Hole Proof Hose

As the washing machine banished the wash board and sewing machine shortened the labors of the seamstress, so "Hole Proof" Hose will do away with the drudgery of sock and hose darning.

This Hose is made to wear, extraordinary durable, six strands of yarn interwoven in the feet, made to resist wear where the wear comes.

"Hole Proof" Hose is the most cleanly and sanitary hose in existence. Sold only by the box of four pairs.

Men's Hole Proof Hose in Tan, Black. Red or Green, absolutely guaranteed for four months, no red tape, simply bring them back to us with the coupon that is attached and we will replace with new ones free of charge. Selling at per box of four pairs..... $2.00

Women's Hole Proof Hose in Tans and Blacks absolutely gauranteed for four months, four pairs in a box, at per box..... $2.50

WORLD'S LATEST TELEGRAPHIC NEWS

Canadian Bisley Team Successful ---Senator Perley is Dead--- Shah is Dethroned---Earthquake in Greece

MONTREAL, July 17.—The C.P.R. plans for the improvement of Victoria harbor on Georgian Bay, embrace the largest grain elevator in the world with a capacity of 12,000,000 bushels. Victoria harbor is to be the C.P.R.'s great lake port, which is to be in time connected with deep water at Montreal by a double track railway practically level.

STRATFORD, Ont., July 17.—A terrific electric storm which passed over here yesterday caused thousands of dollars worth of damage in the city and vicinity. The Roman Catholic church at Dublin was struck by lightning and burned to the ground. It was estimated to be worth $30,000.

WOLSELEY, Sask., July 17 —Senator Perley dropped dead at his house here yesterday from apoplexy. Senator Perley was among the first members elected to the House of Commons from the Northwest Territories. He was made a Senator under the old Conservative regime.

BISLEY, July 16.—The Canadian rifle team won the McKinnon cup out of a total of eight competing teams from the different parts of the empire. The Canadians made the phenomenal score of 1609, the Transvaal was second with 1514, and England and Scotland were third with 1492 points each.

LONDON, July 16—Special despat hes from Athens state that 300 people have been killed or injured by an earthquake in Southern Greece. The earthquake destroyed 400 houses in the village of Havali, and neighboring villages also suffered greatly.

DANVILLE, Ill., July 17—In a head-on collision between two passenger trains on the Chicago and Eastern lines railway, near Royal, Ill, three passengers were killed and several others reported injured. Wrecking crews were sent from here.

BIRMINGHAM, Ala, July 17—State Senator Bayles was shot and killed in Monroe this afternoon by David K. Smith in a duel growing out of remarks made by Bayles about Smith.

TEHERAN, July 17.—Mohamed Ali, Shah of Persia, was dethroned to-day and Crown Prince Sultan Ahmed Mirza was proclaimed Shah by the national assembly composed of the chief Mugthads and leaders of the Nationalist forces. The proclamation was made in the presence of an immense crowd in Parliament square.

A Packhorse Drowned

A packhorse belonging to Turnross' livery stable was drowned on Thursday while travelling along the Big Bend trail some distance up above the Columbia river canyon, and its driver had a narrow escape from drowning. Two men with packhorses were crossing a bridge over a chasm that had been made by a landslide in the riverside, when the bridge gave way and the men and their horses slid down into the river. The men had no difficulty in scrambling out, and one horse succeeded in getting ashore also, but the other horse was loaded down with blankets and provisions, and its trappings helped to drag it down.

The men came back for a fresh supply and started up the road again yesterday morning. They went north to assist in making a trail for the government into some of the mining claims in that region, presumably at Mica Creek.

Convention in Kamloops

One of the biggest conventions ever organized in British Columbia will be brought to Kamloops early in November when the Provincial Conservative Association will meet in annual session. Upwards of four hundred delegates will be in attendance and the convention will continue for two days. It is some time since a convention has been held in the interior and naturally deep interest is being manifested by the coast associations.

At a session of the Conservative party in Kamloops on Thursday plans for the entertainment of the delegates were discussed. A committee comprising Jas. Gill, P. J. Conway and S N. Dancey was appointed to prepare a programme and this will be submitted at the next session of the executive. It was felt that the time was none too early to undertake the preparatory work.

NELSON DOCTOR STRUCK OFF

B. C. Medical Council Taken Drastic Action for Alleged Mal-Practice

Dr. Sutherland returned on Friday from presiding over a meeting of the B. C. Medical Council in Vancouver. Several important matters came before the meeting. Because it was charged, and to the satisfaction of the council proved, that Dr. William H. Wilson, of Nelson, had in an unfit condition attended a case of confinement in which the patient died, his name was struck off the roll of physicians practising in this province. Dr. Wilson has been practising for 10 years in British Columbia. The council called in Judge Grant as arbitrator to assist them in arriving at a decision.

The Council also heard the appeal of four visiting doctors from Manitoba and Alberta for an inter-provincial association to consist of representatives of the four provinces of British Columbia, Alberta, Saskatchewan and Manitoba, under whom a common standard of qualification for medical practice should obtain. They suggested a joint board of examiners to consist of two physicians from each province.

The Council heard the suggestion and promised to deal with them finally at its meeting to be held in Seattle on July 27th, when a congress of physicians of the Pacific Coast will be held.

Drs. Patterson and Millroy, of Winnipeg, Dr. Brett, of Banff, and Dr. Kennedy, of Macleod, presented the case for a common western standard.

G. T. P. CONTRACTS LET

From Edmonton to Tete Jaune Cache—Kitsalas to Aldermere

The contract for building a 180-mile section of the main line of the Grand Trunk Pacific railway from McLeod river west to Tete Jaune Cache, fifty miles bayond the Yellowhead pass, through the Rockies, has been awarded to the contracting firm of Messrs Foley, Welch & Stewart.

The same firm recently completed the construction of the 130-mile section from Edmonton to the McLeod river. Track-laying is now in progress west of Edmonton, and by the end of September a passenger and freight service between Winnipeg and McLeod river will be inaugurated.

It is expected that the contract just awarded will be completed in twelve months. The region to be traverted is a foothill country not unlike the tract lying between Calgary and the Rockies. The grade through the Yellowhead pass at the summit and down the western slope past Tete Jaune Cache and thence on to the coast is four-tenths of one per cent per mile. The Yellowhead pass is the dividing line between Alberta and British Columbia.

The railway contractors have already begun to transfer their outfits to the country beyond the McLeod river, where actual grading is now under way. The work will be rushed, and for nearly a year probably 4000 men will be busily employed. Camps are being established all along the route as far as the summit.

The gap comprising the uncompleted portion of the line is now less than 500 miles. It extends from Kitsalas canyon on the Skeena river to Tete Jaune Cache.

MONTREAL, July 16.—The Grand Trunk Pacific Railway has called for tenders for the building of a 140-mile section of the main line between Kitsalas canyon, on the Skeena river to Aldermere, a village in the Bulkley valley southeast of Hazelton. Bids will be received to August 10.

A party of Grand Trunk officials headed by Sir Charles Rivers-Wilson, chairman of the board; Mr. Alfred W. Smithers, a director, is coming out from London next month to inspect the road. They will visit Prince Rupert, and will reach Vancouver about the end of August. They will be accompanied by Mr. Charles M. Hays, the president, and Mr. E. J. Chamberlin, the general-manager.

A Labor-saving Device

For some time past at the smelter of the Consolidation Co., at Trail, a mechanical feed for the lead furnace has been in course of installation. On Saturday it was put into operation for the first time. This does away with the work of twelve men and causes a saving of at least $12,000 a year. Improvements continue to be made from time to time so as to keep the plant up to date in every particular.

PITTSBURG'S MINERS BIG STRIKE STILL ON

Twenty-Six Thousand Men Are Out With Others Ready to Join the Ranks---Union Must Be Recognized

PITTSBURG, July 16.—Five thousand men from the Compressed Steel Company's plant, and 3,000 tin plate workers went out on strike to-day. Eight thousand miners also struck this morning, but they did so without the sanction of the executive who called the strike off to-night to allow negotiations for settlement to be carried on. The men who are out on strike say it is not so much a question of wages with them as the recognition of the unions by the employers.

Two wagon loads of bed cots and other supplies were taken into the Steel Company's plant this morning to be used by the constabulary. The groups of idle men have increased so much that an order had to be given to clear the streets. The constabulary bore down on the men and scattered the strikers in all directions.

About fifty electricians employed by the Westinghouse company doing work in the Compressed Steel Company's plant walked out to-day.

Five Girls Drowned

Five New Westminster girls were drowned at a picnic party at Aliceville on Burrard Inlet, near Port Moody, on Wednesday afternoon. Their names were Gertrude Ankers, Annie and May Murphy, Signe Buck and Alfhild Paulsen. The five girls went into bathe at a place a little apart from the rest. They stepped off a ledge into deep water, and Signe Buck was the first to get beyond her depth. The other girls rushed down to assist her and each in turn became overwhelmed. A sixth child, another of the Murphy girls, saved herself by a miracle. Friends of the girls on the bank being unable to swim could render no assistance, and when some of the boys of the party were summoned it was too late. The news aroused the deepest sorrow in New Westminster. Miss Ankers was a teacher in the Sapperton school, the Murphy girls were daughters of J. E. Murphy, a milk dealer in south Westminster, Miss Buck was a daughter of the Dominion fire ranger, and Miss Paulsen was the daughter of the postmaster at Timberland.

Murdered at Night

In a boat at night, out on the muddy waters of the Fraser, near Steveston, F. Saleterious, an old Greek fisherman, on Thursday last, stabbed to death his partner and countryman Tommy Jordan. From the appearance of the boat and Jordan's body it looked as if he had been first stabbed through the thigh with a fisherman's knife, and had fought for his life until weakened by loss of blood, he fell back in the boat a corpse. Other Greek fishermen heard the noise of the fight and rowed through the darkness toward the boat. Saleterious jumped overboard and tried to swim away, but was hauled aboard fighting desperately. They had to tie him down with ropes in order to row him in safety to Steveston where he was handed over to the police.

Jordan was still living when first found, but died on the way to Steveston, and as Saleterious refuses to speak a word, the cause of the deadly quarrel cannot be ascertained. From latest advices Saleterious was still maintaining a sullen reserve.

Ascend Mount Revelstoke

The first large party to ascend Mount Revelstoke and visit Victoria park this season went up on Thursday last under the guidance of the Rev. J. R. Robertson, he being the only one of the number who had gone up previously. The party comprised three gentlemen and twelve ladies. All went on foot. The start was made at 6 in the morning and the summit was reached at noon. Some of the ladies, who had done no mountaineering before found the climb rathee trying, but all managed to reach the park. There they found a few banks of snow but many flowers were coming into bloom. Rev. Mr. Robertson thinks the park will be at its best next week. The party stayed on the summit about four hours, and starting the descent at 4 p.m. reached town again about 8 o'clock. All to whom it had been a first experience expressed themselves delighted with the trip.

TILLING THE VALLEY

In an interview with the veteran journalist P. J. O'Farrell published in our last issue, he made some remarks worthy of attention. He said that with the surrounding valleys cleared and settled, Revelstoke ought to be a city of 20,000 people. It is true that with all the possibilities of the district developed that figure would be well within the mark; but it is equally true that though nature may be assisted she cannot be hurried or forced, and that these changes have to come about by degrees. Many of the settlers who first came to British Columbia had already lived on the prairies where the cultivation of the virgin soil was an easy matter, and they naturally hesitated at embarking in agriculture when faced by a patch of unsurveyed land covered with heavy timber, or wilting in sage brush, or subject to constant floodings; one of the three conditions obtaining in almost any part of the province. Where the land was under timber, the newcomer naturally sought rather to make his profits out of that, while the minerals in the hillsides, or the gold in the placer beds, with the chances of rapid enrichment, appealed to the gambling instincts in most men much more strongly than the slower returns from agriculture, which could only come after year of arduous toil.

It was natural that the activities of the early settlers shold be applied to the means lying closest at hand. But now that the mineral possibilities, in these parts of the province where transportation is obtainable, have been guaged and tested, and the logs have been culled out in the most accessible places, attention is being called to the cultivation of the soil. We are pleased to see that the Dominion government recognises this, and is now sending out men over the railway belt through the interior of the province, for the purpose of ascertaining its possibilities for settlement. Mr. Deville, the surveyor-general is quoted as having said a few days ago, "It will not be very long before the tide of immigration fast settling the prairie provinces, will surge across the Rockies and fill every valley in British Columbia." This is not the vision of an enthusiast or a dreamer. It is a plain statement of something that must come in the logical sequence of events. The activities and desires of humanity know no bounds. Having tickled the prairie and seen it laugh with a harvest, they will seek something more restful in the smiling valleys beyond the great divide. Their places will be taken by newcomers from the east and south, and the prairie farmer will become the orchardist or dairyman of the valleys of British Columbia.

The Interior Department is to be congratulated on its foresight in preparing for the inrush that is sure to come, and if, as has been stated, it is their intention to survey and divide the land in 40 acre homesteads, that also would be a movement that would meet with general commendation. To the ordinary man of small means, 160 acres of bush land is an incumbrance and a discouragement. The task of clearing it staggers him by the time he has got two or three acres in shape, and he too often squats down in his cleared corner and becomes a pensioner on the odd jobs handed out by lumber camps and sawmills, or goverment roads and bridges. Given a tract of land that he can compass he might feel encouraged to keep his axe swinging till every foot was cleared. In fact in fruit growing sections we question whether allotments of ten acres would not do more for the settlement of the province than larger areas. If the country could have four settlers on 40 acres instead of one, it would be so much the richer for it.

Revelstoke is the hub of a radius of valleys, stretching out like the spokes of a wheel everywhere around. Should the arable land in all these be divided into small holdings, and cleared to become the homes of prosperous families of settlers, it would do more to build up the town than any one other cause that could be named. It would bring around it the class of people on whose labor the best civilization rests. The miner is nomadic. His camps rise and fall. Dawson and Rossland are less today than they were ten years ago; but Winnipeg and Edmonton have grown and will grow. The lumberman also is a shifting quantity, whose raw material tends always to decrease; but the farmer once rooted in the soil remains, and becomes an increasing source of wealth from year to year. If anything therefore can be done to forward the interests of agriculture in this district it should be done. No little thing should be neglected. Its Fall Fair should be well patronised, every opportunity to advertise the advantages of the district should be seized, and no chance to secure a settler should be allowed to pass.

D. S. Mitchell, of the Dominion fish hatchery at Shuswap lake, has been in this district recently, trying to stock Williamson's lake and some of the streams with rainbow trout. All true sportsmen should be glad to see that these steps to increase the fisheries are being taken, and they should assist the officials by leaving these waters pretty well alone for a year or two until they have become fairly well stocked with the trout. The principal complaint of the fisheries officials in the past has been that certain picayune sportsmen would fish in season and out of season, till practically all the fish in an ordinary lake or stream would become exhausted. We trust that the anglers of this district will prove themselves willing to forego a present pleasure for a future good, by not interfering with the natural increase of the new stock.

The recent disastrous accident on the C.P.R., near Rogers pass, is another illustration of the law of compensation working itself out. While there is always a tendency to lay the blame on someone, the fact remains that as long as there are railways there will be railway accidents. It is true that these may be and are being lessened with care and the applications of improved safety appliances, but with an increasing volume of traffic on the line, the human desire to travel at highest speed, and the necessity of competition which makes it incumbent on railway companies to comply with this desire, we cannot on this side of the millenium look for the elimination of railway fatalities; though the example of Great Britain shows that with double tracks, improved roadbeds, and systems of block signalling, there may be a welcome decrease in the number of accidents per capita.

A Dialogue

LAND COMPANY:
Flow down cold rivulet to the C——,
Thy tribute wave deliver;
But not through thee those sewers shall be
Forever and forever.

CITY COUNCIL:
For laws and records what care we,
We'll just make you deliver,
And the ratepayers shall foot the fee
Forever and forever.

REVELSTOKE GENERAL AGENCIES, Ltd.

IN THE COUNTY COURT OF VANCOUVER HOLDEN AT VANCOUVER

In the matter of "The Judgments Act, 1908," and in the matter of a judgment obtained in an action of this Honourable Court.

BETWEEN:
ANDREW E. F. LIDDLE
Plaintiff, (Judgment Creditor)
AND
T. J. TOMPKINS
Defendant (Judgment Debtor)

Before His Honour Judge Grant in Chambers, Friday, the 25th day of June, 1909.

Upon the application of the Judgment Creditor herein, and upon hearing Mr. A. G. Harvey on behalf of the applicant, and upon reading the affidavits of A. E. F. Liddle and A. G. Harvey, sworn herein the 13th of May, 1909, and the affidavit of A. G. Harvey sworn herein the 24th day of June, 1909, all filed.

It is ordered that unless cause to the contrary be shewn by the Judgment Debtor herein, T. J. Tompkins, on Thursday, the 22nd day of July, 1909, at the hour of 10 o'clock in the forenoon to the presiding Judge in Chambers at the Court House, at the City of Vancouver, B. C., Lots one (1), and two (2), in Blocks Forty-six, (46), Forty-seven (47), and Forty-eight (48), Sub-division of District Lot Two Thousand and Twenty-two, (2022), Vancouver district, or a competent part of the said land, be sold by the District Registrar of this Court at Vancouver, B. C., according to the usual practice, to realize the amount of the judgment herein, with interest on said Judgment up to the date of sale.

And it is further ordered that the publication of this Order for four consecutive semi-weekly issues of the *MAIL-HERALD, a newspaper published* and circulating in Revelstoke, B.C., shall be deemed good and sufficient service of this Order upon the Judgment Debtor herein.

And it is further ordered that the costs of and incidental to this Application and Order, and of the proceedings taken thereunder, be added to the amount of the Judgment herein.

DAVID GRANT,
July 7-17. J. J. C. C.

The Best of All Breakfast Foods

There's a reason behind all fads and fancies. We required light breakfast foods and the market was flooded with health foods (so-called.)

But—the best breakfast food in the world is "Zephyr Cream" Soda Biscuits crushed in cream or fresh, sweet milk.

Christie's "Zephyr Cream" Sodas

have more original goodness than all other sodas manufactured on this continent. More than that, the original goodness of Christie's Biscuits is lasting. The flavor does not vary.

All big biscuit makers buy a good brand of flour. We buy all good brands. Then we blend the best brands, sift and test the blend until we find a dough that will sustain the Christie reputation.

Expensive! Yes—but we know no other way of starting to make biscuits up to our own high standards.

Every ingredient entering into our "bakes" is the purest and best we can buy.

Our "Zephyr Cream" Sodas crushed in cream, or fresh milk, certainly do make an excellent light breakfast. You test them.

AT YOUR GROCER'S

Royal Standard

And Why It is a Better Flour

We use selected wheat from the best wheat producing regions of the Canadian West, where the sunshine is long, where the soil is rich, giving to the wheat that quality of gluten which makes the very finest flour. This is factor No. 1.

Scientific milling which follows the wheat step by step, selecting only the best and purest portions of the wheat grain and making it into the most perfect flour. This is factor No. 2.

Care exercised in storage and marketing so that there is no possibility of deterioration from the time the flour leaves our hands until it reaches you. This is factor No. 3.

Now isn't there a reason why you should ask for Royal Standard Flour. And besides, in every 49lb. sack there is a numbered coupon entitling you to a chance to win one of ten beautiful dinner sets given away each month.

Robin Hood Flour

The Flour that is Different

We must stand ready to prove it and also prove that the difference is so marked, so worth while, that you will feel this is the flour you ought to use.

That is exactly where we do stand.

We ask you to take no risk. Buy a bag of ROBIN HOOD and give it two fair trials. If it does not prove perfectly satisfactory, so satisfactory that you too say, "It is really the flour that is different," you may take it to your grocer and he will give you back your money.

Will you make the trial on your next flour order?

The Saskatchewan Flour Mills Co., Ltd.
Moose Jaw, Sask.

CORRESPONDENCE

About Dogs

EDITOR MAIL-HERALD.

SIR,—I should like to call attention to the manner in which certain mongrel curs are all wed to run the streets here under all conditions. There are a number of persons in Revelstoke who are trying to keep good dogs and improve the breed, and they have to suffer for it. Last Sunday morning, July 11th, my dog came home shot through the muscles of his leg. I know for a fact that this occurred west of the hospital, and I am willing to pay a reward of $50 for the conv ction of the person who shot that dog. I think it is time that the City Fathers took this thing up and imposed some regulations, so that dogs would not be running around indiscriminately, like a pack of wolves, on the street.

Yours, etc.,
W. G. WATSON.

Conservation and Commerce

The First National Conservation Congress of the United States will be held in the auditorium of the Alaska-Yukon-Pacific Exposition, Seattle, Washington, August 26, 27, 28, 1909. Arrangements for the Congree are being perfected by the Washington Conservation Association, an organization comprising several hundred prominent men of the State.

Invitations have been extended to President William H. Taft, members of the cabinet, governors of States; members of the various State Conservation Commissions; presidents of colleges and other institutions of learning; editors of prominent newspapers and magazines; church dignataries, and to mayors and officials of commercial organizations of the leading cities of the nation.

The discussions will include the subjects of Irrigation, Dry Farming, Forestry, Mining, Transportation, Good Roads, Pure Food, Public Morals and Health, and the Relation of Capital to Labor in the work of modern Conservation.

The program includes addresses from the best thinkers of the age. Among those named as probable speakers are: President Taft; Hon. R. A. Ballinger, Secretary of the Interior; Hon. James Wilson, Secretary of Agriculture; Hon. Gifford Pinchot, Chief Forester; Hon. F. H. Newell, Chief of the Reclamation Service; and others.

Prince Mining and Development Company, Limited Liability

TO THE SHAREHOLDERS OF THE PRINCE MINING & DEVELOPMENT COMPANY, LIMITED LIABILITY.

Revelstoke, June 19th, 1909.

Notice is hereby given that the annual meeting of the Shareholders of the Prince Mining & Development Company, Limited Liability, will be held at the Company's office, First Street, Revelstoke, B. C., on Wednesday, the twenty-first day of July, A.D, 1909, at the hour of eight o'clock in the afternoon, for the purpose of electing officers for the ensuing year, and for all other purposes relating to the management of the Company.

The transfer book of the Company will be closed during the fourteen days immediately preceding such meeting.

Dated at Revelstoke, B. C., this 19th day of June, A.D., 1909.

W. B. ROBERTSON,
Secretary.

San Francisco Opera Company

Frank W. Healy's San Francisco Opera Company has just completed one hundred and sixty-one consecutive weeks of success—a record not equalled or even approached by any comic opera organization in existence. Not even the famous Bostonians can boast of such a record, the company laying off during the summer months. This summer the San Francisco Opera Company is playing a season of 12 weeks at the Empress theatre at Vancouver, B.C. The fourth week of the engagement finds capacity houses at every performance. Read what the Vancouver World of Monday, July 6th, 1909, had to say of the company:

EMPRESS

Of all the mirth-provokers which the San Francisco Opera Company have gladdened Vancouver by putting on at the Empress the "Gay Parisienne" is surely the chief. It is to laugh, which is to say that it is to chortle over jokes that are clever, and to guffaw over jokes that are farcial. In "The Gay Parisienne" there is not the slightest opportunity for the groucher to grouch or the mirthless man to cultivate dolor. The "Gay Parisienne" is a winner.

Miss Mabel Day, as "The Gay Parisienne," has a part in which fine quality of voice and her dainty and vivacious style are admirably in place. Chief among the funmakers was Teddy Webb, who seemed to revel in the part of "Ebenezer Honeycomb." The elements of mirth in the character of the cleric, who, as the pink of propriety at home, but a sad dog abroad, are simply illimitable, and Teddy Webb seemed to catch every one of them. His mock solemnity, and the clever vocalization of Miss Day in the duets, made a fine combination, and as the Scotsman of comic opera in the second act. Teddy Webb was all right.

A remarkably funny plot, plentifully interspersed with the most up-to date song selections, set the audience in a high state of enthusiasm. It is no misstatement to say that this performance and production was equal to any that we have had the past winter from travelling companies specially organized to present one musical comedy. The laughter was continuous, and only gave way to applause when the magnificent stage effects were shown, and the novelties in songs were heard. "Shine On, Harvest Moon," as sung by Lucille Palmer, accompanied by the chorus, received repeated encores. This song was illustrated by a fine mechanical effect. A large moon was suspended from the top of the theatre, and at a certain cue an owl was seen sitting on it and blinking. This was an exceedingly pretty effect, and is the invention of Mr. Frank Coates, head of the stage staff of the Empress theatre. Teddy Webb sings several songs, and scored an enormous hit in one of Harry Lauder's songs, "She's My Daisy," accompanied by the female chorus dressed in Scotch kilts. Russell Powell sang one one of the song hits, "I Think I Hear a Woodpecker Knocking at My Family Tree." These are only a few of the gems. In fact, all the numbers were so excellent that it is almost impossible to specialize. "Shine On, Harvest Moon," was one of the biggest successes in Anna Held's late production of "Miss Innocence," in New York. Another tremendous success was the song. I'd Rather Fight Like Ma." This number was a spirited march song, during which the chorus performed several difficult march evolutions. It was certainly an evening of great success for the Empress theatre, and the San Francisco Opera Co., as the comedy scored an enormous hit.

Brother Followed Brother

The people of Calgary were saddened last week by the death of two of their oldest and most prominent citizens. First came the news that James Reilly, formerly proprietor of the Royal Hotel, and twice Mayor of the city had passed away on the Pacific coast. Mr. Reil y was one of the best known men in the Canadian Northwest, having been the father of the movement for provincial autonomy in the Northwest Territories. He was prominent in civic, Masonic and political circles, having unsuccessfully contested Calgary for the Dominion house in 1896. Of late years he had been living in retirement. His funeral was attended by all the most prominent citizens of Calgary.

It was a sad coincidence of James Reilly's death that his brother William also died while the arrangements for the funeral of James Reilly were still under way. He was apparently in good health, but the arrival of his brother's remains on No. 2 from the west in the afternoon gave him a shock from which he never recovered and he died of heart failure a few hours later.

A sectionman was killed near Shuswap on Thursday night by a slight accident by which a car was derailed.

SICAMOUS

A Tale of the Big Things of the Province of British Columbia

Across the Rockies should you steer,
In search of sport, or health or gear,
As the Pacific you draw near
You'll find a place called Sicamous—
A land of waters and of woods
And wild, majestic solitudes;
But evermore the thought obtrudes—
"Whence came the name of Sicamous?"

Well, ere this place was known to fame,
A settler, Sandy Grant by name,
From ancient Caledonia came
To take up land at Sicamous.
"A great land this," he cried, "Guidsakes!
Big mountains, plains and woods, and lakes
Whaur ye micht droon the Land o' Cakes!"
At last he came to Sicamous.

A short while after he had come,
He met an old colonial chum,
Who one day said to him: "By gum!
We've big thing here—miraculous!
See yon big moose noo on the hill!"
And Sandy answered: "Hoot, mon, Will,
Ye's wrang for aince, wi' a' yer skill—
I never thocht ye sic a goose;

"Ye canna see a moose frae here!"
But, when he saw the monster deer,
He cried, in wonder and in fear:
"Guid Lord, I ne'er saw sic a moose!
Sin' ye've got mice as big as that,
I wadna like to meet a rat;
And it maun be a guid-sized cat
Wad daur to tackle sic a moose!"

"O, sic a moose!" Both far and near
The settlers told the story queer,
How Sandy thought the great moose-deer
Was just a'mus ridiculus.
The story lived. . . . A township grew;
They wished to name it something new,
So town and railway station too
Were boldly christened "Sicamous!"

Now, some folks think this tale absurd;
And some maintain, as I have heard,
That it was from an Indian word
They got the name of Sicamous.

Well, if you do not credit me
Please pay a visit to B. C.,
And 'twill convince you when you see
Just "sic a moose" at Sicamous!

J. LIDDELL KELLY.
Martham, Great Yarmouth, England.
June, 1909.

B. C. Business Jottings

Thos. Inglis, grocer, Vancouver, has sold to a Mr. Williams.

A. T. Ungtam, dealer in builders' supplies, Vancouver, has sold out.

The Royal Bank of Canada has opened for business in Cranbrook last week.

The Keremos Supply Co., general merchants, Keremos, have soied to J. R. Shaw.

The Vancouver Paint and Varnish Co., Vancouver, have assigned to John Kendall.

Desbrisay & Owen, grocers, Vancouver, have sold their branch at New Westminster to A. Gaudin

The registered office of Robert Ward & Co., Ltd., has been changed from Victoria to Vancouver.

Miller & Rorke, commission merchants, have been succeeded by the Miller, Rorke Co.

The Kootenay Jam Factory has been opened at Nelson. Special attention will be given to putting up strawberries.

Coast Timber Prices

A Vancouver despatch says: There is little change in the lumber and shingle market. Business continues good in shingles and in the higher grades of lumber. Rough is still selling at prices which admits of little or no profit. The local trade is unusually brisk. The basic price of lumber is now $11, and there is no pool in this. The spring supply of logs has invaded the market and there has been a slump of from $2 to $2 50, and good grades can now be got as low as $8. This slump is not caused by any diminution in the demand from the mills, which is greater now than a few months ago, but from the fact that there has been a great increase in the output of logs.

Knights of Pythias at Nakusp

The membership of Nakusp lodge, Knights of Pythias, is 47, a gain having been been made during the year of 16.

Officers for Nakusp lodge for the ensuing term are:

C.C.—H. Rushton.
V.C.—F. Atkinson.
M.W.—J. S. Morrison.
M.F.—Walter Scott.
M.E.—L. J. Edwards.
K.R.S.—R. Abbie.
Prel.—A. W. Hobbs.
M.A.—C. B. Hamling
I G.—J. A. Dougal.
O.G.—E. Crosbie.

A. E. Underwood has let the contract for a $20,000 hotel at Chase, B. C.

PURITY FLOUR

And Its Keeping Qualities

SOME people find it necessary to buy a considerable quantity of flour at one time—sufficient to last for a long period. Naturally they are anxious to procure a flour of the kind best adapted to lengthy storage.

There are two important reasons why PURITY FLOUR possesses these qualities. One is that it is made entirely from Manitoba Hard Wheat. The other lies in the fact that the careful milling necessary to produce "Purity" absolutely excludes all low-grade particles of the wheat berry. It's the high grade Manitoba Hard Wheat Flour that keeps—stands longest storage. That's "Purity."

"Purity" flour may cost a little more, but is more than worth the difference. Try it. Watch results both for quality and yield.

"More Bread and better Bread"

WESTERN CANADA FLOUR MILLS CO., LIMITED
Mills at St. Boniface, Goderich, Brandon,
Office, Winnipeg, Manitoba.

Another "Sunshine" Feature

The Gas Ring

This is an entirely new idea, and will especially interest people who reside in natural gas districts. The gas ring takes the place of the lower Sunshine fire-pot, thus making it possible to burn gas in your furnace without inconvenience. Such is not possible in a furnace where the ordinary gas log is inserted; for, should the gas give out, a coal or wood fire could not be started until the gas pipes were disconnected.

To provide against sweating in the summer time, Sunshine Furnace is equipped with a nickelled steel radiator and dome. All bolts and rivets are nickelled, all rods copper-plated. This special treatment, besides meaning quicker and greater radiation from the radiator and dome than cold chill iron could possibly give, acts as protection for the bolts, rivets and rods from inroads of gas. When cast iron comes in contact with our nickelled steel it is coated with our special Anti-Rust treatment, which prevents the slightest possibility of rust commencing anywhere in Sunshine Furnace.

McLennan & Co.

LOCAL AND GENERAL

The Ladies' Aid of St. Andrew's Church will give their annual garden party on the lawn at the Manse, on the evening of July 20th. Strawberries and ice cream will be served. Gate opens at 7 o'clock. Admission to the grounds, 10 cents.

Miss Davis and Miss Bell of Revelstoke were among the successful students who wrote in the recent McGill Universiey matriculation examinations. Reports of the work of other Revelstoke students have not yet been received.

T. M. Daly, police magistrate, of Winnipeg, declares that since the policy of seggregating disorderly houses in that city was abolished, the evil has been scattered and spread, and quotes figures to show that the illegitimacy has enormously increased.

A very successful garden party was given by the Ladies Guild of St. Peter's church on the grounds of the rectory on Wednesday evening. The Revelstoke band was in attendance, and there was a large crowd. All worked with a zest, and a neat sum was netted for the benefit of the church.

The new Molson's Bank building, now rising raaidly at the ccroner of First St. and McKenzie Ave. promises to be one of the handsomest and solidest blocks in town. The inner part of the wall is of brick and the outer of cement blocks, so that it is really as solid as one large vault, carrying with it permanence and safety combined with a handsome outsike finish.

Eighteen strawberries grown by John Brown on the Quade-Miller ranch, near Victoria, were weighed recently and tipped the scale at 24 ounces. There are some good strawberr es grown in the Revelstoke district, and we believe that Mr. Brown's big berries might be beaten. If anyone can do it the MAIL-HERALD would be pleased to hear of it.

As yet no clue has been found to the identity of the unknown man who committed suicide here ten days ago. A photograph was taken before burial and descriptions have been furnished the police in different parts of the province, but the mystery remains still unsolved. He had only 80 cents on him when he took his life and financial difficulties might have had something to do with it.

T. J. Wadman has accepted from the Kootenay Agencies, the agency in Revelstoke and Kootenay for the Dominion Guarantee and Accident Insurance Company. This company with head office in Toronto and an authorized capital of $1,000,000 is one of the strongest accident insurance organizations in Canada. Mr. Wadman will travel in the interests of the company through the Kootenays and eastern British Columbia.

Hon. Dr. Young had something to say at the recent meeting of the Dominion educational institute which ought to act like balm upon the soul of the troubled school teacher. He said it was the intention of the government to provide for increases in the salaries of the members of the profession in this province, which he hoped would have the effect of inducing them to make teaching their permanent business and that teachers would also be brought within the provisions of the government's superannuation scheme.

Successors to Kincaid & Anderson

A regatta is to be held at Chase, on Shuswap lake, next Monday, under the auspices of the Kamloops Motor Boat Club. It is expected that boats will be out from Salmon Arm and other points along the lake.

Some splendid samples of strawberries are being brought in from surrounding ranches, and many people are buying crates to ship to friends in other places to show how fine a berry Revelstoke can produce.

About twenty five boys, junior members of the Y.M.C.A., left on the early morning train today for Albert Canyon, where they will remain in camp until Monday next. The camp is in charge of W. A. Aldritt, physical instructor.

The Liberals of Columbia riding are evidently determined to be on time. On Monday they will hold a convention in Golden to nominate a candidate for the ae yet undated provincial elections. It is expected that J. A. Macdonald of Rossland, leader of the Opposition, and John Oliver, the old warhorse of Delta will attend.

A general meeting of the Revelstoke mountaineering club will be held in the city hall on Tuesday evening at 8 o'clock. Important business will be considered, including the appointment of a permanent secretary, and the building of a chalet on Lake Victoria in Victoria park. Every member of the club is urged to be present.

Hon. W. Pugsley, Dominion Minister of Public Works, passed through last Tuesday. He was met by a committee from the local Liberal association, whom he assured that the vote for a Dominion building here would be re-inserted next session, and the work pushed ahead. He and Hon. Charles Murphy will be banquetted by Vancouver liberals on Tuesday evening.

W. A. Foote, contractor, has just completed a fine new residence for F. E. Sine on Sixth St. It is of cosy bungalow design, 38 by 36 in size with a 10-foot verandah. On the ground floor are a spacious hall, drawing room, dining room and kitchen, and upstairs are three large bedrooms, a bathroom and a fine sewing room opening out on a sun parlor. Underneath is a fine large concrete cellar.

John Johnstone, city treasurer of Vancouver was in town yesterday for a few hours. He was returning from the east, having gone to Ottawa with Mayor Douglas to complete the sale of the Vancouver million dollar debenture issue. It speaks well for the credit of the west that these bonds were sold at 98 unstamped, were put on the London market at 101 and all was subscribed for within a few days. Thay are forty year bonds bearing four per cent interest.

The lawn social given on the grounds of the Roman Catholic church last evening was highly successful. The grounds were beautifully illuminated with strings of electric lights interspersed with Japanese lanterns. The Independent band furnished the music, an old Aunt Sally game furnished plenty of amusement, the ice cream booth and tables did a good business, and everybody seemed to enjoy themselves.

A lacrosse match that should provide some fun and exbitement has been arranged for on Thursday next on the grounds of the cricket club. Some of the players say they hardly know a lacrosse stick when they see it, but they are going into it for the good of the cause, as the proceeds are to go to the hospital. A. B. McCleneghan will captain the upper town men and J. A. Stone the lower, and the teams will include such heavyweight players as Sam Sutherland, J. Guy Barber, C. E. Gillan, F. B. Wells, Hec. McKinnon and John Abrahamson.

Work on the Columbia river traffic bridge is to be pushed as soon as the high water recedes. Yesterday a gang of men were working putting in the engine and tackle for the overhead tramway, on which the material for the bridge is to be taken to its place as it is required. Three hundred feet of trestle work for the approaches on the other side has been done, and a thousand feet for the foundations of the bridge has been laid in, so that once the condition of the water is favorable the work can be pushed right along.

A citizen was hauled up before the police magistrate on Thursday charged with molesting two ladies in the lower town. He had been taken under arrest by an irate neighbor who escorted him down with a rifle and handed him over to the police. He explained that he had simply been wandering around, and seeing the lady at the gate, had walked up to say good evening to her. The magistrate dismissed him, but warned him to act with more discretion in future, as the story he told was not altogether satisfactory.

Last Sunday evening, the Rev. J. R. Robertson, pastor of Knox Church, read out his resignation which he has forwarded to Presbytery. Mr. Robertson stated that he understood that there was a desire for church union among the Presbyterians of the city, and he wished to pave the way towards it. At the same time he should regret leaving Revelstoke as he had found many warm friends here. The pastor was visibly touched in making the announcement, and it will be learned with regret by many as Mr. Robertson stands high in the esteem of the citizens of Revelstoke. It is not likely to take effect, however, for some time yet.

The staff of the MAIL-HERALD were on Thursday entertained to five o'clock tea, by their colleague Harry Anderson of the mechanical department. He brought along a pail of strawberries, everyone a prize winner, and a sealer of milk, all cream. The milk was the product of Revelstoke grass assimilated by a Jersey cow, and the berries came from Mr. Anderson's own garden. Harry's guests were of the opinion that as long as Revelstoke could produce within itself articles of such prime quality, it could hold its own with any place as a self-sustainer.

In spite of the fact that free transportation for a Revelstoke mineral exhibit at the Seattle fair has been offered by the Dominion and local governments, no samples have yet been left with the government agent at the courthouse to be sent on. Owners of claims in this district should certainly wake up. They will never have a better opportunity to display their wares at no cost to themselves. If they believe they have a good thing they should let the world know it, and moreover if they have any public spirit they should show it by their willingness to advertise the resources of the district. There is yet time between now and the 25th to get in samples and make up an exhibit.

It is now stated on what appears to be fairly good authority that the C.P.R. will build a line on the east side of the Fraser river canyon from Cisco to Agassiz. Cisco is about six miles below Lytton, and it is at this point that the C.P.R. crosses from the east side to the west side of the Fraser. The new line would leave the main line at the entrance of the bridge and follow the east side of the river somewhere along the remains of the old Cariboo road crossing to the main line again at Agassiz. The object would be to secure a lower grade through the canyon and save expense in haulege. The Canadian Northern railway has already had plans approved for the same route, but it is claimed that the C.P.R. is ready to go right on and build. If it did so it would shut out any other railway company from building through that part.

SOCIAL AND PERSONAL

Mrs R. J. Watson Mckinzie Ave. will not receive again until fall.

J. M. Kellie left on a visit to the coast yesterday.

Horace Manning returned on Friday from a trip to the coast.

Miss McLennan and Miss Hyatt left for a visit to the coast last Monday.

Mr. and Mrs. Alex. McRae are back after a visit of several days at the coast.

Mrs. Coursier will not receive on Tuesday 20th, nor again until the autumn

Mr. and Mrs J. P. McLennan will tomorrow for a holiday trip to visit friends in Vancouver.

Mrs. D. A. McDonald returned on Thursday from a two weeks' visit to friends in Vernon.

Miss Elsie Hooley left last evening for Vancouver where she will visit Mr. and Mrs. Brundrett.

J. A. Macdonald, M.L.A., of Rossland, passed through the city on Thursday on a trip to the coast.

Dr. Sutherland returned on Friday from a visit to Vancouver, where he attended a meeting of the B. C. Medical Council of which he is president.

Mesdames J. H. Jackson, T. E. L. Taylor and W. A. Morris left for the coast on Monday afternoon. The two former ladies will visit friends in Victoria, and Mrs. Morris will go to Vancouver.

Dr. S. J. Tunstall, of Vancouver, was an eastbound passenger on No. 96 yesterday morning. He had received news of the death of his mother in Montreal, and was hurrying eastward to attend the funeral.

Miss McLean, engaged in missionary and teaching work in northern Alberta, was the guest of her uncle here for a few days this week. Miss McLean had been on a visit to the Seattle fair and stopped off on her return.

Charles J. Wilson, editor of the Medicine Hat Times, was in the city yesterday and gave us a call. Mr. Wilson, who is accompanied by his wife, is taking a holiday trip. He came up through Kootenay and the Arrow lakes country, and left for home on No. 2 this morning.

Mr. and Mrs. Ross Donaldson have returned from an extended honeymoon trip to the cities of the Pacific Coast. During their absence they visited the Seattle Exposition, and San Francisco, Portland and many other points of interest.

Chief of Police Bain left on Wednesday afternoon for Kamloops, taking with him Vincenzo Romeo, committed on a charge of attempting to murder Fred Orsetti. Romeo will await trial at the Fall Assizes in the Provincial jail. The chief returned yesterday morning.

The Rev. C. C. Owen, rector of Christ church, Vancouver, passed through on No. 96 on Thursday afternoon on his return from a trip to Toronto where he went to try to secure assistance for a second Columbia mission boat. He said it had been the hottest June known in Ontario for several years, while on the prairies the crops were fully ten days in advance of former years and a bumper crop was expected. Summer seems to have struck east of the mountains a great deal earlier than it has here.

BUSINESS LOCALS

Fishing tackle, gut hooks, flies, lines, rods, automatic reels, etc. Bourne Bros.

Wheat, oats, bran, shorts, chop, etc. at Bourne Bros.

Private sale of household furniture of Mrs. D. W. Foote, Third street. Same may be seen between the hoars of 11 a.m. and 4 p.m. any day. 17-tf

Second-hand piano, good as new, for sale at Howson's Furniture Store.

Box No. 35.—Hospital.

Box No. 36.—School.

Signal for practise not less than six (6) slow strokes.

One (1) stroke indicates line broken or fire out.

Signals are given thus: 2 strokes—interval 5 seconds—4 strokes; equals Box 24. No. of box will also be shown on indicator at Fire Hall.

Thought He was Longboat

A nineteen year old boy named Galloway was taken from Edmonton to the Brandon asylum last week. He was laboring under a delusion that he was another Longboat and ran all the way from Edmonton to Fort Saskatchewan and back a distance of 40 miles in four hours. He is now paralysed in both legs though those who saw him run say that he did not appear at all distressed, and was not even breathing heavily. Since that, however, he has lost weight steadily and is now little more than a skeleton.

You Don't Have To

Go outside of Revelstoke to make your Real Estate Investments. The Revelstoke Land Company Ltd. have the best bargains in the City. Lots $150 up. Acreage $100 up.

Kootenay Agencies Ltd., Agents

Revelstoke Flour and Feed Store

SPORTING NOTES

Empioyed Boys and School Boys—University Team Beaten at Kamloops

The Employed doys and the school boys played two games on the Y. m. C. A. grouns this week. On Wednesday night they had a baseball match, and on Thursday night played lacrosse. In the baseball game the empyoyed boys had it all their own way, score standing 14 to 4 in their favor.

In the lacrosse match the employed boys also won but by the narrow margin of 1-0. The schoolboys certainly showed fine play, and spectators declared it was as good a game of lacrosse as they had seen this season. The employed boys were rather too heavy for their opponents, but the school lads played swiftly and with good combination, but never succeeded in landing it in the net. Some of the smallest boys, such as Arnold Mc Carter, darted around in chained lightning style, and their play won general admiration. The match was at least so even that the schoolboys might turn the fortunes of war in another trial.

Last nights game of baseball between two scratch teams of the Rovers and Intermediates resulted in a victory for Intermediates by 14 runs to 9. Some of the best men of both teams were absent.

The University of North Dakota baseball team who defeated the local boys on Tuesday night, on the following day were defeated by Kamloops by a score of 5-4. The game was said to have been one of the best ever seen in Kamloops, and the boys there naturally feel proud of their victory, as in 22 games the university team has played in coming west from Winnipeg they have only lost five.

Made a New Record

On Friday last the lead furnace at the smelter of the Consolidated company, at Trail, smelted 250 tons of lead ore and produced 130 tons of bullion in 24 hours. This is the banner amount of ore and bull on for a single furnace in Canada in one day, and also beats all previous records at the Trail smelter.

The ores put through were those that came from the several mines that ship to Trail. There was no attempt made to assemble ores for the run that would reduce easily, nor was there a special effort made to beat record for it was done in the usual course of operations of the lead furnace.

Gun Club Shoot

The following scores were made at the regular weekly shoot on Wednesday last:—

BUTTON SHOOT (25 birds)

McDonell	20,	handicap	3	17
Sturdy	21,	"	2	19
Barber	17,	"	1	16
Mulholland	16,	"	1	15
Taylor				6
Brown				14
Cooke				14

NOBLE TROPHY (50 birds)

McDonell	scratch			40
Sturdy	"			42
Barber	"			34
Hulholland	gets handicap		12	44
Taylor				32
Blakely	gets handicap		16	28
Brown	"		18	46
Cooke	"		6	34

Sturdy wins button in Class A. Mulholland wins button in Class B. Brown wins Noble Trophy. Mr. Taylor showed good form and was in a keen contest with Messrs. Brown, Barber and Mulholland and for the birds and shells.

Ingenious Enderby Incendiary

Frank Belmont, who was arrested with A. J. Dake, charged with arson and fraud, in connection with the burning of Dake's jewelry store at Enderby on July 2, has made a written confession.

"Belmont says that he and Dake rigged up an alarm clock in such a way that it would turn an emery wheel. The conspirators were very anxious to secure insurance. They placed matches against the wheel and underneath these scattered shavings saturated with oil. The alarm clock was set for 1:30 on the morning of July 2. It went off on schedule time. Belmont and Dake went to the nearby town of Armstrong, and listened to the fire alarm whistles eight miles away. Then they returned to the scene of the blaze where Belmont was arrested raking the burnt jewelry out of the ruins. The stock was insured at $2,500.

For Sale

Lady's Bicycle, almost as good as new, including bicycle skirt if wanted. This is a great chance. Light running; save time and money; none better; Glendron make; apply to

Mrs; J. R. ROBINSON,
Second Street.
