## River Bank to be Protected this Fall

### Member for Kootenay Secures Speedy Action From Dominion Government—Surveys Being Made for Arrowhead Wharf—R. F. Green With Member for Kaslo makes Tour of Lardeau

"Work will be started as soon as the water drops this fall on extensive mattress work for the protection of the bank of the Columbia river south of the Revelstoke wharf," announced J. P. Forde, Dominion government engineer, who arrived in the city yesterday.

When R. F. Green, M. P., was in Revelstoke last week he drove with A. E. Kincaid, president of the Revelstoke Conservative association, T. Kilpatrick, president of the board of trade, T. J. Wadman, Dominion lands agent and others, to inspect the point where the water of the Columbia river is eating into the bank, and he was asked to secure from the government the undertaking of the work of providing protection for the bank. Mr. Forde's visit and his announcement that the work will be done this fall is the result of action which Mr. Green immediately took.

In company with Mr. Forde, Neil F. MacKay, M.P.P., and H.B. Thomson, M.P.P., Mr. Green arrived yesterday at Arrowhead after a tour of the Lardeau country via Gerrard, Trout Lake and Beaton. Mr. Thomson came to Revelstoke with Mr. Forde and left yesterday for Victoria while Mr. Green and Mrs. MacKay returned south, Mr. Green intending to visit Grand Forks before returning to the coast. While in Arrowhead Mr. Forde, at Mr. Green's request, left an engineer to make surveys for the wharf, for which $15,000 was voted last session at the solicitation of Mr. Green, and he announces that tenders for the work will be invited in the near future

Mr. Forde immediately on his arrival in the city yesterday drove with T. J. Wadman, Dominion lands agent, to the site of the proposed work on the bank of the Columbia. He returned to Nelson this morning.

## BEAR CREEK HOTEL SOLD

### J. B. Cressman and Miles Custard are New Proprietors—Four Thousand Dollars Price

J. B. Cressman and Miles Custard of Revelstoke, on Monday purchased the Bear Creek hotel from Raymond and Evans the former proprietors. The price was $4,000 of which $2,000 was paid in cash on Monday.

The hotel, which is situated at the east end of the big tunnel, was taken over by the new proprietors yesterday. Mr. Custard, who is an experienced hotelman, will be in charge of the hotel and of the restaurant in connection.

## EQUIPMENT TO LAY PAVEMENT

### Expected to Arrive Today—Fifty Men Will be Employed

Machinery and equipment for laying the bitulithic pavement on First street and McKenzie avenue left Victoria Friday and is expected to arrive in Revelstoke today, says John H. Shewry, representative of the Warren Construction company, who is in the city. The work of laying the pavement will start at the upper end of McKenzie avenue as soon as the equipment is received. About 50 men will be employed.

The contract for laying the cement curbing in connection with the pavement has been let to A. Pradolini and the work has already commenced at the upper end of McKenzie avenue.

## Good Progress Being Made With Road

The good progress being made with the road in the national park on Mount Revelstoke can be plainly seen from McKenzie avenue. Seventy men are at present employed and the rock work, which is one of the most difficult features of the road has been finished.

## CUT GLASS AND CHINA RUINED

### Shelves in J. G. Barber's Cabinet Give Way—Contents are Shattered

Two hundred and fifty dollars worth of cut glass and china was shattered when on Saturday a glass shelf in the wall show case of J. Guy Barber collapsed.

The broken shelf and its contents of glass and china fell upon a shelf below which also collapsed and the debris fell upon more china and glass displayed upon the lowest shelf of the cabinet. Practically nothing escaped. Cut glass decanters, cream jugs, tumblers, cups and saucers and other valuable articles lay a heap of ruins.

## SCHOOL BOARD FINANCES GOOD

### J. E. Bland Elected to Arrowhead School Board—Winter's Fuel is Purchased

Arrowhead, B.C., July 21—The Arrowhead annual school meeting was held on the 15th inst in Harry Johnston's store, and was well attended.

The secretary called the meeting to order and W. R. Reid was appointed chairman. The financial report of the past year was then laid before the ratepayers and was accepted as follows:

RECEIPTS.

| | |
|---|---|
| Rates collected during year... | $895.11 |
| Balance amount still owing ... | 79.34 |
| | $973.45 |

EXPENDITURES.

| | |
|---|---|
| Amount owing 15 July, 1913... | $203.96 |
| Supplement teachers salary for 13 months ..... ..... ..... | 541.45 |
| Repairs and incidental expenses including cost of next winter's fuel ..... ..... ..... | 228.04 |
| | $973.45 |

W. R. Reid was appointed auditor for the ensuing year; and the vacancy on the school board, caused by the retirement of H. Cook was filled by the election of J.E. Bland for a term of three years.

Eight hundred and fifty dollars was voted to meet the expenses of the coming year. The trustees for the ensuing year are:—J. Fyfe, W. Gilchrist and J. E. Bland.

Much satisfaction is felt with the financial condition of the school. Not only has the debt been reduced by $124.62 but cordwood for next winter has been bought and the teachers salary is paid one month in advance.

Mr. and Mrs. E. Banbrery of Regina, were among the guests at the King Edward yesterday.

## TWO STEAMERS FOR EXCURSION

### Minto and Kootenay for Business Men's Picnic to St. Leon—Two Bands

Two steamers, the Minto and Kootenay, have been secured for the Merchants picnic on July 29 and a few tickets are still available for what is expected to be the event of the season. Two bands, the Revelstoke and the G. Verdi band, will accompany the picnic.

The excursions will leave the Revelstoke wharf at 7:30 next Wednesday morning and will voyage to St. Leon hot springs where the picnic will be held.

The trip down the river and lake to St. Leon is one of the most delightful in the province and at St. Leon everything is now at its best and a jolly day is promised by the merchants to all who join their picnic.

Mayor McKinnon will proclaim the day a public holiday.

## Latest News Today from Over the Wires

Vancouver, B.C., July 21.—Just before 7 o'clock this evening the Hindus through their committee, agreed to accept the terms of the government, and will tonight allow peaceable possession of the Komagata Maru. Provisions are being taken aboard and not a moment is being lost to prevent the possibility of a hitch. Capt. Yamameto has again taken command and the engineers and stokers are working overtime to take the vessel away at the earliest possible moment

CAILLAUX GIVES EVIDENCE.

Paris, July 21.—Joseph Caillaux held the court for two intense hours today testifying in the defence of his wife, who sat in the prisoner's enclosure charged with the murder of Caston Calmette, editor of the Figar.

SUMMER HOME BURNED.

Bockville, Ont., July 21.—Fire today destroyed the beautiful summer home of W.H. Nichol of New York on the north side of Henry island. The loss including contents is placed at $100,000.

WIN FOR LEVINSKY.

New York, July 21.—Battling Levinsky of New York, outfought Perky Flynn of Boston in a 10 round bout here tonight. It was a hard battle. Levinsky had the better of seven rounds.

WATCHES WIFE FALL TO DEATH.

Brussells, July 21.—Mme. Cayat de Castella was dashed to death tonight from a height of 1000 feet. A new parachute which she was testing from a biplane failed to work and thousands of spectators, including her husband, saw her drop.

SIR WILFRID COMES WEST.

Ottawa, July 21.—Sir Wilfrid Laurier leader of the opposition will visit the west during the early autumn months.

CANADA SECOND

Bisley Camp, Bhy, July 21.—Making a total aggregate for the three ranges of 776, the eight representing Australia carried off the Kolapore challenge cup, Canada secured second place two points behind, and the mother country third.

GOVERNOR GENERAL RETURNS.

Ottawa, July 21.—The Duke and Duchess of Connaught with Princess Patricia and the royal suite, returned to Ottawa this morning after a visit to Newfoundland, on the royal train provided by the Canadian Pacific railway. The party leaves on Thursday for the west.

TO DISSOLVE NEW HAVEN.

Washington, July 21.—The long continued effort to untangle the New Haven railroad without litigation, came to an end tonight when President Wilson in a letter to attorney-general McReynolds directed the institution of a Sherman law suit to dissolve the system and ordered that the criminal aspects of the case "be laid before a grand jury."

ADMINISTRATION CONDEMNED

Edmonton, July 21.—The report of Mr. Justice Scott, as a result of the police investigation was submitted to the city council tonight. It is a strong arraignment of the police administration.

## PICTURES OF NATIONAL PARK

### Scenes from Revelstoke Park to be Shown in Moving Pictures

The company of moving picture photographers which is producing the B. C. weekly, a series of films giving views, and reproducing events throughout the province of British Columbia, will in the near future take a series of pictures of the Revelstoke National park. These pictures will be given wide distribution and will be a valuable advertisement of the attractiveness of the park. They will be seen at the Empress theatre in the near future.

## Revelstoke School Second Highest in Province

### Mabel A. Simmons is Winner of Governor General's Bronze Medal—Oscar Lundell Wins Silver Medal for High Average and Gold Medal Presented by Dr Hamilton for Highest Standing in Arithmetic—Silver Medal Presented by Principal Won by Marion Lawrence

The results of the High School Entrance examinations, which were held on June 22, 23 and 24, at 71 different centres throughout the province have just been announced by the department of education. The total number of candidates was 3124, out of which 2063 succeeded in passing.

In percentage of passes Revelstoke is second highest in the province, the percentage being 83.33 as compared with an average percentage of 66.03, throughout the province, In R. D. Colpitts' class 22 out of 23 pupils passed and in R. A. Patterson's class 13 out of 19 were successful. In addition three pupils from outside centres wrote in Revelstoke of whom two were successful. Three of Mr. Patterson's pupils passed at other centres, which would raise the percentage of Revelstoke passes to 84.44, the highest in the province.

Oscar Lundell having made the highest average in Mr. Patterson's entrance class is the winner of the silver medal presented by Dr. Sutherland. He is also the winner of the gold medal presented by Dr. Hamilton for the highest standing in arithmetic, his mark being 99 out of a possible 100. Marion Lawrence, who missed winning the Governor General's medal by one mark, and who made the second highest standing in arithmetic with a mark of 94, is the winner of a silver medal presented by the principal of Central school.

Miss Dorothy Blakey of the Henry Hudson school, Vancouver, who secured 930 marks out of a possible 1100, has the honor of securing first place.

The ten bronze medals which are donated annually by His Royal Highness the Governor-General, and distributed by the department among the head pupils of the ten cities having the greatest number of passes to their credit, were won by the following candidates: Ethel A. Davis, Armstrong; Jennie Thomson, Chilliwack; George E. Fletcher, Kelowna; Olive B. Lawrence, Nanaimo; Ruth M. Carlson, Nelson; Lacey J. Fisher, John Robson school, New Westminster; Mabel A. Simmons, Revelstoke; Dorothy Blakey, Henry Hudson school, Vancouver; Z. Mary R. Garnett, Ridgeway school, North Vancouver; Dudley F. Pegrum, Boys' Central school, Victoria.

The following summary, with the local lists given in full, shows the results of this examination at the various centres in Inspectorate No. 10, the Revelstoke district:

## HIGH SCHOOL RESULT GOOD

### Twenty out of Twenty Two Pupils in Revelstoke Pass Examination

The results of the June examinations held in the high schools of the province are announced by the department of education. The percentage of successful candidates is unusually high, a number of schools showing not a single failure.

In the preliminary course, junior grade, Henry Cross, of the Victoria high school, stands first, with a total of 860 marks out of 1,000. In the advanced course, junior grade, the candidate winning highest honors is Clifford A. Woodworth of Chilliwack high school, who has made 796 marks out of 1,000.

The list published hereunder does not contain the names of those required to write only on the paper on education of the senior academic grade.

REVELSTOKE CENTRE

The following is the result in the Revelstoke centre:

Revelstoke High School—Preliminary course, junior grade; maximum marks, 1,000. Number of candidates, 12; passed, 12: Joseph A. Parent, 791; George E. McKinnon, 763; Winnifred B. Smythe, 701; Olga E. M. Coursier, 694; Enid L. Bradshaw, 677; James P. Campbell, 649; Alice L. Munro, 641; Walter J. McRae, 630; Veronica J. Bell, 608; Francis H. Bourne, 551; John F. A. Laing, 519; Margaret Matz, 515.

Advanced course, junior grade; maximum marks, 1,000. Number of candidates, 5; passed, 5: Kathleen L. Field, 698; Myrtle V. Brock, 587; Lily W. Abrahamson, 566; Arthur W. Young, 558; Ellen F. McCarthy, 556.

Full course, junior grade; maximum marks, 1,200. Number of candidates, 1; passed, 1. Nana M. Yolland, 634.

Intermediate grade; maximum marks 1,100. Number of candidates, 4; passed, 2. Charles A. Field, 691; Lucy A. Brock, 552. Charlie Field passed with 142 marks above passing mark, which was 550, out of a possible 1000. Florence Lawrence, who was second in her class all through the year, and some times first, failed by a small margin.

GOLDEN CENTRE.

Golden High School—Preliminary course, junior grade; maximum marks 1,000. Number of candidates, 4; passed, 1; Ralph W. Spencer, 801.

Private Study—Full course, junior grade; maximum marks, 1,200. Number of candidates, 1; passed, 1; Ethel E. O'Bannon, 721

Of the 2195 candidates who presented themselves 1733 passed, the numbers at the several centres being as follows:

| Centre | No. Candidates | Passed |
|---|---|---|
| Abbottsford ... ... ... | 7 | 3 |
| Agassiz ... ... ... ... ... | 12 | 9 |

TAKE NOTICE

That I, J. C. Kirkpatrick, of Arrowhead, B.C., intend to apply to the Chief Commissioner of Lands of the Province of British Columbia for a license to prospect for petroleum and gas on the following described lands in the West Kootenay district:

Commencing at a post marked (J. K. north east corner post) and planted on the west bank of Cranberry creek close to Government bridge following bank of said creek south 80 chains, thence west 80 chains, thence north 80 chains, thence east 80 chains to point of commencement. Containing 640 acres more or less.

Dated this 23rd day of May, 1914.

J. C. Kirkpatrick, Locator,
Jl.22.p. Per John E. Bland, Agent.

NOTICE

In the matter of an application for the issue of a duplicate Certificate of Title to Lots 1, 2, 4 and 5, Block 3, Town of Nakusp, Province of British Columbia, Map 494.

Notice is hereby given that it is my intention to issue at the expiration of one month after the first publication hereof a duplicate of the Certificate of Title to the above mentioned land in the name of Ellen MacDougald, which Certificate of Title is dated 15th May, 1897 and numbered 3607C.

Nelson, B.C., 11th June, 1914.
FRED C. MOFFATT,
J.15.8t. Deputy District Registrar.

NOTICE

Tenders will be received by the secretary of the School Board up to and including July 24, 6 p.m., for the cleaning, levelling, top dressing with not less than forty loads of black soil, and seeding in clover of the High School grounds.

Also for the removal of the present flooring, moving desks, laying three inch edge grain Coast flooring and replacing desks, in connection with the four class rooms on the ground floor of Central school.

Also for the one-coat kalsomining (all stains to be covered) of the eight class rooms and two halls of Central school.

Also for the laying of cement floor in the two furnace rooms of Central school.

Also for the installation of approximately seventy feet of radiation in the four west side class rooms of Selkirk school, this work comprising the adding of two extra sections to each of eight radiators.

The lowest or any of the above tenders not necessarily accepted.

2t.Jl.22-27.n.p.

TAKE NOTICE.

Take notice that I, E.P. Henry, of Arrowhead, B.C., intend to apply to the Commissioner of Lands for a license to prospect for coal and petroleum, on and under the following described lands:

Commencing at a post planted and marked E.P.H., planted on the West boundary of the Arrow Lakes Lumber Co., Ltd., mill site, thence 20 chains south, 80 chains east, 80 chains north, 80 chains west and 60 chains south to the point of commencement. Containing 640 acres more or less.

Dated this 23rd day of May, 1914.

E. P. HENRY,
Aug. 19p. Locator.

Large tract of good farming land now open for free settlement in Oregon. Over 200,000 acres in all. Good climate, rich soil, and does not require irrigation to raise finest crops of grain, fruit and garden truck. For large map, full instructions and information, and a plat of several sections of exceptionally good claims, send $3.40 to John Keefe; Oregon City, Oregon. Three years a U. S. surveyor and timberman. An opportunity to get a good fertile free homestead near town and market.

Aug. 29,n.p.

## Redistribution For British Columbia

The provincial government has appointed Mr. Justice Macdonald and Mr. Justice Morrison of the Supreme court bench a royal commission to report on the basis of a redistribution measure to be presented to the legislature at the next session.

Sir Richard McBride explained that the scope of the commission was very broad—to study the whole province in respect to areas of population and new settlements, work out a basis of equitable representation and report their findings to the legislature.

It has been the custom of most legislative bodies in Canada to place the arranging of a measure of redistribution in the hands of a committee of the house, on which would sit members representative of both sides.

In this province the composition of the legislature at the present time precludes any arrangement of that sort. The last redistribution measure in British Columbia was in 1902.

REMEMBER.

Remember me when I am gone away,
Gone far away into the silent land;
When you can no more hold me by the hand.
Nor I half turn to go, yet turning stay
Remember me when no more day by day
You tell me of the future that you plann'd;
Only remember me; you understand
It will be late to counsel then or pray
Yet if you should forget me for awhile
And afterwards remember, do not grieve;
For if the darkness and corruption leave
A vestige of the thoughts that once I had.
Better by far you should forget and smile,
Than that you should remember and be sad.

—Christina Georgina Rossetti.

H. W. Dyson, formerly assistant comptroller for the British Columbia Electric railway company, has been promoted to be comptroller in place of George Kidd, now general manager. Mr. Dyson has just returned from a visit of nearly four months in the old country.

A number of mountain climbers scaled the heights of Martin mountain last Friday. P.W. Cober, acting as guide, piloted the party and at night a large camp fire announced their presence on the mountain top. The party returned to Pritchard the following day without misbaps.

Mrs. McNaughton-Manson, the first lady author to write a book in British Columbia, and vice-president of the Woman's Press club of Vancouver, is a visitor to Lillooet this week and is the guest of her old friends Mr. and Mrs. W. Adams. The book is entitled "Over Land to Cariboo" and gives a genuine description of the pioneers travel from Fort Gary to the Cariboo mines.

Mr. Exe—So you were at the Swelton's 5 o'clock tea. What did you have?

Mrs. Exe—A good appetite when I got home my dear.—Boston Transcript.

**Buy Your Plumbing Supplies Direct From Us and Save Money**

We are the largest plumbing house in British Columbia selling direct to the public. We buy in big quantities and sell for cash. Thus we save you the middleman's profit and you do not pay for the bad debts of others. For this reason we can sell for less than any other plumbing house or plumber in British Columbia. Compare our prices. For instance: Our price for ¾-inch galvanized pipe is $4.95 per 100 feet; 1-inch pipe, $6.20 per 100 feet; 1-inch pipe, $9.15 per 100 feet.

NO MATTER WHAT YOU NEED IN THE PLUMBING AND HEATING LINE WE CAN SELL YOU FOR LESS.

95¢

Get your plumbing supplies direct from us and save money. Send along your specifications and we will give you price complete delivered in your town, by return mail, WITHOUT COST TO YOU.

Then compare our prices with others. Don't pay two prices for your plumbing supplies. We can supply everything for your bathroom at great saving to you. Write us today about your plumbing and heating problems. It will cost you nothing for advice. Remember that we save you money on all plumbing and heating supplies

**Concrete Fence Posts Last Forever**

THEY never rot away in the ground. They stand the hardest knocks and never have to be replaced, for they are practically everlasting. They are easily and cheaply made and are the most satisfactory of all fence posts.

**Concrete Drain Tile Cannot Decay**

Concrete drains do not decay and are cheaper, because they do not crumble and stop up drains, hence they need no digging up or relaying.

Let us send you this free book, "What the Farmer can do with Concrete." It shows you how to make concrete fence-posts and will save you many dollars when doing other building 'round the farm.

# What is Doing in the Province

W. D. Long, of Fernie, who was in the city jail awaiting trial on a charge of wife beating, made his escape from that institution.

The exceptionally hot weather since the beginning of July has raised the level of the lake at Halcyon and it is now within two feet of last year's high mark.

Among the grants for Kootenay riding secured by R.F. Green, M.P., at the recent session of parliament, was one for $150,000 for dredging the Columbia river, particularly the narrow channel between the upper and lower Arrow lakes.

R. F. Tolmie, deputy minister of mines, is making a tour of the mining sections in the southern interior of the province, with the idea of getting personally in touch with the various camps, where remarkable developments are in progress.

For some short while past some of the larger farmers of Enderby and immediate district, have been talking of the necessity of a creamery in the northern end of the valley, and with this object in view, have decided to go in for cattle on a much larger scale.

C. A. Biggar, of Ottawa, assistant superintendent of the geodetic survey branch of the federal government, is in Victoria. Mr. Biggar will spend some time in this vicinity doing triangulation work. While there he conferred with Dr. W.F. King, chief astronomer, on departmental matters.

What might have been a severe conflagration was caused by some children throwing fire crackers into the bush behind Henry Hawkins' ranch near Armstrong. The fire burned for two days, but was watched by the fire warden, who stayed at Mr. Hawkins' house until the danger was over.

W. A. Newton, the new assistant soil and crop commissioner, who will assist J.C. Ready at the department of agriculture, is expected in the province this month. Mr. Newton, graduated at the Macdonald college, in the province of Quebec, and has been acting as a district representative in that province.

Another presage of early construction work on the Kamloops-Okanagan branch of the Canadian Northern railway, is the presence in Vernon of S. H. Sykes, of Vancouver, assistant chief engineer of the Canadian Northern railway. Mr. Sykes is conferring with a special committee of the city council concerning crossings, bridges and the route through the city park.

On Friday, Horace Quince, a lad employed at the Elk Lumber company of Fernie, as water boy, met with an accident which proved fatal in a few hours. The boy was playing during an intermission around some machinery when his coat became tangled around a shaft and he was drawn in and thrown around, breaking his leg and inflicting internal injuries which resulted in his death.

The death took place at the Nicola Valley general hospital on Saturday of Nurse Esther Linner, caused by hemorrhage of the stomach. Miss Linner had been a nurse in the Nicola Valley general hospital for over two years and had she lived would have graduated next spring. The deceased lady had been suffering for some time with the complaint which carried her off and for which she was operated upon previous to her death.

Anyone making the trip to Oroville cannot have failed to notice the wide area of vacant and uncleared lands throughout the valley traversed by the railway. There is a large acreage still waiting for the hand of man to bring into subjection and production At Oroville a broad expanse of land is still in its primitive state, producing only sage brush and an occasional orchard. The possibilities both north and south of the boundary line are immense.

Forest fires cause an immense property loss in Canada every year, and this loss is all too frequently accompanied by loss of life. The great majority of the fires which leave such awful destruction in their wake are preventable. They are due to foolishness, or as it might be still more truly expressed, to criminal negligence. They originate largely from the burning over of cleared land in dry weather, from fires left unextinguished by campers and from cigar and cigarette butts and matches thrown down alight.

The annual Knutsford stock show was held on Dominion Day at Knutsford ranch, south of Kamloops. This show proved to be a big success and an eye-opener for Kamloops.

The body of the woman who committed suicide a couple of weeks ago by drowning in Thompson river near Ashcroft was found at Ruby creek in the Fraser. The remains were shipped to Seattle.

A maintenance grant of $1000 has been made to the Vernon Jubilee hospital by the city council. This grant is in lieu of any claims the hospital may have this year for the care of indigent patients.

Bail has been fixed by Justice Murphy in the sum of $10,000 in each case for William King, Arthur Quinn, Larry Green, Thomas Sullivan and Thomas Christien, who are awaiting trial at Kamloops for the murder of Berryman, who was found by the roadside dead on the way to Lumby some weeks ago.

Several parties are down the valley from Elko, staking for oil on both sides of the boundary line. A party of Eureka business men have staked a big stretch of country around Flagstone. Cranbrook and Elko people have staked the Scott ranch at Roosville and the Roosville valley from the boundary line to Fruitlands farm

Acting on instructions of the board of works the municipal engineering department commenced the oiling of the main macadamized thoroughfares throughout Point Grey this week. Three hundred barrels of oil have been purchased, and this it is estimated, will be sufficient to oil between six and seven miles of roadway.

A parcel of stationery, the first direct shipment from Montreal to Vancouver over the G.T.P. rail and steamship lines, arrived at Vancouver Wednesday for the offices of the company. Until such time as the railway commission officially approves of the line no freight can be charged for and no tariff will be issued for some time yet.

A bold attempt was made on Monday night to burn a wood shed in the rear of the Cross Keys hotel at Cranbrook. Some paper had been placed through some large cracks, in direct contact with the wood and set on fire. The flames were seen by a person passing down the alley and an alarm given. It took about a dozen pails of water to extinguish the fire.

Kelly lake, near Ashcroft, has been dispensing its favors right royally in the trout line during the last few days. A large number of fine catches have been made. Messrs. Bob Fraser, Eddie Bell and Harry Horan being the most favored of the anglers. During one of their trips they pulled out in one day nearly two hundred trout, all ranging from one to three pounds Kelly lake has not done such a thing for many a year.

Tom Hudson, of Celista knows how it feels to have a grizzly bear bearing down on him, and no friendly tree at hand. A party who have mining claims up the Seymour river were on their way up from Seymour Arm to do the assessment work on their claims when they met a big silver tip Mr. Hudson formed the advance guard of the party and walking unarmed was some distance ahead of the others. Fortunately Frank Munger, of Duck Range, was not far in the rear carrying a rifle and ammunition It is owing to his coolness and marks manship that bruin's hide now adorns the wall of Grant & Ballard's butcher shop instead of being wrapped around Hudson somewhere among the Seymour Arm mountains.

The Fort George Citizens' Water company, limited, is applying to the comptroller of water rights for a license to take, store and use 200,000 gallons per day of the water of the Nechaco river, to be diverted at a point two miles and one-half west of the junction of the Nechaco and Fraser river and to be used for waterworks purposes. The water will be sold within the townsites of Fort George, Prince George and South Fort George. The reservoir which is to be created will have a capacity of half a million gallons and will flood about fifty by one hundred and twenty feet of land. The Vanderhoof Power Co., Ltd., of Victoria, seeks power to take one hundred cubic feet of water per second from Sinkut river, and the same quantity from Stony creek, both of which flow into the Nechaco river near Vanderhoof, in the Fort Fraser district.

## SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be issued for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon If the coal mining rights are not being operated, such returns should be furnished at least once a year.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to the Agent or Sub-Agent of Dominion Lands.

W. W. CORY.

## AN AUTOMOBILE CLUB

In proportion to population the number of automobiles in the city of Revelstoke is large, and now that the roads radiating from the city are extensive and increasing and are noted for their excellence of condition the number of machines in the city and vicinity may be expected to increase.

The formation of an automobile club for Revelstoke might now be worth consideration. In other cities clubs of this kind have proved their usefulness not only to those who make automobiling a hobby but to those, also, who have not the good fortune to possess a motor car. The clubs have proved a protection to the public as well as a champion of the motorists' interests and the work that they have accomplished elsewhere might be performed with equal advantage in Revelstoke.

A Revelstoke automobile club would be a useful advertisement for the city. It would call attention to the excellent road system of the district, to the prosperity of the city and to its advantages as a tourist centre. The service that it might perform for the members of the club would be almost unlimited. It could give attention to the roads, suggesting to those in authority necessary repairs or desirable extensions, and would create a method by which motorists might co-operate for their mutual advantage. And the public would benefit if the club were to formulate rules which its members were bound to observe and so eradicate any tendency to reckless or inconsiderate driving.

When the road to the summit of Mount Revelstoke is completed, the club might find in connection with it an opportunity for usefulness. The grade of the road is comparitively easy and so far as possible all dangerous turns are being eliminated, so that the use of the road will not be hazardous to those who employ proper precautions. But the club might with advantage formulate the precautions that should be observed in the interests of motorists and the general public, place in position any signs that might be advisable for giving information to visitors and generally add to the attractiveness of the road By so doing it would deserve the gratitude of the city and would efficiently serve the interests of its members

REVELSTOKE STEAM LAUNDRY

**Rough Dry**

Our Rough Dry Department will be ready for business July 13th. Rough Dry consists of washing, starching and drying with the flat work (counterpanes, sheets, etc.) ironed and all starch work starched and ready for ironing.

**Everything Goes Through for Three Cents a Piece**

By the Rough Dry method you can have your washing done cheaper, and it does away with the wash tub and the work, worry and steam of a wash day. Cut down your fuel bill by sending your washing to the

REVELSTOKE STEAM LAUNDRY

Everyone invited to inspect our Plant.

## REQUEST SPEEDILY GRANTED

The readiness of Mr. R.F. Green to serve the interests of his constituents and his ability to secure from the Borden government the granting of any reasonable request has been once more demonstrated. It was only last week that Mr. Green was asked to present to the government the desirability of protecting the bank of the Columbia river near the wharf from the depredations of the current, and already the situation has been inspected by the Dominion government engineer and the announcement made that the mattress work required will be undertaken as soon as lower water makes the work possible. A more speedy or more satisfactory compliance with a request could hardly be imagined. Mr. Green has been dubbed "Kootenay's Best Friend." It is a title that he has done much to deserve.

## GERMANY'S WAR PREPARATIONS

Heedless of the cries of the disarmament advocates, and ignoring those who assert that armaments are only an incentive to war, Germany proceeds calmly and steadily in the building up of her navy and army. Two recent despatches from Berlin deal in a striking manner with the persistent plodding of the German authorities in their seeking of an armament that no rival of Germany dare challenge. The first is that the German government is endeavoring to perfect plans for mobilizing the Fatherland's finances in the event of war. It is urging the banks to agree voluntarily to keep 10 per cent. of their deposits and other assets on hand in actual money. The government hints at possible legislation to force the bankers to do this if they are not obedient. The other reveals the fact that a third squadron has been suddenly formed, and before the end of the summer there will be a great increase in the striking power of the German navy. Within a few weeks, or at most a few months, three squadrons will be in full commission at Kiel, and the addition of 15,000 men, contemplated by the Naval act of 1912, will be made as quickly as possible.

The proceeds of the levy for army and navy development purposes which the government exacted at the end of last year will be about $250,000,000. Along with the raising of this large sum by what is virtually a "war tax" the government has been endeavoring to raise the Reichsbank's gold reserve to record high figures, and increase the war chest at Spandau from $30,000,000 in gold to $60,000,000 in gold and $30,000,000 in silver. The policy of paying special attention to the financial reserves for war, withdrawing money that should be left to industry, is not one that would commend itself to British people. It smacks of the "emergency" idea. But the fact cannot be escaped that Germany is doing it with a precision and relentlessness that suggest grim determination not only to be prepared for defence, but to exert a commanding influence in the play of international relations. However strong peace sentiment may be among the Anglo-Saxons, they cannot afford to ignore the trend of such extraordinary preparations by a Continental nation. Germany's deeds mock the idea of disarmament, or even a limitation of armaments.

The results of the high school entrance examinations, published in today's issue, must be gratifying to all persons interested in the educational progress of Revelstoke. Mr. Colpitts with a pass list of 22 out of his entire class of 23 pupils, sustains and enhances his reputation as an unusually efficient teacher and principal, while Mr. R.A. Patterson of Division II. is to be congratulated on securing 13 passes out of a list of 19 pupils sent up for examination, a result that compares more than favorably with those secured by other schools, where entrance pupils are sent up from the second division.

## FROM THE SANCTUMS

### AN ABLE INVESTIGATOR.

Too much cannot be said in commendation of the manner in which this enquiry has been carried on by Lord Mersey. From first to last his unerring judgment and prompt decision have stood out in sharp relief. Public opinion, which has not failed to recognize the brilliancy of Lord Mersey's achievement, can best do him honor by insisting that the recommendations now put forward with his endorsation are carried into effect —Montreal Mail.

### NO NEED TO WORRY.

The man who has a couple of weeks wages in oil and cannot get his sleep because there is no strike every few days, should not be allowed to invest in speculative enterprises. There is no need of worrying about the oil field until three of four of the drillers, before another strike is made, go down over 4,000 feet without getting anything. And that will mean that they drilled at the wrong spots.—Calgary Albertan.

### OWNERSHIP CHANGES.

Today's issue of the Kamloops Standard is published under new control. A company of business men of well known standing in Kamloops has assumed the management of the newspaper and they are making arrangements to incorporate the printing and publishing business under the name of the Kamloops Press Ltd. It is 17 years ago since the Kamloops Standard issued its first number and in the intervening years it has passed through many vicissitudes. The policy of the paper in the past will not undergo any material change and on the broad questions of Dominion and provincial politics the Standard will support the policies of Sir Robert Borden and Sir Richard McBride. —Kamloops Standard.

### THE FARMER'S OPPORTUNITY

As a result partly of the widening influenze of our agricultural colleges, and partly of numerous co-operating agencies, a new set of ideals is being created with regard to country life. The nation as a whole, in fact, is making a re-estimation of rural life. With the coming of dear lands, city people have awakened to a new interest in country affairs and a new respect for country inhabitants. There is before us in the United States the opportunity to develop perhaps the finest type of rural civilization that the world has ever known. The ownership of land in past ages has always been most honorable, but the working of it has been regarded generally as degrading. The actual farmers, equipped with their poor, pitiable instruments, and condemned to unceasing and disheartening toil have been slaves, serfs, heathens, pagans, boors, peasants But today the use of machinery and new facilities for communication make it possible for the same individual to be a tiller of the soil and a gentleman.—Atlantic Monthly.

## AT THE THEATRES

The Valmore Vaudeville comedians, who have been delighting crowded houses at the Empress theatre will give their final performance this evening. They put on clever specialties including a musical entertainment, slack wire feats and some excellent comedy and are well worth seeing as they give one of the best performances of the kind seen in Revelstoke for a long time. In addition to the comedians the second part of the Lady Ruffles series of pictures will be shown as well as other first class pictures. Tomorrow the program will include a great war picture, the ever fresh Pathe weekly and three other splendid reels. Among other attractions coming soon at this up to date theatre are the Vaise-O'Leary fight pictures, the Vancouver pageant scenes and pictures of the Revelstoke National park.

The Empress theatre has arranged for Tuesday and Wednesday of each week, the Famous Players in the greatest productions ever seen in Revelstoke, starting next Tuesday with The Day of Days, Mary Pickford, in four parts.

## Latest News Today

(Continued from Page One.)

ets were acutely depressed again today. Heavy liquidation was in evidence due to the nervousness of investors over the latest Irish political developments. The conference called by King George is taken as an evidence of an increasingly serious situation. Consols closed 3-8 lower both for money and the account at 75-1-2 and 45 9-16 respectively. Selling from European centres was largely responsible for a renewed decline in Canadian Pacific and the rest of the American market with which the stock is classed. Canadian Pacific was hammered down to 189 but recovered to 190 before the close.

### FAMINE IN RUSSIA.

Chicago, July 21.—Black rust damage increasing and reports that Central Russia was face to face with famine-conditions carried the wheat market today to a higher level. There was a steady close at 5-8 to 1-4 up.

## Y.M.C.A. to Have New Steel Lockers

The monthly meeting of the board of directors of the Y.M.C.A., was held yesterday evening. Those present were R. Howson, J. Goble, W. Crawford, J. Gordon, J. Hay, Robert Gordon, W. H. Wallace, J. Purvis and the secretary Mr. Thomson.

The treasurer's, statistical, physical, general secretary's and house committee reports were read.

Fire extinguishers have been placed at the end of the corridors and one in the linen room.

Membership to date is 429. The one man club for securing members is doing its work. The easy payments of $2.50 per month for four months are meeting the needs of the men and assisting the association financially.

The house committee report brought before the board the need of some cleaning before the winter season. The dormitories are to be put into shape the lobby to be cleaned and floors oiled, and the bowling alleys are to be placed in good condition and 25 steel lockers secured and rented. The steel lockers may be secured under the following conditions. Twenty-five members subscribe $5 each and secure a partner, which will reduce his amount to $2.50, payable in advance. The present locker system is not satisfactory and a number of the members have willingly consented to the above plan so as to equip the association with the best lockers. The association will not receive any revenue from the lockers this year, as the main object is to place the lockers in the building free of debt. Those who are desirous of a steel locker should leave their name at the office as early as possible.

Committees are now being organized to plan for the fall and winter.

### GRAND FORKS MYSTERY DEEP.

The disappearance of Thomas A. McIntyre, the hardware merchant of Grand Forks, is still a mystery and search for him has been for the present abandoned. The hard straw hat found has not been positively identified as his. There seems to be no clew existing that would lead to a cause for his absence. Many rumors and surmises are in circulation but nothing definite can be gathered.

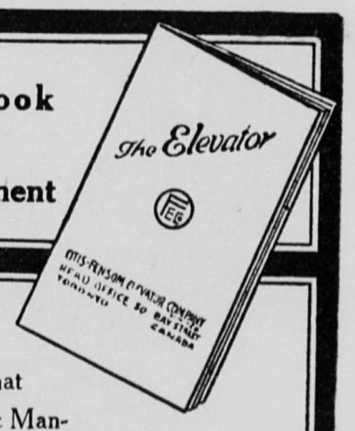
Here's a New Book on Scientific Management



OR, to be more specific, a book dealing with that important phase of Scientific Management which has to do with the economy of floor space in the factory, store, warehouse, garage, hotel or printing plant.

This Book tells a story of vital interest to every progressive business man. It points the way to increased profits through greater efficiency. It lays bare the causes of many business failures and shows how these failures might have been turned into successes.

If it is the means of helping you solve some knotty problem in your own business, we will feel that it has accomplished its object.

## New Baseball Schedule Repudiated By Kamloops

### Wants to Continue Former Schedule Although Kelowna Team is Disbanded—Came at Kamloops Today—Return Match to be Played in Revelstoke Tomorrow

The B. C. Interior league schedule is again up in the air, Kamloops yesterday wiring that it would not recognize the new schedule arranged at Vernon on July 15 and that it proposed to continue the league on the original schedule, which, owing to Kelowna having dropped out of the league, is obviously impossible. The Revelstoke team will play Kamloops today at Kamloops and tomorrow the Kamloops team will play Revelstoke here but after these two games nothing is decided as to future fixtures. 6

Yesterday the following telegram was sent by L.A. Howson, president of the Revelstoke Baseball association to the president of the Kamloops association:

Our representative at Vernon meeting cannot assure us whether or not you were agreeable and willing to continue league under new schedule formed at Vernon meeting on July 15 Answer oy wire my expense your intentions in this regard.

In reply the following message was received by Mr. Howson, from J. A. Gill, president of the Kamloops association.

Our association consider we are not bound by new schedule. Propose to continue league on original schedule as agreed to and to claim deposits as forfeited if other members of league fail to carry same out. Writing. James A. Gill.

In consequence of Kelowna retiring from the league three meetings have already been held to rearrange the schedule of games. The first, called by Dr. K.C. McDonald, was held at Vernon on July 9. To this meeting Kamloops sent no delegate although notified of the meeting. A second meeting was held at Salmon Arm on July 12 and at this meeting, although Kamloops was represented the Kamloops delegate declared that he had no power to act. The third meeting was held at Vernon on July 15. At this conference Vernon was represented by M. Eastman, Kamloops by B. Wells and Revelstoke by R. Dudley. A new schedule was drawn up, the Kamloops delegate being secre- of the meeting. Now this schedule is repudiated by Kamloops which demands adherence to the former fixtures so far as possible.

## RAILROADERS BEAT GIANTS

### One of Best Games of Season is Played Last Monday Evening

One of the closest games of the season was played on Monday evening. The railroaders had a strong aggregation and kept hitting the ball till 20:30. The Baby Giants were still more confident and kept the men of steel busily employed. From a spectators standpoint the game was thoroughly enjoyed throughout, the only regrettable feature was the decision given at the close of the game, when a ball was hit and came over the roadway, the Baby Giants protesting Cassidy, C.P.R. pitcher, struck out seven men. Lee, Baby Giants pitcher struck out six men.

Baby Giants — 0 0 0 0 1—1.

C. P. R. — 0 0 1 0 1—2.

The line up was as follows:

C. P. R.—Trendler, catcher; Cassidy pitcher; Nichol, 1st base; D. Gray, 2nd base; Webster, 3rd base; J. Wilson, short stop; J. Gallicano, right field; Abbott, centre field; Gallispie, left field.

Baby Giants—H. Goodwin, catcher; T. Lee, pitcher; A. Pagdin, 1st base; G. Corcorache, 2nd base; D. Madoloni, 3rd base; F. Daniels, short stop; L. Goodwin, right field; T. Gallicano, centre field; M. Goodwin, left field.

## All American Girls to Play Revelstoke

There will be a baseball game in Revelstoke on Wednesday, July 29 at 4 p.m. between the All American Girls team of St. Louis and the local team. The visitors have been touring the country and have the reputation of playing good ball.

## Macdonell and Sturdy Divide Shoot Honors

A. J. McDonell and W. A. Sturdy divided the honor of high gun at the Saturday shoot of the Revelstoke gun club each breaking 68 birds.

No report was received of the telegraph shoot, as the targets only arrived from the coast on Saturday morning.

From now on each practice will be held for the Herculese medal, as well as the telegraph shoot. This will be a handicap on birds, the contestants winning it the most number of times between now and September 1, to become the owner.

The scores on Saturday were as follows:

| Name | Shot at | Broke |
|---|---|---|
| McDonell | 75 | 68 |
| Sturdy | 75 | 68 |
| Foote | 50 | 46 |
| Barber | 50 | 46 |

Twelve pairs doubles:—

| | | |
|---|---|---|
| McDonell | 20 | |
| Sturdy | 17 | |

A sum of $25 is the prize for which Penticton and Peachland are striving at present, the contest now standing a tie, one game more to be played on the Penticton ground, on the 27. The teams seem to be pretty evenly matched, as each has a game won by only one run to its credit. Mrs. A. Town gave the home team a present of $5 for winning the last game.

Next year the school trustees will award a gold medal to the best boy in the Armstrong public school. All round proficiency and manly conduct both in school and public will form the basis upon which points will be estimated.

Dominion Surveyor Johnson arrived at Chase last week with a large survey party. He will locate in that vicinity for some time. The first work he will take up is the laying out of the park reserve on Chase creek that was petitioned for a year ago by the board of trade. When that work is completed he will proceed with the survey of the district lying along Chase creek and east of it.

The department of agriculture will again donate prizes this year for apple packing contests at fall fairs in order to stimulate a greater interest in high class apple packing. Similar contests were held at many fairs in 1912 and 1913 and usually proved most attractive features, in some cases the most interesting event of the fair. Every fair in the fruit growing sections should endeavor to have one of these contests.

LET US DESIGN YOUR STATIONERY

The status of a business house is reflected in its stationery. It PAYS to have the best that's going. We give you the highest quality at its lowest price. Free estimates.

Mail-Herald Electric Press

We offer you expert service. Print is our business and our hobby too. To the best selection of paper and type we add originality and smartness of design and rapid delivery.

Printing That .. Pays ..

Pays You

Your business status is often judged by the style and quality of your Printing. A poor circular hasn't half the convincing and business-bringing power of the better one. A cheap and common-looking letterhead lowers your credit with the wholesaler.

Pays Us

You are delighted with MAIL-HERALD Printing—for we do our utmost to please you. We have the staff, stock and equipment to deliver the goods—so we get your next order, sure. Then your satisfaction results in recommendation and so our business grows.

## BASKET WILLOW CULTURE.

Until recently basket willow cultivation has been a declining industry. Serious injury was done to the trade both in America and in Europe when rattan and other substitutes began to be introduced. The demand for willow is again increasing. Considerable success has attended its culture in Northern New York and some places in Ontario and British Columbia. It grows best on deep, rich, humus soil with a moderate amount of sand which retains the required amount of soil moisture. Although there are 95 different strains considered valuable commercially, the varieties most in use in America are the purple willow, the American green willow, the Lemley willow and the Patent Lemley willow. Of these the purple willow is by far the best variety for American conditions, although many prefer the American green willow.

In New York state, willow plantations are owned by farmers who cultivate and harvest their own crop. Cuttings are planted early in March, These are from eight to ten inches long, and are planted from nine to twelve inches apart in the row, and two and a half feet between the rows. Harvesting the rods begins about the middle of January before the sap begins to rise. The rods are tied in bundles and stood in a pit of running water four to six inches deep. They are left in the pit until the sap rises when the bark is easily removed. After grading the rods into proper height and quality classes, they are bundled up and prepared for market.

S. J. Allen arrived at New Hazelton last week after an eight hundred mile trip through the interior. He would be on that trip yet had not someone stolen most of his outfit and left him with but very little food and no means of securing any. He had to beat it back to civilization. Sam has been prospecting in that country for the past fourteen years, and he believes he has secured something good a few miles out from Decker lake. His ore carries big silver values, and he has a strong vein which he has traced several thousand feet on the surface. He is awaiting instructions from his partner in Vancouver.

She—What would you do if I were to die?

The Brute—Open a banking account—London Mail.

## LOST LABOR.

An elderly suburbanite who prides himself upon his methodical habits, was showing to an over-night guest a particularly handsome chiming clock. It was 10:30 o'clock, and the host proceeded to wind up the timepiece.

"For thirty-five years," he said,"I have never missed a night winding up this clock at 10:30 o'clock."

The guest, who happened to be a jeweler, examined the clock closely, and a quizzical smile overspread his face.

"What's funny?" inquired the householder.

"Why," said the visitor, "I was trying to figure out how much time you have wasted. This is an eight-day clock!"

H. Bowden, clerk, treasurer and collector of Salmon Arm, has tendered his written resignation, to take effect in one month if possible. The communication stated that the work was more than he could satisfactorily perform.

Did you ever pick up a paper published at a strange town and see a large showy advertisement without thinking yourself or saying to your neighbor. "That man must be doing an immense business," or forming a resolution to visit that firm at your first opportunity.

Poultry and poultry products have a marked influence on the meat supply but less attention is paid by farmers to the breeding of farm poultry and their care than to any of the other animals. With easy possibilities for rapid improvement by the use of pure bred males our farm flocks still remain as a class decidedly underbred. Almost every section of the country can produce chickens, Every farm could maintain a larger and a better flock.

All changes of advertisements must positively be handed into this office by Monday evening in order that the change shall appear in Wednesday's issue, and any changes intended for Saturday's issue must be handed in not later than Thursday evening of each week.

# WORLD NEWS TERSELY TOLD

An unprecedented number of suicides and attempted suicides have taken place since the fall of the Huerta government. In the last two days four suicides and three attempts have been reported. Such attempts are usually rare here.

Hopes for a satisfactory adjustment of the wage dispute between the enginemen of the western railroads and their employers took definite shape today with the assembly of the Federal Board of Mediation, who good offices have been accepted by both sides.

Premier Asquith at the opening of the House of Commons announced that King George, "in view of the grave political situation, has considered it right to summon a conference of the representatives of the political parties, both British and Irish, to discuss the outstanding points of the problem of Irish government." The premier added that Right Hon. James Lowther, speaker of the House of Commons, would at His Majesty's reqdest preside over the conference.

Lieutenant-Colonel Azunza, commanding the federals at the gap, announces that a proclamation has been issued at Mexico City by the minister of war granting all persons belonging to the so-called revolutionary forces permission to pass through the federal lines and proceed to whatever point they wished, either individually or collectively. The only condition imposed is that they shall not carry arms. Colonel Azunza said that the new administration does not recognize the existence of a revolution, and considers all Mexicans on equal footing as citizens.

The British Home Fleet, composed of more than 200 fighting ships and an equal number of auxiliaries, including submarines, torpedo boat destroyers and sea planes, was led out to sea by King George today. His Majesty was on board the royal yacht, accompanied by the Prince of Wales, Winston Spencer Churchill and the other Lords of the Admiralty.

A cloudburst Saturday morning during the most disastrous storm in the memory of residents of Apohaqui caused damage estimated at $300,000 and will result in the closing of the Jones Brothers mill at Apohaqui owing to the loss of one million logs, and the wrecking of the structure by the mighty flood in the mill stream. Roads and bridges were swept away by the torrential rainfalls and flood, and crops are ruined in the Millstream valley. Barns owned by A.E. Calpets and James O'Neill were struck by lightning and burned, and four dwelling houses were damaged by bolts.

Meliodorus, the former abbot of Tsaritsyn, who was banished from St. Petersburg because of his opposition to Gregory Rasputin, the mystic lay monk and advisor of the emperor of Russia, has mysteriously disappeared from Marginsky, near Rostov, where he resided under police surveillance. The reports are that Meliodorus was kidnapped or that he fled to avoid being implicated in the recent attack on Rasputin's home town, Petrovsky, province of Tobolsk. According to the newspapers, the assault on Rasputin will be hushed up owing to his alleged immoral life.

# Notes from the Mines

A rich strike at the Reco mine at Sandon is reported. The vein is 18 inches wide.

According to the Portland Canal Miner, the Clothier Bros. have taken a lease on the Silver Cup, and they have organized a leasing company composed mostly of New Hazelton and Prince Rupert people. This will make another mine operating the year round.

A petition signed by mining men and business people of Hope and others directly interested in the progress of Summit camp, has been forwarded to the minister of public works, asking that the trail from the Coquhalla river to Summit camp be re-opened as early as possible.

Seven thousand six hundred and twnety-two tons of ore from the mines of the Kootenay and Boundary were treated at the smelter of the Consolidated Mining and Smelting company at Trail during the past week, making the total tonnage treated for the year to date 173,861 tons. —Trail Newsf

The Omineca Herald says that Frank A. Brown has returned to Hazelton with the report of a new copper-gold strike made near McDonald's saw mill above Telkwa this spring. Mr. Brown says that recently another group of claims was staked in the same locality by J. Dravenstott and associates. The latter saw samples of the ore and says it is strong in copper.

Alex. Smith, manager of the Surprise mine at Sandon, and who recently returned after spending the winter in Ontario, was in town on Friday last, says a recent issue of the Slocan Record. Mr. Smith stated that the Surprise people would build a concentrator this season. The new cable for the aerial tram is being strung. Mr. Smith said nothing in reference to the mine, but the fact that regular shipments of high grade ore are being made, and that a mill is to be built is evidence that the ore reserve are satisfactory.

"I would not say that there will be a boom—which no one wants to see anyway—but there will be a great increase in the legitimate mining development of the Similkameen during the next few years, says L. W. Shatford, M.P.P., who has recently concluded a tour of inspect on of that constituency. Mining prospects in that section are exceedingly bright. Several properties are being bonded, and considerable outside capital will be introduced this season. The old Fairview camp, which contains a large amount of low-grade ore, is showing unmistakable signs of renewed activity, and this same development applies to other sections of the district."

Roy McCrimmon and Ernest Stewart have made another strike on the Silver Standard property which will mean a considerable profit to themselves. The boys, as was announced a couple of weeks ago, have a lease on the several claims on the south side of Glen mountain, and soon after they started work they uncovered some fine ore on the Black Prince. This they have been working by drifting and already they are sorting and sacking ore. The past week McCrimmon started to prospect a little on the Canadian Queen claim. On this vein their is a shaft, but it is full of water, and rather than pump it out he started about twenty-five feet further up the hill and within two feet of the surface uncovered six or eight inches of the highest grade of ore. It is as good as any that has yet been taken from the north side of the mountain. Some more work will be done on this vein before any definite development is decided upon.

McCrimmon & Stewart are getting a lot of work done and in a short time they will be in shape to put more men on at the property and get ready to make their first shipment.—Hazelton Herald.

A revival in interest in mining is reported in the Okanagan valley. Some fine specimens of gold bearing quartz, found near Vernon, have been brought to the Vancouver Chamber of mines. There are occurrences lode gold northwest of Vernon, and near Okanagan Landing to the south, also at points along the east shore of the lake between there and Kelowna. Kelowna men are quietly developing a gold property on Mission creek, having sent in a small mill. At Penticton is a mine that has not been worked for some years. There are promising lode deposits at Okanagan Falls. The old Fairview camp in the Similkameen district has merit, though shut down for some years and some day modern mining will take hold of some of these abandoned mines and successfully operate them. While the values are low the ore bodies are large, and ores of less value are economically mined elsewhere today. Then there are coal deposits at Short's creek, on the west side of the lake, and these are believed by engineers to be co-related to the Nicola field. At White Lake there is also a deposit of coal where some mining has been done. Tin and platinum have been reported from Osoyoos lake though of doubtful economic value.

T. Hesp has arrived from Barkerville with news of a gold strike of some importance in the neighborhood of Quesnel. He brought a sample of placer gold worth $3.75, which had been washed from three pans of dirt. The proposition is one for hydraulicking on a fairly large scale, he declares.

As the result of the recent rebuilding and enlarging of one of the copper furnaces at the Trail smelter, the company's mines in Rossland will likely be called upon for an increased shipment of ore. Four copper furnaces are now running at the smelter. Heretofore the mines have sent down from 600 to 700 tons per day. The four furnaces will now accommodate 200 tons additional per day, and this ore must come from the mines in Rossland.—Miner.

Chester F. Lee, mining engineer from Seattle, recently arrived in Princeton and went up to inspect the work on the Roaney hydraulics on the Tulameen river, between Princeton and Coalmont, where the company has 20 men employed getting the ditches and pipe line in shape for hydraulicing. Several gold and platinum specimens have been taken from these placers. The leases are located on the old south channel of Granite creek and rich returns are expected when the bedrock is cleaned up.—Similkameen Star.

**Let "Sunlight" do the Camp Washing**

THERE is only one soap that will make your big heavy shirts and underwear as clean and sweet and soft as you like them—that's "Sunlight"

Strong enough to move the worst of camp dirt—gentle enough not to hurt a single fabric.

Sunlight Soap is absolutely pure—it's the best all round general purpose soap there is.

Sold by all Grocers.

## A FEW "DON'TS"

### By Fire Brigade No. 2

"Don'ts" which every citizen would do well to remember and thus save loss to themselves and expense to the city.

DON'T pile kindling wood between th back of the stove and the wall, you will have a fire some day if you do.

DON'T have your heating stove sitting too close to the wall, you will go out some day and leave the drafts on and when you come back your house will be on fire.

DON'T leave a heating stove alone with drafts open more than 1 minute at a time it is as treacherous as a wild beast.

DON'T have the wall paper come to close to the stove pipe hole in the chimney cut it back two inches and spend 25c. for a tin collar and you may be hundreds of dollars ahead.

DON'T leave an oil stove burning alone but a few minutes. The Brigade have put out many fires caused by carelessness with these heaters.

DON'T forget to look at the brick chimney where it goes through the garret and roof. Sometimes there is abreak which will eventually cause trouble.

DON'T forget to have the stove pipes and chimneys cleaned when you know they are dirty.

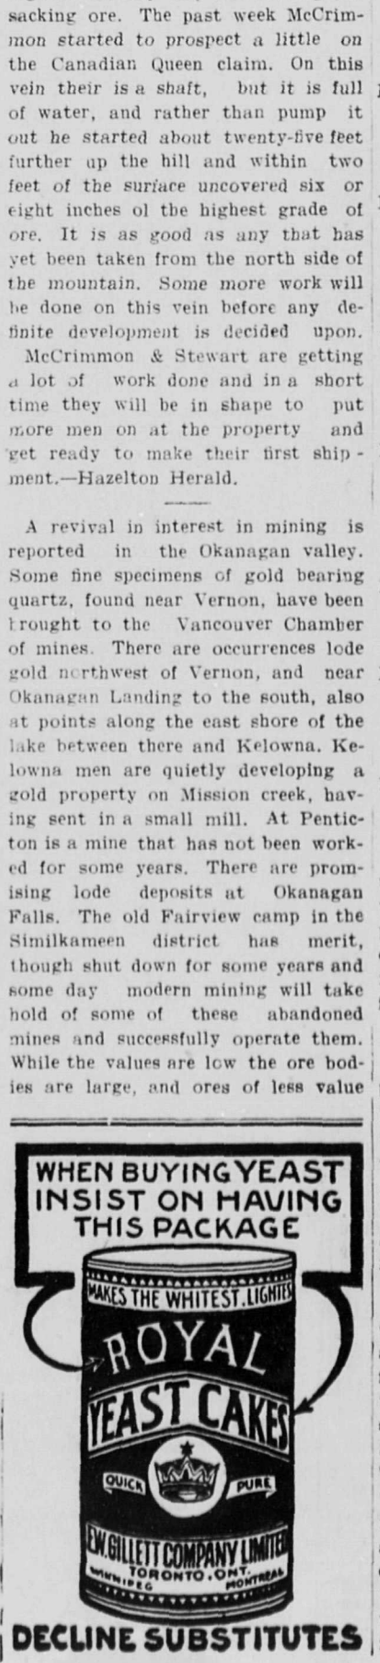
DON'T forget to have a little insurance; this is useful if you should neglect any of the above.

## RATEPAYERS REJECT PUBLIC BATH SCHEME

Four out of the six bylaws, voted upon by Penticton on Wednesday were ratified, while the Street Improvement bylaw, authorizing the expenditure of $5,000, and the bathing house bylaw for $2,000, were defeated by a considerable majority.

Joseph Martin, an old timer well known throughout the length and breadth of the upper country, went to the old men's home at Kamloops last week. Mr. Martin, who had attained a ripe old age, was a very familiar figure in Clinton, and it was with genuine regret that friends saw him go from their midst.

Two Vernon men, Messrs. Robert Conn and O.H. Shultz, have invented a new process for making brick, after five years' work and experiment. A patent has been obtained in Canada, and patents are pending in the United States and other foreign countries. The new material has been named "Conotolite." No cement lime or clay is used, and the bricks can be made any colored desired. The ingredients consist of sand and contain chemicals which are not costly, and it is stated that the finished product can be sold for less than good facing brick.



## HOW EGGS ARE SPOILED.

A very large number of eggs are spoiled by careless treatment, quite apart from the matter of temperature and the chief cause of deterioration undoubtedly arises from the common habit of allowing the eggs to remain upon their sides. The result of this practice is that the yolk, which is heavier than the "whites," presses against the shell—an unnatural state of affairs altogether. The shell is unable to resist the action of the yolk upon its tissues, air is admitted, and decomposition immediately sets in. If eggs are to be preserved without the aid of any artificial media, such as "water-glass" or other lime solutions they must either be turned over every day or stood upon their ends. So long as the yolk is kept suspended among the "white" the egg remains good for any reasonable period, whether its ultimate object be to furnish food or to produce a chick. If this fundamental principle were properly understood, the egg which tastes musty, or is obviously "good in parts" would appear far less often on our breakfast tables Treated thus, and kept in a cool place from first to last, new laid eggs will remain quite unimpaired for the best part of a month, and the lower the temperature of the place of storage the longer they will keep. If coated with a greasy or glutinous substance, the effect of which is to stop the pores in the shell from opening and admitting the air, eggs can be kept in a fresh state for months on end.

"Call off your dog, for goodness sake!"

"No use, he's deaf."—Le Rire.

**Your Appearance is Important!**

# BRIEF LOCAL NEWS

Gus Erickson of Cranbrook, was at the Hotel Revelstoke on Sunday.

Mr .and Mrs. E. C. Ross of Rossland, spent Sunday in the city guests at the King Edward.

J. Williams of Three Valley, came to the city on Monday and registered at the King Edward.

Among the guests at the Hotel Revelstoke on Sunday were, Mr. and Mrs. J. Gordon and J.S. McKay of Spokane.

Notice is given in the current issue of the B.C. Gazette that the Guardian Trust Company has made registration under the provisions of the Trust Companies act.

This week's issue of the B.C. Gazette has a notice to the effect that the Port Mann board of trade has been incorporated under the Benevolent Societies act.

Misses Goldie, Margaret and Kathleen Fromey arrived in Revelstoke on Saturday from St. Annes academy, where they have been pursuing their studies for the past seven yearsf They will spend their holidays in Revelstoke.

Mrs. T. J. Wadman and Miss Murray of Revelstoke arrived in the city on Sunday afternoon on a holiday trip through the valley. They went to Penticton Tuesday and expect to return to Kelowna to spend some time in a day or two.—Kelowna Record.

T. J. Wadman, Dominion land agent, came in from Revelstoke on Wednesday on business in connection with his department. While here he inspected the strip of land lying between the Dominion and Alexander townsites, that the board of trade are asking to be set aside for park purposes.—Golden Star.

The following tourists were registered at the Hotel Revelstoke on Sunday:—Frank O. Wallace, Dubois, Idaho; Mr. and Mrs. A.S. Bolton, Sydney, Australia; M.E. Houghton, Icklesham, Eng.; Mr, and Mrs. C. W. Pike, San Francisco; Mrs. T.W. Hazelett, San Barnado, Cal.; James Priddy, New York; Mrs Priddy, New York.

W. W. Foster, M.P.P., who accompanied R. F. Green, M.P., to Revelstoke, returned to town Wednesday, and left the following day on a tour of the Columbia valley. Mr. Foster will be the guest of A.H. MacCarthy, near Wilmer, for a few days, and will later attend the gathering of the Alpine club, which meets this year in the Upper Yoho valley on July 21.—Golden Star.

The management of the Revelstoke Agricultural association particularly request the ladies interested in the success of the fair and of the farming community in general to lend special effort towards making the preserved fruits and jams section an unusual success this year. The exhibits scoring highest honors in this section are to be forwarded to the exhibitions at Victoria and New Westminster and the management look to the ladies for their hearty assistance in this particular.

Notice is given in the current issue of the B.C. Gazette that certificates of incorporation have been granted to the following companies: Skeena River Mills, Ltd., head office at Vancouver and capitalized at $250,000; Eureka Oil Wells, New Westminster, $800,000; Malispina Marble Quarries, Vancouver, $150,000; Maple Ridge Pitt Meadows Oil Co., Vancouver, $200,000; Haney Oil Fields, Vancouver, $250,000; North Vancouver Land and Improvement Co., Vancouver, $1,250,000; Motor Agents Ltd., Victoria, $6,000; Tiahn Oil Co., Prince Rupert, $500,800.

MANNING'S

C. S. Craddock of Nelson, was in the city on Sunday.

L. C. Figg of Sawtille, California, is at the King Edward.

J. H. Shewry of Victoria, was at the King Edward on Sunday.

J. H. Glass of Penticton, was a guest at the Hotel Revelstoke on Sunday.

T. Kilpatrick left on Sunday for a visit to Sheep creek. He will probably be away for two weeks.

Mr. and Mrs. J. E. Bland and Mrs. Jackson of Arrowhead, registered at the King Edward on Sunday.

R. Christie came in from the Big Bend on Sunday, where he is surveying big timber leases, and registered at the King Edward.

F. G. Griffith deputy minister of public works, was in the city on Saturday and left on Sunday for Victoria. He had been attending the Chahko Mika celebration at Nelson.

The Portland, Vancouver and Victoria crews passed through the city on Sunday on their return to the coast from attending the Chahko Mika celebration at Nelson. The Portland crew won the senior four event.

Among the pioneers of Kootenay who were in Nelson for the Chahko Mika celebration, were W. H. Skinner Ferguson 1885; Dominic Gallicano, Revelstoke 1887; R. F. Green, Victoria 1884; E. Corning, Revelstoke, 1885; Jacob Fleshmann, Golden, 1883; R.D. McTavish, Golden, 1891; Edward Mathews, Golden, 1897.

W. F. Lammers, manager of the Adams River Lumber company, Chase, B. C., came up from Nelson Sunday afternoon and left for the prairie the same night. Mr. Lammers states that the company at present has about 300 men working at the Chase mill. He expects a revival in the demand for lumber this fall.

The present spell of hot weather which is being felt in most districts of the province, is giving officials of the forest branch of the provincial government some concern. As yet no serious outbreaks have been reported by the rangers scattered oper wide portions of territory. The fact that many people have gone into the Flathead country, prospecting for oil, suggestes to M. H. R. MacMillan, chief forester, that there is great danger of fires occurring in that district.

J. H. Swanson, a colored man, appeared before Police Magistrate Hamilton yesterday morning, charged with stealing a ride on a Canadian Pacific railway train. He was suspected of being a man who had threatened Brakeman Callahan with a revolver when ordered off his train. He had been traced by Canadian Pacific railway Constable Barnes to Mission and brought back to Revelstoke, but could not be identified by the brakeman. He was released and ordered to leave town. For offences under the Vagrancy act A. Mathieson was fined $15 and costs, E. Melland was dismissed with a warning and George McIntyre was given two hours to leave town.

Announcement is made this morning that a final decision in the matter of making Kamloops a distributing point on the Canadian Pacific has been reached and the new rates will go into effect on September first next The announcement is the culmination of a long struggle made by the merchants of Kamloops to obtain recognition of this point as a distributing centre. This privilege was granted to Nelson several years ago and it was felt that the importance of Kamloops demanded equal recognition. The decision of the company applies only to outward rates but the question of inward rates will still be taken up and the board of trade will urge the railroad to make the concession applicable also to inward freight.

H. R. MacMillan, chief of the forest branch of the provincial government, has hit upon a novel method of making moving picture shows do propaganda work throughout the province in connection with the campaign to protect the timbered areas from the ravages of fire. He has had prepared four sets of beautiful slides which are sent gratis to the proprietors of some 200 moving picture shows throughout British Columbia. The majority of such shows are located at frontier points, with timbered areas closely adjacent. The idea is to get the lesson taught by the slides before those who frequent forested areas. The slides are colored views intended to be shown on the screen while the moving picture operator is changing films. The views show scenes in the timber, and contain such admonitions as "Don't forget to put out the fire."

H. R. Ella is in the city.

B. R. Ilsley of Armstrong, was at the King Edward yesterday.

Mrs. W. Hill of Rogers Pass, was at the King Edward on Sunday.

Mr. and Mrs. H. Bartlet of Calgary were guests at the Hotel Revelstoke yesterday.

Harry Ella of Victoria, is spending a few days in the city, a guest at the Hotel Revelstoke.

Mr. and Mrs. W.J. Smith of Lethbridge, were among the guests at the King Edward on Sunday.

Rev. H. Jarvis of Vancouver, arrived in the city yesterday and registered at the King Edward.

Excavation has been made on First street from the lane at the side of the Empress theatre to McKenzie avenue for relaying the cement sewer pipe.

The new cement sidewalks on Third street are now being laid. Nearly half of the stretch from the court house to McKenzie avenue has been completed.

D. D. England, superintendent of provincial grounds arrived in the city on Sunday from Victoria and is superintending the laying out of the grounds surrounding the court house.

The loyal order of Moose are holding a picnic to Albert Canyon on Sunday, August 9. The picnic will leave at 8:15 a.m., returning at 5 p. m. A large number of tickets have been sold.

The following tourists were registered at the Hotel Revelstoke on Monday: W.H. Duncan, Thelma Duncan and Mary Duncan, Regina; Miss E. Sibbald, Mrs. and Miss Dchlunk, St. Paul; Hugo Schlunk, Cloquet.

J. O'Leary, who had laid a charge of criminal libel against W. H. Bohannan in connection with an item published in the Review, this morning with the permission of Police Magistrate Hamilton, withdrew the charge.

H.G. Garner, who advertised in the Mail-Herald that he had for sale Bing and Royal Ann cherries grown on his ranch on Greely creek road, sold 800 lbs. of the cherries in Revelstoke. It pays to advertise in the Mail-Herald.

W. R. Calloway, general passenger agent for the Soo line and considered the greatest advertiser on the continent, passed through the city on Saturday. He was met at the train by J.M. McKay, T. Kilpatrick, A. McRae and A. J. McDonell.

Donald H. Grant and John Hill appeared before Police Magistrate Hamilton this morning charged under the vagrancy act and were each given 30 minutes to leave town. Pat Cunningham who appeared on a similar charge and had evidently been drinking heavily, was remanded for four days.

Some of the tourists registered at the Hotel Revelstoke yesterday were: George A. Douglas, Frank J. White, and Gertrude White, Oakland; Mr. and Mrs. A.N. Early, Mrs. P.E. Early, Milwaukee; Mr. and Mrs. George D. Williams, Spokane; Mr. and Mrs. A.L. Lane, New York; Mr. and Mrs. Hutchinson and child, Winnipeg; Mr. and Mrs. Granes, Battleford; Mr. and and Mrs. J.D. Power, Saskatoon; W. Gardner, Rockland, Maine.

## SOCIAL AND PERSONAL

Edited by Mrs. Ralph Lawrence

Those having items for publication in the Mail-Herald social and personal column are requested to call up phone 62.

Mrs. C.R. Macdonald is visiting at the coast.

Mr. A. C. Carr of Malakwa, spent Monday in town.

Mrs. Roynon M. Smythe is spending the holidays in Vancouver.

Mr. W. A. Anstie returned on Monday from a few days trip to Nelson.

Mrs. C. R. Skene of McKenzie avenue, is expected home from St. Leon today.

Mrs. T. Kilpatrick and children are leaving for St. Leon on Thursday for a holiday.

Mrs. J. V. Manley and Miss Pettipiece are spending the summer at Canoe, B.C.

Mrs. J.W. Madden of Third street, and little girl are on a month's visit to the coast.

Mr. J.M. McKay and Mr. Alex. McRae are at Golden and Spillimacheen on a short trip.

Mr. J. Purvis has almost recovered from his recent accident and has returned to work.

Mr. J.E. Griffith, formerly of Golden, now chief engineer for the provincial government, Victoria, and deputy minister of public works, was in town last week. Mrs. Griffith is visiting friends at Windermere.

Mr. and Mrs. A. Campbell and baby left on Monday to spend two weeks at Salmon Arm.

Paul Samson returned on Tuesday from Albert Canyon where he has been holidaying.

Miss Warrington left on Tuesday to spend a few days with her aunt, Mrs. Bongard, at Chase, B.C.

Mr. F. N. Reid of the Bank of Commerce staff, Kamloops, was a visitor in town on Sunday.

Ed. Corning, proprietor of the Climax hotel, spent last week in Nelson renewing old acquaintances.

Lillian Pettipiece returned from Golden last week, where she has been visiting Miss Bertha Evans.

Sam Sutherland returned on Monday from St. Leon, where he has been having a short vacation.

Miss Christina and Margaret Wilson left on Tuesday for Three Valley to visit their mother for a week.

Mr. and Mrs. Adair and family of Vancouver, are visitors of Mr. and Mrs. Bert Keegan of Fifth street.

Mr. T. Kilpatrick and son are in Nelson for a few days. Mr. Kilpatrick is on business concerning his mining interests.

Mr. and Mrs. Harry Bews, Miss Eva Thompson and Mr. Reginald Paterson are spending a few weeks at St. Leon hot springs.

Pete Levesque, an old timer here, is wearing a broad smile these days. The cause is a nine-pound boy, born on Friday last.

Mr. and Mrs. Walter Lammers, of Chase, were in Revelstoke on Sunday returning from the Chahko Mika celebration at Nelson.

The hostesses at the lawn tennis court on Saturday afternoon were Mrs. R.H. Urquhart, Miss Urquhart and Miss Procunier.

Capt. Robertson of the steamer Bonnington, brought the record number of passengers for the season up the lake on Sunday.

Mrs. Hanbury and daughter of Victoria, formerly residents of Revelstoke, arrived in town on Sunday on a visit to Mrs. R. Laughton.

Mrs. Purvis and daughters left on Tuesday for the coast to visit Mrs. Purvis' sister, Mrs. Soloway for the remainder of the school vacation.

Miss Mary Paget is visiting her sister Mrs. Grubb at Golden. Her friend Miss Jenkino, who has been visiting for a month returned to Calgary.

Mr. Miller, public school inspector, returned on Sunday night from Vancouver, where he has been helping in the marking of the entrance examinations.

Rev. and Mrs. J.W. Stevenson are at Penticton for two weeks, visiting Mrs. Stevenson's people. From there they journey to Vancouver for a couple of weeks.

Mr. G. R. Lawrence was the guest of Mr. and Mrs. J. A. Bertois on Thursday at their beautiful summer cottage at Christina lake in the Grand Forks district.

Mrs. N. R. Brown returned on Sunday from a visit to Nelson, where she saw the Chahko Mika celebration. She was much impressed with the luxuriant roses, trim lawns and well kept gardens of Nelson.

Mr. Simpson an old Revelstoke boy was in the city on Sunday with the J.B.A.A. rowing club of which he is now a member. Mr. Simpson was formerly of the Canadian Pacific railway engineering staff here.

Mrs. C. B. Paget will not receive on Friday the 24th nor again until September.

Mrs. Murray Hume will not receive on Thursday the 23rd nor again until September.

Mrs. C.F. Lindmark returns today from Albert Canyon where she has been spending a few weeks, guest of Mrs. Carlson.

Mrs. Coulthard of Sixth street, has as visitor her two sisters the Misses Myrtle and Cora Trethewey of Vancouver. They are students at Braemar college for girls at Vancouver, and will spend the remainder of the holidays in Revelstoke.

The Misses Goldie, Margaret and Kathleen Fromey, daughters of E.C. Fromey, returned home on Saturday from New Westminster, where they have been attending St. Anns academy. They were visiting friends at New Westminster leaving the convent and at Vancouver en route.

Mrs. G. Ralph Lawrence entertained about 30 girls at a birthday party given in honor of her daughter, Marion. Games on the lawn were played until the supper hour, when the "real party" started, all sitting down to small tables spread with good things on the wide verandahs. After supper games and dancing were indulged in to the music of the Victrola.

The committee in charge of the flower booth at the summer festival of St. Peter's church, wish to thank Mr. Pottruff and Mr. Maley for their handsome donations of flowers, and all those who sent flowers, some of the donors literally stripping their gardens. The committee in charge were the same as advertised with the exception of the candy committee, Mrs. Middleton serving instead of Mrs. Morris, who was unable to attend.

Owing to the unsettled weather, the garden party of St. Peter's church was turned into a summer festival and held in the opera house. The committee in charge had everything beautifully arranged; the booths were artistically decorated and the whole thing was a brilliant success. The total receipts were $95, thirty-five dollars alone being made at the flower booth. This flower booth was a most beautiful sight. Two baskets of flowers, sweet peas and angels breath made by Mrs. H.N. Coursier, and picked from her own garden, were works of art and were very much admired. The Pierrots contributed largely to the enjoyment of the evening with their solos and choruses. There were eight of them dressed "niftily" in true pierrot fashion, namely the Misses Parker, Urquhart, Procunier and McCarter and Messrs. Allwood, Hawker, Allan and Boyle.
