NEW BAPTIST CHURCH

Dedication Services Last Sun- day—City Pastors' Addresses

Sunday, January 26th, 1908, will
ever be remembered in Revelstoke as
an occasion to the marked demon-
strative of the upward progress of city life
and more especially by the Baptist
denomination as the day when their
first church, on Second St., was opened
and dedicated. The church congrega-
tion was first organized in May and it
was not until the Rev. W. P. Freeman
came in August that anything definite
was done, and Mr. Freeman took the
lead and brought up the church to
what it is today. On Sunday last the
building was opened for service the
attendance being splendid both morn-
ing and evening as well as in the
afternoon. The Rev. H. E. Hatt of
Vancouver, preached the dedication
sermon from the text, "I was glad
when they said let us go up to the
House of the Lord." He said it was
God's house and all that was done in
it should be to his glory and honor.
There was joy in attendance at Gods
House and with all that his worship
stands for in the lives of his people.
The dedication prayer was read by
the pastor.

At the afternoon service, congratu-
lations and greetings were offered by
the city pastors. On the platform
were the Revs. W. C. Calder, J. R.
Robertson, W. T. Hall, H. E. Hatt,
and E. M. Cooke of the Y. M. C. A.
The pastor presided.

Mr. Calder touched on the work of
the Baptist, saying that they were the
largest nonconformist denomination in
the Motherland and rank first in the
United States, numbering over seven
millions.

Mr. Hall, speaking in a hearty
strain, touched on the fraternal spirit
evinced between Methodist and
Baptists.

Mr. Robertson spoke along the lines
of church union, but while the present
differences hold, every man has a right
to worship God where and how he
pleases.

Mr. Cooke spoke briefly yet to the
point, and Mr. Hatt in an eloquent
address brought this splendid session
to a close. About 100 were present.
The building was filled in the even-
ing when the pastor preached from
the words of Pilate "Behold the man."
The building was erected by E. C.
Frome and is a fine piece of work
costing over \$4,000. The stained glass
window, centre piece, etc., were gifts.
The building can seat 200 people com-
fortably. Substantial support has
been received from the Baptist home
mission. All running expenses and
pastor's salary have been paid with a
balance over, without an appeal for
money. The offering by the members
alone averages per member per year
\$69. The church is well designed and
roomy, with every facility for school
work. The pews were made by the
Valley City Seating Co., Dundas, Ont.
The appointments and fittings are
handsome and of the best workman-
ship, and the interior has a neat and
attractive appearance. A large 35
light chandelier, erected by the Law-
rence Hardware Co., gives a splendid
light throughout. The congregation
are very hopeful for the future.

FRUITGROWERS

Arrange for Welcoming Visitors on February 5th.

A special meeting of the Revelstoke
branch of the B. C. Fruit Growers'
Association was held at Revelstoke in
the City Hall at 8 p.m., Wednesday,
Jan. 29th. President H. F. Hayes in
the chair.

The secretary, H. E. R. Smythe,
was unable to attend and L. M. Hagar,
secretary-manager of the Fruit and
Produce Exchange of B. C., was re-
quested and acted in that office.

The meeting was called for the
purpose of considering the most ad-
visable means of entertaining the
delegates from the various fruit grow-
ing centres who had signified their
intention of attending the general
meeting of The Fruit and Produce
Exchange of B. C., to be held in
Revelstoke on Wednesday, February
5th. After some discussion and as
Mayor Lindmark had intimated that
the city would extend its hospitality
to the visitors, the following resolu-
tion was made.

"That Messrs. Cunningham Morris
and Hagar be appointed a commit-
tee to wait on the City Council to ascer-
tain if and how the visitors would be
entertained by that body and that this
committee should advise H. F. Hayes,
president, as to what measures would
be adopted by them."

The meeting then adjourned.

Within the last couple of days ship-

Lightning Peak, a property situated
in the gold range, twenty miles west

C.P.R. Improvements at Fernie

FERNIE, Jan. 31.—The C.P.R. is go-
ing to spend about \$50,000 here next
spring in new trackage, new freight
sheds and other necessary improve-
ments. This will give them very much
increased facilities for handling the
enormous amount of freight that they
now do. The trackage will be much
increased also. The intention of the
C.P.R. is to keep up and in fact a little
ahead of the times, and in going to
expend this large sum here shows
what they think of the future of
Fernie.

interest.

INTERESTING CASE

Czar Nicholas of Russia Sues in Winnipeg

WINNIPEG, Jan. 31.—One of the most
extraordinary lawsuits that was ever
heard in the court of King's Bench for
Manitoba was instituted this week.
The plaintiff is Czar Nicholas of
Russia, who is suing for a large sum
of money invested in Winnipeg real
estate by his absconding treasurer of
the department of the interior of
Turkistan, who ran away with 340,000
roubles some time ago and who has
since been living quietly in this city.

Stefer Proskochoff is his name, and
with him is a lady of high degree,
Countess Anna Zeman, who accom-
panied him when he fled from Tash-
kend. Since arriving in Winnipeg,
Proskochoff has invested heavily in
city property in the name of the
woman. It is in order to get this
property turned over to His Imperial
Majesty that the present suit is in-
stituted.

J. E. O'Connor is acting for the
Czar. The defence will put up a
vigorous fight and the case will likely
excite great interest on account of the
high interests involved.

INCREASE OF PENSIONS

G. P. R. Issues an Official Circular.

WINNIPEG, Jan. 31.—Residents of
the west who are in receipt of pensions
from the C. P. R. will be pleased to
learn that as the result of a recent
conference in Montreal, the amounts
paid to them will show an increase
when the next monthly checks come
to hand. The board has so amended
the pension regulations to provide
that from Jan. 1, 1908, and until
further notice the minimum amount
of pension to be paid shall be \$20 a
month.

Imperial Parliament

LONDON, Jan. 31.—The most rare
event of a London winter, a clear and
sunny day, favored the Royal pro-
cession to Westminster on Wednesday,
where King Edward opened parlia-
ment with the same ceremonies that
have been observed for centuries.
King Edward and Queen Alexandra
rode from Buckingham palace to the
House of Parliament in the gilded
coach of state drawn by eight white
horses. They were attended by the
officials of their households in other
state carriages and on horseback.

DANGEROUS TOYS

Children Badly Burnt by China- man's Fire Crackers

While playing with a large bunch
of Chinese firecrackers given to her
by a Chinaman on Tue day afternoon,
at her home in Vancouver, little
Viola Wright, aged three years, set
fire to them and in a moment the
entire pack exploded in the face of
the child and set fire to her dress.
Her piercing cries brought her seven-
year-old sister on the scene, who
quickly picked up the tot and en-
deavored to smother the flamer in her
own clothes, but not before the baby
was badly burnt about the face. The
heroic little seven-year-old was also
severely burnt about the arms and
hands, but her condition is not con-
sidered as serious as that of her sister.
They were both removed to the Gen-
eral Hospital and are doing as well as
can be expected.

COUNTRY PROSPEROUS.

Prominent Railroad Man Sees No Reason for Pessimism in the West.

C. E. E. Usher, assistant passenger
traffic manager of the C. P. R. western
lines, speaking of conditions in the
west states that last year's crops pro-
duced just as much money for the
west as did the crop of the previous
year, and while business conditions
have been quiet during the winter
great improvement is looked for after
March 1. Mr. Usher states that the
country is in a good financial condi-
tion. The amount of traffic has been
greater than ever, and the fact that
the holiday trade was very large, indi-
cates that the people had plenty of
money to spend.

Burned to Death.

In a fire which destroyed his house
near Dot station on the C.P.R. Nicola
branch, D. P. Marpole, son of C.P.R.
Executive Agent R. Marpole, was
burned to death and a hired man had
a narrow escape.

OBITUARY

**Revelstoke Old Timer Passes
Away.**

We regret to announce the sad in-
telligence of the death of John Hut-
chison, brother to J. C. Hutchison of
this city, which occurred on Friday
Jan. 24, at Grand Forks. The deceased
succumbed to an internal disease after
three weeks illness, being aged 47.
The late Mr. Hutchison was one of
the pioneers in B. C. and was well
known in Revelstoke having a store in
the old town opposite the Provincial
police office and was very popular
among all who knew him. He was
one of the first of the pioneers before
construction days to make the trail
from Nicola in 1885 across the Rockies
to Fort McLeod, Alberta. The funeral
took place on Monday at Grand
Forks. The deceased was in the con-
tinuing business and unmarried.

EDUCATIONAL SYSTEM.

The necessity of technical education
is being keenly felt both in the United
States and in Canada. English and
German manufacturers have found
that the systematic training of young
people, not only in intellectual but in
mechanical pursuits, has been of in-
calculable advantage to those nations.
The products of the factories of these
countries have by this means attained
a great degree of excellence. In some
of the cities of the United States,
technical education has made consid-
erable progress, but it is felt that there
is a necessity that the young people,
generally should not feel or realize
that their education was complete
unless they had acquired some means
of earning their livelihood. In Canada,
we have an excellent ground work for
technical education in our manual
training schools. If we are to make
the rapid progress that patriotic
Canadians expect, one of the tasks
that await the educational authorities
of the future, will be the establishment
of technical schools. Revelstoke, sit-
uated in a central point in the pro-
vince, a junction for all points and
gateway for the interior, besides being
chief city on the great railroad high-
way in the upper country, can right-
fully claim the establishment of one of
the technical schools for the province,
her claim being considered as fair as

any. Our education in this city can
compare well with any other, and as
years go on the needs of the people in
this direction increase until now the
increase of premises is necessary. When
this is being carried out, we would
urge concentration of schools for the
benefit of the scholastic system and
also for the convenience of the
children attending. Concentration of
schools has been proved to be desirable
in every way and is a matter to be
taken into consideration ere any new
buildings are erected.

WONDERS OF NATURE

Revelstoke the Centre of Grand Scenic Country.

Few cities can compare with Revel-
stoke in the provinces of Canada, in
the nature of situation, both scenic
and commercial. In our last issue we
enlarged upon the advantages of our
city as a commercial centre and en-
trepot for the interior and dealt
fully with the vivid possibilities of a
future of prosperity along these lines.
There is another side to take into
consideration and that is the scenic
grandeur of the surroundings of our
city and her superb setting, like a
"gem amidst silver." While topog-
raphical and physical features, cen-
trality and convenience are taken into
consideration by commercial men,
capitalists and investors, so are the
beauties of nature, the magnificence
of scenery, color and environment
wholly appealing to the more artistic,
emotional and spectacular senses, to
be considered by those who make
travel a pleasure, and delight in the
work of nature. Revelstoke can lay
claim to as beautiful a situation as
any in the mountains and some of the
most wonderful works of nature are to
be seen within a days journey of your
hotel door, as the most artistic mind
can call for. In all points of the com-
pass, the hills, the valleys, the moun-
tain torrents, the gloomy forests, the
waterfalls, the shady ravines and
above all the towering peaks wrapped
in a glistening mantle of perpetual
snow, their glaciers and gleaming
snow fields reflecting back the rays of
the sun in a thousand scintillating
shafts of light—nature in all her
sublimity is there to tempt all who
are lovers of the beautiful. Apart
from the grandeur of the surround-
ings the facilities for reaching the best
points are numerous and such as afford
even the most delicate means of
visiting these natural wonders. There
is, too, scope for the most daring
mountain climber and unlimited
material for the artist and the photo-
grapher. Taking these facts into con-
sideration the citizens and our local
bodies should take steps to illustrate
to the travelling public and the world
in general that here in Revelstoke the
scenic mountain grandeur is second to
none.

The Revelstoke book was a success
and did excellent work, being a credit
to the city and the compilers, but we
have progressed since that, new scenes
and sights have been opened up and
the need of a new publication is now
felt; which should be on a bigger and
more elaborate scale, embracing all
forms of sport and pastime, besides
choice selections and illustrations of
our scenery. The citizens owe this to
their city and steps should be taken
at once, now that the former publica-
tion is out of print, to produce some-
thing which is adequate and compre-
hensive, and at the same time a means
of advertising Revelstoke and her
natural beauties to Canada and the
world in general.

FINE PROSPECT

Rich Strike on Lightning Creek, Quesnel.

BEAVER PASS, B.C., Jan. 31.—The
old Lightning Creek channel has
again been struck and the richest kind
of pay is promised.

The last find is directly opposite
the town of Stanley, or Van Winkle.
Seventy-five cents to the pan, equal
to seventy-five dollars to the yard, is
the least the gravel has shown since
Monday, January 20, when color was
first discovered.

Five hundred feet of tunnel has
been drifted and several blind shafts
sunk in their search for the lost chan-
nel, and so great is the faith in the
prospects that an offer of twenty thou-
sand dollars some time ago was refused.

Indications for a busy and prosper-
ous season in old Cariboo were never
better.

Nothing better than our "Special."

tended visit to the east.

Whilst Andy Martin was going the

fierce wild animal, but luckily escaped
serious injury. Possibly the beast was
offended at the promiscuous setting

Sacrificing Souls

WASHINGTON, Jan. 30.—To the
House today Representative McGavin,
of Illinois, attacked the custom of
American heiresses marrying European
noblemen, declaring that he had no
particular person in view. He asserted
that "women are sacrificing their
souls and their honor on the altar of
snobbery and vice." He asserted that
almost every day there is a bargain
day in New York, "where you can
buy anything from a yard of ribbon to
a pound of flesh."

CHINESE NEW YEAR

Moveable Feast Brings Holiday Festival.

Today is the Chinese New Year, a moveable feast corresponding to our Easter. The Chinese have two years, civil and astronomical, the latter being similar to our year. This system has prevailed over 4900 years. The civil year is of 12 lunar months but another is occasionally added by the astronomer at Peking. The rule for determining the date of the New Year came into force with the Han dynasty, 2,114 years ago, and is the first day of that moon in the course of which the sun enters the constellation which we call "Pisces" or the "fishes." This would lead to confusion between the two years, therefore periods of 19 years were established, 12 of which have 12 moons each and 7 thirteen moons. This will serve to explain how it happens that the date of the Chinese New Year varies. Tonight and for the next few days the Chinese will keep holiday and make good resolutions for their year which they will probably never keep.

Curling.

The first final in the curling competitions was reached Thursday night when the Edwards and Rae rink met to settle the question of ownership of the Calgary Cup for the ensuing year. The game was witnessed by a good number of interested spectators and was keenly contested throughout. In the early part of the game Rae forged ahead but Edwards gradually settled down and creeping up steadily won a well earned victory on the 13th end by two points, the score being 8 all on the 12th end.

Play in the two remaining events is progressing favorably and next week should see them completed. The following are the results of games played since our last issue:

Calgary Cup—

Edwards 12, Young 9 (semi-final)

—Foote v MacDonald (No. 1 ice)
