BIG BLAZE AT VICTORIA

Two whole Blocks Entirely Destroyed—Three Other fires Started by Flying Embers Loss Estimated at $100.000

VICTORIA, B. C., July 24.—A fire which started in a blacksmith shop on Store street yesterday was fanned by a high wind and got beyond control of the firemen. In the entire block bounded by Store, Chatham, Discovery and Douglas streets, nearly all the shacks were burnt over. The fire then crossed Douglas street and burned fiercely in the block opposite.

Shortly after the first fire broke out three others were reported, having been caused by flying embers. One on Discovery street, above Douglas, got away from the firemen and destroyed the St. John's school and all the residences up to Blanchard street. Calvary Baptist church and St. John's rectory were also destroyed.

The third fire started two blocks further away on Quadra street in the middle of a thickly populated section, and with this outbreak the firemen were unable to do anything.

At six o'clock last night the fire had practically burned itself out. A change in the direction of the wind saved St. John's Church, but Calvary Baptist Church was burned to the ground.

The burnt areas are bounded on the west by Store street, on the south by Discovery and Pioneer streets, and on the north by Chatham and Green streets, and extends to near Cook streets, five blocks back from Store street.

A few houses are still standing in some of the blocks but the fire made a clean sweep of two blocks. The loss will not likely exceed $100,000.

A NARROW ESCAPE

Liner Hits Iceberg in Mid-Ocean.

NEW YORK, July 23.—With more than a thousand passengers on board, the Kronprinz Wilhelm, one of the crack Atlantic liners of the North German Lloyd Line fleet, from Bremen struck an immense iceberg while in midocean on her last voyage.

The steamship was only slightly damaged. She struck the berg a glancing blow and was running at reduced speed at the time in a heavy fog. The crash was enough to bring the steamship to a sudden stop, however, throwing the passengers to the decks and causing the most intense excitement.

Women in the steerage knelt on the decks and prayed, while others screamed and fainted. The ship's officers did their utmost to quiet the confusion, but were unable to do so for several hours.

The collision occurred when the vessel was practically in midocean. Captain Richter said that the iceberg lay low in the water, which accounted for the fact that the echo of the fog-horn was not heard, something which sailors always listen for in a fog.

The vessel was delayed for about fifteen minutes. When she arrived at her pier it was seen that the paint on the port bow was scraped off. The Kronprinz Wilhelm is the first steamship, it is said, that has struck an iceberg and stayed afloat.

APPOINTED COMMISSIONER

W. J. Bowser Swore in Yesterday as Chief Commissioner

VICTORIA, July 23.—Mr. W. J. Bowser, M. L. A., is coming to Victoria this evening to be sworn in as Chief Commissioner of Lands and Works in the McBride cabinet. In the absence of the Lieutenant-Governor in the east, the oath will be administered by Chief Justice Hunter. Mr. Bowser will take office immediately.

The by-election at which Mr. Bowser will seek return at the hands of his constituents in Vancouver will occur next week. Mr. W. M. McKay, barrister, of the firm of McKay & O'Brien, will be returning officer. Victoria Liberals regard it as unlikely that there will be any opposition to Mr. Bowser, for his strength in the Terminal City is well known and appreciated here.

THE LATEST TELEGRAMS

Railway Commission to Meet in Vancouver—An Awful Revenge—Hon. Frank Oliver Coming West.

VANCOUVER, July 24.—Communications were received in the city yesterday afternoon to the effect that the Railway Commission will sit in Vancouver on July 31 at 10:30 a.m., for the consideration of various questions affecting Vancouver.

COPENHAGEN, July 24. Grief stricken by the receipt of a notification that her services would not be required after the end of the month, Mrs. Nielson, housekeeper for a landowner named Ulkajaer, of Jutland, yesterday hanged three of her employer's children as well as three of her own, and then killed herself by hanging.

OTTAWA, July 24.—Hon. Frank Oliver has left for the west. He will spend some time in Winnipeg, Calgary and Edmonton and will afterwards visit British Columbia on matters affecting departments.

SEATTLE, July 24. — Official announcement of increase in lumber and shingle rates between the Pacific coast and Chicago, St. Paul, Kansas City, Omaha and St Louis, was given out yesterday by the Transcontinental Great Northern bureau.

VICTORIA, July 24.—The sockeye run has begun in earnest. Yesterday Todds lifted nine thousand sockeyes and one thousand springs out of the Otter Point trap, and Findlay, Durham & Brodie estimate there were twenty thousand in their traps, although no lift was taken.

VICTORIA, July 24.—Historic Esquimalt may again flourish, as apparently the British naval authorities promise to again make it a naval base. The announcement is made here that the British have decided to store twenty-five thousand tons of Cardiff smokeless coal at Esquimalt as a precautionary measure. The first two shipments are already en route.

FATAL TRAIN WRECK

Thirty-one People Killed and Seventy Injured.

SALEM, Mich., July 23.—Thirty-one people are dead and more than seventy are injured, many of them seriously, as the result of a head-on collision on Saturday between a Pere Marquette excursion train, bound from Ionia to Detroit, and a west-bound freight train on a sharp curve in a cut of the Pere Marquette shops at Ionia and their families to the Michigan metropolis, for their annual excursion, was running probably 50 miles per hour down a steep grade. It struck the lighter locomotive of the freight train with such terrific force as to turn the freight engine completely around. Both locomotives were wrecked, but only a few of the freight cars were smashed. Six cars of the passenger train were piled up in a mass. Four of the coaches remained on the track undamaged, and were used to convey the dead and injured to Ionia. One coach was entirely undamaged, two were thrown crosswise on the track and lay from bank to bank five feet above the rails. Of the baggage car, not enough remained to show where it had been tossed. There were about 35 injured on each train. Late in the day, the body of Corwan, head brakeman of the passenger train, was taken out of the wreck. Fireman Knowles died en route to Detroit This swells the list of dead to 30, with a possibility that more bodies may be found in the wreckage and that several of the injured may die.

Responsibility for the wreck is placed upon the crew of the freight train by officials of the road.

Officials, who arrived at the scene soon after it happened, obtained from the crew of the freight train the orders under which it was running, which clearly show that the freight encroached upon the other train's running time.

The funeral of the late James Graham, son of Mrs. T. J. Graham, of Kamloops, took place Monday afternoon in that city Rev. W. A. Calder of Revelstoke officiating. The deceased who was only 25 years of age, met his death while on duty at Garrison, Montana, on the 17th inst. The spreading of a rail caused the locomotive to turn turtle, poor Graham unfortunately going down beneath the wreck. His fireman escaped unhurt. The funeral was largely attended and was under the auspices of the B. L. F. & E, The family are well known in Revelstoke, owning property and residing here for many years.

TERRIBLE CALAMITY

Passenger Steamer Collides with Schooner in Fog—Goes Down in Five Minutes—150 Lives Lost.

SAN FRANCISCO, July 23.—As the result of a collision in a fog off Shelter Bay, near Eureka, at midnight on midnight on Sunday between the passenger steamer Columbia, bound from San Francisco to Portland, and the steam schooner San Pedro bound from Eureka to San Francisco, 150 persons were drowned. The Columbia carried some 300 passengers and crew.

When the collision occurred all on board the Columbia, except the look-out and the officers on the bridge, were asleep in their berths. The Columbia was steaming north at an easy rate having left San Francisco at noon on Saturday. Suddenly, out of the fog, loomed the dark hull of the San Pedro, south bound and evidently out of her course. Whistles were blown and frantic efforts made by the helmsmen of both vessels to avert collison, but these were of no avail. The San Pedro struck the Columbia on the port bow, tearing an immense hole in her side, through which the water poured in great volume. Alarms sounded through the passenger steamer, and the terrified passengers scrambled from their staterooms and rushed on deck in an effort to escape from the doomed vessel. The Columbia sank five minutes after she was struck, and the loss of life was appalling. The death list will reach 150. Every woman is reported to have perished. Captain Doran, master of the Columbia, stood by the steamer to the last, and was among those who were drowned.

A raft was launched with a number of passengers on board.

The Columbia lies completely submerged in the deep waters of Shelter Cove. The passengers were nearly all coast people.

SUPERIOR IMMIGRATION.

Good Class Coming into Canada

OTTAWA, July 23.—"The striking feature of British immigration to Canada this year is the comparative superiority of the immigrants leaving British ports, destined for the Dominion as contrasted with those bound for the United States," says J. Bruce Walker, chief Canadian immigration agent in Great Britain. Mr. Walker came to Canada from London last week on departmental business. He was enthusiastic in describing the success attending the Canadian immigration propaganda in the mother country this year. Efforts are being devoted chiefly, he said, to promoting immigration from rural England, Scotland and Ireland.

The classes especially needed in Canada are those adapted to agricultural pursuits and acting under instructions from the department here, the immigration agents in Great Britain are not paying much attention to the cities but are devoting most of their energies to getting immigrants from the rural sections. Northern and northwestern England are at present furnishing the largest supply. English and Scotch immigration to Canada this year to date, shows an increase of over 50 per cent as compared with last year.

Speaking of the character of the reports sent back from Canada to Great Britain by immigrants, Mr. Walker noted that the immigration agents now rarely have to reply to the exaggerated statements of hardship, etc., made in letters to the press by disgruntled immigrants here. The next mail from Canada usually brings a letter from some fellow immigrant refuting their mis statements and advertising the advantages of Canada. Some of the letters sent to the British rural press from Canada are ridiculously false.

Mr. Walker instanced letters which appeared this last spring telling of how immigrants had been chased through streets of Winnipeg by wolves and declaring that hundreds of Englishmen had been found dead on the prairies in consequence of the severity of the winter. These frequent misstatements, frequently sent from Canada, libelling Canada, have been brought to the attention of the minister of justice and it is probably that legislation will be introduced at the next session of parliament making it a punishable offence to wilfully slander the country in the press of other lands.

WEDNESDAY, JULY 24, 1907

THE MARCH OF PROGRESS.

The result of the polling yesterday for the bylaw authorizing the pledging the credit of the municipality at large as security for the municipal debentures to be sold in order to install an auxiliary power plant, was satisfactory, and is a fair test as to the channel in which public opinion is running in regard to this most important move on lines of municipal improvement. The Revelstoke public, knowing so well the facts of the case and well aware of the condition under which the city can raise money for this great work, have shown their business ability and long sightedness in agreeing that the time for additional power and light machinery has arrived as a necessity to the city. The inconvenience and drawback of dark winter nights without lights will be avoided, and a city that is well lighted will create a more favorable impression than one in semi-darkness. It will now only but a short time before the C. P. R. has given its definite answer accepting the rate offered, viz.: 2½c for power and 5c for light, which has been referred by Mr. Busteed to Mr. Cross at Winnipeg. With the debentures sold and the plant well under way and the C. P. R. as first customer, the outlook is very promising. The few who tried to defeat the movement at the polls, and who possibly have the least to do with the question, would probably oppose any progressive scheme for mere contrariness and allow the city to jog along anyhow. It is gratifying to see that Revelstoke is at last beginning to awake to the conception that she is on the eve of a period of prosperity and that municipal development and progress of such a nature will work wonders in enlarging and enriching our city. The reduction of light rates to the people has been promised, so that the people individually as well as collectively will benefit by the scheme. The majority was an excellent one for the number of votes polled, and a good test of those who take interest in public matters. The absence of the citizens round the city hall during the poll counting was very noticeable, which sad feature denoted a strain of apathy running through the people. Although the opinion has been voiced very little interest was taken apart from actual voting, and the sooner Revelstoke gets a hustle on, rubs the sleep out of her eyes, and devotes her interest and energy which the city development ought to arouse in her, to pushing herself ahead, all parties sects and circles pulling together, the better for the community. Let the blood of impulse, energy and enterprise be stirred in us; let us put our shoulder, each and every one of us, to the wheel and keep going; let us hold the destiny of our city first place in our lives, and very soon the attainment will be reached. Apathy in civic affairs is only too evident in our midst and this lamentable fact is only alleviated by the few who get out and work for the good of the community. Until each and every citizen thoroughly understands what devolves upon him or her as a citizen and acts up to their obligation, there can never be that solid unanimity of purpose which is so essential to the well being and progress of a city.

DUTY OF THE MONEY MAKER.

The man who makes money in a community, has a duty to perform to that community. It may be that he has made his money by his superior business ability and that he would have done as well anywhere. That does nos alter the case. If his gifts are great, his responsibility is equally as great. No man was placed on earth for the sole purpose of making money and the man who has this as his ideal had better never have been born, for inspite of the allurements and fascination of making money, there is much that it cannot buy. It is not an act of charity, but the performance of a simple duty for the man who has made money to pass a little of it on for the benefit of the community in which he has made it, and which maybe has helped him to make it, even though he never expects to see a dollar of his contribution back.

CORRESPONDENCE

Sunday Target Shooting.

Revelstoke, July 22, 1907.

Editor MAIL-HERALD.

SIR,—Will you allow me, as one of the Canadian militia, to make a few remarks re the letter of "Amicus," in your issue of Wednesday last, and in justification of Sunday target practice.

I would first ask why the crack of the rifle is more annoying than the incessant and ear-piercing screams of engine whistles, and the distracting sounds of the bell, which are heard throughout the day and night?

Then I would point out that Sunday is the only day on which many of us workers can spare the time for the necessary practise of shooting, to qualify us to protect our citizens and town; and should occasion arise, and an enemy attack us on a Sunday, I do not think that "Amicus" would object to our shooting, in church time or otherwise. Many of us, whose work is most arduous during the week, cheerfully forego our much needed extra hours in bed on Sunday morning to try and make ourselves proficient to carry out our obligations to king and country, and it is only by constant practice that we can hope to do so. Several of the most important battles in South Africa were fought on Sunday, when, no doubt, "Amicus" was enjoying his tea and toast in bed, while we were face to face with death.

We indignantly deny that by shooting on Sunday we interfere with anyone's rights, Christian or otherwise, and instead of wishing to hurt and annoy anybody, our sole wish is to bring our shooting up to the highest possible standard, so that we may be prepared to defend our beloved country in war, or compete, in times of peace, with other cities, to the honour of Revelstoke and our corps. If "Amicus" will read the English papers he will see that Private Fisher, of the militia, is now competing for the King's Prize at Bisley, and has already won several prizes, and Fisher gained his experience by shooting at the range here at Revelstoke on Sundays.

"Amicus" winds up his most selfish letter by what we consider a mean and contemptible remark about our C. O., but we take it from whence it comes, and if "Amicus" is such a devout Christian that his morality is shocked by the crack of a rifle, why does he hide his identity under a nom de plume? Surely this is the way a coward attacks others, but as one of the militia, and a Sunday shooter, I am proud to sign my name,

CHARLES G. WHEELER,
Sergt.-Major.

BEWARE OF FRUIT

Strawberry Acids are Said to Affect the Temper.

LONDON, July 23.—Hygienists who delight in raising alarms against popular foods, are now tilting against strawberries. These are accused of having a bad effect upon the tempers of their eaters, who, it is alleged, become sulky and irritable after eating them. A hygienist is quoted as saying that ladies are particularly susceptible in this respect. Some of them will eat a pound or more of strawberries at a time, and then become so morose that people are glad to avoid them. The fact is, they are physically ill without knowing it. They are suffering from the strawberry disease, the symptoms of which are slight dizziness, a desire to be alone, and intolerance of being questioned. The strawberries which have the worst effect are the large ones. The small kind are usually harmless. The trouble is ascribed to the strawberry acids. Indeed, the fact is they are physically ill without cream or sugar, and nobody should eat more than a dozen at a time. Eustace Miles, the tennis player, as a vegetarian dietist, confirms the danger to some persons from strawberries. He says they contain three acids, phosphoric, sulphuric, and silicic. He believes that the last named causes the trouble. In addition to irritability, sufferers have strawberry rash, and strawberry headache.

End of day in ordinary fatiguing shoes

WON'T TIRE YOU
IMPROVEMENT NUMBER FIFTEEN

You can't stand in one position five minutes without tiring. You can't lie long in a plaster jacket without tiring. You can't ride many hours in a train without tiring. And you can't walk any distance or stand any time in hard, stiff, rigid, shapeless, ordinary shoes without tiring.

Why? Because anything that confines the muscles and hinders or impedes freedom of muscular action produces fatigue. Want to know how tiring your ordinary shoes are? Well, just pull them off after a strenuous day and note the soothing, relieving, refreshing sensation that creeps over the body.

Foot-rites are built with six ingenious devices to give the feet absolute liberty of muscle action, viz:

With Plumb-Line Level Heel and Sole to keep heel and ball on the precise level Nature intended, which gives foot bottom freedom.

With Unwarpable Soles to insure the feet lying free and flat instead of pinched and curled up.

With Toe-Freedom, Uncollapsable Box Toes to allow the toes barefoot freedom.

With Hurtless Instep Seams and "Won't Blister" Hooks and Eyes to promote freedom in the uppers.

With "Normal-Calf," almost as soft and supple a the calf's live skin, to provide a pliant, yielding, freedom-feeling canopy over the feet. And with Easy Insides, formed exactly the same size and shape as the feet which inhabit them, to eliminate pinching, squeezing and binding and give the foot muscles free, unconfined, natural action. These insides are produced by Foot-rite Foot-Sculptured Lasts.

The Foot-rite retailer in your town will prove the free muscle action feature and consequent "Won't Tire You" improvement of Foot-rites, if you'll call on him. You'll find his name below and his door swinging inward but never outward to find a more welcome store.

Anywhere in America, Canada or Great Britain—$4.00 and $5.00. Every pair Goodyear Welted.

A VERITABLE WONDERLAND

Mt. Victoria Park an Ideal Spot—The Garden in the Clouds—A Good Trail is Necessary.

Cool and unpeopled places are rare. None lie outside Canada except those too distant for summer vacation. Why go to the Rockies to spend your hard earned dollars? Why fritter away your income on the coast cities? Why leave your home city to seek afar the glories of the chase, the thrill of the whirling reel, the coolness of the sombre mountain ravine and the shade of the mighty forest, when not half a dozen miles back behind the hills that guard our city lies spread out in all its grandeur, as if nature herself was waiting for the supreme head, the arrival of man, to rule over her, a vast natural park of over 2,000 acres, a plateau of gently undulating land, carpeted with soft-emerald green, dotted with clumps of evergreen, and here and there stately pines and firs rearing their noble heads, casting shadows o'er the ragged boulders of the ravines and affording restful shade for the climber? Who, after the toil of the first ascent, through brush and over crag cannot but marvel at the wonderful panorama which unfolds itself before him as he casts himself down on the green sward among the pink and white heather, on the summit of this beautiful plateau on Mt. Victoria and drink in the pure air of the mountain. To the north-east stretches out the valley of the Illecillewaet River with the silver streak glistening in its deep canyon, rushing in its mad course to the Columbia; and glistening in the sunlight the rugged sister peaks of Twin Butte rearing their heavy summits to the clouds. To the north lie the headwaters of Eight Mile Creek, where the scene is split up into glaciers, deep ravines, high precipices, and lofty crags and peaks. Here can be seen the beautiful Silver Tip Falls, one of the most magnificent sights in this region. Away in the northwest rolls the mighty Columbia visible for forty miles winding its way through forest and canyon. To the west the heavy timbered depths of the Jordon Pass look dim and mysterious, perpetual gloom having its abode on the dark green slopes and abysmal gullies- while to the south, in marked contrast rise in majestic grandeur the snow clad peaks of Mt. Begbie, until recently a virgin stronghold, untouched by the foot of man, and Mt. McArthur, the glaciers near the summit glistening in the rays of the sun. It is indeed a soul inspiring picture and all can be seen at our very doors. The climber after resting and filled with the sublimity of the scene will explore this magnificent natural park which is situated on the shoulders of the Clac-na-coodin Range on Mt. Victoria at an altitude of about 6000 feet above sea level. Here is an ideal spot for the summer camper, the heat of the valley by the altitude, where mosquitoes are unknown, and where one can ramble and walk for miles over, comparatively speaking, even country. Here are specimens of all the Canadian flora, here the geologist may find scope for his calling, here can the sportsman show his prowess, and above all the beautiful supply of water, the "water which made Revelstoke famous!" What more ideal spot could be found, go where you will, than this mountain park, within an hour or so of your city residence.

By spending a summer vacation here in this natural garden, the expense of rail or boat is eliminated, and the camper can find up in this vast park all the pleasures and attractions which make life in the open air so dear to him. The city of Revelstoke has not yet realized what she possesses almost in her midst, in this wonderful region. Facilitate the means of access to the summit bring it into public notice and endeavor to make this spot a centre of attraction to resident and visitor alike.

Another important point and one which is of interest not only to the citizens of Revelstoke, but to the whole province, one might say, and that is that game should be preserved and every facility given to the increase of that most valuable asset. At present cariboo are comparatively plentiful in and around the hills immediately behind the city and what stronger claim could we hold out for the preservation of game which is so near our homes. Thus our mountain park would have a grand additional attraction. By preserving intact the timber on the area of land to be reserved for park purposes, the water supply to the city will always be ample, which fact speaks for itself. Active steps have been taken by the Board of Trade who have approached the Provincial government for a grant to help construct a trail up the mountain. The city council have agreed to put up dollar for dollar with the government to carry out this work and now the year is drawing on and nothing has been of attracting visitors, of establishing another mountain resort, this matter should be taken up, and that soon. The construction of a road would be an easy matter, little excavating being necessary, and when accomplished—behold the result! our city would possess one of the finest natural parks in the Dominion and one which would prove a rare attraction to Revelstoke's already beautiful surroundings.

JULES VERNE OUT-VERNED

Even as things are, the Canadian highway has enabled a British officer, Lieut.-Col. Burnley Campbell, to encircle the globe in 40 days, 19½ hours, or just 39 days and a half-hour less than Jules Verne amazed his youthful readers by imagining. Here is no question of special trains or steamers, but the ordinary connections via Quebec, Vancouver, Yokohama, Vladivostok, and Moscow. The time table is as follows:

May 3 (7 20 p.m.), left Liverpool.
May 10 (3 p.m.), arrived Quebec.
May 10 (5 p.m.), left Quebec.
May 14 (5 a.m.), arrived Vancouver.
May 14 (12 30 p.m.), left Vancouver.
May 26 (5 a.m.), arrived Yokohama.
May 27 (7 p m), left Yokohama.
May 28 (9 30 a m), arrived Tsaruga.
May 28 (6 p.m), left Tsaruga.
May 30 (2 15 p m.), arrived Vladivostok.
May 30 (7 p.m) left Vladivostok.
May 31, arrived Harbin.
June 4, arrived Irkutsk.
June 10 (2 38 p.m.), arrived Moscow.
June 10 (6 p.m.), left Moscow.
June 11, left Warsaw.
June 12, left Berlin.
June 13, (11 a m). left Ostend.
June 13 (2.50 p.m.), arrived Dover.

The worst part of the journey was the 14 days and nights on the noisy, dusty, dirty Trans-Siberian railway; the best, that upon the Canadian Pacific system, on Atlantic and Pacific, and across the continent—'the magnificent steamers of the Canadian Pacific railway" were especially to the colonel's liking.—Canadian Gazette.

WEATHER FORECAST

Wednesday, July 24, for 24 hours—Cloudy with probable showers; variable light to moderate winds; temp.: max. 74 deg., min. 51 deg.

Local and General.

Lieuts. H. A. Brown and R. Smith, No. 5 Company, R. M. R., have been gazetted as captains.

The Independent Band will give an open air concert on Friday night from the Mackenzie avenue band stand, weather permitting.

Mr. and Mrs. H. Cunningham Morris spent two days this week at Glacier, visiting the Cheops Caves, the guests of C. H. Deutschman.

In the general aggregation at the annual shoot at Calgary, Capt. H. A. Brown obtained eleventh highest place, a highly creditable performance.

Frank Granat of Revel-toke has won one of the fifteen bronze medals, annually donated by the Governor-General for the Urban High school entrance examinations.

The fine new mill being constructed by the Columbia River Lumber Co., at Golden, is expected to be completed in two months. The new mill will have a cut capacity of 175,000 ft per day.

Through the kindness of Mr. Chas. J. Aman, the public school museum is in receipt of a handsome pair of young elephant's tusks and a tiger's tooth, all from the Kamerun region of Western Africa.

We have been favored with a cordial invitation from the president and members of the Ottawa Press Club to attend the Carnival Headquarters at Ottawa during the Summer Carnival, July 27 to Aug. 5, for which we extend our most cordial thanks, although it is unlikely that we shall be able to attend.

A correspondent to the Mining Review, Trout Lake, says that in a recent conversation with W. Whyte, 2nd vice-president C.P.R. he stated he would be very glad to see the link railroad from Arrowhead to Gerrard supplied, and it would be of great value to the C.P.R., ending at once the troublesome navigation of the Columbia and the heavy grade of the Nakusp to Slocan railway.

The committee of the Labor Day celebration, standing from last year, met on Monday night to discuss arrangements for the Labor Day this September. The present committee have a balance in the bank from last year and are now only temporarily in office in order to start the movement afresh. It was decided to hold a public meeting tomorrow night in the Band room, over the Customs house, at eight o'clock, and then let public opinion say as to what they wish to be done this year.

DRUG STORE BABY THINGS

Baby's Drug Store Needs are carefully supplied at Bews'.

We have special stocks of Talcum Powders, Nipples, Soothers, Feeders, and Foods, such as baby requires.

First Quality and Absolute Freshness are distinctive features of Bews' Baby Goods.

W. BEWS. Phm. B.

Druggist and Stationer.

Mail Orders promptly attended to at this Store.

T. A. Stephens, a well known real estate agent at Edmonton, died suddenly on Sunday night at his residence Cooking Lake, Edmonton. The deceased was well known in business circles here.

The shingle mill at Annis, near Sicamous, Lake Shuswap, which was dismantled some time ago, is being fitted up as a sawmill. The machinery is on the ground and a staff of men are putting things in shape for its installation.

A special meeting of the Lord's Day Alliance Executive was held in the City Hall last night. It was decided to ask the Board of Trade to co-operate in an effort to put a stop to the practice of rifle-shooting on Sunday, also to petition the City Council to enforce the Sunday closing by-law.

A thunderstorm of exceptional violence raged over the city yesterday evening, the storm centre travelling round the mountains and clearing eastward. The lightning display was extremely vivid. The operator at station near Palliser was struck and severely burnt, the station house being burned to the ground.

Boys who indulge in the practice of bathing in the city water supply dam should take warning that the city authorities will deal very severely with any offender caught in the act. This practice has been carried on this summer, and is disgusting in the extreme. The city has now taken steps to clean the dam out thoroughly and replace the screen in front of the outlet pipe.

Hec McKinnon, well known in Revelstoke and equally well known in railroad circles, has purchased the Revelstoke Cigar Store, on Mackenzie Avenue, having taken over the business formally on Monday last. Mr. McKinnon is popular amongst the boys and will no doubt make his venture a good paying concern. The new proprietor intends to make extensive alterations and additions to his premises, fitting them up in good style and doing everything necessary for the carrying on of an up-to-date cigar store and pool rooms. The stand to henceforward be called the McKinnon Cigar Store.

Social and Personal

H. G. Parsons, M.P.P., at Golden, is in town to-day.

Thomas Taylor, M.P.P., left for Victoria last night.

Mrs. McLennan is making an extended visit to St. Leon.

Bishop Dontenwill, of New Westminster is visiting in the city.

Mr. and Mrs. J. A. McDonell left this morning for a visit to Banff.

S. Phipps, master mechanic C.P.R. at Vancouver is in town to-day.

Mr. and Mrs. F. B. Lewis returned this morning from a tour of the Coast cities.

R. Tapping returned to the city yesterday after an extended visit to Alberta.

F. W. Aylmer, Dominion Government engineer, has been looking over work at Salmon Arm and other points west.

Sam Sutherland has left for Ferguson and will take charge of the business there, during the visit of J. McKinnon to Revelstoke.

LADIES HIGH CLASS TAILORING

J. M. Morrison, of the firm of Cressman & Morrison, who left for the east two weeks ago on a buying trip, will visit the leading American and Canadian fashions centres in search of new ideas in dress for men and women and it is safe to predict that autumn styles will be shown here at Cressman & Morrison's simultaneously with their introduction to the eastern public. Cressman & Morrison will open in a few weeks one of the swellest ladies tailoring departments from coast to coast.

FATAL ACCIDENT

An Old Man Meets Death Under Locomotive.

A fatal accident occurred shortly after one o'clock yesterday afternoon, at Arrowhead, when old Mr. Crawford was knocked down by a locomotive while crossing the track and instantly killed. It appears that the deceased, who is a very old man was walking slowly across the track when a yard shunting engine which was backing up, struck the old man, knocking him down, the wheels passing over his body, death being almost instantaneous. It is supposed that Mr. Crawford did not hear the locomotive bell or else was too slow in clearing the metals. The deceased was well known in Revel-stoke and throughout the whole district, and owned a ranch three miles this side of Arrowhead.

EIGHTY-THREE CHINESE PAID

Federal Treasury Enriched by Forty Thousand Dollars.

VANCOUVER, July 23.—Chinese immigration increases by leaps and bounds in spite of the barrier which requires of the Chinaman five hundred dollars before he can become a resident of Canada. Up to a few months ago fourteen Chinamen on one ship had been the highest number to pay this high head tax; then came a steamer with seventy-five Celestials, and now the Empress of China caps the record with eighty-three who contribute a total of $41,500 to the Federal Treasury.

The China, which reached port last Sunday night from Hongkong and Yokohama, brought over ninety-six Chinese for Victoria and five hundred and twenty-four for Vancouver, most of whom were returning residents of Canada. The Empress also brought over a large list of other passengers, a hundred and twenty two being on the saloon list. She brought in four Hindus and a few Japanese. The vessel reached port about 8 o'clock last Sunday night, completing a quick passage from the Orient.

SIZING UP A TOWN

If you were going to investigate a location says an exchange, would'nt your first step be to send for copies of the local papers and study their advertisements? In no other way could you put your finger so quickly on the pulse of the trade. You can tell much more easily than by walking through the streets whether it was a live town or a dead one, and just what forms of business were most active. And if you judge another town in this way, how about your own?

Rifles, ammunition, orthoptics, special sights, and all equipments for trappers and hunters—The Lawrence Hardware Co.

Remember if you have sore feet to get a box of our foot powder it will ease them wonderfully—Canada Drug Store.

URBAN HIGH SCHOOL EXAMS

Work Shows Decided Improvement Over Fomer Years.

The results of the urban High school entrance examinations were announced on Saturday evening. The examination is conducted by the provincial authorities, and the papers are marked in the office of the deputy minister of education at Victoria.

Charlotte Armstrong of Golden, B.C. passed first in the province with a total of 798 marks. A Victoria girl, Norma W. Spencer, of the South Park school, passed second with 791 marks. Of the 620 candidates throughout the province, 318 passed.

Of the 15 bronze medals annually awarded by the Governor-General, ten were won by girls.

The work generally shows a decided improvement over that of former years.

The total number of candidates in Revelstoke centre were 22, 16 out of which passed.

Revelstoke—Number of candidates, 20; passed, 15; Frank Granat, 714; Horace C. Buck, 689; Edna M. Bruce, 686; Harriet E. McIntyre, 683; Chas. A. Procunier, 665; Robert G Lawrence, 660; Frank Tapping, 657: Francis W. Daniels, 655; Jannis Patrick, 654; Bruce C. Calder, 640; Joseph A. Campbell, 609; Walter C. Urquhart, 606; Merle Calder, 586; Rheta H. Johnson, 681; Emma Morgan, 577.

Arrowhead—Number of candidates, 2; passed, 1; John P. McArthur, 640.

BY-LAW CARRIED.

Yesterday's Polling Voices Public Opinion.

We are now nearer the realization of the auxiliary plant than we have ever been before. When the by-law was passed a short while ago it was thought that the security of the water and light rates would have been sufficient, but when the representatives of the eastern firm who had arranged to purchase the debentures visited Revelstoke they decidcd that the security was insufficient and demanded the credit of the municipality at large as a further pledge. To obtain this and to save any further delay the city council obtained permission by an order-in-council from the Lieuteuant-Governor to amend the by-law with the necessary addition. This was done but did not meet with the approval of the debenture purchasers who wished that the Revelstoke people themselves should give their consent, hence the new by-law embracing both securities. Now that the Revelstoke people have cleared the way to the selling of the debentures, the installation of the power plant will very shortly be entered upon. With the C.P.R. as good customers for a start and with cheap power as a draw card the venture should commence smoothly. The polling of yesterday began very slowly and dragged along till the afternoon when things began to brighten up a little. At 7:30 p.m. the poll was declared as follows:

For the By-law	92
Against the By-law	11
Spoiled Ballots	1
Total number of votes polled	104
Majority for the By law	81

C. J. Aman was returning officer.

NEW C. P. R. TRACK LAID

WINNIPEG, July 23.—Officials of the Canadian Pacific Railway, who are in close touch with the double-tracking operations east of the city, state that the present season has been entirely favorable to the work in hand and rapid progress is being made at all points along the line. It is computed that by the time the frost puts an end to the work of the year, 300 miles of track will be in use in the transportation of the crop of 1907 eastward to Fort William.

This portion of the line will be in many different sections, but it will all be in use and will be of the greatest service to the company in the operations of the fall. The force of men at work at the present time is the largest that has been engaged at any time since the opening of the work.

Officials of the company also stated that there was no possibility, that the work would be begun in connection with the double-tracking west of the city this year. A double track between this city and Portage la Prairie would be a great boon to the company at the present time, but it is expected that the line will have been built west to the Portage by the fall of 1908.

As soon thereafter as possible it is anticipated that the double track will be extended west to Brandon and ultimately further west.

Business Locals

Nothing better than Our "Special"

Hundreds of Victor and Berliner records to choose from at the Canada Drug Store.

Ripe tomatoes, cucumbers, peaches, plums, raspberries, oranges, lemons and bananas, fresh in at C. B. Hume & Co's.

BURGLARIOUS ATTEMPTS

Three Business Houses Broken Into on Monday Night.

At a late hour on Monday night some person or persons with burglarious intent, broke open and entered the premises of Kincaid & Anderson, Evans & Woodrow and Morgan's barber shop on First street. In each case an entrance was effected from the rear the locks and door jambs being broken and twisted.

In Evans & Woodrow a window which had previously, a month ago been broken, and been boarded up, was wrenched open the lock of the inner door being cracked and scattered over the floor.

In Morgan's barber shop, a few shaving str ps were missing. Nothing of any consequence was taken so it is evident that the marauders had schemes for cracking the safes of the different premises, hoping to discover a carelessly shot combination. So far the miscreants have not been discovered, but their days of liberty will be short if they dare remain long in Revelstoke. The police on night duty have a hard time keeping their eye on the whole of the town.

BROADVIEW MINE

Plans Made for Extensive Development and Ore Handling.

Messrs. Wishaw, Donogh, Bellsmith and Black, of the Ohio Mines Development Co., Cincinnati, Ohio, in company with E. A. Haggen, M. E., have just made a thorough examination of their property on the Great Northern Hill, Broadview mine. The gentlemen were very pleased with the result and plans were made to put in the necessary plant and trams for the economic handling of the large bodies of ore opened up. In No. 3 level a nice vein of clean ore was opened up this week, giving values of 1 dollar in gold and 149 oz. in silver.

CRICKET

The match played on Saturday on the Gun Club grounds, resulted in a win on the first innings for the Rest of Club, by 28 runs.

The ground chosen for the pitch proved all in favor of the bowlers and wickets in each team's innings fell fast. F. Hall, for the Rest of Club being the only batsman able to master the bowling. His 18 not out, being quite a pleasant break in the procession of batsmen to and from the wickets. J. Maley of the same eleven, performed a feat by securing five C. P. R. wickets for two runs, and R. Brooker having the proud figures of two for two.

For the shops, A. Goring dismissed 5 for 23, and T. Wadman, F. Goble and J. Darbyshire being conspicuous by smart fielding.

Batting is the weak point of the players, and it is hoped members will put in an appearance every practice night with the object of better weilding of the willow.

REVELSTOKE LABOUR DAY CELEBRATION

At a meeting of the retiring General Management Committee of the above, held on the 22nd inst., it was resolved:

"That a public meeting of those interested in this year's celebration be convened to be held in the Band Room on Thursday, July 25th, 1906, at 8 p.m. for the purpose of appointing new committees and officers, and taking preliminary steps to arrange a programme for this year."

All interested are hereby invited to meet at the time and place above mentioned.

A. McRAE, Chairman.
