EXCURSION IS A SUCCESS

Arrowhead, Beaton, Trout Lake, Ferguson, Gerrard Visited —Hospitable Reception

The business men's excursion to the Trout Lake district under the auspices of the board of trade and under the management of the Trout Lake committee consisting of S. Sutherland, T. Kilpatrick, A. E. Kincaid and H. McKinnon, was a complete success. Starting at 5:30 on Saturday morning and returning at noon on Monday the expedition from beginning to end was one of unalloyed pleasure. The weather was perfect. Much valuable information as to the great mineral wealth of the district was obtained. Owing to the earliness of the season, the snow in the mountains and the impossibility of obtaining transportation for so large a party it was found not to be practicable to make an inspection of the mines, but short addresses on the resources of the district were made by old timers who have the facts at their fingers' ends and samples of ore from numerous claims were inspected. The people of Arrowhead, Beaton, Trout Lake City, Ferguson, Gerrard and Halcyon, all of which were visited welcomed the party with the greatest cordiality and extended every possible hospitality; a delightful trip from Trout Lake City to Gerrard as guests of the people of Trout Lake and Ferguson being a feature of the excursion which will never be forgotten by those who took part in it, the magnificent scenery and the interesting visit to the fish hatchery being specially enjoyed. Another feature much remarked was the admirable accommodation everywhere obtained. Although the party numbered more than expected, twenty-six leaving Revelstoke, and although no idea of the excursion was known in Gerrard before arrival, there and everywhere abundant and delicious meals were quickly provided for the hungry excursionists. Andy Craig, particularly, was hospitality itself in his efforts to make the visit of the Revelstoke party thoroughly enjoyable.

At 5:30 on the morning of an ideal day T. Kilpatrick, who had been unanimously elected superintendent of transportation, gave the word, and the steamer Revelstoke cast off from the dock and with the veteran Capt. Forslund at the helm dropped rapidly down the river toward Arrowhead The voyage of some 30 miles down the Columbia was most pleasant and the scenery beautiful and interesting.

Hundreds of logs floating down the river toward the Forest Mills mill at Comaplix were passed, as well as great piles on the river bank which will soon be floated by high water. The sun shone brilliantly on the snow capped mountains and its genial warmth soon dissipated the early coolness on the water. Comfortable farmsteads were passed and many tracts of fertile land were to be seen. At Halls Landing, near the entrance to the Arrow lakes there exists in one tract probably 3000 acres of land unsurpassed for dairy purposes anywhere in the province. Here the Hall brothers have an extensive clearing, and a number of comfortable houses were to be seen from the deck.

The trip to Arrowhead took about a couple of hours and on arriving at the town a short halt was called to enable the party to see their friends and to admire the beauties of the town. The handsome school standing well up from the water was conspicuous and the excellence of the stores and hotels was remarked.

Another hour's run took the steamer to Beaton where three automobiles one belonging to Dr. Hamilton and two to F. McCarty, were unloaded. The entire party here disembarked and proceeded from the landing to Beaton where the genial Andy Craig and his two stages with four horse teams of serviceable animals were met. After a short visit to the town the excursionists in automobiles and stages started for Trout Lake City.

Dr. Hamilton in his Ford car took the lead and had the distinction of driving the first automobile that ever travelled over the road from Beaton to Trout Lake. With him were W. A. Foote, W. Bews and E. G. Rooke. Next came the Studebaker car with Frank McCarty at the wheel with him in the car being T. Kilpatrick, J. Abrahamson, A.E. Kincaid, C. Gillan and J. McLundie The third car driven by D. C. Leary, followed close behind, with Mr. Leary being H. McKinnon, S. Sutherland P. Levesque, the remainder of the party following in the coaches driven by Andy Craig and John Quarie.

The scenery was magnificent. For some distance the road, as if on stilts, followed the canyon of Salmon creek which gushed hundreds of feet below in a series of foaming falls. The stream takes it rise in Summit lake which with Armstrong and Staubert lake are passed, the country opening out into spacious fertile meadows. Much valuable cedar timber fringes the road during much of the journey. The lakes lay placid and sparkling in the brilliant sunlight and surrounded by the lofty mountains and forests presented a picture that only British Columbia can produce. Once they were the home of myriads of wild swans, today they teem with fish and as a summer resort no more ideal spot could be imagined. A comfortable farmstead the home of a Boer who has realized the superior attractiveness of British Columbia is passed, with other prosperous looking farms, the old slaughter house is seen where Andy Craig once did a thriving business, and herds of contented cattle browsing in the luscious grass.

At the foot of a mountain torrent, bordered with wild flowers Dr. Hamilton called a halt and the entire

(Continued on Page Four)

EAGLES' TRIP TO HALCYON

Delightful Excursion Planned for Sunday — Fishing, Bathing and Music

At a meeting of the Fraternal Order of Eagles lodge last night it was decided to organize an excursion to Halcyon Hot Springs for Sunday next. This will be the first of the season and a delightful trip is expected for all who take part.

The steamer Revelstoke will leave the boat wharf at 7:30 arriving at Halcyon at 10:30. The return journey will start at 3:30 and the excursionists will be back in the city by 8:30 o'clock. At Halcyon an opportunity will be given for taking one of the medicinal baths for which the hotel is famous and the fishing is reported to be exceptionally good.

The committee in charge consists of J. B. Cressman, president of the lodge, E. G. Burridge, secretary and Robert Bick. Good music will be provided on the boat.

New Headquarters for Orange Lodge

Work is in progress on moving the old Oddfellows hall from the school grounds to the lot between the telephone office and the Union cigar factory on Second street. The building will be renovated and used as the headquarters of the Revelstoke Orange lodge. J. D. Shaw has the moving contract.

The old Presbyterian church which has been moved to the lot opposite the telephone office on Second street is undergoing alterations to make it suitable as the headquarters of the Scandinavian society. An addition is being built to the front which will be used as an ante-room, and there will be in addition a large lodge room and kitchen. The Scandinavian society in Revelstoke has some 60 members and C. Cante is president of the lodge.

O. W. Abrahamson has the contract for improving the building.

EGGS TAKEN AT HATCHERY

Interesting Operations Watched by Excursionists—Splendid Salmon in Traps

The visit to the new fish hatchery at Gerrard by the Revelstoke board of trade excursion was one of the most interesting features of a most pleasant trip. The hatchery which was only completed this spring is in charge of Lawrence Ogilvie who was for five years at Harrison lake hatchery, and who took much pains in explaining the operations to the visitors.

Inside the building are 240 tanks, each containing a metal basket over which flows water from Twin Falls creek, which dashes itself down the mountain side immediately behind the hatchery. The eggs after being taken from the fish and fertilized are placed in these baskets, carefully shaded from the sun, for sunlight is fatal to the eggs.

The eggs take from 30 days to six weeks to hatch and are kept in the hatchery for two months afterwards when they are ready for shipment to waters that it may be desired to stock.

There are now 650,000 eggs in the hatchery, the capacity of the hatchery being 5,000,000 eggs. The first were taken on May 8, and are now in process of hatching. When ready for shipment the young fish are placed in cans each holding 2,000 and are sent to the water in which they are intended to be released.

It is the intention to keep the hatchery open the entire year, fish of different species being hatched at various times the eggs being taken in the spring and autumn.

The process of catching the fish and taking the eggs was demonstrated to the visitors by Mr. Ogilvie and his assistants William Gunn and Alex Macpherson. Across the Lardeau river just as it leaves Trout lake and on a natural spawning ground is a close picket fence provided with fish traps. The fish come up the river to spawn, meet the fence and pass through openings into traps. From these traps the fish are taken with long handled dipnets, wonderful skill being shown in catching the fish and in selecting a male or female as required. When a female is taken the eggs are pressed into a bucket, next a male is taken and the eggs fertilized. They are then washed and placed in the hatching tanks.

The traps at the time of the visit of the Revelstoke party were filled with splendid salmon weighing 15 to 20 lbs, each and their capture and the subsequent operations were watched with intense interest, many photographs being taken. Some 5000 eggs were taken, fertilized and washed for the benefit of the visitors.

Last Episcopal Visit of Bishop de Pencier

The Lord Bishop of New Westminster and acting Bishop of Kootenay, was at St. Peter's (Anglican) church to administer the rite of confirmation last Sunday morning. There was a large class of confirmation candidates.

His lordship expressed the great pleasure he felt at being present in this parish once again, and his deep regret that this would in all probability be his last visit to this city for any episcopal function, inasmuch as the time was ripe for the election of a bishop of the Diocese of Kootenay. His address was simple yet comprehensive, and by close reasoning and apt illustration showed that while the life of Christians was faith yet, good works were the necessary complement or fruit and that "faith without works' is dead." He empasized the fundamental truths of (1) faithfulness, (2) humility, and (3) self-control.

His Lordship left on the afternoon train for Fort George, Tete Jaune Cache and Chilcoten.

CALGARY'S IDEA OF HUMOR

(Calgary Albertan)

A citizen in Edmonton lost a diamond pin while attending a meeting of the city council. He cannot decide which alderman to accuse of doing the trick.

TROUT LAKE RICH COUNTRY

Vast Bodies of Ore Only Need Capital for Profitable Development

The vast possibilities of the territory tributary to Trout Lake City and Ferguson were impressed upon the Revelstoke board of trade excursion during the visit paid to the district on Saturday and Sunday. With the development of the rich mineral area tributary to the two towns a future lies before them of which the immensity can hardly be overestimated. That the district is amazingly rich and that its development can be only a matter of time was thoroughly realized. It was considered impossible that the wealth lying in the hills can much longer remain dormant and when the possibilities of the territory are widely recognized the district will speedily become one of the most prosperous and most populous in the interior.

The mines that have been developed have abundantly proved their worth but circumstances for which the country is in no way responsible have retarded the progress that belongs to the Trout Lake district. What is now needed is capital to develop a few claims when the success that will follow the operations is expected to awaken world wide interest

One of the banner properties is the Silver Cup on Silver Cup mountain on the south fork of the Lardeau river which formerly had 90 mine employed. The mine has been shown to be of great value and to possess a large body of ore, which consists largely of argentiferous galena with grey copper of a high grade in silver Iron pyrites is also found which carries high values in gold. Considerable tonnage has been shipped in the past and A.P. Garrett who is operating the property now has two cars of high grade silver lead ore ready to ship.

The Nettie L. owned by the Ferguson mines, the owners of the Silver Cup, an English company, is situated about two miles from Ferguson, and is another property that has fully demonstrated its worth by the shipment of large quantities of ore. It is now awaiting deeper developments and has undoubtedly large bodies of ore still available.

The Copper Chief another valuable property is four miles from Trout Lake and is owned by James Livingstone, J. T. Lauthers now operating the mine. The main lead is silver lead of high grade running from $250 per ton and up. Shipments of 25 tons have been made. There is also a lead of low grade ore going $11 on the surface and 30 to 40 feet wide, and containing values in gold and copper.

The Copper Mountain property seven miles above Ferguson owned by a Vancouver company was staked by J. T. Lauthers, the ore assays 3½ per cent copper with 8S in gold and the lead on which 12 claims have been staked is 1500 feet wide. Sixty-nine per cent copper has been obtained from six samples.

The Ethel about three miles from Trout Lake City is another splendid property. The ore is of the dry variety containing black sulphurets bromides and grey copper with copper and gold. Development work was continued all last winter and last fall bunk houses were built. The mine is owned by A. Herman of Spokane, and the lead is now high grade silver lead.

The Lucky Boy on Ethel mountain isowned by the Chestnut Hill Mining Smelting & Development company. At present development is tied up owing to litigation.

The Ajax owned by the Ferguson Mines compgny has been working eight to 10 men all winter and is shipping a carload of ore.

The Great Northern on the south side of Great Northern mountain and about two miles from the north fork of Lardeau creek is at an elevation of 5,950 feet. There are now three men working and development has continued all winter. There is a splendid showing. A good shoot of ore has been followed for 75 feet and there is good ore still in the face.

The Broadview and Fisher mines, three miles from Ferguson expect to operate this summer, a deal now pending. A sale is likely to be consummated to a company which will operate.

Twelve miles from Ferguson is the Cromwell a gold proposition owned by A. P. Garret. There is a good showing and development will be continued this summer.

L. Thompson, S. Daney, who is now hauling ore from the Ajax and J. C. Kirkpatrick expect to make a deal on the Parasboro which will probably be worked as soon as the snow goes.

The Lucky Boy another good property has been working until recently and is a good silver lead copper property.

The Winslow owned by Byron and Bruce White, is a gold property eight miles from Trout lake.

In addition there are scores of other good claims which only need capital to prove their worth. Every resident is confident of the richness of the territory.

Directors Select Officers of Y.M.C.A.

The regular monthly meeting of the board of directors of the Y.M.C.A., was held last evening at which the election of officers for the ensuing year took place. The following officers and committee men were elected:

Hon. President—T. Kilpatrick.
President—R. Howson.
1st Vice-President—J. M. McKay.
2nd Vice-President—J. H. Lyons.
Rec.- Sec.—Robt. Gordon.
Treasurer—T. Bradshaw.
The chairmen of committees are:
Membership committee—L. Stewart
Educational committee—J. Gordon.
Physical committee—J. Lyons.
House committee—W.H. Wallace.
Social committee—C. Somerville.
Finance committee—Wm. Lawrence.
Religious committee—J. L. Hay.
Sports committee—T. W. Bradshaw

OFFICERS OF WOMEN'S CLUB

Mrs. McLean President Women's Canadian Club—Anniversary Evening

The annual election of officers of the Woman's Canadian club took place on Tuesday afternoon, at a special meeting held in the high school building at 4:30. A good attendance of members was present, including all the officers of the retiring staff. As a nominating committee had been appointed at a previous meeting their report was adopted as a whole; and the following officers elected unanimously:

President, Mrs. E.H.S. McLean, 1st vice-president, Mrs. W. M. Lawrence; 2nd vice-president, Mrs. W.H. Sutherland; 3rd vice-president, Mrs. H.N. Coursier; 4th vice-president, Mrs. J. Stevenson; Literary-secretary, Mrs. Sturdy; corresponding secretary, Mrs Kennedy; treasurer, Mrs. C. R. Macdonald. An executive of five were also appointed, Mrs. Briggs, Mrs. Lashley Hall, Mrs. Dent, Mrs. N. R. Brown and Mrs. Andrew McIntyre.

A hearty vote of thanks was given the retiring president, Mrs. J. D. Sibbald, who has filled the difficult duties of the inauguration president of the club during the past year with great ability and unflagging devotion to its advancement. Mrs. Kennedy was also cordially thanked for her faithful attention to the duties of secretaryship.

The regular meetings of the club will be held as usual on the second Monday of the month, but previous to the next one, a special anniversary evening will be enjoyed, probably on the last Thursday of this month, when the proceedings will be of the nature of a social entertainment with speeches and music.

BAND CONCERT TOMORROW.

The Italian band will give their first concert of the season tomorrow evening at the band stand. The following is the program:

Prof. I. Bruno's G. Verdi Band March; M. Marengo, selection, Balls Excelsior; G. Verdi, Miserere, from Casvatore; Oriental march, Caratteristic; P. Mascagni Tuternezzo Cavalleria Rusticana; La Spagnola Ascolese, Oddis Napoli March.

NEW INDUSTRY NEARLY READY

Stave Mill Will be in Operation This Week—Manufactured from Cottonwood

The last of the machinery for Sawyer Bros. stave mill is expected to arrive tomorrow and by the end of the week Revelstoke's latest industry will be in operation.

The mill will saw slack barrel stock. At first only the staves will be turned out but it is the intention to later add to the plant and manufacture heading.

The machinery will consist of a planer and cut off saw, which are already installed. and a stave mill, jointer, automatic filing outfit and gummer which will arrive tomorrow. The staves will be manufactured from cottonwood, a wood not hitherto used for the purpose but which is expected to be thoroughly satisfactory. The wood at present is being cut in bolts, about three miles south of the city where the firm has 8,000 to 10,000 cords available. There is a good road and the bolts are teamed to the mill, later the wood will be cut in logs and teamed on sleighs and it is hoped to find wood available north of the city which may be floated to the mill which stands on the river bank near the boat wharf. At present four men are at work in the bush and 1000 cords will be got cut this summer.

There are only two other stave mills in the west, one in Vancouver and one on the island where fir is the wood used. The demand for staves by breweries and flour mills is extensive and the firm anticipates no difficulty in disposing of the output. The machinery is bought in Cleveland as none is manufactured in Canada.

The firm will employ at first 12 men four in the bush, three teaming and five at the saw. The plant is run by electricity a 40 horse power motor being installed.

The staves after being cut are stored in a drying shed and afterwards packed in bundles for shipment. At the present time much of the staves used in Canada are obtained from St. Louis.

The plant consists of the stave mill and drying shed with tramway to take the bolts to the mill and the staves to the drying shed. The proprietors R. H. and H. Sawyer, are experienced men. They have been in Revelstoke 18 years and formerly ran a sash and door factory here.

Many Names Added at Court of Revision

At the court of revision of the voters list held on Monday at the court house by Robert Gordon, registrar, there were 373 applications for registration. Of these 28 were refused and 345 names were added to the list.

There were 70 objections already on the lists, of these eight were not sustained and 62 were removed from the list.

The Liberal and Conservative associations were represented as well as a number of those whose names were objected to.

RABBITS PROTECTED.

Many people do not seem to be aware that there is a closed season in this province for rabbits as well as other game. The closed season is from January 1st to September 1st, and they come under the classification of hares. It should be borne in mind that this is the closed season.

REID & YOUNG

METHODIST DRAFTS MADE

Rev. W. Lashley Hall Remains in Revelstoke—Rev. R. J. McIntyre at Nelson

The following is the first draft of stations of the British Columbia Conference of the Methodist church, made at the general conference on Sunday. Very few changes are expected:

KAMLOOPS DISTRICT.

Kamloops—George O. Falls, B. D Charles Ladner, superannuated.

Kamloops (Interior Chinese Mission)—Lay Evangelist (Lee Gee Hong.)

Rose Hill—To be supplied (A. V. W.) under Superintendent of Kamloops (Kamloops P.O.)

Little Fort—To be supplied, under the Superintendent of Kamloops.

Nicola Valley—Charles F. Connor, M.A., B.D. (Merritt P.O.)

Ashcroft—To be supplied, under superintendent of missions.

Lillooet—R. Dawson Hall.

Cariboo—To be supplied.

Salmon Arm—William J. Beamish.

Tappen—To be supplied.

Shuswap Lake Mission—To be supplied under Superintendent of Salmon Arm.

Craigellachie—To be supplied.

Revelstoke—W. Lashley Hall, B.A., B.D., president conference.

Golden—To be supplied (G.K.)

Spillimacheen—To be supplied.

Joshua Hobden.

M. W. Lees.

OKANAGAN DISTRICT.

Enderby—Wm. Vance, B.A.

Mabel Lake—To be supplied from Enderby.

Armstrong—J. Geo. Brown, M.A.

Vernon—Frank W. Hardy M.A., B. D., Arthur N.C. Pound, B.A., under appointment to China.

Vernon (Chinese Mission)— To be supplied from Kamloops.

Oyama—To be supplied under Superintendent of Vernon.

Kelowna—Jas. C. Switzer, B.A.

Mount View—Wm. Elliott, B. A., (Rutland P.O.)

Peachland—To be supplied. Andrew Henderson superannuated.

Summerland—Robt. W. Lee.

Naramata—To be supplied (J. E.) under Superintendent of Penticton.

Penticton—R. McElroy Thompson.

Keremeos—Geo. T. Mackenzie.

Hedley—To be supplied.

Princeton—To be supplied, under Superintendent of Keremeos.

T. A. Osborne.

W. Percy Bunt.

WEST KOOTENAY DISTRICT

Nelson (Trinity)—Robert J. McIntyre, James P. Westman, field secretary of Sunday schools and young peoples' societies for Alberta and British Columbia, 913 Eighteenth avenue west, Calgary.

Nelson (Fairview)—To be supplied.

Harrop—To be supplied.

Crescent Valley and Kootenay River—To be supplied. John Greenway, superannuary.

Kaslo—James Calvert, D.D.

Kootenay Lake Mission—To be supplied. Mission boat "Iwyll" under direction of James Calvert, D.D.

Poplar—To be supplied.

Trout Lake—To be supplied, under Superintendent of Kaslo.

Sandon—To be supplied.

New Denver—To be supplied (W.R. W.)

Slocan City—To be supplied.

Nakusp and Arrow lakes—To be supplied.

Rossland—John J. Dixon.

Trail—Evan Baker.

Grand Forks—Thos. G. Barlow.

Greenwood-Phoenix—J. Henry Hobbins.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each applicant must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to the Agent or Sub-Agent of Dominion Lands.

W. W. CORY.

CASH VALUE OF EDUCATION.

(Calgary Albertan.)

In Calgary the average wage of a school teacher is $950. The average wage of a janitor is approximately $1,360. There is something wrong somewhere in a wage list like that.

TO RE-SENTENCE JOHNSON

The United States circuit court of appeals yesterday granted a petition of District Attorney Wilkerson for a rehearing on several of the counts in the indictment against Jack Johnson the negro prize fighter, convicted of violating the Mann white slave law. The argument was set for May 18 Johnson was convicted a year ago, and while the higher court upheld a number of the counts in the indictment, it reversed others and ordered that the negro be resentenced.

GRAND ORANGE LODGE WILL MEET AT REGINA

Six hundred delegates from all parts of the Dominion are expected to attend the convention of the Grand Orange Lodge of British North America, which will open in Regina on May 25. The Grand Black Chapter of British North America will also convene in the city at the same time. Speaker Sproule, of the house of commons, and Col. Sam Hughes, minister of militia, will be among the speakers at the convention.

BECKER WITNESS LIED.

New York, May 19.—Counsel for Charles Becker, the former police lieutenant, who is on trial charged with the muder of Herman Rosenthal the gambler, drew from Bridgie Weber, described as the financial backer of the plot that resulted in the killing of Rosenthal, admissions that he had lied, had said things during his direct examination earlier in the day which he had omitted the first time Becker was on trial, and had made affidavits that he swore were false.

The Globe Lumber Co., Ltd.

WESTERN FLOAT
By R. T. LOWERY

The river at Whitehorse opened on April 22.

This year the tax rate in Vernon is 27 mills.

There are 10 autos in Rossland and five in Trail.

Spring salmon are running in the Fraser river.

The Duke of Connaught will visit B. C. in August.

S. Ritchney has opened a cigar store in Smithers.

A Chinese barber shop will soon be started in Clinton.

There are 40 men working at the shipyards in Whitehorse.

Mrs. Nellie Dupras has opened an ice-cream parlor in Lillooet.

In Lillooet grass is growing on the trail to the police court.

Rupert Raoier has been appointed night policeman in Princeton.

Billy Knight has returned to Rupert much improved in health.

A new crusher has been installed at the Omasco mine near Oroville.

The Trites-Wood Co., is putting up a new store building at Michel.

At Enderby an addition will be added to the King Edward hotel.

The new Premier hotel in Prince Rupert will be opened early in June.

Mr. Haddo of Mission City has opened a watch repairing shop in Clinton.

Capt. George Graham is now in command of the steamer on Trout Lake.

In a short time Jack Williams expects to open a restaurant in Prince Rupert.

There are about 2000 people in Trail, some of whom can speak English.

Work is to be resumed on the Handy mine, Gerrard, by a new company.

Sidewalks in Merritt are laid by the local jail birds who also water the streets.

At Golden Alfred Anderson was fined $5 and costs for trapping beaver without a license.

The McLaren Lumber Co. will add $200,000 worth of plant to their sawmill at Blairmore.

Lost Lake, near Chesaw, has been closed by the state and will be used for hatching trout fry.

Gordon Payne holds the auto record between Hedley and Keremeos. He made it in 33 minutes.

The Enderby Press has bought a linotype. The editor will work it himself, although he may have to use an axe occasionally to keep it going.

The Cork group of claims, a few miles from Kaslo have been sold to W. T. Tierney, W. O. Miller, W. E. Zimisky and others. The price is said to be $60,000.

Ezra Meeker is a pioneer of the Oregon trail, and is more than 80 years old. He is driving an ox team with his pioneer wagon from Tacoma to San Francisco.

The British Columbia government has presented to the Kew Gardens in England a flag-pole 250 feet long. When erected it will be the tallest single piece flagstaff in the world.

Ed. Clark walked from Spokane to Prince Rupert in 52 days. He left Spokane without a dime, and Ole Larsen of Nome paid him $500 for making the trip in less than 60 days.

A Philadelphia company has bought the gold quartz mine at Surf Inlet, Vancouver Island, for $500,000. A narrow guage railway 25 miles long, will be built to the mine from the sea.

After living 17 years in Mexico J. H. Thompson has returned to Rossland. He states that Huerta is a full blooded Indian and drunk nearly all the time. He has shrewd advisers who handle diplomatic affairs. The Japs are pouring into Mexico in great numbers.

COME, BOT', BOT', BOT'!

Once I bought a little bird
All hot, hot, hot;
My lady friend to the waiter said,
"Come, bot', bot', bot'!"
The waiter brought those bots along,
(Of bucks I had but two),
I sauntered toward the telephone
And flew, flew, flew!

HE PUT THE CAN IN CANADA

(From the Hamilton Herald)

If we are to put implicit trust in recent liberal speeches, we must admit that it was Sir Wilfrid who put the "Can" in Canada.

Measures to Combat Outbreak of Rabies

Both the Federal and provincial governments are taking every precaution to stamp out as speedily as possible an outbreak of rabies which has assumed a serious aspect in the Cowichan district. Hon. Dr. Young, under whose jurisdiction comes the administration of the provincial board of health, announced yesterday that Hon. Martin Burrell, Minister of Agriculture at Ottawa, acting on representations made by Dr. Young, had proclaimed the whole of the electoral district of Cowichan an area for the exercise of the usual precautions. The provincial board is acting with the Federal authorities and every confidence is felt that the menace will be speedily stamped out. Dr. S.F. Toimie, Dominion Veterinary Officer, is advising the local officers in the district. A source of danger existent for some time was the fact that the Indian reserves were outside the jurisdiction of the officers, but the order of the Ottawa government now brings the reserves under supervision and inspection. The order from Ottawa reads as follows:

"Under and by virtue of the authority conferred upon me by the provisions of the order-in-council of August 10, 1905, as amended May 28, 1909, being regulations relating to rabies, I have received a report from E. Torrance, veterinary director general, a veterinary inspector under the Animal Contagious Diseases Act, that rabies is suspected to exist in the provincial electoral district of Cowichan, including the Indian reserves therein in the Province of British Columbia, and do hereby order that all dogs within the said electoral district must either be securely chained in an outhouse or other building, or kept under lock and key or kept constantly muzzled with effective metallic muzles in a manner satisfactory to the veterinary inspectors of this department in view of the fact that rabies is readily transmitted to human beings. The attention of all provincial and municipal officers is specially directed to this order and their co-operation is earnestly requested."

CHEAP WEEK-END CABLE SERVICE TO AUSTRALIA

Ottawa, May 19—Hon. L.P. Pelletier, Postmaster-General of Canada, has been instrumental in introducing a week-end cable service between Canada and Australia to be effective forthwith. Week-end messages may now be sent to Australia and New Zealand at the rate of $2.80 covering the first 20 words or less and 14 cents for each adhitional word.

As the regular cable rate between points in Canada and Australia is 58 cents a word, while the new week-end cable rate is 14 cents a word, the latter will be a very material advantage. There is considerable communication between Canada and Australia and business men will be able to issue orders and send messages that are not in a hurry and that a delay of 24 or 48 hours would not effect and make it a very profitable transaction.

Housekeeping Is Not the Task It Used to Be

MODERN invention has done away with much of the hard work. For instance, the cleaning and polishing of hardwood floors, the dusting of moldings, the tops of high furniture, the stairs, under the radiator, etc. These back-breaking tasks are now made easy with the

O-Cedar Polish Mop

With it you can dust, clean and polish a hardwood floor in the time it formerly took you to get ready to do it.

Besides, you do not have to get down on your hands and knees to dust under the bed or other hard-to-get-at places, or to stand on a chair to dust the top of the high furniture. All of the hard work is now made easy with the O-Cedar Polish Mop. It gathers all the dust or dirt from everywhere and holds it. The mop is easily cleaned by washing and then renewed by pouring on a few drops of O-Cedar Polish.

Try It at Our Risk Try it two whole days with this understanding: If you do not find it satisfactory in every respect we will return your money. The price is only $1.50 and it will save its price many times over in a short time.

By a mistake of our shippers we find we are overstocked with O-Cedar Mops for this week only. We are clearing these out at—$1.25

A COUNTRY FULL OF OPPORTUNITIES

The board of trade is to be congratulated upon the success attending the first excursion of the series which, under its auspices, will visit the mining districts in the vicinity of Revelstoke; and if the other expeditions planned to visit the Big Bend, Albert Canyon and Camborne and Arrow lakes districts are equally successful, the board of trade's project will have been of substantial benefit to the mining industry and to Revelstoke, and will also have afforded to the business men of the city opportunities for delightful holidays such as seldom present themselves.

The results of the expedition to the Trout lake district may not be immediately apparent, but they are none the less real. A representative body of the business men of Revelstoke have now acquired an intimate knowledge of the riches that lie locked in the hills around Trout lake, of the conditions which exist today and of the requirements of the situation. They know better than ever before the country and the people, and they are now in a position to take a more informed interest in the work to be accomplished. They may do much themselves to foster the interests of the district, and they may be the means of still more being done by others.

That those who took part in the excursion will be enthusiatic advocates of the district visited is unquestionable, for no one could come closely in contact with the people of the Trout lake district without becoming inspired with the enthusiasm and faith which they possess. It is a faith as firmly based as the mountains themselves. Large bodies of ore are not only thought to exist, but are known to exist, and a substantial return, in some cases fortunes, await those who will invest their money in the mineral properties that lie scattered so thickly over the mountains which surround Trout lake and Ferguson. The boom days are over. Wild cats will never again command fabulous prices from speculators, but there were never better returns obtainable from honest development and sound management.

This the Revelstoke business men who visited the Trout lake country now understand better than ever before and they will not fail to inculcate the knowledge that they possess. And in making capitalists aware of the opportunities that the Trout lake country offers they will not only benefit the mining industry of Trout lake and the capitalist who may through them find a profitable investment, but they will benefit also the city of Revelstoke, which derives much of its prosperity from the mining camps of the district, and the whole mining industry of the interior of the province, for every claim that becomes a profitable mine is a stepping stone to greater confidence and more substantial progress.

BRITISH COLUMBIA'S GOOD ROADS

The more one sees of the rural districts of the interior of British Columbia the more does one become impressed with the splendid roads that the provincial government has constructed and is constructing in spite of obstacles such as are encountered nowhere else in Canada and which well might daunt any but the most efficient administration.

It has been well said that the highways built under the direction of Hon. Thomas Taylor will be a monument to his administration of the public works department of the province which will remain long after the present generation is forgotten. And it is a monument which confers benefits today, and which will ever serve the interests of the province. The development that British Columbia has attained would have been impossible but for the means of communication which have been so widely spread and so wisely located.

A DELIGHT FOR HOLIDAY MAKERS

Trout Lake City has undoubtedly a great future as a mining and industrial city but as a centre for tourists and as a summer resort it has hardly less possibilities. The mountain scenery is magnificent, the lake a delight, the air pure and life giving, the fishing unrivalled, the opportunities for hunting, mountain climbing and exploration all that can be desired. And a good road to Beaton on the Arrow lakes and boat connection to the railway at Gerrard makes Trout Lake City easily accessible from all directions.

A HALF-HOLIDAY JUBILEE.

Nowhere in Canada is the Saturday half-holiday enforced by law. In most of the cities where factories or shops close on Saturday afternoon co-operation of the employers has brought early closing about. The nearest approach Canada has made to a legal Saturday half-holiday, says the Toronto Mail and Empire, is in British Columbia, where the Provincial Labor Commission reported in favor of it, and the people are now discussing it. The English worker emigrating to Canada, and accustomed to legalized weekly half-holidays, is usually rather taken aback by the greater attention given to business in this country. It is interesting to note that a banquet was held a few days ago in London to make arrangements for the celebration of the "jubilee" of the Saturday half-holiday. In 1842 the shop assistants in London obtained, by voluntary effort, the weekly half-holiday, and in 1858 the "short" Saturday was introduced into London offices, though the shopkeepers held aloof. In 1860 three hundred ladies signed a letter published in the Times promising to refrain from shopping on Saturday afternoons, and twenty years later the Saturday half-holiday become general, being aided by the volunteer army agitation. In 1895 a thousand cities and towns had established the weekly half-holiday for shop assistants, and a couple of years ago the Asquith government piloted through parliament the "Shops act," legalizing the weekly half-holiday. The movement in Canada is steadily growing by voluntary recognition of the principle.

Nowhere in this world is there an individual more cheery, optimistic, courageous, hearty, and open hearted than the old timer of the mining camp and the old timer of the camps of Kootenay has the qualities of his kind in perfection.

The intimacy and friendly relationship which such excursions as that which visited Trout lake foster between the business men of Revelstoke and the prospectors, miners and business men of the surrounding territory cannot fail to be of mutual advantage. Each can help the other.

The fish hatchery established at Gerrard is due largely to the efforts of Mr. R.F. Green member for Kootenay. It will be of great service to the Kootenay country for the fishing which Kootenay offers is one of the chief attractions for tourists. With the disappearance of the fighting trout Kootenay would lose one of its assets but the establishment of fish hatcheries will ensure the maintenance of an amply supply of fish.

Seldom has an excursion been so well managed as that which visited Trout Lake City, Ferguson and Gerrard this week. For that credit is due to the able committee in charge of the expedition Messrs D. Sutherland, A. E. Kincaid, H. McKinnon and T. Kilpatrick. Mr. Kilpatrick's organization of the transportation and the promptitude which he secured in the arrival and departure of the party contributed much to the smooth running of the jaunt.

FROM THE SANCTUMS

CALGARY CONGRATULATED

The news of the oil strike near near Calgary means much to that city and to the whole province. The success that has been attained will stimulate operations in other parts of Alberta where there are plenty of indications of the presence of the much sought after fluid. The citizens of Calgary who have in the face of many discouragements kept going the enterprise which has now apparently so well justified itself are open to warm congratulations and it is to be hoped that their rewards will be commensurate with their faith—Edmonton Journal.

ABOUT BRIDGES.

Bridges are seen hanging over rivers and upon noses. They also span some streets. They should not be confused with the game called bridge, which spans only time and money. Some bridges, like poker, depend entirely upon the draw. Bridges spend their time in heaving up and down and leaning against their towers. The object of bridges is to give everyone a chance to get back from where he has been, or to go whence he can get back. Sometimes bridges are built over railroad tracks and spend all their time in saving people from being run over. A bridge which is thus employed is very happy, because it leads an upright life; also because the railroad company was sad when obliged to put it there. Bridges are also used over chasms. Every chasm ought to have one. It provides a place for children to fall from; also, it gives the chasm something to look up to.—Life.

MOVEABLE PAVEMENTS

Pavement piercing for petty repairs by public utilities is so universally practiced in our larger cities that the public has become inured to the spectacle of seeing the paving materials on the sidewalk or piled in the gutter. The Engineering Record suggests that engineers look into the feasibility of a removable type of pavement which can be picked up in large blocks extending from the curb to the car track and laid to one side while the delver after conduit troubles pursues his task. Inquiries in Chicago and talks with practical pavement men indicate that the idea has merit and presents few, if any, insurmountable difficulties. Rough calculations indicate that concrete blocks of 10-inch thickness, re-enforced, might cost upward of $2.70 per square yard, exclusive of hauling to place. They could be transported at night over the street railway tracks and unloaded by a crane directly on to previously prepared longitudinal re-enforced foundation walls at curb and car tracks. Blocks would seem to be practically suited for the part of the street that the railway companies are required to pave, as in most cases foundations for the blocks already exist. The almost inevitable necessity of removing the pavement prior to its life limit, should make the removable, reversible and interchangeable features worthy of detailed study by street railway engineers. —Engineering Record.

Excursion is Big Success

(Continued from Page One.)

automobile party refreshed themselves from the ice cold water. Then the journey is continued until Trout Lake City comes into view. Surrounded by mountains, with the swift flowing Lardeau river babbling thru' the centre of the town Trout Lake City is a dream of beauty. The houses are trim, well built and painted and the city strikes the visitor most favorably. It lies at the northern extremity of Trout lake, a fine body of water teeming with trout and salmon. As a summer resort no more delightful spot exists, and when one looks at the gigantic mountains and reflects upon the vast bodies of ore that they contain one can see in the imagination a flourishing city, with great industries and enjoying all the advantages that bountiful nature can bestow.

Here the party alighted and sought refreshments in the two excellent hotels which the town contains, half the party going to the Windsor, of which Jack Simpson and Mrs. Jowett are the proprietors and half to the Madden of which Bob Madden is host. In addition to the hotels modern stores are conducted by A. Vars, Miss Valentine and Frank LeBeau, and H. G. Christie has an up-to-date meat market. There are also livery stables, blacksmith shop, and I.O.O. F. hall that would do credit to a town of many times the population, with comfortable homes in abundance. The barber shop is conducted by G. A. Cheeseman who is amedical student at the University of Alberta. Over the Lardeau river a substantial bridge is being constructed under the foremanship of Andrew Abrahamson. There are fertile benches on the mountain sides surrounding the town and nothing is lacking necessary for the location of a great city.

The arrival of the visitors was heralded by the tooting of motor horns and strains from the bagpipes in the hands of Jim MacKenzie. It is doubtful which created the most sensation among the youthful population of Trout Lake. One child ran home at the sound of the horn declaring that a great bear was coming down the road.

Samples of valuable ore were to be seen everywhere. In the Imperial barber shop Mr. Cheeseman, who has been nine years in Trout Lake, showed some rich ore taken from the Towser claim of the Silver Cup hill, from the Noble Five, Andy Craig's rich property on Brown creek, from the Ruffled Grouse on Trout creek, from the Copper Chief, Lucky Boy, Horsehoe, Katharine and Ethel all on Trout creek and from many other properties. A splendid ore sample weighing 435 lbs. taken from the Broadview is also to be seen.

After an excellent dinner to which everyone did hearty justice the children of the town, much to their delight, were given rides in the automobiles. Then the Studebaker and a four horse coach were loaded and most of the party started for Ferguson. The car bing the first that has ever travelled the road. Here William Boyd and Walter Bell from Halcyon, joined the party. The road to Ferguson follows the Lardeau river at a fairly steep ascent snow being noticeable in the bush as the party ascended. At Ferguson many old timers were met and a few hours pleasantly spent. Here Alex. Cummins has a good store at which all kinds of supplies are obtainable, and there are two excellent hotels the Lardeau of which O. Olson is proprietor and the Balmoral presided over by Walter Edwards. Andrew Baman here showed some of the visitors a remarkable black bear skin shot this spring, over seven feet long and nearly four feet wide. The children of Ferguson and some of the older residents were given automobile rides by Mr McCarty.

After an enjoyable visit, to the strains of the bagpipes the party set off on the return journey to Trout lake. Here another excellent meal was enjoyed, more rides for the children and then bed.

Next day the Revelstoke visitors were the guests of the Trout lake and Ferguson people on an excursion to Gerrard where the fish hatchery was inspected. The steamer Proctor Capt George Graham in command, with a barge attached took the party, which numbered nearly 70 and included many women and children, down the lake. The day was ideal, the scenery magnificent and the trip was the feature of the excursion. The boat arrived at Gerrard just before lunch time and in spite of the fact that no notice had been given an excellent repast for everyone was served at the Gerrard hotel, a comfortable building of which Jack Persian and Lance Hillman are proprietors. At Gerrard was seen the mill of the Western Canada Timber company of which F. G. Robson is manager. It has a capacity of 100,000 a day. The fish hatchery is a substantial building of frame on stone foundation, painted green and white with a house for the staff of the hatchery.

Gerrard is at the lower end of Trout lake, which is noted for its fish, and which empties into the Lardeau river. Its situation is ideal. It has many comfortable homes and in addition to the timber and mineral wealth in the vicinity has unexcelled attractions as a summer resort. Among those who took part in the excursion from Trout Lake were J. T. Lauthers, who has been in the country 17 years. F.C.H. Merry, James Lennie, A. Craig, Frank LeBeau, Otto Olson, J. Vars, H. G. Christie, Robert Madden, Andrew Abrahamson A. Biggar, Mr. Sweeday, A. Cummins, R. Garrett, Mrs. Craig, Mrs. LeBeau, Mrs. Christie, Miss Mumery, Miss Lauthers, Mrs. Madden, S. Woods, A. Morrison and A. Biggar.

The return to Trout Lake was made without mishap and the vehicles were then taken for the return trip to Beaton. Some of the earlier arrivals took advantage of the opportunity to enjoy an excellent meal at the Beaton hotel after which the party reembarked on the Revelstoke, leaving Beaton at dusk for Halcyon Hot Springs. At the comfortable and roomy Halcyon hotel William Boyd, the proprietor, who had left Trout lake earlier, welcomed the party. The evening was spent in music and dancing, many of the Revelstoke party afterwards availing themselves of the opportunity to swim in the medicinal waters of the hot spring. Fishing at Halcyon has been excellent of late and in the morning a treat was enjoyed in the shape of abreakfast consisting mainly of fresh caught trout.

Seven o'clock was the hour set for departure and promptly to the minute Mr. Kilpatrick, who had by this time trained the travellers to observe scrupulous punctuality, gave the word and the Revelstoke set off for home. A pleasant time was spent on the comfortable boat and precisely at noon, the hour arranged for arrival, Capt. Forslund sounded the bell and the boat was home at the Revelstoke wharf. The accommodation on the boat is surprisingly good the meals provided are excellent and no more pleasant trip can be made than under the charge of Capt. Forslund.

Those who took part in the excursion were:—T. Kilpatrick, A. E. Kincaid, H. McKinnon, S. Sutherland, P. Levesque, A. Stone, J. Laughton, J. Walker, R. Howson, W. Abrahamson, W. H. Horobin, J. McLundy, F. McCarty, C. Gillan, A. Grant, G. Barber, Dr. Hamilton, S. G. Robbins, E.G. Rooke, D. Leary, W.A. Foote, H. Ferguson, J. McKenzie, W. Bews. R. Laughton, J. Abrahamson.

John C. Laughton vs. William G. Smith for $323.20. G. S. McCarter for plaintiff, C. E. Gillan for defence.

Joseph Lonzo vs. Robert Ballard, for $50. G. S. McCarter for plaintiff.

C. B. Hume and Co. vs. William G. Smith for $179.93. G.S. McCarter for plaintiff, C.E. Gillan for defence.

There are also 10 applications for naturalization.

SPORTING NEWS

FAST GAME IN CITY LEAGUE

Beavers Beat Fire Hall by Narrow Margin—Return Match on Monday

Last Monday evening the fans were treated to one of the fastest and most sensational games of ball that has ever been played in the local league, when the fire hall team clashed with the Beavers. The Beavers managed to push across three runs in the first innings which was just enough to win the game as all the fire hall could manage to get was two runs. Three fast double plays by McLeod, Samson and Hope were the features of the game. The batteries were:—Dupont and McDiarmid for the Beavers and Burridge and Bruce for the fire hall. A good crowd of enthusiastic fans witnessed the game.

Next Monday morning May 25, these same teams will play a nine inning game. This should be a good game as the fire hall team are confident of winning over the longer route. The game will start at 9:30 and a collection will be taken.

Another league game will be played tonight, C.P.R. vs. fire hall.

Baseball Match at Vernon Today

The Revelstoke team plays in Vernon today and on Monday next will meet Vernon here. The boys have been practising faithfully and expect to give a good account of themselves at both games.

NEW BASEBALL UNIFORMS DONATED BY LOCAL FANS

If the ball played by the members of the Golden baseball team in their game with Field at the Empire day celebration at Golden is as classy as the uniforms they will wear when they appear on the diamond Field will have to go some to win. The new suits are of light grey with blue trimmings, and are of the same quality as those worn by members of the major league teams, and their purchase was made possible by subscriptions from Golden fans.

GOLDEN BASEBALL CLUB ELECTS NEW OFDrCERS

At a meeting of the Golden baseball club, George L. Buckham was appointed manager and William A. Harcourt elected captain of the team for the ensuing year.

VICTORY FOR KAMLOOPS

The Kamloops baseball team continued on their career of victory on Friday when with a score of 13 to 1 a notable success was achieved against Vernon.

BET ON REVELSTOKE IS ADVICE OF POET

Here is another poetic gem from Revelstoke's laureate:

It is no use to worry, it only makes you bald,
Just take a tip and stay at home and read the Mail-Herald.
A paper that is full of interest and news,
I think you can get it also at a stationer called Bews.

It comes out twice a week as regular as can be,
And people are just longing for the next copy.
It is just a paper at which every one will look,
If you want to subscribe, just speak to Mr. Rooke.

He will be only too pleased to take your address,
It will cost you 2.50 a year, nothing more or less.
And that you spend in no time on a little grub,
And sometimes bet some money on the baseball club.

You can bet on good old Revelstoke and surely win some money,
And then go home to your wife and say here's a ten spot honey;
She will ask you how you make it, tell her on the baseball game,
Just say Revelstoke won out and they have earned their fame.

When the club plays at home please come inside the fence,
And be right on the dot and see the game commence.
And pay your fifty cents and be a true sport,
The same as everybody in Revelstoke ought.

TWO FAST FIGHTERS

Good Scores Made at Gun Club Shoot

At the weekly shoot of the gun club on Saturday, H. H. Rickelson was the guest of the club and was high gun breaking 70 out of 75 birds. The veteran shot A. J. McDonell, broke 48 out of 50 in splendid style.

In the telegraph shoot Kamloops led with 140, Armstrong scoring 137 and Revelstoke 136. No score was received from Vernon.

Mr. Rickelson will take charge of the finances of the shoot to be held at Kamloops on August 4 and 5.

Saturday's scores were as follows:

	Shot at	Broke
McDonell	50	48
Rickelson	75	70
Sage	75	66
Sturdy	75	66
McAllister	50	25

KAMLOOPS IS WINNER OF EXHIBITION GAME

The exhibition game played between the Kamloops and Vernon baseball teams on Saturday afternoon proved highly exciting and ended in a win for the home team by 6 to 5, after a well fought contest. The match was arranged for the entertainment of the delegates in attendance at the B. C. Methodist Conference, and the large number of people present and the enthusiasm displayed indicated great appreciation of the provision made.

FIGHT AGAIN ON MONDAY

Evans and Mack to Decide Which is Best Man—Three Fast Preliminaries

The fight on Saturday, between Willie Mack and Bobby Evans went eight rounds and left the spectators in doubt as to which is the better man. This is to be decided on May 25, when Willie and Bobbie will meet again and go 15 rounds.

Evans started work on Tuesday, and is shaping well. Cyclone Scott, who made Joe Bayley of Victoria, champion of Canada, is his sparring partner and Joe declares that Bobbie has the goods and can put it over any fighter in the interior when at his best.

Mack the Nova Scotian, was not in condition on Saturday but is improving every day and intends to put up the scrap of his life. There is a ball game on the date of the fight and a big crowd of spectators is expected.

On Saturday Jack Calder and Frank Burns gave a hair raising and gory preliminary and on May 25 three fast preliminaries are promised the fans, which alone will be more than worth the price of admission.

Ladies Serve Tea at Tennis Courts

Mrs. L. W. Wood, assisted by Miss Hardie and Miss Hyatt, served tea at the tennis courts on Saturday afternoon last. The weather was beautiful and a most pleasant afternoon was spent. The club now have three of the finest courts in the interior in use, and a membership of over 35, with the prospect of increasing it considerably. All interested in the game are invited to join the club

CRICKETERS BUSY

The cricket pitch is now in good condition and the players are busy getting into practice for the Okanagan tour which will last from July 19 to 25. Practices are being held every Monday and Wednesday evening, and on Saturday afternoons.

THERE WAS A MAN

There was a man from a jay town
Who thought he'd seen a lot,
He jumped into a cabaret
To watch a turkey trot;
And when he saw how it was done,
With all his might and main,
He shouted, "Oh, I'll never go
Back to the woods again!"

ORIGINAL OF "LITTLE NELL"

Mrs. Harriet Tice, who said she was the original of Dickens' Little Nell in the "Old Curiosity Shop," is dead. She was born in 1827 in a house which, it has been asserted, was the original of the "Old Curiosity Shop." She said that her father, John Pepperell, was the original of Little Nell's grandfather.—Colonist

VERNON RECEIVES TENDERS FOR CEMENT SIDEWALKS

Three tenders for the construction of the cement sidewalks to be built this year under local improvement plan, and which will cost, it is estimated, in excess of $15,000, were opened at Monday evening's meeting of the city council, says the Vernon News. Cummins and Agnew, the city engineers, were instructed to prepare a report.

Of the three tenders submitted, that of Cull & Schmidt was apparently the highest, that of H.G. Ogilvie next, while C.G. Rolston submitted the lowest bid. The latter tender, however, was not signed, and the check enclosed was not certified.

Bids were under six classifications, as follows: No. 1, sidewalk, per lineal foot; No. 2, fill under walk, per cubic yard; No. 3, fill not under walk per cubic yard; No. 4, cut, per cubic yard; No. 5, per square foot, and No. 6, crossings per square foot.

The bid of Cull & Schmidt was as follows: $1.32, $1, 90c, 75c, 88c, and 50c. The H.G. Ogilvie tender, under the six classifications was 1.14½, 75c, 55c, 80c, 37c, and 30c. while Mr. Rolston far underbid the others by submitting the following figures- 82c, 0c, 50c, 40c, 25c, and 35c.

The finance committee submitted a written report, confirming the verbal report of last week, in which a grant of $750 to the board of trade was recommended.

WORLD NEWS TERSELY TOLD

John L. Griffiths, the American consul-general at London, died suddenly at his residence of heart disease. He was a native of Indiana.

After thirteen years of terrible suffering in an open boat, four survivors of the freight steamer Columbian were picked up in the North Atlantic by the United States revenue cutter Seneca.

The condition of Emperor Francis Joseph has been adversely affected by the cold and wet weather. It is understood his physicians are trying to get the emperor to seek a warmer climate in the south.

The Hudson's Bay company is supplying Sir Edward Shackleton, the the Antarctic explorer, with one hundred of the best dogs, including some post teams, and an expert driver to aid the forthcoming expedition on its long march across the Antarctic continent.

M. Bachelet's flying train continues to attract attention. He wound up a demonstration of his invention by *lifting a boy into the air* in his model car. A boy five years old, weighing forty-two pounds, sat in a wicker chair, and the car, chair and boy rose from the rails and remained supported in the air Mahomet-coffin-like effect.

Hon. F. D. Monk, former member of parliament for Jacques Cartier, and for a time minister of public works in the Borden cabinet, died at his home on Saturday. He had recently returned from a southern sanitarium, where he had vainly endeavored to regain his health. For a few days past he had been unconscious most of the time.

Eleven hundred men in Cincinnati, were thrown out of employment when [illegible] closed their plants, and it is estimated that between 5,000 and 6,000 others, including carpenters, teamsters, painters, and members of various other trades affiliated with the buildings trades will be forced to stop work by today as the result of being unable to obtain building material.

A method of sewing hairs to the *human scalp in cases of baldness* has been successfully used by Dr. Szekely at the hospital of Saint Stephane in Budapest. The number of hairs planted in the head of one patient has been as high as 50,000. One hundred hairs are drawn through punctures in the scalp in every square centimeter and as both ends are left free this makes over 1000 hairs to each square inch.

The grouting experiments which have been in progress at the old postoffice site, with a view to determining the foundations of St. Paul's cathedral by injecting liquid cement into the subsoil, have been successful. A number of borings have been made, and the liquid cement has been injected into them by compressed air. The cement has permeated the subsoil for a considerable distance round each of the borings, and not only gravel and sand, but also clay has been transformed into a solid concrete mass. It is probable that the process will now be applied to the subsoil under St. Paul's cathedral.

The Standard Oil company of New York has announced a 15 per cent reduction in the price of refined petroleum.

Winston Spencer Churchill, first lord of the admiralty, looped the loop six times over Sheerness harbor in a manoplane driven by Gustav Hamel, the English aviator.

In a test case brought against a Lethbridge theatre, which refused to pay the license fee of $100 levied on moving picture houses, Mr. Justice Beck decided that the city bylaw conflicted with provincial legislation and that therefore the bylaw could not be enforced

Four-year-old Johnnie Varley wandered from his home in the west end of Regina, next night the parents identified the mangled remains in a city morgue as those of their child. The little boy met death beneath the wheels of a Canadian Pacific railway train a mile east of the city.

Hon. Martin Burrell, Minister of Agriculture, has been appointed on behalf of the government of Canada to welcome the peace envoys at Niagara next week. A luncheon will be tendered to the delegates of which Mr. Burrell will be official host and at which the greetings of the Canadian government will be extended.

The peace delegates of the Huerta government, who departed from *Washington on Sunday for Niagara* Falls, to attend the mediation today, are confident of the success of their mission, which, it was learned, is the broad question of pacifying all of Mexico. The Mexican delegates are said to realize that the present administration in Mexico City is fast crumbling, and that the choice of some one to succeed Huerta is inevitable.

Reports from Circle City say the flood caused by the break up of the ice on the Yukon river on Thursday was the worst in the history of the camp. The town was almost wiped out, all the stores, government buildings and dwellings and dwellings near the waterfront being damaged. The Indian village is entirely under water and ice. *No casualties have been* reported from any of the camps along the Yukon. The damage is estimated at twenty-five thousand dollars.

The spring rush to the Cook Inlet and Turnagain Arm district is the greatest this year in the history of Alaska. At the present time there are more men in that section than ever before, and there is nothing for them to do in the way of work. There is still a great deal of snow in the hills, and it is impossible for anyone to get out to prospect. There are ten men for every job at the mines that are working. The Knik Commercial club is sending out letters to the various publications throughout Alaska asking them to *warn men from coming into that section* in search of work, as the labor market is already over-supplied. Unless a man has enough money to keep himself for the season to prospect, he is better off in some other section of Alaska than on Cook Inlet.

Government Campaign for Prevention of Fire

In its campaign for the prevention of forest fires the forest branch of the lands department of the provincial government is issuing and distributing broadcast through the province three novelties which bring forcibly to the attention of the general public, including children, the business and travelling public and that portion of the population of the province that are regular habitues of the woods and forests the danger to the vast areas of valuable timber in the province through neglect or lack of caution.

One of the novelties is a picture entitled "Putting Out the Camp Fire," which is being distributed to the teachers and superintendents of the public schools of the province requesting their distribution to the pupils and that short talks be given to the children on the subject of the prevention of forest fires. A pocket whetstone keeps the subject constantly before such persons as loggers, settlers, prospectors, trappers and surveyors and is being distributed to them, while clock posters to be posted in public places keep the fire prevention campaign of the department constantly before the business and travelling public.

SHILOH CURES COUGHS & COLDS

Plans Changed for Vernon Military Camp

The 23rd infantry brigade will not go into camp this summer at Vernon as had been expected, but instead will go through tactical exercises on Vancouver island, *probably near* Victoria. Brig.-Col. Duff Stuart received a message from Ottawa to this effect. It is probable the camp will be held late in June. The brigade numbers 1,700.

The only coast corps to be represented at the Vernon camp, therefore will be four troops of the British Columbia horse from Point Grey, Burnaby, Eburne and Coquitlam with detachments of the Engineers, Army Medical corps and Army Service corps. In addition there will be two up-country regiments of British Columbia horse and the 102nd Rocky Mountain rangers.

No reason was given in the official telegram, but it is supposed that the question of expense has governed the department of militia and defence

BA-A, BA-A.

Ba-a, Ba-a, poor boob,
Have you any kale?"
"Yes sir, yes sir,
Many a bale!
A dollar for my tailor,
Which I really hate to pay;
And all the rest I scatter
On the Great White Way!"

What is Doing in the Province

J. W. Milligan of Vernon, owner of the Victoria hotel in Vernon, last week closed a deal for the purchase of the Okanagan hotel at Armstrong from C. T. Schubert.

Mr. Porter of Bear Creek lost a team of horses and came near losing his life as well while attempting to ford the creek at Johnson's Crossing The water is unusually high just now and the horses got out of their depth and were swept away by the current and drowned.

Another railway line is to be projected into British Columbia, this one designed especially to tap the Crows Nest coal fields and give an outlet eastward by way of Calgary. Back of the undertaking is the Calgary-Fernie railway company, and plans are to submit its prosposal to the Dominion government sometime this month.

R. T. Lowery, editor and financier af the Ledge, Greenwood, was in town over Sunday, says the Slocan Record. Mr. Lowery may become interested in a macaroni factory to be established at Greenwood, and was here familiarizing himself with the latest machinery used in its manufacture. There are great possibilities in macaroni if its use becomes general in mine boarding houses.

Dr. Howard Turner Barnes, head of the physical department of McGill University, may go to the University at Vancouver, according to reports. He is a well-known lecturer, and invented the micro-thermometer for detecting icebergs. It is also stated that Dr. Douglas McIntosh, associate professor of chemistry at McGill, will take up the position of associate in chemistry at Vancouver.

Elliot H. Williams, formerly assayer at Hedley, B.C., and at one time a resident of Nelson and Trail, lost the sight of both eyes about six months ago. Recently Mr. Williams went up in an aeroplgne with Gustave Hammel the famous aeronaut and looped the loop. He was the first blind man ever taking a flight in an aeroplane. He is well known in Rossland. Mr. Williams will write an article on his experiencc.

Hon. Dr. Young, in his capacity as Provincial Secretary, has received a communication from the Imperial government, notifying him that it had been determined to bestow an Edward medal of the second class upon Robert Henderson, of Cumberland The recipient of this nonor for some years was employed in the coal mines of South Africa. On January 11, 1913, while employed at the Hatting Spruit Colliery, Natal, a serious "gob" fire started in one of the workings. A number of native "boys" were overcome by poisonous gases, and Mr. Henderson and another, at the imminent risk of their own lives, effected a heroic rescue. It is intended that the presentation of the medal to Mr. Henderson shall be made in a public manner.

The fact that fire insurance rates in Vernon are so high as to be a positive drain on the business of the city and far higher than they should be considering the water system and the efficiency and equipment of the Vernon fire brigade, was called to the attention of the Vernon council at Monday evening's meeting by Mayor W.H. Smith. After discussion of the premium rates for Vernon, a resolution was unanimously passed providing for the appointment of a committee to collect data, and to urge that A.W. Ross, secretary of the Mainland Underwriters, visit Vernon and endeavor to make some equitable adjustment of rates.

The current issue of the provincial gazette contains notification of the incorporation of the following companies: The Atlin Fur Farming Co., Ltd., with a capital of $25,000; The B.C. Chemical Refrigerator Co., Ltd., Nelson, $10,000; British North America Lime Co., Vancouver, $300,000; Cedar Cottage Amusement Co., Vancouver, $4,000; Edgetts Stores, Ltd., Vancouver, $10,000; Juan Lopez Cigar Co., Ltd., Vancouver, $15,000; Order of Royal Purple, Vancouver, under Benevolent Societies Act; Pogues Automatic Car Fender Co., Ltd., New Westminster, $50,000; Rossland Italiana Co-operative Association, under Co-operative Associations Act; Vancouver Summer Festival Association, under Benevolent Societies Act; Vancouver Island Properties and Securities, for deletion of trust powers; Wellington Lumber Co., Ltd., Nanaimo, $50,000. The Aetna Insurance Co is licensed to transact business in British Columbia.

A meeting of the Western branch of the Canadian Mining Institute will be held in Nelson Thursday, May 28, commencing at 10:30 a.m. The meeting is open to all interested in mining, whether members or not. A discussion on electric smelting of zinc ores is expected.

Within a short time the Vancouver board of trade will send to Victoria a strong delegation of business men to take up with the government a proposal that a representative of Canada, or a delegation, be sent on a big trip to foreign countries where the Panama canal will make possible markets for British Columbia goods.

Considerable attention is now being paid to the alluvial deposits of the Similkameen and Tulameen rivers in southern British Columbia, owing to the fact that the Tulameen district has the richest platinum deposits on the North American continent, and partly in view of the high price which plantinum has obtained and the scarcity of the metal.

At the first regular meeting of the newly elected directors of the Vernon Jubilee hospital, held Tuesday afternoon in the Board of Trade room, G. A. Henderson was unanimously re-elected president, Peter Dickson first vice-president, and J. W. Glover second vice-president. L.A.C. Kent and H.W. Knight were named as a visiting committee, and W.A. Rhodes was again retained as permanent secretary.

In reply to Senator Bostock in the upper house, Hon. Mr. Lougheed said that the Pacific Dredging company was removing the obstruction in the Fraser river that is blocking it so that salmon cannot pass to spawn. The work was being carried on under directions of the marine and fisheries department. It was estimated that the work would cost $50,000 and that enough rock would be removed by the time the water rose to permit the fish to pass.

In an endeavor to introduce goat-raising into this province where there is much territory on which no other animal can be successfully raised, a petition asking assistance has been prepared and is to be sent to the department of agriculture of the Dominion government. It is proposed that the department purchase a number of well-bred animals and supply stock for breeding purposes to farmers who can be induced to take up the industry.

The Kaslo & Slocan Railway, the Canadian Pacific railway subsidiary line, which was purchased from the Great Northern about a year ago after having been changed to standard gauge and largely improved is expected to be opened for traffic in about a month. The road taps an important mining and agricultural country. The larger towns touched by this branch include Nakusp, Roseberry, Sandon, Three Forks, New Denver and Kaslo.

Notification is given of the following appointments in this week's Provincial Gazette:—To be Justices of the Peace, William Henry Jones, of Grand Prairie; Frank Tarry, of [illegible]ry Theodore Kraemer, to be a clerk in the government Agency at Quesnel from May 1, 1914. Chester F. Boyd, to be a clerk in the office of the Assessor and Collector at Quesnel from May 1, 1914, in the place of H. T. Kraemer, promoted. Norman H. Wesley, of South Fort George, to be a Notary Public. Edward William Bickle, of the City of Cumberland, to be Police Magistrate for the said city Magistrate under the "Small Debts Court Act" for the said city and a radius of five miles therefrom, and a Coroner in and for the province. Dudley Michel, of South Wellington, to be Instructor in first-aid work at the metalliferous mines in the province from May 15, 1914.

PREPARE MAP IN BIG BEND

F. S Falconer will Make Survey Between Revelstoke and Downie Creek

One department of the Dominion government field activities which is most particularly interesting to the province of British Columbia is that of geological survey and mapping, In no other way can the vast natural resources of British Columbia be so well investigated and forecasted for the purpose of placing them in line for development. This year a most extensive campaign is outlined by Director R.W. Brock, of that branch of the department of the interior. Very shortly all the parties to be engaged will be in the field.

BANFF TO GOLDEN.

J.A. Allan will complete geological field work in the Rocky Mountain park and along the main line of the Canadian Pacific railway between Banff and Golden. A general geological reconnaissance in the Yukon Territory between Dalton Post and Canyon City, including the Lake Aishihik country, will be made by D. D. Cairnes, and a more detailed examination will be made of all promising mineral localities. C. W. Drysdale will study the ore deposits of Ymir camp and do some preliminary work in the silver-lead area of the Windermere district. The investigation of the coal deposits of Graham Island will be completed by J. D. MacKenzie, who will also map the Flathead coal basin. R. G. McConnell will be engaged in mapping and conducting geological investigation along the Grand Trunk Pacific railway in the Hazelton-Aldermere district. A detailed examination of the mesozoic formations along the Crows Nest branch of the Canadian Pacific railway will be made by F.H. McLearn. S.J. Schofield will complete the mapping of the area between the Cranbrook map and Kootenay lake, and will study the silver-lead ore bodies at Ainsworth and the recently discovered tin deposit in the Lardeau district. J. S. Stewart will map the coal-bearing formations comprised in the Flathead and Crows Nest map sheets.

TOPOGRAPHY,

Under the direction of W.H. Boyd, chief topographer, topographical mapping will be carried on at various points throughout the country.

Certain pieces of work that were initiated last year will be carried to completion. These are the New Glasgow map-sheet by B.R. MacKay, on a scale of 2000 feet to 1 inch and a contour interval of 10 feet; the Thetford map-sheet by D.A. Nichols, on a scale of 1 mile to I inch and a contour interval of 20 feet; and the Flathead sheet by A.C.T. Sheppard, S.C. McLean will complete the Similkameen triangulation via Okanagan lake to the railway belt triangulation, by the department of the interior. This gives the first triangulation connection between the international boundary and the main line of the Canadian Pacific railway and furnishes the control for surveys in the Similkameen and Okanagan districts.

VALLEY OF JORDON.

Considerable new topographic work is being undertaken. A control traverse is being run by S.C. McLean in southern Nova Scotia, A. G. Haultain will make a transit and micrometer eye-piece survey of lake Athabaska, on a scale of 4 miles to 1 inch. This survey will serve as the hub control for all exploratory surveys in the surrounding country. Mapping of the Sheep river area, on a scale of 1 mile to 1 inch, and a contour interval of 10 feet, will be done by E.E. Freeland. This includes townships 19 and 20 and the southern third of 21, in ranges 2 and 3 west of the 5th meridian, the area in which boring operations are being actively prosecuted A.C.T. Sheppard will map in the Crows Nest district an area of 1500 square miles lying between longitude 114 degrees and 115 degrees and latitudes 49 degrees and 30 minutes and 50 degrees. The mapping of 1500 square miles lying between longitude 118 degrees and 119 degrees and latitudes 50 degrees and 51 degrees 30 minutes and including the portion of the Columbia river valley between Revelstoke and Downie creek, as well as the valley of Jordon river, will be done by F.S. Falconer. W.E. Lawson will survey 1000 square miles of an area extending from the British Columbia-Alaska boundary, in a direction parallel to Chilkat river and embracing the valley of this river and Rainy Hollow. The northeast corner of the sheet will extend into the Yukon.

BIG AGRICULTURAL LAND OPENING

TWELVE HUNDRED AND FIFTY TRACTS of five and ten acres each to be granted to prospective settlers in throwing open **Twenty Thousand Acres of Rich, Southern Georgia Land,** which is admirably adapted to the growing of celery, sweet and Irish potatoes canteloupes, water melons corn, oats, cotton, hay—in fact, all staple crops grown in this fertile section, as well as a large variety of semi-tropical fruits, and the famous immensely profitable paper-shell pecans.

Providing you are eligible under theclassifications prescribed by us, you are now offered an excellent opportunity to break away from the drudgery and toil of a small wage, or working for the benefit of landlords, and go back to a land of plenty, to which, if granted, you will hold a warranty deed and abstract.

The best security on earth is the earth itself, and land is the basis of all wealth. Owners of productive lands are benefiting by the increasing high cost of living, while others are suffering from it.

An Opportunity to Secure Rich, Productive Land Without Capital.

You will not be required to leave your present surroundings now. All we ask of those to whom we grant tracts is that they plant, or arrange to have planted, a crop of one of the above-mentioned products within three years, after which we will have it operated (harvested and replanted) for grantees, in consideration of 25 per cent. of the net profits derived from the sale of the crops, thereby allowing the grantee to pursue his or her present occupation until such time as they determine just what the yield of their acres amounts to. Consider what this may mean as a source of income, when statistics show that the yield of one acre of celery amounted to $1,238.45, and that one acre of well-cared for paper-shell pecans, in full bearing should net its owner as high as $500.00 per year. We are of the opinion that after it is proven by actual results obtained in operating the land that they will need no further urging, and waste time in locating in this land of plenty. We also require grantees to occupy the land within ten years, or sell it to some one who will occupy it; otherwise it reverts back to the grantor.

The land included in this opening is located directly on and adjoining the Atlanta, Birmingham and Atlantic Railroad, about 25 miles west of Brunswick, a thriving city of fifteen thousand, and having direct steamship service to New York and Boston, and excellent railroad transportation facilities to all points. The average temperature for six months of the year, from April to October, is 77 degrees; the climate is most healthful, and invigorating, and there is an ample rainfall of 50 inches per year.

OUR AIM IS FOR MUTUALLY BENEFICIAL RESULTS

As we are extremely desirous of having settlers locate on this property and assist in its development, and thereby greatly increase the value of surrounding and intervening property, which we will hold, and to increase the traffic along the Atlanta, Birmingham and Atlantic Railroad, and thus facilitate the service, we feel warranted in granting these tracts to those who register with us. We also have in mind business and residence plots which we will offer for sale after the opening, but which will not be included in it. We have **"money-making afterward"** considerations in this liberal-minded opening, similar to those of the Northern Pacific and other railroads when they granted their lands, and we expect to benefit thereby, as well as the ones who will receive the tracts.

We have also planned to develop what is designed to be the best equipped, most up-to-date, scientific, commercial farm and orchard in existence. It will consist of six thousand acres and will be included in this opening. All who register and receive tracts will get the benefit of the experiments and scientific methods in vogue thereon. While we are arranging to prevent over-registration, we will avoid many disappointments, such as occurred in other land openings conducted by the United States Government and railroads, by granting those who register in excess of the number of tracts to be granted, an interest in this commercial farm and orchard enterprize, in the hope that they may later locate in one of our town sites.

Examination of the land will cheerfully be permitted, and the opening will be held at Browntown, Wayne County, Georgia, one of the stations of the A. B. & A. Railroad, which is located on this property, and will occur as soon after registrations as arrangements can be made.

The presence of those registered will not be necessary at Browntown on the opening day, unless they wish to attend, for there will be no favoritism shown anyone. It will be conducted by a committee selected for the purpose, and those registered will be notified of what they have been granted, as soon as possible.

With the ever-increasing population of this country there is no corresponding increase in the area of land, and naturally as the population increases and seeks the land in pursuit of health, happiness and independence, it will continue to be harder to secure.

The prosperous and contented class in Europe today are the descendants of those who secured land there when it was plentiful, while the descendants of those who obtained no land are now the peasants and slaves. **You must realize that this may be your last chance to secure land in this country without a large outlay of capital,** so it should not be necessary to urge you to act at once by forwarding us the application for registration attached to this announcement.

SOUTHERN GEORGIA RAILROAD-LAND DEVELOPMENT BUREAU,
COLORADO BUILDING, WASHINGTON, D. C.

Southern Georgia Railroad-Land Development Bureau,
Washington, D. C.

Registration Department:

I hereby make application to register for Fruit and Agricultural Railroad-Land Opening, and furnish you with the correct answers to the following questions:

Name..... City .....

State..... Street or R. F. D. No. .....

Age.....Married or Single.....Widow, Widower or Orphan..... Occupation .....

Nationality.....Do you own over ten acres of land in the United States? .....

If my application for registration is accepted, please send me, without obligation, further and complete information and particulars, including maps of the land, showing exact location on the Atlanta, Birmingham and Atlantic Railroad, its transportation facilities, agricultural, fruit and nut-growing possibilities, etc.

Very truly yours,

.....
Signature.

THE LOCAL NEWSPAPER

Is the Pay Roll of the City of Revelstoke to increase or decrease? You will unhesitatingly acknowledge that a local Newspaper is essential to a growing city. It is the best advertiser for the city that it could possibly have. Have you, Mr. Revelstoke Merchant, realized the vast number of eastern catalogues that have arrived in your city since the advent of the parcels post system? Have you grasped the meaning of this attempt to kidnap the business which is rightfully yours?

What are you doing to counteract this encroachment of the man from the East? Your remedy lies in the local newspaper. Have you sufficient faith in the articles you sell to tell the people about them! Of course you have, therefore you must advertise your goods. Let the MAIL-HERALD perform the duties of a salesman—it will be a good investment for you!

IS A GREAT ASSET

Look after your own townspeople and those in the surrounding country. The MAIL-HERALD goes far and wide, is eagerly looked for, is positively demanded. The subscription list increases daily. Your announcements in the MAIL-HERALD will be looked upon with absolute dependence. It is your medium. Support the MAIL-HERALD and you will not find it wanting in its assistance to make Revelstoke a city of sound and remunerative business for its merchants. The MAIL-HERALD has a big pay roll—advertisements are the life blood of the paper. Keep that pay roll for Revelstoke, allow it to circulate here. Send your money away and it never comes back; spend it at the MAIL-HERALD office and you will get a dozen chances at it during the course of a year.

TO THE

CITY OF REVELSTOKE

BRIEF LOCAL NEWS

Mrs. Paget will not receive on Friday.

The fire brigade held a practice last night.

Sidney Leary of Nakusp, is staying at the King Edward.

Judge Forin of Nelson, is a guest at the Hotel Revelstoke.

Harry Keefe of Rossland, is registered at the King Edward.

Dr. Hamilton has purchased a new motor car from F. McCarty.

Miss M. Morgan left this morning for Vernon to see the baseball match

Edward Willis of Arrowhead, registered at the King Edward on Monday.

J. Kirk of Arrowhead, was in the city on Monday staying at the King Edward.

Mr. and Mrs. G. Glover, Vancouver are in the city, the guests of their daughter, Mrs. W. B. Donaldson.

Dr. Crease brother of E.A. Crease of Nelson, passed through Revelstoke yesterday on his way to the coast.

J. Walker was so delighted with Trout Lake city that he left the board of trade excursion there on Sunday to pay a longer visit.

Ald. A. Pradolini last week, in company with B. E. Drew of Camborne, inspected the marble claim belonging to Mr. Drew on Blind bay.

The improvement of the court house grounds is making rapid progress. The front of the block is graded and the foundation of the roadway laid.

H. Andresen and R. Alberts have severed their connection with the Revelstoke baseball club, and left for the United States on Tuesday morning's train.

Misses Bess Turner, Minnie Zellar, Dolly Day and Anne Cassidy, of Burkes, Idaho, school teachers on a holiday tour, spent the beginning of the week in the city, staying at the King Edward.

The delights of Halcyon Hot Springs so attracted S. Sutherland, J. Laughton, R. Howson and H. Ferguson, that they left the board of trade excursion there for a longer visit to the springs.

Two cars were sold during the visit of the board of trade excursion to Trout Lake city. F. McCarty sold his Ford to F.C.H. Merry, manager of the Ferguson Mines and Dr. Hamilton sold his car to Andrew Craig..

The British Columbia government has decided to appoint an official who will organize first-aid classes among the men in the metalliferous mines of the province, this official to work in conjunction with the St. John's Ambulance Association. This was announced by Major F. C. McTavish at a meeting held in Vancouver, under the auspices of the Vancouver Chamber of Mines.

Officials of the Mines department of the provincial government are desirous that public attention should be directed to the fact that all free miners licenses lapse on May 31. The fee for the license is $5. In the event of renewals not being made, applicants may secure a special license for six months the fees for which is $15. This special license does not protect them as against third parties who may choose to stake on ground previously held by the ordinary license.

Fire rangers have been appointed by the forestry branch of the lands department whose duty it will be, for the next four or five months, to patrol the districts to which they are assigned and take charge of the work of preventing forest fires, and organizing fire-fighting forces should any fires break out, Great service has been done in the past couple of years by this organized effort to cope with the fire danger in the forests. The cost of the service is met by a small tax on the holders of timber limits.

It is practically certain the two men who blew the safe of the postoffice at Penticton and secured more than $6,000 in cash got away across the international boundary almost before the robbery became known. The driver of an automobile stage says he was stopped at 7 o'clock in the morning a short distance south of Penticton by two rough-looking men, one of whom carried a valise. A couple of hours later they were in Keremeos and leaving by train for the United States. It was not until 9 a.m. that the fact of the robbery was known in Penticton, so the robbers had plenty of time to make their escape. Five thousand dollars of the money was in $10 bills of the Canadian Bank of Commerce. The numbers of the bills are not known.

Mrs. E. M. Allum will not receive on Friday or again this season.

Mr. and Mrs. Hill of Toronto have been staying at the Hotel Revelstoke

The grand lodge of Knights of Pythias is meeting at Kamloops today.

R. D. Clark and family of Vancouver, are staying at the Hotel Revelstoke,

H. L. Reid and wife of Lethbridge, were among the guests at the Hotel Revelstoke this week.

The Rev. C. A. Procunier left yesterday to visit Nelson, attending a meeting of the executive of the Diocese of Kootenay.

At the Methodist conference held at Kamloops last week Rev. W. Lashley Hall was elected a delegate to attend the general conference.

Dr. W. H. Sutherland left on Monday to attend the meeting of Canadian Pacific railway surgeons at Vancouver. He returns today.

Fifteen minutes to leave town was allowed to John McBride who appeared in the police court on Monday charged with being drunk and disorderly.

Mr. and Mrs. J. Ellis and daughter of Nelson, passed through Revelstoke yesterday on their way to Penticton where Mr. Ellis will go into business.

Mrs. B. A. Livingstone will arrive from Vancouver tonight and will spend the summer with her daughters Mrs. A. Jones and Miss L. Livingstone Fourth street.

Postmaster Young has received no further information regarding the intentions of the postoffice department in respect to the proposed move to the old Baptist church.

Rev. Thomas Green of Kelowna was a guest at the Hotel Revelstoke yesterday on his way to Nelson to attend a meeting of the executive committee of the Anglican Diocese of Kootenay.

Dr. W. H. Sutherland will leave on June 5, for New York on his way to England and Europe with a large medical excursion. While away he expects to visit the great European hospitals. He will return in about three manths.

Robert Gordon, government agent, has received a letter from Newton W. Emmens a mining engineer of Vancouver enquiring for information regarding the reported discovery of tin in the Lardeau. Mr. Gordon will be glad to receive any reliable data on the subject.

The children of Miss Hooley's room of the Selkirk public school, spent an interesting hour on Tuesday afternoon in the woods behind Selkirk school, learning the names of the various trees and spring flowers. They also found nests of birds and smaller animals. These short tramps are taken fortnightly and give the children a clearer understanding of nature.

R. I. Kirkwood of New Denver, came to the city on Monday and left this morning on his return home. Mr. Kirkwood is owner of the Dunvegan group on Fish river which some years ago shipped 150 tons of ore which went 89 oz. silver and 60 per cent. lead. He is arranging for the development of the property which he believes will become a great mine in the near future.

Much interest is being taken in the dance to be given on Monday in aid of the Queen Victoria hospital. The music will be of the best and the floor of the Masonic hall is in the best of condition. Already a large number have promised to attend and those present will not only be assured of a delightful evening but will aid an institution of which Revelstoke is particularly proud.

Yesterday afternoon James McDonald appeared before Police Magistrate Hamilton charged with stealing $30 from A. Nukas, a section man at Three Valley. Nukas swore that accused put his hand in his pocket and took the money. Ole Anderson and E. Peterson gave corroborative evidence. C. Gillan appeared for the defence and the case was remanded at his request until tomorrow.

While in Trout Lake City T. Kilpatrick was given an interesting souvenir of early mining days being a review of the mineral development of the Trout Lake district with a description of Trout Lake City, Ferguson, Thomson's Landing, now Beaton, Ten Mile City and Comaplix. The pamphlet was issued earlier than April 1899 as a supplement bearing that date is attached. It gives the names of many claims with the record of their early development.

C.R. Wiley of Enderby, spent Sunday in the city.

W. S. Chandler of New York, is at the Revelstoke hotel.

F. M. Shallus of the Bitulithic paving company, is in the city.

Mr. and Mrs. Allen and Miss Verna Felton are at the King Edward.

W. W. Creelman of Calgary, is registered at the Hotel Revelstoke.

C. R. Mills of Kamloops, was in the city at the beginning of the week.

Among the visitors to the King Edward on Monday was B. J. Wolile of Clanwilliam.

C. Lawrence of the Canadian Pacific railway office staff is at the Hotel Revelstoke.

J. E. Elliott, hydrographic engineer of Nelson, spent the week end at the Hotel Revelstoke.

R. A. R. Campbell of Kamloops, came to the city on Monday registering at the King Edward.

B. Breithaupt of Portland, engineer for the Bitulithic paving company is in the city, preparing plans and estimates of cost for street pavement, as requested by the recent petitions to the city council.

D. D. England arrived in the city yesterday and registered at the King Edward. Mr. England is superintendent of government grounds and is directing the improvements at the court house grounds.

J. M. Slade of New York, accompanied by N. Williams of Florence, N.Y., have been staying at the Hotel Revelstoke. On Monday they took a trip by automobile up the Mount Revelstoke road and were delighted with the scenery.

T. Boidi and T. Boidi, two brothers, looked on the wine when it is red with the result that they were arrested for being drunk and fighting on the Canadian Pacific railway platform. A fine of $2.50 each was imposed by Police Magistrate Hamilton on Monday.

John Muirhead was peacefully sleeping with his head pillowed on the sidewalk near the post office, when he was rudely awakened by a man in blue who took him to the police station. On Tuesday Police Magistrate Hamilton ordered him to leave town.

Revelstoke residents are advised to exercise caution in accepting bank notes of unfamiliar stamp, as a great many drawn upon the bank of Prince Edward Island are now in circulation locally. This bank has been defunct for many years, and the notes are worthless.

For keeping a dog without a license F. Costello was ordered by Police Magistrate Hamilton to pay $3 costs In addition he must take out the license. Al. Graver, charged with a similar offence on Tuesday against the bylaw was ordered to take out a license immediately..

On Wednesday, May 27, at 8 p. m., a congregational social will be held in the Methodist church, when former and present members will meet and enjoy an interesting program consisting of various speeches, interpersed by splendid vocal selections arranged by the musical committee. Refreshments will also be served in the church parlor.

In the First Methodist Episcopal church at Spokane on May 14 Ernest Edward Nott of Nelson, auditor in the interior of British Columbia for P. Burns & Co., was married to Miss Ethel Isabelle Prentice of Spokane by Rev. W.L. Airheart. Mr. Nott has been with P. Burns & Co. for the past five years and is well known in Revelstoke. Mrs. Nott is a former resident of Sault Ste. Marie, Mich. A honeymoon tour to Portland, Vancouver, Seattle and Victoria will be taken by the newly married couple before returning to Nelson where they will take up their residence.

SOCIAL AND PERSONAL

Mrs. E.H.S. McLean will receive on Saturday afternoon next and not again until the second Saturday in October. L

Miss Frances Lawson who is visiting with Mrs. Williams in Victoria for the summer, is reported to be improving in health in the most favorable manner.

Mr. McAulay of Edmonton, Alta., arrives today on a visit to his daughter Mrs. J. W. Stevenson. Mr. McAulay is an old timer of Edmonton and holds the position of warden in the penitentiary in that city.

BUSINESS LOCALS

Just as it has been put up in Germany for hundreds of years—in wooden kegs—No Patents—No Dope—that is the way you get the famaus "Humbser" and "Pilsener" Kaiserhof importations. On sale at the King Edward.

Go to Mr. R. Tapping for your garden plants.

Another of those popular dances in aid of the Queen Victoria hospital will be given in the Masonic hall on Monday, May 25.

Not specially prepared—Not Doped, therefore no headache in a carload of the famous "Humbser," or "Pilsener," The Kaiserhof Beers. Try it at the King Edward.

Look! Look!—yes you can if you get those glasses fitted at J. Guy Barber's.

No home should be without it, the healthiest of all beverages, the matchless "Humbser." Phone your order to the King Edward.

Don't forget the Cinderella ball in aid of the Queen Victoria hospital on Monday night May 25.

WANTED—Position as house keeper or servant in family with children; am from Old Country, Germany; middle aged and good cook; address Miss K. Podany, Craigellachie, B. C. My.30, pd.

AT THE THEATRES

Delighted audiences greeted the Allen Players at the opera house on Monday evening and last night. The Allen Players and particularly Miss Verna Felton are great favorites in Revelstoke and they never disappoint their friends, their performances being invariably full of spirit and artistic feeling..

On Monday Revelstoke's favorite actress appeared as Wanda Kelly the little telephone girl in "The Woman" There were plenty of dramatic situations and Miss Verna Felton appeared to excellent advantage, demonstrating that her power to please Revelstoke audiences has increased if anything since the last appearance of the Allen Players in this city. Last night "All of a Sudden Peggy" a laughable farce comedy kept the audience in great good humor.

Tonight "Trilby" will the produced It is one of the Allens favorite and best productions. Tomorrow "The Butterfly on the Wheel" the play the fame of which everyone has heard is on the bill and the Allen's engagement will conclude with a matinee on Saturday followed by the amusing "Man from Mexico" in the evening.

The company is practically the same that appeared here last fall. Norman R. Fuesier is the leading man, and Irving Kennedy, so long and favorably known here, takes a leading part. Miss Fischer, Mr. Egan and Mr. Connors are still with the company.

The Royal Hungarian quartet, as on former occasions, effectively rendered a good musical program during the evening.

When two members of the English parliament start to write a book dealing with English law the result naturally rings with conviction. Therein lay the greatest reason for the success of "A Butterfly on the Wheel" the great novel dealing with English divorce laws. When dramatized and presented by Miss Madge Titheradge in London and Miss Marie Dore in New York the play received the reception of which a really big effort is worthy.

The title "A Butterfly on the Wheel" is unusually suggestive, picturing as it does the little butterfly of fashion tortured upon the wheel of English justice. "Peggy Admaston" is the butterfly a thoughtless, mischievous loveable bit of femininity who flashes gaily through the fires she lights in the hearts of men. Her husband is one of those big men who make the grave mistake of not separating their love for work and their love of home and wife. "Peggy" flits away from him, becomes entangled in an affair too big for her and find herself before the high court of justice fighting a trial for divorce.

As the wife "Peggy" Miss Felton has an emotional role which ranges from the happy ingenuousness of an unawakened girl to the passionate earnestness of a woman fighting for her honor and her husband's love. It is one of the most exhausting roles she has ever attempted, the court room scene being particularly trying, while for an entire act she is made to face the terrible cross examination of an eminent lawyer.

"A Butterfly on the Wheel" is one of the best of the many big productions offered by the Allen Players and will no doubt receive an enthusiastic reception when presented in this city for the first time.

HERCULES HAD A CINCH
(Toronto News)

Efforts will be made by the government commission to beautify the city of Hull, Quebec. In comparison with this Hercules had a lead pipe cinch.
