URT OF REVISION

A Long List of Claims Have Been Considered

A long list of claims of over assessment was presented at the first session of the Court of Revision on Monday, and although the principle under which assessment was made this year, has been changed from what has been done in former years, the list was not so formidable as might have been supposed. The claim of R. Tapping caused considerable interest and discussion. The list as a whole contained nothing particularly difficult to dispose of and although the work of the Court of Revision is by no means ended, apart from the necessary discussions and arguments, the list should be gone through satisfactorily. The work of the city assessor and the plan of assessment which has been adopted this year has been generally approved of and will be of material benefit to the city. In many cases where claims of over assessment were registered, the owners objected to the values put upon the buildings and other improvements and not so much on the lots themselves. As each claim was taken up, C. M. Field, the assessor, who seems to have the details of every lot in the city at his finger's ends, carefully explained the reasons of the assessments made. A long and minutely detailed list of claims from the Realty Co. was duly disposed of.

The court adjourned last night at 11 o'clock.

DEADMAN'S ISLAND

Theodore Ludgate Will Not Sell Lease for $250,000

Mr. Theodore Ludgate, of Arrowhead, B.C., the well known sawmill man, has stated that he is willing to sell to the City of Vancouver his lease of Deadman's Island for $250,000.

Unless the city purchases the lease of Deadman's Island, there is every probability that a prominent New Orleans iron manufacturer, who has sold out his interests in the latter place, will offer Ludgate the required $250,000.

According to information received this New Orleans capitalist, who was in Vancouver a couple of days ago, is merely waiting upon the city's decision and, upon the latter's refusal, will acquire the lease and erect an iron foundry on the much disputed land.

A report was current to-day, which, when traced, appeared to be founded on good authority, that in the event of the city taking over the lease of the island, the Dominion Government will relieve itself of all further burden in the matter by handing all its interest over to the City of Vancouver.

PRESS ASSOCIATION

Annual Convention of Alberta and B. C. Newspapermen.

The Alberta and Eastern British Columbia Press Association will hold its annual convention in Nelson during fair week, September 24th and 25th The arrangements for the entertainment of the visitors are in the hands of Vice-President Deane, W. G. McMorris and V. W. Oblum, acting in conjunction with a committee of the Board of Trade.

The work of the convention will, it is anticipated, be concluded on the first day and the second day will be given over to sightseeing. It is planned to take the visiting newspapermen out to Bonnington to inspect the two big power plants, and probably arrangements will be made for a launch trip on the lake.

The A. & E B. C. P. A. includes the publishers of most of the papers of Alberta and eastern British Columbia, and their presence in Nelson at fair time should materially assist the work of the publicity bureau.

Cement Sidewalks

The work of constructing the new cement sidewalks is being rushed through under the management of Mr. L. H. Buck. Mr. Buck was fortunate enough in being able to get sufficient silica sand, free from mica, on Fifth street, where the city is improving the roads. The cement used is of first-class quality and purchased from the cement works on the Coast. A carload of cement from Exshaw, Alberta, will be used on some of the work, and as the Exshaw company makes a first-class cement, there is no doubt but first class and lasting work will be accomplished.

THE LATEST TELEGRAMS

The Big Ship Mauretania at the Mercy of the Sea—First G.T.P. Train—Fires at Port Arthur—Other Items.

NEW YORK, Sept. 22—For more than half an hour last Wednesday the great turbine steamer Mauretania with all her cabins filled with crowded passengers, rolled and pitched helplessly in mid ocean, with waves constantly breaking over her decks. She had run into the storm hours before, but had been kept under headway until one of the propeller blades flew off with a crash that alarmed nearly everyone on board. So tremendous was the force of the blow which the loosened propeller dealt the ship that the whole middle section seemed to rise, the flooring buckled until the tacks from the carpets were hurled against the ceilings, and passengers were thrown about in the cabins. The engines were stopped at once, and the big ship, losing her way began to wallow in the trough of the seas, while the passengers besieged the captain, imploring him to tell the nature of the accident. Every effort was made to quiet the frightened ones, but the intense excitement did not subside until the steamer started once more on her way. The compartment adjoining the propeller jists filled with water. It is believed that the detached propeller drove a hole in the ship's bottom.

WINNIPEG, Sept. 22—The first Grand Trunk Pacific train left Winnipeg for the west this morning at 8.30 o'clock, officially inaugurating a new railroad and almost a new era in the West. There was a large number of railway officials and other citizens at the C N R station to see it off, and it made a fine appearance as the conductor in charge, Frank Niddery, gave Engineer Culber the "high ball." At the same time the Station Master broke a bottle of wine on the engine when the wheels began to turn. No formality was omitted which; from ancient usage, would help toward the successful inauguration of the service.

PORT ARTHUR, Ont., Sept. 21—The dry air and winds caused the forest fires in the neighborhood to break out again last night and to-day, but they have not yet reached damaging proportions. The steamer America which came along the south shore yesterday afternoon, arrived here this morning, and reports that there was a lull in the fires about Grand Marias and it is not thought any more damage will be done, though the situation is one of considerable danger.

REGINA, Sept. 22.—Twenty-one laborers employed on the Parliament buildings went on strike to-day, and something in the nature of a free fight took place. One man was thrown off the works by the foreman, and all the strikers allege that they were forced from the grounds at the point of a revolver.

CHELSEA AGAIN FIRE SWEPT

Shift in Wind Saved Much Loss —Incendiaries Blamed

CHELSEA, Mass., Sept. 22.—The whole section of Chelsea that escaped the conflagration of last winter, was burning this morning. Aid was summoned from Boston, Maiden and Everett and it was at first feared that the rest of the town would be destroyed before the flames could be checked. Police believe the fire was of incendiary origin, so quickly did it start. The flames were first noticed in the block bounded by Sixth and Vales streets Everett avenue and the Boston and Maine railroad tracks. The whole block was soon afire and by about 9 o'clock sixteen houses and a large box factory and showcase works were destroyed. There was the widest confusion at the box factory. Over 250 employees, who had just gone to work, were compelled to flee for their lives and their escape was cut off on all sides but one, by a wall of flame.

Mass Meeting Thursday Night

Under the auspices of the Lord's Day Alliance, a mass meeting of the different congregations and unions of the city is called to meet in Knox Church tomorrow evening to listen to Rev. T. Albert Moore of Toronto. Mr. Moors is a strong man, and well able to present his subject in a way that will delight and entertain the people. There should be a crowded house.

WINTER TRAIN SCHEDULE

Double Service Will be Maintained Throughout Winter.

A double daily service between Vancouver and Eastern points during the Winter months is planned by the C.P.R. and will probably go into effect on Sunday, October 11th. Says the Vancouver News-Advertiser. At present a double daily service is maintained during the summer months only, but owing to the increased travel of the past year the officials of the company have decided to have the double daily train service in operation throughout the Winter.

The present service will be discontinued on Saturday, October 10th, and the following day the Winter time card will go into effect, according to present plans. Although the traffic department has not yet announced the new Winter time table, it is understood that trains will depart from here at 9 a.m. and 3.15 p.m, No 2 train leaving in the morning and No. 96 in the afternoon. Train No. 97 will probably arrive here at 1 o'clock p.m. and train No. 1 at 10 o'clock p.m. In the event of the latter train being a fixture on the new card it will enable passengers arriving from the Interior and Eastern points to make immediate connections with a steamer for Victoria and Seattle, the C. P. R. steamer Princess Victoria leaving here every night at 10 o'clock for Victoria and Seattle.

THE PUBLIC VOTE

Power & Light By-law Carried by Narrow Majority.

Polling for the by-law authorizing the borrowing of $10,000 on debentures for the purpose of completing the auxiliary power and light plant, took place on Monday with the result that the by-law was carried, although by a very narrow margin. As usual, when such questions are before the public in this manner, little or no interest is taken either way, and on Monday polling was slow and indifferent, on several occasions electors being reminded of their privilege of voting and not bothering to go to the booth. Voting on money by-laws should create more enthusiasm than it does in Revelstoke and very rarely is the real voice of the community heard. The results of the polling were:

For the by-law—54.
Against the by-law—28.
Spoiled ballots—0.
Ballots cast—82.

Taking a three-fifths vote of the whole number of ballots cast, the by-law only carried by four, which is an extremely narrow margin.

Revelstoke in Line

The following clipping from the Victoria Week will be especially pleasing to our readers and it is gratifying to know that the Revelstoke First Fair is receiving favorable comments on all sides.

"Revelstoke has lined up with the other cities of the Interior by instituting a Fall Fair. As might have been expected it differs in no respect from them, having just the same climate, soil, and natural resources. When it has been in the business as long as Nelson it will make pretty nearly as good a show. In addition to the exhibits, there were the usual amusements, sports and entertainments, including first class races. Everything passed off well, and there is no doubt that the popularity of the first Fair ever held in Revelstoke will bring much "kudos" to the city by the Rockies."

THE BUFFALO SHIPMENT

Corrals and Fences at Ravelli Not Ready for Herd

BANFF, Sept. 22.—Howard Douglas, inspector of the National parks, was to leave to-day for Ravelli to bring up the balance of the buffalo that the Canadian government secured, but the wing fence and corrals are not complete, and probably will not be until Oct. 1.

A special train of from 15 to 20 cars will be used, and it is expected that in the neighborhood of 250 buffalo will be secured.

The annual general meeting of the Ladies Auxiliary to the hospital will be held in the city hall on Tuesday, Sept. 29th, at 3:30 p.m. All interested in hospital work are particularly requested to attend. Election of officers will take place. td

Lace and tapestry curtains, curtain poles and fixtures. C. B. Hume & Co.

UNION LABEL

There is so much bad in the best of us,
And so much good in the worst of us,
That it hardly behooves any of us,
To talk about the rest of us.

WEDNESDAY, SEPT. 23, 1908

FOR HUMANITY'S SAKE

One of the most every day things in Revelstoke is the passing round of a subscription list, which, among some of the community has become a byword. Subscription lists are prepared for almost everything under the sun, frequently irrespective of any direct bearing the movement may have on the city and often quite unnecessary. The most deserving cases, unfortunately, seem to have no enthusiastic supporters at their backs, to work for them and endeavor to rouse a little interest in the people for their cause. One of these cases which the general public seem to forget and think little about, until such time when they may be glad to make use of it, is that of the hospital, which is the one institution in the city deserving of more pubic interest than is today meted out to it. It has been said that the hospital was being run by a clique or set, for their own ends, who would brook no interference from outsiders. Be that as it may, there is not one individual in Revelstoke who would dare stand up and point blank accuse his neighbor of graft, before the public. No! the kicking is usually done amongst a few disgruntled soreheads who must habitually have a grudge against somebody to make life worth living. The hospital is a public institution and the public can appoint whom they like to the directorate, if they take the necessary trouble to become eligible to have any say in its management. We understand that the donations this year of goods in kind have amounted practically to nothing and that the Revelstoke public have been far from generous. This is a sad state of affairs and hardly a thing to be termed creditable to Revelstoke. A hospital among all other things should appeal to the public and is an institution that; on humanitarian principles, can demand a share of public support. Too much thought has been given to the manner in which the hospital is "run" and not enough to the ways and means of running it! If the public would look to the practical side of hospital work and less to theoretical, far better results would accrue. The hospital deserves the support of Revelstoke as a whole, and we are glad see that the matron has instituted two days in each month for the reception of gifts of every description from the people. The last two days of September has been set apart for this work and Revelstoke is asked to give and give liberally where possible. to aid in the carrying on of what is only "for humanity's sake." Donations of any kind are acceptable and those who have a spark of feeling in their hearts at all will not be slow to respond.

COUNCIL VS. ELECTORS

Once more the voice of the people has been heard on a matter of public interest and it is passing strange how mild and weak that voice is under any ordinary circumstances. The Revelstoke people apparently never realize what their duty is in regard to questions that affect the city and the administration of its affairs. A great deal of fuss is made on the street corners and kicks are registered in private meetings or over a convivial glass, over matters that are being conducted not exactly in accordance with the views of those who think that they have been hardly used, but very rarely does the general public give a true voice to its opinion and take advantage of its privilege at the polling pooth when an appeal is made to the electors to decide important questions. Out of a possible 400 votes available only 82 were polled on Monday on a matter that in its entirety affects Revelstoke as a whole. It is inconceivable why the public will not interest itself more in civic matters, and if the electors are too indifferent to turn out and have their say through the ballot when they get the chance, it cannot be expected that their complaints will receive much attention at any time. If the people are not satisfied with the administration they receive, it is their duty to show it at the right moment. The passing of this by-law on Monday meant that so much more would be added to the public debt and this is a matter which concerns every ratepayer in the community. As it happened, the right thinking people were in the majority and choose the lesser of two evils that of further pledging the city's credit to the extent of $10,000 of which their children will have to pay their share instead of allowing the money to be taken out of the current revenue which would come infinitely harder on the present generation. A word to the wise—; we would advise the city council that the public generally would be better satisfied, if, when money bylaws are to be voted on, that a sum sufficient to cover with a reasonable margin over, the work for which the money is required be asked for and avoid the continual appeal to the ratepayers for small sums, which practice arouses suspicion of ill-conducted business and creates discontent.

CLEAN ELECTIONS

In a very short while the whole of Canada will be in the throes of elections and their accompanying disorder. If there is anything that the people want to-day, for they are getting more enlightened every year, and anything that they are entitled to have, it is a square deal. As Canadians, we boast that we are a free people and that we have a free and representative government. And the question comes to us these days when men are asking which party they shall vote for, what each party proposes, if successful, to do for the country and the people. We do not want to hear continually discussed, in terms more or less distasteful, the shortcomings and misdemeanors of the different parties, and what should have been, etc., but we want it to be told what these parties will do for the public benefit and how they will work for the country and the people. All the mud slinging and abuse in the world will not win an election and the public want something better than that. A clean, honest, discussion as to the merits of the respective platforms, will lead to the best results.

A SPLENDID RECORD

New Movement for Interior Cricket Clubs

Revelstoke is justly proud of its sports and sportsmen, nourishing as it does, capable and enthusiastic supporters of all branches of athletic games and outdoor sports. It takes pride as a town in its efforts to encourage this and claims as a cause of the excellence of its sportsmen, the loyal support of the business and civic community by monetary assistance and splendid ground accommodation. It is not bragging to say that in Revelstoke there is more provision made and to be made for healthful recreation and athletic pursuits than in any town of its size in the west; and that, also, a greater natural advantage perhaps, occurs here for such opportunity than in other places in this interior.

It is particulary fitting at this time, the closing of the season, to review the record of one of Revelstoke's best sporting clubs—the Revelstoke Cricket Club. It has played, altogether, so far, nine matches with other clubs from the outside and lost but one, viz., Vernon—which it has well made up for in twice defeating that very strong team. It has brought in over fifty visiting cricketers, and gone on tour, some fourteen strong, the length of the Okanagan Valley. It has a membership of 80, of which 72 are paid up, and of this 40 are playing members. It holds on lease the old recreation ground from the C P.Rly. Co.; and, with some paramount improvements, it has in that really picturesque plot, the making of one of the finest and nicest cricket grounds in the country.

With the object of promoting the still wider scope of its efforts (and we hope success.—ED) the Revelstoke Cricket Club are now moving in the direction of the formation of a B. C Interior Cricket League—a most laudable and sensible ida—which must do a good deal for the promotion of the noble game. The coast is too far and the expense too great, (if the clubs are not too strong) for the successful representation there of interior teams Much better that an annual tournament, moved or fixed in character, should be held somewhere nearer home and accessible to all exponents of the game in the B. C. hinterland.

The Revelstoke public will not be slow, should such a scheme mature in extending a warm welcome to the many clubs of the surrounding country to visit us here sometime and will, in accordance with the marked spirit it shows to all well conducted and successful sports clubs, assist by every possible means to make it a successful and enjoyable cricket-week. Further particulars announcing the successful formation of this League will be cordially welcomed by the public.

MINING INSTITUTE

British, European and Canadian Engineers Tour the West.

The large party of British and European mining experts who are touring Canada as guests of the Canadian Mining Institute, arrived in the city by special train on Sunday afternoon, and left the same evening on No. 97 for the coast. The personnel of this distinguished party is composed of about 40 of the most prominent and expert mining engineers from Great Britain, Europe and the East, and has been augmented all the way from Cobalt, Crow's Nest and Kootenay by mine managers and engineers. H. Mortimer Lamb, the secretary of the Canadian Mining Institute, stated that so far the tour had been eminently successful and that the party had been received with open arms at every point they stopped at. The visitors were much struck with what they had seen and were astounded at the mineral resources of this province, readily recognising its great possibilities and speaking in enthusiastic terms of B. C. as an excellent field for investment. Considerable surprise was experienced at the great amount of development already accomplished.

Bona Fide Settlers

Upwards of fifteen new settlers have taken up their residence within the last three months at Queen's Bay, on Kootenay lake, says the Victoria Week.

These are altogether Old Country settlers and people of substantial means, among them being a retired major of the British army and a member of the medical profession.

It is learned that Lord Aylmer has purchased a property at Queen's Bay, on Kootenay Lake, where he intends to settle in the near future. Lord Aylmer recently vacated the position of adjutant general of the Canadian militia with headquarters at Ottawa which he had occupied for a number of years; and it is his intention to spend the remainder of his years amid the mountains and lakes of British Columbia.

Barristers, Vancouver.
1tw, 4ws.

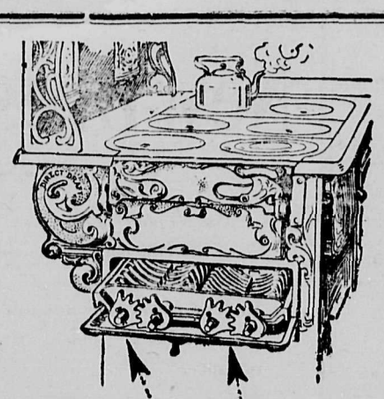
NOTICE

Sixty days after date I intend to apply to the Chief Commissioner of Lands and Works for permission to purchase the following described lands:

Beginning at a post planted at the south-east corner of Lot No. 8569 purchased by Julius Dougal, running west 20 chains; thence south 20 chains; thence east 20 chains; thence north 20 chains to point of commencement.

Dated June 24th, 1908.
EDWARD WOLF, Applicant.
jly 4 D. Dewar, Agent,

The oven does the baking, the fire-box controls the oven heat, and the grates hold the coal or wood that produces the heat, so THE GRATES are important.



Sask-alta Range

Double Duplex Grates

"Sask-alta" Double Duplex Grates are made in four pieces, each grate shaken separately. Ashes over one grate can be shaken without wasting good fuel over other grate. No poking necessary, thereby saving fuel. Dampers at both ends of fire-box secure perfect drafts. When grates are inverted for wood a patent clamp retains them in position. The easiest-working way is the surest-serving way — and that's "Sask-alta" way.

McKINNON & SUTHERLAND

Revelstoke, B. C.

NOTICE IS HEREBY GIVEN that the Municipal Council of the Corporation of the City of Revelstoke intends to undertake the construction of Boulevards on certain streets within the City of Revelstoke, to wit: McKenzie Avenue on both sides from the north side of Third Street to the north side of Eighth Street; and on both sides of Third Street, Fourth Street, Fifth Street and Sixth Street, from the east side of McKenzie Avenue to the west side of Vernon Avenue, and on both sides of Douglas Street from King west to C.P.R. right of way, according to specifications and estimates prepared by the City Engineer appointed for the purpose, and to assess the expense or cost thereof upon the land or real property abutting on the parts of such streets as above-mentioned and to be benefitted thereby; and that a statement showing the land or real property liable to pay the assessment therefor, and the names of the owners thereof, as far as they can be ascertained, together with the specifications and estimates of the City Engineer, and the proposed assessment and report thereon of the City Clerk are now on file in the office of the City Clerk and open for inspection by all persons during office hours.

The estimated cost of the work is $4429.04, to be borne by the owners of such properties as abut on the parts of such streets as above mentioned.

Any objection to the proposed undertaking and assessment therefor shall be made by petition to the City Council within FIFTEEN (15) days from the date hereof, the persons entitled to petition being the owners of the lands affected thereby.

BRUCE A. LAWSON,
City Clerk.

Dated this 16th day of September, 1908.

jly 4 W. I. BRIGGS.

C. P. R. STRIKE

Situation Along the Line Favorable to Men

Several strikebreakers at the coast quit this week and said they would not work under the conditions that existed at the shops and two spotters or special police also followed suit. Another gang of intended strikebreakers came in by boat from Seattle and the strikers complain that none of the men were examined by the immigration officers as to their financial condition, which was that they were not possessed of any money. Another man, who was hired in Chicago, left for Seattle this morning. He was brought to Vancouver without knowing there was a strike, but when he learned of the true position he refused to work for the C.P.R. and has made enough at his trade at Westminster to take him out of town.

They have received a report from Winnipeg that 25 Scotch mechanics who had arrived at Winnipeg would not go to work for the C.P.R. when they learned there was trouble.

The official circular from Montreal states:

"The men here turned out in full force in the parade and were cheered all along the fine Labor day. Marching four abreast the C.P.R. strikers covered upwards of a mile and were distinguished by printed cards in their hat. No one who saw the parade, and it is stated in the press that 100,000 people lined the streets, can entertain any doubts now on whether the men have returned to the shops or not. Labor day otherwise was quiet all along the line. At McAdam the boys marched up to the station with bands playing and the strikebreakers took to their heels, thinking as was afterwards discovered, that the strike was settled. They dug for their pens and it was some time before they could be induced to come out again. The bunch of men brought out from Glasgow are shut up in the Angus shops, excepting six who came out in spite of the threats of the specials.

"At Winnipeg, we are informed, a number of cases could be cited where the company have offered fabulous money to men whom they desired to remain in the service, all of which goes to show that the ordinary man will not scab if he can possibly avoid it and the fairly good mechanics can always avoid it.

"The situation in the west is rapidly assuming serious proportions from the public point of view and the company are so nearly stuck for power that they are using the passenger engines of branch line runs to haul wheat on Sundays, which naturally prevents any repairs on the engines and renders the passenger service that much more precarious.

"The officers of the different departments are fighting among themselves over the condition of the power, the train service officials complaining that they are unable to do business with the power handed over to them by the mechanical department."

Locally the situation remains much the same, although there are more men in the shops working than have been for some time, but from all reports the work turned out by them lacks all pretense at skill. Complaints by the trainmen of rolling stock being in dangerous condition are frequent

SPORTING NOTES

An interesting game of basket ball will take place tonight in the Y.M.C.A. between a picked senior team and a picked intermediate team, commencing at 8.30 p.m. The intermediate's line up consists of:—Carmichael, Doyle, McEachern, Burridge and B. Calder.

The following left last night for Kamloops to play that city at baseball this afternoon:—Scott, pitcher; McInerney, catcher; Eberley, 1st base; Dalgleish, 2nd base; Proulx, 3rd base; Calder, short stop; Hope, rightfield; Blackadar, centre field; Cochrane, left field; Palmer, spare. Mr. Alldritt, physical director, who accompanied the team will stay over to look after the track team, who do business there tomorrow.

The track team that go to Kamloops today for the Fair sports, are a strong line up. Palmer will try for honors in the 10 mile race, and Astle and Williamson will do the sprinting, while Hope and Cameron are strong in the ½ mile. Crowe is in fine fettle for the pole vault and high jump March will take care of the broad jump and Proulx the shot put. Taking it all round the Revelstoke representatives are good all round men and should make a fine showing. The relay team is composed of B. Williamson, E. Cameron, J. Watson and T. Hope.

The Y.M.C.A. gymnasium will open on the 1st of October and the boys are already looking forward to a good season of gymnastic work.

Carpet squares and rugs, choice colors and design. C. B. Hume & Co.

"THE EMPIRE"

VISIBLE TYPEWRITER

A Canadian Made Writing Machine

For ease of operation and perfection in the results produced the "EMPIRE" TYPEWRITER is unsurpassed.

The "EMPIRE" embodies no complicated movements, while its manifolding alignment, marginal facilities, automatic conveniences, durability, visible writing, minimum of noise in operation make it the typewriter par excellence.

The "EMPIRE" needs less care than any other machine because there are fewer parts to be cared for also due to the strong lines of simplicity that are part of the machine.

The C.P.R. began using the EMPIRE Typewriter in 1895, continued to add to the number, and now have in constant use more than 700 of these machines.

Weather Forecast

Wednesday, Sept 23rd.—Generally fair, cloudy, moderate winds, cold nights. Temp. Max. 62°, Min. 33°.

Local and General.

Victoria Falls to-night at Edison Parlor Theatre.

For first-class Dressmaking, come to Miss McDonald, at McLennan's.

R. H. Trueman, photographer, is in the city and will remain until the 28th.

The report of the Socialist meeting in the Opera House on Sunday, will appear in our Saturday's issue.

The baseball match between Kamloops and Revelstoke at Kamloops *today*, during the fair is the chief attraction there.

The Northern Crown Bank have arranged for a set of handsome counters, fittings, etc., which will be shortly installed in their premises.

There is a movement on foot to raise a syndicate next year to operate a number of motor drays and passenger cars in the city and district.

The team going to Armstrong for the Trap Shooting championship of B. C., tomorrow, have been putting in some good practice this week.

Senator Bostock was a visitor to the city on Sunday en route from Rossland where he attended the banquet to the mining engineer at Ducks.

H. G Hoppins, sale manager of the Arrow Lakes Lumber Co., Arrowhead, was brought up on Monday to the local hospital suffering with typhoid fever.

The Ladies' Guild of St. Peter's church are holding an afternoon tea tomorrow (Thursday) at the residence of Mrs. T. Sturdy, Third street. Silver coin admission.

To-night and to-morrow night the beautiful scene, Victoria Falls, Zambezi river, South Africa, the highest waterfalls in the world, will be seen at the Edison Parlor Theatre.

The four-legged chicken, which for some time has been an object of interest in the City Hall here, has gone on a tour of the provincial fairs, commencing at Vernon last week.

J. McPhail has purchased a fine military band organ, a self contained orchestra for the roller skating rink, from Winnipeg, which will arrive shortly Music will be rendered every night.

Isn't it about time that the flag, supplied by the provincial government to the local schools, should be flying? Does it take *all this time to secure* a flag pole? The effect of a flag flying above our well kept school grounds would be certainly pleasing.

H. Cunningham Morris, of the MAIL-HERALD, left this morning for Nelson to attend the annual convention of the Alberta and Eastern B. C. Press Association.

Come and see the Victoria Falls, South Africa, at the Edison Parlor Theatre to-night. On Friday and *Saturday the beautiful picture* "Christmas" will be shown.

A. J. McDonell, Alex. McRae, W. A. Sturdy and J. Guy Barber leave this evening for Armstrong to take part in the trap shooting contest for the championship of the Interior.

It is certainly pleasing to see that the choir of St. Peter's church has been remodelled and enlarged and it is the sincere hope of the congregation that the revival has come to stay.

R. Gordon, Government agent, made an inspection on Sunday u the Waverly Mine trail from Albert Canyon. The government have been clearing out the trail this year, and repairing all the bridges.

The matron of the hospital will receive donations of every kind, for hospital use, on Tuesday and Wednesday, Sept. 29 and 30. The public are reminded that any gift, no matter how *small, is acceptable.*

J. R. N. Cooke, who has been accountant at the Molsons Bank at Calgary for five years, has been transferred to the position of *accountant* at the Revelstoke branch and has entered upon his duties here.

Smith Curtis, the Liberal nominee *for Kootenay in the approaching elec*tions, will address a public meeting tonight at the Opera House. All parties are cordially invited to attend, and seats will be reserved for ladies.

The river picnic arranged by the St. Peter's church congregation on Saturday last on the s. s. Revelstoke, was not as well patronized as it should have been. *It is not often that the* Revelstoke people get a chance of having a river trip and Saturday was an ideal afternoon, cool and pleasant. Landing was made opposite Greenslide where the party made tea and rambled among the woods. Some on sporting *bent indulged in fishing, several fine* catches being the result. The return trip was made in the cool of the evening.

Tonight—Victoria Falls at Edison Parlor Theatre.

R. Tapping and his road gang have commenced work on the new proposed road from G. Laforme's and Dan McIntosh's ranches to the Columbia river. A large number of settlers have located in that vicinity lately.

Smith Curtis, Liberal nominee for Kootenay, passed through en route for Savana from the south on Sunday. He returned this morning and will address a public meeting in the Opera House tonight on the political issues of the day.

*J. Ashworth, president of the Man*chester Geological and Mining Society of Manchester, England, a prominent member of the visiting mining engineers who are touring Canada, conducted Divine service in the Methodist church on Sunday night.

The following report for the month of August, of the hospital work, has been handed in by the matron: Hospital days, 408; patients treated, 41; outdoor patients, 33; outdoor visits, 114; operations, 9. The matron will receive donations and gifts of any description for the hospital on Tuesday and Wednesday, Sept. 29th and 30th

A. M. Pinkham, who is leaving Revelstoke to take up his duties at the law office of Messrs. Harvey, McCarter & Pinkham, at Golden, was the recipient of a handsome gold watch and chain from his confreres on Monday night. The best wishes of all Revelstoke accompany Mr. Pinkham in his new field of usefulness.

All are cordially invited to the mass *meeting in Knox Church tomorrow*, Thursday, evening, at 8 o'clock. Rev T. Albert Moore will be present and will deliver an address on the practical work of the Lord's Day Alliance of Canada. A special invitation is extended to all members of labor organizations to be present.

His Lordship Bishop Dontenwill, head of the Roman Catholic diocese of New Westminster, has been appointed superior general of the Order of Obiates of Mary Immaculate. In Catholic circles the honor is regarded as a great one. The appointment is for life. It will necessitate establishing his permanent residence in Rome.

Hon. Wm. Templeman was chosen candidate for the Liberals at Victoria, on Monday.

A meeting of the W. C. T. U. will be held in the Baptist church on Friday, Sept 25th, at 3.30 p.m.

It is the intention of the city council to instal two more electric arc street lamps, one at the intersection of McKenzie avenue and 2nd street and the other at the intersection of 1st street and Campbell avenue.

J C Hutchison has installed a set of electric irons in the steam laundry. The new system has been found to be far superior in every way to the old, when the presence of coal stoves among the flimsy articles, was always a source of danger.

One of the latest and most promising publications in the Interior, is the Summerland Review, published at that thriving municipality by J.F. Watkins, *manager.* The *new journal* is a weekly and besides being neat and attractive in magazine form contains a full account of the doings of that locality. besides other newsy and interesting items. The Review should fill a long felt want in that section of the Okanagan and deserves the support of the people.
