A TRIP ON COLUMBIA

"Appy 'Ome" and their Friends Make Columbia Trip on s.s. Revelstoke — An Enjoyable Outing.

Wednesday morning broke dull and grey, with ominous looking rain clouds hanging sullenly on the hills, and casting shadows over the valleys portending another day of uncertainty as to whether the rain would fall or not. Anxious eyes were turned in the direction of the Columbia river valley and many who had made up their mind to spend a good day's holiday had doubts as to the success of the undertaking. As the sun forced his way through the banks of mist and fog and shed his livening beams across the river, the spirits of the picnicers considerably revived and the full contingent from the "appy 'ome" with many friends of both sexes, streamed down to the wharf loaded with blankets and sundry packages containing a goodly store of the where-with-alls of life both in solid and liquid forms. On arrival at the boat the usual scurry for the best seats took place and as the last blast from the steam whistle giving warning to the belated few who are invariably to be found on every excursion, sounded and died away in a thousand echoes among the hills, the vessel left her moorings and commenced her journey up the torturous channels of the Columbia. The weather by this time had cleared and there was every prospect of a hot, sunny day. The crowd, good-natured, free and easy, settled down to thoroughly enjoy what is perhaps one of the finest river trips in Canada. Without tremor or falter the s.s. Revelstoke entered the canyon, the roar of the rapids resounding hollow and harsh in the narrow cleft as the swirling water foamed and leaped as if endeavoring to prevent the intrusion of man in their rightful confines. The canyon passed, the river widens out again, yet still deep in the mountain valley, the thick timber, sombre and stately, casting multifold shadows over the water's edge. There was not one but was thoroughly enjoying the scene, and judging by the sounds of merriment emanating from different parts of the vessel, the "'Appy 'Ome" crowd were making the best of their time and justly laying claim to their title. On and on, past bluff and peak, round which many a mountain torent was fussing its way to the river, the powerful engines of the steamer sobbing and pounding out a tune of their own. The appetite, whetted by the mountain air and exhilarating emotions must be appeased, and general attention is turned to baskets and hampers, while those thus unprovided justice to the excellent catering supplied by the steamer. On reaching Downie Creek a little after two o'clock, a brief stay was made to allow the trippers to stretch their legs and look about them. The return journey was then commenced and the vessel sped down the current like an arrow, the banks now darkling as the twilight crept up, flashing by like the speed of a train. The evening was chilly, which made the excuse for "close company" and rugs and coats, yet the hilarity never ceased for a moment and when the bells from the wheel house rang warning to the engineer that the wharf was being made, there was not one out of the 68, but felt sorry that the trip was over. One sad incident must be mentioned, the body of an unfortunate logger who had been killed by a falling tree at Carnes Creek was conveyed down to Revelstoke on the steamer, though few were aware of their silent passenger till the city was reached. The trip was voted by all a huge success and the "Appy 'Ome" have every reason to congratulate themselves on their undertaking.

MR. FRASER RESIGNS

Mr. Fred, Fraser, for upwards of fifteen years a civil servant of the government of British Columbia, and for the past seven years Gold Commissioner for the Revelstoke riding has been forced to resign at the request of the member, Mr. Taylor, who made representations to the government asking for his dismissal. Among the electors of the riding, Conservatives as well as Liberal, feelings of general regret will be heard at Mr. Fraser's forced retirement from the service, for it is an acknowledged fact that there is no more capable officer in the service in any district of British Columbia than Mr. Fraser. Mr. Robt. Gordon is spoken of as his successor.

SCHOOL ATTENDANCE

BEAUTIES OF BIG BEND

Unknown Practically to Residents of the City, Who Fail to Take Advantage of Scenery So Near to their Homes.

Residents of Revelstoke fail to realize the fact that we have at our door and and within the reach of all some of the most beautiful scenery to be found anywhere and fail to take advantage of the opportunities that present themselves for the enjoyment of a day's outing.

We venture to say that not five per cent. of the people in the city have ever taken advantage of the trip to La Porte up the Columbia river. Along this route there is to be seen some of the most beautiful spots in the province and the trip through the canyon on the s.s. Revelstoke is in itself enough to repay one for the day's outing.

Under the guidance of an experienced swift water navigator like Captain Forslund the trip is made in absolute safety and comfort, and our citizens who have never made the trip should embrace the first opportunity and take the day off.

Nearly every day there is seen from the deck of the steamer game and wilk animals of different kinds, including bear, cariboo, coyotes, etc, and on several occasions the crew and tourists have secured game. Along the trails leading from the river landings are countless grouse and other small game and the whole district is a veritable paradise for the sportsman.

The Tourist Association should not slacken their efforts to bring this attractive district to the attention of tourists and sportsmen.

Our own people should acquaint themselves with its beauties and attractions to give reliable information to outsiders. The results from a financial point of view will well repay the effort.

CITY COUNCIL.

The regular fortnightly meeting of the city council was held last night with, Ald. Abrahamson, acting mayor, and Ald. Sawyer, Trimble and Howson present.

COMMUNICATIONS

From Chief of Police reporting fire alarms, after a few repairs, to be working O.K.

From W. Bews, suggesting that in the new hack regulation by-law, the drivers licence be personal. This was referred to later discussion.

From C. G. Wheeler, city employee and foreman of water works, applying for raise of salary.—Filed.

From the secretary of the B. C. Association of Fire Chiefs, requesting that delegates from the city be sent down to the Nelson convention and also inviting the mayor and aldermen down.—Filed.

From C. Spurway, of Saskatoon, applying for position as electrical engineer over new plant.—Filed.

The Fire, Water & Light Committee reported that the time for closing of tenders and construction of new plant was too short, and recommended extension of time from Sept. 9 to Sept. 30. The report was adopted. The committe also recommended the purchase of 50 light brackets for street lamps, which was granted by the council. The by-law for the licencing and regulating of hacks in the city was introduced and read, and after discussion was referred back to the by-law committee, together with the letter from the Citizen's League, to report at the next meeting, the committee meanwhile to submit rates as suggested in the by-law to all cab and hack owners.

A petition was read from the No. 2 Fire Brigade, requesting that the stones near the hydrants on McKenzie Avenue be removed in order to have a clear way for the firemen's races on Labor Day. The petition was granted.

The following were appointed a court of revision to revise the assessment roll for the current year, to sit for the first time on Wednesday, Sept. 4th: The Mayor, Aldermen Howson, Abrahamson, Sawyer and Trimble.

The accounts were then passed and the meeting terminated.

For the best bread, cakes and pastry try Hobson & Bell.

APPALLING DISASTER

Big Quebec Bridge Collapses and Over Eighty Men are Killed—The Structure Cost $10,000,000

QUEBEC, Aug. 30—A section of the new bridge across the St. Lawrence river, five miles below this city, collapsed yesterday, carrying scores of bridge workers and mechanics into the water. It is estimated that the loss of life is at least sixty, and may exceed that number by twenty. The bridge was about a mile and a half in length and half of it from the south shore to midstream, crumpled up and dropped into the water.

Ninety men were at work on this section of the structure and the whistle had just blown at 5:30 for the men to quit work for the day when there came a grinding sound from the bridge in midstream. The men made a rush shoreward, but the distance was too great for them to escape. The slipping girders and cables booming like a crash of artillery.

Terror lent fleetness to the feet of the frightened workmen as they sped shorewards, but only a few of them reached safety before the last piece of iron work on the south shore was dragged into the river.

Up till a late hour not twenty bodies have been recovered from the roaring channel in which lies the mighty twisted mass of the collapsed steel cantilever bridge. Of the 92 men working, it is belived only 12 escaped.

ALBERTA TO SHIP CATTLE

This Year's Beef Supperior to Any Which Have yet Been on Ranges.

CALGARY, Aug. 30.—Provincial Live Stock Inspector Creswell is enthusiastic over the appearance of the beef cattle which will he on the market this fall. He has been through all parts of Alberta several times this summer, and is now going on another round. Last fall the ranges were swept clear of everything that would come near the designation of "beef" and there was a banner shipment, about 75,000 cattle alone being exported.

Owing partly to this fact and also owing partly to the loss experienced last winter on the open ranges, the shipment this year will not be nearly so heavy as last, but the condition of the cattle will be far superior, although last year's grade of cattle was a highclass one This summer's feed on the ranges has been luxuriant and rich. The cattle have not had to rustle far to feed well and the result is seen in this year's shipments of cattle.

In Mr. Creswell's opinion, there will be between 35,000 and 40,000 head of cattle exported this season. Shipping has already commenced on a small scale and the big shipments will not be put through for a month or two yet.

SECOND ASCENT

Of Mt. Begbie.—Heavy Rain and Wind--Travelling Hard.

A second ascent of Mt. Begbie was made this week by R. R. Copeland and H. S. Siegfried. The party left the city, Thursday, August 22, at midday, crossing the Columbia River by the bridge. On hitting the forest slopes the going was extremely rough and after a hard tramp the glade below the west end of the glacier was reached at three o'clock on the afternoon of Saturday, the 24th, where camp was made. Progress was prevented on Sunday and Monday by deluges of incessant rain, and on Tuesday morning, in spite of a dense fog, a start was made a route across a large green slide to the glacier being chosen, about 800 feet above the camp. The large flat glacier was safely crossed, although several wide crevasses had to be negotiated and the base of the main peak reached. Skirting this up the steep glacier to the west of the peak, a point was found where the ascent could be made up the rock to the ridge, after which climbing was easy although thick clouds blotted out all the view, dispersing, however, on nearing the top. The summit was reached at 11:45 a. m. of the 27th, and a small cairn of stones was found placed there by the first party up (belonging to the Canadian Alpine Club) in June. The base of the cairn was reinforced by the two men. The view from the summit wrs supberb, the air being then very clear. The descent was made easily till the last 150 feet when the rope had to be fastened to the rocks to enable the party to get down and left behind. A start from the camp for home was made on Wednesday morning, Revelstoke being reached at 2 p. m. on Thursday, progress being greatly hindered by heavy wind and rain storms.

GAME SEASON COMMENCES

As the shooting season (except as to some varieties of big and feathered game) opens to-morrow, we would draw attention to the B. C. Gazette wherein is published the list of the order-in-council establishing the opening and closing dates for those species which are not regulated by the Game Act itself. Several matters in connection with these orders-in-coun-council call for comment. The protection of prairie chicken throughout B. C. till 1908 (and in the Okanagan till 1910) is an absolute necessity. There has been a very rapid decline in these birds, whether from shooting or disease is not determined. But whatever the cause the effect has been plain to everyone. The closing of willow grouse and blue grouse in several sections, too, will probably have the desired effect and is an act which sportsmen, who have the game interests of the country at heart, will agree to. In the Revelstoke district, which has recently been organized, there are no restrictions outside the closing of prairie chicken and the general requirements which the Game Protection Act calls for. Almost as bad as shooting game out of season is the practice of wholesale slaughter of birds, and it is this which has to a great extent depleted the game of B.C. The Indians are not the least offenders and game wardens should keep a watchful eye upon these undesirable class of hunters. Revelstoke is the headquarters for a fine game country and no doubt full advantage will be taken of it after to-morrow. In past years throughout the province the shooting of game in open season has been more or less a wholesale slaughter rather than a legitimate sporting pastime and such people who go in for this practice and destroy all sport for those who have sporting instincts should be dealt with in such a manner as to lead them to see that wanton destruction even in season will not be countenanced, and that the unwritten laws of sportsmen must be obeyed. The very fact of the orders-in-council enforcing such close seasons, is sufficient evidence to show that the game of B. C. is being depleted and that unless effective and stringent measures are taken one of our greatest assets will be a back number.

The eyes of Canada are now turning towards the prairies and are awaiting with no little anxiety the first signs that will portend a successful and rich harvest. The late frost that visited several sections, while creating considerable anxiety, has apparently had no detrimental effects, and the reports circulated around exaggerated to a great degree the gravity of the situation. At the present time crops generally continue to show favorable conditions and very satisfactory yields per acre are reported by those here and there, who have done some cutting and crops which looked poor a month ago have recovered wonderfully. It is estimated that the Manitoba wheat crop will average from 14 to 16 bushels while Alberta and Saskatchewan may be even heavier. But 15 bushels per acre at today's price would realize more than 19 at the prevailing price last year. It is considered that this fact, together with the reduced cost of harvesting, will place the farmers in a better financial condition than last year. As regards the financial situation the success of the wheat crop will have a great effect and the whole of the west will be affected by the results. There is every reason to believe that there will be more money taken out of the Western Canadian grain fields this year than there was last. The Montreal Chronicle, a high class financial journal, says that the caution of the Canadian bankers has so prepared the country for tight monetary conditions that it is probable that the strain will not be as great or last as long as was expected.

The effects of the present stringency have been partly discounted in advanee. With a prosperous year's harvest the wheels of bank circulation should once more revolve, and with the farmer again on his feet, the influence of the general prosperty will spread all over the West, and the stringency of the financial conditions be relieved,

COKE SHORTAGE

The Provincial Government has taken up the matter of the coke shortage at various smelters of the interior, and the Deputy Minister of Mines, Mr. R. F. Tolmie, who passed through Revelstoke last week, has been sent to the upper country with instructions to investigate and report on the situation. For some time past it has been reported that the chief difficulty in the way of securing an adequate fuel supply for the various British Columbia smelters came from the practice on the part of the colliery companies of sending the bulk of the coke produced to United States points and only serving the provincial institutions with the surplus remaining after these orders were filled. However this may be, it is certain that many of the smelters have been forced to shut down part of their furnaces for a time, and that some of them have announced that if a better fuel supply is not forthcoming they will be forced to close down their entire plant. The government has announced that as soon as it is in possession of the facts the sacrifice of the domestic industry. It is to be hoped that the matter has not been allowed to get beyond control as the present situation threatens the very life of one of the most important of provincial industries.

LOOKING AFTER FORESTS

Mr. R. H. Campbell Says Steps Should be Taken for Their Preservation.

WINNIPEG, Aug. 30.—R. H. Campbell, Superintendent of Forestry at Ottawa, who is on an inspection trip of the various forest preserves throughout the West, has arrived in Winnipeg. Mr. Campbell left Ottawa on the 11th, and went immediately to Calgary, where he attended the meeting of the Irrigation Convention on the 15th. Since then he has visited the reserves at Turtle Mountain, Duck Mountain and Spruce Woods. He found everything there in satisfactory condition, although there was need of some new regulations if the reserves were to be preserved from fires and from predatory homesteaders in the future. The two dangers which are to be feared are the forest fires and the cutting of wood for household purposes during the winter. On his return to Ottawa steps will be taken by the Department to check both of these menaces.

Mr. Campbell will leave tomorrow night or Thursday morning for Prince Albert and Edmonton. There is a reserve west of Prince Albert and another on the southeast of Edmonton, which he wants to look over.

After his visit there he will proceed to British Columbia and finally return to Ottawa about the end of September.

MILLION DOLLAR CONTRACT

One of the largest railroad contracts let in the west in many years was announced Thursday, says the Vancouver World, when information was given that the C. P. R. had let to Macdonell & Gzowski of Vancouver, at a figure approximating a million and a half dollars, the work of reducing the big grade of the railroad at Field.

The work is peculiarly suited to "station" men, that is sub-contractors who take small sections of the work, and it is expected that the immense undertaking will be disposed of in this way.

Sealed Tenders, superscribed "Tenders for Lock-up,' will be received by the Hon. the Chief Commissioner, up to noon on Tuesday the 3rd day of September, 1907, for the erection and completion of a Lock-up at Revelstoke.

Plans, specifications, contract and forms of tender may be seen on and after the 26th day of August, 1907, at the Office of the Government Agent, Revelstoke, or at the Lands and Works Department, Victoria, B. C.

FRED FRASER,
Government Agent.

NOTICE—The above plans, specifications and contract forms have been withdrawn.

NOTICE

Lillooet Land District.
District of Lillooet.

Take notice that Andrew Kitson, of Revelstoke, B. C., Miner, intends to apply for a special timber license over the following described lands;

1. Commencing at a post planted on the east bank of the north fork of Seymour River, about 1½ miles above the fork of the same and about 31 miles up from Shuswap Lake, and marked "Andrew Kitson's S. W. Corner," thence north 160 chains, thence east 40 chains, thence south 160 chains, thence west 40 chains to point of commencement, and containing 640 acres more or less.
Dated July 31st, 1907.

2. Commencing at a post planted on the east bank of the north fork of Seymour River about 1½ miles above the fork of the same and about 31 miles up from Shuswap Lake and marked "Andrew Kitson's S. E. Corner," thence north 160 chains, thence west 40 chains, thence south 160 chains, thence east 40 chains to point of commencement and containing 640 acres more or less.
Dated July 31st, 1907.

3. Commencing at a post planted on the east bank of the north fork of Seymour River, about 4½ miles above the fork of the same and about 34 miles above Shuswap Lake, and marked "Andrew Kitson's N.W. Corner," thence south 80 chains, thence east 80 chains, thence north 80 chains, thence west 80 chains to point of commencement and containing 640 acres more or less.
Dated July 31st, 1907.

4. Commencing at a post planted on the east bank of the north fork of Seymour River, about 4½ miles above the forks of the same and about 34 miles up from Shuswap Lake, and marked "Andrew Kitson's S.W. Corner, thence north 80 chains, thence east 80 chains, thence south 80 chains) thence west 80 chains to point of commencement and containing 640 acres more or less.
Dated July 31st, 1907.

5. Commencing at a post planted on the east bank of the north fork of Seymour River, about one half mile below the fork of the same, and about 29 miles up from Shuswap Lake and marked "Andrew Kitson's S. E. Corner," thence north 80 chains, thence west 80 chains, thence south 80 chains, thence east 80 chains to point of commencement and containing 640 acres more or less.
Dated August 3rd, 1907.

6. Commencing at a post planted on the east bank of the north fork of Seymour River, about one half mile below the fork of the same and about 29 miles above Shuswap Lake, and marked "Andrew Kitson's N. E. Corner," thence south 40 chains, thence west 160 chains, thence north 40 chains, thence east 160 chains to point of commencement and containing 640 acres more or less.
Dated August 3rd, 1907.

7. Commencing at a post planted on the west bank of the north fork of Seymour River, about three miles below the fork of the same and about 29½ miles above Shuswap Lake and marked "Andrew Kitson's S. E. Corner," thence north 80 chains, thence west 80 chains, thence south 80 chains, thence east 80 chains, to point of commencement and containing 640 acres more or less.
Dated August 3rd, 1908.

8. Commencing at a post planted on the west bank of the north fork of Seymour River, about 24 and a half miles above Shuswap Lake, and marked "Andrew Kitson's S. E. Corner," thence north 80 chains, thence west 80 chains, thence south 80 chains, thence east 80 chains, to point of commencement and containing 640 acres more or less.
Dated August 3rd, 1907.

9. Commencing at a post planted about one mile east of the north fork of Seymour River, on a tributary of the same about 21 miles up from Shuswap Lake and marked "Andrew Kitson's S.W. Corner," thence north 40 chains, thence east 160 chains, thence south 40 chains, thence west 160 chains to point of commencement, and containing 640 acres more or less.
Dated August 6th, 1907.

10. Commencing at a post planted about one mile east of the north fork of Seymour River, on a tributary of the same, about 21 miles up from Shuswap Lake, and marked "Andrew Kitson's N.W. WEATHER FORECAST

Saturday, August 31st, for 24 hours, generally fair, though still unsettled, cloudy. Light to moderate winds. Temp., max. 79, min. 49 degrees.

Local and General.

Opera House tonight.

Gold Range Lodge, No. 26, K. of P., held an initiation of two candidates on Wednesday.

A "Pair of Country Kids" at the Opera House tonight.

R. H. Trueman arrived this morning from the Coast and will be in the studios for a week only.

T. Sturdy, of the city police force, has been appointed Provincial constable here and J. Shaw is gaol keeper.

The Camp Mountain View, C.W. O. W. are entertaining the Camp from Arrowhead to-night in the lodge room and afterwards at the Savoy.

The Revelstoke Sawmill Co. will not log this winter, and are offering their horses for sale as they expect to log with a donkey engine next year.

The semi-annual meeting of Kamloops Presbytery will meet at Peachland next Tuesday, at 8 p. m. Rev. Robertson will be in attendance.

"Pair of Country Kids."

The plans, specifications and contract forms in connection with the construction of the new provincial lock-up in Revelstoke has been withdrawn.

J. C. Smith's Comedy Co. arrived in town this morning and will present tonight at the Opera House the famous rural comedy drama, "A Pair of Country Kids." Popular prices.

Rev. Mr. Romig, who has been preaching nightly in the city for the past four weeks, will preach his morning sermon in the Methodist church to morrow.

See a "Pair of Country Kids" at the opera house tonight.

We have received some samples of local apples, grown by T. Skinner. The fruit is sweet and of large size and the samples being Garden of Eden, Goldens, three and a half boxes of which have been taken off an eight year old tree. J. Maley has also some fall fruit on his ranch. What little fruit is grown in and around Revelstoke has been proven to be of the finest quality.

SCHOOL BOOKS
For the Monday Opening.
Every purchaser will be supplied with a School Bag to carry away their purchases. A large assortment of supplies.
W. BEWS, Phm. B.
Druggist and Stationer.
Mail Orders promptly attended to at this Store.

A local train from Vancouver to Kamloops may be placed in operation by the C. P. R. during the coming winter, when the double transcontinental express service is discontinued. The service would be daily each way.

Dan Campbell, who was arrested on Wednesday morning at the depot by the policed for being armed and riding on the top of an express car, was sentenced by Police Magistrate Pinkham to two months with hard labor at Kamloops.

Evangelist Romig will again speak in the Opera House on Sunday at 4:15 and 8 p.m. A song service will begin at 8 p.m. and the sermon at 8.30. Evangelist Romig's subject in the Opera House on Sunday will be "The Book of Books and How to Use It," and "The Pre-Eminence of Christ."

J. J. Johnson, a stranger in town, was brought up before Police Magistrate Pinkham yesterday, on a charge of stealing from the person. The case was dismissed there being not sufficient evidence to show that the accused committed the act with intent of theft. J. M. Scott appeared for the Crown and C. E. Gillan for defence.

C. Crossler, a logger employed at Donnelly's camp at Carnes Creek, was killed early on Wednesday morning by a tree falling on him. The body was brought down on the s.s. Revelstoke the same night. The funeral took place yesterday, the arrangements being in the hands of the Revelstoke Sawmill Co. The Rev. C. A. Procunier conducted the burial services.

Final details for the Labor Day Celebration have been completed and all that is wanted is fine weather and a big crowd. The committee have worked hard to put things in good shape and every branch of the days amusements have done their best to give the best to visitors and town's folk alike. Some good tennis, football, lacrosse, shooting, field sports, etc., will be seen on Monday, and it is hoped that the citizens will make a gala and fete day of it.

A whirlwind of exceptional violence swept over the city on Thursday morning from the west accompanied by torrents of rain, the greatest force lasting for about 20 minutes when the wind's velocity reached 60 miles an hour. The action of the barometer during the storm were very peculiar, rising and falling rapidly. No damage was done except a few trees lost a few of their limbs, and the Baptist mission tent whirled off its poles and deposited on the ground. Heavy rain continued all day.

Dr. Sutherland was tendered a hearty send off on Thursday night previous to his departure for the east where he will enter the matrimonial state. A large number of citizens and visitors assembled in the club where supper was served, after which a long toast list was honored, chief among which was that of the guest of the evening who received an enthusiastic ovation and general expressions of congratulation and esteem. Dr. Sutherland is a very popular citizen and during his career in Revelstoke has made himself a general favorite. The MAIL-HERALD joins with his many friends in congratulations and wishes for his future married life.

Several of the store windows are attracting considerable attention just now. In C. B. Hume & Co.'s windows are arranged the handsome prizes and trophies donated for the sports and games on Labor Day, the display being attractive and neatly carried out. In J. A. Davidson's window are the many costly and handsome prizes for the R.M.R. rifle shooting competitions on Labor Day artistically displayed. Bourne Bros. have one of their large windows given up to sporting goods and outfit. The scheme is well arranged to represent a camp in the woods with alluring looking game near it, while guns, rifles, ammunition, fishing rods and campers and sportsmen's accessories of all kinds are show, the whole being an excellent advertising exhibition.

Social and Personal

A. W. Bradshaw left this week for the east.

Dr. G. W. Thomas has returned to the city from Vancouver.

F. C. Elliot, of Trout Lake, spent a few days in town this week.

Mrs. W. M. Lawrence will not receive on Wednesday, September 4th.

Fred Forest, of Albert Canyon, and G. Stevenson, of Rogers Pass, were in town on Thursday.

H. F. S. Paisley, of the Evening Globe, St. John, N. B., has been visiting the city for the past week.

Miss James, head milliner of C. B. Hume & Co., left here on Tuesday for Seattle to attend the fall millinery openings.

Mrs. Guthrie and her sister Miss M. Ritchie, of Kenora, who have been visiting Mrs. and Miss McPhail, left on Tuesday for their home.

FALL AND RAIN COATS

We are showing the finest range of these goods yet offered in Revelstoke. We only handle lines that we control and you can get a garment here that cannot be duplicated—giving you exclusive styles. Our garments give universal satisfaction in fit and quality. Our Fall Coats are made of close, warm material and heavy enough for our cold weather. Light colors have been overdone, and all the fashion authorities predict a "dark" fall and we are prepared for it.

The Rain Coats are made up in dressy styles from the best quality of Cravenette, in all the popular lengths, and are splendid values.

SEE OUR FALL SKIRTS

To-day we are opening a case of Fall Skirts that for style, quality and price outclass anything we have yet offered. The maker of these skirts is acknowledged by all to be the best cutter and designer in Canada. Following the trend of Fall Fashions, they are nearly all plain cloths, in Black, Navy, Brown, Green and Wine shades.

We can suit your purse and fancy in these. We guarantee every article to be as represented. If you are not satisfied, in any particular, you can return the goods and get the money back you paid for them.
