## Sanitary Woolen Clothing

This is the Western Depot for Dr. Jarger's Sanitary System of Woolen Clothing.

We can put you on the same basis as the Eastern Cities with these celebrated specialties.

The highest grade of Underclothing for Children, Ladies and Men. Dressing Jackets, Dressing Gowns, Men's Fancy Vests, Ladies' Golfers, Children's Tam 'o Shanters, Gloves, Hosiery, Woolen Boots, Infants' Booties.

These goods are all catalogued at standard price—the same price here as in any other town in Canada.

See the Big Window Display on Mackenzie Avenue.

Ask at the Counter for Booklet.

## A Nice Line of Groceries

We carry the largest and best assorted stock of Groceries in the City. We can supply you fully with anything you may require in this Department.

DRESSMAKING AND MILLINERY—SECOND FLOOR.

**C. B. Hume & Co., Ltd**

Stores at Arrowhead and Revelstoke.

## THE PRESCRIPTION

which your doctor gives you must be filled exactly as he ordered it and of the very best medicines in every respect to make it remedy the illness for which he has prescribed it.

### OUR LARGE PRESCRIPTION TRADE

Considering that we have been doing business in Revelstoke only a few months is a result of CARE fully, ACCURATELY and CONSCIENTIOUSLY following the doctor's order and giving that branch of our business the personal attention of the proprietor. Remember Prescription work is our Specialty.

### Red Cross Drug Store

D. NAIRN, PHM. B.

## MALAKWA.

From our own correspondent.

Mr. L. E. Gosling held the last service of the season on Sunday 16th inst.

On Tuesday evening a social meeting was held at the school house to bid farewell to Mr. Gosling. Recitations were given by the children and Messrs. Gosling, Bossley and Hall rendered several songs very acceptably. A very enjoyable evening was spent—not the least acceptable being the refreshments provided by the ladies with their usual liberality.

Vegetable digging is in full swing, a number of Indians being employed in the work.

Unusually heavy rains have fallen during the past few days making outside work very tiresome.

There are no signs of telephone extension yet still we live in hope.

## THE LATEST TELEGRAMS

**Fernie Coal Miners Still on Strike—The Cuban Revolt.—Palma Will Resign.—Train Wreck at Macleod, Alta.**

FERNIE, Sept. 26.—The strike situation is unchanged. The union men are keeping fires and pumps going. So far the strike is confined to the Coal Creek mines. No disorder has occurred.

HAVANA, Sept. 26.—Secretary Taft in a letter to President Palma says the majority of people seem to favor the revolutionists and suggests that he sacrifice himself once more for the benefit of the republic by not retaining the presidency, but by obtaining the resignations of officials and congressmen. When these are obtained the rebels will lay down their arms.

All members of the cabinet and heads of departments have presented their resignations to Palma and the latter contemplates himself offering his resignation to the Congress.

WASHINGTON, Sept. 26.—All arrangements have been made for the speedy transport of American troops to Cuba in case Taft's negotiations for peace fail.

MACLEOD, Alta., Sept. 26.—A bad wreck occurred at the junction last night. A freight train dashed into an open switch. Engineer Fairley was crushed to death beneath the engine. Six coal cars were wrecked.

GRAND FORKS, Sept. 26.—A freight train was wrecked near Marcus, Wash., last night, considerably delaying traffic. The wreck is quite serious and considerable freight and several cars being damaged. Nobody was hurt.

## JUSTICE DUFF'S PROMOTION

**To Canada's Supreme Court Has Been Accepted.**

VICTORIA, Sept. 26.—Mr. Justice Duff, who, since February, 1904, has been a member of the Supreme Court bench of British Columbia, has accepted the vacancy on the Supreme Court bench of Canada. He will leave Victoria for Ottawa in order to be sworn in in time to be present at the sitting of the Court on October 2.

## AHEAD OF TIME

**Over Seas Mail Had Margin of Over Four Hours.**

MONTREAL, Sept. 24.—The C. P. R. Empress of China arrived at Hong Kong at 9 a. m., yesterday, delivering the mails in 29 days, 7 hours and 35 minutes, or 4 hour and 25 minutes within the time allowed by the Post-office. This successful inauguration of the fast mail service between Liverpool and Hong Kong under the flag of the Canadian Pacific Railway Co. is particularly gratifying, the entire half-circuit of the globe having been made without a hitch or without interfering with the ordinary routine work of the road. The Oriental mails left Liverpool Friday, Aug. 24th, at 7 p. m. on the Empress of Ireland, which reached Quebec at 2:10 a. m. on the following Friday, were carried across the North American continent on the Overseas Mail train, which arrived at Vancouver sharp on time, 6 a. m. Tuesday, Sept. 4, whose arrival at her destination nearly four and a half hours ahead of time has been cabled here. This distance covered is nearly 13,000 miles.

His Honor the Lieut.-Governor-in-Council has been pleased to make the following appointments:

Sept. 12th, 1906.—Hugh Smythe, of Revelstoke, Esq., to be a Fence Viewer within and for the Revelstoke Electoral District.

Sept. 19th, 1906.—H. G. Gough and Harry Siegfried, of Revelstoke, to be commissioners for taking affidavits in the Supreme Court for the Revelstoke Electoral District.

## STRIKE IN CENTRE STAR

**Discovery of a Rich Ledge Has a Sensation in Mining Circles—The Ledge is 40 Feet.**

ROSSLAND, Sept. 24.—The new ore shoot on the 1000 foot level of the Centre Star is the talk of the town. It is 40 feet in width and assays \$48 to the ton. It is believed by some that the second enrichment of the ore, similar to that found in the deep levels of the mines of Butte has been found here. The members of the Canadian Society of Civil Engineers who were here yesterday were shown the big ore shoot and were amazed at its width and extent. It is probably the most important shoot of ore that has ever been uncovered in the Centre Star, and will yield a good many dividends for the stockholders of the Consolidated Mining Co. There is considerable probability of a move which will include the Giant, California and Novelty, three very promising properties on Red Mountain, which are now lying idle. People close to the Great Northern are said to be engineering the deal.

## TRADES CONGRESS

**Many Resolutions Passed.**

VICTORIA, Sept. 26.—At the sitting of the Trades Congress recently resolutions were submitted favoring the establishment of technical schools throughout Canada. Other resolutions were: That the extension of armament cease and the present military forces disband, and international arbitration be substituted. That they deplore the action of the government in promoting corrupt practices in service and that Preston be dismissed from service and prosecuted for delinquencies while in office. That eight hours a day be sufficient for all Government ship building. Several resolutions were passed regarding the Chinese head tax, one asking to have it raised to one thousand dollars, while another wanted to exclude it entirely. Regarding the formation of a labor party for politics, a resolution was passed that while the congress affirm the individual right of the wage earners of Canada to organize themselves either as socialists or independent laborites separate from the Congress, that it will be for the best interest of wage earners if they will voluntarily sever their connections with all parties and organize in the interest of proletarian class. The congress favors free school books printed in the Government offices for British Columbia. An invitation was received from Mayor Sharpe, of Winnipeg, for the annual convention of 1907, to be held in that city.

## THE CONVICT'S DAUGHTER

Last night's performance was a refreshing change after the recent so-called entertainments that have been produced at the opera house. The Convict's Daughter, presented by E. R. Salter, is so distinctly melodramatic and as such must be criticized. Melo-drama, as we all know, is sensational, gilded with a touch of pathos and humor, and the whole theme of last night's story was well carried out on these lines, the acting in most cases being good. Walter Christy in the role of villain, was perhaps the leading character and he sustained his part in a manner which would have done credit to his Satanic majesty himself. The hero, G. T. Elmore, was excellent as the tramp, and a lesson might be learned of every day life, that rage do not always denote the scamp. This part was distinctly good, and the actor carried out the role, which was a difficult one to portray, there being so many changes in the expression and demeanor with perfection. The whole cast was well chosen and worked together in a manner that kept the piece going smoothly.

Nothing better than our "Special."

## BUTTER

As with all other goods, we try to handle nothing but the best, and judging by the quantity we sell it is evident that people are aware of this fact. Butter will be much higher in price later on and you will save money by buying one or more boxes at present.

## SIGNS OF THE TIMES

### Richly Dowered Kootenay— Revelstoke the Administrative Centre of Fabulous Treasures.

There is no district in Canada, not even in the "wild woolly west," which presents a greater contrast today compared with only a few years ago than the West Kootenay. It is of great interest, that in all of the geological series which are represented as containing a reliable description of the mineral resources on this district, are veins or mineral deposits, especially of silver and silver-lead ores, and no longer are the prospectors limiting their researches to special formations or parts of these districts, but energetic prospecting is being done with successful results all over this part of West Kootenay. For a long time these men refused to enter the granite areas, until finally the discovery by some less skeptical of the silver-lead, and the gold and silver or "dry ore" veins on the water sheds of Springer and Lemon creeks, east of the Slocan Lake, and the success of the Poorman gold mine near Nelson, led to a rush of men into the granite regions with gratifying results. There is no reason why mineral should not be found in all of these formations here present, or in any part of this region, unless it has happened that the conditions have prevailed by which the mineral bearing solutions have not had openings or fractures, along which to ascend and deposit their burden of precious ores, either by filling up pre-existing cavities or by reaching into or impregnating the country rock with valuable minerals or ore on both sides of the channel or crevice. The finding of rich veins of ore in either of the series such as silver-galena ore, points strongly to the fact that as depth is obtained in mining, the continuity of the pay shutes is assured, the veins may be "in and out" as the miner's term it, or have perfectly barren parts along the fissure, but more or less work will disclose other ore shutes if this work is pushed ahead along this fracture in the rock, which has permitted the passage of ore bearing solutions and the formation of ore bodies along it elsewhere. Since the commencement of mining in this district, the construction of new means of ingress and transportation has quickly followed the discovery of ore bearing districts and the great material advantage of fine waterways have been utilized in gaining access to the many points where mining is now begun.

West Kootenay is singularly favored by reason of, (a) the Columbia River and Arrow Lakes. (b) The Slocan Lake. (c) Kootenay Lake and its arms, and of the comparatively easy passes for railway from one to another. Otherwise this very rugged and mountainous country would have presented great difficulties that would have retarded for a much longer time prospecting and mining, but now, however, none of the mines are any great distance from these highways, and reader access is being gained by the building of trails and wagon roads. On all the waterways steamboats are now running and every endeavor is being made to assist the prospectors, miners, etc., by willingly stopping at any point where signalled or requested to land or take on board men, pack animals, supplies, ores, etc., and this accommodation is simply invaluable. On the swift waters of the Columbia River the very clever navigation exhibited here is admired by all travellers, as great skill is required and steady nerve are called for at several points along this river, especially in the season of low water, when these boats have to contend with, in going up stream, a powerful current which, in the late autumn and winter seasons compels, in many cases, the use of steel haulers fastened to the bank or rocks and the steam capstan. From the foregoing it will be readily seen to what extent nature, aided by the enterprise of combined labor and capital, has rendered available wealth which exists in lavish profusion. The conditions which exist, and as they will be improved by continued development, suggest an era of extraordinary activity within the area affected. The concentration of energy and capital in their various forms, it is needless to say, will attract a large population and create important urban centres.

As a field, therefore, for exploitation for some years to come, it and the province as a whole will naturally afford opportunities which will be unequalled in any other part of the world. Revelstoke is the centre or hub of a large and rich mining territory, including the somewhat distinctly separated Big Bend country, and work that was done years ago has, and will be forever showing itself. For the last few years much capital and labor has been expended on the devel-

EVA STAMP MILL, CAMBORNE.

opment of the mineral resources of this district and the result has been almost beyond the most sanguine hopes. High prices have been attained for all metals during the last few years, and in cases of lead the price is in excess of the maximum for which the Dominion government bonus is required. Silver is over the 60 cent mark and the prospect of present prices being maintained is good. In the development of the Big Bend more interest has been centred than in any other section, and particularly in the

Carnes Creek and McCullough Creek are also valuable properties, on the latter the Revelstoke & McCullough Creek Hydraulic company having taken out large quantities of gold. There is a splendid field in the Big Bend for the prospector, the mineral indications for copper, gold and silver-lead ores, being excellent. The Seymour River, just west of the Smith Creek divide, is a region where good indications of silver-lead ore are to be found, the veins which have been dis-

covered being traced for over 10 miles, and from six to ten twenty feet wide. At the east fork of Carnes Creek is situated the J. & L. group, which consist of five claims, this property being very valuable in as much as the possibilities are even greater than the present workings show. Fish Creek is unquestionably one of the richest mineral camps in the province, and very soon capitalists will be falling over each other to obtain investments in this section. Good, steady development is being done with

OYSTER-CRITERIAN STAMP MILL, CAMBORNE.

work of the Prince Mining & Development company on the Standard mine. The property is exceedingly rich and improves in quality with depth. The width of ore averages seven feet in the upper tunnel. The company's claims number over 18 and the leads are exceptionally rich; they are within six miles of the Columbia River, and plenty of water power and timber is available. The business of this company is conducted in a clean and straight forward manner.

splendid results. The Eva is the "pioneer" of that section, being a free gold property. The development has been most persistently carried on and systematic work has been done for many years. About 16,000 tons of ore are put through the mill annually and gold bricks are being turned out averaging \$9,000 a month. The stamp mill and machinery are of the latest and most modern type. The Beatrice is the next mine in importance, development work being extensively carried

UPPER WORKINGS, BEATRICE MINE.

on, workings have put through to a depth of over 600 feet. The Silver Dollar property is another very promising section. A saw mill, power plant and duplex compressor have been installed, besides an aerial tramway 8,000 feet in length. These are the principal and richest mines which have Revelstoke as a managing centre and their management is admirably carried out to the advancement of the value of the property and the satisfaction of all who are interested in them. Thus to summarize the mining industry briefly; the position of the industry in the districts both near and far has never been better and the outlook is brilliant.

The Le Roi is paying its dividends regularly and has distributed over \$2,000,000 among its shareholders. The St. Eugene, Slocan Star, Lucky Jim and others pay big dividends. The Granby mines are now steady dividend payers. On Fish Creek the Eva is being profitably operated. There is probably no mineral country making a better showing today, considering its age and development, than Kootenay. And is not our own fair city the centre of this? Does not capital collect here, the great distributing centre? No writer can confidently predict the growth and expansion that awaits this glorious country. The natural resources are boundless and as they are opened out the prosperity that will follow will be limited only by the demand that will inevitably result. The opening of the Kootenay to settlement has imparted an impetus to the trade and development of our city of Revelstoke. Our mild and equable climate attracts and holds the settler who comes to us to search for a location for a homestead, where all the facilities and advantages of older communities may be enjoyed without the disadvantages that come from a winter that lasts seven months in each year. The mining industry has received a great fillip in the interior of late by the erection of smelters at accessible points.

The entrance of the Guggenheims, the world's greatest smelter men into the province, means much for the future of the industry. Acre for acre there is not another district on the face of the globe so rich in all the resources that go to make a people wealthy and powerful as this. The older provinces may not be mentioned in the same breath with British Columbia. Their resources being limited and their climate rigorous, their growth will be slow; while the Pacific province and again this West Kootenay in particular, which can provide homes and employment, and profitable fields of investment for a population of millions, is progressing with a rapidity that surprises even the most ardent prophets of its brilliant future.

### Lady's \$25.<sup>00</sup> Watch SOLID GOLD

Dated this 10th day of September, 1906.

G. H. PLAYLE,  
M. B. McQuarrie, Agent.

**POLITICAL  
LABOR PARTY**

Effort to Tie Canadian Unionism to Socialist Car Successfully Combated by Trades Congress.

VICTORIA, B. C., Sept. 24.—At the final sessions of the Trades and Labor Congress of Canada a new political party in the Dominion was born, while after an interesting and not insignificant struggle efforts to tie Canadian unionism to the socialist car were successfully combatted. Winnipeg was chosen as the scene of the next great annual convention, and the old officers were re-elected, herein again being read disappointment to socialist hopes, as members of Comrade Hawthornthwaite's family had somewhat expected that Mr. Simpson of Toronto, their especial champion, would succeed Mr. Alphonse Verville, M.P., in the place of high honor.

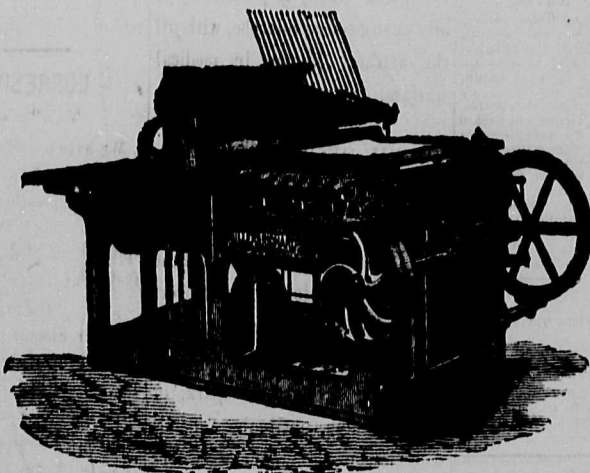

The crowning work of this year's convention of congress—the decision to break away from old individual affiliation—was upon the initiative of Delegate Draper of Ottawa typographical union, "to proceed forthwith with the establishment and development of a Canadian labor party," independent of either of the old-line political parties and equally independent of socialist tenets and control. Candidates for parliament as labor champions under the adopted constitution must have been affiliated with a labor organization for one year, must be the nominees of such organizations, and must be accepted by the general committee of the labor party. Political labor clubs are ordered formed in each electoral division, and party affairs are vested in a central general committee, the formation of which is provided for. The important planks in the accepted platform include:

1. Free compulsory education.
2. A legal eight-hour day, six days to a week.
3. Government inspection of all industries.
4. Abolition of the contract system on all public works.
5. A minimum living wage, based on local conditions.
6. Public ownership of all franchises, such as railways, telegraphs, waterworks, etc.
7. Taxation reform, lessening the impost on industries and increasing the burden on land values.
8. Abolition of the Dominion senate.
9. Chinese exclusion.
10. Union label on all manufactures and all government and municipal supplies.
11. Abolition of child and female labor in mines, workshops, factories, etc.
12. Abolition of property qualifications for public office.
13. Voluntary arbitration of labor disputes.
14. Proportional representation with grouped constituencies and abolition of municipal wards.
15. Direct legislation through the initiative and referendum.
16. Prohibition of prison labor in competition with free labor.

From the Quebec platform are adopted these planks:

1. State insurance for old age and sickness.
2. Prohibition of competitive prison labor.
3. Suppression of all private banking and the establishment of national banks.
4. Complete press liberty in the discussion of public affairs.
5. An elective judiciary.
6. The suppression of usurious interest.
7. The creation of a labor ministry.
8. Senate abolition.
9. The suppression of the harbor commission.
10. Immigration regulation.
11. General elections at a regular date, every four years, without regard to intervening elections.
12. All public land to be declared inalienable and reservations of all grants to individuals or corporations to be declared contrary to law.

In order to thoroughly test the feeling of the congress, Delegate Dutton moved, in amendment to the motion for the adoption of Mr. Draper's motion and the committee report here outlined, the substitution that "this congress endorse the platform of the socialist party of Canada," the hottest kind of debate following, with prospect at one time of a socialist triumph, although the amendment was ultimately defeated and the decision for an independent labor party affirmed.

## TO PREVENT CRIMINALITY

### Police of the Interior Form Association for Prevention of Crime.

The chiefs of police of the various towns in the interior met last week in consultation at Nelson, and as a consequence an association for the detection and prevention of crime was formed under the style of the "Police Association of the Interior of British Columbia. It was unanimously resolved to form an association and this was done with the following officers: Honorary president, F. S. Hussey, Victoria; superintendent of provincial police; president, W. R. Jarvis, Nelson; vice-president, M. McKenzie, Greenwood; sec.-treas. T. H. Long, Rossland. Members of the executive committee, T. Bain, Revelstoke; J. Barron, Cranbrook; W. J. Devitt, Trail.

## PAY REWARDS

### For Capture of Train Robbers.

Announcement has been made by Mr. R. Marpole, general superintendent of the C.P.R., that within a few days the reward of \$11,500 for the capture of the train robber, Bill Miner, and his gang offered by the Railway Company and the Dominion Government, will have been paid. The matter has been under consideration at Ottawa for some time, and until the Dominion Government had settled the matter the other two rewards were not paid. News from Ottawa states that the Hon. Wm. Templeman says that the \$5,000 reward offered by the Federal government is available. The reward will accordingly be distributed by a committee composed of Mr. J. E. McMullen, C.P.R. solicitor; Mr. Greenshields, on behalf of the Federal government, and Superintendent Hussey, on behalf of the Provincial government. The last named is paying \$1500 and the C.P.R. gives \$5,000.

## DISASTROUS FIRE.

### Serious Loss of Timber.

OTTAWA, Sept. 23.—A fire broke out in the lumber piles in Richie Bros. yard at Aylmer, early yesterday morning and destroyed four and a half million feet of lumber and the Presbyterian Manse. The loss is \$85,000 on lumber, with \$35,000 insurance, and \$3,000 on the manse, with \$1,200 insurance. The fire broke out in the centre of the piles about 2 a.m., but whether accidental or intentional in its origin is not known. Everything being as dry as tinder it burned furiously and everything was swept clear. The Hull brigade sent assistance and six good streams were kept playing on the fire, but lumber pile flames create a tremendous draught in themselves, and by five o'clock the piling grounds were bare.

There was no means of saving the manse it not being near the water.

The Hotel Victoria, the pretty summer resort hostelry, was in great danger, but by hard work was saved.

The lumber loss is borne by Richie Bros. and the estate of the late R. Hurdman.

## LOGGING INDUSTRY.

### Many New Camps Will Open Next Year to Feed Mills.

The present year has been an exceptionally good one in the lumbering business in this district. The local mills have been inundated several times in the past few months with orders which they could hardly attend to, and the increased demands made on the mills have frequently almost overwhelmed them. As a result the demand for loggers has been and will be very great from now on, and next year British Columbia, with the Revelstoke district in particular, will see an influx of woodsmen from many parts of the world. The lack of experienced loggers was never more pronounced than it has been this year, and the local mills have been inundated with orders which they could scarcely at all fulfill owing to lack of labor and material.

The invasion of the knights of the axe and saw, on the vast forests of this district, will have begun in earnest next year.

## SPORTS

### LACROSSE.

The lacrosse match between Revelstoke and Nelson, played at Nelson on Thursday last, resulted in a magnificent win for our boys, who put up a splendid game from beginning to end, and had the best of it all the way through, winning by 8 goals, the scores being Revelstoke 11, Nelson 3. The scoring was done principally in the second and last quarters. During the first quarter the play was very fairly equal, but throughout the balance of the game Revelstoke outplayed the Nelson team at every point. Our boys played a splendid combination game, passing easily and quickly, while the Nelson boys played up and down the centre of the field and did a great amount of unnecessary running tiring themselves out. Good, steady and well judged play characterized the play of the Revelstoke team, who put up as correct, fast and magnificent a game as has ever been played in the interior.

In the first quarter no scoring was done and the teams played on equal terms. In less than a minute after play started in the second quarter, Bryson scored a well engineered goal, and half a minute later Perrier scored for Nelson. From the face-off the ball travelled towards Nelson's goal, and after some pretty combination work Bryson scored again. Hillier scored on a pass from Bryson and in the last four minutes Kerfoote scored twice. The game then standing, Revelstoke 5, Nelson 1. The third quarter was a long, hard fight for the Nelson boys who could barely stand up before the combined onslaught of quick and useful passing, and the impetuous rush of their opponents. Spring was successful in making a neat bit of work adding another goal to Revelstoke's credit just before the third quarter ended.

For the last quarter our boys had it mostly their own way, their effective combination play completely outwitting the Nelson team and scoring five times in quick succession Woodland getting 3, Bryson 2, while Nelson managed to get between the poles twice, leaving the total score for Revelstoke 11 Nelson 3. The whole game was a fine specimen of lacrosse and in winning, Revelstoke can safely claim to be champions of the Kootenays.

The line up was as follows:

REVELSTOKE	GOAL	NELSON
Dickey	Goal	Davison
McCorvie	Point	A. Jeffs
Dunne	Cover	C. Jeffs
Jamieson	Defence Field	
Edwards		F. Bell
Spring		B. Davison
Knight	Centre	
Barber	Home Field	Bishop
Hillier		A. Bell
Kerfoote		Steed
Woodland	Outside Home	Perrier
Bryson	Inside Home	Manhar

### CRICKET.

An interesting match was played on the old recreation ground last Saturday afternoon between eleven captained by Messrs. Gale and Goble, resulting in a win for the latter by 8 runs. For the victors Brias 42 and Feeney 23 were top scorers, and Goring, Brias and Jennions the most deadly trundlers; and for the losers Gale 31, Entwistle 16, Arman 15, and Maley 14 were the run getters, while the same four were the bowlers. The total scores were:—Goble's team 106; Gale's team 98.

During the winter months an effort will be made to bring all cricketers in the city together and arrange matches with neighboring town elevens next season.

CHIEF YOUNG, - Proprietor.

EXTRA-PROVINCIAL COMPANY.

No. 283.

CERTIFICATE OF THE REGISTRATION OF AN EXTRA-PROVINCIAL COMPANY.

"COMPANIES' ACT, 1897."

I HEREBY CERTIFY that the "Smith Creek Mining and Development Company" has this day been registered as an Extra-Provincial Company under the "Companies' Act, 1897," to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situated at Phoenix, in the Territory of Arizona.

The amount of the capital of the Company is five hundred thousand dollars, divided into five hundred thousand shares of one dollar each.

The head office of the Company in this Province is situated on First Street, Revelstoke, and John Manning Scott, barrister-at-law, whose address is the same, is the attorney for the Company (not empowered to issue and transfer stock).

The time of the existence of the Company is twenty-five years from the 10th day of July, 1900.

The Company is limited.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 10th day of September, one thousand nine hundred and six.

S. Y. WOOTTON,  
Registrar of Joint Stock Companies.

The objects for which the Company has been established and registered are:—

To operate and carry on the business of placer and quartz gold mining in the Province of British Columbia, Canada and elsewhere; to transport goods and merchandise by vessels or otherwise; to purchase and hold timber lands and engage in the manufacture and sale of lumber; to own and conduct stores and trading posts, and generally to have the right of engaging in any and all kinds of business that a natural person might or could in the United States or any part of the world.

No. 1 was delayed 4 hours at Field this morning owing to one truck of the colonist car having jumped the rails while switching.

The sleight of hand entertainment on Saturday night proved a fizzle, and people might have kept their money for something better.

The C. P. R. is putting some new baggage cars in service. The baggage men are well satisfied with them, except in one essential feature—there are no bunks in them.

At a meeting of the Ladies' Hospital Guild yesterday afternoon, it was decided to hold the annual hospital ball at the Opera House on Wednesday, November 14th.

The Bombay Times states that a statistical paper in India, just issued, shows that in 1905 there were killed in India by snakes and wild beasts 24,034 persons; 21,880 by snake bites, 796 by tigers, 399 by leopards, and the rest by other animals. The number of cattle killed is given as 98,582.

## PURE

Pure is a good word.  
It sounds well.  
Hence it is abused.

But it remains a good word, because some things remain pure. As, for example, our drugs. They are never impure—because we handle only tested and proven PURE DRUGS.

Mail Orders Receive Prompt Attention.

## The Preserving Season

As the preserving season is now here we invite you to call and inspect our fruits, including Peaches, Pears, Plums, Crabs, always in stock.  
Fruit Jars, all sizes.

**HOBSON & BELL,**  
GROCERS, BAKERS AND CONFECTIONERS

British Columbia mills cut 473,713,986 feet of lumber during the last year. This would build a three foot sidewalk round the earth. The production for 1906 will be 750,000,000 feet.

Mrs. W. C. Alder left on Tuesday by way of Nelson for Denver, Col., to represent the local branch at the Ladies' Auxiliary Convention of the B. of R. T. to be held in that city on October 1st.

In the Vancouver World's great dot counting competition, Miss E. Muriel Buck of this city, has been successful in gaining third prize out of 3,776 competitors. The prize is a \$100 Columbia Gramophone.

The gymnasium classes at the Y.M. C. A. have proved very popular and the attendance has been good. The classes now under weigh will continue there being 6 a week, two senior, two intermediate and two junior.

The singing of Miss Cameron, of Detroit, in St. Andrew's church on Sunday evening, was much appreciated by the large congregation present. Her manner of singing is very marked and her voice is full of expression and feeling.

The last few days have been wet and cold, a most significant fore runner of the approach of winter. Today the snow on the mountain summits is thicker and further down, and will, in all probability stay there for the rest of the summer. During a thunderstorm on Monday afternoon, the electricians received severe shocks, while engaged in fixing wires on the city poles caused by induction.

The following verdict has been rendered by the jury in connection with the recent train wreck near Medicine Hat. "We find that W. G. Oliver came to his death as a result of a head-on collision between trains 1401 and 1300 running between Medicine Hat and Dunmore Junction. This collision was caused by the withholding of order 289 from Conductor Kenny of 1300 by Operator Carder at Dunmore Junction. We consider the C. P. R. were guilty of neglect in not having a night agent at this point and thus leave its operator free to attend to his duties as train despatcher, and in view of the fact that 30 trains pass this point in every 24 hours we would recommend that a night agent should be placed there at once."

The editor has received some splendid specimens of apples grown on his ranch at Shuswap Lake, Notch Hill. The property, which has a mile of water frontage, is in first class condition and is operated by the Morris Bros. with success.

The final evidence in the inquest over the victims of the Azilda disaster was held last Tuesday night. After a deliberation of over two hours the jury brought in the following verdict: "That Thomas Puddicombe and others came to their death near the east switch at Azilda station on the C. P. R. by train No. 1 going west and train No. 2 going east, colliding as that point; that the collision was due to a defective air brake service on No. 2 train, the defect being a closed angle cock on the rear end of the mail car. We find that the train crew took the usual precautions in handling their train."

## Social and Personal

C. F. Lindmark left for the coast on Monday to attend the Forestry Convention.

A. A. Sanderson, managing director of the Fit Reform Company, is spending a few days in town.

Mr. Gates has left for Trout Lake City to take Mr. Herdman's place in the Imperial Bank there.

Rand Gibbons has left Arrowhead and will take up his residence in Revelstoke. He will manage the Pingston Creek properties.

H. J. Parham and Miss Esther Parham, who have been spending a few days with Mr. and Mrs. T. E. L. Taylor, have left for Battleford, Sask. Miss Parham sails next week for England, completing a trip around the world.

We have a good chance for the boys of the town to make money by selling the MAIL-HERALD each Wednesday and Saturday on commission. Call at the office for particulars.

## COLD STORAGE.

## New Methods of Handling Fruit Necessary.

That cold storage facilities for our apples are urgently in demand, may be seen at some country points where apples barreled up one day, have to wait for several days at the station or in the orchard, before being shipped. The wait of a few days, in the hot dry sun, works all the difference between success and failure with markets. Dealers are not the only losers. A poor sample of apples discounts Canadian fruit in the old country markets. It is a very poor advertisement for Canadian goods. Railroad companies are somewhat to blame in not furnishing cars at shorter notice, and the dealers are to be censured, who neglect to order refrigerator cars, and secure the Dominion Government bonus of icing privileges. In some country points we have seen apples being shipped in hog and cattle cars, landed by the railways at stations in a most unfit condition. How long will the fruit growers and farmers pay bonuses and subsidies to roads which quietly give them the go by?

## NOTCH HILL

From our own Correspondent.

The fruit season is particularly promising this year, nearly every bearing tree in the district being over-loaded.

W. Smith & Sons are erecting a very handsome store near their old premises and when completed will be as fine a structure as any in the interior.

Game is very plentiful now. Some fine bags being made both in feathered and big game.

Mr. Sims has organized a good movement to form a Rifle Association which, if carried through, will be a great acquisition to the settlement.

Funds have been subscribed for a public hall to be built on Mr. Barnard's land. The town has been in great need of a recreation hall and it is to the credit of the Lake settlement that this has been brought about.

Skilled and Common labor can obtain employment at all times in saw-mills and woods by applying to this office. Highest wages paid. Mountain Lumber Manufacturers' Association. Nelson, B. C. Geo. P. Wells, Secretary.

LOST—Gold Watch, between lower and upper Revelstoke. Finder return to Hotel Revelstoke and receive reward.

## We Will Make Good Every Word of Our Ad.

A quiet investigation into the extravagant statements and bubble advertisements that are thrown broadcast to the public, sooner or later, results in the finding out the difference between

## FACT AND FICTION

The former we deal with—the latter we don't. Our Clothing, Our Prices and Our Statements always match our ads. It's a fact, when we say we have the Best Clothing in town for men and boys we wear. It's a fact, when we say we have the best Hats and all sorts of Toggery for men and boys. It's a fact when we say our Prices are the lowest that can be named on our qualities.

Come in and let us "make good" our statements.
