THE LATEST TELEGRAMS

Frustrated Robbery — Lusitania's Record—The British Railroad Strike—Grain Reports show Bumper Yield.

CHICAGO, Oct. 26.—An attempt to hold up a Panhandle pay train near Reynolds, Ind., was frustrated last night by a mistake on the part of the robbers. The highwaymen planned to burn two bridges near here catching the pay train between them. By a mistake a local passenger train was caught instead. The robbers did not molest it, and the bridge fires were put out. The pay train carried \$30,000 in cash.

QUEENSTOWN, Oct. 26.—The Cunard Line steamer Lusitania arrived here at 9:30 yesterday evening. She has broken her best previous eastern record from New York to Queenstown, five days, four hours and nineteen minutes.

LONDON, Oct. 26.—Day and night meetings of railway employees are taking place in all parts of the country at which speeches are made and resolutions passed emphatically favoring a strike to force the companies to recognize the union. Already a spirit of bitterness is developing.

LETHBRIDGE, Oct. 26.—Reports from the grain fields still continue to show bumper yields. Within 60 miles of Lethbridge it is estimated there will be three million bushels of grain to market. Two years ago last June there was not a furrow turned in the Coalfield district, but this fall there will be marketed from that community no less than a quarter of a million bushels.

BANK CLOSES DOWN

Knickerbocker Trust Co. Suffers from Wall Street War

NEW YORK, Oct. 25.—Nothing short of a panic existed in New York on Tuesday, and from the tone of the message received by a number of financial institutions, the feeling is spreading to other cities at a rapid rate.

A number of the banks were besieged by depositors clamoring to take out their money, and extra clerks have had to be employed to attend to their wants.

Great consternation reigned shortly after 11 o'clock when the Knickerbocker Trust Company stopped payment of money to depositors, announcing at the same time that it was unable to obtain currency fast enough to satisfy the demand.

When the doors were closed there were nearly 300 people in line, and an army of clerks had been busy paying depositors at the rate of sixty an hour.

A number of the customers came to the bank with deposits but the run on the institution scared them and they deemed it wise to wait. State bank examiners today visited and started an examination of the accounts of the Knickerbocker Trust Company.

NO BIG PANIC

Wall Street Purification Will Re-establish Values.

NEW YORK, Oct. 25.—The week has been a period of feverishness and unsettlement in the stock market. At times the street was full of disturbing rumors, and the embarrassment of one important operator in copper added to the prevailing demoralization. This continued liquidation was, of course, a part of the general reaction which began with contraction in the money market, was accelerated by various exposures and legislative attacks, and is now causing a wholesale and somewhat radical financial house cleaning, says Henry Clews in his weekly report.

How far the decline will go it is beyond human knowledge to predict, but it is safe to say that many of the rumors in circulation were gross exaggerations, and that there is no need for any repetition of the financial hysteria which marked the August break in the stock market.

Since January first we have had a shrinkage in securities of fully, if not over \$3,500,000,000. Many good railroad shares had their values cut in half during that period. The industrials have suffered even more drastic decline, being cut not only into halves but into thirds and quarters. After such a tremendous shrinkage, it is almost folly to talk of panic. Violent breaks may be possible but the chances of a genuine panic with all

the disaster and derangement which that means are exceedingly remote. Had the developments which have recently taken place occurred on the high level of a year ago, we might, indeed, have had to face a cataclysm.

As it is, the stock market has entered one of the greatest declines in history, a decline equivalent to that of a great panic—but in an orderly and well distributed fashion. Losses have been enormous, but they have been admirably met, and considering their extent the disasters following have been remarkably few.

The moral cleaning out which Wall street is now receiving will re-establish values and redound to the honor and profit of honorable institutions. The truth that has been so long suppressed in the hope that the banks would take warning and eradicate the weak spots, is now being published in official notices from the banks. It is no longer even an open secret that the banking situation needed drastic handling.

Now that the real seat of the trouble has been reached, there is hope. The resources of the country in general are not impaired materially, and, as the decline in business has been sentimental, it is possible for a sharp reaction to take place. The people of the country have never had so much money free before in history, and the minute they are convinced that the purification has been completed, they will buy stock.

CITY COUNCIL.

The regular meeting of the City Council was held last night with Mayor Brown in the chair and Alds. Woodland, Sawyer, Abrahamson and Trimble present.

The minutes of last meeting were adopted as read.

COMMUNICATIONS

From Chief of police, reporting on fire alarms. Filed.

From Supt. T. Kilpatrick re power house telephone wire passing under track and stating that the arrangement did not comply with the regulations. Filed.

From the Dominion Land office at Kamloops acknowledging receipt of cheque in payment for land purchased by the city for pipe line. Filed.

From J. Batien, requesting that a portion of the street at Robson avenue and Sixth street be repaired in order to allow of wood and coal wagons to have access to his premises. Referred to the Public Works committee with power to act.

From Messrs. McGivern, Hayden and Grieg in connection with an application to Parliament of Canada for the incorporation of the Shuswap and Thompson Rivers Boom Co. Referred to the Board of Trade.

From C. W. Standiford, agent for W. J. Bates, of England, engineer, requesting that they may submit plans for a suction gas plant. The city clerk was instructed to inform the company that the tender had been closed and a contract awarded.

From Cecil Goddard, consulting engineer, Winnipeg, stating that of two plans submitted to him in the arrangement of the new auxiliary gas producer plant, the second was the more suitable. Action was held over until advice had been received from the Canadian General Electric Co. quoting prices on the new arrangement. The council agreed to purchase the fire grates necessary for small coal as recommended by the Canadian General Electric Co. for the gas producer.

Sidewalk improvements were discussed and a resolution passed approving of the action of the public works committee on street repairs and sanctioning their further continuance where necessary.

The accounts were passed and the meeting terminated.

THANKSGIVING DINNER.

With their customary forethought the ladies of Knox Church have made elaborate preparations for their annual Thanksgiving Dinner on Thursday next in Selkirk Hall. Dinner will be served from 5:30 to 8:30 p.m. and will include many of the delicacies for which the ladies of Revelstoke as culinary artists are famous. The fancy work table will be more conspicuous than ever this year by reason of the many useful and fancy articles to be found there. The fish pond will contain many surprises for the little ones, while the candy booth will be well supplied with the finest of home made confectionery, and horticulturists will find many choice plants at the flower table to please them. A splendid musical programme will be rendered at intervals during the evening.

REPORTING ON MINES

VANCOUVER, Oct. 25.—Mr. R. R. Hedley, a well known mining and smelterman of Nelson, is a guest at the Hotel Vancouver. Mr. Hedley is engaged in making a special report on the British Columbia mining industry for the Dominion government. He has already visited the Slocan, the Cariboo, as well as Atlin and all the mining camps along the coast. Mr. Hedley will leave to-night for the Similkameen district and later will visit the Boundary district. His report will contain a great deal of statistical information, besides dealing with the various mining camps where operations are in progress.

CHINA SANK AT WHARF

Remarkable Accident Happens to Empress—Scheduled to Sail on Tuesday—Will Probably be Delayed.

VANCOUVER, Oct. 25.—Through an open sea valve, or condenser discharge, water commenced to pour into the engine-room of the Canadian Pacific Railway Company's Oriental liner, Empress of China, at 5:40 o'clock Wednesday night, as she lay at her berth on the Inlet front just to the west of Granville street.

The peril of the big steamship was first noticed by some longshoremen who were engaged in stowing cargo in her after hold. They noticed that she suddenly took a list and in a very few minutes she commenced to settle rapidly.

The alarm was immediately raised, and the ship's crew and engineer room watch warned to close over port.

A hurry call was sent to Chief Engineer of the Fire Department for engines. The engines arrived one of them was started to work, but the effect was like a man drawing water from a bucket through a straw while some person was pouring it in with a tumbler.

The big vessel commenced to settle rapidly by the stern; she was dropping at the rate of from four to six feet an hour, by 8 o'clock her stern ports were under water and there was seven feet of water in her engine-room.

Diver James Moore was requisitioned to go down and plug the sea discharge. At 11:15 o'clock he had successfully closed the gaping ten-inch hole.

At midnight the vessel lay on the bottom aft and taking a list to starboard. She nearly fell off into deep water at 1 o'clock this morning. Tackle from her mainmast to the wharf girders snapped and the liner lurched outward, but the bulk of the coal bulk Robert Kerr aided in holding her in position and the anxious watchers knew that the worst was over.

At 4 o'clock next morning the steamer Salvador was alongside the Empress of China and was soon hoisting a ten-inch pump aboard her. In the afternoon the China raised at the rate of six inches an hour and tonight she should be clear of water.

The Empress of China is scheduled to sail for Japanese and Chinese ports on Tuesday morning, but it is not likely that she will get away till later in the week. Engine-room, holds, storerooms and staterooms were damaged by the water and the whole interior of the liner will have to be overhauled before she will be in condition to sail. A small army of men will be put to work on her today to get her ready for sea as soon as possible, as she is under heavy forfeiture bonds to deliver her mails in Hong Kong on time.

WILL ASSIST SURVEYORS

Federal Government Offers Inducements to Young Men

OTTAWA, Oct. 25.—With a view to increasing the number of surveyors the Dominion Government has decided to offer special inducements to young men who desire to adopt that profession. Before being eligible for final examination as surveyor, the law requires three years service under a Dominion land surveyor, of which 12 months must be on a survey party.

In the case of graduates in engineering these periods are reduced to twelve and six months respectively. To help pupils in complying with the law the government will offer places on survey parties to those who have successfully passed the preliminary examination. Graduates in engineering will go as assistants at four dollars a day and others at three dollars a day.

BOURNE BROS.

HOUSE BARGAIN

We have a signed agreement permitting us to sell a certain property on McKenzie Avenue at a figure \$400 below actual value, good until Oct. 26, 1907.

The property comprises one and a half lots, seven-roomed plastered house, summer kitchen, woodshed, stable, fencing, etc.

The price is \$1800. \$700 cash, balance on mortgage. Will rent for \$22 per month. A responsible contractor has estimated the value of the buildings alone at \$2,000. The land is worth \$500.

Investigate the proposition at once as it is only good for a short time.

"I would . . . earnestly advise them for
their good to order this paper to be punctually
served up, and to be looked upon as a part of the
tea equipage." —ADDITION.

SATURDAY, OCTOBER 26, 1907

LEST WE FORGET.

It should be borne in mind that Thursday Oct. 31st is the last day for applicants to be enrolled on the civic voters' list, and all those who have not done so should lose no time in entering their names. In all matters relating to civic improvement and in fact, in everything in connection with the legislation of the city and especially in the forthcoming municipal election, the voice of the people should be heard, and the stronger the voice the better the decision. It should not be left to a few to carry on civic politics but each and every citizen should take advantage of his right and use his franchise in order to express public opinion which should be the governing element. Up till Thursday, Oct. 31st, names may be added to the list, all that is required, being a declaration of qualification. This should be done at the city clerk's office. Look after your name before the 31st and see that it is on in each ward where you are entitled to vote. If you neglect this, it is then not within your right to kick at municipal errors next year toward which your own negligence will have contributed. If you have a right to vote and can claim a say in civic affairs then it is within your jurisdiction to criticize and complain if you so feel inclined.

LACK OF SUPPORT.

Apropos of the recent decision by the management of the Rossland Miner to suspend its daily publication owing to lack of local support, the Nelson Daily Canadian has the following to say: "In its issue of this morning, the Rossland Daily Miner announces that the daily issue would be discontinued and hereafter the Miner would be continued as a weekly. The reason for this is manifest. The Daily Miner has been a losing enterprise for years. Continued industrial depression led to retrenchment in business and continued curtailment in advertising patronage. For years the Miner had been in the hands of an incapable management, and when Mr. Esling assumed control the paper was a wreck. Mr. Esling made an heroic effort to restore confidence in the

paper, but bad times combined with other causes rendered the attempt futile. The Rossland Miner is another instance of the fallacy of trying to successfully conduct a \$2,000 a month paper in an \$800 a month town. Rossland will never have another daily newspaper, and it will altogether depend on the generosity of the business men of that city whether or not the weekly edition can be continued.

SAVE WHILE YOU CAN.

An era of prosperity always tends to bring about an era of extravagance and very little thought as a rule is given to the future and to the necessity of putting by for a rainy day. At the present time the money stringency is making itself felt on all sides, and those who have lived up to the top notch find that when money is not available, there comes frequently a serious drop. This tendency to keep the list of expenditures up to the limit of income is always strongly marked, not only among those who are well supplied with this world's goods, but also among the people who have the most need of setting aside some part of each week's wages.

Within recent date there has been a marked increase in the prices of necessities so that the man of average salary today is better off than he was several years ago in spite of the fact that the chronic growler may lament strongly the increased cost of living. The money stringency has borne out the fact few people were prepared for it, and in many cases serious complications have arisen which could have been well avoided if the possible contingency of the tightening of purse strings had been anticipated. It is this temporary embarrassments which prove the test and a community at large will benefit as a whole by a little looking ahead. Few people pay much attention, however, to gloomy foreshadowings, but it is nevertheless true.

SUCCESSFUL DISHONESTY

There has been a sharp turn of feeling in financial quarters since the demouvement by the Knickerbocker Trust Co., and from exhaustive inquiries renewed confidence in the New York local banking institutions has taken the place of the panicky feeling that has threatened solvent houses and demoralized the Stock Exchange. Leading financiers are of opinion that the worst is over and that out of the present confusion, more stable conditions will rapidly shape themselves. The deplorable condition of the stock market has intimidated every one and public faith in even the most respectable and gilt edged institutions has been shaken. Reckless gambling with trust funds and public deposits has made investors nervous. The effect of the financial crisis must have a certain effect upon Canada, since Canadian money has been largely invested

over on the other side. That Canada should suffer through the malpractices of the States is not right. Successful dishonesty has been at the bottom of all the financial stress, and the tendency has been to sit quiet while wealthy men set the standard of successful dishonesty which must of necessity be alluring to the young men who dream it right and proper to follow example in business trickery, of violation and evasion of the law, of stock gambling and swindling as roads to success. By doing this public conscience deteriorates and the ignorant and vice reaction tramples out the right as well as the wrong. Hoax business men will suffer for the misdeeds of the dishonest. The process of gaining wealth by successful dishonesty should be stopped before it goes so far as to invite the reaction before mentioned and before the blow has fallen on the just as well as the unjust.

A rational movement for supervision and control over the use, over the accumulation and business use, of these great fortunes should be made and a proper supervision relegated in the interest of the general public, of the colossal fortunes which singly or in combination are of such importance to the modern industrial world, to control and supervise them so that in their accumulation and business use there shall be no wrong doing to the small man in which the small man is a competitor, wage worker or investor. That the panic wave now threatening the New World is temporary is certain, but now is the time to prevent its repetition. Canadian money has been endangered and is in danger but that danger is now being averted. While our money is thus wavering we cannot but realize that in spite of all the solidity of the west stands on a safer basis than any other part of the North American continent and even if the uncertainty as to what the morrow will bring forth, under the present conditions, is a cloud of the country, a reaction is bound to follow.

CANADIAN CREDIT

Is being injured by Touting of
Municipal Bonds.

TORONTO, Oct. 25.—The World this morning published the following wireless message received from its correspondent in London through the Marconi system at Glace Bay. "That the credit of Canadian municipalities is being damaged, and the national credit hurt, by the recent touting of municipal bonds in London by the various cities and towns of the Dominion." "I believe," the correspondent continues. "The cities of Canada could get money at a reasonable rate if they went the right way about it. But if they want English money you must follow English methods. Canada ought not to be weakened in the money market by such tactics."

Climax Restaurant
At the Opera House All Next Week.

JERE McAULIFFE.

It would be hard to find a Stock Company presenting a line of plays equal to those given by the McAuliffe Stock Company which will appear at the opera house for six nights and Thursday and Saturday matinees commencing next Monday evening. Some of the similar attractions have one or two bills which are featured, but Mr. McAuliffe believes that every performance should be equally powerful and that each and every one should be a decided drawing power in itself. It is not the aim of the management to open with one particularly attractive play and then follow up a good impression with a series of unpalatable presentations. The opening bill Monday evening will be the great comedy-drama, "A Daughter of the People," with "Confessions of a Wife," "Shamus O'Brien," "The Voice of Nature," "Why Women Sin," "Pitfalls of New York," and "Dens and Palaces" to follow. This exceptionally strong list of plays will be produced entire with all special scenery and no local settings will be used during the engagement. The following high class specialties will be introduced between the acts making a continuous performance, Jere McAuliffe, in an entire new life of Parades; All. W. Wilson the world's greatest Ventriloquist, introducing little Willie Green, and Fred Martelle in the latest Illustrated Songs. Seats on sale at the Canada Drug and Book Company.

ENTERTAINING MERCHANTS

Revelstoke a City of High Grade and Up-to-date Stores.

In previous issues we have treated upon the general advantages to be accrued by living in Revelstoke and the possibilities of our city becoming one of the leading centres in the province, hence the desirability of choosing Revelstoke as a city wherein to establish a home. But our city would never be a city at all were it not for our merchants. It is to them we must look to keep up the solidity of the town. The establishment of stores and other business houses causes the circulation of money which is the chief factor in every day commercial life. Visitors to our stores will be at once struck by the universal neat appearance and general lively air about them and on looking over the stock they will see that the commodities are all of the latest grades and styles, clean and fresh. We believe we are right in saying that the "bump of business ability" is very strongly marked in Revelstoke, and this has been demonstrated by the attractive appearance of the stores and the class of goods displayed. There may be some who say that some of the goods are of indifferent quality and high priced. That may be, and it is not so all the world over? On the other hand, when it is considered the excessive freight and express charges on all goods shipped here, it is only to be expected that the customer must pay them besides profit to the merchant. But it must be remembered that reasonable profit only should be made, unless customers are to be sent to deal at mail order house, which is a contingency to be scrupulously prevented and avoided. A happy medium should be struck which will bring its own reward.

Our city merchants are assuredly deserving of every credit for the enterprise they have displayed in the stocking of their premises. In every branch the "latest" can be obtained while a large selection can be chosen from, giving the purchaser every opportunity of suiting his own taste. The progressive spirit thus displayed will aid materially in the up-building of Revelstoke and it should be the aim of every merchant to prevent at all costs even a dollar from being spent in catalogue houses, where the customer has no choice except what is sent him and goods of probably inferior quality. The following instance will show the generally speaking poor policy of thus doing: "A man went into a hardware store to buy an axe, being shown the article and informed that the price was \$1.25, he said, 'Why can I get that from a mail order house for 90c.' 'Very well then,' said the hardware man, 'I will give it to you for the past year and a half. We realize the trials and difficulties you have had to contend with in your present field and although your pathway has not been one of roses, we sincerely hope that in your new field of labor the sun may shine more brightly and your pathway be more clear. We fully realize the good you have accomplished by your kindly manner and example and hope you may be long spared in the service of the Lord. We ask you to accept this small purse as a slight token of esteem from your friends in Arrowhead. We wish you every success in your new field of labor, and hope you and your family may long enjoy health and strength to aid you in the good work.

The following is a copy of the address presented to Mr. and Mrs. McColl:

DEAR MR. AND MRS. MCCOLL,

We, the members of your congregation, learn of your departure from our midst with very sincere regret, after having labored among us faithfully for the past year and a half. We realize the trials and difficulties you have had to contend with in your present field and although your pathway has not been one of roses, we sincerely hope that in your new field of labor the sun may shine more brightly and your pathway be more clear. We fully realize the good you have accomplished by your kindly manner and example and hope you may be long spared in the service of the Lord. We ask you to accept this small purse as a slight token of esteem from your friends in Arrowhead. We wish you every success in your new field of labor, and hope you and your family may long enjoy health and strength to aid you in the good work.

WANTED—Profitable proposition open for reliable man acquainted among fruit growers and with ability as salesman. Full or part time. State age, experience and references. BROWN BROS. CO., NURSERYMEN, LTD., Brown's Nurseries, Ont.

TO BE A DIVISIONAL POINT.

GRAND FORKS, Oct. 25.—Corroborating previous reports that Grand Forks will be made a passenger and freight divisional point on the C.P.R. Sir Thomas Shaughnessy, president of the C.P.R., while here, personally inspected the proposed site for the new roundhouses and railway yards and strongly approved of the selection. It is now definitely known that work on the railway yards and a fifteen stall roundhouse will be commenced in the early spring.

Alexander McLean, of Salmon Arm, he left that his wife has left my bed and care of her own free will and without cause and that I will not be responsible for any debts that she or my children may incur from this date. Oct. 2nd 1907.

WEATHER FORECAST

Saturday, Oct. 26, for 24 hours—Light to moderate winds, cloudy and mild. Temp. Max. 62; Min. 41.

Local and General.

Look out for the Old People's Concert at the opera house Dec. 5.

W. B. Robertson has accepted a position in the office of the Revelstoke General Agencies.

Rob. Gordon conducted Divine service at St. Peter's church last Sunday morning and evening.

There will be quantity as well as quality at the Thanksgiving Dinner in Selkirk Hall on Thursday night.

The regular monthly meeting of the Ladies' Hospital Guild will be held on Tuesday next, Oct. 29th, in the City Hall.

The Time—Thursday, Oct. 31st, 5:30 to 8:30 p.m. The Place—Selkirk Hall. The Event—The best dinner you ever ate in Revelstoke—for 50c.

It is understood that Secretary of the Treasury Cortelyou, Washington, has ordered \$5,000,000 to be distributed among the leading national banks of New York.

The many friends of Rev. J. R. Robertson will be pleased to know that he is gradually recovering from his illness and expects to be well enough to conduct the services in Knox Church tomorrow.

The third and deciding cricket match between Pioneers and New Chums for the Enterprise Brewing Company's challenge cup will be played on Thanksgiving Day, Thursday, Oct. 31st, at 10 a.m.

We are pleased to be able to announce that F. G. Brown has passed through the worst of his illness and is now beginning to mend slowly, although it will be some time before he will be able to leave the house.

The annual report of the post office department, Ottawa, shows a surplus in the past fiscal period of 9 months to be greater than for the whole previous year. It was \$1,082,301 as against \$1,011,785 for the previous 12 months.

There will be no dinner served in the homes of the citizens of Revelstoke on Thanksgiving evening, but the people need not go hungry as arrangements have been made to feed them all at Selkirk Hall, from 5:30 to 8:30 o'clock at 50c per head.

larily one by Mr. Merritt, based upon the World's Sunday School Convention held in Rome, Italy. The delegates from Revelstoke were Miss Calder, Mrs. McCann, A. Stephenson and Rev. T. W. Hall.

Mr. A. B. Powell, secretary of the Equity Insurance company of Toronto was in the city Wednesday looking over the insurance situation, with which he was well pleased. He met several leading business men and gave the local agent, E. A. Hagen, authority to increase the risk limits which the company will underwrite. Mr. Powell states the Equity is doing a large and steadily increasing business. He was particularly interested in the work attending the Y. M. C. A. in Revelstoke, being deeply interested in this class of work in connection with the Methodist church in Toronto. Mr. Powell is on his way to San Francisco.

Mrs. A. C. Morrison, a well-known resident of New Westminster, who has been a member of the local staff of the Canadian Pacific Railway, died at his home in Sapperton yesterday. The deceased was a native of Haddington, Scotland, and was 67 years of age. He came to Canada in 1857 and to New Westminster in 1888. He leaves, besides a widow, five sons and one daughter. The children are: Dr. F. E. Morrison of Nelson, Dr. J. C. Morrison and Dr. H. B. Morrison of Revelstoke, R. H. Morrison of Vancouver, P. G. Morrison, M.E. of Mexico, and Mrs. R. D. Cumming of Ashcroft. The funeral will be held this (Thursday) afternoon.—Province.

A very important and excellent convention of Sunday School representatives was held on Tuesday, Wednesday and Thursday of this week in the city of Nelson, under the direction of Mr. Stuart Muirhead and Rev. Mr. Merritt, secretaries of Sunday School Associations in Canada and the United States. There was quite a representative gathering. Rev. T. W. Hall of Revelstoke was elected president, and Rev. Mr. Williamson, Baptist minister of Fernie, secretary. Some very inspiring addresses were delivered, particu-

larly one by Mr. Merritt, based upon the World's Sunday School Convention held in Rome, Italy. The delegates from Revelstoke were Miss Calder, Mrs. McCann, A. Stephenson and Rev. T. W. Hall.
