REVELSTOKE SIXTH FALL EXHIBITION

September 16th, 17th and 18th, are the days set aside for Revelstoke's greatest annual event, the Fall Fair and Exhibition.

After weeks of preparation and care, the program and prize list has been completed, in a few days it will be in the hands of the public.

Readers of the Mail-Herald will have ample opportunity to pursue same, as it is the intention to reproduce with full detail in an early issue of this paper.

A preliminary glance through the 32 pages of the prize list suffices to prove that both as regards value of the awards, and variety of classes, the 1913 list registers a great improvement over that of even last year, whilst it is at least double the size of the one issued during the first three years of the Exhibition .

For many months, the secretary and executive of the Association, assisted by a committee representing every section of exhibitors, have been at work, codefying, unifying and bringing up-to-date, the official program. The experience of previous years has been throughout taken every advantage of. Redundent classes or sections have been cut down or eliminated entirely, whilst recent advances and discoveries in the agricultural and stock raising industries are recognised by the inclusion of a very large number of valuable prizes offered for new and modern cultures of fruits, field and garden productions.

Any interested party, who goes more deeply into the pages of this program, will be struck by the increased care displayed in the arrangement, classifying and indexing of the various classes of exhibits. All loosely or carelessly worded paragraphs have been edited, and made absolutely clear and distinct; nothing is left to chance, everything is set out in the clearest language with a minimum of verbosity. Thanks to the alteration of the dates, which brings the fair nearly a month earlier than last season, contestants in the floral section and others, are given a much better opportunity of competing on equal terms and at the time their exhibits should be seen at the very best.

It is hoped to carry the complete program in our coming Saturday issue, when readers will have plenty of opportunity to notice for themselves the features to which we have directed attention.

WILD BUFFALO FOUND

There are yet vast areas in northern Canada consisting of stunted forests and open grasslands and muskeg, of which practically nothing is known save what can be gathered from the trappers and explorers, who have penetrated this northern wilderness. Such a country exists on the extreme northern boundary of Alberta to the west of the Slave river, and from this country have come rumors of large bands of wild buffalo, the only remnants, not in captivity, of the great herds which once roamed the Western plains.

To verify these rumors and to take steps to prevent the extinction of these herds, the Forestry Branch of the Dominion government sent out an investigation party, working under the direction of Mr. A.J. Bell, the government agent at Fort Smith in the North West Territories. The report sent in reads like a book of adventure and will be contained in the Annual Report of the Director of Forestry, which will shortly go to press.

The existence of at least three herds of buffalo was proved, each herd consisting of bulls, cows and yearlings to the number of about forty-five. In appearance they closely resemble the plains buffalo, of which they are remnants, but being forced by necessity to live in the hilly wooded regions remote from settlement, they have changed their habits somewhat, and are fleeter of foot and more agile than their ancestors of the plains. In summer they may be found in twos and threes, roaming through the birch woodlands, but in winter they travel in large bands for greater security against the wolves. In winter when passing from one feeding ground to another, they travel in single file through the snow, making a narrow trail on which the snow is packed as hard as rock- When they come to a grass-grown slough or meadow they stay there until all the feed is exhausted and the whole area is completely trampled down. Unlike the western horses, the buffalo uses its huge head as a shovel and scatters the snow in clouds in order to reach the grass beneath. When alarmed the old bulls stand on guard in the rear, while the cows and yearlings make good their escape.

Several pictures of the wood-buffalo were obtained. The Indian Chief, Pierre Squirrel, who accompanied the party and who is most familiar with that region, estimated the number of the buffalo there to be at least two hundred. Their worst enemy, at present, is the timber wolf and attempts will be made to exterminate this destroyer by raising the bounty in this region.

The Annual Meeting of the Revelstoke Hospital Society will be held in the City Hall, Revelstoke, on Tuesday, Aug. 19th, 1913, at 8 p.m.

W. D ARMSTRONG.
Secretary.

PRESENTATION PIANO HAS ARRIVED

The Presentation Piano offered by the Lawrence Hardware Co. in their voting competition, has arrived and can be seen in their store window.

We publish the standing of contestants in another column dating up to Wednesday, Aug. 6th. It will be noticed that the competition is keen and several contestants are very close together. Two other prizes are offered in this contest. The 2nd prize is a fine sewing machine and the 3rd prize a case of silverware. The contest runs for over four months yet and any lady can join in by handing in her name at the Lawrence Hardware Co. office.

PUBLIC BAND CONCERTS

The G. Verdi Band will hold their first band concert in the new stand, corner of Orton avenue and Second street, on the 15th and on the 19th August the musicians will be heard in the lower town. These concerts are the first of a regular series which will be given during the balance of the season. The public and citizens are cordially invited to attend. The entertainment has been made possible by the generosity of certain private citizens who have erected at their own expense a bandstand for the accommodation of the musicians, whilst the Verdi band it is understood, are giving their services.

OBITUARY

At 2 p.m. on Tuesday, the funeral of the late Mrs. E. Cook, left Howson's Undertaking Parlors for the cemetery.

Pall bearers were T. W. Bradshaw, E. G. Burridge, T. P. Smith, F. W. Terry, James Mathie, and A. E. Kincaid, all Past Chancellors of Gold Range Lodge K. of P., of which order husband of deceased is a life long member, whilst Mrs. Cook was a past chief of the Pythian Sisters.

Beneath a dull grey sky, the sad procession, followed by many prominent citizens of Revelstoke and district and including a large number of ladies wound their way to the quiet cemetery where Rev. Stevenson performed the last rites. Mr. H. Cook, husband of deceased with the two daughters and son, all of whom reside in Revelstoke were present as principal mourners.

The coffin was covered with beautiful floral offerings, including wreaths from the Gold Range Lodge K. of P. the Pythian Sisters, relatives, and a large circle of friends of deceased.

CORONER'S INQUEST PROBE HOTEL FIRE

Evidence Indicates Thomas Sandford Perished.---Points to Fire Having Incendiary Origin.---Further Important Witnesses Will be Examined.

On Monday night, August 11th, in the City Half, Coroner Dr. Hamilton held an inquest and inquiry into the City hotel fire.

The jury consisted of Messrs. J.M. Hume, W.A. Sturdy, A. E. Kincaid, K.G. McRae, A. Hodson, foreman, and Mr. J. Dickson.

Coroner Dr. Hamilton called over the jury and explained the object of the inquest as being principally to arrive at the cause of the death of a man supposed to be Thomas Sanford, and to go thoroughly into the cause of the fire.

City Solicitor McCarter was present representing the city council.

Harold List, night clerk of the City hotel was the first witness. List sworn, stated in part:

I was night clerk at the City hotel, on the night of the 4th and morning of the 5th. I was in the office at 2 a.m. someone came running in and said the building was on fire. I saw nothing until Mr. Hillman spoke; I kicked at all the top floor doors as far as I could go; I saw the fire, it had made good headway; some men were sleeping on the top floor, although no rooms were rented on that night. Lumberjacks sometimes without money slept on the top floor, two came out when I kicked. I saw no evidence then of fire elsewhere; five minutes after I saw fire in the baggage room downstairs. I do not know if it were possible for the fire to have spread from the baggage room to the top floor the distance is 70 feet. I did not see any fire between the two points I helped one man out with his trunk. Sanford had been around several nights, I saw him the same night, he was apparently sober when I saw him Ithink there was time for everyone to get out after I gave the alarm there was no fires in the building that night. None in the kitchen; the bar was locked; the fire in the south west corner, and the baggage room fire might have spread; the fire originated at the top, in my opinion; I could not swear Sanford was in the building at the time of the fire; I saw him last in the afternoon; I do not know how many men were on the 3rd floor. I do not know whether the back doors were locked or not. I was excited, I did not see any fire on the second floor; The whole baggage room was ablaze. I saw no one except Hillman.

John Daley, sworn, said in part—I was on the front porch of City hotel, Aug. 4th, with two men who came up from lower town: I saw the fire in the 3rd floor and gave the alarm. I told the hotel swamper there was a fire in the 3rd floor; we woke the clerk Icame down stairs; the fire broke out in the baggage room. The baggage room fire seemed to start from the wall; there was no connection between the third floor fire and the fire in the baggage room. I could not room at the City as the hotel was full; I was asleep, there was no one in the bar; I came up from old town and stopped awhile at the City; I saw the whole fire I saw a man come out on the verandah and the flames drove him back in; he threw his boots and coat down and ran back into the fire;I did not know the man; two fires broke on the third floor and in the baggage room at the bottom floor as I saw them.

Mrs. J. Caley—I was asleep, my son in-law woke me up, saying "the hotel is on fire" I got the children out; Mr. Ross turned the alarm in; the alarm was not turned in for quite a time after I was waked; I went to bed at 11:20 p.m. Mr. Cayley was in bed ahead of me; when I got out the whole hotel was apparently in flames; John Caley was in Arrowhead;I woke Bob up and was down first myself; I never heard of any remarks about burning the place down. I cannot say whether the back door and stairway leading to the second floor was locked; I had not been in the hotel; I was called about 10 after 2; Arthur called me ,I woke Bob and we ran over to the hotel.

George Ross said in part—I live on Second street across from hotel. at 2 a.m. I was awakened by my wife saying "The City hotel is on fire" I rang in the alarm; and watched the fire, the fire was on the third floor when Ifirst saw it; later I saw flames pouring out of the baggage room. I did not see anything of a man on the second floor. I saw the fire on the top floor on the one corner and the baggage room fire in the other extreme bottom corner of the house. I do not think there could possibly be any connection between the two fires. The alarm sounded as soon as I turned it in.

W. A. Foote, sworn—I am chief of the fire brigade; shortly after 2 am.m Aug. 5th, the alarm was turned in, by the time I got down the water was on the top door was burning and the baggage room was in flames; I went up the ladder and all round the room and found no one although I had been told a man was up there, the smoke was so thick I could not go into the hall. I had to get out; had hard work getting out; we could not save the building, it struck me as being two separate fires; it would be utterly impossible for the two fires to have spread from one, the water worked fairly well.

R. D. McDonald—I am assistant chief I heard the big bell, went down to the fire; laid our hose, put water on. were informed there were men on the second landing; man attempted to get up two short ladders, smoke drove him back. The chief arrived with the long ladder and he went up; we started the water on two fires in separate streams, there was no fire in the center of the building. I did not see a man on the verandah; the fire appeared to be in the third floor; the alarm system was in good order.

Amos Parry, sworn—I called at the City hotel 1 a.m. the night of the fire, I left there and went home to bed I woke the room was all alight, the Caley hotel was on fire, all was quiet the first time I was at the hotel; I saw nothing wrong, I walked past the the baggage room, two men were sitting outside. The clerk told me Tapping was away and I went home. It was about 1 a.m.

Geo. Smith—On the night of the 4th I was at the hotel; I slept at the hotel; I went to the hotel and to the room. I have stopped in all winter, it was locked. I saw Mr. Tapping and he put me in the inside room of No. 9, I went down stairs and sat outside, later I went up to bed; I heard a holler, fire. I rushed out and down stairs I ran out saw the fire in the far corner ran up stairs again; I woke old Peter and all down the gangway, took my clothes out of the room, two other men were in the other room; I went down and back again, up to call John ney Livingstone in room No. 1, he passed me on the gangway; I went down; then the alarm rang I saw a man on the verandah, he was a big tall man; bald, with a moustache. I did not know him, but saw him around the hotel on various days; he was know as Tom; the coat and shoes produced look like the coat he used to wear. I saw him a couple of days before the fire around the hotel; He once told me he was stable boss at Taft; I saw Tom on the roof, he threw his shoes and coat and the flames pushed him back. The flames came right in under the office and drove me out. I got out through the window of the office the last time I was in the building.

Rev. Procunier—I live close to the City hotel. On morning of the 5th, my wife woke me and said the City hotel was on fire. I looked out, saw fire in two places; the baggage room and the 3rd floor; I phoned central and gave them the alarm, at 2:10, as I started from the house the fire bell rang. The fire was in two parts of the building separately as far as I could see.

C. Hillman, sworn—I look after the horses at the City hotel, a man came and told me there was a fire; I ran to the clerk and said "there is a fire in the house," I kicked at the doors up stairs, as many as I could; I ran back to my horses and when I got back the whole place was on fire. The fire might have been on the third floor. I ran the whole length of hall on the second floor after calling the clerk andnever saw any fire or smoke. I saw the fire from the outside only.

A. C. Tapping—I was owner of the City hotel on the morning of the 5th, I was at the hotel until 1 o'clock closed up and started up town, went to the restaurant had lunch, about two o'clock went to the King Edward hotel there about ten to fifteen minutes left to go home; got to between 3rd and 4th streets, heard the engine tooting; saw a fire in the sky, heard the bell ring, ran to C.B. Hume store, saw it was the City hotel, went down the whole top floor was afire and the front end as near as I could see the baggage room in the bottom floor and all the top floor were on fire. I did not see a man, they were putting a ladder up when I got there at the front corner. I knew Sanford, he had stayed at the house for five days. The last time I saw him was on the verandah in the forenoon, he was not registered that day at the house. I paid $32,000 for the property there was $25,000 on the property. I have nothing left except some debts against the property, and the licence; yes I am a loser by the fire

J. Plumb—I was bar tender at the City hotel; everything was all right when I left with Mr. Tapping at about 1 o'clock. I knew Sanford, he did not take any drink on that day. I was at the fire. I saw the man and several people trying to get him to jump down, they called him Tom. I could not see who it was. The City hotel dining room was not open. Mr. Tapping and myself went down town to eat at the restaurant.

James Smith—I room at the City hotel, at seven minutes or so to two I heard some one kick at the door; I saw nothing, but smelled smoke. I dressed, went down and outside, and saw fire coming out of the baggage room and the top floor. I roomed in 25 on the second floor. Am quite positive the fire was in two portions of the building. there could be no connection.

J. Clelland, sworn, sergeant of police—On morning of 5th was at the police office the fire bell rang. I saw flames at the City hotel. The baggage room was in flames the top storey was in flames, from the time I passed the City hotel building on my beat until the bell rang would be about 20 or 25 minutes.

J.K. Johnson, sworn—I live across from the City hotel at 2 a.m. I awoke the whole top storey of the City hotel was on fire and the baggage room I saw a form on the verandah as I thought, people were calling on someone down, I lost track of him in the smoke.

Mr. J. Chittsas, sworn—Mr. Tapping was in my restaurant on the morning of the 5th about 1:15 a.m. I was not at the fire myself.

Joseph Kurtz—I was asleep in the second floor of the City hotel on the night of the fire. I heard someone call fire, got up, passed my trunk, and went outside. The new part of the building was on fire. I went to bed at 10 p.m. that night. I took my trunk to the billiard hall. I identify the coat as one belonging to Tom Sanford. He went to bed early, he told me he was going to Three Valley in the morning, he went to bed I think in the third floor and before I did; I knew him; I was tending bar at the time of the fire. He did not get a drink from me that day.

Mike Omara, sworn—I was in room 9 City hotel on the night of the fire. I don't know anything about the fire; I went to bed about 11:30 p.m. and am tickled to death to have got out alive, I lost a $5 hat; I saw Tom's old bald head on the second floor verandah. We hollered on him to jump, he went back in and I never saw him after; the fire I saw was in the roof when I got outside, and the far side of the building.

Witness Daly, cross examined by G. S. McCarter—I do not know who the two men were who came up from lower town.

W. Bews—I heard the alarm. I saw a blaze at the City hotel; that was a minute after the bell rang. The fire was in the second and third floor apparently I did not know until I walked round that the other side of the building that the fire had burned very badly in the ground floor at the other side: I distinctly smelt gasoline but it might have been from the blacksmith shop. I did not notice the smell later several people were ahead of me at the fire. There was an auto in the direction, I smelt the gasoline. I thought I smelt gasoline before I saw the auto. The stream of water was very strong most of the time, so far as I saw.

Ross Cole, sworn—I had supper at 1:30 I went on to my room passing the City hotel about 1:45, saw no signs of life or a fire. At 1:50 I went to bed; Mrs. Cressman woke me, said the City hotel was on fire. I never saw anyone on the verandah, was standing close to the hospital; it must have been between 1:40 and 1:45 when I passed the City hotel.

Frank Mulhall—I lived at the City hotel. I was laying in bed, some one shouted there is a fire on either the first or third floor. I thought it was talk but others called and I got out, I went in again and someone shouted get out and drop everything. I rushed out and the whole building was on fire. There was no fire in the second floor when I came down.

R. D. McDonald re-called—We had good pressure for five minutes and then in a minute or two got a fine pressure; the whole of the building inside was burned out. The pressure was so great that the nozzle had to be held by three men. There was nothing the matter with the pressure, had four streams, the hydrant man said the hydrant was not all open; we had first class pressure for the five hours of the fire.

R. G. Scruton, sworn—Stated he was not at the fire; did not even act as reporter on the night in question.

Had asked about the water pressure in order to make it quite clear and to settle rumors and show that the pressure was good by the later evidence of R. D. McDonald.

Coroner Hamilton—We have heard certain evidence but one at least important witness still remains to be heard. There is very little evidence yet bearing on the origin of the fire. There may be four more witnesses.

Court adjourned until 4 p.m. Wednesday, Aug. 13th.

GREAT TENNIS TOURNEY

The tennis tournament to be held here on the 20, 21, 22 inst, promises to be a great success. The secretary has received entries and large numbers are being received from local players and out of town people. At the present time the secretary has received four entries from Vernon, five from Rossland, seven from Golden and three from Kamloops.

The grounds have been specially prepared and are in good shape for fast play. A small entrance fee to the grounds of 25 cents is being charged spectators, and it will be well worth seeing as the play is expected to be the fastest that has ever been seen in the interior for a considerable time.

POULTRY ASSOCIATION MEETING

A meeting of the above Association was held last night at Smythe's hall. There were present about 14 members to discuss matters re the Fall Fair to be held at Revelstoke Sept. 16, 17 and 18. H. Seigfried and E. Paget were appointed secretary and show superintendent to take charge of the poultry at the coming show. Roy Smythe of the Revelstoke Poultry Association, having received a letter from J. H. Warrington, that he wanted to bring a car of prize poultry to exhibit at Revelstoke Fall Fair. Everything is now ready for one of the best fairs to be held in B.C. If you have poultry, exhibit same and find out what you have, you may have birds that are worth all kinds of money.

Harvesting in Alberta will be general inside the next week or fifteen days. In the south a week will probable see the grain cutting in full swing, but along the north line the crop will be harvested about one week later, and according to all reports, it will be a crop of at least 25 per cent. more grain than has ever been harvested in Alberta before.

FOREST FIRE SERVICE

Victoria, B.C., August, 5—"Forestry in British Columbia has developed into a science and in the not far distant future I look to it to develop into something approaching an exact science." So says Mr. Clyde Leavitt, chief fire inspector of the Dominion Railway Commission, and forester of the Commission of Conservation, who was a recent visitor to Victoria, making a tour of the forestry stations for the purpose of drawing up a report upon the prevailing conditions.

Mr. Leavitt, it may be remembered, was here some time ago in connection with the establishment of the new regulations governing rights-of-way and other clearances, and at the present time he is making a study of how things are working out. He now expresses the opinion that in British Columbia things were rapidly advancing toward a condition of things, which compared to former conditions, is not only enviable but remarkable.

"Of course we have not had any really bad fire weather yet, but in spite of that I think the records to the forestry branch of the provincial government go far to indicate that things are taking a distinct and permanent turn for the better. Out here you have a splendidly equipped department, with officers whose qualifications will stand test in the highest company, and under a minister whose enthusiasm for the cause is unbounded and whose knowledge and experience is the backbone of the department. In addition to that you have a great staff of rangers, patrol men, scattered all over the province. In deed I know of no place that is more alive to a sense of its responsibility in this regard than the province of B.C., and a forester myself I say may that condition long remain.

"The business of fire prevention in this province is, I think immeasurably stimulated by the fact of the co-operative arrangement now in existence between the railway commission and the forestry branch of the provincial government. By virtue of that arrangement the officials of the forestry staff are members of the board of commissioners and in that way the interest in the work is stimulated as well as facilitated. In the same way the Conservation Commission of the Dominion, which was created some four years ago, has an arrangement with the province whereby the work can be co-ordinated, and in that connection I may state that Dr. H.N. Whitford, a member of the commission is due here shortly for the purpose of making an exhaustive study of the forestry conditions in this province to be used in the compiling of a report upon the timber resources not only of the province but of the entire Dominion. In that work, which will of course be arduous, Dr. Whitford will have the assistance of all the provincial government officers engaged in the forestry department. The data, when secured and compiled, will be available for the province as well as the Dominion government, and will of course be of immense value in estimating and regulating the timber cuts.

"For the past two years the provincial government has been alive to the importance of this information and has had a party engaged in what might be termed forest reconnaisance, and the results of their efforts will be included in the full report to be made by Dr. Whitford."

DELIVER HUMAN PARCELS

The proposed introduction of parcel post service in Canada calls to mind a peculiar incident that took place in England some time ago, and which would occur oftener if the English people were informed concerning one of the parcel post regulations in that country.

A man wished to reach a customer living in a remote part of Balham. one of the suburbs of London, and it was urgent that he find him quickly. Knowing nothing of the locality, he called at St. Martin le Grand to consult a directory. Stating his case to a clerk, he was amazed to learnthat he could be sent to the address by "parcel post"" paying a fee of three pence a mile.

He had never heard of such a thing, and it is said few in England know it can be done.

Accepting the offer, the man was placed in charge of a messenger familiar with all parts of the city and was soon on his way. The boy carried a printed slip on which was written a description of the 'parcell" in charge under the heading "Article required to be delivered," and before leaving the customes's house, both the customer and the "parcel" were required to place their signature on the paper.

The limit in weight for anything delivered by parcel post in England, as in this country, is generally understood to be 11 pounds, but there is one clause which reads: "A person may be conducted by express messenger to any address on payment of mile age fee,"

Ask for Piano Votes at Lawrence's.

NO BIG FOREST FIRES

Victoria, B.C., July 12—A remarkable absence of serious forest fires in British Columbia continues to be the feature of the present summer from the standpoint of the Forestry Branch of the Provincial government. The latest reports are as follows:

Nelson, Aug. 12—Weather conditions showery followed by dry, warm spell. The Great Northern reports no fires. The Canadian Pacific reports a fire on July 18 started by engine and extinguished by railway patrol. The fire occurred at nine-mile post on Rossland to Nelson division. Extra care is necessary in view of continued dry weather.

Kamloops, Aug. 12—Rainfall here has been light. Vegetation is green and moist and conditions safe. No fires reported.

Vancouver, Aug. 12—Hot weather now prevails here with slight breezes. No fires reported.

Prince Rupert, Aug. 12—Heavy rains and cool light winds have been experienced here. No danger of fire in any section.

Vernon, Aug. 12—Hot and breezy, clear with occasional heavy showers. The vegetation is drying thus increasing the danger of outbreaks. No fires reported.

South Fort George, Aug. 12—The vegetation here is green with plentiful debris. The situation is fairly safe. No permits for fires have been issued, and no fires have been reported. If present weather continues extra precautions may become necessary.

Island District, Aug. 12—Soil is fairly moist and vegetation green except on southern slopes. Several small fires and two large ones all in the vicinity of Victoria. One of large ones was in swamp Lost Bake Road, the other at Mill Mountain, Esquimalt, where 75 cords of wood were burnt. Fifty men were engaged fighting this outbreak the cost being $75.

Lillooet, Aug. 12—Dry weather now prevails, and vegetation is getting dry

Cranbrook, Aug. 12—Dry with hot light winds. Several small fires reported. One at McGillivray may cost $50. Details not yet received.

Tete Jaune Cache, Aug. 12—Weather very dry and hot. No fires.

Hazelton, Aug. 12 Weather cool, xloudy with showers. No fires.

The cabinet have awarded to the Pacific Dredging Company the contract for dredging the Pitt River in British Columbia at $138,220, and to Bradley and Martin a contract to complete the jetty at Stevenson, B.C., at $83,500.

Lacking three votes of the necessary three-fifths of the total vote polled, the by-law to guarantee a bond issue of $40,000 by the Nelson street railway company, limited, was defeated at the polls by the assessed property owners of that city.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each applicant must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to the Agent or Sub-Agent of Dominion Lands.

Interior Publishing Company, Limited

J. K. JOHNSON, Manager.
RALPH G. SCRUTON, Editor

WEDNESDAY, AUGUST 13, 1913

We are glad to learn that certain enterprising citizens are considering the possibility of themselves erecting a band stand on the vacant property at the corner of Orton and Second St., with a view to the holding of a few band concerts during the present season. In but a few short weeks, the summer with its opportunities will be passed away. Looking back through the files of this paper, and comparing our enthusiastic hopes and aspirations for Revelstoke as voiced through these columns very early on in the year, with what has been actually accomplished, the editor doubts whether the progressive citizen can find much cause for congratulation.

There is, however, still an opportunity, if we are favored with a fine fall, to grasp the chance ere it slips entirely through our fingers for another year.

In a few weeks we shall be celebrating the Revelstoke Sixth annual fall fair and exhibition.

If a united effort be made, the city can brighten up, and accomplish something towards attracting visitors and money into town.

What has become of our Progress Club, and Board of Trade, these organizations might well get busy, and combine with the executive of the Fair Association, to act energetically in livening up the town during the next two months.

The new street lighting system, judging from results on the routes installed, seems to be a considerable improvement so far as the residential district is concerned, over the old arc lights, in as much as it provides a continuous string of uniform power illumination, at closer intervals than under the old arrangement.

But it has not solved the problem of the adequate lighting of our business sections....Since the removal of the string of lights from outside the hospital, and the burning down of the City hotel, a distinct deterioration is noticable in the lighting of First St., especially in the neighborhood of the post office.

It will probably be some time ere a new and better structure replaces the burned out hotel, and perhaps the city council could do something towards improving what is at present a very prominently dark corner.

Among suggestions made in connection with the approaching Fall Fair, is a proposal that some special events be provided on the amusement program, which would appeal particularly to the large number of construction laborers and lumberjacks, who are scattered over this district to a greater number this year than ever before in the history of the Exhibition

For instance, a log loading contest, and rock drilling contest, could be included in the list of events, with substantial first prizes, a very keen interest might be aroused, and with a two day horse racing card, if properly advertised, would draw hundreds of these men into town.

It is a matter worthy of consideration by the Association executive.

The editor of this paper is not an automobilist, and therefore cannot be accused of ulterior motives, in giving publicity to a genuine but preventable grievance affecting more particularly owners and drivers of Revelstoke buzz wagons. We refer to the quantities of broken glass, nails, sharp edged tin cans, and other dangerous, tyre destroying substances, which are allowed to be strewn along the public highways The occurence of this objectionable debris and the damage caused thereby to the tyres of automobiles has become so noticeable during the past few weeks as to almost justify the assumption that some spiteful party or parties are deliberately spreading the same around. It is certainly against the city bylaws to allow such a state of things to continue, and if the Police Department could arrest one or two of the careless or malicious minded persons who are dumping this refuse onto the streets, and they were firmly dealt with, it might put a stop to an objectionable and dangerous nuisance.

Canadian trade so far this year is about ten per cent. ahead of its record of last year. The aggregate trade of Canada in June was $91,500,000 and for the three months ending June 30, $250,400,000. Domestic exports were $33,900,000 in June and $83,500,000 for the three months' period. Imports were $57,900,000 in June and $166,900,000 in the three months' period.

NOTICE TO CONTRACTORS

West Salmon Arm School.

Sealed Tenders, superscribed "Tender for West Salmon Arm School," will be received by the Honourable the Minister of Public Works up to noon of Friday, the 22nd day of of August, 1913, for the erection and completion of a one-room addition to school-house at West Salmon Arm, in the Kamloops District.

Plans, specifications, contract, and form of tender may be seen on and after the 4th day of August, 1913, at the office of Mr. S.H. Currie, Secretary School Board, West Salmon Arm; Mr. E.T.W. Pearse, Government Agent, Kamloops; or the Department of Public Works, Victoria, B.C.

Intending tenderers can, by applying to the undersigned, obtain one copy of the drawings and specifications for the sum of ten dollars ($10) which amount will be refunded when plans and specifications are returned in good order.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honourable the Minister of Public Works, for a sum equal to 10 per cent. of tender, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

News in Brief

Mr. Davies, of Vancouver, a member of the firm of contractors whose tender for the new C.P.R. starion in Salmon Arm was accepted, accompanied by his foreman, Frank Colman, arrived in that city recently. They immediately got busy, and the first sod was broken by Sir Richard Davey. Every arrangement has been made by the contractor to ensure the carrying through of the work in the least possible time.

"The situation in British Columbia is not a bit worse than in any other part of the continent," declared Mr. Campbell Sweeny, superintendent of branches of the Bank of Montreal, when in Montreal last week, en route to St. Andrew's-by-the-Sea." Business is sound and the development of the province is proceeding apace. I should not say that there are few of the Canadian provinces in a more healthy condition than British Columbia."

Mr. W.J. Allen of Sydney, fruit expert and manager of the irrigation department in New South Wales, is in this country to inquire into any advanced ideas in irrigation, packing and shipping of fruit in Canada and the United States, which may be useful in his country. He states that rapid strides had been made in both lines in New South Wales in recent years, although they recognized that perfection had not yet been reached.

The success of another Canadian issue has been announced in the Times which says that the $4,000,000 4½ terminal debenture stock of the Canadian Northern Pacific has been fully subscribed before the advertised time of its closing. The script wae quoted at a quarter premium. This amount is but a small part of the sum Sir William Mackenzie, who is now in London, expects to get there during the year. The four million is to be expended wholly on Vancouver and Port Mann terminals in the erection of buildings and laying out of yards.

Iceland at last is to have a railway The enterprise is small to begin with, consisting of a six-mile freight belt line around the city and harbor of the capital, Reikiavik, but it is thought that once a beginning is made a railway running across the Thingvalla will be built. Two hundred men will be employed and it will cost $500,000 The line will be done in 1916. It is a private enterprise. Iceland lies 155 miles from Greenland and over 500 miles from Norway. It is about the size of Virginia or Kentucky and has more than 80,000 population.

Wreaths fashioned by members of the family of the late Mr. William T. Stead, London editor and author, who was lost in the Titanic wreck, were cast into the sea from the deck of the Cunard liner Franconia as that vessel lay with engines stopped over the grave of the Titanic last week. Fifteen hundred men and women stood with bowed heads during the ceremony, while the ship's band played "Nearer My God To Thee." The services were arranged by Miss Kate Stevens, who was associated with Mr. Stead in his reform work, and the wreaths were made of laurel picked from Mr. Stead's garden.

Learning that the Coast is shortly to be deluged with Russian peasants, from the Steppes of the Volga and the barren wastes of Siberia, Mayor Morlay of Victoria, last Thursday morning got into touch with the Dominion immigration branch of the Department of the Interior, protesting through the local immigration agent against the flooding of British Columbia by these people to be brought here by the Russian volunteer fleet from Vladivostok. Never has the demand on the charity funds been larger and the mayor foresees further complication if the number of unemployed in the coast cities is to be increased by ignorant immigrants who know nothing of local conditions. He therefore has requested the Dominion authorities to make such arrangements that the men may be sent through to the prairies where work is plentiful in the harvest season

POSTPONE DISTRIBUTION ONE YEAR

Ottawa, Aug. 10—There is good reason for believing at the present time that a measure of the redistribution will not be introduced in parliament this year, says the Evening Journal today. The chief reason for this is that the whole basis and system of the parliamentary representation may be changed as a result of the conference of the provincial premiers, which will be held in Ottawa some time in September.

The Journal also states that it has been practically decided that parliament will meet in November and not in January, as has been urged on the government more particularly by western and maritime province members, The closure rules are not likely to go a very long way toward shortening the session, says the Journal.

"Closure is designed merely to obstruct obstruction and not intended to stop full and fair discussion of any important measure, by the representatives of the people, and it is quite possible that it may not be adopted in a single instance this coming session. All of this points to the fact that in order to get through in a reasonable time parliament will meet earlier than usual this year."

DAIRY CATTLE FIGURES

Because a farmer keeps a herd of dairy cows it does not necessarily follow that each one in the herd is especially adapted for dairying. The type and general apperance may be good, the temperament and disposition may promise fair results, but the real value of each one is to be measured actually and practically by just her individual yield, not the average of the herd as a whole, at the end of a full season's work.

Over and over again when dairy farmers hake checked up the production separately of each cow there have been found wonderful surprises and serious disappointments! Those "good lookers" have turned out to be poor producers; the despised cow of insignificant appearance has often proved a splendid money-maker when her moderate cost of feed has been deducted from the large total yield of milk and fat. Some cow testing figures recorded by the dairy division Ottawa show great contrasts. For instance, two cows yielding the same weight of milk may differ in production of fat by 175 pounds of fat. Two cows thesame age may differ in profit by $25. The aged cow may do far better than the five year old. Two mature cows in the same herd have been known to differ in production by eight thousand lbs. of milk. One herd of twelve cows, last year gave thirty-six tons of milk more than another herd. How are these vital points to be definitely ascertained by the practical dairyman? Such facts are brought to light when figures are used. It is just as simple as A B C. Keep records of individual production; it takes scarcely ten minutes per cow per month, and abundantly pays every dairyman.

For Loss of Hair

We will pay for what you use if Rexall "93" Hair Tonic does not promote the growth of your hair.

In all our experience with hair tonics the one that has done most to gain our confidence is Rexall "93" Hair Tonic. We have such well-founded faith in it that we want you to try it at our risk. If it does not satisfy you in every particular, we will pay for what you use to the extent of a 30 day treatment.

If Rexall "93" Hair Tonic does not remove dandruff, relieve scalp irritation, stop the hair from falling and promote a new growth of hair, come back to us and ask us to return the money you paid for it, and we will promptly hand it back to you. You don't sign anything, promise anything, bring anything back, or in any way obligate yourself. Isn't that fair?

Doesn't it stand to reason that we would not make such a liberal offer if we did not truly believe that Rexall "93" Hair Tonic will do all we claim for it — that it will do all and more than any other remedy?

We have everything there is a demand for, and are able to judge the merits of the things we sell. Customers tell us of their success. There are more satisfied users of Rexall "93" Hair Tonic than any similar preparation we sell.

Start a treatment of Rexall "93" Hair Tonic today. If you do, we believe you will thank us for this advice. Two size bottles, 50c and $1.

You can buy Rexall "93" Hair Tonic in this community only at our store:

Gurney-Oxford
The Aristocrat of the Kitchen

After a glimpse into the kitchens of thousands of well managed homes throughout Canada, the Gurney-Oxford Range may truly be spoken of as the "Aristocrat of the Kitchen." It is the first range to-day in Canada both in point of appearance and cooking efficiency.

A bright nickel trimming that never tarnishes, a smooth polished top that never requires black lead, this range is to woman just one beam of gratification.

But besides its handsome appearance, the Gurney-Oxford more than fulfils the purpose every range is built for—successful cooking. It contains a device called the Economizer which not only actually saves one ton of coal in every six burned in the ordinary range, but so regulates the heat in the oven that deliciously dainty cakes, golden brown biscuits, and light flaky pastry are sure results from every baking.

It is a range which elevates woman from the constant toil and labor in the kitchen to a higher level of life. Its Economizer allows her to go visiting or shopping and keeps a low fire ready for her return, when by simply turning the lever a hot fire is quickly produced.

Employ the Gurney-Oxford in your household.

REVELSTOKE HARDWARE COMPANY, LIMITED

The London city council have granted an option to the Canadian government to acquire the plot on Aldwich site for $1,300,000. The Aldwich site is a huge cleared area adjoining the Strand where the new Australian government offices are being erected.

The annual beefsteak-eating contest of the Sam Brennan association of the East Side, New York, was won by Frank Dostal, the "Mayor of Avenue B," wha disposed of 8½ pounds of steak. Three other competitors ate between five and eight pounds each.

In order to pass upon advertising projects submitted to its members and to save them much time and trouble the progress Club is forming an advertising censorship committee, the personnell of which will be withheld to all but club members. What is proposed to do and which has been done in many other advertising and publicity organizations in the United States and Canada is for a member who is approached with a scheme of advertising, not knowing the publication represented, its circulaeion or the man who represents it, to refer the canvasser to the Progress Club, whose committee will immediately investigate the merits of the proposition and either O.K. it or advise its rejection, as the case may be. In offering to its members this gratuitous service the Progress Club feel that much valuable time and money will be saved.

Globe Lumber Company

LOCAL and GENERAL

Mr. and Mrs. M.K. McQuarrie are away to the coast cities for a couple of weeks.

Mr. and Mrs. W.E. McLauchlin left this morning on a week's holiday trip to Banff.

J.E. Lovering of Calgary, is in the city. He can be found at the Hotel Revelstoke.

A.J. McDonell has just tested his auto and found it ran 110 miles on 30 gallons of gasoline.

J.B. Gattsten of Vancouver, and A. P. Campbell of Toronto, were noticed on the streets yesterday.

H. G. Mullins of Brampton, Ont., and A.L. Reading of Kamloops, are at the Hotel Revelstoke.

Miss A. Rowe of Stettler, Alta., is among the many prairie visitors to visit Revelstoke this week.

Hon. Thos. Taylor passed through the city on Sunday morning to Victoria, en route from England.

Mrs. J.F. Lancaster of Kamloops, came in on Sunday's noon train. She is a guest at the Hotel Revelstoke.

The Farmers' Institute will meet at the Y.M.C.A. this Wednesday evening, at 8 o'clock. A full attendance is requested.

J.W. Helms of Lethbridge, and Mr. and Mrs. J.C. Campbell of Toronto, are in the city, guests at the Hotel Revelstoke.

Mr. E.G. Woodland of Diamond Hall jewelry store, left on Sunday's south train for Kaslo, where he will spend his holidays.

The pool room and barber shop of S.M. Raymer, at Field, B. C., was burned to the ground at 4:30 a.m. on the morning of the 12th.

Mrs. H.K. Living of Ottawa, and Mrs. C.M. Ketcham of Leon, Iowa, are among distant visitors to the Capital of Canada's Alps this week.

Messrs. Ed Adair and Ernest Adair of Vancouver, spent a few hours in the city on Sunday visiting friends en route to the east on a business trip.

The Revelstoke Musical Society are getting in some hard practice now, and expect shortly to be able to announce the date of their first concert.

C. A. Cotterell, late of Revelstoke, has been appointed Supt. of the B.C. Division in succession to Geo. E. Graham, who recently resigned to become head of the Coquitlam Terminal Co.

Messrs. Cartwright, Mathieson and Co., of Vancouver, are at work on the design for the new $100,000 dredge to be used on the Arrow and Kootenay lakes, and as soon as specifications are out the work will be put in hand. The dredge will be builded at Arrowhead.

Preliminary Notice— Miss Tryphosa Parker, late pupil of Signor Giovanni Clerici, of London, Eng., and of Montague Warlock, of Bristol, Eng., will be in town shortly and will take pupils for singing and voice production. Miss Parker will also take pupils for the pianoforte. Further particulars can be obtained from H. Parker, Box 306, City.

On Sunday Agusut 10th, a very enjoyable picnic was spent by Mr. A.W. Connolly and Mr. E.C. Fromey, who had as their guests the Misses Jean Myrr and D. Myrr, and the Misses Fromey. The party set out in the morning by automobile and ascended to Progress Station, three and a half miles up the scenic road. There they were joined by Mr. J.H. Garvin, and lunch was partaken of at the camp, where Mr. Garvin proved an ideal host At about 7 p. m. with many thanks to Mr. Garvin for his hospitality, the return to town was commenced, arriving home at 8:30 p.m.

Jack W. Shuttlewood has resigned his position on the staff of the Molsons bank and will spend the next six months developing his muscle and incidentally improving that beautiful homestead the Shuttlewood ranch Charnwood, situated on the silvery waters of Shuswap lake. Mr. Sweeney from Montreal has been transferred from the Vancouver branch to fill the position made vacant by Jack's resignation. The position of a junior in a bank is not an exceptionally easy post to fill if one is to give satisfaction on all sides. The junior has the collection and delivery of innumerable drafts etc., to the various bank customers. Never in the history of Revelstoke has a bank clerk held this position in such a highly satisfactory manner as did Jack Shuttlewood, to his bank and the public generally. He was respectful, obliging and reliable and was always the gentleman. The Mail-Herald joins with his host of friends in wishing him every measure of success at the ranch.

A. McLanders of Sandon, is in the city.

Chas. C. Rosh of Vancouver, is in the city.

Miss Evelyn M. Green of Toronto, is in the city.

H.C. Dunlop of Vernon, is transacting business here today.

WHAT'S IN A NAME?

There may be nothing in a name, but if you wish to possess what might be termed a really safe cognomen, call yourself Hugh Williams. Here are reasons for this choice culled from sources which can be relied on as trustworthy.

In the year 1664, on Dec. 5th, an English ship, the Nenai, was capsized in a gale while crossing the Straits. There were eighty-one passengers on board. Only one was saved. He was named Hugh Williams.

On the same day in 1785 a pleasure schooner was wrecked on the Isle of Man. There were sixty persons on board, including one Hugh Williams and his family. Of this three score, old Hugh Williams only survived the wreck.

Again, on August 5, 1826, a picnicking party, mostly children under 12 years of age, were run down by a coal barge on the Thames. Little Hugh Williams, aged five years, a visitor from Liverpool, was the only survivor of the twenty-five young and happy picnikers who left their homes so gaily in the morning.

DEPARTMENT OF MILITIA AND DEFENCE.

New Drill Hall at Merritt, B.C.

NOTICE TO CONTRACTORS.

Sealed Tenders marked on the envelope "Tender for Construction of Drill Hall at Merritt, B.C.," and addressed to the Director of Contracts, Department of Militia and Defence, Ottawa, will be received until noon, September 11, 1913, for the construction of a new Drill Hall at Merritt, B. C.

Specifications may be seen and full particulars obtained at the office of the District Officer Commanding the Military District No. 11, Victoria, B. C.; the Town Clerk, Merritt, B.C. and the Director General of Engineer Services, Headquarters, Ottawa.

Tenders must be made on the form supplied by the Department and accompanied by an accepted cheque on a Canadian Chartered Bank, for ten per cent (10 p.c.) of the amount of the tender, payable to the order of the Honourable the Minister of Militia and Defence, which amount will be forfeited if the party tendering declines to enter into or fails to complete the contract in accordance with his tender

The Department does not bind itself to accept the lowest or any tender.

EUGENE FISET, Colonel.
Deputy Minister.

Department of Militia and Defence,
Ottawa, July 31, 1913.

Newspapers will not be paid if this advertisement is inserted without authority from the Department.

1st issue Aug. 13, 2t.

On account of the attractions at the Empress the Chicago Vaudeville Co., will not be in next Monday and Tuesday, but at a later date.

The postoffice department has issued a notice that Hungary, Roumania and Servia can not forward mail to Bulgaria owing to renewal of hostilities.

The Cowboy Millionaire, a great feature from the Diamond S. Ranch, in two parts; Pathes Weekly, showing all the world's events in motion pictures, baseball, suffrage parade, and many others, with Mutt and Jeff in a mix-up, as usual, the little fellow gets it in the neck, ending with a very good comedy. Tonight and Thursday night, Star theatre.

DEATH

COOK—At Revelstoke, B. C., August 10th, 1913, Mrs. Emma A. Cook, aged 51 years.

All changes of ads must positively be handed into this office by Monday evening in order that the change shall appear in Wednesday's issue, and any changes intended for Saturday's issue must be handed in not later than Thursday evening of each week. Business men please take note of the above.

SOCIAL and PERSONAL

Miss Call returned from St. Leon on Sunday.

Mr. and Mrs. Harry Bews are holidaying at St. Leon.

Mrs. Thompson and infant went to St. Leon on Saturday.

Mrs. J. Paterson has gone to Vernon for a couple of weeks' holiday.

Messrs. Mortimer and C. Dent spent the week-end on a fishing trip to Sicamous.

Mrs. Kilpatrick and family returned Thursday from a two weeks' stay at St. Leon.

Mrs. B.R. Atkins is away to Vancouver to holiday during the remainder of August.

We are pleased to note that Miss E. Hooley is returning to teach in Selkirk school next term.

Mr. Eric Robbins went to Vancouver about the middle of last week. He intends studying civil engineering.

Mr. Coursier, Miss Olga Coursier, and Miss Lillie Abrahamson, returned Sunday from a pleasant week at St. Leon.

Mrs. D.M. Foote, Mrs. W.A. Foote and her son Rodgers, returned Monday evening from a couple of weeks at St. Leon.

Mrs. Holten accompanied by her two boys and Miss Pearl Robinson, went to St. Leon Monday for a couple of weeks.

Mr. Corning, Mr. W.A. Foote, and Mr. Geo. Hawker, went south on Saturday morning to St. Leon returning Sunday.

Mr. and Mrs. A.E. Miller came in from Vancouver on the early train this morning to make their home again in Revelstoke.

Gordon Young, Jack McCarty, Arthur Young and Tommy Lee, have been enjoying part of their holidays at St. Leon.

Miss Francis Lawson is contemplating opening a kindergarten in this city in the near future. This will fill a long felt want and should be very successful.

At a daintily appointed luncheon yesterday, Mrs. J.D. Sibbald entertained the executive of the Women's Canadian Club, with Miss Ella Sykes, the guest of honor.

Mr. J. Guy Barber, and Mr. Struthers, chief timekeeper of the C.P.R., started for the stampede in Winnipeg on Sunday's noon train. They will be away about ten days.

A party of four young ladies, in charge of Mrs. Procunier have gone to camp for a week at Mr. Procunier's ranch. They are the Misses Lawrence, M. Morgan and I. Procunier.

Messrs. Bews, Coursier and Young, caught over 50 fish one day last week in the streams above St. Leon. Mr. Linklater, an experienced old angler, caught 83 in one day by himself.

Mr. and Mrs. C. B. Hume returned on the noon train yesterday from a three weeks' trip to Victoria and Vancouver. They had a delightful holiday under the most perfect weather conditions.

Mr. Alex McKay, Gordon McKay, Glen Urquhart, Robert Tapping, and Dick Fleming, went up Mt. Revelstoke Tuesday to camp for a week. They took up a pack horse laden with supplies.

Mrs. Corning, Miss Loretta Dupont and Miss Aura Corning returned from St. Leon Tuesday. Mrs. Corning got some good snapshots of a friendly bear and her cub, who have been making friends withM r. O'Grady.

Miss Ella Sykes, honorary delegate of the Colonial Intelligence League, who addressed the Women's Canadian Club on Tuesday afternoon, left on the south train this morning en route to Gateway, B.C., where the League has a branch engaged in dairy farming.

Mr. Sidney Robbins enjoyed a flying visit to his home, arriving Saturday, and returning on Tuesday to Calgary. "Sid" is another of the many Revelstoke old boys who are making good. He holds now the responsible position of Inspector of Hudson Bay stores, with headquarters in Calgary.

The young people of the town, and a good many not so young, enjoyed a very jolly dance on Monday evening It was held in St. Francis hall in honor of the visit of Mr. Sidney Robbins. Music was furnished by the Revelstoke orchestra, which certainly surpassed themselves in inspiring strains. Mrs. Robbins served supper about midnight after which dancing was resumed for another hour.
