HEROIC CONDUCT

Ten Railroad Men Gave Their Skin to Save Comrade.

OTTAWA, Dec. 13.—Over a dozen railwaymen attended at St. Luke's hospital recently to assist in saving the limb of one of their fellows. On Sept. 11th, Hrebert Reynolds, engine driver for the C. P. R., was injured in a wreck at Plantaganet. He has been on the broad of his back ever since, but while recovered from his bruises the wound in his leg would not heal. Rather than amputate the limt and cripple Reyno'ds for life, skin grafting was decided upon, and the operation was successfully performed by Dr. Kidd. Fourteen strapping drivers, stokers and conductors attended to make the willing sacrifice of a portion of their cuticile, and to ten the knife was applied. This is the second operation of the kind in Ottawa.

AMBASSADOR RETURNS

Hon. J. Bryce may Retire From Washington.

LONDON, Dec. 13.—A letter has been posted addressed to Hon. James Bryce Britist Ambassador in Washington, requesting his presence in London. It is expected that he will come early in the new year for a consultation with the government authorities principally in reference to the relations between the United States and Japan.

It is believed that there is little likelihood that Bryce will return to the Washington post. In case he does not, his successor will be Sir Henry Howard, present minister to the Netherlands, stationed at The Hague.

NEWSPAPERS ARE BEST

Noted Theatrical Manager will Abandon Poster Advertising.

NEW YORK, Dec. 13.—Henry W. Savage, manager of Mme. Butterfly, The College Widow, The Merry Widow, The Prince of Pilsen, Woodland, Parsifal and other big productions, will cease to use billboard and all kinds of advertising for his many attractions except through the newspapers. Savage notified the last of his lithograph and printing houses yesterday that he will not be in a position to renew any contracts owing to his decision to do away with all forms of poster advertising.

It seems that Savage has been as liberal in his poster announcements as he has been in the lavish mounting of his productions. But recently, in certain localities, in order to test the true value of outdoor advertising he decided to use the newspapers exclusively for heralding The College Widow, and the results have caused him to decide discontinuing poster work after the Ade play leaves the Pacific Coast.

It is understood that the manager was prompted partly by the enormous amount of commercial advertising being placed on the billboards, which has become a public nuisance. It is understood that Savage will have the co-operation of five of the most prominent managers in his crusade against the billboard.

C.P.R. and Cunard Deny Report of Liner Deal

LIVERPOOL, Dec. 13.—Officers of the Cunard Line were questioned yesterday regarding a report said to have emanated from Vancouver that the C. P. R. Company has purchased that line's steamers Etruria and Umbria for the purpose of putting them in the Pacific Ocean. They replied that neither of the vessels had been sold.

The managers of the offices in London of the Cunard Line and the C. P. R. Company declared to-day that they had heard nothing of the transfer of the Etruria and Umbria from the Cunard Company to the C.P.R.

Christmas Givers Take Notice

OTTAWA, Dec. 14.—The Post Office Department issues a notice to the effect that Christmas presents intended for the Old Country and places abroad (except to the United States), must be sent as parcels and at parcel post rates, not at the rate of one cent per ounce. They must, too have a label affixed, showing contents and value. These regulations are called for by the Parcels Post Convention to which Canada is a party. Shortpaid parcels, without the Customs declarations affixed, will be sent to the Dead Letter Office.

Hockey Club.

The hockey enthusiasts have now organised and at a recent meeting appointed the following officers: C. F Lindmark honorary president, G. H. Knight president, C. B. Sissons secretary-treasurer, D. L. MacLaurin, J. Allen and H. G. Bews, executive. The meeting was enthusiastic and the season promises to be successful. The question of an interior league will be discussed later. Arrangements are being made for a game on New Year's day.

FRUIT GROWERS

Complaints of Freight and Express Charges.

The monthly meeting of the Revelstoke branch of the B. C. Fruit Growers' Association was held in the city hall on Thursday night. In the absence of the President, Willis Armstrong, and vice-president H. F. Hay, who has been ill for the past week, E. A. Haggen was elected to the chair and opened the meeting. Minutes of the last meeting were read and adopted. It was decided to wait till the next general meeting, which will be held on the 2nd Thursday in January, before electing officers for the year. A resolution was passed to appoint a committee to report on the complaints re freight charges and general shipping from Revelstoke, at the next meeting, the report to be laid before W. J. Brandrith, the general secretary.

R. Tapping suggested that the Fruit Growers' Association endeavor to obtain the co-operation and assistance of the Revelstoke Agricultural Association if organised by the Turf Club in order to institute a Fall Fair in Revelstoke.

Several interesting remarks on insect pests, picking and marketing of fruit and the popularity in England, America, and Australia of British Columbia fruit, were made and the meeting terminated.

Professor McEwen.

Professor McEwen gave a performance last night in the Opera House before a large audience. As a magician McEwen has few equals and his tricks last night were marvels of skill and adroitness. Hypnotism formed the principal item on the programme, the professor giving scientific as well as comical illustrations with different men, of hypnotic suggestion. His tests were extremely interesting besides causing uproarious mirth, the antics of the subjects who imagined they were popular singers, etc., and other illusions causing continuous laughter. Any of the audience are at liberty to step up on the stage and be hypnotised.

Florence McEwen sang two songs in a charming and pleasing manner, her appearance being greeted with loud applause. Two accomplished comedians in comic songs and dancing drew rounds of hearty applause, which was well deserved. The moving pictures, which are always received in Revelstoke very favorably, made a pleasant item on an interesting programme.

Professor McEwen is giving a performance again tonight, as well as Monday and Tuesday next week and the entertainment is one which should draw large crowds nightly, the performance being high class and instructive, amusing and well worth seeing.

"The Merchant of Venice."

Of all the plays the incomparable Shakespeare wrote the most popular is the Merchant of Venice. This great masterpiece contains both comedy and tragic incident. It is the play that is read most in schools and colleges, and like a good friend improves upon better acquaintance. Shylock, the Jew, has from time immemorial, been th synonym of all that is despicable among men, as the most heartless of money-lenders. While on the other hand the beautiful Portia has been the example to feminine grace, lovliness and mental excellence for all women. These two great characters who are as different as Heaven and Hell, together with other creations as conceived by the "myriad minded" Shakespeare, interwoven with conversation, the language of which has been an example for all time for grand expression and beautiful diction, form a play which will live as long as the world endures. Mr. Sanford Dodge, who will present this great play here on Wednesday, Dec. 18, will produce it with every attention to correctness and details. Don't forget the date and remember regardless of how many times you have seen this play produced, this production will more than repay and interest you

The Swastika Dance

What has been so far the best and most enjoyable dance of the season was given on Wednesday night by the Swatistika Club in the Opera House. A particular feature of the dance was the fact that the floor had received special attention in order to make it as smooth as possible. Over one hundred and seventy-five invitations had been sent out, a large percentage taking advantage of the offer of a pleasant evening's enjoyment. The Independent Band furnished excellent music, while Mrs. McCarter, Miss Buck, and C. D. Peterson provided music for the extras. The supper was a credit to the promoters and the men were very assiduous in their duties of handing round tea, coffee, cake and fruit. White was the popular color of the Swastika girls and gleaming amongst the folds of silk, and muslin, could be seen the flash of the emblem which gave its name to the club. The popularity of the Swastikas has been phenomenal, hence the big attendance to this their first public dance, the guests being unanimous in their appreciation of the invitations extended to them. The MAIL-HERALD wishes the Swastikas every possible success.

A huge bowl of yellow and white chrysanthemums rested on a mirror outlined with green vines, and was presided over by Mrs. Briggs and Mrs. Telfer for the first day and Mrs. Telfer and Mrs. McLennan for the second day. The young ladies who served ices and attended to the many guests were: Misses McLean, McFarlaine, McKinnon, Brown, McLennan, Buck, White and Grant. Wedding Bells

At "Wilmont," Salmon Arm, B.C., a pretty wedding was solemnized on Thursday, November 28, when Frances Mary Simpson, second daughter of George A. Stewart, C.E., became the bride of George Hamilton Scandrett Edwards, eldest son of the late George H Edwards, C.E. The Rev. Y. M. C. A. Basket Ball.

The Y. M. C. A. basket ball season opened last Wednesday night when the Gym. team met the Uppercrusters in a strenuous game.

For the first game of the season the play was good, but the large floor makes the game so different that in the first half most of the players seemed to be somewhat at a loss what to do next. In the second half the play became faster and also rougher and the referee had his hands full keeping the players within bounds.

The teams were very evenly matched. For the winners Roller and Mulholland were the pick. While for the losers big Hugh Campbell played a star game.

The following was the line up of the teams:

Uppercrusters—Campbell, Alldritt, Hope, Haddock, Briegel.

Gym Team — Roller, Mulholland, Watson, Woodland Burridge.

W. Veith, referee.

Score at half time—Uppercrusters 10

MUNICIPAL LEGISLATION.

The coming year will be one of extreme importance in civic legislation and now that Revelstoke is on the eve of an election, the citizens will do well to carefully consider as to whom they will give their votes, for it is up to the public of this community to stand by the men who they elect to represent them. We do not agree with some who advocate that none but "old hands" on the council should occupy the mayor's chair and council board, but rather urge that "new blood" be introduced as well as the reinstatement of those who have in former years taken part in civic government. The 1908 council must be composed of men who know the value of a dollar. While the city has not approached the legal credit limit the amount of our indebtedness has become such that the interest and sinking funds constitute a very considerable fixed charge upon the ratepayers and any further indebtedness then should be incurred only under the most favorable circumstances, which are at the present time difficult to obtain. Plunging blindly ahead, not knowing what anything is going to cost, or where the money is coming from or even if we are going to get it all would be to court disaster inexcusable either for the exigencies of the care of the financial status of the city. An early estimate of expenditure should be made and rigidly adhered to, and it will be then possible from the first to steer a course all the year to definite end. Sailing where it looks easy and bringing up where the elements takes us is bad policy. Let us know how many dollars are to be spent, find out where to get them and spend them right under rigid scrutiny. The city does not wish to be saddled with an administration who waste public money and since the coming year will be one of extreme importance and in which considerable municipal improvements will be carried out, the position as mayor must be filled by a man who will conduct civic matters on an economical, clean and open manner. His position is unique and invests him with power to exert far more than ordinary influence in the course of civic business. With a good Mayor Revelstoke could hardly be poorly governed by a weak council, with a light weight mayor it could hardly be well governed even by a good council. Clique and partyism will ruin a city biased administration will end in trouble. On coming to the polls our people should study their men and vote for the best man, not because he thinks that his business may be benefitted more but because he feels that his choice will have the welfare and interest of the community at large at least.

CONSERVE MORAL LAW.

The question of removing the sporting houses from Front St., which is exercising the minds of the Citizens' League just now, is by no means a new one, and no action has been taken for the reason that a conviction has never been sustained whereby the law can take active measures. Few men would have the effrontary to bring upon themselves a certain amount of indignity by laying an accusation against these houses for fear of the disgrace he would necessarily undergo and the law would require direct evidence from more than one source, which would be sufficient to obtain a conviction. Although the evil has its demoralizing influences upon the city as a community, it is an evil which has to be tolerated to a certain extent, in so far as the practice being against the laws of the country, is thus, nevertheless, more difficult to bring under the direct jurisdiction of the law. We urge that strict surveillance and rigid principals be adopted to minimize as far as possible the prominence of these quarters and their denizens, and although the evil is one which cannot be stamped out, still isolation and restriction should be carried out wherever possible. The abolition of these houses where it ever practicable, would not have the results looked for and imagined by many, but on the other hand would endanger the safety of our womankind on the streets and probably bring about a condition of open vice and crime on the public thoroughfares. Complete restriction and removal to a section in or near the city of these sporting houses, which will be out of sight and sound of every public street should be a task not difficult to bring about, where the influences so demoralizing to our youth may be less prominent and this evil confined to a quarter by itself where its effects could not be felt. Ostracism should be exercised and the inhabitants of restricted quarters be made to see that their presence is undesirable to the community and their custom not wanted.

SECRET OF SUCCESS

Continuous advertising, even if it is only a small announcement, pays the advertiser the best in the long run. Spasmodic advertising like "spasms" of any kind is unsatisfactory. To secure the very best results year in and year out and especially at Xmas time, when the buying public are looking out for novelties and prices, you must keep your name before the public. Only by so doing can you hope to keep from being forgotten when the time comes that your would-be-customers wish to purchase what they want. Eugene Field very aptly says:

"I am an advertiser great!
The secret of my future lies
In one small fact, which I may state
Too many tradesmen learn too late—
If I have goods to advertise!
Then people come
And people go
In constant streams
For people know
That he who has good wares to sell
Will surely advertise them well.
And proudly ireiterate
I am an advertiser great!

SAWDUST GAS

New Process May Supersede That of Coal.

The process of manufacturing gas out of sawdust and other mill refuse recently discovered by Mr. J.R. Coutts, a Canadian inventor now resident o Cleveland, Ohio, promises to be very widely adopted in Pacific coast cities owing to its simplicity and cheapness of the raw material. Negotiations with various gas companies are now in progress. Mr. Coutts claims that by this device the cost will be enormously reduced, ensuring a greatly increased consumption without diminishing dividends. Vancouver, Victoria, Seattle and Tacoma are likely to install plants. Its introduction into the Yukon district is also contemplated.

Growers Find British Market Profitable.

A continually growing number of fruit men in British Columbia are confining their attention to producing fruit for the British market. They are growing the classes of fruit most in favor in the British Isles, and a number of them do not offer any of their products for sale in this country at all.

According to James Johnstone, president of the B. C. Fruit Growers' association, this class is growing greater.

The development of this trade is entirely due, in the estimation of the great bulk of the fruit growers, to the action of the government in sending of late years exhibits of fruit to the various horticultural shows in England. The money thus expended has already been returned manyfold into the pockets of the British Columbia fruit growers, and the export business is yet in its infancy.

Urge Moral Reform—Will select Civic Ticket

The annual meeting of the Revelstoke Citizens' League was held on Tuesday in the City Hall. There was a fair attendance. Minutes of the last meeting in August were read and adopted. A resolution was passed that no regular meetings be held, except the annual meeting which will be held on the second Tuesday in December.

Under unfinished business the question of removing the sporting houses from Front St. was brought up, it being pointed out that the matter was extremely difficult to handle and unless unanimous public sentiment was aroused nothing could be done. The sporting houses and their occupants were too prominent, and this fact had a bad effect on children passing that district. Liquor was sold there at high prices and unlicenced, and if it was impossible to abolish them then it was necessary that they should be put away to less prominent places. It was suggested that the restricted district be placed as prominent as possible where frequenters could be seen going in and coming out and this would tend to stop it. Several members declared that these houses should be abolished and the whole practice wiped out of the town, while others advocated that that was impossible and urged that greater restriction and less prominence be placed upon sporting houses. It was pointed out that the police have denied any interference in the matter of removing the evil referring all complaints to the city council. It was then ascertained that the residents of the tenderloin quarters were fined once a year, and twice this year. The league agreed that convictions were difficult to obtain and it was shown how wrong a plan it was that this "blood money" should be used to pave the city streets. The members of the league were unanimous in saying that the future and not the past was to be dealt with and prompt and effective measures be taken to remove the sporting houses from Front Street, that the law must be strengthened and loose civic administration improved. The police should have a strong hand and the league should have a voice in the appointment of police commissioners. It was then resolved that the time had come when the sporting houses should be removed from Front Street, which street will soon be an important thoroughfare, and that their presence was a menace to the morals of the city and a breach of the law and that the league take steps to recommend to the proper authorities that men be appointed as police commissioners who will take steps to do their utmost to administer the moral law in the city. It was agreed that the league put men in the city council who would conserve city morals and men who would pledge themselves to preserve law, order and morality.

The question of Sunday and night closing of hotel bars was discussed, the league feeling that all business men should be put on same basis and that for the common good this closing should be enforced and the city council be made to do it. It was then resolved that the league place on record their opinion that laws governing liquor licences especially with reference to Sunday and night closing should be enforced, that the City Council and Board of Police Commissioners be earnestly requested to see that these laws are faithfully observed and that the league request all candidates for civic office at the coming elections to give public pledge in this matter.

The advisability of electing a civic ticket and running them for election, armed with the various pledges the league should name, was taken up, and after some disagreement it was decided not to do this as the largest body of members of the league were not present and unity and interest were lacking, but to appoint a committee of five to draft out a program of civic politics of the views of the league, who were to submit names of probable candidates for civic honors. The committee were to report and call a meeting when they deemed necessary.

In referring again to the matter of removing sporting houses from Front Street, the league agreed that the matter was a hard one to settle and although the hands of the police were tied no effort should be let pass to remedy this and at all costs the removal of these houses from this public part and thoroughfare should be effected.

The financial situation of civic finances was discussed, and an alderman who was present reviewed the work which had led up to this heavy overdraft, explaining that it had its origin several years ago and has been increasing year by year by heavy calls on current revenue for city improvements. He admitted that money had been wasted on streets this year but hoped that the people would pass the bylaw which would set matters straight provided that the debentures were sold. English capitalists didn't like small blocks of debentures, but large amounts and advised the new council to purchase a whole road-making outfit and make out a good scheme of road making at the same time issuing big blocks of debentures to pay for it.

The following officers were then elected by acclamation:—Pres., C. B. Hume; Vice-Pres., J. M. Kellie; Secy., W. Bews; Treas. R. Howson.

The Relief of the Unemployed.

City work at 20 cents an hour, or $1.80 per nine-hour day.

The establishment of a Municipal Labor Bureau.

The old city police station to be fitted with temporary bunks.

Free meal tickets till work is started.

A delegation appointed to visit Victoria for the purpose of urging the Provincial Government to clear Point Grey lands, and thus find employment for residents of the Province who are citizens of Vancouver.

The above is a synopsis of the principal measures adopted at the joint meeting of the Board of Works and Finance committee held this week at Vancouver to devise means for the relief of the unemployed.

Salmon Arm, Shuswap Lake, $2,000, Thompson River navigation, $8,000.

The Ray Brandon Players staged "The Squaw Man" on Thursday night before a moderate audience in the Opera House. The piece is a popular one but requires more talent to bring out the fine characteristics of the play than this company possesses. A somewhat long and drawn out start finished up with a more pleasing effort on the part of the caste.

We would urge that all travelling show companies who play in this city make it a point of advertising that they intend to commence sharp at 8:30 p.m. and calling attention to this fact when billing the city. The people should also make it a point to be in their seats by 8:30 p.m. and not wander in an hour late. The curtain will never rise till the house is full and if the public were more punctual in their attendance, the long drawn out plays and late hours of returning home which is always a feature of Revelstoke will be abolished.

Chow Chow, the famous canine, a descendant of the Chow dynasty of dogs whose breeding is restricted to royalty and mandarins of China, passed through this morning en route for Sandringhan Palace, England. Chow Chow is the Christmas gift of the Dowager Empress of China to Qeen Alexandra and one of the most valuable dogs living. The dog was much admired this morning on the train. He is deep coal black with deep purple under surface. His tongue tells his pedigree, likewise the white hair on jaw and throat. He is a great fighter and as Capt. Hamer, his escort, said would make mincemeat of any bull terrier. Chow's hind legs are perpendicular and not curved like an ordinary dog.

IMPORTANT ADVICE.

Do not wait, but come in at once for your sittings for Christmas photos and avoid the rush near that time. You will find here everything—workmanship, scenery, cameras, lenses, mounts and art folios of every description, style and color found in the best studios in the east. All work finished completely here in my building.

Special—Do not come for sittings after 3 p.m. during the next two months of short days.

Very respectfully,
E. F. TUCKER,
Photographer.
