CRAIGELLACHIE CELEBRATED EMPIRE DAY

Craigellachie, B. C., May 30—The Empire day celebrations at Malakwa were favored with splendid weather, and proceedings started at an early hour when all roads led to Mr. Arthur Haycock's meadow, the chosen avenue for the day's sports.

After dinner jumping matches and footraces were enjoyed. Mr. Sturdy of Revelstoke, son of Mr. Sturdy, the Malakwa storekeeper, brought off a double event by winning both prizes. Various games were indulged in and hugely enjoyed.

After supper a grand concert was held in the town hall, presided over by the Rev. Mr. Connell. The Malakwa choir opened the concert with Mendelssohn's "Farewell to the Forest," and songs, recitations and duets were given by the following artists: Mr. and Mrs. F. Paulding, of Revelstoke, Mrs. Wiper, Miss Ball, Mrs. Hurst, Miss Schmidt, Miss Anderson, Miss Somerville and Mr. Hughes, all of Malakwa. Mr. J. E. Paulding, of Craigellachie also rendered two part songsand two solos. Mr. Arthur Haycock and Mr. F.J. Bosley jointly rendered "The Holy City" in fine style, while Mr. Arroll, the talented mission ary of Three Valley, gave several violin solos, ably assisted by the accompanist, Mr. Hughes. The event of the evening was undoubtedly Mr. Frank Paulding's rendering of "Asleep in the Deep," which literally brought down the house.

A most varied and enjoyable program was brought to a close by the choir singing Pinsutl's "Good Night, Good Night, Beloved."

E. Erickson, J.P., in moving a vote of thanks to the artists and all other who had contributed to the day's pleasures, referred to the vast difference in conditions in Malakwa now, compared with those existing fifteen years ago, but in reviewing the progress made, he urged the necessity of unremitting endeavor. There was much good work done, and for that all should give thanks but there was much more to be done, and in the accomplishment of the tasks in the future he urged that good fellowship, good feeling and unity of effort and purpose should prevail, and pointed out that the moral of the day's pleasure by showing that it was through thechurch and the efforts of the pastor, that the day's proceedings had passed off so pleasantly.

Mr. Connell, in responding on behalf of the friends and artists briefly emphasized the final part of Mr. Erickson's remarks and urged the claims of the church upon the community. On the conclusion of his remarks the proceedings terminated.

On Sunday a party of Malakwa friends paid a visit to Craigellachie, and were entertained at Meadow lake ranch by Mr. and Mrs. A.S. Alderton.

After supper the Rev. Mr. Connell conducted service and two quartettes, "Beyond" and "We Would See Jesus" were sung by Mrs. Wiper, Mrs. Hurst, Mr. Hughes and J.E. Paulding, also a solo and trio, "Some Time We'll Understand," by Mrs. Paulding and F. and J E Paulding, After service as the westbound train was late, the party took the opportunity to look at Gorge Creek falls. The creek is at present at full and the party was loud in its praise of the beautiful spectacle.

Visitors to Craigellachie during the week and week-end included Mr. Farr, superintendent for B.C. of the C.P.R. stone work and masonry, care of all gravel plants and crushers. He came to inspect work on the washing plant here, and to ascertain how soon it could be started.

F. Bowness construction foreman for the B. C. Equipment plant, left on Thursday morning for Old Man creek, his crew of millwrights following on Friday.

J. F. Johnson brought a couple of gentlemen from Spokane to view the scenery in the district. The visitors expressed their intention of settling in the locality.

On Friday evening Mr. and Mrs. F. Paulding and family, together with Mr and Mrs. Flockhart from Bolton, Eng. and now of Revelstoke, arrived in Craigellachie to spend the week-end with J. E. Paulding, the storekeeper, and postmaster here. The visitors report a most enjoyable week-end and announced their intention to return for good as soon as possible.

Mr. McQuarrie, C.P.R. chief engineer, P. Wade, general roadmaster and several other engineers, officials and others, have been paying flying visits to the vicinity and his Greek extra gang have been working for several days making ready for the installation of the steam shovel which arrived recently.

After a test has been made, the present steam shovel will return to boulder pit, while the big shovel at present operating in Bowie pit will be installed at Craigellachie and will work at reducing the grade of the hill between Malakwa and Craigellachie for the rest of the season. The gravel taken out during this work will be used in the washing plant.

Mr. Hughes the celery expert, formerly with the Malakwa farms, is now with the Wiper brothers at Malakwa.

F.J. Bosley and the road gang are still at Salsqua.

Mr. Schnidt is on a business visit to Vancouver.

WANTED.

A prize of $3 will be given to the pezson sending in the best suggestion for a comic stunt to be put on in connection with the Y.M.C.A. Field Day to be held July 1st. All suggestions will be considered by the Sports committee they reserving the right to use any or all of them, same to be in by Saturday noon on June 7th. Name and address of sender must be plainly written. All correspondence to be addressed to the Sports Committee, Y.M.C.A.

AUSTRALIAN ELECTION RETURNS

Melbourne, Aust., June 1—The returns of the federal elections held Saturday were too incomplete at anearly hour this morning to give any idea of the general results. There are indications, however, that the Labor party has carried the Senate in Victoria.

Among those re-elected are: The Premier, Andrew Fisher; Minister of External Affairs, Josiah Thomas; Attorney-General, Wm, M. Hughes; Minister of Home Affairs, King O'Malley; Minister of Commerce, Frank G. Tudor, gnd Postmaster-General Charles E. Frazier.

Melbourne, May 31—Elections to the Federal Parliament took place today, throughout the Commonwealth and resulted, so far as the early returns can be depended on, in the return of the Fisher administration to power. The Labor party, however, did not escape scatheless and the loss of several seats is reported.

The Labor party's policy, in brief, was the enlargement of the powers of the Federal government, the maintenance of a White Australia the development of the navy, and the upkeep of adequate land defences.

The Liberals favored a vigorous immigration policy, security to the states of full control in all state affairs, adoption of national insurance, Imperial reciprocity by means of preference agreements, a scientific tariff, abolition of political patronage and certain electoral reforms. The Liberals also favored a sound defence policy with the closest possible co-operation with the Mother Country in all such matters.

Big Eddy School Report

Following is the monthly report of Big Eddy public school for the month ending May 30th.

Days school was in session	22
Total attendance ....@	327½
Average attendance	14.88
Percentage of attendance	1 93
Number of visitors	5
Cases of tardiness	6 3

The following pupils were perfect in attendance.—Etta Barrett, Lavaune Dever, Esther Griffiths, Jenny Johnson, Roy McMahon, Nelly Olson, Chas Barrett, Rolf Carlsen, Johnny Barett

A movement is on foot to build a new school in the district. This would be greatly appreciated by all.

OUTLINE PREMIER'S ACTION

It is announced that Parliament will reassemble in the autumn, when a Redistribution Bill will be introduced, and that an election will be brought on at the earliest possible day. If this program is carried out and Mr. Borden is sustained, the Naval Bill, either in its present form or modified as events may suggest, can be passed early next year. This was not the only course open to Mr. Borden, but it is the one most in accordance with Parliamentary Government as it has been developed in Canada. Redistribution was absolutely necessary before an election was held, and it is very desirable that the necessary legislation should be passed and that effect should be given to it at the earliest convenient day.

Some of the London papers say that "a constitutional crisis has opened.' in Canada, but that is a mistake. No constitutional question whatever is involved. The Senate may have exhibited a singularly inadequate appreciation of its duty, but it acted within its constitutional rights- No serious question has ever been raised as to the constitutionality of the proposed contribution. There is no crisis nor anything resembling a crisis. Not even the existence of the Senate in its present form is necessarily an issue, although we fancy there will be a strong demand for a change in this respect. All that has happened is that certain prohibited tactics have prevailed for the time being. We regret that they did prevail; we regret that thereby the country has been placed in a false position before the Empire and the world But the condition thus created does not affect the constitution of Canada in any sense in which that wordcan be used any more than every defeat of a permanent measure by the House of Lords raised a constitutional question in the United Kingdom.

It is a mistake to becloud the real issue by suggesting questions not involved in it. What the electors will have to decide, when the election is brought in, is whether and how Canada will take part in naval defense. This is purely a question of policy.—Cabonist.

Fire Alarm Boxes

Signals are given thus:

Two strokes, interval five seconds, four strokes, Box 24. No. of box will also be shown indicator at fire hall.

Practice signal—Six (6) strokes of bell slowly.

Testing signal—Three (3) strokes of bell slowly.

Fire Out signal—Two (2) strokes of bell slowly.

Defect signal—One (1) stroke of bell slowly,

FIRE BRIGADE NO. TWO.

Box No. 14—Corner First street and McKenzie avenue, C. B. Hume & Co.

Box No. 35—Hospital.

Box No. 36—Central School.

Box No. 37—Selkirk School.

FIRE BRIGADE NO ONE.

Box No. 44—Fire Hall No. One.

Box No. 45—Front street west, near C.P.R. bridge.

Box No. 46—Corner King and Douglas streets. Palace Meat Market.

Box No. 47—Corner Second street and Wales street; back of Court house

Box No. 48—Corner Third and Charles streets, Cowan block.

The Fire Alarm Boxes to be kept closed when not in use.

PROVIDING FOR NEW JUDGES

Ottawa, June 2.—The order for Saturday sittings was passed at the opening of the house this morning.

Sir Wilfrid Laurier asked if the government had any new measures to introduce. Hon. Robert Rogers replied that there were none of any importance. He thought that one or two bills on the order paper would be dropped.

Notice of a resolution to amend the judges' act and to provide for a number of new judgships has been given by Hon. C.J. Doherty, minister of justice.

The proposed amendments provide for an additional district judge of the province of Ontario, at a salary of $3,000 per year, for an additional puisne judge of the court of King's bench, Manitoba, at $6,000 per year; for an additional justice of the supreme court of British Columbia at $7,000 per year; for an additional puisne judge of the supreme court of British Columbia at $6,000 per year; for an additional judge of the county court of Manitoba, $3,000 per year, for an additional judge and junior judge of the county court of British Columbia, each at a salary of $3,000 per year; for four additional judges of the district courts of Saskatchewan, each at a salary of $3,000 per year; for an additional judge of the exchequer court district of Montreal, $3,000 per year.

It is also provided that except where they are entitled to larger salaries, judges and judge of county courts and districts courts be paid a salary of $3,000 per year from the date of their appointment an increase of $500 per annum.

The resolution further provides for the granting of an annuity equal to the salary of the office held by him to every judge of a county court who, having attained the age of 75 years, is compulsory retired or to every judge who, having continued in office for a period of 30 years or upwards, is compulsory retired.

PANAMA READY FOR BATTLESHIPS

Nelson, B.C., June 2—Within twenty four hours notice at any time during the past eighteen months the Panama canal could have been opened for passage of warships and other vessels if the United States government had so desired and the work which is now being carried on by sixteen thousand men is completed equally well as if the big ditch was in operation, was the statement made here last night by Joseph Cawley, who for eighteen months prior to last March was assistant superintendent of shops in the canal zone and in that position travelled from end to end of canal many scores of times.

"In the event of trouble with Japan regarding the California alien land bill, you would see the canal thrown open and warships passed through so fast that it would make your head swim," he asserted.

AND YOU DON'T LOSE A CENT

"How much do you charge for one thousand letter heads" is a question which the manager of a printing office is asked almost every day of the week

"That depends pretty much on the quality of the paper," he replies.

The customer usually remarks that he likes a fairly good class of paper, and is shown samples of several grades from which he makes a choice. As likely as not he selects a high grade paper, one which calls for a rather high price. However, he is shown a good grade of paper which he can have printed and delivered for $5.50.

He wrinkles his brow, puckers up his lips, and finally says he will call again. He goes back to his office and looks up an offer of some mail order concern which sent him a circular offering to print "ten thousand letterheads for $32.00—$3.20 per thousand." No mention is made of the grade of paper, style of type or class of ink—but with the mail order house that is of no consequence. Of course the business man really doesn't want ten thousand letter heads, but thinks that since he is sending away for them he may as well get a good lot—and away goes the order to the outside house.

Now the point of this is that, had this man asked the local printer for a price on "ten thousand" instead of "one thousand," he would have seen that the price was the same, or perhaps even better, besides which he could have had a choice of several grades of paper at the same price. He could also have seen a proof of the type before printing, as well as have some choice in the color of ink. Moreover, he would thereby have left his good money in the city, with a chance of getting some of it back again, while at the same time he would be supporting the industry of his fellow business man, and all this helps everyone living in the city.

And all this without spending one cent of additional money—simply turning it into a different channel.

Ring up Phone No. 8 or slip round to the Mail-Herald Office if you want further light on this subject.

If you are out of town or otherwise unable to arrange an interview, write P.O. Box 914 and all information and estimates will gladly be given. We print everything printable. Careful attention to mail orders.

R. F. GREEN ACTIVE FOR KOOTENAY

Secures $100,000 New Dredge Arrow Lakes.—Mount Revelstoke Park Assured.

J. P. Forde, Dominion government engineer for Kootenay, returned from Ottawa on Saturday, where he had been on Departmental business. He informed the Mail-Herald that his trip had been a very satisfactory one, as the member for this district, Mr. R.F. Green, M.P., had been particularly successful in securing appropriations for much needed work and tho provision has not been made in the estimates for all of the required works we have secured at least our fair share of the monies voted, if not more. Full particulars of these monies have already been published in the Mail-Herald.

Mr. Forde seemed to be particularly pleased with Mr. Green's success in obtaining the money to commence the construction of a dredge for the Columbia River Narrows, of the proper type and capacity to make a channel through the narrows which will, with in a reasonable time, allow of the safe and continuous operation of the large C.P.R. steamers now on the Arrow lakes. While in Ottawa he discussed very thoroughly with the officers of the Department of Public Works responsible for dredging operations, the details of the proposed dredge, which will be built this season, and plans are already under way for it. It is proposed to build a self-propelling section-type dredge, with steel hull. It will have sufficient discharge pipe, carried on pontoons, to allow of the dredged material being discharged entirely clear of the river and thus obviate any possibility of the material being carried back into the channel by high water. This dredge will replace the dredge at Nakusp which has been engaged on this service for some years but which is now in such a condition as makes it impossible to operate it economically. Asked as to where it was proposed to build the new dredge Mr. Forde stated that he could not as yet say where this would be done, but that he had instructions to report on the advisibility of the work being done at Arrowhead as being the nearest point on the lakes to the main line of the C.P.R. over which, of course, all material will have to come.

Regarding the new park on Mount Revelstoke he said that he was informed that Mr. Green had made all the arrangements for the establishment of the Park, but that it is only set aside by Order-in-Council and until it has been taken into the regular Park System it will be impossile to have any sum voted for the building of roads or trails in it.

CONDEMNS FEMININE ATTIRE

(By Oliver P. Newman.)

Washington, D. C., May 30—"The widespread immorality among men women, boys and girls, the horrible menace of social disease, the physical weakness of nearly all women and the blindness, curvature of the spine, club feet, tuberculosis, rupture infantile paralysis and other ills from which so many children suffer are all directly to one thing—the immoral, unhealthful and ridiculous style of women's dress."

That is what the most famous advocate in women's dress—Dr. Mary Walker—told me when I asked her to give me her opinion of the low-necked short-sleeved, tight-skirted, petticoatless costume of 1913.

It is no new theory with her. She's been advocating it for a little matter of 55 years, having donned trousers herself at the age of 18, worn them constantly and preached for male attire for women in season and out of season ever since. Now, at the age of 73, still going about the world in men's trousers, frock coat, silk hat, standing linen collar, cravat and men's shoes, she is more positive than ever that the solution of nine-tenths of society's troubles if for women to dress like men.

"No man can know the agony of the ordinary costume worn by woman," said Dr. Walker, who is in Washington for a few weeks delivering a series of lectures. I could hardly realize I was not conversing with a man. Dr. Walker drew her coat tails about her just like a man as she sat down, threw one trousered leg over the other like a man getting ready to read his evening paper, put on her gold-rimmed spectacles, folded her hands in her lap and expounded her views.

"Every woman knows I am telling the truth," she continued. "Every woman knows, and most of them will admit, that I am right at least as to the unhealthfulness of women's dress. And men are coming to know it, for men find that their wives are weak and sickly, that their children are not strong and robust and that they themselves sometimes suffer from ills due to the tight, cumbersome clothing of their mothers.

"To expect a woman to dress that way and be healthy and to produce healthy children must be admitted to be absurd by any one who thinks at all.

At this point Dr. Walker became intensely earnest. She rose and strode back and forth through the room, exactly like a man. I noticed that while Dr. Walker is a little woman, not over 5 feet 3 and so slender asto weigh probably not over 100 pounds, she is wiry, vigorous, quick and sure in her movements and as straight as a young hickory. Her well poised head is covered with wavy, gray-brown hair, parted on one side and falling just to the edge of her collar.

"I have spent my life since girlhood preaching women's dress reform" said Dr. Walker, "and I am still unalterably convinced that it will have to come.

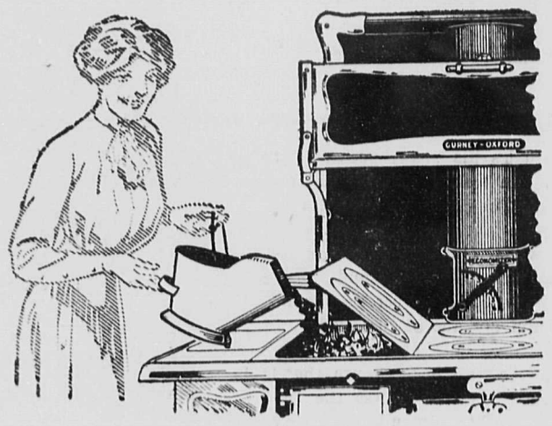
"I was the only woman surgeon in the army during the civil war. Italkedress reform while I treated wounded soldiers then. I am the only woman who ever was voted a medal of honorby congress. I have been arrested scores of times, but I have never faltered and I never shall."

Dr. Walker was born in Oswego, N.Y., and after a lifetime of activity as a lecturer and physician all over the United States, has returned to her birthplace to spend the rest of her days. Still as vigorous and as keen intellectually as a person 20 years her junior, she spends about half of her time on the lecture platform having resolved to die in the harness.

MANNING'S

The Orpheus Orchestra will entertain you again this evening. Come and hear the music—bring your friends and enjoy our delightful refreshments.

MANNING'S



The Full Value of Coal

You will never derive the full value of the money you pay for coal unless your stove is controlled by the Gurney Economizer. It actually saves 1 ton of coal in every 6 you would ordinarily burn in other ranges.

It also assures a thorough, steady, even heat throughout the entire stove. There is no waste heat going up the chimney.

The Economizer makes sure that the purpose for which fuel is being burnt is carried out.

The Gurney Economizer is a simple device that requires just a light pressure on the lever to result in a consistently heated oven—the secret of successful baking.

No sane person can afford to ignore this saving in coal bills, so make sure that your new range has an Economizer.

The Gurney-Oxford is equipped with other exclusive devices, the Divided Flue, the New Special grate, and the Broiler attachment.

It also is made with a perfectly smooth polished top which forever requires no black lead.

There are no crevices where dirt may lodge —above all it is sanitary.

No intelligent housekeeper to-day can afford to ignore the benefits which science has brought to her through the Gurney-Oxford.

ENGLISH IMMIGRANTS' ROMANCE

With hundreds of immigrants arriving every day throughout the season, the C. P. R. depot at Strathcona has been the scene of numerous romantic happenings, which in the very nature of things, could never be known to the general public. One of the most interesting of these scenes was enacted on the platform yesterday, when the train from the east, bearing a number of new comers from the Atlantic ports arrived at the depot.

Five years ago William Beecroft left the little English village of Hadleigh, in Essex, it being understood that, as soon as he had made a position for himself, he should write home for his intended bride to join him. In the bustle of western life, Beecroft neglected to write for some considerable time, and when he finally did communicate his letter was returned as undeliverable. Beecroft had also changed his address on several occasions, and for the last four and a half years had no idea of the whereabouts of his sweetheart.

During the last three years fortune has been kind to Beecroft and he is now a prosperous farmer in the High River district. A week ago he decided that he had earned a holiday, and decided that he would spend a few days with friends at South Edmonton.

Having no particular business on hand yesterday morning, Beecroft walked down to the C.P.R. depot to watch the arrival of the train from the east. Among the immigrants was a girl whose face seemed familiar to him, and as she appeared to be undecided as to where she should go. Beecroft had an opportunity of studying her more closely. Finally the girl asked one of the policemen on duty for directions as to how to find the immigration hall, and by her voice Beecroft recognised his lost sweetheart.

After a somewhat sentimental scene on the platform, mutual explanations were exchanged, and Beecroft learned that the girl had met with considerable misfortune in England, and had decided to emigrate to the west. According to several of the station officials, who have taken a keen interest in the little drama enacted in their presence, the incident is likely to have the conventional ending beloved of the romantic novelist.

Reports coming into the Spokane Spokanesman-Review office are very optimistic. Spring, they say, is opening up generally, and while the season is from three to four weeks late, there is every reason to believe that the loss will be made up. There is plenty of moisture in the ground, the fruit is probably past the danger of frost, and the live stock men report increased interest and chances for a larger crop of young stock.

Your Individuality Delineated

There is a character expressed in Tourner Photographs that arrests attention. Models of artistic and scientific skill, faithfully reproducing that indefinable "something" that makes a photo a "speaking" likeness.

Why endure the usual stilted and repressed style when you can get something different—and better—for the same price?

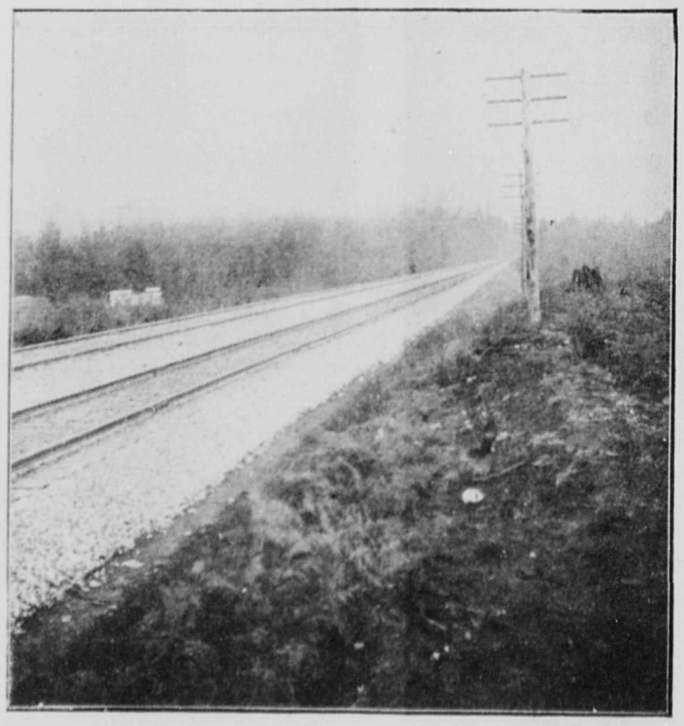
Double-Track on C.P.R.



One of the finest stretches of Rock Ballasting on the entire C. P. R. System is the sixty-five miles which has just been completed east from Vancouver. The work has been pronounced by railway experts to be second to none on the North American Continent. The accompanying view gives a splendid idea of what the completed Road-bed is. The ballast which is Crushed Rock from the C.P.R. Rock Crushing Plant at Nicomen is placed in the centre of the track and on the ties by centre-dumping, hopper-bottom cars. The track is then lifted and the rock ballast tamped into place between the ties. The crushed rock under the ties averages from eight to ten inches in thickness. This type of ballast is ideal for a wet climate as it is readily drained and easily maintained in good line and surface. Experts declare that this type of ballasting increases the comfort of the traveler greatly. Miles of crushed rock ballast are being laid on C.P.R. lines. For twenty-four miles out of Vancouver the main line of the C.P.R. is double-tracked and in operation. Sixty miles of double track construction work is in progress now and of this twenty-five miles from New Westminster Junction to Mission will be completed by May. The remainder of the distance from Mission Junction to Ruby Creek will be finished by early fall. When this double track work is completed and the line ballasted with crushed rock there will be no finer piece of rail line in the country.

Sherwin Williams Paints

We carry a full range of colors in the above, both for inside and outside work, also floor finishes, Stains, Varnishes, Oil Turps, Johnson's Wood Dyes, etc. For best results see that S. W. P. is marked on the can. Everything in up-to-date Paint Brushes.

ROASTS CANADA SENATE

A significant warning was given to the Senate by Premier Borden at the big Toronto meeting, if the upper chamber thwarts public opinion by throwing out the Naval Bill. It was a warning that if the members of the upper chambers are prepared to dance when Sir Wilfrid Laurier pulls the strings there must be senate reform. That the Liberal Senators would be so fatuous as to defy public opinion in such an important measure so vitally affecting the interests of the whole empire seems hardly possible.

Here are the words of the warning of the Premier uttered after referring to the fact there were many men of high character in the Senate and he declinedto believe they would do only Laurier's bidding:

"Otherwise I would be prepared to declare that the Canadian Senate as at present constituted had thoroughly outlived its usefulness, and that an immediate remedy Must be sought and found. The senate is an important part of our constitutional machinery, and is entitled to every respect, but it is not never was, and never will be above the Canadian people."

BORDEN HELPING THE WEST

Since coming into power the Conservatives have bent their energies towards solving the problems of the West. As a result of the activities of the government the grain of the west has never been handled as smoothly as in the past year. There was no grain blockade at the head of the lakes, which for years has been the bane of the western farmer. Navigation through the use of ice-breakers was kept open for a period later than ordinary while American grain ships were allowed to winter at Port Arthur and Fort William. These boats had a storage capacity of some thirteen million bushels which relieved the pressure on the elevators. Then the railraods through the efforts of the government provided a greatly increased equipment and rolling stock to handle the grain of the West.

As for the Hudson Bay railroad, more has been done in the year and a half of office of the Borden government than the fifteen years previous. The contract has been let from LePas to the Bay and is being energetically pushed by the government. The harbor work on the water side is also being rushed so that by the time steel reaches the coast ships will be able to load grain from the prairie provinces.

The government is also implemeting its pledge in regard to providing government owned terminal storage facilities. As a starter a three-and-a-quarter million bushels elevator is being erected at Port Arthur which will be ready to handle its share of this year's crop. Interior terminal elevators are also, it was recently announced, to be built in order to provide at interior points storage facilities with all the consequent advantages to the farmers. It was no idle promise for the supplementary estimates which have just been brought down contain an item of no less than four million dollars for an interior terminal elevator system.

BORDEN v. WILSON AT GOLF

The Montreal Star has the following suggestion to make:

"Woodrow Wilson plays golf. Prime Minister Borden plays golf. There is an old score to settle here. The Prime Minister should play the President.

"Mr. Taft beat Mr. Borden three up and two to go, but at the time Mr. Taft was President and Mr. Borden was only leader of the Opposition in Canada. Now that Mr. Borden is Prime Minister and is not restrained by diplomatic etiquette from playing as well as he can. The Star is willing to offer a suitably inscribed silver cut to be contested for between the Prime Minsier of Canada and the President of the United States.

"As the freedom of the President to go abroad is subject to restrictions, while the Premier of this free country may travel as he chooses, the stipulation is that the games shall be played over any golf course on which neither player has played. The rules of the American golf Assaciation to govern. Now that is as fair as we can make it. Which wins the Star cup?"

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each applicant must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to the Agent or Sub-Agent of Dominion Lands.

WEDNESDAY, JUNE 4th, 1913.

At the command of the Liberal party chiefs, who themselves had been rendered incapable of perpetuating such a dirty job by the timely votes of the Canadian electorate in recent Dominion elections, the Senate have thrown out the government's Naval Bill; it is a case of the "desperate gamblers" last throw. Thanks to the businesslike policy pursued since acceptance of office by the Borden government, the Liberals whose one and only hope is the personality of their old leader, see as each month rolls by, that the chances of Liberal administrators again being elected to power, are becoming slimmer, whilst at any moment "Sir Wilfrid" may be forced by the infirmities of age, to retire from active politics, when the withdrawal of his leadership would result in the final collapse of his office seeking followers.

The Liberal policy had to be a policy of rush and force, enexorable father time is on the Conservative side, and each week of splendid achievement on behalf of Canada by the Conservative government is another nail driven into the coffin of Liveralism.

So the servile Liberal Senators were commanded to throw out the Naval Bill, and as most of them owe their position in that decayed assembly to no other cause than their reputations as obiendient Liberal party hacks they dare not obey the whistle of their master, and the labors of an entire session were brought to nothing in three scant days, during which the Senate partizan debate showed from the first what was the fate in store for the measure. However, the sm perial Naval Aid Bill is only delayed, when the short fall session of 1913 is over, immediately following the redistribution bill and election the re-inforced Borden government, backed by an overwhelming popular mandate, will again put the Bill before the degenerate politicians of the Canadian senate, and that august body with a genuine regard for its own continuous existence, will pass same without a murmur. Sir Wilfrid with his reduced following will find himself unable to summon up sufficient energy to even attempt to crack his party whip in defence of the peoples choice.

LAURIER POLITICAL ACROBAT

Laurier is the prince of political acrobats. His ability for changing his position on any subject is famous. He will go down in history as the most monumental opportunist that the public life of Canada has produced.

For sixteen years during which he was head of the government, Laurier kept in force a protective tariff. Now he comes forward in the House of Commons, declares he is a free trader, and always has been. The real truth is he is a free trader where that attitude will catch a vote or two, and a protectionist where that policy is popular. And yet the Liberal press calls upon Canadians to bend low in admiration and adoration before this lanus-faced political adventurer.

Laurier cannot be a free trader on the prairies and a protectionist in Toronto and Montreal. The people are getting tired of the contortions of the same Laurier. He cannot adhere to one policy. He is an opportunist on the trade question as on every other question. The people will not forget readily that Laurier wished to make Canada an "adjunct" of the United States.

Laurier may claim he is a free trader. The people have long since given him another title and that is Prince of Political Acrobats.

REID & YOUNG

CALIFORNIA FOR THE WINTER

Washington, May 31—Japan's rejoinder to Secretary Bryan's reply to the Japanese protest against the California Alien Land Bill will be submitted to the state department early next week, according to the proposed plans This was made known today, but without any suggestion as to the probable contents of the note.

There have been numerous cable exchanges between the Japanese embassy here and the foreign office in Tokyo, necessitated by the demands of the latter for exact information as to the American national and state laws regarding alien land ownership.

Notwithstanding the pressure from certain quarters at home, however, it is regarded as doubtful that the Japanese embassy has concluded to turn to a request for amendment of the national laws as a solution af the present issue between the two countries.

The successful treatment by the Canadian parliament of complaints from British Columbia of the competition by Japanese has attracted the attention of the negotiators on both sides in this country.

As the underlying principle of the Canadian legislation is separation of the two races in the interest of permanent peace, to be attained through absolute exclusion of all but the travelling and student classes, it was suggested today that a similar remedy might be found to fit the present issue in America.

It was pointed out that the representatives of Japanese in Canada, made no objection to the Canadian legislation.

Indications point to a judicial test of the California land law as soon as possible after August 1, when it will go into operation, though it is stated that it is by no means certain that in the event of a decision adverse to their claims, the Japanese will be willing to abide by any decision which may amount to discrimination.

An energetic campaign for settlers is being pursued by Victoria at the present time in Great Britain and the Western States of America, and this is to be extended and carried into fresh fields in the near future. Another excursion of land-seekers from the United States is planned for November next and the Hon. F. Hagelthorn Minister in Charge of Immigration, is about to send a mission to Denmark and Sweden to place the advantages offered by the State before the peoples of the Scandinavian countries, who are so closely related to the English speaking races that no difficulty of assimilation will be experienced. The demand for domestic servants in this State is particularly keen. Its revenue for the past nine months amounted to £6,904,716. The railway receipts show a good recovery from the somewhat slack period experienced in the autumn of 1912. Income-tax show a large increase.

Permits to the value of $120,000, were issued by the South Vancouver building inspector during the month of May. A total of 154 permits were issued!

Dropped in the Mail-Herald Post-Box

1 Agaton Road, St Budeaux,
Devonport, 23rd April, 1013

Editor Mail-Herald,
Revelstoke, B. C.

THE LATE CAPTAIN SCOTT.

Sir,—The sad death of this hero after attaining his object in the Antarctic has led to a desire on the part of his native town of Devonport, Devon, England, to erect a memorial to his honor and memory, and which it is thought probable his widow, Lady Scott, may be asked to execute, to be placed in a public building in his native town. I am sure there are many Devonporters and Devonians in many parts of the world and of the British Empire who would like to contribute, however modestly, their share toward the accomplishment of the proposed memorial. Will other papers please copy this appeal, for Devonians are everywhere, and have been since the days of Drake and Raleigh, and will Devonians everywhere pass on the appeal?

I am sure Edward Blackall, Esq., the Mayor of Devonport, will be delighted and cheered if the response to this appeal is warm, as it might readily be expected to be.

As an old journalist, and knowing the power of the Press in helping in such cases, I have taken the liberty of thus attempting to help the cause the Mayor has so much at heart. Donations should go direct.

Yours faithfully,
CHAS. R. ROWE.

SUFFRAGETTES AT CLOSE QUARTERS

In London, of course there is sometimes a little temporary difficulty, so that it is well at this time of the year to have more than one string to your bow in the way of hotels. There is a great run for instance on those which cater for unattached women, or women travelling alone, and there are several hotels that do this. The feminist movement has favored a good deal of travel. The dears display a certain restlessness and when they are in one place they have a sort of feeling that they ought to be in another.

I was recently obliged to put up for one night at a London hotel, not far from the recently raided Suffragette headquarters in Kingsway. At breakfast next morning there were about fifteen women to every man, and the meal was served by waitresses. There was a determined look about most of the guests that was calculated to make the male minority feel uncomfortable. I said to the elevator man, as soon as I ventured from the corner in his cage into which I had been squeezed, "Are these Suffragettes?" "Yes sir" he replied, "every one of them."

On the ground floor a fresh contingent of strident females was arriving, for there was to be a big meeting at the Albert Hall. It was my first experience of the suffragettes in mass. I should think that for the most part they were single women of liesure and some means. Their average age would be about 43. Their bearing was rather overbearing, their manner just a little excited and nervous, combined with a determination to assert themselves. I felt that under the circumstances it would be ungallant of me to take up any space in that hotel so I paid my bill and left.

RAILROAD MAN HAD TO LAY OFF

Until He Took GIN PILLS

Buffalo, N.Y.

"I have been a Pullman conductor on the C. P. R. and Michigan Central for the last three years.

About four years ago, I was laid up with intense pain in the groin, a very sore back, and suffered most severely when I tried to urinate.

I treated with my family physician for two months for Gravel In The Bladder but did not receive any benefit. About that time, I met another railroad man who had been similarly affected and who had been cured by GIN PILLS, after having been given up by a prominent physicians who treated him for Diabetes. He is now running on the road and is perfectly cured. He strongly advised me to try GIN PILLS which I did—with the result that the pains left me entirely."

PERILS OF MIXED MARRIAGES

London, May 27—The perils undergone by white women who marry colored men were emphasized by Mr. Foster Fraser, the well-known Asiatic traveler, in an interview yesterday.

These dangers formed the subject of a warning recently issued by the Australian government at the request of Colonial Secretary, Mr. Harcourt This warning primarily concerned marriages with the Pathans and others of the hill tribes of the northwest frontier of India, but Mr. Fraser extends the warning so as to include Mongols and Caucasians.

"It is extraordinary," he said, "to find the number of white women who are in the harems of Persia, for example. They are mostly English and American dancing girls who have met Persians who are travelling abroad, and, fascinated by tales of life in Eastern palaces, have married them.

"When I was in Persia, I came across a typical case. It was that of a girl who had been an attendant at a stall at the Crystal Palace. She was seen by a Persian in the entourage of Nasr-ed-Din, a previous Shah, when he visited this country. She married him according to the Roman Catholic rites and, with her sister, went to Persia with him.

"Once in this country, however, he immediately placed her in the harem, where she found herself but one of the several wives and was forced to live a life of seclusion, cut off from her own people. She met only the Persian ladies of the royal harem, to whom curiously enough, she used to translate Sir Arthur Conan Doyle's detective stories, in which they were greatly interested.

"Eventually her husband died, and she desired to return to England, but many difficulties were placed in her way, and it was only by the persistent good offices of the wife of the British Minister that she was able to depart, taking with her her son, on the strict provision that he returned to Persia when he was sixteen years of age. Subsequently, I believe, she married an Englishman and now lives at Peckham.

"Marriages between Chinese, Japanese, Egyptian, Siamese or Persian men and white women are rarely happy. The men from these nations who travel are naturally wealthy, and women who become fascinated by them forget that they will have to live in a totally different atmosphere. An intolerable longing for home comes to them and escape is impossible.

"As an example of the dangers of mixed marriages to white women, a recent case may be cited in which it was held that a white woman married in England, was no longer the wife of a Siamese after she had been desrted for three months, this process being sufficient for a husband to end his marriage in Siam. and the wife was bound by the laws of her husband's country."

"THE IRON TRAIL."

(E. Ernest Allaby.)

The silvery moon is shivering,
O'er the mountains high and cold;
And the silent wings of evening,
Doeth the weary world enfold.
The mountain streams asparkle,
Where they ramble o'er the rocks,
And the wild duck all lie in the lakes
In pairs as well as flocks;
While rolling down the mountain,
On my engine such a night,
Adown the long and tortuous curves,
A well remembered sight;
I thought about the days gone by,
When I was in my home,
Far off beside the Fundy's tide,
'Ere I started out to roam;
How I often wished that I could ride
Along the shimmering rail,
And take my place among the men
Along the Iron Trail.
The trail that leads from shore to shore,
And carries human freight,
That rolls across the prairie,
And the mountains high and great;
Where Mount Cathedral stands so high,
Beside the railway track,
And the Great Divide is looked upon
This continent's great back;
And there Mount Stephen rears on high,
It's pinacles so steep;
While down, far down beneath its feet,
The Kicking Horse doth creep.
Likewise Sir Donald lifts its head,
And pierces clouds asunder, —
While from its steep and rocky sides
The avalanches thunder;
Perpetual ice and snow,
To see the wondrous scenery,
The people yearly go;
There's numerous other things to see
No pen can e're explain,
The best way for to see it,
Is on a C. P. Train.

ALBERT CANYON SCHOOL

The following is the monthly report of Albert Canyon public school for the month ending May 30, 1913:

Prescribed school days	22
Days school was in attendance	22
Total actual attendance	187½
Average actual attendance	8.52
Pupils actually attending	69
Boys	5
Girls	4
Tardiness of pupils	4

The following have attended every day in the month:—Linnea Carlson, Annie Sandberg, Albert Sandberg Ethel Ratcliffe, Russell Ratcliffe.

AGNES BLACKBERG,
Teacher.

It has been announced at the offices of the G.T.P. that the total elevator space on the G.T.P. system in the Prairie Provinces, which will be in a position to take charge of the 1913 crop will have a capacity of 5,608,800 bushels, or approximately be able to store at one time one-tenth of the entire crop. The number of elevators is 119 and is made up of 76 elevators in the province of Saskatchewan and 25 in Manitoba—the remainder being in Alberta.

Make Us Prove It

We dare not exaggerate to you. We are dependent upon your patronage. To get it we must have your trust and confidence. We make the following statements with a full understanding of what they mean to us. You are safe when you believe in these statements.

For the Bowels

If you only knew as much as we and those who have used them know about Rexall Orderlies, you would be as enthusiastic about recommending them as we are. They taste just like candy. They act so easily and so pleasantly that the taking of them is a pleasure.

Even children like Rexall Orderlies; and you know that if a medicine appeals to a child, it will appeal to grown-ups.

Rexall Orderlies

help chase gloom, dispel blues and make you feel happy by their splendid tonic, cleansing and strengthening effect upon the bowels. — They act to free the system — and keep it free — from the distress and ill feeling that naturally results from irregular and inactive bowels.

Rexall Orderlies do this quietly, without griping or causing nausea, purging or excessive looseness. They act to overcome and remove the cause of bowel ills and in a short time usually make unnecessary the continued use of physics and purgatives, thus tending to stop such unhealthy habits as may have been formed.

Make us Prove This

We do not ask you to take our word for this. We want you to make us prove it, and at no cost to you.

Buy a box of Rexall Orderlies at our store. Use them once, or use up the whole box. Then, if you are not thoroughly satisfied, just come back empty handed and tell us. Without obligating you or questioning you we will return the money you paid us for them.

Doesn't that indicate that Rexall Orderlies are at least worthy of trial? Doesn't it prove our faith in them? Doesn't it merit your confidence? Could any offer be more fair to you?

We particularly recommend Rexall Orderlies for children, delicate and aged persons. Rexall Orderlies come in convenient vest-pocket size tin boxes. 12 tablets, 10c; 36 tablets, 25c; 80 tablets, 50c.

CAUTION: Please bear in mind that Rexall Orderlies are not sold by all druggists. You can buy Rexall Orderlies only at the Rexall Stores. You can buy Rexall Orderlies in this community only at our store:

The Camp will attend for Divine worship at St. Peter's church next Sabbath evening, June 8th. Members and visiting Sovereigns are expected to assemble in Lodge Room, Selkirk Hall by 6:25k.

BY ORDER.

A MAN WHO KNOWS

Says GIN PILLS Are Good For Pain In The Back

WHEN your grocer tells you he uses a certain tea in his own home, you feel pretty sure it's good tea.

And when a prominent druggist takes GIN PILLS for his own Backache, you can feel quite sure there is nothing else quite so good.

Winnipeg, May 19th, 1912.

"In the autumn of 1911, I suffered with a continual pain in the back. As a druggist, I tried various remedies without any apparent results. Having sold GIN PILLS for a number of years, I thought there must be good in them, otherwise the sales would not increase so fast. I gave them a fair trial and the results I find to be good".

GEO. E. ROGERS.

GIN PILLS have well earned the confidence which druggists, as well as the public, have in them. For years they have been relieving the pain of Rheumatism, Lumbago and Kidney Troubles generally, and changing tortured cripples into strong, supple men and women.

Why should you go on suffering when there is a remedy so easily obtained and so reliable? GIN PILLS cost but 50c. a box, 6 for $2.50. Money back if they do not help you. Sample free if you write National Drug and Chemical Co. of Canada, Limited, Toronto. 150

School Baseball

BUSINESS LOCALS

Coursier's Clean Smokeless Coal is the kind for cooking.

You make no mistake by coming in to the Moose now. The charter is open, and the rates are low. You can't beat it for a good, sound order.

If the boys should want a shave as good as a barber ever gave, drop in to Hacks and wait awhile, Joe will give you a shave that will make you smile.—Atthe Ideal Pool Room.

House, on Fifty Foot Corner, Second street, west, near Court House. Erected in Nineteen Twelve, five rooms bath and pantry, electric heated modern plumbing, open fire place. We have a special price on this quick sale J. B. Watson Realty Co., next Star Theatre.

It only costs you a Five Dollar Bill for Initiation Fee to become a good Loyal Moose. This is for a short time only, so make hay while the sun shines

Are you a Moose? If not, why not? This Five Dollar Initiation Fee is something you don't get every day.—Remember, it raises to Twenty-five as soon as the charter closes.

Do you want an income investment or desirable residence property— Consult H. N. Coursier.

GALT COAL is handled exclusively in Revelstoke by the Revelstoke General Agencies, Ltd.

Now then boys we have come again and still are singing the old refrain—"The Chair's are Waiting still for You," drop in and see what Joe can do at the Ideal Pool Room.

The Paul Rainey African Hunt Pictures are without a doubt something most wonderful, giving a two hours entertainment each evening. Reserved seats will be on sale at Macdonald's drug store, 50c. for reserved and 25c. for general admission.—Empress theatre, June 6th and 7th.

REVELSTOKE CITY AND DISTRICT

Facts Concerning Our Home Town.—Geographic Centre of British Columbia.--Vast Mineral and Timber Wealth Throughout Surrounding Country.—Homes for Thirty Thousand Prosperous Agriculturists.—Scenic Attractions.—Industrial Possibilities.

Go where you will, you will find no better located point for the site of a City than Revelstoke. It is as nearly as possible in the centre of that great section of British Columbia extending for a length of 350 miles between the Crow's Nest and B.C. Southern railway systems to the south and the routes of the Grand Trunk Pacific and Canadian Northern railways to the north.

Prettily situated on the Columbia River where it is crossed by the main line of the Canadian Pacific Railway, it is also the junction with the main line of the Arrowhead and Kootenay Railway, which connects with the palatial steamers of the C.P.R. on the Arrow Lakes, and with the B.C. Southern, Columbia and Western, Crow's Nest Pass and Great Northern Railway systems to the south.

As the construction of the Grand Trunk Pacific and Canadian Northern railways to the north proceeds, and these systems become extended into the Canoe River valley and the territory tributary to the Big Bend of the Columbia, they must seek connections with the south, and Revelstoke will be the point of junction of the railway systems of the future with those of today as they traverse the great valleys which radiate east and west, north and south from this city as their common centre.

While Revelstoke thus occupies an exceptionally strong position as a traffic emporium, its outlook is still brighter from an industrial and manufacturing point of view. There are 1,000 miles of timber on the Columbia River and its tributaries north of the city. The expenditure involved in the conversion of this timber into a marketable product will not fall far short of $275,000,000.

Water power is plentiful in the vicinity, the city having harnessed one stream to a capacity of 1,800 horse power, which is offered for industrial purposes at low rates.

In the valleys tributary to Revelstoke are about a quarter of a million acres of land of good quality, and which, when cleared of timber and cultivated, is well adapted for fruit-growing, poultry farming, dairying stock raising, and general agriculture. This land is capable of supporting a rural population of 30,000 people.

Extensive and varied mineral deposits are known to exist in the neighborhood, and await development.

Cradled and beautiful scenes of mountain and glacier, forest-clad hill and vale, river stream and lake; favored with an quable climate. Revelstoke is one of the most picturesquely located of Canadian cities and an ideal town in which to make a home.

It is well lighted, has a high pressure supply of pure water which can be extended to meet any future requirements, good drainage and sewerage, high-class educational institutions in the way of public and high schools, a Y.M.C.A. with a well-equipped gymnasium, two public parks fair grounds, race track, magnificent summer park on Mount Revelstoke connected with the city by rail, nice homes and gardens, and in fact all the modern conveniences that go to make a town attractive from a residential point of view. (The great summer and tourist resorts of the Rocky Mountains are within a few hours reach.) Good fishing may be had in many of the adjacent streams and lakes. Hunters will find here resorts of big game with reliable guides at call.

One of the most valuable assets of the district is its climate. It is comparatively mild, equable according to the seasons, salubrious, bright and sunshiny throughout the greater part of the year. The heat is not excessive in midsummer; the evenings are always pleasantly cool. The winters are not extreme, the temperature rarely falling below zero. and then not exceeding ten degrees below for a few days in midwinter. The natural moisture is sufficient to make irrigation unnecessary. A more bracing atmosphere it would be difficult to find.

The Government records show summer and winter ranges of temperature as follows:

Summer—July, 1909, Maximum 89 deg July 1909, Mean, 77 deg.; July 1909 Minimum, 40 deg.; July, 1909, Mean 49 deg.

Winter—January, 1910, Maximum, 40 deg.; Jan. 1910, Mean, 27 deg.; Jan 1910, Minimum, 12 below zero. Jan. 1910, Mean 17above zero.

Precipitation—Summer, 1909, 2.32 in. rain; Winter, 1910, 1.11 in. rain; winter, 1910, 22.20 in. snow.

The altitude of Revelstoke is 1,400 feet above sea level, and it is subject to Pacific Coast winds influence, a guarantee of moisture and mildness varied with fine and sunny weather.

INTERESTING FORESTRY BULLETIN

"Birch and beech, on account of their cheapness, are becoming more and more popular as the supply of oak and maple decreases." This statement, taken from a bulletin soon to be issued by the Forestry Branch Department of the Interior, Ottawa, on the Wood-Using Industries of Ontario, is based on reports received from over twelve hundred firms, and is therefore worthy of consideration. The average wholesale price per thousand feet, board measure, given in the above bulletin for maple and oak flooring is twenty two dollars and eighty two cents and fifty-five dollars and seventy-eight cents, respectively. The average price for birch and beech flooring, on the other hand, is nineteen dollars and seventy-one cents and twenty-two dollars and seventy-four cents, respectively, which represents quite a saving, especially when compared with oak.

But these woods have other qualities to recommend them besides cheapness. Twenty-two per cent. of the flooring manufactured in Ontario is made from the wood of the black and the yellow birch, the more common white or paper birch not usually growing to a sufficient size for this purpose. Birch is a hard, strong, fine grained, reddish-brown wood, which takes a high polish and, therefore, is very suitable for flooring. It can be stained to imitate more expensive woods, such as mahogany, cherry or walnut, and, being easily worked it is also extensively used for furniture, and interior decoration.

Beech is one of Ontario's cheapest hardwoods, the ordinary grades of lumber costing only thirteen dollars, and sixty-one cents per thousand feet, board measure. It frequently constitutes one tenth to one-third of the cheaper grades of birch flooring, but its qualities justify its separate use, for it is strong, fine-grained and so hard that it becomes quite slippery in time. It is also used for furniture to some extent.

Of the birch and beech used in Ontario, ninety per cent of the former, and ninety-eight per cent of the latter are homegrown. The existing supplies of these woods in Ontario are sufficient to meet a much greater demand, and, as oak and maple are growing increasingly dear, it is certain that the use of birch and beech, especially for flooring, will soon become much more widespread.

Copies of the bulletin mentioned above can be obtained from the Forestry Branch, Ottawa.

KILLED VALUABLE MEASURE

It is difficulty to see what justification the senate has in killing the Highways Act, which next to the Naval Bill is the most popular measure the government has introduced this session. The Highways Act, providing for the establishment of a system of better roads throughout Canada, has been heavily endorsed by farmers' organizations and rural associations from Halifax to Vancouver. Under a system of co-operation between the provinces and the Dominion it is proposed to devote as an initial expenditure a million and a half this first year. The bill was thrown out by the Senate last year on the ground that the measure did not contain clauses providing that the expenditure was to be divided amongst the different provinces in proportion to the population

A definite assurance was given last year by the Premier that this plan would be followed and when the estimates were brought down they contained an exact division by provinces. This year again the supplementary estimates contains a vote of a million and a half which is apportioned according to population. And yet this is the only reason advanced by the upper house for killing a measure of the utmost value to the farmers of Canada.

African Hunt Pictures

A curious way nature has of protecting some of her creatures is shown in the Paul J. Rainey African Hunt Pictures. It is the rhino bird which rides around and stays constantly on the back of this great animal. The rhino is very short-sighted and can only see about 35 yards but at the slightest sign of danger, the bird leaves his back and even though he be asleep, he is instantly on his feet looking about for the enemy.—Empress Theatre, June 6th and 7th.

Interior League Baseball

SCHEDULE.

Put this in your hat for reference:

June 3—Revelstoke at Kamloops

SOCIAL and PERSONAL

The Rebeccas will please take notice that their regular meeting will be held on Friday evening next, in their lodge room in Selkirk Hall.

Mr. and Mrs. Frank Paulding holidayed at Craigellachie, leaving here Monday evening.

Mrs. V. L. Denton is not receiving on Friday next, nor again until the autumn.

The marriage takes place, at one o'clock this afternoon, of Miss Mabel Hay and Mr. Neil Angus Ross.

Rev. R. McIntyre and family will be leaving for Nelson tomorrow morning, Thursday, on the 8-15 train.

Mrs. W. H. Pratt was the hostess on Saturday evening at another of those pleasant "farewell" parties which have been given lately to Mrs. E. A. Haggen. Four tables of ladies were made up and "bridge played untll after eleven. Miss Wrigley won high, Mrs. Holten second and Mrs. A. McRae the low. A pretty prize was presented by Mrs. Pratt to the guest of the evening, after which the daintiest of repasts was served and farewells said shortly after midnight.

One of the most popular outings yesterday was the trip to Sicamous. A goodly number of citizens took advantage of the early morning train to spend the whole day by the lake shore watching the regatta. A few of them noticed were: Mr. and Mrs. C. R. MacDonald, Mr. and Mrs. Coursier, Mr. and Mrs. Robbins, Mrs. Stevens, Mrs. O. S. Bibb, Mr. Sam Sutherland, the Misses Fraser, Mr. Brown, Mr. Alex. Grant, Senator Laughlin and also the four members of the gun team. Messrs. W. A. Foote, Guy Barber, W. A. Sturdy and A. MacDonell.

A picnic party that had a jolly good time yesterday, was composed of Mr. A. E. Kincaid and family, Mesdames W. A. Foote and D. W. Foote and Misses Foote and Esplin. They motored out the south road to Eight Mile lake when they camped for luncheon and afterwards tried their luck at fishing.

The W. C. T. U. regular monthly meeting will be held at the home of Mrs Creeche on Friday afternoon at 3:30 o'clock. This will be the final meeting until September.

Miss Janet McKay will receive tomorrow afternoon, Thursday' June 5th.

Mr. and Mrs. H. A. Brown, of Sicamous, were busy welcoming old friends from Revelstoke yesterday.

The Ladies' Aid of St. John's met at Mrs. Smith Urquhart's Tuesday afternoon, and transacted business. This will be the last meeting until September.

Devotional meetings in commemoration of the tenth anniversary of Home Missions will be held all over Canada on Monday afternoon June 9th. The service in this city will be held in St. John's Church at 3-30 p.m. Everybody is cordially invited to attend.

Mrs. E. A. Haggen and Miss Rose Haggen left on Monday afternoon for Vancouver.

Miss Gladys Urquhart has been so successful in her Normal school work that she has been appointed on the staff of the Simon Fraser school in Vancouver for the rest of the team, substituting in one of the intermediate grades.

That Mr. Colpitts class are in good physical form although so near the end of an arduous term, they demonstrated yesterday when, accompanied by Mr. and Mrs. Colpitt and Mrs. Burnell, they tramped up the Canyon road to the Landing, carrying lunch baskets and cameras. Then the boys made lemonade and the girls spread a bountiful feast under the pine trees. A programme of sports directed by Mr. Colpitts, and a general good time was enjoyed through the afternoon. After supper a tired and happy party trudged home in the cool of the evening.

Another party that had a jolly picnic yesterday at the Landing on the Big Bend Road was composed of Mr. and Mrs. W. Donaldson, Mr. and Mrs. Ross Donaldson and their families.

A jolly crowd from the Dent House had a glorious time yesterday picnicing up at the Silver Tip Falls. A drive in a covered van over the magnificent scenic route of the Big Bend Road past the Canyon, a walk over the bridge, a climb to the top of the Silver Tip Cascade, lunch within sound of its roar, oppetites unsurpassed, and a spread of the most satisfying description, were a few of the delights of the day. The van then conveyed the party back near the Landing where games were enjoyed until supper time. The drive home was made in the cool of the evening, reaching the city about eight o'clock. This happy crowd was composed of Mrs. Dent, Miss Christie, Miss Grace McConnel, Miss Robinson, Miss Cunnie, Miss Robertson, Miss Stewart, Miss Eaton Mr. and Mrs. Bowden, Mr, and Mrs. H. J. Bews, and Messrs Rose, Mortimer, Blair, Miles and Dr. Heard.
