KAMLOOPS PRESBYTERY

Proceedings of Annual Meeting —Encouraging Reports

The annual meeting of Kamloops Presbytery, which met on Wednesday morning in Knox Church, closed its sessions on Thursday evening. The meeting was well attended and much interest was taken in the work of the session. Rev. W. L. MacRae, of Golden, was elected Moderator for the year.

An interesting discussion took place on the question of dividing the Presbytery and forming another Presbytery for the Okanagan Valley. The motion for division however was lost.

A very encouraging matter was the report on Systematic Beneficience presented by Rev. C. W. Whyte, showing that great increase has taken place in the givings of the congregations for Home and other missionary purposes. It was decided to endeavor to get the congregations to make monthly offerings for such objects.

The report on Sabbath Schools was presented by Rev. Logie Macdonnell of Vernon, and indicated progress all along the lines of S. S. work.

The work of Young People's Societies was read by Rev. J. G. Duncan of Salmon Arm, and while the report showed much care in preparation it also told the old story of young people's weakness in church life and work. There is a great opportunity for young people's work—to get to work.

The report on Moral and Social Reform presented by Rev. J. R Robertson, indicated that conditions are greatly improving with respect to such matters as Sabbath Observance, Temperance sentiment, Gambling, the Social Vice, Political Purity, etc., and showed that B. C. is fast coming to its own with respect to the higher moral life and Christian sentiment of the people.

The Home Mission report presented by Rev. D. Campbell, of Armstrong, was as usual one of the most interesting questions before the Presbytery. A special feature was the adoption of a resolution looking to a more effective method of co-operation with the Methodist Church in the administration of a Home Mission fields.

The congregation of Summerland made a request that the charge there be separate and independent of the congregation at Penticton, and that Rev. Jas. Hood be retained as pastor for Summerland. A commission of Presbytery was appointed to visit the charges and carry out the wishes of the request, if such arrangement is acceptable to Penticton.

Another call was presented from the congregation at Ashcroft in favor of Rev. M. E. Henderson, B.A., which was sustained and provisional arrangements made for the induction in the near future. A resolution of sympathy was here expressed to Rev. and Mrs. Henderson in their bereavement by the death of their little daughter.

On Wednesday evening a public meeting was held and very interesting and instructive addresses were given by Rev. Logie Macdonnell and Rev. F. W. Kerr. In addition to these addresses was an interesting program of music. The Knox Church choir gave a good rendering of the anthem "Sun of My Soul," and Mrs. Bews sang with much appreciation, "Face to Face." Two members of the Presbytery also sang solos, which the friends of Revelstoke much enjoyed. Mr. G. S. McKenzie sang "Rock of Ages," and Rev. J. T. Conn, "Be Still My Soul." Needless to say those who were not at this public meeting missed a rare treat.

Convenors for standing committees for the next year were appointed as follows: Rev. D. Campbell, Home Missions; Rev. W. L. MacRae, Foreign Missions; Rev. J. R. Robertson, Moral and Social Reform; Rev. Jas Hood, Theological College; Rev. Logie Macdonnell, Sunday Schools; Rev. J. G Duncan, Young People's Societies; Rev. C. W. Whyte, Systematic Beneficenee; Rev. W. A. Wyllie, Statistics; Mr. J. D. Swanson, Church Property.

The next regular meeting of Presbytery will be held at Armstrong.

New Orange Party

Representative Orangemen all over the Australian Commonwealth are arranging for the formation of an Independent Protestant party, as a new factor in federal politics, says the Sentinel. In this way, it is believed, and in this way only, Protestants can become a real force in national affairs. The new party will be launched with a great demonstration at Sydney.

According to suggestions now being made, the platform of the new party will be radical, including probably such items as old age pensions, graduated land tax, citizens' defence force, an Australian navy, preferential voting, "white Australia," preferential trade with the Empire, a policy of non-interference with Irish questions, and maintenance of the Protestant succession.

LUMBERMEN ORGANIZE

New Association for Protection and Forest Preservation

Prominent lumbermen from all parts of British Columbia have been in session in Victoria during the past week, with the result that announcement is made of the formation of a new organizatian to be known as the B. C. Lumber, Logging and Forestry Association, with which is amalgamated the B.C. Timber and Forestry Chamber of Commerce. The objects of the new association, which will represent greater vested interests than any ever formed in British Columbia, are, in addition to the promotion of mutual interests, to secure stable titles to timber lands, legislation in the interests of its various branches and the conservation of the forests.

The officers of the new association are: A. D. McRae, president; Otto Lachmund, 1st vice president; M. S. Logan, 2nd vice-president; Peter Lund, 3rd vice-president; T. F. Patterson, 4th vice president.

An executive committee of seven and an advisory committee of 42 members have been appointed.

Victoria is represented on the executive committee by A. C. Flummerfelt and Michael Carlin.

At a later meeting it is likely that the association will appoint two secretaries, one of whom will likely be Dr. Judson Clark, secretary treasurer of the B.C. Timber and Forestry Chamber of Commerce, now amalgamated with the new association, and Mr. Anstie, the present secretary of the Mountain Mills Association.

NEW DEPARTMENT

To Be Created by the Government at Ottawa

OTTAWA, Feb. 23.—The government proposes to create a department of external affairs, under the secretary of state, and notice has been given of a bill to that effect. The bill speifies that a department of external affairs shall be created, with a minister, who shall for the present be the secretary of state, and that this department shall receive communications from the secretary of state of the colonies, and from the British ambassador at Washington, and all communications of an international or intercolonial character, and communications from foreign consul in Canada. The bill also directs the appointment of a deputy minister and staff for the department. The principal effects of the bill will be to take the function of communication in regard to external affairs from the privy council, where it is at present under the direction of Sir Wilfrid Laurier, and transfer it to the department of state. The new department will handle in detail the distribution of all external affairs and communications to the departments to which they should be assigned.

SCALDING ACCIDENT

Eng. W. Tomlinson Receives Scalding Steam Jet in Face

Shortly after 8 o'clock on Monday night, while the pusher locomotive stationed at Notch Hill was preparing to meet the westbound No. 97, a plug in a pipe carrying pressure steam blew out, the terrific jet of steam being forced against the face and body of the engineer, W. Tomlinson of this city, causing terrible scalds. Mr. Tomlinson received the fierce blast full in the throat, his face being badly burnt and his hands, which involuntarily went up before his eyes for protection being also terribly scalded. Suffering untold agony the injured engineer was conveyed to Revelstoke on a special light engine despatched at once from here on receipt of the intelligence of the accident, arriving here about two o'clock yesterday morning.

Mr. Tomlinson was at once taken to the hospital where his injuries were attended to and his sufferings somewhat alleviated. We learn this morning from the hospital that the patient is doing as well as could be expected and is resting easier. Much sympathy is felt for the patient and Mrs. Tomlinson over the terrible accident by the residents of Revelstoke generally.

Board of Trade

A meeting of the Board of Trade will be held tomorrow evening (Thursday) at 8 o'clock in the City Hall. Business in connection with the exhibit at the Seattle Exposition, distributing rates from Revelstoke for freight, etc., and other questions will be taken up and all members are requested to attend.

THE STORY OF A TRAMP

Snowshoers Club Outing to Four-Mile Camp

The feature of this week's outdoor amusements was the snowshoe tramp by the members of the Ski and Snowshoe Club. An early start was made about twenty club members answering to the call. The party entrained south as far as 6-mile where, through the courtesy of the C.P.R. the train was stopped in order to allow them to drop off. At this point the real work of the tramp began and after a most exhilerating journey through the ranches, across slough and stream, drift and bank, a halt was made at 4-mile camp. The sun was very hot, but the air keen and full of ozone, which had the effect of an intoxicant to the senses. The surface of the snow was in excellent shape, the conditions being perfect for tramping.

On arrival at the camp at 4 mile, of the Bowman Lumber Co., mine host Mr. J. H. Jackson, had made ready to welcome his guests, the ladies being regaled with a refreshing cup of tea, the real secret of which is known only to a logging camp chef. While waiting for lunch a number of the party wandered away up the logging road to where the logs were piled on the roll way, the forest scenery being delightful. Lunch—that most welcome of all sounds in the ear of a snowshoer. Appetites had been whetted by the glorious exercise of the tramp, good humor had been heightened by the pleasant chaff and chatter during the trip. Lunch—it would be difficult to describe the repast that the genial host had provided for his merry guests. A lumber camp is famed for its menu and for the quality as well as quantity. Cook and cookee had risen to the occasion, and the long tables in the mess house groaned under the weight of the good things temptingly displayed. There was no standing on ceremony, eat, just eat was the password, and very soon the number of empty dishes told a tale of health and plenty. A feature of the lunch was the doughnuts—doughnuts with small holes, and large luscious outsides. The doughnut has been said to be a good sign of the times. If the holes are large and the rims small and narrow then times are dull and money scarce, but if the holes are small and the rims full and fat then prosperity is apparent. From the doughnuts supplied by the Bowman Lumber Co., it is very evident that good times are on the wing and prosperity present. The lunch proved a meal al fresco, a delightful social event, the worthy brother Atkins as usual being to the fore with jokes old and new, the joy of the ladies and butt of the men. A pleasant diversion was caused by the party being made to sit for their portraits, some excellent pictures being secured.

With a brief spell of rest and ease after lunch a start was made for home. Words cannot fitly describe the last stage of the tramp, never before was seen such a merry crowd, all young and in the prime of life, the snowshoers sped over the sparkling surface of the silvery snow, rapid time being made and when the outskirts of the city were reached shoe strings were unloosed and the party, glowing with the stiff walk, the blood tingling in the veins from the swift rush through the frosty air, dispersed and wended their ways homeward, tired but happy.

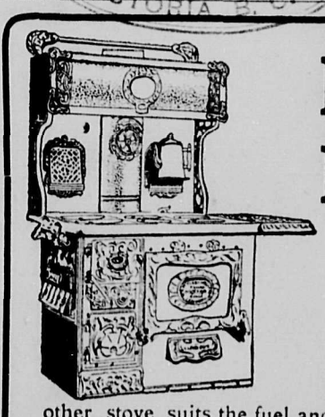
To the Bowman Lumber Co. and Mr. Jackson are due much praise and thanks for their courtesy in the lavish entertainment of the party, and also to the culinary staff for the right royal spread prepared by them, and in the words of the poet to the "Spirit of Winter":

"Now in the festal season
We celebrate thy praise;
For the Revelstoke Snowshoers' Club
Sends us auspicious days.
All ills that flesh is heir to
Be banished from our train,
And may the pleasures of the scene
Keep in each heart its memory green,
Until we meet again."

Ash Wednesday

Today is Ash Wednesday, the first day of Lent. According to the injunction of Pope Gregory the Great in the Sixth century, ashes, which had been first blessed, were sprinkled upon the heads of worshippers in order to remind them that their bodies were but dust and ashes. It was also a day when notorious sinners professing penitence had to appear in church clothed in sackcloth and ashes to solicit absolution. We query how many of Revelstoke's notorious sinners have taken advantage of Ash Wednesday today.

For carpets, linoleums and floor oil cloth go to C. B. Hume & Co.



Kootenay Range

This is a cut of the celebrated "KOOTENAY RANGE" that is doing such excellent service in many Revelstoke homes. There is nothing to equal it at the price and no other stove suits the fuel and conditions here as well as the KOOTENAY. We have them specially fitted with oven thermometers and all latest improvements. Be sure you buy a KOOTENAY RANGE, and get your 1909 Groceries from

A Celebrated Soprano

In all probability we may have a visit from the celebrated Scottish lyric soprano, Miss Lena Duthie. This eminent artist, a native of the land of the heather, is making a tour of the coast cities soon, and arrangements are now under way to have her appear here. She is said to be the greatest living exponent of the undying songs of Scotland and Ireland, and her coming will be looked forward to with much interest."

No Place for Her

It was the first vaudeville performance the old colored lady had ever seen, and she was particularly excited over the marvelous feats of the magician. But when he covered a newspaper with a cloth and read the print through it, she grew a little nervous. He then doubled the cloth and again read the letters accurately. This was more than she could stand, and rising in her seat, she said: "I'm goin' home. This aint no place for a lady with a thin calico dress."

WISE EXPENDITURE.

Apropos of the fact that Capt. Tatlow, provincial minister of finance, has invested a large sum of the last British Columbia surplus money in debentures at 3½ per cent, and while a surplus is most desirable in every way, yet we think that, with a province such as B. C. which needs development in every section of it, which development will necessitate the expenditure of public funds, the $100,000 invested should have been expended on public works and improvements for the benefit of the people and the development of the country at large. The government has a vast province before them and an enormous acreage which, with the expenditure of public funds and the placing of suitable men upon the land to work it would eventually bring in a handsome return for the money invested, besides increasing the value of the land over 100 per cent. Money spent on a colonization scheme such as that would be far more wisely saved than if placed in a savings bank at even a low interest. While such an investment as the government has just made may be good and safe financing yet the money could have been more profitably laid out for instance in such a scheme as we have suggested. The larger portion of this surplus, says Capt. Tatlow, is placed in the banks at interest; this we contend should not be done, as the money is needed more for actual public service. British Columbia is undergoing the developmental stage which process requires a large amonnt of actual cash to carry it along and the public would far rather see their money expended for the tangible progress and advancement of the province, than to have it tied up in banks. A systematized scheme of colonization could very well be carried on by the government, and once good men are placed on the land to stay there, the resultant opening up and development of these rich areas would not only repay dollar for dollar expended, but would encourage other settlers to come in when the rapid growth of revenue producing lands was properly realized.

ANNUAL FALL FAIR

It is some time now since we heard of the Agricultural Society, and although the winter is not yet over, it is high time, nevertheless, to begin to get busy and think about the arrangements for this year. The Fair of 1908 was a distinct success and the experience thus gained will stand us in good stead this year and years to come. It is not a bit too early to go into all preliminary details, for such take considerable time to prepare; the great fault last year being that a start was made too late in the season. A series of district exhibits should be arranged, prizes from wholesale firms secured, and a summary of the general prize list made. Suitable amusements, and outdoor attractions of a clean and reputable nature should be looked for and every possible attention paid to the grounds and buildings. It is very probable that in a year or so we shall have the Dominion Fair in Revelstoke, consequently it should be our chief object to further the interest, popularity and success of our Annual Fair in order that our prowess as an exhibition city may go before this great event. The earlier a start we make this year with the Fall Fair the easier it will be to carry it through. This is a movement which means much for Revelstoke and her advancement, and our people, one and all, should evince the keenest interest in bringing the Annual Fair to profitable account.

THE TIMBER LAWS.

We are glad to see as announced in the coast newspapers that the government has finally decided to amend the timber laws this session and has promised that the timber men's request for better title and longer tenure would be favorably considered. This is a move in the right direction, and the government is to be commended for its foresight in providing now such legislation as will encourage the timber men to conserve their timber for the distant future by the adoption of up-to-date methods of forestry in the management of their holdings. To encourage the timbermen to adopt the most approved of forestry methods the government should do all in their power when considering any new legislation. It would not be proper, however, for the government to force any particular forestry scheme upon the license holders by making it compulsory for him to follow any certain rule-but but rather would it be more satisfactory to trust entirely to the business sagacity of the timberman to manage the matter to suit himself; for in proportion as the market value of the product increases, just so in proportion would the methods of forestry improve, so that in time it would become perfect. Wasteful methods which at present exist both in logging and milling operations would soon cease and a perfect system would take its place To encourage the license holder to enter into any such programme for the future the government would have not only to lower the annual license fee from year to year, but would also have to extend the life of the license in perpetuity, and at the same time keep down the royalty fee to within reasonable bounds. In proportion as the licence fee was lowered, so could the royalty on stumpage be proportionately raised, so as to meet the reduction on a fair basis, and on a sliding scale system such as by gradually lowering the licence fee at the rate of about 10 per cent. per annum and raising the stumpage royalty proportionately, the one to offset the other. But if the government should persist in exacting high licence fees and short tenure, it would force the licence holder to cut his timber and rid himself of his burden as quickly as possible by abandoning his licence. If the life of the present licence is not extended for a longer period than 21 years, then forest destruction will result—in fact we can measure the life of our forests by the life of our licences. However we feel that the Government will deal with this matter in a business-like manner and do whatever is right and just with the timbermen.

CORRESPONDENCE.

The New Water Act

Editor MAIL-HERALD:

SIR,—The Hon. Mr. Fulton, in presenting the new Water Act to the House, has been good enough to say: "I have no wish under the present act to injure any one if it is possible to avoid it, and only where the public necessity absolutely demands it." He also further said that "I am satisfied that if the members of the opposition, as well as the members on this side, will give me every assistance in their power to make this act as good as possible, any amendments on matters such as appeal to me, I am willing to accept; and in other matters, such perhaps as granting no appeal from the water commissioner's decision, which, in the opinion of this House, may be thought too drastic, I shall only be too pleased to accept reasonable amendments and make the change proposed."

There may be many other persons, as I am, without a copy of the proposed act, who will be concerned as to whether any provision is made in the bill for protecting the homesteader. After the very fair statement made by the Hon. Mr. Fulton, it will probably only be necessary to draw his attention to the matter in order that he should insert a clause in the bill, if he has not done so, to make it certain that every owner of a homestead shall have all the water required for domestic and irrigation purposes on his homestead from any creek running through his homestead. Circumstances may very probably arise in connection with the creeks passing through homesteads whereby a power company may attempt to take the water from the creek to the detriment of the homesteader, and this should be absolutely provided for in the new proposed act.

Yours truly,
FRANK RICHARDS, J. P.
Vancouver, B. C., Feb. 18th, 1909.

Edison Parlor Theatre tonight.

COLONIZATION SCHEME

Will Solve the Problem of the Unemployed in British Empire

Ed. Adair, who has just returned from a visit to England, informed the MAIL-HERAD that the Salvation Army had no intention this year of bringing out any immigrants to British Columbia, but that they would devote themselves to organizing a scheme of colonization of the vast tracts of land round the G. T. P., and other portions of Canada. Such a scheme as this, he contended, could be well taken up also by the government, who would profit on the opening up and settling of the land by men who were honest, persevering farmers, and who would stay on the land. In discussing the probabilities of British capital being invested in Canada he pointed out that there was a better and stronger feeling toward Canadian investments than formerly, caused by the fact that the Canadians now realize that the British investor would not be trifled with and was willing to put his money into any good thing that was safe and secure, and would not touch any wild cat scheme. The British investor had been treated better, and consequently he welcomed any proposition that bore the stamp of Canadian security. He pointed out that the necessity of some scheme being adopted by the Imperial as well as Canadian government, in order to cope with the "out of work" problem, and suggested that a colonization would be effected, if carried on all over the empire.

Weather Forecasts

The following is the latest report given by Mr. Foster on the approaching weather conditions:

Following February 23rd dangerous storms may be expected to end of the month. The cold wave to reach meridian 90 about 26th, will turn to a cold wave in the Eastern States. Not much precipitation. Look out for strenueus weather.

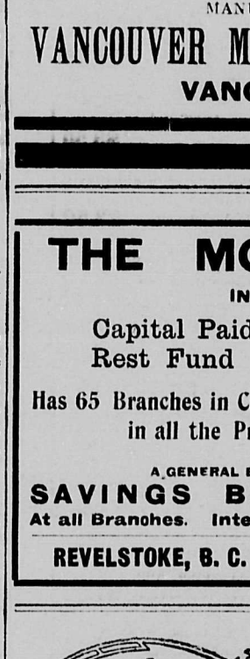
Last disturbance of February will reach Pacific coast about 26th, cross Pacific coast by close of 27th, great central valleys 28th to March 1st, Eastern States March 2nd. Warm wave will cross Pacific slope about 26th, great central valleys 28th. Eastern States March 2nd. Cool wave will cross Pacific slope about 28th, great central valleys March 2nd, Eastern States 4th.

I advise all readers of these bulletins to be prepared for severe storms during the passage of this disturbance. Temperatures will go very high as the low or storm centre approaches, and a cold wave, with snowstorms north and cold rains south, will follow. These great extremes of weather will make it very disagreeable. Precipitation will increase during the high temperature wave.

A period of eight days' severe cold will progress eastward across the continent March 3rd to 10th. Last half of month will be warmer than usual. Colder north and east than in southwest. Not much rain March 8th to 28th. Crop weather of March will be bad up to 16th, then fair to end of month.

For your spring house cleaning try a bottle of Veribrite furniture polish, sold at C. B. Hume & Co's.

The proposed B. C. Medical Act has aroused much protest. Intended, as it was, to stop quackery, it apparently gives too large powers into the hands of the Medical Association and thereby threatens medical institutions such as hot spring sanitariums.



$250.00 IN PRIZES
Distributed Monthly for
Royal Standard Coupons

Every person who buys a 49lb. sack of **Royal Standard** flour has a chance of winning an elegant and costly 109 piece china dinner set. These beautiful prizes will be delivered free of all charges to the ten lucky persons holding the coupons bearing the numbers corresponding to those drawn at the end of the month.

All you have to do is to buy a sack of **Royal Standard** flour, save the coupons, compare them each month with the numbers of the prize winners. Your name may be among them at any time. Of course the more coupons you have the more chances there are of your winning a prize. The full details of the contest are on the back of each coupon.

The housekeeper who buys **Royal Standard** is securing the best flour that mature milling experience, No. 1 hard wheat, and the most modern machinery obtainable can produce.

HITCH YOUR DOLLAR

to the Largest Load of Merchandise it ever pulled

LEWIS BROS. & Company are offering more goods for less money than was ever before offered in the province. **The McLennan & Company Adjustment Sale has been in progress Three Days and much has been sold. However, the management is not satisfied and have redoubled their efforts. They intend to make a clean sweep of the entire stock in the required Thirteen Days regardless of loss or cost. A chance to purchase drygoods, shoes, women, misses and children's ready-to-wear garments and furnishings, blankers, comforts, etc.**

Do not class this with ordinary season-end sales. Positively every article in the store is on sale and will be sold. McLennan and Co's. loss is your gain. Do not neglect this golden opportunity.

McLennan & Company's Stand

LEWIS BROS. & COMPANY

A UNITED CITY

Revelstoke District to be the Great Distributing Point

Revelstoke people, as a whole, or rather those that really take an interest in the welfare and progress of the city, want to see the city take its place among the Canadian cities of the West, and the way to insure its growth and development is by a united effort to give wide spread publicity to the advantages of the city from a manufacturing, industrial and residential point of view. The Board of Trade are taking a lively interest this year in the advancement of the city's interests, and has made an appeal which amounts to an increasing effort to advertise the town and district to the best advantage.

We are convinced that the time has arrived to push Revelstoke and West Kootenay to the front. We believe that we are located in the heart of the cream of Western Canada. West Kootenay lands have spoken for themselves by the marvelous yields of fruit in the past few years. These lands have proclaimed to the world that they will be a veritable gold mine for the farmer. As for the City of Revelstoke, we believe it will be the national distributing point of the Interior and adjacent territory, and an organized effort is being made, headed by the Board of Trade, to secure distributing rates from Revelstoke, which, if brought about, will at once result in the establishment of many wholesale houses in our midst. Revelstoke today is a great city in embryo. In the near future Revelstoke should be a second Spokane, in the heart of a great inland empire of marvellous productiveness. These convictions have grown upon us and have been forced upon us by the development of the past few years.

Our Board of Trade has done a splendid work and deserves the commendation of every citizen of Revelstoke; but it is our conviction that West Kootenay and Revelstoke have reached the second stage of development. We have passed the period of infancy and colic. We are developing into the full strength of a magnificent manhood. A great future is at the threshold. The conditions are ripe for an advance movement. Nature has bestowed upon West Kootenay and Revelstoke every natural resource—mineral, agricultural, climate, scenic and forestry. The evolution of these natural endowments into finished and magnificent products has just begun. It falls to our fate, we believe, to lay broad and deep the foundations for this great and growing country and city and develop here a splendid in land empire with a magnificent city in the heart of it.

What we need is the British investor with capital to develop our rich lands by means of honest and law-abiding men and win from them the harvest of untold wealth. Then, too, we need the manufacturers to take the products of our resources, and through his factories bring forth the finished articles to supply the needs of a great population. In other words, what we need in B. C., in West Kootenay, in Revelstoke, is more people—people full of enterprise, energy and enthusiasm—people with money. How are we to get these people? Some would say they are coming; let us play the Micawber act and wait for something to turn up. Or, they will continue to come—we need do nothing but reap the harvest of the rising tide of immigration. But no!

If the people of Revelstoke will band together, as the stockholders of a great corporation, to build up here a great city and intense agricultural and commercial district, simply as a business proposition, West Kootenay will soon be in the advance guard of all Western Canada and Revelstoke without a peer upon the great transcontinental distributing system. We refer to this as a business proposition Any money that might be put into such an enterprise would not be charity—it is an investment. A dollar invested in this way today will bring back tomorrow ten fold to the investor. Every manufacturer, every wholesaler, every retailer, every banker—every man engaged in any line of business—will profit directly and largely by such a growth.

Who will dare say that the time is not ripe for such a movement? We believe that practically every citizen of Revelstoke is ready with sympathy and money for such an agressive campaign. What our people are waiting for is an organized movement to boost Revelstoke and districts adjacent. The City Council and Board of Trade are getting in the thin end of the wedge, and it is up to the public to get behind with maul and sledge and drive it home.

A SCENE FROM "THE STROLLERS," WHICH WILL BE PRESENTED IN REVELSTOKE FRIDAY NIGHT, FEB. 26, BY THE SAN FRANCISCO OPERA CO.

PROVINCIAL BUDGET

Finance Minister Shows B. C. Progress in Fiscal Year

The Minister of Finance brought in the budget to the legislators last week. According to the estimates for the year ending March 31st, 1910, the receipts of the province will be $5,948,626.66, and the estimates also provide for an expenditure of $5,615,798 11.

In his speech Mr. Tatlow defended the financial policy of the McBride government. After reviewing the steady and phenomenal increase in the revenue since 1903, he pointed to the handsome surplus of the past year, upwards of a million and a half dollars, as a fitting culmination of that policy put into practice. This increase, he stated, was largely derived from the exploition of natural resources of the province, notably from lands, timber and minerals. Whereas in 1904 thirty per cent. of the total revenue came from income, personal and real estate tax, these sources now constitute only 12½ per cent. of the revenue.

Speaking of the use to which the large surplus of the year had been put, the minister pointed out that $576,000 of the outstanding $600,000 debentures of the million dollar loan of 1904 has been redeemed, leaving only $24,000 still outstanding. In addition to this $100,000 in value of the 3½ per cent. dyking debentures of the province was secured on the London market for $91,000. A part of the surplus was also used in undertaking some of the more urgent public works in the province, but the larger portion was placed in the bank at interest.

B. C. ESTIMATES

Appropriations for Bridges, Ferries and Steamboats

A copy of the estimates of the revenue and expenditure of B. C. for the fiscal year ending March 31, 1910, is to hand from the King's Printer, Victoria. Among various items of interest to Revelstoke is an appropriation of $35,000 in public works, under the heading of roads, bridges and wharves—$2,500 for a steamboat subsidy on the Columbia river above Revelstoke and $1,250 for a steamer above Golden; $350 has been appropriated for a ferry at Goldstream on the Columbia river, and $1,240 for the establishment and maintenance of a ferry at the confluence of the Canoe river with the Columbia river.

Included in the supplementary estimates for the year ending March 31, 1909, are $4,000 for roads, streets bridges and wharves, with $17,000 previously voted.

Among the general estimates are:

Hospital grants, $130,000.

Tuberculosis sanitarium, $20,000.

Game protection, $20,000.

Destruction of wolves, panthers and coyotes, $15,000.

Forest protection, $37,000.

Education, generally, $614,560.

Public works, $2,831,100.

We have just received a shipment of wall papers for spring, call and see them—C. B. Hume & Co.

Moving Pictures tonight.

The ladies of the Catholic Church are preparing an excellent programme for their annual St. Patrick's concert.

The regular meeting of Mt. McKenzie Hive, No. 6, L. O. T. M., will take place at 2 o'clock p. m., Thursday, February 25th, in Masonic Hall, Second street.

Advices from London, Eng., state that the House of Commons has defeated Austen Chamberlain's motion to abandon free trade by a vote of 275 to 107.

The Ladies Guild of St. Peters church held a very successful afternoon and evening "at home" at the residence of Mrs. C. B. Paget, yesterday. The proceeds will go towards the fund of the Ladies Guild.

The ladies auxiliary of Knox church are making arrangements for a fancy dress carnival in the rink on Monday, March 1, weather permitting. The handsome prizes will be on exhibition in Doyle & Allum's window.

The Railway Commission are now sitting at Vancouver. No less than fifty three cases will be disposed of before the session is completed. The Commission will sit at Nelson during the first week in March. If Revelstoke has any complaints they should be presented at once for that sitting.

Theodore Roosevelt will not kill any big game in the Kootenays this year. He has declined the invitation of several Kootenay mayors, owing to a previous arrangement to mingle this season in Africa with hippos, rhinos, lions, elephants, jackals, kaffirs, Zulus, Boers, and other big game and varmint.

A delegation of 2,000 persons, advocating the abolition of bars in Manitoba, waited on the government last week. There were many ladies present, who applauded the speakers. Premier Roblin promised careful consideration, his reply being quite noncommittal and couched in careful language.

Mr. A. G. Knebel, of New York, one of the International Secretaries of the Y. M. C. A., Railroad Department, gave a very interesting and instructive address on Monday evening at the Y. M. C. A. on the work of the association, which was listened to by a large number of citizens interested in Y. M. C. A. work.

The season for the "wayward visitor" in Revelstoke is approaching and already we have had several of such gentlemen here on business bent. Dan Green a nondescript of doubtful character was lagged on Friday evening by the Chief of Police, and five months for vagrancy being handed out to him by Police Magistrate W. W. Foster.

Moving pictures tonight.

OUR DRUGS

are all chemically pure and consequently we pay the highest market price for them.

OUR DISPENSERS

are graduates of the Ontario College of Pharmacy, and as competent as the best to fill your prescriptions. We aim at the highest standard of efficiency in all our work.

BEWS' DRUG STORE
H. J. BEWS W. BEWS
NEXT HOME BLOCK

New programme tonight at the Edison Theatre.

The programme for the St. Patrick's concert will be varied and interesting.

The wrecking train, with the fragments of the wrecked cars, the result of a slide near Yale recently, pulled into Revelstoke on Sunday.

Supt. Kilpatrick has been attending the first "time" meeting of officials of the C. P. R. ever held on the Pacific division, this week. The presentation and sifting of plans for train service at meetings of this kind is an innovation on the C. P. R and is being tested for, the first time on the three western divisions, Central, Western and Pacific.

A member of the vagrant fraternity going under the name of Callon, was sentenced on Monday to 18 months hard labor at Kamloops, by Police Magistrate Foster, for robbery. Callon broke into a room in the Climax Hotel on Friday night and stole a watch, revolver, and $50 in cash. He also visited other houses in town and tried to effect an entrance, until he was lagged by the ever vigilant police and safely placed in quod.

While our criticism in our last issue of the condition of the dressing rooms, etc., in the opera house, was perhaps a little too severe, yet at the same time we think that Mr. Tapping could pay a little more attention to that part of the house to advantage. That the want of a little care occasionally should have the effect of spoiling what is otherwise a really fine house, isn't right, and while we do not want to criticize unjustly or injure Mr. Tapping's reputation among his theatrical clients, yet a reminder in the right direction cannot be amiss.

This is the time of year when the average hobo's thoughts lightly turns to thoughts of love for some one else's property and effects. It is impossible to expect two constables to have their eyes covering everybody's premises throughout the whole city all night and the police commissioners should arrange for the appointment of specials as they deem necessary to assist the regular officers. When the vag is abroad it is difficult for two officers to be everywhere at once, especially in a city like Revelstoke.

Social and Personal

J. C. Montgomery left this morning for Spokane.

W. W. Foster left last night on a visit to the Okanagan.

F. C. Elliott has returned from a business trip to the coast.

G. S. McCarter returned on Saturday from a business trip to Victoria.

Mr. and Mrs. F. B. Lewis have returned from a visit to the coast cities.

R. W. Haggen left on Sunday for the coast on a short holiday, after which he will resume his duties on the survey round Shuswap Lake districts.

The Bridge Club met on Monday night at the home of Mr. and Mrs. A. E. Kincaid. At the close of the game the hostess provided a dainty supper. The prizes for the month were won by Mrs. W. M. Lawrence, Mrs. T. E. L. Taylor, A. E. Kincaid and W. M. Lawrence.

"Sibbaldene" was the scene of a gay young people's evening on Monday. The youth and beauty of Revelstoke were well represented. Progressive whist, with six tables, passed away a most enjoyable time, followed by refreshments, "ad justum." The many delicacies provided were thoroughly appreciated by the young people, the "piece de resistance" being "sardines a la poco a poco," the whole being concluded by "mer de glace." Dancing was indulged in till a late hour, the young people thoroughly enjoying the evening. Miss Paget and Miss McLennan provided delightful music. The prize winners were Messrs. Cook, Waters and Gigot, Mrs. Haylock, Miss McLean and Miss White.

Rebekah Entertainment

Mrs. G. W. Edwards, entertained the Rebekahs of Naomi Lodge No. 21, I.O.O.F., at her residence on Third st., on Wednesday afternoon, the 10th, in honor of their Grand President, Mrs. Keith of New Westminster. In the evening the Rebekahs and brothers, met in the lodge room over Selkirk Hall. The first part of the evening was given up to lodge work and initiations, after which tables were spread and all sat down to a very nice repast, prepared by the sisters. Tables cleared dancing was indulged in until a very late hour. Mrs. J. J. Smith, Miss Crake, and Mr. Joe Hooley provided excellent music. During the evening Mrs. Keith gave an eloquent address on the doctrines of Oddfellowship—its purpose and results. All were much delighted with her delivery and were deeply impressed, feeling that they had not only heard a lecture from this lady, but from one who practiced what she preached. On Thursday afternoon Mrs. McLauchlin held a farewell reception at her home on Second street, where the sisters and a few brothers, bid goodbys to their esteemed president. Great praise is due to Mesdames Bain, Trimble and Joliffe for the able manner in which they fulfilled their office as the committee.

Tonight

A new programme will be presented tonight at the Edison Parlor Theatre, and will include some beautiful Irish scenes at Lake Killarney, also the handsome hand-painted picture Mr. Fuzz, as well as first-class comedy. There will be no performance on Friday, but on Saturday the new programme will include the English Olympia "Marathon Races."

The magic finish, for fine furniture, Veribrite Venoil, try it—C. B. Hume & Co.

Just arrived a nice line of Japanese mattings and mats, call and see them —C. B. Hume & Co.

WRESTLING MATCH

Matsuda Defeats Daily in Two Rounds

One of the best and most interesting wrestling matches seen for many a day in Revelstoke took place last night, the contestants being M. Matsuda the well known Jap wrestler of Vancouver and champion welter weight of Canada, and G. Daily ex-champion of Oregon and Washington, in the catch-as-catch-can. The match had excited considerable interest locally and a good crowd attended. At 9:45 J. Jones, as referee, introduced the contestants and a minute later the bout began. Matsuda weighed 144lbs, while Daily turned the scale at 136, the Jap being considerably the heavier built of the two. Matsuda secured a fall in 11½ minutes by very clever wrestling, forcing Daily's shoulders to the mat with a toe and bar hold. After an interval of ten minutes, time was called and the second round commenced, both being upon their mettle. After a short span the contestants closed on the mat and a fair exhibition of wrestling was given, neither man losing any points which would tell against his adversary. Matsuda, with several clever moves, kept Daily hard at work, the latter getting out of some very difficult holds which the Jap fixed on him. The second fall was made in 12 minutes 10 seconds by Matsuda with a bar arm, forcing Daily to the mat by sheer strength, thus winning the match for the Jap.

Daily put up good wrestling, but was not quite a match for the heavier and better trained Jap.

As a preliminary match, Shiba threw Marei (two local Japs), in ten minutes with a rear half Nelson and bar arm hold. They wrestled for 30 minutes without another fall, though Shiba had a little the best of it. Shiba weighed 125 pounds and Marei 130.

Curling

Play in the competitions is narrowing down to the finals, the interest consequently increasing. The first final of the season was played last night when the Sturdy rink, after putting Anderson's undefeated (up to that time) rink out of business in the same competition by a score of 12-10 on Monday night, went down before Rae's combination, 14-9. The rinks were:

A. R. Hillier	W. J. W. Brown
L. M. Hagar	Rev J. R. Robertson
H. N. Courzier	J. H. Jackson
D. M. Rae, skip, 14	W. A. Sturdy, sk. 9

On Monday night Rose defeated Foote's strong quartette in the semi-finals of the Calgary, 10-8, and will meet the winner of the Smith-Anderson game in the final.

The Smith and Anderson rinks also meet in the final for the Burns cup.

Now that the competitions are about finished there is a rink of benedicts who have conceit enough in themselves to think they can trim any rink of old bachelors that can be got together. For further particulars apply at the Lawrence Hardware store.

SPORTING NOTES

There will be two basketball games tonight—Road team v. Intermediates, and Gym team v. Alerts. Both games should be good.

On Friday night the North Stars play the High School. If the Stars win they take the cup and the junior league championship, but should they lose they will have to play off with the Doyle team for first honors.

Thursday at 8 p. m. the City and the Y. M. C. A. will play the final game of hockey for the championship of Revelstoke. Both teams have been having hard practice, and both are confident that they will come out ahead. The City will not be able to play Dickey and B. Calder on account of sickness, but players of equal ability will be chosen to replace them. Also Lillie, of the Y. M. C. A., who hurt his shoulder doing some grandstand wrestling, will be out of the game.
