

CANADA'S EMISSARY TO BRITAIN

## SEIZED WOMAN BY THROAT

Entered House at Night—Accused is Committed For Trial

On the charge of unlawfully by night entering the dwelling house of Mike Laurenti at 10 1/2 Fourth Street with intent to commit an indecent assault upon Rosi Laurenti, Joe Buosquo was yesterday morning committed for trial by R. Gordon, J. P., at the city police court.

Mrs. Laurenti, the complainant, swore that on Saturday night she went to bed about 10:30 o'clock. A boy named Dominic Campantasi slept in an adjoining room. About an hour after she went to sleep she awoke to find the accused standing beside her bed. She shouted to Dominic that someone had broken in to rob the house. Accused had seized her by the throat and put his hand on her breast. Dominic came into the room and she turned on the light. Accused told the boy to keep quiet and left by the front door, leaving the door open. Accused had on neither hat, nor shirt nor shoes. After he left the boy shut the door. She fell on the floor and afterwards she looked to see how the man got into the house and found a catch on a window broken and signs of his entrance. She went outside and shouted for help. Neighbors came and she went to the police station.

Dominic Campantasi, fourteen years of age, corroborated the evidence of the previous witness. After the accused left witness shut the door and went to bed where he faintly. He afterwards went to the police station.

To Mr. Gillan witness said that accused was his stepfather. He ran away from home. His stepfather made him work hard and wash his clothes and for three years would not let him go to school. He had been picking berries and selling them. He was bitter against accused.

Constable Garnet spoke of receiving a complaint from Mrs. Laurenti. He went to accused's house. He was lying on his bed with his clothes and boots on. He brought him to the police station.

Mr. Gordon said that he found the evidence sufficient to commit accused for trial.

Mr. Gillan asked for bail.

The magistrate said that his experience in recent years had made him loath to grant bail. He committed accused for trial, bail being refused.

W. B. Farris appeared for the prosecution and C. E. Gillan for the defence.

## Former Revelstoke Editor Has His Troubles

H. G. Knight, formerly Editor of the Revelstoke Argus, now publishing the Review, a breezy little paper, at Three Hills, Alberta, is evidently meeting some difficulties in his new sphere of operations. The last issue of the Three Hills Review says: "The editor walked into the implement house of A. Sheline on election day and upon entering was treated in a most abusive manner, being called several names which would make the most hardened sinner blush and otherwise rated as being the lowest cur on the face of the earth. In fact this thing made the threat that he would circulate a petition and go around with it personally to have all the advertisers cease supporting the Three Hills Review and thereby compel the editor to hunt new pastures. To be concise, we were not wanted in town and this man would see that we be compelled to go. We do not wish to give this man free advertising in any sense of the word, but we would like our readers to see how some people treat a new form of business which has practically just commenced. We may have done some indiscreet actions since our arrival, but the worst has been an occasional spree and the next has been our endeavor to collect a little money for work done in the office. These are the worst sins we have committed since establishing ourselves in business in Three Hills last January and we will put our reputation on the counter with the man who made the threat as regards to our honest dealings. We wish publicly to dare this man to circulate this high handed petition feeling assured the business men of Three Hills are too broad minded to even share this fanatic's foolishness."

Sir Robert Borden: "I came over to see how Canada can still further serve the Empire."

## ANOTHER VICTIM CLAIMED BY GREEDY COLUMBIA RIVER

Six Year Old of J. E. B. Dickson Loses Life—Was Bathing in Backwater of River—Fell Into Four Feet of Water While Washing Waterwings

Loran Everard Dickson, the younger son of Mr. and Mrs. J. E. B. Dickson, six years of age, was drowned on Monday afternoon in a backwater of the Columbia river.

In company with Neil Lee the little boy had been bathing in the backwater at the point near A. P. Levesque's ranch. They came out of the water with the intention of dressing and Mr. Lee withdrew into the bushes which fringe the bank for that purpose.

Loran, before dressing said that he would fetch his waterwings and ran through the bushes to the river bank for that purpose. When Mr. Lee had finished dressing the child had not returned and he began to search for him. He was not to be found and Mr. Lee becoming alarmed stripped off his clothes and entered the water. Almost immediately he found the child's body lying in four feet of water about five feet from the shore. He brought it from the water and attempted artificial respiration but in vain.

Mr. Lee then ran up the road to L. Howson's house where he found Mr. Howson with his automobile. They drove down McKenzie avenue where they found Dr. Sutherland and Dr. Douglas who were in Dr. Sutherland's automobile. The doctors immediately drove to the scene of the

accident and again used artificial respiration, but without avail.

At the spot where the child lost his life the bank is somewhat steep and a raft is tethered to the shore. A little girl who was at the spot noticed the boy washing what she supposed to be clothes a few minutes before he was missed and it is supposed that while rinsing his waterwings he fell into the water and was drowned.

The funeral took place yesterday afternoon from the family residence and was very largely attended, the funeral procession being led by a detachment of Boy Scouts. Rev. C. A. Procnier conducted the services. Many beautiful flowers completely covered the roof of the hearse.

The pall bearers were Neil Lee, G. Baskerville, C. E. Hume and A. Grant.

Mr. Dickson is the Revelstoke manager for P. Burns & Co., Limited. At the beginning of August last year William George Curry a cutter for P. Burns & Co., Limited, also lost his life in the Columbia river. He went into the water bathing near the wharf on Sunday afternoon. Later in the evening shouts were heard from the river near George Matheson's ranch and three Chinamen saw a man struggling in the water. Curry was never seen again.

## Bury Impressed With Agricultural Possibilities

George Bury, vice president and general manager of the C. P. R. when in Nelson again alluded to the view from the Mount Revelstoke automobile road. He spoke of looking down upon the surrounding country from Revelstoke and of the amazing vista of wonderful opportunities for the farmer it brought before him. "British Columbia has almost illimitable resources in her fisheries, timber and mines. But," he said, "the people have not as yet fully realized the tremendous source of wealth that lies ready to their hands in the rich and fertile valleys contiguous to the railway lands." This land, he said, was particularly suited to mixed farming. He declared that the time had long gone by when the farmer was content to raise merely enough meat for the needs of his family; he is now compelled to sell. This, he said, also held true in the case of eggs, butter and all kinds of dairy produce.

"There are great areas in this province," he said, "which provide ideal grazing for cattle and I am told that wherever the farmer has become actively engaged in mixed farming, success has been the result. As a matter of fact the resources of this province are more valuable today than ever before, for the price of everything a farmer has to sell is higher than it was, say, three years ago."

## SHIPPING ORE ON SPIDER

Signs of Revival in Ferguson Camp—Good Returns Obtained

The Ferguson camp shows signs of a distinct revival, says Harry Needham who has just returned from a visit to Ferguson.

A strike of two feet of shipping ore has recently been made on the Spider at Pool creek, Mr. Needham says. He also learned that the expert of the Trail smelter is expected soon to make an examination of the Ferguson mines which include Silver Cup, Nellie L and Ajax with a view to a working bond on the mines being taken on the mines by the Canadian Consolidated Mining and Smelting company. Last winter James Hill and a partner who had a lease on the Ajax each cleaned up \$1250 for their winter's work, while four lessees of the Silver Cup each made \$625 for two months work.

Much prospecting and development work is in progress around Ferguson and last term 13 children attended the Ferguson school.

## Red Cross Work Will be Resumed

Surgical gauze has arrived in town. The red cross work will be resumed at St. Francis' Hall on Tuesday.

Some men are so forgetful that they even fail to remember the poor.

## COMMISSIONER OF PARKS TO ARRANGE FOR CAMP

R. F. Green, M.P., Writes Secretary of Board of Trade Reporting Success of Negotiations—Minister Expects Difficulties Will Be Overcome—Harkin Comes

That J. B. Harkin, commissioner of Dominion parks, is now on his way to Revelstoke with a view to make arrangements for an internment camp is announced in a telegram from R. F. Green, M. P., to C. R. Macdonald, secretary of the board of trade. The telegram which is dated July 26 says:

"Just received following message from Harkin, superintendent Dominion parks: 'Leaving for Revelstoke tomorrow night re arrangements internment camp.'"

R. F. GREEN.

Just previously Mr. Macdonald received the following telegram from Mr. Green:

"Message received on my return from country. Some progress has already been made. Writing you fully today."

R. F. GREEN.

This morning a letter was received from Mr. Green by the secretary of the Board of Trade which said:

"I may say that before leaving Revelstoke, I wired to Mr. J. B. Harkin, superintendent of Dominion Parks, Ottawa, urging upon him the necessity of arranging with the Department of Justice to get the camp of interned aliens established within the Revelstoke Parks as speedily as possible, because of the fact that our goodwill would not last much longer."

"Since I reached Victoria, I wired to the Minister of Justice to urge upon him the necessity of having this camp established as early as possible. I also wired to General Otter, who is in direct charge of the interned aliens. On July 22nd, I had a wire from the Minister of Justice reading as follows: 'Otter arranging about Edgwood and Revelstoke park' and I supposed that matters were all right. Under the same date I received a message from General Otter informing me that the Revelstoke question must remain in abeyance for a short time. I immediately again wired him, and to the Minister of Justice, and on the 23rd inst. I received a message from the Minister of Justice informing me that he had instructed General Otter to overcome difficulties as promptly as possible, and that he expected that it would be done."

"I also had a wire from General

Otter under same date, telling me that he had the minister's approval, and was proceeding to arrange the matter so that I do not think that anything further could be accomplished by going to Ottawa, and I expect that it will not be long now until the matter is finally put in shape."

Mr. J. B. Harkin, superintendent of Dominion parks is now at Banff and Mr. F. H. H. Williamson is looking after park matters at Ottawa during Mr. Harkin's absence. It might be well for your board, if possible, to get in touch with Mr. Harkin at Banff, as I am doing so today."

In compliance with a resolution of the board of trade the following letter was addressed to the president of the Revelstoke Liberal association by the secretary of the board of trade:

RE INTERNMENT CAMP  
The President, Revelstoke Liberal Association,

Dear sir:

At a meeting of the board last week it was resolved that a communication be sent to your association, with a request that you be good enough to send a telegram as outlined herein to Hon. R. F. Green, M. P.

It is most important that there be no unnecessary delay in connection with the obtaining of an internment camp for work in Revelstoke National Park and it is of the utmost importance in the opinion of the board that the community should be a unit on a matter of this nature. I am therefore taking the liberty of enclosing a draft form of telegram which if it meets with your approval I would ask you to have signed on behalf of your association and immediately dispatched to Mr. Green.

A similar communication has been forwarded to the council of the city of Revelstoke and to the president of the Conservative association.

C. R. MACDONALD,  
Secretary Board of Trade.

In consequence of the letter a meeting of the Liberal executive was called for Monday evening. Only five members answered the call and opposition being expressed to the request of the board no action was taken.

## Physical Director and Asst.-Sec. Take Course

The work of securing new recruits for the Y. M. C. A. is still going ahead, every day brings word of good being accomplished. There are still a large number of citizens who as yet have not enrolled. J. M. Dudley, International Railroad Secretary is well pleased with the results of the campaign, and feels assured that the people of Revelstoke will rise to the occasion to keep their present association building free of all encumbrances.

J. L. Hay, assistant secretary and A. M. Harding, physical director, employed officers of the association, left last Friday on No. 4 for the Canadian training school at Lake Couchiching. Mr. Hay will take his first year secretarial course and Mr. Harding second year physical. At the close of the school Mr. Harding will leave for St. Johns, his home, and remain until the re-opening of the physical department.

## Mother of Mrs. Armstrong Dies at Salmon Arm

The death occurred at Salmon Arm on July 24 of Mrs. Sarah Jane Carroll, wife of J. W. Carroll. The late Mrs. Carroll was the mother of Mrs. J. H. Armstrong, wife of J. H. Armstrong, chief dispatcher of the Canadian Pacific Railway at Revelstoke, from whose residence the funeral took place at 2:30 yesterday afternoon. The pall bearers were: H. Manning, Percy Ruth, S. McGuire, Ernest Root, James Evans and J. Walker. The interment took place in the Oddfellow's plot, the services being conducted by Rev. J. W. Stevenson. Many beautiful floral tributes covered the coffin.

## Former Physical Director Wins V.C. for Bravery

A special feature of the Alpino club camp this year was the patriotic night around the camp fire, held Saturday, July 17.

Interesting letters were read from Lieut.-Col. Mitchell, of Toronto; Capt. W. W. Foster, M.P.P., of Victoria; B. C.; Lieut. E. O. Wheeler, R. E., and J. R. Young, all on active service.

Reference was made to the fact that W. A. Aldritt, reported killed, was a prisoner in Germany, and had been recommended for the Victoria Cross. Mr. Aldritt was physical director at the Revelstoke Y.M.C.A. in 1909.

## Section Man Attempts Suicide at Hecillewaet

F. Johnson, a section man at Hecillewaet, attempted suicide on Sunday by slashing his throat and wrist with a razor. He was brought to the Queen Victoria hospital on Sunday where he is now under guard. He is making progress toward recovery. No particulars as to the occurrence were obtainable at the hospital.

"Be keefen about buttin' in," said Uncle Eben, even when you know a man is wrong. De chances are dat he knowed it befo' you."—Washington 'Star.'

"One thing dat keep de world 'um goin' ahead faster said Uncle Eben, 'is de fact dat a man kin allus make mo' money foelin' people dan he kin education' em."—Washington 'Star.'

"But riches do not bring happiness!" protested the lover. "I know that," replied the sweet young thing; "but riches will buy an automobile, and if you have an automobile, you can go after happiness."—Houston 'Post.'

## SACRED CONCERT IN AID OF MACHINE GUN FUND

Those who have not yet "done their bit" toward the machine gun fund will have an opportunity to contribute on Sunday evening through the kindness of Charles Couche, manager of the Rex theatre, a sacred concert will be given in the theatre under the auspices of the famous Rex orchestra. Admission will be free, but a silver collection will be taken, the proceeds of which will be given to the machine gun fund. Those who contribute will not only have the satisfaction of assisting a worthy and patriotic object but will also enjoy a musical treat. Special new music will be rendered by the Rex orchestra and the program will include songs by some of Revelstoke's most talented musicians.

Everywhere the machine gun funds are being warmly supported and various devices are being adopted to raise funds quickly. Pentieron will give two guns, and there a black Percheron stallion and a Holstein yearling heifer have been given to the fund. The animals will be raffled. In addition the Retail Merchants association of Pentieron will probably provide a machine gun on their own

account. In Grand Forks an energetic one day canvassing campaign is planned. In many other towns public meetings are being held and organizations formed for collecting the required funds.

Up to the present nothing has been done in Revelstoke beyond the opening of a subscription list in the Mail-Herald but the ready and generous response to the appeal has proved how strongly the fund appeals to the hearts of the people of Revelstoke. The sacred concert on Sunday and the efforts of the women's Canadian club on Wednesday next are expected to materially swell the fund.

The list today stands as follows:

Dan McEachern	\$10
Globe Lumber Co.	10
Previously acknowledged	425
<b>Total</b>	<b>\$445</b>

Hope may bud when it is cloudy, but it blooms only in sunshine.

"De man dat knocks," said Uncle Eben, "is a useful citizen, if he kin hit what he's aimin' at 'stid o' mashin' his own thumb."—Washington 'Star.'

### CREDIT TO BURRELL

The Hamilton Herald, one of the leading independent Ontario daily papers in a recent issue printed the following timely editorial tribute to the Federal Minister from Grand Forks: "The Hon. Martin Burrell, minister of agriculture, unlike one or two other cabinet ministers, is not one who courts the limelight. He indulges in no unnecessary talking; but he works, and his work speaks for itself. Mr. Burrell was entrusted with the task of having Canada adequately represented at the Panama exposition at San Francisco. The task was no small one; it was carried out under difficulties but in a manner which reflects credit upon this country, as witness the following tribute from the New York Tribune's special correspondent at the exposition:

"Some of the buildings are not finished yet. Some are done, you might say some are overdone and some are underdone. The Canada building was finished the day the fair opened; every exhibit was in place. And judges of such matters agree that Canada has the best show here."

"Similar opinions have been expressed by many other visitors to the great international fair; at this time when members of the Dominion government are getting more kicks than caresses in the public prints, let us give to Hon. Martin Burrell the credit and thanks which are due for his national work well done."

### FROM THE SANCTUMS

#### WAITING FOR THE CROP

Montreal Gazette.—Just now the West is depressed, but a good average crop will put things right, railway traffic will revive and the stream of immigration start anew. We have recently built two more transcontinental lines to compete with the Canadian Pacific but at the moment their ability to do so seems more or less doubtful. In any event the Canadian Pacific will always hold its place as one of the most successful railways on this continent—an institution that more than any other human agency has developed Canada and made her a powerful helpmate of England in the present hour of trial.

#### RESURRECTION OF "THE JOURNAL"

Mr. Joseph Martin's avowed intentions of breathing the breath of life once more into the "Evening Journal" have aroused much interest in

## NO ALUM

political circles. During its life of forty-two days, the "Journal's" editorials caused a series of severe electrical disturbances from one end of Canada to the other. Mr. Martin's re-appearance in the journalistic field will add a touch of spice which will be much appreciated by Vancouver's newspaper reading public. Mr. Martin is a very shrewd business man, and with the re-appearance of the "Evening Journal," we may take it for granted that the clouds of financial stringency are lifting a bit. We may also take it for granted that the elections are not far away, and that Mr. Martin will have a great deal to say regarding both Federal and Provincial politics. There is at least one newspaper in Vancouver against which Mr. Martin may be expected to launch a few broadsides. Meantime some of the boys of the Typographical union who pay daily calls to the secretary's office at the Labor Temple are cheering up a bit.—The Chinook.

### COMMUNICATIONS

#### CRITICS OF GOVERNMENT

To the Editor Mail-Herald: Sir:—I am told that at the meeting of the board of trade on Friday Mr. Anstie induced the board to protest at the action of the government, and also appeared to criticize Mr. Green's work for Revelstoke. I would like to ask Mr. Anstie when Revelstoke ever failed to get Mr. Green to take up and push anything in its interest? My opinion is that no one could work harder for Revelstoke than Mr. Green has done.

Revelstoke owes very little to some of those who are at present trying to stir up sentiment against the government and our member. Who engineered the Dominion Sawmills deal? Everyone here knows what that did for Revelstoke. It has practically been the ruin of our city. The lumber industry was Revelstoke's biggest asset. What is it today? Who is responsible? Some of the people who are now saying that the government is not doing enough for Revelstoke. If they had not ruined our lumber industry the board of trade would not today be trying to get a few Germans on the mountain to keep business going. It is some people who are getting after the government, who have done us the biggest injury in the history of this city.

Mr. Anstie thinks Mr. Green is not doing enough for us. I would like to know what Mr. Anstie ever did for us. If he would get a few of the Forest Mills outfits running instead of wasting time criticizing those who have been good friends to Revelstoke we would all be thankful.

Thanking you, Mr. Editor, for your valuable space.

JOHN TIPPING.

Revelstoke, B. C., July 27.

### AT THE THEATRES

Mr. J. B. Gaskell of the Conservatory of Music, Lethbridge has taken charge of the Empress theatre orchestra. Mr. Gaskell is a noted violin player and from now on will be heard at the Empress theatre.

The fine, moral, uplifting lessons exemplified in several of the Mutual Film Corporation to meet the in passing public demand for "better motion pictures" are potentially continued in the latest of these dramas, "The Victim," a three-part play by Paul West, the noted humorist. Mr. West's dramas are as skillfully devised as his lighter efforts, and since the release of "The Victim" he has received several letters from unjustly convicted men praising him for his splendid plea for the under dog. "I, too am a victim," one man wrote, "and plays like yours, by their effort on those who see them, help to make this world an easier path for the unfortunate to tread." "The Victim" will be shown at the "Rex" Theater on Saturday of this week.

Splendid attractions will be at the Empress theatre this week and next. J. B. Gaskell of the Conservatory of Music, Lethbridge is in charge of the orchestra. Tonight the Oaklawn Handicap in 2 reels, a good pacing drama, 101 Bison. Thursday is Amateur night, all local talent, and the best six numbers. Prizes on view in G. W. Bell's window, the feature Daniel Frohman presents Florence Reed in "The Dancing Girl," 5 big parts, Friday, "In a Jack Pot" with Eddie Lyons and Victoria Forde. Owing to "Sealed Orders" being shown on Saturday, that day's picture will be shown on Friday as well as the regular program. Saturday, Matinee 2:30, Sealed Orders, in 7 reels the greatest spy picture of the day showing hundreds of dreadnaughts, aeroplanes and war ships of all nations. Monday, "The Master Key" with stamps. Tuesday, "Caprices of Kitty," 5 parts, with elsie Janis.

The Plot of Sealed Orders which will be at the Empress theatre on Saturday seems like a magic fan of the Orient—apparently simple and all in one fold, but capable of expanding

into a hundred pretty convolutions whenever the right hand touched it. The touch of this director is light but elemental. The story abounding in pathos, in climaxes, in sensations, in new departures centres round the childish play of a little boy. One of the great charms in this picture is the naturalness of it all. Grant that the things happening are extraordinary to the fullest extent of the word, that some of them are unheard of and others overwhelming in their originality, you feel at the same time that they are entirely possible and might have happened. The director knows what will bear emphasizing and what must be touched but lightly. He has the gift of explaining things to the heart. Hence the wonderful and sustained interest which these films arouse. The six reels come and go and the story has absorbed you to such an extent that you forget all else—you do not care to speculate on the how and the wherefore, you are simply and delightfully conscious of a desire to see more of the same kind.

### LUMBERMEN SHOULD ADVERTISE PRODUCT

Here is the latest circular issued, addressed "To the Lumbermen" in the British American Lumberman:

Gentlemen,—The many papers, reports, addresses and discussions given at gatherings of lumbermen during the past months show conclusively:

1. That lumber consumption has fallen off in greater proportion than building construction;
2. That well-financed organizations are working for the elimination of wood;
3. That lumber is getting only 10 per cent of the advertising devoted to construction materials;
4. That unscientific and sometimes unfair building codes unduly restrict the use of wood;
5. That wood is being made the target of anti-fire agitation when 85 per cent of the fire loss is due to other causes;

6. That whereas the public formerly bought lumber, now it must be sold against keen competition—and the dealer feels that he alone should not bear the burden of selling the manufacturers' goods;

7. That no other structural material is marketed with so little intelligence or with so little regard to the interests of the consumer;

8. That, in consequence, the consumer is being rapidly educated away from wood, and that unless prompt and effective steps are taken, this means a permanent loss of a large part of the present market for lumber;

9. That no poorly-supported, half-starved, measures will succeed, nor can any one say "Let George do it" any longer. That lumbermen must learn what other successful merchants knew long ago—that in order to make money, money must be spent for promotion;

10. That the only way to maintain the demand for lumber is through the co-operation of all branches of the industry in a national movement to educate the consumer and promote the use of wood wherever it is the best available material or can be made equal to other materials for the service required.

Are you going to haul down your flag and quit advertising lumber or wood product? These are undisputable facts. The cause is urgent. The time is now. In the words of one of the greatest lumbermen, "What are you going to do about it?"

### DISINFECTANTS IN THE STABLE

The use of disinfectants in the stable is happily becoming much more common on the average farm than in former years. This practice should become still more general. In fact, the emergency medicine chest on every farm should be supplied with a suitable disinfectant which will serve either as a germicide or an insecticide. One of the standard coal tar dips and disinfectants is most suitable for this purpose for the reason that these preparations are standardized and must be up to the government requirements. This is a guarantee that these preparations will give the same results in use at all times, which fact, in addition to their convenience and safety, makes them peculiarly adapted to fill the need for which they are specially manufactured.

Too often the use of such disinfectants is limited to the combating of insect pests. If the sheep are infested with ticks or the hogs or other stock with lice, the average farmer worthy of the name will take steps to eradicate. The chances are that the same disinfectant may be quite as profitably used on the same farm as a germicide, but the farmer is far less apt to use it, as the need does not appeal to him until the time for effective disinfection has passed.

Many a valuable colt might have been saved had the dam's stall been suitably disinfected before she foaled, thus forestalling the dreaded navel

## What is Doing in the Province

Kaslo hospital is well filled with patients at present.

Nelson will have its annual fall fair this year on Sept. 23 and 24.

Rossland is spending \$3,375 on a new heating plant for the public school.

The wet weather has ruined much of the none too large Slocan hay crop.

Castlegar mill is running full time at present, with a monthly payroll of \$5,000.

The National Pole Co. at Castlegar is shipping three cars of poles daily to Iowa points.

Owing to the heavy rains Ainsworth's cherry crop is a complete failure this year.

Fernie expects to be able to raise enough money to buy a couple of machine guns for the 5th battalion.

Fernie is offering the citizens \$4643 worth of debentures in \$100 lots at .92. They bear 5 1/2 per cent. interest.

Indians from across the line are reported to be destroying fish and game in the Sheep Creek country.

Chickens caught running at large in Kaslo in future are to be impounded. It costs 25c. per head to get them out.

Cranbrook has finally decided to hold a fall fair this year, though the city council is making no grant to it as yet.

The Phoenix Pioneer states that there are 750,000 Kamloops salmon trout at the Gerrard hatchery ready for distribution.

Pete Boyle, the oldest white resident of East Kootenay, who has made the foothills his home since 1864, died at Cranbrook last week.

Golden will raise \$3,300 for school purposes this year. Nakusp has dropped its school appropriation for the year from \$1400 to \$1000.

Black raspberries made their appearance on Nelson market on Saturday.

Dependents of soldiers enlisted at Fernie are now drawing \$700 monthly from the Patriotic Fund.

Between the rain and the bees Mirror Lake ranchers have had poor luck with cherries this year.

For the week ending July 10 the Great Northern railway used 8400 tons of coal from the Fernie mines.

Fernie Free Press: Among sporting possibilities in the near future is an automobile race to Elko and return.

Provided they secure a high school principal at the salary offered Cranbrook schools will be operated at \$120 per month less than last term.

A Kaslo correspondent suggests that the dozen of loafers around that place be rounded up, their names published and otherwise shoved into enlisting.

A. B. Trites of Fernie received a shipment of over two thousand trout for his aquarium recently, but owing to inexperience in feeding most of them died.

Herald:—Complaint has been made that a number of people are using dynamite at Moyie and Yahk, which is resulting in thousands of dead fish being found in the waters of these fishing places.

The East Kootenay Lumber Company this week received an order for 5,000 grain doors for the C.P.R. They expect to start two shifts at their Jaffray mill.

Kaslo Kootenain: A somewhat curious animal was observed last week in the vicinity of B. Avenue. The creature had the head, eyes and ears of a rat, the body of a squirrel, white feet and a large bushy tail, which was white underneath.

### WESTERN FLOAT By R. T. LOWERY

Joe Downs died in Nelson this month.

Old potatoes are \$13 a ton in New Westminster.

Princeton coal retails in Penticton for \$7.50 a ton.

Milk is now delivered every morning in Quesnel.

Since the war began 10,442 men have enlisted in B. C.

Much paper is being shipped from B. C. to Australia.

THE MARSH and BOBBY HARMON in "The Marsh" at the "REX" on Saturday

Owing to the lack of funds Chesaw will not hold a fair this fall.

Alex. McCool has bought the hotel Blanshard in Victoria.

Work has been resumed upon the Yankee Girl mines at Grand Forks.

James Smart died in Victoria. He was a prominent figure in Nelson 20 years ago.

The main line of the Canadian Northern railway will be in operation by September.

Western Canada will have a wheat crop this summer of about 240,000,000 bushels.

This summer has been very dry in the Yukon, which will make the oat crop rather light.

E. C. Shephard died at Soda Creek last month. He had lived in the Cariboo for 50 years.

In Victoria about 750 school teachers are taking a special course at the High and Normal schools.

In Elko many of the people, owing to the hard times, have to live upon green peas and young ducks.

The telegraph rate between White Horse and Skagway has been reduced from \$1 to 50 cents for 10 words.

Hartley Williams died in Dawson last month. He was one of the best "Sourdoughs" in the north.

All the provincial constables in the Fort George district recently joined the army, with the exception of the chief.

At Trail, James Wilkinson has hens laying eggs that were only hatched last year. Trail is the place for early birds.

This year a great many tourists saw the midnight sun at Fort Yukon. In June the sun does not set for several nights at that place.

Work has been resumed at the Maggie mine near Ashcroft and the shaft is down 300 feet. This mine was located over 20 years ago.

John A. Turner of Victoria, has been appointed city clerk in Prince George. He ran for mayor in Victoria at one time, but was defeated.

The irrigation ditch at Oroville will be sixty-five miles long, and put water on 10,000 acres near that dry city.

B. O. Beam a Revelstoke C. P. R. engineer, has bought J. A. McKinnan's pool room and cigar store in Trail.

A. L. Fortune died on his ranch near Enderby upon July 5, aged 85 years. He took up the ranch in 1866, in company with his partner from the Cariboo gold diggings.

A Seattle company has taken an option upon some placer ground near Granite Creek. It is intended to expend \$60,000 upon a hydraulic proposition if the options are taken up.

Jim Christie was wounded at one of the spring battles in Flanders. He is the only man who ever went through a boxing match with a grizzly bear and lived. That event happened to Jim in the Yukon some years ago.

Red Paddy has a ranch near Princeton, and is raising more than a crop of whiskers this year. He has some of the finest spuds this side of Ireland. Paddy is building a new house and wants a wife who already has about 16 children.

Because they were caught out of season, the authorities in Alaska, made the Indians liberate 42 live foxes valued at \$15,000. The redskins

Florence Reed in "The Dancing Girl" at Empress.

are liable to cause trouble over the affair, and several white men are missing, evidently being killed by the reds.

The Monarch mine at Field recently shipped three carloads of zinc ore to Kansas City, and two carloads of lead ore to Trail. On the dump at that mine there is 20,000 tons of ore that will average 24 per cent. A zinc smelter in Canada would be of great advantage to mines of this kind.

### Notes from the Mines

Near Silverton, in the Slocan, 40 men are working at the mine called the Galena Farm, and a mill is now being built. In the boom days of 1897 the property was floated in London by a company with a capital high in the millions. The company was afterwards discontinued. At that time Charles Callahan was the engineer.—Pioneer.

A rejuvenation of the Portland Canal mining district seems imminent. The camp has lain dormant for the past four years, but this spring there have been several representatives of investors looking over the claims, and some important developments which will result in transforming ore into real money are now under consideration.—Pioneer.

Work is to be resumed at once on the Yankee Girl and Yankee Boy, situated at Hardy mountain, about one mile from the western city limits. W. J. Campbell, the present owner of the property, arrived, in Grand Forks this week from Republic, accompanied by J. S. Bedin, who will act as manager. Mr. Campbell has since purchased a supply of lumber for buildings at the property. A wagon road will also be built from the mine to the government road. The development work done on the property up to the present time consists of a 200 foot tunnel, connected by a shaft. The lead is not very wide but the ore is all high grade, and with the improved smelting facilities in this country the mine should prove a profitable investment to the new owner.—Grand Forks.

In yesterday's casualty lists the death of private John Boyle of Revelstoke, killed in action on April 24, is officially announced.

J. Evans, S. M. McGuire, Chalmer Cummings and Percy Ruth of Salmon Arm were guests at the King Edward hotel yesterday.

The special "Country Store" consignment at the Rex on Tuesday was won by Mrs. White, of 3rd St., and the month's pass, given at the matinee, by Etta Barret.

The sacred concert, under the auspices of the Women's Canadian club in the Rex theatre on Sunday night was a great success. There was a large attendance and the fund for patriotic aid was substantially increased.

The Rotary clubs of the New England states will pass through Revelstoke tomorrow morning. C. R. Macdonald, secretary of the Board of Trade, has invited the excursionists to be guests of the city for a two hour automobile drive.

Among the tourists registered at the Hotel Revelstoke on Monday were E. C. Kimball of Haverhill, Mass.; Mr. and Mrs. W. A. Martin, M. J. Walters, Mrs. L. Chapman, George M. Chapman, of Earlsville; C. B. St. Johns of St. Paul; and Mr. and Mrs. M. D. Forest of New York.

An interesting fact concerning the development of the lumber industry in the Northern interior is reported from Tete Jaune. The Northern Construction Company, which constructed a mill on the upper Fraser River for the purpose of sawing lumber for use on the C. N. R. has shipped 3,600,000 feet of Spruce lumber to Edmonton. The province realized the sum of \$5,500 in royalties and stumpage from this shipment.

That there will be a big demand for British Columbia timber and other products as a result of the anticipated great grain harvest in the prairie provinces, is the opinion of Mr. E. A. James of Winnipeg, formerly identified with the Canadian Northern Railway, who is at present in the city, a guest at the Empress. Mr. James believes that the good weather now being experienced on the prairies will ripen the crops so that a full harvest will be gathered. The farmers, who have been restricting expenditure for some time, may be expected to buy lumber to a very large extent, in his judgment. Everywhere he went he found that the requirements from British Columbia this winter will be greater than ever.

D. Johnson, Dominion Fruit Commissioner, and R. J. Clarke, chief inspector, state that the Dominion Department of Agriculture has decided to put on three additional inspectors for the interior this season. Their duties will commence August 1 and they will be experienced men who will act as instructors as well as performing the usual functions of inspecting fruit previous to shipment. One of these men will have the Grand Forks and Kootenay districts as his field of operations, while there will be two stationed in the section from Salmon Arm to the Boundary. B. T. Boies will be one of these inspectors.

Referring to the recent fruit conference at Calgary, Mr. Johnson said that one of the principal things made very clear at this meeting was the fact that while the consumer was paying good prices for fruit, the producer only secured a very small portion of the returns. He expressed the hope that effect would be given to the resolution asking for a Royal Commission to enquire into all matters connected with the fruit industry.

ing the usual functions of inspecting fruit previous to shipment. One of these men will have the Grand Forks and Kootenay districts as his field of operations, while there will be two stationed in the section from Salmon Arm to the Boundary. B. T. Boies will be one of these inspectors. Referring to the recent fruit conference at Calgary, Mr. Johnson said that one of the principal things made very clear at this meeting was the fact that while the consumer was paying good prices for fruit, the producer only secured a very small portion of the returns. He expressed the hope that effect would be given to the resolution asking for a Royal Commission to enquire into all matters connected with the fruit industry.
