NOTICE!

Provincial Library APR 6

Reg- Your Vote!

If you are a male Bri... ..., 21 years of age, a resident of British Columbia for six months, and of the Revelstoke Riding for one month you are entitled to have your name inserted on the voter's list. But you must make personal application to this effect and sign a form provided for this purpose. And in order to have your name included on the list, which will be revised on the Third Monday in May you must make application before the sixth day of April.

In the Revelstoke District there may be qualified voter's who are not registered as such. This should not be, but it is always the case, with the result that when an election comes round many are found bitterly complaining that they have no vote. The fault of course, is entirely their own.

Ample facilities are afforded for all to register, and the Revelstoke Conservative Association would urge all residents of this Riding who are duly entitled to exercise this franchise to see without delay that their names are enrolled on the Register of voter's.

Forms aad all information can be obtained and the necessary declaration taken by applying to A. E. Kincaid, President City Association, H.J. Parker, Secretary, and W.R. Reid, Arrowhead, President District Association, or R. D. Macdonald, Secretary.

REVELSTOKE CONSERVATIVE ASSOCIATION

ODDFELLOWS "AT HOME"

The I.O.O.F "at home" which was held in the Masonic Hall on Wednesday night, was one of the most successful social events ever held in Revelstoke. The local members of the order, which is celebrating the fiftieth year of its useful existence in B. C. this year, number practically everyone in the city amongst their friends and it was only to be expected therefore that the occasion should be largely attended, as was the case. The members of Selkirk lodge No. 12 assisted by members of the Rebekah Lodge, received their guests, and most hospitable arrangements were made for the entertainment of all present. The company numbered about 250.

In the upper hall sixteen tables were devoted to progressive whist, and dancing was enjoyed downstairs to the strains of Orr's orchestra. The dancers kept the fun going well on into the small hours of Thursday morning, and everyone spent a thoroughly enjoyable time. Appetising refreshments were served at a suitable interval in the proceedings.

The Selkirk lodge was established some twenty-four years ago it is interesting to recall, at Donald.

That the Oddfellows will demonstrate their recognition of the social side of their work in an equally pleasing manner in the not distant future is the hope of all who enjoyed their hospitality on Wednesday.

The prizes in connection with the progressive whist were awarded as follows: Ladies first prize, Miss Foote; ladies consolation prize, Mrs. Campbell; gentlemen, first prize, Mr. Stubb, consolation prize, Dr. Heard.

SACRED CONCERT

The program, printed elsewhere in this issue, of Miss Parker's arrangements for the sacred concert on Good Friday evening, promises a delightful evening. There is a wide variety in the selections, both in theme and setting, and the quality of the music leaves nothing to be desired.

Every person that has an interest in the best the musical world has to offer should make an effort to be present, the names of the artistes ensure that the numbers 6will be efficiently rendered and Miss Parker is an host in herself. The concert takes place in the Masonic Hall, admission being 75 cents and 50 cents.

The statement of the Argentine meat exporters that the Chicago beef trust has no stake in that country appears to be a mistake.

The damage to Col. Roosevelt's baggage in South America was not as serious as the first despatches stated. The typewriter was saved.

Japanese women are said to be the happiest in the world. The reason they are cheerful, even tempered and good natured is found in the fact that fashion in clothes in the island kingdom never changes. This has a ... to make the men happy too *Dame Fashion plays hob* with the pocket book of the family protector and provider. Wonderful people, the Japs.

DOWN, AND ALMOST OUT

AN APPEAL

There lies in the Revelstoke hospital a man who has lost one hand completely and practically all the fingers of his other hand as the result of injuries received on the railway track in this district. How he came by those injuries is a matter we have not sufficient knowledge of to speak authoritatively, and until we have such knowledge we will leave that phase of the matter.

This man was jumping a ride when the occurrence which has resulted so badly for him occurred. He is an out-of work, an hoo-boo if you like. What his past has been we do not know, and we do not care. At present he is in a plight which deserves the sympathy of all, and it is on that subject we desire to say a few words to our readers.

Mr. J. Dings has interested himself in the case and has already deposited in a trust account in a local bank the proceeds of a collection taken in the camps outside Revelstoke on behalf of the sorely injured man in the hospital.

Yesterday a representative of the "Mail-Herald" saw the Mayor of Revelstoke, Mr. H. McKinnon, in connection with the relief fund started by Mr. Dings. The Mayor readily agreed to receive subscriptions towards the fund at the city offices,and to act on a committee to supervise the proper allocation of the proceeds of the fund. With that guarantee we confidently appeal to our readers to help a fellow man who is in dire distress and whose future, unless he is provided for, must be so black that it is difficult to realise it.

This is not an attempt at an eloquent appeal for funds to be spent in attempting to remodel the morals of yellow men in China, or in con... black men in Africa from "heathenism" to any other "ism." It is a plain statement of the sad plight of a white man who is now an inmate of the Revelstoke hospital, the victim of one of the tragedies of life whose necessity is dire, who is down—and almost out.

When you have read this don't say "How awful", and then forget the matter, or "Something should be done for him by someone." and do nothing yourself You cannot withhold your sympathy—how much is your sympathy worth?

This is a case at your own door, in your own town. The victim may be a stranger in the sense that he is not a regular resident of this town or district, but he is here, and he needs assistance and always will Give him your assistance. The Mayor will see that the donations to the fund are properly applied, and we shall be pleased to acknowledge all subscriptions through our columns.

Is this man to face a dark future without hope, without friends? We believe the people of Revelstoke will answer these queries, and for the present we leave the matter there.

Farmers Institute Notes

The regular monthly meeting of the Farmers' Institute will be held on Saturday, the 11th inst, at 8 p.m., in the Smythe Hall. This meeting promises to be of interest in view of the subject for discussion—"Co-operation in Seed and Feed." This may prove important as leading up to further and fuller co-operation in everything pertaining to the farmer and his interests Pamphlets have been distributed through the mails to the members of the Institute on the Field Crop Competition. It is hoped these will be carefully studied and when the time comes a number be found in this competition. Members are urged to attend with regularity the monthly meetings of the Farmers Parliament and aid in making this institute a powerful factor in the life of this community.

Powder for the use of members of the institute has now arrived and can be had upon application to the Secretary.

Baltimore ministers took a vote for and against inviting Evangelist Billy Sunday to save the Oriole city. The score stood 160 for the Sunday side and 244 for the opponents. Unless the minority bolts the verdict of the ballot, Baltimore refuses to be saved, and will slide into the bottomless pit

BOARD OF TRADE REGULAR MEETING

Assistance for District Exhibit.—Arrow Lake Producers Anxious for Affiliation.—Publicity Campaign.—Revelstoke National Park.

Mr. T Kilpatrick presided at a meeting of the Board of Trade held in the City Hall on Thursday night, when there were also present Messrs. Wallace, Lawrence, Patterson, Wood J. Sibbald, and the secretary (Mr. C. R. Macdonald).

REVELSTOKE NATIONAL PARK.

The secretary read a letter from Mr. R.F. Green, M.P., Ottawa, on the subject of the Dominion grant to the Revelstoke National Park, which has been previously published.

PROSPECTING TRIP.

The secretary reported that in reply to a letter from California he had forwarded information regarding the district, routes, etc., to an inquirer who proposed undertaking a prospecting trip this summer in the Revelstoke, Big Bend district.

The secretary reported he had replied to other inquiries for information about the Revelstoke district.

DISTRICT EXHIBIT.

The following letter from Mr. T.E. L. Taylor, secretary of the Revelstoke Agricultural Association, was read:

Our Association contemplates sending an exhibit to the Dominion Fair at Victoria and the Provincial Exhibition at New Westminster this year, and as the expense in connection with these exhibits will amount to quite a sum, and as the benefit to be derived from an advertising point of view is a very important factor, we would ask you to be kind enough to consider the donation of one doz. museum jars for use in the exhibiting of preserved fruits. Trusting this matter will receive your favorable consideration."

The secretary tabled prices he had obtained for supplying jars of the description referred to.

The chairman said it was important, according to the information he had, that the jars should all be of the same size and make for use in connection with the exhibit.

Mr. Lawrence—The idea is for use in the form of a permanent exhibition.

The Chairman—Yes. He added that the intention was to make it a thoroughly representative exhibit. It appeared that a great deal depended upon the variety of products, etc., exhibited in regard to successfully competing with other districts. Local growers had been furnished with seed on the understanding that a portion of, the produce therefrom should be available for exhibition purposes.

Mr. Lawrence moved that the request be acceded to after definite information had been obtained as to the description and size of jars required; the Board of Trade to furnish one dozen jars of the kind required.

Mr. Wallace seconded, and the motion was agreed to.

AN ARROW PARK REQUEST.

The following communication was read from Mr. Frederick Job, Arrow Park, B.C.

Dear Sir,—As secretary of a ways and means committee for forming a progressive association, I have been asked to write to you as to whether we could join your association as ordinary members or become an affiliated branch of your organization. We feel that it would be a mutual benefit and that you could help us considerably both in advertising and marketing, whilst our interests would not be likely to clash as would be the case if we joined a board of trade nearer home. and we look upon your town as the natural head of the Arrow Lakes.

Of course, we understand our population and business would not warrant us forming an independent board of trade of our own.

Please give me an early reply as I have to call a general meeting of the district as soon as I can lay facts before them, and thanking you in anticipation.

The chairman thought the request might well be complied with to the extent of an affiliated branch of the Board being formed, with possibly a local executive for the district referred to.

It was decided that a reply on the above lines should be forwarded, the matter to be left over until the next meeting pending investigation into the legal pasition as to the scope of the Board of Trade.

MAPS WANTED

Arising from an Edmonton request for maps of land available for settlement in the Revelstoke district the possibility of obtaining reliable details concerning this and kindred matters was discussed, with the result that the secretary and Mr. Wallace were deputed to go into the subject and to approach Mr. T. Wadman in regard to it with a view to enabling the Board to deal with the Edmonton and similar requests.

DESCRIPTIVE FOLDER.

Mr. Lawrence submitted a specimen folder dealing with the advantages and natural resources of Revelstoke and district which had been drawn up by him in conjunction with other helpers.

A general opinion was expressed that it was high time the folder was issued, and after discussion of details as to how to obtain the best results from the scheme approved same months ago, during which Mr. Patterson gave valuable hints, it was unanimously decided that the issue of folders on lines approved by the meeting should be left in the hands of the committee appointed to deal with the matter the understanding being that the work should be proceeded with at the earliest possible date.

NEW POST OFFICE.

Mr. Sibbald brought forward the matter of the new Post Office building. The Chairman gave the meeting information he had obtained in connection with this matter, as did also Mr. Wallace.

PROPOSED REMOVAL OF PUBLIC WORKS OFFICE.

Anent the proposed removal of the Public Works Office from Revelstoke and the transfer of Mr. Forde and his staff to Nelson which the contemplated change is said to involve.

Mr. Lawrence moved that the Board communicate with Mr. R. F. Green, M.P., at Ottawa, on the subject, urging Revelstoke's claims to have this office here, pointing out the strong geographical position of Revelstoke in this connection and asking him to use his best endeavors to have this office retained in Revelstoke.

This matter was regarded as one of urgency and it was decided to telegraph Mr. Green on the sub-ect that night..

C. P. R. SHOPS

Mr. Lawrence moved that the secretary be instructed to write to Mr. Bury, of the C.P.R., regarding the gradual reduction of operations at the local C.P.R. shops and the sending to Calgary of repairs which formerly were carried out here, with a request that if possible arrangements would be made for such work to qe done at Revelstoke. This was unanimously agreed to.

REVELSTOKE NATIONAL PARK

Mr. Sibbald asked for information regarding the present position of matters in connection with the Revelstoke National Park and any intimation as to future intentions which might be available.

The Chairman detailed the results of his examination of a plan of the park which he had seen, which information was regarded as most satisfactory.

Mr. Sibbald said if the motor road could be completed before the San Francisco fair it would mean a great addition to tourist traffic to and through Revelstoke.

The Chairman said he would like to see the road put through completely even if the work was not finished up at once. Once the route had been cleared it would be an easy matter to complete the work on the road later.

PUBLIC WORKS OFFICE

Removal to Nelson

Instructions have been received from the Chief Engineer of the Department of Public Works at Ottawa that the office of the District Engineer for Kootenay is to be transferred from Revelstoke to Nelson, and the change is now being made.

The reason given for the change is that Nelson is in closer proximity to the greater number of works being handled by the Department than is Revelstoke, and therefore that they can be better supervised from the former place.

Mr. J.P. Forde, the District Engineer, when asked regarding the move, stated that while for personal reasons he is sorry to leave Revelstoke, which has been his home for many years and where he and his family have very many good friends. he feels that the change is in the interests of the work of the Department. and is of the opinion that he will be able to handle the work more effectively and economically from Nelson, and therefore he considers that the decision of the Chief Engineer is a fair one.

Thoroughbred Stock

Rev. W. C. Calder added six more head of stock to his herd of thoroughbred Ayrshire cows on Tuesday. The animals were purchased from the leading Ayrshire Stock Breeders at the coast. All are government tested and record of performances cows, thus ranking high as milk producers. Mr. Calder contemplates further adding to his herd of high-class animals as his increasing business demands. This is the first attempt on any scale of introducing thoroughbred stock in to this community. It means a great deal to the Revelstoke district lifting the farming interests to a higher plane and placing on the market milk of a superior quality. The Ayrshire cow, while not yielding so great a quantity as the Holstien, nor standing so high in the butter fat as the Jersey, strikes the happy medium and produces a milk easily digested and for this reason particularly adopted for the family and in the case of delicate infants aiding in bringing about healthful conditions. These animals cost Mr. Calder a good round sum ranging from $250 to $450 per head. This enterprise demands the thoughtful consideration of the people of Revelstoke.

It must have been moving pictures the San Francisco artist drew that caused the governor to release him from confinement in a California prison.

MINING MATTERS

Mr. Lawrence stated that he would like an address from Mr. Bibb upon mining matters to be given at the next meeting of the Board, and undertook to arrange the matter with that gentleman. It appeared that things from a mining point of view were looking promising and Mr. Bibb would be able to furnish interesting and valuable information which at this juncture would be peculiarly appropriate.

Mr. Wallace supported the suggestion, and it was left to Mr. Lawrence to interview Mr. Bibb on the question, that gentleman being elected to membership of the Board.

THANKS TO MR. R.F. GREEN

An expression of the Boards thanks is to be forwarded to Mr. R.F. Green M.P. at Ottawa, for his services in connection with the reorganisation of the land office department at Revelstoke.

FORESTRY FACTS

The production of Douglas Fir lumber has increased thirty-eight per cent in the last two years, according to a recent publication of the Dominion Forestry Branch on the forest products of Canada. This percentage is double that of any other leading Canadian wood for the same period. This tree made up 67.7 per cent of the total lumber production of British Columbia, which province is estimated to contain as much timber as all the rest of Canada. The importance of the Douglas fir is exemplified by a statement made by Dr. C.S. Sargent, the leading authority on American trees, who says: "No other American tree of the first magnitude is so widely distributed, or can now afford so much timber, and the rapidity of its growth and its power of reproduction under favorable conditions make it the most valuable inhabitant of the great coniferous forest of the northwest."

Hickory is the strongest Canadian wood. When properly seasoned a hickory column will support a weight of twelve tons per square inch cross-section, which is considerably more than what could be borne by a pillar of cast iron or steel of the same length and weight.

The natives of Ceylon eat one and a half milfion cocoanuts a day. There are sixty million cocoanut trees on this land, and the surplus production of nuts is chiefly used to make corpa, the dried 'meat' of the nut,which is a valuable source of vegetable oils It is estimated that there are produced yearly 600,000 to 700,000 tons of copra valued at sixty five million dollars. One-quarter of the world's production comes from the Philippine Islands.

Canada has trebled its production of paper in the last three years.

In the 157,100 square miles recently added to northern Ontario there is very little timber of any present value. Mr. J.B. Tyrrell, reporting on his trip through this new district of Patricia, says: "Most of the timber was small and much of it has been burned. Larch or 'tamarack' is associated with white and black spruce to the northern limit of the district, but unfortunately most of the trees are dead."

Weather forecasts were used last summer by the Dominion Forestry Branch in regulating the fire-protective patrol in the Railway Belt, British Columbia. As the prevailing winds were westerly the weather to be expected in the interior of the province could be foretold by telegraph many hours in advance, and if there was little danger to be expected, the District Fire Inspector would permit a temporary decrease in the railway patrol.

In British India the Forest Service derives an annual revenue of over one and a quarter million hollars from the rental of grazing privileges on forest areas under government administration. The United States Forest Service last year secured a revenue of over one million dollars by the same method. But in Canada, during the last fiscal year, the issuance of grazing permits on Dominion Forest Reserves netted the Forestry Branch less than one hundred dollars The Dominion government, however, recently passed new grazing regulations which will not only permit the full utilization of the grass-lands on the reserves, but will at the same time substantially increase the future revenues of the Dominion Forestry Branch.

POULTRY INDUSTRY NOT OVERDONE

Edmonton, Alta., April 3.— While poultry growers in Edmonton have shipped a few cars of fresh eggs to Montreal, Toronto and other eastern markets, it must be understood that the industry is not overdone in Alta. A. W. Foley, superintendent of the provincial poultry farm at South Edmonton, reports that fully 2,500,000 dozens of eggs were imported from the United States alone last year. "This," he said, "indicates there is yet a long way to go before our growers can even think of an export trade." The production in Alberta in 1913 was 14,027,700 dozen eggs, valued at $3,031,086, and 667,964 fowl, estimated at $440,856. The provincial government has installed incubators with a total capacity of 3,600 eggs at the southside farm, where one day-old chicks are sold to growers at actual cost. There are 700 pure bred birds at the station. Several hundred will be added this year. Egg circles are being organised in various communities.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each applicant must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to the Agent or Sub-Agent of Dominion Lands.

Stole For a Missionary

Edmonton, April 2.—Lulu Chamberlain, who pleaded guilty in the District Court to the charge of stealing a cheque for $119, fifty-one dollars of which she gave to a Presbyterian missionary, Hugh Graham, and the balance to a local mission, was sentenced to one year in jail. Before passing sentence the accused woman was asked by Judge Taylor if she had anything to say, and she replied: "I was led into it by this man." She declared it was her love for the missionary that prompted her to make the theft.

It is understood that the new police regulations regarding the display of undraped figures in the French capital do not apply to plaster of Paris.

DOUKHOBORS PRAISED

Mr. F. W. Peters, general superintendent of British Columbia lines for the C.P.R., and Mr. R. E. Larmour, division freight agent, returned from an incpection of the Kootenay and Boundary districts. A general improvement in trade conditions is commented upon, the opinion of both officials being that the interior portions of the province have not been feeling the pinch of the financial stringency to the same extent as other districts.

The cudgels on behalf of the Doukhobors resident in the Boundary and Kootenay districts were taken up by by Mr. Peters on his recent visit. At Grand Forks, he said, complaint was made that employment was being given to members of the colony by C.P.R. contractors, and he was urged to give preference to laborers of other nationalities. Mr. Peters declined to discriminate against the Doukhobors, and following a visit to Brilliant, the centre of the Doukhobor colony, he gave out an interview which read in part as follows:

"We were surprised and glad to see the work which the Doukhobors have done and the large amount of acreage which they have developed and placed under cultivation. Our business dealing with the settlers has shown them to be honest, industrious and reliable and we have made arrangements to reopen the station at Brilliant and to place an agent in charge there after April 1. The Doukhobors produce traffic which shows that they are doing much development work and are distributing wealth in the country as a whole. They are not like some settlers we have, who are constantly moving about, and are sending all their surplus funds back to their former homes—they cultivate the soil and purchase their goods in this country."

After alluding to the factories which have been established by Doukhobors as a proof of their industry, Mr. Peters expressed the opinion that the main trouble with the settlers was their aversion to sending their children to the public schools. He thought this could be remedied by providing special facilities if the system which had been adopted in other parts of Canada could be applied in this province.

"Ultimately the communal settlement will be broken up," remarked the general superintendent, "as have other colonies run on similar lines, but for the present I am of the opinion that some patience should be exercised, some compromises effected, which will result in the laws being followed out in a reasonable manner, but without injury to the religious convictions of the members of the colony. We should take into consideration their thrift, their hard work and their industry, and try to meet them on this question of education. The level-headed men of this country should recognise the valuable qualities of the Doukhobors as settlers, their value to the country as a whole and should go slow in any action that would harass them. If they do not the result will be an injury to the province."

Discussing his trip with the Province Mr. Peters said the he and Mr. Larmour had visited the smelter at Trail and inspected many of the other industries in the Boundary districts. They also made an inspection of the various branch lines. Among other improvement work which has just been started by the C.P.R. is the excavation of a big tunnel near Shields, which will cut out a sharp curve, and the erection of two new bridges.

YOUR OWN DRUGGIST BACKS THIS LAXATIVE

If you only knew as much as we and those who have used them do about Rexall Orderlies, you would be as enthusiastic about recommending them as we are. They taste just like candy and act so easily and pleasantly that taking them is a pleasure.

Rexall Orderlies have a splendid tonic, cleansing and strengthening effect upon the bowels. They help free the system and keep it free from the ailments that result from irregular or inactive bowels. They do this quietly, without griping, nausea purging or excessive looseness. In a short time they usually make unnecessary the continued use of physics We don't ask you to take our word for this. We want you to make us prove it, and at no cost to you.

Buy a box of Rexall Orderlies. If not thoroughly satisfied, tell us, and we will return your money without question. In vest pocket tin boxes; 10c, 25c, 50c.

You can buy Rexall Orderlies only at The Rexall Stores, and in this town only of us, the Bews Drug Store.

PUBLISHED WEDNESDAY AND SATURDAY AT REVELSTOKE, B. C.

Interior Publishing Company LIMITED

RALPH G. SCRUTON, Editor.

SATURDAY, APRIL 4th, 1914.

In common with every other part of the Dominion Revelstoke has felt the effects of bad times recently, but a survey of the position of the city and conditions locally gives promise of a speedy improvement generally, and so far as Revelstoke itself is concerned the outlook is more favorable than it appears to be in most places in B. C. at all events. The locating here of the land and timber office for the Kootenays is a particularly welcome feature, and it is held by those best qualified to judge that there is promise of a period of activity in regard to land and mining matters, such as we have unfortunately for a time been strangers to. The throwing open to settlers of land which will be available in the near future should mean that Revelstoke will be the Mecca of a steady stream of new comers. The presence here of officials authorised to deal directly with matters appertaining to these branches of Dominion activities must result in benefit to the town. The latest phase of the Revelstoke National Park project is also most reassuring and satisfying. The vote of $16,000 from the Dominion exchequer for purposes connected with the development of the park means more than is evident at first sight, and should have results which will abundantly justify the optimism of all locally who have furthered to the best of their power this step towards placing Revelstoke definitely on the map as a tourist centre. The announcement that new Post Office buildings are to be erected capable of accommodating all the branches of Dominion business handled here is very welcome, and progress in regard to this matter will be eagerly awaited. It is to be regretted that the removal of the Public Works office from Revelstoke is contemplated and the action of the Board of Trade in that connection will be generally approved, and have the full endorsement of all who recognise the strong claims this city possesses in regard to its suitability of situation for dealing with matters which have for some time been capably handled from here by Mr. Forde and his staff. Mr. R.F. Green can be relied upon, we believe, to support the view put before him by the Board of Trade, and we wish him all success in his efforts in that direction. The claims of Revelstoke are such as cannot be lightly ignored and any support possible of the attitude adopted by the Board of Trade would be valuable, even if its effects were not at once apparent. This subject deserves the prompt attention of all local bodies and organisations.

HAYMAKERS CANTATA

A crowded house greeted the performers who presented the operatic cantata "The Haymakers" at the Empress theatre on Tuesday evening The opening choruses in which Mr. Morgan so ably took the solo parts created an impression of excellence, which was sustained throughout the whole production. The duet rendered by Mrs, Bews and Miss Paufding, both of whom were in excellent voice was charming in its sweet melody. In the selections "Rest Ye Awhile," and "Wasps" Mr. Allwood showed himself to be an impersonator of much ability and sang and acted his entire part in a finished manner. Miss Parker in her solo admirably sustained the reputation which she has won for himself and with Mr. Allwood she scored a success in the duet "Our Farm." The quintette "Sounds like a dream" was appreciated while the chorus "How Sultry is the Day" won merited applause. As the music progressed the house was literally taken by storm when the thunders rolled, the lightening flashed and the rain fell. The effect was most realistic and was enhanced by contrast with the calm beauty of the duet taken by Mrs. Bews and Mr. Paul Samson, who excelled themselves in this selection. Mr. Paulding was given a most hearty reception and is to be congratulated upon his success especially as he took his part at so short notice. "Softly the Twilight Fades" was a chorus admirably suitable for a closing number, and was given with pleasing effect.

The Methodist choir under the leadership of Mr. Sawyer deserve great credit for the persistency and devotion which they have shown in preparing this cantata of which the music is difficult and requires more than ordinary talent for its rendition.

Mr. Duck merited praise for the splendid scenic effects in "The Storm" and Mr. Gifford for training the Dairy Maid Dancers, who performed so acceptably. Much of the success of the production was due to the pianists Mrs. L. Howson and Mrs Fleetham, and to the assistance of the orchestra under the leadership of Mr. S. W. Hillier.

MASONIC HALL, REVELSTOKE

MISS TRYPHOSA PARKER'S

SACRED CONCERT

GOOD FRIDAY EVENING, APRIL 10

BASSES—Mr. F. Paulding, Mr. G. Hardy, Mr. H. Parker.

Commences 8:30 p.m. Admission, 50c Reserved, 75c

New York lawyers are opposed to tipping, and the lower House has passed the anti-tipping bill up to the Senate. Should the Senate enact it, woe to waiters, woe to Pullman porters, woe to bartenders—and Turkish bath attendants, woe to stewards, bellboys, bootblacks and taxi drivers. It will be a misdemeanor to give a tip or accept one. This will create a revolution in the city of New York, and the employers of labor will be compelled to pay their servants in real money. As it is now the public pays the freight.

A medical authority warns people afflicted with the grip against the danger of kissing. This is about the last osculatory exercise that persons suffering from that ailment would think of.

There are 5000 Chinese in the city of Chicago. They are to have a church supported by all denominations, and its purposes will be to give the 5000 Mongols a simplified creed and institutional training. Now what in the world is "a simplified creed?" says the Record.

PREVENT FOREST FIRES

Dry Season Predicted

District foresters in the employ of the Provincial government are giving wide circulation among settlers and others throughout the Province to the following circular letter:

Dear Sir,—The open Winter, the light fall of snow and many other signs point to a hot, dry summer, which will be extremely bad for forest fires. These are liable to cause many thousand dollars in damage, not only to standing timber but to your buildings, improvements and crops.

I therefore ask your assistance in preventing these fires. You have, no doubt, on your pre-emptions, areas of slash, which are firetraps lor the carlessly dropped match, burning tobacco, or a spark from a locomotive. Perhaps you are planning to clear up these acres, If so, let me urge upon you the necessity of doing this before the dangerous season arrives and thus putting an end to serious forest fires which have been so prevalent in the past.

Of course, the most dangerous places are near buildings and along railroad right-of-way, and public roads, and these should be seen to first.

By observing the following simple rules the burning may be safely done:

1—Burn as early in the Spring as possible. If the burning cannot be done before May 1, get a permit from the local forest guard, and burn under his supervision. Do not wait till the soil becomes too dry, as you will then burn up valuable vegetable matter which enriches the soil.

2—Always construct a light firebreak around the slash, by throwing any brush or litter in for say twenty feet. This will confine the fire and give you a chance to get around it quickly should it start to spread.

3—If possible, have one or more neighbors assist in burning so that the fire may be controlled at all times.

4—Always start your fire in the afternoon if conditions are at all dry. The best time is about five o'clock. The brush is then dry from an all day's sun, and burns better. There is little chance of a wind springing up, and the fire burns out during the night.

5—If the slash adjoins timber start from the time side and burn out until a good guard is burned all around the timber. Start fires on the upper side of a hill and burn down the slope. When a good guard has been burned along the top, fires may be set at the foot of the slope and allowed to burn up.

6—Burn over the area as quickly as possible.

7—Keep close watch on the area until all fires are out.

We are always anxious to assist you in dispensing of your brush, and correspondence regarding the same will be gladly answered. If during the next season you should see a fire threatening to get away, we would consider it a favor if you would put it out or notify the nearest Forest Forest Guard or this office.

Adds Millions to Natural Wealth

Sir Richard McBride addressed the members of the Forest and Waterways Commission on the resources of Canada and strongly urged the need of conserving the natural resources of the Dominion. He pointed out that we were just a little behind our neighbors in this respect. He told what British Columbia was doing in the way of conservation.

Referring to the mineral wealth of the country he said British Columbia might be regarded as possessing the richest store of ore in the world. But a small fraction of it had been explored. Owing to the physical disabilities of the province and lack of transportation facilities prospecting was carried on with great difficulty, but in the districts already explored encouraging results had been achieved. The mining laws of the province were framed on a broad, liberal basis, so much so that the Senate of the United States had characterized them as among the best in the world. Behind the law was the idea that the legitimate prospector was entitled to the property and that every effort should be made to see that he got it. Similarly when a new mineral area was discovered the law provided that one man could not blanket the whole ground, but that he must share it with his fellows.

Diverting to the timber question again, he said that some years ago it had been decided not to sell any more crown timber. This policy was first suggested by Mr. R. F. Green, now member for Kootenay. Dealing with the question of the timber and lumber policy of the Provincial government, Sir Richard said that the recommendation of the timber commission of a few years ago had been enacted into legislation which the Canadian people as a whole would have no difficulty in endorsing. The government's policy was one which made for conservation. It was a policy that had due regard to economy. It was designed to prevent waste and also destruction from forest fires. So far as was consistent with the public interest the government officials, lumber operators and loggers worked along lines of co-operation so that advantage would be taken of every possible circumstance to conserve the forest wealth of British Columbia. With regard to water powers he said the legislation of the province recently enacted, was designed to provide ample and easily-enforced regulations. It prohibited corporations and individuals from filing water records unless it was their intention to make use of the water within a reasonable period. If not so utilized within the stipulated time the water rights reverted back to the province. It was a policywhich would add millions to the national wealth of the Dominion.

Two Tramps Killed

Thrown from their precarious hold on the brake beams of a freight car by the sudden application of the emergency brakes, two unidentified men who were stealing a ride were killed on the C.P.R. four miles east of Hope. The bodies of the men were terribly mangled, one of them being dragged for several car lengths and crushed almost beyond recognition.

The trainmen discovered the dead bodies when they went to investigate the reason for the train being suddenly stopped. A hose coupling on one of the cars became severed, thus automatically jaming on the emergency brakes. The men had evidently been "riding the rods," beneath the car, and had been unable to retain their hold when the train pulled up with a jerk. The bodies were taken to Yale and turned over to the provincial police.

WE HAVE FAITH IN THIS STOMACH REMEDY

A woman customer said to us the other day, "Say, you ought to tell everyone in town about Rexall Dyspepsia Tablets. I would myself if I could." That set us thinking. So many people have used them and have so enthusiastically sounded their praises both to us and their friends, that we had an idea you all knew about them. But, in the chance that some of you who suffer from indigestion, heartburn, dyspepsia, or some other stomach complaint, don't know about them— we are writing this.

They contain Bismuth and Pepsin, two of the greatest digestive aids known to medical science. They soothe and comfort the stomach, promote the secretion of gastrice juice, help to quickly digest the food and convert it into rich, red blood, and improve the action of the bowels. We believe them to be the best remedy made for indigestion and dyspepsia. We certainly wouldn't offer them to you entirely at our risk unless we felt sure they would do you a lot of good. If Rexall Dyspepsia Tablets do not relieve your indigestion, check the heartburn, and make it possible for you to eat what you like whenever you like, come back and get your money.

Sold only at the more than 7,000 Rexall Stores, and in this town only at our store, the Bews' Drug Store. Three sizes, 25c, 50c, and $1.00.

RAILROAD MAN HAD TO LAY OFF

Until He Took GIN PILLS

Buffalo, N. Y.

"I have been a Pullman conductor on the C. P. R. and Michigan Central for the last three years.

About four years ago, I was laid up with intense pain in the groin, a very sore back, and suffered most severely when I tried to urinate.

I treated with my family physician for two months for Gravel In The Bladder but did not receive any benefit. About that time, I met another railroad man who had been similarly affected and who had been cured by GIN PILLS, after having been given up by a prominent physicians who treated him for Diabetes. He is now running on the road and is perfectly cured. He strongly advised me to try GIN PILLS which I did—with the results that the pains left me entirely."

This Book Might Save You The Cost of a New Building

HAVE you ever heard of "Intensive Cultivation?" This principle applied to market gardening has resulted in a fourfold increase in yield, with a proportionate increase in profits.

Has it never occurred to you that the same principle might be applied to YOUR OWN organization, whether it be manufacturing, jobbing or retailing? Many of Canada's most prominent business men owe their success to this very thing. Cultivate your available floor space so that every square foot may be made to produce a profit.

This new Book, "The Elevator," will show you how. Write for it to-day. It may save you the cost of a new building by pointing the way to a better arrangement of your present floor space.

New Anæsthetic

Interesting experiments with a new anaesthetic have been conducted at Cambridge laboratory. The substance, which is called urethene, is a combination of urea and alcohol. It is administered hypodermically, and drowsiness soon becomes very deep unconsciousness, and insensibility to pain is complete. There is perfect security when it is used in any operation. The advantage claimed for the new anaesthetic is that heart failure never occurs when it is properly used, while a majority of the deaths from Chloroform are due to heart failure. When the breathing stops, as it frequently does, during the administration of an inhaled anaesthetic, it can ushally be started again by artificial respiration, provided, always, that the heart is still beating. The assurance, therefore, that in cases of an overdose of this anaesthetic the breathing would be affected before the heart will be of immense comfort to surgeons and anaesthetists.

Another advantage is that the choking sensation experienced with ether and chloroform is not present. Moreover, after urethene there is no sickness, and thus the danger of stitches giving way and ligatures slipping off during reaching is avoided. A disadvantage is that the experimenters have not yet been able to reduce the period of insensibility below six hours All the operations up to the present have been made on animals.

"The bustle is coming back" states a fashion item. Just how it will adjust itself to a narrow guage limousine seat remains to be seen.

Lillian Russell says that "men are fools and always will be." Lillian knows, she planted the matrimonial hooks into five of them.

When you go to a dealer's store to hear a Phonograph be sure you hear an Edison Phonograph

If you do not hear an Edison you do not hear a phonograph. There is only one Edison and only one Phonograph bearing his name. The Edison Phonograph is Mr. Edison's own personal achievement. He invented it and he perfected it. He is responsible for its clear, lifelike musical Records—the Blue Amberols, unbreakable, playing four minutes and lasting a lifetime. He has produced the indestructible diamond reproducing point, that never needs changing. He has recently perfected this new cabinet model—a thing of beauty in itself and a marvel of musical perfection.

Hear this new model. Hear the new Blue Amberol Records, embracing everything worth while in the field of songs and instrumental music.

ENCOURAGE MIXED FARMING

Hon. Dr. Roche announced a number of important changes in the home stead and pre-emption acts. These changes have been under the consideration for some time and have for their object the improvement of the position of the new settlers and the encouragement of the cattle industry The amendments to the Dominion Land Act are of far-reaching importance to the western homesteader. One clause reduces the time for securing patents on pre-emptions from six to three years and abolishes the interest charges of 5 per cent. However, a homesteader has the option of paying for his pre-emption in six years, and in that case is charged interest during the last three years.

Another important amendment allows homesteaders on land which is not of the highest grade to qualify for their patent by keeping stock instead of breaking land to a certain amount, as at present. The first year there must be five head of cattle, in the second year ten, and in the third sixteen. On pre-emption land the homesteader can also secure his patent by keeping stock in lieu of cultivation, except that by the third year he must have twenty-four head of stock instead of sixteen. The principal object of this amendment is to encourage mixed farming and cattle-raising.

There are a number of other amendments of which the most important withdraws from entry or sale lands adjacent to water powers.

There are also a number of changes in the Irrigation Act, but they are largely technical, such as arranging for order of precedence for disposal of water for municipal and other purposes.

The amendments to the Forest Reserves Act provide for the addition of certain areas to the present forest reserve, chiefly in Alberta and Saskatchewan. A year ago these areas were temporarily placed under the act and they are now permanently a part of the forest reserve.

DECLINE SUBSTITUTES

50,000 LEAVE CHURCH

What extensive proportions the 'Leave-the-state-church" movement has attained in Germany were disclosed for the first time at a meeting of the Berlin synod last week.

The movement is supported by free thinkers like Prof. Haekle and Prof. Drews and very energetically by the Social Democratic party. It was stated at the synod meeting that matters had reached a point where even the Reichstag no longer contained a Protestant majority, as considerably more than half the Imperial Parliament consisted of Roman Catholics, Jews and Socialist free thinkers, who had renounced all church aliegiance.

During 1913 a total of 12,713 persons were induced to desert the state evangelical church and for the last six years the number aggregated more than fifty thousand. A speaker at the synod meeting branded the deserters as "heathen."

The church authorities are feeling the effect of this on their exchequer. The German states impose a church tax, amounting roundly to five dollars a year, so that $250,000 of annual revenue has been lost since 1908

The synod adopted resolutions thanking the ministers of the church for the vigorous resistance they were offering to keep the church of the Reformation from being wrecked.

The resolution points out that the promoters of the "Leave-the-church" movement are actuated wholly by the policy of negation. They are making no effort to reform the present church or to establish a new sect. Their warfare is, therefore, assailed as deliberately malicious and unreasonable. 6

Government of British Columbia

April 4

DOUBT ABOUT IDENTITY

Police officials fear that the case against George Ball, for alleged complicity in the Great Northern hold-up is about to fall through.

George Ball asserted before going to Port Coquitlam, that he had 8 witnesses there who could testify that he was in that city on the evening of February 20, and that therefore it would have been impossible for him to have been at Samish at the time the hold-up and robbery. One of these witnesses, he said, was a policeman, with whom he was talking, while another was a woman, and another was the proprietor of a pool hall.

Bert Lowe, yard foreman for the C.P.R. at Port Coquitlam and Chas. Innings, two of the men that Ball declared could establish an alibi for him, declared emphatically to the police today that on the night of the hold-up that Ball was with them in Dupis' poolroom and at a dance That there could be no mistake in the date both men declare, as they say that on that night a dance was held in which they were all interested.

So confident is Ball that he can establish his innocence by the aid of the Port Coquitlam witnesses that he says that after speaking with them he is willing to go across the boundary in any event. No attempts were made to identify Ball while he was in this city, and the case, except on the identification of his photograph by the passengers soon after the hold up does not now appear to be as strong as was first supposed.

The first man suspected of the hold-up the police officials here admitted this morning was the man Charles Hopkins, who is alleged to have been the man who in the past few days nas shot seven men in the State of Washington. Enquiries at the time, however, proved that Hopkins was not in the vicinity of the hold-up.

Two women are members of a radial railway board in an Ontario county. Their knowledge of the construction of curves and switches ought to be valuable.

An antique silver salt cellar was sold in London the other day for $28,000. For spraying his porridge the average man can get equally good service out of a nickel shaker.

Robbing the poor box of a church, is considered about the pettiest form of petty larcency, but the thirsty Prince Rupert thief who stole the communion wine is a good second.

LOCAL and GENERAL

An Easter Concert will be given by the Sunday school children of St. Francis church, on Friday, April 17. Further announcements next issue.

All members of the Moose Lodge in this city please note that commencing Tuesday April 14th, all meetings will be held in the Selkirk Hall All

The Ladies' Aid of the Methodist Church will hold a tea and sale of cooking at C.B. Hume's residence on Thursday, April 23rd.

Dr. Ilsley, the government veterinary, was in town recently and tested the dairy herds of Chas. Granstrom and Rev. W.C. Calder. Both herds passing the test successfully.

Rev. Lashley Hall left on Friday's train for Toronto in connection with official responsibilities. He will attend the Transfer Committee, the Deaconess Board, and the Court of Appeal of the Methodist church.

The Ladies' Aid of St. John's Church will meet at the church on Tuesday afternoon April 7th, at 3:30 o'clock. A full attendance is requested as important business will be discussed. All the ladies of the congregation are cordially invited to attend. Mrs. Moth and Mrs. Johnson, will be hostesses for the afternoon.

At the meeting of St. John's Young People on Tuesday evening, April 7th, Mr. W.M. Lawrence will give a lecture on Central Africa, illustrated by beautifully colored slides. All interested are cordially invited to attend and it is hoped the church will be well filled to hear this popular speaker, who spent his boyhood days in Africa.

Rev. Lashley Hall reports that the banquet given to Rev. Charles Ladner, by the city of Kamloops on Thursday was a very remarkable event; and also has hopes that the reverend gentleman may be paying a visit to Revelstoke shortly. He has promised, conditionally on Mrs. Ladner's health allowing his absence, to be here for Easter.

Rev. G.O. Fallis, of Kamloops will occupy the Methodist pulpit in Revelstoke at both services 11 a. m. and 7:30 p.m. tomorrow, Sunday, April 5th, in connection with the reopening after renovations. It is believed that these reopening services will be greatly appreciated by all. Mr. Fallis is one of the promising men of the younger generation of Methodist preachers in the province.

Owing to the very many requests of people who patronized the last big dance in the New Masonic Hall last March 16th, Messrs. Ross and Logan have again decided to run another one, which will take place in the New Masonic Hall on Friday, April 17th, everyone welcome. Dancing will start promptly at 9 p.m. Music will be supplied by Mrs. McCallum on the piano, Mr. Logan on the violin, and Mr. S.W. Hillier on the cornet. Tickets $1.00, ladies free.

Looking through the Empress theatre program you will find some of the finest motion pictures that ever played in the West. Starting on Saturday next this popular theatre has added to its company the greatest actors in the motion picture world, The All Star Famous Players, featuring Miss Mary Pickford "In the Bishops Carriage, and next week Arizona, in five parts. Chelsea, Checkers, Fatonas Mysterious Finger Print in five parts, Monte Cristo in five parts Soldiers of Fortune, and many others of the greatest features that are coming direct from the big cities. All The Gazettes are only two weeks old giving the World's events in Motion Pictures.

In an agricultural sense the man who tills the soil fills the till.

Edmonton, Alta., April 3—Jay Cooke Aldrich, who was identified with the Glidden and Munsey tours and runs for motor clubs of Harrisburg, Pa., has just returned to Edmonton from a trip into the Peace River country, which, he says, makes former journeys appear like Sunday afternoon picnics. Accompanied by three men on March 15, he drove through water and ice to the hubs for four miles near Mirror Landing, and then made the trip across Lesser Slave lake, 75 miles on the ice, in four hours. On the return trip he encountered a terrific storm 25 miles south of Grouard, at the head of Lesser Slave lake. He repaired the leaks with a mixture of flour and water. Later he ran out of gasoline, but borrowed sufficient coal oil from freighters on the trail to enable the party to reach Sawridge, a new settlement on the Edmonton, Dunvegan & British Columbia railroad, from which he negotiated the 115 miles to Edmonton in record time over the smooth trail.

CENTRAL SCHOOL ROLL OF HONOR

Following are the names appearing on the honor roll for March of the Central School:

Div. 1, Entrance Class—Marion Lawrence, Mabel Simmonds, Sylvia Gallicano, Sophie Turk, Mae Whitteaker, Hila Tomlinson, Tommy Morris, Reggie Calder, Harry Hack, Elvera Johnson, Annie McLean, Doris McCarter, Drina Fraser.

SOCIAL and PERSONAL

Mrs. F.W. Laing will not receive on Wednesday, the 8th inst.

Mrs. H.J. Bews will not receive on Tuesday, April 7th.

Mrs. A.E. Kincaid will not receive on Monday, April 6th.

Judge Forin has kindly consented to address the Canadian Club on April 22nd.

Mrs. Grubbe who has been visiting her mother Mrs. Paget, left on Tuesday for her home in Calgary.

Mrs. Harry Bourne, an old-timer of Revelstoke, but now of California, is visiting with Mr. and Mrs. F. Bourne

The Misses Johnson have returned to the city from Kaslo, and are staying with their brother, Mr. J. K. Johnson.

Miss Paget after spending some time in the city, returned to Victoria where she is in training in the Jubilee hospital.

Mrs. W.A. Sturdy and two children left on Tuesday for Winnipeg, stopping over at Moose Jaw to visit her brother Mr. C. Hislop.

Mr. A. Thomson with Mr. Ballantyne, travelling secretary of the Y.M.C.A., visited Glacier and Rogers' Pass on Tuesday in the interests of the Association work.

The Presbyterian Synod of British Columbia will meet in St. Andrew's church Vancouver, next Tuesday and continue in session until Thursday evening. Ministers and elders from all parts of the province will be in attendance.

In the Presbyterian church on Sunday services will be held at 11 a. m. and 7:30 p.m. The evening subject is "A Brief Life." Sunday school and Bible classes at 2:30 p.m. On Tuesday the Y.P.S. will meet, and Mr. W. M. Lawrence will give an illustrated talk on the scenes of Livingstone's labors.

The meeting of St. John's Young People's Society on Tuesday evening proved one of special interest. The subject was "Can Poverty be Abolished" and it was most ably dealt with in an address given by Mr. Jas. Gordon. The speaker dealt with the two causes of poverty, moral and economic and showed that legislation could do much to remove the latter, but that nothing short of the religion of Christ could eradicate the former. A number of others spoke on the topic, and the discussion was much enjoyed by all present.

The transference of the local branch of the Dominion Public Works office to Nelson, means that Revelstoke will lose Mr. J.P. Forde and his wife and family, and Mr. R.A. Kirkpatrick. Mr. Forde deservedly enjoys the esteem of all who have been brought into contact with him in Revelstoke, and Mr. Kirkpatrick is one of the most popular and best known residents in the Revelstoke district. Revelstoke's loss is decidedly Nelson's gain in regard to the personel of the office staff referred to as well as in regard to the business aspect of the matter.

Last week Mr. and Mrs. Clay, two of Revelstoke's well-known residents, left for Vancouver where they will make their home. Mrs. Clay was to visit relations at Agassiz for ten days before proceeding to join her family at the coast. They will be much missed by their many friends in this city especially at the hospital, where Mr. Clay has conducted a Sunday afternoon song service for the patients, and in the many societies of which Mrs. Clay was an earnest and active member. It is earnestly hoped that Mrs. Clay who has been in poor health for some time will be benefitted by the change.

Miss Frances Lawson is to be the recipient of a benefit concert and dance which is to be given in the Masonic Hall on April 22. The event will be under the auspices of Dave Orr's orchestra, of which Miss Lawson is a valued member, and the many residents to whose enjoyment Miss Lawson has contributed at numerous concerts and dances in the past will welcome this opportunity of showing their appreciation of her services and their sympathy with her in her recent regrettable illness. A tip top concert program has been arranged and will be followed by a dance. Remember the date, April 22. The event needs no other commendation.

In answer to an invitation from the secretaries of the Y.M.C.A., about sixty young people from the Methodist and Presbyterian churches gathered to celebrate April Fool's Day. After all had assembled at the Y.M.C.A., the fun started in good earnest when representative teams of girls and boys matched in a bowling contest. Misses Dickie, Manning, Thompson, Eaton and Robertson and Messrs. Patterson, Corley, Bruce, under Captain Summerville, played the Misses Matheson, Crowe, Brown, Urquhart and Little, and Messrs. McFayden, McDiarmid, Stewart, Tapping, under Captain Hay. The excitement was intense as the games progressed and the alleys resounded to the cheers of the spectators. The St. John's ladies scored a victory of 90 pins while the Methodist gentlemen won out by 44 pins, leaving the Presbyterians victorious by 46 pins. All now repaired to the home of Mr. Paul Samson where they received a hearty welcome. A "Full Band" was announced to supply the first item of the program but as the wise Chanticleer who had the leading part failed to perform only the music of a laugh was heard. After a lung test, the survivors took flight in an aeroplane, but came back to earth in time to enjoy the vocal selections rendered by Miss Paulding, Mr. Samson, and Mr. Thompson. Refreshments and Auld Lang Syne brought to a close this most enjoyable evening. Three hearty cheers were given Mrs. Samson and the Y.M.C.A. secretaries for their generous hospitality.

Stylish Young Fellows

THE masterful styles we are showing appeal to the "Stylish Young Fellow" as no other kinds can.

There is style without "freakiness". Fit and quality that mark the wearer as a well-dressed young man.

And they cost no more than the common sort.
