of the Water Recorder at Revelstoke, B. C.

Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C.

WILLIS J. ARMSTRONG
Applicant. ...

SALE OF MINERAL CLAIMS.

In the County Court of West Kootenay Holden at Revelstoke.
Frank McAulay vs. Beatrice Mines, Ltd., (Non-personal Liability.)
A. A. Boman vs. Beatrice Mines, Ltd., (Non-personal Liability.)
John Gunderson and others vs. Beatrice Mines, Ltd., (Non-personal Liability.)

Pursuant to the judgements in the above actions bearing date the 30th June 1911, the order for sale therein contained and the Directions given herein on the 2nd May, 1912, tenders will be received by the undersigned for the purchase of the following mineral claims:

"Beatrice" Mineral claim being Lot No. 4586, Group 1.
"Edmond" Mineral claim being Lot No. 2634, Group 1.
"Folsom" Mineral claim being Lot No. 4587, Group 1.

All situate near Camborne in the Lardeau Mining Division of West Kootenay District, B. C.

Considerable development work has been done on the Beatrice claim.

Tenders are to be made in writing and sealed and marked "Tender for Beatrice Mines property" and addressed to the undersigned at Revelstoke, B. C., on or before the 18th day of June, 1912.

The highest or any tender not necessarily accepted. Further particulars of the property will be furnished on application to W. I. Briggs, Plaintiffs Solicitor, Revelstoke, B.C.

Dated this 8th day of May, 1912.
W. E. McLAUCHLIN.
Deputy Registrar County Court,
Revelstoke, B. C.
First issue May 8, 4weeks.

NOTICE

The time for receiving tenders herein has been extended to August 1st, 1912.

Sealed Tenders addressed to the undersigned, and endorsed "Tender for Wharf at Needles, B.C.", will be received at this office until 4 p. m., on Thursday, July 4th, 1912, for the construction of a Pile Bent Wharf at Needles, Division of Arrow Lake, of Kootenay, B.C.

Plans, specifications and form of contract can be seen and forms of tender obtained at this Department, and at the offices of C. C. Worsfold, Esq., District Engineer, New Westminster, B.C., and on application to the Postmaster at Needles, B.C., and Victoria, B.C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The department does not bind itself to accept the lowest or any tender.

By order,
R. C. RESROCHERS,
Secretary.
Department of Public Works,
Ottawa, June 5, 1912.
Newspapers will not be paid for this advertisement if they insert it without authority from the Department.—22853.

WATER NOTICE.

Notice is hereby given that 30 days after date I intend to apply to the Water Commissioner for Twenty Miners' Inches of Water to be taken from Davis Creek, and to be used for Irrigation purposes on the following described land:—Part of the S. W. One-quarter Section 33, Township 20, Range 23, W., 5th Meridian, north of Arrowhead, B. C.

Dated this 7th day of May 1912.
ETTA C. HAIGH.

LIQUOR ACT, 1910.

Notice is hereby given that on the 15th day of June next, application will be made to the Superintendent of Provincial Police for the grant of a license for the sale of liquor by retail in and upon the premises known as Humbert Hotel, situated near Revelstoke, B.C., upon the lands described as Lot 1, Block A, Plan 636H.

Dated this 10th day of May, 1912.
Rosorio Desimoine, Applicant.

Sealed Tenders addressed to the undersigned, and endorsed "Tender for Wharf at Boswell, B.C.," will be received at this office until 4 p. m., on Tuesday, July 2, 1912, for the construction of a Pile Bent Wharf at Boswell, Division of Nelson, Kootenay District, B.C.

Plans, specifications and form of contract can be seen and forms of tender obtained at this Department and at the offices of G. A. Keefer, Esq., District Engineer, New Westminster, B.C., and on application to the Postmaster at Victoria, B.C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary
Department of Public Works,
Ottawa, May 30, 1912.
Newspapers will not be paid for this advertisement if they insert it without authority from the Department.
June 5th 1st issue.

NEWS FROM FAR AND NEAR

It is announced by the English trustees of the Charles Dickens centenary fund that about $60,000 has been raised for the aid of the great novelist's grand-daughters, and that this total is sufficient to pay each grand-daughter a comfortable income for life, as invested by Lord Strathcona. The American contributions to the fund totalled $13,481, though only $12,500 was asked.

The civic legislation committee of Toronto has approved of the single tax principle and will ask for an appropriation to have the assessment commissioners visit Winnipeg, Edmonton, Vancouver and other western cities where improvements are taxed higher than land values. A pleniscite will probably be taken on the question at the next municipal election.

Joseph Coillard, of Montmagny, has been appointed captain of the Canadian Government steamer Arctic, which will leave in a few days for Hudson Bay, where she will make soundings for the Canadian Hydrographical Service. He replaces Capt. J. E. Bernier, of polar fame, and was appointed pending the investigation of Bernier's alleged fur trade with the Esquimaux while in command of the last Arctic expedition.

The Chilean government has awarded a contract to S. Pearson & Sons, of London, for improvements to Valparaiso harbor to cost $18,500,000. This, it is claimed, will give that port one of the best harbors in the world. The new docks are to be of massive construction and thoroughly modern in every respect. The South American republics on the Pacific recognize the important changes in trade which will result from the cutting through of the Isthmus of Panama.

The old colors of the 2nd Battalion, Black Watch (Royal Highlanders) who had new colors presented by the King during his visit to India, were deposited in St. Giles Cathedral, Edinburgh. The minister said it was 170 years since the Black Watch, the old 42nd, first paraded in a field between Tay Bridge and Aberfeldy. Their record since then was unsurpassed in British annals. To the strains of "Lochaber No More" a guard of honor marched up the nave with the colors.

Miss Caroline A. White, the oldest living writer, at the age of 101 years is reported still active with her pen at her home at Upper Norwood, Eng. Her first literary venture was accepted by Douglas Jerrold's Shilling Magazine, and she recalls that she never had a manuscript returned from either that periodical or Ainsworth's. About the middle of last century she assumed the editorship of the Lady's Companion, which she held for sixteen years, when the death of the proprietor caused the publication to suspend. Miss White, though a voluminous magazine contributor, has written only one book, "Sweet Hampstead," dealing with the life of London's northern suburb.

Galena Bay

For the first time in its history this settlement was honored by holy matrimony, when on Wednesday last the 19th inst, the Rev. S.H. Phillimore united in its sacred ties, Mr. John E. Bland and Miss I. Moore, daughter of Mr. and Mrs. Moore, of Lancashire, England. The ceremony quietly took place at 2 p.m., at the home of Mr. and Mrs. Ashburne. Mr. D. McKillop acted as best man, while the bride was given away by Mr. G. Ashburne. Miss Ethel Ashburne, daintily attired in cream serge with French Corset, gracefully performed the office of bridesmaid.

The bride's dress was a gray cloth costum, trimmed with Oriental lace, and grey satin straw hat, trimmed with chifon and pink roses.

Mr. and Mrs. Bland left for Halcyon aboard Rev. Mr. Phillimore's motor launch at 5 p.m. amidst a shower of rice and other old fashioned emblems of good luck. The happy pair were the recipients of many handsome and useful presents, as showing the esteem in which they are held in the district, and friends on every had wish them joy and prosperity.

NOTICE

Revelstoke Land District.
District of West Kootenay.

Take notice that I, Elizabeth Hannah, of Rossland, B. C., occupation Married Woman, intends to apply for permission to purchase the following described lands:

Commencing at a post planted about 80 chains north of the North West Corner of Lot 8402, thence 80 chains south, 30 chains east, 80 chains north and 30 chains west, to point of commencement and containing 240 acres more or less.

Dated April 26th, 1912.

ELIZABETH HANNAH,
Per John, W. Hannah, Agent.

MALAKWA NOTES

Parties desiring information regarding the Valley of the Garden of Eden, can obtain same free of charge by writing to Mr. J. H. Johnson, Malakwa, B. C.

A deal of considerable importance to Malakwa and the Garden of Eden Valley generally has been closed, whereby Mr. A. E. Haycock has purchased from the original owner, the land surrounding Malakwa station, known as the townsite of Malakwa.. Immediately after closing this deal Mr. Haycock succeeded in interesting Mr. J.H. Johnson, mayor of Malakwa to the extent of a half interest in the townsite.

The new owners of this valuable property have already taken time by the forelock and have Mr. Robert Smith, P.L.S., engaged in surveying this plot into lots. It is expected that their will be about 700 lots in Malakwa townsite. The deal also included the store business lately carried on by Mr. Hall at Malakwa, which has only a few days ago been taken over by Mr. Thomas Sturdy of Revelstoke, who is working double shifts dealing out provisions to the settlers. The opening up of this townsite of Malakwa means great things for the Valley surrounding it, already many lots have been spoke for and arrangements are maturing for the starting of several new businesses. Among which is a blacksmith shop by Mr. P. L. LeBeau. An up-to-date hotel with all modern conveniences will follow next and before many weeks there will be a thriving little town at Malakwa.

Peter Allan of Craigellachie has sold his house to Mr. Hoffman of Taft, gnd Mr. Allan leaves for England immediately.

The owners of the new townsite of Malakwa are receiving enquiries for town lots from people all over the district.

The Valley of "The Garden of Eden"

Situated at MALAKWA AND CRAIGELLACHIE, B. C.

Just 32 Miles West of Revelstoke, and Extending between Sicamous Junction to Three Valleys Station

Area of First-Class Land---20,000 Acres

Character of Land Principally Level.

Character of Soil Bench Lands, Clay Loam and Vegetable Mould, while on Lower Lands Black Loam Prevails.

No Irrigation Positively no irrigation is needed as Valley is sub-irrigated, and many creeks supply water for Domestic purposes.

This Land is specially adapted for Large and Small Fruits, as well as Hay and Vegetables.

CITY COUNCIL

It was a hot and tired looking city council which met in the city hall on Friday evening last.

Mayor Sutherland occupied the chair, Aldermen McKinnon, Abrahamson, Howson, Bourne, McSorley and City Clerk Lawson were also present

Minutes of last meeting were adopted as read. Also minutes of a special meeting held June 14th.

COMMUNICATIONS

Various communications were dealt with.

The Y.M.C.A. were granted the use of the recreation park on July 1st for the purpose of holding an athletic meet.

A request for a proper band stand for the city was laid over for future discussion.

A request from the C.P.R. for sufficient water at night to test the new oil tank was granted, subject to their not unduly depleting the city supply

A request from the hospital board for free wiring of the new hospital provoked some discussion.

Alderman McKinnon—We have to be careful as a finance committee or we shall be behind on our estimates.

Ald. Abrahamson—A considerable expense will be involved and we have to be careful, but we have not done much for the hospital.

On motian it was decided to get an estimate of the cost of labor in connection with this work and submit same to the council.

An account from Dr. McLean was referred to the Finance committee

CEMENT WALKS.

Ald. McKinnon—In connection with these walks it seems to me that there is room for injustice in these matters, also in the case of the boulevard tax, on the basis of these by-laws.

Ald. Abrahamson—In the case of a specially hardpiece of sidewalk, the cost should be bourne by city general revenue

Ald. McKinnon—The general revenue cannot stand any extra expense not estimated for or we shall get behind.

Ald. McKinnon—There is going to be a difference in costs in laying side walks and we have to make a careful study of this subject.

Ald. McSorley—In my opinion the grading throughout should from the start have been done by the city and the sidewalk charged against the separate schedule.

Ald. McSorley—These assessments on these new walks should be calculated to come well up to the amount the work will cost.

Ald. McKinnon—What is the cost of the sidewalk we are building now on McKenzie avenue and what council accepted the tender for same, I am trying to find out what cement sidewalks and crossings cost, we are doing some of this work now and should be able to tell what it is costing us. I don't see why we cannot know what these crossings are costing. If a tender has been accepted, the council should have passed on such acceptance.

Ald. Howson—I recollect that cement crossings were to be put in.

Ald. McKinnon—Yes, but the cost shouldbe known before hand.

Mayor Sutherland—The City Clerk will get out particulars of the costs of cement crossings put in, and in past cases and submit to next meeting.

BY-LAW.

The by-law to put in certain cement sidewalks on Victoria Road, First street, Second street, Seventh street, Orton avenue, Connaught avenue, was considered.

Ald. Howson—These walks have got to be laid and we have the necessary petitions to do the work.

Ald. McSorley—Some street grading will have to be done in my opinion before certain sections of this walk are laid.

At this point Ald. McSorley phoned for some ice water and for a brief momentthe hot and thirsty council members rested from their labors.

The by-law was then passed a second and third time.

MEDICAL HELTH OFFICER.

On the motion of a previous council, the matter of alterations to the Health by-law was discussed, but the same were postponed to another meeting of the council.

On motion it was decided to secure a right of way from Mr. Lewis by purchase, and to clear the pole line through same at once.

The proceedings then drifted for a time into a general discussion on

PAVING THE STREETS

Mr. Howson—Had we not better be getting ready, making inquiry and investigating materials and methods for street making and surfacing.

Ald. Abrahamson—Yes, we should be considering such matters, we shall have to get out a supply of rock.

WATER SUPPLY.

Ald. Howson—What are we to do re the water supply, as regards between Bridge creek to the Tank.

Mayor Sutherland—There will have to be a by-law.

Ald. McKinnon—Can we get a by-law through.

Ald. McSorley—I believe the citizens would be intelligent enough to carry the by-law.

Ald. McKinnon—The citizens were told last year they had an adequate water supply. The citizens of Revelstoke use about three times more water per day than the usual allowance in other cities, a lot of water here is used which need not be so used.

Ald. McKinnon—I am not in favor of putting through by-laws for small amounts.

The proposal is to put a 12 inch pipe from Bridge creek to the tank. I think such an expense could be avoided if we used our supply judiciously.

Ald. Howson — Well, gentlemen, what are we going to do re this water supply.

Mayor Sutherland—This matter will come up again.

Ald. McKinnon—I am not in favor of any such by-law this year.

Ald. Howson—The question is we need a larger main and whether we should put same in this year or otherwise.

TAX SALE.

Ald. McKinnon—We have to get this money and the tax sale will have to take place.

Mayor Sutherland—Put in the advertisement next week.

Council asjourned at 1a.m.

NOTICE

Revelstoke Land District.
District of West Kootenay.

Notice is hereby given that I, Adelard S. Blondin, of Halcyon, B. C., occupation Shipwright, intend to apply for permission to purchase the following described land:

Commencing at a post planted 20 chains south and 40 chains west from the South East Corner of Lot 7072, Group One, Kootenay District, and marked "A' S' Blondin's North East Corner Post" thence south 40 chains, thence west 20 chains, thence north 40 chains, thence east 20 chains more or less to the point of commencement, and containing 80 acres, more or less.

Dated this 25th June, 1912.

ADELARD S. BLONDIN.

A MAIL ORDER DEAL

The other day a man went into a store to buy a saw. He saw the kind he wanted and asked the price It was $1.65 the dealer said.

"Good gracious," said the man,"I can get the same thing from Timothy Eaton for $1.35."

"That's less than it cost me," said the dealer, "but I'll sell it on the same terms as the mail order house just the same."

"All right, you send it along"said the customer, and charge it to my account."

"Not on your life," the dealer replied. "No charge accounts. You can't do business with the mail order house that way. Fork over the cash."

The customer complied.

"Now two cents postage and five cents for a money order."

"What——"

"Certainly, you have to send a letter and a money order to a mail order house, you know."

The customer, inwardly raving, kept to his agreement and paid the seven cents.

"Now twenty-five cents express."

"Well, I'll be ——!" he said, but paid it, saying, "Now hand me that saw and I'll take it home myself and be rid of this foolery!"

"Hand it to you? Where do you think you are? You're in Revelstoke and I'm in Toronto, and you'll have to wait two weeks for the saw."

Whereupon the dealer hung the saw on a peg and put the money in a cash drawer.

"That makes $1.67," he said. "It has cost you two cents more and it has taken you two weeks longer to get it than if you had paid my price in the first place."

Albert—Prescott, Dickson, Government, elected, majority not given.

The Horse

"A Friend" interested in dumb animals makes the following plea for kindness to horses:

Put yourselves in the horse's place, boys! How would you like it to have the man who employs you jerk you by the arm, strike you in the nose with his fist and yell at you when he gives you an order to do something? Then when you are either delivering a message, groceries, or whatever your trade may be, he should keep hitting you with a whip, although you are doing your best to carry out his wishes, and going just as fast as four feet can take you, would you like it? And yet that is what you are doing every day, all day, to the faithful horse you are driving. That horse has to stay with you, he is dependent on you for his food, water, all his comforts, and can't get away from you no matter how mean you are to him. See how patiently he stands when you yell "whoa" and then starts the moment you take your place in the wagon. If he happens to turn toward a certain house because you go there often with groceries, but this time you are not going, how do you reward him for remembering? Usually by a cruel jerk at the bit which cuts his poor mouth These are only a few of the daily and hourly tortures which you inflict on the animal who is entirely in your power. The next time you start to yell at him stop and think how you would like it, and pet him, watch and see if his shoes and harness are right. Learn all you can about horses and don't think you are a great horseman and expert driver, for you are not. Put yourselves in the horse's place.

Situation Explained

Montreal, June 21—At a meeting of the directors of the Canada Cement Company held this afternoon, the board authorized the secretary to give the following to the press: The question of the quantity of cement on hand and the difficulties of transportation were gone into. The official figures show that on June 12 the Canada Cement Company had on hand 1,085,903 barrels of cement. On the same date unfilled orders west of the Great Lakes amounted to 149,214 half-barrels, of which quantity 60,707 barrels were in transit. On the same date the company was short 300 cars and their deliveries at the head of the lakes by boat were 182,254 barrels less than the company had planned and was prepared to ship, this shortage being caused partly by the late opening of navigation, interruption of the Cornwall Canal, the slow dispatch steamers have this year been receiving at the terminals and by water transportation companies not supplying a sufficient number of steamers. Having in view the growth of the West and to assist the transportation companies, the board has authorized the building of four steamers for the company's use. The consumption of cement in Canada for the year 1911 was 6,309,717 barrels. The capacity of the Canada Cement Company's present mills is 10,000,000 barrels per annum, which capacity is being increased as rapidly as the market justifies.

The "Sugar Bowl" ice cream is unsurpassed.

Closing Out Sale at McLennan & Co.'s is now on. See their advertisement.

Serious Accident

Mr. Jackson, bank manager, Princeton, met with a severe accident on Tuesday, receiving injuries to the chest, through the overturning of his auto. He and a party of friends were out for a tour in the car; which he recently purchased for $5,000. When this side of Canyon House it ran into a heap of sand, skidded and rolled over the hillside about ten feet. None of the party were hurt, except Mr. Jackson, who was pinned under the car which rested on his chest. Nothing could be done by his companions to extricate him, and he remained in that position for three hours, until assistance arrived.

Doctors were sent for and he was removed to Princeton, where he lies in a serious condition.—Princeton Herald, May 22nd.

The Man of Forty-Five

"Among the men I hire, nine out of ten are better workers at 45 years of age than are men of 25 or 30" declared the secretary and manager of a Chicago commercial house. They believe that the man of 45 or thereabouts is in the prime of life, physically and mentally. Men of mature years are more reliable, he avers, more trustworthy, and are not apt to be possessed of that restlessness and indecision which so often characterizes youth, and which leads younger men continually from one position to another. The average young man in business, he holds, is always seeking a "soft snap" job, and is not content with sticking it out with an employer through thick and thin, until his best services become highly valuable and perhaps indispensable.

MUSIC—Miss Johnson, pupil of A. Miller, F.R.A.M., London, is prepared to take a limited number of pupils for tuition in music. For terms apply at the residence of J. K. Johnson, first house west of the hospital, First street.

108 Cheques Will be Distributed Among Canadian Farmers. Will You Get One of Them?

In addition to the twenty-seven first prizes of $50 each, there will be eighty-one other cash prizes, ranging from $10 to $25 in our

1912 PRIZE CONTEST FOR FARMERS

This contest is along the same lines as the one which was so successful last year, except that there are three times as many prizes, and therefore three times as many chances for each contestant to win. Every farmer in Canada who uses "Canada" Cement is eligible to compete. The conditions are such that large and small users of cement have equal opportunities to win a $50 prize.

The contest is divided into three classes, and there are first, second, third and fourth prizes ($50, $25, $15 and $10) in each class.

CLASS "A"—Prizes to be awarded to the four farmers in each province who use most "Canada" Cement on their farms in 1912.

CLASS "B"—Prizes to be awarded to the four farmers in each province who send photographs of the best concrete work done with "Canada" Cement on their farms in 1912.

CLASS "C"—Prizes to be awarded to the four farmers in each province who send the best description, telling how any piece of concrete work was done with "Canada" Cement. (Entries for this prize must be accompanied by photographs of the work.)

In addition to thus being divided into classes, so as to give small users of cement an equal chance with those who use more, the Contest is also divided into nine divisions, one for each province. So you see you need only to compete with the other farmers of your own province, and not with those all over Canada.

Don't think that because you have never used cement, you cannot win a prize. Many of last year's prize winners had never used cement before they entered the Contest. We will send you a free book, "What the Farmer Can Do With Concrete," that will not only help you in the Contest, but will tell you everything you could want to know about the use of cement on the farm.

Don't delay, but send us your name and address to-day and get this free book and full particulars of the Prize Contest right away.

Use a letter, postal or coupon.

Send me particulars of your 1912 Prize Contest.

Address Publicity Manager
Canada Cement Company
Limited
501 Herald Bldg. - Montreal

A free book, "What the Farmer can do with Concrete" will be sent to all who request details of the Prize Contest.

REID & YOUNG

THE CITY IN BRIEF

The thermometer for the past five days has ranged around the 100 mark

See the half price Dress Goods at McLennan's Closing Out Sale.

Mrs. Jack Stewart came in from Three Valley this week on a short visit to relatives.

The fair sex are not the only people in Revelstoke who wear shirt waists these sultry days.

This afternoon all the stores will close from 3:30 to 4:30 during the funeral of the late Mrs. F.H. Young

A meeting of the Agricultural Association is called for June 27th, at 8 o'clock, in the City Hall. All members are requested to attend.

Don't forget the Lawn Social on the Methodist church lawn, tomorrow afterooon and evening. Band in attendance in the evening.

Mr. W. Shuttlewood received this week a pair of Norwich canaries. They were twelve days on the trip and arrived in good condition. They are a typical pair.

It is expected that at least a dozen citizens will leave tomorrow for Calgary, to attend the Panama Canal conference. Quite a number have signified their willingness to go.

Preparations are rapidly nearing completion for the big athletic meet under the auspices of the Y.M.C.A., on July 1st. All those interested in outdoor sports are sure of witnessing the best that can be produced in the interior.

Don't forget the baseball match this evening, on McKenzie avenue recreation grounds, at 6 o'clock, between the C.P.R. and Progress ball teams, under the auspices of the Progress Club. This game is for the championship, and a good game can be relied upon.

All subscribers who have paid subscriptions to the Mail-Herald during the present voting contest. That the contest will finally close on July 6 next and that immediately after that date when the contestants will have completed their records. The names of the new subscribers will be added to the subscription lists, and they will thereafter receive the paper regularly each issue.

Two hundred and twenty-six revolutions per minute is the time and velocity claimed for the Gloomy Glooms dance, a feature of "The Flirting Princess" in which Mort H. Singer is offering Harry Bulger as the star this season. If that energy were bottled it would run a railway train from New York to Chicago — just the energy used in ten minutes of the dance. Harry Bulger in "The Flirting Princess" will be seen at the Empress theatre on Saturday night, June 29th.

SEEDING TIME

As the time has arrived when you must do your seeding, we wish to draw your attention to the fact that our seeds are all fresh and new stock—not any old ones left to sluff off. Our Onion sets are the best, either the Dutch Set or the Multipliers.

FLOUR AND FEED—We have just unloaded one car of Purity Flour, One Car of No. 1 Timothy Hay, One Car Feed, including Oats, whole or crushed, Wheat, Barley, Corn, Bran, Shorts and Chops. If you require any of these, let us quote you prices. We Can Save You Money.

A. HOBSON, - MacKenzie Avenue

What Protection Have You in Case of ACCIDENT By Sea or Land?

Drop in and we will explain our Improved Gold Bond Accident Policy, double liability, only costing $30 a year, $5,000 on life and $10,000 double liability, paying $25.00 weekly indemnity.

KOOTENAY AGENCIES LIMITED

New Cut Skirts at New Cut prices at McLennan's.

Young Alfred Tapping had a miraculous escape from death a few days ago. It seems that young Tapping was up the Jordon Pass when a stray bullet struck his hat making a scalp wound. The shot, it has been learned was fired by a boy. This instance where an untimely death was narrowly averted, should act as an additional warning to youths and their parents, who allow their sons to carelessly use firearms.

$10 Reward

Ten Dollars Reward will be paid for information that will lead to the conviction of any party stealing roses out of my garden.

W. E. McLAUCHLAN.

Can the System Stand It

Will the United States system of government be able to withstand the shock and tumult to which it is subjected by the presidential elections?

The present struggle at Chicago closes a furious contest, which has raged for three months all over the Union, but the Chicago convention, after all, merely nominates a candidate for one of the great political parties.

Within a fortnight the struggle and excitement will be nearly as intense, but the theatre of action will be transferred to Baltimore, where the Democratic convention will assemble to select a rival candidate for president. It is too early now to predict the probable outcome of the struggle between Mr. Taft and Colonel Roosevelt, but there may be yet a third convention. These conventions pave the way to a national struggle which almost paralyzes business, excites the people everywhere and creates tumult and confusion until the popular election in November. But even this does not of necessity close the struggle. Should there be three candidates it may happen that no one of them will have an absolute majority over all the others combined in the electoral college, and this will mean that the election will be thrown into the house of representatives. The house has already been compelled to elect on two occasions, and on each occasion the contest was unseemly and prolonged for weeks.

The presidential office is becoming so important—for the president combines in himself all those powers which in British Countries are divided between the crown and the prime minister—that the struggle for its attainment becomes every term more violent. Thus the people of the United States are thrown into a state of nervous excitement, bordering at times and in places on frenzy, only for the purpose of electing a chief magistrate who will serve the short period of four years.

And the most sinister side of this situation is the undue prominence and power attained by undesirable elements in the community. Many of the delegates at Chicago from the rotten boroughs of the black belt, representing in reality no constituency would not be entrusted with any responsibility by private business men, and yet they may be entrusted with the responsibility of naming the chief executive ruler of ninety million of people.

President Taft has lowered the dignity of his office by his unseemly scramble for another term, and Ex-President Roosevelt may in a way be criticized for lack of decorum in his efforts to succeed Mr. Taft. But the conditions in the United States are such and the crisis at hand so momentous, that Theodore Roosevelt as a patriot is justified in taking extreme measures and extraordinary action to bring about his own election to the presidency, since there is no one else who will undertake, or promise to undertake, the great work which he is able and willing to perform.

Royal Commission

Vancouver, B.C., June 24, 1912.
Messrs. Revelstoke Herald,
Revelstoke, B. C.

Gentlemen,—At the request of Mr. A. Lucas, M.P.P. for Yale constituency, I enclose herewith a memo re the questions which he considers should be dealt with by the Royal Commission shortly to be appointed.

Mr. Lucas justly considers the question of financial aid from the Provincial government to intending settlers, etc., a most important one and is endeavoring to interest farmers and others, in all the ranching and farming centres of this province, in the questions as set forth in the enclosed, with a view to getting their opinions expressed through the medium of the Press, and would like you to invite correspondence.

Yours truly,
G. A. C. COWPER.

QUESTIONS THAT SHOULD BE INVESTIGATED.

1.—The best methods of clearing land and bringing it under profitable cultivation.
2.—The best methods of settling land for the promotion of mutual convenience, and easy administration of the communities so formed.
3.—The best methods of securing co-operation among settlers in regard to products of dairying, poultry raising and fruit-growing, and for the marketing of the same
4.—The best methods of improving facilities of local transportation.
5.—The question of better financial facilities for farmers, and the provision of cald storage and other modern facilities necessary for the assistance of agricultural development.
6.—The conditions affecting the labor market and an inquiry into the solution of the problems presented.
7.—Immigration, and how best to promote it with a view to settling up the lands, and the countries from which the supply of Immigrants should be drawn.
8.—An inquiry into the desirability of employing companies to undertake the settlement of lands upon conditions imposed by the government, and the nature of such conditions.
9.—Agricultural education in schools, the location of experimental stations, and rural education generally.
10.—An inquiry into the quantity of Land close to transportation facilities that could be made available for cultivation by clearing of trees and stumps, and by irrigation.
11.—All other information of a useful and pertinent character connected with the improvement and development of the agricultural industry in British Columbia.

Wedding Bells

A quiet but very pretty wedding took place at 9:30 yesterday morning at the Roman Catholic church, when the contracting parties were Mr. A. C. Yader of Nakusp and Miss Valeric Monica McGrady of Toronto, Ont.

The ceremony was performed by the Rev. Father McKenzie, in the presence of only a few immediate friends of the contracting parties. The bride looked charming in a travelling fawn suit with a picture hat to match.

The bridesmaid was Miss Julia McGrady, sister of the bride, who wore an all-over lace embroidery dress, with hat to match, while Mr. R. E. Allen of New Denver, was groomsman.

The happy couple left on the afternoon train yesterday for Banff and other points. On their return they will take up their residence at Nakusp, where the groom is the Canadian representative of the Lindsay Brosf Company of Spokane.

Bonusing Babies

Sydney, June 22—The Commonwealth government has inaugurated a bonus system for all babies born in Australia. The bonus for each child is to be $250.

Lawn Musicale

At the home of Mr. and Mrs. Bell Third street, west, the grounds were beautifully decorated and lighted on Wednesday evening last for the lawn musicale given by the Schuman Club pupils of Mrs. Hermann McKinney.

About three hundred friends of the club had assembled about eight-thirty and everyone pronounced the recital a success in every way.

Mrs. McKinney is the pioneer in the good music movement in Revelstoke and is entitled to the respect and confidence of all our citizens.

She is to be congratulated upon being the fortunate instructor of so talented a class. Music of all grades up to senior made up the numbers on the unique programs in the Club's colors, blue and gold. We hope to be present at many more musicales given by this talented club.

Fighting Fruit Pests

The Department of Agriculture has secured the services of Mr. F.E. West fellow of the Entomological Society, and fellow of the Zoological Society at one time government entomologist to Ceylon, to deliver addresses to the forthcoming meeting of the Fraser of horticulture gt Salmon Arm on June 13, and to the directorate of the B C. Fruit Growers' Association the following day.

Mr. West who has done much of his work under the English Colonial office, has had experience of combatting and the prevention of pests in many lands. He has studied in Egypt, of the rubber tree in West Africa, and the fruit pests of the Australian continent and is convinced that while remedial measures are necessary sary at certain stages of a disease, the evil may be more easily and satisfactorily prevented by the more scientific treatment of the soil prior to planting a crop.

Mr. West believes that entomology is a necessary supplementary study to entomology in dealing with fruit and vegetable pests, and that greater knowledge of the condition of the soil is preliminary to success in growing a good crop.

Classic Shoes for Children. The best made at cut prices at McLennan's.

Guaranteed Kid gloves, all colors, all sizes. Special prices at McLennan's Closing Out Sale.

FOR SALE—Several loads of light kindling wood. Apply to Revelstoke Sash and Door Factory.

Others Are Making Money! Why Not You?

Just read of a few instances of how successful our clients have been in recent investments recommended by us. We made for one Revelstoke man in five weeks on

A Cash Outlay of $375; A Net Profit of $475

Another client, investing 120, made a net profit of $100 in four weeks, and two other men in six weeks on an outlay of $285 each, made a net profit of $265 each. We have made good money for t Revelstoke businessmen.

WE CAN DO THE SAME FOR YOU

Last week we sold out the balance of our 175 dollar lots in Moose Jaw and have secured a few more closer in at the original price of $200 each, which our sales manager, who has just returned from Moose Jaw, informs us is at least $50 under market value. Two new railroads, locating in the east end, are causing big advances and we are expecting a big price advance very shortly.

These Lots are Only One and a Quarter of a Mile East of Post Office.
They Are Recommended By Us As a Bargain
