SCHOOLS' LEAGUE

First Game for Shield Won by High School Boys

The first game in the competition between the High and Public schools for the possession of the shield, was played off on the Y.M.C.A. recreation grounds yesterday afternoon and resulted in a win for the High school boys by a score of 1-0. Principal Pollock acted as referee.

During the first quarter the High school boys started in with a rush and seemed determined to make up for the indignity of their previous defeat. Play became very strenuous in the vicinity of the Public school goal; Coursier made a brilliant rush down the field and passed to Woodland, but the latter failed to reach the net. During the second quarter play was about even; Dickie made several spectacular runs, and the combination play of the Public school boys was especially good. During the third quarter play became very hot around the High school goal, the Public school making a determined assault upon it, and had it not been for McRury and Lawrence, several of Calder's "hot shots" would have reached the net.

During the fourth quarter the ball was worked into the Public school goal from a scrimmage and thus ended one of the cleanest games we have seen played for some time.

There are four more games to be played off before the holidays and the next one will be played on May 14th next.

SHORT ROUTE TO COAST

C.N. Engineers will Survey line Suggested by Board of Trade

Mr. G. S. McCarter, secretary of the board of trade committee on railway business, who recently forwarded to Mr. William McKenzie, president of the Canadian Northern Railway, maps and suggestions as to a proposed short route to Vancouver and the coast has received from Mr. McKenzie an acknowledgement of the same with an assurance that a survey of the suggested route will shortly be made.

The route, as is well known, is via Wood lake and Columbia river, Mabel lake and Vernon, and the outlined new road is being studied by the company's engineers. From the tone of the communication which will be reported to the next meeting of the board of trade, Mr. McCarter is sanguine that a short route to the coast will soon be an accomplished fact.

SURVEY INTO KAMLOOPS

C.N.R. Line from the Thompson to Yellowhead Pass

The first detachment of the survey party to exploit the route along the North Thompson river for the Canadian Northern Railway reached Kamloops early yesterday morning. It comprises J. F. Dalgleish and Wm. Killaly, two engineers, who have been sent out from the head offices in Montreal. They will await the arrival of the head engineer who is now in Vancouver when definite plans will be outlined.

The party will be sent out from this point and will work its way to a point this side of the Yellowhead Pass, where it will be joined by the second section of the party now operating westward towards the pass.

The party was reticent when questioned as to how long before the line would be completed into Kamloops but it is confidently expected that trains will be running within three years.

MEASURE FOR MEASURE

Rev. Dr. Kilpatrick Delivered Stirring Address

Clear, earnest, forceful, practical and a logical elucidation of his text were the characteristic features of the address delivered by Rev. Dr. Kilpatrick, of Knox college, at Knox Church last night and there were no frills on the sermon. Dr. Kilpatrick is completing his part of the Chapman-Alexander evangelistic itinerary and was accompanied by Mr. E. M. Woods, who conducted an enjoyable song service and sang delightfully during the evening. The audience was very good for a week night meeting, the church being nearly filled.

Choosing as his text the words of Christ, 'With what measure ye mete it shall be measured to you again," the learned doctor claiming that Shakespeare's play "Measure for Measure," was founded on the axiom he declared the principle to be a law of physical nature which is carried upward and forward into the moral and spiritual realms. "God never leaves himself without law," said the doctor, and physical laws are but the parallel's of the laws of the spiritual and moral universe.

The inevitableness of the law of reaction was strongly argued and very forcible illustrations were drawn from poetry, the drama, literature, science and secular history, to reinforce the argument. Equally clear was the presentation of the claim that the reaction is always in proportion to the action itself —or as it is called in business—the law of returns. Ample demonstration of this point was made and doctrine of changed and suitable environment as a sufficient remedial agency to correct man's tendency to do wrong was criticized. All the illustrations were from life and struck home in their appeal.

Dr. Kilpatrick's last argument was that the law holds good in the supreme matters of the soul and of spiritual life, the pith of his contention being that salvation is itself of the nature of a reaction—a return for investment. "In brief," said the speaker "men are saved by coming under the scope of the principle of measure for measure." A full consecration to Christ leads to fullest results while a partial committal by faith brings only compensating results.

Dr. Kilpatrick paid a high tribute to the character of the men of the west and said that it was "absurd to speak of them as a godless people." From his own contact with them his chief grief was that many failed to yield themselves to Christ, and without this they could not be saved.

An interesting evangelistic after service closed the meeting.

INDUSTRIAL ACCESSION

New Planing Mill, Sash and Door Factory to Run in 30 Days — Building Rushed to Completion.

Among the new enterprises shortly to be added to the industries of the City is the Revelstoke Sash and Door Factory now in process of erection at the corner of Third street and Connaught ave. The building to contain the machinery for the new factory will be two storeys in height and will be 40 x 30 feet in dimensions constructed of heavy frame throughout. The machinery which has already been ordered is all of the very latest type for the purposes designed and consists of a full complement necessary to the equipment of a factory for the turning out of sash, doors, mouldings, trimmings and builders' finished supplies of all kinds. Two planing machines, a chain morticer, a sticker, tennanting machine shaper sand papering machine, band and scroll saws with the full equipment of rip and crosscut saws, will constitute the mechanical furnishing of the shop and it is the intention of the proprietor to place on the market for building purposes all that carpenters and contractors may require in the way of finished material. It is expected that the building will be complete and the machinery installed within 30 days and that the hum of the new mill will be added to the growl of the catalogued industries of the city within that time. Power will be supplied by a 25 h p electric motor which will provide ample energy for all the machinery that will necessarily be operated at one time.

The enterprise is being ventured by Mr. R. J. Watson, Dominion timber inspector who recently removed to the city from Burke's Falls, Ont. Mr. Watson has not only unbounded faith in the future of Revelstoke as offering an opening for such an industry, but he has received every encouragement from local builders as to the prospects of the new business.

The management of the factory will be placed in the hands of Mr. Gordon Watson, a son of the proprietor, and Mr. O West, both of whom are skilled mechanics and up to the latest wrinkles in the management of mill machinery for the manipulation of wood. It is expected that from 12 to 15 hands will be employed from the start and the outlook for business warrants the assumption that the factory will be kept busy all the year round.

The mill is conveniently located to the railway tracks where the unloading of lumber and reloading of merchandise can be quickly accomplished.

Mr. D. McCarthy, the well-known contractor, with a gang of efficient workmen is rushing the building to completion. The machinery is from the famous house of McGregor & Gourlay, of Galt, Ont.

"Florinda."

The annual May Festival under the auspices of the Ladies Auxiliary of Knox Church is usually one of the most pleasing of local entertainments, and this year it promises to be more popular than ever. The chief feature of the programme on this occasion will be the production by the children of that charming operetta in three acts entitled "Florinda," or "The Rose and Pearl." This is a copyrighted work, arranged by R. E. Phillips, with the music by Eduardo Marzo, and is one of the finest operettas ever written. The song story tells how "Florinda" (Miss Doris McCarter) a village maiden is changed into a nightingale by Vala, a wicked witch (Miss Gladys Urquhart) but is rescued by the fairies, who through their queen, Fortunia, (Miss Frances Lawson) by means of the charm of the rose and pearl, is transformed again into a village maiden and restored to her brother Yoringal, (Miss Miriam Elliott). The choruses, solos, duets, etc., are bright and lively, and the children, numbering in all 35, have rehearsed their parts faithfully and well. The production is under the able directorship of Miss V. McKinney, and the event is being anticipated with pleasure.

CASTIGATION OF HOODLUMS

Police Will Break Up Gang of Young Night Hawks

For some weeks past a number of young women and girls have been practising for a Mayday festival, using the school room of Knox church for a practice room. Lately a number of youths, far too overgrown to be excusable for their conduct have been annoying these girls at and after their practice. So troublesome did they become that complaints had finally to be lodged with the police and this week on practice evening an officer was on the lookout for the culprits Being made aware of the eagle eye of the officer the lads went further down the street, hid themselves and awaited the homegoing of the girls. Some of these were badly frightened, as, when opposite the hiding place of the hoodlums the latter sprang out and used the most ingenious methods to strike terror to the hearts of the maidens. One of the girls fainted, another was stricken with hysterics and a third had to be carried home while all the number were more or less in a state of nervous prostration.

While youthful pranks are always more or less a matter of public sympathy there is a general feeling that this affair is being carried too far and the police are determined to put a stop to even the semblance of mischief in the future. The offending youths, especially the ringleaders of the gang, are well known and if caught at any future performance of their mischievous pranks a good horse-whipping is probable among the forms of retribution which will await the misdemeanants. Grown people are not permitted to play the hold-up game in Revelstoke and there is no disposition on the part of officials or citizens to see a school of youths qualifying for a Robin Hood coterie in the city.

Navigation of Columbia

The officers of the S S. Revelstoke which plies on the summer run between Revelstoke and Death Rapids on the Columbia are foregathering here and putting everything in shipshape for the resumption of the summer schedule which will go into effect as soon as the water in the river rises sufficiently to make navigation feasible.

Captain Forsland of the S. S. Rossland will again be master of the Revelstoke, while Captain F. Swanson of the S. S. Slocan will be first officer. Mr. H. Colbeck will, as of old, listen for the gongs and feed the impetus backward or forward as instructed from the pilot house. The usual twice-a-week trip will be maintained.

CRICKET SEASON

Busy Program Outlined at the General Meeting

A large number of enthusiastic members of the Revelstoke Cricket Club was in attendance at a general meeting called in the City Hall last evening to arrange the schedule of the season. Among the matches to be played during the summer are two of great interest, being the Revelstoke share in the provincial tournament. In these two matches Revelstoke will play Vancouver at Vernon on July 5 and Vernon at the same place the day following. Arrangements have also been completed for the local team to go down the Okanagan during the latter part of August and play Armstrong, Vernon, Okanagan Sports' Club and Okanagan Centre with return matches for each of these teams This schedule includes two games at Revelstoke, one on May 24 and the other on Labor Day.

Letters were received from Nelson and Calgary offering to arrange for match games which will be looked after. Local matches for the season were slated to take place between teams captained by Messrs. W. Brier, A. Arman and F. Bourne, the first local game to take place on May 1 between the captains and vice-captains of the Elevens. The local contests are for a cup to be presented by the Enterprise Brewing Company.

Practice nights were fixed for Mondays and Wednesdays of each week. A ground man has been employed to keep the field in order and it was reported that the new pavilion is now completed. The members congratulated themselves on the outlook for a summer of good sport before the meeting adjourned.

Assault Case

In the Police Court this morning and afternoon a quarrel between two Italian residents was aired, the complainant, May Casbato, charging Tony Cocorochio with assault with intent to do grievous bodily harm. Evidence showed that a blow had been struck by the defendant as was indeed admitted though the defence sought to establish provocation. On the latter point the case was adjourned till the afternoon to issue a subpoena for the attendance of a material witness.

The testimony of the witnesses in the afternoon hearing did not much alter the gravity of the charge and after argument by counsel Mr. W. W. Foster, police magistrate, imposed a fine of $10 with costs making $25 in all and additional imprisonment for three months. In default of payment of the fine the court fixed a further imprisonment of six months, making nine months in all.

Mr. G. S. McCarter appeared for the prosecution and Mr. C. E. Gillan for the defence.

Whatever kind of Tools or Hardware you may you will be sure of the best quality here and at lowest prices. We carry a great variety of Tools for all trades. REVELSTOKE BRANCH—A. H. ALLEN, MGR.

Niagara's Turbulence

NIAGARA FALLS, April 24.—At Niagara-on-lake the water reached the first floors of three big hotels imprisoning over 100 guests who were rescued by boats Thousands of lives of people farming in the fruit distrit under the mountain are imperilled if the ice choking up the mouth of the river is not speedily broken and property worth many millions is in danger. The situation has no parallel in history or tradition. United States officials are alarmed, and have wired asking Washington to authorize mili- engineers to save the situation with dynamite.

Remember—We guarantee every sack of ROYAL STANDARD to be the PUREST, SWEETEST and most wholesome bread FLOUR on the market. Paget Supply Co,

Immigration Outlook

OTTAWA, April 24.—Before the Commons Agricultural Committee yesterday Superintendent Scott, of the Immigration Department said that he anticipated the immigration this year would total 200,000, and that of this number 70,000 would be American. In answer to a question, he said he was not aware that 50 per cent. of bonused immigrants returned from land to the city.

Fresh laid eggs in large quantities if you use the right food. Poultry keepers should see the Paget Supply Co.

I have nearly one thousand nice calendars for photographs, and from now until they are gone, I will give one complete with every dozen any size photos taken by me. Come either on clear and cloudy days. E. F. Tucker. 15-4f

SATURDAY, APRIL 24, 1909

REVELSTOKE A.Y.P. MINERAL EXHIBIT

No effort should be spared by the members of the Board of Trade and others interested in exploiting the resources of the Columbia district to make the exhibit of minerals at the Alaska-Yukon-Pacific Exposition as complete as possible and to have it in the hands of the compilers of the British Columbia display as early as possible. Visitors to Seattle have expressed the greatest surprise and admiration at the enthusiasm with which the people of the Sound City are throwing themselves into the making of a Twentieth Century show. While none of the cities that has formerly handled the experiment of a World's Fair has expressed any languishing desire to go through the same experience again, and while all of them save perhaps one has lost fortunes by such understanding, Seattle is undeterred by these experiences, and with unfaltering energy is marshalling all her resources and her genius to make the A. Y. P. Exposition the best yet. The magnanimity with which British Columbia and Western Canada have been invited to participate in the affair are characteristic of the go-ahead American and indeed the enormous investments of United States capital in Canadian western industries, makes the drawing of a line of national distinction almost impossible.

While a large number of visitors to Seattle will extend their tour of inspection to this province, there will be a vaster majority who will gain their first knowledge of British Columbia by what they see at the exposition. No corner of the province that has latent possibilities or opens an inviting field for the investment of capital should be neglectful of an opportunity to spread itself to the limit of its wing feathers. While American capital has not been reluctant in the past to investigate the treasures of the Canadian territory the contiguity of such a vast body of potential wealth as the province has must come as a revelation to many likely investors who would never see these things until they are thrust directly under their attention.

It may be a weariness to the flesh for any central body to awaken the degree of general interest that should be manifest at such a time and yet it is only by persistent effort on the part of the few that the larger bodies can be roused into activity. Every likely prospect should have its colors in the vast mass that will represent the various parts of the province. And the earlier these exhibits are in the hands of those in charge of the main exposition the better will be the opportunity to give them place. The nagging necessary to accomplish this may not be a pleasant task but when the culmination is successful the effort is forgotten.

CHINESE REPATRIATION

A new solution—or partial solution—of the Chinese immigration problem as it affects the Canadian labor market seems to be looming up as a result of a prolonged visit by a Chinese representative of the government of Kwang Su province to this country. The gentleman is Mr. Lo Sz Ki, who passed through Vancouver on his way to China on the last outgoing Empress. Mr. Lo declares the province of Kwang Su to be rich in minerals and he has spent ten months in America interesting American capital in the development of the mineral prospects along modern and Occidental lines. Capital to the extent of $8,000,000 has been subscribed for the purpose on this continent and a large quantity of machinery was taken out by the members of the party to initiate the development work in the new mines.

But the interesting feature of Mr. Lo's visit from an economic point of view is the missionary campaign carried on by him among his countrymen looking to their repatriation. He urges all who have made themselves familiar with western ways to go back to China and seek employment in the development work which will from now on take rapid place in the Oriental provinces. He states that the introduction of our western mining methods in China will necessitate the adoption of a wage scale somewhat comparable with that paid in European countries and urges that where his own countrymen are capable of filling the positions of trust in these new industrial enterprises, the places should be seized upon by Chinese. Already a large number of Orientals more or less familiar with American mining operations have signified their intention of going home to take up the new work. If this propaganism should succeed it may be but a short time till a very different condition may exist in Canada with reference to Chinese immigrants. The Chinese population is not large and the expatriation of a few hundred of the more expert of these would leave a hole in some of the industrial undertakings of the west.

The invasion of China by American capital at the solicitation of the Chinese themselves and to be managed ostensibly by joint American and Chinese boards of directors is an experiment which will be watched with the greatest interest, as well as the effect it will have upon the labor market here.

Canada's drink bill, amounting as it does to $76,000,000 per annum, would build, equip and maintain five Dreadnaughts each year. If the booze bills were stopped and the money spent in Dreadnaughts in five years Canada might have a navy of 25 of these ships, no disparagable fleet. While one dreads to think of Dreadnaughts in action, their combined destructive agency would scarcely average as high as that of the liquor traffic if we accept the census of the latter. How would it be to try it for five years and see how Canada would feel at the end of the experiment? But we won't do it.

The budget speech delivered on Wednesday by Hon. Mr. Fielding shows an estimated surplus of $1,500,000 although the estimated income is more than $11,000,000 less than that of last year. The surplus is calculated from the consolidated revenue account. Neither the bukget speech nor Mr. Foster's criticism of it was worthy the occasion and both make rather tame reading. The opposition seem more diligent at unearthing scandal and the government at burking inquiry than in attending to the study of the more serious affairs of the country.

CORRESPONDENCE.

Injustice to Voters

Editor MAIL-HERALD.

SIR: In the last two issues of your paper a list of names has been published by the collector of votes of those whom the Liberal Association wish to deprive of the privilege of voting in this district. Now, if the names are removed as published a very grave injustice will be done to our railroad men, for many of those advertised have their permanent homes here, but are running temporarily out of other points. In the list there are trainmen and enginemen running on branch lines, who may be back here any day, and as all their interests are here, it is certainly not right that they should be barred from the voters' list. In fact if the objections are allowed, on the same grounds the majority of our engine and train men could be struck off.

Yours faithfully,
ENGINEER.

Revelstoke, B. C.,
April 23rd, '09.

Editor MAIL-HERALD:

SIR,—How is it that my name as well as the names of many other Italians who reside in Revelstoke is being advertised as to be removed from the voters' list. I am a citizen here, my home is here, and I have been on the voters' list for years, and I do not know why the Liberal Association should be allowed to remove my name and that of my fellow countrymen. Are they trying to take our votes away?

Yours truly,
TONY LONG.

County Court

The regular spring sittings of the County Court will open in the Revelstoke Court House on Wednesday, April 28th at 10 o'clock. His Honor Judge Forin will preside.

TO RENT

Vancouver, B. C.

WEDDING BELLS

Well Known Kootenay Contractor Weds

A wedding of particular interest took place at Rossland on Tuesday last, the contracting parties being Miss Beatrice Hobbs, daughter of Mr. S. Hobbs, book-keeper to the contracting firm of Macdonald & Gillette, who were the successful tenderers for the Government traffic bridge over the Columbia river at this point, and Mr. W. G. Gillette, ex-mayor of Nelson and one of the partners in the above mentioned firm. The happy couple have been spending their honeymoon at the coast cities and will return to Nelson via Revelstoke tomorrow.

CROWE—MORRIL

The marriage took place at St. Andrew's church, Kamloops, on Wednesday evening of Mr. Arthur Wilson Crowe and Miss Ada Louise Morrill, daughter of Mr. and Mrs. John Morrill of that city. Rev. W. A. Wylie was the officiating clergyman. Miss Ida B. Crowe, sister to the groom assisted the bride, while Mr. J. Henry Morrill upheld the groom. A splendid reception was tendered after the ceremony at the home of the bride's parents after which the new couple left for Revelstoke where they will take up their residence. Mr. Crowe runs in and out of Revelstoke as a C.P.R. conductor.

CAMPBELL-GODWIN

The residence of Mr. and Mrs. R. Howson, McKenzie avenue was gladdened on Tuesday by the marriage of Mr. James Albert Campbell, brother to Mrs. Howson, to Miss Mabel Godwin, both the young people being of this city. Mr. Joseph Howson acted as best man while Miss Sarah Thompson made a pretty bridesmaid. The ceremony was performed by Rev. W. P. Freeman. After a wedding breakfast the newly made couple left for Salmon Arm and other western points along the line of the C.P.R. where their honeymoon will be spent. They will reside in the city.

GOVERNMENT TELEPHONES

Saskatchewan Purchases Bell Long-distance System

REGINA, Sask., April 24.—The Saskatchewan Government has purchased all long-distance lines, local exchanges and equipment of the Bell Telephone company in this province, and will take over the system on May 1st. Nothing as to the details of the transaction is obtainable. It is understood however that the purchase price is to be paid in cash, and not provincial bonds, as was the case in Manitoba.

Notice !

In view of the numerous letters of enquiry that are being received from different residents of this riding whose names are at present being advertised as to be struck off the Voter's List on the score of non-residence, the Conservative Association wish to state most emphatically they have not entered a single objection, and that the list as advertised contains names objected to by representatives of the Liberal party.

What Our Trade-Mark Means to You

IT means that the flour contained in bags and barrels so trade-marked is decidedly whiter, a great deal stronger and more nutritious than other flours.

It means that the flour has been properly aged to mature its full strength.

It means

"More bread and better Bread"

and better pastry, too.

It means elimination of uncertainty—"your money back" if Purity fails to give entire satisfaction.

Costs more than the other kind, but worth the difference.

CONDEMNS U.M.W. UNION

Board of Conciliation Recites Strong Grounds of Objection.

OTTAWA, April 24.—Strongly condemnatory of the influence of American labor unionism in Canada is the report of the board of conciliation appointed under the Lemieux Act to enquire into a dispute between the Dominion Coal Company of Nova Scotia and the miners.

The report of the board states that the most important question for consideration was that of recognition of the U.M.W. of America by the Dominion Coal Company, a question purely a matter of policy. The U.M.W. claimed the right to approach the management by committees, as is done by the P.W.A., but the company thus found itself face to face with two rival organizations and found it impracticable to deal with separate committees whose contentions might be at variance. The report continues.

"The principal reason, however, why the company refused to recognize the U.M.W. is that they are practically a foreign organization, having dangerous and menacing powers under the constitution. It is true that the U. M.W. is international in membership, but the principal executive officers and the great bulk of the members reside in the United States. The company pointed out that this has a very serious effect on the coal trade of Nova Scotia, inasmuch as American operators are making serious inroads into Canadian markets.

But the most objectionable clause of the constitution (of the U.M.W.A.) is as follows:

'The international officials shall at any time they deem it to the best interests of mine workers in a district that is idle for just and sufficient reasons order a suspension of work in any other district or districts that would not in any way impede the settlement of the district affected, provided that such action would conserve to the best interests of the U.M. W. of America.

"This rules makes its quite possible for the executiae of the United Mine Workers, whose head office is in Indianapolis, Indiana, to proclaim a strike in Nova Scotia if they considered it to be in the interests of the U.M.W. as a whole. . . . . The board considers that the coal company is amply justified in refusing to recognize an organization that could exercise such a dangerous and continually menacing power. . . . . The men must see that their interests are bound up with those of the Coal Company and while they naturally expect to share in the prosperity of the company, anything that tends to hamper materially the operations of the company must in the end prejudicially affect themselves."

A BOY FIEND

Loses Temper and Feeds Baby Step-Brother to Hogs

NEW ORLEANS, La., April 21.—Incensed because his stepmother had left him at home near Opelousas, La., in charge of his little stepbrothers and stepsister for the day, Tom Godfrey, a 12-year-old negro, fed the youngest of his charges to the hogs, and later, with an axe, inflicted what will probably prove fatal wounds, on the heads of the two other children.

The stepmother reported the triple crime to the parish authorities and Tom was placed in jail at Opelousas. She says she found the baby in the pen with the hogs when she returned home. Its hands and feet had been eaten off, but it was still alive. She straightway whipped Tom, and when she went for a doctor to attend the baby, Tom seized an axe and attacked his six-yeaa-old stepbrother inflicting several deep wounds. His young stepsister interfered, and he crushed her skull with an axe. The girl is dying and the other two children have little chance for recovery.

Law Restricts Marriages

NEW YORK, April 24.—Persons afflicted with consumption may no longer marry in New Jersey. Neither may persons having any transmissable disease. A law forbidding such marriages, which modern health authorities have been urging for years, was passed in the closing hours of the legislature's session last week and was signed late Saturday night by Governor Fort. There was bitter opposition to the law on the ground of its unconstitutionality, but it finally passed by a comfortable majority.

Estimated Wheat Crop

WINNIPEG, April 24.—Mr. Frank Fowler, secretary Northwest Grain Dealers Association, stated to-day that the estimate of the grain crop this year will be 115,000,000 bushels. This will be the result of lands thrown open and homesteading and is an increase of about 15,000,000 over last year.

B. OF R. T. DANCE

Marathon Waltz Won by Mrs. Edwards and McCannell

The dance held under the auspices of the Ladies' Auxiliary of the B. of R. T. on Thursday night at the Opera House proved a great success both in the large turnout of guests and in the social feeling which pervaded all. Music was furnished by the Independent Band and R. Gordon officiated as Master of Ceremonies. At midnight supper was served and the guests wanted for nothing in the way of dainties of all kinds. The decorative scheme, though not elaborate, was tastefully carried out, being in reality a replica of that used for the hospital the previous Tuesday. After supper the feature of the night was the Marathon waltz. This is the first of its kind ever held in Revelstoke and created no little interest. There were ten entries and the rules of the contest were that each couple had to start from one of the referees and each referee (there being one to each couple) was to carefully keep tally of the number of times his couple waltzed round the hall within the 30 minutes allotted for the race. Each couple had to turn once in every four bars and could rest as often as they liked. The couple making the greatest number of laps during the half hour would be the winners. The following entries were made: Mr. and Mrs. Roy Macdonald, Miss Campbell and Dr. Hamilton. Mrs. Somes and Mr. Haner, Mrs. Edwards and Mr. McCannell, Mr. and Mrs. K. G. McRae, Mrs Walker and Mr. Buckley, Mr. and Mrs. Dan McDonald, Mr. and Mrs. Stingley, Miss Ferguson and G. H. Brock, Miss Bartlow and J. Haner.

The referees were elected from the hall as follows: Messrs. Davis, Henderson, Grimes, Calder, Roller, Jamieson, H. McSorley, Schouse, Walker. The start was fast and a slashing pace being set by Mr. Stingley and his partner. Throughout the whole of the race each couple kept up a fast yet steady gait, a few falling out in order to rest. The interested spectators were highly enthusiastic and cheered lustily. Taking the course round the hall as 150 feet and the average number of laps as 60, the dancers covered well over 2 miles including the turns.

The result was as follows:

1st.—Mrs Edwards and Mr. McCannell, 64 times round.

2nd.—Mr. and Mrs. Dan McDonald, 62.

3rd —Mrs. Walker and Mr. Buckley, 60.

The winners received a handsome fob and sleeve links respectively. The first Marathon dance in Revelstoke proved a great success. Messrs. W. H. Elson, Supt. T. Kilpatrick and W. A. Foote acted as judges.

CANADA WINS AT HORSE SHOW

Double the Prizes Taken from Americans by Canucks

The annual horse show at Vancouver opened this year with all the eclat which distinguished the successful adventure last year. A large number of horses were on exhibit from various parts of Canada and the United States but the best prizes were held at home by the Canadian exhibits many of the "Firsts" being retained in Vancouver.

Hon. Captain Tatlow, Minister of Finance, in formally opening the show said.—

"I count this Horse Show as of very great assistance in the work the government is carrying on," declared the Minister of Finance. "The Minister of Agriculture is trying to improve the quality of stock in this province and nothing is more calculated to advance his efforts than the undertaking the Horse Show promoters have taken in hand."

He understood that there were horses in the riding and driving classes from all parts of the Dominion and from south of the line, and that there were fine exhibits in the breeding classes. The encouragement of the breeding classes was that the government were taking most interest in because they believed this was going to be a great horse country. He regarded it as an important industry and one deserving of every support.

Comparison of the winning equines shows the following results:

CANADIAN WINNERS	
First prizes	10
Second prizes	15
Third prizes	11
Grand total	36
AMERICAN WINNERS	
First prizes	9
Second prizes	4
Third prizes	5
Grand total	18

W. J. Curtis, piano tuner, will be in the city about 25th April. Orders left with R. Howson or Revelstoke General Agencies will receive prompt attention. td

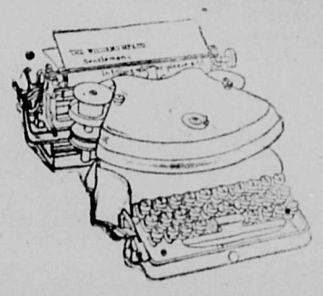
"THE EMPIRE"



VISIBLE TYPEWRITER

A Canadian Made Writing Machine

For ease of operation and perfection in the results produced the "EMPIRE" TYPEWRITER is unsurpassed.

The "EMPIRE" embodies no complicated movements, while its manifolding alignment, margin facilities, automatic conveniences, durability, visible writing, minimum of noise in operation make it the typewriter par excellence.

The "EMPIRE" needs less care than any other machine because there are fewer parts to be cared for also due to the strong lines of simplicity that are part of the machine.

The C.P.R. began using the EMPIRE Typewriter in 1895, continued to add to the number, and now have in constant use more than 700 of these machines.

Moving Pictures tonight.

Don't forget the Y.M.C.A. social Tuesday next—afternoon and evening.

Come to the Y.M.C.A. and enjoy a pleasant afternoon or evening—Tuesday 27th.

Hear the pretty song story by the children on Friday, May 7th, at the opera house.

The May Festival promises to be the best performance ever put on by children in Revelstoke. Watch for further particulars.

Rumors have reached the city that a case of smallpox has developed in one of the lumber camps near to town. The health authorities are making strict investigation.

The Globe Lumber Company report a heavy demand for building material of all kinds. They received this week no less than ten cars of lumber and shingles and it is going out as fast as teams can deliver it.

Rev. H. Dickson, of Knox college, Toronto, arrived this week to take charge of the Presbyterian mission work along the line of the C.P.R. with headquarters at Three Valley. His work will extend from Rogers' Pass to Sicamous. He was the guest of Rev. J. R. Robertson while in town.

The members of the local lodge of the Independent Order of Oddfellows will hold their annual parade and attend Divine service at the Baptist church next Sunday evening. All members and visiting brothers are invited to attend. Brothers are requested to meet at Selkirk Hall at 7 o'clock. The members of the order of Rebekahs are invited to attend with their brother Oddfellows.

The Kootenay Agencies Limited has been incorporated and has taken over the business formerly carried on by Kincaid & Anderson. Mr. A. E. Kincaid is managing director and Mr. James Hay is secretary-treasurer. The new company are arranging for the erection of substantial brick offices on First street with ample vault accommodation.

The bakers of Revelstoke announce, reluctantly, that they have at last been forced to fall in line with the general advance made in the retail price of bread throughout the province owing to the increased cost of flour. The raise is from 16 loaves for a dollar to 10c a loaf or 12 loaves for $1. For a year, though the price of flour has been a dollar a sack more than formerly the bakers here have not advanced the price, in this respect being unique among the bakers of the province. The recent repeated advances have however necessitated a raise in self protection and the new scale goes into effect at once.

Moving Pictures tonight.

Your Insurance

Is one of the most important items in your business

KOOTENAY AGENCIES, LTD.

Successors to Kincaid & Anderson

A sale of work under the auspices of the Ladies' Guild of St. Peter's church was held last week at the residence of Miss E. McCarter, McKenzie avenue. The very handsome sum of $65 was realized and will, it is understood, be devoted to the payment for the electrical fittings recently placed in St. Peter's church.

Social and Personal

Miss M. Buck has accepted a position in the law office of Gillan & Elliott.

Mr. A. E. Miller, inspector of public schools, is in the city today on his regular official visit.

Mr. and Mrs. F. B. Lewis will leave on Thursday the 29th instant for Vancouver where they will make their home in future.

Mr. and Mrs Taft, of the Hood Lumber Co., Taft, B C., a few miles west of Revelstoke, have taken up their residence in the city.

Mr. W. A. Anstie, secretary of the Mountain Lumbermen's Association, was in the city this week interviewing local lumbermen on matters of interest to the trade.

Mr and Mrs. Jas. Porter, of Moose Jaw, Sask., are visiting their son Mr. J. J. Porter. Mr. and Mrs. Porter are returning to their home from Nebraska, where they have been spending the winter.

The many friends of W. S. Newman will regret to hear of his serious illness at his home in Victoria. The family has been summoned home and Geo Newman of Arrowhead, passed through Friday night for Victoria.

Mr. W. H. Pratt, manager of the Molsons bank, who had received notice of his removal to a Quebec branch of the same institution has been more recently offered his choice of staying on in Revelstoke or accepting the removal. Mr. and Mrs. Pratt have elected to remain in the city and will continue their residence here.

WROUGHT WITHOUT MIRACLE

Daylignt Saving in Revelstoke Fixed by Mutual Consent

That the efforts of local parties to arrange a time schedule for working hours by which the public would have more evening daylight for recreation or other personal engagements have borne fruit in a satisfactory agreement is already announced. Mayor Lindmark stated this morning to a representative of the MAIL-HERALD that all the local employers of labor had fallen into line and that after May 1 the working day will begin and close an hour earlier than now. There was not so much embarrassment in the case of stores, shops and factories in effecting an arrangement for a change, but it was understood that to change the official time of the C. P. R. for the city would be out of the question. So far as the C. P. R. employees were concerned any alterations in the working hours must therefore be arrived at by mutual agreement between the company and the men. The secretary of the Trades and Labor Council brought the matter before that body and replying to a letter from the Mayor, stated that the men were agreeable to start an hour earlier if the same provision held good for the evening. On the matter being taken up with the local C.P.R. officials satisfactory progress is reported and it is expected that the industry employing the largest body of men in the city will voluntarily conform to the desired change.

Stores will open, according to a previous arrangement at 7 o'clock instead of 8, and close at 6. The public schools will open at 8 instead of 9 with dinner hour beginning at 11, and closing at 3. All city and contract work, public offices and the like will also conform to the new schedule.

Not Making Good

A gentleman in Vancouver has received a letter from a friend in the Ingenika country, Mr. J. Pettry, who went in last year. It is dated February 11, and was brought out by way of Hazelton. The letter states: "There has been nothing good found here yet. Only two have taken out enough to pay their year's supplies, one about 30 oz. and the other about 70 oz. Several other claims took out a few ounces, but nothing to indicate anything rich or permanent."

REAL ESTATE ACTIVITY

Many Transfers of Valuable Holdings Listed Recently

HARD WINTER KILLS FRUIT

Heavy Losses Expected by Growers of Peaches

Reports from growers show that there will be a heavy loss in fruit throughout British Columbia as a result of the unusually severe winter. Peach buds have been killed off by hundreds, while many apple orchards have also suffered considerably.

In the Lytton district some of the ranchers report heavy losses, one of them being upwards of four thousand dollars. The same condition obtains throughout the Okanagan and other fruit districts. The result is that peaches will be high this season and very scarce. The unusually severe weather during the winter was responsible for the loss there being no snow at the time to serve as a protection for the trees.

In Kamloops district the loss will be fairly heavy and is well distributed amongst the fruit growers.

Moving Pictures tonight.

Churches.

PROVINCIAL PARAGRAPHS

At last the Dominion government fisheries cruiser Kestrel has made a real capture of a United States poacher in the Northern waters. It took four shots from the Nordenfeldt gun of the *Kestrel to make the pirate throw up* his hands. Even then the officers refused to admit capture and refused to fasten hawsers to the fishing craft The latter was towed into Vancouver where she now lies a prize awaiting court martial. Charles Levi Woodbury is her name with a record of smuggling on the Chinese and Japanese coasts.

Nelson fruit growers have entered into a mutual arrangement for the shipment of their small fruits in unit shipments this year. While the scheme under discussion is not yet cooperative it is anticipated that it will be made such before shipment begins.

The cannerymen of the Fraser river have again dropped the price of salmon and are offering five cents for Spring and three cents for whitefish. The cause offered for the drop is the alleged fall in prices for the canned goods on the New York market.
