

AMERICAN TO LEAD BRIGADE

No Commissions to Men Under Twenty Five Years of Age—Officers Americans

With the arrival in Vancouver of Lieut.-Col. W. M. Sage, the commanding officer of the 211th Overseas Battalion, from Calgary, active recruiting for the American battalion, half of which will be raised in British Columbia, has been begun. Col. Sage and his principal staff officers are now in Vancouver and will during the next few days put through the necessary organization work and get the camping site at Hastings Park put in shape for the men.

The American Brigade, it has been learned, will be commanded by an American general, now retired.

Staff appointments made up to the present are announced as follows:

Officer commanding—Lieut.-Col. W. M. Sage, from senior major of the 137th Battalion, Calgary. Col. Sage was previously with the 103rd Rifles of Calgary, and before that in the Seventh Regiment, National Guard of New York. For some time he was city engineer at Calgary.

Senior field officer—Major T. M. P. Potts, from 37th American Battalion. Major Potts is a graduate of Annapolis Naval Academy. He served two years in the Officers' Training Corps at Bradfield College, England. Afterwards he was five years with the United States Marines, two years of which period were in active service in the Philippines. After the campaign in the Island Lieut. Potts came to Canada and joined the 10th Royal Grenadiers of Toronto. He was appointed to the headquarters staff of the Second Division, and when it was decided to organize an American battalion he was attached as chief recruiting officer to the 211th Battalion.

Junior Field Officer—In all probability it is stated, Capt. Laurence E. Clark will fill this post. Capt. Clark has been with the 95th overseas battalion in Toronto. Before that he served with the 13th Regiment of Hamilton. Capt. Potts is a graduate of the Ecole Militaire of Geneva, Switzerland. He held a commission for some time in the National Guard of New York.

Further staff appointments have not yet been made, but two other officers have been appointed to the battalion. They are Lieut. E. Yale Smith and Lieut. A. V. Wilmot, latter a brother of Lieut. Wilmot, one of the officers of the 29th battalion who figured in one of the most gallant exploits of the war. Lieut. Smith is a graduate of Williams College, Massachusetts, and was for four years in the Seventh Regiment, National Guards of New York. He was more recently with the 55th Light Horse of Calgary and qualified for a lieutenancy last summer through the 6th Regiment. He was clerk of Supreme Court Chambers for Alberta. Lieut. Wilmot was associated with the Bank of Commerce in Vancouver for seven years. For a period of several years he resided in the United States.

Major C. S. Bullock, chaplain of the American Battalion, will remain in the city until Sunday, when he will journey east to get recruiting started for the 213rd battalion, which will be recruited from the territory between the Great Lakes and the Atlantic Ocean.

This battalion will make the fourth unit which will go to compose the American brigade, which it was announced today would be commanded by a well-known retired United States general. His name could not be given at the present time.

"We shall adhere to the 'pal' idea in the American brigade," said Major Bullock. "Men who join together will be kept together. They will eat together and bunk together. This plan will be carried out still further so that men of the same fraternal orders or the same associations will have every opportunity afforded them to get together. Masons will have a chance to associate with Masons, Oddfellows with Oddfellows and Catholics with Catholics. We shall all be one big family, but we shall be divided up into as many little social groups as may be desired. Each regiment will have a chaplain, and I intend to have a Roman Catholic appointed to one battalion; so each man's religious, social and fraternal associations will not be broken off but kept up. This idea I tried out in the Spanish-American war and found it wholly successful. There were no dissensions of any kind and the general agreement of the men was splendid."

L.O.M. ELECT OFFICERS

Dictator and Secretary Receive Presentation—Much good Work By The Lodge

At the regular meeting of the Loyal Order of Moose, held at the lodge headquarters on Tuesday night, the officers for the coming year were elected. Allan K. Fyfe was re-elected Worthy Dictator and H. L. Haug was elected Secretary for the next three years.

Other officers of the order elected were:

Jas. Rowlett, Vice-Dictator.
E. H. S. McLean, Past Dictator.
D. Orr, Sr., Prelate.
C. Bridge, Treasurer.
A. N. Watt, Sergeant-at-Arms.
G. Watt, Inner Guard.
E. W. LaChance, Outer Guard.
Jas. Milne, Trustee.
E. W. LaChance, Trustee.

The Loyal Order of Moose, as an institution is rapidly growing, and is spreading all over the country. A feature of the work of the Order is the education and training of the orphan children of its members, medical assistance to members and their families, and sick benefits and aid to the widow in the hour of affliction. Since the beginning of the war numerous calls have been made on the Order in this direction, and the great conflict continues further calls will doubtless be made on the funds of the institution.

Following the election of officers and one of the features of the evening was an address by Past Dictator Dr. E. H. S. McLean, who presented the Worthy Dictator with a jewel, and the Secretary with a charm as a mark of appreciation from the Lodge for the faithful work done by them in furthering the interests of the Lodge.

Prepare For Linen Shower

The members of the Ladies Hospital Guild are preparing for their annual linen shower for the Queen Victoria hospital, to be held at the hospital on the afternoon of Saturday, April 22nd. Everyone is invited to help on this occasion by a gift of linen and to be a guest of the Guild at afternoon tea. The nurses will be only too pleased to show any of the visitors so desiring over the beautiful hospital building. The hospital has passed through a very busy winter, being filled to capacity nearly all the time. This has meant an unusual wear and tear on the linen supply, and this, as everyone knows, even in a private home, is constantly in need of replenishing. Nearly any gift of linen will prove most acceptable but after consultation with the matron these were discovered to be the most urgent needs—sheets 2½ yds. by 72 inches, pillow slips 36 inches, oblong dresser covers, tray cloths and towels. A splendid idea on which several might act together would be to buy a web of factory cotton and donate it. From this the draw sheets are made and it would be an impossibility to have on hand too many of these sheets. The cotton would be made up in the hospital under the matron's direction. The response to this appeal for linen in the past has always been a most generous one and it is hoped that this linen shower will in no way fall short of those of previous years.

Major Bullock further stated that recruiting sergeants would be placed near the United States border.

"We shall observe the strictest neutrality," he remarked, "and there will be no attempt at overtures. But if any Americans desire to join us of their own free will, they will, of course, be well received."

No commissions, it is announced, will be given to anyone under 25 years of age. Also, officers must be Americans. Regulations in regard to drinking will be strictly enforced and any officer or non-commissioned officers entering the orderly room showing signs of intoxication at the same time automatically hands in his commission or rating.

Alteration in Soldiers Sox

In the library of the Y.M.C.A. was held the usual weekly meeting of the Red Cross society, Wednesday, April 12, with the president, Mrs. I. Kilpatrick in the chair. The minutes were read and passed and the following work handed in:

Mrs. H. Burridge, Mrs. B. R. Atkins, Mrs. J. B. Mackenzie, Mrs. P. Parker, Mrs. Stewart, Mrs. Austin, 1 pair socks each.

From auxiliary, West Demars, 10 shirts.

Mrs. W. Armstrong, 1 pair pyjamas (voluntary sewing).

Mrs. J. C. English cut out 25 shirts.

Two donations were received of \$1 each from Mrs. F. Cochrane and Miss Gee. For both these kind remembrances the local Red Cross expresses its appreciation.

Mrs. J. Dzem donated 40 yards bandage cotton for surgical and hospital supplies. The thanks of the society are due to her. Another welcome addition to the Red Cross funds has been given by Mrs. A. Blackberg. This consists of a bicycle, which will be disposed of in a manner to be decided at a later date. A shipment of Red Cross supplies

FAMOUS POSTER ON DISPLAY

Picture of Horrors of Tragedy in Belgium—Most Realistic Yet

Louis Raemakers, the famous Dutch cartoonist, has generously drawn for the national committee for relief in Belgium, one of the most remarkable and certainly the most heartrending of all the "War Posters."

The misery of the millions now in Belgium whom the Germans refuse to feed has inspired this notable artist to his finest effort. A Belgian woman with a ragged red cloak over her shoulders, is holding tightly to her breast an infant in a shawl. Around the child is clasped the mother's hand—a hand which spells starvation. In the woman's face there is the infinite sorrow of motherhood, driven to despair by German inhumanity and the pitiful helplessness yearning to relieve the child's suffering.

But it is in the face of the child that the artist has told the full horror of the tragedy of Belgium. The staring terror in the eyes that look up at the mother makes one shudder and turn away to think what might have been in England.

With remorseless realism Raemakers, in this infant of pain, has visualized to the world the infancy of Germany.

The poster, which is artistically reproduced, has this laconic heading: "In Belgium." Underneath appears the one word, "Help." Any reader of this newspaper can secure a copy of the poster free of cost by sending a postcard to the Hon. Secretary, National Committee for relief of Belgium, Trafalgar Building, Trafalgar Square, London.

A copy of the poster may be seen at the Mail-Herald office.

The News From Three Valley

Mrs. W. S. Stewart and Mrs. Paul Storey, of Taft, visited Mrs. S. E. Houston and Laura Smith at the hospital last Wednesday. Mrs. Houston returned home Sunday and opened her school here Monday morning.

A. Rutherford paid a visit to Taft on Sunday.

G. R. Lawrence of Revelstoke was a business visitor here last week.

Little Miss Ruby and Master Murdie Rutherford spent the week-end with their relatives here.

Mr. Gordon returned to Malakwa Friday evening after teaching here the week for Mrs. Houston.

Ben Carlson of Craigellachie visited friends here Sunday.

W. Waddell of the 172nd battalion, spent one day last week with the Rutherfords.

Paul Storey spent Tuesday here. W. S. Stewart paid his annual visit to Revelstoke last week. Mr. Stewart has had a remarkable season of beaver trapping, having caught sixteen very fine animals. He found a ready market for them in Revelstoke.

The following is the honor roll of the school for the first quarter, ending March 30.

Fourth class: Ailia Koskamaki, John Wilson.

Third class: Ella Rutherford, Harold Morgan.

Second class: Myrtle Morgan.

First reader: Hatt Yamamoto, Mildred Mowatt, Andy Rutherford, Charlie Wilson.

First primer: Clinton Morgan, Matt Talvatta.

is now ready to be dispatched, but there is a shortage of the ever necessary socks to make up the complement. Would it be too much to ask our workers to put forth a special effort during the next two weeks to make up the shortage. The shipment is destined as an Easter gift from the local Red Cross society to the boys overseas.

The society wish to make known the following alteration in regard to the knitting of socks. For summer wear the leg to be 10 inches long. Also that all socks now sent in to have cotton knitted in the heel and toe. This in order to make them more durable. Cotton can be had on application from the yarn committee or any Wednesday afternoon at the Y.M.C.A.

CANADIAN CLUB ENTERTAIN HIGH SCHOOL

Interesting Debate—Girls Easily Gain Decision Over Boys

"It is the purpose of this club to foster patriotism, to encourage the study of the institutions, art, literature, history and resources of Canada and to unite Canadians in such work for the welfare and progress of the Dominion as may be desirable and expedient."

Thus reads the first paragraph in the Constitution of the Women's Canadian Club, and at no time in the history of the local club have the members adhered more closely to this, the kernel of their constitution than last Monday night, when they had as their guests the teachers and pupils of the High school. What institutions in our country can we point to with greater pride than our schools where the great resources of our Dominion—our boys and girls—are being fitted to become good useful men and women, and citizens of our beloved Canada. And that Revelstoke has special reason to look with pride upon her High School and the work done within its walls was well exemplified by the very excellent entertainment provided by the pupils for their hostesses and friends.

Mrs. Coursier, the president of the Club presided over the meeting; the first number on the program being a much enjoyed vocal quartet by Misses McGiven and McLean and Messrs. Scriven and Falkner. Then followed the event of the evening—the debate.

The subject of the debate was "Resolved that the granting of Women's Suffrage would be of benefit to the Nation." The principals in the debate were: on the affirmative, Misses Maggie Matz, Olga Coursier, Drina Fraser and Annie McLean. The negative side was taken by Messrs. W. Lightbourne, Ernest McKinnon, Stanley Manning, and Glen Urquhart.

Too much credit cannot be accorded these youngsters for the manner in which they conducted the debate and handled the points each had to prove. The deepness of their research work and the way their facts were buried at the audience delighted everyone, and could easily have been copied by some older and more experienced debaters.

The judges of this event were Messrs. W. I. Briggs, W. B. Farris and Dr. E. H. S. McLean. They gave judgment in favor of the affirmative. It was plainly to be seen from the start that the girls viewed the matter more seriously than the boys and that a national question such as this could not be combated with light weight arguments.

A beautifully rendered piano solo by Mr. W. Lightbourne gave great delight to all present.

Sergeant Wells, who was in the city, was present at the meeting for a few minutes and spoke to the club shortly on the matter of sending food and comforts to our prisoners of war, and how this work was equally necessary with the work for the boys in the trenches.

Miss Irene Dunlop sang very sweetly one of the newer war songs.

Refreshments were served, and later the boys and girls enjoyed a short dance program, when the pleasant evening was concluded with three hearty cheers and a tiger for the Canadian Club, and the High school yell.

Trail poultrymen brought in eight carloads of grain feed in 1916.

There are almost 900 names on the voters list in the Greenwood riding.

Four Rossland Chinamen, who have accumulated sufficient wealth upon which to live retired, left for Hong Kong on Saturday.

Cranbrook Farmers' Institute is asking the C.P.R. to get busy putting the fences and cattle guards in shape along the line as far as Wardner.

Kaslo council can borrow \$5,000 from the bank providing it gives all the 1916 taxes as well as all taxes in arrears as security—and promises to hold a tax sale.

OPPOSITION MEMBERS HAVE EASY TIME

The public is treated to a daily complaint about the overworked opposition members at Victoria. One would suppose that the government is introducing legislation for the express purpose of overworking Mr. Brewster. Mr. Macdonald, Mr. Parker Williams and Mr. Plant. These members seem disposed to strike for shorter hours or higher pay, or both. As a matter of fact the opposition members have easier times than the ministers. They have every forenoon and all the half-day to investigate. They have no department to manage, no Government legislation to prepare, no delegations to meet, and are not responsible for the business of the Legislature. No one is hurrying them. They are offered all the time and opportunity they want. Why then should we have all this whining and complaining? If these members can discover graft that has been concealed for want of a critic they will have so much vindication. If they fail, perhaps they will have the grace to confess either that they were mistaken or that they are incompetent. But in the meantime it is not worth while to send out the story that they are weary and that their brain is overwrought.

THE AGRICULTURAL CREDITS ACT

British Columbia is the first Canadian province to embark on the business of acting as intermediary between the farmer who needs money for the development of his property and the money lender, says the Winnipeg Free Press. It has borrowed \$1,000,000 under the new Agricultural Credits Act, at 5.63 per cent., and expects to re-lend this money under the New Zealand system, which has been adapted to the conditions of the Pacific province at an advance of 1 per cent. A dispatch from Victoria says that it is expected that during the next year some six or seven million dollars will be loaned to farmers in British Columbia under the terms of the act. Nothing is more certain, continues the Free Press, than that every province in the Dominion will be obliged to follow the example thus set by British Columbia, although possibly different systems may be followed, unless the Dominion government tackles the problem for the whole Dominion and relieves them of the responsibility. Credit is ceasing to be a matter in which only the borrower and the lender are supposed to be interested. The state, representing the whole people, intends to have something to say about it in the future.

FROM THE SANCTUMS

Verily this is the season for washing dirty linen. Despatches from Victoria say that G. J. Hammond, reputedly the executive head of the prohibition movement of Vancouver, is none other than the blue sky financier of Chicago, wire tapper and confidence man, whose portrait occupies a place in the rogues' gallery, Chicago. Mr. Hammond's alleged record, as secured from a volume, "The Gold Bricks of Speculation," by John Hill, Jr., was read in the Legislature by Thomas Cavan, member from Cranbrook—Golden Star.

ADVERTISE

The modern merchant pondered
Upon the ways of men
Who take as their example
The spider in his den.
"Let others, if they will," quoth he
"Lie low and wait for flies
In a dingy, cob-webbed corner,
But I'm going to advertise."

Notes from the Mines

A resumption of activity on the Alps-Alturas, as soon as the snow is sufficiently gone, is looked for.

A. J. Becker, who is working the Apex, near New Denver, reports the outlook on that property as being encouraging.

There has been a considerable exodus of miners lately from the Ainsworth and Slocan districts to the Coeur d'Alenes and Butte, the higher scale now being paid across the line proving a strong inducement to the men.

Messrs. Rady and Merriweather, of Gerrard, who have been developing the Fidelity near that camp, are reported to have some five tons of ore sacked at the mine, the ore having been taken out in the course of development.

There is some talk in Three Forks this spring of a wagon road being constructed up the north fork of Carpenter creek during the season. It is possible that a five mile road is all that can be secured, but even that distance would prove a boon to the owners of property up there.

Silver topped 60 cents last week, furnace will be added in due course, and then fell off a trifle being back again this week.

The Echo, near Silverton, is reported closed, the eight men working on after a new building is started, that the property not getting the advance received by miners at other properties in the vicinity. The men quit work.

Work at the Consolidated's No. 1 and Highland Mines, at Ainsworth, has been discontinued for the present. At the latter only development was carried on.

Standard Silver Lead, of Silverton, is once more shipping normally to the Trail Smelter, last week sending down 161 tons of ore running around \$100 per ton.

The average price for copper for the first quarter of 1916 will be above 25 cents the pound, as compared with an average of 14 cents for the corresponding quarter of 1915.

Mike Murphy has a promising claim near Ainsworth, and situated right at the water's edge, ore from which is said to assay 63 per cent. lead and 7 ounces in silver. Samples of the ore are on exhibition at the office of the Kaslo Mining, Realty & Investment Co.

Northport smelter, which blew in one furnace on March 7th, has just placed a second one in commission, giving treatment capacity of 500 tons of lead ore daily. Probably another

So often have enlargements been decided on at the Consolidated smelter, after a new building is started, that leaving a structure so that it may be added to readily, is not now uncommon.

Newton W. Emmons, of Vancouver, and well known in the Kootenays, is advocating a customs zinc refinery in B. C. He says, though it requires 25,000 tons of ore to make a refinery successful, that the ore is in the province and would be forthcoming if the refinery was here.

Steady progress was being made with the construction of the sulphuric acid department of the Trail smelter—and two or three months or less should see the plant turning out the product intended. Meanwhile, the company is buying its sulphuric acid to operate the refineries.

Production and Thrift

"CANADA from her abundance can help supply the Empire's needs, and this must be a comforting thought for those upon whom the heavy burden of directing the Empire's affairs has been laid. Gain or no gain the course before the farmers of Canada is as clear as it was last year—they must produce abundantly in order to meet the demands that may be made, and I believe this to be especially true in regard to live stock, the world's supply of which must be particularly affected in this vast struggle. Stress and strain may yet be in store for us all before this tragic conflict is over, but not one of us doubts the issue, and Canadians will do their duty in the highest sense of that great word."—HON. MARTIN BURRELL, Minister of Agriculture.

MODERN war is made by resources, by money, by foodstuffs, as well as by men and by munitions. While war is our first business, it is the imperative duty of every man in Canada to produce all that he can, to work doubly hard while our soldiers are in the trenches, in order that the resources of the country may not only be conserved, but increased, for the great struggle that lies before us. "Work and Save" is a good motto for War-time."—SIR THOMAS WHITE, Minister of Finance.

And somewhere else your corn to drill
You know would never pay.

You plant at home to get the yield
Whatever crops are grown,
For planting in some other field
Will never help your own.

And it's the same with dollars,
For dollars too, are seed,
The cash today you send away
Tomorrow you will need.

Don't send your cash afar to roam
But, wiser, learn to sow;
Just plant your dollar here at home
And watch your dollars grow.

AXIOMS RE ADVERTISING.

The following sayings re advertising have been acknowledged axioms or facts. You cannot deny them. Experience, observation and experiment have removed them from the doubtful class to certain.

1. A business not worth advertising is not worth having.

2. A dollar judiciously spent in advertising will always double itself.

3. No man ever went broke by advertising, but there are thousands who go into bankruptcy annually because they don't advertise.

4. The suburban merchant who blames his neighbors for going into the city is himself responsible for the exodus.

5. It is a pity that the non-advertising merchant cannot see the fact that he is paying the bills of his advertising competitor.

6. "It costs money to advertise," says the slow coach merchant, but he forgets that it costs more to run a business without advertising.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon territory, the North West territories and in a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the secretary of the department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

WATER NOTICE

Diversion and Use.

Take notice that Allan Kellay, whose address is Revelstoke, B. C., will apply for a licence to take and use 60 gallons per minute of water out of Dewey Creek, which flows north west and sinks into land filed on by applicant.

The water will be diverted from the stream at a point about the base of the mountain and will be used for domestic and irrigation purposes upon the land described as L. G. 12, Section 10, Township 24, R2 W. of 6th M.

This notice was posted on the ground on the 29th day of March, 1916.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Revelstoke.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

Description of the territory within which its powers in respect of the undertaking are to be exercised: Bench Land.

ALLAN KELLAY, Applicant
The date of the first publication of this notice is April 1, 1916.

There's a Difference

To keep your piano in proper shape you should employ a man with years of valuable experience and who is proud of a good job when completed. Pianos kept at standard international pitch, and well cleaned with a piano vacuum cleaner, getting the dirt when a cloth or brush is useless.

The Largest Piano Tuning Business in the West

I got this by giving satisfaction with years of factory and other experience. It is with me a matter of business conscience to have every instrument at its best, in fine apion and tone. Regulating as well as tuning, and no extra charge for slight repairs. NOT A CHEAP MAN, who will take anything to get a job. Such men know their value, and I am mistaken if this is any consideration for a good instrument, truthness and beauty of tone expected.

Entertain O.E.S. Representatives

On Tuesday evening a special communication of the local chapter of the Order of the Eastern Star was held at the lodge parlors to welcome two representatives of the Grand Lodge of British Columbia, Mrs. M. Reese, grand worthy matron, and Mrs. Mary Douglas, grand lecturer and past grand worthy matron.

The initiatory work of the chapter as well as the regular work of the order was exemplified under the direction of Mrs. J. Q. McKinnon, worthy matron, and the two grand lodge officials expressed much pleasure and gratification at the excellence of the work, especially so in view of the comparatively recent organization of the chapter. No criticism whatever was made of the manner in which the work was conducted to the decided pleasure and satisfaction of the officers of the local lodge, but a number of suggestions were made by which the work of the order might be made more attractive.

On Wednesday a reception was given by Mrs. A. E. Kincaid in their honor.

Mrs. Reese and Mrs. Douglas, who reside in Vancouver, are on a tour of inspection of all the chapters in the province.

Greenwood can now boast of three shoemakers.

There is strong talk of forming a Kootenay association from the people now living in Vancouver and Victoria, who formerly resided in the eastern part of the province.

MOTHER OF EELS DELICIOUS

Probably not many people would care to experiment personally to test the edibility of doubtful food products, yet this is just what the staff of the biological station at St. Andrews N.B., have been doing. For the past two or three seasons they have been trying on their mess tables various kinds of fish that ordinarily are thrown away, and in several cases have found them delicious.

For instance, there is a peculiar greenish eel-like creature which, because it brings forth its young alive, has received the name, "mother-of-eels." A large specimen may weigh a couple of pounds. The biological staff found that it was white-fleshed and of splendid flavor and declared it to be one of the best fish they had had on the table. There are great quantities of mother-of-eels along the Atlantic coast, yet it is a fish the food value of which has not been realized at all.

Another fish, which is not being utilized in Canada, though, minus the head it has found its way into the fastidious British market, is the wolf fish or sea-cat. Probably its ugliness prejudices people against it. Yet those who have eaten it say that it has a very superior flavour, having perfectly white flesh, whiter than halibut, flaky and delicious. Wolf-fish vary from 15 to 20 pounds in weight. Great quantities of them are caught in the Maritime provinces and simply thrown away, being considered as absolutely of no value.

The angler or goose-fish, another very ugly fish, which sometimes attains four or five feet in length, is in the same category. The tail portion, which is solid flesh, is very good. Minus the head, it also has been placed in recent years on the London market. It brings a good price and is regarded as an excellent fish.

SUPPLY OF COCOA TO NEUTRAL COUNTRIES

In view of the statements made in parliament and in the press with reference to the export of cocoa to Holland, Denmark and Scandinavia, several of the larger cocoa firms in this country are hastening to disclaim responsibility for the large figures quoted. Cocoa exports in 1915 have been given as 34,520,987 pounds. The view of those engaged in the industry is that a large proportion of this is raw cocoa, a commodity seldom, if ever, exported by the firms whose names the public usually associate with the cocoa trade. The large exporters, it was pointed out to the press association's representative, are known to the government, since a license has to be obtained before the goods can be shipped to the continent. It is also easy for those in touch with the market to identify those who are buying for export.

Messrs. J. S. Fry & Sons, Limited, the well known Bristol firm, write as follows:

To the Editor:—Regarding the statement that has been made in reference to the exports of cocoa to Holland, Denmark and Scandinavia during 1915, which are stated to amount to 34,520,987 pounds, we should like to point out that the prepared cocoa exported by us to the above countries during 1915 was 24,695 pounds (11 tons). The whole of this was in fulfillment of contracts made in 1914. During the same period our exports of chocolate were £14.

We think there is no doubt that by far the larger portion of the exports of cocoa refer to raw cocoa, and this we have never handled. We have always been strongly of opinion that the export during the war both of raw and manufactured cocoa to Holland, Denmark and Scandinavia should have been prohibited by the government.

NO need to ask if you want your little girl to be bonny, plump and rosy-cheeked. Of course you do! Yet little folks' appetites are "finicky" and sometimes turn from ordinary foods. That is just the time to use FRY'S Pure Cocoa. It makes a delicious food beverage that no child can resist and its rich nourishment is absorbed by the little body as eagerly as the flowers drink in the spring rains. All good grocers sell it, but, of course, remember
