

GOOD WORK FOR  
REVELSTOKE

Council Expresses Appreciation of Member's Services—Asks Market Bylaw

At the city council meeting last night Mayor W. A. Foote announced that the internment camp on Mount Revelstoke was nearly ready for the reception of the aliens who were expected to arrive within a week or ten days. He thought that the city council should show its appreciation of R. F. Green's efforts to secure the camp for the city.

Ald. Lounie agreed that the council should express its thanks to Mr. Green, who had taken great interest in anything that he could do for the city, and had come to the city to discuss the questions that had arisen.

On motion of Ald. Masson, seconded by Ald. Bourne a resolution was passed expressing the thanks of the council to Mr. Green for his efforts and success in securing the internment camp in the Revelstoke park.

W. E. Smith addressed the council regarding the market bylaw. The farmers, he said, wanted the city council to stop peddling during market hours. It was the only way by which the farmers could be induced to bring in produce and by which buyers could be attracted to the market. It was the intention to fix a minimum price for the produce. This spring one Chinaman had men working for their board, which cost seven cents a day. He was now employing Chinamen for 25 cents a day without board. The white ranchers could not compete under such conditions. If the ranchers could not get the regulations for which they asked the market must be closed. The proposed rent for stalls was \$2.50 per month. It was not the intention to discriminate against Chinamen. He had taken in as much as \$35 in two hours and had never taken less than \$10.

A letter was received from Dr. E. H. S. McLean, medical health officer, saying that one of the milk dealers had been forbidden to sell milk or butter until he had remedied the deficiencies of his buildings.

A letter was received from J. M. McKay, Canadian Pacific railway superintendent, saying that the matter of the Clearview road must remain in abeyance until the arrival of Mr. Bateman, right of way agent and that in the meantime the road would remain closed.

Farewell to Nakusp  
Volunteers at Concert

One of the largest gatherings in the history of Nakusp attended the patriotic concert at the opera house on Saturday night, the occasion being a farewell to the Nakusp men of the 54th Kootenay regiment, who have been on furlough. There were 400 present. The Nakusp brass band was in attendance. Addresses were given by Thomas Ahrle, L. J. Edwards, Rev. J. S. Allen and Rev. W. G. Blake. During the evening the following resolution was enthusiastically passed, the mover being Dr. J. S. McPherson, seconded by F. W. Heathcote:

"That this, the first mass meeting of the citizens of Nakusp, after the anniversary of the declaration of a righteous war, records its indelible determination to continue to a victorious end the struggle in maintenance of those ideals of liberty and justice which are the common and sacred cause of the allies."

In response to the chairman's call for recruits, three presented themselves and were uproariously cheered by the big audience as they rushed through the aisles to the stage. They were Christopher Love, Frank LaBerge and Joseph Birkett, the latter having walked 12 miles from Summit Lake to join. Three little girls then pinned the Nakusp colors in the shape of a pretty red and white silk badge on their coats. A feature of the printed program was a list of Nakusp men who had joined the 54th and those who had gone to the front in any capacity. A list was also read of those who had tried to pass and failed, being S. Leary, J. Norris, F. Wilson and H. E. Simpson.

Those who assisted were Messdames Bill, Crowell, Bennett, Yoder, North, Misses Edwards, Bertha and Lila Labache, Gardner, Bennett, McGrady and Messrs. Craft, McPherson, Vipond, Leary, Davies, North, Heathcote, Leveque and Wakelin.

INTERNMENT CAMP READY  
FOR RECEPTION OF ALIENS

The internment camp for the reception of aliens in the Revelstoke park is now practically completed and F. E. Maunder, superintendent of the park, is expecting notice from the military authorities that the aliens will arrive within a few days.

The military guard will consist of three officers and 50 men. Capt. Rose of Kelowna will be in command. Lieut. A. Grant of Revelstoke and another lieutenant will complete the staff of officers. The 50 guards will be provided from the 102nd regiment.

Gen. Otter arrived in the city yesterday and in company with Capt. Palmer and F. E. Maunder, superintendent of the park, inspected the camp. The general expressed warm approval of the arrangements, but suggested that additional windows be placed in the bunk houses. This is being done today. Gen. Otter left this morning for Edgewood.

On the camp site two log bunkhouses

60 feet by 25 feet have been erected, also a mess house 60 by 35 feet, a cook house 30 by 20 feet and a hospital 24 by 20 feet. In connection with the hospital a dispensary and orderly's room will be attached. The foundation for a bath and washhouse has been made. The bath and wash house will be of canvas and will be outside the wire entanglement on the lower side of the road to facilitate drainage. In it hot water for washing clothes will be provided.

For the camp commandant a 16 by 14 foot cabin with a 6 foot veranda will be erected and in addition there will be a log storehouse 24 by 16 feet in size. The wire entanglement is being erected today and by this evening the camp will be practically completed, just two weeks after operations commenced.

Gen. Otter yesterday announced that the aliens will probably arrive in Revelstoke next week.

BOUNTY ON  
REFINED ZINCWill Enable Refineries to be  
Established—Shell Committee's Contracts

With a view to insuring at reasonable prices a Canadian supply of refined zinc suitable for use in the production of brass for the manufacture of quick-firing cartridge cases for shells, the government has passed an order-in-council providing for bounties on refined zinc produced in Canada from Canadian ores.

These bounties, however, are tentative and will not go into effect unless the war is ended before July 31, 1917. The reason for this is that the zinc refiners are willing to put in the necessary plant on a guarantee that the orders from the shell committee will be sufficient to defray the cost of installing the plants, and a legitimate profit, or else that in the event of the war coming to a speedy close, the bounty will be payable up to the end of July, 1917. In any case it is provided that the total amount of bounties to be paid shall not exceed \$400,000.

The decision to grant bounties on the conditions outlined above was reached after a full discussion of the whole situation by a committee of the government under the chairmanship of the minister of finance, acting in conjunction with the shell committee of the militia department.

Hitherto zinc ores have not been refined in Canada. Before the outbreak of the war refined zinc suitable for ammunition purposes sold at about 8 cents per pound. Since the outbreak of the war, however, the price has steadily risen and it has been as high as 40 cents per pound, with the sources of supply outside Canada.

In order to meet the requirements of the British government with regard to the manufacture of fixed ammunition in Canada the shell committee found it necessary to secure the refining of zinc in Canada. Canadian producers, however, were unwilling to go to the large expense of installing a refinery unless insured against the fall in zinc prices which is inevitable after the close of the war. To meet the situation the government has decided to offer a limited bounty for the production of zinc in Canada.

The order-in-council provides for bounties on a sliding scale not exceeding 2 cents per pound for refined ore containing more than 2 per cent. impurities. These bounties, however, will not be payable until the standard price of zinc in London falls below £165 per ton, nor shall they be payable during the progress of the war or after July 31, 1917. The shell committee is prepared to pay to a refinery during the continuance of the war 8 cents per 100 pounds or over and the requirements at this price will be sufficient to guarantee the refiners against loss consequent upon the cost of installing the plant.

As a result of the agreement which has been made the shell committee, acting for the imperial war office has been able to contract for several thousand tons of Canadian zinc at reasonable rates, with a further reduced rate for future deliveries. An adequate supply of brass for the

manufacture of fixed ammunition in Canada is now assured and the shell committee is in a position to go ahead with the filling of orders for many million dollars worth of loaded shells for the British war office.

It is probable that a similar provision will be announced later in regard to the refining of copper from Canadian ore in Canada.

Copper is also necessary for the manufacture of fixed ammunition.

Soldier at Vernon  
Killed by Jitney

The death occurred last Thursday afternoon of Private Thos. McKinley of the 54th battalion. On the previous Monday evening he was injured by a collision with a jitney driven by E. C. Willet. The accident occurred on Mission Hill, Vernon, just in front of the hospital and he was taken to that institution for treatment. On Thursday it became necessary to amputate his leg, and about half an hour after the operation he died from shock.

Willet was arrested on a charge of manslaughter and on Friday morning Dr. O. Morris, district coroner, opened an inquest.

From the evidence of Willet, and Privates Cameron, Dawson, Lawson and Derby of the 2nd battalion, all of whom witnessed the accident, it appears that about 9.15 p. m., on August 9 Willet was coming down with his car, a Cadillac automobile, from the camp. McKinley was going up the hill towards the camp, and opposite the hospital seemed to become dazed and ran in front of the car in such a way that though the driver swerved away from him as much as possible and put on his brakes he could not avoid hitting him. Willet said that he was coasting down the hill on intermediate gear and was going at the rate of about 8 or 10 miles an hour. Other witnesses thought he might have been running at a 12 or 15 mile pace. The witnesses seemed all of the opinion that McKinley was entirely to blame and that the driver had done all in his power to avoid hitting the unfortunate man.

Dr. Hamilton's Evidence  
The inquest was adjourned until Tuesday afternoon to get the evidence of Dr. Hamilton, who had been absent at Revelstoke. When in the witness box Dr. Hamilton said that he was the regimental surgeon of the 54th battalion. On the evening of the 9th he had been summoned to the hospital where he found McKinley with a broken leg. There were several abrasions on his face and chest. McKinley was very drunk. He had reduced the fracture, but next day the swelling was much worse. Wednesday night he had held a consultation with several other medical men, and they opened the leg, when they found that the main artery had been severed below the knee. On Thursday morning the leg was amputated, and shortly after McKinley died from shock. McKinley had enlisted in C company of the 54th which came from the boundary district. His next of kin were in Scotland, and had been communicated with by cable.

A verdict of accidental death was brought in by the coroner's jury.

G. Long is in charge of operations at the Ottawa, near Slocan City and has a crew numbering four men.

SCHOOLS OPEN  
ON MONDAY

A. H. Scriven Has Been Appointed Principal of High School—Two Vacancies

The public and high schools will reopen on Monday. All children living east of McKenzie avenue and south of the lane between Third and Fourth streets, including the east side of McKenzie avenue will report at the Selkirk school on Monday next. This includes those scholars of Miss Currie's class who attended the Central school last term.

A. H. Scriven has been appointed principal of the high school and arrived in the city yesterday. Mr. Scriven is a graduate in arts of Manitoba university. He has had 12 years' experience in school work in British Columbia.

Miss Baton will take the position of vice principal of the high school.

The vice principals of the Central and Selkirk schools have not yet been appointed. The teachers selected for these positions, one from Calgary and one from Ontario, were found to be ineligible for teaching in British Columbia under the regulations now being enforced by the department of education.

E. S. Martin, principal of Selkirk school and W. Hansen, principal of Central school, have arrived in the city. Mr. Martin comes from Nelson and Mr. Hansen from Nakusp.

Thanks for Donation  
to Hospital Fund

The following letter in acknowledgment of a cheque of \$50 sent by the Womens Canadian club to the Bess hospital fund has been received by Mrs. W. H. Sutherland:

Vancouver, Aug. 14th, 1915.  
Mrs. W. H. Sutherland,  
Sec'y, Womens Canadian Club  
Dear Madam:—

We are in receipt of your esteemed favor of the 13th, inst., enclosing draft for \$50.00, being a special donation from the Womens Canadian club of Revelstoke towards the 5th General Hospital C. E. F. fund.

The committee wishes to thank you and to express their appreciation to your club for this very substantial donation.

Yours truly,  
C. G. PENNOCK,  
Hon.-treas., Fund Committee.

Hollanders' Homesteads  
Protected by Government

T. J. Wadman, Dominion Lands Agent here, has been instructed by the department of the interior to protect, during their absence, the homesteads of Hollanders who are called home for military service in their own country. It is presumed that the Holland reservists are being recalled in connection with further mobilization of the army. The fact that Canada is going to protect their homesteads would seem to indicate that the Allies are satisfied as to the disposition of the Holland forces. Recent dispatches from New York suggested that Holland proposed to enter the war on the side of the Anglo-French entente.

The New York Mining Age says that the big furnace at the Greenwood smelter should give an output at the rate of slightly over 5,000,000 pounds of copper a year. A second blast furnace will no doubt be blown in very soon. This will bring the production up to double this figure. A third furnace is usually held in reserve, but with the prevailing high prices of copper, it is quite on the cards that an attempt will be made to bring this into operation, with a view of still further increasing the company's output. From a metallurgical standpoint, there is no necessity of keeping this furnace idle. Its utilization is only dependent upon an ample supply of ore. With three furnaces working, the company should be able to turn out between 14,000,000 and 15,000,000 pounds of copper per year.

Operating profits from one furnace would be at the rate of about \$30,000 per month, or, say, \$350,000 per year with copper at 20c. per pound, and estimating production costs at 12c. per pound. Two furnaces will, of course, double this figure.

STAVE MILL AND LUMBER  
ARE DESTROYED BY FIRE

Loss of Nearly Six Thousand Dollars by Blaze Yesterday Evening—Insurance of Three Thousand Nine Hundred Dollars—Cause Unknown

Fire which broke out in Sawyer Bros. stave mill at the corner of 6th street and Columbia river at 8 o'clock last night completely destroyed the mill, machinery, stock of staves and two piles of lumber. The loss is estimated at between \$5,000 and \$6,000, with \$3,900 insurance. The stave mill, building and machinery was insured for \$900; \$450 in the Norwich Union insurance company and \$450.00 in the Guardian insurance company for both of which the Revelstoke General Agency is agent. The staves, shed and lumber were insured for \$3000.00 in the Canadian Insurance company of which C. M. Field is the agent.

The fire brigade was quickly on the scene and did good work. The stock was dry and the fire had such a start that the brigade had great difficulty in confining the fire to one part of the yard. The sawmill and part of the lumber were saved. Showers of sparks fell on F. W. Laing's house and other neighboring houses but streams of water from garden hose prevented the buildings from catching fire. Three firemen were on duty all night and there is still a small fire burning.

The cause of the fire is unknown.

Funds Contributed for  
Gifts of Socks

A meeting was held at the Rectory on Friday afternoon of the ladies who were responsible for the expense incurred in connection with the gift of socks to the first draft of the 54th battalion for overseas service. The funds collected and donated were:

Womens' Canadian Club.....\$10.00  
Mrs. Cormier..... 20.00  
Mrs. Bews..... 3.00  
Mrs. Tomlinson..... 3.00  
Mrs. Blacklock..... 4.25  
Mrs. Robbins..... 2.00  
Mrs. Brown..... 1.75  
Mrs. Downs and Mrs. Hogan..... 5.00  
Mrs. F. Seamus..... 7.50  
Mrs. Proctor..... 5.50

Those present wished to thank through the press all those who gave to this cause. They must have felt, one of the committee said, that nothing was too good for those who go to fight the battles of the empire.

After settling the account ten days sooner than was anticipated, the balance is held as an emergency fund, which can be augmented for future use.

Spy is Arrested  
at Vernon Camp

A German spy who enlisted in the ranks of the 54th regiment at Vancouver by representing himself to be a Swiss reservist anxious to fight on the side of the allies, has been arrested and will be made the subject of a court martial. The arrest was made quietly in the camp. Many of the man's comrades were unaware of the arrest or that the man was in any way under suspicion.

It is said that the authorities have evidence of the most incriminating nature to submit against the man, which will show not merely that he is a German under an assumed name and nationality, but that since his arrival at Vernon he has been collecting military information and offering it for sale to Germany through the medium of a neutral mail.

The improvements and changes in and around the Ruth concentrator, at Sandon, are nearing completion and the management expects that the tramway to the No. 5 level of the Hope mine will be ready to handle ore by about the middle of the present month. The mill may be expected to begin operations about the fifteenth.

Ainsworth and Slocan district shippers to the Trail smelter for the week ending July 29 were:

Slocan Star, Sandon..... 75  
Ruth, Sandon..... 43  
Cork-Province, Zwicky..... 40  
Enterprise, Enterprise Idg..... 37  
Rambler-Cariboo, Rambler..... 37  
No. 1, Ainsworth..... 117  
Standard, Silvertown..... 251

VOLUNTEERS GO  
TO VERNONAnother Detachment of Ten  
Men Left Revelstoke This Morning

Ten more volunteers for active service left Revelstoke this morning to join the military camp at Vernon. They are: Samuel J. Young, A. S. Warren, A. H. Moorwood, William Ainslie, William Sutton, John Henry Maley, Reginald Johnson, Nathaniel Montgomery, Robert Stuart, Frank McLeod.

Last Thursday ten more recruits left for Vernon. They were: William Waddell, Ernest G. Jessop, W. E. Wilson, David Wilson, Wm. John Haywood, R. A. Carmichael, A. S. Warren, C. T. Corson, David Orde and W. F. Keir.

There are now remaining in Revelstoke four who have enlisted for active service and 18 who have recently joined the 102nd regiment for guard duty.

The following have enlisted for overseas service:

David Francis Harvie, born London, Eng., age 32, next of kin David Harvie, Craydon, Eng.  
Owen Davies, born Welsford, Wales, age 23, next of kin Edward Davies, Welshpool, Eng.  
George A. Allen, born Lemington, age 31, next of kin Florrie Allen, Revelstoke.

The following have enlisted for guard duty: J. Flockhart, Harry Galiciano, Graham Cocoroch, John F. Danron, Francis Beauchamp, William Shean, Gilbert Thomson, Chas. K. Hyatt, Peter Comozzi, Fred Oakes, W. J. Graham, W. Jepson, J. E. B. Beley, Robt. McLean, James McGivern, B. Ralig, James Henry Heffel, John MacKay, Geo. H. Lewis.

Examinations Passed by  
Officials of Y.M.C.A.

J. L. Hay, assistant secretary of the Y.M.C.A., returned yesterday morning from Montreal, where he was visiting at the home of Alan Thomson. While in the east Mr. Hay attended the Y.M.C.A. summer training school at Lake Couchiching, Ont., where 70 students were in attendance from associations from all over the Dominion. The course covered the following subjects: association principles, bible study, educational work, Bible pedagogy, association administration and special railroad seminars. Mr. Hay passed successfully in the final examinations. Mr. Harding, the Y.M.C.A. physical director also passed in the special course of studies for physical efficiency. On the closing day of the school, he also secured the bronze medalion in the Royal Life Saving society.

A. Thomson, general secretary left last night on No. 4 for his home in Montreal. He will break his journey at Kenora and attend the Winnipeg summer camp in the Lake of the Woods. Mr. Thomson will be absent from the city several weeks, visiting St. John, Halifax and other eastern cities. He will return via Cranbrook and assist for a few days D. M. Cowan, who was formerly assistant at Revelstoke and is now general secretary at the former point.

### BRITISH COLUMBIA'S OPPORTUNITY

In the passing of the order-in-council by the Dominion government, providing for bounties on zinc refined in Canada is to be seen one of the fruits of the persistent efforts of Mr. R. F. Green, M. P., to stimulate the mining industry of British Columbia.

The bounty will ensure adequate returns to the zinc refining industry until July 1917, in the event of the present abnormal prices suddenly falling, as a result of the conclusion of the war. It will give to the zinc refining industry an element of stability which should encourage the establishment of refineries.

British Columbia has immense zinc resources and the zinc refinery industry is one which, once firmly established, should have bright prospects. The high prices now prevailing for spelter are dependant upon the continuance of the war, and uncertainty as to the future has created a reluctance to invest capital in the zinc refining industry; for the conclusion of the war might have the effect of making the operation of newly established refineries unprofitable. That danger is now largely removed by the government's action and British Columbia has an opportunity of which she should lose no time in taking advantage.

### A SOURCE OF VAST WEALTH

The report of the Commissioner of Dominion Parks for the year ending March 31, 1914 has just been issued. It describes the development that has been accomplished in the national parks of Canada, and is particularly interesting in Revelstoke as indicating what the Revelstoke park is likely to mean to the city.

Especially significant is the statement of the vast sums spent in various parts of the world by tourists. The tourist traffic already brings the fourth largest returns from Canada's natural resources. With the inevitable expansion of the tourist traffic and with the development and increased attractiveness of the Revelstoke park, the result to the city of Revelstoke seems almost illimitable.

In discussing the revenues derived from the tourist industry, Mr. J. B. Harkin, Commissioner of Dominion Parks, says:

"To emphasize the commercial value of national parks, I think that it is worth while assembling, with the new material secured in that connection, some of the more important figures given in previous reports. In an earlier report I have shown:—

1. Annual revenue of France from tourist traffic \$509,437.00.
2. Annual revenue of Switzerland from tourist traffic \$129,000.00.
3. Annual revenue of Italy from tourist traffic \$100,000.00.
4. Annual revenue of Maine, U. S. A., from tourist traffic \$40,000.00.
5. Annual expenditure of American tourists in England \$25,000.00.
6. Expenditure of American tourists abroad in 1910, \$350,000.00.

"The United States Bureau of Statistics has made a calculation in regard to the amount of money spent abroad in 1912 by American tourists. On the basis of \$39,000 persons sailing from the United States in 1912, it is estimated that 400,000 were tourists and that each of these spent on an average of \$1,000 on the trip, making a total annual expenditure of \$400,000,000.

"It is calculated that from \$25,000,000 to \$30,000,000 is spent each year by tourists in the three great tourist cities, London, Paris and Berlin. Figures have been compiled by the

New England railway lines with respect to Tourist traffic in New England States, in these states there are 4,406 hotels and boarding houses capable of accommodating 221,141 people. In 1913 these accommodated 1,400,000 guests, and it is calculated the tourists spent there not less than \$100,000,000.

"Mr. W. T. Robson, organizer of the Canadian Travel Association, (formerly General Advertising Agent of the Canadian Pacific Railway), has prepared a careful estimate of the amount of money spent by tourists in Canada last year. His figures are \$50,000,000. Startling as it may appear, these figures place the value of tourist traffic in the fourth position with respect to revenue from Canada's natural resources. The comparison is:—

Field crops, Canada, 1913, \$509,437.00.

Forest products, Canada, 1913, \$161,093,000.

Minerals, Canada, 1913, \$102,300,000.

Tourist traffic, Canada, 1913, \$50,000,000.

Fisheries, Canada, 1913, \$43,070,000.

"The figures compiled are calculated to emphasize the tremendous commercial potentialities of the tourist traffic. Nothing attracts tourists like national parks. Therefore, national parks provide the chief means of bringing to Canada a stream of tourists and a stream of tourists' gold. With the natural attractions and wonders possessed by Canadian parks in particular and Canada in general, it seems obvious that a proper and adequate development of Dominion parks means that millions of dollars annually will be brought into Canada by tourists."

And it is worth remembering that while the timber, fishing or mining industries have the effect of depleting Canada's natural resources the tourist industry takes nothing from the natural wealth of the country. The scenery remains after the tourists have left the country. The country is richer and its resources remain undiminished.

### FROM THE SANCTUMS

#### AN EXPERIMENT

Regina Province—It would be an interesting experiment if every Liberal editor in Western Canada, or at least those who are continually vilifying Mr. Rogers, could be made to sit down and study an unbiased record of Mr. Rogers' public life and service and asked to place their fingers upon the discreditable portions of such a record.

#### MINISTER OF MINES

Mining, Engineering and Electrical Record—Now that Hon. L. Coderre is to resign as Minister of Mines, it is of the utmost importance to the mining industry of Canada that a minister having a practical acquaintance with mining should be appointed to the portfolio. The interests of the mineral industry have never been so well served as under the late Hon. W. Templeman, because he represented a province where mining is the most important industry and producer of wealth. The French-Canadian members know very little of, and cannot be expected to have much sympathy with, the mineral industry. The Minister of Mines should be a representative of the mining sections of Ontario, British Columbia or the Yukon, and if Sir Robert Borden wishes to give Canada the best government in his power as we believe he does, this consideration should weigh with him. Hon. R. F. Green, representing the Kootenay district of British Columbia, is being strongly supported for the portfolio.

### TOMORROW'S SERVICES

St. Francis church, McKenzie Ave. and Fifth street, Pastor, Rev. J. C. MacKenzie. Sunday services:—Low Mass at 8 a.m. and High Mass at 10:30 a.m. every Sunday. Sunday school for the children at 2:30 p.m., Benediction and Rosary at 7:30 p.m., Confessions Saturday 4 to 6 and 7:30 to 9 p.m. and Sunday morning 7:30 to 9. Week days—Mass every morning at 7 o'clock, Confessions before Mass. First Fridays—Mass at 8 a.m., Benediction and Rosary at 7:30 p.m.

#### ST. PETER'S CHURCH

Twelfth Sunday after Trinity; 8 a.m. Holy Communion 11 a.m. Matins Evensong, 7:30 p.m., sermons at both services by the Rector.

At both morning and evening prayer, prayers authorized by the Lord Bishop for war will be said. Sunday school at 2:30 p.m.

#### METHODIST CHURCH

Services 11 a.m., and 7:30 p.m. The pastor will occupy the pulpit. Morning theme: The spirit of Elijah; evening, Invisible reinforcements. Strangers always welcome.

### PRESBYTERIAN CHURCH.

In the Presbyterian church on Sunday Rev. J. W. Stevenson will preach at 11 a.m. and 7:30 p.m. The morning subject is "Fleeing from God," and in the evening "Hidden Care." Sunday school and bible classes will meet at 2:30 p.m.

### AT THE THEATRES

On Monday night the Rex will give as Country Store prizes four one dollar trade tickets for groceries. Drawings will be on numbers on this week's Rex Review, in the same manner as last Monday, patrons bringing their copy with them to the show. Next week's Review will be given free to adults the same night.

Exciting are the features on at the Empress theatre tonight. An elephant throws its trainer over a mile high cliff and a startling chase of the villainous trainer is made by an enraged lioness in the War of the Wild, in 2 parts. In The Torrent, millions of gallons of water sweep a village from the map. This great picture was witnessed by 50,000 people at Universal City. Also King Baggot in The Streets of Makebelieve and a Man and His Money with Pauline Bush. On Monday the Jungle Queen, 101 Bison, with Wm. Clifford, one of the best animal pictures ever produced in 2 big parts. Almost a King, Nestor comedy with Lee Moran. The Hissl Beyond. The Chef's revenge. On Tuesday The Sign of the Cross in 5 parts with William Farnum, one of the finest plays of the day. The Black Box will be here on Monday, Aug. 30. The great Universal serial with Herbert Rawlinson and Anna Little. Capt. Scott's expedition to the South pole and Harry Whitney hunting big game in the Arctic are coming next week.

### WILL THE WAR BE WON BY SHELLS

(The 'Nation,' New York)

Even so-called expert opinion on the war has a tendency to be carried away by the fad, the phase of the moment. At the beginning of the war, people thought only in terms of flank movements. Then the lines stiffened in France and Belgium and before Warsaw, and people thought only in terms of deadlock. The day for flanking operations was past. The possibilities of breaking through were over. Exhaustion was the key note until the Austro-Germans in Galicia shattered the Russian line on the Dunajec. They showed that breaking through was not a thing of the past; and by taking Russia's Carpathian armies in the rear proved that flanking operations are still to be reckoned with. Today the one word is shells. England's agitations and preparations have been interpreted as meaning that munitions are everything. It has become a commonplace to say that the war will be won in the armament factories. And the observant correspondent, who often observes what he is prepared to observe, has described the passing of the rifle, the passing of infantry in general, and the winning of battles as a mere perfunctory occupation by infantry of trenches devastated by heavy gunfire.

From all this one would imagine that the heavy gun and shell had played little part in the earlier phases of the war, and that heavy gun and shell will be the only decisive factor for the remainder of the conflict. Yet it is on record that a concentration of high explosive shell fire is by no means a guarantee of success. Take the highest estimate of Von Mackensen's display of force against the Russians in the first days of May. No less than four thousand heavy guns are said to have been ranged along a line of forty miles, or a hundred cannon to the mile. But it was this same Von Mackensen who was reported last winter to have trained five hundred cannon on an 8 mile front along the Bzura river. In Galicia the Russian army was shattered. On the Bzura the Russian line held firm. In the course of the fighting around St. Mihiel the French reports spoke of 4,000 German shells falling on a front of less than a mile in the space of an hour, but with little effect. The Crown Prince of Bavaria speaks of 35,000 French shells falling on a single regiment within 24 hours, and when the bombardment was over that regiment counter-attacked with success. We know that the English success at Neuve Chapelle was made possible by a heavy concentration of artillery, but it is also true that it was the German machine guns that saved Neuve Chapelle from turning into a disaster for the Kaiser.

General considerations will show that to attribute success in the field merely to shells is an error. It may be true that the German munition

factories are turning out shells more rapidly than the Allies. But it must also be true that Germany's position at the beginning of the war was stronger than it is today in the matter of guns and ammunition. Otherwise what becomes of the argument of preparedness? German superiority to the allies in the matter of guns and ammunition at Ypres in November must have been easily as decisive as it is today; yet the Germans were stopped at Ypres in November. For that matter, if shells alone are the determining factor, why does not Germany now drive through the British lines in the direction of Calais? After all it is in the west that the war must be decided. The common argument is that when Russia is disposed of the Germans will turn their attention to the British and French. But this apparently means that Germany is willing to let England have several months' breathing space for the manufacture of shells, expecting to counter against allied ammunition with German masses of men.

The truth is that men as well as guns counted in the Austro-German victories in Galicia. Behind the guns were the winter trained troops, a new army which Germany had a choice of using in the east or west. She chose Russia because that was the weakest line of resistance, because the chances for a great sweep were much brighter in Galicia than in the west and a great forward movement was necessary to stimulate public sentiment at home and shape neutral sentiment in the Balkans. Against the Allies in the west, guns or no guns, Germany could not hope for anything like a decisive advance; and for the simple reason that in the west she had to reckon with superior men—both in numbers and fighting efficiency. Russia in Galicia was not only outmanned, but outnumbered. She had against her, from southern Poland to Bukovina, no less than eight or nine German and Austrian armies, at least a million and a quarter men, and probably a million and a half, and to oppose them she had less than a million.

With regard to the situation in England there has unquestionably been a great deal of exaggeration. From a shortage of ammunition the correspondents, professional and amateur, have gone on to speak of no ammunition at all. They have pictured the British sitting helpless in their trenches under German fire, unable to make reply. This is absurd. What England is actually agitated about is not a shortage of shells for her present battle-line, but an adequate supply for the immense new armies she is creating. Where is the British army? The Germans ask now as they did during the first days of the war. Of that army a million is now in France, probably, and other millions are still drilling. If no British advance in force is attempted, the reason may not be altogether one of munitions, important though that may be. There are indications that British policy is against any attempt by a portion of her full available strength. If the Germans are to be pushed out of Belgium, the attempt must be made by vast numbers and the attack must be sustained. A thoughtful article in the London 'Nation' some weeks ago called for the creation of a 'phalanx,' a heavy mass of men, a huge human battering ram such as the Germans drove against the Russians in Galicia. Such a phalanx is unquestionably now in the course of formation in northern France, and it will be made up of men as well as guns.

GOOD POLICY

It's good policy to think of the future. It's still better policy to provide against the misfortunes it may have in store for you. The surest way of protecting yourself and family is a

## Notes from the Mines

A car of ore is being shipped from the Trinet, just back of Ainsworth.

Good ore continues to be taken out of the Grant claim on Woodbury creek.

Steve Cleveland is preparing to pack ore down from the Martin, on Flint creek.

It is rumored that upwards of a hundred men will be put to work at the Lucky Jim shortly.

Henry Cody went up to 10-Mile yesterday to do some work on his claim on the Blue Yidge.

Road Superintendent Finland was in Ainsworth the first part of the week and reports the mining outlook there as steadily improving.

John McLeod has made a deal for certain claims in which he and Dr. J. F. B. Rogers are interested. They are situated in East Kootenay.

Supt. Chas. F. Sherwin of the Bluebell, was in town the first of the week and while here made the pleasing announcement that he expected to be putting on a full force of men by the latter part of this week.—Kaslo Kootenaiian.

A. T. Garland has received from Mrs. Barner of Sandon a couple of samples of ore from the Black Grouse on the North Carpenter, which was the scene of a recent sensational strike by Mr. Barner and Ray Hughes. One of the samples is liberally splattered with bunches of native silver while the other appears to carry its values in grey copper.—Kaslo Kootenaiian.

This is proving to be an unusually busy packing season for the outfit operated by S. J. Towgood of Sandon, and considerable additional stock has had to be secured to take care of the business offering. The Alps-Alturas, above Three Forks and located on the North Carpenter, is said to be furnishing a considerable packing tonnage, while the Mountain Con, on the south fork of Carpenter gives promise of being a big producer for the rest of the season.

Ore receipts at the Trail smelter from Ainsworth and Slovan district during the week ending August 5th were:

Mine	Shipping Station	Tons
No. 1, Ainsworth	.....	416
Standard, Silvertown	.....	506
J. L. Retallack & Co., Retallack	.....	22
Utica, Adamant	.....	36
Cork-Providence, Zwicky	.....	69
Molly Hughes, New Denver	.....	18
Rambler-Cariboo, Rambler	.....	42
Wellington, Zincton	.....	7
Helen, 13-Mile	.....	7

The completion, about a month ago of a crosscut tunnel connecting the east and west veins of the Utica mine, has made much better ventilation a reality in the workings of the latter, and during the past week the necessary piping has been installed to provide air for drills which are to be set to work there. This will result in a more thorough exploitation of the west vein, upon which the footwall has never yet been reached, the ore body so far being worked on lying close to the hanging wall.

Great activity in the building line prevails around the Cork-Providence, the mine sawmill, under the direction of A. F. Billings being busily engaged in turning out all kinds of lumber for building construction purposes. A stable has been erected and an addition made to the present cook house and bunkhouse, giving more dining room accommodation, and providing a comfortable sized engineering office up stairs. A wash house and bath house is under construction and an eighty-foot bunk house is planned. A set of big scales, capable of weighing the wagons, as they come loaded from the concentrator, is also being put in.

Last week Wm. Patterson of Chicago was in the city. He is the secretary of the Greenwood-Phoenix Tramway Co. This is the company that began the driving of a big tunnel from Greenwood to Phoenix a distance of three miles. Work was suspended some years ago after the tunnel had been driven over 3,000 feet. The company will hold a meeting in Chicago about the 1st of September to arrange plans for the immediate resumption of operations upon this great enterprise. At first only one shift will be employed. The big tunnel is a favorite speculation with the Chicago men, and they say that it is a crime not to reach the contact. The resumption of operations at this tunnel means a great deal to the Boundary district and the entire province.—Greenwood Ledger.

A bull jig is being installed at the Cork-Providence mill.

S. Cavanaugh has secured a renewal of his lease on the Silver Cup.

Much prospecting and development work is in progress around Ferguson.

A contract has been let to John Cechiero to drive 150 feet of tunnel at the Hartney, near New Denver.

## WORLD NEWS TERSELY TOLD

A considerable decrease in consumption of liquor, tobacco, cigars and cigarettes in Canada is reported for the last fiscal year.

Chief of police Glasenapp, of Cologne, Prussia, has been appointed to the head of the police department in the conquered city of Warsaw.

Gen Benjamin F. Tracey, the eminent soldier and lawyer and one of the 'grand old men' of the United States died in Brooklyn, N. Y., on August 6 aged 85 years.

A statue of Bismarck, weighing 900 pounds, has been brought to Moscow by the Russians. It was taken on the Kaiser's estate in East Prussia and since has been kept in the Baltic provinces.

News has been received from Brussels that the celebrated Belgian explorer and missionary, Father Cambier, has been condemned by the Germans to fifty months in prison for a sermon on 'Belgium's Martyrdom.'

The final figures given out in Chicago by the Western Electric company show that 981 persons lost their lives in the steamer 'Eastland' excursion catastrophe. The identified dead are 838, unidentified dead two, and the Western Electric company verified the final list of missing as 141.

The Rev. Dr. John Scrimger, principal for eleven years of the Montreal Presbyterian college, died suddenly at his summer residence in Bic, Que., on August 19, aged 66 years. The principal was one of the strongest advocates for church union which has been so long discussed in Presbyterian councils and throughout Canada.

The housewives of Berlin were officially notified on July 31 that all copper, brass and nickel utensils were confiscated for the armies. It was added that thereafter the selling, exchanging or disposal by other means of any such articles was forbidden under severe penalties.

Mr. McKenna, Chancellor of the Exchequer, told a meeting at Preston last week that the labor of a million men will be required to insure the predominance of the British fleet at sea. Great Britain was spending upon the navy nearly half a million pounds (\$2,500,000) daily in excess of what was spent in peace times.

A sworn affidavit, produced in court in London last week during the hearing of the meat cases before a British prize court, gave an estimate by Major Eric Dillon, a member of the British General Staff, which he says is approximately correct, showing that the number of persons serving in the German army and under the control of German military authority aggregates 10,000,000.

Bonar Law, the colonial secretary, reviewed on August 4 the officers and men forming the second division of the Canadian expeditionary force and the contingent to provide reinforcements for the troops from the Dominion already at the front. Every province of the Dominion were represented in its splendid fighting force. The assembled troops were reviewed in two parts, the first at the Bargrove farm, on the Beechborough estate. Gen. Hughes, the Canadian Minister of Militia, was present.

The Belgian government has published a second grey book containing various documents relating to the war, and apparently with the purpose of refuting documents recently published by the Germans alleged to have been found in the State archives at Brussels and purporting to have been written by the Belgian minister to France. The charge that Germany proposed to France that Belgium be crushed four months before the war broke out is contained in the book. According to this document, Dr. Von Jagow, the German Foreign Minister, proposed to the French government in the spring of 1914 that the Congo Free State be partitioned and Belgium suppressed as an independent nation.

The Stovall bill prohibiting the sale of alcoholic liquor in Georgia, was passed by the state senate on August 3, the vote being 35 to 3.

Officers' casualty lists from July 19 to July 30 show that the British army lost 115 killed, 236 wounded and 14 missing, a total of 365. This brings the aggregate officer loss since the beginning of the war to 13,656, of whom 4,176 are recorded dead, 8,385 wounded and 1,175 missing.

An order in council has been issued in London forbidding the exportation of coal and coke, except to British possessions and protectorates. The export of coal heretofore has been restricted to the British possessions and to countries which are allies of Great Britain. The new ruling eliminates all the allies.

Seven persons have been killed and many injured by an enormous land slide which swept the village of Ragogna, on the Simplon line, in Switzerland. The village was almost completely wrecked by the falling bank of earth and stone, which measured half a mile in length. The tunnel this point was endangered.

Miners in the Mons region of Belgium are on strike and a clash with German soldiers is said to have resulted in the death of two of the military and seven miners. Disorders are also reported at Charleroi, a result of the high cost of food, due to the pillaging of the shops. German troops are said to have charge a crowd of civilians, killing ten and wounding forty. Four battalions of Landsturm have been sent to Mons and Charleroi.

Reports of Kurdish atrocities in Armenia near Bitlis state that 9,000 men, women and children have been massacred there. Mutilated bodies now strew the banks of the Tigris. In the region of the upper Euphrates also thousands of Armenians have been killed. The British army now ascending the Tigris and Euphrates is still far from the scene of these atrocities, but it will unquestionably push on all the more vigorously because of them in the hope of saving some part of the Christians of Armenia from their bloodthirsty foes. Twenty thousand of the people are homeless.

Henry R. Alley and a young son, Miss E. M. Lawson and a nephew, Angus, aged twelve, and Beverley Swabey, all of Toronto, were drowned on August 5 through an auto with curtains tightly buttoned down owing to heavy rain, skidding off a bridge near Uttersen, Muskoka, into 26 feet of water. They were passengers in the last automobile—a touring Ford—of a five-car holiday excursion party. Hastening homeward in the rain, the car struck the 600 foot floating bridge over the north end of the Long Lake, slued half way over, crashed through the four-foot railing and plunged down into the water.

Senhor Bernardino Machado was on August 4 elected by congress president of the Republic of Portugal. Machado, who was supported by the two principal parties, was elected on the third ballot by a majority of the 379 members present. The new president is popular with all classes in Portugal, has been prominent for years in the public life of Portugal, having served his country as premier, Provincial Minister of Foreign Affairs, Minister of the Interior, and Minister to Brazil. He has been considered the foremost man in the Republic party, and before the overthrow of the monarchy was regarded as the logical choice of that party for the presidency. In January 1908, he was accused of conspiracy against the Crown, but the charges never were proved.

If the news published in Washington describing the new British motor patrols is correct the German submarine will be less of a menace in future. The motor patrols have been spoken of as 'whippets,' a whippet being an extremely fast dog of the greyhound type used in coursing. The

WHEREAS proof of loss of certificate of Title No. 75340 E, to the above mentioned lands issued in the name of Gordon Scafe has been filed in this office, notice is hereby given that I shall at the expiration of one month from date of first publication hereof issue a duplicate of said certificate of Title, unless in the meantime valid objection be made to me in writing.

Dated at the Land Registry Office, Vancouver, B. C. this 7th day of August, A. D., 1915.

ARTHUR G. SMITH  
District Registrar.

#### SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion

in Manitoba, Saskatchewan and Alberta, the Yukon territory and the Northwest territories and in a portion of the province of British Columbia, may be leased for a term of twenty-one years renewal for a further term of 21 years at an annual rental of \$1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, rescinded by Chap. 27 of 4-5 George V. assented to 12th June, 1914.

For full information application should be made to the secretary of the Department of the Interior, Ottawa, or to any agent or Sub-Agent of Dominion Lands.

W. W. CORY,  
Deputy Minister of the Interior.  
N.B.—Unauthorized publication of this advertisement will not be paid for.—83575.

## BRIEF LOCAL NEWS

V. Tomlinson left yesterday on a trip to the coast.

G. Keatley of Vernon registered at the King Edward hotel on Friday.

Miss V. Riddell of Kaslo was at the King Edward hotel on Thursday.

E. H. King of Armstrong registered at the King Edward hotel Thursday.

Mrs. H. Spencer of Field was a guest at the King Edward hotel on Thursday.

David Lush, Jr., of Kamloops, registered at the Hotel Revelstoke on Thursday.

R. F. Green, M. P., has been appointed honorary lieutenant-colonel of the 107th East Kootenay Regiment.

J. Maglio, Miss A. DeTroi and Adeline DeGirolans of Nelson were guests at the King Edward hotel on Thursday.

Miss Ida Wilcox who is on the nursing staff of the Queen Victoria hospital at Revelstoke, is home on a vacation.—Salmon Arm Observer.

Jessie Kimball, the young school teacher from Alberta, who was arrested in Vancouver following the death of her child, has been committed for trial on a charge of murder.

Lieut. Brock arrived in the city on Wednesday night from Kamloops and left yesterday morning for Edgewood where he will be one of the officers in charge of the internment camp.

M. J. Crehan, senior partner of Crehan, Martin & Co., chartered accountants, Vancouver, is visiting the city on professional business. Mr. Crehan is accompanied by Mrs. Crehan.

Mrs. J. R. A. Richards underwent a serious operation at the Revelstoke hospital yesterday. We hope she will soon be on the road to recovery and be amongst us again.—Salmon Arm Observer.

Among the tourists at the King Edward hotel on Thursday were Mr. and Mrs. J. Murphy of Spokane, Maude Stevens and Beth Waber of Kalamazoo, Luella Powers of Sterling, Ill., Mr. and Mrs. F. T. Brogh, Clara Brogh, O. Nelson, Mabel Nelson of La Crosse and D. J. Dean of Quincy, Ill.

Charged with being drunk and disorderly a woman appeared before Mayor W. A. Foote in the police court on Thursday and was sentenced to six months in Kamloops jail. Sentence was suspended on the understanding that defendant would be sent by her relatives to a home in Vancouver.

R. F. Green, M. P., on Monday headed a deputation of directors of the company which has been formed to try and establish a smelter which will use the French electrolytic process of treating zinc ores, which waited upon Sir Richard McBride and asked for assistance from the government. The process has already been demonstrated on a small scale at the Trail smelter and at the Standard mine at Silverton, but in view of the pressing demand for zinc ores it is now thought timely to attempt experiments on a more comprehensive scale. It was urged upon the government that arrangements be made so that a small unit might be erected at Nelson. The promoters have every confidence that this small unit would show that the process can be made a commercial success. The premier promised consideration.

## EMPRESS THEATRE

## PROGRAM

TODAY—The War of the Wild, starting chase of villainous trainer by an enraged lioness in which elephant throws trainer off mile high cliff, fine jungle picture, 2 parts. The Torrent, millions of gallons of water sweep village from map witnessed by 50,000 visitors. Her friend the Milkman. A Man and his Money, with Eddie Lyons. King Baggot in the streets of Makhelieve.

MONDAY—The Jungle Queen. 101 Bison, with Wm. Clifford, one of the best animal pictures ever produced, 2 parts. Almost a King, Nestor comedy, with Lee Moran, 2 parts. In the Hills Beyond, with Sydney Ames. The Chef's Revenge, Sterling comedy.

TUESDAY—The Sign of the Cross, 5 parts. Famous Players, with Wm. Farnum, one of the finest plays of the day. Remember Tuesday.

The Black Box, the great Universal detective serial will be here on Monday, Aug. 30th. Capt. Scott's expedition to the south pole and Harry Whitney hunting big game in Arctic, coming next week. Watch for dates.

A. Styer of Spokane was at the Hotel Revelstoke on Thursday.

W. J. Smith of Notch Hill was at the King Edward hotel on Thursday.

A. Styer of Waltham was a guest at the Hotel Revelstoke on Thursday.

Mrs. F. T. Bradshaw and family returned yesterday from a month's visit to the coast.

Among the guests at the Hotel Revelstoke on Thursday was Miss W. France of Vancouver.

H. Lougheed and son of Revelstoke visited his brother-in-law, W. Green, this week.—Salmon Arm Observer.

Mr. and Mrs. C. R. Macdonald and Mr. and Mrs. W. B. Farris returned on Monday from a visit to Chase.

Corp. W. E. Shuttlewood of the base hospital staff returned on Thursday to Victoria after a visit to his family.

A. B. McCleneghan returned yesterday from an automobile trip to a point 68 miles south of Spokane during which he covered 1200 miles.

J. A. Darragh, father of Mrs. R. Smythe, and a well known mining man, was in the city yesterday on his way to visit his mining properties at Fish Creek.

Lieuts. Brock and Harvey together with a number of the 102nd regiment R. M. R., left this morning to undertake duties at the new German detention camp at Revelstoke.—Kamloops Sentinel.

The Right Rev. Bishop de Pencier, Bishop of New Westminster and chaplain and captain of the 62nd battalion, arrived in Vernon on Saturday to take up his duties at the Central Mobilization camp.

Among the tourists at the Hotel Revelstoke on Thursday were Miss White of Spokane, Mr. and Mrs. E. H. Wood of Ithaca, N. Y., Florence Phillips and Gertrude Bishop of Medina, Ohio, and Miss Mary E. Volstruff and Miss Eunice Southard of Elgin, Ill.

The soiree and dance under the auspices of the Red Cross society for the purpose of raising money for the British Columbia base hospital which was to have been held yesterday will be held on Monday. In the event of the weather not proving suitable the entertainment will be held in St. Francis hall.

The following articles were shipped to Toronto this week by the Red Cross society: 1500 month wipes, 500 wash clothes, 60 hemmed handkerchiefs, 46 5 inch bandages, 36 4 1/2 inch bandages, 24 4 inch bandages, 24 3 1/2 inch bandages, 72 3 inch bandages, 12 assorted bandages, 13 T bandages, 6 triangular bandages, 39 extra large pads, 2 large bed pads, 4 abdominal bandages, 180 large pads, 180 small pads, 350 compressors, 1800 sponges.

The funeral of the late M. McLennan, fireman, who was killed when train No. 3 ran into a rock slide near Golden on Wednesday morning, will be held from Howson and Co.'s undertaking parlors tomorrow morning. The funeral will be under the auspices of the Brotherhood of Locomotive Firemen and the service will be conducted by Rev. J. W. Stevenson. The remains will be shipped on train No. 2 tomorrow to Kirkhill, Ont. Mrs. McLennan with the family will accompany the body east.

The following work for the Red Cross Society has been contributed: Mrs. Gale, Mrs. Glasgow, Mrs. Sibbald, Yew Ching, Mrs. W. Morris, Mrs. Kilpatrick, Mrs. Downs, Mrs. Corkhill, Mrs. C. Davenport, Mrs. Corlimer, Mrs. J. C. English, Mrs. F. Paulding, Mrs. T. Sturdy, Mrs. Purvis, Mrs. Kincaid, Miss Woodland, Mrs. Murray Hume, 1 pair socks each; Mrs. R. W. Heard, three pair socks; Mrs. McKecknie, Arrowhead, Mrs. Flockhart, Mrs. S. S. Crowe, Mrs. Youill Ross, 2 pair socks each; Mrs. J. D. McDonald 4 pair socks, Miss Elsie Davenport aged 13 years, and Myrtle Lytle aged 13 years, one pair socks each.

On a charge of vagrancy and gambling Joe Erar and Mike Kodcer were found guilty and on Thursday were sentenced by Mayor W. A. Foote to a fine of \$25 and costs. On a charge of assault preferred by Harry Smith, they were each found guilty and fined \$20 and costs. C. E. Gillan appeared for Smith and W. I. Briggs for the defence. According to Smith's evidence the men arrived in the city from the tunnel. Smith played poker with defendants. He swore that cards were marked and he lost \$30. He left, but afterwards returned to the room and broke in the door. A fight started in which beer bottles were freely used as weapons and Smith received a cut on the head. Kodcer and Erar were afterwards arrested.

Mrs. Beeston of Nelson was a guest at the Hotel Revelstoke yesterday.

Mr. and Mrs. W. T. Well of Milbourne, Colo., were guests at the King Edward hotel on Thursday.

Miss Dorothea Lytle returned home this week after spending the holidays with friends in Vancouver and New Westminster.

The Presbytery of Kamloops will meet in Pentecost on Tuesday next. Rev. J. W. Stevenson, clerk of the Presbytery, will attend.

A serious accident happened on Friday morning of last week to Capt. Gore, superintendent of the Canadian Pacific Railway Lake and River Service. He was getting out of a refrigerator car, which he had been inspecting at Okanagan Landing, when his foot slipped and he fell to the ground breaking both bones of his leg above the ankle. He was at once brought up to the Vernon Jubilee hospital, where all possible attention was given him without delay, and he is now progressing as well as possible. The many friends of the popular C. P. R. official in all parts of the country have deluged him with messages of sympathy and regret.—Vernon News.

The weekly meeting of the Red Cross society was held at the Y. M. C. A., on Wednesday, the president, Mrs. Kilpatrick was in the chair. The final plans for the garden fete to be held on Mrs. Kilpatrick's lawn on Monday were arranged. There will be ice cream, lemonade, candy and refreshments for sale to help on the good work. The society wish to make it known that the tags issued from coast headquarters for the raising of the B. C. base hospital fund, will be sold on Aug. 23 and will be used as tickets of admission to the grounds, concert and pavement dance. Each badge must be worn or presented. It is desired to acknowledge with thanks the sum of \$2 monthly donation from Mrs. J. L. Smith.

## Queer Tomatoes are at Farmers' Market

One of the features of the farmers market this morning was an assortment of tomatoes having the shape of small fruits such as pears, plums and cherries. They were offered for sale by W. E. Smith. Prices prevailing at the market were pork 20 cents per pound, dressed chicken 25 cents per pound, butter 40 cents per pound.

## Machine Gun Fund is Still Growing

The machine gun fund is still growing, a cheque for \$10 having been received yesterday from W. Boyd of Halcyon. The fund now stands:

W. Boyd	\$10.00
Previously acknowledged	\$45.50
<b>Total</b>	<b>\$55.50</b>
