FRANCE AND RUSSIA

EXTREME AFFECTION BETWEEN THE GALLIC COCK AND RUSSIAN BEAR.

They Intend to Dictate Their Will to Europe—In Spite of Triple Alliance or British Premier—Friendly Telegrams Exchanged by Carnot and the Czar—Jem Smith Shows Himself a Coward in the Ring—"Sheeny Al," the American "Alchemist," Sentenced.

ST. PETERSBURG, July 27.—The officers of the visiting French squadron were entertained at dinner last evening by the Grand Duke Alexis on board of the Russian flagship Asia. The greatest cordiality prevailed. Extremely friendly telegrams have been exchanged by the Czar and President Carnot since the visit of the former to the French fleet. The "Novoe Vremya" today declares that it is not for the Triple Alliance or for the British premier, but for France and Russia to dictate their will to Europe.

MORE FOOL THAN KNAVE.

At the general sessions of criminal court held at the Old Bailey today, Edward Pinter, alias "Sheeney Al," the American "alchemist," who is charged with having attempted to obtain $4,000 from Edwin Streeter of the Bond Street Jewelry Company, entered a plea of guilty and was sentenced to three years' imprisonment. Pinter asserted that he had discovered the "Philospher's Stone," and could convert a sovereign into a piece of gold three times its weight.

A CONTEMPTIBLE ANTAGONIST.

The boxing match tonight between Jem Smith and Ted Pritchard for $5,000 was easily won by Pritchard in ten minutes. Smith behaved in a cowardly manner. No surprise was shown at the result, which has been anticipated, Smith's backers having done all they could to put off the fight. It was not thought, however, that Smith would be beaten so easily.

CANADIAN NEWS.

Parents of a Girl Arrested for her Murder—The McGreevy Scandal.

TORONTO, Ont., July 27.—On July 16th the body of Sophia Handrick, aged 20, was found at the foot of the cellar stairs in her parents' house in the village of Fairbanks, a few miles from this city. There were suspicious looking wounds about her head, and the police have had the case under investigation. Today the parents of the girl were arrested, charged with her murder; they both assert their entire ignorance of how she met her death.

THEY WANT FREE SPEECH.

TORONTO, Ont., July 27.—Owing to the recent Sunday afternoon disturbance arising out of the too free manner in which some of the park preachers spoke of Catholics and Catholic churches, the city council last week passed a by-law imposing a penalty on any person who should in any public park, garden or place of exhibition in the city, publicly preach, lecture or declaim. Yesterday was the first Sunday since the passage of the bylaw, and 25,000 citizens assembled to see how it should be observed. Considerable rioting took place, but a strong force of police was on hand, and nothing serious occurred. Three men were arrested for throwing stones and one for malicious injury to property.

SIR DANIEL HONORED.

A cablegram received here today says the freedom of the city of Edinburgh is to be conferred upon Sir Daniel Wilson, president of the University of Toronto, and a fellow of numerous learned societies.

DEFENCE OF SIR HECTOR.

OTTAWA, July 27.—The citizen this morning vigorously takes to task the Independent-Conservative papers for demanding Sir Hector Langevin's dismissal. It says it has been an open secret for over two years that the Minister of Public Works was anxious to retire, that he has been far from enjoying that physical energy necessary to the discharge of his official duties and it may not be long ere he seeks that rest to which a lifetime of devotion to the public service justly entitles him. To argue, however, that his character should be lied away, his declining years embittered and a record of 33 years blighted without an opportunity being vouchsafed him of facing his accusers, is repugnant to every lover of fair play. If Langevin admitted his guilt and resigned, or if by resignation he gave his enemies even a colorable chance to assert that such an action proved his guilt, in what better position would the Conservative party be? Every reasonable man will say that until all the evidence is taken, until every explanation is heard, it would be gravely unjust to point to Langevin as convicted of malfeasance of office.

DROWNING ACCIDENTS.

WINNIPEG, Man., July 27.—Thomas Wilson was drowned at Fort Francis, Lake of the Woods, on Friday, through the upsetting of his boat. A little daughter of Colonel Boswell, of the Ninetieth Rifles, was drowned at Rat Portage today, where the family were camping.

HONORING THE HEROES.

NIAGARA FALLS, Ont., July 27.—The 75th anniversary of the battle of Lundy's Lane was observed on Saturday at Drummondville by the Lundy's Lane Historical Society. The graves of the fallen heroes, both Canadian and American, were beautifully decorated.

Sanitary Conditions.

The back premises of many residences in the city are in a very bad state. Garbage and house refuse of all kinds has been in many instances dumped into the alleys. Time and again the danger of this practice especially in hot weather, has been pointed out by eminent medical authorities, but seemingly without avail. Yesterday a large number of notifications from the city health department to clear away rubbish from the alleys and abate various nuisances were prepared, and will be served on the delinquents today. It is proposed to push the matter to the utmost reasonable extremity, and a general cleanup all over the city will be commenced.

Track Laying Commences.

Mr. A. C. Phillips made a start on the tramway tracklaying yesterday, commencing at the foot of Park Lane. The rails, ties and stringers were laid on the ground early yesterday morning. The work will be advanced briskly at the rate of half a mile a day inside and one mile a day outside the city limits. A strong force is engaged, most of them men of some experience at the work. A few overhead wire connections still remain to be made on the upper streets of the city, but this work will be accomplished in a few days. Great strides can be made during the present fine dry spell, and it will not be many weeks before the cars are rolling swiftly along the avenue.

CHASED HOME.

Behring Sea Sealers Returning From the North Discouraged.

Sealing is certainly stopped in the Behring Sea, says the Colonist, and all of the Victoria fleet is now on the way home. The entrance to Behring Sea is effectually blocked, and is now patrolled by five American and two British war vessels. The latter are the Nymph and Pheasant, and the United States vessels are the revenue cutters Bear, Rush and Corwin, and the gunboats Thetis and Mohican. The schooners E. B. Marvin and Walter L. Rich, arrived in Victoria on Saturday from Behring Sea. They, with 15 others, were caught like rats in a trap at Alitak Bay by the United States man-of-war Thetis and warned out of the sea under penalty of seizure and imprisonment. Some of the schooners intend to enter the sea on the Russian side and hunt seal there in defiance of the British and American authorities. Most of the sealers set sail for the south and home after the Thetis interviewed them. All the sealers are deeply disgusted with the turn affairs have taken.

N. W. and V. E. T. Co.

The annual general meeting of the Westminster and Vancouver Tramway Company, limited, was held at the secretary's office in this city yesterday, when the following officers were elected: D. Oppenheimer, president; B. Douglas, vice-president; S. T. Mackintosh, secretary-treasurer; E. A. Jenns, auditor; J. A. Forin, solicitor; Bank of British Columbia, bankers. The new board of directors elected are D. Oppenheimer, S. Oppenheimer, B. Douglas, H. V. Edmonds and S. T. Mackintosh.

Tents of the Rechabites.

The local Rechabite Tent, Columbia's First, held a highly successful and well attended lodge meeting in St. Leonard's Hall last night. Several new members were elected and some routine business transacted. The meeting night was changed to every second Tuesday, instead of Monday, and the next meeting will accordingly take place on Tuesday next, August 11th. It is satisfactory to note that this benevolent order is making rapid strides in New Westminster. The tent in operation here is the first one instituted in British Columbia, and already it is prospering so well that a second one may shortly be organized.

County Criminal Court.

In the County Criminal Court yesterday, before Judge Bole, the case of William Wheeler, for stealing a silver watch from James Meek, came up for hearing. Mr. Myers Gray appeared for the prisoner, and Mr. Gaynor for the prosecution. As no witnesses for the prosecution were present, a nolle prosequi was entered, and Wheeler was accordingly released. He will, however, be under police surveillance for some time.

The case of Capt. White, for embezzling $2,000 from the C. P. N. Company came up for election of trial. Mr. Magee appeared for the defence, and Messrs. Leamy and McPhillips for the prosecution. The prisoner elected to be tried at the fall assizes.

Registrar of Coquitlam.

Col. J. T. Scott, proprietor of the Hotel Caledonia, Port Moody, has just been notified by his honor, the Lieutenant-Governor, of his appointment as registrar for the new municipal district of Coquitlam. The genial colonel has been extensively congratulated on his appointment, and the feeling at Port Moody and throughout the municipality is that it is a case of "the right man in the right place." The colonel was interviewed by a member of THE LEDGER staff at Port Moody on Sunday evening, and he reported that the movers in the matter of creating the new municipality were much gratified with the happy issue of their labors. The colonel predicted a prosperous future for Coquitlam and the scribe joined him in honoring the prophecy in the whole-souled way they have out at the Port.

The Horticultural Exhibition.

The list of premiums offered by the British Columbia Horticultural Society and Fruit Growers' Association is just to hand. A perusal of the pamphlet shows that many very tempting prizes have been offered in the different grades. The range is comprehensive and deals with almost every kind of fruit, flower and vegetable grown in this province. There are special premiums for floral designs, that will give the many clever artists in this department full scope for the exercise of their gifts. Westminster has several noted floral designers, and no doubt they will receive due recognition of their merits at the Victoria exhibition, which takes place on Tuesday and Wednesday, August 11th and 12th. Entries close on Saturday, August 8th. Mr. A. H. B. Macgowan, of Vancouver, the indefatigable secretary, will be happy to supply information to all making enquiries regarding the show.

The Aquatic Athletes.

Peterson, says the Colonist of Sunday, is practising daily for his coming race with McLean, on the Fraser River, and is in great form. He has thoroughly adapted himself to his new boat, and now cuts through the water with it faster than many an acknowledged champion can in a shell. If the coming race is on the square, he should be the winner of it with ease, notwithstanding McLean's familiarity with the river. Peterson will leave here next Saturday, and will have a week—long enough—to learn the Fraser.

McLean is also practising steadily, and if ever oarsman was in first rate condition for a great struggle, he is. His friends repose in him the utmost confidence, and the sums being staked on McLean are a sure guaractee that he is in superb form and able to pull a winning race. McLean himself is perfectly easy in mind about the contest, while conceding that Peterson is undoubtedly a "good man."

Chilliwack's Fall Exhibition.

The Chilliwack Agricultural Society has just issued its prize list for the exhibition of 1891. The show takes place on Thursday and Friday, September 17 and 18. In the catalogue of prizes there are certainly inducements to tempt farmers of every class. As might be expected in a centre so famous for high-class live stock, the premiums offered in this department are very handsome. No grade of stock animal seems to have been forgotten, and the man who has only one first class ewe, ram or hog will have a chance to earn a reward for his good taste in supporting such high bred stock. Among the special prizes is one of $20 for "the best brass band, to play not less than six pieces." The Westminster military band will probably become cognisant of this little stake. The Chilliwackers, it is reported, are making special efforts to have the exhibition of 1891 the greatest in the history of the town. With their progressive spirit and well-known energy no fears for the result need be entertained.

CITY COUNCIL

PLENTY OF BUSINESS TRANSACTED IN A SHORT SESSION.

A New Proposal to Advertise the City—Damages for a Torn Dress—Ald. Scoullar Misnames His Worship—A Resolution to Telegraph Mr. Corbould re the Widening of Columbia Street—His Worship Implores Withdrawal of the Resolution—The Mover Refuses.

The Board of Aldermen met last night for the transaction of business. Present, Mayor Brown in the chair, Aldermen Sinclair, Scoullar, Ovens, Walker, Gifford, Keary, Kennedy.

COMMUNICATIONS.

Returns of the voting on the Lulu Island Lands Bylaw, the Land Sale Confirmation Bylaw, and the Street Improvement Debenture Bylaw, received and filed.

From Geo. W. Chadsey, stating that Prof. Jas. W. Robertson, Dairy Commissioner for the Dominion, wishes to deliver an address in the city on mixed farming and the best practices in dairying, and asking if the City Hall can be secured for that purpose on Wednesday evening, August 5th. Received and the clerk instructed to inform Mr. Chadsey that the hall is at his disposal.

From J. H. Turner, Minister of Finance, in regard to the application of the city for a refund of one half the amount of taxes collected in the city during the half year ended June 30, 1891, stating that the matter has been duly considered by the executive council, and with a view to meeting generally the several corporations affected by the recent change in the School Act, an equitable adjustment of this tax will be made on 31st December next, by a refund to each city mentioned in the act of one half of the respective amounts collected by the Government for the six months ended the 30th of June, less one half of the sum which may be collected by the respective corporations during the six months ending December 31, 1891, thereby entitling each city to one half of the total amount collected within its limits for the present calendar year.

Ald. Keary said the city was not liable for that tax until January 31, 1892.

Ald. Walker said the Government had made a similar mistake in this as in the appointment of school trustees. They were ahead of time. The act did not come into force for some time after the appointment, the same held with the tax. The collectors had been sent around long before they should. The Government had taken the wrong course in both cases. This was merely the poll tax, which the city was empowered to collect.

Ald. Sinclair thought the city would not lose anything on this tax if the city received half. The Government, it had been said, elected trustees who were not legal. They had been re-gazetted to make them legal in the people's minds. In their minds, the Government's, it was all right. [Laughter.] Received and filed.

From Duncan, Batchelor & Co., stating that they have purchased from Dr. Powell the City Hotel property, formerly owned by Mr. Joseph Wintemute. The City Hotel occupies two feet of lot 3, block 4, which but belongs to the city, and as the Hyack Hall also occupies two feet of lot 4, which belonged to Mr. Wintemute, it is understood by them that a mutual agreement has been entered into between Mr. Wintemute and the city to exchange two feet of these lots to avoid removing the buildings to their proper position. It will therefore be necessary for each party to convey two feet to each other. As the city has not the power to do so without the permission of the Dominion Government, and they are anxious to build on lot 4 next spring, they would like to have a proper title to the two feet of lot 3, which is exchanged for two feet of lot 4, and they ask to have such measures taken as are necessary to complete the transfer and exchange legally, and in such manner that their title to the two feet of lot 3 may be secure before they go to the expense of building on the said property. Received and referred to the Finance Committee with power to act.

From G. Wolfenden, calling attention to a defective box drain on the north side of Agnes street, opposite his house.

Ald. Scoullar rose and said,—I would say, your reverence—ah—I mean your worship [laughter]—

His Worship—You must have been in good company lately, Alderman Scoullar.

Ald. Scoullar—I have, your worship. [Laughter.] Continuing, he said that this running of house drainage into the streets was a dangerous thing and it was time it was looked to. He saw a great deal of it in walking about the city. It was a very serious question and affected the health of the city dangerously. The thing was differently managed in Vancouver. It would not cost a man more than $25 to build a suitable receptacle for this drainage.

Referred to the Health Committee to report on this particular case and the whole system of sewerage.

His Worship asked what the Water and Sewerage Committee was doing in the matter of sewerage.

Ald. Ovens said the people were saddled with quite enough at present and would not stand the expense of sewerage just now. He thought it would be a good thing to offer a premium for the best set of plans of sewerage for this city. He would work up this matter.

His Worship said it was well known that the average consumption per household per diem of well water was 10 gallons a day, but when water works were put in it rose to 50 and 60 gallons.

From T. Dadden, asking the Council to open up Walnut street. Referred to the Board of Works to report.

From H. T. Read & Co., asking leave to cut a trap door in the sidewalk in front of Tietjen's cigar store.

Ald. Ovens said the hotel was about to be moved and there was no way of getting into the cellar, and the applicants should have what they wanted. Referred to the Board of Works with power to act.

From Geo. C. McKeen, protesting against dangerous trees near his house on Regina street, and asking that they be removed.

Ald. Scoullar thought that the best way was to notify all owners of lots to have those trees removed.

It was explained that the trees complained of in this instance were on a street. Referred to the Board of Works with power to act.

From Thomas Haddon, asking leave to lay building material on Twelfth street. Granted.

From J. C. Robertson and eight others, asking that Princess street be opened up and graded from Fourth street, east.

Ald. Scoullar said the street was completed, and a very fine street, too. The street runs from Sixth to Eighth. Referred to the Board of Works to report.

From William McLean, protesting against members of the police force trying to raise a row on the street, and stating that he is ready to prove that such is the case. Received and filed.

From E. A. Jenns, claiming $300 damages to lots 26 and 27, block 32, by reason of the lowering of the grade of Agnes street in 1889, and requesting that the Council will appoint a commission to adjudicate upon the same. Referred to the Finance Committee.

From E. A. Jenns in re McNamara, stating that Mr. James McNamara has appointed Mr. George A. Kelly as his arbitrator in reference to the damage done to lot 4, block 7, and requesting that the city arbitrators be appointed at once. Referred to the Finance Committee.

Ald. Ovens said that he hoped every street would be stopped until the consent of the citizens is first obtained. Several had been stopped already.

The city clerk reported that he had been served with a writ re the case of Mrs. Black, whose lot had been cut down. He handed the writ over to the city solicitor.

His worship said that no steps would be taken under the writ until certain other steps had been taken.

Ald. Walker reported that a very fair offer had been made to Mrs. Brighouse's lawyer and it was refused.

Ald. Keary said this was rather news to the council. The matter should have been made known to the council.

Ald. Scoullar said that as one of the committee he knew that many offers had been made to Mrs. Brighouse, but they had been refused.

From E. A. Jenns, in behalf of Mr. L. P. Eckstein, requesting payment of $20 for loss of a dress belonging to Mrs. Eckstein, torn and destroyed by reason of the obstructions placed on Agnes street near the Baptist Church, and asking council to kindly let him have a cheque on or before the 31st inst.

Ald. Walker said he had heard that Mr. and Mrs. Eckstein had crossed over to see the improvements going on at the Baptist Church, and in doing so Mrs. Eckstein's dress caught on some lumber and was torn. He understood that Mr. Eckstein had some difficulty in placing the person who was liable, and this was a round about way of getting at that person. He (Ald. Walker) could not see how the city was liable for damages in this case.

Ald. Sinclair drew a black picture of how the wicked contractors were taking liberties with the sidewalk to the Baptist Church.

Ald. Kennedy asked if the police had instructions to act in this matter.

Ald. Keary said they had most distinct orders, but he was sorry to see that they did not act up to their duty.

His worship believed that the contractors should have a part of the street including the sidewalk and lay a sidewalk outside the building material. Received and filed.

Ald. Scoullar made a verbal application for Messrs. Turnbull & Co. to lay building material on Columbia, McKenzie and Front streets for the Dupont block. He believed that the best way would be to close up McKenzie street altogether and lay building material there. The sidewalk could be left open for passenger traffic. The building was to be a very large one.

Ald. Kennedy strenuously objected to closing McKenzie street, as it was a great public convenience. He could not see how it was that contractors in this city needed so much room. Many great buildings in Montreal stood on streets not half the width of some here. The city contractors would take a 50-acre field if they could get it.

Ald. Scoullar said he had merely suggested McKenzie street being closed.

Ald. Sinclair said that one-third of a street generally meant two-thirds. Permission to lay building material for the Dupont block was granted under the usual conditions.

From Gilley Bros., enclosing bill from Canadian Pacific Navigation Company for $75.67 for damage done to steamer William Irving by a scow load of macadam, which broke away while being towed down by them, and protesting against their being held responsible for this loss, as the landing has never been suitable and very awkward since the high water. Referred to the Board of Works to report.

From Messrs. Wm. Baillie & Co., stating that it is their intention to issue a special illustrated edition of THE LEDGER during the month of August, containing an exhaustive letterpress description of the city and district, and statistics of its industries, shipping, fishing, milling, etc., and suggesting that the purchase and distribution on the part of the city of a large number of copies of this edition at the great fairs where the British Columbia exhibit will be on view, would be an extremely good advertisement for the city, and would further enable the publishers to carry out more fully the object they have in view, and stating that the papers would be furnished at cost price, which in no instance would exceed 2 cents per copy; further stating that they will be pleased to meet a committee of the Council to explain the scheme more fully. Received. Ald. Walker thought the matter should be referred to some sub committe to deal with. There was scarcely enough data supplied in the communication to go on. The city was spending a good deal now one way and another. He did not believe in the scheme of advertising in directories; it was money thrown away. The place to spend the money was in the city, as was proposed in the communication. He moved it be referred to the Advertising Committee.

Alderman Keary moved in amendment that it be referred to the Finance Committee. The amendment carried.

REPORTS.

The Finance Committe reported recommending that the request of the Hyack Fire Company, dated the 20th of July, be granted, subject to conditions stated in their letter. Also that the letter of the 20th instant of Messrs. Forin and Morrison, re claim for damage by A. E. Clarke, be referred to the city solicitors. Adopted.

The Board of Works reported recommending that the petition of Robert Cross, et al, for a sidewalk on Fourth Avenue be laid over for the present. That the offer of the Mechanics' Mill Co., for filling London street from Third Avenue to the hill be accepted and the company be notified to proceed with the work at once; that the petition of Colin McGregor, et al, for sidewalk on Third Avenue be granted; that the petition of Alex Johnston for opening up Augusta street be not allowed; that the petition of S. Maciure for drain on Wellington street be granted; that the petition of J. H. Vidal, et al, for a sidewalk be granted; that the petition of Jas. Best, et al, for a sidewalk on east Columbia street from Brunette street to Keary street be granted; that the petition of Geo. H. Grant, et al, for a sidewalk on the west side of Fourth street be not granted, but that a crossing be laid on Fifth avenue. Re the petition of G. A. Kelly for the removal of logs from his lot, that the contractor be notified to have the same removed at once. Re petition of Jno. Patterson for removal of a dangerous tree, that the city clerk be instructed to notify the owner of the lot to remove the tree at once; that the petition of Colin McGregor, et al, for grading and laying sidewalk on Sixth Avenue be laid over for the present. The following streets have been graded: Brunette street, from Columbia street to Sherbrooke street, graded full width and a three plank sidewalk laid on the north side; Keary street, graded full width with a three plank sidewalk on both

CONCLUDED ON THIRD PAGE

This Card is Worth $6.00 to You

Cut it out and bring it to GORDON & CO. when you want to purchase Boots, Shoes, etc., that we may punch from it the amount you buy. When your cash purchases amount to $25, we will make you a present of one of the following costly volumes: "Webster's Encyclopedia of Useful Information," "Webster's Unabridged Dictionary," or "Wood's Natural History." These volumes are splendidly printed and bound and profusely illustrated, with fine woodcuts. Call at the store and inspect them.

NOTES AND COMMENTS.

The great success which has in past years attended the annual agricultural and industrial exhibition in this city has every promise of being repeated this fall. The advantages of this show to the city and district are very great. During the few days of the fair the city is thronged with visitors, many of whom come from distant parts of the world. These latter, for the most part, only happen in at the fair while travelling through the country. But they cannot fail to get their minds fully enlightened with regard to the immense productiveness of the soil, the variety and extent of our native industries, the degree of refinement and culture that is steadily growing in this far off portion of the globe, and the impressions they thus obtain are carried away with them to spread the fame and enhance the prosperity of our highly favored Province. Fifty to one that this intensely object lesson could not be maintained the whole year round, instead of only for the few days of the fair. September is unfortunately not the month when foreign visitors most abound in the province, and the consideration of these matters has led some citizens into an enquiry whether it would not be possible to maintain some sort of a permanent exhibition of the products of the Province in this city. The spacious exhibition building in Queen's Park remains practically unused and vacant except during the fair week in September, and it would afford the accommodation for a permanent exhibit. There are many products of the farm that could stand from one year's end to the other without much deterioration, such as grain, cheeses, grasses, preserved fruit, etc., and these being supplemented with the articles (raw materials) of Provincial manufacture and specimens of the mines and forests of the country, would make up a very interesting and instructive show of a prominent character. Besides these, a wing of the building might be devoted to the purposes of a museum wherein specimens of the great variety of animal and insect life on the Pacific Coast might be exposed to the view of the curious and the investigation of the learned and after progress had been made in this direction, or contemporaneous with it, why might not the nucleus of a "zoo" and aviaries be introduced? All these things are not necessarily very expensive, and besides being a great attraction to the fair, they would be a constant and most valuable advertisement of the country. Visitors to the city at all periods of the year would visit and inspect them for the purpose of the information they would convey, and being the only exhibition of the kind in the Province, New Westminster and the surrounding district would be associated with it in the visitors' minds as the centre of the productive portion of the coast country of British Columbia, which undoubtedly it is.

The sewerage question was briefly discussed at the City Council last night, and as readers will learn by the report which we publish in another column, the discussion gave little hope of any earnest action being taken in the matter for some time to come. The reception of the street improvement scheme now the other day indicates that the ratepayers are not in any over favorable humor at present to increase their burdens. The process of keeping the rate of taxation down by increasing the assessed value of real estate has reached its limit, for the reason that this year the assessment was made on a basis of the full value. The increase of assessment, therefore, that will take place in succeeding years will depend on the increased market value of real estate. That there will be expansion in this direction is not to be doubted, but we do not think it wise to count too much on that contingency. In forecasting the financial capabilities of a corporation such as New Westminster, speculation on the probabilities or possibilities of the future should not be given too free a rein. The conditions that prevail now should be made the substantial basis of the calculations. A system of sewers in this city is a necessity, and it can be best obtained by entering upon a policy of retrenchment in expenditures on other works, and the most careful trimming of those expenditures which are controllable. We do not advocate a policy of niggardliness in necessary and beneficial services, for that is after the most mistaken economy. The auditor's report for the present year, however, will show a pretty big sum expended on account of errors that have been made and executive illegalities that had to be straightened out by very expensive processes before the legislature and the courts. A "brilliant" policy of administration, loudly applauded on the moment, is not unusually followed by a very murky reaction when the time to settle for it comes around. But the conditions in this city are still very hopeful, and it will be satisfactory to see the Council take up the sewerage undertaking in a vigorously businesslike manner. Ald. OVENS' proposal last night to secure plans by means of a competition among engineers for the best system, is good. When these plans, and the estimates of cost, are before the Council, there will be the necessary material on which to figure out the feasibility of undertaking the work in the immediate future. One most important thing is to avoid damaging the credit of the city by piling up the bonded debt during the construction of some extensive public works, which will, after they come into operation, be self-sustaining, but which, in the meantime, will form a very considerable drain on the current revenues of the city. To do a thing which will damage the city's credit in the money market, would occasion the destructive process of burning the candle at both ends. The city is thoroughly capable of handling the undertakings it now has in hand, and the important question to be settled regarding the sewer system is whether it should be undertaken forthwith or postponed until [illegible] will have been completed and paying its own way by the revenues from the service?

The following is a pretty strong denunciation of Sir Hector Langevin's department, coming as it does from the Montreal Journal of Commerce, a paper that has heretofore given a very live support to the Conservative Government:

"They (the Public Works people) can take their choice of a disagreeable dilemma. Either there was an extraordinary deficiency of engineering foresight and skill in drawing the specifications, or they were engaged to suit the contractors. The evidence goes far to establish that the specifications for the sewer works were manipulated by the contractors with marvellous freedom. The enormous profits made on the public works done by the illustrious firm that secured such changes in specifications prove also one of two or three things. Either the officials of the department were grossly, almost incredibly, ignorant of the cost of the works for which they let contracts, or the contractors stood in with each other, preventing open bidding, or the department let contracts at a rate to yield extraordinarily inordinate profits to one the net yield was over 40 per cent! That few persons should each have reaped a fortune out of a public work, the total cost of which was under $700,000, is a most scandalous reflection on the business management of the Public Works Department. It is especially damaging when taken in connection with Mr. McGreevy's intimacy with its private affairs, and the Engineer's reception of presents from the contractors."

TO CONTRACTORS.

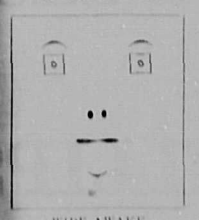
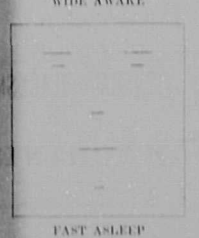
TWO CLASSES OF BUSINESS MEN.



WIDE AWAKE



FAST ASLEEP

THE WIDE AWAKE BUSINESS MAN pleases the wide awake customer of the other kind say nothing. The best thing about money is the fun you can have spending it. You'll get more solid enjoyment out of what you spend at the **BONANZA GRILL ROOM** than at any similar establishment in the city. Seasonable delicacies. Meals from 25 cents. Everything of the finest—even the price—and that is the small end of nothing whittled down to a fine point.

Foundry on Front Street, near depot.

A. WHITLOCK, Proprietor.

The Ledger.

CITY COUNCIL.

CONCLUDED FROM FIRST PAGE.

sides from Brunette street to Columbia street, and on one side from Columbia street to Richmond street; Sherbrooke street, cleared, and a 25 foot street made from Columbia street to Eighth avenue; Mary street graded to city limits; Princess street, graded full length; Ash street, graded full length; Alexander street, graded with sidewalk and gutters laid; Melnnes and Holbrook streets, graded full length; Royal avenue, graded between John and Mary streets; Carnarvon street, graded and sidewalk laid between Mary and Clement streets; Albert Crescent, graded full width. Further reporting that they have employed men to clear stones and rubbish off all streets; that the C. P. R. Co. be notified to have plank placed between the rails and Columbia street below station; and recommend that Belleville street be graded between Ninth and Tenth streets; and that the city clerk be instructed to notify Jno. Patterson to commence his work on Sixth, Seventh and Eighth avenues at once, as after the first of August if the said work is not under way by that date his securities will be called upon to finish the work.

Ald. Owen asked when the work is going to be commenced on Douglas street.

Ald. Scoullar said the engineer was about to proceed with the grades; this street would not be neglected.

Ald. Owen said it had been pretty much so in the past.

BYLAWS.

The Lulu Island Lands, Land Sales Confirmation and Street Debenture bylaws were read a third time and passed.

Council went into committee of the whole on the Vehicle Bylaw, Ald. Sinclair in the chair.

A lengthy discussion took place on the question of tariff. No one seemed to have any definite plan to submit.

His worship said it was scarcely the thing for hackmen to charge exactly the same rate from the station to the hotels and to the city limits.

Ald. Scoullar thought fifty cents little enough to charge, because the hackmen lost time waiting at the stations for passengers.

His worship contended that fifty cents from the station or wharf to the hotels was an extortion and most people thought so. He related several instances where he himself had been victimized in Victoria, in being drawn from the boat landing to the Dvard Hotel.

The chairman referred to the gurneys of Vancouver and thought their charges about right.

Committee rose and reported progress and asked leave to sit again.

A committee of three was appointed to enquire into the question of charges. The committee is composed of Ald. Scoullar, Walker and Kennedy.

NEW BUSINESS.

Moved by Ald. Walker, seconded by Ald. Owen, that the city treasurer and city engineer be instructed to report to the Council at the next meeting the expenditure already made and to which the Council is committed for this year, under the superintendence of the Board of Works, showing the different wards benefited, and also the items for which appropriations have been voted. Carried.

Ald. Walker explained that the bylaw had been introduced on the plan of giving each ward an equal proportion in the expenditure. Some of the wards have already had $5,000 of the $25,000 then voted, spent upon them, and could not of course, expect any more. He then read a statement of expenditures up to the end of June supplied to him by the city treasurer.

Ald. Keary took exception to the sum mentioned by Ald. Walker as being spent in the Derby wards.

Ald. Walker explained that he had spoken in reference to the $25,000 bylaw.

Ald. Scoullar drew attention to the Sapperton ward upon which a necessarily large expenditure had to be made when the ward was taken into the city. This should not prevent the ward receiving more expenditures. He moved that the chairmen of the various wards send in a report estimate of what streets they want done, to the board of works, before next Monday. By this time the treasurer's report would be in and the matter could be expeditiously and intelligently dealt with.

Ald. Scoullar said that thinly settled wards could not expect to receive as much consideration in matters of this kind as the more central and populous wards.

Moved by Ald. Keary and Ald. Kennedy, that a telegram be sent to H. E. Corbould, M. P., asking him to press upon the government the necessity of having a sum placed in the estimates for the widening of Columbia street opposite the Penitentiary Reserve if deemed advisable by the Mayor and Board of Works.

His worship asked Ald. Keary to withdraw this resolution. He had not been able to speak to Ald. Keary before the meeting or he never would have brought that resolution in. He could assure Ald. Keary that what was now requested of him was all right.

Ald. Keary rose with a puzzled and dubious expression of countenance and said he scarcely grasped his worship's idea. It was perfectly patent that nothing unreasonable was asked in that resolution.

His worship replied that if Ald. Keary would please withdraw that resolution he (the mayor) would send Mr. Corbould a telegram if Ald. Keary liked. He (his worship) had good reasons for asking. It was sometimes not advisable to be poking up members; it never did any good.

Ald. Scoullar—Don't do any good? I think it does and I'd poke 'em up, and with a prodding long stick, too.

His worship—They might poke back.

Ald. Scoullar—That's all right; some of those members need stirring up and it's only right they should get it. That resolution is perfectly in order and it should go as it is.

Ald. Keary said that as his worship had offered no valid reason why the resolution should not be put, he must respectfully beg to decline his worship's invitation to withdraw it.

The resolution was then put and carried.

Ald. Walker asked what had been done regarding the electric light scale of charges. He objected to the way in which the matter had been conducted.

It was explained that the electric light business would be brought up for discussion and settlement next Monday evening.

QUEEN'S PARK PUMP.

Ald. Scoullar asked that the chairman of the Park Committee have the pump at the Park repaired.

Ald. Sinclair said the athletes who congregate there had used so much water that the supply had temporarily given out. He promised to have the matter attended to at once.

SUNDAY FERRY TRIPS.

Ald. Kennedy asked for information about the ferry. At present the boat was run on Sundays at such hours that people who came over to attend church in the morning could not get back until 9 o'clock in the evening.

Ald. Walker said the whole matter had been carefully considered and the present times were thought the best to suit the greatest number; two trips in the morning and two at night. There had been a considerable amount of protesting. The men on the boat had also to be considered and the hours at which the ferry ran on Sundays gave them a fair day's rest.

DANGEROUS TREES.

Ald. Scoullar recommended that a general bylaw be drawn up compelling owners to cut down dangerous trees on their lots. Many trees were now standing on these private lots that were a menace to public safety.

His worship thought it would cost about as much to bring in a bylaw as it would to send round a gang to cut down all the trees.

Council then adjourned until next Monday night at 8 o'clock.

GAS IN THE MINE.

An Explosion in the Wellington Colliery Causes Great Alarm

News was received in Nanaimo on Saturday morning that an explosion had taken place at the East Wellington colliery, No. 2 shaft. At first the wildest reports got into circulation from the fact that a report that three men had been burned got changed to a statement that only three men had been got out of the mine. It was known that about forty men were engaged on the morning shift in the No. 1 and 2 shafts of the colliery, hence the excitement became intense. As a great many men have families and relatives in Nanaimo, quite a number went to the scene of the accident. The telephone reports, however, soon contradicted the statements, and it was found that an explosion of gas had taken place in the [illegible] of the Wellington colliery, and that Jas. Bradley, Wm. Griffiths and Archibald McBrown were burned with gas, the two first named seriously, the latter not so badly. Bradley and Griffiths were taken to the Nanaimo hospital, where their injuries were treated. A representative of the Free Press went to the scene of the accident and found little excitement round the village and hardly any one at the top of the two pits where the accident occurred. Soon after arriving the engine bell rang five times, the signal that the men were coming up, and shortly Coltoner appeared. He being interviewed said that between thirty and forty men were down and after the explosion all except the three named came out unharmed and the injured men were burned, he didn't know how badly.

The Columbia Street Water Tank.

[illegible]
[illegible]
It adds a peculiar charm to our principal highway,
Its architectural beauty is a marvel to behold,
And its paintless lineaments fill us with respect untold.
There's not a rake in all the town, unless he be a crank,
Who can pick a flaw or find a fault with Carter water tank.
[illegible]
It stands alone, a monument of abhorrence [illegible]
A glorious pillar of the views of guileless [illegible]
Let the fire department quit sooner at it if they will,
The water tank is here to stay, its mission to fulfill;
Although it may be somewhat crude and inoffensive comments upon,
It stands today the city's pride—Dave Curtis' water tank.

PEARL RILEY.

Westminster, July 27, 1891.

Hotel Arrivals

At the Hotel Dominion—J. Bannerman, Ranching; William Taylor, George C. Bodge, Vancouver; S. H. Webb, Tokio, Japan.

EXCURSION

TO

Ladner's Landing.

Under the auspices of Royal City Lodge, No. 17.

BY STEAMER DELAWARE,

TUESDAY, AUG. 4.

Steamer will leave Mathers & Milligan's wharf at 1 o'clock, p. m. and will meet an excursion of the Vancouver Lodges at the Landing, where a programme of athletic sports and other amusements will be carried out.

Tickets—Gentlemen $1.00, Ladies 50 cents. Children under 12 years 25 cents.

Port Simpson has adjacent to it the largest salmon canneries on the coast, and from its nearness to the seal fisheries it must also become the headquarters of the seal fishing industry and the large fleets therein engaged. It has back of it millions of acres of rich prairie land, which in time will be peopled with ranchers and farmers, who will contribute to the building up of a large city.

PORT SIMPSON

The Coming City of the North Pacific, is Now on the Market and offers one of the Best Speculations of the Day.

Port Simpson affords the same opportunity to investors today that Vancouver did ten years ago. Ten years ago lots in Vancouver that are selling for $2,000 could have been purchased for $200 and there was not so much certainty of a railroad to Vancouver at that date as there is today of a railroad to Port Simpson.

Nature has determined Port Simpson for a Metropolis. It possesses the only harbor on the North Pacific Coast, and that harbor is pronounced by all mariners (including a British Admiral) to be the finest and safest in the world.

Port Simpson is five hundred miles nearer to Japan than are Vancouver and Victoria, and with the completion of the railway from Port Simpson to Port Churchill, on Hudson's Bay—only a question of time—it will be on the shortest route between England and the Orient, and must command a large share of the trade of the Orient.

It is the only place on the North Pacific Coast that can be reached by the railways that are pushing northwestward from Edmonton and Prince Albert, and without any doubt will be the terminus of another transcontinental railway within a few years.

The property now offered to the public must, by reason of its location—which stands to the surrounding lands just the same as the peninsula on which Vancouver stands—be the site of the future city.

On Queen Charlotte Islands—situated in the Pacific Ocean, nearly opposite Port Simpson—there is an unlimited supply of first-class coal, and it is also thought there is a good supply of coal adjacent to the Port on Work Channel, which is to Port Simpson what Barrard-Inlet is to Vancouver.

The Hudson's Bay Co. has had a trading post at Port Simpson for years, and it is the headquarters on the North Pacific Coast for the large and important trade of that rich and powerful company. The attention of the public is called to the fact that, as a rule, wherever the Hudson's Bay Co. has planted its trading posts, there have grown up important cities. Fort William, Winnipeg, Edmonton and Victoria are illustrations of this fact.

C. R. Tuttle, author of "Our Northland," published recently, concludes his interesting work as follows: "And in respect of transcontinental transport or travel from the United Kingdom to the far east, the advantages of the Hudson's Bay route, in connection with a railroad from Churchill to Port Simpson, will not only afford a safe national route, but so greatly minimize time and distance, that with its establishment Canada will become one of the most important parts of the British nation, and absolutely indispensable to the Mother Country. In view of these things, one may reasonably hope that England will eventually aid the Dominion in the construction of the Hudson's Bay railway. The importance of Canada to the parent country is so great that, in a few years at most, one may expect to see a disposition manifested on the part of the latter for closer federal relations. With this will surely come the means of a larger development of Canadian resources, the construction of railways in connection with Hudson's Bay, and the establishment of an extensive international commerce through channels on Canadian latitudes, and consequent national prosperity. Such are the prospects of Our North Land."

NEWS OF THE CITY.

LOCAL BREVITIES.

Picture frames and mouldings in great variety at Thompson's studio.

The crops in the vicinity of Wellington are reported in splendid condition.

Some fine examples of architectural drawing by local linners will be on view at the fall exhibition.

The big bush fire over the river is now burning at the extreme end of Mud Bay, but has abated considerably.

The heat has considerably abated, and yesterday was a comparatively cool day. The thermometer registered 81.

Six cents per lb. cash, paid for any quantity of good cherries at McDonald Bros.

Some alterations that will considerably increase its capacity are being carried out in Cunningham Bros.' store.

Considerable excitement prevails at Victoria over the action of the government in withdrawing the Port Simpson property.

The new steamer Victorian will arrive in Victoria harbor this morning all decked with bunting in honor of her first trip.

The Gladys and the Delaware went up river yesterday, with passengers and general merchandise. They will return this afternoon.

Refrigerators, all sizes, at McLennan & McFeely's, Vancouver. Delivery free. Telephone 41.

The salmon catch is still very poor, and it is currently said that all the canneries may shut down a few weeks earlier than usual.

The city jewellers have all decided to close their stores at 8 each evening, except Saturday, when they will reopen at 8, after the half holiday.

A fine string of fish, comprising 21 trout, ranging from half a pound up to seven pounds weight, were brought in from Pitt River on Sunday evening.

The sidewalk around the postoffice block is still a subject of much satirical comment, and apostrophes levelled at the munificient government responsible for the same.

When you want a first-class hack call up the Crown Stables, telephone No. 45.

A prominent dealer in sporting goods reports business rushing. The estimable gentleman aforesaid took in 75 cents yesterday, and did not give a cent's worth of credit.

The services on Sunday at some of the city tabernacles were crowded in spite of the hot weather. The rustling of fans formed a somewhat pleasant accompaniment to the services.

The Sons of England Benevolent Society appears to be making rapid progress in this city. New members are added at every meeting, and the order generally is in a flourishing condition.

The flower-beds at the City Hall are now in nice condition for next year's garden operations. There will be some flowers there after a while perhaps. One cannot almost nearly always sometimes tell.

Hickingbottom Brothers, at Gilley Bros.' stables, have a full supply of veterinary medicines.

A large number of commercial travellers, many of them representing the largest eastern houses, are visiting the city at present. No less than six were registered in one day at a leading city hotel.

Seven sailing boats in a string were seen between Marean's ranch and Birtel's cannery yesterday afternoon. About a dozen more were scattered over the rest of the river visible from the city.

The details of the front of the projected Masonic block show the building to be of very handsome and elaborate design, one that will probably be superior in this respect to anything yet built in Westminster.

John Martin, of Spokane Falls, left the city. He is a brother of the Messrs. James and William Martin, lately of Chilliwack, and is interested in some Washington mines. He will go through to Nelson in a few days.

Refrigerators, all sizes, at McLennan & McFeely's, Vancouver. Delivery free. Telephone 41.

A laboring man who was under the influence of the worst kind of bad whiskey made himself particularly objectionable on Columbia street yesterday afternoon, and seriously alarmed and annoyed a number of ladies.

The lacrosse match which was to have been played between Westminster and Victoria on August 8th has been postponed until August 15th on account of the protested match with Vancouver taking place here on the 8th.

The new school house for Coquitlam municipality is to be erected at Junction City at an early date. The plans and specifications are now in hand, and it is understood that a very handsome brick and stone edifice will be built at Wyeville.

James Ryan, aged 28, a native of Nova Scotia, died on Saturday at the Nanaimo hospital from the effects of the severe burns he suffered from the explosion of 11 pounds of powder while cleaning fish at Wellington some few days ago.

R. Dickinson & Co., the butchers you will find on Front street, and prepared to fill all orders as in the past.

The race to the main road of the Lanarkshire set for yesterday morning did not come off. It is not known which man, or if both of them "cooked." However, it appears that the two parties concerned were only joking for a little notoriety.

The charge sheet at the police court yesterday morning was free from any stain of crime. Even the regular Monday morning customers forgot to show up, and the court accordingly adjourned until such time as business might be forthcoming.

John Wolfenden of Vancouver yesterday swore out a warrant against J. G. Beatty and J. S. Anderson for threatening to charge him (complainant) with having committed a crime, but the warrants were afterwards withdrawn by the complainant.

The party of Westminster men on Burrard Inlet appear to be having a great time according to letters which reached the city yesterday. Their adventures so far have been a compound of high fire, smoke, wet, scramble, scare and mosquitoes, especially the last.

Notice—William Johnston has removed his stock of Boots and Shoes to the Public Library building.

On Thursday afternoon, at three o'clock, the thermometer at Duncan's, Vancouver Island, registered 101 in the shade. This is said to be the highest temperature ever attained in British Columbia. It was followed in the evening by a heavy thunder storm.

A gang of men was set to work yesterday to clear the tramway line in the city. The steam roller and the traffic of several months had packed the earth and gravel very hard on the rails, and made the pick and shovel work quite heavy. Once cleared the track will be kept clear until the first car is run over it some time before September 1st.

It is learned that the Agricultural Association have not yet decided what action they will take in reference to the petition presented some time ago by the florists of the district. One of the officers interviewed one of those who signed, but could learn nothing satisfactory.

A colored ostler in Victoria stabbed a prize fighter on the head on Saturday night. The "slugger" struck the negro without provocation, and was in return carved with a clasp knife. The wound is slight. The man of color and choler is now in durance vile.

Guy W. Walker, Merchant Tailor, having dissolved with Mr. W. F. Beggs, is now at his old stand, 26 McKenzie Street. Clothes cleaned, repaired and dyed as usual. The store will be closed from 1 to 6 on Saturday.

Mrs. Studden, a large taxpayer of Vancouver, has caused a writ to be issued to restrain the Vancouver Corporation from paying any further sums to Police Magistrate Hallett; also against the Mayor and Aldermen as individuals for a refund to the city of $162.35 alleged to have been illegally paid.

It leaked out last night through two or three white men who asserted that they were "in the know," that another regularly organised rat fight will take place in Chinatown some time this week. No complimentary tickets will be sent the police. They are welcome to go see the fun if they can find the place.

The Hyack hose reel team will be sent to Victoria to take part in the firemen's tournament soon to be held there. The team held a practise last night, and will practise every night hereafter to get into condition for the approaching contest. They are confident of bringing home something in the shape of prizes.

The Vancouver Telegram breaks out again with one of its delicious stories of Paul Pry cleverness, and this time tells a disgusting tale of how three young men followed a young couple in Vancouver the other night and saw them misbehave themselves. According to the Telegram, Vancouver is a modern Sodom.

Wanted—A second-hand buggy, any kind. Apply to D., at McLaren & Co's.

The first electric motor boat on the Pacific coast will reach Victoria on a sailing vessel from England in September. It was built on the Thames for Pilots Thompson and James Ramsay, Captain Buckman and Captain Newby, of Victoria. It is 32 feet long, 8 feet beam and 3 feet depth of hold and is expected to run fourteen miles an hour.

The Princess Louise arrived from the north in Victoria on Saturday morning. She brought 1,000 cases of salmon for Messrs. Bell-Irving, Patterson & Co. Every salmon can on the Skeena River has been filled, so that all the canners can do is to sit and look at the salmon running down the river in swarms. On the Naas it is just the opposite, salmon being very scarce. The Aver Bay canneries have the same complaint.

Ald. Owens put an advertisement in the want columns of THE LEDGER the other day for a lathe machinist. As a result he informs us that he has been perfectly deluged with applications. Five came by wire, being from Vancouver 2, from Seattle 2, and from Victoria 1. This indicates not only that there are lots of idle machinists, but that THE LEDGER reaches the very people that general advertisers are after.

I have just received a nice stock of Gent's, Ladies', Misses' and Children's boots, shoes and slippers which I am prepared to furnish at prices lower than the lowest. James Bousseau, Front Street, near Bank B. C.

The process of unloading the Lanark's cargo of her rail cargo is watched with breathless interest all day by a large crowd of gentlemen whose business engagements are not pressing. A small tram line has been constructed from the edge of the dock round to the spot where the irons is being piled and the metals are taken there on a truly which carries a large load at a time. The Lanarkshire's decks were crowded all Sunday with sightseers who had never seen a ship or a sailor before, and were much pleased to make their acquaintance for the first time.

After the Harvest.

The day of the sleek and excellent blackberry is almost over for this year. The ladies of the Siwash nation have reaped a tip-top harvest of miscellaneous raiment, and it is a common sight to see them at their tents and cottages sorting out the grades and qualities of the vestments. It is somewhat like a little Petticoat Lane on a sunny morning, only one does not hear the greasy syllables of Jewry making unctuous the morning air—"Py crashious goatness, vat a shplendeet pair of pants, don't it; for two dollar and a half; bin beckets, und lined mit der bestest cotton. Crate Fadder Apraham, Jakey, mark dose bants oop en dollar und schwanzig cents." Instead of refined sentiments like those the click, click of the Siwash bourse appraises the value of the goods, and the happy papooses play hide-and-seek under and over piles of all sorts and conditions of garments. The season's fashion plates for Siwash society will be issued shortly, it is understood. It is said the Siwash beau monde, especially the Ward McAllisters, are to bring out some sweet things in styles this year. One spoken of for day wear is a pair of check trousers, white vest with stag horn buttons, swallow tail coat, boiled shirt, Prince George collar, explosive necktie (ten brilliant colors all going off at once) single barrelled eye-glass, crush hat, especially the crush; red cotton handkerchief, Waterbury chronometer, with section of silver or nickel logging chain; nice hickory club with knots, two or three brass rings with real glass diamonds, and as Sol Smith Russell says, "There you are, there you are, there you are!"

THE LIBRARY

TO THE PUBLIC: It is the belief that many citizens are desirous of making contributions of books to the Public Library, the Commissioners beg formally to request that any who desire to contribute should send a list of such books as they intend donating to the undersigned, who will have an officer of the library call for them.

It would be a great convenience if these lists were sent in at once, for until they are received the work of making a selection of new books cannot well be concluded, or an order given to the booksellers for fear of duplication.

A considerable number of volumes taken out of the old library by citizens have not been returned. The Commissioners request that all parties holding such books return them at once to the new library so that they may be catalogued. I have the honor, etc.,

AULAY MORRISON,
Secretary Library Commissioners.

THOMAS ALVA EDISON.

Description of His Latest and Quaintest Invention.

The name of Thomas Alva Edison is a household word throughout the whole civilized world and the story of his life is familiar to all. But his inventive genius is so prolific that it is difficult to keep pace with it. The latest device of his is called the kinetograph. It is an instrument that in combination with the phonograph, enables the exact reproduction on a miniature scale at present of

Thomas A. Edison

the movements of any speaker, singer or actor, the actual tone of the voice being heard. By its means the representation of any theatrical performance, meeting, scene, opera, horse race, etc., can be exhibited. It records and reproduces motion as the phonograph records and reproduces sound. It has already been exhibited in the presence of some two hundred persons. In Edison's own words, "you can sit in your parlor and look at a big screen and see Chauncey Depew come on the stage and bow and smile and take a drink of water and start off with his oration. Every time your eyes see him open his mouth, your ears will hear what he says." The kinetograph is a photographic camera arranged on the principle of the zoetrope. The zoetrope or wheel of life is a card on which are represented the same figure, man or horse as the case may be, in a number of slightly different positions. On the wheel revolving the single figure or figures appear as one making a perfectly natural movement. The revolution of the wheel is too quick for the eye to see each variation in the figure, and consequently a unified picture is the result. The interior of the camera has gelatine strips unrolled from one spindle and rerolled on the other, which in passing are carried before the lens of the camera. It is so arranged that forty-six perfect photographs are taken in the lightning time of one second, the result when reproduced is pure motion.

PERSONAL.

W. L. Fagan is in town.

W. F. King, Ottawa, is in town.

H. Ramsay, New Whatcom, is here.

S. C. Parr, Portland, Oregon, is in the city.

E. A. Wadhams of Ladner's is in town.

John Kirkland is in town from Ladner's.

A. H. Cotton was one of yesterday's visitors from the terminal city.

Miss J. Campbell of Brandon, Manitoba, is staying at the Colonial.

The Island Ferry

The steamer R. P. Rithet yesterday morning brought over from Victoria the following passengers: Mr. and Mrs. Thompson, Mrs. Burr, Miss Manson, Miss Nix, Mr. and Mrs. Moore, T. Hooper, C. Gouldan, J. Harmon, J. Winter, A. Stewart, M. M. English, E. A. Wadhams, J. Rogers, H. A. Hicks, T. Sherman, A. Gardner. The boat brought over 25 tons of freight, and left again in the afternoon with passengers, mails and a heavy load of bran, shorts and flour.

Auction Sale.

I have just received instructions from the Honourable W. Norman Bole, on account of change of residence, to sell by public auction, the whole of his valuable furniture and bric-a-brac. Parties requiring furniture would do well to wait until this sale comes off, full particulars of which will be given in due course. T. J. TRAPP,
Auctioneer.
New Westminster, June 23, 1891.

A Pointer to the Public.

District Lot No. 28 lies immediately adjoining the city limits. The continuation of Mary Street goes directly through it, and the Electric Tramway will in a couple of months be running its cars every hour of the day through the centre of this property. The lot (No. 28) is composed of 128 acres of land as level as a table. Contracts have been let to clear and grub the ground, and leave it in perfect condition for building purposes. Already six citizens have decided to erect handsome residences there, ranging in price from $4,000 to $7,000 each. The whole of this splendid piece of property (except some limited portions already disposed of) will be put on the market in a few weeks. One great advantage in buying a lot and erecting a residence on this property is that the owner will avoid heavy municipal taxation. Make a note of it, and wait till the property is put on the market before buying.
